Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,000 listed on the revised sources and uses document amount to less than 1% of the total fees.

Financing Conclusions: As stated above, the underwriting analysis results in a debt coverage ratio above the Department's maximum guideline of 1.30. The Underwriter recommends an increase in the permanent loan amount to $705,707 based on the terms reflected in the application materials. As a result the development's gap in financing will decrease. The recommended financing structure indicates no need for deferred developer fees.

The Applicant's total development cost estimate less the permanent loan of $705,707 indicates the need for $3,569,293 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $401,128 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($401,128) and eligible basis-derived estimate ($431,413), at the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006, the gap-driven amount of $401,128 is recommended, resulting in proceeds of $3,569,293 based on a syndication rate of 89%. This rate is at the low end of current credit prices. Any increase in the final syndication rate will create an excess of funds, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, and Property Manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- Zimmerman Investments, LLC is the Managing Member and 100% Owner of Zimmerman Properties, LLC. Zimmerman Properties is the Managing Member and 90% Owner of the General Partner. Zimmerman Investments and Zimmerman Properties submitted an unaudited common financial statement as of December 31, 2005 reporting total assets of $19M and consisting of $183K in cash, $8M in receivables, $1M in real property, $4K in machinery, equipment, and fixtures, and $6M in partnership interests. Liabilities totaled $10M, resulting in net assets of $9M.
- O'Brien Companies, LLC, the 10% owner of the General Partner, submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $31K and consisting of $1K in cash and $30K in other current assets. Liabilities totaled $15K, resulting in net assets of $16K.
- Wilhoit Properties, Inc., the Property Manager, submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $4M and consisting of $399K in cash, $1.7M in receivables, $108K in fixed assets, and $1.8M in business interests. Liabilities totaled $2.2M, resulting in net assets of $1.8M.
- The principal(s) of the Members of the General Partner, Vaughn and Rebecca Zimmerman, Justin and Leah Zimmerman, and Kelly Holden, submitted unaudited financial statements as of December 31, 2005.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's estimated income, operating expenses, and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.
- The significant financing structure changes being proposed have not been reviewed by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

Housing Tax Credit (Annual)	$396,725			**$396,725 ***		

* The original tax credit award amount was $396,725.

RECOMMENDATION

Staff has evaluated the financial viability of the requested amendment. Based on the information provided, the transaction does not currently meet the Department's 2008 Real Estate Analysis Rules and Guidelines. However, the requested amendment does not have an effect on the financial viability of the development; therefore, the Underwriter recommends approval of the requested amendment. The development has satisfied all previous conditions and has completed the cost certification process. IRS Forms 8609 for the amount reflected above have been issued as of 9/8/2008.

ADDENDUM

Chisholm Trail Apartments is an intergenerational development that was originally underwritten and approved during the 2006 9% cycle and received a tax credit allocation of $396,725 subject to conditions. The application proposed the new construction of a total of 44 units, 12 of which would be designated for senior tenants only. The Owner submitted the final cost certification documentation to the Department on May 27, 2008 and staff completed review of the documentation and issued IRS Forms 8609 to this development on September 8, 2008. Subsequent to issuance of Forms 8609 the Owner, in a letter to the Department dated September 15, 2008, has requested to amend the application to allow the development to target all of its units to families and to amend its LURA to release the 12 units that are currently restricted to seniors. The Owner's letter states that despite extensive marketing efforts the development has been unable to lease the senior designated units due to market conditions in the area for senior units.
The owner provided a rent roll dated 9/26/2008 reflecting that 68% of the development was occupied at that time. Of the 14 vacancies at the development, all twelve of the senior units were vacant.

This addendum addresses the impact the Owner's requested change has on the financial viability of this transaction. The information presented in this addendum has been provided by the Owner via the subject amendment request and the documentation contained in the final cost certification submitted to the Department.

OPERATING PROFORMA ANALYSIS

Income:

The Owner's rent schedule and rent roll (as of 9/26/08) reflect that the property is currently collecting the maximum tax credit rents at the property. The Owner's secondary income and vacancy and collection loss estimates are within current underwriting guidelines. Overall ,the Owner's effective gross income is within 5% of the Underwriter's estimate.

Expense:

The Owner's operating expenses of $3,850/unit are 1% lower than the Underwriter's current estimate of $3,898/unit derived from the TDHCA database and IREM. The Owner provided actual year to date operating statements ending September 2008. However, since the last building was placed in service in January 2008 and the property is still in lease up, the Underwriter did not rely heavily upon these expenses because they may not reflect the true operations of the property at this time.

Conclusion:

While the Owner's income and operating expenses are each within 5% of the Underwriter's estimate, the Owner's NOI is not within 5%. Therefore, the Underwriter's proforma will be used to determine the development's debt service capacity. The permanent financing structure reflected in the cost certification results in a DCR that falls within the Department's current guidelines of 1.15 to 1.35.

Of note, the Applicant's and Underwriter's expense to income ratios (73.55% and 75.45%, respectively) are above the current TDHCA guideline of 65%. However, this was not an underwriting requirement during the 2006 application round, therefore, the development will not be subject to this feasibility criteria at this time.

Feasibility:

Based on the Department's 2008 Real Estate Analysis Rules and Guidelines, the development is considered infeasible because the expense to income ratio is above 65%. The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio of 1.19.

CONSTRUCTION COST ESTIMATE EVALUATION

Conclusion:

Based on the final cost certification for the development, the Owner's total development costs increased by $91K or 2% from the costs estimated at application. The Underwriter re-evaluated the development as built and updated the construction cost estimate using current Marshal and Swift *Residential Cost Handbook* costs. The Underwriter's current construction cost estimate is within 5% of the Owner's actual construction costs as certified by the Owner's CPA.

FINANCING STRUCTURE

Source: Great Southern Bank   Type: **Permanent Financing**

Principal: $535,000   Interest Rate: 7.95%   ☒ Fixed   Amort: 360 months

Comments:

At the time the cost certification was submitted and reviewed, the loan had not yet converted to the permanent phase. The Owner indicated that conversion was expected either by December 2008 or early January 2009.

Source: Centerline   Type: **Syndication**

Proceeds: $3,769,000   Syndication Rate: 95%   Anticipated HTC: $ 396,725

Comments:

The final Limited Partnership agreement reflects total capital contributions of $3,769,000 based on expected annual credits of $396,725 and a syndication rate of 95%. The final syndication rate is higher than the 89% rate estimated at application.

CONCLUSIONS

Recommended Financing Structure:

As stated above, the proforma analysis results in a debt coverage ratio that falls within the Department's guidelines. The Owner's final total development cost less the anticipated permanent loan of $535,000 indicates the need for $3,816,673 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $401,663 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, previously approved tax credit amount ($396,725), the gap-driven amount ($401,663), and eligible basis-derived estimate ($422,813), the previously approved amount of $396,725 is recommended resulting in proceeds of $3,769,751 based on a syndication rate of 95%.

The Underwriter's recommended financing structure indicates the need for $46,922 in additional permanent funds. Deferred developer fees in this amount appear to be repayable between Years 5-10.

HTC	$413,008	N/A	N/A	N/A

Proposed Use of Funds: New construction **Type:** Multifamily

Target Population: Intergenerational Housing **Other:** Rural

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $396,725[1] ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance before commencement of construction of a flood hazard mitigation plan to include, at a minimum, certification by a qualified architect or engineer that the construction plans are in accordance with TDHCA guidelines (“must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements”), and consideration and documentation of building flood insurance and tenant flood insurance costs.
2. Receipt, review, and acceptance before commencement of construction of evidence that the origins and uses of the unknown pipes in the ground have been investigated, and any environmental conditions have been evaluated and addressed appropriately.
3. Receipt, review, and acceptance of a revised commitment for $730,000 in interim to permanent funding.
4. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive multifamily buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 100% cement fiber. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data

---

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

service, and one for TV service. In addition, each unit will include: a microwave, an ice maker in the refrigerator, a self-cleaning oven, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit, an individual water heater, and eight-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for a total of 41 or more units, the Applicant has elected to provide an accessible walking path, a barbecue grill and picnic table, public telephone(s) available to tenants 24 hours a day, and two tot lot playgrounds equipped for young children.

In accordance with the criteria for an intergenerational development, the age restricted units will be in a separate elevator-equipped building, with a dedicated leasing office and leasing personnel. There will be separate entrances, card key access, and other appropriate security measures for the age restricted building. Shared social service programs will be provided that encourage intergenerational activities but also provide separate amenities for each age group. The staff will include an intergenerational coordinator experienced in effectively facilitating intergenerational activities.

Uncovered Parking: 83 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Campus View Apartments is a 13-unit per acre new construction development located in Vernon, Texas. The development is comprised of 2 garden style residential buildings and a separate elevator-equipped senior residential building as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
2	2	0	8	8
1	2	6	6	0

The development includes a 1,532-square foot community buildings and a separate 795-square foot office and lobby area contained within the senior building dedicated to the administration of the age-restricted units.

SITE ISSUES

SITE DESCRIPTION

Total Size:	3.5 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone AE	**Within 100-year floodplain?**	☒ Yes ☐ No
Current Zoning:	General Residential	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: Southeast corner of intersection of College Drive and Stadium Drive, in Vernon, Texas.

Adjacent Land Uses:

- **North:** College Drive immediately adjacent and Vernon College beyond;
- **South:** Kelly Street immediately adjacent and residential housing and Wilbarger Street beyond;
- **East:** undeveloped land immediately adjacent, and Merrill Gardens Retirement Center and Wilbarger General Hospital beyond; and
- **West:** Stadium Drive immediately adjacent and a Seventh Day Adventist Church beyond.

Site Access: The site is accessed on the north from College Drive (US 70), and on the south from Kelly Street. US 70 is a major artery through Vernon. Another major artery is State HWY 287, which splits off from US 70 approximately 0.5 mile to the northeast.

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: Grocery stores, convenience stores, a pharmacy, a bank, retail shops, and restaurants are all located within one mile. It is 0.3 mile to Wilbarger General Hospital, 0.6 mile to the nearest fire station, and 2.0 miles to the police station. Schools from elementary through college are all located within 2 miles.

Adverse Site Characteristics:

Floodplain: The Environmental Site Assessment states that “The property is located in an area of the 100 and 500-year flood plains." (p. 3) According to the 2006 QAP, "Any Development proposing New Construction located within the 100 year floodplain as identified by the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements." Receipt, review, and acceptance before commencement of construction of a flood hazard mitigation plan to include, at a minimum, certification by a qualified architect or engineer that the construction plans are in accordance with TDHCA guidelines, and consideration and documentation of building flood insurance and tenant flood insurance costs, prior to the initial closing on the property, is a condition of this report.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 05/09/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 24, 2006 was prepared by Kaw Valley Engineering, Inc. and supplemented by a letter dated July 3, 2006. The analyst reported the following findings and recommendations:

Findings:

- **Noise: "**A noise study is not recommended for this site as there is no significant proximity to anticipated sources of excessive noise." (p. 6)
- **Floodplain:** "The property is located in an area of the 100 and 500-year flood plains." (p. 3) (See Adverse Site Characteristics above.)
- **Asbestos-Containing Materials (ACM):** "Since there were not any buildings present on the subject (property), asbestos containing materials and lead based paint are not anticipated to be a concern." (letter 7/3/06)
- **Lead-Based Paint (LBP):** "Since there were not any buildings present on the subject (property), asbestos containing materials and lead based paint are not anticipated to be a concern." (letter 7/3/06)
- **Lead in Drinking Water:** "The level of lead found in the drinking water as reported by (the City of Vernon) in their 2004 Annual Drinking Water Quality Report was within the established standards." (letter 7/3/06)
- **Radon:** "United States Environmental Protection Agency regulations addressing radon have set an exposure limit of 4.0 picoCuries per liter (pCi/L) of air. The Texas Department of State Health Services has conducted radon surveys, which were reviewed to determine the levels of radon in the area of the subject property. According to the information provided, radon levels in Wilbarger County fall into Zone 3, which are low potential with levels typically less than 2 pCi/L." (p. 3)
- **Other: "**Aerial photographic review and a site reconnaissance performed indicated that the property has historically been undeveloped with the exception of two pipes coming out of the ground. The pipe's origins and prior uses are unknown." (p. 1) "There are two pipes … along the south boundary of the property, with one each in the southwest and southeast corners of the property, and a third pipe located on the property to the east. All of the pipes appeared to be hollow and not filled with anything. The pipe in the southwest corner of the property was covered with a combination of soil, vegetation, and a few other materials used for fill." (p.5)
- **Recognized Environmental Concerns (RECs):** "With the exception of the unknown origin of the three pipes sticking out of the ground, and potential floodplain issues, the Phase I ESA has not disclosed evidence indicating the site to have recognized environmental conditions which would preclude the further development of the property." (p. 1)

Recommendations: "Further determination of the pipe origins and use, and appropriate environmental evaluation, is recommended." (p.1)

Receipt, review, and acceptance before commencement of construction of evidence that the origins and uses of the unknown pipes in the ground have been investigated, and any environmental conditions have been evaluated and addressed appropriately, is a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Forty-three of the units (98% of the total) will be reserved for low-income tenants. Five of the units (11%) will be reserved for households earning 30% or less of AMGI, 38 units (86%) will be reserved for households earning 60% or less of AMGI, and the one remaining unit will be offered to an employee at the 60% of AMGI rent.

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$19,140	$21,840	$24,600	$27,300	$29,460	$31,680

MARKET HIGHLIGHTS

A market feasibility study dated March 27, 2006 was prepared by Apartment MarketData, LLC (“Market Analyst”), and supplemented by a letter dated July 11, 2006. The Market Analyst reported the following findings:

Secondary Market Information: The Market Analyst did not specifically define a Secondary Market Area. “At the same time the Trade Area is not exclusionary and residents will be drawn from outside the Primary Market Area. This is especially true of projects that include elderly units, as seniors who move into elderly projects are often selling their single-family home and relocating closer to family and friends or closer to conveniences and services. The subject will also draw some residents from nearby Oklahoma.” (p. 35)

Definition of Primary Market Area (PMA): The boundaries of the Primary Market Area are as follows:

- North: Red River / Oklahoma State Line
- East: Wilbarger / Wichita County Line
- South: Wilbarger / Archer County Line
- West: SH 6

This area encompasses approximately 1,478 square miles (p. 34) and is equivalent to a circle with a radius of 22 miles. A primary market area of this size is not unusual for a rural development; this area is somewhat larger than average since it contains more than one county.

Population: The estimated 2005 population of the PMA was 18,728 and is expected to decrease by 6% to approximately 17,617 by 2010. Within the primary market area there were estimated to be 7,485 total households and 3,419 elderly households in 2005.

Primary Market Occupancy Rates: “The competitive sub-market supply and demand analysis conducted by Apartment MarketData Research Services included 142 existing income restricted units and 200 conventional units within the Primary Trade Area. The report reflected strong overall occupancy in all unit types … The occupancy rate for income restricted one bedrooms is 89.0%, income restricted two bedrooms are 95.8%, (and) income restricted three bedroom units are 100% … The occupancy rate for the market rate one bedroom units is 96.9%, market rate two bedroom units are 92.0% occupied, (and) three bedroom market rate units are 87.5% occupied.” (p. 106)

Absorption Projections: “We estimate that the project would achieve a lease rate of approximately 7% to 10% of its units per month as they come on line for occupancy from construction.” (p. 95)

Unstabilized, Under Construction, and Planned Development: “Red River Senior is the most recently completed LIHTC project in the Primary Market Area. This project, consisting of 60 elderly units, was completed in 2005 and is presently 96.7% occupied, with only two vacancies.” (p. 95)

Market Impact: “The subject should not have a detrimental effect on any existing affordable projects, as occupancies are strong at quality affordable projects in the area." (p. 96)

Market Rent Comparables: The Market Analyst surveyed two comparable market rate apartment projects totaling 200 units and three income restricted properties totaling 142 units. The equivalent adjusted market rates for the subject units determined by the Analyst are $445 and $525 for the family two- and three-bedroom units, and $390 and $450 for the senior one- and two-bedroom units. "Although some of the proposed rents are below the program rents, we believe that they are appropriate for the subject based on the rents charged by existing LIHTC properties." (p. 108) The Underwriter requested the Analyst reexamine the analysis taking into consideration the facts that a) a recent LIHTC project, Red River Senior Village, is known to be achieving at or very close to program rents, and b) the other two income restricted comparables are actually USDA projects, with very different criteria which result in reduced rents. The Analyst responded "Since there are very few truly comparable projects … determining the future rent potential … is extremely challenging. The methodology that we utilized … uses … worksheet HUD 92273-S8. This methodology takes into consideration the most comparable market rate projects available in the market, and makes certain adjustments based on a number of factors such as age, amenities, quality, location, and so on. We also reviewed, analyzed, and took into consideration, the rental rates of existing income-restricted units in the market …Based on the different methodology discussed in your letter, we agree that yes, there is a possibility that (this) project could achieve the maximum, or close to the maximum, 30% and 60% LIHTC rents." (letter 7/11/06)

Family Market Demand: To determine the demand for the family units in the proposed development, the Market Analyst utilized a target household adjustment rate of 100% and a household size-appropriate adjustment rate of 67%. (p. 55) The Analyst used reduced rent amounts originally submitted by the Applicant. Based on a 30% of AMGI two bedroom rent of $290 and a 35% rent burden per household, the Analyst calculated a minimum income of $9,943 for the 30% units. Assuming 1.5 persons per bedroom (rounded up), the maximum household income for the 30% units is the 5-person income of $14,750. Similar calculations for the 60% units, based on a two-bedroom rent of $525, indicates an income band of $18,000 to $29,460. (p. 47) From these bands the Analyst determined an income eligible adjustment rate of 20%. (p. 53) The tenure appropriate adjustment rate of 49% is specific to the income-eligible population. (p. 53) The Market Analyst indicates a turnover rate of 65% applies based on IREM. (p. 55)

The Applicant subsequently revised the proposed rents to the maximum HTC program rents. The Underwriter therefore applied these rents, and determined income bands of $10,526 to $14,750 for the 30% units and $21,086 to $29,460 for the 60% units. The Underwriter calculated an income-eligible adjustment rate of 23. The tenure appropriate adjustment rate of 39% is specific to the income-eligible population.

MARKET DEMAND SUMMARY

Type of Demand	Market Analyst		Underwriter	
	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	-2	0%	-4	0%
Resident Turnover	664	100%	297	100%
TOTAL DEMAND	**662**	**100%**	**293**	**100%**

p. 57

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 5% based upon 662 units of demand and 32 unstabilized affordable housing units in the PMA (including only the subject). (p. 58) Based on significantly smaller income bands, the Underwriter calculated an inclusive capture rate of 11% based upon a supply of 32 unstabilized units divided by a revised demand estimate of 293 affordable units. Current TDHCA guidelines allow inclusive capture rates as high as 100% for rural developments.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed***	**Program Max**	**Differential**	**Est. Market****	**Differential**
2-Bedroom (30%)	$217	$218	-$1	$445	-$228
2-Bedroom (60%)	$525	$526	-$1	$445	$80
3-Bedroom (30%)	$235	$235	$0	$525	-$290
3-Bedroom (60%)	$589	$589	$0	$525	$64

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

*these are revised rents submitted on amended rent schedule 7/14/06

**see the discussion regarding market rent conclusions in the Market Rent Comparables section above

Senior Market Demand: To determine the demand for the senior units in the proposed development, the Market Analyst utilized a target household adjustment rate of 46% (p. 46) and a household size-appropriate adjustment rate of 100% since “with senior households, it is likely that most all of the households will be comprised of one or two persons.” (p. 56) The Analyst used reduced rent amounts originally submitted by the Applicant. Based on a 30% of AMGI one bedroom rent of $233 and a 40% rent burden per senior household, the Analyst calculated a minimum income of $6,990 for the 30% units. Assuming 1.5 persons per bedroom (rounded up), the maximum household income for the 30% one bedroom units is the 2-person income of $10,900. Similar calculations for the 60% units indicate a minimum income of 12,990 based on a one-bedroom rent of $433 and a maximum income of $27,300 based on 4-person occupancy of the two-bedroom senior unit. (p. 49) From these bands the Analyst determined an income-eligible adjustment rate of 20%. (p. 53) The tenure appropriate adjustment rate of 49% is specific to the income-eligible population. (p. 53) The Market Analyst indicates a turnover rate of 65% applies based on IREM. (p. 55)

The Applicant subsequently revised the proposed rents to the maximum HTC program rents. The Underwriter therefore applied these rents, and determined income bands of $7,650 to $10,900 for the 30% units and $15,360 to $24,600 for the 60% units, based on 3-person occupancy of the two-bedroom senior unit. The Underwriter calculated an income-eligible adjustment rate of 23%. The tenure-appropriate adjustment rate of 39% is specific to the income-eligible population.

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	-1	0%	-1	0%
Resident Turnover	149	100%	102	100%
TOTAL DEMAND	**148**	**100%**	**101**	**100%**

p. 57

Inclusive Capture Rate: For the senior units, the Market Analyst calculated an inclusive capture rate of 49% based on a supply of 72 unstabilized affordable senior housing units in the PMA and demand for 148 units. (p. 59) (While Red River Senior Village reports 96.7% occupancy, it has been open less than one year, therefore its 60 units are included as unstabilized). The Underwriter calculated an inclusive capture rate of 72% based on a supply of 72 unstabilized units divided by a revised demand estimate for 101 affordable units. Current TDHCA guidelines allow an inclusive capture rate as high as 100% for rural developments as well as those targeting the elderly.

SENIOR UNIT RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed***	**Program Max**	**Differential**	**Est. Market****	**Differential**
1-Bedroom (30%)	$202	$202	$0	$390	-$188
1-Bedroom (60%)	$459	$459	$0	$390	$69
2-Bedroom (60%)	$525	$526	$0	$450	$75

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

*these are revised rents submitted on amended rent schedule 7/14/06

**see the discussion regarding market rent conclusions in the Market Rent Comparables section above

Unit Mix Conclusion: "The subject project consists of 13.6% one bedroom units, 50.0% two bedroom units, and 36.4% three bedroom units. By comparison, family projects in the trade area offer 42.7% one bedrooms, 46.8% two bedrooms, 9.9% three bedroom units, and 0.6% four bedroom units … The subject project is designed to meet the needs of both families and seniors. As such, its unit mix has a higher percentage of two and three bedroom units. It is our opinion, given current occupancies and the forecasted household growth, that the subject mix, for all purposes, will meet the needs of lower and median income families and seniors within the sub-market." (p. 103)

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's projected rents collected per unit were calculated by subtracting tenant-paid utility allowances as of 12/07/2005, maintained by the City of Vernon, from the 2006 program gross rent limits. (The Applicant originally proposed reduced rents, but subsequently submitted a revised rent schedule on 7/14/2006 based on 2006 program gross rents.) Tenants will be required to pay electric costs only.

The Applicant projected secondary income of $6 per unit per month from vending, laundry, and forfeited deposits. The Applicant's estimate of vacancy and collection losses is consistent with TDHCA guidelines. The Applicant's estimated Effective Gross Income of $248,760 is within 5% of the Underwriter's estimate of $249,034.

Expenses: The Applicant's Total Annual Operating Expense projection of $3,750 per unit is within 5% of the Underwriter's estimate of $3,793, derived from the TDHCA database and third-party data sources. Several of the Applicant's individual expense line items differ significantly from TDHCA expected values: Payroll & Payroll Tax ($17K higher), Repairs & Maintenance ($15K lower), Utilities ($5K lower), Property Insurance ($4K lower), and Property Tax ($7K higher).

Conclusion: The Applicant's Effective Gross Income, Total Annual Operating Expenses, and Net Operating Income (NOI) are each within 5% of the Underwriter's estimates. Therefore, the Applicant's NOI will be used to determine debt capacity.

The Applicant's NOI and revised debt service result in a debt coverage ratio (DCR) equal to the current underwriting maximum guideline of 1.30. Therefore, the Applicant's proposed financing structure will be recommended. This is discussed in more detail in the conclusion to the "Financing Structure Analysis" section (below).

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in continued positive cashflow and a debt coverage ratio that remains above 1.10. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 14 acres	$28,000	**Assessment for the Year of:**	2005
Land: per acre	$2,000	**Valuation by:**	Wilbarger County Appraisal District
Total Value (3.5 acres):	$7,000 (prorated)	**Tax Rate:**	0.0066233

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control: Commercial and Industrial Real Estate Sale Contract (3.50 (+/-) acres)

Contract Expiration: 08/01/2006 **Valid through Board Date?** ☒ Yes ☐ No

Acquisition Cost: $75,000 **Other:**

Seller: Michael Joe May **Related to Development Team?** ☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

The Applicant submitted a revised Development Cost Schedule on 7/14/2006. This evaluation addresses those revised costs.

Acquisition Value: The site cost of $21K per acre is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $7,159 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is consistent with the Underwriter's estimate derived from the Marshall & Swift *Residential Cost Handbook.*

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. The calculated eligible basis of $3,923,250 is increased by 30% to $5,100,225 because the subject site is located in a Qualified Census Tract. This adjusted basis and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $431,479. This figure will be compared to the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

FINANCING STRUCTURE ANALYSIS

Interim Financing: Nortex Housing Finance Corporation will provide $155,000 in interim financing. Nortex is a public non-profit corporation created to carry out the purposes of the Texas Housing Finance Corporations Act, which purposes include the issuance of obligations for, or the participation in the financing of, single-family and multi-family housing projects. This is expected to be a 12 month interest only balloon note floating at the prime rate.

Great Southern Bank will provide $86,000 in interim financing in the form of a 12 month interest only balloon note floating at the prime rate.

Interim to Permanent Financing: CharterMac Capital provided a conditional commitment to provide $620,000 in interim to permanent financing. The interim construction period will be up to 24 months with interest only payments at a fixed rate of 7.0%. The permanent loan will be at a fixed rate of 8.0% fully amortizing over 30 years. The Applicant submitted a revised financing structure on 7/14/06 indicating an increase in this interim to permanent funding to $730,000, but not a new commitment, though it appears to be achievable. Revised commitment documents reflecting the increased debt will be a condition of this report.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. The application indicated expected syndication proceeds of $3,675,000. The revised financing structure submitted on 7/14/06 indicates syndication proceeds reduced to $3,528,000. The syndication rate proposed in the commitment is at the low end of current credit prices. Any increase in the final syndication rate would create an excess of funds, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $5,000 amount to 1% of the total fees. The revised financing structure submitted on 7/14/06 indicates a reduction in the proposed deferred developer's fee to $2,000.

Financing Conclusions: The Applicant's total development cost estimate less the permanent loan of $730,000 indicates the need for $3,530,000 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $396,725 annually would be required to fill this gap in financing. Of the two possible tax credit allocations, the gap-driven amount ($396,725), and eligible basis-derived estimate ($431,479), at the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006, the gap-driven amount of $396,725 is recommended resulting in proceeds of $3,530,000 based on a syndication rate of 89%.

This rate is at the low end of current credit prices. Any increase in the final syndication rate will create an excess of funds, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

- The Applicant, Developer, General Contractor, and Property Manager are related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- Zimmerman Investments, LLC is the Managing Member and 100% Owner of Zimmerman Properties, LLC. Zimmerman Properties is the Managing Member and 90% Owner of the General Partner. Zimmerman Investments and Zimmerman Properties submitted an unaudited common financial statement as of December 31, 2005 reporting total assets of $19M and consisting of $183K in cash, $8M in receivables, $1M in real property, $4K in machinery, equipment, and fixtures, and $6M in partnership interests. Liabilities totaled $10M, resulting in net assets of $9M.
- O'Brien Companies, LLC, the 10% owner of the General Partner, submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $31K and consisting of $1K in cash and $30K in other current assets. Liabilities totaled $15K, resulting in net assets of $16K.
- Wilhoit Properties, Inc., the Property Manager, submitted an unaudited financial statement as of December 31, 2005 reporting total assets of $4M and consisting of $399K in cash, $1.7M in receivables, $108K in fixed assets, and $1.8M in business interests. Liabilities totaled $2.2M, resulting in net assets of $1.8M.
- The principal(s) of the Members of the General Partner, Vaughn and Rebecca Zimmerman, Justin and Leah Zimmerman, and Kelly Holden, submitted unaudited financial statements as of December 31, 2005.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The senior portion of the development will need to capture more than 50% of the anticipated demand.
- The significant financing structure changes being proposed have not been reviewed by the lenders and syndicators, and acceptable alternative structures may exist.

03184 - Revised Letter

PEGASUS VILLAS, LTD.
2425 Old Dennis Road
Weatherford, TX 76087
(817) 599-0730

October 13, 2008

Audrey Martin
Senior Cost Certification Specialist
Real Estate Analysis Division
Texas Department of Housing and Community Affairs

RE: Pegasus Villas (TDHCA #03184)

Dear Audrey:

Please accept this letter as our formal request to approve an amendment to our application for tax credits as follows:

- Increase Low Income (LI) 60% AMI units by five and decrease Market (Mkt) units by five
- Decrease the number of parking spaces from 316 to 294

Additionally, we respectfully request that you accept the methodology pertaining to calculation of unit square footages (sf) from Mkt at application to HUD at Cost Certification and confirm that no amendment or board approval is necessary.

In connection with this request we are providing backup documentation and additional information in support of your submission as part of the November Board meeting.

Change in LI Set-Aside

Changing the LI set-asides is necessary in order for us to avoid losing tax credits by reporting a lower AF. We respectfully request amendment to our original application to permit a decrease by 5 in the number of Mkt units and an increase by 5 in the number of 60% AMI set-aside LI units. We also respectfully request confirmation that the change does not create a problem with respect to the points scored under the initial application and subsequent award of tax credits.

The attached Exhibit 11A is updated and revised from the version you received in conjunction with the September Board meeting. It reflects 129 LI tax credit units out of the total 156 units, instead of the originally committed 124 LI units. The unit AF is 82.69% (129/156) and the sf AF is 79.95% (106,343/133,007) based on HUD sf methodology. The change results in a final unit set-aside mix of:

AMI	Units	Change from application
30%	25	
40%	13	
50%	25	
60%	66	+5
Market	27	-5
Total Units	156	

Decrease of Parking Spaces

The architect of record, Humphreys and Partners, certified the final number of parking spaces at 294 while the application called for 316 spaces. This calculates to approximately 1.9 spaces per unit and was approved as built by the City of Dallas.

Net Rentable Area Calculation

As we've discussed, the total net rentable area (NRA) only appeared to decrease by more than 3%. The discrepancy lies in the way the total NRA is calculated. The 142,642 sf noted in the original underwriting analysis and the 143,195.36 sf noted (in blue) on the Project Data Sheet were calculated as total Mkt sf, defined as "air conditioned space including thickness of exterior walls of each unit being measured." Consequently, the differing numbers on the Project Data Sheet (133,035.66 HUD vs. 143,195.36 Mkt) represent the same data but simply using different measuring techniques (HUD vs. Mkt). Ultimately, the total NRA *increased* to 143,195.36 using the Mkt methodology.

As noted in Exhibit 5A the 133,007 sf is calculated using HUD unit sf rounded to the nearest whole number multiplied by the number of units of a given unit type. The Project Data Sheet (Architects Certified copy attached) showed this number (highlighted in red) as 133,035.66 sf. These two numbers represent the same data with and without rounding, respectively.

Regardless of which methodology is reported our goal remains to preserve the maximum feasible low income housing tax credit stream. Our intention was and remains the maintenance of an applicable fraction (AF) of no less than the 80%, consistent with the current LURA (Appendix A). Increasing the number of LI units by 5 is necessary in order to maintain the AF at 80% (at the lower of the unit and sf fractions).

In your e-mail of 9/30/2008 you indicated we are free to use either HUD or Mkt methodologies for purposes of calculating AF. Given the specifics of the unit mix the difference is negligible (79.95% HUD versus 80.03% Mkt). In order to avoid further amending the various supporting exhibits to the Cost Certification we will continue to reflect the HUD sf methodology. You indicate Board approval for the switch from Mkt to HUD is not required and we are relying on your conclusion that changing methodology does not warrant Board review.

03184 - Revised Letter

Thank you again for your assistance. We are available to discuss any questions or comments you may have. My telephone number has changed to 817-599-0730 and my e-mail has changed to shudson@gcm-orc.org.

If you require any further information or have any questions, please feel free to contact both me and Adam Galowitz.

Sincerely,

Suzy Hudson

RE: Request for Initial Application Amendment
TDHCA #03184

Dear Mr. Sheppard:

Let me begin by apologizing to the department for the vast amount of correspondence and alterations to our cost certification submission, and subsequently the LURA and application.

Please accept this letter as our formal request to amend our application for tax credits due to a discrepancy in the final floor plan square footage upon completion of the rehabilitation of Pegasus Villas. The LURA and application on file call for an applicable fraction of 79.49%. Upon completion and review of the final cost certification we found that, using the unit mix promised in the application, the applicable fraction was only 77.47%.

Rather than losing tax credits by lowering our applicable fraction, we respectfully request an amendment to our original application. According to the attached Exhibit 11A out of the final cost certification, we now propose to provide 129 tax credit units out of the total 156 units rather than the originally committed 124. The applicable fraction using these numbers would be 82.69% based on number of units or 79.95% based on square footage (106,343 tax credit footage/133,007 total square footage). A corrected rent roll is also attached for your review.

Please confirm that, by increasing the number of low income units, we will not create a problem with respect to the points scored under the initial application and subsequent award of tax credits.

03184 - Original Letter

Thank you so much for reviewing our request. We sincerely hope this is the last alteration and respectfully request consideration of our application amendment. We are anxious to implement the change as soon as possible and would like to discuss the process and timeframe for obtaining your formal approval to these changes as well as the issuance of the 8609's. If you require any further information, please contact me at (817) 771-9674.

Sincerely,

Suzy Hudson

To: Glenn Lynch **NOTICE OF BOARD DECISION RE: AMENDMENT REQUEST HEARD 3/20/07**

HTC No. 03184, Pegasus Villas

Summary of Request: In a package received on November 11, 2006, owner requested the Board's approval for several items as follow:

(1) The owner requested the Board's acknowledgement and acceptance of the applicant's original intent to indicate that the building would have a secured entry as the feature represented by checking the box for "monitored unit security" in the Specifications and Amenities section of the application. The single residential building that comprises the development has two entry doors that are monitored by management staff during the day and that are only accessible via key code after management hours. The building also has a security feature that was not proposed in the application, a full perimeter security fence with controlled gate access.

(2) Owner requested that a "Community Garden/Walk Trail," as described in the Specifications and Amenities section of the application, be replaced by the substitute feature of an observation deck on the roof. The observation deck was not named as an amenity in the application.

(3) Owner requested that the Board accept the development as built with 316 parking spaces instead of 350 as described in the application. The reduction is approximately 9.7% of the number of spaces originally proposed and leaves the elderly development with a parking ratio that is still slightly more than two spaces per unit. The parking was reduced to allow islands to exist around twelve large oak trees, the feature substituting for the parking spaces. The final number of parking spaces exceeds city code.

Governing Law and Rules:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including a significant modification of the site plan, any modification that is considered significant by the board.
Owner:	Pegasus Villas, Ltd.
General Partner:	Pegasus Stemmons Development, Inc.
Principals/Interested Parties:	Operation Relief Center, Inc. (Nonprofit owner of GP)
Syndicator:	Wachovia Securities
Construction Lender:	Western National Bank
Permanent Lender:	Red Mortgage Capital, Inc.
Other Funding:	City of Dallas (forgivable loan)
City/County:	Dallas/Dallas
Set-Aside:	Acquisition/Rehabilitation
Type of Area:	Urban
Type of Development:	Rehabilitation (adaptive reuse of an office building)
Population Served:	Elderly
Units:	124 HTC units and 32 market rate units
2003 Allocation:	$1,153,613
Allocation per HTC Unit:	$9,303
Prior Board Actions:	7/03 – Approved award of tax credits
Underwriting Reevaluation:	The change would not materially affect the underwriting and no change in the amount of the award is recommended.
Staff Recommendation:	**Staff recommends approving the request. The changes would not materially alter the development in a negative manner and would not have adversely affected the selection of the application.**
Penalty Assessment:	**No penalty assessment is recommended because the request was made prior to the December 1, 2006 effective date of the penalty language in the QAP.**

THIS REQUEST WAS APPROVED AT THE BOARD MEETING OF MARCH 20, 2007. THE APPROVAL WILL BE CONFIRMED BY THE MINUTES AS APPROVED AND RECORDED IN A SUBSEQUENT BOARD MEETING. THIS NOTIFICATION MUST BE INCLUDED IN YOUR COST CERTIFICATION.

Re: Mariposa at Hunter Road (TDHCA #04432)

Dear Ms. Meyer:

As counsel for the limited partnership owner (the "**Applicant**") of the above-referenced project (the "**Development**"), we have been asked by Applicant to send this response to the staff recommendation posted in the board book for the September 3 and 4, 2008 meeting of the board of the Texas Department of Housing and Community Affairs ("**TDHCA**"). The Applicant appreciates Mr. Gerber's kind words concerning the Development at the meeting, however, Applicant wishes to clarify any outstanding issues regarding its amendment request. Based on the circumstances of the amendment, as well as our review, TDHCA staff should recommend an approval of the proposed amendment. To do otherwise would constitute a violation of section 50.17(d)(3) of the 2008 Qualified Allocation Plan (the "**QAP**").

1. <u>No Material Alterations in a Negative Manner</u>

Section 50.17(d)(3) provides that "[t]he Board by vote may reject an amendment and, if appropriate, rescind a Commitment Notice or terminate the allocation of Housing Tax Credits ...if the Board determines that the modification proposed in the amendment: (A) would materially alter the Development in a negative manner; or (B) would have adversely affected the selection of the Application in the Application Round. Because the Development is a 4% transaction, clause (B) does not apply. As such, TDHCA staff must show modifications that materially altered the Development in a negative manner in order to have a proper basis for not recommending the amendment to the board. On reviewing the modifications and the circumstances involving their inclusion, the improvements caused by the modifications preclude a finding that the changes materially alter the Development in a negative manner.

2. Positive Modifications

The recommendation issued by TDHCA staff cites changes to the site plan, unit mix, unit number and project amenities. The recommendation states the changes negatively affect future tenants, and continues on to recommend additional amenities to compensate for a purported reduction in square footage of the two bedroom units and a lack of microwaves and self-cleaning ovens in each unit. As bolstered by testimony of TDHCA staff at the September 4 board meeting, the unit size, microwaves and ovens seemed to form the basis for staff's opinion of a negative impact on the future residents. Given Applicant's actual increase in the two bedroom unit size, the lack of authority for inclusion of selection criteria amenities and the more than tenfold increase in additional amenities provided to residents, however, we believe this opinion should be reconsidered.

A. Increase in Two Bedroom Unit Sizes

TDHCA staff asserts that Applicant reduced the square footage of the two bedroom units from 1050 square feet to 999 square feet. A review of Applicant's prior correspondence with TDHCA reflects that the 999 square footage for the two bedroom units actually represents an increase from the size initially represented to TDHCA, and is consistent with further correspondence by Applicant with TDHCA.

The initial plans submitted with the tax credit application show proposed two bedroom units of 946 square feet. Please see attached **Exhibit "A"**. The size for these units was updated via a July 12, 2004 letter from Applicant's consultant to TDHCA. Please see attached **Exhibit "B"**. The letter states at item 4 that the 2/2 units will be increased to a range of between 1000 to 1050 square feet. The 999 square foot unit size is consistent with TDHCA's own underwriting analysis from July 15, 2004, which noted the 1000-1050 footage range. Please see attached **Exhibit "C"**. Finally, please note the attached mail correspondence sent on behalf of Applicant to satisfy the unit size underwriting requirement found in the July 15 underwriting analysis. Please see attached **Exhibit "D"**. The correspondence clearly states the two bedroom unit size at 999 square feet. As such, the 999 square foot unit size is materially consistent with the application, has no material adverse effect on the Development, and reflects an *increase* in the two bedroom unit size from the application.

B. Additional Amenities

The second prong of TDHCA staff's opinion of a negative impact on the Development centers on a lack of microwaves and self-cleaning ovens. At the time of submission of the application, Applicant's consultant (who is no longer a consultant for Applicant) erroneously checked amenities included as 9% selection criteria, and these included the microwaves and self-cleaning ovens. Even if TDHCA holds Applicant to the 9% selection criteria amenities that were included by mistake, the 2004 QAP at section 50.12(b) expressly excludes tax exempt bond projects from the selection criteria rules found in sections 50.9(d)(2) and (g). With these provisions excluded, it is unclear to us on what authority TDHCA staff is holding Applicant to the 9% selection criteria. These criteria are not applicable to a 4% project.

Even if the application of the erroneous selection criteria to Applicant was somehow sanctioned by the QAP, the additional amenities provided by the Applicant at the Development more than compensate for the lack of microwaves and self-cleaning ovens. At the board meeting, Applicant provided a list of amenities that it voluntarily offers over and above the items indicated in its application, and the quantified added value to the residents is an important consideration. The cost of the microwaves and the difference between the ovens installed and self-cleaning ovens totals approximately $28,210. Instead, Applicant has provided at least approximately $718,450 in other, additional amenities:

EXTRA AMENITIES PROVIDED	Extra Amenity Cost
1. **Movie Theater** with upholstered theatre style seating for 26 as well as space for wheelchair access, professionally projected image on 110" screen, theatre décor and complimentary popcorn for Movie Nights and meetings prepared on our old fashioned popcorn machine	$101,250
2. **Card Room** with card/pool tables and Time Warner Cable served color television in attractive armoire	29,500
3. **Morning Room**, for morning coffee and socializing, attractively furnished and enclosed, with complimentary coffee for residents	44,000
4. **Beauty - Barber Salon**	44,000
5. **Antique Rose Garden** with wood bench seating	8,000
6. **Bocce and Horseshoe/Washer Court**	10,000
7. **Community Social Areas** (three) decorated with ample space and seating with card-game tables for gatherings located in secondary buildings around site	3,000
8. **Dog Park** -attractively fenced with bench seating	2,000
9. **Pond, Landscaped for Water Quality** and fenced for safety, with lighted fountain	341,000
10. **Paved and Lighted Concrete Sidewalk Access to Picnic and Grilling Area at Pond**	
11. **Porte Cachere** - covered vehicular entry	105,000
12. **Paved Walking Path** in unobstructed circular design for walking, located in courtyard.	18,000
13. **Peach Orchard** in courtyard	3,000
14. **Fountain** in pool wading area	6,500
15. **Purple Martin Birdhouses** in courtyard - 2	2,500

04432 - New Letter

16. **Performa Weber Grills** (two) in addition to required BBQ grills, soon to be three due to popular use and demand	700
EXTRA AMENITIES TOTAL	**$718,450**

At the September 4 board meeting, TDHCA staff distinguished between common area amenities and unit amenities, although we note that the QAP does not do so, and speaks only of changes that would materially alter *the Development* in a negative manner. We hope that TDHCA staff will agree that provision of more than $700,000 in additional amenities compensates for the loss of $28,210 of microwave ovens. We believe the additional amenities do compensate for the lack of the mistakenly included items, and prevent the changes from materially altering the Development in a negative manner.

3. <u>Staff Inclusion of Cypress Creek at Reed Road Reference</u>

The last item from the initial amendment recommendation meriting clarification by TDHCA staff is its mention of the Cypress Creek at Reed Road transaction. Applicant can think of no relevant reason to include this transaction in the recommendation, except to imply that the retraction of the Development amendment was somehow related to the consideration of the Cypress Creek at Reed Road allocation. As was noted in email correspondence with TDHCA staff, Applicant withdrew the amendment in March 2007 in order for the final inspection of the Development to be completed. Please see attached **Exhibit "E"**. Given Applicant's confusion as to its relevance, we would appreciate staff's deletion of this reference in the revised recommendation.

4. <u>Conclusion</u>

As was stated at the board meeting, the Applicant sincerely regrets that the TDHCA board and staff have had to deal with the issue of an amendment to this Development application, as Applicant has simply been working to provide the best product possible to the residents of the Development. On review of the specific circumstances of the amendment and the staff recommendation, however, we fail to see how the changes involved meet the materially negative alteration required by the QAP for a board denial. We look forward to hearing from you on this issue, and to a speedy resolution of the situation.

Yours truly,

William D. Walter, Jr.

RE: Willow Springs Senior Residences, Tax Exempt Bond Application #04432

Mr. Apple:

Regarding the above-referenced project, please find the enclosed exhibit from the Qualified Application Plan, Part C. Development Cost Schedule of Exhibit 3: Activity Overview. This exhibit has been revised from our original submission to include additional costs which will be incurred due to (i) recent price increases in lumber and metal; and (ii) some design changes we have made since our original submission of the application. Regarding the changes, these are not material changes – they do not change the number of units, unit mix, type of construction, or building design. Instead, they are intended to upgrade the quality of construction, amenities and services in the project. We believe these changes are necessary not only to enhance the quality of living experienced by our residents, but also to maintain long-term competitiveness and sustainability.

Specifically the changes are as follows:

1. Change building elevations to a South Texas Spanish style; exterior materials will be stucco (65% - magna wall, not EFIS), upgrade Eldorado Stone or local natural stone (15%) and hardi-plank (20%), all designed consistent with above referenced style; the exterior colors are to vary according to specific elevation providing non-monolithic look; the roof material will be accented with terra cotta tile in entry areas.

2. Design nine-foot ceilings throughout (no eight foot ceilings) except for selected elevated common areas that will be higher.

3. Add Balconies/Patios to every unit as design permits.

4. Increase area in 2/2 units to 1,000 – 1,050 SF.

5. Add ample pantry closet in every kitchen (vs. a shelf over W/D).

6. Provide for sufficient dining area in the 2/2 to allow for traffic lanes and comfortable living room furniture layout in the living area.

7. Add French doors accessing all balcony/patio doors from units.

04432 - New Letter

8. Use six-over-one paned windows throughout except common area where we will use paned windows up and down. Window frames to be putty color (vs. white).

9. Add ceiling fan with light kits in all living rooms and bedrooms.

10. Specify second accent color on trim in all units;

11. Upgrade floor covering from vinyl tile to non-tear linoleum product in natural stone design.

12. Add chair rail in hallways with different paint colors above and below.

13. Review ALL lighting for aesthetics and energy efficiency. Specifically change all flourescent fixtures to "pillow style" or alternate energy saving fixtures that are aesthetically pleasing.

14. Add designer wall sconce lighting to hallways.

15. Add furniture seating areas and art to all entry areas.

16. Design carpet "entries" to each unit as well as carpet trim enhancements.

17. Redesign the common areas so they are not all congregated together near the entrance and management offices.

18. Enlarge community area, add flooring and fixture enhancements facing the interior.

As documented on the attached exhibit, the additional costs incurred result in an increase of eligible basis to $13,686,373. Consequently, we hereby request additional tax credits, the total revised amount now being $485,866. Please consider this request, and include it in your recommendation to the Board at the July 28, 2004 meeting.

Revised architectural drawings and other application pages will follow under separate cover tomorrow, July 13, 2004. Thanks for your cooperation, and if you have questions or comments regarding this letter or the attachments, please do not hesitate to contact me at the number listed below, or Stuart Shaw at 512-797-9070.

Regards,

Mac Jones
On behalf of Hunter Road Affordable Housing, Ltd.

04432 - New Letter

EXHIBIT C

04432 - New Letter

- 1 building of Type D with 19 one-bedroom/one-bath units, and 30 two-bedroom/two-bath units; and
- 1 building of Type E with 21 one-bedroom/one-bath units, and 8 two-bedroom/two-bath units.

Revised architectural plans submitted to the Department on July 12, 2004 reflect 180 units as compared to the plans provided as part of the application which indicated that there are 182 units in the development. The revised plans do no provide a full unit/square footage breakdown on a building by building basis and the Applicant only incdicated in a later sent with the revised plans that they have increased area in the 2/2 units to 1,000-1,050 SF. The 2/2 units were originally listed at 946 square feet. The architectural plans provided reflect total building square footage which is significantly greater than previously indicated and if all of the 2/2 units are 1,050 square feet and the 1/1 units have not changed size would reflect common areas and corridors square footage representing 34% of the net rentable square footage. This is an exceptionally large percentage even for a senior's development and needs further investigation given the lack of specificity in the revised plans. Receipt, review, and acceptance prior to the issuance of a determination notice of the Architect's revised unit matrix and detailed square footage breakdown typically found on the architectural plans is therefore a condition of this report.

Architectural Review: Each of the units appears well arranged with an adequate amount of space in each of the rooms and work areas.

Supportive Services: The Applicant has indicated that supportive services will include transportation, recreational activities, and health seminars.

Schedule: The Applicant anticipates construction to begin in August of 2004 and to be completed in August of 2005. The development should be placed in service in May of 2005 and substantially leased-up in August of 2006.

SITE ISSUES

SITE DESCRIPTION

Size: 9.057 acres 394,522 square feet **Zoning/ Permitted Uses:** Multifamily

Flood Zone Designation: Zone X **Status of Off-Sites:** Partially Improved

SITE and NEIGHBORHOOD CHARACTERISTICS

Location San Marcos is located in south central Texas, approximately 35 miles south from Austin in Hays County. The site is an irregularly-shaped parcel located in the southwest area of the San Marcos, approximately 2.5 miles from the central business district. The site is situated on the west side of Hunter Road.

Adjacent Land Uses:

- **North:** Doris Miller Junior High School
- **South:** Retail and office center
- **East:** Restaurants, mobile homes, and vacant land across Hunter Road
- **West:** Single family residential

Site Access: The development is to have one main entrance, one from the west from Hunter Road. Access to Interstate Highway 35 is approximately one mile east, which provides connections to all other major roads serving the San Marcos area.

Public Transportation: Public transportation to the area is provided by the San Marcos Transit Authority. The location of the nearest bus stop is approximately 0.9 of a mile from the site.

Shopping & Services: The site is approximately within two miles of major grocery stores, pharmacies, shopping centers, libraries, post offices, restaurants, schools, and health care facilities.

Site Inspection Findings: TDHCA staff performed a site inspection on March 29, 2004 and found the location to be acceptable for the proposed development.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated April 7, 2004, 2003 and prepared by HBC/Terracon did not identify any recognized environmental conditions. The environmental professional identified a water

Ben,

Thank you for getting the gazebo taken care of. That is one less thing to have to worry about.

I did have an opportunity to consult with Jeff Spicer. After a lengthy discussion we thought it would be best to wait until we have the final inspection to take our request to the board. It seems like going to the board once to resolve all issues will save the board some time and keep us from having to go back to them again. I admit that we did not do the best job thinking this through before we submitted the amendment application last fall, but appreciate the guidance you have given us. I know we talked about how the board with a concise plan would be in our best interest whether we are only addressing amenities and/or the unit mix change. We believe that waiting will give us the best opportunity to bring a total package to the board.

We are open for discussion so let us know if you disagree.

Thank you,

Casey

Re: Mariposa at Hunter Road (Development)

Dear Mr. Walter:

The Texas Department of Housing and Community Affairs (the "Department") is in receipt of your letter dated September 19, 2008 concerning the above referenced Development. Below is the staff response to the comments in your letter.

1) **No Material Alterations that Affect the Development in a Negative Manner.** I respectfully disagree with your assessment that reducing the square footage of a unit and not including amenities as proposed does not negatively affect the Development. The majority of the amendments requested do materially alter the Development from what was proposed in the original application which is clearly a violation of §50.9(c) Adherence to Obligations. The Adherence to Obligations was represented in the 2005 Qualified Allocation Plan and Rules (QAP) to be effective December 1, 2006. The first amendment request was dated June 26, 2006.

2) (a) **Positive Modifications: Increase in Two-Bedroom Unit Sizes.** Although the unit floor plans, submitted at the time of application, indicate 946 square feet for the two-bedroom units, the Real Estate Analysis Report (REA) indicates the two-bedroom unit size to be 1050 square feet. In addition, the Development architect certified that the net rentable area (NRA) at the time of application was 151,849 and the NRA at the time of cost certification was 149,613. The certified NRA at the time of application supports the two-bedroom unit size of 1050 square feet and the certified NRA at the time of cost certification supports the unit size of 999. These certifications support the staff's recommendation that the reduced NRA does negatively affect the future tenants of the Development by reducing the NRA of each two-bedroom unit by 51 square feet. Furthermore, on four separate occasions, the applicant's own amendment requests clearly indicate a request to reduce the NRA for the two-bedroom units from 1050 to 999 square feet.

   (b) **Positive Modifications: Additional Amenities.** Staff does agree the Development as built includes several amenities that serve the overall population of the Development. However, the elimination of the microwave ovens and self-cleaning ovens do negatively affect future tenants on an individual basis. Staff understands the "consultant" may have submitted incorrect information or additional information that was not required. However, it is the applicant's responsibility to ensure the application materials submitted and the information approved by the Board is accurate.

3) **Staff Inclusion of Cypress Creek at Reed Road.** Staff included the reference to the first amendment request as well as the reference to the approval of Cypress Creek at Reed Road to alert the Board to the ability of the applicant to resolve these issues prior to the effective date of the Adherence to Obligations rule and the possibility of the applicant to be penalized should the applicant have resolved these amendment requests during the application cycle in 2007. The facts were stated to the Board. The following is a timeline of events for the amendments requested:

12/01/06 Effective date of §50.9(c) (Adherence to Obligations) in the 2006 QAP.

03/27/06 Date certified by Bonner-Carrington (signed by Stuart Shaw) in the cost certification as the date that the development was 100% complete. This date created a deadline of 1/15/07 to either submit the cost certification or a request for an extension of the deadline.

06/26/06 Date on letter from Bonner-Carrington (signed by Stuart Shaw) requesting an amendment. One item of the letter stated, "The reconfiguration of the site plan caused a slight change [in] the size of the units . . . the two-bedroom unit decreased in size from 1050 sq. ft. to 999 sq. ft."

07/27/06 Date on letter from Bonner-Carrington (signed by Stuart Shaw) requesting an amendment. One item of the letter stated, "In addition to the minimal change in unit mix the size of the units changed slightly as well . . . the two-bedroom unit decreased in size from 1050 sq. ft. to 999 sq. ft."

04/03/07 Date on the Construction Progress Report - Final Inspection Notification form sent to the Department's Portfolio Management and Compliance Division by Bonner-Carrington, stating that the development was 100% complete by 3/31/07.

04/11/07 Date of the Department's final inspection, made in response to the owner's report that the development was complete.

04/13/07 Date of the Department's letter to the owner reporting the deficiencies found during the Department's inspection.

04/19/07 Effective date of a request to extend the cost certification deadline (requested three months after the deadline to submit). A letter dated 4/2/07 requested an extension but the effective date of the request was established by receipt of the $2,500 extension request fee on 4/19/07.

7/31/07 Date of e-mail message from the Department (Ben Sheppard) to Bonner-Carrington (Stuart Shaw) noting that the amendment request was received by the Department on 6/26/06 or earlier and had lain idle for an extended period. The message also noted that the cost certification was late and requested completion of the cost certification and the amendment request.

9/10/07 Date on letter from Bonner-Carrington (signed by Stuart Shaw) requesting an amendment. One item of the letter stated, "In addition to the minimal change in unit mix the size of the units changed slightly as well . . . the two-bedroom unit decreased in size from 1050 sq. ft. to 999 sq. ft."

02/06/08 Date on letter from Bonner-Carrington (signed by Stuart Shaw) requesting an amendment. One item of the letter stated, "According to the TDHCA Underwriting Report . . . the two-bedroom unit decreased in size from 1050 sq. ft. to 999 sq. ft."

04432 - Response to Owner's Attorney

02/07/08 Date of e-mail message from Bonner-Carrington (Casey Bump) stating, "...a check will go out on the February 15th check run." The message string indicated that Mr. Bump was responding to the Department staff's (Ben Sheppard) message that, "In the late summer or fall of 2007, we prepared a board write-up that, at your request, was never presented . . . . Because the amendment request was withdrawn from progress at your request, you must pay the $2,500 fee again.

02/12/08 Date of e-mail message from Bonner-Carrington (Casey Bump) responding to several questions in an e-mail from the Department (Ben Sheppard). The response included a statement that the property only contained eight units without balconies.

03/31/08 Cost certification was submitted. The development architect certified that the net rentable area (NRA) in the application was 151,849 square feet. This certification supports the two-bedroom sizes of 1050 square feet.

08/07/08 Date of e-mail message informing Bonner-Carrington (Casey Bump) that the amendment requests for Cypress Creek and Mariposa at Hunter's Chase must be completed by the following Tuesday, August 12. The message was written in reference to taking the two amendments to the board on September 4.

Although staff understands your belief that the modifications were made in an effort to improve the Development overall, staff must follow the rules set forth by the Department's Board. The Board specifically created the Adherence to Obligations rule to discourage major modifications to Developments after the award of an allocation without approval from the Department before the modifications are implemented. In conclusion, the staff recommendation remains a "do not recommend" as previously stated in the September 4, 2008 Board materials because the part of the amendment request does negatively impact the development and the amendment request was requested after the implementation on the modifications.

If you have any questions, please do not hesitate to contact me at (512) 475-2213 or at email address robbye.meyer@tdhca.state.tx.us .

Sincerely,

Robbye Meyer
Director of Multifamily Finance

Re: Mariposa Apartment Homes at Hunter Road (fka Willow Springs) – TDHCA #04432 – Application Amendment Request

Dear Ms. Meyer,

I am sending you this application amendment request resulting from the Final Inspection for Mariposa Apartment Home at Hunter Road (MHR) conducted on April 13, 2007 at the request of Hunter Road Affordable Housing, Ltd. (the "Owner"). A copy of the current status of all items remaining on the final inspection deficiency list is attached (see letter to Gavin Reid dated August 27, 2007).

The final inspection noted a change in the unit mix and unit sizes presented in the 4% LIHTC application. The unit mix provided in the finished product for MHR yielded 113 one-bedroom units and 69 two-bedroom units versus 111 one-bedroom units and 69 two-bedroom units presented in the 4% LIHTC application. The MHR site plan was reconfigured to make the property more appealing to the tenants and consequently allowed MHR to provide two more affordable units. The applicant requests two one-bedroom units be designated as "management units".

The reconfiguration of the site plan caused a sight change the size of the units. According to the TDHCA Underwriting Report the one bedroom increased in size from 709 sq. ft. to 714 sq. ft. and the two-bedroom unit decreased in size from 1050 sq. ft. to 999 sq. ft. The resulting change in the net rentable square footage is less than one percent that does not trigger a material change with the TDHCA.

<Remainder of Page Intentionally Left Blank>

04432 - Original Letter

Hunter Road Affordable Housing, Ltd.
PO Box 2217
Austin, Texas 78768

Application						Proposed					
Target	Units	BR	BA	Net Rent Sq. Ft.	Total Sq.Ft.	Units	BR	BA	Net Rent Sq. Ft.	Total Sq.Ft.	Change in Unit Count
60%	111	1	1	709	78,699	113**	1	1	714	81,396	+2
60%	69	2	2	1,050	72,450	69	2	2	999	67,932	0
Total						**Two Management Units					+2
Total	**180**				**151,149**	**182**				**149,613**	**<1% Reduction**

MHR does not see a negative impact to the residents as a result of the change in unit sizes or unit mix and believes there is great benefit to residents because of the improved site plan along with the amenity package that was installed at MHR. Please find attached copies of the MHR site current site plan along with current unit plans for your review.

The final construction inspection also noted that MHR did not install microwave ovens, self-cleaning or continuous cleaning ovens, two fireplaces nor the 180 uncovered parking spaces detailed in the 4% LIHTC application. The microwave ovens and self-cleaning ovens were selected in the Unit Amenities and Quality section in the Development Certification (Tab 4G of the Application) that normally applies to 9% LIHTC applications not to 4% Bond applications. While the Owner should not have completed the Unit Amenities section in the application there are a number of amenities from this section that were installed at MHR even though this section primarily is meant for 9% LIHTC applications. Please see the attached amenities chart for your reference. As you will see, the Owner would have exceeded the possible 12 points if MHR had been submitted under the 9% LIHTC application round. The Owner also went above and beyond the Threshold Requirements by 8 points (also detailed on amenities detail). The final inspection notes that two fireplaces were not installed. The Owner had an application consultant that inadvertently selected two fireplaces and requests that the TDHCA remove this deficiency because of conflicting commitments in the LIHTC application. Finally, the inspection references the number of parking spots on the site. The modification of the site plan caused a reduction in the number of parking spaces on the site. The Owner received approval from the City as evidenced for the total number of parking spots currently installed at MHR as evidenced by the Certificate of Occupancy.

If the TDHCA does not agree with the argument above the Applicant proposes the specific substitutions detailed below:

1) Substitute Microwave Ovens for 30 Year Architectural Roofing

04432 - Original Letter

2) Substitute Self Cleaning or Continuous Cleaing Ovens for R-15 Walls and R-30 Ceilings (Rating of Wall Systems)
3) One fireplace was installed and the second was not installed. The Owner requested the TDHCA remove this deficiency and accept the installation of one fireplace.

MHR requests approval from the TDHCA for amending the LIHTC application to reflect the current unit mix, site plan and amenity improvements detailed in this letter. MHR strives to bring quality affordable housing to the residents of San Marcos and we welcome you to a personal tour of the property at any time. Thank you for your assistance on this matter. Please feel free to contact me or Casey Bump at 512-220-8000 with questions or to set up a personal tour.

Sincerely,

Stuart B. Shaw
Owner's Representative

To: Stuart Shaw **NOTICE OF BOARD DECISION RE: AMENDMENT REQUEST HEARD 9/4/08**

HTC No. 07291, Cypress Creek

Summary of Request: The owner requests approval to change the land area and site plan. The owner stated that the site was found to contain wetlands and wetlands mitigation was required in association with the City of Houston's HOME loan. Therefore, the owner indicated, the wetlands area was not purchased but the same price was paid for the reduced area as reported in the application for the original area. This resolution reduced the land area from 10.286 acres to 9.277 acres, increasing the residential density from 12.8 units per acre (132 units divided by 10.286 acres) to 14.2 units per acre (132 units divided by 9.277 acres). The increase of 1.4 units per acre is an increase of 11.1%, an amount that can be viewed as a material alteration of the development by statute.

The owner states that the reduction in land area made it necessary to reduce the number of residential buildings from fifteen to seven and to revise the site plan appropriately. The non-residential building remains the same as originally proposed. The owner also stated that an exit was added to the rear of the site.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including a modification of the residential density of the development of at least five percent.
Owner:	Cypress Creek Reed Road LP
General Partner:	SSFP 288 VII LLC
Developers:	Bonner Carrington
Principals/Interested Parties:	Stuart Shaw
Syndicator:	Apollo Housing Capital
Construction Lender:	JP Morgan Chase
Permanent Lender:	JP Morgan Chase
Other Funding:	City of Houston HOME loan
City/County:	Houston/Harris
Set-Aside:	General Population
Type of Area:	Urban
Region:	6
Type of Development:	New Construction
Population Served:	General Population
Units:	126 HTC units and 6 market rate units
2007 Allocation:	$1,199,797
Allocation per HTC Unit:	$9,522
Prior Board Actions:	7/07 – Approved award of tax credits
Underwriting Reevaluation:	Does not recommend a change in the amount of tax credits.
Staff Recommendation:	**Although staff recommends denying the request because the proposed amendments will result in a different development that was originally proposed and the owner should have been aware of the wetlands issue, staff does recognize that the amendments will not materially affect the development in a negative manner.**
Penalty Assessment:	**No penalty is recommended because the Board's approval has been requested prior to implementing the changes.**

THE REQUEST ABOVE WAS APPROVED IN OPPOSITION TO STAFF'S RECOMMENDATION AT THE BOARD MEETING OF SEPTEMBER 4, 2008. THE APPROVAL WILL BE CONFIRMED BY THE MINUTES AS APPROVED AND RECORDED IN A SUBSEQUENT BOARD MEETING. THIS NOTIFICATION MUST BE INCLUDED IN YOUR COST CERTIFICATION.

RE: Amendment request for Port Royal Homes TDHCA # 04-489

Dear Robbye:

We hereby request department approval of an amendment to the project as follow:

1. The original site plan approved contemplated 12 buildings in the site plan.. Due to pockets of bad soil conditions, highly expansive clay, and a drainage feature requiring improvement and set back, the number of buildings was reduced to 9.
2. The developer was approved to complete 250 affordable units at or below 60% of AMFI rent. The property as constructed includes 2 additional units for a total of 252 units at or below 60% of AMFI. Of those units, the mix was changed as follows:

Application		Completed
One \One	50	48
Two|One	57	51
Two Two	57	70
Three Two	86	83

The result is more total units and more total net rentable area. Proposed NRA was 237,363 SF and at completion there is 252,808 SF of NRA

3. The Clubhouse as proposed in the underwriting report is the same as constructed on site
4. The proposed parking was 500 un-covered spaces in the underwriting report and what was completed met all code requirements for the City and consisted of 250 carports and 148 un-covered spaces.

Port Royal Homes 04-0449
Amendment request for issuance of 8609's
August 4, 2008

Except as noted in this letter, the development has the same amenities as in the original submission or more. The request is made after completion of the development and is requested to be penalty free. We believe that the net result is a larger better equipped community and that the changes are overwhelmingly positive and in the interest of the residents.

Please let us know if you need more information to process with request.

Sincerely,

Saleem Jafar
President of the General Partner

To: Mr. Bill Fisher **NOTICE OF BOARD DECISION RE: AMENDMENT REQUEST HEARD 12/20/07**

HTC No. 04193, Providence at Edinburg

Summary of Request: This amendment was presented to the Board in November. The Board tabled the amendment and requested staff to work with the developer/owner to resolve the issues of the omission of amenities and the financial feasibility. The developer stated to the Board that he would provide the following amenities: gazebo, community garden, transportation services at no cost to the tenants, BBQ grills and tables, gaming tables with chairs, public phone, lawn bowling or shuffle board court, service coordinator, icemakers in the refrigerators, cover all parking spaces and Energy Star or equivalently rated appliances. The Applicant's most current response partially retracts the Energy Star or equivalent appliances by indicating that some of the appliances chosen have lower utility usage, though they are not rated as Energy Star certified. He also indicated that the property is an all bills paid development and therefore the need for Energy Star features is irrelevant.

Staff has confirmed the presence of the gazebo, community garden, transportation vehicle, one BBQ grill, chairs in the community building and office space for a service coordinator. The owner has stated they will provide the remaining amenities.

The following paragraphs are from the November presentation. The owner requested approval to change the site plan, unit plans, and building plans. The original application listed the development activities as acquisition, rehabilitation, and new construction. After submission, the application was changed to demolition and new construction and was evaluated as such. The development was then built as a rehabilitation of existing buildings. The application file contained an electronic mail sent by Department staff on February 27, 2004 instructing the applicant that the rehabilitated units would have to comply with the unit size requirements that were mandatory for new construction.

The underwriting report for this development was completed on December 8, 2004 and the Commitment Notice was issued on December 13, 2004. The underwriting report clearly states that new construction was confirmed with the applicant. In the section entitled "Proposal and Development Plan Description" on page 2 of the report, staff stated: "...some of the documentation in the application refer[s] to a rehabilitation of the existing buildings. However the majority of the documentation refers to the existing buildings being demolished and the Applicant subsequently confirmed this in writing saying that '...systems in the buildings since the date of the application have experienced significant failures making it a better economic choice to rebuild new....'" In the letter requesting this amendment, the owner's assertion that the Board's approval of an extension of the commencement of construction deadline in December of 2005, after the award was made, constituted an approval of rehabilitation as the construction activity, appears to be both unfounded and unsupportable as a rationalization for further action. If the Board had made such an approval it would have reversed the allocation to new construction without underwriting the new development proposal. Nevertheless, the amendment request appeared to state, in essence that the inclusion of the term "Rehabilitation" (i.e., in "Rehabilitation/New Construction") in the extension request write-up constituted an approval for the owner to proceed with rehabilitation instead of new construction. Staff disagrees with the conclusion of the applicant.

The application proposed 28 efficiencies and 72 one-bedroom units. However, 40 efficiencies and 60 one-bedroom units were built. The efficiencies are 26% smaller than the minimum required for new construction (500 square feet required for elderly units) and 29% smaller than unit size proposed in the application. The one bedroom units are 7% smaller (550 square feet required for elderly units) than the minimum required for new construction and 15% smaller than proposed in the application. The differences in unit mix, unit size, and net rentable area between the development as finally described in the application and as built are given in the table below. The table assumes that the development will meet the original target rents but this intention has not been confirmed by the owner.

	Application				Cost Certification		
Number	Unit Type	Size	NRA	Number	Unit Type	Size	NRA
5	Efficiency	522	2,610	5	Efficiency	370	1,850
23	Efficiency	522	12,006	35	Efficiency	370	12,950
4	1BR/1Bath	600	2,400				
8	1BR/1Bath	600	4,800				
60	1BR/1Bath	600	36,000	60	1BR/1Bath	511	30,660
100			57,816	100			45,460

In addition to the differences noted in the table, the development failed to deliver many of the amenities that were proposed. Among the amenities that were cited as absent by the Department's inspectors or by staff reviewing the cost certification, were the following:

- A condition of the commitment required one parking space per unit or documentation of compliance with local code and "best practices". Parking changed from 60 open spaces proposed in the application to 58 open spaces and 30 carports as built, but documentation to meet the requirement has not been submitted.
- One building with four floors was proposed but the rehabilitation consisted of two seven-story residential buildings and one single-story common building.

- Nine foot ceilings, dishwashers, microwave ovens, self-cleaning or continuous-cleaning ovens, refrigerators with ice-makers, storage rooms or closets, covered patios or balconies, Energy Star or equivalent kitchen appliances and community room with warming kitchen or full kitchen are all required but have not been documented by the owner as present.
- The developer represented that a service coordinator, game/recreation room, shuffleboard court, and public telephone would all be provided. These have not been confirmed because we have not yet re-inspected the property.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including a significant modification of the site plan, significant modification of the architectural design, and any other modification considered significant by the board.
Owner:	Chicory Court XXX, L.P.
General Partner:	Chicory GP-XXX, LLC
Developers:	ORH Financial, LP (developer); Edinburg Housing Opportunity Corporation (EHOC, co-developer & managing member of GP)
Principals/Interested Parties:	Housing Authority of the City of Edinburg (owner of EHOC); Saleem Jafar (ORH)
Syndicator:	SunAmerica
Construction Lender:	IBC Bank in Brownsville
Permanent Lender:	SunAmerica
Other Funding:	Edinburg Housing Authority
City/County:	Edinburg/Hidalgo
Set-Aside:	At-Risk, Nonprofit
Type of Area:	Urban/Exurban
Type of Development:	New construction
Population Served:	Elderly Population
Units:	100 HTC units
2004 Allocation:	$357,369
Allocation per HTC Unit:	$3,574
Prior Board Actions:	July, 2004 - Approved award of tax credits
Underwriting Reevaluation:	Pending submission of information by the applicant.
Staff Recommendation:	**Staff recommends the owner provide documentation or evidence of all the amenities not yet confirmed. Staff believes the Board requested this information from the developer at the November Board meeting. Staff also recommends the owner provide a budget and escrow the full amount stated in the budget for the remaining amenities.**
Penalty Assessment:	**Staff recommends the assessment of the penalties pursuant to §50.9(c) of the Qualified Allocation Plan and Rules because the amendment request was made after the change had been implemented. The penalties should be assessed against the general partner and any special limited partners, as applicable, for having developed the property inconsistently with the application.** **Staff makes no recommendation to the Board about assessing similar penalties to the co-developer as it is not directly covered under the rules. However, because the co-developer and affiliates acted on behalf of the owner during the application and post award processes according to their own statements in the amendment request, they were knowingly complicit in violating the rules.**

THIS NOTICE IS SOLELY A MEMORANDUM TO NOTE THAT THE BOARD ACTED ON THE REQUEST ABOVE. THIS NOTICE IS NOT A FULL OR BINDING STATEMENT OF THE RESOLUTION OF THE REQUEST. THE REQUEST WAS APPROVED (SUBJECT TO SOME CONDITIONS AND CONCERNS NOT STATED HEREIN) BY THE BOARD ON 12/20/07. THE OWNER AND THE PRIMARY DEVELOPER WERE TO BE PENALIZED AS FOLLOWS: OWNER (BROWNSVILLE HOUSING AUTHORITY AND APPLICABLE INSTRUMENTALITIES) – ONE POINT FOR ONE YEAR; DEVELOPER – ONE POINT FOR TWO YEARS. THE OWNER WAS REQUIRED TO SUPPLY AN ACCEPTABLE GUARANTEE OF COMPLETION PRIOR TO ISSUANCE OF FORMS 8609.

The minutes and transcript of this meeting will confirm the Board's action.

04489-Prior Amendment, same owner

To: Mr. Bill Fisher **NOTICE OF BOARD DECISION RE: AMENDMENT REQUEST HEARD 12/20/07**

HTC No. 04191, Tropical Gardens at Boca Chica

Summary of Request: The owner requested approval for a number of changes that were made to the original development proposal. One change was to reduce the one bedroom units by one unit and add one unit to the two bedroom units. The additional two bedroom unit constitutes the substitute feature. The owner will also install full perimeter fencing and controlled access as represented in the original application and will provide evidence that the refrigerators installed are Energy Star equivalent. Subsequent to the publication of this amendment on December 4, 2007, the Department received an independent confirmation that the refrigerators are not Energy Star equivalent as stated by the owner.

Approval also was requested to amend the unit amenities by eliminating self-cleaning ovens (scored one point) in all units. As substitutes, the owner proposed laundry connections (one point), carports (two points) for all units, and 100% masonry exterior (three points). The owner had an excess of points above the maximum scores allowed for both common amenities and unit amenities and the amenities proposed as substitutes more than compensate for the one point that was associated with the self-cleaning ovens. However, although not used to score points, the proposed substitutes were represented in the unit plans, building plans and/or site plan and were, therefore, representations of the application. Because the proposed substitutes already were representations of the application, they may not be used as substitutes to replace the self-cleaning ovens. The owner therefore proposed to employ as a substitute the fact that the development has more net rentable area than originally proposed as the substitute feature. The application underwriting report stated 151,350 square feet as the net rentable area and the cost certification rent schedule stated the figure as 152,308, an increase of 958 square feet (0.6% of the original area). Although the change is small, it is reasonable to view it as being commensurate with the magnitude of the self-cleaning ovens being replaced.

A change in the site plan is the final change that requires approval. The final site plan retained a road that ran from north to south through the original site and that would have been demolished if the application site plan had been implemented. Although the road was not drawn into the application's proposed site plan, the road still exists in the property as actually developed. The road runs more or less through the middle of the site from north to south and including the two entrances into the subject site that are associated with the road, the final site plan has five entrances into the property. The plan proposed in the application had only one entrance.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development. The statute defines material alterations as a change to the unit mix, as well as any other modification considered significant by the board.
Owner:	Longbranch, L.P.
General Partner:	Longbranch X, Inc.
Developers:	Brownsville Housing Finance Corporation; LJB Holdings, Inc.
Principals/Interested Parties:	Housing Authority of the City of Brownsville; Leon J. Backes; Saleem Jafar
Syndicator:	AIG SunAmerica
Construction Lender:	International Bank of Commerce
Permanent Lender:	International Bank of Commerce
Other Funding:	Brownsville Housing Authority
City/County:	Brownsville/Cameron
Set-Aside:	At-Risk
Type of Area:	Urban
Type of Development:	New Construction
Population Served:	General Population
Units:	150 HTC units and 8 market rate units
2004 Allocation:	$1,010,465
Allocation per HTC Unit:	$6,736
Prior Board Actions:	7/04 – Approved award of tax credits
Underwriting Reevaluation:	Pending submission of information by the applicant.
Staff Recommendation:	**Staff recommends approving the request requiring the owner to provide a budget for the perimeter fencing and access gate and evidence of the Energy Star equivalency rating.**

Penalty Assessment: Staff recommends the penalty assessment (the QAP language was presented on the first page of this write up) because the amendment was requested after the implementation of the changes and the development features substantially changed without prior notice to the Department.

THE REQUEST ABOVE WAS APPROVED BY THE BOARD ON 12/20/07. PENALTIES WERE WAIVED. OWNER WAS REQUIRED TO SUPPLY AN ACCEPTABLE GUARANTEE OF COMPLETION. The minutes and transcript of this meeting will confirm the Board's action.

Re: Amendment Request – Site Plan Change
Poinsettia Apartments in Alamo, Texas (the "Property")
TDHCA number 05025

Dear Mr. Sheppard:

Poinsettia Housing, Ltd. received low-income housing tax credits ("Tax Credits") for the construction of the Property referenced above in the 2005 application round.

Amendment Request

The purpose of this letter is to request approval of an amendment to the Property's site plan.

Detailed Description

The Tax Credit application for the property contemplated that the property would have ten (10) buildings. In the application, TDHCA was also advised that the Poinsettia Apartments were intended as replacement housing for the demolition and reconstruction of the 40 existing units of the Alamo Housing Authority ("AHA"). Of those 40 existing units, all of them were public housing units. That being considered, Poinsettia Apartments agreed to set aside 24 units of the 100 newly constructed units as public housing units. Due to the need to adequately service the high number of residents in the apartments designated under the Public Housing Program and project based vouchers, it was necessary to add the offices for the AHA next to the clubhouse located in the central area of the original site plan. Therefore, the site plan had to be revised wherein the one-story Building Type 5 which included 4 units originally and which was located in the central area of the property, was combined with another one-story building with 4 units which became a two-story building with 8 units not to be located in the central area of the Property. This change allowed the AHA to be located on-site for ease to the residents while at the same time providing more "green" space and landscaping to the property. As previously noted, the AHA offices are completely separate from the Clubhouse that serves the resident's and was 100% financed by the Housing Authority.

The omission of one residential building was noted in TDHCA's property inspection, triggering the submission of this amendment.

Please note the following about the revision of the site plan:

- The total net rentable square footage for the Property remains the same.
- The unit mix remains the same.
- The set-asides remain the same.
- There is no change in the amenities proposed for the Property.
- There is no change in the scoring of the Tax Credit Application.
- The Property now has more green space, is more desirable to the residents, as well as being more convenient to the residents with the Housing Authority being located on-site.
- The overall development budget does not change.
- The sources and uses and 30-year pro forma do not change.
- The rent schedule, utility allowances, and statement of annual expenses do not change.

To assist with your review of this request, the following attachments are provided:

- Exhibit A: letter from AHA, indicating its desire for the site plan change to accommodate for the AHA offices and ultimately, a convenience to the residents.
- Exhibit B: A copy of the original site plan, unit plan, and building plan, submitted with the Tax Credit Application.
- Exhibit C: A copy of the revised site plan, unit plan, and building plan.

Please provide approval for the change in site plan for Poinsettia Apartments; approval should be communicated to the Compliance Division for inspection purposes. A check in the amount of $2,500, payable to TDHCA, is enclosed to process this amendment. If this amendment requires Board approval, please include this amendment request for consideration at the next available TDHCA Board meeting. If you need additional information to process this request, please feel free to contact me.

Sincerely,

RE: TDHCA # 05025: Poinsettia Apartments, Alamo, Texas 78516

Dear Mr. Deyoe:

We have been made aware of the TDHCA inspection letter dated June 25, 2007 which describes Deficiency # 1 relating to the number of buildings on the Poinsettia Apartments site. Due to the need to adequately service the high number of residents in apartments designated under the Public Housing Program and project based vouchers, it was necessary to add the offices for the Alamo Housing Authority next to the clubhouse located in the central area of the site. This required two of the one-story, 4 unit buildings, one of which was currently placed in the central area, to be combined into one two-story building with 8 unit's total. The unit mix did not change. In fact, it actually provided more green space and landscaping for the residents while still having plenty of parking. We were able to accommodate these design revision with no negative impact to the development, and the Poinsettia Apartments are now much more marketable and serve our residents much better than the original design.

We are extremely happy with the development and would hope that the Agency understands and concurs with the improvements that we made over and above the design reflected in the original application. Please let us know if you have any questions.

Sincerely,

Mary Vela

Re: 2006, application #: 06125 – Country Club Apartments, Pecos, Texas
2006, application #: 06129 – Chisholm Trails Apartments, Vernon, Texas
(previously Campus View Apartments)

Dear Robbye:

In 2006 Pecos Country Club Apartments, LP, and Vernon Campus View Apartments, LP received 9% tax credit reservations for the properties referenced above. Within the application, we requested an Inter-Generational classification that set aside 12-units in each property for seniors. No points in the application were associated with the Inter-Generational classification; however, the LURA that was recorded for each property requires that both properties adhere to the Inter-Generational use restrictions. The LURA's for both properties are attached for your review.

Construction was completed on both projects and the senior buildings were placed in service in January of 2008. After 8-months of leasing, Country Club has leased 2-senior units and has pre-leased 1-unit, subject to income qualification. Chisholm Trails has not been able to lease any of the senior units. However, the family units for both properties have been leased at the proforma rents to income qualified tenants. Detailed information on the marketing efforts of both properties have been attached for your review.

Due to the market conditions in these cities for senior units, and our continued marketing efforts for the past 8-months, I respectfully request that an amendment be approved allowing the LURA's to be revised to allow these 12-units, for both properties to be leased to seniors or families.

Thank you for your consideration in this matter. Please contact my office with any questions or comments.

Cordially,

Paul Holden

COUNTRY CLUB APARTMENTS
PECOS, TEXAS

Senior traffic since 1/1/2008 – 42 inquiries.

Current status for Senior Units:

- 0 units leased by qualified residents.
- 0 pre-leased subject to income qualification.

Current lease rates:

- 1 bedroom (30% AMI) - $174.00.
- 1 bedroom (60% AMI) - $431.00
- 2 bedroom - $494.00.

Marketing Efforts:

12/15/07 – Direct mailed 1,123 pieces of information to all qualified households in area.
1/11/08 – Received certificate of occupancy and placed senior building in service.
2/1/08 – Direct mailed 962 pieces of information to all qualified households in area.
2/15/08 – Held a Grand Opening and ribbon cutting ceremony with the Chamber of Commerce.
2/16/08 – Held open house for all Vernon residents.
5/1/08 – Direct mailed 60 pieces of information to direct competition.
6/1/08 - Direct mailed 60 pieces of information to direct competition.
7/1/08 - Direct mailed 60 pieces of information to direct competition.

- Offered special of $99 deposit with no application fee.
- Reduced rental rates on senior units to $370 for 1-bedroom, and $435 for 2-bedroom units.
- Offered a $100 donation to the Chamber of Commerce for each referral of seniors who leased a unit.
- Offered a $250 referral fee to residents for senior leasing.
- Offered a $50 gasoline card from Wal-Mart drawing each month for a referral of seniors.
- Ads run daily in the Pecos newspaper advertising specials on senior units in the community.
- Started advertising on the Pecos radio station on June 1, 2008.
- Friday Bingo parties are held every two weeks in the senior building leasing office.
- Held a Senior Health Fair at the property in conjunction with the Dept. of Health.
- The local Senior Center, Rotary Club, Lions Clubs have been contacted to see if any events can be sponsored.
- Flyers promoting rent specials for seniors were distributed to local businesses.
- Local managers as well as area managers have been active in following up on all leads generated by any of the marketing efforts.

RE: Country Club Apartments - TDHCA #060125
Pecos, Reeves County, Texas

Dear Mr. Zimmerman:

As requested, we reviewed the original market study, as well as the updated demographics for the Primary Trade Area (PMA) surrounding Pecos, Texas. The comparison of the two demographic sets does not reflect any significant changes that would lead us to a different turnover demand number. Since both myself and the TDHCA underwriter concluded that the demand for the senior units would come solely from the turnover demand, and not senior growth, it is unlikely that the project would be underwritten differently today. At the same time, underwriting conclusions do not always represent what occurs in the marketplace after a project is built.

The first half of my career was spent managing apartments throughout Texas and Colorado. I previously worked for some of the largest property managers in the county. These include Lincoln Property Company, Equity Residential, and Western National. As such, I am well qualified in property management issues.

I reviewed your marketing plan for Country Club Apartments and found it well thought out. Given the limited number of rental properties in the market, it is likely that you are doing far more outside marketing than others in the market. Sometimes, even this is not enough.

With your efforts to the senior community, I do not having anything to add to your marketing plan. If these efforts have not generated income qualified traffic to the property, it is unlikely that continuing to hold these units for seniors will result in occupied units. At the same time, I believe that you would be able to occupy these units if the senior restriction were removed.

Should you have any further questions on this subject, please feel free to contact me directly.

Sincerely,

Darrell G Jack

BOARD ACTION SUMMARY
MULTIFAMILY FINANCE PRODUCTION DIVISION

November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of Additional Housing Tax Credits through the Implementation of HR 3221.

Requested Action

Discuss and Take Action on Recommendations to Implement the Housing and Economic Recovery Act of 2008, H.R. 3221 and to Address Credit Pricing Reductions for Housing Tax Credit Awards that have not yet placed in service.

Background

On July 31, 2008, the President signed into law, the Housing and Economic Recovery Act of 2008, H.R.3221 (the "Act"). The Act provided the State of Texas with an additional twenty cents per capita (approximately $4.7 million per year) in housing tax credit allocation authority for the years 2008 and 2009. At the September 4, 2008 Board meeting, the Board approved a policy and process by which the Department would consider the issuance of additional housing tax credits to developments that have previously received an award of housing tax credits in 2007 and 2008.

According to that Board policy, developments that received competitive tax credits in 2007 and had not closed their syndication were instructed to submit updated syndication letters reflecting the syndication price under the current financial market. Staff was directed to re-calculate the credit amount for each of those transactions utilizing the updated syndication price; the 9% applicable percentage (as set forth in H.R.3221) and the GAP method of calculating the appropriate credit amount. The result of this re-calculation is summarized in the discussion section of this write-up.

Also according to the policy, developments that received competitive tax credits in 2007 and had already closed on their syndication and developments that received competitive tax credits in 2008 were instructed to submit final debt and equity commitments under the current financial market and updated sources and uses, if applicable. Staff was directed to re-calculate the credit amount using the updated information and the increased applicable percentage of nine percent (9%). Staff was asked to present options for the Board to consider in allocating additional tax credits for these applications.

As you are aware, on September 7, 2008, Hurricane Ike struck the southeast Texas coastline crippling many Texas cities and counties. Many applicants as well as businesses were forced to evacuate those affected areas. Pursuant to the policy the Board approved in September, applicants were to submit the above referenced information by September 18th and September 26th. Due to the incapacitation of many areas in Texas and displacement of many citizens, the Executive Director granted extensions to the deadlines outlined in the policy. The deadline for all updated information was extended to October 1st; the date of issuance for the commitments was extended to October 3rd; and the submission of carryover documentation submission and amnesty period (to return previous credits without penalty) was extended to November 3rd.

Discussion

Twenty-eight 2007 applicants, that had not closed, submitted updated equity letters for consideration. One applicant submitted a new commitment with a syndication rate that was higher than the originally underwritten rate. Staff re-calculated the credit amounts for these applications and issued twenty-seven carryover allocation agreements. One of the twenty-seven subsequently withdrew, resulting in a total amount of additional credits issued of $2,207,032. Many of these applicants feel that they should have been extended the same opportunities for reevaluation as the 2007 closed applications and may be requesting consideration of additional credits in excess of the carryover allocations already received.

Of the 2007 closed and 2008 applications, not all submitted updated information. Requests for additional credits ranged from 1.5% to 58% of the original credit amount. Staff analyzed these requests to determine if a recommendation of additional allocation could be made on a case by case basis, which would both provide the Applicant with sufficient additional funds to meet the untested needs they identified in the additional sources and uses they provided and ensure that the Department made a determination based on an evaluation that not more funds than are necessary are provided. In eleven cases, the amount of funds requested would be more than could be justified based on the original analysis and a lesser alternative amount which would satisfy both the applicant's higher uses of funds and be not more than necessary according to the department evaluation could not be achieved. Staff has therefore performed two evaluations of these applications providing for an additional allocation on an across the board methodology.

Option 1 made two adjustments to the previous credit calculation; it allowed for adjustments in credit pricing and it included an increase to the full nine percent applicable percentage. This Option utilizes the original development costs as approved by the Board in July. To the extent that applicants did not submit additional information, they are included below as Option 1 solely with an increase to the full nine percent applicable percentage. Under Option 1 all of the 2008 developments would receive an additional allocation but 12 of the 2007 allocations would not receive additional credits primarily due to their reporting actual closing of their partnership at a higher syndication rate than originally underwritten.

Option 2 applies the same factors as Option 1, but instead of utilizing the original development costs, adjusts the costs by applying a 5% increase in direct construction cost and site work (based on the anecdotal evidence presented to the Department). Under this scenario, only six of the closed 2007 transactions would still be gap limited from receiving additional credits. The table below reflects the amount of total credits required to implement each of the Options. Also, because of the feedback and requests for reevaluation by the unclosed applications, the table also reflects the credit amounts for the 2007 unclosed however the Option 1 for unclosed reflects the amount that has already been issued based upon the Board's action in September.

The chart below shows the potential additional credits to be allocated for each year.

	2007 Closed	2007 Unclosed*	2008	Total
Total # of Applications	31 (26 active)	28 (27 active)	62 (48 active)	
# of Applications New Info Submitted	21	28	47	
Original Credit Allocation Total	$21,827,883	$22,638,592	$45,010,965	
Option One – Additional Credits	$516,891	$2,207,032 *	$3,296,652	$6,020,575
Option Two – Additional Credits	$1,060,748	$2,957,711	$4,560,719	$8,579,178

*Note that Carryover Agreements for these credits have already been issued.

At the time of publication, these numbers are NOT final and will be updated at the Board meeting.

You will recall that at the September Board meeting a period of amnesty was granted that would allow applicants to return their prior year allocations without negative penalty points and with the ability to obtain a refund of commitment fees. That amnesty period has ended, however due to the uncertainty of how the Board would proceed with this agenda item, staff recommends that the amnesty period and the ability for staff to refund commitment fees be extended to November 20, 2008. This will allow applicants time to consider the impact of the final Board decision at this meeting and to return previously awarded credits without penalty if that is most prudent.

The statutory $2 million credit cap for applicants will be applied to the year of the ceiling from which the additional credits are awarded (for example: 2007 applications that are awarded additional credits from the 2008 credit ceiling, the additional credits will count towards the $2 million test in 2008).

Another consideration the Board may want to entertain is the possibility of allowing 2007 applicants to return their current allocation of credits and the Board re-issue credits (with the cost adjustment) from the 2008 or 2009 credit ceiling. This is the cleanest way to resolve the timing challenges posed by the credit crisis issues for the Department and it will allow the applicant to adjust their costs, submit current pricing and extend the placement in service deadline. This option does open a door for future applicants to request this remedy. Staff would strongly recommend the Board make it very clear that this option is only being considered because of the enormity of the credit issues.

There have been requests from applicants that received forward commitments in 2006 from the 2007 ceiling to be considered as 2007 applications and be allowed the same considerations that all the other 2007 applications have received. The policy the Board approved at the September meeting did not address these applications. Staff does not recommend these applications have additional consideration, when they received their allocation a year in advance and should have avoided this crisis.

Recommendation

Staff recommends that the Board approve additional credits for all 2007 (closed and unclosed) and all 2008 applications utilizing Option 2 with the 9% applicable percentage, current adjusted credit pricing and assuming a 5% increase in direct construction and site work costs.

Staff also recommends the extension of the amnesty period to November 20, 2008 for previously awarded applicants to return credits without penalty.

2007 Unclosed "Option 1"

BOARD ACTION SUMMARY
MULTIFAMILY FINANCE PRODUCTION DIVISION

November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of the Policy for Implementation of HR 1424 on the Housing Tax Credit Program including Possible Allocation of 2008 Housing Tax Credit Ceiling.

Requested Action

Approve, Approve with Amendments or Deny the Policy to Implement the Emergency Economic Stabilization Act of 2008, HR 1424.

Background

On October 3, 2008, the President signed into law, the Emergency Economic Stabilization Act of 2008, H.R.1424 (the "Act"). The Act amended the Internal Revenue Code of 1986. The Act authorizes additional Housing Tax Credits to the State of Texas in an annual amount equal to approximately $15,000,000 for the years 2008, 2009 and 2010 to be allocated in the eligible counties affected by Hurricane Ike as designated in the Presidential declaration (FEMA-1791-DR) and subsequent amendments. The official amounts are anticipated to be released at the end of November. The current eligible counties are Angelina, Austin, Brazoria, Chambers, Cherokee, Fort Bend, Galveston, Grimes, Hardin, Harris, Houston, Jasper, Jefferson, Liberty, Madison, Matagorda, Montgomery, Nacogdoches, Newton, Orange, Polk, Sabine, San Augustine, San Jacinto, Trinity, Tyler, Walker, Waller and Washington. For purposes of discussion on these credits these are called "Ike Credits".

2008 Ike Credits

For each year's credit allocation of Ike Credits, the allocation must be made by December 31 of that year or the credits are lost as a resource to the state of Texas; they can not be directly rolled into following year's allocations. Therefore, in an effort to utilize the allocation of Ike Credits authorized to the State of Texas through the Act and as recommended by the IRS, staff recommends that all traditional 2008 allocations that were awarded by the Board in July, as well as all eligible 2008 waiting list applications, located in the Hurricane Ike counties be "transferred" to receive their allocation from 2008 Ike Credits. This transfer amount totals $14,201,892. Of this amount $1,597,683 would be awarded to applications currently on the 2008 Waiting List in those regions. The original amount of traditional 2008 allocation that had been regionally allocated to Regions 5 and 6 is $10,313,816. **At the time of publication of the Board materials, these numbers are estimates and may be update at the Board meeting.**

That amount available to be awarded could be handled in one of two ways.

- Option 1. The credits would be redistributed through the 2008 Regional Allocation Formula (excluding Regions 5 and 6) and statewide collapse for awards to applications on the 2008 waiting list as approved by the Board in July.

- Option 2. The credits would be carried forward to 2009 to first be made available in regions five and six. If there are not enough applications submitted in regions five and six for the regular competitive application cycle, the allocation remaining will be distributed to the other eleven regions for the completion of the regular competitive application cycle.

- Option 3. The credits would be carried forward to 2009 and allocated through the regional allocation statewide.

Recommendation

Staff recommends that the Board approve Option 2 for the 2008 Ike Credits because of the current credit crisis and the limited amount of time available to review applications on the Waiting List.

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

November 13, 2008

Action Item

Presentation, Discussion, and Possible Approval of Forward Commitments from the 2009 State Housing Credit Ceiling for the Allocation of Competitive Housing Tax Credits.

Required Action

Discuss and Possibly Approve the Issuance of Commitments for Allocations of Housing Tax Credits from the 2009 State Housing Credit Ceiling.

Background

As permitted under §50.10(c) of the 2008 Qualified Allocation Plan and Rules (the "QAP"): "The Board may determine to issue commitments of tax credit authority with respect to Applications from the State Housing Credit Ceiling for the calendar year following the year of issuance (each a "forward commitment")."

The Board may consider all Applications submitted under the 2008 Application Round. Included with this Board Action Request is a report titled 2008 Waiting List Competitive Housing Tax Credit Applications; all Applications on this list are eligible for consideration of a forward commitment under this agenda item. Pursuant to §50.10(c) of the 2008 QAP, "The Board will utilize its discretion in determining the amount of credits to be allocated as forward commitments and the reasons for those commitments considering score and discretionary factors".

The following issues should be noted:

1. As described in §50.10(c) of the 2008 QAP: "Applications that are submitted under the 2008 QAP and granted a Forward Commitment of 2009 Housing Tax Credits are considered by the Board to comply with the 2009 QAP by having satisfied the requirements of this 2008 QAP, except for statutorily required QAP changes."
2. As described in §50.10(c)(1) of the 2008 QAP: "Unless otherwise provided in the Commitment Notice with respect to a Development selected to receive a forward commitment, actions which are required to be performed under this chapter by a particular date within a calendar year shall be performed by such date in the calendar year of the Credit Ceiling from which the credits are allocated."
3. For any Application approved by the Board for a forward commitment, the credit amount awarded will be attributed to the proper region and Set-Asides from the 2009 State Housing Credit Ceiling to ensure adherence to the requirements of §2306.6714 and the Regional Allocation Formula in 2009.

4. Any Application approved for a forward commitment award, the allocation amount will be adjusted based on any additional credit allocation policy approved by the Board.
5. Any approved Applications will be reviewed to ensure that they do not have Material Noncompliance consistent with §50.5(b)(2) and (3) of the 2008 QAP.
6. Any approved Applications will be reviewed consistent with §50.6(f) of the 2008 QAP to ensure that they do not have any violations of the "one-mile, one-year test." This rule prohibits the Department from allocating to an Application with a proposed site that is within one mile of any other Application's proposed site awarded in the same calendar year.
7. Staff will review to ensure that consistent with §50.6(d) of the 2008 QAP, the Department "shall not allocate more than $2 million of tax credits in any given Application Round to any Applicant, Developer, Related Party or Guarantor."
8. Any Applications that have not been reviewed, at this time, will be reviewed for Eligibility and Threshold, financial feasibility and compliance with previous participation; conditions to the award and the amount of final credits awarded will be those identified by Real Estate Analysis and/or Multifamily Finance Production Division.

If desired, the Board may also utilize this Board action item to recommend a forward allocation of 2009 housing credits to previously awarded applications.

Recommendations

Staff does not recommend the allocation of forward commitments at this time. There is much uncertainty in the market place at this time that may be clearer as the full effects of HR 3221 and the credit crisis have more time to develop. Most of the applications that did not score sufficiently to be awarded credits this year would be eligible to reapply in 2009 under the terms of the new QAP. Without the reapplication process, the deals awarded out of next year's allocation will not be held to the same standards as other applicants in 2009.

Forward commitments made this year will reduce the amount of Housing Tax Credits available in 2009 to other qualified applications that will be submitted for the 2009 Application Round; the scoring process and Department rules were objectively applied to all 2008 Applications and those Applications not recommended for an award did not achieve a competitive score and/or did not meet the requirements of the program.

2008 Waiting List Competitive Housing Tax Credit Applications

Housing Tax Credit Program
Board Action Request
November 13, 2008

Action Item

Request review and board determination of one (1) four percent (4%) tax credit applications with another issuer for tax-exempt bond transaction.

Recommendation

Staff is recommending that the board review and approve the issuance of one (1) four percent (4%) Tax Credit Determination Notices with **another issuer** for the tax-exempt bond transaction known as:

Development No.	Name	Location	Issuer	Total Units	LI Units	Total Development	Applicant Proposed Tax Exempt Bond Amount	Requested Credit Allocation	Recommended Credit Allocation
08418	The Mirabella Apartments	San Antonio	San Antonio HFC	172	172	$0	$15,000,000	$695,738	$0

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Issuance of a Determination Notice for Housing Tax Credits Associated with Mortgage Revenue Bond Transactions with Other Issuers and contracts for HOME Rental Housing Development Fund, and Housing Trust Fund Rental Production Funds.

Requested Action

Approve, Amend or Deny the staff recommendation for The Mirabella Apartments in San Antonio, #08418.

Summary of the Transaction

4% Housing Tax Credit Program:

Background and General Information: The application was received on August 15, 2008. The Issuer for this transaction is San Antonio Housing Finance Corporation with a reservation of allocation that expires on January 15, 2009. The development is new construction and will consist of 172 total units targeting the elderly population. Eighty percent (80%) of the units are proposed to be restricted at 60% Area Median Family Income (AMFI) with no location restriction. The proposed development will be located in San Antonio, Bexar County. The site is currently zoned for this type of development.

HOME Rental Housing Development Program:

Background and General Information: A Notice of Funding Availability (NOFA) for $1,675,307 for Rental Housing Development for Persons with Disabilities was released in June 2008. Of the total funds available, $429,659 was restricted to non-PJ areas and $1,245,648 was available for any area of the state. The Department received four applications, including the subject, requesting a total of $1,926,145. One application was awarded $429,145 in July from the funds available statewide, one application for $500,000 was withdrawn and the final application for $500,000 is currently being reviewed. No applications were received for the non-PJ funds. The NOFA allowed applicants to apply for funding on a statewide first-come, first-served basis and the application deadline was October 3, 2008.

The subject application, requesting $500,000 from the statewide funds, has completed the three stages of the review process as required by the HOME Rule and has set aside the required number of units for persons with disabilities. However, as detailed below, the application has not met the Department's requirements.

Housing Trust Fund:

Background and General Information: A Notice of Funding Availability (NOFA) for $2,594,000 for Rental Production was approved by the Board in September 2008, consistent with the 2009 Housing Trust Fund Annual Plan. The NOFA allows applications for funding on a statewide first-come, first-served basis and establishes a submission deadline of April 6, 2008. The Department has received three applications to date requesting a total of $1,384,000 or 53% of the funds available under the NOFA. Two of these applications totaling $1,000,000 are pending review for possible award recommendations at a future Board meeting. If the subject application is awarded the requested $384,000 in HTF, $2,210,000 in funds will remain available under the NOFA.

The subject application has completed the two stages of the review process in accordance with the Housing Trust Fund Rule. However, the underwriting report completed by the Real Estate Analysis (REA) Division reflects that the proposed development cannot be projected to service the Department's HOME and Housing Trust Fund loans and meet the minimum debt coverage ratio feasibility criterion of 1.15. The underwriting report has also indicated that the property cannot be projected to produce sufficient cashflow to repay an additional $1.2M in deferred developer fee and $1.4M in combined City of San Antonio and Bexar County HOME funds when fully amortized. As such, the Real Estate Analysis Division has determined that the application does not meet the Department's feasibility criterion. Additionally, the HTF NOFA and HTF Annual Plan indicate that forgivable debt may be considered only if additional 30% units are elected; 18 additional 30% of AMI units would be required for the subject application in order to be eligible for full forgiveness of the $384,000 in HTF funding. The HOME NOFA for persons with disabilities does not contemplate allowing loan forgiveness or cashflow loans.

The Applicant has also proposed an alternative structure for the Department's funds that would allow repayment to begin three years after stabilization is achieved. Generally, this would put the first possible payment at least five years from award. While such a structure has been approved by the Board sparingly and on a case-by-case basis in the past, this structure is not consistent with the Department's standard procedure to allow an interest free construction period of 18 months followed by a full amortization.

Organizational Structure and Compliance: The Borrower is The Mirabella, Ltd. and the General Partner is SAHA The Mirabella, LLC, of which the Las Varas Public Facility Corporation has 100% ownership interest. The Compliance Status Summary completed on October 16, 2008 reveals that the principals of the general partner have received ten (10) multifamily awards that have been monitored with no material non-compliance.

Census Demographics: The development is to be located at 1900 Block of Bandera Rd. in San Antonio. Demographics for the census tract (1805.01) include AMFI of $34,116; the total population is 5,231; the percent of population that is minority is 87.55%; the percent of population that is below the poverty line is 26.07%; the number of owner occupied units is 710; the number of renter units is 1026 and the number of vacant units is 74. (Census information from FFIEC Geocoding for 2008).

Public Comment: The Department has received letters of support from State Senator Leticia Van de Putte, State Representative Joaquin Castro, State Representative Trey Martinez Fischer (does not represent the proposed Development's district), County Commissioner Paul Elizondo, and City Councilman Justin Rodriguez. The Department also received a letter of support from the Woodlawn Hills Neighborhood Association, a signed petition of support containing nineteen (19) signatures and four (4) individual letters of support from members of the community. The Department has received no letters of opposition.

Recommendation

Staff recommends the Board deny the issuance of a Determination Notice of $695,738 in Housing Tax Credits for The Mirabella Apartments.

Staff recommends the Board deny the request of a HOME Rental Housing Development award for persons with disabilities of $500,000 for Mirabella Apartments.

Staff recommends the Board deny the request of a Housing Trust Fund award of $384,000 for Mirabella Apartments.

Should the Board make an award for this development, staff recommends the allocation of tax credits should not exceed $695,738 annually for ten years. The HOME loan not to exceed $500,000 and the Housing Trust Fund loan not to exceed $384,000. Both the HOME loan and HTF loan may be fully amortizable over a 30 year period at zero percent interest after a deferral period of five years. In addition, any allocation of funds should be conditioned upon the specific conditions listed in the Real Estate Analysis Report.

General Summary of Comment:

The Department has received four (4) individual letters of support from community members. In addition, a petition of support for the Development was submitted that included 19 signatures.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications “must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants (“LURA”).”

Not recommended due to the following:

The Applicant's proposed financing structure provides the minimum debt coverage ratio of 1.15, but considers debt service on only the primary mortgage. There is insufficient cash flow to fully repay the deferred developer fees and fully amortize the proposed $884K in Department funds, and the $1.4 million in funds from San Antonio and Bexar County. Furthermore, the HTF NOFA only provides for consideration of a grant up to the level of funding provided to support 30% units and neither the HOME or HTF Notices of Funding specifically contemplate allowing deferred or cash flow loans. Therefore funding for the development is not recommended.

The Applicant has requested that the TDHCA HOME and HTF funds be structured as deferred for five years and fully amortizing after the initial period. On a case-by-case basis the Board has previously chosen to fund HOME and HTF rental transactions which have cash flow or alternative repayment structures such as this. Under the current economic environment, the assumptions that provide for net income growth are less secure than anytime in the last several years. Should the Board choose to award financing for the subject, it should be based on the following:

An allocation of tax credits not to exceed $695,738 annually for ten years.

A HOME loan of not more than $500,000 and a Housing Trust Fund loan of not more than $384,000. Both the HOME loan and the HTF loan may be fully amortizable over a 30 year period at zero percent interest after a deferral period of five years.

Should the Board approve this award, it should be conditioned upon the following:

Receipt, review, and acceptance, prior to HOME loan closing, of evidence that the solid waste identified in the ESA has been properly disposed of, and completion of a HUD-complaint study to identify sources of excessive noise at the site, and evidence that any recommendations of the noise study have been implemented.

Receipt, review, and acceptance, at cost certification, of a detailed review of the utility allowances based on actual energy usage after the subject property is placed in service.

Receipt, review, and acceptance, prior to cost certification, of a tax attorney or CPA opinion documenting that the permanent phase tax-exempt bond financing amounts to greater than 50% of aggregate basis as required by IRC Section 42(h)(4)(B).

Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the allocation amount may be warranted.

RECOMMENDATION

The Applicant's proposed financing structure provides the minimum debt coverage ratio of 1.15, but considers debt service on only the primary mortgage. There is insufficient cash flow to fully repay the deferred developer fees and fully amortize the proposed $884K in Department funds, and the $1.4 million in funds from San Antonio and Bexar County. Furthermore, the HTF NOFA only provides for consideration of a grant up to the level of funding provided to support 30% units and neither the HOME nor HTF Notices of Funding specifically contemplate allowing deferred or cash flow loans. Therefore funding for the development is **not recommended**.

The Applicant has requested that the TDHCA HOME and HTF funds be structured as deferred for five years and fully amortizing after that initial period. On a case-by-case basis the Board has previously chosen to fund HOME and HTF rental transactions which have cash flow or alternative repayment structures such as this. Under the current economic environment, the assumptions that provide for net income growth are less secure than anytime in the last several years. Should the Board choose to award financing for the subject, it should be based on the following:

An allocation of tax credits not to exceed $695,738 annually for ten years A HOME loan of not more than $500,000 and a Housing Trust Fund loan of not more than $384,000. Both the HOME loan and the HTF loan may be fully amortizable over a 30 year period at zero percent interest after a deferral period of five years. In addition any allocation of funds should be conditioned upon the following:

CONDITIONS

1 Receipt, review, and acceptance, prior to HOME loan closing, of evidence that the solid waste identified in the ESA has been properly disposed of, and completion of a HUD-compliant study to identify sources of excessive noise at the site, and evidence that any recommendations of the noise study have been implemented.

2 Receipt, review, and acceptance, at cost certification, of a detailed review of the utility allowances based on actual energy usage after the subject property is placed in service.

3 Receipt, review, and acceptance, at cost certification, of a letter from a certified public accountant allocating which portions of site costs should be included in Eligible Basis and which ones may be ineligible.

4 Receipt, review, and acceptance, prior to cost certification, of a tax attorney or CPA opinion documenting that the permanent phase tax-exempt bond financing amounts to greater than 50% of aggregate basis as required by IRC Section 42(h)(4)(B).

5 Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the allocation amount may be warranted.

SALIENT ISSUES

TDHCA SET-ASIDES for HTC LURA

Income Limit	Rent Limit	Number of Units
30% of AMI	30% of AMI	1
50% of AMI	50% of AMI	17
60% of AMI	60% of AMI	154

TDHCA SET-ASIDES for HOME LURA

Income Limit	Rent Limit	Number of Units
30% of AMI	Low HOME	1
50% of AMI	Low HOME	12

TDHCA SET-ASIDES for HTF LURA

Income Limit	Rent Limit	Number of Units
30% of AMI	30% of AMI	1
50% of AMI	50% of AMI	17

NOTE: The HOME and HTF units are proposed to overlap

PROS	CONS
▫ Demand for the 1 bedroom units for seniors appear to be strong in this market.	▫ Demand for the 50% 2 bedroom units appears to be very low according to both the Market Analyst's and Underwriter's capture rate calculations of over 200%.
▫ The Applicant proposes to promote energy efficiency through the installation of a solar water heating system, and to make use of federal energy tax credits as well as a rebate from the utility provider.	▫ The Applicant requests HOME and Housing Trust Fund financing from the Department; these programs require rent and income restrictions at 50% of AMI, but the market analysis indicates little demand in the 50% income band.
	▫ The Applicant proposes HOME funding from three different jurisdictions for the same property, which while not prohibited is extremely unusual and will require significant ongoing coordination between the three entities to ensure compliance with HUD HOME funding regulations.

HIGHLIGHTS of ENVIRONMENTAL REPORTS

Provider: Raba-Kistner Consultants, Inc. Date: 8/27/2008

The provider conducted a Phase I Environmental Site Assessment of the subject site in June 2007, and provided an update to that ESA dated August 27, 2008.

Recognized Environmental Concerns (RECs) and Other Concerns:

"R-K (Raba-Kistner Consultants, Inc.) observed copious amounts of solid waste (house refuse) along the southwestern portion of the SITE and along the drainage feature described above. R-K observed no evidence of hazardous materials and/or petroleum products associated with the solid waste. Several isolated piles of concrete and demolition debris were also observed throughout the SITE.

Based on the information reviewed, there was no evidence that the SITE or adjacent properties are currently under environmental regulatory review or enforcement action. The SITE reconnaissance, regulatory database review, and historical source review revealed no evidence of recognized environmental conditions involving the SITE or the adjoining properties.

Based on the information as presented herein, no further environmental assessment of the SITE is deemed warranted at this time; however, R-K recommends transporting the aforementioned solid waste to a permitted landfill facility for proper disposal." (p. 3)

Additionally, the ESA Provider indicates that "the SITE is located approximately 7.5 miles from a major airport (San Antonio International) and 5.8 miles from a military airport (Lackland Air Force Base -- the SITE is directly under an approach to Lackland AFB); therefore, a noise analysis must be conducted for the site." (p. 8)

Comments:

Any recommended funding will be conditioned on receipt, review, and acceptance, prior to HOME loan closing, of evidence that the solid waste identified in the ESA has been properly disposed of, and completion of a HUD-compliant study to identify sources of excessive noise at the site, and evidence that any recommendations of the noise study have been implemented.

Market Analyst p. 57					25
Underwriter		100% 577	15% 88	45% 40	100% 40

This section intentionally left blank.

INCLUSIVE CAPTURE RATE						
	Subject Units	Unstabilized Comparable (PMA)	Unstabilized Comparable (25% SMA)	Total Supply	Total Demand	**Inclusive Capture Rate**
Market Analyst p. 58	172	0	0	172	394	**44%**
Underwriter	172	0	0	172	353	**49%**

Supply and Demand:

The Market Analyst did not identify any unstabilized comparable units in the PMA targeting senior households. Based on total demand for 394 units, and the supply of 172 proposed subject units, the Market Analyst determined an inclusive capture rate of 44%. The underwriting analysis indicates total demand for 353 units, resulting in an inclusive capture rate of 49%. Both results are well under the maximum 75% for developments targeting seniors.

It should be noted, however, that the specific demand for 2 bedroom units with rent and income restrictions at 50% of AMI appears to be extremely low. While the underwriting guidelines do not consider individual unit type demand as a feasibility criteria, this is cause for concern. The 50% restrictions proposed are solely to meet the guidelines of the HOME and Housing Trust Fund financing being requested from the Department, but there appears to be no demand in the market area for these units.

Primary Market Occupancy Rates:

"The current occupancy of the market area is 95.6% as a result of high renter demand. The forecast of demand suggests that rental units will continue to be absorbed as they come online." (p. 11)

Absorption Projections:

"We estimate that the project would achieve a lease rate of approximately 7% to 10% of its units per month as they come on line for occupancy from construction. " (p. 96). Based upon these rates the property will reach a 93% occupancy within 18 months (including six months under construction).

RENT ANALYSIS (Tenant-Paid Net Rents)					
Unit Type (% AMI)	Proposed Rent	Program Maximum	Market Rent	Underwriting Rent	Savings Over Market
1 BR 650 SF 30%	$243	$244	$570	$244	$327
1 BR 650 SF 50%	$449	$450	$570	$450	$121
1 BR 650 SF 60%	$551	$552	$570	$552	$19
2 BR 849 SF 50%	$536	$535	$665	$535	$130
2 BR 849 SF 60%	$659	$658	$665	$658	$7

Market Impact:

Based on the demand in the market area, the market impact for the subject units should be minimal.

Comments:

The market study provided sufficient information on which to base a funding recommendation.

Concentration:

Staff has calculated the concentration rate of the areas surrounding the property in accordance with section 1.32 (i)(2) of the Texas Administrative Code approved in 2007. The Underwriter has concluded a census tract concentration of 639 units per square mile, which is less than the 1,432 units per square mile limit; and a Primary Market Area concentration of 284 units per square mile, which is less than the 1,000 units per square mile limit. Therefore, the proposed development is in an area which has an acceptable level of apartment dispersion based upon the Department’s standard criteria.

This section intentionally left blank.

OPERATING PROFORMA ANALYSIS

Income: Number of Revisions: 4 Date of Last Applicant Revision: 10/16/2008

The Applicant's projected income is based on maximum program rents. However, the Applicant anticipates that the solar thermal hot water system to be installed will provide substantial reductions in energy consumption for both hot water and space heating. The Applicant therefore engaged Diamond Property Consultants to work with utility provider CPS Energy to generate utility allowances specifically for the subject property. The Applicant provided substantial documentation on the calculation of utility usage. The Applicant's engineering contractor on the solar energy system provided detailed estimates of the projected power to be sourced from the system.

Diamond Property Consultants (DPC) rationalized these estimates with hot water and heating energy usage at comparable properties. DPC applied its estimates to the HUD-approved engineering-based methodology for calculating utility allowances. The resulting allowances were then approved by CPS Energy as required by HUD. The utility allowances appear to be reasonable, but they are based on unproven technology. In order to monitor the effectiveness of this technology and consider additional mitigating financing considerations, any allocation of funding should be conditioned on receipt, review, and acceptance, at cost certification, of a detailed review of the utility allowances based on actual energy usage after the subject property is placed in service.

Expense: Number of Revisions: 4 Date of Last Applicant Revision: 10/16/2008

The Applicant's total annual operating expense projection is $3,010 per unit. This is 2% greater than the underwriting estimate of $2,950 derived from the TDHCA database and third party data sources. Specific line items in which the Applicant's projections differ significantly from the underwriting estimate include general and administrative (the Applicant's figure is $14K lower), management fees (the Applicant's figure is $6K higher), payroll and payroll tax (the Applicant's figure is $15K higher) and utilities (the Applicant's figure is $13K higher).

Also, Las Varas Public Facility Corporation, the sole member of the GP, will purchase the land and lease it back to the Applicant. This type of lease structure is typical for securing a property tax exemption although due to recent court cases, it is not as assured of providing a tax exemption for the property as it once was. For purposes of this analysis the Underwriter has assumed a 100% exemption due to Las Varas Public Facility Corporation's participation in the ownership structure.

Conclusion:

The Applicant's projections of effective gross income, total expense and net operating income are all within 5% of the Underwriter's estimates; therefore, the Applicant's figures are used to determine the development's debt capacity. The permanent financing structure proposed by the Applicant results in a year one debt coverage ratio of 1.15. However, this structure only considers debt service on the primary mortgage. The Applicant is requesting $884,000 in HOME and Housing Trust Fund financing from the Department, payable from cash flow after deferred developer fees are paid and with payments beginning in Year 5 after the property has stabilized. If any debt service on the Department funds is included in the first year of stabilized occupancy, debt coverage falls below the minimum 1.15.

Feasibility:

The Applicant's proposed income and expense budgets are used to create a 30-year operating proforma, applying a 3% growth factor to income and 4% to expenses. As proposed by the Applicant, with the five year deferral of loan payments to TDHCA and no payments to the other soft financing proposed, this analysis indicates continued positive cash flow and a DCR that remains above the minimum 1.15 throughout the proforma period. However, this structure would require deferral of $1.2 million in developer fee. In addition to the $884K in Department funds, the Applicant's sources of financing include $1.4 million in HOME funds from the City of San Antonio and Bexar County. Fifteen-year cash flow is insufficient to repay the principal of these sources, even ignoring any accrued interest.

This section intentionally left blank.

The Board's directive and Department guidelines have required HOME and Housing Trust Fund rental financing be fully amortized except on a case by case basis as determined by the Board. The HTF NOFA only provides for consideration of a grant up to the level of funding provided to support 30% units and neither the HOME nor HTF Notices of Funding specifically contemplate allowing deferred or cash flow loans. As stated above, any required debt service on these funds in the first year of stabilized operation causes the project's debt coverage to fall below the 1.15 minimum. Therefore, the subject is not recommended for funding.

The Applicant made several revisions to the proposed financing structure in an attempt to garner an affirmative recommendation for the development. The most recent and strongest alternative is a full amortization of both TDHCA loans at zero percent over 30 years after a five year deferral. This kind of structure has in some instances been accepted in the past. Under the current economic environment, the assumptions that provide for net income growth are less secure than anytime in the last several years making the likelihood that full amortization begins to occur after five years much more risky.

Type: Purchase and Sale Contract as Amended Acreage: 4.5975

Contract Expiration: 1/31/2009 Valid Through Board Date? ☒ Yes ☐ No

Acquisition Cost: $472,900 Other:

Seller: Stephen Avery Related to Development Team? ☐ Yes ☒ No

Type: Agreement to Purchase Unimproved Real estate Acreage: 3.9039

Contract Expiration: 12/30/2008 Valid Through Board Date? ☒ Yes ☐ No

Acquisition Cost: $392,239 Other:

Seller: Texas Conference Association of Seventh Day Adventists Related to Development Team? ☐ Yes ☒ No

Comments:

The purchase contracts indicate the Purchaser to be NRP Properties, LLC. The Applicant has indicated that "the contract is assignable and will be assigned to Las Varas Public Facility Corporation - the sole member of the GP. LVPFC will purchase the land and lease it back to the Applicant, thus qualifying the property for the tax exemption."

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE Number of Revisions: 4 Date of Last Applicant Revision: 10/16/2008

Acquisition Value:

The site cost of $105,234 per acre is assumed to be reasonable since the acquisition of each tract is an arm's length transaction.

This section intentionally left blank.

Sitework Cost:

The Applicant's proposed site work cost of $12,180 per unit exceeds the Department's normal guideline of $9,000 per unit. The Applicant has provided certification from an Architect that the cost is reasonable for the sitework that is to be performed; however, the QAP also requires a letter from a certified public accountant allocating which portions of those site costs should be included in Eligible Basis and which ones may be ineligible. Any recommended funding will be subject to receipt, review, and acceptance, by cost certification, of such a CPA letter.

Direct Construction Cost:

The Applicant's direct construction cost is $7.5 million. This includes $340,000 in claimed eligible cost for a solar hot water and space heating system. The Applicant has provided an engineer's estimate of $281,106 for materials, labor, freight and sales tax; the engineer's letter also states that the Applicant's Contractor has indicated that an additional $120,000 in piping and distribution network costs are required for the installation, bringing the total cost to $401,106. The solar system is eligible for a 30% energy tax credit. The Applicant has assumed a 30% credit on $400,000, or $120,000. The IRS code requires that eligible basis for Housing Tax Credits be reduced by 50% of the Energy Tax Credit, resulting in $340,000 eligible cost. The underwriting estimate for direct construction is $6.9 million, derived primarily from the Marshall and Swift Residential Cost Handbook, with $340,000 added for the solar heating system. The Applicant's projected direct construction cost is 7% higher than the underwriting estimate.

Interim Interest Expense:

The Applicant most recently indicates total interim interest expense of $1,098,556, and claims $549,278 as eligible. However, underwriting guidelines limit eligible interim interest to one year of fully drawn interest on construction financing. The Applicant's most recent sources and uses indicates $8,265,000 in construction debt, and the commitment from Capital One states the construction period interest rate will be variable at LIBOR plus 150 basis points. On October 21, 2008, one-month LIBOR was at 3.52%, indicating an interim financing rate of 5.02%. One year of fully drawn interest is $414,903. Eligible interim interest has been limited to this amount, with the difference included as ineligible cost.

Conclusion:

The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to calculate eligible basis and to determine the development's need for permanent funds. The calculated eligible basis of $15,586,301 is increased by 30% because the subject site is located in a Qualified Census Tract; the adjusted basis of $20,262,191 supports an annual tax credit allocation of $719,308. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine any recommended allocation.

FINANCING STRUCTURE

SOURCES & USES Number of Revisions: 5 Date of Last Applicant Revision: 10/21/2008

Source: Capital One Type: **Interim to Permanent Bond Financing**

Interim:	$9,220,000	Interest Rate:	5.02%	☐	Fixed	Term:	30	months
Permanent	$8,265,000	Interest Rate:	5.50%	☒	Fixed	Amort	420	months

Comments:

The lender's commitment indicates a maximum construction loan of $9,220,000, at a variable rate equal to one-month LIBOR plus 150 basis points; the Applicant's sources and uses indicates interim debt of $8,265,000. The permanent debt will have a fixed rate equivalent to the 17-year interpolated U.S. treasury yield plus 111 basis points, amortized over 35 years.

As proposed by the Applicant, the permanent bond debt only amounts to 50.2% of eligible basis plus land acquisition costs, suggesting a significant risk that the development may not meet the 50% threshold required by IRC Section 42(h)(4)(B). Any recommended funding will be conditioned on receipt, review, and acceptance, prior to cost certification, of a tax attorney or CPA opinion documenting that the development meets the requirements regarding tax-exempt bond financing set forth in IRC Section 42(h)(4)(B).

Source: City of San Antonio - HOME Loan Type: **Interim to Permanent Financing**

Principal: $1,100,000 Interest Rate: 1.0% ☒ Fixed Term 480 months

Comments:

The Applicant has received from the City of San Antonio a commitment for a $1.1 million HOME loan. Requested terms are a 30 year note with 40 year amortization at 1% simple interest, with payment beginning after deferred developer fees are paid and to the extent payable from cash flow. However, actual terms are not available. The Applicant has indicated that the City will analyze the deal in terms of feasibility and determine if the proposed terms are acceptable.

Source: Bexar County - HOME Loan Type: **Interim to Permanent Financing**

Principal: $300,000 Interest Rate: 0.0% ☒ Fixed Term 240 months

Comments:

The Applicant has received from Bexar County a commitment for a $300,000 HOME loan; actual terms for this loan are not provided, but the Applicant has indicated that terms will be 20 years at 0% interest, payable at maturity.

Source: CPS Energy Type: **Solar Energy rebate**

Principal: $223,549 Conditions: post-construction inspection by CPS Technical Services

Comments:

The Applicant has received a commitment from the utility provider, CPS Energy, to provide a rebate based on CPS' projection of energy savings due to the installation of the solar thermal hot water system.

Source: RBC / Apollo Equity Partners Type: **Solar Energy Credit Syndication**

Proceeds: $108,000 Syndication Rate: 90% Anticipated HTC: $ 120,000

Comments:

The equity letter indicates the investor will pay $0.90 per tax credit dollar for Projected Energy Credits of $120,000.

Source: RBC / Apollo Equity Partners Type: **LIHTC Syndication**

Proceeds: $6,260,390 Syndication Rate: 90% Anticipated HTC: $ 695,738

Comments:

The syndication letter from Apollo Equity Partners / RBC Capital, dated October 17, 2008, indicates a credit price of $0.90 per tax credit dollar.

Amount: $262,634 Type: **GIC Income**

Comments:

The Applicant's most recent sources and uses indicates $262,634 in interest income to be derived from the investment of bond proceeds in a Guaranteed Investment Contract. The previously submitted sources and uses had indicated $108,289 in GIC income. Underwriting guidelines consider GIC income an unreliable source due to the unpredictability of the markets. These funds are considered to be at the Developer's risk, and are therefore added to any deferred developer fee and must be repayable from cash flow.

Amount: $932,827 Type: **Deferred Developer Fees**

Comments:

The Applicant's most recent sources and uses indicates $932,827 in deferred developer fees.

Market Uncertainty:

The financial market for tax credit developments from both a loan and equity perspective are in their greatest period of uncertainty since the early 1990's and fluctuations in pricing and private funding are expected to continue to occur. The Underwriter believes the syndication rate included in the syndicator's commitment letter and the interest rate in the lender's commitment letter are at the utter extremes of the market currently and have a high likelihood of being modified to a lower syndication rate and higher interest rate prior to closing, to the further detriment of the development. Should an award be approved for this development it should be subject to re-review should the terms of financing change.

CONCLUSIONS

Recommended Financing Structure:

The Applicant's proposed financing structure provides the minimum debt coverage ratio of 1.15, but considers debt service on only the primary mortgage. There is insufficient cash flow to repay the deferred developer fees, the proposed $884K in Department funds, and the $1.4 million in funds from San Antonio and Bexar County. Furthermore, Department policy requires that the requested HOME and Housing Trust Fund financing be amortized, which would cause the debt coverage of the project to fall below the minimum ratio of 1.15.

For these reasons, the subject application is not recommended for funding.

Should the Board choose to allocated funds for the subject it should consider an allocation as follows: An allocation of tax credits not to exceed $695,738 annually for ten years A HOME loan of not more than $500,000 and a Housing Trust Fund loan of not more than $384,000. Both the HOME loan and the HTF loan may be fully amortizable over a 30 year period at zero percent interest after a deferral period of five years.

Houston, Texas

Alta Cullen Limited Partnership
240 Units
$14,000,000 Tax Exempt – Series 2008

TABLE OF EXHIBITS

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of the Variable Rate Demand Multifamily Housing Revenue Refunding Bonds Series 2008 for the Alta Cullen Apartments.

Requested Action

Approve, Amend or Deny with Amendments the refunding of Alta Cullen Apartments in Houston, #08616.

Summary of the Alta Cullen Apartments Transaction

Background and General Information: The bonds for the Alta Cullen Apartments were originally issued through TDHCA in April of 2005. The original tax-exempt bond amount was $14,000,000. The original financing structure included privately placed bonds with MMA Financial, LLC providing the permanent mortgage at a fixed rate. The initial interest rate was 6.60%. The development is 240 units and serves the general population.

The applicant is requesting the Department's approval to refund or essentially retire the original bonds and issue new bonds under a different financing structure. Under this new structure, the bonds will be variable rate and credit enhanced by Freddie Mac, carrying a AAA rating with payments to the bondholders guaranteed. Given the instability in the housing economic market, the applicant has indicated that Freddie Mac has committed to provide the credit enhancement financing for applications that were already in their pipeline. The Department has requested a copy of that letter; however, as of the date of this posting that letter has not been received. Additionally, staff notes that MMA Financial was originally going to serve as the servicer on the refunding loan; however, on October 26, 2008 the working group was informed that MMA Financial was assigning the loan over to Wells Fargo due to internal corporate planning reasons.

Organizational Structure and Compliance: The Borrower is Alta Cullen Limited Partnership and the General Partner is Wood Alta Cullen, L.P. of which WP West Development Enterprises GP, LLC has 51% ownership interest and SPUSO5 Wood Partners, LP has 49% ownership interest. The Wood Partners principals include: Warren Durkin, Jr., Ryan Dearborn, Patrick Trask, Bernard Felder, Michael Roche, Stephen Wylie, Gil Dominy, Mark Stegall and the Leonard Wood Family Limited Partnership, L.L.L.P. The Compliance Status Summary completed on October 13, 2008 reveals that the principals of the general partner have received four (4) multifamily awards that have no material noncompliance.

Public Hearing: Because the weighted average maturity of the proposed refunding bonds is not greater than the weighted average maturity of the series 2005 bonds that are being refunded, a TEFRA public hearing is not required.

Census Demographics: The site is located at 3525 South Sam Houston Pkwy, Harris County. Demographics for the census tract (3308.00) include AMFI of $61,424; the total population is 2,773; the percent of the population that is minority is 81.43%; the number of owner occupied units is 754; number of renter occupied units is 154; and the number of vacant units is 71. (Census Information from FFIEC Geocoding for 2008).

Summary of the Financial Structure

The applicant is requesting the Department's approval and issuance of variable rate tax-exempt bonds in an amount not to exceed $14,000,000. The term of the Bonds will be 18 years (based on MMA commitment) with a 35 year amortization. The original underwriting interest rate was estimated at 5.125% which includes 3.50% for the Swap rate, 0.03% for the trustee fee, 0.125% for the Issuer's administration fee, 0.12% remarketing fee and 1.35% Freddie Mac credit enhancement/servicing fee. However, recent discussions with the Borrower indicate that the rate has decreased slightly to 5.07% due to a negotiated discount on the underwriter's remarketing fee. Staff notes that the not to exceed initial interest rate as stated in the bond resolution is 12% which is significantly higher than the maximum initial rate used in prior resolutions. This higher maximum interest rate is used as a precaution due to current market conditions and volatility. In conversations with the bond underwriter it is expected that the initial bond interest rate will be in the low 2% range. The bond interest rate will be hedged by an interest rate swap so that the Borrower will pay a fixed rate currently estimated at 5.07% as previously mentioned.

There will be a Swap Agreement between the Borrower and the swap provider which has not yet been identified. Additionally, there will be a Swap Credit Enhancement Agreement between Freddie Mac and the swap provider. It is anticipated that the Swap will be bid out after receiving Bond Review Board approval. The Department will not be a party to either one of these agreements. The Swap Credit Enhancement Agreement provides that, to the extent the Borrower does not make its fixed rate payment under the Swap Agreement, Freddie Mac will do so. The Swap Agreement will provide payment to the Borrower of a variable rate based on SIFMA applied to a notional amount corresponding to the principal amount of the Bond loan. The Borrower's obligations under the Swap Agreement, which are guaranteed by Freddie Mac under the Swap Credit Enhancement Agreement are not secured by a mortgage. The Borrower's obligation to pay Freddie Mac for any sums advanced by Freddie Mac under the Swap Credit Enhancement Agreement is secured by the second lien reimbursement mortgage in favor of Freddie Mac.

The applicant is requesting 2 years interest only post closing on the refunding of the bonds. According to the applicant this 2 year earn out period is necessary as a result of the increase in expenses relating to the refunding and it will allow for the owner to increase the rents to the maximum rents allowed as leases expire. It is expected that there will be a letter of credit provided by Wood Partners in the amount of $1,660,000, based on the current underwriting, and at the end of the earn-out period the letter of credit will be released.

Recommendation

Staff recommends the Board approve the Variable Rate Demand Multifamily Housing Revenue Refunding Bonds Series 2008 Alta Cullen Apartments in an amount not to exceed $14,000,000.

Staff notes that it is a condition of the Real Estate Analysis report that the Applicant submits to the Department a copy of the final executed Freddie Mac Commitment no later than November 12, 2008. Additionally, the approval is conditioned upon having received an executed commitment from Wells Fargo as the servicer with the amount and terms of the loan clearly stated.

RESOLUTION NO. 09-001

RESOLUTION AUTHORIZING AND APPROVING THE ISSUANCE, SALE AND DELIVERY OF VARIABLE RATE DEMAND MULTIFAMILY HOUSING REVENUE REFUNDING BONDS (ALTA CULLEN APARTMENTS) SERIES 2008; APPROVING THE FORM AND SUBSTANCE AND AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS PERTAINING THERETO; AUTHORIZING AND RATIFYING OTHER ACTIONS AND DOCUMENTS; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development, construction and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low, very low and extremely low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by individuals and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; (d) to make, commit to make, and participate in the making of mortgage loans, including federally insured loans, and to enter into agreements and contracts to make or participate in mortgage loans for residential housing for individuals and families of low, very low and extremely low income and families of moderate income; and

WHEREAS, the Department has previously issued its Multifamily Housing Revenue Bonds (Alta Cullen Apartments) Series 2005 in the aggregate principal amount of $14,000,000 (the "Prior Bonds") pursuant to a Trust Indenture dated as of April 1, 2005 by and between the Department and The Bank of New York Trust Company, N.A., a national banking association; proceeds of the Prior Bonds were used to provide financing for the acquisition, construction and equipping of a 240-unit multifamily rental housing development located in Houston, Harris County, Texas known as the "Alta Cullen Apartments," described in Exhibit A attached hereto (the "Development"); and

WHEREAS, Alta Cullen Limited Partnership (the "Borrower"), a Texas limited partnership, has requested that the Department refinance the Development; and

WHEREAS, the Board has determined to authorize the issuance of the Texas Department of Housing and Community Affairs Variable Rate Demand Multifamily Housing Revenue Refunding Bonds (Alta Cullen Apartments) Series 2008 (the "Bonds"), pursuant to and in accordance with the terms of a Trust Indenture (the "Indenture") by and between the Department and U.S. Bank National Association, a national banking association, as trustee (the "Trustee"), for the purpose of obtaining funds to refinance the

Development (defined below), all under and in accordance with the Constitution and laws of the State; and

WHEREAS, the Department desires to use the proceeds of the Bonds to fund a mortgage loan to the Borrower, in order to refund the Prior Bonds which were issued in order to finance the cost of the Development located within the State and required by the Act to be occupied by individuals and families of low and very low income and families of moderate income, as determined by the Department; and

WHEREAS, it is anticipated that the Department, the Borrower and the Trustee will execute and deliver a Financing Agreement (the "Financing Agreement") pursuant to which (i) the Department will agree to make a mortgage loan funded with the proceeds of the Bonds (the "Bond Mortgage Loan") to the Borrower to enable the Borrower to refund the Prior Bonds and thereby refinance the Development, and (ii) the Borrower will execute and deliver to the Department a promissory note (the "Bond Mortgage Note") in an original principal amount equal to the original aggregate principal amount of the Bonds, and providing for payment of interest on such principal amount equal to the interest on the Bonds and to pay other costs described in the Financing Agreement; and

WHEREAS, it is anticipated that credit enhancement for the Bond Mortgage Loan and liquidity support for the Bonds will be provided for by a Credit Enhancement Agreement between Federal Home Loan Mortgage Corporation (the "Credit Facility Provider") and the Trustee; and

WHEREAS, it is anticipated that the Bond Mortgage Note will be secured by a First Multifamily Deed of Trust, Assignment of Rents and Security Agreement and Fixture Filing (the "Bond Mortgage") by the Borrower for the benefit of the Department; and

WHEREAS, the Department's interest in the Bond Mortgage Loan (except for certain unassigned rights), including the Bond Mortgage Note and the Bond Mortgage, will be assigned to the Trustee, and the exercise of rights thereunder will be governed by an Intercreditor Agreement (the "Intercreditor Agreement") among the Department, the Trustee and the Credit Facility Provider; and

WHEREAS, the Board has determined that the Department, the Trustee and the Borrower will execute an Amended and Restated Regulatory and Land Use Restriction Agreement (the "Regulatory Agreement"), with respect to the Development which will be filed of record in the real property records of Harris County, Texas; and

WHEREAS, the Board has been presented with a draft of, has considered and desires to ratify, approve, confirm and authorize the use and distribution in the public offering of the Bonds of a Preliminary Official Statement (the "Preliminary Official Statement") and to authorize the authorized representatives of the Department to deem the Preliminary Official Statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission and to approve the making of such changes in the Preliminary Official Statement as may be required to provide a final Official Statement (the "Official Statement") for use in the public offering and sale of the Bonds; and

WHEREAS, the Board has further determined that the Department will enter into a Bond Purchase Agreement (the "Bond Purchase Agreement") with the Borrower and Stern Brothers & Co. (the "Underwriter"), and any other parties to such Bond Purchase Agreement as authorized by the execution thereof by the Department, setting forth certain terms and conditions upon which the Underwriter or another party will purchase all or their respective portion of the Bonds from the Department and the Department will sell the Bonds to the Underwriter or another party to such Bond Purchase Agreement; and

WHEREAS, the Board has determined that the Department and the Borrower will execute an Asset Oversight Agreement (the "Asset Oversight Agreement"), with respect to the Development for the purpose of monitoring the operation and maintenance of the Development; and

WHEREAS, the Board has examined proposed forms of (a) the Indenture, the Financing Agreement, the Intercreditor Agreement, the Regulatory Agreement, the Preliminary Official Statement, the Bond Purchase Agreement and the Asset Oversight Agreement (collectively, the "Issuer Documents"), all of which are attached to and comprise a part of this Resolution and (b) the Bond Mortgage and the Bond Mortgage Note; has found the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined, subject to the conditions set forth in Article I, to authorize the issuance of the Bonds, the execution and delivery of the Issuer Documents, the acceptance of the Bond Mortgage and the Bond Mortgage Note and the taking of such other actions as may be necessary or convenient in connection therewith;

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS:

ARTICLE I

ISSUANCE OF BONDS; APPROVAL OF DOCUMENTS

<u>Section 1.1--Issuance, Execution and Delivery of the Bonds</u>. That the issuance of the Bonds is hereby authorized, under and in accordance with the conditions set forth herein and in the Indenture, and that, upon execution and delivery of the Indenture, the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Bonds and to deliver the Bonds to the Attorney General of the State for approval, the Comptroller of Public Accounts of the State for registration and the Trustee for authentication (to the extent required in the Indenture), and thereafter to deliver the Bonds to the order of the initial purchaser or purchasers thereof.

<u>Section 1.2--Interest Rate, Principal Amount, Maturity and Price</u>. That the Chairman or Vice Chair of the Board or the Executive Director or Acting Executive Director of the Department are hereby authorized and empowered, in accordance with Chapter 1371, Texas Government Code, to fix and determine the interest rate, principal amount and maturity of, the redemption provisions related to, and the price at which the Department will sell to the Underwriter or another party to the Bond Purchase Agreement, the Bonds, all of which determinations shall be conclusively evidenced by the execution and delivery by the Chairman or Vice Chair of the Board or the Executive Director or Acting Executive Director of the Department of the Indenture and the Bond Purchase Agreement; <u>provided</u>, <u>however</u>, that (i) the Bonds shall bear interest at the rates determined from time to time by the Remarketing Agent (as such term is defined in the Indenture) in accordance with the provisions of the Indenture; provided that in no event shall the interest rate on the Bonds (including any default interest rate) exceed the maximum interest rate permitted by applicable law; and provided further that the initial interest rate on the Bonds shall not exceed 12%; (ii) the aggregate principal amount of the Bonds shall not exceed $14,000,000; (iii) the final maturity of the Bonds shall occur not later than November 1, 2045; and (iv) the price at which the Bonds are sold to the initial purchaser thereof under the Bond Purchase Agreement shall not exceed 100% of the principal amount thereof.

<u>Section 1.3--Approval, Execution and Delivery of the Indenture</u>. That the form and substance of the Indenture are hereby approved, and that the authorized representatives of the Department named in

this Resolution each are authorized hereby to execute the Indenture and to deliver the Indenture to the Trustee.

Section 1.4--Approval, Execution and Delivery of the Financing Agreement. That the form and substance of the Financing Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Financing Agreement and deliver the Financing Agreement to the Borrower and the Trustee.

Section 1.5--Approval, Execution and Delivery of the Regulatory Agreement. That the form and substance of the Regulatory Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Regulatory Agreement and deliver the Regulatory Agreement to the Borrower and the Trustee and to cause the Regulatory Agreement to be filed of record in the real property records of Harris County, Texas.

Section 1.6--Approval, Execution and Delivery of the Bond Purchase Agreement. That the sale of the Bonds to the Underwriter and any other party to the Bond Purchase Agreement is hereby approved, that the form and substance of the Bond Purchase Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute the Bond Purchase Agreement and to deliver the Bond Purchase Agreement to the Borrower, the Underwriter and any other party to the Bond Purchase Agreement, as appropriate.

Section 1.7--Acceptance of the Bond Mortgage Note and Bond Mortgage. That the form and substance of the Bond Mortgage Note and Bond Mortgage are hereby accepted by the Department and that the authorized representatives of the Department named in this Resolution each are hereby authorized to endorse and deliver the Bond Mortgage Note to the order of the Trustee without recourse.

Section 1.8--Approval, Execution and Delivery of the Intercreditor Agreement. That the form and substance of the Intercreditor Agreement are hereby approved; and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute, attest and affix the Department's seal to the Intercreditor Agreement and to deliver the Intercreditor Agreement to the Trustee and the Credit Facility Provider.

Section 1.9-- Approval, Execution, Use and Distribution of the Preliminary Official Statement and the Official Statement. That the form and substance of the Preliminary Official Statement and its use and distribution by the Underwriter in accordance with the terms, conditions and limitations contained therein are hereby approved, ratified, confirmed and authorized; that the Chairman and Vice Chair of the Governing Board and the Executive Director or the Acting Executive Director of the Department are hereby severally authorized to deem the Preliminary Official Statement "final" for purposes of Rule 15c2-12 under the Securities Exchange Act of 1934; that the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such changes in the Preliminary Official Statement as may be required to provide a final Official Statement for the Bonds and to deem the same as "final" for purposes of the aforementioned Rule 15c2-12; that the authorized representatives of the Department named in this Resolution each are authorized hereby to accept the Official Statement, as required; and that the use and distribution of the Official Statement by the Underwriter hereby is authorized and approved, subject to the terms, conditions and limitations contained therein, and further subject to such amendments or additions thereto as may be required by the Bond Purchase Agreement and as may be approved by the Executive Director or Acting Executive Director of the Department and the Department's counsel.

Section 1.10--Approval, Execution and Delivery of the Asset Oversight Agreement. That the form and substance of the Asset Oversight Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver the Asset Oversight Agreement to the Borrower.

Section 1.11--Taking of Any Action; Execution and Delivery of Other Documents. That the authorized representatives of the Department named in this Resolution each are authorized hereby to take any actions and to execute, attest and affix the Department's seal to, and to deliver to the appropriate parties, all such other agreements, commitments, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests and other papers, whether or not mentioned herein, as they or any of them consider to be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.12--Exhibits Incorporated Herein. That all of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit B - Indenture
Exhibit C - Financing Agreement
Exhibit D - Regulatory Agreement
Exhibit E - Bond Purchase Agreement
Exhibit F - Bond Mortgage
Exhibit G - Bond Mortgage Note
Exhibit H - Intercreditor Agreement
Exhibit I - Preliminary Official Statement
Exhibit J - Asset Oversight Agreement

Section 1.13--Power to Revise Form of Documents. That notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution each are authorized hereby to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative or authorized representatives, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 1.14--Authorized Representatives. That the following persons are each hereby named as authorized representatives of the Department for purposes of executing, attesting, affixing the Department's seal to, and delivering the documents and instruments and taking the other actions referred to in this Article I: Chairman and Vice Chair of the Board, Executive Director or Acting Executive Director of the Department, Deputy Executive Director of Programs of the Department, Deputy Executive Director of Agency Administration of the Department, Director of Financial Administration of the Department, Director of Bond Finance of the Department, Director of Multifamily Finance Production of the Department and the Secretary to the Board.

Section 1.15--Conditions Precedent. That the issuance of the Bonds shall be further subject to, among other things: (a) the Development's meeting all underwriting criteria of the Department, to the satisfaction of the Executive Director of the Department; and (b) the execution by the Borrower and the Department of contractual arrangements satisfactory to the Department staff requiring that community service programs will be provided at the Development.

ARTICLE II

APPROVAL AND RATIFICATION OF CERTAIN ACTIONS

Section 2.1--Approval and Ratification of Application to Texas Bond Review Board. That the Board hereby ratifies and approves the submission of the application for approval of state bonds to the Texas Bond Review Board on behalf of the Department in connection with the issuance of the Bonds in accordance with Chapter 1231, Texas Government Code.

Section 2.2--Approval of Submission to the Attorney General. That the Board hereby authorizes, and approves the submission by the Department's Bond Counsel to the Attorney General of the State, for his approval, of a transcript of legal proceedings relating to the issuance, sale and delivery of the Bonds.

Section 2.3--Certification of the Minutes and Records. That the Secretary to the Board hereby is authorized to certify and authenticate minutes and other records on behalf of the Department for the Bonds and all other Department activities.

Section 2.4--Approval of Requests for Rating from Rating Agency. That the action of the Executive Director or Acting Executive Director of the Department or any successor and the Department's consultants in seeking a rating from Moody's Investors Service, Inc. and/or Standard & Poor's Ratings Services, a Division of The McGraw-Hill Companies, Inc., is approved, ratified and confirmed hereby.

Section 2.5--Authority to Invest Proceeds. That the Department is authorized to invest and reinvest the proceeds of the Bonds and the fees and revenues to be received in connection with the financing of the Development in accordance with the Indenture and to enter into any agreements relating thereto only to the extent permitted by the Indenture.

Section 2.6--Underwriter. That the underwriter with respect to the issuance of the Bonds shall be Stern Brothers & Co.

Section 2.7--Engagement of Other Professionals. That the Executive Director of the Department or any successor is authorized to engage auditors to perform such functions, audits, yield calculations and subsequent investigations as necessary or appropriate to comply with the Bond Purchase Agreement and the requirements of Bond Counsel to the Department, provided such engagement is done in accordance with applicable law of the State.

Section 2.8--Approving Initial Rents. That the initial maximum rent charged by the Borrower for 100% of the units of the Project shall not exceed the amounts attached to the Regulatory Agreement and shall be annually redetermined by the Issuer.

Section 2.9--Ratifying Other Actions. That all other actions taken by the Executive Director of the Department and the Department staff in connection with the issuance of the Bonds and the financing of the Development are hereby ratified and confirmed.

ARTICLE III

CERTAIN FINDINGS AND DETERMINATIONS

Section 3.1--Findings of the Board. That in accordance with Section 2306.223 of the Act and after the Department's consideration of the information with respect to the Development and the information with respect to the proposed financing of the Development by the Department, including but not limited to the information submitted by the Borrower, independent studies commissioned by the Department, recommendations of the Department staff and such other information as it deems relevant, the Board hereby finds:

(a) Need for Housing Development.

(i) that the Development is necessary to provide needed decent, safe, and sanitary housing at rentals or prices that individuals or families of low and very low income or families of moderate income can afford,

(ii) that the financing of the Development is a public purpose and will provide a public benefit, and

(iii) that the Development will be undertaken within the authority granted by the Act to the housing finance division and the Borrower.

(b) Findings with Respect to the Borrower.

(i) that the Borrower, by operating the Development in accordance with the requirements of the Financing Agreement and the Regulatory Agreement, will comply with applicable local building requirements and will supply well-planned and well-designed housing for individuals or families of low and very low income or families of moderate income,

(ii) that the Borrower is financially responsible and has entered into a binding commitment to repay the Bond Mortgage Loan in accordance with its terms, and

(iii) that the Borrower is not, and will not enter into a contract for the Development with, a housing developer that: (A) is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development; (B) breached a contract with a public agency; or (C) misrepresented to a subcontractor the extent to which the developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the developer's participation in contracts with the agency and the amount of financial assistance awarded to the developer by the Department.

(c) Public Purpose and Benefits.

(i) that the Borrower has agreed to operate the Development in accordance with the Financing Agreement and the Regulatory Agreement, which require, among other things, that the Development be occupied by individuals and families of low and very low income and families of moderate income, and

(ii) that the issuance of the Bonds to finance the Development is undertaken within the authority conferred by the Act and will accomplish a valid public purpose and will provide a public benefit by assisting individuals and families of low and very low income and families of moderate income in the State to obtain decent, safe, and sanitary housing by financing the costs of the Development, thereby helping to maintain a fully adequate supply of sanitary and safe dwelling accommodations at rents that such individuals and families can afford.

(d) Potential Savings. The Board has determined that the proposed refunding is in the best interest of the Department and will provide a potential savings in debt payable by the Department. The manner in which the Prior Bonds are being refunded does not make it practicable to make the determination required by Section 1207.008, Texas Government Code.

Section 3.2--Determination of Eligible Tenants. That the Board has determined, to the extent permitted by law and after consideration of such evidence and factors as it deems relevant, the findings of the staff of the Department, the laws applicable to the Department and the provisions of the Act, that eligible tenants for the Development shall be (1) individuals and families of low and very low income, (2) persons with special needs, and (3) families of moderate income, with the income limits as set forth in the Regulatory Agreement.

Section 3.3--Sufficiency of Bond Mortgage Loan Interest Rate. That the Board hereby finds and determines that the interest rate on the Bond Mortgage Loan established pursuant to the Financing Agreement will produce the amounts required, together with other available funds, to pay for the Department's costs of operation with respect to the Bonds and the Development and enable the Department to meet its covenants with and responsibilities to the holders of the Bonds.

Section 3.4--No Gain Allowed. That, in accordance with Section 2306.498 of the Act, no member of the Board or employee of the Department may purchase any Bond in the secondary open market for municipal securities.

Section 3.5--Waiver of Rules. That the Board hereby waives the rules contained in Chapters 33 and 35, Title 10 of the Texas Administrative Code to the extent such rules are inconsistent with the terms of this Resolution and the bond documents authorized hereunder.

ARTICLE IV

GENERAL PROVISIONS

Section 4.1--Limited Obligations. That the Bonds and the interest thereon shall be special limited obligations of the Department payable solely from the trust estate created under the Indenture, including the revenues and funds of the Department pledged under the Indenture to secure payment of the Bonds, and under no circumstances shall the Bonds be payable from any other revenues, funds, assets or income of the Department.

Section 4.2--Non-Governmental Obligations. That the Bonds shall not be and do not create or constitute in any way an obligation, a debt or a liability of the State or create or constitute a pledge, giving or lending of the faith or credit or taxing power of the State. Each Bond shall contain on its face a statement to the effect that the State is not obligated to pay the principal thereof or interest thereon and that neither the faith or credit nor the taxing power of the State is pledged, given or loaned to such payment.

Section 4.3--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 4.4--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting;

that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

PASSED AND APPROVED this 13th day of November, 2008.

EXHIBIT A

DESCRIPTION OF DEVELOPMENT

Section 1. Development and Borrower.

Borrower: Alta Cullen Limited Partnership, a Texas limited partnership

Development: The Development is a 240-unit multifamily facility known as Alta Cullen Apartments and is located at 3525 S. Sam Houston Parkway, Houston, Harris County, Texas 77047. The Development consists of ten (10) three-story residential apartment buildings with approximately 249,348 net rentable square feet and an approximate average unit size of 1,039 square feet. The unit mix consists of:

48	one-bedroom/one-bath units
108	two-bedroom/two-bath units
84	three-bedroom/two-bath units
240	Total Units

Unit sizes range from approximately 740 square feet to approximately 1193 square feet.

The Development includes a community building containing an administration office, fitness center/child's room, computer room, laundry room, kitchen and public restrooms. On-site amenities include a swimming pool, a play area with playground equipment, perimeter fencing, a limited access gate, and a picnic area. All individual units have washer/dryer connections, microwaves, dishwashers, and walk-in closets. Additionally, the Development includes 240 carports and 188 uncovered parking spaces.

Section 2. Project Amenities.

Project Amenities include:

- Washer/Dryer Connections
- Microwave Ovens
- Storage Rooms
- Carports - 240
- Ceiling Fans
- Ceramic Flooring in Entry, Bathroom and Kitchen
- ≥100% Masonry (including stucco and hardiplank)
- Playground and Equipment
- BBQ Grills and Tables (one each per 50 Units)
- Full Perimeter Fencing and Gated Access
- Business / Computer Facilities with internet access
- Child's Play Area
- Workout Facilities
- Laundry Room

General Summary of Comment:

The Department has received no letters of support and no letters of opposition from the community.

CONDITIONS OF COMMITMENT

Per §50.12(c) of the Qualified Allocation Plan and Rules, all Tax Exempt Bond Development Applications "must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. The provision of such services will be included in the Declaration of Land Use Restrictive Covenants ("LURA")."

Board acceptance of the potential mandatory redemption of $1.5M if the earn out provisions are not met in additional two years.

Receipt, review and acceptance, by November 12, 2008, of an executed commitment from Freddie Mac affirming their participation in this transaction.

Receipt, review and acceptance, by November 12, 2008, of an executed commitment from Wells Fargo with the amount and terms of the loan clearly stated.

Should the terms of the financing change, the transaction must be re-evaluated and an adjustment to the allocated amounts may be warranted.

RECOMMENDATION

Staff has evaluated the financial feasibility of the requested refunding. Based on the revised information provided, the transaction would meet the Department's 2008 Real Estate Analysis Rules and Guidelines if approved. Staff recommends approval of the requested refunding of the existing bonds and issuance of $14,000,000 in tax-exempt mortgage revenue bonds with a variable interest rate underwritten at 5.07% and repayment term and amortization period of 35 years. Staff also recommends approval of $610,660 in annual tax credits to the development. Both recommendations are subject to the following conditions:

CONDITIONS

1. Board acceptance of the potential mandatory redemption of $1.5M if the earn out provisions are not met in an additional two years.
2. Receipt, review and acceptance, by November 12, 2008, of a an executed commitment from Freddie Mac affirming their participation in this transaction.
3. Receipt, review and acceptance, by November 12, 2008, of an executed commitment from Wells Fargo with the amount and terms of the loan clearly stated.
4. Should the terms of the financing change, the transaction must be re-evaluated and an adjustment to the allocated amounts may be warranted.

BOND REFUNDING ANALYSIS

This addendum fully evaluates the effects of the requested changes on the financial viability of the transaction and the tax credit allocation. Only those portions of the report that are materially affected are addressed below. This addendum should be read as an addition to the original underwriting report.

The Owner originally received $14,000,000 in tax-exempt bonds issued by the Department and a tax credit allocation of $606,365 in 2004 under application number 04611. The bonds were privately placed with MMA Financial for a term and amortization period of 40 years at a fixed interest rate of 6.6%. An opportunity exists for the Owner to improve the existing financing structure due to the liquidity needs of the current bondholder, MMA Financial. The current existing privately placed bonds do not allow optional redemption prior to June 1, 2022; however, MMA has agreed to waive this provision if the existing bonds are simultaneously redeemed by the proceeds of new refunding bonds.

Of note is that this analysis is based on assumptions that have not yet been confirmed via the required fully executed commitments from the parties involved. The Owner's original refunding request indicated that MMA would remain in this transaction as servicer and lender and that Freddie Mac would credit enhance the borrower's obligations under an interest rate swap agreement. The Department has requested on several occasions documentation of Freddie Mac's participation in this transaction, but has not received such commitment as of this date. Additionally, on October 26, 2008 the Department was notified that MMA will assign the loan over to Wells Fargo as the servicer/lender. The information and underwriting assumptions provided previous to this notification, including executed loan commitments, were from MMA as the proposed lender. While the Owner insists that the underwriting assumptions and loan terms previously provided from MMA will remain the same with Wells Fargo, documentation to support this statement has not been provided as of the date of this addendum.

Therefore, the reader of this addendum should be aware that while staff has made a recommendation for this refunding proposal based on the limited information provided to date, it is a possibility that the amount and terms of the loan could change as this transaction moves along through the approval process with Wells Fargo and Freddie Mac. Any recommendation made in this addendum will be conditioned upon receipt, review and acceptance of a an executed commitment from Freddie Mac affirming their participation in this transaction as well as an executed commitment from Wells Fargo with the amount and terms of the loan clearly stated.

This analysis was completed without this critical documentation based on the Owner's claim that Freddie Mac would only honor their yet to be seen commitment through the end of November and such a delay in the completion of this report would doom the transaction.

The purpose of this analysis is to determine whether the development is financially feasible as a result of the requested refunding. The Owner has submitted the final Cost Certification for the development, which is currently under review by Department staff. Because the allocation has not been finalized this analysis will also make a recommendation regarding the amount of the housing tax credit allocation. The Owner has increased their tax credit request by $4,295 because the total eligible costs experienced were more than originally anticipated. The QAP allows tax-exempt bond developments to request additional tax credits at Cost Certification so long as the final documentation submitted reflects the need for such additional credits.

OPERATING PROFORMA ANALYSIS

Income:

The Owner's potential rent is calculated using the maximum program rents less the Department approved utility allowances for each unit. It should be noted that the Owner's rental estimates are estimates used by MMA that were provided to staff previously. The Owner insisted that the rental projections are accurate as they believe the maximum program limits will be collected on each of the units within two years. The Owner also provided a current rent roll for the property (dated 9/23/08) reflecting that the property is currently collecting less than the program rents. While no specific reasons were provided as to why the property is not currently able to charge the maximum program rents, the Owner assured staff that as leases come up for renewal increases to the rents up to the program limits will be implemented and are achievable. The Underwriter's collected rents were calculated using the maximum program rents less the Department approved utility allowances.

The Owner's estimate of secondary income, at approximately $40/unit/month is significantly higher than the Department's maximum guideline of $15/unit/month. Based on the historical operating statements for the property, is appears that a big portion of this income is generated by what is identified as NSF or late fees. Additionally, the Owner's estimate of vacancy and collection loss of 5.38% is lower than the Department's 7.5% underwriting guideline. The rent roll reflects that the property is currently 96% occupied, therefore, the Underwriter utilized a 6% vacancy and collection loss estimate. Despite the differences discussed above, the Owner's effective gross income is within 5% of the Underwriter's estimate.

Expense:

The Owner's total operating expense estimate of $4,850 per unit is less than 1% lower than the Underwriter's estimate derived from the TDHCA database, IREM data and the development's historical operating statements. The expense estimate is also derived from underwriting assumptions utilized by MMA. While the Owner provided the latest underwriting assumptions completed by Wells Fargo and sent to Freddie Mac for approval (received 11/5/08), the Owner indicated that staff should utilize the budget provided in the MMA underwriting assumptions because Wells Fargo utilized an older budget to derive their estimates and, as a result, would not be as accurate as the MMA underwriting assumptions.

The Owner has offered to escrow for two years supportive services in order to reduce operating expenses for that same time period and thus fund supportive services only if cash flow allows. While the escrow might alleviate the expense initially, the Department's long standing policy has been that supportive services are required and must be funded prior to debt service and the Owner provided no further documentation to support this request under their proposal. Further discussions with the Owner resulted in the Owner withdrawing the request to fund a supportive service reserve. Thus, the Underwriter did not assume an escrow for initial supportive services.

Conclusion:

The Owner's estimates of effective gross income and operating expenses are within 5% of the Underwriter's estimates. However, the Owner's net operating income is not within 5% of the Underwriter's estimate. Therefore, the Underwriter's year one proforma will be used to determine the development's debt service capacity and debt coverage ratio. Based on the financing structure currently in place, the proforma results in a DCR that falls below the Department's 1.15 minimum, which suggests that the property cannot support the full $14M loan amount as currently structured. In order to achieve the Department's minimum 1.15 DCR, the bonds would have to be re-sized by approximately $2.7M, resulting in reduced bond proceeds of $11.3M and a gap of $4.9M that is not covered by the deferred developer fee or payable from 15 year cashflow.

Feasibility:

The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that falls below a 1.15 based on the current financing structure. As discussed above in order to achieve a 1.15 utilizing the current structure, the bonds would have to be re-sized to an amount that results in a significant gap in financing that is more than the developer fee available and is not repayable from cashflow. As a result the development would be characterized as infeasible.

The Applicant is in the process of securing a commitment from Wells Fargo and approval from Freddie Mac that allows $12.5M of the bonds to convert by providing more favorable financing terms and a letter of credit for the remaining $1.5M which would be released upon the property's achievement of the full tax credit rents. The proposed refunding structure includes credit enhancement by Freddie Mac and triple A rating. The proposed refunding structure also includes interest only payments on the full $14M in bonds in order for the Owner to recoup a portion of the refinancing costs associated with the refunding with cash flow during the interest only period.

Based on the favorable financing terms proposed by Wells Fargo, the Underwriter's proforma results in a DCR of 1.21 based only on the debt service for the $12.5M loan. As stated previously, the proposed refunding also includes interest only payments on the full $14M loan amount for the first two years after conversion. Therefore, the Underwriter's proforma includes interest only debt service for the first two years, resulting in a DCR of 1.30 and 1.33 for year one and two, respectively. After the two years and debt service on the full $14M commences, the DCR falls below 1.15 in Years 3 and 4, but increases and remains above a 1.15 DCR in Year 5 and for the long term.

It should be noted that the Department is not at risk with the proposed funds and the additional interest only period is preferable to the possible default that may result if an acceptance restructuring of the transaction does not occur.

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE

Conclusion

The Owner's site work and direct construction costs combined increased by $1.4M from the estimates provided at application. This is offset somewhat by combined decreases in indirect construction costs, developer fees and interim financing fees. Overall, the Owner's final total development construction costs, as certified by the Owner's CPA, are within 5% of the total construction cost estimate at original underwriting; therefore, the Owner's costs will be used to determine the eligible basis and housing tax credit allocation. An eligible basis of $17,514,886 supports annual credits of $610,660. This amount will be compared to the Owner's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

It should be noted that the development was originally awarded a tax credit allocation of $606,365 via the 2004 Determination Notice issued to the Owner. However, the 2008 Qualified Allocation Plan (QAP) allows tax-exempt bond developments to request additional tax credits at Cost Certification so long as the final documentation submitted reflects the need for such additional credits and the required fee is remitted to the Department. As of the date of this addendum the Department has confirmed that the Owner is current with all Department fees.

FINANCING STRUCTURE

SOURCES & USES

Issuer: TDHCA

Source: Wells Fargo Type: **Permanent Bond Financing**

Tax-Exempt: $14,000,000 Interest Rate: 5.07% Synth. Fixed Amort: 420 months

Comments:

The Owner is currently in the process of securing a commitment from Wells Fargo for the proposed refunding. Therefore, any representations made in this analysis is a result of conversations with the Owner and may change as the Owner's refunding application proceeds through the approval process with Wells Fargo and Freddie Mac. The original interest rate stack quoted by MMA (5.085%) included a 3.50% swap rate, plus a fee stack of 1.585%, which includes a 0.02% trustee fee, 0.125% issuer fee, 0.1% remarketing agent fee and 1.34% swap credit enhancement/servicing fee. Recent discussions with the owner indicate, however, that the rate has decreased slightly to 5.07% due to a negotiated discount on the underwriter’s remarketing fee. This report is conditioned upon receipt, review and acceptance, by November 12, 2008, of an executed commitment from Freddie Mac affirming their participation in this transaction as well as an executed commitment from Wells Fargo with the amount and terms of the loan clearly stated.

Source: PNC Type: **Syndication**

Proceeds: $5,430,376 Syndication Rate: 88% Anticipated HTC: $ 617,852

Amount: $2,165,551 Type: **Deferred Developer Fees**

This section intentionally left blank.

CONCLUSIONS

Recommended Financing Structure:

The Owner has anticipated $5,430,376 in syndication proceeds based on a syndication rate of 88% and annual anticipated tax credits of $617,852. This amount of syndication proceeds is supported by the total capital contributions by the investor identified in the Limited Partnership Agreement. The Applicant has only requested $610,660 in tax credits, however. The requested amount is $4,295 or less than 1% more in tax credits than originally awarded to the development in 2004. Therefore, the Underwriter estimates total syndication proceeds to be $5,367,165 based on a syndication rate of 88% and $610,660 in annual tax credits.

The Owner's total development cost estimate less the permanent loan of $14,000,000 indicates the total need for $7,595,927 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $864,242 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Owner's request, $610,660, the gap-driven amount, $864,242, and eligible basis-derived estimate, $610,660, the Owner's request/eligible basis-derived estimate of $610,660 is recommended.

The Underwriter's recommended financing structure indicates the need for $2,228,762 in additional permanent funds. This amounts to 99% of the developer fees available and this amount appears to be repayable from development cashflow within 15 years of stabilized operation.

MULTIFAMILY UNDERWRITING ANALYSIS

Proposed Use of Funds: New construction **Property Type:** Multifamily

Special Purpose (s): General population

RECOMMENDATION

☒ RECOMMEND APPROVAL OF ISSUANCE OF $14,000,000 IN TAX-EXEMPT MORTGAGE REVENUE BONDS WITH A FIXED INTEREST RATE OF 6.6% AND REPAYMENT TERM OF 40 YEARS WITH A 40-YEAR AMORTIZATION PERIOD, SUBJECT TO CONDITIONS.

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $606,365 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Acceptance by the Board of the anticipated likely redemption of up to $250K in bonds at the conversion to permanent;
2. Receipt, review, and acceptance of a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation site work costs, building flood insurance and tenant flood insurance costs prior to the initial closing on the property or provide an engineers map showing the structures to be built one foot above the flood plain upon completion of the site work;
3. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount and or allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

Net Rentable SF:	249,348	**Av Un SF:**	1,039	**Common Area SF:**	3,939	**Gross Bldg SF:**	253,287

STRUCTURAL MATERIALS

The structure will be wood frame on a post-tensioned concrete slab. According to the plans provided in the application the exterior will be comprised as follows: 100% cement fiber siding. The interior wall surfaces will be drywall and the pitched roof will be finished with asphalt composite shingles.

APPLIANCES AND INTERIOR FEATURES

The interior flooring will be a combination of carpeting & vinyl tile. Each unit will include: range & oven, hood & fan, garbage disposal, dishwasher, refrigerator, tile tub/shower, washer & dryer connections, ceiling fans, laminated counter tops, individual water heaters, individual heat pumps, high-speed internet access, & 9-foot ceilings.

ONSITE AMENITIES

A 3,939-square foot community building will include a club room, management offices, sitting room, laundry facilities, a kitchen, restrooms, and a conference center. The community building, swimming pool, and equipped children's play area are located at the entrance to the property. In addition perimeters fencing with limited access gates are planned for the site.

Uncovered Parking:	188	spaces	**Carports:**	240	spaces	**Garages:**	0	spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Alta Cullen is a relatively dense (16 units per acre) new construction development of 240 units of affordable housing located in southeast Houston. The development is comprised of ten sporadically distributed large garden style walk-up residential buildings as follows:

- 2 Building Type I with 12 one-bedroom/one-bath units and 12 two-bedroom/two-bath units;
- 7 Building Type II with 12 two- bedroom/two-bath units and 12 three-bedroom/two-bath units;
- 1 Building Type III with 24 one-bedroom/one-bath units;

Architectural Review: The building and unit plans are of good design, sufficient size, and are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings with simple fenestration.

SITE ISSUES

SITE DESCRIPTION

Size: 15 acres 653,400 square feet **Zoning/ Permitted Uses:** No zoning in Houston

Flood Zone Designation: Zone: AE **Status of Off-Sites:** Partially improved

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The subject site is an irregularly-shaped parcel located in southern Houston approximately eleven miles from the central business district. The site is situated just west of the northwest intersection of South Sam Houston Parkway (Beltway 8) and FM 518 Road.

Adjacent Land Uses:

- **North:** vacant land immediately adjacent and a residential neighborhood beyond;
- **South:** Beltway 8 immediately adjacent and commercial businesses and a residential neighborhood beyond;
- **East:** vacant land immediately adjacent and a residential development under construction beyond; and
- **West:** new extension of Scott Street immediately adjacent and vacant land beyond;

Site Access: Access to the property is from the west along Beltway 8 access road or the north or south from Scott Street. The development is to have one main entry off of Beltway 8 and a secondary entry off of Scott Street. Access to the property is very good. The subject site has excellent access via Beltway 8. From Beltway 8, one can easily connect to Highway 288, Interstate 45 and Highway 59, all of which are major thourghfares into and around Houston proper.

Public Transportation: Metropolitan Transit Authority of Harris County (METRO) does not service the site; however the Metro does have service approximately 2 miles to the north.

Shopping & Services: The site is within several miles of major grocery/pharmacies and a variety of other retail establishments and restaurants. Schools, churches, and hospitals and health care facilities are located within a short driving distance from the site.

Special Adverse Site Characteristics: The following issues have been identified as potentially bearing on the viability of the site for the proposed development:

- **Floodplain:** Receipt, review, and acceptance of a flood hazard mitigation plan to include, at a minimum, consideration and documentation of flood plain reclamation sitework costs, building flood insurance and tenant flood insurance costs prior to the initial closing on the property is a condition of this report.

Site Inspection Findings: TDHCA staff performed a site inspection on October 14, 2004 and found the location to be acceptable for the proposed development.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated September 2004 was prepared by Engineering and Fire Investigations and contained the following findings and recommendations: “Based on the results of our research, observations, and interviews, it is in EFI’s opinion that no evidence of recognized environmental conditions is associated with the Subject Property.” (p. 18) “The subject property is located within a Special Flood Hazard area inundated by the 100-flood.” (p.15)

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside, although as a Priority 1 private activity bond lottery development the Applicant has elected the 100% of units at 60% AMGI due to the fact that they are located in census tract with median income higher than surrounding MSA, PMSA, or county.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$25,620	$29,280	$32,940	$36,600	$39,540	$42,480

MARKET HIGHLIGHTS

A market feasibility study dated August 12, 2004, 2004 was prepared by Apartment MarketData Research Services, LLC ("Market Analyst") and highlighted the following findings:

Definition of Primary Market Area (PMA): The market study described the Primary Market Area (PMA) to be bounded by the southwest corner of Loop 610 to IH 45 to the north, from IH 45 to Beltway 8, then following Clear Creek to FM516 to the east, a straight line from FM 518 to Highway 35 to the southeast, a line from Highway 35 to Harris County Line to the south, and then follow county line up to Post Oak Road, from Post Oak Road to loop 610 to the west. This area encompasses approximately 123.87 square miles and is equivalent to a circle with a radius of 6.28 miles.

Population: The estimated 2003 population of the PMA was 236,630 and is expected to increase by 11% to approximately 263,012 by 2008. Within the primary market area there were estimated to be 78,347 households in 2003.

Total Primary Market Demand for Rental Units: The Market Analyst calculated a total demand of 5,668 qualified households in the PMA, based on the current estimate of 78,347 households, the projected annual growth rate of 2.2%, renter households estimated at 53.7% of the population, income-qualified households estimated at 20.6%, and an annual renter turnover rate of 64.4 %. (p. 43). The Market Analyst used an income band of $23,520 to $39,540.

ANNUAL INCOME-ELIGIBLE SUBMARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	179	3.2%	195	3.3%
Resident Turnover	5,489	96.8%	5,796	96.7%
TOTAL ANNUAL DEMAND	**5,668**	**100%**	**5,991**	**100%**

Ref: p. 45

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 21.9% based upon 5,668 units of demand and 1,239 unstabilized affordable housing in the PMA (including the subject) (p. 45). The Underwriter calculated an inclusive capture rate of 20.7% based upon the same supply of unstabilized comparable affordable units of 1,239, but divided by a revised demand of 5,991.

Market Rent Comparables: The Market Analyst surveyed six comparable apartment projects totaling 1,524 units in the market area.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$589	$604	-$15	$650	-$61
2-Bedroom (60%)	$706	$721	-$15	$775	-$69
3-Bedroom (60%)	$813	$828	-$15	$950	-$137

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The current occupancy of the market area is 92.0% as a result of stable demand. Demand for new rental apartment units is considered to be growing." (p. 81).

Absorption Projections: "We estimate that the project would achieve a lease rate of approximately 7% to 10% of its units per month as they come on line for occupancy from construction." (p. 78).

Market Study Analysis/Conclusions: The Underwriter found the information provided by the Market Analyst to provide sufficient market information on which to base a funding recommendation

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections are lower than the maximum rents allowed under HTC guidelines. There is the potential for additional income (approximately $43.2K) if the Applicant chooses to increase rents to the maximum allowed, and the market study information suggests that the market could support rents at the rent limit maximums. The Applicant overstated secondary income with carport income of an equal amount $43.2K but did not provide additional substantiation for their estimate. As a net result of these differences the Applicant's effective gross income estimate is the same as the Underwriter's estimate.

Expenses: The Applicant's total expense estimate of $3,844 per unit is within 4% of the Underwriter's database-derived estimate of $3,993 per unit for comparably-sized developments. The Applicant's budget shows several line item estimates, however, that deviate significantly when compared to the database averages, particularly general and administrative ($39.2K lower), utilities ($22.1K lower), water, sewer, and trash ($21.1K lower), property tax ($101.3K higher). The Underwriter discussed these differences with the Applicant but was unable to reconcile them further despite additional information provided by the Applicant.

Conclusion: The Applicant's gross income, expenses and net operation income are all within 5% of the Underwriter's estimates. Due to a difference in the calculated debt service, the Underwriter's estimated debt coverage ratio (DCR) of 1.04 is less than the program minimum standard of 1.10. Therefore, the maximum debt service for this project should be limited to $13,750,000 based on the Applicants operating income by a reduction of the loan amount and/or a reduction in the interest rate and/or an extension of the term. The Underwriter has completed this analysis assuming a likely redemption of a portion of the bond amount resulting in a final anticipated bond amount of $13,750,000. Board acknowledgement of such a potential reduction is a condition of this report.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: (15) acres	$990,470	**Assessment for the Year of:**	2004
Tax Rate:	3.84125	**Valuation by:**	Harris County Appraisal District

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Purchase and sale agreement (15 acres)		
Contract Expiration Date:	1/ 31/ 2005	**Anticipated Closing Date:**	1/ 31/ 2005
Acquisition Cost:	$1,687,500	**Other Terms/Conditions:**	Earnest Money - $5,000
Seller:	Concord Casualty/BOA Sorte/Sayland Farms	**Related to Development Team Member:**	No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $1,687,500 ($2.58/SF, $112,500/acre, or $7,031/unit) although in excess of the tax assessed value of $990,470, is assumed to be reasonable since the acquisition is an arm's-length transaction.

Off-Site Costs: The Applicant claimed off-site costs of $521,375 for off-site concrete, storm drains and devices, water and fire hydrants, off-site utilities, off-site paving and grading and landscaping and provided sufficient third party certification through a registered engineer to justify these costs.

Sitework Cost: The Applicant's claimed sitework costs of $6,101 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: Originally the Applicant's costs were 18.8% less than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate. This would suggest that the Applicant's direct construction costs were significantly understated. In response to the Underwriters query the Applicant stated that Marshall & Swift is consistently higher than actual costs. In response to the Underwriters query the Applicant then produced actual costs on Alta Arlington a development they completed in Arlington in July 2004. When the actual cost numbers on Alta Arlington were compared to Marshall & Swift *Residential Cost Handbook* from the same period of time a difference of 17% less for the actual cost numbers was verified. Based on this evidence of performance presented by the Applicant, the Marshall & Swift calculations for the subject property Alta Cullen were adjusted 17% down thus significantly reduced the Underwriters direct construction cost estimate such that the Applicant's cost is now $184K or 2% lower than the Underwriter's adjusted estimate, and is therefore regarded as reasonable as submitted.

Fees: The Applicant's contractor general requirements, contractor general and administrative fees, and contractor profit exceed the 6%, 2%, and 6% maximums allowed by HTC guidelines by $127,465 based on their own construction costs. Consequently the Applicant's eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs. The Applicant's developer fees also exceed 15% of the Applicant's adjusted eligible basis by $19,120 and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount.

Conclusion: The Applicant's total development cost estimate is within 5% of the Underwriter's adjusted estimate and is therefore generally acceptable. Since the Underwriter has been able to verify the Applicant's projected costs to a reasonable margin, the Applicant's total cost breakdown as adjusted by the Underwriter, is used to calculate the eligible basis and determine the HTC allocation. As a result, an eligible basis of $17,531,685 is used to determine a credit allocation of $620,622 from this method. The resulting syndication proceeds will be used to compare to the Applicant's request and to the gap of need using the Applicant's costs to determine the recommended credit amount.

FINANCING STRUCTURE

INTERIM TO PERMANENT BOND FINANCING

Source: MMA Financial **Contact:** Earl Cole, III

Tax-Exempt Amount: $14,000,000 **Interest Rate:** 6.6%

Additional Information: Interim rate of 5.885%

Commitment: ☐ LOI ☐ Firm ☒ Conditional **Date:** 8/ 24/ 2004

APPLICANT EQUITY

Amount: $1,377,041 **Source:** Deferred Developer Fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The tax-exempt bonds are to be issued by TDHCA and purchased by MMA Financial. The permanent financing commitment is consistent with the revised amounts and terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the revised amounts and terms reflected in the sources and uses of funds listed in the application.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,377,041 amount to 60% of the total fees.

Financing Conclusions: Based on the Applicant's estimate of eligible basis, the HTC allocation should not exceed $620,622 annually for ten years; however, as the Applicant has requested only $606,365 this will be the recommended allocation, resulting in syndication proceeds of approximately $5,329,415. Based on the underwriting analysis which suggests an ultimate $250K reduction in debt, the Applicant's deferred developer fee will be increased to $1,567,295, which represents approximately 69% of the eligible fee but should still be repayable from cash flow within ten years. Should the Applicant's final direct construction cost exceed the cost estimate used to determine credits in this analysis, additional deferred developer's fee may be available to fund those development cost overruns though not to the extent identified earlier in the Underwriter's original Marshall & Swift cost analysis. Given the Applicant's track record the potential for such overruns is considered low.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

The Applicant, Developer and General Contractor are all related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The principals of the General Partner, Leonard W. Wood, Warren J. Durkin, Jr., Ryan L. Dearborn and Patrick J. Trask submitted unaudited financial statements as of February 7, 2005 respectively and are anticipated to be guarantors of the development.

Background & Experience:

- Applicant and General Partner are new entities formed for the purpose of developing the project.
- Multifamily Production Finance Staff have verified that the contractor has met the Department's experience requirements and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's direct construction costs differed from the unadjusted Underwriter's *Marshall and Swift*-based estimate by more than 5%.
- The Applicant's total development costs differed from the Underwriter's unadjusted verifiable estimate by more than 5%.

Underwriter: ______________________ **Date:** February 28, 2005

REAL ESTATE ANALYSIS

BOARD ACTION REQUEST
November 13, 2008

Action Items

Final 2009 Real Estate Analysis (REA) Rules:

§1.31 General Provisions
§1.32 Underwriting Rules and Guidelines
§1.33 Market Analysis Rules and Guidelines
§1.34 Appraisal Rules and Guidelines
§1.35 Environmental Site Assessment Rules and Guidelines
§1.36 Property Condition Assessment Guidelines
§1.37 Reserve for Replacement Rules and Guidelines

Required Action

Presentation, Discussion, and Possible Approval for publication in the *Texas Register* of a final order adopting amendments to 10 TAC Chapter 1, Subchapter B, Underwriting, Market Analysis, Appraisal, Environmental Site Assessment, Property Condition Assessment, and Reserve for Replacement Rules and Guidelines

Background

On September 19, 2008 the Draft 2009 Underwriting, Market Analysis, Appraisal, Environmental Site Assessment, Property Condition Assessment, and Reserve for Replacement Rules and Guidelines were published in the *Texas Register*. Upon publication a public comment period commenced, ending on October 20, 2008. In addition to publishing the document in the *Texas Register*, a copy was published on the Department's web site and made available to the public upon request. The Department held public hearings in Houston, El Paso, Dallas, Brownsville, Lubbock and Austin. In addition to comments received at the public hearings, the Department received written comments.

The majority of the proposed changes in the draft 2009 REA Rules involved clarification. However, last year staff added new feasibility criteria to address concentration of all rental units in buildings with 3 or more units as well as a combination of small changes to address flexibility in cases where specific mitigation of feasibility exists. During the 2008 competitive tax credit cycle only two developments out of the 66 that were fully underwritten did not meet the new concentration policy. Both applications had unique mitigating circumstances which allowed a waiver of the rule by the Executive Director. No other applications came close to violating this requirement. Staff believes that the requirement may be redundant with local city policies that may be in effect and, therefore, this requirement is no longer necessary in the rule.

Additionally, changes were made to the Market Study rules for 2009 which primarily affect developments targeting elderly households and the demand calculations thereof. These changes were proposed in collaboration with Market Analysts who attended the August 6, 2008 Market Study Roundtable. Other changes were made to encourage the use of demographic data that is more specific to the target households expected to reside at a particular property.

Due to the limited comment before the draft rules were published and the limited number of changes made these rules were amended rather than repealed. Comment made on areas of the rule that were not proposed to be amended will be held for consideration in 2009 for the 2010 rules.

Reasoned Response to Public Comment on the 2009 Draft Real Estate Analysis (REA) Rules

The Department received the majority of comments in writing by email and fax. This document provides the Department's response to all comments received. After each comment title, numbers are shown in parentheses. These numbers refer to the person or entity that made the comment as reflected in the Addendum.

The comments and responses are divided into the following two sections:
I. Substantive comments on the REA Rules and Departmental response. Comment and responses are presented in the order they appear in the REA Rules.
II. Administrative clarifications and corrections. These include administrative changes made to the REA Rules by staff.

As approved in September 2008, language deleted from the 2008 REA Rules is shown with single strikethrough (i.e., ~~1.10~~) and new language proposed for the 2009 Draft REA Rules is shown with single underline (i.e., 1.15). Language proposed for deletion from the 2009 Draft REA Rules approved on September 4, 2008 is shown in red with double strikethrough (i.e., ~~1.30)~~ and new language proposed is shown in red with double underline (i.e., 1.35).

I. Substantive comments on the REA RULES AND DEPARTMENTAL RESPONSE

§1.31(b)(24) Supportive Services - (58)

Comment: Comment was made suggesting that the QAP use the same definition as that in the Real Estate Analysis Guidelines. (32, 54) Comment was made recommending that the definition of supportive housing be clarified so that the definition, in the QAP and REA Rules, allows supportive housing to be integrated into different types of developments. (58)

Department Response: This request relating to integration into different types of developments warrants further research and additional public comment. Staff will consider this in the draft 2010 QAP. Staff recommends the following change to clarify the definition:

"Supportive Housing: Residential Rental Developments intended for occupancy by individuals or households transitioning from homelessness, at risk of homelessness, or in need of specialized and specific social services."

§1.32(d)(1)(A) Rental Income - (60)

Comment: The commentor contends that the proposed change creates opportunity for subjective rather than objective analysis of a project's financial proposal. Additionally, the change leaves too much room for negotiation on the part of the Underwriter and more finite guidelines for this are recommended. A market study could be used, for example.

Department Response: The Department does use the market study in determining the rental income for a development. However, in some instances the Underwriter has access to more current or accurate information which should be used to assess the appropriateness of the achievable rents. Staff recommends no change at this time but will continue to look for methods of providing more finite guidelines in the future.

§1.32(d)(1)(A)(iii) Gross Program Rents less Utility Allowance or Net Program Rents - (16)

Comment: Commentor suggests adding language specifying that the Utility Allowance must consider any energy efficient provisions of the proposed building that might lead to additional energy savings and thus lower utility costs. Commentor suggests adding a sentence to read:

"The Utility Allowance figures used should take into account any energy efficient measures that will be taken by the Applicant and are verifiable and measurable."

Department Response: Staff concurs with the intent of the proposed change and has included similar language in the utility expense section of the rules (section 1.32(d)(2)) to specify that utility expenses must consider any energy efficient provisions of the proposed building. The section proposed for change by the commentor is a reference to one of the uses of the Utility Allowance rather than the definition of the Utility Allowance (section 1.31(b)(29) which was not proposed for amendment in the draft rule and may need to be re-evaluated for change in the 2010 rules. The change in the location as proposed could result in confusion over the acceptable source for Utility Allowances for different purposes. It should also be noted that the existing definition provides a method for verification of an alternative Utility Allowance.

§1.32(d)(2) Expenses -(60)

Comment: Commentor contends that requiring estimates of utility savings from green building components be documented by experience of third parties not related to the contractor or component vendor will be extremely difficult and costly to find. Vendors are who are most familiar with the energy use of their products and an engineer will charge a substantial fee to make these calculations. Commentor would like to see the Department either provide unbiased information regarding utility savings or allow developers to use the lesser of three calculations provided by vendors.

Department Response: The Department believes it is prudent for the Applicant to have the cost savings of new or untested technologies verified by third parties rather than the purveyor of the product. The rule as proposed does not prohibit the use of multiple independent vendors to provide information to the Applicant and Department even if ultimately, one of the multiple vendors submitting information would be chosen based on the information presented.

§1.32(d)(2) Expenses -(16)

Comment: Commentor is supportive of the added language on green building components but would suggest adding the words ", including on-site renewable energy," after "green building components" as reflected below:

1.32(d)(2)

Expenses. In determining the Year 1 proforma, the Underwriter evaluates the reasonableness of the Applicant's expense estimate by line item comparisons based upon the specifics of each transaction, including the type of Development, the size of the units, and the Applicant's expectations as reflected in their proforma. Historical stabilized certified or audited financial statements of the Development or Third Party quotes specific to the Development will reflect the strongest data points to predict future performance. The Department's database of ~~property~~properties in the same location or region as the proposed Development also provides heavily relied upon data points; the Department's database summary is available on the TDHCA website. Data from the Institute of Real Estate Management's (IREM) most recent Conventional Apartments-Income/Expense Analysis book for the proposed Development's property type and specific location or region may be referenced. In some cases local or project-specific data such as Public Housing Authority ("PHA") Utility Allowances and property tax rates are also given significant weight in determining the appropriate line item expense estimate. Estimates of utility savings from green building components, including on-site renewable energy, must be documented by experience of third parties not related to the contractor or component vendor. Finally, well documented information provided in the Market Analysis, the Application, and other sources may be considered.

Department Response: While the original proposed language did not exclude the commentor's addition, Staff concurs with the proposed change and recommends amending this section as proposed above.

§1.32(d)(2)(I) – Reserves – (58)

Comment: A general comment for the QAP was made that more appropriately is addressed in the REA rules. The comment was made asking the Department to clarify that larger funded reserves can be underwritten in cases where the requirement for such a reserve is documented by a lender or syndication letter.

Department Response: The REA rules require minimum deposits and do not state a maximum. The actual level of funding for reserves is reviewed on an individual basis and adjustments made as warranted by underwriting review and the rule in Section 1.32(d)(2)(l) states "Higher levels of reserves also may be used if they are documented in the financing commitment letters".

§1.32(d)(2)(I) – Reserves – (58)

Comment: Commentor supports the clarification that larger funded reserves can be underwritten in cases where the requirement for such a reserve is documented by a lender or syndicator letter.

Department Response: Staff appreciates support for the amended language and recommends no additional change.

§1.32(d)(5) – Long Term Proforma – (38)

Comment: The commenter suggests reconsideration of the proposed changes to this rule that will reduce both the annual growth factor for expenses and income by one percent. Commentor contends that the amendment has the effect of projecting that the annual growth rate in expenses will be 50% bigger than the growth rate in income, whereas under the current rules the difference is only 33.3%. This cumulative change can become quite significant over the period of 15 to 30 years. The Commentor requests that the Department keep the growth factor proportional and recommends reducing the growth factor for expenses to 2.66% while keeping the growth factor for income at 2%.

Department Response: In formulating the amendment Staff informally surveyed a wide variety of lenders and syndicators for best practices and found the most common rates to be 3%/4% and 2%/3% with a definite trend toward 2%/3% as underwriting standards tighten. Shifting to the Commentor's proposed 2%/2.66% would effectively loosen underwriting standards compared to the Department's historical 3%/4% because it would allow for even higher than historical levels of deferred developer fee. Staff recommends no change to the amended language proposed in the draft, but if a change is made a return to the original 3%/4% would be more prudent.

§1.32(e)(4)(A) – Direct Construction Costs – (60)

Comment: Commenter requested specific clarification of the published data sources the Department intends to use and to provide that information to developers and applicants.

Department Response: The Department currently utilizes Marshall and Swift's "Residential Cost Handbook" primarily to estimate direct construction costs for new construction applications, and anticipates that the Department will continue to do so. However, given concerns regarding the limitation of use of this data source in the past staff also wanted the flexibility to explore other published data sources. As these other sources are used they will be referenced in the Underwriting report and opportunity for reconciliation by developers and applicants will be provided if necessary.

§1.32(e)(6) – Contractor Fee – (17)

Comment: Commenter contends that the current limits on contractor fees (6% for general requirements and 2% for overhead, respectively) are too low for smaller rural deals and make it more difficult for these deals to get done. Commentor suggests implementing a tiered system with an additional 2% contractor fee for applications whose total costs are lower than $3,000,000 and an additional 4% for applications who total costs are lower than $2,000,000.

Department Response: Staff did not amend this section of the rule and is not recommending a change at this time but recommends studying the proposal for possible inclusion in the 2010 rules. Staff notes the current rule allows 14% fees for all contractor fees including general requirements, overhead and profit which can be distributed among those three categories as needed.

§1.32(e)(7)(A) – Developer Fee – (49)

Comment: Commenter contends that developers of Supportive Housing must do more work than ordinary developers because these transactions require layers of financing not required of typical tax credit developments. Supportive Housing developers also assume greater risk because their residents are often extremely low-income and unable to pay rent without subsidies. The agency currently allows developer fee to be 20% for developments proposing 49 units or less, and should also allow developer fee to be 20% for Supportive Housing developers.

Department Response: Staff did not amend this section of the rule and is not recommending a change at this time but recommends studying the proposal for possible inclusion in the 2010 rules. Staff notes that while some additional risk exists with Supportive Housing developments, the Department's existing rules provides significant reduction in several areas of risk by allowing more flexible financial feasibility criteria and by allowing Supportive Housing transactions with no loans and thus no repayment risk.

§1.32(i) – Feasibility Conclusion – (61)

Comment: Commentor requests that the Executive Director have the ability to waive all feasibility criteria. Specifically, the commentor indicates that the Deferred Developer Fee criteria be included as a criteria that can be waived by the Executive Director because this issue is ultimately an investor decision. How long an investor is willing to live with the developer fee being deferred should be taken into account when determining if a development is feasible.

Department Response: Section 1.32(i)(6)(A) provides the Executive Director the authority to waive, on appeal, the characterization of infeasibility in the underwritng report on a case by case basis for all 5 feasibility conclusions but it does not require that the underwriting conclusion be changed in the original report. Section 1.32(i) dicates the Underwriter's feasibility conclusion but provides for exception criteria in Section 1.32(i)(6). This reference may be confusing and should be clarified to reference (6)(B) and Staff recommends the following change:

(i) Feasibility Conclusion. An infeasible Development will not be recommended for funding or allocation unless the Underwriter can determine a plausible alternative feasible financing structure and conditions the recommendations of the report upon receipt of documentation supporting the alternative feasible financing structure. A development will be characterized as infeasible if paragraph (1~~), ~~) or (2) ~~or (3) ~~of this subsection applies. The Development will be characterized as infeasible if one or more of paragraphs (~~4~~3)-(~~6~~5) of this subsection applies unless paragraph (~~7~~6)(B) of this subsection also applies.

§1.32(i)(1) – Inclusive Capture Rate – (61)

Comment: Commentor indicates that the current capture rate rules, as written, may create unintended issues for developments proposing four bedroom single family houses for rent with the primary market area being limited to 100,000 persons. Commentor recommends that four bedroom single family homes, for capture rate puposes in 2009, be treated like Senior developments where the primary market area population be determined using areas populated by up to 250,000 people and the capture rate increased to 75%. The commentor further states that the demand for these homes has been proven and there is a strong public purpose for this modification.

Department Response: Staff did not amend this section of the rule however an amendment to the Market Study rules was made to equalize the popluation limit allowed for developments targeting elderly and family households. Data collected by the Department revealed that a majority of households for a development came from the development's zip code or immediately adjacent zip code supporting the primary market area limit as amended. Staff recommends no additional change.

§1.32(i)(2) – Concentration Rate – (49)

Comment: Commentor indicates that the site and neighborhood regulation is difficult for developers to understand and implement in their site selection decision-making. The current Concentration Rate regulation prohibits sites in densely developed areas, but allows sites in areas that would be prohibited by federal site and neighborhood standards as defined by the U.S. Department of Housing and Urban Development (HUD). The commentor recommends that the Department replace the Concentration Rate rule with a rule that requires compliance with HUD site and neighborhood standards.

Department Response: Staff concurs and has amended the rule to delete the Concentration Rate feasibility criteria in the draft rules for 2009 since concentration issues are likely to be addressed through local city policy. Staff recommends no additional change.

§1.33(a) Market Analysis Rules General Provisions - (16)

Comment: Commentor suggests the Department include language to clarify that the market analysis should examine both rents and expected utility costs. The commentor suggests the following language be added:

> (a) **General Provision.** A Market Analysis prepared for the Department must evaluate the need for decent, safe, and sanitary housing at rental rates or sales prices that eligible tenants can afford, including the expected costs of utilities. The analysis must determine the feasibility of the subject Property rental rates or sales price and state conclusions as to the impact of the Property with respect to the determined housing needs. The Market Analysis must include a statement that the report preparer has read and understood the requirements of this section.

Department Response: Staff agrees with the commentor's sentiment but has not proposed any amendments to this section of the rule and believes that the suggested change is redundant with the Rental Income Section 1.32(d)(1)(A).

§1.33(d)(9) and (10) Market Information and Conclusions - (16)

Comment: Commentor suggests that more specific guidelines for including the cost of utililties in the market analysis could be referenced in these sections, but gave no specific language to include.

Department Response: Staff believes specific guidance is given in the determination of rental income and utilities expenses as discussed previously. No additional changes are recommended.

§1.34(d)(7)(D) Description of Improvements - (31)

Comment: Commentor suggests the following language be added:

> **Description of Improvements.** Provide a thorough description and analysis of the improvements including size (net rentable area, gross building area, etc.), number of stories, number of buildings, type/quality of construction, condition, actual age, effective age, exterior and interior amenities, items of deferred maintenance, energy efficiency measures, including green building and on-site renewable energy, etc. All applicable forms of depreciation should be addressed along with the remaining economic life.

Department Response: Staff recommended no amendments to this section of the rule and believes the suggested change is redundant with the immediately preceeding reference to energy efficient measures. Staff recommends no additional change.

II. ADMINISTRATIVE CLARIFICATIONS AND CORRECTIONS

Staff requests the Board’s approval to make administrative changes as needed for consistency within the REA Rules as well as with other Department Rules. These changes would include, but are not limited to correcting references to other rules such as specific sections of the QAP, capitalization of defined terms and correcting typographical mistakes, etc.

Real Estate Analysis Division

~~2008~~ 2009 Real Estate Analysis Rules

§1.31 General Provisions

(a) **Purpose.** The Rules in this subchapter apply to the underwriting, market analysis, appraisal, environmental site assessment, property condition assessment, and reserve for replacement standards employed by the Texas Department of Housing and Community Affairs (the "Department" or "TDHCA"). This chapter provides rules for the underwriting review of an affordable housing development's financial feasibility and economic viability that ensures the most efficient allocation of resources while promoting and preserving the public interest in ensuring the long-term health of the Department's portfolio. In addition, this chapter guides the underwriting staff in making recommendations to the Executive Award and Review Advisory Committee ("the Committee"), Executive Director, and TDHCA Governing Board ("the Board") to help ensure procedural consistency in the determination of Development feasibility (§2306.0661(f) and §2306.6710(d), Texas Government Code). Due to the unique characteristics of each development the interpretation of the rules and guidelines described in this subchapter is subject to the discretion of the Department and final determination by the Board.

(b) **Definitions.** Those ~~Terms~~ terms used in this subchapter that are also defined in Chapter 50 of this title (the Department's Housing Tax Credit Program Qualified Allocation Plan and Rules, known as the "QAP") have the same meaning" as in the QAP. Those terms that are not defined in the QAP or which may have another meaning when used in this ~~Subchapter~~ subchapter ~~B of this chapter,~~ shall have the meanings set forth in §1.32(b) of this subchapter.

(1) **Affordable Housing**--Housing that has been funded through one or more of the Department's programs or other local, state or federal programs or has at least one unit that is restricted in the rent that can be charged either by a Land Use Restriction Agreement or other form of Deed Restriction.

(2) **Bank Trustee**--A bank authorized to do business in this state, with the power to act as trustee.

(3) **Cash Flow**--The funds available from operations after all expenses and debt service required to be paid has been considered.

(4) **Credit Underwriting Analysis Report**--Sometimes referred to as the "Report." A decision making tool used by the Department and Board containing a synopsis and reconciliation of the application information submitted by the Applicant.

(5) **Comparable Unit**--A Unit, when compared to the subject Unit, similar in overall condition, unit amenities, utility structure, and common amenities, and

(A) for purposes of calculating the inclusive capture rate targets the same population and is likely to draw from the same demand pool;

(B) for purposes of estimating the Restricted Market Rent targets the same population and is similar in net rentable square footage and number of bedrooms; or

(C) for purposes of estimating the subject Unit market rent does not have any income or rent restrictions and is similar in net rentable square footage and number of bedrooms.

(6) **Contract Rent**--Maximum rent limits based upon current and executed rental assistance contract(s), typically with a federal, state or local governmental agency.

(7) **DCR**--Debt Coverage Ratio. Sometimes referred to as the "Debt Coverage" or "Debt Service Coverage." A measure of the number of times loan principal and interest are covered by Net Operating Income.

(8) **Development**--Sometimes referred to as the "Subject Development." Multi-unit residential housing that meets the affordability requirements for and requests or has received funds from one or more of the Department's sources of funds.

(9) **EGI**--Effective Gross Income. The sum total of all sources of anticipated or actual income for a rental Development less vacancy and collection loss, leasing concessions, and rental income from employee-occupied units that is not anticipated to be charged or collected.

(10) **ESA**--Environmental Site Assessment. An environmental report that conforms with the Standard Practice for Environmental Site Assessments: Phase I Assessment Process (ASTM Standard Designation: E 1527) and conducted in accordance with the Department's Environmental Site Assessment Rules and Guidelines in §1.35 of this subchapter as it relates to a specific Development.

(11) **First Lien Lender**--A lender whose lien has first priority.

(12) **Gross Program Rent**--Sometimes called the "Program Rents." Maximum rent limits based upon the tables promulgated by the Department's division responsible for compliance which are developed by program and by county or Metropolitan Statistical Area ("MSA") or Primary Metropolitan Statistical Area ("PMSA") or national non-metro area.

(13) **Market Analysis**--Sometimes referred to as "Market Study." An evaluation of the economic conditions of supply, demand and rental rates or pricing conducted in accordance with the Department's Market Analysis Rules and Guidelines in §1.33 of this subchapter as it relates to a specific Development.

(14) **Market Analyst**-- Any person who prepares a market study.

(15) **Market Rent**--The unrestricted rent concluded by the Market Analyst for a particular unit type and size after adjustments are made to rents charged by owners of Comparable Units.

(16) **NOI**--Net Operating Income. The income remaining after all operating expenses, including replacement reserves and taxes have been paid.

(17) **Primary Market**--Sometimes referred to as "Primary Market Area" or "Submarket" or "PMA". The area defined by the Qualified Market Analyst as described in §1.33(d)(8) of this title from which a proposed or existing Development is most likely to draw the majority of its prospective tenants or homebuyers.

(18) **PCA**--Property Condition Assessment. Sometimes referred to as "Physical Needs Assessment," "Project Capital Needs Assessments," "Property Condition Report," or "Property Work Write-Up." An evaluation of the physical condition of the existing property and evaluation of the cost of rehabilitation conducted in accordance with the Department's Property Condition Assessment Rules and Guidelines in §1.36 of this title as it relates to a specific Development.

(19) **Qualified Market Analyst**-- A real estate appraiser certified or licensed by the Texas Appraiser Licensing and Certification Board, a real estate consultant, or other professional currently active in the subject property's market area who demonstrates competency, expertise, and the ability to render a high quality written report. The individual's performance, experience, and educational background will provide the general basis for determining competency as a Market Analyst. Competency will be determined by the Department, in its sole discretion. The Qualified Market Analyst must be a Third Party.

(20) **Rent Over-Burdened Households**--Non-elderly households paying more than 35% of gross income towards total housing expenses (unit rent plus utilities) and elderly households paying more than ~~40~~50% of gross income towards total housing expenses.

(21) **Reserve Account**--An individual account:

(A) Created to fund any necessary repairs for a multifamily rental housing development; and

(B) Maintained by a First Lien Lender or Bank Trustee.

(22) **Restricted Market Rent**--The restricted rent concluded by the Qualified Market Analyst for a particular unit type and size after adjustments are made to rents charged by owners of Comparable Units with the same rent and income restrictions.

(23) **Secondary Market**--Sometimes referred to as "Secondary Market Area". The area defined by the Qualified Market Analyst as described in §1.33(d)(7) of this title.

(24) **Supporting Housing**--~~Sometimes referred to as "Transitional Housing." Rental housing~~Residential Rental Developments intended ~~solely~~ for occupancy by individuals or households

transitioning from homelessness, at risk of homelessness, or in need of specialized and specific social services~~, to more stable, productive lives by offering residents an array of supportive services or abusive situations to permanent housing and typically consisting primarily of efficiency units~~.

(25) **Sustaining Occupancy**--The occupancy level at which rental income plus secondary income is equal to all operating expenses and mandatory debt service requirements for a Development.

(26) **TDHCA Operating Expense Database**--Sometimes referred to as "TDHCA Database." A consolidation of recent actual operating expense information collected through the Department's Annual Owner Financial Certification process, as required and described in Subchapter A of Chapter 60 of this title, and published on the Department's web site.

(27) **Underwriter**--The author(s), as evidenced by signature, of the Credit Underwriting Analysis Report.

(28) **Unstabilized Development**-- A Development with Comparable Units that has been approved for funding by the TDHCA Board or is currently under construction or has not maintained a 90% occupancy level for at least 12 consecutive months following construction completion.

(29) **Utility Allowance**--The estimate of tenant-paid utilities, based either on the most current HUD Form 52667, "Section 8, Existing Housing Allowance for Tenant-Furnished Utilities and Other Services," provided by the local entity responsible for administering the HUD Section 8 program with most direct jurisdiction over the majority of the buildings existing, a documented estimate from the utility provider proposed in the Application, or for an existing development an allowance calculated by the Department pursuant to Chapter §60.109 of this title. Documentation from the local utility provider to support an alternative calculation can be used to justify alternative Utility Allowance conclusions but must be specific to the subject Development and consistent with the building plans provided.

(30) **Work Out Development**--A financially distressed Development seeking a change in the terms of Department funding or program restrictions based upon market changes.

(c) **Appeals.** Certain programs contain express appeal options. Where not indicated, ~~10 Tex. Admin. Code §~~§1.7 and §1.8 of this Chapter include general appeal procedures. In addition, the Department encourages the use of Alternative Dispute Resolution methods as outlined in ~~10 TAC~~ §1.17 of this Chapter.

§1.32. Underwriting Rules and Guidelines.

(a) **General Provisions.** The Department Governing Board has authorized the development of these rules under its authority under §2306.148, Texas Government Code. The rules provide a mechanism to produce consistent information in the form of an Underwriting Report to provide interested parties information the Board relies upon in balancing the desire to assist as many Texans as possible by providing no more financing than necessary and have independent verification that Developments are economically feasible. The Report should consider all information timely provided by the Applicant. The Report generated in no way guarantees or purports to warrant the actual performance, feasibility, or viability of the Development by the Department.

(b) **Report Contents.** The Report provides an organized and consistent synopsis and reconciliation of the application information submitted by the Applicant. The Report should consider only information that is provided in accordance with the time frames provided in the current QAP, Program Rules or Notice of Funds Availability as appropriate. The Report should also identify the number of revisions and date of most current revision to any information deemed to be relevant by the Underwriter.

(c) **Recommendations in the Report.** The conclusion of the Report includes a recommended award of funds or allocation of Tax Credits based on the lesser amount calculated by the program limit method (if applicable), gap/DCR method, or the amount requested by the Applicant as further described in paragraphs (1) - (3) of this subsection, and states any feasibility conditions to be placed on the award.

(1) **Program Limit Method.** For Developments requesting Housing Tax Credits, this method is based upon calculation of Eligible Basis after applying all cost verification measures and program limits as described in this section. The Applicable Percentage used is as defined in the QAP. For Developments requesting funding through a Department program other than Housing Tax Credits, this method is based upon calculation of the funding limit based on current program rules at the time of underwriting.

(2) **Gap/DCR Method.** This method evaluates the amount of funds needed to fill the gap created by total development cost less total non-Department-sourced funds or Tax Credits. In making this determination, the Underwriter resizes any anticipated deferred developer fee down to zero before reducing the amount of Department funds or Tax Credits. In the case of Housing Tax Credits, the syndication proceeds needed to fill the gap in permanent funds are divided by the syndication rate to determine the amount of Tax Credits. In making this determination, the Department adjusts the

permanent loan amount and/or any Department-sourced loans, as necessary, such that it conforms to the DCR standards described in this section.

(3) **The Amount Requested.** The amount of funds that is requested by the Applicant as reflected in the Application documentation.

(d) **Operating Feasibility.** The operating financial feasibility of Developments funded by the Department is tested by adding total income sources and subtracting vacancy and collection losses and operating expenses to determine Net Operating Income. This Net Operating Income is divided by the annual debt service to determine the Debt Coverage Ratio. The Underwriter characterizes a Development as infeasible from an operational standpoint when the Debt Coverage Ratio does not meet the minimum standard set forth in paragraph (4)(D) of this subsection. The Underwriter may choose to make adjustments to the financing structure, such as lowering the debt and increasing the deferred developer fee that could result in a re-characterization of the Development as feasible based upon specific conditions set forth in the Report.

(1) **Income.** In determining the Year 1 proforma, the Underwriter evaluates the reasonableness of the Applicant's income estimate by determining the appropriate rental rate per unit based on contract, program and market factors. Miscellaneous income and vacancy and collection loss limits as set forth in subparagraphs (B) and (C) of this paragraph, respectively, are applied unless well-documented support is provided.

(A) **Rental Income.** The Underwriter will calculate the appropriate rent on a conservative or Contract Rent basis for comparison to the Applicant's estimate in the Application. The conservative basis for a restricted unit is the lesser of the Gross Program Rent less Utility Allowances ("Net Program Rent") or Restricted Market Rent. The conservative basis for an unrestricted unit is the lesser of the Market Rent or Applicant's projected rent where the Applicant's projected rent is reasonable to the Underwriter. ~~'~~Where Contract Rents are included, they will be used regardless of the conservative basis derived rent"".

(i) **Market Rents.** The Underwriter reviews the attribute adjustment matrix of Comparable Units by unit size provided by the Market Analyst and determines if the adjustments and conclusions made are reasoned and well documented. The Underwriter uses the Market Analyst's conclusion of adjusted Market Rent by unit, as long as the proposed Market Rent is reasonably justified and does not exceed the highest existing unadjusted market comparable rent. Random checks of the validity of the Market Rents may include direct contact with the comparable properties. The Market Analyst's attribute adjustment matrix should include, at a minimum, adjustments for location, size, amenities, and concessions as more fully described in §1.33 of this subchapter.

(ii) **Restricted Market Rent.** The Underwriter reviews the attribute adjustment matrix of Comparable Units by unit size and income and rent restrictions provided by the Market Analyst and determines if the adjustments and conclusions made are reasoned and well documented. The Underwriter uses the Market Analyst's conclusion of adjusted Restricted Market Rent by unit, as long as the proposed Restricted Market Rent is reasonably justified and does not exceed the highest existing unadjusted market comparable restricted rent. Random checks of the validity of the Restricted Market Rents may include direct contact with the comparable properties. The Market Analyst's attribute adjustment matrix should include, at a minimum, adjustments for location, size, amenities, and concessions as more fully described in §1.33 of this title.

(iii) Gross **Program Rents less Utility Allowance or Net Program Rents.** The Underwriter reviews the Applicant's proposed rent schedule and determines if it is consistent with the representations made in the remainder of the Application. The Underwriter uses the Gross Program Rents as promulgated by the Department's division responsible for compliance for the year that is most current at the time the underwriting begins. When underwriting for a simultaneously funded competitive round, all of the Applications are underwritten with the rents promulgated for the same year. Gross Program Rents are reduced by the Utility Allowance. ~~The Utility Allowance figures used are determined based upon what is identified in the Application by the Applicant as being a utility cost paid by the tenant and upon other consistent documentation provided in the Application.~~

(I) Units must be individually metered for all utility costs to be paid by the tenant.

(II) Gas utilities are verified on the building plans and elsewhere in the Application when applicable.

(III) Trash allowances paid by the tenant are rare and only considered when the building plans allow for individual exterior receptacles.

(IV) Refrigerator and range allowances are not considered part of the tenant-paid utilities unless the tenant is expected to provide their own appliances, and no eligible appliance costs are included in the development cost breakdown.

(iv) **Contract Rents.** The Underwriter reviews submitted rental assistance contracts to determine the Contract Rents currently applicable to the Development. Documentation supporting the likelihood of continued rental assistance is also reviewed. The underwriting analysis will take into consideration the Applicant's intent to request a Contract Rent increase. At the discretion of the Underwriter, the Applicant's proposed rents may be used in the underwriting analysis with the recommendations of the Report conditioned upon receipt of final approval of such increase.

(B) **Miscellaneous Income.** All ancillary fees and miscellaneous secondary income, including but not limited to late fees, storage fees, laundry income, interest on deposits, carport rent, washer and dryer rent, telecommunications fees, and other miscellaneous income, are anticipated to be included in a $5 to $15 per unit per month range. Exceptions may be made at the discretion of the Underwriter for garage income, pass-through utility payments, pass-through water, sewer and trash payments, cable fees, congregate care/assisted living/elderly facilities, and child care facilities.

(i) Exceptions must be justified by operating history of existing comparable properties.

(ii) The Applicant must show that the tenant will not be required to pay the additional fee or charge as a condition of renting an apartment unit and must show that the tenant has a reasonable alternative.

(iii) The Applicant's operating expense schedule should reflect an offsetting cost associated with income derived from pass-through utility payments, pass-through water, sewer and trash payments, and cable fees.

(iv) Collection rates of exceptional fee items will generally be heavily discounted.

(v) If the total secondary income is over the maximum per unit per month limit, any cost associated with the construction, acquisition, or development of the hard assets needed to produce an additional fee may also need to be reduced from Eligible Basis for Tax Credit Developments as they may, in that case, be considered to be a commercial cost rather than an incidental to the housing cost of the Development.

(C) **Vacancy and Collection Loss.** The Underwriter uses a vacancy rate of 7.5% (5% vacancy plus 2.5% for collection loss) unless the Market Analysis reflects a higher or lower established vacancy rate for the area. Elderly and 100% project-based rental subsidy Developments and other well documented cases may be underwritten at a combined 5% at the discretion of the Underwriter if the historical performance reflected in the Market Analysis is consistently higher than a 95% occupancy rate.

(D) **Effective Gross Income.** The Underwriter independently calculates EGI. If the EGI figure provided by the Applicant is within 5% of the EGI figure calculated by the Underwriter, the Applicant's figure is characterized as reasonable in the Report; however, for purposes of calculating DCR the Underwriter will maintain and use its independent calculation unless the Applicant's proforma meets the requirements of paragraph (3) of this subsection.

(2) **Expenses.** In determining the Year 1 proforma, the Underwriter evaluates the reasonableness of the Applicant's expense estimate by line item comparisons based upon the specifics of each transaction, including the type of Development, the size of the units, and the Applicant's expectations as reflected in their proforma. Historical stabilized certified or audited financial statements of the Development or Third Party quotes specific to the Development will reflect the strongest data points to predict future performance. The Department's database of ~~property~~ properties in the same location or region as the proposed Development also provides heavily relied upon data points; the Department's database summary is available on the TDHCA website. Data from the Institute of Real Estate Management's (IREM) most recent Conventional Apartments-Income/Expense Analysis book for the proposed Development's property type and specific location or region may be referenced. In some cases local or project-specific data such as Public Housing Authority ("PHA") Utility Allowances and property tax rates are also given significant weight in determining the appropriate line item expense estimate. Estimates of utility savings from green building components, including on-site renewable energy, must be documented by experience of third parties not related to the contractor or component vendor. Finally, well documented information provided in the Market Analysis, the Application, and other sources may be considered.

(A) **General and Administrative Expense.** General and Administrative Expense includes all accounting fees, legal fees, advertising and marketing expenses, office operation, supplies, and equipment expenses. The underwriting tolerance level for this line item is 20%.

(B) **Management Fee.** Management Fee is paid to the property management company to oversee the effective operation of the property and is most often based upon a percentage of Effective Gross Income as documented in the management agreement contract. Typically, 5% of the Effective Gross Income is used, though higher percentages for rural transactions that are consistent with the TDHCA Database can be concluded. Percentages as low as 3% may be utilized if documented by a fully executed management contract agreement with an acceptable management company. The Underwriter will require documentation for any percentage difference from the 5% of the Effective Gross Income standard.

(C) **Payroll and Payroll Expense.** Payroll and Payroll Expense includes all direct staff payroll, insurance benefits, and payroll taxes including payroll expenses for repairs and maintenance typical of a conventional development. It does not, however, include direct security payroll or additional supportive services payroll. The underwriting tolerance level for this line item is 10%.

(D) **Repairs and Maintenance Expense.** Repairs and Maintenance Expense includes all repairs and maintenance contracts and supplies. It should not include extraordinary capitalized expenses that would result from major renovations. Direct payroll for repairs and maintenance activities are included in payroll expense. The underwriting tolerance level for this line item is 20%.

(E) **Utilities Expense (Gas & Electric).** Utilities Expense includes all gas and electric energy expenses paid by the owner. It includes any pass-through energy expense that is reflected in the EGI. The underwriting tolerance level for this line item is 30%.

(F) **Water, Sewer and Trash Expense.** Water, Sewer and Trash Expense includes all water, sewer and trash expenses paid by the owner. It would also include any pass-through water, sewer and trash expense that is reflected in the EGI. The underwriting tolerance level for this line item is 30%.

(G) **Insurance Expense.** Insurance Expense includes any insurance for the buildings, contents, and liability but not health or workman's compensation insurance. The underwriting tolerance level for this line item is 30%.

(H) **Property Tax.** Property Tax includes all real and personal property taxes but not payroll taxes. The underwriting tolerance level for this line item is 10%.

(i) The per unit assessed value will be calculated based on the capitalization rate published on the county taxing authority's website. If the county taxing authority does not publish a capitalization rate on the internet, a capitalization rate of 10% will be used or comparable assessed values may be used in evaluating this line item expense.

(ii) Property tax exemptions or proposed payment in lieu of tax agreement (PILOT) must be documented as being reasonably achievable if they are to be considered by the Underwriter. At the discretion of the Underwriter, a property tax exemption that meets known federal, state and local laws may be applied based on the tax-exempt status of the Development Owner and its Affiliates.

(I) **Reserves.** Reserves include annual reserve for replacements of future capitalizable expenses as well as any ongoing additional operating reserve requirements. The Underwriter includes minimum reserves of $250 per unit for new construction and $300 per unit for all other Developments. The Underwriter may require an amount above $300 for Developments other than new construction based on information provided in the PCA. The Applicant's expense for reserves may be adjusted by the Underwriter if the amount provided by the Applicant is insufficient to fund future capital needs as documented by the PCA. Higher levels of reserves also may be used if they are documented in the financing commitment letters.

(J) **Other Expenses.** The Underwriter will include other reasonable and documented expenses, not including depreciation, interest expense, lender or syndicator's asset management fees, or other ongoing partnership fees. Lender or syndicator's asset management fees or other ongoing partnership fees also are not considered in the Department's calculation of debt coverage. The most common other expenses are described in more detail in clauses (i) - (iv) of this subparagraph.

(i) **Supportive Services Expense.** Supportive Services Expense includes the documented cost to the owner of any non-traditional tenant benefit such as payroll for instruction or activities personnel. The Underwriter will not evaluate any selection points for this item. The Underwriter's verification will be limited to assuring any anticipated costs are included. For all transactions supportive services expenses are considered in calculating the Debt Coverage Ratio.

(ii) **Security Expense.** Security Expense includes contract or direct payroll expense for policing the premises of the Development. The Applicant's amount is typically accepted as provided. The Underwriter will require documentation of the need for security expenses that exceed 50% of the anticipated payroll expense estimate discussed in subparagraph (C) of this paragraph.

(iii) **Compliance Fees.** Compliance fees include only compliance fees charged by TDHCA. The Department's charge for a specific program may vary over time; however, the Underwriter uses the current charge per unit per year at the time of underwriting. For all transactions compliance fees are considered in calculating the Debt Coverage Ratio.

(iv) **Cable Television Expense.** Cable Television Expense includes fees charged directly to the owner of the Development to provide cable services to all units. The expense will be considered only if a contract for such services with terms is provided and income derived from cable television fees is included in the projected EGI. Cost of providing cable television in only the community building should be included in General and Administrative Expense as described in subparagraph (A) of this paragraph.

(K) The Department will communicate with and allow for clarification by the Applicant when the overall expense estimate is over 5% greater or less than the Underwriter's estimate. In such a case, the Underwriter will inform the Applicant of the line items that exceed the tolerance levels indicated in this paragraph, but may request additional documentation supporting some, none or all expense line items. If ~~an~~a ~~acceptable~~ rationale acceptable to the Underwriter for the difference is not provided, the discrepancy is documented in the Report and the justification provided by the Applicant and the countervailing evidence supporting the Underwriter's determination is noted. If the Applicant's total expense estimate is within 5% of the final total expense figure calculated by the Underwriter, the Applicant's figure is characterized as reasonable in the Report; however, for purposes of calculating DCR the Underwriter will maintain and use its independent calculation unless the Applicant's Year 1 proforma meets the requirements of paragraph (3) of this subsection.

(3) **Net Operating Income.** NOI is the difference between the EGI and total operating expenses. If the Year 1 NOI figure provided by the Applicant is within 5% of the Year 1 NOI figure calculated by the Underwriter, the Applicant's figure is characterized as reasonable in the Report; however, for purposes of calculating the Year 1 DCR the Underwriter will maintain and use his independent calculation of NOI unless the Applicant's Year 1 EGI, Year 1 total expenses, and Year 1 NOI are each within 5% of the Underwriter's estimates.

(4) **Debt Coverage Ratio.** Debt Coverage Ratio is calculated by dividing Net Operating Income by the sum of loan principal and interest for all permanent sources of funds. Loan principal and interest, or "Debt Service," is calculated based on the terms indicated in the submitted commitments for financing. Terms generally include the amount of initial principal, the interest rate, amortization period, and repayment period. Unusual financing structures and their effect on Debt Service will also be taken into consideration.

(A) **Interest Rate.** The interest rate used should be the rate documented in the commitment letter.

(i) Commitments indicating a variable rate must provide a detailed breakdown of the component rates comprising the all-in rate. The commitment must also state the lender's underwriting interest rate, or the Applicant must submit a separate statement executed by the lender with an estimate of the interest rate as of the date of the statement.

(ii) The maximum rate allowed for a competitive application cycle is ~~evaluated~~ determined by the Director of the Department's division responsible for Credit Underwriting Analysis Reports based upon current market conditions and posted to the Department's web site prior to the close of the Application Acceptance Period. ~~Historically this maximum acceptable rate has been at or below the average rate for 30-year U.S. Treasury Bonds plus 400 basis points.~~

(B) **Amortization Period.** The Department ~~generally~~ requires an amortization of not less than 30 years and not more than ~~50~~ 40 years, (50 years for federally sourced loans) or an adjustment to the amortization structure is evaluated and recommended. In non-Tax Credit transactions a lesser amortization period may be used if the Department's funds are fully amortized over the same period.

(C) **Repayment Period.** For purposes of projecting the DCR over a 30-year period for Developments with permanent financing structures with balloon payments in less than 30 years, the Underwriter will carry forward Debt Service calculated based on a full amortization and the interest rate stated in the commitment.

(D) **Acceptable Debt Coverage Ratio Range.** The acceptable Year 1 DCR range for all priority or foreclosable lien financing plus the Department's proposed financing falls between a minimum of 1.15 to a maximum of 1.35. HOPE VI and USDA Rural Development transactions may underwrite to a DCR less than 1.15 based upon documentation of acceptance from the lender.

(i) For Developments other than HOPE VI and USDA Rural Development transactions, if the DCR is less than the minimum, the recommendations of the Report are conditioned upon a reduced debt service and the Underwriter will make adjustments to the assumed financing structure in the order presented in subclauses (I) - (III) of this clause.

(I) A reduction of the interest rate or an increase in the amortization period for TDHCA funded loans;

(II) A reclassification of TDHCA funded loans to reflect grants, if permitted by program rules;

(III) A reduction in the permanent loan amount for non-TDHCA funded loans based upon the rates and terms in the permanent loan commitment letter as long as they are within the ranges in subparagraphs (A) and (B) of this paragraph.

(ii) If the DCR is greater than the minimum, the recommendations of the Report may be conditioned upon an increase in the debt service and the Underwriter may make adjustments to the requested financing structure in the order presented in subclauses I and II of this clause. If the DCR is greater than the maximum, the recommendations of the Report are conditioned upon an increase in the debt service and the Underwriter will make adjustments to the assumed financing structure in the order presented in subclauses (I) - (III) of this clause.

(I) A reclassification of TDHCA funded grants to reflect loans, if permitted by program rules;

(II) An increase in the interest rate or a decrease in the amortization period for TDHCA funded loans;

(III) An increase in the permanent loan amount for non-TDHCA funded loans based upon the rates and terms in the permanent loan commitment letter as long as they are within the ranges in subparagraphs (A) and (B) of this paragraph.

(iii) For Housing Tax Credit Developments, a reduction in the recommended Tax Credit allocation may be made based on the gap/DCR method described in subsection (c)(2) of this section.

(iv) Although adjustments in Debt Service may become a condition of the Report, future changes in income, expenses, and financing terms could allow for an acceptable DCR.

(5) **Long Term Proforma.** The Underwriter will create a 30-year operating proforma

(A) The base year projection utilized is the Underwriter's Year 1 EGI, Year 1 operating expenses, and Year 1 NOI unless the Applicant's Year 1 EGI, Year 1 total operating expenses, and Year 1 NOI are each within 5% of the Underwriter's estimates.

(B) A ~~3~~2% annual growth factor is utilized for income and a ~~4~~3% annual growth factor is utilized for expenses.

(C) Adjustments may be made to the Long Term Proforma if sufficient support documentation is provided by the Applicant. Support may include:

(i) documentation with terms for project-based rental assistance or operating subsidy;

(ii) a fully executed management contract with clear terms;

(iii) documentation prepared and signed by the Central Appraisal District (CAD) with jurisdiction over the Development indicating the appraisal methodology consistently employed by the CAD and a ten-year history, beginning with the Application year, of tax rates for each taxing district with jurisdiction over the Development; and,

(iv) required reserve for replacement schedule prepared and signed by the proposed permanent lender or equity provider. In no instance will the reserve for replacement figure included in the Long Term Proforma be less than the minimum requirements as described in §1.37 of this subchapter.

(e) **Development Costs.** The Development's need for permanent funds and, when applicable, the Development's Eligible Basis is based upon the projected total development costs. The Department's estimate of the total development cost will be based on the Applicant's project cost schedule to the extent that it can be verified to a reasonable degree of certainty with documentation from the Applicant and tools available to the Underwriter. For new construction Developments, the Underwriter's total cost estimate will be used unless the Applicant's total development cost is within 5% of the Underwriter's estimate. In the case of a rehabilitation Development, the Underwriter may use a lower tolerance level due to the reliance upon the PCA. If the Applicant's total development cost is utilized and the Applicant's line item costs are inconsistent with documentation provided in the Application or program rules, the Underwriter may make adjustments to the Applicant's total cost estimate.

(1) **Acquisition Costs.** The proposed acquisition price is verified with the fully executed site control document(s) for the entire proposed site.

(A) **Excess Land Acquisition.** Where more land is being acquired than will be utilized for the site and the remaining acreage is not being utilized as permanent green space, the value ascribed to the proposed Development will be prorated from the total cost reflected in the site control document(s). An appraisal or tax assessment value may be tools that are used in making this determination; however, the Underwriter will not utilize a prorated value greater than the total amount in the site control document(s).

(B) **Identity of Interest Acquisitions.**

(i) The acquisition will be considered an identity of interest transaction when an Affiliate of, a Related Party to, or any owner at any level of the Development Team or permanent lender:

(I) is the current owner in whole or in part of the proposed property, or

(II) was the owner in whole or in part of the proposed property during any period within the 36 months prior to the first day of the Application Acceptance Period.

(ii) In all identity of interest transactions the Applicant is required to provide subclauses (I) and (II) of this clause:

(I) the original acquisition cost listed in the submitted settlement statement or, if a settlement statement is not available, the original asset value listed in the most current audited financial statement for the identity of interest owner, and

(II) if the original acquisition cost evidenced by subclause (I) of this clause is less than the acquisition cost claimed in the application,

(-a-) an appraisal that meets the requirements of §1.34 of this chapter, and

(-b-) any other verifiable costs of owning, holding, or improving the Property, excluding seller financing, that when added to the value from subclause (I) of this clause justifies the Applicant's proposed acquisition amount.

(-1-) For land-only transactions, documentation of owning, holding or improving costs since the original acquisition date may include Property taxes, interest expense, a calculated return on equity at a rate consistent with the historical returns of similar risks, the cost of any physical improvements made to the Property, the cost of rezoning, replatting or developing the Property, or any costs to provide or improve access to the Property.

(-2-) For transactions which include existing buildings that will be rehabilitated or otherwise maintained as part of the Development, documentation of owning, holding, or improving costs since the original acquisition date may include capitalized costs of improvements to the Property, a calculated return on equity at a rate consistent with the historical returns of similar risks, and allow the cost of exit taxes not to exceed an amount necessary to allow the sellers to be made whole in the original and subsequent investment in the Property and avoid foreclosure.

(iii) in no instance will the acquisition cost utilized by the Underwriter exceed the lesser of the original acquisition cost evidenced by clause (ii)(I) of this subparagraph plus costs identified in clause (ii)(II)(-b-) of this subparagraph, or the "as-is" value conclusion evidenced by clause (ii)(II)(-a-) of this subparagraph.

(C) **Acquisition of Buildings for Tax Credit Properties.** In order to make a determination of the appropriate building acquisition value, the Applicant will provide and the Underwriter will utilize an appraisal that meets the Department's Appraisal Rules and Guidelines as described in §1.34 of this subchapter. The Underwriter will prorate the actual sales price or identity of interest adjusted sales price based upon a calculated "as-is" improvement value over the total "as-is" value provided in the appraisal, so long as the resulting land value utilized by the Underwriter is not less than the land value indicated in the appraisal or tax assessment. In the case where the land value indicated by either the appraisal or tax assessment is greater than the prorata land value attributed to the sales price as described above, the greater of the land value in the appraisal or tax assessment is deducted from the sales price to determine the acquisition basis.

(2) **Off-Site Costs.** Off-Site costs are costs of development up to the site itself such as the cost of roads, water, sewer and other utilities to provide the site with access. All off-site costs must be well documented and certified by a Third Party engineer on the required application form.

(3) **Site Work Costs.** Project site work costs exceeding $9,000 per Unit must be well documented and certified by a Third Party engineer on the required application form. In addition, for Applicants seeking Tax Credits, documentation in keeping with §49.9(h)(6)(G) of this title will be utilized in calculating eligible basis.

(4) **Direct Construction Costs.** Direct construction costs are the costs of materials and labor required for the building or rehabilitation of a Development.

(A) **New Construction.** The Underwriter will use the Marshall and Swift Residential Cost Handbook or equivalent other comparable published third-party cost estimating data source and historical final cost certifications of all previous Housing Tax Credit allocations to estimate the direct construction cost for a new construction Development. If the Applicant's estimate is more than 5% greater or less than the Underwriter's estimate, the Underwriter will attempt to reconcile this concern and ultimately identify this as a cost concern in the Report.

(i) The "Average Quality" multiple, townhouse, or single family costs, as appropriate, from the Marshall and Swift Residential Cost Handbook or equivalent other comparable published third-party cost estimating data source, based upon the details provided in the application and particularly site and building plans and elevations will be used to estimate direct construction costs. If the Development contains amenities not included in the Average Quality standard, the Department will take into account the costs of the amenities as designed in the Development.

(ii) If the difference in the Applicant's direct cost estimate and the direct construction cost estimate detailed in clause (i) of this subparagraph is more than 5%, the Underwriter shall also evaluate the direct construction cost of the Development based on acceptable cost parameters as adjusted for inflation and as established by historical final cost certifications of all previous housing tax credit allocations for:

(I) the county in which the Development is to be located, or

(II) if cost certifications are unavailable under subclause (I) of this clause, the uniform state service region in which the Development is to be located.

(B) **Rehabilitation including Reconstruction Costs.** In the case where the Applicant has provided a PCA which is inconsistent with the Applicant's figures as proposed in the development cost schedule, the Underwriter may request a supplement executed by the PCA provider ~~supporting~~ reconciling the Applicant's estimate and detailing the difference in costs. If said supplement is not provided or the Underwriter determines that the reasons for the initial difference in costs are not well-documented, the Underwriter utilizes the initial PCA estimations in lieu of the Applicant's estimates.

(5) **Contingency.** All contingencies identified in the Applicant's project cost schedule including any soft cost contingency will be added to Contingency with the total limited to the guidelines detailed in this paragraph. Contingency is limited to a maximum of 5% of direct costs plus site work for new construction Developments and 10% of direct costs plus site work for rehabilitation Developments. For Housing Tax Credit Developments, the percentage is applied to the sum of the eligible direct construction costs plus eligible site work costs in calculating the eligible contingency cost. The Applicant's figure is used by the Underwriter if the figure is less than 5%.

(6) **Contractor Fee.** Contractor fees are limited at a total of 14%. The percentage is applied to the sum of the direct construction costs plus site work costs. For tax credit Developments, the percentages are applied to the sum of the eligible direct construction costs plus eligible site work costs in calculating the eligible contractor fees. For Developments also receiving financing from TX-USDA-RHS, the combination of builder's general requirements, builder's overhead, and builder's profit should not exceed the lower of TDHCA or TX-USDA-RHS requirements. Additional fees for ineligible costs will be limited to the same percentage of ineligible construction costs but will be ineligible for tax credit basis purposes.

(7) **Developer Fee.** Developer fee claimed must be ~~proportionate~~ adjusted by the same applicable percentage ~~to the work for~~ from which it is ~~earned~~ calculated and consistent with §49.9(d)(6) of this title. Additional fees for ineligible costs will be limited to the same percentage of ineligible development costs but will be ineligible for tax credit basis purposes. All fees to related parties to the owner or developer for work determined by the Underwriter to be typically completed by the developer will be considered part of the Developer fee claimed.

(A) For Tax Credit Developments, the development cost associated with developer fees and Development Consultant (also known as Housing Consultant) fees included in Eligible Basis cannot exceed 15% of the project's Total Eligible Basis less developer fees for developments proposing 50 units or more and 20% of the project's Total Eligible Basis less developer fees for developments proposing 49 units or less, as defined in the QAP.

(B) In the case of a transaction requesting acquisition Tax Credits,

(i) the allocation of eligible developer fee in calculating rehabilitation/new construction Tax Credits will not exceed 15% of the rehabilitation/new construction basis less developer fees for developments proposing 50 units or more and 20% of the rehabilitation/new construction basis less developer fees for developments proposing 49 units or less, and

(ii) no developer fee attributable to an identity of interest acquisition of the Development will be included in Eligible Basis.

(C) For non-Tax Credit Developments, the percentage can be up to 15% but is based upon total development costs less the sum of the fee itself, land costs, the costs of permanent financing, excessive construction period financing described in paragraph (8) of this subsection, reserves, and any other identity of interest acquisition cost.

(8) **Financing Costs.** Eligible construction period financing is limited to not more than one year's fully drawn construction loan funds at the construction loan interest rate indicated in the commitment. Any excess over this amount is removed to ineligible cost and will not be considered in the determination of developer fee.

(9) **Reserves.** The Department will utilize ~~the terms proposed by the syndicator or lender as described in the commitment letter(s) or~~ the amount described in the Applicant's project cost schedule if it is within the range of two to six months of stabilized operating expenses less management fees and reserve for replacements plus debt service. Alternatively, the Underwriter may consider a greater amount proposed by the conventional lender or syndicator if the detail for such greater amount is well documented in the conventional lender or syndicator commitment letter.

(10) **Other Soft Costs.** For Tax Credit Developments all other soft costs are divided into eligible and ineligible costs. Eligible costs are defined by Internal Revenue Code but generally are costs that can be capitalized in the basis of the Development for tax purposes. Ineligible costs are those that tend to fund future operating activities. The Underwriter will evaluate and accept the allocation of these soft costs in accordance with the Department's prevailing interpretation of the Internal Revenue Code. If the Underwriter questions the eligibility of any soft costs, the Applicant is given an opportunity to clarify and address the concern prior to removal from Eligible Basis.

(f) **Developer Capacity**. The Underwriter will evaluate the capacity of the Person(s) accountable for the role of the Developer to determine their ability to secure financing and successfully complete the Development. The Department will review financial statements, and personal credit reports for those individuals anticipated to guarantee the completion of the Development.

(1) **Credit Reports.** The Underwriter will characterize the Development as "high risk" if the Applicant, General Partner, Developer, anticipated Guarantor or Principals thereof have a credit score which reflects a 40% or higher potential default rate.

(2) **Financial Statements of Principals.** The Applicant, Developer, any principals of the Applicant, General Partner, and Developer and any Person who will be required to guarantee the Development will be required to provide a signed and dated financial statement and authorization to release credit information in accordance with the Department's program rules.

(A) **Individuals.** The Underwriter will evaluate and discuss financial statements for individuals in a confidential portion of the Report. The Development may be characterized as "high risk" if the Developer, anticipated Guarantor or Principals thereof is determined to have limited net worth or significant lack of liquidity.

(B) **Partnerships and Corporations.** The Underwriter will evaluate and discuss financial statements for partnerships and corporations in the Report. The Development may be characterized as "high risk" if the Developer, anticipated Guarantor or Principals thereof is determined to have limited net worth or significant lack of liquidity.

(C) If the Development is characterized as a high risk for either lack of previous experience as determined by the TDHCA division responsible for compliance or a higher potential default rate is identified as described in paragraph (1) or (2) of this subsection, the Report must condition any potential award upon the identification and inclusion of additional Development partners who can meet the Department's guidelines.

(g) **Other Underwriting Considerations.** The Underwriter will evaluate numerous additional elements as described in subsection (b) of this section and those that require further elaboration are identified in this subsection.

(1) **Floodplains.** The Underwriter evaluates the site plan, floodplain map, survey and other information provided to determine if any of the buildings, drives, or parking areas reside within the 100-year floodplain. If such a determination is made by the Underwriter, the Report will include a condition that:

(A) The Applicant must pursue and receive a Letter of Map Amendment (LOMA) or Letter of Map Revision (LOMR-F); or

(B) The Applicant must identify the cost of flood insurance for the buildings and for the tenant's contents for buildings within the 100-year floodplain; or

(C) The Development must be designed to comply with the QAP, as proposed.

(2) The Underwriter will identify in the report any Developments funded or known and anticipated to be eligible for funding within one linear mile of the subject.

(3) **Supportive Housing.** The unique development and operating characteristics of Supportive Housing Developments may require special consideration in the following areas:

(A) **Operating Income.** The extremely-low-income tenant population typically targeted by a Supportive Housing Development may include deep-skewing of rents to well below the 50% AMI level or other maximum rent limits established by the Department. The Underwriter should utilize the Applicant's proposed rents in the Report as long as such rents are at or below the maximum rent limit proposed for the units and equal to any project based rental subsidy rent to be utilized for the Development.

(B) **Operating Expenses.** A Supportive Housing Development may have significantly higher expenses for payroll, management fee, security, resident support services, or other items than typical Affordable Housing Developments. The Underwriter will rely heavily upon the historical operating expenses of other Supportive Housing Developments provided by the Applicant or otherwise available to the Underwriter.

(C) **DCR and Long Term Feasibility.** Supportive Housing Developments may be exempted from the DCR requirements of subsection (d)(4)(D) of this section if the Development is anticipated to operate without conventional debt. Applicants must provide evidence of sufficient financial resources to offset any projected 15-year cumulative negative cash flows. Such evidence will be evaluated by the Underwriter on a case-by-case basis to satisfy the Department's long term feasibility requirements and may take the form of one or a combination of the following: executed subsidy commitment(s), set-aside of Applicant's financial resources, to be substantiated by an audited financial statement evidencing sufficient resources, and/or proof of annual fundraising success sufficient to fill anticipated operating losses. If either a set aside of financial resources or annual fundraising are used to evidence the long term feasibility of a Supportive Housing Development, a resolution from the Applicant's governing board must be provided confirming their irrevocable commitment to the provision of these funds and activities.

(D) **Development Costs.** For Supportive Housing that is styled as efficiencies, the Underwriter may use "Average Quality" dormitory costs from the Marshall & Swift Valuation Service, with adjustments for amenities and/or quality as evidenced in the application, as a base cost in evaluating the reasonableness of the Applicant's direct construction cost estimate for new construction Developments.

(h) **Work Out Development.** Developments that are underwritten subsequent to Board approval in order to refinance or gain relief from restrictions may be considered infeasible based on the guidelines in this section, but may be characterized as "the best available option" or "acceptable available option" depending on the circumstances and subject to the discretion of the Underwriter as long as the option analyzed and recommended is more likely to achieve a better financial outcome for the property and the Department than the status quo.

(i) **Feasibility Conclusion.** An infeasible Development will not be recommended for funding or allocation unless the Underwriter can determine a plausible alternative feasible financing structure and conditions the recommendations of the report upon receipt of documentation supporting the alternative feasible financing structure. A development will be characterized as infeasible if paragraph (1~~),~~) or (2) ~~or (3)~~ of this subsection applies. The Development will be characterized as infeasible if one or more of paragraphs (~~4~~3)-(~~6~~5) of this subsection applies unless paragraph (~~7~~6)(B) of this subsection also applies.

(1) **Inclusive Capture Rate.** The method for determining the inclusive capture rate for a Development is defined in §1.33(d)(10)(E) of this subchapter. The Underwriter will independently verify all components and conclusions of the inclusive capture rate and may at their discretion use independently aquired demographic data to calculate demand. The Development

(A) is characterized as Rural, Elderly or Special Needs and the inclusive capture rate is above 75% for the total proposed units; or

(B) is not characterized as Rural, Elderly or Special Needs and the inclusive capture rate is above 25% for the total proposed units.

(C) Developments meeting the requirements of subparagraph (A) or (B) of this subparagraph may avoid being characterized as infeasible if clause (i) or (ii) of this subparagraph apply.

(i) **Replacement Housing.** The Development is comprised of Affordable Housing which replaces previously existing substandard Affordable Housing within the Primary Market Area as defined in §1.33 of this subchapter on a Unit for Unit basis, and gives the displaced tenants of the previously existing substandard Affordable Housing a leasing preference.

(ii) **Existing Housing.** The Development is comprised of existing Affordable Housing which is at least 80% occupied and gives displaced existing tenants a leasing preference as stated in the submitted relocation plan.

~~(2) **Concentration Rate**. The Underwriter will independently verify the number of rental units in multi-unit buildings based on the most recent Census data and the completion of Department funded or other known rental Developments in the area.~~

~~(A) The Development is in a Census Tract(s), as established by the U.S. Census Bureau, where the total number of rental units in buildings with three or more units exceeds the ratio of 1,432 units per square mile.~~

~~(B) The Primary Market Area is contained in Census Tract(s), as established by the U.S. Census Bureau, where the total number of rental units in buildings with three or more units exceeds the ratio of 1,000 units per square mile.~~

~~(C) Development's in areas which exceed the limits in subparagraph (A) or (B) of this paragraph may avoid being characterized as infeasible if paragraph (1)(C)(i) or (ii) of this subsection applies.~~

(~~3~~2) **Deferred Developer Fee.** Developments requesting an allocation of tax credits cannot repay the estimated deferred developer fee, based on the Underwriter's recommended financing structure, from cashflow within the first 15 years of the long term proforma as described in subsection (d)(5) of this section.

(~~4~~3) **Restricted Market Rent.** The Restricted Market Rent for units with rents restricted at 60% of AMGI is less than both the Net Program Rent and Market Rent for units with rents restricted at or below 50% of AMGI unless the ~~development~~Applicant ~~proposes~~ accepts the Underwriting recommendation that all restricted units ~~with~~ have rents and incomes restricted at or below the 50% of AMGI level.

(~~5~~4) **Initial Feasibility.** The Year 1 annual total operating expense divided by the Year 1 Effective Gross Income is greater than 65%.

(~~6~~5) **Long Term Feasibility.** Any year in the first 15 years of the Long Term Proforma, as defined in subsection (d)(5) of this section, reflects:

(A) negative Cash Flow; or

(B) a Debt Coverage Ratio below 1.15.

(~~7~~6) **Exceptions.** The infeasibility conclusions may be excepted where either of the following apply.

(A) The requirements in this subsection may be waived by the Executive Director of the Department on appeal if documentation is submitted by the Applicant to support unique circumstances that would provide mitigation.

(B) Developments meeting the requirements of one or more of paragraphs (~~4~~3) - (~~6~~5) of this subsection will be re-characterized as feasible if one or more of clauses (i) - (vi) of this subparagraph apply.

(i) The Development will receive Project-based Section 8 Rental Assistance for at least 50% of the units and a firm commitment with terms including contract rent and number of units is submitted at application.

(ii) The Development will receive rental assistance for at least 50% of the units in association with USDA-RD-RHS financing.

(iii) The Development will be characterized as public housing as defined by HUD for at least 50% of the units.

(iv) The Development will be characterized as ~~100%~~ Supportive Housing for at least 50% of the units and evidence of adequate financial support for the long term viability of the Development is provided.

(v) The Development has other long term project based restrictions on rents for at least 50% of the units that allow rents to increase based upon expenses and those rents are currently more than 10% lower than both the Net Program Rent and Restricted Market Rent.

(vi) The units not receiving Project-based Section 8 Rental Assistance or rental assistance in association with USDA-RD-RHS financing, or not characterized as public housing do not propose rents that are less than the Project-based Section 8, USDA-RD-RHS financing, or public housing units.

§1.33. Market Analysis Rules and Guidelines.

(a) **General Provision.** A Market Analysis prepared for the Department must evaluate the need for decent, safe, and sanitary housing at rental rates or sales prices that eligible tenants can afford. The analysis must determine the feasibility of the subject Property rental rates or sales price and state conclusions as to the impact of the Property with respect to the determined housing needs. The Market Analysis must include a statement that the report preparer has read and understood the requirements of this section.

(b) **Self-Contained**. A Market Analysis prepared for the Department must allow the reader to understand the market data presented, the analysis of the data, and the conclusions derived from such data. All data presented should reflect the most current information available and the report must provide a parenthetical (in-text) citation or footnote describing the data source. The analysis must clearly lead the reader to the same or similar conclusions reached by the Market Analyst. All steps leading to a calculated figure must be presented in the body of the report.

(c) **Market Analyst Qualifications.** A Market Analysis submitted to the Department must be prepared and certified by an approved Qualified Market Analyst (§2306.67055). The Department will maintain an approved Market Analyst list based on the guidelines set forth in paragraphs (1) - (3) of this subsection.

(1) If not listed as approved by the Department, Market Analysts must submit subparagraphs (A) - (F) of this paragraph at least thirty days prior to the first day of the Application Acceptance Period for which the Market Analyst must be approved. To maintain status as an approved Qualified Market Analyst, updates to the items described in subparagraphs (A) - (C) of this paragraph must be submitted annually on the first Monday in February for review by the Department.

(A) Documentation of good standing in the State of Texas.

(B) A current organization chart or list reflecting all members of the firm who may author or sign the Market Analysis.

(C) Resumes for all members of the firm or subcontractors who may author or sign the Market Analysis.

(D) General information regarding the firm's experience including references, the number of previous similar assignments and time frames in which previous assignments were completed.

(E) Certification from an authorized representative of the firm that the services to be provided will conform to the Department's Market Analysis Rules and Guidelines, as described in this section, in effect for the application round in which each Market Analysis is submitted.

(F) A sample Market Analysis that conforms to the Department's Market Analysis Rules and Guidelines, as described in this section, in effect for the year in which the sample Market Analysis is submitted.

(2) During the underwriting process each Market Analysis will be reviewed and any discrepancies with the rules and guidelines set forth in this section may be identified and require timely correction. Subsequent to the completion of the application round and as time permits, staff or a review appraiser will re-review a sample set of submitted market analyses to ensure that the Department's Market Analysis Rules and Guidelines are met. If it is found that a Market Analyst has not conformed to the Department's Market Analysis Rules and Guidelines, as certified to, the Market Analyst will be notified of the discrepancies in the Market Analysis and will be removed from the approved Qualified Market Analyst list.

(A) In and of itself, removal from the list of approved Market Analysts will not invalidate a Market Analysis commissioned prior to the removal date and at least 90 days prior to the first day of the applicable Application Acceptance Period.

(B) To be reinstated as an approved Qualified Market Analyst, the Market Analyst must amend the previous report to remove all discrepancies or submit a new sample Market Analysis that conforms to the Department's Market Analysis Rules and Guidelines, as described in this section, in effect for the year in which the updated or new sample Market Analysis is submitted.

(3) The list of approved Qualified Market Analysts is posted on the Department's web site and updated within 72 hours of a change in the status of a Market Analyst.

(d) **Market Analysis Contents.** A Market Analysis for a rental Development prepared for the Department must be organized in a format that follows a logical progression and must include, at minimum, items addressed in paragraphs (1) - (12) of this subsection.

(1) **Title Page.** Include Property address or location, effective date of analysis, date report completed, name and address of person authorizing report, and name and address of Market Analyst.

(2) **Letter of Transmittal.** The date of the letter must be the date the report was completed. Include Property address or location, description of Property, statement as to purpose and scope of analysis, reference to accompanying Market Analysis report with effective date of analysis and summary of conclusions, date of Property inspection, name of persons inspecting subject Property, and signatures of all Market Analysts authorized to work on the assignment. Include a statement that the report preparer has read and understood the requirements of this section.

(3) **Table of Contents.** Number the exhibits included with the report for easy reference.

(4) **Assumptions and Limiting Conditions.** Include a description of all assumptions, both general and specific, made by the Market Analyst concerning the Property.

(5) **Identification of the Property.** Provide a statement to acquaint the reader with the Development. Such information includes street address, tax assessor's parcel number(s), and Development characteristics.

(6) **Statement of Ownership.** Disclose the current owners of record and provide a three year history of ownership for the subject Property.

(7) **Secondary Market Area.** All of the Market Analyst's conclusions specific to the subject Development must be based on only one Secondary Market Area definition. The entire PMA, as described in paragraph (8) of this subsection, must be contained within the Secondary Market boundaries. The Market Analyst must adhere to the methodology described in this paragraph when determining the secondary market area (§2306.67055).

(A) The Secondary Market Area will be defined by the Market Analyst with:

(i) size based on a base year population of no more than 250,000 people for Developments targeting families, and,

(ii) boundaries based on:

(I) major roads;~~,~~

(II) political boundaries~~,~~ ; and,

(III) natural boundaries.

(IV) A radius is prohibited as a boundary definition.

(B) The Market Analyst's definition of the Secondary Market Area must be supported with a detailed description of the methodology used to determine the boundaries. If applicable, the Market Analyst must place special emphasis on data used to determine an irregular shape for the Secondary Market.

(C) A scaled distance map indicating the Secondary Market Area boundaries that clearly identifies the location of the subject Property must be included.

(8) **Primary Market Area.** All of the Market Analyst's conclusions specific to the subject Development must be based on only one Primary Market Area definition. The Market Analyst must adhere to the methodology described in this paragraph when determining the market area (§2306.67055).

(A) The Primary Market Area will be defined by the Market Analyst with:

(i) size based on a base year population of no more than

~~(I)~~ 100,000 people; and ~~for Developments targeting the general population, and~~

~~(II) 250,000 people for Qualified Elderly Developments or Developments targeting special needs populations~~,

(ii) boundaries identifying the most recent Census Tract definitions, as established by the U.S. Census Bureau and based on:

(I) major roads~~,~~ ;

(II) political boundaries~~,~~ ; and,

(III) natural boundaries.

(IV) A radius is prohibited as a boundary definition.

(B) The Market Analyst's definition of the Primary Market Area must be supported with a detailed description of the methodology used to determine the boundaries. If applicable, the Market Analyst must place special emphasis on data used to determine an irregular shape for the PMA.

(C) A scaled distance map indicating the Primary Market Area boundaries that clearly identifies the location of the subject Property and the location of all Local Amenities must be included.

(9) **Market Information.**

(A) For each of the defined market areas and all Census Tracts contained in whole or in part by that area, identify the number of units for each of the categories in clauses (i) - (vi) of this subparagraph; the data must be clearly labeled as relating to either the PMA or the Secondary Market, if applicable:

(i) total housing~~,~~;

(ii) rental developments (all multifamily~~),~~);

(iii) Affordable Housing~~,~~ ;

(iv) Comparable Units~~,~~ ;

(v) Unstabilized Comparable Units~~,~~ ; and,

(vi) proposed Comparable Units.

(B) **Occupancy.** The occupancy rate indicated in the Market Analysis may be used to support both the overall demand conclusion for the proposed Development and the vacancy rate assumption used in underwriting the Development (§1.32(d)(1)(C) of this subchapter). State the overall physical occupancy rate for the proposed housing tenure (renter or owner) within the defined market areas by:

(i) number of Bedrooms~~,~~;

(ii) quality of construction (class~~),~~);

(iii) Targeted Population~~,~~ ; and,

(iv) Comparable Units.

(C) **Absorption.** State the absorption trends by quality of construction (class) and absorption rates for Comparable Units.

(D) **Turnover.** ~~The t~~Turnover rates should be specific to the Targeted Population. The data supporting the turnover rate must originate from documented turnover rates from ~~at least one of the following~~

~~(i) Comparable Units,~~

~~(ii) the defined PMA,~~

~~(iii) the defined Secondary Market, and~~

~~(iv) a Third Party data collection agency or demographer.~~ the most current TDHCA published data on the Department web site or the most current U.S. Census Bureau tenure appropriate data for movership rates over the last 12 months or next shortest term. The Market Analyst should use the ~~most~~more reasonable rate, supported by IREM (Institute for Real Estate Management) or independent surveys conducted by the Market Analyst and which is subject to review by the Underwriter.

(E) **Demand.** Provide a comprehensive evaluation of the need for the proposed housing for the Development as a whole and each Unit type by number of Bedrooms proposed and rent restriction category within the defined market areas using the most current census and demographic data available.

(i) **Demographics.** The Market Analyst should use demographic data specific to the characteristics of the households that will be living in the proposed Development. For example, the Market Analyst should use demographic data specific to elderly population for an elderly Development, if available, and should avoid making adjustments from more general demographic data. If adjustment rates are used based on more general data for any of the following they should be clearly identified and documented as to their source in the report.

(I) **Population.** Provide population and household figures, supported by actual demographics, for a five-year period with the year of application as the base year.

(II) **Target.** If applicable, adjust the household projections for the Qualified Elderly or special needs population targeted by the proposed Development. ~~State the target adjustment rate.~~

(III) **Household Size-Appropriate.** Adjust the household projections or target household projections, as applicable, for the appropriate household size for the proposed Unit type by number of Bedrooms proposed and rent restriction category based on 1.5 persons per Bedroom (round up). ~~State the Household Size-Appropriate adjustment rate.~~

(IV) **Income Eligible.** Adjust the household size appropriate projections for income eligibility based on the income bands for the proposed Unit type by number of Bedrooms proposed and rent restriction category with

(-a-) the lower end of each income band calculated based on the lowest gross rent proposed divided by 35% for the general population and ~~40~~50% for Qualified Elderly households, and

(-b-) the upper end of each income band equal to the applicable gross median income limit for the largest appropriate household size based on 1.5 persons per Bedroom (round up) or one person for efficiency units.

~~(-c-) State the Income Eligible adjustment rate.~~

(V) **Tenure-Appropriate.** Adjust the income-eligible household projections for tenure (renter or owner). ~~State the Tenure-Appropriate adjustment rate.~~ If tenure appropriate income eligible target household data is available, a tenure appropriate adjustment is not necessary.

(ii) **Demand from Turnover.** Apply the turnover rate as described in subparagraph (D) of this paragraph to the target, income-eligible, size-appropriate and tenure-appropriate households in the PMA projected at the proposed placed in service date.

(iii) Demand from Home Ownership Turnover for Qualified Elderly Developments. Apply the turnover rate as described in subparagraph (D) of this paragraph, but not greater than 10%, to the target, income-eligible, size-appropriate and owner households in the PMA projected at the proposed placed in service date.

(~~iii~~iv) **Demand from Population Growth.** Calculate the target, income-eligible, size-appropriate and tenure-appropriate household growth in the PMA for the twelve month period following the proposed placed in service date.

(~~iv~~v) **Demand from Secondary Market Area.**

(I) Apply the turnover rate as described in subparagraph (D) of this paragraph to the target, income-eligible, size-appropriate and tenure-appropriate households in the Secondary Market Area projected at the proposed placed in service date.

(II) Not more than 25% of the demand can come from outside the PMA as calculated in subclause (I) of this clause and be included in the calculation of demand as described in paragraph(10)(D) of this subsection and for use in calculation of inclusive capture rate as described in paragraph (10)(E) of this subsection. In addition, 25% of the Comparable Units from Unstabilized Developments within the Secondary Market Area must be included in the calculation of inclusive capture rate.

(~~v~~vi) **Demand from Other Sources.** The source of additional demand and the methodology used to calculate the additional demand must be clearly stated. Calculation of additional demand must factor in the adjustments described in clause (i) of this subparagraph.

(10) **Conclusions.** Include a comprehensive evaluation of the subject Property, separately addressing each housing type and specific population to be served by the Development in terms of items in subparagraphs (A) - (G) of this paragraph. All conclusions must be consistent with the data and analysis presented throughout the Market Analysis.

(A) **Unit Mix.** Provide a best possible unit mix conclusion based on the occupancy rates by Bedroom type within the PMA and target, income-eligible, size-appropriate and tenure-appropriate household demand within the PMA.

(B) **Rents.** Provide a separate Market Rent and Restricted Market Rent conclusion for each proposed Unit type by number of Bedrooms and rent restriction category. Conclusions of Market Rent or Restricted Market Rent below the maximum Net Program Rent limit must be well documented as the conclusions may impact the feasibility of the Development under §1.32(i) of this subchapter.

(i) **Comparable Units.** Identify developments in the PMA with Comparable Units. In Primary Market Areas lacking sufficient rent comparables, it may be necessary for the Market Analyst to collect data from markets with similar characteristics and make quantifiable location adjustments. Provide a data sheet for each development consisting of:

(I) Development name~~,~~;

(II) address~~,~~;

(III) year of construction and year of rehabilitation, if applicable~~,~~;

(IV) property condition~~,~~;

(V) population target~~,~~;

(VI) unit mix specifying number of Bedrooms, number of baths, net rentable square footage; and,

(-a-) monthly rent and utility allowance~~,~~ ; or,

(-b-) sales price with terms, marketing period and date of sale~~,~~;

(VII) description of concessions~~,~~;

(VIII) list of unit amenities~~,~~;

(IX) utility structure~~,~~;

(X) list of common amenities~~,~~ ; and,

(XI) for rental developments only:

(-a-) occupancy~~,~~ ; and,

(-b-) turnover.

(ii) Provide a scaled distance map indicating the Primary Market Area boundaries that clearly identifies the location of the subject Property and the location of the identified developments with Comparable Units.

(iii) **Rent Adjustments.** In support of the Market Rent and Restricted Market Rent conclusions, provide a separate attribute adjustment matrix for each proposed unit type by number of Bedrooms and rental restriction category.

(I) The Department recommends use of HUD Form 92273.

(II) A minimum of three developments must be represented on each attribute adjustment matrix.

(III) Adjustments for concessions must be included, if applicable.

(IV) Total adjustments in excess of 15% must be supported with additional narrative.

(V) Total adjustments in excess of 25% indicate the Units are not comparable for the purposes of determining Market Rent and Restricted Market Rent conclusions.

(C) **Effective Gross Income.** Provide rental income, secondary income, and vacancy and collection loss projections for the subject derived independent of the Applicant's estimates.

(D) **Demand.** State the target, income-eligible, size-appropriate and tenure-appropriate household demand by Unit type by number of Bedrooms proposed and rent restriction category (e.g. one-Bedroom units restricted at 50% of AMFI; two-Bedroom units restricted at 60% of AMFI) by summing the demand components applicable to the subject Development discussed in paragraph (9)(E)(ii) - (v) of this subsection. State the total target, income-eligible, size-appropriate and tenure-appropriate household demand by summing the demand components applicable to the subject Development discussed in paragraph (9)(E)(ii) - (v) of this subsection.

(E) **Inclusive Capture Rate.** The Market Analyst must calculate inclusive capture rates for the subject Development's proposed Unit types by number of Bedrooms and rent restriction categories, market rate Units, if applicable, and total Units. The Underwriter will adjust the inclusive capture rates to take into account any errors or omissions. To calculate an inclusive capture rate:

(i) total:

(I) the proposed subject Units~~,~~;

(II) Comparable Units with priority, as defined in §49.9(d)(2) of this title, over the subject that have made application to TDHCA and have not been presented to the TDHCA Board for decision; and,

(III) Comparable Units in previously approved but Unstabilized Developments, and

(ii) divide by the total target, income-eligible, size-appropriate and tenure-appropriate household demand stated in subparagraph (D) of this paragraph.

(iii) Refer to §1.32(i) of this subchapter for feasibility criteria.

(F) **Absorption.** Project an absorption period for the subject Development to achieve Sustaining Occupancy. State the absorption rate.

(G) **Market Impact.** Provide an assessment of the impact the subject Development, as completed, will have on existing Developments supported by Housing Tax Credits in the Primary Market (§2306.67055).

(11) **Photographs.** Provide labeled color photographs of the subject Property, the neighborhood, street scenes, and comparables. An aerial photograph is desirable but not mandatory.

(12) **Appendices.** Any Third Party reports including demographics relied upon by the Market Analyst must be provided in appendix form. A list of works cited including personal communications also must be provided, and the Modern Language Association (MLA) format is suggested.

(e) The Department reserves the right to require the Market Analyst to address such other issues as may be relevant to the Department's evaluation of the need for the subject Development and the provisions of the particular program guidelines.

(f) All Applicants shall acknowledge, by virtue of filing an application, that the Department shall not be bound by any such opinion or Market Analysis, and may substitute its own analysis and underwriting conclusions for those submitted by the Market Analyst.

§1.34. Appraisal Rules and Guidelines.

(a) **General Provision.** An appraisal prepared for the Department must conform to the Uniform Standards of Professional Appraisal Practice (USPAP) as adopted by the Appraisal Standards Board of the Appraisal Foundation. The appraisal must include a statement that the report preparer has read and understood the requirements of this section.

(b) **Self-Contained.** An appraisal prepared for the Department must describe sufficient and adequate data and analyses to support the final opinion of value. The final value(s) must be reasonable, based on the information included. Any Third Party reports relied upon by the appraiser must be verified by the appraiser as to the validity of the data and the conclusions.

(c) **Appraiser Qualifications.** The qualifications of each appraiser are determined on a case-by-case basis by the Director of Real Estate Analysis or review appraiser, based upon the quality of the report itself and the experience and educational background of the appraiser. At minimum, a qualified appraiser must be appropriately certified or licensed by the Texas Appraiser Licensing and Certification Board.

(d) **Appraisal Contents.** An appraisal prepared for the Department must be organized in a format that follows a logical progression. In addition to the contents described in USPAP Standards Rule 2, the appraisal must include items addressed in paragraphs (1) - (12) of this subsection.

(1) **Title Page.** Include a statement identifying the Department as the client, acknowledging that the Department is granted full authority to rely on the findings of the report, and name and address of person authorizing report.

(2) **Letter of Transmittal.** Include reference to accompanying appraisal report, reference to all person(s) that provided significant assistance in the preparation of the report, date of report, effective date of appraisal, date of property inspection, name of person(s) inspecting the property, tax assessor's parcel number(s) of the site, estimate of marketing period, and signatures of all appraisers authorized to work on the assignment including the appraiser who inspected the property. Include a statement indicating the report preparer has read and understood the requirements of this section.

(3) **Table of Contents.** Number the exhibits included with the report for easy reference.

(4) **Disclosure of Competency.** Include appraiser's qualifications, detailing education and experience.

(5) **Statement of Ownership of the Subject Property.** Discuss all prior sales of the subject property which occurred within the past three years. Any pending agreements of sale, options to buy, or listing of the subject property must be disclosed in the appraisal report.

(6) **Property Rights Appraised.** Include a statement as to the property rights (e.g., fee simple interest, leased fee interest, leasehold, etc.) being considered. The appropriate interest must be defined in terms of current appraisal terminology with the source cited.

(7) **Site/Improvement Description.** Discuss the site characteristics including subparagraphs (A) - (E) of this paragraph.

(A) **Physical Site Characteristics.** Describe dimensions, size (square footage, acreage, etc.), shape, topography, corner influence, frontage, access, ingress-egress, etc. associated with the site. Include a plat map and/or survey.

(B) **Floodplain.** Discuss floodplain (including flood map panel number) and include a floodplain map with the subject clearly identified.

(C) **Zoning.** Report the current zoning and description of the zoning restrictions and/or deed restrictions, where applicable, and type of Development permitted. Any probability of change in zoning should be discussed. A statement as to whether or not the improvements conform to the current zoning should be included. A statement addressing whether or not the improvements could be rebuilt if damaged or destroyed, should be included. If current zoning is not consistent with the highest and best use, and zoning changes are reasonable to expect, time and expense associated with the proposed zoning change should be considered and documented. A zoning map should be included.

(D) **Description of Improvements.** Provide a thorough description and analysis of the improvements including size (net rentable area, gross building area, etc.), number of stories, number of buildings, type/quality of construction, condition, actual age, effective age, exterior and interior amenities, items of deferred maintenance, energy efficiency measures, etc. All applicable forms of depreciation should be addressed along with the remaining economic life.

(E) **Environmental Hazards.** It is recognized appraisers are not experts in such matters and the impact of such deficiencies may not be quantified; however~~;~~ , the report should disclose any potential environmental hazards (e.g., discolored vegetation, oil residue, asbestos-containing materials, lead-based paint etc.) noted during the inspection.

(8) **Highest and Best Use.** Market Analysis and feasibility study is required as part of the highest and best use. The highest and best use analysis should consider paragraph (7)(A) - (E) of this subsection as well as a supply and demand analysis.

(A) The appraisal must inform the reader of any positive or negative market trends which could influence the value of the appraised property. Detailed data must be included to support the appraiser's estimate of stabilized income, absorption, and occupancy.

(B) The highest and best use section must contain a separate analysis "as if vacant" and "as improved" (or "as proposed to be improved/renovated"). All four elements (legally permissible, physically possible, feasible, and maximally productive) must be considered.

(9) **Appraisal Process.** It is mandatory that all three approaches, Cost Approach, Sales Comparison Approach and Income Approach, are considered in valuing the property. If an approach is not applicable to a particular property an adequate explanation must be provided. A land value estimate must be provided if the cost approach is not applicable.

(A) **Cost Approach.** This approach should give a clear and concise estimate of the cost to construct the subject improvements. The source(s) of the cost data should be reported.

(i) Cost comparables are desirable; however, alternative cost information may be obtained from Marshall & Swift Valuation Service or similar publications. The section, class, page, etc. should be referenced. All soft costs and entrepreneurial profit must be addressed and documented.

(ii) All applicable forms of depreciation must be discussed and analyzed. Such discussion must be consistent with the description of the improvements.

(iii) The land value estimate should include a sufficient number of sales which are current, comparable, and similar to the subject in terms of highest and best use. Comparable sales information should include address, legal description, tax assessor's parcel number(s), sales price, date of sale, grantor, grantee, three year sales history, and adequate description of property transferred. The final value estimate should fall within the adjusted and unadjusted value ranges. Consideration and appropriate cash equivalent adjustments to the comparable sales price for subclauses (I) - (VII) of this clause should be made when applicable.

(I) Property rights conveyed.

(II) Financing terms.

(III) Conditions of sale.

(IV) Location.

(V) Highest and best use.

(VI) Physical characteristics (e.g., topography, size, shape, etc.).

(VII) Other characteristics (e.g., existing/proposed entitlements, special assessments, etc.).

(B) **Sales Comparison Approach.** This section should contain an adequate number of sales to provide the reader with a description of the current market conditions concerning this property type.

Sales data should be recent and specific for the property type being appraised. The sales must be confirmed with buyer, seller, or an individual knowledgeable of the transaction.

(i) Sales information should include address, legal description, tax assessor's parcel number(s), sales price, financing considerations and adjustment for cash equivalency, date of sale, recordation of the instrument, parties to the transaction, three year sale history, complete description of the property and property rights conveyed, and discussion of marketing time. A scaled distance map clearly identifying the subject and the comparable sales must be included.

(ii) The method(s) used in the Sales Comparison Approach must be reflective of actual market activity and market participants.

(I) **Sale Price/Unit of Comparison.** The analysis of the sale comparables must identify, relate, and evaluate the individual adjustments applicable for property rights, terms of sale, conditions of sale, market conditions, and physical features. Sufficient narrative must be included to permit the reader to understand the direction and magnitude of the individual adjustments, as well as a unit of comparison value indicator for each comparable.

(II) **Net Operating Income/Unit of Comparison.** The net operating income statistics for the comparables must be calculated in the same manner. It should be disclosed if reserves for replacement have been included in this method of analysis. At least one other method should accompany this method of analysis.

(C) **Income Approach.** This section must contain an analysis of both the actual historical and projected income and expense aspects of the subject property.

(i) **Market Rent Estimate/Comparable Rental Analysis.** This section of the report should include an adequate number of actual market transactions to inform the reader of current market conditions concerning rental units. The comparables must indicate current research for this specific property type. The comparables must be confirmed with the landlord, tenant or agent and individual data sheets must be included. The individual data sheets should include property address, lease terms, description of the property (e.g., unit type, unit size, unit mix, interior amenities, exterior amenities, etc.), physical characteristics of the property, and location of the comparables. Analysis of the Market Rents should be sufficiently detailed to permit the reader to understand the appraiser's logic and rationale. Adjustment for lease rights, condition of the lease, location, physical characteristics of the property, etc. must be considered.

(ii) **Comparison of Market Rent to Contract Rent.** Actual income for the subject along with the owner's current budget projections must be reported, summarized, and analyzed. If such data is unavailable, a statement to this effect is required and appropriate assumptions and limiting conditions should be made. The contract rents should be compared to the market-derived rents. A determination should be made as to whether the contract rents are below, equal to, or in excess of market rates. If there is a difference, its impact on value must be qualified.

(iii) **Vacancy/Collection Loss.** Historical occupancy data and current occupancy level for the subject should be reported and compared to occupancy data from the rental comparables and overall occupancy data for the subject's Primary Market.

(iv) **Expense Analysis.** Actual expenses for the subject, along with the owner's projected budget, must be reported, summarized, and analyzed. If such data is unavailable, a statement to this effect is required and appropriate assumptions and limiting conditions should be made. Historical expenses should be compared to comparables expenses of similar property types or published survey data (e.g., IREM, BOMA, etc.). Any expense differences should be reconciled. Include historical data regarding the subject's assessment and tax rates and a statement as to whether or not any delinquent taxes exist.

(v) **Capitalization.** The appraiser should present the capitalization method(s) reflective of the subject market and explain the omission of any method not considered in the report.

(I) **Direct Capitalization.** The primary method of deriving an overall rate (OAR) is through market extraction. If a band of investment or mortgage equity technique is utilized, the assumptions must be fully disclosed and discussed.

(II) **Yield Capitalization (Discounted Cash Flow Analysis).** This method of analysis should include a detailed and supportive discussion of the projected holding/investment period, income and income growth projections, occupancy projections, expense and expense growth projections, reversionary value and support for the discount rate.

(10) **Value Estimates.** Reconciliation final value estimate is required.

(A) All appraisals shall contain a separate estimate of the "as vacant" market value of the underlying land, based upon current sales comparables. The appraiser should consider the fee simple or leased fee interest as appropriate.

(B) Appraisal assignments for new construction are required to provide an “as completed” value of the proposed structures. These reports shall provide an “as restricted with favorable financing” value as well as an “unrestricted market” value.

(C) Reports on Properties to be rehabilitated shall address the “as restricted with favorable financing” value as well as both an “as is” value and an “as completed” value. The appraiser should consider the fee simple or leased fee interest as appropriate.

(D) If required the appraiser must include a separate assessment of personal property, furniture, fixtures, and equipment (FF&E) and/or intangible items. If personal property, FF&E, or intangible items are not part of the transaction or value estimate, a statement to such effect should be included.

(11) **Marketing Time.** Given property characteristics and current market conditions, the appraiser(s) should employ a reasonable marketing period. The report should detail existing market conditions and assumptions considered relevant.

(12) **Photographs.** Provide good quality color photographs of the subject property (front, rear, and side elevations, on-site amenities, interior of typical units if available). Photographs should be properly labeled. Photographs of the neighborhood, street scenes, and comparables should be included. An aerial photograph is desirable but not mandatory.

(e) **Additional Appraisal Concerns.** The appraiser(s) must be aware of Department program rules and guidelines and the appraisal must include analysis of any impact to the subject’s value.

§1.35. Environmental Site Assessment Rules and Guidelines.

(a) **General Provisions.** The Environmental Site Assessments (ESA) prepared for the Department should be conducted and reported in conformity with the standards of the American Society for Testing and Materials. The initial report should conform with the Standard Practice for Environmental Site Assessments: Phase I Assessment Process (ASTM Standard Designation: E1527-05). Any subsequent reports should also conform to ASTM standards and such other recognized industry standards as a reasonable person would deem relevant in view of the Property’s anticipated use for human habitation. The environmental assessment shall be conducted by a Third Party environmental professional at the expense of the Applicant, and addressed to TDHCA as a User of the report (as defined by ASTM standards). Copies of reports provided to TDHCA which were commissioned by other financial institutions should address TDHCA as a co-recipient of the report, or letters from both the provider and the recipient of the report should be submitted extending reliance on the report to TDHCA. The ESA report should also include a statement that the person or company preparing the ESA report will not materially benefit from the Development in any other way than receiving a fee for performing the Environmental Site Assessment, and that the fee is in no way contingent upon the outcome of the assessment. The ESA report must contain a statement indicating the report preparer has read and understood the requirements of this section.

(b) In addition to ASTM requirements, the report must:

(1) State if a **noise study** is recommended for a property in accordance with current HUD guidelines and identify its proximity to industrial zones, major highways, active rail lines, civil and military airfields, or other potential sources of excessive noise;

(2) Provide a copy of a **current survey**, if available, or other drawing of the site reflecting the boundaries and adjacent streets, all improvements on the site, and any items of concern described in the body of the environmental site assessment or identified during the physical inspection;

(3) Provide a copy of the current **FEMA Flood Insurance Rate Map** showing the panel number and encompassing the site with the site boundaries precisely identified and superimposed on the map~~.~~;

(4) If the subject site includes any improvements or debris from pre-existing improvements, state if testing for **asbestos containing materials** (ACMs) would be required pursuant to local, state, and federal laws, or recommended due to any other consideration;

(5) If the subject site includes any improvements or debris from pre-existing improvements, state if testing for **Lead Based Paint** would be required pursuant to local, state, and federal laws, or recommended due to any other consideration;

(6) State if testing for **lead in the drinking water** would be required pursuant to local, state, and federal laws, or recommended due to any other consideration such as the age of pipes and solder in existing improvements; and,

(7) Assess the potential for the presence of **Radon** on the property, and recommend specific testing if necessary.

(c) If the report recommends further studies or establishes that environmental hazards currently exist on the Property, or are originating off-site but would nonetheless affect the Property, the

Development Owner must act on such a recommendation or provide a plan for either the abatement or elimination of the hazard. Evidence of action or a plan for the abatement or elimination of the hazard must be presented upon Application submittal.

(d) For Developments in programs that allow a waiver of the Phase I ESA such as a TX-USDA-RHS funded Development, the Development Owners are hereby notified that it is their responsibility to ensure that the Development is maintained in compliance with all state and federal environmental hazard requirements.

(e) Those Developments which have or are to receive first lien financing from HUD may submit HUD's environmental assessment report, provided that it conforms to the requirements of this subsection.

§1.36. Property Condition Assessment Guidelines.

(a) **General Provisions.** The objective of the Property Condition Assessment (the PCA) is to provide cost estimates for repairs, replacements, or new construction which are: immediately necessary; proposed by the developer; and, expected to be required throughout the term of the regulatory period and not less than 30 years. The PCA prepared for the Department should be conducted and reported in conformity with the American Society for Testing and Materials "Standard Guide for Property Condition Assessments: Baseline Property Condition Assessment Process (ASTM Standard Designation: E 2018)" except as provided for in subsections (b) and (c) of this section. The PCA report must contain a statement indicating the report preparer has read and understood the requirements of this section.

The PCA must include discussion and analysis of the following:

(1) **Useful Life Estimates.** For each system and component of the property the PCA should assess the condition of the system or component, and estimate its remaining useful life, citing the basis or the source from which such estimate is derived~~.~~;

(2) **Code Compliance.** The PCA should review and document any known violations of any applicable federal, state, or local codes. In developing the cost estimates specified herein, it is the responsibility of the Housing Sponsor or Applicant to ensure that the PCA adequately considers any and all applicable federal, state, and local laws and regulations which may govern any work performed to the subject property~~.~~;

(3) **Program Rules.** The PCA should assess the extent to which any systems or components must be modified, repaired, or replaced in order to comply with any specific requirements of the housing program under which the Development is proposed to be financed, particular consideration being given to accessibility requirements, the Department's Housing Quality Standards, and any scoring criteria for which the Applicant may claim points~~.~~; and,

(4) **Cost Estimates for Repair and Replacement.** It is the responsibility of the Housing Sponsor or Applicant to ensure that the PCA provider is apprised of all development activities associated with the proposed transaction and consistency of the total immediately necessary and proposed repair and replacement cost estimates with the development cost schedule submitted as an exhibit of the Application.

(A) **Immediately Necessary Repairs and Replacement.** Systems or components which are expected to have a remaining useful life of less than one year, which are found to be in violation of any applicable codes, which must be modified, repaired or replaced in order to satisfy program rules, or which are otherwise in a state of deferred maintenance or pose health and safety hazards should be considered immediately necessary repair and replacement. The PCA must provide a separate estimate of the costs associated with the repair, replacement, or maintenance of each system or component which is identified as being an immediate need, citing the basis or the source from which such cost estimate is derived.

(B) **Proposed Repair, Replacement, or New Construction.** If the development plan calls for additional repair, replacement, or new construction above and beyond the immediate repair and replacement described in subparagraph (A) of this paragraph, such items must be identified and the nature or source of obsolescence or improvement to the operations of the Property discussed. The PCA must provide a separate estimate of the costs associated with the repair, replacement, or new construction which is identified as being above and beyond the immediate need, citing the basis or the source from which such cost estimate is derived.

(C) **Expected Repair and Replacement Over Time.** The term during which the PCA should estimate the cost of expected repair and replacement over time must equal the longest term of any land use or regulatory restrictions which are, or will be, associated with the provision of housing on the property. The PCA must estimate the periodic costs which are expected to arise for repairing or replacing each system or component or the property, based on the estimated remaining useful life of such system or component as described in paragraph (1) of this subsection adjusted for completion of repair and replacement immediately necessary and proposed as described in subparagraphs (A) and (B) of this paragraph. The PCA must include a separate table of the estimated long term costs which identifies in each line the individual component of the property being examined, and in each column the year during the term in which the costs are estimated to be incurred and no less than 15 years. The estimated costs for future years should be given in both present dollar values and anticipated future dollar values assuming a reasonable inflation factor of not less than 2.5% per annum.

(b) If a copy of such standards or a sample report have been provided for the Department's review, if such standards are widely used, and if all other criteria and requirements described in this section are satisfied, the Department will also accept copies of reports commissioned or required by the primary lender for a proposed transaction, which have been prepared in accordance with:

(1) Fannie Mae's criteria for Physical Needs Assessments~~,~~;

(2) Federal Housing Administration's criteria for Project Capital Needs Assessments~~,~~;

(3) Freddie Mac's guidelines for Engineering and Property Condition Reports~~,~~;

(4) TX-USDA-RHS guidelines for Capital Needs Assessment~~,~~; or,

(5) Standard and Poor's Property Condition Assessment Criteria: Guidelines for Conducting Property Condition Assessments, Multifamily Buildings.

(c) The Department may consider for acceptance reports prepared according to other standards which are not specifically named above in subsection (b) of this section, if a copy of such standards or a sample report have been provided for the Department's review, if such standards are widely used, and if all other criteria and requirements described in this section are satisfied.

(d) The PCA shall be conducted by a Third Party at the expense of the Applicant, and addressed to TDHCA as the client. Copies of reports provided to TDHCA which were commissioned by other financial institutions should address TDHCA as a co-recipient of the report, or letters from both the provider and the recipient of the report should be submitted extending reliance on the report to TDHCA. The PCA report should also include a statement that the person or company preparing the PCA report will not materially benefit from the Development in any other way than receiving a fee for performing the PCA. The PCA report must contain a statement indicating the report preparer has read and understood the requirements of this section. The PCA should be signed and dated by the Third Party report provider not more than six months prior to the date of the application.

§1.37. Reserve for Replacement Rules and Guidelines.

(a) **General Provisions.** The Department will require Developments to provide regular maintenance to keep housing sanitary, safe and decent by maintaining a reserve for replacement in accordance with §2306.186. The reserve must be established for each unit in a Development of 25 or more rental units, regardless of the amount of rent charged for the unit. The Department shall, through cooperation of its divisions responsible for asset management and compliance, ensure compliance with this section.

(b) The First Lien Lender shall maintain the reserve account through an escrow agent acceptable to the First Lien Lender to hold reserve funds in accordance with an executed escrow agreement and the rules set forth in this section and §2306.186.

(1) Where there is a First Lien Lender other than the Department or a Bank Trustee as a result of a bond indenture or tax credit syndication, the Department shall:

(A) Be a required signatory party in all escrow agreements for the maintenance of reserve funds;

(B) Be given notice of any asset management findings or reports, transfer of money in reserve accounts to fund necessary repairs, and any financial data and other information pursuant to the oversight of the Reserve Account within 30 days of any receipt or determination thereof; and,

(C) Subordinate its rights and responsibilities under the escrow agreement, including those described in this subsection, to the First Lien Lender or Bank Trustee through a subordination agreement subject to its ability to do so under the law and normal and customary limitations for fraud and other conditions contained in the Department's standard subordination clause agreements as modified from time to time, to include subsection (c) of this section.

(2) The escrow agreement and subordination agreement, if applicable, shall further specify the time and circumstances under which the Department can exercise its rights under the escrow agreement in order to fulfill its obligations under §2306.186 and as described in this section.

(3) Where the Department is the First Lien Lender and there is no Bank Trustee as a result of a bond indenture or tax credit syndication or where there is no First Lien Lender but the allocation of funds by the Department and §2306.186 requires that the Department oversee a Reserve Account, the Owner shall provide at their sole expense for appointment of an escrow agent acceptable to the Department to act as Bank Trustee as necessary under this section. The Department shall retain the right

to replace the escrow agent with another Bank Trustee or act as escrow agent at a cost plus fee payable by the Owner due to breach of the escrow agent's responsibilities or otherwise with 30 days prior notice of all parties to the escrow agreement.

(c) If the Department is not the First Lien Lender with respect to the Development, each Owner receiving Department assistance for multifamily rental housing shall submit on an annual basis within the Department's required Owner's Financial Certification packet a signed certification by the First Lien Lender including:

(1) Reserve for replacement requirements under the first lien loan agreement;

(2) Monitoring standards established by the First Lien Lender to ensure compliance with the established reserve for replacement requirements; and,

(3) A statement by the First Lien Lender.

(A) That the Development has met all established reserve for replacement requirements; or

(B) Of the plan of action to bring the Development in compliance with all established reserve for replacement requirements, if necessary.

(d) If the Development meets the minimum unit size described in subsection (a) of this section and the establishment of a Reserve Account for repairs has not been required by the First Lien Lender or Bank Trustee, each Owner receiving Department assistance for multifamily rental housing shall set aside the repair reserve amount as described in subsection (e)(1) - (3) of this section through the date described in subsection (f)(2) of this section through the appointment of an escrow agent as further described in subsection (b)(3) of this section.

(e) If the Department is the First Lien Lender with respect to the Development, each Owner receiving Department assistance for multifamily rental housing shall deposit annually into a Reserve Account through the date described in subsection (f)(2) of this section~~:~~.

(1) For new construction Developments:

(A) Not less than $150 per unit per year for units one to five years old; and,

(B) Not less than $200 per unit per year for units six or more years old.

(2) For rehabilitation Developments:

(A) An amount per unit per year established by the Department's division responsible for credit underwriting based on the information presented in a Property Condition Assessment in conformance with §1.36 of this subchapter; and,

(B) Not less than $300 per unit per year.

(3) For either new construction or rehabilitation Developments, the Owner of a multifamily rental housing Development shall contract for a third-party Property Condition Assessment meeting the requirements of §1.36 of this subchapter and the Department will reanalyze the annual reserve requirement based on the findings and other support documentation.

(A) A Property Condition Assessment will be conducted:

(i) At appropriate intervals that are consistent with requirements of the First Lien Lender, other than the Department; or,

(ii) At least once during each five-year period beginning with the 11th year after the awarding of any financial assistance for the Development by the Department, if the Department is the First Lien Lender or the First Lien Lender does not require a third-party Property Condition Assessment.

(B) Submission by the Owner to the Department will occur within 30 days of completion of the Property Condition Assessment and must include:

(i) The complete Property Condition Assessment;

(ii) First Lien Lender and/or Owner response to the findings of the Property Condition Assessment;

(iii) Documentation of repairs made as a result of the Property Condition Assessment; and,

(iv) Documentation of adjustments to the amounts held in the replacement Reserve Account based upon the Property Condition Assessment.

(f) A Land Use Restriction Agreement or restrictive covenant between the Owner and the Department must require:

(1) The Owner to begin making annual deposits to the reserve account on the later of:

(A) The date that occupancy of the Development stabilizes as defined by the First Lien Lender or in the absence of a First Lien Lender other than the Department, the date the property is at least 90% occupied; or,

(B) The date that permanent financing for the Development is completely in place as defined by the First Lien Lender or in the absence of a First Lien Lender other than the Department, the date when the permanent loan is executed and funded.

(2) The Owner to continue making deposits until the earliest of the following dates:

(A) The date on which the Owner suffers a total casualty loss with respect to the Development;

(B) The date on which the Development becomes functionally obsolete, if the Development cannot be or is not restored;

(C) The date on which the Development is demolished;

(D) The date on which the Development ceases to be used as a multifamily rental property; or,

(E) The later of

(i) The end of the affordability period specified by the Land Use Restriction Agreement or restrictive covenant; or,

(ii) The end of the repayment period of the first lien loan.

(g) The duties of the Owner of a multifamily rental housing Development under this section cease on the date of a change in ownership of the Development; however, the subsequent Owner of the Development is subject to the requirements of this section.

(h) If the Department is the First Lien Lender with respect to the Development or the First Lien Lender does not require establishment of a Reserve Account, the Owner receiving Department assistance for multifamily rental housing shall submit on an annual basis within the Department's required Owner's Financial Certification packet:

(1) Financial statements, audited if available, with clear identification of the replacement Reserve Account balance and all capital improvements to the Development within the fiscal year;

(2) Identification of costs other than capital improvements funded by the replacement Reserve Account; and,

(3) Signed statement of cause for:

(A) Use of replacement Reserve Account for expenses other than necessary repairs, including property taxes or insurance;

(B) Deposits to the replacement Reserve Account below the Department's or First Lien Lender's mandatory levels as defined in subsections (c), (d) and (e) of this section; and,

(C) Failure to make a required deposit.

(i) If a request for extension or waiver is not approved by the Department, Department action, including a penalty of up to $200 per dwelling unit in the Development and/or characterization of the Development as Materially Non-Compliant, as defined in §60.1 of this title, may be taken when:

(1) A Reserve Account, as described in this section, has not been established for the Development;

(2) The Department is not a party to the escrow agreement for the Reserve Account;

(3) Money in the Reserve Account

(A) Is used for expenses other than necessary repairs, including property taxes or insurance; or,

(B) Falls below mandatory deposit levels;

(4) Owner fails to make a required deposit;

(5) Owner fails to contract for the third party Property Condition Assessment as required under subsection (e)(3) of this section; or,

(6) Owner fails to make necessary repairs, as defined in subsection (k) of this section.

(j) On a case by case basis, the Department may determine that the money in the Reserve Account may:

(1) Be used for expenses other than necessary repairs, including property taxes or insurance, if:

(A) Development income before payment of return to Owner or deferred developer fee is insufficient to meet operating expense and debt service requirements; and,

(B) The funds withdrawn from the Reserve Account are replaced as cashflow after payment of expenses, but before payment of return to Owner or developer fee is available.

(2) Fall below mandatory deposit levels without resulting in Department action, if:

(A) Development income after payment of operating expenses, but before payment of return to Owner or deferred developer fee is insufficient to fund the mandatory deposit levels; and,

(B) Subsequent deposits to the Reserve Account exceed mandatory deposit levels as cashflow after payment of operating expenses, but before payment of return to Owner or deferred developer fee is available until the Reserve Account has been replenished to the mandatory deposit level less capital expenses to date.

(k) The Department or its agent may make repairs to the Development if the Owner fails to complete necessary repairs indicated in the submitted Property Condition Assessment or identified by physical inspection. Repairs may be deemed necessary if the Development is notified of the Owner's failure to comply with federal, state and/or local health, safety, or building code.

(1) Payment for necessary repairs must be made directly by the Owner or through a replacement Reserve Account established for the Development under this section.

(2) The Department or its agent will produce a Request for Bids to hire a contractor to complete and oversee necessary repairs.

(l) This section does not apply to a Development for which the Owner is required to maintain a Reserve Account under any other provision of federal or state law.

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Action on the publication in the Texas Register of a notice proposing new Title 10, Part 1 of the Texas Administrative Code, Chapter 5 concerning Community Affairs Programs.

Requested Action

Department staff recommends that the Board review and approve the final rules in Title 10, Part 1 of the Texas Administrative Code, Chapter 5 concerning Community Affairs Programs for the following five programs: the Community Services Block Grant (CSBG), the Emergency Shelter Grants Program (ESGP), the Comprehensive Energy Assistance Program (CEAP), the Weatherization Assistance Program (WAP) and the Section 8 Housing Choice Voucher Program.

Background

On September 5, 2008, the Department announced in the Texas Register that the Department would conduct a series of Consolidated Public Hearings to solicit comments on the draft rules for the Community Affairs programs, 10 Texas Administrative Code, Chapter 5, Subchapters A - H. The proposed rules were published in the Texas Register on September 19, 2008 and a 30 day comment period was allowed for public comment on the rules.

The Department conducted its Consolidated Public Hearings in September and October 2008 at six (6) locations around the state. The thirty (30) day public comment period closed October 20, 2008.

Summary of Comments and Department Responses

The Department received six public comments, one as public testimony, one written comment from one organization and four comments by e-mail. The following summary represents the public comments, the commentator's rationale, and the response from the staff. Appendix A identifies the commentators and the organizations that they represent.

Comment No. 1
§5.3.Definitions (b)(7) Community Action Agencies (CAAs)--Local private and public non-profit organizations that carry out the Community Action Program (CAP), which was founded by the 1964 Economic Opportunity Act to fight poverty by empowering the poor in the United States. Each CAA must have a board consisting of ~~at least one-third low-income community members, one-third public officials, and up to one-third private sector leaders~~one-third elected public officials, not fewer than one-third representatives

of low-income individuals and families, and the remainder are members of business, industry, labor, religious, law enforcement, education, or other major groups and interests in the community.
Rationale: Revised language is consistent with the CSBG Act.

Department Response: Staff will add the revised language consistent with the CSBG Act.

Comment No. 1
§5.3.Definitions (b)(20) Eligible Entity--Those local organizations ~~in existence and~~ designated by the federal government to administer programs created under the federal Economic Opportunity Act of 1964. This included community action agencies, limited-purpose agencies, and units of local government. The CSBG Act defines an eligible entity as an organization that was an eligible entity~~in effect~~ on the day before the enactment of the Coats Human Services Reauthorization Act of 1998 (October 27, 1998) or is designated by the Governor to serve a given area of the State and that has a tripartite board or other mechanism for local governance.
Rationale: (1) Local organizations did not exist prior to the Economic Opportunity Act. (2) Clarification purposes.

Department Response: Staff concurs with this comment and will add the revised language for clarification.

Comment No. 1
§5.3.Definitions (b)(25) USDHHS--U.S. Department of Health and Human Services.
Rationale: Typo.

Department Response: Staff concurs with this comment and will reflect the change.

Comment No. 1
§5.3.Definitions (b)(44) Private Nonprofit Organization--An organization which has status as a §501(c)(3) tax-exempt entity. Private nonprofit organizations applying for ESGP funds must be established for charitable purposes and have activities that include, but are not limited to, the promotion of social welfare and the prevention or elimination of homelessness. The entity's net earnings may not inure to the benefit of any individual(s).
Rationale: Private nonprofit organizations are designated 501(c)(3) status as defined by the Internal Revenue Code.

Department Response: The CSBG Act only specifies private nonprofit organization and does not specify 501(c)(3). Staff does not recommend a change to the Rule.

Comment No. 1
§5.3.Definitions (b)(64) U.S.C.--United States Code.~~ of Regulations~~
Rationale: Clarification, the U.S.C. is the codification of laws passed by Congress; the C.F.R. is the codification of regulations promulgated by executive agencies such as the USDHHS.

Department Response:
Staff concurs with this comment and will revise the language as suggested.

Comment No. 1
§5.4.Prohibitions ~~**(a) Lobbying activity is prohibited. The Hatch Act, 5 U.S.C., Chapter 15 and the amendments to the Hatch Act and the repeal of §675(e) and §675(C)(6) of the Community Services Block Grant (CSBG) Act do not affect §675(C)(7) of the CSBG Act.**~~
Rationale: This language is inconsistent with federal law. CAAs are not prohibited from lobbying. The CSBG Act does not prohibit or mention lobbying. And, OMB Circular A-122 only restricts the use of federal funds for lobbying, it does not prohibit a federal grantee from using other funds to do so; there are a number of exceptions.

Department Response: State law is more restrictive than federal law and lobbying is prohibited by Texas Government Code.

Language has been modified to reflect federal prohibitions pursuant to OMB Circular A-122. §5.4 “Prohibitions” subsection (a) reads:

> (a) Pursuant to the Office of Management and Budget Circular A-122, “Cost Principles for Non-Profit Organizations,” specifically §25 titled “Lobbying”, costs associated with lobbying are unallowable.
> (b) §678 (F)(b)(2) of the CSBG Act prohibits the use of program funds for political activity, voter registration activity or voter registration. The Hatch Act, 5 U.S.C., Chapter 15 and the amendments to the Hatch Act and the repeal of §675 (e) and 675 (C)(6) of the Community Services Block Grant (CSBG) Act do not affect the prohibition of §678 (F)(b)(2).

Comment No. 1
§5.5.Certificate and Disclosure Regarding Certain Lobbying Activities (b), (c)
(b) A §501(c)(3) nonprofit organization which pays any person funds from any source (even non-federal funds) to lobby Congress in connection with the awarding or modifying of a federal contract, loan, cooperative agreement, or grant or which pays an employee of any federal agency in connection with the~~is grant~~ same, must complete the "Disclosure of Lobbying Activities" form available on the Office of Management and Budget (OMB) website. The subrecipient must also file quarterly updates about its employment of lobbyists for the above activities if material changes occur in the organization's use of lobbyists.
Rationale: Clarification in accordance with federal law.

(c) For each contract, grant, cooperative agreement, or loan in excess of $100,000, the subrecipient must complete the "Certification Regarding Lobbying" form and return it to the Department. This form is located on the Department's website. By completing the certification, the subrecipient verifies that no federally appropriated funds have been used to lobby the United States Congress in connection with the awarding or modifying of a federal contract, loan, cooperative agreement or grant.
Rationale: Clarification in accordance with federal law.

Department Response:
§5.5 Staff does not concur with the comment to qualify lobbying activities by inserting the word “certain”. Minor revisions have been made to §5.5 (b) and (c) for clarification purposes. The section reads:

(b) A §501(c)(3) nonprofit organization which pays any person funds from any source (even non-federal funds) to lobby Congress or which pays an employee of any federal agency in connection with this grant, must complete the "Disclosure of Lobbying Activities" form available on the U. S. Department of Health and Human Services (USDHHS) ~~Office of Management and Budget (OMB)~~ website. A completed form must be submitted to the Department prior to engaging in lobbying activities. The subrecipient must also file quarterly updates about its employment of lobbyists if material changes occur in the organization's use of lobbyists.

(c) For each contract, grant, cooperative agreement, or loan in excess of $100,000, the subrecipient must complete the "Certification Regarding Lobbying" form and return it to the Department. This form is located on the USDHHS ~~Department's~~ website. By completing the certification, the subrecipient verifies that no federally appropriated funds have been used to lobby the United States Congress.

§5.5(b): The CSBG Act does not prohibit or mention lobbying. Current proposed language conveys the requirements and prohibitions of OMB Circular A-122 regarding the use of federal funds for lobbying. Language remains unchanged.

§5.5(c): Staff concurs with this comment and will reflect the change.

Comment No. 1
§5.10.Procurement Standard (a),(b), (c)(5)(E)(ii)

(a) Procurement procedures must meet minimum guidelines, according to Office of Management and Budget (OMB) Circulars A-87, A-102, A-110, A-122 (as applicable), the Uniform Grant Management Common Rule, and Texas Government Code, Chapter 783, ~~and 10 CFR, Part 600 (Financial Assistance Rule)~~ as applicable.

Rationale: 10 CFR, Part 600 is not pertinent to subrecipients; rather it applies to decisions made by the federal Department of Energy in awarding financial assistance.

(b) All subrecipients including non-profits must comply with all of the referenced statutes and regulations listed in subsection (a) of this section. In case of any conflict between the OMB Circulars or federal laws and state laws involving federal funds, the federal law or OMB Circulars will prevail.
Rationale: Clarification.

(ii) Subrecipient shall give Department ~~complete~~ access to ~~all of its~~those records, employees, and agents that relate to the Department-funded programs for the purpose of monitoring or investigating the program. Subrecipient shall fully cooperate with Department's reasonable efforts to detect, investigate, and prevent waste, fraud, and abuse in Department-funded programs. Subrecipient shall immediately notify the Department of any identified instances of waste, fraud, or abuse in connection with Department-funded programs.
Rationale: Clarification purposes. It is anticipated that the Department will continue to focus on its funded programs

Department Response:
§5.10(a): Staff does not concur with this comment. 10 CFR, Part 600 implements OMB Circular A-110 on behalf of the Department of Energy and establishes uniform administrative requirements.
§5.10(b): Staff concurs with this comment and will revise the language under §5.10.
§5.10(c)(5)(E)(ii): OMB Circular A-100, Part C.53 requires access.

Comment No. 1
§5.14.Subrecipient Contract (a) Upon Board approval, the Department's Executive Director and subrecipients shall enter into and execute an agreement for the receipt of funds. The Department, acting by and through its Executive Director or his/her designee, may authorize, execute, and deliver modifications and/or amendments to the contract if agreed to by the subrecipient, as additional funds become available.
Rationale: If modifications and/or amendments are related to lack of performance or reduction of funds, the Department allows due process through steps outlined under corrective action, sanctions and/or termination sections of the TAC.

Department Response: Staff does not concur with this comment. The Subrecipient reserves the right to sign or not sign the amendment when the amendment is made available in contract system.

Comment No. 1
§5.16.Monitoring of Subrecipients (a)(1), (a)(3), (a)(4), (a)(4)(A), (a)(4)(B), (b) and (d)
(1) CAD employs a subrecipient monitoring procedure that is based upon an assessment of associated risks. The factors may include but are not limited to the status of the most recent monitoring report, timeliness of grant reporting, results of the last on-site monitoring review, number and funding amount of Department funded contracts, final expenditure rate, and single audit status or other factors. Ranking of subrecipients will

determine whether an on-site review or a desk review is completed unless Department management determines an on-site review is needed. CAD may conduct unannounced on-site monitoring reviews of subrecipients identified as high risk, if deficiencies identified from prior monitoring activities persist or remain unresolved for an unreasonable period of time. In the event of reports of fraud and abuse or other extenuating circumstances the Department may make an unannounced on-site monitoring review.

Recommendation: (1) Define “high risk.” In some instances the term has implied a subrecipient with severe management and/or fiscal deficiencies and in other instances the term has implied a subrecipient with multiple and high dollar contracts with the Department. (2) The TAC should state that the Department will notify a subrecipient when it is declared “high risk” and an explanation for the designation should be provided. (3) The TAC should state what the subrecipient needs to do to lift the designation, if the designation is based on deficiencies. (4) The TAC should state consequences other than being subject to unannounced visits, e.g. cost reimbursement rather than advances,

(3) ~~A m~~Monitoring instruments will be posted on the Department’s website and will be ~~is~~ used to perform monitoring reviews. Support documentation is retained by the Department to verify: the achievement of performance goals; conduct of eligible activities; and compliance with other contractual regulatory provisions and financial accountability. Monitoring reviews of subrecipients also include reviewing annual financial reports and any related management letters and financial documents.
Rationale: Disclosure of the ‘monitoring instrument’ via the Department’s website will allow transparency and the Department’s expectations of the subrecipients.

(4) Following the onsite monitoring review, a monitoring report is prepared and submitted to the subrecipients within ninety (90) days outlining any administrative, program, and financial deficiencies. The monitoring report also includes notes, recommend improvements, corrective actions or a corrective action plan.
Rationale: To encourage timely resolutions.
Recommendation: Appeals process regarding monitoring of programs should be established in this section.

(A) Finding--The written description of a clearly deficient condition which is significantly substandard according to the monitoring standards. Findings may also be deficiencies found with regard to compliance with program rules, required cost principles, federal, state and/or local laws, and generally accepted accounting procedures or Generally Accepted Accounting Principles. In general, findings require corrective action to create an acceptable level of risk for disbursement of funds. The description of a finding might include the cause and effect of the deficient condition.
Rationale: Clarification.

(B) Recommended Improvement--~~A necessary improvement to~~ Suggested best practice(s) to enhance program, operational, financial or administrative practices ~~that may or may not be related to a substandard condition but through its application will lower~~

~~risk factors and bring the affected area into a relatively improved condition. A recommended improvement will be made if a condition might lead to a finding but is itself not significant or sustained in nature. Recommended Improvements will be made to improve a weakness but not to request corrective actions.~~
Rationale: Clarify and simplify language to avoid misinterpretation between a 'recommended' improvement and 'corrective action' as required under a "finding."

(b) Subrecipients not exempt from the single audit requirements are responsible for submitting their Single Audit Report within thirty (30) days of completion of their audit and no later than nine (9) months after the end of the audit period (fiscal year end) to the Department's Portfolio Management and Compliance Division as well as to the CA Division. Refer to 31 U.S.C. §7502.
Rationale: Subrecipients exempt from the single audit requirements will not have such an audit to submit.
(d) If a subrecipient fails to comply with the requirements, rules, and regulations of the CSBG, CEAP, WAP, or ESGP programs, and in the event monitoring or other reliable sources reveal material deficiencies in performance, or if the subrecipient fails to correct any deficiency within the time allowed by federal or state law, the Department will apply one or more of the following sanctions assuring due process, unless otherwise required:
Rationale: Clarification purposes.

Department Response:
§5.16(a)(1): Staff revised §5.16 to separate the assessment of risk into §5.16 (a)(1). Unannounced monitoring review was also moved to §5.16 (a)(2).

Staff concurs with the comment and has revised §5.16 (a) (1) as follows:

(a) The Department's Community Affairs Division (CAD) is responsible for ensuring that the Community Services Block Grant (CSBG), Comprehensive Energy Assistance Program (CEAP), Weatherization Assistance Program (WAP), and Emergency Shelter Grant Program (ESGP) program activities are completed and that the funds are expended in accordance with the contract provisions and applicable State and Federal rules, regulations, policies, and related statutes. In order to ensure such, the Department will conduct monitoring reviews of the subrecipients to evaluate the effectiveness of subrecipient's performance and program compliance through on-site and desk monitoring as described in §5.15 of this chapter (relating to Federal Funding Accountability and Transparency Act (FFATA)) following the requirements of §678B of PL 105-285 Subtitle B, §2605(B)(10) of PL 97-35, as amended, CFR 10 §440.23(d), and CFR 24 §576.61 and §576.57(f) and (g), respectively.

(1) CAD employs a subrecipient monitoring procedure that is based upon an assessment of associated risks. The factors may include but are not limited to the status of the most recent monitoring report, timeliness of grant reporting, results of the last on-site monitoring review, number and funding amount of Department funded contracts, final expenditure rate, and single audit status or other factors. Ranking of subrecipients will

determine whether an on-site review or a desk review is completed unless Department management determines an on-site review is needed. ~~CAD may conduct unannounced on-site monitoring reviews of subrecipients identified as high risk, if deficiencies identified from prior monitoring activities persist or remain unresolved for an unreasonable period of time. In the event of reports of fraud and abuse or other extenuating circumstances the Department may make an unannounced on-site monitoring review.~~

(2) CAD may conduct unannounced on-site monitoring reviews of subrecipients identified as ~~high~~ at risk for contract termination, if deficiencies identified from prior monitoring activities persist or remain unresolved for an unreasonable period of time. In the event of reports of fraud and abuse or other extenuating circumstances, the Department may make an unannounced on-site monitoring review.

§5.16(a)(3): Staff does not concur with this comment. The monitoring instrument is not a static document. Subrecipients should follow the TAC Rules and the contract in order to ensure compliance with state and federal regulations.
§5.16(a)(4): Staff concurs with adding “onsite” to the language in §5.16. However, monitoring reports should be submitted to subrecipients within forty-five (45) days. Subrecipients must provide a response to the deficiencies noted and state any concerns at this time.
§5.16(a)(4)(A): Staff does not concur with this comment. Deficient correlates to substandard which does not have a range within its definition.
§5.16(a)(4)(B): Staff concurs with this comment and will revise the language in §5.16.
§5.16(b): Staff concurs with this comment and will revise the language in §5.16.
§5.16(d): Staff does not concur with comment. The proposed language restates what is included in the TAC Rules.

Comment No. 1
§5.17. Corrective Action and Contract Termination (a), (c), (d)(3) and (g)(3)
(a) Subrecipients that have entered into contract with the Department to administer programs are required to follow state and federal laws and regulations and rules governing these programs.
Rationale: Clarification.

(c) Adhering to the requirements governing each specific program administered by the Department, as needed, the Department may determine to proceed with the termination of a contract, in whole or in part, at any time the Department establishes there is good cause for termination, as referenced in §5.17 Contract Termination.
Rationale: For consistency purposes.

(3) Follow-up visits may be conducted to review and assess the efforts the subrecipient has made to correct previously noted deficiencies. Provide t~~T~~echnical assistance and training ~~may be provided~~ to the subrecipient to address program deficiencies.
Rationale: Revision is consistent with Sec 678C of the CSBG Act.

(3) No later than thirty (30) days after the contract is terminated, the Department will take a physical inventory of client files, including case management files, and will submit to the Department an inventory of equipment with a unit acquisition cost of $5,000 or greater for Comprehensive Energy Assistance Program (CEAP), Weatherization Assistance Program (WAP) and CSBG or a unit acquisition cost of $500 or greater for ESGP.
<u>Comment: Possible typo - "the Department will take physical inventory…and will submit to the Department…" Should the sentence read: Subrecipient will take physical inventory and submit to the Department or Department will take inventory and submit to the USDHHS, or another scenario?</u>

Department Response:
§5.17(a): Staff concurs with comment.
§5.17(c): Staff concurs with the comment.
§5.17(d)(3): Staff will revise last sentence to read "will" instead of "may".
§5.17(g)(3): Staff concurs with the comment and will revise the language.

Comment No. 1
§5.20.Determining Income Eligibility (a) The U.S. Department of Health and Human Services (US<u>D</u>HHS) annually provides poverty income guidelines for use in determining client eligibility. Community Affairs Division programs are required to follow these guidelines.
<u>Rationale: Typo.</u>

Department Response: Staff concurs with the comment.

Comment No. 1
§5.201.Background (a) In addition to the following rules for the Community Services Block Grant (CSBG) program, the rules established in Subchapter A of this chapter also apply to the CSBG program<u>, except those that relate to the suspension, reduction, withholding or termination of funding</u>. The CSBG Act was amended by the "Community Services Block Grant Amendments of 1994" and the Coats Human Services Reauthorization Act of 1998. The Secretary is authorized to establish a community services block grant program and make grants available through the program to states to ameliorate the causes of poverty in communities within the states.
<u>Rationale: To ensure consistency with and avoid violation of the CSBG Act.</u>

Department Response: Staff concurs with the comment and has made minor revisions to **§5.17(c)(4)** in order to provide further clarification**.**

Comment No. 1
§5.203.Distribution of CSBG Funds (a) The CSBG Act requires that no less than 90%

of the state's allocation be allocated to eligible entities. The Department currently utilizes a multi-factor fund distribution formula to equitably provide CSBG funds throughout the state's 254 counties to the CSBG eligible entities. The formula incorporates the ~~2000~~most current U.S. Census figures at 125% of poverty; a $50,000 base; a $150,000 floor (the minimum funding level); a 98% weighted factor for poverty population; and, a 2% weighted factor for the inverse ratio of population density.
Rationale: Remove the date to prevent from having to change the TAC when a new U.S. Census is released.

Department Response: Staff concurs with the comment.

Comment No. 1
§5.206.Termination and Reduction of Funding (a)(6)(A), (a)(6)(B) and (a)(6)(C)
(A) Pursuant to the CSBG Act, the Department will provide notice and an opportunity for a hearing on the record.
Rationale: Clarification in accordance with federal law.

(B) The Department will select an Administrative Law Judge (ALJ) to oversee the proceedings of the hearing. The Department will coordinate establishing a date, time and hearing location with the ALJ and will provide adequate notice to the subrecipient. The ALJ will determine whether there is cause, as defined by the CSBG Act, U.S.C. 9908(c), to terminate or reduce funding to the subrecipient.
Rationale: Clarification in accordance with federal law.

(C) If the ALJ determines that there is cause to terminate or reduce funding ~~Upon receiving a favorable ruling from the ALJ,~~ pursuant to 42 U.S.C. §9915, the Department will notify the subrecipient that it has the right under 42 U.S.C. 9915 to seek review of the decision by the USDHHS ~~prepare correspondence to the U.S. Secretary of Health and Human Services (HHS) requesting the termination of the subrecipient as a CSBG eligible entity~~. If the USDHHS does not overturn the decision, or if the subrecipient does not seek USDHHS review,~~Upon receiving a favorable ruling from HHS,~~ the Department will initiate proceedings to terminate and close-out the contract.
Rationale: Clarification in accordance with federal law.

Department Response:
§5.206(a)(6)(A): Staff does not concur with the comment. The CSBG Act only requires the opportunity for a hearing.
§5.206(a)(6)(B): Staff included Administrative Law Judge (ALJ) or “impartial official” to provide flexibility in the hearing process.
§5.206(a)(6)(C): Staff accepts deletion of “upon receiving a favorable ruling from HHS” in last sentence and included Administrative Law Judge (ALJ) or “impartial official” to provide flexibility in the hearing process.

Comment No. 1
§5.207.Subrecipient Performance (b) and (b)(2)

~~**(b) Unexpended Funds. The Department reserves the right to deobligate funds**~~ in excess of 20% of funds.
Rationale: Deobligation of funds is inconsistent with the right of an agency to carry over funds into the next year and the due process accorded for reduction or termination of funds.

(2) The Coats Human Services Reauthorization Act of 1998, allows states to recapture unexpended CSBG funds in excess of 20% of the CSBG funds obligated to an eligible entity. All recaptured funds will be distributed to all eligible entities using the approved formula allocation. This may be superseded by Congressional action in the appropriation process or by the terms and conditions issued by U.S. Department of Health and Human Services in the CSBG award letter.
Rationale: (1) The edit to the first sentence ensures usage of the funds as originally intended. (2) Correction of the federal agency name.

Department Response:
§5.207(b): Subrecipients are allowed to carry over 20% of CSBG funds according to CSBG Act.
§5.207(b)(2): Staff does not concur with first comment. The CSBG Act does not require the unexpended balances to be reallocated by a formula. Staff will revise the section to include the “Department of” to correctly identify the funding source.

Comment No. 1
§5.213.Board Structure (a) - Comments 1 and 4 and Comment 4 §5.213(d)(2)(A)
(a) Private nonprofit entities only, shall administer the CSBG program through a tripartite board that fully participates in the development, planning, implementation, and evaluation of the program to serve low-income communities. Some of ~~T~~the members of the board shall be selected by the private nonprofit entity and others through a democratic process; the board shall be composed so as to assure that the requirements of §676B(a)(2) of the CSBG Act are followed and are composed as follows:
Rationale: Clarification to reflect actual process which is consistent with (a)(2) of this section.

§5.213 Board Structure (a)
Delete “only” in first sentence. Word is unnecessary, in as much as entire paragraph it just affects private nonprofit entities.
(A) An essential objective of community action is participation by low-income individuals in the programs which affect their lives; therefore, the CSBG Act and its amendments require representation of low-income individuals on boards or state-specified governing bodies. The CSBG statute requires that not fewer than one-third of the members shall be ~~are~~ representatives of low-income individuals and families and that they shall be chosen in accordance with democratic selection procedures adequate to assure that these members are representative of low-income individuals and families in the neighborhoods served; and that each representative of low-income individuals and families selected to represent a specific neighborhood within a community resides in the

neighborhood represented by the member or;
Rationale: Typo.

Department Response:
§5.213(a): Staff does not concur with this comment. The language is taken from the CSBG Act**.**
§5.213(d)(2)(A):   Staff concurs with this comment.

Comment No. 1
§5.215.Board--Size~~(a) The board size shall be divisible by three (3).~~
Rationale: In accordance with §676B. Tripartite Boards of the CSBG Act, the board does not need to be divisible by three. Rather, the board shall be comprised of three sectors. The 'divisible by three' could create an unnecessary burden to a subrecipient. For example, if a subrecipient has a board divisible by three and a new funding source requires a representative reflective of a new program, then the subrecipient will need to add more members in order to comply with the 'divisible by three' requirement as opposed to one more member to comply with the new funding source.

Department Response: Staff does not concur with this comment. There is no specific requirement to that effect. However, Community Action Program Legal Services Inc. (CAPLAW) recommends having a number divisible by three (3) to ensure that exactly 1/3 public officials serve on the board.

Comment No. 1
§5.217.Board Meeting Requirements (a) The Board must follow the Texas Open Meetings Act, meet at least ~~every 10 weeks~~ once per calendar quarter and at minimum five (5) times per year and, must give each member a notice of meeting five (5) days in advance of the meeting.
Rationale: Sometimes it is difficult to meet every 10 weeks. The change does not reduce the number of times a Board would meet per year; however, it would allow subrecipients the opportunity to meet on a more structured time frame of the month, such as the 4th Thursday or the 2nd Tuesday of a given month.

Department Response: Staff concurs with this comment and will revise the language.

Comment No. 1
§5.422.General Assistance and Benefit Levels (d)(2)(D), (f)- Comment 1,4 and Comment No. 4 §5.422(h)(1)
(D) The Heating and Cooling System Replacement, Repair, and/or Retrofit Component maximum household benefit limit is $~~4,000~~5,000.
Rationale: Increased cost with fuel and copper makes it difficult to address all the appliances with $4,000, which justifies the reason to increase the benefit limit.
(f) Total maximum possible annual household benefit (all components combined) equals $~~7~~8,600.

Rationale: Adjustment to reflect recommendation in 5.422(d)(2)(D).

§5.422. General Assistance and Benefit levels (f) Total maximum possible annual household benefit (all components combined) equals $**9,000**.
Rationale: To allow for the additional increases in utility costs.

Department Response: Staff is proposing to increase the maximum household benefit to $8,600 as described above.

Comment No. 1
§5.422 General Assistance and Benefit levels (h)(1).
(1) Payment to vendors and suppliers of fuel/utilities, goods, and other services, such as electrical wiring, butane tanks and lines, etc. for past due or current bills related to the procurement of energy for heating and cooling needs of the residence, not to include security lights and other items unrelated to energy assistance;
Rationale: Clarifies allowable other services.

Department Response: Staff concurs with comments in §5.422(d)(2)(D), and §5.422(h)(1).
§5.422(f): Staff is proposing to increase the maximum household benefit to $8,600 as described above.

Comment No. 1
§5.423.Energy Crisis Component (g) Time Limits for Assistance--Subrecipients ensure that for clients who have already lost service or are in immediate danger of losing service, some form of assistance to resolve the energy crisis shall be provided within a 48 business hours time limit (18 business hours in life-threatening situations). The time limit commences upon completion of the application process. The application process is considered to be complete when an agency representative accepts an application and completes the eligibility process.
Rationale: Affords a much more feasible time frame.

Department Response:
Staff does not concur with this comment. The LIHEAP statute states in §2604 (c)(1) "not later than 48 hours after a household applies for energy crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits;
(2) not later than 18 hours after a household applies for crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits and is in a life-threatening situation."

Comment No. 1

§5.425.Elderly and Disabled Component (a) Elderly households include at least one member age 60 or above. Disabled households include at least one member living with a disability. Documentation of disability, (i.e. Social Security, Supplemental Security Income statement, doctor's letter) kept in client file will validate eligibility.
Rationale: Edit.

Department Response: Staff concurs with this comment and will make the change.

Comment No. 1

§5.426.Heating and Cooling Component (g) Heating and cooling assessments may be charged to the Heating and Cooling Component ~~on a per household basis~~. If the assessment cost is charged to the Heating and Cooling Component, the cost must be counted toward the household benefit of $~~4,000~~5,000.
Rationale: (1) It is very difficult to separate and record the time and travel assessment costs on a per unit basis in a timely manner. (2) The benefit level is increased to reflect increased costs.

Department Response: Staff does not concur with this comment. A heating and cooling assessment is part of the direct service provided to a household. The costs must be accounted for and included as part of the maximum benefit to the household.

Comment No. 1

§5.503.Distribution of WAP Funds (b)(5)(C), (b)(5)(C)(i) and (b)(5)(C)(iii)
(C) The five factors carry the following weights in the allocation formula: number of non-elderly poverty households (~~40~~35%), number of poverty households with at least one member who is 65 years of age or older (40%), household density as an inverse ratio (~~5~~10%), the median income of the county (5%), and a weather factor based on Heating Degree Days and Cooling Degree Days (10%). All demographic factors are based on the most current~~2000~~ U.S. Census. The formula is as follows:
Rationale: (1) Reduce the non-elderly poverty household factor to 35% to reflect the increased number of higher priority population 65 years of age or older. (2) Increase the inverse density ratio to 10% due to increased travel costs, including fuel and other vehicle expenses and labor. (3) Remove the date to prevent from having to change the TAC when a new U.S. Census is released.
(i) County Non-elderly Poverty Household Factor (0.~~40~~35) plus;
Rationale: To reflect the increased number of higher priority population 65 years of age or older.
(iii) County Inverse Poverty Household Density Factor (0.~~05~~10) plus;
Rationale: To reflect increased travel costs, including fuel and other vehicle expenses and labor.

Department Response: The comments raise a valid concern but due to the potential impact on funding allocations staff would prefer to conduct a roundtable discussion prior to the 2010 Rules cycle to discuss revisions to the existing weatherization allocation formula.

Comment No. 1
§5.524.Lead Safe Work Practices - The Department will ~~Subrecipients must~~ provide ~~a one-day~~ Lead Safe Weatherization (LSW) training, an LSW Manual, and an LSW Jobsite Handbook to their subrecipients and subcontractors. Subrecipients must obtain a signed Worker Verification of LSW Training form from the subcontractor indicating that the subcontractor received the LSW training, manual, and jobsite handbook. Subcontractors must follow Lead Safe Weatherization Work Practices as outlined by the U.S. Department of Energy.
Rationale: Subrecipients do not have credentials or available funds to fulfill this requirement. Furthermore, it is not cost effective to have the 30-plus weatherization subrecipients each fulfill this requirement.

Department Response: Staff does not concur with this comment however minor revisions have been made to §5.524 for clarification.

Comment No. 1
§5.528.Health and Safety (a) ~~Health and Safety funds will have a maximum of 10% of the materials, Labor and Program Support budgets.~~
Rationale: The limit should be removed because the requirement for use of vented heaters is three times more expensive than unvented space heaters.

Department Response: Department concurs with the comment and in consideration of the International Residential Code and the recent Department of Energy “Space Heater Policy,” staff recommends raising the Health and Safety Budget to 20% of the materials, labor, and program support budget.

Comment No. 1
§5.532.Training Funds for Conferences - The Department provides financial assistance to subrecipients for training and technical activities for State sponsored~~, and~~ DOE sponsored and other workshops and conferences. Subrecipients may use WAP training funds to attend conferences provided the conference agenda includes topics directly related to administering WAP. Costs to attend the conference must be prorated by program for the appropriate portion. Only staff actually working on the WAP program may charge any of their travel costs to the program.
Rationale: Proposed revision allows flexibility to attend other training sessions which address WAP topics.

Department Response: The Department concurs with this comment and will revise the language in §5.532.

Comment No. 1
General Recommendations:
The TAC contains many references to state or federal citations, acts, codes, etc. in which general reference is made but not specific enough to easily locate the information. Example: §5.3 Definitions (58) Supplies refers to 'subject inventions,' as referenced in 37 CFR Part 401; however, 401.8 is the actual reference to 'subject inventions.' Similarly, reference to web pages versus website is more helpful. Example: §5.18 Information and Technology Security Practices refers to guidelines at www.tdhca.state.tx.us; however, /security.guidelines.htm after the website directs traffic to the specific web page. It is recommended that more specific information be provided to find citations, acts, codes, web pages, etc.

Department Response: Generally, staff agrees with the comments and intends to provide references that are more specific where appropriate.

Comment No. 1
Agencies contracting with TDHCA should be recognized as contractors, not subrecipients. There is no other program of TDHCA recognizing contractors as subrecipients. Agencies enter into a contract with TDHCA for which funds are provided for a service with performance measures and the agency is subject to liabilities and responsibilities. It is recommended that the term 'subrecipient' be replaced with 'contractor.'

Department Response: Staff does not concur with this comment. The term Subrecipient has been adopted by the Department to reflect the relationship between the grantee (the Department) and the subgrantee (the Subrecipient).

Comment No. 2
5.422(d)(2)(D) General Assistance and Benefit Levels: The Heating and Cooling System Replacement, Repair, and/or Retrofit Component maximum benefit limit $**5,000.** Rationale: dramatic increases in fuel and copper have impacted the HVAC industry and it is becoming more difficult to address all the appliances for $4,000.

Department Response: Staff is proposing to increase the per unit maximum to $5,000 for the Heating and Cooling Component. This increase should accommodate the increased costs for high efficiency units as well as the travel and related staff expenses.

Comment No. 2
5.423(d)(3) Energy Crisis Component: Portable air conditioning and heating units may be purchased only in situations that threaten the life of the client. Do I interpret this correctly? A medical statement is no longer necessary? It is often very difficult to get to

the Dr. to get statement in a reasonable amount of time.

Department Response: The comment raised is valid. Staff will add the following language to clarify this section: A doctor's statement or prior written approval from the Department is required.

Comment No. 2
§<u>5.423(f) When natural disasters or **terrorist attack** result in energy supply shortages or other energy-related emergencies LIHEAP will allow home energy related expenditures for the following:</u>

Department Response: Staff concurs with the additional language and will revise §5.423(f).

Comment No. 2
§5.423<u>(g) Time Limits for Assistance—Subrecipients ensure that clients who have already lost service or are in immediate danger of losing service, some form of assistance to resolve the energy crisis shall be provided within 48 business hours (18 business hours in a life-threatening situation)</u>.

Department Response: Staff does not concur with this comment. The LIHEAP statute states in §2604 (c)(1) "not later than 48 hours after a household applies for energy crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits;
(2) not later than 18 hours after a household applies for crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits and is in a life-threatening situation."

Comment No. 2
<u>**5.425 (a)** Is a 12 month disability statement no longer necessary? We often have people who are temporarily disabled and need assistance but the physician is reluctant to estimate they will be disabled for 12 months. Will we now be able to assist them as long as we can document the disability?</u>

Department Response: Staff will not accept documentation for temporary disability. The Department defines "Persons with Disabilities," as defined in §7(9) of the Social Security Act. The Act considers a person disabled when, "it is expected that your impairment(s) will either result in death or last for at least 12 months in a row."

Comment No. 3
§5.425 Elderly and Disabled Component: A.....Disabled households includes at least one member living with a disability. Their is no age requirement for the household member living with a disability. Is a household member under the age of 18 receiving SSI due to Attention Deficit Disorder (ADD) fall in the category of disabled, even though

the child engages in substantial gainful activity.

Department Response: The Department will not require an age limitation for "Persons with Disabilities." The Department defines "Persons with Disabilities," in §5.3(b)(41). The Department lists excluded and included income to determine eligibility for the CEAP program in §5.19(b).

Comment No. 4
§5.503 Distribution of WAP funds - Because of the significant increase in travel costs including fuel and other vehicle expenses and labor, CSI believes that the inverse density population ratio should be increased from 5 percent to 10 percent and the number of non-elderly poverty households reduced to 35 percent to reflect the increasing number of higher-priority population 65 years of age or older.

Department Response: The comment raises a valid concern, but due to the potential impact in funding allocations, staff would prefer to conduct a roundtable discussion prior to the 2010 Rules cycle to discuss revisions to the existing weatherization allocation formula.

Comment No. 4
§5.528 Health and Safety -This is a particular concern. CSI believes that the 10 percent limit should be eliminated for DOE units because of the requirement for use of vented heaters which cost more than three times as much as unvented space heaters. This program year the original CSI/DOE contract budget included $228,000 for materials plus labor plus program, which are usually referred to as HOUSE funds, equivalent to 77 units.

Through August CSI has completed and contracted 51 units. Twenty-nine of those units had existing vented central heaters, an unusually high ratio because we chose to make them DOE units because they had existing vented heaters. Even if this ratio could be maintained, approximately 44 of the 77 units must have vented heaters installed at a cost of approximately $1,000 plus each. Under the proposed 10 percent maximum rules the health and safety budget would have been 22,800 instead of the 44,000 which would be required just for vented heaters. And this does not allow for other needed health and safety measures such as replacing leaking or dangerous water heaters.

True, in ten of our 15 counties where CSI has the CEAP program funds, we can have and will depend on them for assistance. But it is unrealistic to expect CEAP programs agencies in the other five counties to use their CEAP funds to help us. And other WAP programs have this same problem. To complicate this situation a footnote to Attachment A of the contract states that the only categories that can be reduced are the administrative, insurance, fiscal audit and health and safety categories. So we can't reduce material, labor and program support to assist with the health and safety problem. Every subgrantee knows that administrative, insurance and audit amounts are already insufficient.

Something has to give.

I believe some time in the recent past I heard a DOE federal official say at a national conference the health and safety expenditures, allowable expenditures per unit, could equal the maximum per unit cost. And that was when it was 2,744 per unit. But that benevolence was never passed through to TDHCA's subrecipients. If we are expected to comply with the vented heater rules, the 10 percent limit and the prohibition against transferring HOUSE money to health and safety must be removed from DOE contracts. And DOE and TDHCA should get us more health and safety money.

Department Response: Department concurs with the comment and in consideration of the International Residential Code and the recent Department of Energy “Space Heater Policy,” staff recommends raising the Health and Safety Budget to 20% of the materials, labor, and program support budget.

Comment No. 4

§5.426, Heating and Cooling Component, paragraph G -- and this may be wrong -- it has several sections and it may be the wrong one. But CSI applauds TDHCA for allowing assessment expenses to be included as a specific part of the retrofit category. We had intended to request this. However, because of the complexity of accounting for all the costs involved, as noted below, on a specific unit basis and because replacement costs of central HVAC systems are already approaching or exceeding the $4,000 limit we feel it be more beneficial to the client to allow 10 percent of the retrofit budget to be used for related staff expenses, including travel and not accounted for on a per-unit basis.

In order to perform proper assessments of replacement requirements for components such as refrigerators, water heaters, window air conditions and space heater units and especially central HVAC units, a home visit by a staff member with specific knowledge and experience is required. In all cases existing equipment data must be recorded and in most cases measurements must be made to ensure that replacement units will fit. For some refrigerators and AC units specific energy consumption tests are required. And for central heater and AC units complete system tests, including blower door and/or pressure pan tests to determine the integrity of the duct systems are an absolute necessity. And space measurements are needed to determine proper replacement equipment specifications.

Most CAAs have and use weatherization staff to do this work. Then bid notices or work orders must be written, quotes analyzed and installation inspections made, involving another trip to the home, before payment is authorized. These are not routine client-contact home visits. They're a necessary, time-consuming, travel cost and related tasks specifically related to the retrofit component and should not have to be paid from direct service funds.

Department Response: Staff is proposing to increase the per unit maximum to $5,000 for the Heating and Cooling Component. This increase should accommodate the increased costs for high efficiency units as well as the travel and related staff expenses.

Comment No. 12

The ESG Program activities that provide shelter and essential services for the homeless persons, as well as intervention services for persons threatened with homelessness. Essential services for homeless persons include medical, psychological counseling **and/or treatment**, employment counseling, substance abuse treatment, transportation, and other services.

Eligible Applicants - If regulation permits, we would like to include: agency of the State and/or Community Mental Health Centers.

Department Response: Staff does not concur with this comment. As per 24 CFR §576.1 of the ESGP Act, eligible applicants are units of general local government and private nonprofit organizations.

Comment No. 16

We would suggest, however, that some reference be made to other weatherization programs, including those run by utilities as well as those funded through the Systems Benefit Fund. The most likely way to address this would be through the State policy advisory council.

Thus we would suggest following under §5.602 (b).

(3) In addition to its other functions, the WAP PAC shall collect and review information about other energy efficiency programs implemented in the state that are designed to assist low-income Texans, including those funded through the Systems Benefit Fund and those implemented by individual utilities, and suggest to the Governing Board or Department how WAP activities can be coordinated with these programs.

Finally, the Lone Star Chapter of the Sierra Club would like to suggest that the Department consider naming a separate Policy Advisory Council that would be charged with reviewing how TDHCA rules and programs could continue to foster green building and energy efficiency measures and amenities. Such an Advisory Council should include energy efficiency and green building experts, as well as developers and low-income housing advocates. This council could help TDHCA identify further changes needed to its programs in FY 2010 .

Department Response: Staff does not concur with this comment. The System Benefit Fund does not currently provide funding to the Department's Weatherization Assistance Program, and the utility funded weatherization programs are not statutorily coordinated with the existing federally funded weatherization programs. By DOE final rule, the PAC advises the Department administering the weatherization program in the State of Texas with respect to the development and implementation of the weatherization assistance program.

The staff will forward to the Executive Team the comment expressing an interest in the development of a separate Policy Advisory Council to include green building experts, energy efficiency experts, developers, and low income housing advocates.

Comment No. 16
It appears Project Access Initiative is designed to assist individuals under Olmstead and would like for you to consider including individuals with a chronic mental illness who are transitioning or about to transfer from a state mental hospital back to a local community as an eligible group to be assisted by Section 8 Housing Choice Voucher Program.

Department Response: The Department follows the guidance established by the U.S. Department of Housing and Urban Development in determining eligibility for the Project Access program. As stated in Chapter 2 of Handbook 4600.1 REV-1: §232 Mortgage Insurance for Residential Care Facilities, eligible institutions includes nursing homes, board and care facilities and intermediate care facilities. The list of ineligible facilities includes hospitals, clinics, diagnostic and treatment centers, group practice facilities, and halfway houses.

Comment No. 69
§5.402 Purpose and goals "young children" are identified as priority, then in §5.423 Energy Crisis Component (a) the last sentence says.... constitute a threat to the well-being of the household..... or very young children and then in §5.426 Heating and Cooling (a) it states "The priority factors other than income......"Household energy need" takes into account the unique situation of such household that results in having members of vulnerable populations, **including children under the age of six......"** In the 2008 CEAP contract section 3. Subrecipients Performance it states, Subrecipient shall assist low-income persons with priority given to elderly... **households with young children under 6 years of age**…" Are you confused that's the point I'm trying to make. It’s all so confusing and inconsistent. Which is it, child not exceeding 6 years of age or children under the age of 6?

Department Response: The LIHEAP Annual Report requires the Department to submit information on households with children of the age of 5 and under. Staff will revise the definition under §5.3 Definitions “Family with young children – family unit that includes a child of the age of 5 and under.” The same revision will be done to §5.402, §5.423 and §5.426.

Staff Comment
Energy Assistance Section
§5.3(b)(41)(A) Definitions General

The §7(6) is incorrect. The correct reference is §7(9)

Department Response: Staff concurs.

Appendix A – Collected Public Comments on the Title 10, Part 1 of the Texas Administrative Code, Chapter 5 concerning Community Affairs Programs Rules (draft)

Comment #	Contact	Organization
1	Stella Rodriguez	Texas Association of Community Action Agencies, Inc.
2	Jan McMullen	Fort Worth Community Action Partners
3	Joe Rangel	City of Lubbock, Community Development Department
4	Art Kampschafer	Community Services, Inc.
12	Steven Schnee	MHMRA, Harris County
16	Cyrus Reed	Lone Star Chapter of Sierra Club
69	Thelma Vasquez	Hidalgo County Community Services Agency

Recommendation

Staff recommends Board approval of the proposed new Community Affairs Division program rules, Title 10, Part 1 of the Texas Administrative Code, Chapter 5 including staff recommendations in response to public comment.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5. COMMUNITY AFFAIRS DIVISION
SUBCHAPTER A. GENERAL PROVISIONS
10 TAC §5.1 - §5.20

§5.1 Purpose and Goals
§5.2 Cost Principles and Administrative Requirements
§5.3 Definitions
§5.4 Prohibitions
§5.5 Certificate and Disclosure Regarding Lobbying Activities
§5.6 Texas Public Information Act
§5.7 Fidelity Bond Requirements
§5.8 Inventory Report
§5.9 Travel
§5.10 Procurement Standards
§5.11 Procurement/Cooperative Purchasing Program
§5.12 Equipment Purchases
§5.13 Bonding Requirements
§5.14 Subrecipient Contract
§5.15 Federal Funding Accountability and Transparency Act (FFATA)
§5.16 Monitoring of Subrecipients
§5.17 Corrective Action, Contract Termination and Close-out
§5.18 Information Technology Security Practices
§5.19 Client Income Guidelines
§5.20 Determining Income Eligibility

§5.1 Purpose and Goals

(a) The rules established herein for Chapter 5 “Community Affairs Programs” Subchapter A “General Provisions” applies to all Community Affairs Division programs with the exception of the Section 8 Housing Choice Voucher Program. Refer to Subchapter H of this chapter for the rules governing the Section 8 Housing Choice Voucher Program. Additional program specific requirements are contained within each program Subchapter.

(b) The programs administered by the Community Affairs (CA) Division of the Texas Department of Housing and Community Affairs (the Department) support the Department’s mission to help Texans achieve an improved quality of life through the development of better communities.

(c) The Department accomplishes this mission by acting as a conduit for federal grant funds for housing and community affairs programs. Ensuring program compliance with the state and federal laws that govern the CA programs is another important part of the Department's mission. Oversight and program mandates ensure state and federal resources are expended in an efficient and effective manner.

§5.2 Cost Principles and Administrative Requirements

Except as expressly modified by law or the terms of the contracts, subrecipient shall comply with the cost principles and uniform administrative requirements set forth in the Uniform Grant and Contract Management Standards 1 T.A.C. §5.141 et seq. (the "Uniform Grant Management Standards") provided, however, that all references therein to "local government" shall be construed to mean subrecipient. Uniform cost principles for local governments are set forth in Office of Management and Budget (OMB) Circular A-87, and for non-profit organizations in OMB Circular A-122. Uniform administrative requirements for local governments are set forth in OMB Circular A-102, and for non-profits in OMB Circular A-110. OMB Circular A-133 "Audits of States, Local Governments, and Non-Profit Organizations," provides audit standards for governmental organizations and other organizations expending federal funds. The expenditure threshold requiring an audit under OMB Circular A-133 is $500,000.

§5.3 Definitions

(a) To ensure a clear understanding of the terminology used in the context of the Community Affairs programs, a list of terms and definitions has been compiled as a reference.

(b) The following words and terms in this chapter shall have the following meaning unless the context clearly indicates otherwise.

(1) **CAA**--Community Action Agency.
(2) **CFR**--Code of Federal Regulations
(3) **Children**--Household dependents not exceeding 18 years of age.
(4) **Collaborative Application**--An application from two or more organizations which will use Emergency Shelter Grants Program (ESGP) funds to provide services to the target population as part of a local continuum of care. If a unit of general local government applies for only one organization, this will not be considered a collaborative application. Partners in the collaborative application must coordinate services and prevent duplication of services.
(5) **Community Action Plan--**A plan required by the Community Services Block Grant (CSBG) Act which describes the local (subrecipient) service delivery system, how coordination will be developed to fill identified gaps in services, how funds will be coordinated with other public and private resources and how the local entity will use the funds to support innovative community and neighborhood based initiatives related to the grant.
(6) **Cooling**--Modifications including but not limited to the repair or replacement of air conditioning units, evaporative coolers, and refrigerators.

(7) **Community Action Agencies (CAAs)--**Local private and public non-profit organizations that carry out the Community Action Program (CAP), which was founded by the 1964 Economic Opportunity Act to fight poverty by empowering the poor in the United States. Each CAA must have a board consisting of at least one-third elected public officials, not fewer that one-third representatives of low-income individuals and families, chosen in accordance with democratic selection procedures, and the remainder are members of business, industry, labor, religious, law enforcement, education, or other major groups and interests in the community. ~~one-third low-income community members, one-third public officials, and up to one-third private sector leaders.~~

(8) **Community Affairs Division--**(CAD) The Division at the Texas Department of Housing and Community Affairs which administers the CSBG, ESGP, Comprehensive Energy Assistance Program (CEAP), Weatherization Assistance Program (WAP), and Section 8 Housing Choice Voucher Programs.

(9) **The Community Services Block Grant--**CSBG is a grant which provides U.S. federal funding for Community Action Agencies (CAAs) and other eligible entities that seek to address poverty at the community level. Like other block grants, CSBG funds are allocated to the states and other jurisdictions through a formula.

(10) **Community Services Block Grant (CSBG) Act--**The CSBG Act is a law passed by Congress authorizing the Community Services Block Grant. The CSBG Act was amended by the Community Services Block Grant Amendments of 1994 and the Coats Human Services Reauthorization Act of 1998 under 42 USC 9901 et seq. The act authorized establishing a community services block grant program to make grants available through the program to States to ameliorate the causes of poverty in communities within the States.

(11) **CSBG Subrecipient--**Includes CSBG eligible entities and other organizations that are awarded CSBG funds.

(12) **Department** (the)--The Texas Department of Housing and Community Affairs.

(13) **Discretionary Funds--**Those CSBG funds maintained in reserve by a State, at its discretion, for CSBG allowable uses as authorized by Section 675C of the CSBG Act, and not designated for distribution on a statewide basis to CSBG eligible entities and not held in reserve for state administrative purposes.

(14) **DOE**--The United States Department of Energy.

(15) **DOE WAP Rules--**10 CFR 440--the Code of Federal Regulation describing the Weatherization Assistance for Low Income Persons as administered through the Department of Energy.

(16) **Dwelling Unit**--A house, including a stationary mobile home, an apartment, a group of rooms, or a single room occupied as separate living quarters.

(17) **Equipment**--A tangible non-expendable personal property including exempt property, charged directly to the award, having a useful life of more

than one year. and an acquisition cost of $5,000 or more per unit. For CSBG, CEAP, and WAP, if the unit acquisition cost exceeds $5,000, approval from the TDHCA Community Affairs Division must be obtained before the purchase takes place. For ESGP, if the unit acquisition cost exceeds $500, approval from TDHCA Community Affairs Division must be obtained before the purchase is made.

(18) **Elderly Person**--A person who is 60 years of age or older.

(19) **Electric Base-Load Measure**--Weatherization measures which address the energy efficiency and energy usage of lighting and appliances.

(20) **Eligible Entity**--Those local organizations designated by the federal government to administer programs created under the federal Economic Opportunity Act of 1964. This included community action agencies, limited-purpose agencies, and units of local government. The CSBG Act defines an eligible entity as an organization on the day before the enactment of the Coats Human Services Reauthorization Act of 1998, October 27, 1998, or is designated by the Governor to serve a given area of the State and that has a tripartite board or other mechanism for local governance.

(21) **Emergency**--Defined by the LIHEAP Act of 1981 (Title XXVI of the Omnibus Budget Reconciliation Act of 1981, Public Law 97-35, as amended)

(A) natural disaster;
(B) a significant home energy supply shortage or disruption;
(C) a significant increase in the cost of home energy, as determined by the Secretary;
(D) a significant increase in home energy disconnections reported by a utility, a State regulatory agency, or another agency with necessary data;
(E) a significant increase in participation in a public benefit program such as the food stamp program carried out under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.), the national program to provide supplemental security income carried out under title XVI of the Social Security Act (42 U.S.C. 1381 et seq.) or the State temporary assistance for needy families program carried out under Part A of Title IV of the Social Security Act (42 U.S.C. 601 et seq.), as determined by the head of the appropriate federal agency;
(F) a significant increase in unemployment, layoffs, or the number of households with an individual applying for unemployment benefits, as determined by the Secretary of Labor; or
(G) an event meeting such criteria as the Secretary, at the discretion of the Secretary, may determine to be appropriate.

(22) **Energy Repairs**--Weatherization related repairs necessary to protect or complete regular weatherization energy efficiency measures.

(23) **Energy Audit--**The energy audit software and procedures used to determine the cost effectiveness of weatherization measures to be installed in a dwelling unit.

(24) **Families with Young Children----** A family until that includes a child age 5 or younger.

(25) **USDHHS--**U.S. Department of Health and Human Services,

(26) **High Energy Burden**--Is determined by dividing a household's annual home energy costs by the household's annual gross income. The percentage at which energy burden is considered high is defined by data gathered from the State Data Center.

(27) **High Energy Consumption**--Household energy expenditures exceeding the median of low-income home energy expenditures expressed in the data collected from the State Data Center.

(28) **Homeless or homeless individual--**An individual who:

(A) lacks a fixed, regular, and adequate nighttime residence, or

(B) has a primary nighttime residence that is:

(i) a supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill);

(ii) an institution that provides a temporary residence for individuals intended to be institutionalized; or,

(iii) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. (Exclusion: The term "homeless" or "homeless individual" does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a State law.)

(29) **Household**--Any individual or group of individuals who are living together in a dwelling unit as one economic unit. For Energy programs, these persons customarily purchase residential energy in common or make undesignated payments for energy.

(30) **Inverse Ratio of Population Density Factor--**The number of square miles of a County divided by the number of Poverty Households of that County.

(31) **Local Units of Government**--City, county, or council of governments.

(32) **Low Income**--That income in relation to family size which:

(A) For CEAP, WAP, and CSBG is at or below 125 percent of the Federal Income guidelines

(B) For ESGP is at or below 100% of the poverty level) determined in accordance with criteria established by the Director of the Office of Management and Budget;

(C) Is the basis on which cash assistance payments have been paid during the preceding twelve month-period under titles IV and XVI of the Social Security Act or applicable State or local law; or

(D) If a State elects, is the basis for eligibility for assistance under the Low Income Home Energy Assistance Act of 1981, provided that such basis is at least 125 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.

(33) **Low Income Home Energy Assistance Program (LIHEAP)--** A federally funded block grant program that is implemented to serve low income

households who seek assistance for their home energy bills and/or weatherization services.

(34) **Migrant Farm worker**--An individual or family that is employed in agricultural labor or related industry and is required to be absent overnight from their permanent place of residence.

(35) **Multifamily Dwelling Unit**--A structure containing more than one dwelling unit.

(36) **National Performance Indicator--**An individual measure of performance within the Department's reporting system for measuring performance and results of subrecipients of funds. There are currently twelve indicators of performance which measure self-sufficiency, family stability, and community revitalization.

(37) **Needs Assessment--**An assessment of community needs in the areas to be served with CSBG funds. The assessment is a required part of the Community Action Plan per Assurance 11 of the CSBG Act.

(38) **OMB--**Office of Management and Budget, a federal agency.

(39) **Outreach**--The method that attempts to identify clients who are in need of services, alerts these clients to service provisions and benefits, and helps them use the services that are available. Outreach is utilized to locate, contact and engage potential clients.

(40) **Performance Statement--**A document which identifies the services to be provided by a CSBG subrecipient. The document is an attachment to the CSBG contract entered into by the Department and the CSBG subrecipient.

(41) **Persons with Disabilities**--Any individual who is:

(A) a handicapped individual as defined in §7(9~~6~~) of the Rehabilitation Act of 1973;

(B) under a disability as defined in §1614(a)(3)(A) or §223(d)(1) of the Social Security Act or in §102(7) of the Developmental Disabilities Services and Facilities Construction Act; or

(C) receiving benefits under chapter 11 or 15 of Title 38, U.S.C.

(42) **Population Density--**The number of persons residing within a given geographic area of the State.

(43) **Poverty Income Guidelines**--The official poverty income guidelines as issued by the U.S. Department of Health and Human Services annually.

(44) **Private Nonprofit Organization**--An organization which has status as a 501(c) tax-exempt entity. Private nonprofit organizations applying for Emergency Shelter Grants Program (ESGP) funds must be established for charitable purposes and have activities that include, but are not limited to, the promotion of social welfare and the prevention or elimination of homelessness. The entity's net earnings may not inure to the benefit of any individual(s).

(45) **Public Organization--**A unit of local government, as established by the Legislature of the State of Texas. Includes, but may not be limited to, cities, counties, and councils of governments.

(46) **Referral--**The process of providing information to a client household about an agency, program, or professional person that can provide the service(s) needed by the client.

(47) **Rental Unit**--A dwelling unit occupied by a person who pays rent for the use of the dwelling unit.

(48) **Renter**--A person who pays rent for the use of the dwelling unit.

(49) **Seasonal Farm worker**--An individual or family that is employed in seasonal or temporary agricultural labor or related industry and is not required to be absent overnight from their permanent place of residence. In addition, at least 20% of the household annualized income must be derived from the agricultural labor or related industry.

(50) **Secretary--**Chief Executive of the U.S. Department of Health and Human Services.

(51) **Service--**The provision of work or labor that does not produce a tangible commodity.

(52) **Shelter**--Defined by the Department as a dwelling unit or units whose principal purpose is to house on a temporary basis individuals who may or may not be related to one another and who are not living in nursing homes, prisons, or similar institutional care facilities.

(53) **Single Family Dwelling Unit**--A structure containing no more than one dwelling unit.

(54) **Social Security Act--**42 USC 601 et seq., CSBG works with activities carried out under Title IV Part A to assist families to transition off of State programs.

(55) **State**--The State of Texas or the Texas Department of Housing and Community Affairs.

(56) **Subcontractor**--An organization with whom the subrecipient contracts with to administer programs.

(57) **Subrecipient**--According to each program Subchapter, subrecipient may be defined as organizations with whom the Department contracts with and provides CSBG funds; ESGP funds; DOE funds or Low Income Home Energy Assistance Program (LIHEAP) funds.

(58) **Supplies**--All personal property excluding equipment, intangible property, and debt instruments, and inventions of a contractor conceived or first actually reduced to practice in the performance of work under a funding agreement (“subject inventions”), as defined in 37 CFR part 401, “Rights to Inventions Made by Non-profit Organizations and Small Business Firms Under Government Grants, Contracts, and Cooperative Agreements.”

(59) **TAC**--Texas Administrative Code

(60) **Targeting**--Focusing assistance to households with the highest program applicable needs.

(61) **Terms and Conditions--**Binding provisions provided by a funding organization to grantees accepting a grant award for a specified amount of time.

(62) **Treatment as a State or Local Agency--**For purposes of Chapter 15 of Title 5, United States Code, any entity that assumes responsibility for

planning, developing, and coordinating activities under the CSBG Act and receives assistance under CSBG Act shall be deemed to be a State or local agency.

(63) **Units of General Local Government**--A unit of local government which has, among other responsibilities, the authority to assess and collect local taxes and to provide general governmental services.

(64) **U.S.C.**--United States Code ~~of Regulations~~

(65) **Vendor Agreement**--An agreement between the Subrecipient and energy vendors that contains assurance as to fair billing practices, delivery procedures, and pricing for business transactions involving LIHEAP beneficiaries.

(66) **WAP**--Weatherization Assistance Program.

(67) **WAP PAC**--Weatherization Assistance Program Policy Advisory Council. The WAP PAC was established by the Department in accordance with 10 CFR §440.17 to provide advisory services in regards to the WAP program.

(68) **Weatherization Material**--The material listed in Appendix A of 10 CFR 440.

(69) **Weatherization Project**--A project conducted in a single geographical area which undertakes to reduce heating and cooling demand of dwelling units that are energy inefficient.

§5.4 Prohibitions

(~~a)~~ (a) Pursuant to the Office of Management and Budget Circular A-122, “Cost Principles for Non-Profit Organizations,” specifically Section 25 titled “Lobbying”, costs associated with lobbying are unallowable.

(b) Section 678 (F)(b)(2) of the CSBG Act prohibits the use of program funds for political activity, voter registration activity or voter registration. The Hatch Act, 5 U.S.C., Chapter 15 and the amendments to the Hatch Act and the repeal of 675 (e) and 675 (C)(6) of the Community Services Block Grant (CSBG) Act do not affect the prohibition of Section 678 (F)(b)(2). ~~Lobbying activity is prohibited. The Hatch Act, 5 U.S.C. Chapter 15 and the amendments to the Hatch Act and the repeal of Section 675 (e) and 675 (C)(6) of the CSBG Act do not affect section 675 (C)(7) of the CSBG Act.~~

(c) Knowingly hiring an undocumented worker is prohibited. HB 1196 Title 8 U.S.C. 1324a.

(d) Discrimination is prohibited.

(1) Civil Rights Act of 1964, (42 U.S.C. 2000 et seq.) Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.). Rehabilitation Act of 1973 (29 U.S.C. 794), and Title II of the Americans with Disabilities Act of 1990 (42 U.S.C. 12131 et seq.) shall apply to all programs or activities administered by subrecipients including the nondiscrimination provisions of the Community Services Block Grant Program (42 U.S.C. 9901 et seq.).

(2) All subrecipients receiving federal funds must be equal opportunity employers and render services without regard to race, color, religion, sex, national origin, age, handicap, political affiliation or belief. Information on equal opportunity and nondiscrimination shall be made available to participants, employees, subcontractors, and interested parties.

§5.5 Certificate and Disclosure Regarding Lobbying Activities

(a) Subrecipients of federal funding, including those who receive federal funds through the Department, are subject to the anti-lobbying provisions commonly referred to as “the Byrd Amendments” (31 U.S.C. 1352). The legislation imposes certain requirements for disclosure and certification on recipients of federal contracts, grants, cooperative agreements, and loans, including the requirement that each recipient of a federal contract in excess of $100,000 must complete the Standard Form-LLL “Disclosure of Lobbying Activities” form.

(b) A §501(c)(3) nonprofit organization which pays any person funds from any source (even non-federal funds) to lobby Congress or which pays an employee of any federal agency in connection with this grant, must complete the "Disclosure of Lobbying Activities" form available on the U. S. Department of Health and Human Services (USDHHS) ~~Office of Management and Budget (OMB)~~ website. A completed form must be submitted to the Department prior to engaging in lobbying activities. The subrecipient must also file quarterly updates about its employment of lobbyists if material changes occur in the organization's use of lobbyists.

(c) For each contract, grant, cooperative agreement, or loan in excess of $100,000, the subrecipient must complete the "Certification Regarding Lobbying" form and return it to the Department. This form is located on the USDHHS ~~Department's~~ website. By completing the certification, the subrecipient verifies that no federally appropriated funds have been used to lobby the United States Congress.

~~(b) A 501 (c)(3) nonprofit organization which pays any person funds from any source (even non-federal funds) to lobby Congress or which pays an employee of any federal agency in connection with this grant, must complete the “Disclosure of Lobbying Activities” form available on the OMB website. The subrecipient must also file quarterly updates about its employment of lobbyists if material changes occur in the organization’s use of lobbyists.~~

~~(c) For each contract, grant, cooperative agreement, or loan in excess of $100,000, the subrecipient must complete the “Certification Regarding Lobbying” form and return it to the Department. This form is located on the Department’s website. By completing the certification, the subrecipient verifies that no federally appropriated funds have been used to lobby the United States Congress.~~

(d) Pursuant to the 1996 Simpson-Craig Amendment to the Lobbying Disclosure Act, 2 U.S.C. 1611, (501)(c)(4) non-profit organizations, typically civic leagues or employee associations, may not receive any federal funding if such organizations engage in lobbying. The law establishes civil penalties for noncompliance, with possible penalties ranging from $10,000 to $100,000.

§5.6 Texas Public Information Act

The Texas Public Information Act (TPIA), Texas Government Code Chapter 552, formerly the Texas Open Records Act, applies to recipients of public funds such as programs administered by the Department. It is the policy of the State that each person is entitled at all times to complete information about the affairs of government and the official acts of public officials and employees unless otherwise expressly provided by law.

§5.7 Fidelity Bond Requirements

(a) Fidelity Bond Requirements. The Department is required to assure that fiscal control and accounting procedures for federally funded entities will be established to assure the proper disbursal and accounting for the federal funds paid to the State (A-110 “Administrative Requirements for Grants to Non-Profits”. In compliance with that assurance the Department requires program subrecipients to maintain adequate fidelity bond coverage. A fidelity bond is a bond indemnifying the subrecipient against losses resulting from the fraud or lack of integrity, honesty or fidelity of one or more of its employees, officers, or other persons holding a position of trust.

(1) In administering program contracts, subrecipients shall observe their regular requirements and practices with respect to bonding and insurance. In addition, the Department may impose bonding and insurance requirements by contract.

(2) If a subrecipient is a non-governmental organization, the Department requires an adequate fidelity bond. If the amount of the fidelity bond is not prescribed in the contract, the fidelity bond must be for a minimum of $10,000 or an amount equal to the contract if less than $10,000. The bond must be obtained from a company holding a certificate of authority to issue such bonds in the State of Texas.

(3) The fidelity bond coverage must include all persons authorized to sign or counter-sign checks or to disburse sizable amounts of cash. Persons who handle only petty cash (amounts of less than $250) need not be bonded, nor is it necessary to bond officials who are authorized to sign payment vouchers, but are not authorized to sign or counter-sign checks or to disburse cash.

(4) The Department must receive written assurance from the subrecipient that the required fidelity bond has been established. The assurance letter must be received from the bonding company or agency stating the type of bond, the amount and period of coverage, the positions covered, and the annual cost of the bond. Compliance must be continuously maintained thereafter. A copy of the actual

policy shall remain on file with the subrecipient and shall be subject to monitoring by the Department.

(5) Subrecipients are responsible for filing claims against the fidelity bond when a covered loss is discovered. The Department may take any one or more of the following actions for noncompliance.

(A) Deny subrecipient's requests for advances and place the subrecipient on a cost reimbursement plan until written assurance of compliance is received by the Department.

(B) Withhold subrecipient payments (either reimbursement or advance) until written assurance of compliance is received by the Department.

(C) Suspend performance of the contract until written assurance of compliance is received by the Department.

(D) Contract termination.

§5.8 Inventory Report

(a) The Department requires the submission of an inventory report on an annual basis to be submitted to the Department, no later than sixty (60) days after the original end date of the contract.

(b) Vehicles, tools, and equipment purchased with funds under a contract with the Department, must be inventoried and reported to the Department during the contract period.

(c) The inventory report is cumulative and is used for vehicles, tools, and equipment with a useful life of one year of more and a unit acquisition cost of greater than $5,000 for CSBG, CEAP, WAP and greater than $500 for ESGP. Property must be inventoried and reported on the Cumulative Inventory Report form. The form and instructions are found on the Department's website.

§5.9 Travel

The Governing Board of each subrecipient must adopt and submit to the Department approved travel policies that adhere to OMB Circulars A-87, A-110, A-122, for cost allowability. The subrecipient must follow either the federal travel regulations or State of Texas Travel Rules and Regulations found on the State of Comptrollers website at www.cpa.state.tx.us. If the travel policy and procedures are revised they must be submitted to the Department.

§5.10 Procurement Standards

(a) Procurement procedures must meet minimum guidelines, according to OMB Circulars A-87, A-102, A-110, A-122 (as applicable), the Uniform Grant Management Common Rule, Texas Government Code Chapter 783, and 10 CFR Part 600 (Financial Assistance Rule).

(b) All subrecipients including non-profits must comply with all of the referenced statutes and regulations listed in subsection (a) of this section. In case of any conflict between the OMB Circulars or federal laws and state laws involving federal funds, the federal law or OMB Circulars will prevail. ~~In case of any conflict between the OMB Circulars and State laws involving Federal funds, the OMB Circulars will prevail.~~

(c) Additional Department requirements are as follows:

(1) Small purchase procedures:

(A) This procedure may be used only on those services, supplies, or equipment costing in the aggregate of $25,000 or less. For ESGP, the threshold is $500 and more per unit.

(B) Subrecipient must establish a clear, accurate description of the specifications for the technical requirements of the material, equipment, or services to be procured.

(C) Subrecipient must obtain a written price or documented rate quotation from an adequate number of qualified sources. An adequate number is, at a minimum, three different sources.

(2) Sealed bids:

(A) Subrecipient must formally advertise, for a minimum of three days, in newspapers or through notices posted in public buildings throughout the service area. Advertising beyond the subrecipient’s service area is allowable and recommended by the Department. The advertisement should include, at a minimum, a response time of fourteen days prior to the closing date of the bid request. Cities and counties must comply with the statutorily imposed publication requirements in addition to those requirements stated herein.

(B) When advertising for material or labor services, subrecipient shall indicate a period for which the materials or services are sought (e.g. for a one-year contract with an option to renew for an additional four years). This advertised time period shall determine the length of time which may elapse before re-advertising for material or labor services, except that advertising for labor services must occur at least every five years.

(3) Competitive proposals:

(A) The Request for Proposal (RFP) must be publicized. The preferred method of advertising is the local service area newspapers. This advertisement should, at a minimum, allow fourteen days before the RFP is due. The due date must be stated in the advertisement.

(B) The time period for services shall be one year, plus four additional years at a maximum.

(4) Non-competitive proposals:

(A) The service, supply, or equipment is available only from a single source.

(B) A public emergency exists preventing the time required for competitive solicitation.

(C) After solicitation of a number of sources, competition is determined inadequate.

(5) Required contract provisions shall include the following contract provisions or conditions in procurement contracts or subcontracts:

(A) Contracts in excess of $25,000 shall include contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances where subcontractors violate or breach the contract terms, and provide for such remedial actions as may be appropriate.

(B) All contracts in excess of $25,000 shall include suitable provisions for termination by the recipient, including the manner by which termination shall be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the subrecipient.

(C) Contracts shall include a provision with regard to independent subcontractor status to hold harmless and indemnify subrecipient from and against any and all claims, demands and course of action asserted by any third party arising out of or in connection with the services to be performed under contract.

(D) Contracts shall include a provision regarding conflict of interest. Subrcipient’s employees, officers, and/or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from subcontractors, or potential subcontractors.

(E) Contracts shall include a provision to prevent fraud and abuse.

(1) Subrecipient shall establish, maintain, and utilize internal control systems and procedures sufficient to prevent, detect, and correct incidents of waste, fraud, and abuse in all Department funded programs and to provide for the proper and effective management of all program and fiscal activities funded by this contract. Subrecipient's internal control systems and all transactions and other significant events must be clearly documented and the documentation made readily available for review by Department.

(2) Subrecipient shall give Department complete access to all of its records, employees, and agents for the purpose of monitoring or investigating the program. Subrecipient shall fully cooperate with Department's efforts to detect, investigate, and prevent waste, fraud, and abuse. Subrecipient shall immediately notify the Department of any identified instances of waste, fraud, or abuse.

(3) Department will notify the funding source upon identification of possible instances of waste, fraud, and abuse or other serious deficiencies.

(4) Subrecipient may not discriminate against any employee or other person who reports a violation of the terms of this contract or of any law or regulation to Department or to any appropriate law enforcement authority, if the report is made in good faith.

(F) Contracts shall include a provision to the effect that any alterations, additions, or deletions to the terms of the contract which are required by changes in federal law and regulations or state statute are automatically incorporated into the contract without written and administrative code amendment hereto, and shall become effective on the date designated by such law and or regulation; and any alterations, additions, or deletions to the terms of the contract shall be amended hereto in writing and executed by both parties to the contract.

(G) Contracts shall include the following provision assuring legal authority to sign the contract.

(1) Subcontractor represents that it possesses the practical ability and the legal authority to enter into the contract, receive and manage the funds authorized by the contract, and to perform the

services the subcontractor has obligated itself to perform under the contract.

(2) The person signing the contract on behalf of the subcontractor warrants that he/she has been authorized by the subcontractor to execute the contract on behalf of the subcontractor and to bind the subcontractor to all terms set forth in the contract.

(3) Department shall have the right to suspend or terminate the contract if there is a dispute as the legal authority of either the subcontractor or the person signing the contract to enter into the contract or to render performances thereunder. Should such suspension or termination occur the subcontractor is liable to the subrecipient for any money it has received for performance of provisions of the contract.

§5.11 Procurement/Cooperative Purchasing Program

The State of Texas conducts procurement for many materials, goods, and appliances. The State of Texas procurement process complies with the required procurement provisions. For more detail about how to purchase from the State contract, please contact: Texas Building and Procurement Commission, Attn: Cooperative Purchasing Program, 1711 San Jacinto, Austin, Texas 78701 or P.O. Box 13047, Austin, Texas 78711-3047, (512) 463-3368, e-mail address: http:/www.tbpc.state.tx.us. If subrecipients choose to use Cooperative Purchasing Program, they will need documentation of annual fee payment.

§5.12 Equipment Purchases

Equipment purchases with an acquisition cost of $5,000 or greater per unit for CSBG, CEAP, and WAP and $500 or greater for ESGP require prior approval from the TDHCA Community Affairs Division before the purchase can take place.

§5.13 Bonding Requirements

(a) The following requirements relate only to construction or facility improvements.

(1) For contracts exceeding $100,000 the Department may accept the bonding policy and requirements of the subrecipient, provided the Department has made a written finding that the Department is adequately protected.

(2) For contracts in excess of $100,000, and for which the subrecipient cannot make a determination that the Department's interest is adequately protected, a “bid guarantee” from each bidder equivalent to five percent of the bid price shall be requested. The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as

assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified. A bid bond in the form of all of the following may represent a "bid guarantee".

(A) A performance bond on the part of the subrecipient for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract, to secure fulfillment of all of the subcontractor's obligations under such contract.

(B) A payment bond on the part of the subcontractor for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment as required by statute of all persons supplying labor and material in the execution of the work provided for in the contract.

(C) Where bonds are required, in the situations described herein, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties pursuant to 31 CFR Part 223, "Surety Companies Doing Business with the United States."

(b) Cities and counties must comply with the bond requirements of Texas Civil Statutes, Articles 2252 and 5160, and Local Government Code Sections 252.044 and 262.032, as applicable.

§5.14 Subrecipient Contract

(a) Upon Board approval, the Department's Executive Director and subrecipients shall enter into and execute an agreement for the receipt of funds. The Department, acting by and through its Executive Director or his/her designee, may authorize, execute, and deliver modifications and/or amendments to the contract.

(b) Within 60 days following the conclusion of a contract issued by the Department, the subrecipient shall provide a full accounting of funds expended under the terms of the contract.

(c) Failure of a subrecipient to provide an accounting of funds expended under the terms of the contract may be sufficient reason for the Department to deny any future contract to the subrecipient.

§5.15 Federal Funding Accountability and Transparency Act (FFATA)

All entities receiving funds of $25,000 or more must be registered in the federal Central Contractor registration (CCR) and have a current Data Universal Numbering System (DUNS) number.

§5.16 Monitoring of Subrecipients

(a) The Department's Community Affairs Division (CAD) is responsible for ensuring that the Community Services Block Grant (CSBG), Comprehensive Energy Assistance Program (CEAP), Weatherization Assistance Program (WAP), and Emergency Shelter Grant Program (ESGP) program activities are completed and that the funds are expended in accordance with the contract provisions and applicable State and Federal rules, regulations, policies, and related statutes. In order to ensure such, the Department will conduct monitoring reviews of the subrecipients to evaluate the effectiveness of subrecipient's performance and program compliance through on-site and desk monitoring as described in §5.15 of this chapter (relating to Federal Funding Accountability and Transparency Act (FFATA)) following the requirements of §678B of PL 105-285 Subtitle B, §2605(B)(10) of PL 97-35, as amended, CFR 10 §440.23(d), and CFR 24 §576.61 and §576.57(f) and (g), respectively.

(1) CAD employs a subrecipient monitoring procedure that is based upon an assessment of associated risks. The factors may include but are not limited to the status of the most recent monitoring report, timeliness of grant reporting, results of the last on-site monitoring review, number and funding amount of Department funded contracts, final expenditure rate, and single audit status or other factors. Ranking of subrecipients will determine whether an on-site review or a desk review is completed unless Department management determines an on-site review is needed. ~~CAD may conduct unannounced on-site monitoring reviews of subrecipients identified as high risk, if deficiencies identified from prior monitoring activities persist or remain unresolved for an unreasonable period of time. In the event of reports of fraud and abuse or other extenuating circumstances the Department may make an unannounced on-site monitoring review.~~

(2) CAD may conduct unannounced on-site monitoring reviews of subrecipients identified as ~~high~~ at risk for contract termination, if deficiencies identified from prior monitoring activities persist or remain unresolved for an unreasonable period of time. In the event of reports of fraud and abuse or other extenuating circumstances the Department may make an unannounced on-site monitoring review.

~~(a)The Department's Community Affairs Division (CAD) is responsible for ensuring that the Community Services Block Grant (CSBG), Comprehensive Energy Assistance Program (CEAP), Weatherization Assistance Program (WAP), and Emergency Shelter Grant Program (ESGP) program activities are completed and that the funds are expended in accordance with the contract provisions and applicable State and Federal rules, regulations, policies, and related statutes. In order to ensure such, the Department will conduct monitoring reviews of the subrecipients following the requirements of Section 678B of PL 105-285 Subtitle B, Section 2605 (B)(10) of PL 97-35, as amended, Section 440.23 (d) of CFR 10, and Sections 576.61 and 576.57 (f) and (g) of CFR 24, respectively.~~

~~(1)CAD employs a subrecipient monitoring procedure that is based upon an assessment of associated risks. The factors may include but are not limited to the status of the most recent monitoring report, timeliness of grant reporting, results of the last on-site monitoring review, number and funding amount of Department funded contracts, final expenditure rate, and single audit status or other factors. Ranking of subrecipients will determine whether an on-site review or a desk review is completed unless Department management determines an on-site review is needed. CAD may conduct unannounced on-site monitoring reviews of subrecipients identified as high risk, if deficiencies identified from prior monitoring activities persist or remain unresolved for an unreasonable period of time. In the event of reports of fraud and abuse or other extenuating circumstances the Department may make an unannounced on-site monitoring review.~~

~~(2)~~(3)Follow-up reviews may be performed to ensure implementation of corrective action of subrecipients that failed to meet the goals, standards, and requirements established by the Department.

(4) (4) Technical assistance and training may be provided to the subrecipient to address program deficiencies.

(5)A monitoring instrument is used to perform monitoring reviews. Support documentation is retained by the Department to verify: the achievement of performance goals; conduct of eligible activities; compliance with other contractual regulatory provisions and financial accountability. Monitoring reviews of subrecipients also include reviewing annual financial reports and any related management letters and financial documents.

~~(4)~~(6)Following the onsite monitoring review, a monitoring report is prepared and submitted to the Subrecipients outlining any administrative, program, and financial deficiencies. The monitoring report also includes notes, recommend improvements, corrective actions or a corrective action plan.

(A) Finding – the written description of a deficient condition which is significantly substandard according to the monitoring standards. Findings may also be deficiencies found with regard to compliance with program rules, required cost principles, federal, state and/or local laws, and generally accepted accounting procedures or Generally Accepted Accounting Principles. In general, findings require corrective action to create an acceptable level of risk for disbursement of funds. The description of a finding might include the cause and effect of the deficient condition.

(B) Recommended Improvement- a necessary improvement to program, operational, financial or administrative practices that may or may not be related to a substandard condition but through its application will lower risk factors and bring the affected area into a relatively improved condition. A recommended improvement will be made if a condition might lead to a finding but is itself not significant or sustained in nature. Recommended Improvements will be made to improve a weakness but not to request corrective actions.

(C) Note – an explanatory tool to further describe and clarify findings or recommended improvements. A note may also be used to include additional information related to the monitoring review but not related to a finding or recommended improvement.

(7~~5~~) Subrecipients are required to have at a minimum the following documents available, and any other requested documents, for the monitoring review.

(A) Roster of staff (name, title, salary and status) – all Community Affairs programs
(B) Current agency organization chart;
(C) List of Board of Directors to include: names, addresses and telephone numbers, tenure on the board, section represented by the board member, list of committees – CSBG & ESGP;
(D) Board election/selection materials - CSBG;
(E) Board minutes (previous six meetings) and attendance roster – CSBG & ESGP;
(F) List of neighborhood centers with names of staff – CSBG & CEAP;
(G) Personnel Policies;
(H) Bylaws – CSBG & ESGP;
(I) Travel policies and records;
(J) Chart of accounts;
(K) Accounting records (journals/ledgers) and support documentation;
(L) Amount of Cash on Hand (at time of monitoring);
(M) Bank reconciliation records;
(N) Agency’s proof of fidelity bond coverage;
(O) Documentation of match requirements – ESGP;
(P) Closeout data for prior program year – CEAP & WAP;
(Q) Access to client files and documentation of performance – All Community Affairs programs;
(R) Declaration of Income Statement (DIS) Policy/Procedure – All Community Affairs programs;
(S) Appeals Procedures – CEAP& WAP;
(T) Subcontract agreements with appropriate procurement packages (if applicable) – All Community Affairs programs;
(U) Procurement policy;
(V) Documentation of current contract inventory – All Community Affairs programs;
(W) Documentation of coordination with other local programs (including contact person and phone numbers) - CSBG;
(X) Copies of most recent monitoring reports and/or performance reviews of all programs administered by the organization;
(Y) Single Audit - Organizations that spends more than $500,000 in

federal funds during its fiscal year must have a single audit conducted for that year (A-133 Subpart B.200). Organizations that do not exceed the $500,000 federal fund expenditure threshold are exempt from the single audit requirements. If an organization is not required to have a single audit performed, the organization must provide the end-of-the-year financial statements (balance sheet, income statement, and statement of cash flow).

(Z) If applicable, documentation of the most recent Head Start Onsite Monitoring Document review, including results, responses, and current status - CSBG.

(b) Subrecipients are responsible for submitting their Single Audit Report within 30 days of completion of their audit and no later than nine (9) months after the end of the audit period (fiscal year end) to the Department's Portfolio Management and Compliance Division as well as to the CA Division. Refer to 31 U.S.C. 7502.

(c) Monitoring reviews of subrecipients will include a review of the subrecipients annual financial reports and any related management letters and financial documents.

~~(d) If a Subrecipient fails to comply with the requirements, rules, and regulations of the CSBG, CEAP, WAP, or ESGP programs, and in the event monitoring or other reliable sources reveal material deficiencies in performance, or if the subrecipient fails to correct any deficiency within the time allowed by Federal or State law, the Department will apply one or more of the following sanctions:~~

~~Sanctions:~~

~~(1) Deny the subrecipient's requests for advances and place it on a cost reimbursement method of payment until proof of compliance with the rules and regulations are received by the Department;~~

~~(2) Withhold all payments from the subrecipient (both reimbursements and advances) until proof of compliance with the rules and regulations are received by the Department;~~

~~(3) Suspend performance of the contract until proof of compliance with the rules and regulations are received by the Department;~~

~~(4) Elect not to provide future grant funds to the subrecipient until appropriate actions are taken to ensure compliance; or~~

~~(5) Terminate the contract.~~

§5.17 Sanctions and Contract Close Out~~Corrective Action and Contract Termination~~

(a) Subrecipients that have entered into contract with the Department to administer programs are required to follow state and federal laws and regulations and rules governing these programs.

(b) Except as expressly modified by law or the terms of a subrecipient's contract, the subrecipient shall comply with the cost principles and uniform administrative requirements set forth in the Uniform Grant and Contract Management Standards (UGMS), 1 T.A.C. §5.141 et. seq.

(c) If a subrecipient fails to comply with the requirements, rules, and regulations of the CSBG, CEAP, WAP, or ESGP programs, and in the event monitoring or other reliable sources reveal material deficiencies in performance, or if the subrecipient fails to correct any deficiency within the time allowed by federal or state law, the Department will apply one or more of the following sanctions:

(1) Deny the subrecipient's requests for advances and place it on a cost reimbursement method of payment until proof of compliance with the rules and regulations are received by the Department;

(2) Withhold all payments from the subrecipient (both reimbursements and advances) until proof of compliance with the rules and regulations are received by the Department, reduce the allocation of funds (with the exception of Community Services Block Grant (CSBG) funds to eligible entities) or impose sanctions as deemed appropriate by the Department Executive Director, at any time, if the Department identifies possible instances of fraud, abuse, fiscal mismanagement, or other serious deficiencies in the subrecipients' performance;

(3) Suspend performance of the contract or reduce funds until proof of compliance with the rules and regulations are received by the Department or a decision is made by the Department to initiate proceedings for contract termination;

(4) Elect not to provide future grant funds to the subrecipient until appropriate actions are taken to ensure compliance; or,

(5) Terminate the contract. Adhering to the requirements governing each specific program administered by the Department, as needed, the Department may determine to proceed with the termination of a contract, in whole or in part, at any time the Department establishes there is good cause for termination. Such cause may include, but is not limited to, fraud, abuse, fiscal mismanagement, or other serious deficiencies in the subrecipient's performance. For CSBG contract termination procedures, please refer to §5.206 of this chapter (relating to Termination and Reduction of Funding).

~~(c) Adhering to the requirements governing each specific program administered by the Department, as needed, the Department may determine to proceed with the termination of a contract, in whole or in part, at any time the Department establishes there is good cause for termination.~~

~~(d) Corrective Action~~

~~(1) The CAD will monitor and evaluate the effectiveness of subrecipient's performance and program compliance through on-site and desk monitoring as described in Subchapter 5.015 of this Chapter;~~

~~(2) To ensure subrecipients have systems in place and comply with program requirements and regulations, the Department will issue a written monitoring report to document deficiencies and recommend or require corrective action; and~~

~~(3) Follow-up visits may be conducted to review and assess the efforts the subrecipient has made to correct previously noted deficiencies. Technical assistance and training may be provided to the subrecipient to address program deficiencies.~~

~~(e) Following §5.016 of this Chapter, the Department may impose a cost reimbursement method of payment.~~

~~(1) The Department may withhold payment, reduce the allocation of funds (with the exception of CSBG funds to eligible entities) or impose sanctions as deemed appropriate by the TDHCA Executive Director, at any time, if the Department identifies possible instances of fraud, abuse, fiscal mismanagement, or other serious deficiencies in the subrecipients' performance.~~

~~(2) Suspension or reduction of funds shall be a temporary measure pending either corrective action by the subrecipient or a decision by the Department to initiate proceedings for contract termination.~~

~~(f) Contract Termination. The Department may determine to proceed with the termination of a contract, in whole or in part, at any time the Department establishes there is good cause for termination. Such cause may include, but is not limited to, fraud, abuse, fiscal mismanagement, or other serious deficiencies in the subrecipient's performance. For CSBG contract termination procedures please refer to §5.206 of this Chapter.~~

(d~~g~~) Contract Close-out
When the Department moves to terminate a contract, the following procedures will be implemented.

(1) The Department will issue a termination letter to the subrecipient no less than 30 days prior to terminating the contract. The Department may determine to

take one of the following actions: suspend funds immediately; establish a cost reimbursement plan for closeout proceedings; or provide instructions to the subrecipient to prepare a proposed budget and written plan of action that supports the closeout of the contract. The plan must identify the name and current job titles of staff that will perform the close-out and an estimated dollar amount to be incurred. The Department will respond within ten (10) working days from receipt of the plan.

(2) If the Department determines that cost reimbursement is an appropriate method of providing funds to accomplish closeout, the subrecipient will submit backup documentation for all current expenditures associated with the closeout. The required documentation will include, but not be limited to, the chart of accounts, detailed general ledger, revenue and expenditure statements, time sheets, payment vouchers and/or receipts, and bank reconciliations.

(3) No later than 30 days after the contract is terminated, the Subrecipient~~Department~~ will take a physical inventory of client files, including case management files, and will submit to the Department an inventory of equipment with a unit acquisition cost of $5,000 or greater for CEAP, WAP and CSBG or a unit acquisition cost of $500 or greater for ESGP.

(4) The terminated subrecipient will have 30 days from the date of the physical inventory to copy all current client files. Client files must be boxed by county of origin. Current and active case management files also must be copied, inventoried, and boxed by county of origin.

(5) Within 30 days following the subrecipient's due date for copying and boxing client files, Department staff will retrieve copied client files.

(6) The terminated subrecipient will prepare and submit no later than sixty (60) days from the date the contract is terminated, a final Report (TDHCA Form 85) containing a full accounting of all funds expended under the contract.

(7) A final Monthly Financial Funding Programmatic Report for all remaining expenditures incurred during the close-out period must be received by the Department no later than 60 days from the date the Department determines that the closeout of the program and the period of transition are complete.

(8) The subrecipient will submit to the Department no later than sixty (60) days after the termination of the contract, an inventory (TDHCA Form 27) of the non-expendable personal property (as defined in Attachment N of the Uniform Grant Management Standards) acquired in whole or in part with funds received under the contract.

(9) The Department will transfer title to equipment having a unit acquisition cost (the net invoice unit price of an item of equipment) of:

(A) $5,000 or greater for CEAP, WAP and CSBG or
(B) $500 or greater for ESGP

to the Department or to any other entity receiving funds under the program in question. The Department will make arrangements to remove equipment covered by (A) or (B) within ninety (90) days following termination of the contract.

(10) Upon selection of a new service provider, the Department will transfer to the new provider client files and, as appropriate, equipment.

(11) As required by OMB Circular A-133, a current year Single Audit must be performed for all agencies that have exceeded the federal expenditure threshold of $500,000. The Department will allow a proportionate share of program funds to pay for accrued audit costs, when an audit is required, for a Single Audit that covers the date up to the closeout of the contract. The terminated subrecipient must have a binding contract with a CPA firm on or before the termination date of the contract. The actual costs of the Single Audit and accrued audit costs including support documentation must be submitted to the Department no later than 60 days from the date the Department determines the close-out is complete.

(12) Subrecipients shall submit within 60 days after the date of the close-out process all financial, performance, and other applicable reports to the Department. The Department may approve extensions when requested by the subrecipient. However, unless the Department authorizes an extension, the subrecipient must abide by the 60 day contractual requirement of submitting all referenced reports and documentation to the Department.

§5.18 Information Technology Security Practices

(a) Subrecipients are encouraged to follow the Information Technology Security Practices and Guidelines to help protect and control financial and performance data associated with the TDHCA programs.

(b) Information Technology Security Practices and Guidelines may be obtained by accessing the TDHCA Web site at www.tdhca.state.tx.us .

§5.19 Client Income Guidelines

(a) The Department has defined eligibility for program assistance under the poverty income guidelines provided annually by the Secretary of the U.S. Department of Health and Human Services.

(b) The Department will use the following list of included and excluded income to determine eligibility for all programs.

(1) Included Income.

(A) Temporary Assistance for Needy Families (TANF),
(B) Money, wages and salaries before any deductions;
(C) Net receipts from non-farm or farm self-employment (receipts from a person’s own business or from an owned or rented farm after deductions for business or farm expenses),
(D) Regular payments from social security,
(E) Railroad retirement,
(F) Unemployment compensation,
(G) Strike benefits from union funds,
(H) Worker’s compensation,

(I) Training stipends,
(J) Alimony,
(K) Military family allotments,
(L) Private pensions,
(M) Government employee pensions (including military retirement pay),
(N) Regular insurance or annuity payments; and
(O) Dividends, interest, net rental income, net royalties, periodic receipts from estates or trusts; and net gambling or lottery winnings.

(2) Excluded Income.

(A) Social Security Disability Insurance (SSDI) payments,
(B) Supplemental Security Income (SSI) payments,
(C) Capital gains; any assets drawn down as withdrawals from a bank,
(D) The sale of property, a house, or a car,
(E) One-time payments from a welfare agency to a family or person who is in temporary financial difficulty,
(F) Tax refunds, gifts, loans, and lump-sum inheritances,
(G) One-time insurance payments, or compensation for injury,
(H) Non-cash benefits, such as the employer-paid or union-paid portion of health insurance or other employee fringe benefits,
(I) Food or housing received in lieu of wages,
(J) The value of food and fuel produced and consumed on farms,
(K) The imputed value of rent from owner-occupied non-farm or farm housing,
(L) Federal non-cash benefit programs as Medicare, Medicaid, Food Stamps, and school lunches,
(M) Housing assistance and combat zone pay to the military,
(N) Veterans (VA) Disability Payments,
(O) College scholarships, Pell and other grant sources, assistantships, fellowships and work study, VA Education Benefits (GI Bill), and
(P) Child Support Payments.

§5.20 Determining Income Eligibility

(a) The U.S. Department of Health and Human Services (USDHHS) annually provides poverty income guidelines for use in determining client eligibility. Community Affairs Division programs are required to follow these guidelines.

(b) The subrecipients shall establish the client eligibility level at 125% of the federal poverty level in effect at the time the client makes an application for services.

(c) To determine income eligibility for program services, subrecipients must base annualized eligibility determinations on household income from 30 days prior to the date of application for assistance. Each subrecipient must maintain documentation of income from all sources for all household members for the entire 30 day period prior to the date of application and multiply the monthly amount by twelve (12) to annualize income. Income documentation must be collected from all income sources for all household members 18 years and older for the entire 30 day period.

(d) If proof of income is unavailable, the applicant must complete and sign a Department approved Declaration of Income Statement.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5. COMMUNITY AFFAIRS PROGRAMS
SUBCHAPTER B. COMMUNITY SERVICES BLOCK GRANT (CSBG)
10 TAC §5.201 - §5.217

§5.201 Background

(a) In addition to the following rules for the Community Services Block Grant (CSBG) program, the rules established in Subchapter A of this Chapter also apply to the Community Services Block Grant (CSBG) program. The Community Services Block Grant (CSBG) Act was amended by the "Community Services Block Grant Amendments of 1994" and the Coats Human Services Reauthorization Act of 1998. The Secretary is authorized to establish a community services block grant program and make grants available through the program to States to ameliorate the causes of poverty in communities within the States.

(b) The Texas Legislature designated the Department as the lead agency for the administration of the Community Services Block Grant Program pursuant to Texas Government Code, §2306.092. CSBG funds will be made available to eligible entities to carry out the purposes of the Community Services Block Grant Program.

§5.202 Purpose and Goals

Community Services Block Grant (CSBG) funds provide assistance to States and local communities, working through a network of Community Action Agencies and other neighborhood-based organizations for the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient (particularly families who are attempting to transition off a State program carried out under part A of title IV of the Social Security Act.)

§5.203 Distribution of CSBG Funds

(a) The CSBG Act requires that no less than 90% of the state's allocation be allocated to Eligible Entities. The Department currently utilizes a multi-factor fund distribution formula to equitably provide CSBG funds throughout the State's 254 counties to the CSBG Eligible Entities. The formula incorporates the most current decennial ~~2000~~ U.S. Census figures at 125% of poverty; a $50,000 base; a $150,000 floor (the minimum funding level); a 98% weighted factor for poverty population; and, a 2% weighted factor for the inverse ratio of population density.

(1) Each Eligible Entity receives a base amount of $50,000;
(2) The weighted factors of poverty population and population density are applied to the funds remaining after the base award funds have been distributed to each Eligible Entity;
(3) The Department then determines if any Eligible Entity is below the $150,000 floor after the base amount and weighted factors (poverty population and population density) have been applied, then the minimum floor amount is reserved for those entities below $150,000.
(4) The remaining funds are distributed to the remaining eligible entities. As was done with the initial run of the formula, each of the remaining eligible entities receives the base amount of $50,000 and then the weighted factors (poverty population and population density) are applied to determine the allocation amounts for eligible entities funded above the $150,000.

(b) Five percent (5%) of the Department's annual allocation of CSBG funds and any funds not spent as identified in the following subsection (c) of this section, may be expended for activities as per 42 USC §9907 (b)(A-H) and activities that may include:

(1) the provision of training and technical assistance to CSBG eligible entities;
(2) services to low-income Migrant Seasonal Farm worker and Native American populations;
(3) assisting CSBG eligible entities in responding to natural or man-made disasters;
(4) funding for innovative and demonstration projects that assist CSBG target population groups to overcome at least one of the barriers to attaining self-sufficiency; and

(5) other projects/initiatives, including state conference expenses. The Department may provide monetary awards to subrecipients for outstanding performance. To ensure consistent and comparable results, the process for monetary awards to CSBG subrecipients will be standardized.

(c) Up to five percent (5%) of the Department's annual allocation of CSBG funds will be used for administrative purposes consistent with state and federal law.

§5.204 Use of Funds

(a) CSBG funds distributed to eligible entities for a fiscal year may be available for obligation during that fiscal year and the succeeding fiscal year. Eligible entities may use the funds for administrative support and/or for direct services such as: education, employment, housing, health care, nutrition, transportation, linkages with other service providers, youth programs, emergency services i.e., utilities, rent, mortgage, food, shelter, clothing etc. For additional requirements reference 42 USC 9908 (b)(A)(i-vii) and OMB Circulars A-122 and A-87.

(b) Utility and rent deposit refunds from vendors must be reimbursed to the subrecipient and not the client. Funds should be treated as program income.

§5.205 Limitations on Use of Funds

Construction of Facilities. CSBG funds may not be used for the purchase, construction or improvement of land, or facilities as described in (42 USC 9918)(a)).

§5.206 Termination and Reduction of Funding

(a) If the Department determines, on the basis of a final decision in a review pursuant to the CSBG Act, that an eligible entity fails to comply with the terms of an agreement or the State plan, to provide services under the CSBG Act or to meet appropriate standards, goals, and other requirements established by the Department (including performance objectives), the Department shall –

(1) inform the entity of the deficiency to be corrected;
(2) require the entity to correct the deficiency;
(3) offer training and technical assistance, if appropriate, to help correct the deficiency, and, as appropriate, prepare and submit to the Secretary a report describing the training and technical assistance offered; or if the Department determines that such training and technical assistance are not appropriate, prepare and submit to the Secretary a report stating the reasons for the determination and the reasons for proceeding with termination proceedings.
(4) At the discretion of the Department (taking into account the seriousness of the deficiency and the time reasonably required to correct the deficiency), the Department shall allow the entity to develop and implement, within 60 days after being informed of the deficiency, a Quality Improvement Plan (QIP) to correct

such deficiency within a reasonable period of time, as determined by the Department. No later than 30 days after receiving from an Eligible Entity a proposed QIP, the Department shall either approve such proposed plan or specify the reasons why the proposed plan cannot be approved.

(5) If the Department does not accept the QIP, the Department, after providing adequate notice of impending termination proceedings and an opportunity for a hearing, may initiate proceedings to terminate or reduce the funding of a subrecipient.

(6) If the Department has implemented sanctions against a subrecipient and the subrecipient has failed to comply with the QIP or a corrective action plan, the Department may request of the subrecipient's Board of Directors the voluntary relinquishment of the CSBG program and their designation as a CSBG Eligible Entity. If the subrecipient accepts to voluntarily relinquish the CSBG program, the Department will commence contract termination proceedings. If the subrecipient rejects voluntarily relinquishment of the CSBG program or the Department does not accept the subrecipient's QIP, the Department will initiate procedures for a hearing.

(A) Pursuant to the CSBG Act, the Department will provide notice and an opportunity for a hearing.

(B) The Department will select an impartial official or Administrative Law Judge (ALJ) to oversee the proceedings of the hearing. The Department will coordinate establishing a date, time and hearing location with the impartial official or ALJ and will provide adequate notice to the subrecipient.

(C) ~~Upon receiving a favorable ruling from the ALJ, ~~P~~p~~ursuant to Section 9915, the Department will prepare correspondence to the U.S. Secretary of Health and Human Services (HHS) requesting the termination of the subrecipient as a CSBG Eligible Entity. Upon receiving a favorable ruling from HHS, the Department will initiate proceedings to terminate and close-out the contract.

(b) Any right or remedy given to the Department by the Rule does not preclude the existence of any other right or remedy, nor shall any action or lack of action by the Department in the exercise of any right or remedy be deemed a waiver of any other right or remedy.

§5.207 Subrecipient Performance.

(a) Budgets. CSBG eligible entities and any other funded organizations shall submit a budget to facilitate the contract execution process. A Certification of Board Approval of CSBG Budget form issued by the Department must also be submitted with planned budgets.

(b) Unexpended Funds. The Department reserves the right to deobligate funds.

(1) The U.S. Department of Health and Human Services Administration for Children and Families issues Terms and Conditions for receipt of funds under the Community Services Block Grant. Subrecipients of CSBG funds will comply with the requirements of the Terms and Conditions of the CSBG award. Services must be provided on or before September 30th of the subsequent year and must be fully expended.

(2) The Coats Human Services Reauthorization Act of 1998, allows states to recapture unexpended CSBG funds in excess of 20% of the CSBG funds obligated to an Eligible Entity. This may be superseded by Congressional action in the appropriation process or by the Terms and Conditions issued by U.S. Department of Health and Human Services in the CSBG award letter.

§5.208 Designation and Re-designation of Eligible Entities in Unserved Areas

If any geographic area of the State ceases to be served by an Eligible Entity, the requirements of 42 USC §9909 will be followed.

§5.209 State Application and Plan

(a) The Department submits to the Secretary every two years a State plan and a CSBG application. The Department holds public hearings in different areas of the state to solicit public comment on the intended use of CSBG funds. The Department will provide notice of the public hearings regarding the State Plan no later than the 15th day before the date of the hearing and publish the Draft State Plan on the Department's web site at least 10 days before the first public hearing.

(b) Every two (2) years in conjunction with the development of the State plan, the Department submits the CSBG budget to the Texas State Legislature for review during the legislative hearings, as part of the Legislative Appropriations Request (LAR) process.

§5.210 CSBG Needs Assessment and Community Action Plan

(a) In accordance with the CSBG Act and Section 676 of the Act, the Department is required to secure a Community Action Plan on an annual basis from each CSBG Eligible Entity due on October 31st.

(b) Every five years, the CSBG Community Action Plan will include a community needs assessment from every CSBG Eligible Entity.

(c) The Community Action Plan shall at a minimum include a description of the delivery of services for the case management system and in accordance with the National Performance Indicators.

(d) Intake Form. To fulfill the requirements of 42 USC 9917, CSBG subrecipients must complete an intake form which includes the demographic and household characteristic data required for the monthly performance and expenditure report, referenced in Subchapter A of this Chapter, for all households receiving a community action service. A new CSBG intake form or a centralized intake form must be completed on an annual basis to coincide with the CSBG program year of January 1st through December 31st.

(e) Case Management.

(1) In keeping with the regulations issued under Title II, Section 676 (b) State Application and Plan, the Department requires CSBG subrecipients to incorporate integrated case management systems in the administration of their CSBG program (Title II, Section 676 (b)). Incorporating case management in the service delivery system and providing assistance that has a long-term impact on the client, such as enabling the client to move from poverty to self-sufficiency, to maintain stable families, and to revitalize the community, supports the requirements of Section 676 (b). An integrated case management system, improves the overall provision of assistance and improves each subrecipient's ability to transition persons from poverty to self-sufficiency.
(2) Subrecipients must have in operation a case management program that has the following components:

(A) Intake Form.
(B) Pre-assessment to determine service needs, to determine the need for case management, and to determine which individuals/families to consider enrolling in case management program;
(C) Integrated assessment of individual/family service needs of those accepted into case management program;
(D) Development of case management service plan to meet goals and become self-sufficient;
(E) Provision of services and coordination of services to meet needs and achieve self-sufficiency;
(F) Monitoring and follow-up of participant's progress;
(G) Case closure, once individual has become self-sufficient;
(H) Evaluation process to determine effectiveness of case management system.

(f) Organizations receiving state discretionary funds under §5.203 (b) of this subchapter are not required to submit a Community Action Plan. All CSBG subrecipients must develop a Performance Statement which identifies the services, programs, and activities to be administered by the organization.

§5.211 Subrecipient Reporting Requirements

(a) Monthly Performance and Expenditure Report.
CSBG subrecipients must submit a monthly performance and expenditure report.

(1) Subrecipients shall submit the Monthly Funding/Financial/Performance Report (MFFPR) no later than the 20th day of the month after each month of the contract period. Even if a fund reimbursement is not being requested, an MFFPR must be submitted electronically on or before the twentieth (20th) day of each month of the grant period. A final MFFPR must be submitted within 60 days after the CSBG contract ends. The “Community Affairs Contract User Guide System” may be accessed through the TDHCA website.

(b) Reporting.
Federal requirements mandate all States to participate in the preparation of a annual performance measurement report (also referred to as the CSBG National Survey). To comply with the requirements of Section 678E of the CSBG Act, all CSBG eligible entities and other organizations receiving CSBG funds are required to participate.

§5.212 CSBG Board of Directors Membership and Meeting Requirements for CSBG Eligible Entity’s Tripartite Boards

(a) General Board Requirements

(1) The Coats Human Services Reauthorization Act (Public Law 105-285) addresses the Community Services Block Grant program and requires that eligible entities administer the CSBG program through a tripartite board. The Act requires that governing boards or a governing body be involved in the development, planning, implementation, and evaluation of the programs serving the low-income sector. Also, the Texas Legislature, through § 551.001(3) of the Texas Government Code, addresses specific requirements regarding meetings, meeting notices, and open meeting records through the Open Meetings Act (Texas Government Code, §551.001 *et. seq*.) and the Public Information Act (Texas Government Code, §552 *et seq*.). State legislation has also defined as a governmental body, nonprofit corporation boards that are eligible to receive funds under the federal Community Services Block Grant program and that are authorized by the State to serve a geographic area of the State.
(2) Federal requirements for establishing a tripartite board require board oversight responsibilities for public entities, which differ from requirements for private organizations. Where differences occur between private and public organizations, requirements for each entity have been noted in related sections of the rule.

(b) Each CSBG Eligible Entity shall comply with the provisions of this rule and if necessary, the Eligible Entity’s by-laws shall be amended to reflect compliance with these requirements.

§5.213. Board Structure

(a) Private nonprofit entities~~ only~~, shall administer the Community Services Block Grant program through a tripartite board that fully participates in the development, planning, implementation, and evaluation of the program to serve low-income communities.

Selection and composition of the board. The members of the board shall be selected by the private nonprofit entity and the board shall be composed so as to assure that the requirements of Section 676B (a)(2) are followed and are composed as follows:

(1) One-third of the members of the board shall be elected public officials, holding office on the date of the selection, or their representatives. In the event that there are not enough elected public officials reasonably available and willing to serve on the board, the entity may select appointive public officials to serve on the board. The entity may allow governing officials of the political jurisdiction to select and/or recommend an elected or appointive official to serve on the board. The public officials selected to serve on the board may each choose one permanent representative or designate an alternate to serve on the board. Appointive public officials or their representatives or alternates may be counted in meeting the 1/3 requirement. Refer to the subsection entitled "Permanent Representatives and Alternates" in this document for related information;

(2) not fewer than 1/3 of the members are persons chosen in accordance with democratic selection procedures adequate to assure that these members are representative of low-income individuals and families in the neighborhood served; and each representative of low-income individuals and families selected to represent a specific neighborhood within a community under clause (B) resides in the neighborhood represented by the member.

(3) the remainder of the members are officials or members of business, industry, labor, religious, law enforcement, education, or other major groups and interests in the community served.

(b) For public organizations to be considered to be an eligible entity for purposes of the CSBG Act, Section 676B (b), the entity shall administer the CSBG grant through tripartite boards as follows:

(1) A tripartite board, which shall have members selected by the organization and shall be composed so as to assure that not fewer than 1/3 of the members are persons chosen in accordance with democratic selection procedures adequate to assure that these members:

(A) are representative of low-income individuals and families in the neighborhood served;
(B) reside in the neighborhood served; and
(C) are able to participate actively in the development, planning, implementation, and evaluation of programs funded under this subtitle; or

If conditions in (1) (A)-(C) are not utilized, then another mechanism specified by the State which meets the tripartite requirements may be used. Public organizations that choose to utilize another mechanism must submit to the Department, for review and approval, a description of the mechanism to be utilized to select low-income representatives. .The mechanism must assure decision-making and participation by low-income individuals in the development, planning, implementation, and evaluation of programs funded under this subtitle.

(2) One-third of the members of the board shall be elected public officials, holding office on the date of the selection, or their representatives. In the event that there are not enough elected public officials reasonably available and willing to serve on the board, the entity may select appointive public officials to serve on the board. The entity may allow governing officials of the political jurisdiction to select and/or recommend an elected or appointive official to serve on the board. The public officials selected to serve on the board may each choose one permanent representative or designate an alternate to serve on the board. Refer to the subsection entitled "Permanent Representatives and Alternates" in this document for related information;

(3) the remainder are members of business, industry, labor, religious, law enforcement, education, or other major groups and interests in the community served.

(c) Eligible entities administering the Head Start Program must comply with, the Head Start Act (42 U.S.C. 9837) that requires the governing body membership to comply with the requirements of Section 642 (c)(1).

(1) Exceptions shall be made to the requirements of clauses (i) through (iv) of Section 642 (c)(1) for members of a governing body when those members oversee a public entity and are selected to their positions with the public entity by public election or political appointment.

(d) Selection

As per Sec. 676B, Private nonprofit entities and public organizations have the responsibility for selection and composition of the board.

(1) Public Officials

(A) Elected public officials or appointed public officials, selected to serve on the board, shall have either general governmental responsibilities or responsibilities which require them to deal with poverty-related issues. They may not be officials with only limited, specialized, or administrative responsibilities.

(B) Permanent Representatives and Alternates

The public officials selected to serve on the board may each choose one permanent representative or designate an alternate to serve on the board.

(i) Permanent Representatives

The public officials selected by a private nonprofit entity or public organization to serve on the board may each choose one permanent representative to serve on the board in a full-time capacity. The public officials of the public organization may choose a representative to serve on the board or other governmental body. The representative need not be a public official but shall have full authority to act for the public official at meetings of the board. Permanent representatives may hold an officer position on the board. If a permanent representative is not chosen, then an alternate may be designated by the public official selected to serve on the board. Alternates may not hold an officer position on the board.

(ii) Alternate Representatives

If the private nonprofit entity or public organization board chooses to allow alternates, the alternates for low-income representatives shall be elected at the same time and in the same manner as the board representative is elected to serve on the board. Alternates for representatives of private sector organizations may be designated to serve on the board and should be selected at the same time the board representative is selected. In the event that the board member or alternate ceases to be a member of the organization represented, he/she shall no longer be eligible to serve on the board. Alternates may not hold an officer position on the board.

(2) Low-Income Representatives

(A) An essential objective of community action is participation by low-income individuals in the programs which affect their lives; therefore, the CSBG Act and its amendments require representation of low-income individuals on boards or state-specified governing bodies. The CSBG statute requires that not fewer than one-third of the members shall be ~~are~~ representatives of low-income individuals and families and that they shall be chosen in accordance with democratic selection procedures adequate to assure that these members are representative of low-income individuals and families in the neighborhoods served; and that each representative of low-income individuals and families selected to represent a specific neighborhood within a community resides in the neighborhood represented by the member.

(B) Board members representing low-income individuals and families must be selected in accordance with a democratic procedure. This procedure, as detailed below, may be either directly through election, public forum, or, if not possible, through a similar democratic process such as election to a position of responsibility in another significant service or community organization such as a school PTA, a faith-based organization leadership group; or an advisory board/governing council to another low-income service provider.

(C) Every effort should be made by the nonprofit entity or public organization to assure that low-income representatives are truly representative of current residents of the geographic area to be served, including racial and ethnic composition, as determined by periodic selection or reselection by the community. "Current" should be defined by the recent or annual demographic changes as documented in the needs/community assessment. This does not preclude extended service of low-income community representatives on boards, but it does suggest that continued board participation of longer term members be revalidated and kept current through some form of democratic process.

(D) The procedure used to select the low-income representative must be documented to demonstrate that a democratic selection process was used. Among the selection processes that may be utilized, either alone or in combination, are:

(i) Selection and elections, either within neighborhoods or within the community as a whole; at a meeting or conference, to which all neighborhood residents, and especially those who are poor, are openly invited;
(ii) Selection of representatives to a community-wide board by members of neighborhood or sub-area boards who are themselves selected by neighborhood or area residents;
(iii) Selection, on a small area basis (such as a city block); or
(iv) Selection of representatives by existing organizations whose membership is predominately composed of poor persons.

(3) Representatives of Private Groups and Interests

(A) The private nonprofit entity or public organization shall select the remainder of persons to represent the private sector on the board or it may select private sector organizations from which representatives of the private sector organization would be chosen to serve on the board.
(B) The individuals and/or organizations representing the private sector shall be selected in such a manner as to assure that the board will benefit from broad community involvement. The board composition for the private sector shall draw from officials or members of business, industry, labor, religious, law enforcement, education, school districts, representatives of education districts and other major groups and interests in the community served.

§5.214 Board - Administrative Requirements

(a) Powers of the Board For Private Nonprofit Entities

The board is responsible for abiding by the terms of contracts and shall determine the policies of the agency to assure accountability for public funding. The board shall function as the organization's governing body with the same legal powers and responsibilities as the board of directors of any nonprofit corporation.

(b) Powers of the Board for Public Organizations
The powers, duties, and responsibilities of the board shall be determined by the governing officials of the public organization. The governing officials may establish:

(1) an advisory board, in which case the authority given to the advisory board depends on the powers delegated to it by the governing officials of the political subdivision; or
(2) a governing board, empowering the board of directors with substantive decision-making authority and delegating the powers, duties, and responsibilities to carry out its CSBG-supported contract and functions.

(c) Compensation
Board members are not entitled to compensation for their service on the board. Reimbursement of reasonable and necessary expenses incurred by a board member in carrying out his/her duties is allowed.

(d) Conflict of Interest
No board member may participate in the selection, award, or administration of a subcontract supported by CSBG funds if: (1) the board member, (2) any member of his/her immediate family (as defined in the CSBG contract), (3) the board member's partner, or (4) any organization which employs or is about to employ any of the above, has a financial interest in the firm or person selected to perform a subcontract. No employee of the local CSBG subrecipient nor of the Texas Department of Housing and Community Affairs may serve on the board.

§5.215 Board - Size

(a) Board Size
The board size shall be divisible by three (3).

(b) Board Service Limitations for Private Nonprofit Entities and Public Organizations Subrecipients boards may establish bylaws which allow for term limits and/or procedures for the removal of board members.

(c) Vacancies/Removal of Board Members

(1) Vacancies
In no event shall the board allow 25% or more of either the public, private, or poverty sector board positions to remain vacant for more than 90 days. CSBG subrecipients shall report the number of board vacancies by sector in their monthly performance reports. Compliance with the CSBG Act requirements for

board membership is a condition for eligible entities to receive CSBG funding. There is no provision in the Act for a waiver or exception to these requirements.

(2) Removal of Board Members/Private Nonprofit Entities

Public officials or their representatives, may be removed from the board either by the board or by the entity that appointed them to serve on the board. Other members of the board may be removed by the board or pursuant to any procedure provided in the private nonprofit's by-laws.

(3) Removal of Board Members/Public Organizations

Board members may be removed from the board by the public organization or by the board if the board is so empowered by the public organization. The board may petition the public organization to remove a board member or the public organization may delegate the power of removal to the board.

§5.216 Board Responsibility

(a) Tripartite boards have a fiduciary responsibility for the overall operation of the private nonprofit entity. Members are expected to carry out their duties as any reasonably prudent person would do.

(b) At a minimum, board members are expected to:

(1) Maintain regular attendance of board and committee meetings;
(2) Develop thorough familiarity with core agency information, such as the agency's bylaws, as appropriate, articles of incorporation, sources of funding, agency goals and programs, Federal and State CSBG statutes;
(3) Exercise careful review of materials provided to the board;
(4) Make decisions based on sufficient information;
(5) Ensure that proper fiscal systems and controls, as well as a legal compliance system, are in place; and
(6) Maintain knowledge of all major actions taken by the agency.

(c) Individuals that agree to participate on a tripartite governing board, accept the responsibility to assure that the agency they represent continues to: assess and respond to the causes and conditions of poverty in their community, achieve anticipated family and community outcomes, and remains administratively and fiscally sound. Excessive absenteeism of board members compromises the mission and intent of the program.

(d) Residence Requirement

(1) All board members shall reside within the subrecipient's CSBG service area designated by the CSBG contract. Board members should be selected so as to provide representation for all geographic areas within the designated service area; however, greater representation may be given on the board to areas with greater poverty population. Low-income representatives must reside in the area that they represent.

(2) Subrecipients may request a waiver of the residency requirement to the Director of the Community Affairs Division for review for consideration and/or approval.

(e) Improperly Constituted Board
If the Department determines that a board of an eligible entity is improperly constituted, the Department shall prescribe the necessary remedial action, a timeline for implementation and possible sanctions which may include: cost reimbursement method of payment; withholding of funds; contract suspension; and termination of funding.

§5.217 Board Meeting Requirements

(a) The Board must: follow the Texas Open Meetings Act, meet at least once per calendar quarter and at a minimum five (5) times per year and ~~every 10 weeks and~~ must give each member a notice of meeting (5) five days in advance of the meeting.

(b) Open Meetings Training

(1) Effective January 1, 2006, the 79th Texas Legislature established a state law requiring elected and appointed officials to receive training in Texas Open Government laws. This mandate applies to the board of directors for CSBG eligible entities and requires that training is received within 90 days of becoming a board member. As part of this requirement, the Office of the Attorney General has established and made available formal training to ensure government officials have a good command of open records and open meeting laws. To fulfill this requirement, the Office of the Attorney General offers free training videos which may be requested by accessing their website at www.oag.state.tx.us/opinopen/og_training.shtml or by calling 1-800-252-8011.
(2) Legislation requires open meetings training for public sector local officials, however, the Department recommends this training for all board members. Boards shall ensure that all members serving on the Board of Directors shall receive this training according to the deadlines described above.
(3) The organization shall maintain a copy of the Board training certificate issued to participants upon completion of the training.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1. TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5. COMMUNITY AFFAIRS PROGRAMS
SUBCHAPTER C. EMERGENCY SHELTER GRANTS PROGRAM (ESGP)
10 TAC §5.301 - §5.311

§5.301 Background

(a) In addition to the following rules for the Emergency Shelter Grants Program (ESGP), the rules established in Subchapter A of this Chapter also apply to the Emergency Shelter Grants Program (ESGP).

(b) ESGP was established by the Homeless Housing Act of 1986 in response to the growing issue of homelessness in the United States. In 1987, the ESG program was incorporated into Title IV of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. §11371 - 11378), now known as the McKinney-Vento Homeless Assistance Act.

(c) ESGP funds are federal funds awarded to the State of Texas by the U. S. Department of Housing and Urban Development (HUD). The Texas Legislature designated the Texas Department of Housing and Community Affairs (the Department) to administer this program pursuant to §2306.094, Texas Government Code. ESGP funds will be made available to eligible applicants to carry out the purpose of the Emergency Shelter Grants Program based on a statewide competitive application process.

§5.302 Purpose and Goals

(a) The Emergency Shelter Grants Program (ESGP) funds are available for:

(1) the rehabilitation or conversion of buildings for use as emergency shelter for the homeless;
(2) the payment of certain operating expenses and essential services in connection with emergency shelters for the homeless, and;
(3) homeless prevention activities.

(b) The program goal is to be the first step in a continuum of assistance to enable homeless individuals and families to move toward independent living as well as to prevent homelessness.

(c) The objectives of the ESGP shall be to:

(1) Help improve the quality of emergency shelters for the homeless;
(2) Help meet the costs of operating and maintaining emergency shelters;
(3) Provide essential services so that homeless individuals have access to the assistance they need to improve their situation; and
(4) Provide emergency intervention assistance to prevent homelessness.

§5.303 Distribution of ESGP Funds

(a) All Texas counties fall within one of the 13 Uniform State Service Regions. Funds are reserved for each region in direct proportion to the region's percentage of poverty population according to the decennial U.S. Census.

(b) Applications are grouped by service region. Eligible applications compete only against other eligible applications from the same service region, with the highest ranking application being funded first.

(c) The Department will determine the number of applications which can be funded within each region based on the amount of funds available for distribution in each region. ESGP funds reserved for a particular region will be obligated to eligible applicant organizations within that region. If the region does not have enough responsive applications which meet the funding threshold, funds will be redistributed.

(d) Upon approval by the Department's Board of Directors, applicants receiving ESGP funds shall enter into and execute an agreement for the receipt of ESGP funds.

(1) Amendments. The Department, acting by and through its Executive Director or his/her designee, may authorize, execute, and deliver modifications and/or amendments to the ESGP contract.
(2) The Department reserves the right to deobligate funds.
(3) Faith-based subrecipients, as with all subrecipients funded under HUD-funded programs, must serve all eligible beneficiaries without regard to religion.

(e) Allocation of Funds. The Department shall administer all federal ESGP funds provided to the State under the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. §11371 - 11378, now known as the McKinney-Vento Homeless Assistance Act) in accordance with the U.S. Department of Housing and Urban Development's final ESG rule, 24 CFR Part 576 and Chapter 2306, Texas Government Code, and the Department annual Consolidated Plan.

(f) The Department must obligate at least 95% of these funds for ESGP funded applicants.

(g) The Department may retain 5% for administration and may share a portion of its administrative funds with units of general local government (city or county) selected for funding.

(h) The Department will obligate funds within 65 days of receiving the award letter from the U.S. Department of Housing and Urban Development.

§5.304 Use of Funds

(a) Eligible Activities: ESGP funds are designed to address the immediate needs of homeless persons to assist their movement to permanent housing.

(1) ESGP funds may be utilized to assist individuals and families who would actually become or remain homeless without ESGP homelessness prevention assistance.
(2) ESGP funds cannot be utilized to care for or assist children in State custody.
(3) The Department encourages that applications include an innovative approach to providing emergency shelter and/or transitional housing to homeless individuals and families. Transitional housing projects should be designed to provide housing and appropriate essential services to homeless persons in order to facilitate the movement of individuals or families to permanent housing within no more than 24 months. ESGP grant amounts may be used for one or more of the following activities in (b) through (f):

(b) Operation administration may not exceed more than 10% of an applicant's ESGP budget (Title 42 Section 11374 (a)(3)) and may be requested for administrative salaries (including fringe benefits).

(1) Appropriate staff which may be charged as administrative staff are the executive director, program director, supervisors, administrative support staff, etc.
(2) Job descriptions for these positions are not required to be included in the ESGP application.

(c) Essential Services. ESGP legislation limits essential services to 30% of the total State allocation (24 CFR 576.3 and Title 42 Section 11374 (a)(2)(b)).

(1) Essential services activities address the immediate needs of homeless individuals and enable homeless persons to become more independent and/or to secure permanent housing.

(A) Essential services may include direct client services concerned with employment, health, drug abuse prevention, and education, including but not limited to:

(i) assistance in obtaining permanent housing; medical and psychological counseling and supervision; employment counseling, job placement, and job training (including tuition and books);
(ii) nutritional counseling and the salary of food preparers (cooks);
(iii) substance abuse treatment and counseling;
(iv) assistance in obtaining other federal, state, and local assistance including mental health benefits, medical assistance, Veteran's benefits, and income support assistance such as Supplemental Security Income, Temporary Assistance for Needy Families, and Food Stamps;
(v) other services such as childcare, food vouchers, client clothing, or medical assistance (doctor visits, prescriptions, eye glasses or other prostheses, etc.); (vi) transportation costs directly associated with ESGP service delivery, such as bus tokens, bus fare, cab fare, airfare, salary of van driver, etc; and,
(vii) salary for staff whose sole duty is to work directly with clients to provide the above services.

(2) Staff salaries may include wages and fringe benefits, however, no administrative or supervisory salaries may be paid with Essential Services funds.

(3) ESGP funds may be used to provide essential services, if the agency received local funds (locally generated tax revenue) from a unit of local government in the past 12 months, only if the ESGP application includes a request for funds to provide essential services for a new service (24 CFR 576.21 (b)).

(d) Maintenance, operation, and furnishings. ESGP funds may be used for maintenance, operation, furnishings, and equipment costs (24 CFR 576.21 (3)).

(1) Maintenance costs include contract services for copier or security system maintenance, pest control, lawn care, contracted janitorial service, etc.

(2) Operation costs include administration, equipment, facility rent, utilities, internet service, and telephone; building maintenance and non-deferred repairs; food for shelter residents; vehicle maintenance, registration, repairs, and fuel; building or equipment insurance; fidelity bond coverage; office and maintenance supplies; single audit expenses (if required), staff mileage reimbursement (for travel relating to ESGP service delivery), and pre-award travel expenses (for successful applicants to attend an orientation workshop).

(A) Non-deferred repairs are items that break during the contract period, such as:

- (i) repairing a window that is broken;
- (ii) repairs due to water damage;
- (iii) repairing a broken furnace or
- (iv) repairing an air conditioning unit.

(B) Deferred repairs, classified as rehabilitation activities, are items which are inoperable or broken and in need of replacement prior to the application period.

(C) Equipment may include computers, printers, software, refrigerator, stove, tools, vehicles, etc. All equipment with a useful life of more than one year and an acquisition cost of $500 or more must be included in a cumulative inventory report submitted to the Department each contract year. (Refer to Subchapter A "General Provisions" ~~§5.00~~§5.8 "Inventory Report".)

(D) Subrecipients who participate in a local Continuum of Care may use ESGP funds to facilitate the required Homeless Management Information System (HMIS) which may include the purchase of software and/or annual access fees to facilitate data collection and reporting of client-level information.

(3) Furnishings may include beds, mattresses, linens, desks, tables, chairs, etc.

(e) Homelessness Prevention. ESGP legislation limits homelessness prevention to 30% of the total State allocation (Title 42 Section 11374 (a)).

(1) Homelessness Prevention funds may be used to provide direct monetary assistance on behalf of individuals whose annual income is at or below the federal poverty guideline when the conditions referenced in 24 CFR 576.3 are met.

(A) The individual or family is unable to make the required payments due to a sudden reduction in income or a sudden increase in expenses, i.e. sudden reduction in income may result from an event that occurs no more than 90 days prior to the date of application for ESGP services. Documentation should support the risk of becoming homeless such as an eviction notice or termination of utility service notice.

(B) The assistance is necessary to avoid the foreclosure, eviction, or termination of utility services (excluding telephone service); Utility and rent deposit refunds from vendors must be reimbursed to the subrecipient and not the client. Funds should be treated as program income.

(C) There is reasonable prospect that the individual or family will be able to resume the payments within a reasonable period of time (determined by the applicant organization and used consistently among all clients); and

(D) The assistance does not replace funding for pre-existing homelessness prevention activities from any other sources.

(2) Homelessness Prevention funds must be used to assist those individuals and families that would actually become or remain homeless without ESGP homelessness prevention assistance (24 CFR §576.3) and include:

(A) Short-term subsidies to help defray rent and utility arrearages for families that have received a notice of eviction, termination of utility services, or payments to prevent the transfers;

(B) Security deposits or first month's rent to enable a homeless family (or individuals in emergency/transitional housing) to acquire permanent housing;

(C) Programs to provide mediation for landlord/tenant disputes;

(D) Programs to provide legal services for the representation of indigent tenants in eviction proceedings;

(E) Payments to prevent foreclosure on a home; and,

(F) Other innovative programs and activities designed to prevent the incidence of homelessness.

(3) Subrecipients are required to use the ESGP Homelessness Prevention Application to determine the eligibility of individuals and families applying for ESGP homelessness prevention assistance. (Refer to the Department’s website for the Homelessness Prevention Application.)

(f) Rehabilitation. Rehabilitation is defined as the labor, materials, tools, and other costs of improving buildings.

(1) Examples of allowable rehabilitation projects include, but are not limited to,

(A) accumulated deferred maintenance (replacing flooring),

(B) replacement of principle fixtures and components,

(C) improvements to increase energy efficiency (replacing a furnace or air conditioning unit), and

(D) structural changes necessary to make the facility accessible for persons with physical disabilities.

(2) Rehabilitation projects include deferred repairs for items that are inoperable or broken and in need of replacement prior to the submission of the ESGP application. Rehabilitation does not include non-deferred repairs.
(3) All rehabilitation activity funded through ESGP must occur within the existing structure, must not increase the square footage of the structure involved, and must comply with local government safety and sanitation requirements. (Refer to §504 of the Rehabilitation Act of 1973, as amended, as provided in 24 CFR 8.23(a) or (b)).

(A) Types of rehabilitation projects include conversion, major rehabilitation and renovation (24 CFR 576.3).

§5.305 Limitations on Use of Funds

ESGP funds cannot be utilized for conversion, rehabilitation, renovation, or operation of permanent housing; acquisition of real property; new construction; addition of square footage, property clearance or demolition; direct payments to individuals; to support inherently religious activities such as worship, religious instruction, or proselytization; or to rehabilitate or repair buildings such as sanctuaries, chapels, and other rooms that a congregation uses as its principal place of worship.

§5.306 Eligible Entities

(a) Eligible applicants are units of general local government and private nonprofit organizations (§576.1, Title 24 of the ESGP Act).

(b) The Department will accept collaborative applications. To be considered as a collaborative, the application must include two or more organizations that will use ESGP funds to provide services to the target population as part of a local continuum of care.

(c) If a unit of general local government applies for only one organization, this will not be considered a collaborative application.

§5.307 Application Requirements

(a) Eligibility Documentation. The following information must be included in each ESGP application. Failure to provide this documentation will deem the application ineligible for funding.

(1) Participation of a homeless or formerly homeless individual on the board of directors or other equivalent policymaking entity of such recipient (42 USC 11375 (d)). Applicants who have not previously received ESGP funds from the

Department are exempt from the requirement, but must comply with the requirement prior to execution of a contract with the Department.

(2) Documentation as a 501(c) tax-exempt entity for all private nonprofit organizations.

(3) Local government approval from the city or county in which the project is located.

(b) Fiscal Accountability

(1) Single Audit: An organization that spends more than $500,000 in federal funds during its fiscal year must have a single audit conducted for that year (A-133 Subpart B.200). ESGP Subrecipients are responsible for submitting their Single Audit Report within 30 days of completion of their audit and no later than nine (9) months after the end of the audit period (fiscal year end) to the Department's Portfolio Management and Compliance Division, as well as to the Community Services Section of the Community Affairs Division. Refer to §7502, Title 31, Chapter 75.

(2) Organizations that do not exceed the $500,000 federal fund expenditure threshold are exempt from the single audit requirements. If an organization is not required to have a single audit performed, the ESGP Application must include the end-of-the-year financial statements (balance sheet, income statement, and statement of cash flow). All collaborative applications from non-profits must submit financial documentation for each organization in a collaborative.

(c) Match Requirements.

(1) ESGP subrecipients must match their award amount with an equal or greater amount of resources other than ESGP funds. (42 U.S.C.§11375(a))(A-110 Subpart C_.23) Matching funds used for an ESGP project may not be used to match any other project or grant.

(2) Match resources will adhere to the requirements of OMB Circular A-110 _.23 and/or UGMS_.24 including:

(A) Donated Supplies: Donated goods such as clothing, furniture, equipment, etc.

(B) Cash Donations or Grants: Private donations or grants from foundations, nonprofits, or local, state, and federal sources.

(C) Value of Donated Building: The fair market value of a donated building in the year that it is donated. The building must be proposed for ESGP-related activities and currently must not be in use for these activities.

(D) Rent or Lease Value of a Building: Rent paid or would be paid for space currently used to provide services to the homeless.

(E) Salaries: Any staff salary paid with general operating funds or certain grant funds including but not limited to CSBG, Community Development Block Grant (CDBG), United Way, and Victims of Crime Act (VOCA). The

position(s) used as match must be involved in ESGP-related activities and the hours utilized for match must be for hours worked for ESGP related activities.
(F) Volunteers: Time and services contributed by volunteers, with a value not to exceed federal regulations.

(d) Environmental Review Requirements for Rehabilitation Projects.

(1) The following federal regulations concerning environmental review are applicable to Rehabilitation Projects:
(A) 24 CFR Part 58
(B) 24 CFR 576.57e (Release of Funds)
(C) 24 CFR 35 (Lead Based Paint Hazard Reduction)
(2) All ESGP applications including a request for Rehabilitation funds must include a Preliminary Environmental Review Checklist. For ESGP funds distributed by the State to units of general local government, the unit of general local government must assume the environmental responsibilities, and the State will be responsible for providing a release of funds in accordance with the requirements of 24 CFR Part 58.
(3) For funds distributed by the State to nonprofit organizations, the State must assume the environmental responsibilities, and HUD will provide the release of funds in this instance.
(4) The Department may accept a previous environmental review if:

(A) the environmental review is not more than 5 years old and no structural changes have occurred at the previously approved location;
(B) the certifying entity (local authority) provides documentation that no environmentally significant changes have occurred at the approved location since the review was done; and
(C) a copy of the environmental review is submitted as part of the ESGP application.

§5.308 Application Awards

(a) Award Amounts:

(1) The annual application packet will specify the minimum and maximum for ESG program awards. As required in §576.35 of Title 24 Subpart C, applicants will be notified of the Department's recommendation for funding.
(2) Award limitations are based on the amount of ESGP funds estimated to be available to each region and the ESGP funding pattern utilized by the Department.

(b) Funded Projects

(1) All projects should be planned for a maximum of 12 months.
(2) Per HUD requirements, the Department will share a portion of the State's administrative funds with units of general local government (cities or counties)

selected for ESGP funding. The amount shared will not exceed 4% of the subrecipient's ESGP award.
(3) The Department reserves the right to negotiate the final grant amounts and local match with successful applicants. The Department may consider the amount of HUD funds awarded to entitlement entities when making funding decisions to applicants that are a unit of general local government. This consideration does not apply to private nonprofit organizations located in ESGP entitlement cities or counties.

§5.309 Application Process

(a) The Department will publish the ESGP Application annually on the Department's website. The Department will also provide written notice to organizations regarding the ESGP Application.

(b) To be considered for funding, an applicant must submit a completed application in accordance with application instructions issued annually in the ESGP Application notice.

§5.310 Application Review Process

(a) Applications may be deemed ineligible for lack of response to Department ESGP monitoring report(s) and compliance and audit issues identified by the Department.

(b) Applicants not recommended for funding will be notified in writing no later than 30 days from the date that the Department obligates funds.

(c) Applications recommended for funding will be presented to the Board or its designee for approval, pending the availability of ESGP funds.

(d) Applicants not selected to receive ESGP funds may request a review of their application no later than 30 days after the date of the written funding notification from the Department as per Texas Administrative Code §1.7.

§5.311 Reports

(a) The ESGP contract requires subrecipients to submit the Monthly Funding/Financial/Performance Report (MFFPR) no later than the 20th day of the month after each month of the contract period.

(b) Even if a fund reimbursement is not being requested, an MFFPR must be submitted electronically on or before the twentieth (20th) day of each month of the grant period. A final MFFPR must be submitted within 60 days after the ESGP contract ends.

(c) Subrecipients shall submit, by the 30th day of the month, a Monthly Service Summary Report of the ESGP clients reported during the prior month in the Homeless Management Information Systems (HMIS) database.

(d) A user name and password are needed to access the reporting system to submit monthly reports. The “Community Affairs Contract User Guide System” may be accessed through the TDHCA website under “Interactive” “Contractor Tools”.

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5 COMMUNITY AFFAIRS DIVISION

SUBCHAPTER D. COMPREHENSIVE ENERGY ASSISTANCE PROGRAM(CEAP)

10 TAC §5.401-§5.432

§5.401 Background

The Comprehensive Energy Assistance Program (CEAP) is funded through the Low Income Home Energy Assistance Act of 1981 (Title XXVI of the Omnibus Budget Reconciliation Act of 1981, Public Law 97-35, as amended). LIHEAP has been in existence since 1982. LIHEAP is a federally funded block grant program that is implemented to serve low income households who seek assistance for their home energy bills.

§5.402 Purpose and Goals

The purpose of CEAP is: to assist low-income households, particularly those with the lowest incomes, that pay a high proportion of household income for home energy, primarily in meeting their immediate home energy needs. The program encourages priority be given to those with the highest home energy needs, meaning low income households with a high energy burden and/or the presence of a "vulnerable" individual in the household, such as a young child age 5 and younger, disabled person, or frail older individual. CEAP services include: energy education, needs assessment, budget counseling (as it pertains to energy needs), utility payment assistance and heating and cooling system replacement, repair or retrofit.

§5.403 Distribution of CEAP Funds

(a) The Department distributes funds to subrecipients by an allocation formula.
(b) The formula allocates funds based on the number of low-income households in a service area and takes into account the special needs of individual service areas. The need for energy assistance in an area is addressed through a weather factor (based on heating and cooling degree days). The extra expense in delivering services in sparsely populated areas is addressed by an inverse population density factor. The lack of additional services available in very poor counties is addressed by a county median income factor. Finally, the elderly are given priority by giving greater weight to this population. The five factors used in the formula are calculated as follows:

(1) County Non-elderly Poverty Household Factor (weight of 40%) is defined by the Department as the number of Non-elderly Poverty Households in the County divided by the number of Non-elderly Poverty Households in the State.

(2) County Elderly Poverty Household Factor (weight of 40%) is defined by the Department as the number of Elderly Poverty Households in the County divided by the number of Elderly Poverty Households in the State.

(3) County Inverse Poverty Household Density Factor (weight of 5%) is defined by the Department as:

(A) The number of Square Miles of the County divided by the number of Poverty Households of the County (equals the Inverse Poverty Household Density of the County); and

(B) Inverse Poverty Household Density of the County divided by the Sum of Inverse Household Densities.

(4) County Median Income Variance Factor (weight of 5%) is defined by the Department as:

(A) State Median Income minus the County Median Income (equals County Variance), and

(B) County Variance divided by sum of the State County Variances.

(5) County Weather Factor (weight of 10%) is defined by the Department as:

(A) County Heating Degree Days plus the County Cooling Degree Days, multiplied by the Poverty Households, divided by the sum of County Heating & Cooling Degree Days of Counties (equals County Weather); and

(B) County Weather divided by the total sum of the State County Weather.

(c) All demographic factors are based on the decennial U.S. Census.
(d) Total sum of paragraphs (1) - (5) of this subsection multiplied by total funds allocation equals the County's allocation of funds. The sum of the county allocations within each subrecipient service area equals the subrecipient's total allocation of funds.

§5.404 Subrecipient Eligibility

(a) The Department shall ensure that: To the extent it is necessary to designate local administrative agencies in order to carry out the purposes of Title 42 U.S.C. §8621 et seq, give special consideration to any local public or private nonprofit agency which was receiving Federal funds.

> (1) The Department shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the Department; and
>
> (2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the Department shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made.

(b) The Department administers the program through the existing subrecipients that have demonstrated that they are operating the program in accordance with the Economic Opportunity Act of 1964, the Low-Income Home Energy Assistance Act of 1981 as amended (42 U.S.C. §8621 et seq.), and the Department rules. If subrecipients are successfully administering the program, the Department may offer to renew the contract.

(c) When the Department determines that an organization is not administering the program satisfactorily, corrective actions are taken to remedy the problem. Thereafter, if subrecipient fails to administer the program correctly, the Department reassigns the service area or a portion to another existing subrecipient or conducts solicitation or selection of a new subrecipient in accordance with the Low-Income Home Energy Assistance Act of 1981.

§5.405 Subrecipient Requirements for Appeals Process for Applicants

(a) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) days of the adverse determination. This notification shall include written instructions of the appeals process and specific reasons for the denial by component. The applicant wishing to appeal a decision must provide written notice to subrecipient within 10 days of receipt of the denial notice.

(b) The subrecipient who receives an appeal shall establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their client files.

(c) The subrecipient shall hold the appeal hearing within ten business days after the subrecipient received the appeal request from the applicant.

(d) The subrecipient shall record the hearing.

(e) The hearing shall allow time for a statement by subrecipient staff with knowledge of the case.

(f) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.

(g) Subrecipient shall notify applicant of the decision in writing. The subrecipient shall mail the notification by close of business on the business day following the decision. (1 day turn-around)

(h) If the applicant is not satisfied, they may further appeal the decision in writing to the Department within ten days of notification of an adverse decision.
(i) If client appeals to the Department, the funds should remain encumbered until the Department completes its decision.
(j) The Department may review the recording of the hearing, the committee's decision, and any other relevant information necessary.
(k) The Department appeals committee shall decide the case and forward their recommendation to the Division Director for final concurrence.
(l) The Department will notify all parties in writing of its decision within 30 days of receipt of the appeal.

§5.406 Subrecipient Reporting Requirements

(a) The subrecipient shall electronically submit to the Department a monthly Funding Report of all expenditure of funds, request for advance or reimbursement, and a monthly performance report no later than fifteen (15) days after the end of each month.
(b) The subrecipient shall electronically submit to the Department no later than sixty (60) days after the end of the subrecipient contract term a final expenditure or reimbursement and programmatic report utilizing the Funding Report.
(c) The subrecipient shall submit to the Department no later than sixty (60) days after the end of the contract term an inventory of all vehicles, tools, and equipment with a unit acquisition cost of $5,000 or more and a useful life of more than one year, if purchased in whole or in part with CEAP funds.
(d) The subrecipient shall submit other reports, data, and information on the performance of the CEAP program activities as required by the Department.

§5.407 Subrecipient Requirements for Establishing Priority for Eligible Households and Client Eligibility Criteria

(a) The subrecipients shall set the client income eligibility level at or below 125% of the federal poverty level in effect at the time the client makes an application for services.
(b) Subrecipient shall determine client income. The Department will provide definition of income lists to determine total household income. The lists contain income inclusions and exclusions and are located in Subchapter A, §5.019 Client Income Guidelines
(c) Subrecipients shall base annualized eligibility determinations on household income from the 30 day period prior to the date of application for assistance. Each subrecipient shall document and retain proof of income from all sources for all household members 18 years and older for the entire 30-day period prior to the date of application and multiply by twelve (12) to annualize income.
(d) In the case of migrant, or seasonal workers, or similarly situated workers, a longer period than 30 days may be used for annualizing income.
(e) If proof of income is unavailable, the applicant must complete and sign a Declaration of Income Statement (DIS). In order to use the DIS form, each subrecipient shall develop and implement a written policy and procedure on the use of the DIS form. In developing the policy and procedure, subrecipients shall give consideration to limiting the use of the DIS form to cases where there are serious extenuating circumstances that justify the use

of the form. Such circumstances might include crisis situations such as applicants that are affected by natural disaster which prevents the applicant from obtaining income documentation, applicants that flee a home due to physical abuse, applicants who are unable to locate income documentation of a recently deceased spouse, or whose work is migratory, part-time, temporary, self-employed or seasonal in nature. To ensure limited use, the Department will review the written policy and its use during on-site monitoring visits.

(f) Social security numbers are not required for applicants for CEAP.

(g) Proof of citizenship is not required for CEAP.

(h) The subrecipients shall establish priority criteria to serve persons in households who are particularly vulnerable such as the elderly, persons with disabilities, families with young children, high residential energy users, and households with high energy burden. High residential energy users and households with high energy burden are defined as follows:

> (1) Households with Energy Burden which exceeds the median energy burden of income-eligible households characterized by the Department as experiencing high energy burden. The Department calculates energy burden by dividing home energy costs by the household’s gross income.
>
> (2) Households with annual energy expenditures which exceed the median home expenditures for income-eligible households are characterized by the Department as high energy consumers.

(i) Homeowners and renters will be treated equitably under all programs funded in whole or in part from LIHEAP funds. For those renters who pay heating and/or cooling bills as part of their rent, the subrecipient shall make special efforts to determine the portion of the rent that constitutes the fuel heating and/or cooling payment. If "sub metering" is not available, the subrecipient shall exercise care when negotiating with the landlords so the cost of utilities quoted is in line with the consumption for similar residents of the community. If the subrecipient pays the landlord, then the landlord shall furnish evidence that he/she has paid the bill and the amount of assistance must be deducted from the rent, if the utility payment is not stated separately from the rent. An agreement stating the terms of the payment negotiations must be signed by the landlord.

(j) A household unit cannot be served, if the meter is utilized by another household.

§5.408 Service Delivery Plan

Subrecipients are required to submit on an annual basis a Department formatted Service Delivery Plan, which includes information on how they plan to implement CEAP in their service area. Service Delivery Plan format can be found on the Department’s website.

§5.421 Client Education

The subrecipients must provide an energy-related needs assessment and referrals, budget counseling, and energy conservation education to each CEAP client. Subrecipients may provide education to identify energy waste, manage household energy use, and strategies to promote energy savings. Subrecipients are encouraged to use oral, written, and visual educational materials.

§5.422 General Assistance and Benefit Levels

(a) Subrecipients shall not discourage anyone from applying for CEAP assistance. Subrecipients shall provide all potential clients with opportunity to apply for LIHEAP programs.

(b) CEAP provides assistance to targeted beneficiaries being households with low incomes at or below 125% of the Federal Poverty Level, with priority given to the elderly, persons with disabilities, families with young children; households with the highest energy costs or needs in relation to income, and households with high energy consumption.

(c) CEAP includes activities, as defined in Assurances 1-16 in the LIHEAP Statute Section 2605 or 42 U.S.C. §8624 (b); education; and financial assistance to help very low- and extremely low-income consumers reduce their utility bills to an affordable level. CEAP services include utility payment assistance; heating and cooling system replacement, repair, and/or retrofit; energy education; and budget counseling.

(d) Sliding scale benefit for all CEAP components:

  (1) Benefit determinations are based on the household's income, the household size, the energy cost and/or the need of the household, and the availability of funds.

  (2) Energy assistance benefit determinations will use the following sliding scale (Except Heating and Cooling System Replacement, Repair and/or Retrofit Component):

    (A) households with Incomes of 0 to 50% of Federal Poverty Guidelines may receive an amount needed to address their energy payment shortfall not to exceed $1,200.

    (B) Households with Incomes of 51% to 75% of Federal Poverty Guidelines may receive an amount needed to address their energy payment shortfall not to exceed $1,100.

    (C) Households with Incomes of 76% to 125% of Federal Poverty Guidelines may receive an amount needed to address their energy payment shortfall not to exceed $1,000.

    (D) The Heating and Cooling System Replacement, Repair, and/or Retrofit Component maximum household benefit limit is $4,000.

(e) Subrecipient shall not establish lower local limits of assistance for any component.

(f) Total maximum possible annual household benefit (all components combined) =$8~~7~~,600.)

(g) Subrecipient shall determine client eligibility for utility payments and/or retrofit based on the agency's household priority rating system and household's income as a percent of poverty.

(h) Subrecipients shall provide only the following types of assistance with funds from CEAP:

  (1) Payment to vendors and suppliers of fuel/utilities, goods, and other services, such as electrical wiring, butane tanks, and lines, etc. for past due or current bills related to the procurement of energy for heating and cooling needs of the residence, not to include security lights and other items unrelated to energy assistance.

(2) Payment to vendors--only one energy bill payment per month as required by component.

(3) Needs assessment and energy conservation tips, coordination of resources, and referrals to other programs.

(4) Energy assistance to low-income elderly and disabled individuals most vulnerable to high cost of energy for heating and cooling needs of the residence.

(5) Payment of water bills only when such costs include expenses from operating an evaporative water cooler unit or when the water bill is an inseparable part of a utility bill. As a part of the intake process, outreach, and coordination, the subrecipient shall confirm that a client owns an operational evaporative cooler and has used it to cool the dwelling within sixty (60) days prior to application. Payment of other utility charges such as wastewater and waste removal are allowable only if these charges are an inseparable part of a utility bill. Documentation from vendor is required. Whenever possible, subrecipient shall negotiate with the utility providers to pay only the "home energy"--heating and cooling--portion of the bill.

(6) Energy bills already paid by householders may not be reimbursed by the program.

(7) Payment of reconnection fees in line with the registered tariff filed with the Public Utility Commission and/or Texas Railroad Commission. Payment cannot exceed that stated tariff cost. Subrecipient shall negotiate to reduce the costs to cover the actual labor and material and to ensure that the utility does not assess a penalty for delinquency in payments.

(8) Payment of security deposits only when state law requires such a payment, or if the Public Utility Commission or Texas Railroad Commission has listed such a payment as an approved cost, and where required by law, tariff, regulation, or a deferred payment agreement includes such a payment. Subrecipients shall not pay such security deposits that the energy provider will eventually return to the client.

(9) While rates and repair charges may vary from vendor to vendor, Subrecipient shall negotiate for the lowest possible payment. Prior to making any payments to an energy vendor a Subrecipient shall have a signed vendor agreement on file from the energy vendor receiving direct LIHEAP payments from the Subrecipient.

(10) Subrecipient may make payments to landlords on behalf of eligible renters who pay their utility and/or fuel bills indirectly. Subrecipient shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification. Subrecipient shall maintain proof of utility or fuel bill payment. Subrecipient shall ensure that amount of assistance paid on behalf of client is deducted from client's rent.

(11) In lieu of deposit required by an energy vendor, Subrecipient may make advance payments. The Department does not allow LIHEAP expenditures to pay deposits, except as noted in paragraph (7) of this subsection. Advance payments may not exceed an estimated two months' billings.

(i) Funds for the Texas CEAP shall not be used to weatherize dwelling units, for medicine, food, transportation assistance (i.e., vehicle fuel), income assistance, or to pay for penalties or fines assessed to clients

§5.423 Energy Crisis Component

(a) A bona fide energy crisis exists when extraordinary events or situations resulting from extreme weather conditions and/or fuel supply shortages or a terrorist attack have depleted or will deplete household financial resources and/or have created problems in meeting basic household expenses, particularly bills for energy so as to constitute a threat to the well-being of the household, particularly the elderly, the disabled, or children age 5 and younger. ~~very young children.~~

(b) A utility disconnection notice may constitute an energy crisis, if client demonstrates a history of good faith in paying prior utility bills.

(c) Energy Crisis assistance for one household cannot exceed the maximum allowable benefit level in one year. Crisis assistance payments cannot exceed the minimum amount needed to resolve the crisis. If the client's crisis requires more than the household limit to resolve, it exceeds the scope of this program. If crisis exceeds the household limit, subrecipient may pay up to the household limit but the rest of the bill will have to be paid from other funds to resolve the crisis. Payments may not exceed client's actual utility bill. The assistance must result in resolution of the crisis.

(d) Where necessary to prevent undue hardships from a qualified energy crisis, subrecipients may directly issue vouchers to provide:

(1) Temporary shelter not to exceed the annual household expenditure limit for the duration of the contract period in the limited instances that inoperable heating/cooling appliances or supply of power to the dwelling is disrupted--causing temporary evacuation.

(2) Emergency deliveries of fuel up to 100 gallons per crisis per household, at the prevailing price. This benefit may include coverage for safety precautions--up to the maximum household benefit.

(3) Purchase of portable heating/cooling units (portable electric heaters are allowable only as a last resort) not to exceed household benefit limit during the contract period. Portable air conditioning and heating units may be purchased only in situations that threaten the life of the client.

(4) Subrecipient shall meet local energy crisis criteria prior to purchasing portable units for clients.

(5) Subrecipient shall maintain in the client file documentation of any special situation affecting client eligibility. For a client to qualify to receive a portable air conditioner or heater to protect life of household occupants, the subrecipient's client file must contain documentation from a medical professional, stating that a health condition of household occupant requires such climate control. A doctor’s statement or prior written approval from the Department is required.

(6) Portable heating/cooling units must meet Energy Star® or International Residential Code (IRC) compliant.

(e) Crisis funds, whether for emergency fuel deliveries, purchase of portable heating/cooling units, or temporary shelter, shall be considered part of the total maximum household allowable assistance.

(f) When natural disasters result in energy supply shortages or other energy-related emergencies, LIHEAP will allow home energy related expenditures for the following:

(1) Costs to temporarily shelter or house individuals in hotels, apartments or other living situations in which homes have been destroyed or damaged, i.e., placing people in settings to preserve health and safety and to move them away from the crisis situation;
(2) Costs for transportation (such as cars, shuttles, buses) to move individuals away from the crisis area to shelters, when health and safety is endangered by loss of access to heating or cooling;
(3) Utility reconnection costs;
(4) Repair or replacement costs for furnaces and air conditioners;
(5) Insulation repair;
(6) Coats and blankets, as tangible benefits to keep individuals warm;
(7) Crisis payments for utilities and utility deposits; and
(8) Purchase of fans, air conditioners and generators.

(g) Time Limits for Assistance – Subrecipients ensure that for clients who have already lost service or are in immediate danger of losing service, some form of assistance to resolve the energy crisis shall be provided within a 48 hour time limit (18 hours in life-threatening situations). The time limit commences upon completion of the application process. The application process is considered to be complete when an agency representative accepts an application and completes the eligibility process.

(h) Subrecipients maintain written documentation in client files showing crises resolved within appropriate timeframes. The Department disallows improperly documented expenditures.

§5.424 Co-Payment Component

(a) Subrecipients use home energy payments, energy conservation tips, participation by utilities, and coordination with other services to assist low-income households to reduce their home energy needs.

(b) Subrecipients make payments directly to vendors on behalf of participating households. Participating households make co-payments while participating in the program.

(c) Subrecipients shall calculate payments based on a sliding scale benefit structure.

(d) First payment of co-payment plan may include 100 percent of a utility bill--including arrears--or an appropriate percentage determined by the subrecipient as detailed in the Service Delivery Plan.

(e) A household's participation in the program may last from three to twelve months. Early termination may result if client fails to meet the provisions of the client service agreement.

(f) If a co-payment client's assistance period extends beyond the end of a program year, that client must re-apply for eligibility certification to continue receiving assistance.

(g) Subrecipient shall provide energy conservation education and referrals.

§5.425 Elderly and Disabled Component

(a) Elderly households include at least one member age 60 or above. Disabled households include at least one member living with a disability. Documentation of disability, (i.e. Social Security, Supplemental Security Income statement, doctor's letter) kept in client file will validate eligibility.
(b) Subrecipients make utility payments on behalf of elderly and disabled persons based on the previous 12 month's home energy consumption history, including allowances for cost inflation. In the absence of an available home energy consumption history, subrecipient may base payments on current program year's bill. Subrecipients note such exceptions in client files. Benefit amounts exceeding the actual bill shall be treated as a credit with the utility company for the client.
(c) Elderly and/or disabled clients may receive benefits to cover up to 100 percent of the four highest remaining bills within the contract year as long as the cost does not exceed the maximum annual benefit.
(d) The Department requires Subrecipients to expend a minimum of ten percent of their Direct Service funds in the Elderly/Disabled Component.

§5.426 Heating and Cooling Component

(a) The priority factors other than income eligibility for heating/cooling assistance include the degree of energy burden and household needs. Equipment replacement or repair under this component must reduce energy consumption and energy burden. "Household energy need" takes into account the unique situation of such household that results from having members of vulnerable populations, including children age 5 and younger~~under the age of six~~, disabled individuals, and older individuals. The Department defines the household's energy need as the requirement for energy used to heat and/or cool the dwelling unit, as well as energy required to heat water and refrigerate food.
(b) Equipment repair and replacement targets households with high energy burden, or equipment unsafe or inadequate to protect occupants from extreme temperatures. This component reduces clients' energy burden by reducing excess demand from inefficient heating and cooling appliances. Questionably high energy bills during the heating or cooling season may indicate the need for an assessment of the condition of all major heating and cooling appliances in the client's home. An energy assessment of the home demonstrates whether or not the expected savings from repair or replacement of equipment will exceed the cost and will reduce energy consumption. Appliances consuming the most energy receive highest priority. Estimated repair cost exceeding 60 percent of estimated replacement cost justifies replacement.
(c) Subrecipients must conduct whole house assessments on all eligible heating and cooling appliances. Subrecipients must incorporate the appliance replacement protocols and tools available on the Department website, for window units, water heaters, and refrigerators on all applicable appliances in the household. Printed results from the use of these tools must be placed in the client files and be available for review
(d) Household appliances assessed for condition (health and safety) and efficiency may include any home heating or cooling appliances and propane tanks. The Program allows replacement of evaporative coolers with refrigerated air only for substantiated medical reasons. Subrecipients shall replace appliances with Energy Star® rated equipment or IRC compliant appliances.

(e) Acceptable assessments for appliances under consideration for repair, replacement or retrofit with CEAP funds may be considered valid for one (1) year from the date of assessment. While subrecipients must re-certify income eligibility, the previously obtained assessment would remain valid. Should it appear that appliances previously assessed that did not require repair, replacement, or retrofit at the time of the assessment had deteriorated, a new assessment could be performed on only the applicable appliances.
(f) Households that contain both evaporative coolers and refrigerated air must be assessed in order to make the household most energy efficient. When both units need replacement consideration must be based on what is most energy efficient. Special consideration may be given to climate area and medical need. Without medical documentation a waiver may be granted by the Department.
(g) Heating and cooling assessments may be charged to the Heating and Cooling Component on a per household basis. If the assessment cost is charged to the Heating and Cooling Component, the cost must be counted toward the household benefit of $5~~4~~,000.
(h) All replacement units must meet Energy Star or IRC compliant and must result in energy savings for the client. Heating and cooling funds may pay for zoning off a room in which the client spends a majority of time at home, incidental to the above improvements, if necessary to conserve conditioned air. In order to use heating and cooling funds for a room zone-off, the household must also be receiving a repair, replacement, or retrofit of a space heating or cooling unit.
(i) This component may be used to purchase, lease, or repair butane or propane tanks as well as the residential lines associated with the tanks or natural gas lines of the dwelling not to exceed the household's maximum allowable assistance and only if such service ensures the flow of energy necessary for heating and or cooling the household.
(j) This component may be used to purchase or repair of residential electric lines, not to exceed household's maximum allowable assistance and only if such service ensures the flow of energy necessary for heating and cooling the household.
(k) The Department requires Subrecipients to expend a minimum of ten percent of their Direct Service funds in the Heating and Cooling Component.

§5.430 Allowable Subrecipient Administrative, Assurance 16 Activities, and Direct Services Support Expenditures

(a) Allowable Administrative Costs for administrative activities may include planning, budgeting and accounting; establishing and directing policies, goals, and objectives, not unique to the mission and goals of LIHEAP. Subrecipients earn administrative budget share based on expenditure of direct services funds. The Department calculates funds available for subrecipient administrative activities as a percentage of Direct Services expenditures.
(b) Allowable Assurance 16 Activities costs may include services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors.
(c) Allowable Expenditures under Direct Services Support may include client intake, salaries, fringe benefits, and travel expenditures of staff when conducting outreach to

eligible households; material and printing costs associated with outreach and targeting to eligible households.
(d) Direct Services Support and Assurance 16 Activities do not include computer purchases and related costs. These belong to Administration. Time/Expenditure Allocation for subrecipients shall demonstrate and document that they separately allocated the appropriate share of Direct Services Support/Assurance 16 Activities time and expenditures to both outreach and targeting.
(e) The Department and its subrecipients use the Uniform Grant Management Standards, OMB Circular A-87 for local governments or OMB Circular A-122 for non-profits for determination of allowable and allocable costs.
(f) To ensure fiscal compliance for this program, the Department may at the minimum use the following fiscal controls:

- (1) review annual audits;
- (2) monitor fiscal records; and
- (3) review Monthly Expenditure and Performance Reports.

(g) The Department staff may monitor LIHEAP programs through monthly performance reports and periodic on-site visits using a standard monitoring instrument (copy available on the Department's website) for each program, designed to identify the agency's strengths and weaknesses. A risk assessment process will guide scheduling of visits to ensure that agencies ranking highest in risk will be monitored first.
(h) The Department and its subrecipients shall cooperate in all audits and maintain records in acceptable format for audit purposes and will cooperate with any state or federal investigations.

§5.431 Payments to Subcontractors and Vendors

(a) A Department approved bi-annual vendor agreement, is required to be implemented by the subrecipient and shall contain assurances as to fair billing practices, delivery procedures, and pricing procedures for business transactions involving LIHEAP recipients. These agreements are subject to monitoring procedures performed by the Department staff.
(b) Subrecipient shall maintain proof of payment to subcontractors and vendors as required by OMB Circulars.
(c) The subrecipients shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification.
(d) The vendor payment method will be used by subrecipients for CEAP components. Subrecipient shall not make cash payments directly to eligible household for any of the CEAP components.

§5.432 Outreach, Accessibility, and Coordination

(a) The Department may continue to develop interagency collaborations with other low-income program offices and energy providers to perform outreach to targeted groups.
(b) Subrecipients shall conduct outreach activities.
(c) Subrecipients shall accept applications at sites that are geographically accessible to all households requesting assistance.

(d) Outreach activities may include:

- (1) providing information through home visits, site visits, group meetings, or by telephone for disabled low-income persons;
- (2) distributing posters/flyers and other informational materials at local and county social service agencies, offices of aging, Social Security offices, etc.;
- (3) providing information on the program and eligibility criteria in articles in local newspapers or broadcast media announcements;
- (4) coordinating with other low-income services to provide LIHEAP information in conjunction with other programs;
- (5) providing information on one-to-one basis for applicants in need of translation or interpretation assistance;
- (6) providing LIHEAP applications, forms, and energy education materials in English and/or Spanish (or other appropriate language);
- (7) working with energy vendors in identifying potential applicants;
- (8) assisting applicants to gather needed documentation; and
- (9) mailing information and applications.

(e) Subrecipients shall coordinate with other social service agencies through cooperative agreements to provide services to client households. Cooperative agreements must clarify procedures, roles, and responsibilities of all involved entities.

(f) Subrecipients shall coordinate with other energy related programs. Specifically, subrecipient shall make documented referrals to the local WAP subrecipient.

(g) Subrecipients shall coordinate with local energy vendors to arrange for arrearage reduction, reasonably reduced payment schedules, or cost reductions.

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5 COMMUNITY AFFAIRS DIVISION

SUBCHAPTER E. WEATHERIZATION ASSISTANCE PROGRAM (WAP)

GENERAL WEATHERIZATION ASSISTANCE PROGRAM (General-WAP)
10 TAC §5.501-§5.508, 5.521 – 5.532

§5.501 Background

The Weatherization Assistance Program was established by the Energy Conservation in Existing Buildings Act of 1976, as amended 42 U.S.C. 6851 et seq. The Department funds the Weatherization Programs through the Department of Energy Weatherization Assistance Program (DOE-WAP) which is funded through the U.S. Department of Energy Weatherization Assistance Program for Low Income Persons grant and the Low Income Home Energy Assistance Program Weatherization Assistance Program (LIHEAP-WAP) which is funded through the U.S. Department of Health and Human Services' Low-Income Home Energy Assistance Program (LIHEAP) grant.

§5.502 Purpose and Goals

(a) DOE-WAP and LIHEAP-WAP offers grants to community action agencies, nonprofits, and units of local government with targeted beneficiaries being households with low incomes, with priority given to the elderly; persons with disabilities; families with young children; households with the highest energy costs or needs in relation to income; and households with high energy consumption. In addition to meeting the income-eligibility criteria, the weatherization measures to be installed must meet specific energy-savings goals.

(b) The programs fund the installation of weatherization materials and provide energy conservation education. The program helps to control energy costs to ensure a healthy and safe living environment.

(c) The Department shall administer and implement the DOE-WAP program in accordance with DOE rules (10 CFR 440). The Department shall administer and implement the LIHEAP-WAP program in accordance with a combination of LIHEAP and DOE rules. LIHEAP weatherization measures may be leveraged with DOE weatherization measures.

§5.503 Distribution of WAP Funds

(a) The Department distributes funds to subrecipients by an allocation formula.
(b) The allocation formula allocates funds based on the number of low-income households in a service area and takes into account the special needs of individual service areas. The need for energy assistance in an area is addressed through a weather factor (based on heating and cooling degree days). The extra expense in delivering services in sparsely populated areas is addressed by an inverse population density factor. The lack of additional services available in very poor counties is addressed by a county median income factor. Finally, the elderly are given priority by giving greater weight to this population. The five factors used in the formula are calculated as follows:

(1) County Non-elderly Poverty Household Factor is defined as the number of Non-elderly Poverty Households in the County divided by the number of Non-elderly Poverty Households in the State.

(2) County Elderly Poverty Household Factor is defined as the number of Elderly Poverty Households in the County divided by the number of Elderly Poverty Households in the State.

(3) County Inverse Poverty Household Density Factor is defined as:

(A) The number of Square Miles of the County divided by the number of Poverty Households of the County (equals the Inverse Poverty Household Density of the County); and

(B) Inverse Poverty Household Density of the County divided by the Sum of Inverse Household Densities.

(4) County Median Income Variance Factor is defined as:

(A) State Median Income minus the County Median Income (equals County Variance); and

(B) County Variance divided by sum of the State County Variances;

(5) County Weather Factor is defined as:

(A) County Heating Degree Days plus the County Cooling Degree Days, multiplied by the Poverty Households, divided by the sum of County

Heating & Cooling Degree Days of Counties (equals County Weather); and
(B) County Weather divided by the total sum of the State County Weather.
(C) The five factors carry the following weights in the allocation formula: number of non-elderly poverty households (40 percent), number of poverty households with at least one member who is 65 years of age or older (40 percent), household density as an inverse ratio (5 percent), the median income of the county (5 percent), and a weather factor based on Heating Degree Days and Cooling Degree Days (10 percent). All demographic factors are based on the 2000 U.S. Census. The formula is as follows:

(1) County Non-elderly Poverty Household Factor (0.40) plus;
(2) County Elderly Poverty Household Factor (0.40) plus;
(3) County Inverse Poverty Household Density Factor (0.05) plus;
(4) County Median Income Variance Factor (0.05) plus;
(5) County Weather Factor (0.10);
(6) Total sum of paragraph (1)-(5) of this subsection multiplied by total funds allocation equals the County's allocation of funds.
(7) The sum of the county allocation within each subrecipient service area equals the subrecipient's total allocation of funds.

§5.504 Subrecipient Eligibility

(a) The Department administers the DOE-WAP program through subrecipients in accordance with 10 CFR §440.15 and State rules.
(b)The Department administers the LIHEAP-WAP program through subrecipients in accordance with the Economic Opportunity Act of 1964, the Low-Income Home Energy Assistance Act of 1981 as amended (42 U.S.C. §6861 et seq.), and in accordance with 10 CFR §440.15 and State rules.

§5.505 Subrecipient Requirements for Appeals Process for Applicants

(a) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) days of the adverse determination. If the denial is for any reason other than DOE reweatherization, as specified in 10 CFR 440, the subrecipient will notify the applicant of the adverse determination. This notification shall include written instructions of the appeals process and specific reasons for the denial. The applicants wishing to appeal a decision must provide written notice to subrecipient within 10 days of receipt of the denial notice.
(b) The subrecipient who receives an appeal shall establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their client files.
(c) The subrecipient shall hold the appeal hearing within ten business days after the subrecipient received the appeal request from the applicant.
(d) The subrecipient shall record the hearing.

(e) The hearing shall allow time for a statement by subrecipient staff with knowledge of the case.
(f) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.
(g) Subrecipient shall notify applicant of the decision in writing. The subrecipient shall mail the notification by close of business on the business day following the decision. (1 day turn-around)
(h) If the applicant is not satisfied, they may further appeal the decision in writing to the Department within ten days of notification of an adverse decision.
(i) If client appeals to the Department, the subrecipient must retain the maximum allowable cost per unit until the Department renders a decision.
(j) The Department may review the recording of the hearing, the committee's decision, and any other relevant information necessary.
(k) The Department appeals committee shall decide the case and forward their recommendation to the Division Director for final concurrence.
(l) The Department will notify all parties in writing of its decision within 30 days of receipt of the appeal.

§5.506 Subrecipient Reporting Requirements

(a) The subrecipient shall electronically submit to the Department a monthly Funding Report of all expenditure of funds, request for advance or reimbursement, and a monthly performance report no later than fifteen (15) days after the end of each month.
(b) The subrecipient shall electronically submit to the Department no later than sixty (60) days after the end of the subrecipient contract term a final expenditure or reimbursement and programmatic report utilizing the Funding Report.
(c) The subrecipient shall submit to the Department no later than sixty (60) days after the end of the contract term an inventory of all vehicles, tools, and equipment with a unit acquisition cost of $5,000 or more and a useful life of more than one year, if purchased in whole or in part with DOE and LIHEAP-WAP funds.
(d) The subrecipient shall submit other reports, data, and information on the performance of the DOE and LIHEAP-WAP program activities as required by DOE pursuant to 10 CFR §440.25 or by the Department.

§5.507 Subrecipient Requirements for Establishing Priority for Eligible Households and Client Eligibility Criteria

(a) Dwelling units that contain household members who receive SSDI only are not automatically eligible.
(b) The subrecipients shall establish eligibility and priorities criteria to increase the energy efficiency of dwellings owned or occupied by low-income persons who are particularly vulnerable such as the elderly, persons with disabilities, families with young children, high residential energy users, and households with high energy burden. High residential energy users and households with high energy burden are defined as follows:

(1) Households with Energy Burden which exceeds 11% of gross income are characterized by the Department as high energy burden households. The

Department calculates energy burden by dividing home energy costs by the household's gross income.

(2) Households with energy expenditures which exceed $1000 of energy expenditures per year are characterized by the Department as high energy consumers.

(c) The subrecipients shall follow the Department rules and established state and federal guidelines for determining eligibility for multifamily dwelling units as referenced in §5.527 of this subchapter.

(d) To determine income eligibility for program services, subrecipients must base annualized eligibility determinations on household income from 30 days prior to the date of application for assistance. Each subrecipient must document income from all sources for all household members for the entire 30 day period prior to the date of application and multiply by twelve (12) to annualize income. Income documentation must be collected from all income sources for all household members 18 years and older for the entire 30 day period

(e) In the case of migrant, seasonal, part-time, temporary, or self-employed workers a longer period than 30 days may be used for annualizing income. However, the same method must be used for all similarly situated workers.

(f) If proof of income is unavailable, the applicant must complete and sign a Declaration of Income Statement (DIS). In order to use the DIS form, each subrecipient shall develop and implement a written policy and procedure on the use of the DIS form. In developing the policy and procedure, subrecipients shall give consideration to limiting the use of the DIS form to cases where there are serious extenuating circumstances that justify the use of the form. Such circumstances might include crisis situations such as applicants that are affected by natural disaster which prevents the applicant from obtaining income documentation, applicants that flee a home due to physical abuse, applicants who are unable to locate income documentation of a recently deceased spouse, or whose work is migratory or seasonal in nature. The Department will review the written policy and its use during on-site monitoring visits.

(g) Subrecipient shall determine applicant income. The Department will provide definition of income lists to determine total household income. The lists contain income inclusions and exclusions and are located in Subchapter A, §5.019 Client Income Guidelines.

(h) Social Security numbers are not required for applicants.

§5.508 Liability Insurance

(a) All subrecipient weatherization work shall be covered by general liability. Pollution Occurrence Insurance shall be a part of, or an addendum to, the general liability insurance policy. The Department includes funds in the DOE-WAP subrecipient budgets for the subrecipients to purchase liability insurance and pollution occurrence insurance as required for all units to be weatherized, including LIHEAP-WAP units.

(b) Subrecipients shall review and maintain their existing policies at least as frequently as contracts are awarded, to ensure that they and their subcontractors have adequate insurance coverage for all units to be weatherized.

§5.521 Client Education

The subrecipients shall provide client education to each WAP client on energy conservation practices. Subrecipients shall provide education to identify energy waste, manage household energy use, and strategies to promote energy savings. Subrecipients are encouraged to use oral, written, and visual educational materials. These activities are paid with the Department's training and technical assistance funds and the subrecipients' program support funds.

§5.522 Mold Work Practices

(a) The Department may provide mold work practices training methodology to all subrecipients.
(b) The Department may provide mold work practices to new subrecipient hires on an on-going basis.
(c) The subrecipients shall be responsible for providing the training to their weatherization subcontractors.

§5.523 Mold Conditions

(a) If the subrecipient's energy auditor discovers a mold condition which the weatherization subcontractor cannot adequately address, then the unit shall be referred to the appropriate public agency for remedial action.
(b) The subrecipient shall provide the applicant written notification that their home cannot, at this time, be weatherized and why. They should also be informed of which agency they should contact to report the mold condition. The applicant should be advised that when the mold issue is resolved they may reapply for weatherization.
(c) If the energy auditor determines that the mold is treatable and covers less than the 25 contiguous square feet limit allowed to be addressed by the Department of State Health Services' guidelines, the subrecipient shall notify the applicant of the existence of the mold and potential health hazards, the proposed action to eliminate the mold, and that no guarantee is offered that the mold will be eliminated and that the mold may return. The auditor must obtain written approval from the applicant to proceed with the weatherization work.

§5.524 Lead Safe Work Practices

Subrecipients will require and document that their subcontractors have received~~Subrecipients must provide a one-day~~ Lead Safe Weatherization (LSW) training, an LSW Manual, and an LSW Jobsite Handbook prior to commencement of weatherization work.~~ to their subcontractors~~. Subrecipients must obtain a signed Worker Verification of LSW Training form from the subcontractor indicating that the contractor received the LSW training, manual, and jobsite handbook. Subcontractors must follow Lead Safe Weatherization Work Practices as outlined by the U.S. Department of Energy.

§5.525 Eligibility for Multifamily Dwelling Units

(a) The eligibility of dwelling units for WAP services can be found in 10 CFR Part §440.22.
(b) A multi family building is defined by DOE as a group of dwellings under the same roof.
(c) In order to weatherize large multifamily buildings containing twenty-five or more dwelling units or those with shared central heating (i.e. boilers) and/or shared cooling plants (i.e. cooling towers that use water as the coolant) regardless of the number of dwelling units, subrecipients shall submit in writing a request for approval from the Department. When necessary, the Department will seek approval from DOE. Approvals from DOE must be received prior to the installation of any weatherization measures in this type of structure.
(d) In order to weatherize shelters, subrecipients shall submit a written request for approval from the Department. Approvals from the Department must be received prior to the installation of any weatherization measures
(e) If roof replacement is to be considered as part of repair cost under the weatherization process, the expenses must be shared equally by all eligible units weatherized under the same roof. If multiple storied buildings are weatherized, eligible ground floor units must be allocated a portion of the roof cost as well as the eligible top floor units. All weatherization measures installed in multifamily units must meet the standards set in 10 CFR §440.18(c)(9) and §(15) and Appendix A--Standards for Weatherization Materials, and meet a savings-to-investment ratio of one or greater on the Energy Audit. DOE specifically addresses the eligibility of multifamily units in 10 CFR §440.22 (a)-(d).
(f) WAP subrecipients shall establish a multifamily master file for each multifamily project in addition to the individual unit requirements found in the record keeping requirement section of the contract. Subrecipients shall maintain a multifamily master file for each complex weatherized. The multifamily master file must include, at a minimum, the following forms: (forms available on the Departments website)

(1) Multifamily Pre-Project Checklist Form;
(2) Multifamily Post-Project Checklist Form;
(3) Permission to Perform an Assessment for Multifamily Project Form;
(4) Landlord Agreement Form;
(5) Landlord Financial Participation Form; and
(6) Significant Data Required in all Multifamily Projects.

§5.526 Energy Audit

The Department has developed an Energy Audit for the State of Texas Weatherization Assistance Programs. Weatherization subrecipients are required to complete the audit prior to commencing weatherization work.

§5.527 Energy Audit Procedures

(a) Savings-to-Investment Ratio (SIR) for the energy audit procedures will determine the installation of allowable weatherization measures. The weatherization measures must result in energy cost savings over the lifetime of the measure(s), discounted to present value, that equal or exceed the cost of materials, and installation.

(b) The Energy Audit has not been approved for multi-family buildings containing 25 or more units. Since Texas subrecipients rarely propose to weatherize a building with 25 or more units, the Department will acquire a DOE approved energy audit for use in auditing multi-family buildings containing 25 or more units.
(c)Energy Auditors must use the established R-values for existing measures provided in the International Energy Conservation Code (IECC) when entering data into the Energy Audit. Subrecipients must follow minimum requirements set in the State of Texas adopted International Residential Code (IRC) or jurisdictions authorized by State law to adopt later editions.
(d) All materials and labor measures must be entered into the Audit.

§5.528 Health and Safety

Health and Safety funds will have a maximum of 2~~1~~0% of the Materials, Labor and Program Support budgets.
(a) Subrecipients shall provide weatherization services with the primary goal of energy efficiency. The Department considers establishing a healthy and safe home environment to be important to ensuring that energy savings result from weatherization work.
(b) If health and safety issues identified on an individual unit (which would be exacerbated by any weatherization work performed) cannot be abated within the allowable WAP limits, the unit exceeds the scope of this program.
(c) Subrecipients must test for high carbon monoxide levels and bring carbon monoxide levels to acceptable levels before weatherization work can start. The Department has defined maximum acceptable CO readings as follows:

(1) 25 parts per million for cook stove burners and unvented space heaters
(2) 100 parts per million for vented combustion appliance
(3) 150 parts per million for cook stove ovens

§5.529 Whole House Assessment

Subrecipients must conduct a whole house assessment on all eligible units. All allowable weatherization measures needed must be entered into the Energy Audit. Measures will be performed in order of highest SIR to lowest depending on funds available.

§5.530 Blower Door Standards

Subrecipients are required use the blower door data form adopted by the Department and available on the Department’s website (www.tdhca.state.tx.us)

§5.531 Training and Technical Assistance

Upon the hiring of a new Weatherization Coordinator, the subrecipient is required to contact the Department with written notification within thirty (30) days of the hiring and request training and technical assistance.

§5.532 Training Funds for Conferences

The Department provides financial assistance to subrecipients for training and technical activities for State sponsored, ~~and~~ DOE sponsored and other relevant workshops and conferences. Subrecipients may use WAP training funds to attend conferences provided the conference agenda includes topics directly related to administering WAP. Costs to attend the conference must be prorated by program for the appropriate portion. Only staff actually working on the WAP program may charge any of their travel costs to the program.

PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5 COMMUNITY AFFAIRS DIVISION
SUBCHAPTER F. WEATHERIZATION ASSISTANCE PROGRAM (WAP)
DEPARTMENT OF ENERGY WEATHERIZATION ASSISTANCE PROGRAM (DOE-WAP)
10 TAC §5.601-§5.609

§5.601 DOE Cost Principles and Administrative Requirements
§5.602 WAP Policy Advisory Council (WAP PAC)
§5.603 Adjusted Average Expenditure Per Dwelling Unit
§5.604 Categorically Eligibility Criteria
§5.605 Training and Technical Assistance Carryover Funds
§5.606 Electric Base Load Measures
§5.607 Space Heater Requirements
§5.608 Vehicle Procurement Procedures
§5.609 Grant Guidance on Leasing of Vehicles

§5.601 DOE Cost Principles and Administrative Requirements

In addition to cost principles and administrative requirements listed in Subchapter A ~~§5.00~~**§5.**2, Subrecipients administering DOE programs must also adhere to 10 CFR 440 or DOE WAP rules, 10 CFR 600 and the International Residential Code.

§5.602 WAP Policy Advisory Council (WAP PAC)

(a) In accordance with Texas Government Code §2110.005, the Department shall establish a State policy advisory council, in accordance with 10 CFR §440.17 and Texas Government Code, Chapter 2110, prior to the expenditure of any grant funds.
(b) The policy advisory council shall meet at least once a year to review the program plan and provide advice to the Department and meet as needed throughout the year to provide advice when it is requested.

> (1) The WAP PAC may also meet as necessary in person, by telephone, or via electronic means to provide the Governing Board or Department guidance and advice with respect to the development and implementation of the weatherization assistance program and its activities; and
> (2) The WAP PAC will cause minutes of any meetings or telephone conferences to be taken and forwarded to the Department or Governing Board.

(c) All meetings shall be held in accordance with Texas Government Code Chapter 551.

§5.603 Adjusted Average Expenditure Per Dwelling Unit

Expenditures of financial assistance provided under DOE-WAP funding for the weatherization services for labor, weatherization materials, and related matters shall not exceed the DOE adjusted average expenditure limit for the current program year per dwelling unit as provided by DOE, without special agreement via an approved waiver from the Department.

§5.604 Categorical Eligibility Criteria

A dwelling unit shall be eligible for weatherization assistance if it is occupied by a family unit which contains a current household member who has received TANF or SSI at any time during the twelve month period preceding the determination of eligibility. The eligibility of dwelling units for WAP services can be found in 10 CFR Part §440.22.

§5.605 Training and Technical Assistance Carryover Funds

(a) Training and technical assistance funds, allocation figure as provided by DOE, shall not be used to purchase vehicles or equipment for local agencies to perform weatherization services.

(b) Should unexpended training and technical assistance funds remain at the end of the program year, the Department may require these funds to be used to weatherize homes during the following year.
(c) If the Department determines these funds are needed for training and technical assistance, DOE can waive this provision if necessary. If this is the case, the Department will provide justification to DOE of the necessity to carryover these funds into the new program year and that they be included as a part of the new training and technical assistance budget.

§5.606 Electric Base Load Measures

DOE has approved the inclusion of selected Electric Base Load (EBL) measures (~~§5.00~~§5.3) as part of the weatherization of eligible residential units. EBL measures must be determined cost effective with an SIR of one or greater by either audit analysis or separate DOE approved analytical tools. Refrigerators must be metered for a minimum of two (2) hours.

§5.607 Space Heater Requirements

Subrecipients must follow DOE Weatherization Program Notice 08-4 Space Heater Policy.

§5.608 Vehicle Procurement Procedures

All vehicles considered for purchase with U.S. Department of Energy (DOE) funds must be pre-approved by DOE via correspondence through the Department. Procurement procedures must include provisions for free and open competition. In the event a DOE approved vehicle is stolen or damaged in an accident beyond repair (“totaled”), the replacement vehicle must be approved by DOE via the Department. Any vehicle purchased without approval by DOE will result in disallowed costs.

§5.609 Grant Guidance on Leasing of Vehicles

Subrecipients are not to enter into vehicle lease agreements for vehicles used in the WAP and paid for with WAP funds.

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5 COMMUNITY AFFAIRS DIVISION

SUBCHAPTER G. WEATHERIZATION ASSISTANCE PROGRAM (WAP)

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM WEATHERIZATION ASSISTANCE PROGRAM (LIHEAP-WAP)
10 TAC §5.701-§5.705

§5.701 Allowable Expenditure per Dwelling Unit

Expenditures of financial assistance provided under LIHEAP-WAP funding for the weatherization services for labor, weatherization materials, and related matters shall not exceed the allowable figure as set forth in the annual LIHEAP State Plan. The current allowable amount is set at $4,000 per dwelling unit.

§5.702 Electric Base Load Measures

DOE has approved the inclusion of selected Electric Base Load (EBL) measures as part of the weatherization of eligible residential units. EBL measures will be allowable under the LIHEAP-WAP program. The EBL measures must be determined cost effective with an SIR of one or greater by either audit analysis or separate DOE approved analytical tools. Replacement of refrigerators 1993 or older or metered to have an SIR of one or greater in the Energy Audit or the Department's refrigerator assessment tool is an allowable energy efficiency measure. Refrigerators must be metered for a minimum of 30 minutes. All refrigerators to be replaced must be entered into the Energy Audit under "other measures."

§5.703 Outreach and Accessibility

(a) The Department may continue to develop interagency collaborations with other low-income program offices and energy providers to perform outreach to targeted groups.
(b) Subrecipients shall conduct outreach activities.
(c) Subrecipients and their field offices shall accept applications at sites that are geographically accessible to all households requesting assistance.
(d) Other outreach activities may include:

(1) providing information through home visits, site visits, group meetings, or by telephone for disabled low-income persons;
(2) distributing posters/flyers and other informational materials at local and county social service agencies, offices of aging, social security offices, etc.;
(3) providing information on the program and eligibility criteria in articles in local newspapers or broadcast media announcements;
(4) coordinating with other low-income services to provide LIHEAP information in conjunction with other programs;
(5) providing information on one-to-one basis for applicants in need of translation or interpretation assistance;
(6) providing LIHEAP applications, forms, and energy education materials in English and/or Spanish (or other appropriate language);
(7) working with energy vendors in identifying potential applicants;
(8) assisting applicants to gather needed documentation; and,
(9) mailing information and applications.

§5.704 Energy Repairs

WAP will provide weatherization, energy efficiency, and weatherization repair-related activities to eligible clients. LIHEAP-WAP energy-related repairs identified in this section must be entered into the Energy Audit as a repair measure. The list of allowable LIHEAP-WAP weatherization energy related repairs which may be undertaken when necessary to protect and complete regular energy efficiency weatherization measures include:
(1) roof, wall, and floor repair (excluding leveling);
(2) repair or replacement of essential electrical wiring;
(3) mobile home skirting to protect belly insulation;
(4) overhangs to protect mobile home doors; and
(5) carpentry work to protect outside water heater from the elements.

§5.705 Other Measures

(a) LIHEAP-WAP energy efficiency measures identified in this section must be entered into the Audit as an “other measure.”
(b) Solar screens and window film must be installed in the order West, East, South, and North.
(c) Replacement of refrigerators 1993 or older or that have an SIR of one or greater in Energy Audit or the Department’s refrigerator assessment tool.

TITLE 10. COMMUNITY DEVELOPMENT
PART 1: TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 5: COMMUNITY AFFAIRS DIVISION
SUBCHAPTER H. SECTION 8 HOUSING CHOICE VOUCHER PROGRAM
10 TAC §5.808

§5.808 Project Access Initiative

§5.808 Project Access Initiative

(a) Project Access is a program that utilizes Section 8 Housing Choice Vouchers administered by the Department to assist low-income non-elderly persons with disabilities in transitioning from institutions into the community by providing access to affordable housing.
(b) All Section 8 Program rules and regulations apply to the program.
(c) Project Access Eligibility Criteria. A Project Access voucher recipient must meet all Section 8 eligibility criteria as well as meet all of the following eligibility criteria:

(1) have a permanent disability as defined in §223 of the Social Security Code or be determined to have a physical, mental or emotional disability that is expected to be of long-continued and indefinite duration that impedes one's ability to live independently;
(2) be less than 62 years of age at the time of voucher issuance; and
(3) meet one of the following criteria:
    (A) be an At-Risk Applicant and a previous resident of a nursing facility, intermediate care facility, or board and care facility as defined by HUD; or
    (B) be a current resident of a nursing facility, intermediate care facility, or board and care facility at the time of voucher issuance as defined by HUD.

MULTIFAMILY FINANCE PRODUCTION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion, and Possible Approval for publication in the *Texas Register* of a final order adopting repeal of 10 TAC Chapter 49, concerning 2007 Housing Tax Credit Program Qualified Allocation Plan and Rules, and final order adopting new 10 TAC Chapter 49, concerning 2009 Housing Tax Credit Program Qualified Allocation Plan and Rules.

Requested Action

1. Adoption of Repeal of Title 10 Texas Administrative Code, Part 1, Chapter 49 – 2007 Housing Tax Credit Program Qualified Allocation Plan and Rules
2. Adoption of New Title 10 Texas Administrative Code, Part 1, Chapter 49 – 2009 Housing Tax Credit Program Qualified Allocation Plan and Rules

Background and Recommendations

On September 4, 2008, the Board approved the Draft 2009 Housing Tax Credit Program Qualified Allocation Plan and Rules ("Draft 2009 QAP") to be published in the *Texas Register* and on the Department's website for public comment. Public comment was accepted regarding the Draft 2009 QAP from September 5 to October 20, 2008. In addition to accepting written public comment, the Department held six public hearings throughout the state to solicit additional public comment. All written comment received during the public comment period and during public hearings has been summarized and responded to in the attached document.

Recommendation

1. Adoption of Repeal of Title 10 Texas Administrative Code, Part 1, Chapter 49 – 2007 Housing Tax Credit Program Qualified Allocation Plan and Rules
2. Adoption of Staff's Recommendations for the New Title 10 Texas Administrative Code, Part 1, Chapter 49 – 2009 Final Housing Tax Credit Program Qualified Allocation Plan and Rules

Reasoned Response to Public Comment on the 2009 Draft Qualified Allocation Plan and Rules

The Texas Department of Housing and Community Affairs (the "Department") received the majority of comments to the 2009 Draft Qualified Allocation Plan and Rules (QAP) in writing by email, fax and mail. This document provides the Department's response to all comments received. The comments and responses include both administrative clarifications and corrections made to the QAP by staff, as well as substantive comments on the QAP and the corresponding Departmental response. Comments and responses are presented in the order they appear in the QAP. After each comment title, numbers are shown in parentheses. These numbers refer to the person or entity that made the comment as reflected in the Addendum. If comment resulted in recommended language changes to the Draft QAP as presented to the Board in September, those new language changes are highlighted. Copies of the exact comment letters provided are available on the Department's website.

§49 – General (no specific section of the QAP provided in comment) (19, 21, 23, 26, 27, 28, 29, 32, 33, 35, 40, 41, 46, 50, 52, 53, 54, 56, 58, 66, 67)

Administrative Changes:
Staff has made administrative revisions throughout the QAP to correct spelling, punctuation, numbering and spacing errors; to consistently capitalize defined terms; minor clarification; and to consistently utilize defined terms. In cases where administrative changes propose revisions other than those outlined here, the proposed changes are highlighted in the applicable QAP section.

Comment:
Comment states that the QAP fails to recognize the unique existence of the three Federally Recognized Indian Tribes. Commenter goes on to briefly summarize the history of the self governing Indian Tribes, and also mentions that although the tribes are self governing they do have the right to receive federal assistance. According to the comment Tribes across the country have begun to seek low Income Housing Tax Credits, and the subsequent comments will pertain to their request to include Federally Recognized Indian Tribes in the QAP. (19, 21)
Staff Response:
According to Section 42, Indian Tribes have historically had the ability to apply for tax credits and Section 42(i) specifically references considerations for tax credit buildings receiving Native American Housing Assistance. With the passage of the Housing and Economic Recovery Act of 2008, H.R 3221 (the "Act"), the General Use Provision in IRC §42 was further clarified. The legislation states "A project does not fail to meet the general public use requirement solely because of occupancy restrictions or preferences that favor tenants (A) with special needs (B) who are members of a specified group under a Federal program or State program or policy that supports housing for such a specified group and (C) who are involved in artistic or literary activities." The Department does not explicitly reference Indian Tribes in the QAP because they are not restricted from the program and are eligible to apply under the same requirements of any other applicant. Staff recommends all applications be reviewed individually and on their on merit. Any issues of eligibility, selection or threshold will be considered by the Board individually. No change is recommended.

Comment:
Comment was made asking the Department to include a more detailed Table of Contents and that all sections, subsection numbers and headings be in bold, italics, and/or underlined. Commenter also would like to add spaces between subsections. In regards to the application, comment suggested streamlining the application, including auto-fill capabilities for duplicate information, allowing additional page capability for redundant forms and one certification. (26)(66)

Staff Response:
Staff will make every effort to accommodate the request to make the QAP and Uniform Application Materials more user-friendly.

Comment:
Comment indicated that the current and proposed QAPs fail to remedy the over-concentration and segregation of TDHCA supported projects in the low income and minority concentrated census tracts of the Dallas area. The commenter also noted that the QAP still has not addressed the problem of disproportionately allocating federal low income housing tax credits and tax-exempt bond funds to developments in impacted areas (above average minority concentration and below average income levels). (28)
Staff Response:
The Department has instituted rules that address the issues of concentration and has provided incentives for applicants to consider in site selection. QAP §49.6(f), (g), and (h) provide limitations on the location of developments, and §49.9 (i) (12), (13), (15), (16), (19), and (22) provide incentives for applicants to consider the location of the site when selecting a site for development. The current DRAFT QAP provides the thirty percent increase in eligible basis as incentive to locate Developments in higher income and educational quality. State statutes block building within close distances. Given that the program allows third party developers to choose locations, it would not be feasible to further restrict the Development selection process under state and federal laws.

Comment:
Comment was made, that the Department fails to create standards for its projects that protect against developing in neighborhoods of blight. Commenter continues by stating that the Department does not make projects adjacent to or near environmental factors more costly in threshold criteria, and suggests losing more points for noxious environmental issues. Comment also suggested that tax credit units be subject to site and neighborhood standards. (28)
Staff Response:
The QAP does provide incentive points for locating in locations that would generally not have blight. The Department requires an environmental site assessment (ESA) for all application requesting issuance of housing tax credits or tax-exempt bond financing that addresses environmental concerns on or near the proposed site. The Department requires mitigation for issues addressed in the ESA. No change is recommended.

Comment:
Commenter states that the Department has released a good QAP that Global Green USA supports. Commenter stated that point allocations and language clarity are the two areas they are looking to refine and improve. (53)
Staff Response:
Staff appreciates the assistance provided by Global Green USA. Comment is regarding changes already proposed elsewhere in the QAP. No additional change is recommended.

Comment:
Comment was made supporting the following changes in the 2009 QAP: definitions for single room occupancy and supportive housing; language in proposing at least 50% of Units in supportive housing; and developments provide 10% of the low income units at 30% AMGI as eligible for the 30% increase in eligible basis. Also the commenters applauded the language that encourages additional available units at or below 50%AMGI if an applicant qualifies for points under 49.9(i)(3). (32, 54) Comment was made congratulating TDHCA staff for a draft QAP draft that included some “monumental improvements.” Commenter praised the high-opportunity areas that allow low income housing in better parts of town with better access to good schools and public transportation and also praised the Department for including

"Green Building". Commenter also complimented the supportive housing definitions that were changed. (54)

Staff Response:

Staff appreciates the support of the changes. No further change recommended.

Comment:

Comment was made asking for a definition of Infill Housing. (67)

Staff Response:

Staff agrees with the commenter that there needs to be a clear definition that is accepted by the general public. The proposed reference to infill housing in §49.9(i)(16)(F) has been removed from the Draft QAP at this time and will be researched more thoroughly for future inclusion.

§49.3(1) – Definitions – Adaptive Reuse (66)

Comment:

Comment was made that the Department should clarify that "a clubhouse or nonresidential building can be outside the original footprint and still be considered eligible." (66)

Staff Response:

Staff agrees and proposes the following additional language:

"(1) …If any Units are built outside the original building footprint or foundation, the Development will be considered New Construction. A clubhouse or non-residential building may be outside the original footprint or foundation and still be considered Adaptive Reuse…"

§49.3(14) – Definitions – At-Risk Development (15, 68)

Comment:

Comment was made asking to remove barriers in the state that impede the coupling of funding of Sections 514 and 516 with LIHTC funding. H.R. 3221, the Housing and Economic Recovery Act, clarified that Section 514 and 516 can be used together with tax credits. (15)

Staff Response:

No specific barriers were noted, however the QAP already allows 514 and/or 516 to be utilized with tax credits. The QAP also currently includes reference to 514 and 516 in its definition of an At-Risk Development to help ensure that properties at risk of losing their affordability can compete in a separate set-aside.

Comment:

Comment was made to add a subsection (F) to the definition of At-Risk Development that includes properties deemed by HUD to be obsolete or economically non-viable. (68)

Staff Response:

The definition for an At-Risk Development is statutorily defined in §2306.6702 of the Texas Government Code. The Department does not have the ability to change the definition. No change is recommended.

§49.3(15) – Definitions – Bedroom (32, 49, 52, 54)

Comment:

Comment noted opposition to the language requiring a door on a bedroom as it hinders loft style developments. Specific language, as noted below, was proposed. (32, 49, 52, 54)

Staff Response:

Staff proposes the following definition to address these comments:

> "…is self contained with a door (or the unit is a "loft" design with an open sleeping area of 100 square feet or more)…"

§49.3(23) – Definitions – Community Revitalization Plan (66)

Comment:

Comment noted that not all adoptions of documents are done by ordinance or resolution and suggested this definition: A published document under any name, approved and adopted by the local Governing Body by ordinance, resolution, or vote, that targets specific geographic areas for revitalization and development of residential developments. (66)

Staff Response:

Staff recommends using the proposed definition of Community Revitalization Plan noted above. Staff further suggests the following addition to the requirements of evidence submitted in requests for points under §49.9(i)(13) and (24):

> "Such evidence must include an ordinance, resolution, or otherwise recorded documentation of a vote taken by the local elected Governing Body specifically adopting the Community Revitalization Plan; or…"

§49.3(26) – Definitions – Control (52)

Comment:

Commenter takes issue with reference in the definition of Control that indicates "managing general partners of a limited liability company." Commenter states that Limited liability companies do not have managing General Partners, and suggests replacing with *member.* (52)

Staff Response:

Staff agrees with the Commenter's assertion that Limited Liability Companies do not have managing General Partners and suggests adoption of the Commenter's definition of Control as follows:

> "Control--(including the terms "Controlling," "Controlled by", and/or "under common Control with") the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any Person, whether through the ownership of voting securities, by contract or otherwise, including specifically ownership of more than 50% of the General Partner interest in a limited partnership, or designation as a managing member of a limited liability company."

§49.3(27) – Definitions – Controlling or Managing General Partner (52)

Comment:

Comment was made that the definition now requires ownership of 10 percent or more of the voting stock, and liability for all debts and other obligations of the venture. Commenter suggests that in order to avoid conflict with the definition of "control" in the QAP that the definition be changed as noted below. (52)

Staff Response:

Staff included this proposed definition for clarification however staff believes it needs additional research before it is included in the QAP. Staff recommends striking the proposed definition at this time.

~~"(27) **Controlling or Managing General Partner--**a co-owner of a business who owns, controls, or holds with power to vote, 10% or more of the voting stock; can take actions that are binding on the other partners and, who is liable for all debts and other obligations of the venture as well as for the management and operation of the partnership."~~

§49.3(46) – Definitions – Governing Body (19, 21, 52)

Comment:

Comment was made asking the Department to consider adding this language: "An elected city, county, or tribal entity that is responsible for the creation implementation and/or enforcement of local rules and laws. As recognized by Congress, Federally Recognized Indian Tribes have the authority and are responsible for the creation, implementation and/or enforcement of rules and laws on their lands. As such they should be recognized in TDHCA's definition of Governing Body (19, 21) Comment was made that current definition suggests that the "entity" is elected. Suggests modifying definition as follows; a city or county entity with elected members that is responsible…" (52)

Staff Response:
Staff agrees with the Commenter's assertion and suggests changing the definition of Governing Body to include tribal entities as follows. Staff believes that in this case, "entity" refers to the elected body, i.e. commission or council, and is appropriate language. No change is recommended.

> Governing Body - An elected city, county, <u>or tribal</u> entity that is responsible for the creation implementation and/or enforcement of local rules and laws.

§49.3(47) – Definitions – Governmental Entity (19, 21)
Comment:
Comment was made that Tribal Governments could fall under 'other similar entities' and asked that the QAP provide clarification recognizing that Tribal Governments are elected entities with the power to govern all activities of the Tribe. Commenter would like the word 'tribal' to be added to definition as well. (19, 21)
Staff Response:
Staff suggests the following change "includes federal or state agencies, departments, boards, bureaus, commissions, authorities and political subdivisions, special districts, <u>tribal governments</u> and other similar entities.

§49.3(48) – Definitions – Governmental Instrumentality (19, 21)
Comment:
Commenter would like the word 'tribe' added to the definition. Commenter also states that in order for Tribes to receive funding from the Native American Housing Assistance and Self-Determination Act (NAHASDA) they must establish a Tribally Designated Housing Entity (TDHE). The TDHE is a Governmental Instrumentality of the Tribe, and is authorized to act on behalf of the tribe. Those tribes that doe not have a TDHE simply let the Tribe itself take those responsibilities. (19, 21)
Staff Response:
Staff suggests the following change "a legal entity such as a housing authority of a city or county, a housing finance corporation, a municipal utility, or <u>a tribally designated housing entity</u>, which is created…".

§49.3(51) – Definitions – High Opportunity Area (40, 52)
Comment: The commenter suggests that the definition of High Opportunity be moved to §49.3. (40, 52)
Staff Response:
The QAP currently provides for an explanation elsewhere in the QAP. Staff concurs and recommends creating this as a definition for High Opportunity Area.

> <u>"High Opportunity Area – an area that includes:</u>
>
> <u>(i). existing</u> ~~public transportation or~~ <u>major bus transfer centers and/or regional or local commuter rail transportation stations that are accessible to all residents including Persons with Disabilities; or</u>
>
> <u>(ii). a census tract which has an AMGI that is higher than the AMGI of the county or place in which the census tract is located; or</u>
>
> <u>(iii). a school attendance zone that has an academic rating of "Exemplary" or "Recognized" rating (as determined by the Texas Education Agency) as of the first day of the Application Submission Acceptance Period; or</u>
>
> <u>(iv) a census tract that has no greater than 10% poverty population according to the most recent census data (these census tracts are designated in the 2009 Housing Tax Credit Site Demographic Characteristics Report).</u>

§49.3(58) – Definitions – Ineligible Building Types (15, 46, 49, 52, 58)

Comment:

Comment was made asking the Department to boost flexibility for using tax credits for farm labor housing. Commenter suggests allowing bonus points in the 2009 QAP for farm worker housing development and preservation. (15) Comment requested that the bedroom mix requirement not apply to Adaptive Reuse and suggests the removal of language regarding new construction of nonresidential buildings. (49) Comment was made that the word "either" in the first line of subsection (I) should be deleted. (52) Comment was made asking the Department to allow Single Room Occupancy developments to utilize otherwise ineligible building types. (58) Comment was made asking the Department to waive the maximum number of efficiency units for Single Room Occupancy developments. (58)

Staff Response:

The QAP currently contains scoring items that would benefit the new development and rehabilitation of farm worker housing. The current definition included in the Draft QAP removes developments proposing Adaptive Reuse from the mentioned requirement and removes the language regarding new construction of nonresidential buildings. The definition of Ineligible Building Types allows the use of such buildings if federally permissible and the Application proposes to convert the building to a non-transient multifamily residential development. The current definition included in the Draft QAP excludes developments proposing Single Room Occupancy from the mentioned requirement.

Staff recommends the following wording for subsection (I):

> "Any Development that contains residential Units ~~either designated for a single occupational group, or through a preference for a single occupational group,~~ that violates the general public use requirement under Treasury Regulation §1.42-9."

Comment:

Comment was made asking the Department to include manufactured homes installed in a single family or duplex zoned subdivision as an Eligible Building Type. They should be manufactured in accordance with 24 CFR Chapter XX, Part 3280 *Manufactured Home Construction and Safety standards* (MHCSS), and sited on a permanent foundation, which meets HUD standards. (46)

Staff Response:

The QAP does not have a definition for Eligible Building Types, but rather only notes those building types that are ineligible. In that section, the QAP does not list manufactured homes installed in a single family or duplex zoned subdivision as an ineligible building type. Each submitted development is determined eligible or ineligible based upon the merits of the plan for the development. No change is needed.

§49.3(62) – Definitions – Local Political Subdivision (19, 21)

Comment:

Comment was made asking the Department to include 'tribal reservation' in the definition, for the same reasons as previously mentioned by this commenter. (19, 21)

Staff Response:

Staff agrees with the Commenter's assertion and suggests changing the definition of Local Political Subdivision to include tribal reservation as follows:

> "A county or municipality (city or tribal reservation) in Texas. For purposes of §49.9(i)(5) of this chapter, a local political subdivision may act through a Government Instrumentality such as a housing authority, housing finance corporation, or municipal utility even if the Government Instrumentality's creating statute states that the entity is not itself a "political subdivision.""

§49.3(85) – Definitions – Rehabilitation (27)

Comment:

Comment was made that the current definition of Reconstruction does not take into account the demolition and reconstruction of developments that have subsequent phasing. In order to make an impact in a neighborhood, according to the commenter, they would need to complete the full development, and the language to do so should be included in the Reconstruction definition. Comment was also made in regards to demolishing units, and how there has to be the same amount of units to replace those demolished. They acknowledged that there should not be a negative impact in a neighborhood, but suggested the ability to replace the demolished units with more total units to make such a project financially feasible. Furthermore, they would be willing to provide a market study that will determine if the number of units does not negatively impact the area or region, while still being considered for reconstruction. (27)

Staff Response:

The current Draft QAP does not include a separate definition for reconstruction, as reconstruction is included in the statutory definition of Rehabilitation. Applicants currently have the ability to rehabilitate existing developments in phases. Applicants have the ability to demolish a development and replace the development with a development containing more units. In this instance, the development would be considered New Construction and not Rehabilitation. No change is recommended.

§49.3(93) – Definitions – Single Room Occupancy (52, 58)

Comment:

Comment was made asking to replace "need not" with "may not" (52)

Staff Response:

The current draft QAP includes the definition of Single Room Occupancy. Staff does suggest the following change "A single efficiency unit that contains sanitary facilities but may or may not include food preparation facilities and is intended for occupancy by one person".

Comment:

Comment was made asking the Department to add a clear definition of single room occupancy. (58)

Staff Response:

The current Draft QAP includes a definition of Single Room Occupancy. No further change is recommended.

§49.3(97) – Definitions – Supportive Housing (32, 54, 58)

Comment:

Comment was made suggesting that the QAP use the same definition as that in the Real Estate Analysis Guidelines. (32, 54) Comment was made recommending that the definition of supportive housing be clarified so that the definition, in the QAP and REA Rules, allows supportive housing to be integrated into different types of developments. (58)

Staff Response:

This request relating to integration into different types of developments warrants further research and additional public comment. Staff will consider this in the draft 2010 QAP. Staff recommends the following change to clarify the definition:

> "Supportive Housing: Residential Rental Developments intended for occupancy by individuals or households transitioning from homelessness, at risk of homelessness, or in need of specialized and specific social services~~.", to more stable productive lives by offering residents an array of supportive services.~~

§49.3(103) – Definitions – Unit (49, 52)

Comment:

Comment was made asking the Department to include the definition for "Unit" once again and that it include the language for loft-type developments that provided square footage requirements to be considered a one, two, or three bedroom. (49) Comment also requested that the Unit definition also address the concept of a Single Room Occupancy (SRO) development. (52)

Staff Response:

The definition for Unit is statutorily defined in §2306.6702 and is already included in the QAP. Minimum square footage requirements are included in §49.9(h) of the draft QAP and the QAP now includes a definition for Single Room Occupancy. No further change is recommended.

§49.3(105) – Definitions – Urban Core (23, 27, 29 40, 49, 52, 67)

Comment:

Comment requested a change to the proposed definition of Urban Core that will allow local jurisdiction with mixed zoning classifications a new tool for redevelopment. (23) Comment was also made that as the definition is written, it appears that the final determination of whether a development is in an Urban Core will be made by the municipality in whose jurisdiction the development will be located; the current definition in the QAP is ambiguous and should be refined for clarity. (27) Comment was made that the urban core should be tied to high-opportunity areas with the population of more than 100,000 people. (29) Comment was made suggesting that the definition of Urban Core be simplified and leaves too many variables that will be difficult for developers to understand. It was suggested that the definition for Urban Core tie back to high opportunity areas. (40, 49, 52) Another comment was made asking for a revision of the definition that was not "too narrow" and would not use "commercial zoning" as part of its definition. (67)

Staff Response:

Staff believes that the suggested definition provides objective criteria for determining whether a development is located within an Urban Core. Because Developments located in an Urban Core may receive points under the proposed scoring criteria for the 2009 QAP, staff does not agree with the "designated redevelopment…" part of this definition. This could give these areas an advantage because they would be able to receive points for both "Urban Core" and "Revitalization". Staff believes that an objective determination of whether a development is within an Urban Core will require use of locally determined zones and boundaries. The final determination, however, will be made by the Department. Staff does not agree that the description of a High Opportunity Area adequately captures the intention of the Urban Core definition and should be a separate definition. Staff suggests that the inclusion of commercial zoning is required in order to adequately capture the intention of the Urban Core definition. . Staff recommends the following revised definition:

> Urban Core- A compact and contiguous geographic area that is composed of adjacent block groups in which at least 90 percent of the land not in public ownership is zoned to accommodate a mix of medium or high density residential and commercial uses within the same zoning district.

§49.5(a)(8) Ineligibility (46)

Comment:

Comment was made asking that the 1 mile 3 year rule not prevent subsequent phases of a phased development from starting even when phase 1 is still leasing up. (46)

Staff Response:

The one mile, three year rule is a statutory requirement. Therefore, the Department does not have the ability to eliminate this rule. The statute does provide an exception to the one mile, three-year rule if the applicant submits evidence of a vote by the local Governing Body specifically allowing the development. No change is recommended.

§49.6(c) Scattered Site Limitations (20, 30, 34, 37, 44, 45, 47, 48, 51, 55, 65)
Comment:
Comment was made that if reconstruction is a goal of the Department, which it appears to be with the additional points awarded for reconstruction, then efficient use of land should be promoted by allowing the reconstruction on land sufficient to meet local density requirements for scattered site proposals and not mandate that reconstruction has to occur on every lot. (20, 30, 34, 37, 44, 45, 47, 48, 51, 55, 65)
Staff Response:
The Legislature brought the definition of reconstruction in the definition of rehabilitation and therefore the goal is the replace existing housing units. Given the definition of reconstruction is intended to replace existing housing and not to build additional units that may cause density or zoning issues. A Development is not penalized for adding units; however they are not able to receive points for reconstruction if they add more units than were demolished.
§49.6(d) Credit Amount (20, 24, 25, 26, 28, 30, 34, 35, 37, 40, 44, 45, 47, 48, 49, 51, 52, 55, 65, 67)
Comment:
Comment was made in regards to the $2 million credit limit to any Applicant, Developer, Related Party, or Guarantor. Commenter argues that it is unfair not to prorate the credit amount allocated in all instances based on percentage of ownership or percentage of the developer fee received. This percentage option should not be limited to building capacity for inexperienced developers. Comment also suggests that because executive directors and board members of nonprofits and housing authorities have no ownership and do not receive any of the developer fees, a credit allocation should not be assessed against these individuals. A credit allocation should not apply to a consultant unless the consultant has an ownership interest in the proposed project or will be paid an actual share of the developer fees.” (20, 30, 34, 37, 44, 45, 47, 48, 51, 55, 65)
Staff Response:
The Department’s General Counsel has opined that the statutory $2 million limitation does apply to nonprofit entities, public housing authorities, publicly traded corporations, individual board members, and executive directors. Staff recommends no change. Regarding the comment that the limit should not apply to consultants, consultants are already excluded from the $2 million limit, provided the consultant fee does not exceed 10% of the fee paid to the Developer or $150,000. Staff recommends no change.

Comment:
Comment asks the Department to raise the amount of credits per development from $1.2 to $1.8 million (35), $1.5 million (67) or $2 million; and from $2 to $4 million per developer, citing higher construction costs. (24, 26) Comment was made that the $1.4 million dollar cap significantly inhibits the use of the 130% basis in High Opportunity Areas that meet the 49.6(h)(4)(D)(ii)(iv) criteria. Commenter also states that the Department’s decisions to continue to impose a cap lower than statutorily required will limit the number of units that may be developed in higher opportunity areas. Commenter again cites a discrepancy in the amount of low income minority housing in predominately white areas. (28) Another comment suggests that given current market conditions in the tax credit investor market, the Department should impose only the statutory cap and remove the allocation cap on Developments. (40, 49, 52)
Staff Response:
The Draft QAP proposes raising the credit limit per development from $1.2 to $1.4 million. Staff believes this is an adequate increase. No additional change is recommended for the credit limit per Development. The Department does not have the ability to change the $2 million credit limit per Developer because this limit is a statutory limit. No change is recommended to the $2 million credit limit cap.

Comment:
Commenter states that the $1.4 million cap does not appear to distinguish between the limited 9% credits and the 4% credits for which a competitive 9% tax credit property may qualify. Commenter suggests that in order to encourage Rehabilitations/Reconstruction projects that the QAP clearly state that the $1.4

million cap only applies to 9% credits for which an application would be eligible and not the 4% portion of the competitive tax credits. (26)

Staff Response:

Staff agrees with this clarification and proposes the following revision:

> “(d) **Credit Amount.** … The Department will limit the allocation of tax credits to no more than $~~1.2~~1.4 million per Development. In order to encourage Rehabilitation and reconstruction, the $1.4 million credit limitation will not apply to the 4% competitive tax credits for which such a development may qualify. The Department shall not allocate more than $2 million of tax credits in any given Application Round to any Applicant, Developer, Related Party or Guarantor; Competitive Housing Tax Credits approved by the Board during the 2009 calendar year, including commitments from the 2009 Credit Ceiling and forward commitments from the 2010 Credit Ceiling, are applied to the credit cap limitation for the 2009 Application Round. …

§49.6(e)(2) Limitations on the Size of Developments (26)

Comment:

Comment was made requesting that Rural Bond transactions be allowed to exceed the 80 new unit construction limit, because the market demand should determine the number of units not an arbitrary number. Additionally, commenter requested that Rural Developments involving reconstruction not have a size limitation. (26)

Staff Response:

§2306.004 Texas Government Code specifically defines a Rural Development and imposes a maximum limit of 80 Units for Developments proposed in Rural Areas. The Department has applied this restriction consistently to all Department programs. Staff believes that allowing no more than 80 units as part of reconstruction is an appropriate application of the statute. No change is recommended.

§49.6(h)(3) 30% Increase in Eligible Basis (16, 20, 28, 30, 32, 34, 37, 41, 44, 45, 47, 48, 51, 54, 55, 58, 67)

Comment:

Comment was made supporting the 30% increase in eligible basis. Commenter requests revising the language relating to energy tax credits so that it is more objective. (16, 32, 54) Comment also supported the boost for location near mass transit but clarifies that it should be limited to developments that are to be located near major bus transfer stations and/or regional or local rail transport stations (16, 41) However, other comment was made stating that the 30% increase for developments near a public transportation does not address the need to diversify low income minority areas and pointed out that in the Dallas area 25 of the 58 DART transit centers are already in a QCT, and therefore the Department is refusing to stray from concentrated minority low income housing. (28) Comment was made asking the Department to include the following as eligible for the 30% boost: qualified elderly development, single family developments targeted for homeownership, an expanded concept of at-risk properties (20, 30, 34, 37, 44, 45, 47, 48, 51, 55) and supportive housing. (58) Comment also requests the boost for all proposed developments located in census tracts that have not received an award of tax credits or tax-exempt bonds in the last five years, not solely rural developments. (41, 67) Commenter also supports assigning an additional category for developments that are located in any of the First Tier Counties. (26, 41, 67)

Staff Response:

The QAP includes sufficient incentives for qualified elderly development, and the At-risk Set-aside addresses developments that rehabilitate or reconstruct rental housing to prevent losses of existing low income housing. Single family developments with a focus on homeownership does not guarantee the continuation of affordability and should not in itself be eligible for the 30% increase in eligible basis. The “At-Risk” definition is statutory and thereby would require a statutory change.

Staff believes that this criterion limiting the 30% increase in eligible basis to Rural Developments provides needed incentive for rural development. No change is recommended for the 30% increase for

Rural Developments. The proposed Draft QAP does allow the 30% increase in eligible basis for Supportive Housing Development that propose at least 50% of the units to serve Supportive Housing tenants (§49.6(h)(4)(B). Staff does agree that the 30% increase in eligible basis should be allowed for Developments located in the Hurricane Ike eligible counties. Staff proposes the following language:

> (5) "The Development proposing to build in a Hurricane Ike eligible county as designated by the Emergency Economic Stabilization Act of 2008, H.R. 1424 and Presidential Declaration FEMA-1791-DR and is able to place in service by December 31, 2012 (or the date as revised by the Internal Revenue Service) as certified in the Application."

Staff agrees that a way to objectively measure this requirement is needed. Staff suggests the following revision:

> "(3) The Development qualifies for and receives Renewable Energy Tax Credits. For purposes of this paragraph, the Application will be required to include an architect's letter or contractor bid as evidence that the Applicant will be eligible to request Renewable Energy Tax Credits in its income tax filings. Applicant will be required to show proof of receipt of the Renewable Energy Tax Credits at the time of Cost Certification; …"

Staff agrees that public transportation section needs to be clarified. Staff suggests the following revision:

> "(i) A Development that is proposed to be located within one-quarter mile of existing major bus transfer centers and/or regional or local rail transportation stations that are accessible to all residents including Persons with Disabilities;"

§49.8(d)(3)(B) Pre-Application Threshold Criteria and Review (26, 66)

Comment:

Comment was made requesting that the evidence of proof of delivery expand because a recipient may refuse to sign a receipt for mail or courier delivery, in which case a returned receipt that had been properly addressed but not signed should be allowed as proof of delivery. Comment also suggests that this requirement will be difficult to meet in order to receive confirmation from the recipients. Comment was indicated that municipalities who oppose a deal could pose a problem by simply not signing or provide evidence of proof of delivery. (26, 66)

Staff Response:

Staff believes that a returned receipt, although not signed, would be acceptable evidence as long as the delivering agent (courier, postal service, etc) indicates that delivery was attempted and refused. Staff notes that the requirements of the QAP have not changed only the clarification for what satisfies "proof of delivery". The Department does not require the Applicant to submit such evidence unless the notification process is challenged. The Department must have a mechanism that shows the notification was delivered to the intended recipient.

§49.9(c) Adherence to Obligations (52)

Comment:

Commenter states that these penalties are too severe and can be disproportionate in regards to the size of the infraction. Commenter recommends a system of escalating penalties; or to revise the application to have a section in which all material "Representations" concerning the project are reflected, so that the developer can refer to that section whenever plan changes are anticipated in order to determine whether an amendment is needed. (52)

Staff Response:

Staff is finalizing an Application Verification Form, which the Developer will complete at the time of Commitment or Carryover which will be the verification for all divisions in the Department as well as a reference for the Applicant. No change is recommended to the QAP.

§49.9(d)(5)(C) Subsequent Evaluations of Applications (60)
Comment:
Comment was made that an application that qualifies for the At-Risk Set-Aside should also be able to roll over into the Regional pool for consideration against other applicants in the region. (60)
Staff Response:
This section of the QAP currently allows that "To the extent that Applications in the At-Risk and TRDO-USDA Set-Asides are not competitive enough within their respective Set-Asides, they will also be able to compete, with no Set-Aside preference, within their appropriate sub-region." No change is recommended.

§49.9(h)(4)(A)(ii)(XXV) Green Building Initiative (27, 32, 38, 43, 54, 60, 66)
Comment:
Comment was made supporting the green building initiatives. Commenter stated that NAHB has put out some guidelines and they will forward them to the Department. (27, 38) Comments were made asking to improve the point allocations for green building, to award points proportionally according to the impact of particular green practices and equipment will have on the project overall, and to clarify language to ensure more performance-based and not prescriptive goals to again meet overall green building goals. (32, 54) Comment was made suggesting that more points are awarded to larger photovoltaic panels, as opposed to smaller ones. Comment also suggested excluding the cost of solar insulations from the project cost so that developers are not deterred from including such systems in their projects. (43) Comment was made asking the Department to consider scoring rehabilitation projects with 1.5 points per Green Building item achieved, because rehabilitation projects have less flexibility. (60) Comment was made suggesting "the addition of tankless hot water heaters for 3 points" to the Green Building criteria. (66)

Staff Response:
Staff agrees with the clarifications received. These comments appear to be substantial, however, staff believes these clarifications will enable the development community to understand what is required and will enable the Department to inspect and/or monitor the amenities. Staff recommends the following revisions:

49.9(h)(4)(A)(ii)(XXV)

(-a-) evaporative coolers (for use in designated counties listed in the Application Materials, 2009 Housing Tax Credit Site Demographics Information) (1 point);

(-b-) passive solar heating/cooling (3 points maximum)

(-1-)Two points if the glazing area on the north- and south-facing walls of the building is at least 50% greater than the sum of the glazing area on the east- and west- facing walls; and the east-west axis of the building is within 15 degrees of due east-west.

(-2-)One point if in addition to the east-west axis of the building oriented within 15 degrees of due east-west, utilize a narrow floor plate (less than 40 feet), single loaded corridors and open floor plan to optimize daylight penetration and passive ventilation (note: to qualify for this particular point, application must also implement the 15 degree building orientation option above); and 100% of HVAC condenser units are shaded so they are fully shaded 75% of the time during summer months (May through August); and solar screens or solar film on all East, West, and South Windows with building oriented to east-west axis within 15 degrees of due east-west, west-south axis within 15 degrees of due west-south, and south-east axis within 15 degrees of due south-east.

(-c-) water conserving features (2 points maximum, 1 point for each):

(-1-)Install low-flow toilets using less than or equal to 1.6 gallons per flush, or high efficiency toilets using less than or equal to 1.28 gallons/flush.

(-2-)Install bathroom lavatory faucets and showerheads that do not exceed 2.0 gallons/minute and kitchen faucets that do not exceed 1.5 gallons/minute. Applies to all fixtures throughout development. Rehab projects may choose to install compliant faucet aerators instead of replacing entire faucets.

(-d-) solar water heaters (Solar water heaters designed to provide at least 25% of the average energy used to heat domestic water throughout the entire development.) (2 points);

(-e-) irrigation and landscaping (must implement both of the following) (2 points)

(-1-)collected water (at least 50%) for irrigation purposes;

(-2-)selction of native trees and plants that are appropriate to the site's soils and microclimate and locate then to allow for shading in the sumer and allow for heat gain in the winter

(-f-) sub-metered utility meters (2 points maximum);

(-1-)Sub-metered utility meters on rehab project without existing sub-meters or new construction senior project (2 points); or

(-2-)Sub-metered utility meters on new construction project (excluding new construction senior project) (1 point)

(-g-) energy efficiency (4 points maximum);

(-1-)Three points if Energy Elements include Energy-Star qualified windows and glass doors; and Exterior envelope insulation, vapor barriers and air barriers greater than or equal to Energy Star air barrier and insulation criteria; and HVAC, domestic hot water heater, or insulation that exceeds Energy Star standards or exceeds the IRC 2006;

OR

(-2-)Four points if the project promotes energy efficiency by meeting the requirements of Energy Star for Homes by either complying with the appropriate builder option package or a HERS score of 85.

(-h-) thermally and draft efficient doors (SHGC of 0.40 or lower and U-value specified by climate zone according to the 2006 IECC) (2 points);

(-i-) photovoltaic panels for electricity and design and wiring for the use of such panels (3 points maximum);

(-1-)Photovoltaic panels that total 10 kW (1point);

(-2-)Photovoltaic panels that total 20 kW (2 points);

(-3-)Photovoltaic panels that total 30 kW (3 points)

(-j-) construction waste management and implementation of EPA's Best Management Practices for erosion and sedimentation control during construction (1 point);

(-k-) recycling service provided throughout the compliance period (1 point);

(-l-) water permeable walkways (at least 20% of walkways and parking) (1 point).

(-m-) bamboo flooring, wool carpet, linoleum flooring, straw board, poplar OSB, or cotton batt insulation (50% of flooring on the ground floor of the development must be finished concrete and/or ceramic tile. 50% of the flooring on upper floors must be ceramic tile and/or a flooring material that is Floor Score Certified (developed by the Resilient Floor Covering Institute), applied with a Floor Score Certified adhesive and comes with a minimum 7-year wear through warranty. (2 points);

Staff agrees that reconfiguration of existing Developments to include green building initiatives does require additional consideration. The Department allows this same consideration with other amenities. Staff agrees with the 1.5 point consideration. Staff proposes the following language:

> "(XXV) Green Building amenities (Rehabilitation Developments will receive 1.5 points for each point requested for the green building amenities)

Staff believes including tankless hot water heaters may be a reasonable request. However, it would require further research and input for staff to establish an appropriate recommendation for this year's QAP. Staff proposes this suggestion be incorporated into the 2010 QAP and commits to further research this issue. The limited amount of research that staff has conducted to date indicates many possible disadvantages to the installation of such units; including, the limited in the amount of hot water that can be produced at one time; the longer period it may take to get hot water, since they don't start heating the water until you turn on the faucet; the possibility of an increase in water wastage since you have to let the water run longer to get your hot water; and the limited the rate of the heated water flow. Staff recommends no change.

§49.9(h)(4)(B) Threshold Criteria (62)

Comment:

Comment asks the Department to be more specific in its definition of “lighting fixtures.” Comment went on to question whether an option is available to either provide Energy Star light fixtures, or simply provide tenants with Energy Star bulbs. It is their contention that the energy star light fixtures will be obsolete soon. (62)

Staff Response:

Staff agrees that this requirement should be revised and recommends the following:

> (vii) Energy-Star or equivalently rated lighting ~~fixtures~~ in all Units, which may include compact florescent bulbs.

§49.9 (h)(4) Certifications (66)

Comment:

Comment requested that the Department reduce the number of signatures to one in respect to all of its certifications. (66)

Staff Response:

This is not relevant to the QAP, however staff will consider this request in the application materials.

§49.9(h)(4)(E) Certification to comply with accessibility requirements (31)

Comment:

Comment was made referring to S.B. 1458 passed by the 2005 Texas legislature adopting 2003 International Building Code (IBC) for all municipalities, excluding unincorporated areas, and the 2003 and 2006 IBC are enforced in Texas. Commenter went on to note that HUD also certified the 2003 and 2006 IBC in compliance with the federal Fair Housing Act. Commenter suggests that the Department include such language; “(E) A certification that the Applicant is in compliance with state and federal laws, including but not limited to, fair housing laws, including Chapter 301… the 2003 International Building Code, the 2006 International Building Code published by the International Code Council, the Code requirements for Housing Accessibility 200…” (31)

Staff Response:

§49.9(h)(4) (D) of the QAP already includes this requirement. No change is recommended.

§49.9 (h)(6)(E) Evidence of Development Cost (42)

Comment:

Comment was made asking the Department to reconsider its policy on requiring a Property Condition Assessment Report for reconstruction projects. Commenter stated that when an applicant considers a reconstruction project some basic architect work must have already been done. Commenter would like to have the timeline for PCA revisited. (42)

Staff Response:

Staff believes that the Property Condition Assessment is necessary in order for the Department to be able to determine whether the demolition and reconstruction of an existing development is the most effective use of tax credits. No change is recommended.

§49.9 (h)(7)(A)(iv) Identity of Interest Transaction (20, 30, 34, 37, 44, 45, 47, 48, 51, 55, 65)

Comment:

Comment states that the QAP unfairly limits acquisition costs to the lesser of initial acquisition costs plus costs of owning, holding, or improving the property or the as-is appraised value. Commenter suggests that the Department should allow the as-is appraised value as the acquisition costs, because some may be unable to document the costs of owning, holding or improving the land. Furthermore, the commenter suggests that limiting the acquisition cost to the lesser of the two, limits unfairly limits at-risk projects, USDA, and Housing Authorities trying to preserve low income housing. (20, 30, 34, 37, 44, 45, 47, 48, 51, 55) Comment states that Department did not permit the applicants to take the value of the land being contributed by the LPS for points because the land contributions were characterized as identity of interest transactions which require a settlement statement or other verifiable costs of owning the properties. Commenter believes that an appraisal should be sufficient to justify the value of the land contribution even in identity of interest transactions. (65)

Staff Response:

Staff believes that limiting the acquisition cost to the lesser of initial cost plus costs of owning, holding, or improving the property or the as-is appraised value ensures that the acquisition amount is not inflated. In the rare case that an issue arises regarding the Applicant’s inability to document the costs of owning, holding or improving the land, the Department will resolve that issue on an individual basis. Staff does not believe that this provision in any way limits at-risk projects, USDA, and Housing Authorities trying to preserve low-income housing. No change is recommended.

§49.9(h)(7)(D)(ii) County and Property Taxes (19, 21)

Comment:

Comment was made that there are places in Texas where there are not any property or county taxes. Commenter asserts that Tribal Land for Federally Recognized Indian Tribes is not assessed property taxes and the commenter would like to have a condition inserted to address this. Commenter suggests that this threshold item be deemed not applicable for tribal lands. (19, 21)

Staff Response:

Staff agrees that this item requires revision and recommends the following:

> (ii) A current valuation report from the county tax appraisal district and documentation of the current total property tax rate for the Development Site (unless the site is located on land that is not subject to federal, state or local property taxes), and…”

§49.9(h)(7)(D)(iii)(I)-(III) Title Policy/Commitment (19, 21)

Comment:

Comment was made that Trust Lands are unable to provide a Title Policy or Title Commitment, because Title Commitments are only beneficial for fee-simple land. Commenter is asking the Department to consider accepting a Title Status Report in lieu of a Title Commitment for such lands. The Title Status Report (TSR) is issued by the Bureau of Indian Affairs (BIA). The commenter states that this would be the best, and only alternative to a Title Commitment from Tribe Lands. (19, 21)

Staff Response:

Staff concurs and suggests the following revision:

> “(iii) A copy of:
>
> (I) The current title policy (or title status report if on Tribal Land) which shows that the ownership (or leasehold) of the Development Site is vested in the name of the Development Owner; or
>
> (II) a current title commitment with the proposed insured matching exactly the name of the Development Owner and the title of the Development Site vested in the exact name of the seller or lessor as indicated on the sales contract, option or lease.
>
> (III) If the title policy, title status report, or commitment is more than six months old as of the day the Application Acceptance Period closes, then a letter from the title company/Bureau of Indian

Affairs indicating that nothing further has transpired on the policy, title status report or commitment.

§49.9(h)(13) Evidence of Financial Statement (27)

Comment:

Comment was made requesting that financial statements for individuals be good for six months or one year instead of the current ninety days. (27)

Staff Response:

Staff believes this is a reasonable request and proposes the following language:

"(A) Financial statements for an individual must not be older than six months from the first day of the Application Acceptance Period."

§49.9(i) Selection Criteria (33)

Comment:

The commenter supported the changes to the QAP that promote more affordable housing in downtown areas. The commenter requested that on development location points they would like to see downtown included in any definition to be awarded four points. Commenter indicated that the City of Fort Worth is working on language that would also include other areas of the city where high-density residential and probably mixed-use development is appropriate and has been so zoned. (33)

Staff Response:

Staff appreciates the feedback provided by representatives from the City of Fort Worth and appreciates their support of affordable housing. Comment is regarding changes already proposed in the QAP. No further change is recommended.

§49.9(i)(2)(A) Quantifiable Community Participation (20, 26, 27, 30, 34, 37, 44, 45, 47, 48, 51, 55)

Comment:

Comment was made that the Department continues to limit the rights of a Resident Council to rehabilitate or reconstruct a property occupied by the residents. A resident council, according to the commenter, should be allowed to comment and appropriately be scored for New Construction, if the proposed New Construction is within the boundaries of the property in which they reside or within the boundaries of their organization. Commenter gives a few examples of small public Housing developments on large tracts of land that could easily support much more low income housing and another where the small development should be demolished because it is obsolete. (20, 30, 34, 37, 44, 45, 47, 48, 51, 55)

Staff Response:

The Board has supported the requirement for "resident councils" to only comment on the rehabilitation of a Development in which they reside because a resident council is required by HUD in all public housing developments. This gives an unequal advantage to Housing Authority Applicants for the QCP scoring item. Staff does believe that a resident council could be a member of a larger neighborhood organization that could qualify for the QCP points.

Comment:

Comment was made asking that the Applicant/Developer be permitted to provide production assistance, because the Neighborhood Organizations are not used to working with TDHCA rules and deadlines, and are ordinary citizens with work and busy lives of their own. The commenter suggests that due to the size of the points available it is unfair to leave it in the hands of inexperienced volunteers. Additionally, the commenter believes that it should be permissible to forward TDHCA notices of deficiency and other correspondence to Neighborhood Organizations so that deadlines are not missed. Additional comments that the time for Neighborhood Organizations should be lengthened rather than shortened, and that support from a Mayor or City Council and other than QCP points be permitted to counterbalance Neighborhood Organization opposition. (26)

Staff Response:
Staff proposed a change in the 2009 QAP to allow Applicants to interact with Neighborhood Organizations. Staff believes the Applicant may provide informational assistance to a Neighborhood Organization but may not provide production or delivery assistance. Staff suggests the following additional revision:

> "(vi) …<u>Any deficiency notices issued to the Neighborhood Organization will also be sent to the Applicant for information purposes only. Applicants may not provide delivery assistance of any communication between the Neighborhood Organization and the Department and Applicants may not assist the Neighborhood Organization in preparing its response to a deficiency notice. Applicants may provide information about the deficiency notice process and deadlines to a Neighborhood Organization;"</u>

Comment:
Comment was made about the additional signature on neighborhood for QCP points, and that one signature from the president should be more than enough. Commenter went on to suggest that as far as time goes, it is hard to obtain these signatures because many of the organizations are volunteers, so their accountability is sometimes not as reliable as they would like. (27)
Staff Response:
Staff agrees with the accountability and reliability of these organizations. Staff believes that requiring more than one signature on the submission assures the Department that more than one person from the organization made the decision to provide a letter of support or opposition to the Department. No change is recommended.

§49.9(i)(2)(A)(v) Quantifiable Community Participation (52)
Comment:
Comment was made that the third sentence in the subsection should read; "<u>The Neighborhood Organization letter must be signed by two officials or board members of the Neighborhood Organization and must include a contact name…"</u> (52)
Staff Response:
Staff recommendeds the followig revision:

> The Neighborhood Organization <u>letter</u> must be signed by two officials or board members of the Neighborhood Organization and must include in its letter, a contact name…

§49.9(i)(2)(A)(vi) Quantifiable Community Participation (52)
Comment:
Comment that the next to the last sentence in the subsection should read; <u>"Applicants may not provide delivery assistance or any communication…"</u> (52)
Staff Response:
The QAP as proposed states "Applicants may not provide delivery assistance of any communication…" This language is correct.No change is recommended.

§49.9(i)(3) Income levels of tenants in the development (23, 35, 38)
Comment:
Comment was made that recognized the Department for the proposed changes in the 2009 QAP which address the inequality between mixed income and 100% low income proposals, in an effort to revitalize neighborhoods. (23)
Staff Response:
Staff appreciates the commendation regarding the encouragement of mixed income Developments. Comment is regarding changes already proposed in the QAP. No change to the QAP is applicable.

Comment:

Comment was made asking the Department to strike the current, low income criteria, that focuses on 50% of AMGI and replace it with 60% of AMGI. Comment suggests that changing this criterion to a maximum rent ceiling of 60% would enable a higher first mortgage to be obtained by the developer which would benefit the project sources in light of current market pricing decreases. (35) Conversely, separate comment was made supporting the proposed changes to this section that encourage a greater number of Low-Income units set aside for households with incomes at 30% to50% of area median income. (38)

Staff Response:

The Department encourages the development of Low-Income Units for households with incomes at 50% or below area median income. No change is recommended.

§49.9 (i)(4)(A) The Size and Quality of the Units (Development Characteristics) (26, 36, 38, 54, 58)

Comment:

Comment suggested not increasing the minimum size of units at a time when there is a need to reduce construction costs. Comment states that increasing square footages increases both the construction costs and the utility costs once completed. Comment stated that it is more beneficial to build bigger units because that boosts the cost for the entire unit. It was also noted that from a green building perspective, smaller, more efficient units use less building materials and are easier to heat and cool. Commenter recommends keeping unit sizes the same as 2008 or requiring 50 square feet smaller. (26, 38, 54)

Staff Response:

Staff believes it appropriate to have minimum unit sizes. The minimum threshold sizes are below the sizes as proposed by the majority of units over the past few years. No change is recommended.

Comment:

Comment was made requesting that the Department allow for certain common areas to be included in the per net rentable square foot cost calculation for SRO housing and for the exemption of SRO units from minimum size thresholds and allowing for automatic award of 6 points for unit size. (36, 58)

Staff Response:

The request for common area space to be included in the net rentable area for SRO Developments is already included in the current draft of the QAP. SRO development is exempt from the size requirements and is automatically awarded the points if they are requested by the Applicant. No change is recommended. No change is recommended.

§49.9(i)(5)(B) Scoring of Commitment of Development Funding by Local Political Subdivisions (26, 67)

Comment:

Comment received applauding the Department's percentage reduction of LPS funds needed to receive maximum points. Furthermore, would like same rule applied to all Non Participating Jurisdictions. Commenter argues that small cites suffer the same lack of funding sources as well as rural. Commenter goes further and asks that the requirement is removed completely, because according to commenter there are areas that need affordable housing, but do not have the ability to provide the support needed. Commenter argues that if a project is fiscally viable without political subdivision support then the project should be allowed to proceed. (26, 67)

Staff Response:

Staff agrees that this scoring item could be revised further and agrees to work with the program stakeholders to revise this section for the 2010 QAP. Staff does recommend striking the language added in the draft as follows:

"(i)(5)(B) …~~The required percentages for Rural Developments listed in clauses (i) – (iii) of this subparagraph only apply to Rural Developments applying for local funds~~."

§49.9(i)(6)(A)(iv) Support from State Representative or State Senator (20, 30, 34, 37, 44, 45, 47, 48, 51, 55)

Comment:

Comment was made in regards to the timeline that a State Senator or Representative may withdraw a letter submitted by the April 1st deadline. As it stands now the Senator/Representative has until June 15, 2009, and the commenter suggests that the deadline should be May 31, 2009. Commenter states that if a letter is to be withdrawn the State Senator or Representative must inform the applicant in writing no less than two weeks before withdrawing the letter of support. (20, 30, 34, 37, 44, 45, 47, 48, 51, 55)

Staff Response:

Staff believes that keeping the deadline when for a State Senator or Representative may withdraw a letter submitted to the Department in line with the close of the public comment period is reasonable. The Department will not require a senator or representative to notify an applicant of withdrawal of support. No change is recommended.

§49.9(i)(7) Rent Level Units (23, 38, 58, 67)

Comment:

Comment was made that recognized the Department for the proposed changes in the 2009 QAP which address the inequality between mixed income and 100% low income proposals, in an effort to revitalize neighborhoods. (23)

Staff Response:

Staff appreciates the commendation regarding the encouragement of mixed income Developments. Comment is regarding changes already proposed in the QAP. No change to the QAP is applicable.

Comment:

Comment was made supporting the proposed changes for this item. (38). Comment was also made asking that points be added to encourage the availability of units at or below 50% AMGI (58) and supporting the elimination of the percentage of Market Rate units advocating instead for new language which encourages additional units marketed to families and seniors at 50%. (67)

Staff Response:

Staff believes that including a percentage of market rate units encourages mixed-income Developments. The Draft QAP includes incentives for additional units marketed to families and seniors at or below 50% AMFI. No change is recommended.

§49.9(i)(8) Cost of Development by Square Foot (29, 32, 38, 40, 49, 52, 54, 65, 67)

Comment:

Comment made suggesting that the term "elevator-served" be removed because most SROs will be single story developments, and they would be better served if the language were changed as proposed. Comment was made requesting that the Department allow for certain common areas to be included in the net-rentable square footage calculation for SRO housing because, in SRO housing, living-rooms, dining-room, and kitchens are congregate and thus make the net-rentable square footage smaller.(32, 36, 54) Comment was made in support of increased construction costs and the inclusion of common area in the NRA calculation for SROs (38) as well as the increase in cost per unit (67)

Commenter proposes change to the third sentence in the paragraph to add, "This calculation does not include indirect construction costs <u>or any other construction costs that are excluded by the Applicant from eligible basis."</u> (32, 40, 49, 54) Commenter would like an allowance for developers to exclude hard costs from eligible basis and not receive tax credits for certain costs as a way for high-cost developments to earn the cost-per square foot points, and for the cost of any parking to be excluded from calculating cost per square foot. (40, 49, 29, 52, 54) Comment states that this will prevent developments in urban areas from being penalized for building parking garages that exceed the construction cost caps established for scoring points under this section. (32, 54) Commenter asks that the Department clarify the language of this section with 49.17(d)(1) (amendments) so that applicants are not penalized for being forthright about rising construction costs. (40, 49) Commenter would like to ensure that structured parking not count against any per unit cap. (54) Commenter asks for demolition costs not be included in the cost of the development per square foot calculation. (65)

Staff Response:
Some SRO developments do contain elevators. The "elevator-served" language does not negatively effect a development but does address the NRA issues that some SRO developments may have. The Draft QAP allows up to 50 square feet of common area to be included in the net rentable area. Staff appreciates the commendation regarding the inclusion of definitions for Supportive Housing and Single Room Occupancy.

The cost of the land and the cost of the parking are costs that are necessary for the development and clearly impact the total cost of the development. Including the square footage for parking is wholly inconsistent with the purpose of comparing the cost per net rentable square foot as the parking itself does not constitute living area for the unit. Excluding the cost for any pledged amenity such as a parking facility and/or land for required parking from the total cost of the development or the eligible basis (in the case of building for tenant use) is wholly inconsistent with the ability to determine financial viability of the entire development. Making modification to the cost per square foot scoring item in this regard will also confuse the determination of total development cost and true eligible costs at underwriting and later in the development process and at the issuance of 8609. This scoring item is specifically directed toward development with a low total cost per square foot of living space and making exceptions for high cost features or amenities of a development, worthy though they might be in their own right, diminish the specific intent of this scoring item and will confuse the understanding of the product that is being pledged to be delivered. No further change is recommended.

Demolition costs on the site that improve the land but are also required to construct the property are site work cost just as a detention pond or landscaping that permanently improved the value of the land would be considered a cost of construction but may not an eligible cost. Excluding ineligible but required construction costs from the cost per square foot diminish the specific intent of the cost per square foot scoring item and again could lead to confusion over what is being constructed and the reasonableness of the cost of that construction. No further change is recommended.

§49.9(i)(12) Housing Needs Characteristics (22)

Comment:
Comment suggested that because of the devastation caused by Hurricane Ike the housing needs score should be raised to 6 in all cities affected by the Hurricane. (22)

Staff Response:
Staff believes that since the affected areas have been declared disaster areas, the 30% increase in eligible basis is a sufficient incentive for the affected areas. No change is recommended.

§49.9(i)(16)(F) Development Location Points (40, 41, 50, 52)

Comment:
Comment was made that the definition of types of Urban Core sites is too vague, and requested clarification that "infill" does not necessarily mean scattered sites and to clarify the zoning requirements for these points. Comments suggest that Developments proposed to be located in municipalities without zoning would not be eligible for these points. (40, 52)

Staff Response:
Staff revised the "infill housing" definition previously noted to include these comments.

Comment:

Comment was made asking the Department to reconsider the removal of Ex Urban language from the 2009 QAP. Commenter argued that the removal of the Ex Urban language from the QAP makes it difficult to provide affordable senior housing in the North Texas area outside of urban areas. (41, 50)

Staff Response:

Staff removed the "ex-urban" points at the suggestion of the development community during the drafting of the QAP. The points were removed because other point items had been added that all developments can receive (i.e green building, revitalization, income/rent targeting). Because input on the deletion of this item was limited, staff does not recommend reinstating it. No change is recommended.

§49.9(i)(17)(C) Green Building Initiatives (16, 39, 54)

Comment:

Global Green USA, Foundation Communities, and the Sierra Club suggest language for the green building initiative section that was developed collaboratively by members of both the environmental and developer communities including the Texas Association of Affordable Housing Providers and the Rural Rental Housing Association of Texas. (16, 39, 54)

Staff Response:

Using the collaborative language provide in the comment, staff suggests the following revision to this section:

(-a-) evaporative coolers (for use in designated counties listed in the Application Materials, 2009 Housing Tax Credit Site Demographics Information) (1 point);

(-b-) passive solar heating/cooling (3 points maximum)

(-1-)Two points if the glazing area on the north- and south-facing walls of the building is at least 50% greater than the sum of the glazing area on the east- and west- facing walls; and the east-west axis of the building is within 15 degrees of due east-west.

(-2-)One point if in addition to the east-west axis of the building oriented within 15 degrees of due east-west, utilize a narrow floor plate (less than 40 feet), single loaded corridors and open floor plan to optimize daylight penetration and passive ventilation (note: to qualify for this particular point, application must also implement the 15 degree building orientation option above); and 100% of HVAC condenser units are shaded so they are fully shaded 75% of the time during summer months (May through August); and solar screens or solar film on all East, West, and South Windows with building oriented to east-west axis within 15 degrees of due east-west, west-south axis within 15 degrees of due west-south, and south-east axis within 15 degrees of due south-east.

(-c-) water conserving features (2 points maximum, 1 point for each):

(-1-)Install low-flow toilets using less than or equal to 1.6 gallons per flush, or high efficiency toilets using less than or equal to 1.28 gallons/flush.

(-2-)Install bathroom lavatory faucets and showerheads that do not exceed 2.0 gallons/minute and kitchen faucets that do not exceed 1.5 gallons/minute. Applies to all fixtures throughout development. Rehab projects may choose to install compliant faucet aerators instead of replacing entire faucets.

(-d-) solar water heaters (Solar water heaters designed to provide at least 25% of the average energy used to heat domestic water throughout the entire development.) (2 points);

(-e-) irrigation and landscaping (must implement both of the following) (2 points)

(-1-)collected water (at least 50%) for irrigation purposes;

(-2-)selction of native trees and plants that are appropriate to the site's soils and microclimate and locate then to allow for shading in the sumer and allow for heat gain in the winter

(-f-) sub-metered utility meters (2 points maximum);

(-1-)Sub-metered utility meters on rehab project without existing sub-meters or new construction senior project (2 points); or

(-2-)Sub-metered utility meters on new construction project (excluding new construction senior project) (1 point)

(-g-) energy efficiency (4 points maximum);

(-1-)Three points if Energy Elements include Energy-Star qualified windows and glass doors; and Exterior envelope insulation, vapor barriers and air barriers greater than or equal to Energy Star air barrier and insulation criteria; and HVAC, domestic hot water heater, or insulation that exceeds Energy Star standards or exceeds the IRC 2006;

OR

(-2-)Four points if the project promotes energy efficiency by meeting the requirements of Energy Star for Homes by either complying with the appropriate builder option package or a HERS score of 85.

(-h-) thermally and draft efficient doors (SHGC of 0.40 or lower and U-value specified by climate zone according to the 2006 IECC) (2 points);

(-i-) photovoltaic panels for electricity and design and wiring for the use of such panels (3 points maximum);

(-1-)Photovoltaic panels that total 10 kW (1point);
(-2-)Photovoltaic panels that total 20 kW (2 points);
(-3-)Photovoltaic panels that total 30 kW (3 points)

(-j-) construction waste management and implementation of EPA's Best Management Practices for erosion and sedimentation control during construction (1 point);

(-k-) recycling service provided throughout the compliance period (1 point);

(-l-) water permeable walkways (at least 20% of walkways and parking) (1 point).

(-m-) bamboo flooring, wool carpet, linoleum flooring, straw board, poplar OSB, or cotton batt insulation (50% of flooring on the ground floor of the development must be finished concrete and/or ceramic tile. 50% of the flooring on upper floors must be ceramic tile and/or a flooring material that is Floor Score Certified (developed by the Resilient Floor Covering Institute), applied with a Floor Score Certified adhesive and comes with a minimum 7-year wear through warranty. (2 points);

§49.9(i)(18) Demonstration of Community Input other than Quantifiable Community Participation (26, 52, 64)

Comment:

Commenter requests that these points be allowed even if a project receives 0 points under paragraph 49.9(i)(2) Quantifiable Community Participation. (26)

Staff Response:

The QAP already allows this request. No change is recommended.

Comment:

Comment suggested that the last sentence in the subsection should properly apply to the entire §49.9(i)(18), instead of just subsection (C). Recommends moving the last sentence to the next line, flush left so that it applies to all of the subsection. (52)

Staff Response:

Staff agree and proposes the following revision:

> "…An Application may not receive points under more than one of the subparagraphs (A) – (C). At no time will the Application receive a score lower than zero for this item."

Comment:

Comment was made supporting the inclusion of language that provides for input from municipal management districts in the application review process. (64)

Staff Response:
Staff appreciates the commendation regarding the inclusion of language that provides for input from municipal management districts in the application review process. No change to the QAP is recommended because XXX.

§49.9(i)(19) Developments in Census Tracts with no other Existing Same-type Development Supported by Tax Credits (35, 38)

Comment:
Comment was made to eliminate any rule that penalizes HTC applications located in a qualified census tract with existing HTC developments if supported by the local community. Comment suggests that the local community should have the right to dictate developments regardless of census tract and relative location to previous HTC developments.(35)

Staff Response:
The QAP does not prohibit a development from moving forward. However, it does restrict the availability of the 30% increase in eligible basis. Staff believes this is an appropriate restriction to control over-concentration of affordable housing.

Comment:
Comment was made asking to reduce the number of points awarded to developments in census tracts with no other existing same-type development supported by tax credits. They suggested a reduction in points for this criterion to one point so that the number of points under the criteria does not overwhelm high housing needs in community support scores. (38)

Staff Response:
The QAP does not prohibit Development in these areas. No change is recommended.

§49.9(i)(22) Site Characteristics (38)

Comment:
Comment was made suggesting that an additional four points be provided to developments located within five miles of a major employment center or located within one mile from a proposed light rail line. (38)

Staff Response:
Staff believes that incentives provided under §49.6(h)(4) sufficiently addresses this comment. No change is recommended.

§49.9(i)(29) Bonus Points (26, 27, 32, 41, 52, 54, 60, 66, 67)

Comment:
Comment was made that the addition of Bonus Points will create more issues than it solves and that it is unfair to developers who are new to the program or who did not have a project in 2008 (26)(60) and works against the goal of the Department to diversify the pool of tax credit recipients (32, 41, 54). Other comments emphasized that more clarification would be needed if these points remain. (27) Different commenters noted various concerns with this section (52, 66, 67).

Staff Response:
Staff believes that including criteria where bonus points may be awarded to an Application is a reasonable goal. However, it requires further research and input for staff to establish an appropriate recommendation for this year's QAP and would warrant additional public comment. Staff proposes this suggestion be incorporated into the 2010 QAP and commits to further research this issue. Staff recommends removing § 49.9(i)(29) Bonus Points from the 2009 QAP.

~~(29) Bonus Points. Applications may qualify to receive up to 6 points for this item.~~

~~(A) An Application may receive 2 points if the Applicant had submitted acceptable proof of site control at the time of Carryover (November 1, 2008) for Applications that received a Housing Tax Credit commitment made in the Application Round preceding the current round. For purposes of this subparagraph, evidence of site control will consist of an executed deed for the subject property~~

~~bearing the marks of receipt for filing by the county clerk and confirming the Development Owner as the grantee;~~

~~(B) An Application may receive 2 points if the Applicant has submitted the complete, acceptable, required documentation for the 10% Test, on or before June 1 for Applications that received a Housing Tax Credit commitment made in the Application Round preceding the current round (Applications that request extensions of the June 1 date, are not eligible for these bonus points);~~

~~(C) An Application may receive 2 points for having 5 or less aggregate deficiencies through the combined Eligibility, Selection and Threshold reviews;~~

~~(D) An Application may receive 1 point for having 10 or less aggregate deficiencies through the combined Eligibility, Selection and Threshold reviews; and/or~~

~~(E) An Application may receive 1 point if an Applicant satisfies deficiencies, to the satisfaction of the Department, on or before the third business day following the date of the deficiency notice.~~

§49.12(a)(1) Tax-Exempt Bond Applications (27)

Comment:

Comment received requesting that the requirement that the Application be submitted within three days of receipt of the bond reservation be extended. (27)

Staff Response:

This timeline is required by the Bond Review Board Rules, §190.3(13) of the Administrative Code, and cannot be adjusted by the Department.

§49.13(c)(1) Documentation Submission Requirements (52)

Comment:

Comment noted that it is unclear what the Department expects to receive in order to provide evidence that an entity has the authority to do business in Texas. (52)

Staff Response:

Staff recommends the following revision to be applied to §49.9(h)(9)(B)(ii) and §49.13(c)(1):

> "Evidence that the entity has the authority to do business in Texas in the form of a Certificate of Filing from the Texas Secretary of State;"

§49.14(b)(4) Carryover; 10% Test; Commencement of Substantial Construction (52, 57)

Comment:

Comment was made that in order to meet the 10% test the developer must provide evidence of having commenced and continued substantial construction. Commenter goes on to say that a developer has been able to obtain an extension of the Commencement of Substantial Construction Deadline if needed. Although under the proposed QAP the 10% test is due 11 months after the Carryover Agreement, and if meeting the commencement of substantial construction deadline is part and parcel of the 10% test then the commencement of substantial construction deadline can only be extended until December 31 at the very most. This is because the 10% test must be met within 12 months after the carryover allocation agreement under the Internal Revenue Code. Commenter suggests deleting §49.14(b)(4) and reference to the §49.14(b)(5). (52)

Staff Response:

The Department has the ability to have requirements that are more restrictive than the federal requirements. Staff believes the deadlines stated in the 2008 QAP are more realistic and safer for developments as a whole and keep the focus on producing affordable units as quickly as possible. In an effort to implement the changes allowed in H.R 3221, staff is proposing that the 10% Test be met in accordance with the legislation. Staff believes it is prudent for the Department to require the commencement of substantial construction be met at the time of 10% Test to help ensure the Development can be completed by the placed in service deadline.

Comment:
Comment was made regarding the definition of commencement of substantial construction. which is described in Chapter 60, the Compliance Rules. (57)
Staff Response:
This comment will be included with the comment for the Compliance Rules Chapter 60. The Compliance Rules will be presented to the Board in final form at the January Board meeting.

§49.17 Appeals Process and Amendment of Application Subsequent to Allocation by Board (49)
Comment:
Comment was received that there should be more flexibility from the Department in regards to amendments. Comment goes on to suggest that due to current financial circumstances if the Department is not more flexible in the amendment process many 9% tax credit allocations will fail to be syndicated by investors. Suggestion was made to alter the definition as follows; "The board's policy is that an amendment should be generally viewed favorably unless the amendment proposes removing a significant threshold criteria item or proposes altering a selection criteria item that would have decreased the number of points to a level that would have resulted in the application not receiving an allocation." (49)
Staff Response:
Staff believes that the Board has and uses the discretion to be flexible in regards to amendments. Staff commits to revisit the amendment policy previously approved by the Board and work with the development community to amend the policy if necessary. No change to the QAP is recommended.

§49.17(e) Housing Tax Credit and Ownership Transfers (49)
Comment:
Comment asked for clarification for the transfer of ownership. Comment states that the rule implies that transfers to an affiliated entity do not require agency approval, and furthermore asks that the Department allow transfers prior to issuance of 8609s due to changes made at time of partnership closing. The commenter suggests that "other than an Affiliate of the Development Owner…" be struck through in section (e). Also that in section 49.17(e)(1) add the language as follows; Transfers (other than to an Affiliate) be added. (49)
Staff Response:
Staff recommends the following change:

"(e) A Development Owner may not transfer an allocation of Housing Tax Credits or ownership of a Development supported with an allocation of Housing Tax Credits to any Person ~~other than~~ including an Affiliate of the Development Owner unless the Development Owner obtains the Executive Director's prior, written approval of the transfer…"

"(1) Transfers (other than an Affiliate included in the ownership structure) will not be approved prior to the issuance of IRS Forms 8609…"

THE STATE OF TEXAS

Multifamily Finance Production Division

~~2008~~2009 Housing Tax Credit Program

Qualified Allocation Plan and Rules

§~~50~~49.1. Purpose and Authority; Program Statement; Allocation Goals.

(a) Purpose and Authority. The rules in this chapter apply to the allocation by the Texas Department of Housing and Community Affairs (the Department) of Housing Tax Credits authorized by applicable federal income tax laws. The Internal Revenue Code of 1986, §42, (the "Code") as amended, provides for credits against federal income taxes for owners of qualified low-income rental housing Developments. That section provides for the allocation of the available tax credit amount by state housing credit agencies. Pursuant to Chapter 2306, Subchapter DD, of the Texas Government Code, the Department is authorized to make Housing Credit Allocations for the State of Texas. As required by the Internal Revenue Code, §42(m)(1), the Department developed this Qualified Allocation Plan (QAP) which is set forth in §§~~50~~49.1 - ~~50~~49.23 of this chapter. Sections in this chapter establish procedures for applying for and obtaining an allocation of Housing Tax Credits, along with ensuring that the proper ~~t~~Threshold ~~c~~Criteria, ~~s~~Selection ~~c~~Criteria, priorities and preferences are followed in making such allocations.

(b) Program Statement. The Department shall administer the program to encourage the development and preservation of appropriate types of rental housing for households that have difficulty finding suitable, accessible, affordable rental housing in the private marketplace; maximize the number of suitable, accessible, affordable residential rental units added to the state's housing supply; prevent losses for any reason to the state's supply of suitable, accessible, affordable residential rental units by enabling the Rehabilitation of rental housing or by providing other preventive financial support; and provide for the participation of for-profit organizations and provide for and encourage the participation of nonprofit organizations in the acquisition, development and operation of accessible affordable housing developments in rural and urban communities. (§2306.6701)

(c) Allocation Goals. It shall be the goal of this Department and the Board, through these provisions, to encourage diversity through broad geographic allocation of tax credits within the state, and in accordance with the regional allocation formula; to promote maximum utilization of the available tax credit amount; and to allocate credits among as many different entities as practicable without diminishing the quality of the housing that is being built. The processes and criteria utilized to realize this goal are described in §~~50~~49.7, §~~50~~49.8 and §~~50~~49.9 of this chapter, without in any way limiting the effect or applicability of all other provisions of this title. (General Appropriation Act, Article VII, Rider 8(e))

§~~50~~49.2. Coordination with Rural Agencies.

To ensure maximum utilization and optimum geographic distribution of tax credits in rural areas, and to provide for sharing of information, efficient procedures, and fulfillment of Development requirements in rural areas, the Department will coordinate on existing, Rehabilitation, and New Construction housing Developments financed by TRDO-USDA; and will administer the Rural Regional Allocation with the Texas Office of Rural Community Affairs (ORCA). Through participation in hearings and meetings, ORCA will assist in developing all Threshold, Selection and Underwriting Criteria applied to Applications eligible for the Rural Regional Allocation. The Criteria will be approved by that Agency. To ensure that the Rural Regional Allocation receives a sufficient volume of eligible Applications, the Department and ORCA shall jointly implement outreach, training, and rural area capacity building efforts. (§2306.6723)

§~~50~~49.3. Definitions.

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.

(1) **Adaptive Reuse--**The renovation or rehabilitation of an existing non-residential building or structure (e.g., school, warehouse, office, hospital, etc.), including physical alterations that modify the building's previous or original intended use. If any Units are built outside the original building footprint or foundation, the Development will be considered New Construction. A clubhouse or non-residential building may be outside the original footprint or foundation and still be considered Adaptive Reuse. The number of floors or stories may be increased in a building as long as the total number of Units for the Development does not exceed 80 Units in a Rural Area or 252 Units in an Urban Area.

(2) **Administrative Deficiencies--**The absence of information or inconsistent information in the Application as is required under §~~50~~49.5, §~~50~~49.6, §~~50~~49.8 and §~~50~~49.9 of this chapter, unless determined by the Department as unable to be corrected.

(3) **Affiliate--**An individual, corporation, partnership, joint venture, limited liability company, trust, estate, association, cooperative or other organization or entity of any nature whatsoever that directly, or indirectly through one or more intermediaries, Controls, is Controlled by, or is under common Control with any other Person, and specifically shall include parents or subsidiaries. Affiliates also include all General Partners, Special Limited Partners and Principals with an ownership interest unless the entity is an experienced Developer as described in §~~50~~49.9(h)(9)(D) of this chapter.

(4) **Agreement and Election Statement--**A document in which the Development Owner elects, irrevocably, to fix the Applicable Percentage with respect to a building or buildings, as that in effect for the month in which the Department and the Development Owner enter into a binding agreement as to the housing credit dollar amount to be allocated to such building or buildings.

(5) **Applicable Fraction--**The fraction used to determine the Qualified Basis of the qualified low-income building, which is the smaller of the Unit fraction or the floor space fraction, all determined as provided in the Code, §42(c)(1).

(6) **Applicable Percentage--**The percentage used to determine the amount of the Housing Tax Credit for any Development (New Construction, Reconstruction, and/or Rehabilitation), as defined more fully in the Code, §42(b).

(A) For purposes of the Application, the Applicable Percentage will be projected at:

(i) the greater of 9% or ~~40 basis points over~~ the current applicable percentage for 70% present value credits for new buildings, pursuant to §42(b) of the Code for the month in which the Application is submitted to the Department; or

(ii) 15 basis points over the current applicable percentage for 30% present value credits associated with acquisition and with qualified Tax-Exempt Bond Developments, pursuant to §42(b) of the Code for the month in which the Application is submitted to the Department.

(B) For purposes of making a credit recommendation at any other time, the Applicable Percentage will be based in order of priority on:

(i) The percentage indicated in the Agreement and Election Statement, if executed; or

(ii) The actual applicable percentage as determined by the Code, §42(b), if all or part of the Development has been placed in service and for any buildings not placed in service the percentage will be the actual percentage as determined by the Code, §42(b) for the most current month; or

(iii) The percentage as calculated in subparagraph (A) of this paragraph if the Agreement and Election Statement has not been executed and no buildings have been placed in service.

(7) **Applicant--**Any Person or Affiliate of a Person who files a Pre-Application or an Application with the Department requesting a Housing Credit Allocation. (§2306.6702)

(8) **Application--**An application, in the form prescribed by the Department, filed with the Department by an Applicant, including any exhibits or other supporting material. (§2306.6702)

(9) **Application Acceptance Period--**That period of time during which Applications for a Housing Credit Allocation from the State Housing Credit Ceiling may be submitted to the Department, December 8,~~3,~~ ~~2007~~2008 through February ~~29, 2008~~27, 2009, as more fully described in §§~~50~~49.8 - ~~50~~49.12 of this chapter. For Tax-Exempt Bond Developments this period is the date the Volumes 1 and 2 are submitted or the date the reservation is issued by the Texas Bond Review Board, whichever is earlier.

(10) **Application Round--**The period beginning on the date the Department begins accepting Applications ~~for the State Housing Credit Ceiling~~ and continuing until all available Housing Tax Credits ~~from the State Housing Credit Ceiling (as stipulated by the Department)~~ are allocated, but not extending past the last day of the calendar year. (§2306.6702). For purposes of this section, this definition applies to Housing Tax Credits allocated with the State Housing Credit Ceiling.

(11) **Application Submission Procedures Manual--**The manual produced and amended from time to time by the Department which sets forth procedures, forms, and guidelines for the filing of Pre-Applications and Applications for Housing Tax Credits.

(12) **Area--**

(A) The geographic area contained within the boundaries of:

(i) An incorporated place; or

(ii) Census Designated Place (CDP) as established by the U.S. Census Bureau for the most recent Decennial Census.

(B) For Developments located outside the boundaries of an incorporated place or CDP, the Development shall take up the Area characteristics of the incorporated place or CDP whose boundary is nearest to the Development site.

(13) **Area Median Gross Income (AMGI)--**Area median gross household income, as determined for all purposes under and in accordance with the requirements of the Code, §42.

(14) **At-Risk Development--**A Development that: (§2306.6702)

(A) has received the benefit of a subsidy in the form of a below-market interest rate loan, interest rate reduction, rental subsidy, Section 8 housing assistance payment, rental supplement payment, rental assistance payment, or equity incentive under at least one of the following federal laws, as applicable:

(i) Sections 221(d)(3) and (5), National Housing Act (12 U.S.C. §17151);

(ii) Section 236, National Housing Act (12 U.S.C. §1715z-1);

(iii) Section 202, Housing Act of 1959 (12 U.S.C. §1701q);

(iv) Section 101, Housing and Urban Development Act of 1965 (12 U.S.C. §1701s);

(v) The Section 8 Additional Assistance Program for housing Developments with HUD-Insured and HUD-Held Mortgages administered by the United States Department of Housing and Urban Development;

(vi) The Section 8 Housing Assistance Program for the Disposition of HUD-Owned Projects administered by the United States Department of Housing and Urban Development;

(vii) Sections 514, 515, and 516, Housing Act of 1949 (42 U.S.C. §§1484, 1485, and 1486); or

(viii) Section 42, of the Internal Revenue Code of 1986 (26 U.S.C. §42); and

(B) Is subject to the following conditions:

(i) The stipulation to maintain affordability in the contract granting the subsidy is nearing expiration (expiration will occur within two calendar years of July 31 of the year the Application is submitted); or

(ii) The federally insured mortgage on the Development is eligible for prepayment or is nearing the end of its mortgage term (the term will end within two calendar years of July 31 of the year the Application is submitted).

(C) An Application for a Development that includes the demolition of the existing Units which have received the financial benefit described in subparagraph (A) of this paragraph will not qualify as an At-Risk Development unless the redevelopment will include the same site.

(D) Developments must be at risk of losing all affordability from all of the financial benefits available on the Development, provided such benefit constitutes a subsidy, described in subparagraph (A) of this paragraph on the site. However, Developments that have an opportunity to retain or renew any of the financial benefit described in subparagraph (A) of this paragraph must retain or renew all possible financial benefit to qualify as an At-Risk Development.

(E) Nearing expiration on a requirement to maintain affordability includes Developments eligible to request a qualified contract under §42 of the Code. Evidence must be provided in the form of a copy of the recorded LURA, the first years' IRS Forms 8609 for all buildings showing Part II completed and, if applicable, documentation from the original application regarding the right of first refusal.

(15) **Bedroom--**A portion of a Unit which is no less than 100 square feet; has no width or length less than 8 feet; is self contained with a door (or the unit is a “loft” design with an open sleeping area of 100 square feet or more); has at least one window that provides exterior access; and has at least one closet that is not less than 2 feet deep and 3 feet wide and high enough to accommodate 5 feet of hanging space. A den, study or other similar space that could reasonably function as a bedroom and meets this definition is considered a bedroom.

(16) **Board--**The governing Board of the Department. (§2306.004)

(17) **Carryover Allocation--**An allocation of current year tax credit authority by the Department pursuant to the provisions of the Code, §42(h)(1)(C) and Treasury Regulations, §1.42-6.

(18) **Carryover Allocation Document--**A document issued by the Department, and executed by the Development Owner, pursuant to §~~50~~49.14(a) of this chapter.

(19) **Carryover Allocation Procedures Manual--**The manual produced and amended from time to time by the Department which sets forth procedures, forms, and guidelines for filing Carryover Allocation requests.

(20) **Code--**The Internal Revenue Code of 1986, as amended from time to time, together with any applicable regulations, rules, rulings, revenue procedures, information statements or other official

pronouncements issued thereunder by the United States Department of the Treasury or the Internal Revenue Service.

(21) **Colonia--**A geographic Area that is located in a county some part of which is within 150 miles of the international border of this state, that consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood, and that (§2306.581):

(A) Has a majority population composed of individuals and families of low-income and very low-income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed Area under §17.921, Water Code; or

(B) Has the physical and economic characteristics of a colonia, as determined by the Department.

(22) **Commitment Notice--**A notice issued by the Department to a Development Owner pursuant to §~~50~~49.13 of this chapter and also referred to as the "commitment."

(23) **Community Revitalization Plan--**A published document under any name, approved and adopted by the local ~~governing body~~Governing Body by ordinance, ~~or~~ resolution, or vote that targets specific geographic areas for revitalization and development of residential developments.

(24) **Competitive Housing Tax Credits--**Tax credits available from the State Housing Credit Ceiling.

(25) **Compliance Period--**With respect to a building, the period of 15 taxable years, beginning with the first taxable year of the Credit Period pursuant to the Code, §42(i)(1).

(26) **Control--**(including the terms "Controlling," "Controlled by", and/or "under common Control with") the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any Person, whether through the ownership of voting securities, by contract or otherwise, including specifically ownership of more than 50% of the General Partner interest in a limited partnership, or designation as a managing ~~General Partner~~ member of a limited liability company.

~~(27) **Controlling or Managing General PartnerMember--**a co-owner of a business an entity who (i) owns, controls, or holds with power to vote, 10% or more of the voting stock of a corporation; (ii) is the "Manager" or "Managing Member" of a limited liability company, or (iii) is the general partner of a limited partnership; provided that such a co-owner is empowered, acting alone to can take actions on behalf of the entity that are binding on the other owners of such entity. partners and, who is liable for all debts and other obligations of the venture as well as for the management and operation of the partnership.~~

(27) **Cost Certification Procedures Manual--**The manual produced, and amended from time to time, by the Department which sets forth procedures, forms, and guidelines for filing requests for IRS Form(s) 8609 for Developments placed in service under the Housing Tax Credit Program.

(28) **Credit Period--**With respect to a building within a Development, the period of ten taxable years beginning with the taxable year the building is placed in service or, at the election of the Development Owner, the succeeding taxable year, as more fully defined in the Code, §42(f)(1).

(29) **Department--**The Texas Department of Housing and Community Affairs, an agency of the State of Texas, established by Chapter 2306, Texas Government Code, including Department employees and/or the Board. (§2306.004)

(30) **Determination Notice--**A notice issued by the Department to the Development Owner of a Tax-Exempt Bond Development which states that the Development may be eligible to claim Housing Tax Credits without receiving an allocation of Housing Tax Credits from the State Housing Credit Ceiling because it satisfies the requirements of this QAP; sets forth conditions which must be met by the Development before the Department will issue the IRS Form(s) 8609 to the Development Owner; and specifies the Department's determination as to the amount of tax credits necessary for the financial feasibility of the Development and its viability as a rent restricted Development throughout the extended use period. (§42(m)(1)(D))

(31) **Developer--**Any Person entering into a contract with the Development Owner to provide development services with respect to the Development and receiving a fee for such services (which fee cannot exceed the limits identified in §~~50~~49.9(d)(6)(B) of this chapter) and any other Person receiving any portion of such fee, whether by subcontract or otherwise.

(32) **Development--**A proposed qualified and/or approved low-income housing project, as defined by the Code, §42(g), for Adaptive Reuse, New Construction, reconstruction, or Rehabilitation, that consists of one or more buildings containing multiple Units, and that, if the Development shall consist of multiple buildings, is financed under a common plan and is owned by the same Person for federal tax purposes, and the buildings of which are either:

(A) Located on a single site or contiguous site; or

(B) Located on scattered sites and contain only rent-restricted units. (§2306.6702)

(33) **Development Consultant--**Any Person (with or without ownership interest in the Development) who provides professional services relating to the filing of an Application, Carryover Allocation Document, and/or cost certification documents.

(34) **Development Funding--**Means:

(A) a loan or grant; or

(B) an in-kind contribution, including a donation of real property, a fee waiver for a building permit or for water or sewer service, or a similar contribution that:

(i) provides an economic benefit; and

(ii) results in a quantifiable cost reduction for the applicable Development. (§2306.004(4-a))

(35) **Development Owner--**Any Person, General Partner, or Affiliate of a Person who owns or proposes a Development or expects to acquire Control of a Development under a purchase contract or ground lease approved by the Department. (§2306.6702)

(36) **Development Site--**The area, or if scattered site areas, for which the Development is proposed to be located and which is to be under the Applicant's control pursuant to §~~50~~49.9(h)(7)(A) of this chapter.

(37) **Development Team--**All Persons or Affiliates thereof that play a role in the Development, construction, Rehabilitation, management and/or continuing operation of the subject Property, which will include any Development Consultant and Guarantor.

(38) **Disaster Area--**An area that has been declared as a disaster pursuant to §418.014 of the Texas Government Code.

(39) **Economically Distressed Area--**Consistent with §17.921 of Texas Water Code, an Area in which:

(A) Water supply or sewer services are inadequate to meet minimal needs of residential users as defined by Texas Water Development Board rules;

(B) Financial resources are inadequate to provide water supply or sewer services that will satisfy those needs; and

(C) An established residential subdivision was located on June 1, 1989, as determined by the Texas Water Development Board.

(40) **Eligible Basis--**With respect to a building within a Development, the building's Eligible Basis as defined in the Code, §42~~(d)~~.

(41) **Executive Award and Review Advisory Committee ("The Committee")--**A Departmental committee ~~that will develop funding priorities and make funding and allocation recommendations to the Board based upon the evaluation of an Application in accordance with the housing priorities~~ as set forth in Chapter 2306 of the Texas Government Code~~, and as set forth herein, and the ability of an Applicant to meet those priorities~~. (§2306.1112)

(42) **Existing Residential Development--**Any Development Site which contains 4 or more existing residential Units at the time the Volume I is submitted to the Department.

(43) **Extended Housing Commitment--**An agreement between the Department, the Development Owner and all successors in interest to the Development Owner concerning the extended housing use of buildings within the Development throughout the extended use period as provided in the Code, §42(h)(6). The Extended Housing Commitment with respect to a Development is expressed in the LURA applicable to the Development.

(44) **General Contractor--**One who contracts for the construction or Rehabilitation of an entire Development, rather than a portion of the work. The General Contractor hires subcontractors, such as plumbing contractors, electrical contractors, etc., coordinates all work, and is responsible for payment to the subcontractors. This party may also be referred to as the "contractor."

(45) **General Partner--**That partner, or collective of partners, identified as the general partner of the partnership that is the Development Owner and that has general liability for the partnership. In addition, unless the context shall clearly indicate the contrary, if the Development Owner in question is a limited liability company, the term "General Partner" shall also mean the managing member or other party with management responsibility for the limited liability company.

(46) **Governing Body--**An elected city, ~~or~~ county or tribal entity that is responsible for the creation, implementation and/or enforcement of local rules and laws.

(47) **Governmental Entity--**Includes federal or state agencies, departments, boards, bureaus, commissions, authorities, and political subdivisions, special districts, tribal governments and other similar entities.

(48) **Governmental Instrumentality--**A legal entity such as a housing authority of a city or county, a housing finance corporation, or a municipal utility, or a tribal designated housing entity, which is created by a local political subdivision under statutory authority and which instrumentality is authorized to transact business for the political subdivision.

(49) **Grant--**Financial assistance that is awarded in the form of money to a housing sponsor or Development for a specific purpose and that is not required to be repaid. A Grant includes a forgivable loan. (§2306.004)

(50) **Guarantor--**Any Person that provides, or is anticipated to provide, a guaranty for the equity or debt financing for the Development.

(51) **High Opportunity Area**—an area that includes:

(A). existing ~~public transportation or~~ major bus transfer centers and/or regional or local commuter rail transportation stations that are accessible to all residents including Persons with Disabilities; or

(B). a census tract which has an AMGI that is higher than the AMGI of the county or place in which the census tract is located; or

(C). a school attendance zone that has an academic rating of "Exemplary" or "Recognized" rating (as determined by the Texas Education Agency) as of the first day of the Application Submission Acceptance Period; or

(D) a census tract that has no greater than 10% poverty population according to the most recent census data (these census tracts are designated in the 2009 Housing Tax Credit Site Demographic Characteristics Report).

(52) **Historically Underutilized Businesses (HUB)--**Any entity defined as a historically underutilized business with its principal place of business in the State of Texas in accordance with Chapter 2161, Texas Government Code.

(53) **Housing Credit Agency--**A Governmental Entity charged with the responsibility of allocating Housing Tax Credits pursuant to the Code, §42. For the purposes of this chapter, the Department is the sole "Housing Credit Agency" of the State of Texas.

(54) **Housing Credit Allocation--**An allocation by the Department to a Development Owner for a specific Application of Housing Tax Credits in accordance with the provisions of this chapter.

(55) **Housing Credit Allocation Amount--**With respect to a Development or a building within a Development, that amount the Department determines to be necessary for the financial feasibility of the Development and its viability as a Development throughout the affordability period and which it allocates to the Development.

(56) **Housing Tax Credit ("tax credits")--**A tax credit allocated, or for which a Development may qualify, under the Housing Tax Credit Program, pursuant to the Code, §42. (§2306.6702)

(57) **HUD--**The United States Department of Housing and Urban Development, or its successor.

(58) **Ineligible Building Types--**Those Developments which are ineligible, pursuant to this QAP, for funding under the Housing Tax Credit Program, as follows:

(A) Hospitals, nursing homes, trailer parks, dormitories (or other buildings that will be predominantly occupied by students) or other facilities which are usually classified as transient housing (other than certain specific types of transitional housing for the homeless and ~~single room occupancy~~Single Room Occupancy units, as provided in the Code, §42(i)(3)(B)(iii) and (iv)) are not eligible. However, structures formerly used as hospitals, nursing homes or dormitories are eligible for Housing Tax Credits if the Development involves the conversion of the building to a non-transient multifamily residential Development. Refer to IRS Revenue Ruling 98-47 for clarification of assisted living.

(B) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments of two stories or more that does not include elevator service for any Units or living space above the first floor.

(C) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments with any Units having more than two bedrooms with the exception of up to three employee Units reserved for the use of the manager, maintenance, and/or security officer. These employee Units must be specifically designated as such.

(D) Any Development with building(s) with four or more stories that does not include an elevator.

(E) Any Qualified Elderly Development or age restricted buildings in Intergenerational Housing Developments proposing more than 70% two-bedroom Units.

(F) Any Development that violates the Integrated Housing Rule of the Department, §1.15 of this title.

(G) Any Development located in an Urban Area involving any New Construction ~~or Adaptive Reuse (excluding New Construction of non-residential buildings)~~ of additional Units (other than a Qualified Elderly Development, a Development composed entirely of single family dwellings, and certain specific types of transitional housing for the homeless and ~~single room occupancy~~Single Room Occupancy units, as provided in the Code, §42(i)(3)(B)(iii) and (iv)) in which any of the designs in clauses (i) - (iv) of this subparagraph are proposed. For Applications involving a combination of single family detached dwellings and multifamily dwellings, the percentages in this subparagraph do not apply to the single family detached dwellings. For Intergenerational Housing Applications, the percentages in this subparagraph do not apply to buildings that are restricted by the age requirements of a Qualified Elderly Development. An Application may reflect a total of Units for a given bedroom size greater than the percentages in clauses (i) - (iv) of this subparagraph to the extent that the increase is only to reach the next highest number divisible by four.

(i) More than 30% of the total Units are one bedroom Units; or

(ii) More than 55% of the total Units are two bedroom Units; or

(iii) More than 40% of the total Units are three bedroom Units; or

(iv) More than 5% of the total Units in the Development with four or more bedrooms.

(H) Any Development that includes age restricted units that are not consistent with the Intergenerational Housing definition and policy or the definition of a Qualified Elderly Development.

(I) Any Development that contains residential Units ~~either designated for a single occupational group, or through a preference for a single occupational group,~~ that violates the general public use requirement under Treasury Regulation §1.42-9.

(59) **Intergenerational Housing--**Housing that includes specific Units that are restricted to the age requirements of a Qualified Elderly Development and specific Units that are not age restricted in the same Development that:

(A) Have separate and specific buildings exclusively for the age restricted Units;

(B) Have ~~separate and~~ specific leasing offices and leasing personnel ~~exclusively~~ for the age restricted Units;

(C) Have separate and specific entrances, and other appropriate security measures for the age restricted Units;

(D) Provide shared social service programs that encourage intergenerational activities but also provide separate amenities for each age group;

(E) Share the same Development Site;

(F) Are developed and financed under a common plan and owned by the same Person for federal tax purposes; and

(G) Meet the requirements of the federal Fair Housing Act.

(60) **IRS--**The Internal Revenue Service, or its successor.

(61) **Land Use Restriction Agreement (LURA)--**An agreement between the Department and the Development Owner which is binding upon the Development Owner's successors in interest, that encumbers the Development with respect to the requirements of this chapter, Chapter 2306, Texas Government Code, and the requirements of the Code, §42. (§2306.6702)

(62) **Local Political Subdivision--**A county or municipality (city or tribal reservation) in Texas. For purposes of §~~50~~49.9(i)(5) of this chapter, a local political subdivision may act through a Government Instrumentality such as a housing authority, housing finance corporation, or municipal utility even if the Government Instrumentality's creating statute states that the entity is not itself a "political subdivision."

(63) **Low-Income Unit--**sometimes referred to as a tax credit Unit, that is a Unit that is income and rent restricted at no greater than 60% of AMGI and is included in the Applicable Fraction for the Housing Tax Credit program.

(64) **Material Noncompliance--**As defined in Chapter 60, Subchapter A of this title.

(65) **Minority Owned Business--**A business entity at least 51% of which is owned by members of a minority group or, in the case of a corporation, at least 51% of the shares of which are owned by members of a minority group, and that is managed and Controlled by members of a minority group in its daily operations. Minority group includes women, African Americans, American Indians, Asian Americans, and Mexican Americans and other Americans of Hispanic origin. (§2306.6734)

(66) **Neighborhood Organization--**An organization that is composed of persons living near one another within the organization's defined boundaries for the neighborhood and that has a primary purpose of working to maintain or improve the general welfare of the neighborhood. A neighborhood organization includes a homeowners' association or a property owners' association. (§2306.001(23-a))

(67) **Net Rentable Area (NRA)--**The unit space that is available exclusively to the tenant and is typically heated and cooled by a mechanical HVAC system. NRA is measured to the outside of the studs of a unit or to the middle of walls in common with other units. NRA does not include common hallways, stairwells, elevator shafts, janitor closets, electrical closets, balconies, porches, patios, or other areas not actually available to the tenants for their furnishings, nor does NRA include the enclosing walls of such areas.

(68) **New Construction--**Any construction of a Development or a portion of a Development that does not meet the definition of Rehabilitation (which includes Reconstruction).

(69) **ORCA--**Office of Rural Community Affairs, as established by Chapter 487 of Texas Government Code.

(70) **Person--**Without limitation, any natural person, corporation, partnership, limited partnership, joint venture, limited liability company, trust, estate, association, cooperative, government, political subdivision, agency or instrumentality or other organization or entity of any nature whatsoever and shall include any group of Persons acting in concert toward a common goal, including the individual members of the group.

(71) **Persons with Disabilities--**A person who:

(A) Has a physical, mental or emotional impairment that:

(i) Is expected to be of a long, continued and indefinite duration;

(ii) Substantially impedes his or her ability to live independently; and

(iii) Is of such a nature that the disability could be improved by more suitable housing conditions;

(B) Has a developmental disability, as defined in the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. §15002); or

(C) Has a disability, as defined in 24 CFR §5.403.

(72) **Persons with Special Needs--**Persons with alcohol and/or drug addictions, Colonia residents, Persons with Disabilities, victims of domestic violence, persons with HIV/AIDS, homeless populations and migrant farm workers.

(73) **Pre-Application--**A preliminary application, in a form prescribed by the Department, filed with the Department by an Applicant prior to submission of the Application, including any required exhibits or other supporting material, as more fully described in this ~~title~~ chapter. (§2306.6704)

(74) **Pre-Application Acceptance Period--**That period of time during which Competitive Housing Tax Credit Pre-Applications for a Housing Credit Allocation from the State Housing Credit Ceiling may be submitted to the Department.

(75) **Principal--**The term Principal is defined as Persons that will exercise Control over a partnership, corporation, limited liability company, trust, or any other private entity. In the case of:

(A) Partnerships, Principals include all General Partners, Special Limited Partners and Principals with ownership interest;

(B) Corporations, Principals include any officer authorized by the board of directors to act on behalf of the corporation, including the president, vice president, secretary, treasurer and all other executive officers, and each stock holder having a 10% or more interest in the corporation; and

(C) Limited liability companies, Principals include all managing members, members having a 10% or more interest in the limited liability company or any officer authorized to act on behalf of the limited liability company.

(76) **Property--**The real estate and all improvements thereon which are the subject of the Application (including all items of personal property affixed or related thereto), whether currently existing or proposed to be built thereon in connection with the Application.

(77) **Qualified Allocation Plan (QAP)**~~--~~This Plan as adopted.

~~(A) As defined in the Code, §42(m)(1)(B): Any plan which sets forth selection criteria to be used to determine housing priorities of the housing credit agency which are appropriate to local conditions; which also gives preference in allocating housing credit dollar amounts among selected projects to projects serving the lowest-income tenants, projects obligated to serve qualified tenants for the longest periods, and projects which are located in qualified census tracts and the development of which contributes to a concerted~~

~~community revitalization plan; and which provides a procedure that the agency (or an agent or other private contractor of such agency) will follow in monitoring for noncompliance with the provisions of the Code, §42 and in notifying the Internal Revenue Service of such noncompliance which such agency becomes aware of and in monitoring for noncompliance with habitability standards through regular site visits.~~

~~(B) As defined in §2306.6702, Texas Government Code: A plan adopted by the board that provides the threshold, scoring, and underwriting criteria based on housing priorities of the Department that are appropriate to local conditions; provides a procedure for the Department, the Department's agent, or another private contractor of the Department to use in monitoring compliance with the qualified allocation plan and this subchapter; and consistent with §2306.6710(e), gives preference in Housing Tax Credit allocations to Developments that, as compared to the other Developments:~~

~~(i) When practicable and feasible based on documented, committed, and available third-party funding sources, serve the lowest-income tenants per Housing Tax Credit; and~~

~~(ii) Produce for the longest economically feasible period the greatest number of high quality units committed to remaining affordable to any tenants who are income-eligible under the low-income housing tax credit program.~~

(78) **Qualified Basis--**With respect to a building within a Development, the building's Eligible Basis multiplied by the Applicable Fraction, within the meaning of the Code, §42(c)(1).

(79) **Qualified Census Tract--**Any census tract which is so designated by the Secretary of HUD in accordance with the Code, §42(d)(5)(C)(ii).

(80) **Qualified Elderly Development--**A Development which meets the requirements of the federal Fair Housing Act and:

(A) Is intended for, and solely occupied by, individuals 62 years of age or older; or

(B) Is intended and operated for occupancy by at least one individual 55 years of age or older per Unit, where at least 80% of the total housing Units are occupied by at least one individual who is 55 years of age or older; and where the Development Owner publishes and adheres to policies and procedures which demonstrate an intent by the owner and manager to provide housing for individuals 55 years of age or older. (See 42 U.S.C. §3607(b))

(81) **Qualified Market Analyst--**A real estate appraiser certified or licensed by the Texas Appraiser Licensing and Certification Board, a real estate consultant, or other professional currently active in the subject property's market area who demonstrates competency, expertise, and the ability to render a high quality written report. The individual's performance, experience, and educational background will provide the general basis for determining competency as a Market Analyst. Competency will be determined by the Department, in its sole discretion. The Qualified Market Analyst must be a Third Party.

(82) **Qualified Nonprofit Organization--**An organization that is described in the Code, §501(c)(3) or (4), as these cited provisions may be amended from time to time, that is exempt from federal income taxation under the Code, §501(a), that is not affiliated with or Controlled by a for profit organization, and includes as one of its exempt purposes the fostering of low-income housing within the meaning of the Code, §42(h)(5)(C). A Qualified Nonprofit Organization may select to compete in one or more of the Set-Asides, including, but not limited to, the nonprofit Set-Aside, the At-Risk Development Set-Aside and the TRDO-USDA Allocation. (§2306.6729)

(83) **Qualified Nonprofit Development--**A Development in which a Qualified Nonprofit Organization (directly or through a partnership or wholly-owned subsidiary):

(A) Holds a controlling interest in the Development proposed to be financed from the nonprofit allocation pool (§2306.6729); and

(B) Owns an interest in the Development and materially participates (within the meaning of the Code, §469(h), as it may be amended from time to time) in its development and operation throughout the Compliance Period, and otherwise meets the requirements of the Code, §42(h)(5). (§2306.6729)

(84) **Reference Manual--**That certain manual, and any amendments thereto, produced by the Department which sets forth reference material pertaining to the Housing Tax Credit Program.

(85) **Rehabilitation--**The improvement or modification of an Existing Residential Development through alteration, incidental addition or enhancement. The term includes the demolition of an Existing Residential Development and the reconstruction of a Development on the Development Site, but does not include Adaptive Reuse. Rehabilitation includes repairs necessary to correct the results of deferred maintenance, the replacement of principal fixtures and components, improvements to increase the efficient use of energy, and installation of security devices. Reconstruction, for these purposes, includes the demolition of one or more

residential buildings in an Existing Residential Development and the re-construction of the Units on the Development Site. Developments proposing Adaptive Reuse or proposing to increase the total number of Units in the Existing Residential Development are not considered Rehabilitation or reconstruction.

(86) **Related Party--**As defined, (§2306.6702)

(A) The following individuals or entities:

(i) The brothers, sisters, spouse, ancestors, and descendants of a person within the third degree of consanguinity, as determined by Chapter 573, Texas Government Code;

(ii) A person and a corporation, if the person owns more than 50% of the outstanding stock of the corporation;

(iii) Two or more corporations that are connected through stock ownership with a common parent possessing more than 50% of:

(I) The total combined voting power of all classes of stock of each of the corporations that can vote;

(II) The total value of shares of all classes of stock of each of the corporations; or

(III) The total value of shares of all classes of stock of at least one of the corporations, excluding, in computing that voting power or value, stock owned directly by the other corporation;

(iv) A grantor and fiduciary of any trust;

(v) A fiduciary of one trust and a fiduciary of another trust, if the same person is a grantor of both trusts;

(vi) A fiduciary of a trust and a beneficiary of the trust;

(vii) A fiduciary of a trust and a corporation if more than 50% of the outstanding stock of the corporation is owned by or for:

(I) The trust; or

(II) A person who is a grantor of the trust.

(viii) A person or organization and an organization that is tax-exempt under the Code, §501(a), and that is controlled by that person or the person's family members or by that organization;

(ix) A corporation and a partnership or joint venture if the same persons own more than:

(I) 50% of the outstanding stock of the corporation; and

(II) 50% of the capital interest or the profits' interest in the partnership or joint venture.

(x) An S corporation and another S corporation if the same persons own more than 50% of the outstanding stock of each corporation;

(xi) An S corporation and a C corporation if the same persons own more than 50% of the outstanding stock of each corporation;

(xii) A partnership and a person or organization owning more than 50% of the capital interest or the profits' interest in that partnership; or

(xiii) Two partnerships, if the same person or organization owns more than 50% of the capital interests or profits' interests.

(B) Nothing in this definition is intended to constitute the Department's determination as to what relationship might cause entities to be considered "related" for various purposes under the Code.

(87) **Residential Rental Development--**For purposes of this definition, Residential Rental Development does not include: hotels, motels dormitories, fraternity or sorority houses, rooming houses, hospitals, nursing homes, sanitariums, rest homes, trailer parks and courts for use on a transient basis. Residential Rental Development means:

(A) A property that meets specific requirements including occupancy of Low-Income Tenants during the affordability period when Units must be continually rented or available for rent;

(B) A building or structure, together with functionally related and subordinate facilities, containing one or more Units that are available to members of the general public; and

(C) A property that does not provide continual or frequent nursing, medical or psychiatric services.

(88) **Rules--**The Department's Housing Tax Credit Program Qualified Allocation Plan and Rules as presented in this ~~title~~ chapter.

(89) **Rural Area--**An Area that is located (this definition is not the same as Rural Projects as defined in §520 of the Housing Act of 1949 for purposes of determining rural income as described in H.R 3221):

(A) Outside the boundaries of a primary metropolitan statistical area or a metropolitan statistical area;

(B) Within the boundaries of a primary metropolitan statistical area or a metropolitan statistical area, if the statistical area has a population of 25,000 or less and does not share a boundary with an Urban Area; or

(C) In an Area that is eligible for funding by Texas Rural Development Office or the United States Department of Agriculture (TRDO-USDA), other than an Area that is located in a municipality with a population of more than 50,000. (§2306.004)

(90) **Rural Development--**A Development or proposed Development that is located in a Rural Area, other than rural New Construction Developments with more than 80 Units.

(91) **Selection Criteria--**Criteria used to determine housing priorities of the State under the Housing Tax Credit Program as specifically defined in §~~50~~49.9(i) of this chapter.

(92) **Set-Aside--**A reservation of a portion of the available Housing Tax Credits under the State Housing Credit Ceiling to provide financial support for specific types of housing or geographic locations or serve specific types of Applications or Applicants as permitted by the Qualified Allocation Plan on a priority basis. (§2306.6702)

(93) **Single Room Occupancy(SRO)--**A single efficiency unit that contains sanitary facilities but may or may not include food preparation facilities and is intended for occupancy by one person.

(94) **Special Management Districts--**Those districts named under Chapters 3801 to 3853, Texas Special District Local Laws Code, Subtitle C.

(95) **State Housing Credit Ceiling--**The limitation on the aggregate amount of Housing Credit Allocations that may be made by the Department during any calendar year, as determined from time to time by the Department in accordance with the Code, §42(h)(3)(C) and/or additonal ceiling provided by The Housing and Economic Recovery Act of 2008, H.R 3221.

(96) **Student Eligibility--**Per the Code, §42(i)(3)(D), A Unit shall not fail to be treated as a low-income Unit merely because it is occupied:

(A) By an individual who is:

(i) A student and receiving assistance under Title IV of the Social Security Act (42 U.S.C. §§601 et seq.), or

(ii) Enrolled in a job training program receiving assistance under the Job Training Partnership Act (29 USCS §§1501 et seq., generally; for full classification, consult USCS Tables volumes) or under other similar Federal, State, or local laws, or

(B) Entirely by full-time students if such students are:

(i) Single parents and their children and such parents and children are not dependents (as defined by the Code §152) of another individual, or

(ii) Married and file a joint return.

(97) **Supportive Housing—**Residential Rental Developments intended for occupancy by individuals or households transitioning from homelessness, at risk of homelessness, or in need of specialized and specific social services.~~, to more stable, productive lives by offering residents an array of supportive services.~~

(98) **Tax-Exempt Bond Development--**A Development requesting or having been awarded Housing Tax Credits and which receives a portion of its financing from the proceeds of tax-exempt bonds which are subject to the state volume cap as described in the Code, §42(h)(4), such that the Development does not receive an allocation of tax credit authority from the State Housing Credit Ceiling.

(99) **Third Party--**A Third Party is a Person who is not:

(A) An Applicant, General Partner, Developer, or General Contractor; or

(B) An Affiliate or a Related Party to the Applicant, General Partner, Developer or General Contractor; or

(C) Receiving any portion of the ~~contractor fee or Developer~~ fees from the Development.

(~~92~~100) **Threshold Criteria--**Criteria used to determine whether the Development satisfies the minimum level of acceptability for consideration as specifically defined in §~~50~~49.9(h) of this chapter. (§2306.6702)

(~~93~~101) **Total Housing Development Cost--**The total of all costs incurred or to be incurred by the Development Owner in acquiring, constructing, rehabilitating and financing a Development, as determined by the Department based on the information contained in the Application. Such costs include reserves and any expenses attributable to commercial areas. Costs associated with the sale or use of Housing Tax Credits to raise equity capital shall also be included in the Total Housing Development Cost. Such costs include but are not limited to syndication and partnership organization costs and fees, filing fees, broker commissions, related attorney and accounting fees, appraisal, engineering, and the environmental site assessment.

(~~94~~102) **TRDO-USDA--**Texas Rural Development Office (TRDO) of the United States Department of Agriculture (USDA) serving the State of Texas (also known as USDA Rural Development and formerly known as TxFmHA) or its successor.

(~~95~~103) **Unit--**Any residential rental unit consisting of an accommodation including a single room used as an accommodation on a non-transient basis, that contains complete physical facilities and fixtures for living, sleeping, eating, cooking (such as a microwave), and sanitation. (§2306.6702) ~~For purposes of completing the Rent Schedule for loft or studio type Units (which still must meet the definition of Bedroom), a Unit with 649 square feet or less is considered an efficiency Unit, a Unit with 650 to 899 square feet is considered not more than a one-bedroom Unit, a Unit with 900 to 999 square feet is considered not more than a two-bedroom Unit, a Unit with 1000 to 1199 square feet is considered not more than a three-bedroom Unit, and a Unit with 1200 square feet or more is considered a four bedroom Unit.~~

(~~96~~104) **Urban Area--**The Area that is located within the boundaries of a primary metropolitan statistical area or a metropolitan statistical area other than an Area described in paragraph (89)(B) of this section or eligible for funding as described in paragraph (89)(C) of this section.

(105) **Urban Core--**A compact and contiguous geographical area that is composed of adjacent block groups ~~census tracts of a municipality~~ in which at least 90 percent of the land not in public ownership is ~~used or~~ zoned to accommodate a mix of medium or high density residential and ~~for~~ commercial uses within the same zoning district. ~~purposes and that has historically been the primary location in the municipality where business has been transacted, as well as those census tracts that are contiguous to such areas.~~

§~~50~~49.4. State Housing Credit Ceiling.

The Department shall determine the State Housing Credit Ceiling for each calendar year as provided in the Code, §42(h)(3)(C), using such information and guidance as may be made available by the Internal Revenue Service and/or The Housing and Economic Recovery Act of 2008, H.R. 3221 and H.R. 1424. The Department shall publish each such determination in the Texas Register within 30 days after the receipt of such information as is required for that purpose by the Internal Revenue Service. The aggregate amount of commitments of Housing Credit Allocations made by the Department during any calendar year shall not exceed the State Housing Credit Ceiling for such year as provided in the Code, §42. As permitted by the Code, §42(h)(4), Housing Credit Allocations made to Tax-Exempt Bond Developments are not included in the State Housing Credit Ceiling.

§~~50~~49.5. Ineligibility; Disqualification and Debarment; Certain Applicant and Development Standards; Representation by Former Board Member or Other Person; Due Diligence, Sworn Affidavit; Appeals and Administrative Deficiencies for Ineligibility, Disqualification and Debarment.

(a) **Ineligibility.** An Application is ineligible if:

(1) The Applicant, Development Owner, Developer or Guarantor has been or is barred, suspended, or terminated from procurement in a state or federal program or listed in the List of Parties Excluded from Federal Procurement or Non-Procurement Programs; or (§2306.6721(c)(2))

(2) The Applicant, Development Owner, Developer or Guarantor has been convicted of a state or federal felony crime involving fraud, bribery, theft, misrepresentation of material fact, misappropriation of funds, or other similar criminal offenses within fifteen years preceding the Application deadline; or

(3) The Applicant, Development Owner, Developer or Guarantor at the time of Application is: subject to an enforcement or disciplinary action under state or federal securities law or by the NASD; is subject to a federal tax lien; or is the subject of an enforcement proceeding with any Governmental Entity; or

(4) The Applicant, Development Owner, Developer or Guarantor with any past due audits has not submitted those past due audits to the Department in a satisfactory format. A Person is not eligible to receive a commitment of Housing Tax Credits from the Department if any audit finding or questioned or disallowed cost is unresolved as of June 1 of each year, or for Tax-Exempt Bond Developments or other Applications not applying for Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) no later than 30 days after Volume III of the Application is submitted; or

(5) (§2306.6703(a)(1)). At the time of Application or at any time during the two-year period preceding the date the Application Round begins (or for Tax-Exempt Bond Developments any time during the two-year period preceding the date the Application is submitted to the Department), the Applicant or a Related Party is or has been:

(A) A member of the Board; or

(B) The Executive Director, a Deputy Executive Director, the Director of Multifamily Finance Production, the Director of Portfolio Management and Compliance, the Director of Real Estate Analysis, or a manager over Housing Tax Credits employed by the Department.

(6) (§2306.6703(a)(2)). The Applicant proposes to replace in less than 15 years any private activity bond financing of the Development described by the Application, unless:

(A) The Applicant proposes to maintain for a period of 30 years or more 100% of the Development Units supported by Housing Tax Credits as rent-restricted and exclusively for occupancy by individuals and families earning not more than 50% of the Area Median Gross Income, adjusted for family size; and

(B) At least one-third of all the units in the Development are public housing units or Section 8 Development-based units; or,

(7) The Development is located in a municipality or in a valid Extra Territorial Jurisdiction (ETJ) of a municipality, or if located completely outside a municipality, a county, that has more than twice the state average of units per capita supported by Housing Tax Credits or private activity bonds at the time the Application Round begins (or for Tax-Exempt Bond Developments at the time the reservation is made by the Texas Bond Review Board) unless the Applicant: (§2306.6703(a)(4))

(A) Has obtained prior approval of the Development from the ~~governing body~~Governing Body of the appropriate municipality or county containing the Development; and

(B) Has included in the Application a written statement of support from that ~~governing body~~Governing Body. This statement must reference this rule and authorize an allocation of Housing Tax Credits for the Development;

(C) For purposes of this paragraph, evidence under subparagraphs (A) and (B) of this paragraph must be received by the Department no later than April 1, ~~2008~~2009 (or for Tax-Exempt Bond Developments no later than 14 days before the Board meeting where the credits will be considered) and may not be more than one year old from the date the Volume 1 is submitted to the Department; or

(8) The Applicant proposes to construct a new Development proposing New Construction or Adaptive Reuse (excluding New Construction of non-residential buildings) that is located one linear mile (measured by a straight line on a map) or less from a Development that: (§2306.6703(a)(3))

(A) Serves the same type of household as the new Development, regardless of whether the Development serves families, elderly individuals, or another type of household (Intergenerational Housing is not a type of household as it relates to this restriction); and

(B) Has received an allocation of Housing Tax Credits (including Tax-Exempt Bond Developments) for any New Construction at any time during the three-year period preceding the date the Application Round begins (or for Tax-Exempt Bond Developments the three-year period preceding the date the Volume I is submitted); and

(C) Has not been withdrawn or terminated from the Housing Tax Credit Program.

(D) An Application is not ineligible under this paragraph if:

(i) The Development is using federal HOPE VI funds received through the United States Department of Housing and Urban Development; locally approved funds received from a public improvement district or a tax increment financing district; funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. §§12701 et seq.); or funds provided to the state and participating jurisdictions under the Housing and Community Development Act of 1974 (42 U.S.C. §§5301 et seq.); or

(ii) The Development is located in a county with a population of less than one million; or

(iii) The Development is located outside of a metropolitan statistical area; or

(iv) The ~~local government~~ Governing Body where the Development is to be located has by vote specifically allowed the construction of a new Development located within one linear mile or less from a Development described under subparagraphs (A) - (C) of this paragraph. For purposes of this clause, evidence of the ~~local government~~ Governing Body vote or evidence required by this subparagraph must be received by the Department no later than April 1, ~~2008~~2009 (or for Tax-Exempt Bond Developments no later than 14 days before the Board meeting where the credits will be committed) and may not be more than one year old.

(E) In determining ~~the age of~~when an existing Development received an allocation as it relates to the application of the three-year period, the Development will be considered from the date the Board took action on approving the allocation of tax credits. In dealing with ties between two or more Developments as it relates to this rule, refer to §~~50~~49.9(j) of this chapter.

(9) A Development is proposed to be located adjacent to or within 300 feet of a sexually-orirented business. For purposes of this paragraph, a sexually-oriented business shall be defined as stated in §243.002 of the Texas Government Code.

(~~9~~10) A submitted Application has an entire Volume of the Application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review can not reasonably be performed by the Department, as determined by the Department. If an Application is determined ineligible pursuant to this subsection, the Application will be terminated without being processed as an Administrative Deficiency. To the extent that a review was able to be performed, specific reasons for the Department's determination of ineligibly will be included in the termination letter to the Applicant.

(b) **Disqualification and Debarment.** The Department will disqualify an Application, and/or debar a Person, if it is determined by the Department that any issues identified in the paragraphs of this subsection exist. The Department may debar a Person for one year from the date of debarment, or until the violation causing the debarment has been remedied, whichever term is longer, if the Department determines the facts warrant it. Causes for disqualification and debarment include: (§2306.6721)

(1) The provision of fraudulent information, knowingly falsified documentation, or other intentional or negligent material misrepresentation in the Application or other information submitted to the Department at any stage of the evaluation or approval process; or

(2) The Applicant, Development Owner, Developer or Guarantor or anyone that has Controlling ownership interest in the Development Owner, Developer or Guarantor, or any Affiliate of such entities that is active in the ownership or Control of one or more other rent restricted rental housing properties in the state of Texas administered by the Department is in Material Noncompliance with the LURA (or any other document containing an Extended Housing Commitment) or the program rules in effect for such property as further described in Chapter 60 of this title on May 1, ~~2008~~2009 for Competitive Housing Tax Credit Applications or for Tax-Exempt Bond Development Applications or other Applications not applying for Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) no later than 30 days after Volume III of the Application is submitted (§2306.6721(c)(3)); or

(3) The Applicant, Development Owner, Developer, or any Guarantor, anyone that has Controlling ownership interest in the Development Owner, Developer or Guarantor, or any Affiliate of such entity that is active in the ownership or Control has been a Principal of any entity that failed to make all loan payments to the Department in accordance with the terms of the loan, as amended, or was otherwise in default with any provisions of any loans from the Department; or

(4) The Applicant or the Development Owner that is active in the ownership or Control of one or more tax credit properties in the state of Texas has failed to pay in full any fees or penalties within 30 days of when they were billed by the Department, as further described in §~~50~~49.20 of this chapter; or

(5) An Applicant or a Related Party and any Person who is active in the construction, Rehabilitation, ownership, or Control of the proposed Development, including a General Partner or contractor, and a Principal or Affiliate of a General Partner or contractor, or an individual employed as a consultant, lobbyist or attorney by an Applicant or a Related Party, communicates with any Board member during the period of time beginning on the date Applications are filed in an Application Round and ending on the date the Board makes a final decision with respect to the approval of any Application in that Application Round, unless the communication takes place at any board meeting or public hearing held with respect to that Application but not during a recess or other non-record portion of the meeting or hearing. Communication with Department staff must be in accordance with §~~50~~49.9(b) of this chapter; violation of the communication restrictions of §~~50~~49.9(b) is also a basis for disqualification and/or debarment. (§2306.1113)

(6) It is determined by the Department's General Counsel that there is evidence that establishes probable cause to believe that an Applicant, Development Owner, Developer, or any of their employees or agents has violated a state revolving door or other standard of conduct or conflict of interest statute, including §2306.6733, Texas Government Code, or a section of Chapter 572, Texas Government Code, in making, advancing, or supporting the Application.

(7) Applicants may be ineligible as further described in §~~50~~49.5 of this chapter.

(8) The Applicant, Development Owner, Developer, Guarantor, or any Affiliate of such entity whose previous funding contracts or commitments have been partially or fully deobligated due to a failure to meet contractual obligations during the 12 months prior to the submission of the applications.

(9) The Applicant, Development Owner, Developer, Guarantor, or any Affiliate of such entity whose pre-development award from the Department has not been repaid for the Development at the time of Carryover Allocation or Bond closing.

(c) **Certain Applicant and Development Standards.** Notwithstanding any other provision of this ~~section~~chapter, the Department may not allocate tax credits to a Development proposed by an Applicant if the Department determines that: (§2306.223)

(1) The Development is not necessary to provide needed decent, safe, and sanitary housing at rental prices that individuals or families of low and very low-income or families of moderate income can afford;

(2) The Development Owner undertaking the proposed Development will not supply well-planned and well-designed housing for individuals or families of low and very low-income or families of moderate income;

(3) The Development Owner is not financially responsible;

(4) The Development Owner has contracted, or will contract for the proposed Development with, a Developer that:

(A) Is on the Department's debarred list, including any parts of that list that are derived from the debarred list of the United States Department of Housing and Urban Development;

(B) Has breached a contract with a public agency and failed to cure that breach; or

(C) Misrepresented to a subcontractor the extent to which the Developer has benefited from contracts or financial assistance that has been awarded by a public agency, including the scope of the Developer's participation in contracts with the agency and the amount of financial assistance awarded to the Developer by the agency;

(5) The financing of the housing Development is not a public purpose and will not provide a public benefit; and/or

(6) The Development will be undertaken outside the authority granted by this chapter to the Department and the Development Owner.

(d) **Representation by Former Board Member or Other Person.** (§2306.6733)

(1) A former Board member or a former executive director, deputy executive director, director of multifamily finance production, director of portfolio management and compliance, director of real estate analysis or manager over Housing Tax Credits previously employed by the Department may not:

(A) For compensation, represent an Applicant or one of its Related Parties for an allocation of tax credits before the second anniversary of the date that the Board member's, director's, or manager's service in office or employment with the Department ceased; or

(B) Represent any Applicant or a Related Party of an Applicant or receive compensation for services rendered on behalf of any Applicant or Related Party regarding the consideration of an Application in which the former board member, director, or manager participated during the period of service in office or employment with the Department, either through personal involvement or because the matter was within the scope of the board member's, director's, or manager's official responsibility; or for compensation, communicate directly with a member of the legislative branch to influence legislation on behalf of an Applicant or Related Party before the second anniversary of the date that the board member's, director's, or manager's service in office or employment with the Department ceased.

(2) A Person commits a criminal offense if the Person violates §2306.6733. An offense under this section is a Class A misdemeanor.

(e) **Due Diligence, Sworn Affidavit.** In exercising due diligence in considering information of possible ineligibility, possible grounds for disqualification and debarment, Applicant and Development standards, possible improper representation or compensation, or similar matters, the Department may request a sworn affidavit or affidavits from the Applicant, Development Owner, Developer, Guarantor, or other Persons addressing the matter. If an affidavit determined to be sufficient by the Department is not received by the

Department within seven business days of the date of the request by the Department, the Department may terminate the Application.

(f) **Appeals and Administrative Deficiencies for Ineligibility, Disqualification and Debarment.** An Applicant or Person found ineligible, disqualified, debarred or otherwise terminated under subsections (a) - (e) of this section will be notified in accordance with the Administrative Deficiency process described in §~~50~~49.9(d)(4) of this chapter. They may also utilize the appeals process described in §~~50~~49.17(b) of this chapter. (§2306.6721(d))

§~~50~~49.6. Site and Development Restrictions: Floodplain; Ineligible Building Types; Scattered Site Limitations; Credit Amount; Limitations on the Size of Developments; Limitations on Rehabilitation Costs; Unacceptable Sites; Appeals and Administrative Deficiencies for Site and Development Restrictions.

(a) **Floodplain.** Any Development proposing New Construction or Reconstruction and located within the 100 year floodplain as identified by the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps must develop the site so that all finished ground floor elevations are at least one foot above the flood plain and parking and drive areas are no lower than six inches below the floodplain, subject to more stringent local requirements. If no FEMA Flood Insurance Rate Maps are available for the proposed Development, flood zone documentation must be provided from the local government with jurisdiction identifying the 100 year floodplain. No buildings or roads that are part of a Development proposing Rehabilitation or Adaptive Reuse, with the exception of Developments with federal funding assistance from HUD or TX USDA-RHS, will be permitted in the 100 year floodplain unless they already meet the requirements established in this subsection for New Construction.

(b) **Ineligible Building Types.** Applications involving Ineligible Building Types as defined in §~~50~~49.3(56) of this chapter will not be considered for allocation of tax credits.

(c) **Scattered Site Limitations.** Consistent with §~~50~~49.3(32) of this chapter, a Development must be financed under a common plan, be owned by the same Person for federal tax purposes, and the buildings may be either located on a single site or contiguous site, or be located on scattered sites and contain only rent-restricted units. Tax-Exempt Bond Developments are permitted to be located on multiple sites consistent with Chapter 1372, Texas Government Code and as further clarified by the Texas Bond Review Board.

(d) **Credit Amount.** The Department shall issue tax credits only in the amount needed for the financial feasibility and viability of a Development throughout the affordability period. The issuance of tax credits or the determination of any allocation amount in no way represents or purports to warrant the feasibility or viability of the Development by the Department, or that the Development will qualify for and be able to claim Housing Tax Credits. The Department will limit the allocation of tax credits to no more than $~~1.2~~1.4 million per Development~~, adjusted annually for CPI (consumer price index) and published once each year in the Application Reference Manual prior to the Application Round~~. In order to encourage Rehabilitation and reconstruction, the $1.4 million credit limitation will not apply to the 4% competitive tax credits for which such a development may qualify. The Department shall not allocate more than $2 million of tax credits in any given Application Round to any Applicant, Developer, Related Party or Guarantor; Competitive Housing Tax Credits approved by the Board during the ~~2008~~2009 calendar year, including commitments from the ~~2008~~2009 Credit Ceiling and forward commitments from the ~~2009~~2010 Credit Ceiling, are applied to the credit cap limitation for the ~~2008~~2009 Application Round. In order to evaluate this $2 million limitation, Nonprofit entities, public housing authorities, publicly traded corporations, individual board members, and executive directors must provide the documentation required in the Application with regard to this requirement. In order to encourage the capacity enhancement of inexperienced Developers, the Department will prorate the credit amount allocated in situations where an Application is submitted in the either the Rural Regional Allocation or the Urban Regional Allocation. The Department will prorate the credits based on the percentage ownership, if there is an ownership interest, or the proportional percentage of the Developer fee received, if this applies to a Developer without an ownership interest. To be considered for this provision, a copy of a Joint Venture Agreement and narrative on how this builds the capacity of the inexperienced Developers is required. Tax-

Exempt Bond Development Applications are not subject to these Housing Tax Credit limitations, and Tax-Exempt Bond Development Applications will not count towards the total limit on tax credits per Applicant. The limitation does not apply (§2306.6711(b)):

(1) To an entity which raises or provides equity for one or more Developments, solely with respect to its actions in raising or providing equity for such Developments (including syndication related activities as agent on behalf of investors);

(2) To the provision by an entity of "qualified commercial financing" within the meaning of the Code (without regard to the 80% limitation thereof);

(3) To a Qualified Nonprofit Organization or other not-for-profit entity, to the extent that the participation in a Development by such organization consists only of the provision of loan funds, grants or social services; and

(4) To a Development Consultant with respect to the provision of consulting services, provided the Development Consultant fee received for such services does not exceed 10% of the fee to be paid to the Developer (or 20% for Qualified Nonprofit Developments), or $150,000, whichever is greater.

(e) **Limitations on the Size of Developments.**

(1) The minimum Development size will be 16 Units if the Development involves Housing Tax Credits. The minimum Development size will be 4 Units if the funding source only involves the Housing Trust Fund or HOME Program.

(2) Rural Developments involving any New Construction or Adaptive Reuse (excluding New Construction of non-residential buildings) will be limited to 80 Units (this includes individual Tax-Exempt Bond Developments). Rural Developments involving only Rehabilitation (excluding reconstruction) do not have a ~~size~~ limitation as to the number of Units.

(3) Urban Developments involving any New Construction or Adaptive Reuse (excluding New Construction of non-residential buildings), in the Competitive Housing Tax Credit Application Round will be limited to 252 total Units, wherein the maximum Department administered Units will be limited to 200 Units. Tax-Exempt Bond Developments will be limited to 252 restricted and total Units. These maximum Unit limitations also apply to those Developments which involve a combination of Rehabilitation, Reconstruction, and New Construction. Only Developments that consist solely of acquisition/Rehabilitation or Rehabilitation may exceed the maximum Unit restrictions.

(4) For Applications that are proposing an additional phase to an existing tax credit Development; ~~or~~ that are otherwise adjacent to an existing tax credit Development; or that are proposing a Development on a contiguous site to another Application awarded in the same program year, the combined Unit total for the existing and proposed Developments may not exceed the maximum allowable Development size set forth in this subsection unless:

(A) the first phase of the Development has been completed and has attained Sustaining Occupancy (as defined in §1.31 of this title) for at least six months; or

(B) a resolution from the ~~governing body~~Governing Body of the city or county in which the proposed Development is located, dated on or before the date the Application is submitted, is submitted with the Application. Such resolution must state that there is a need for additional Units and that the ~~governing body~~Governing Body has reviewed a market study, the conclusion of which supports the need for additional Units; or

(C) the proposed Development is intended to provide replacement of previously existing affordable Units on the Development Site or that were originally located within a one mile radius from the Development Site; provided, however, the combined number of Units in the proposed Development may not exceed the number of Units being replaced. Documentation of such replacement units must be provided.

(f) **Limitations on the Location of Developments.** Staff will only recommend, and the Board may only allocate, Housing Tax Credits from the State Housing Credit Ceiling to more than one Development from the State Housing Credit Ceiling in the same calendar year if the Developments are, or will be, located more than one linear mile apart as determined by the Department. If the Board forward commits credits from the following year's State Housing Credit Ceiling, the Development is considered to be in the calendar year in which the Board votes, not in the year of the State Housing Credit Ceiling. This limitation applies only to communities contained within counties with populations exceeding one million (which for calendar year ~~2008~~2009 are Harris, Dallas, Tarrant and Bexar Counties). For purposes of this ~~rule~~chapter, any two sites not more than one linear mile apart are deemed to be "in a single community." (§2306.6711(f)). This restriction does not apply to the allocation of Housing Tax Credits to Developments financed through the Tax-Exempt Bond program, including the Tax-Exempt Bond Development Applications under review and existing Tax-Exempt Bond Developments in the Department's portfolio. (§2306.67021)

(g) **Limitations of Development in Certain Census Tracts.** Staff will not recommend and the Board will not allocate Housing Tax Credits for a Competitive Housing Tax Credit or Tax-Exempt Bond Development located in a census tract that has more than 30% Housing Tax Credit Units per total households in the census tract as established by the U.S. Census Bureau for the most recent Decennial Census unless the Applicant:

(1) In an Area whose population is less than 100,000;

(2) Proposes only reconstruction or Rehabilitation (excluding New Construction of non-residential buildings); or,

(3) Submits to the Department an approval of the Development referencing this rule in the form of a resolution from the ~~g~~Governing ~~b~~Body of the appropriate municipality or county containing the Development. For purposes of this paragraph, evidence of the local government approval must be received by the Department no later than April 1, ~~2008~~2009 for Competitive Housing Tax Credit Applications (or for Tax-Exempt Bond Development Applications no later than 14 days before the Board meeting where the credits will be committed). These ineligible census tracts are outlined in the ~~2008~~2009 Housing Tax Credit Site Demographic Characteristics Report.

(h) **~~Limitations on~~ Developments Proposing to Qualify for a 30% increase in Eligible Basis.** Staff will only recommend a 30% increase in Eligible Basis (pargraphs (3) and (4) of this subsection only apply to Competitive Housing Tax Credits allocated from the State Credit Ceiling) if:

(1) ~~If t~~The Development proposing to build in a Hurricane Rita Gulf Opportunity Zone (Rita GO Zone), which was designated as a Difficult to Develop Area as determined by H.B. 4440, is able to be placed in service by December 31, 2010 (or date as revised by the Internal Revenue Service) as certified in the Application; ~~or,~~

(2) The Development is located in a Qualified Census Tract that has less than 40% Housing Tax Credit Units per households in the tract as established by the U.S. Census Bureau for the most recent Decennial Census. Developments located in a Qualified Census Tract that has in excess of 40% Housing Tax Credit Units per households in the tract are not eligible to qualify for a 30% increase in Eligible Basis, which would otherwise be available for the Development Site pursuant to the Code, §42(d)(5)(C), unless the Development is proposing only Reconstruction or Rehabilitation (excluding New Construction of non-residential buildings). These ineligible Qualified Census Tracts are outlined in the ~~2008~~2009 Housing Tax Credit Site Demographic Characteristics Report;

(3) The Development qualifies for and receives Renewable Energy Tax Credits. For purposes of this paragraph, the Application will be required to include an architect's letter or contractor bid as evidence that the Applicant will be eligible to request Renewable Energy Tax Credits in its income tax filings.~~evidence that an application for the Renewable Energy Tax Credits has been submitted to the appropriate agency and~~ Applicant will be required to show proof of receipt of the Renewable Energy Tax Credits at the time of Cost Certification; or

(4) Pursuant to the authority granted by H.R. 3221, the Development meets one of the criteria described in subparagraphs (A)-(D) of this paragraph:~~.~~

(A) Rural Developments located in a census tract that has not received an award of Housing Tax Credits or Tax-Exempt Bonds (serving the same population type as proposed) in the last five years from the date of the Application Acceptance Period;

(B) Developments proposing at least 50% of the total number of Units for Supportive Housing;

(C) Developments proposing to provide 10% of the Low-Income Units, that will serve individuals and families at or below 30% of AMGI, in excess of those that are proposed in §49.9(i)(3) of this chapter; or

(D) Developments proposed in High Opportunity Areas as provided in clauses (i)-(iv) of this subparagraph:

(i) A Development that is proposed to be located within one-quarter mile of existing major bus transfer centers and/or regional or local rail transportation stations ~~public transportation or commuter rail transportation stations~~ that are accessible to all residents including Persons with Disabilities;

(ii) A Development that is proposed to be located in a census tract which has an AMGI that is higher than the AMGI of the county or place in which the census tract is located as of the first day of the Application Acceptance Period;

(iii) A Development (serving families with children) that is proposed to be located in a school attendance zone that has an academic rating of "Exemplary" or "Recognized" rating (as determined by the Texas Education Agency) as of the first day of the Application Submission Acceptance Period; or

(iv) A Development that is proposed in a census tract that has no greater than 10% poverty population according to the most recent census data (these census tracts are designated in the 2009 Housing Tax Credit Site Demographic Characteristics Report).

(5) The Development proposing to build in a Hurricane Ike eligible county as designated by the Emergency Economic Stabilization Act of 2008, H.R. 1424 and Presidential Declaration FEMA-1791-DR and is able to place in service by December 31, 2012 (or the date as revised by the Internal Revenue Service) as certified in the Application.

(i) **Rehabilitation Costs.** Developments involving Rehabilitation must establish that the Rehabilitation will substantially improve the condition of the housing and will involve at least $~~12,000~~15,000 per Unit in direct hard costs (including site work, contingency, contractor profit, overhead and general requirements) unless financed with TRDO-USDA in which case the minimum is $~~6,000~~9,000.

(j) **Unacceptable Sites.** Developments will be ineligible if the Development is located on a site that is determined to be unacceptable by the Department.

(k) **Appeals and Administrative Deficiencies for Site and Development Restrictions.** An Application or Development found to be in violation under subsections (a) - (j) of this section will be notified in accordance with the Administrative Deficiency process described in §~~50~~49.9(d)(4) of this chapter. They may also utilize the appeals process described in §~~50~~49.17(b) of this chapter.

§~~50~~49.7. Regional Allocation Formula; Set-Asides; Redistribution of Credits.

(a) **Regional Allocation Formula.** §2306.1115 as required by §2306.111(d), Texas Government Code, the Department uses a regional distribution formula developed by the Department and commented on by the public to distribute credits from the State Housing Credit Ceiling to all Urban Areas and Rural Areas. This formula establishes separate targeted tax credit amounts for Rural Areas and Urban Areas within each of the Uniform State Service Regions. Each Uniform State Service Region's targeted tax credit amount will be published on the Department's web site. The regional allocation for Rural Areas is referred to as the Rural Regional Allocation and the regional allocation for Urban Areas is referred to as the Urban Regional Allocation. Developments qualifying for the Rural Regional Allocation must meet the Rural Development definition. The Regional Allocation target will reflect that at least 20% of the State Housing Credit Ceiling for each calendar year shall be allocated to Developments in Rural Areas with a minimum of $500,000 for each Uniform State Service Region. (§2306.111(d)(3))

(b) **Set-Asides.** An Applicant may elect to compete in as many of the following Set-Asides for which the proposed Development qualifies (§2306.111(d)):

(1) At least 10% of the State Housing Credit Ceiling for each calendar year shall be allocated to Qualified Nonprofit Developments which meet the requirements of the Code, §42(h)(5). Qualified Nonprofit Organizations must have the Controlling interest in the Qualified Nonprofit Development applying for this Set-Aside. If the Application is filed on behalf of a limited partnership, the Qualified Nonprofit Organization must be the controlling managing General Partner. If the Application is filed on behalf of a limited liability company, the Qualified Nonprofit Organization must be the controlling Managing Member. Additionally, a Qualified Nonprofit Development submitting an Application in the nonprofit Set-Aside must have the nonprofit entity or its nonprofit Affiliate or subsidiary be the Developer or a co-Developer as evidenced in the development agreement. (§2306.6729 and §2306.6706(b))

(2) At least 5% of the State Housing Credit Ceiling for each calendar year shall be allocated to Developments which are financed through TRDO-USDA, that meet the definition of a Rural Development, do not

exceed 80 Units if proposing any New Construction (excluding New Construction of non-residential buildings), and have filed an "Intent to Request ~~2008~~2009 Housing Tax Credits" form by the Pre-Application submission deadline. (§2306.111(d)(2) If an Application in this Set-Aside involves Rehabilitation it will be attributed to, and come from the, At-Risk Development Set-Aside; if an Application in this Set-Aside involves New Construction it will be attributed to and come from the applicable Uniform State Service Region. Developments financed through TRDO-USDA's §538 Guaranteed Rural Rental Housing Program, in whole or in part, will not be considered under this Set-Aside. Any Rehabilitation or Reconstruction of an existing §515 Development that retains the §515 loan and restrictions will be considered under the At-Risk Development and TRDO-USDA Set-Asides, unless such Development is also financed through TRDO-USDA's §538 Guaranteed Rural Rental Housing Program. Commitments of ~~2008~~2009 Competitive Housing Tax Credits issued by the Board in ~~2008~~2009 will be applied to each Set-Aside, Rural Regional Allocation, Urban Regional Allocation and/or TRDO-USDA Set-Aside for the ~~2008~~2009 Application Round as appropriate.

(3) At least 15% of the State Housing Credit Ceiling for each calendar year will be allocated under the At-Risk Development Set-Aside and will be deducted from the State Housing Credit Ceiling prior to the application of the regional formula required under subsection (a) of this section. Through this Set-Aside, the Department, to the extent possible, shall allocate credits to Applications involving the preservation of Developments designated as At-Risk Developments as defined in §~~50~~49.3(14) of this chapter. (§2306.6714). To qualify as an At-Risk Development, the Applicant must provide evidence that it either is not eligible to renew, retain or preserve any portion of the financial benefit described in §~~50~~49.3(14)(A) of this chapter, or provide evidence that it will renew, retain or preserve the financial benefit described in §~~50~~49.3(14)(A) of this chapter; and must have filed an "Intent to Request ~~2008~~2009 Housing Tax Credits" form by the Pre-Application submission deadline. Up to 5% of the State Credit Ceiling associated with this Set-Aside may be given priority to Rehabilitation Developments funded with TRDO.

(c) **Redistribution of Credits.** (§2306.111(d)). If any amount of Housing Tax Credits remain after the initial commitment of Housing Tax Credits among the Set-Asides, Rural Regional Allocation and Urban Regional Allocation, the Department may redistribute the credits amongst the different regions and Set-Asides depending on the quality of Applications submitted as evaluated under the factors described in §~~50~~49.9(d) of this chapter, the need to most closely achieve regional allocation goals and then the level of demand exhibited in the Uniform State Service Regions during the Application Round, except that, if there are any tax credits set aside for Developments in a Rural Area in a specific Uniform State Service Region that remain after the allocation under §~~50~~49.9(d)(5)(C) of this chapter, those tax credits shall be made available in any other Rural Area in the state, first, and then to Developments in Urban areas of any uniform state service region. (§2306.111(d)(3)). As described in subsection (b)(1) and (2) of this section, no more than 90% of the State's Housing Credit Ceiling for the calendar year may go to Developments which are not Qualified Nonprofit Developments. If credits will be transferred from a Uniform State Service Region which does not have enough qualified Applications to meet its regional credit distribution amount, then those credits will be apportioned to the other Uniform State Service Regions.

§~~50~~49.8. Pre-Applications for Competitive Housing Tax Credits: Submission; Communication with Departments Staff; Evaluation Process; Threshold Criteria and Review; Results. (§2306.6704)

(a) **Pre-Application Submission.** Any Applicant requesting a Housing Credit Allocation may submit a Pre-Application to the Department during the Pre-Application Acceptance Period along with the required Pre-Application Fee as described in §~~50~~49.20 of this chapter. Only one Pre-Application may be submitted by an Applicant for each site under the State Housing Credit Ceiling. The Pre-Application submission is a voluntary process. While the Pre-Application Acceptance Period is open, Applicants may withdraw their Pre-Application and subsequently file a new Pre-Application utilizing the original Pre-Application Fee that was paid as long as no evaluation was performed by the Department. The Department is authorized though not required to request the Applicant to provide additional information it deems relevant to clarify information contained in the Pre-Application or to submit documentation for items it considers to be Administrative Deficiencies. The rejection of a Pre-Application shall not preclude an Applicant from submitting an Application with respect to a particular Development or site at the appropriate time.

(b) **Communication with the Department.** Applicants that submit a Pre-Application are restricted from communication with Department staff as provided in §~~50~~49.9(b) of this chapter. (§2306.1113)

(c) **Pre-Application Evaluation Process.** Eligible Pre-Applications will be evaluated for Pre-Application Threshold Criteria. Applications that are associated with a TRDO-USDA Development are not exempt from Pre-Application and are eligible to compete for the Pre-Application points further outlined in §~~50~~49.9(i)(14) of this chapter. Pre-Applications that are found to have Administrative Deficiencies will be handled in accordance with §~~50~~49.9(d)(4) of this chapter. Department review at this stage is limited and not all issues of eligibility and threshold are reviewed at Pre-Application. Acceptance by staff of a Pre-Application does not ensure that an Applicant satisfies all Application eligibility, Threshold or documentation requirements. The Department is not responsible for notifying an Applicant of potential areas of ineligibility or threshold deficiencies at the time of Pre-Application.

(d) **Pre-Application Threshold Criteria and Review.** Applicants submitting a Pre-Application will be required to submit information demonstrating their satisfaction of the Pre-Application Threshold Criteria. The Pre-Applications not meeting the Pre-Application Threshold Criteria will be terminated and the Applicant will receive a written notice to the effect that the Pre-Application Threshold Criteria have not been met. The Department shall not be responsible for the Applicant's failure to meet the Pre-Application Threshold Criteria and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Pre-Application Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. The Pre-Application Threshold Criteria include:

(1) Submission of a "Pre-Application Submission Form" and "Certification of Pre-Application Itemized Self-Score". The Applicant may not change the Self-Score unless requested by the Department in a Deficiency Notice;

(2) Evidence of property control through February ~~29~~27, ~~2008~~2009 as evidenced by the documentation required under §~~50~~49.9(h)(7)(A) of this chapter; and

(3) Evidence in the form of a certification that all of the notifications required under this paragraph have been made. Requests for Neighborhood Organizations under subparagraph (A) of this paragraph must be made by the deadlines described in that clause; notifications under subparagraph (C) of this paragraph must be made prior to the close of the Pre-Application Acceptance Period. (§2306.6704) Evidence of notification must meet the requirements identified in subparagraph (B) of this paragraph to all of the individuals and entities identified in subparagraph (B) of this paragraph. (§2306.6704)

(A) The Applicant must request a list of Neighborhood Organizations on record with the county and state whose boundaries include the proposed Development Site as follows:

(i) No later than December ~~7, 2007~~8, 2008, the Applicant must e-mail, fax or mail with registered receipt a completed "Neighborhood Organization Request" letter as provided in the Pre-Application to the local elected official for the city and county where the Development is proposed to be located. If the Development is located in an Area that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located an Area that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. If the Development is not located within a city or is located in the Extra Territorial Jurisdiction (ETJ) of a city, the county local elected official must be contacted. In the event that local elected officials refer the Applicant to another source, the Applicant must request Neighborhood Organizations from that source in the same format.

(ii) If no reply letter is received from the local elected officials by January 1, ~~2008~~2009, then the Applicant must certify to that fact in the "Pre-Application Notification Certification Form" provided in the Pre-Application.

(iii) The Applicant must list all Neighborhood Organizations on record with the county or state whose boundaries include the proposed Development Site as provided by the local elected officials, or that the Applicant has knowledge of as of Pre-Application Submission in the "Pre-Application Notification Certification Form" provided in the Pre-Application.

(B) Not later than the date the Pre-Application is submitted, notification must be sent to all of the following individuals and entities by e-mail, fax or mail with registered receipt return or similar tracking mechanism in the format required in the "Pre-Application Notification Template" provided in the Pre-Application. Developments located in an Extra Territorial Jurisdiction (ETJ) of a city are not required to notify city officials, however, are required to notify county officials. Evidence of Notification is required in the form of a certification in the "Pre-Application Notification Certification Form" provided in the Pre-Application, although it is encouraged that Applicants retain proof of delivery of the notifications, to the persons or entities prescribed in clauses (i) – (ix) of this paragraph, in the event that the Department requires proof of Notification. Evidence of proof of delivery is demonstrated by signed receipt for mail or courier delivery and confirmation of receipt by the recipient for facsimile and electronic mail. Officials to be notified are those officials in office at the time the Pre-Application is submitted.

(i) Neighborhood Organizations on record with the ~~city,~~ state or county whose boundaries include the proposed Development Site as identified in subparagraph (A)(iii) of this paragraph;

(ii) Superintendent of the school district containing the Development;

(iii) Presiding officer of the board of trustees of the school district containing the Development;

(iv) Mayor of any municipality containing the Development;

(v) All elected members of the ~~governing body~~Governing Body of any municipality containing the Development;

(vi) Presiding officer of the ~~governing body~~Governing Body of the county containing the Development;

(vii) All elected members of the ~~governing body~~Governing Body of the county containing the Development;

(viii) State senator of the district containing the Development; and

(ix) State representative of the district containing the Development.

(C) Each such notice must include, at a minimum, all of the following:

(i) The Applicant's name, address, individual contact name and phone number;

(ii) The Development name, address, city and county;

(iii) A statement informing the entity or individual being notified that the Applicant is submitting a request for Housing Tax Credits with the Texas Department of Housing and Community Affairs;

(iv) Statement of whether the Development proposes New Construction, reconstruction, Adaptive Reuse or Rehabilitation;

(v) The type of Development being proposed (single family homes, duplex, apartments, townhomes, high-rise etc.) and population being served (family, Intergenerational Housing, or elderly);

(vi) The approximate total number of Units and approximate total number of low-income Units;

(vii) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the approximate percentage of Units that are market rate;

(viii) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Pre-Application, which are subject to change as annual changes in the area median income occur; and

(ix) The expected completion date if credits are awarded.

(e) **Pre-Application Results.** Only Pre-Applications which have satisfied all of the Pre-Application Threshold Criteria requirements set forth in subsection (d) of this section and §~~50~~49.9(i)(14) of this chapter, will be eligible for Pre-Application points. The order and scores of those Developments released on the Pre-Application Submission Log do not represent a commitment on the part of the Department or the Board to allocate tax credits to any Development and the Department bears no liability for decisions made by Applicants based on the results of the Pre-Application Submission Log. Inclusion of a Development on the Pre-Application Submission Log does not ensure that an Applicant will receive points for a Pre-Application.

§~~50~~49.9. Application: Submission; Ex Parte Communications; Adherence to Obligations; Evaluation Process for Competitive Applications Under the State Housing Credit Ceiling; Evaluation Process for Tax-Exempt Bond Development Applications; Evaluation Process for Rural Rescue Applications Under the ~~2009~~ 2010 Credit Ceiling; Experience Pre-Certification Procedures; Threshold Criteria; Selection Criteria; Tiebreaker Factors; Staff Recommendations.

(a) **Application Submission.** Any Applicant requesting a Housing Credit Allocation or a Determination Notice must submit an Application, and the required Application fee as described in §~~50~~49.20 of this chapter, to the Department during the Application Acceptance Period. Only complete Applications will be accepted. All required volumes must be ~~appropriately bound~~ submitted as required by the Application Submission Procedures Manual and fully complete for submission with all required copies and received by the Department not later than 5:00 p.m. on the date the Application is due. A ~~searchable~~bookmarked electronic copy of all required volumes and exhibits, unless otherwise indicated in the Application Submission Procedures Manual, must be submitted in the format of a single file presented in the order ~~they appear in the hard copy of the complete Application~~as required by the Application Submission Procedures Manual on a CD-R (non-rewritable) clearly labeled with the report type, Development name, and Development location is required for submission and must be received by the Department not later than 5:00 p.m. on the date the Application is due. Only one Application may be submitted for a site in an Application Round. While the Application Acceptance Period is open, an Applicant may withdraw an Application and subsequently file a new Application utilizing the original Pre-Application Fee that was paid as long as no evaluation was performed by the Department. The Department is authorized, but not required, to request the Applicant to provide additional information it deems relevant to clarify information contained in the Application or to submit documentation for items it considers to be an Administrative Deficiency, including ineligibility criteria, site and development restrictions, and threshold and selection criteria documentation. (§2306.6708) An Applicant may not change or supplement any part of an Application in any manner after the filing deadline, and may not add any Set-Asides, increase the requested credit amount, or revise the Unit mix (both income levels and bedroom mixes), except in response to a direct request from the Department to remedy an Administrative Deficiency as further described in §~~50~~49.3(2) of this chapter or by amendment of an Application after a commitment or allocation of tax credits as further described in §~~50~~49.17(d) of this chapter.

(b) **Ex Parte Communications.**

(1) During the period beginning on the first date of the Application Acceptance Period and ending on the date the Board makes a final decision with respect to the approval of any Application in that Application Round, a member of the Board may not communicate with the following Persons:

(A) an Applicant or Related Party; and

(B) any Person who is:

(i) active in the construction, rehabilitation, ownership, or Control of the proposed Development, including:

(I) a General Contractor; and

(II) a Developer; and

(III) a General Partner, Principal or Affiliate of a General Partner or General Contractor; or

(ii) employed as a consultant, lobbyist, or attorney by an Applicant or a Related Party.

(2) During the period beginning on the first date of the Application Acceptance Period and ending on the date the Board makes a final decision with respect to the approval of any Application in that Application Round, an employee of the Department may communicate about any Application with the following Persons:

(A) the Applicant or a Related Party; and

(B) any Person who is:

(i) active in the construction, rehabilitation, ownership, or Control of the proposed Development, including:

(I) a General Partner or General Contractor; and

(II) a Developer; and

(III) a Principal or Affiliate of a General Partner or General Contractor; or

(ii) employed as a consultant, lobbyist or attorney by the Applicant or a Related Party.

(3) A communication under paragraph (2) of this subsection may be oral or in any written form, including electronic communication through the Internet, and must satisfy the following conditions:

(A) the communication must be restricted to technical or administrative matters directly affecting the Application;

(B) the communication must occur or be received on the premises of the Department during established business hours; and

(C) a record of the communication must be maintained and included with the Application for purposes of Board review and must contain the following information:

(i) the date, time, and means of communication;

(ii) the names and position titles of the Persons involved in the communication and, if applicable, the Person's relationship to the Applicant;

(iii) the subject matter of the communication; and

(iv) a summary of any action taken as a result of the communication.

(4) Notwithstanding paragraphs (1) or (2) of this subsection, a Board member or Department employee may communicate without restriction with a Person listed in paragraphs (1) or (2) during any Board meeting or public hearing held with respect to the Application, but not during a recess or other non-record portion of the meeting or hearing.

(5) Paragraph (1) of this subsection does not prohibit the Board from participating in social events at which a Person with whom communications are prohibited may or will be present, provided that all matters related to Applications to be considered by the Board will not be discussed.

(c) **Adherence to Obligations.** (§2306.6720), General Appropriation Act, Article VII, Rider 8(a)). All representations, undertakings and commitments made by an Applicant in the Application process for a Development, whether with respect to Threshold Criteria, Selection Criteria or otherwise, shall be deemed to be a condition to any Commitment Notice, Determination Notice, or Carryover Allocation for such Development, the violation of which shall be cause for cancellation of such Commitment Notice, Determination Notice, or Carryover Allocation by the Department, and if concerning the ongoing features or operation of the Development, shall be enforceable even if not reflected in the LURA. All such representations are enforceable by the Department and the tenants of the Development, including enforcement by administrative penalties for failure to perform, as stated in the representations and in accordance with the LURA. If a Development Owner does not produce the Development as represented in the Application; does not receive approval for an amendment to the Application by the Department prior to implementation of such amendment; or does not provide the necessary evidence for any points received by the required deadline:

(1) The Development Owner must provide a plan to the Department, for approval and subsequent implementation, that incorporates additional amenities to compensate for the non-conforming components; and

(2) The Board will opt either to terminate the Application and rescind the Commitment Notice, Determination Notice or Carryover Allocation Agreement as applicable or the Department must:

(A) Reduce the score for Applications for Competitive Housing Tax Credits that are submitted by an Applicant or Affiliate related to the Development Owner of the non-conforming Development by up to ten points for the two Application Rounds concurrent to, or following, the date that the non-conforming aspect, or lack of financing, was recognized by the Department of the need for the amendment; the placed in service date; or the date the amendment is accepted by the Board.

(B) Prohibit eligibility to apply for Housing Tax Credits for a Tax-Exempt Bond Development that are submitted by an Applicant or Affiliate related to the Development Owner of the non-conforming Development for up to 24 months from the date that the non-conforming aspect, or lack of financing, was recognized by the Department of the need for the amendment; the placed in service date; or the date the amendment is accepted by the Board, less any time delay caused by the Department.

(C) In addition to, or in lieu of, the penalty in subparagraph (A) or (B) of this paragraph, the Board may assess a penalty fee of up to $1,000 per day for each violation.

(3) For amendments approved administratively by the Executive Director, the penalties in paragraph (2) of this subsection will not be imposed.

(d) **Evaluation Process for Competitive Applications Under the State Housing Credit Ceiling.** Applications submitted for competitive consideration under the State Housing Credit Ceiling will be reviewed according to the process outlined in this subsection. An Application, during any of these stages of review, may be determined to be ineligible as further described in §~~50~~49.5 of this chapter; Applicants will be promptly notified in these instances.

(1) Set-Aside and Selection Criteria Review. All Applications will first be reviewed as described in this paragraph. Applications will be confirmed for eligibility for Set-Asides. Then, each Application will be preliminarily scored according to the Selection Criteria listed in subsection (i) of this section. When a particular

scoring criterion involves multiple points, the Department will award points to the proportionate degree, in its determination, to which a proposed Development complied with that criterion. As necessary to complete this process only, Administrative Deficiencies may be issued to the Applicant. This process will generate a preliminary Department score for every Application.

(2) Application Review Assessment. Each Application will be assessed based on either the Applicant's self-score or the Department's preliminary score, region, and any Set-Asides that the Application indicates it is eligible for, consistent with paragraph (5) of this subsection. Those Applications that appear to be most competitive will be reviewed in detail for Eligibility and Threshold Criteria during the Application Round.

(3) Eligibility and Threshold Criteria Review. Applications that appear to be most competitive will be evaluated for eligibility under §~~50~~49.5(a)(7)-(9), (b)-(f), and §~~50~~49.6 of this chapter. The remaining portions of the Eligibility Review under §~~50~~49.5 of this chapter will be performed in the Compliance Evaluation and Eligibility Review as described under paragraph (7) of this subsection. The most competitive Applications will also be evaluated against the Threshold Criteria under subsection (h) of this section. The same portions of the Threshold Criteria review may be performed in the Underwriting Evaluation and Criteria review for financial feasibility by the Department's Real Estate Analysis Division as described under paragraph (6) of this subsection. Applications not meeting Threshold Criteria will be notified of any Administrative Deficiencies, in each event the Applicant will be given an opportunity to correct such deficiencies. Applications not meeting Threshold Criteria after receipt and review of the Administrative Deficiency response will be terminated and the Applicant will be provided a written notice to that effect. The Department shall not be responsible for the Applicant's failure to meet the Threshold Criteria, and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. Not all Applications will be reviewed in detail for Threshold Criteria. To the extent that the review of Threshold Criteria documentation, or submission of Administrative Deficiency documentation, alters the score assigned to the Application, an Applicant will be notified of its final score.

(4) Administrative Deficiencies. If an Application contains Administrative Deficiencies pursuant to §~~50~~49.3(2) of this chapter which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies. Because the review for Eligibility, Selection, Threshold Criteria, and review for financial feasibility by the Department's Real Estate Analysis Division may occur separately, Administrative Deficiency requests may be made several times. The Department staff will request clarification or correction in a deficiency notice in the form of an email, or if an e-mail address is not provided in the Application, by facsimile, and a telephone call (only if there has not been confirmation of the receipt of the email within 24 hours) to the Applicant and one other party identified by the Applicant in the Application advising that such a request has been transmitted. If Administrative Deficiencies are not clarified or corrected to the satisfaction of the Department by 5:00 p.m. on the fifth business day following the date of the deficiency notice, then for competitive Applications under the State Housing Credit Ceiling, five points shall be deducted from the Selection Criteria score for each additional day the deficiency remains unresolved. If Administrative Deficiencies are not clarified or corrected by 5:00 p.m. on the seventh business day following the date of the deficiency notice, then the Application shall be terminated. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. Deficiency notices may be sent to an Applicant prior to or after the end of the Application Acceptance Period. This Administrative Deficiency process applies to requests for information made by the Real Estate Analysis Division review.

(5) Subsequent Evaluation of Applications and Methodology for Award Recommendations to the Board. The Department will assign, as herein described, Developments for review for financial feasibility by the Department's Real Estate Analysis Division--in general these will be those Applications identified as most competitive and that meet the requirements of Eligibility and Threshold. This procedure will also be used in making recommendations to the Board as follows:

(A) Assignments will be determined by separately selecting the Applications with the highest scores in the At-Risk Set-Aside Statewide until the minimum requirements stated in §~~50~~49.7(b) of this chapter are attained.

(B) Assignments will then be determined by selecting the Applications with the highest scores in the TRDO-USDA Allocation until the minimum requirements stated in §~~50~~49.7(b) of this chapter are attained. If an Application in this Set-Aside involves Rehabilitation it will be attributed to, and come from the, At-Risk

Set-Aside; if an Application in this Set-Aside involves New Construction it will be attributed to and come from the applicable Uniform State Service Region.

(C) Remaining funds within each Uniform State Service Region will then be selected based on the highest scoring Developments in each of the 26 sub-regions, regardless of Set-Aside, in accordance with the requirements under §~~50~~49.7(a) of this chapter, without exceeding the credit amounts available for a Rural Regional Allocation and Urban Regional Allocation in each region. To the extent that Applications in the At-Risk and TRDO-USDA Set-Asides are not competitive enough within their respective Set-Asides, they will also be able to compete, with no Set-Aside preference, within their appropriate sub-region.

(D) If there are any tax credits set-aside for Developments in a Rural Area in a specific Uniform State Service Region that remain after allocation under subparagraph (C) of this paragraph those tax credits shall then be made available in any other Rural Area in the state to the Application in the most underserved Rural sub-region as compared to the Region's Rural Allocation. (§2306.111(d)(3)). This will be referred to as the Rural collapse.

(E) If there are any tax credits remaining in any sub-region after the Rural collapse, in the Rural Regional Allocation or Urban Regional Allocation, they then will be combined and made available to the Application in the most underserved sub-region as compared to the sub-region's allocation. This will be referred to as the statewide collapse.

(F) Staff will ensure that at least 10% of the State Housing Credit Ceiling is allocated to Qualified Nonprofit Organizations to satisfy the Nonprofit Set-Aside. If 10% is not met, then the Department will add the highest scoring Application by a Qualified Nonprofit Organization statewide until the 10% Nonprofit Set-Aside is met. Staff will ensure that at least 20% of the State Housing Credit Ceiling is allocated to Rural Developments. If this 20% minimum is not met, then the Department will add the highest scoring Rural Development Application statewide until the 20% Rural Development Set-Aside is met. Selection for each of the Set-Asides will take precedence over selection for the Rural Regional Allocation and Urban Regional Allocation. Funds for the Rural Regional Allocation or Urban Regional Allocation within a region, for which there are no eligible feasible Applications, will be redistributed as provided in §~~50~~49.7(c) of this chapter, Redistribution of Credits. If the Department determines that an allocation recommendation would cause a violation of the $2 million limit described in §~~50~~49.6(d) of this chapter, the Department will make its recommendation by selecting the Development(s) that most effectively satisfies(y) the Department's goals in meeting Set-Aside and regional allocation goals. Based on Application rankings, the Department shall continue to underwrite Applications until the Department has processed enough Applications satisfying the Department's underwriting criteria to enable the allocation of all available Housing Tax Credits according to regional allocation goals and Set-Aside categories. To enable the Board to establish a Waiting List, the Department shall underwrite as many additional Applications as necessary to ensure that all available Competitive Housing Tax Credits are allocated within the period required by law. (§2306.6710(a)-(f); §2306.111)

(6) Underwriting Evaluation and Criteria. The Department shall underwrite an Application to determine the financial feasibility of the Development and an appropriate level of Housing Tax Credits. In determining an appropriate level of Housing Tax Credits, the Department shall, at a minimum, evaluate the cost of the Development based on acceptable cost parameters as adjusted for inflation and as established by historical final cost certifications of all previous Housing Tax Credit allocations for the county in which the Development is to be located; if certifications are unavailable for the county, then the metropolitan statistical area in which the Development is to be located; or if certifications are unavailable under the county or the metropolitan statistical area, then the Uniform State Service Region in which the Development is to be located. Underwriting of a Development will include a determination by the Department, pursuant to the Code §42, that the amount of Housing Tax Credits recommended for commitment to a Development is necessary for the financial feasibility of the Development and its long-term viability as a qualified rent restricted housing property. In making this determination, the Department will use the Underwriting Rules and Guidelines, §1.32 of this title. An Applicant may not change or supplement any part of an Application in any manner after the filing deadline, and may not add any set-asides, increase their credit amount, or revise their unit mix (both income levels and bedroom mixes), except in response to a direct request from the Real Estate Analysis Division to remedy an Administrative Deficiency as further described in §~~50~~49.3(2) of this chapter or by amendment of an Application after a commitment or allocation of tax credits as further described in §~~50~~49.17(d) of this chapter. To the extent that the review of Administrative Deficiency documentation during this review alters the score assigned to the Application, Applicants will be re-notified of their final score. Receipt of feasibility points under §~~50~~49.9(i)(1) of this chapter does not ensure that an Application will be

considered feasible during the feasibility evaluation by the Real Estate Analysis Division and conversely, a Development may be found feasible during the feasibility evaluation by the Real Estate Analysis Division even if it did not receive points under subsection (i)(1) of this section. (§2306.6710 and §2306.11)

(A) The Department may have an external party perform the underwriting evaluation to the extent it determines appropriate. The expense of any external underwriting evaluation shall be paid by the Applicant prior to the commencement of the aforementioned evaluation.

(B) The Department will reduce the Applicant's estimate of Developer's and/or General Contractor fees in instances where these exceed the fee limits determined by the Department. In the instance where the General Contractor is an Affiliate of the Development Owner and both parties are claiming fees, General Contractor's overhead, profit, and general requirements, the Department shall be authorized to reduce the total fees estimated to a level that it determines to be reasonable under the circumstances. Further, the Department shall deny or reduce the amount of Housing Tax Credits allocated with respect to any portion of costs which it deems excessive or unreasonable. Excessive or unreasonable costs may include Developer fee attributable to Related Party acquisition costs. The Department also may require bids or Third Party estimates in support of the costs proposed by any Applicant. The Developer's fee limits will be calculated as follows:

(i) New construction pursuant to §42(b)(1)(A) U.S.C., the Developer fee cannot exceed 15% of the project's Total Eligible Basis, less Developer fees, or 20% of the project's Total Eligible Basis, less Developer fees if the Development proposes 49 total Units or less; and

(ii) Acquisition/rehabilitation Developments that are eligible for acquisition credits pursuant to §42(b)(1)(B) U.S.C., the acquisition portion of the Developer fee cannot exceed 15% of the existing structures acquisition basis, less Developer fee if the Development proposes 50 total Units or more, or 20% of the project's Total Eligible Basis, less Developer fees if the Development proposes 49 total Units or less, and will be limited to 4% credits. The rehabilitation portion of the Developer fee cannot exceed 15% of the total rehabilitation basis, less Developer fee if the Development proposes 50 total Units or more, or 20% of the project's Total Eligible Basis, less Developer fees if the Development proposes 49 total Units or less.

(7) Compliance Evaluation and Eligibility Review. After the Department has determined which Developments will be reviewed for financial feasibility, those same Developments will be reviewed for evaluation of the compliance status by the Department's Portfolio Management and Compliance Division, in accordance with Chapter 60 of this title, and will be evaluated in detail for eligibility under §~~50~~49.5(a)-(f) of this chapter.

(8) Site Evaluation. Site conditions shall be evaluated through a physical site inspection by the Department or its assigns. Such inspection will evaluate the Development Site based upon the criteria set forth in the Site Evaluation form provided in the Application and the inspector shall provide a written report of such site evaluation. The evaluations shall be based on the condition of the surrounding neighborhood, including appropriate environmental and aesthetic conditions and proximity to retail, medical, recreational, and educational facilities, and employment centers. The site's appearance to prospective tenants and its accessibility via the existing transportation infrastructure and public transportation systems shall be considered. "Unacceptable" sites include, without limitation, those containing a non-mitigable environmental factor that may adversely affect the health and safety of the residents. For Developments applying under the TRDO-USDA Set-Aside, the Department may rely on the physical site inspection performed by TRDO-USDA.

(e) **Evaluation Process for Tax-Exempt Bond Development Applications.** Applications submitted for consideration as Tax-Exempt Bond Developments will be reviewed according to the process outlined in this subsection. An Application, during any of these stages of review, may be determined to be ineligible as further described in §~~50~~49.5 of this chapter; Applicants will be promptly notified in these instances.

(1) Eligibility and Threshold Criteria Review. All Tax-Exempt Bond Development Applications will first be reviewed as described in this paragraph. Tax-Exempt Bond Development Applications will be confirmed for eligibility under §~~50~~49.5 and §~~50~~49.6 of this chapter and Applications will be evaluated in detail against the Threshold Criteria. Tax-Exempt Bond Development Applications found to be ineligible and/or not meeting Threshold Criteria will be notified of any Administrative Deficiencies, in each event the Applicant will be given an opportunity to correct such deficiencies. Applications not meeting the Threshold Criteria after receipt and review of the Administrative Deficiency response will be terminated and the Applicant will be provided a written notice to that effect. The Department shall not be responsible for the Applicant's failure to meet the Threshold Criteria, and any failure of the Department's staff to notify the Applicant of such inability to satisfy

the Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled.

(2) Administrative Deficiencies. If an Application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies. Because the review for Eligibility, Threshold Criteria, and review for financial feasibility by the Department's Real Estate Analysis Division may occur separately, Administrative Deficiency requests may be made several times. The Department staff will request clarification or correction in a deficiency notice in the form of an e-mail, or if an e-mail address is not provided in the Application, by facsimile, and a telephone call (only if there has not been confirmation of the receipt of the emai within 24 hours) to the Applicant and one other party identified by the Applicant in the Application advising that such a request has been transmitted. All Administrative Deficiencies shall be clarified or corrected to the satisfaction of the Department within five business days. Failure to resolve all outstanding deficiencies by 5:00 p.m. on the fifth business day following the date of the deficiency notice will result in a penalty fee of $500 for each business day the deficiency remains unresolved. Applications with unresolved deficiencies after 5:00 p.m. on the tenth day following the date of the deficiency notice will be terminated. The Applicant will be responsible for the payment of fees accrued pursuant to this ~~section~~ paragraph regardless of any termination pursuant to §~~50~~49.5(b)(4) of this chapter. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. Deficiency notices may be sent to an Applicant prior to or after the end of the Application Acceptance Period. The Application will not be presented to the Board for consideration until all outstanding fees have been paid. This Administrative Deficiency process applies equally to the Real Estate Analysis Division review and feasibility evaluation and the same penalty and termination will be assessed.

(3) Underwriting and Compliance Evaluation and Criteria. The Department will assign all eligible Tax-Exempt Bond Development Applications meeting the eligibility and threshold requirements for review for financial feasibility by the Department's Real Estate Analysis Division, or the Department may have an external party perform the underwriting evaluation to the extent it determines appropriate. The expense of any external underwriting evaluation shall be paid by the Applicant prior to the commencement of the aforementioned evaluation. The Department or external party shall underwrite an Application to determine the financial feasibility of the Development and an appropriate level of Housing Tax Credits as further described in subsection (d)(6) of this section. Tax-Exempt Bond Development Applications will also be reviewed for evaluation of the compliance status by the Department's Portfolio Management and Compliance Division in accordance with Chapter 60, Subchapter A, of this title.

(4) Site Evaluation. Site conditions shall be evaluated through a physical site inspection by the Department or its assigns as further described in subsection (d)(8) of this section.

(f) **Evaluation Process for Rural Rescue Applications Under the ~~2009~~2010 Credit Ceiling.** Applications submitted for consideration as Rural Rescue Applications pursuant to §~~50~~49.10(c) of this chapter under the ~~2009~~2010 Credit Ceiling will be reviewed according to the process outlined in this subsection. A Rural Rescue Application, during any of these stages of review, may be determined to be ineligible as further described in §~~50~~49.5 of this chapter; Applicants will be promptly notified in these instances.

(1) Procedures for Intake and Review.

(A) Applications for Rural Rescue deals may be submitted between March 2, ~~2008~~2009 and November 15, ~~2008~~2009 and must be submitted in accordance with §~~50~~49.21 of this chapter. A complete Application must be submitted at least 40 days prior to the date of the Board meeting at which the Applicant would like the Board to act on the proposed Development. Applications must include the full Application Fee as further described in §~~50~~49.20(c) of this chapter. Applicants must submit documents in accordance with the procedures set out in the ~~2008~~2009 Application Submission Procedures Manual for Volumes I, II, III and IV. Volume IV, evidencing Selection Criteria, MUST be submitted.

(B) Applicants do not need to participate in the Pre-Application process outlined in §~~50~~49.8 of this chapter, nor will they need to submit pre-certification documents identified in subsection (g) of this section.

(C) Applications will be processed on a first-come, first-served basis. Applications unable to meet all deficiency and underwriting requirements within 30 days of the request by the Department, will remain under consideration, but will lose their submission status and the next Application in line will be moved ahead in order to expedite those Applications most able to proceed. Applications for Rural Rescue will be processed and evaluated as described in this paragraph. Applications will be reviewed to ensure that the Application is eligible as a rural "rescue" Development as described in paragraph (2) of this subsection.

(D) Prior to the Development being recommended to the Board, TRDO-USDA must provide the Department with a copy of the physical site inspection report performed by TRDO-USDA, as provided in subsection (d)(8) of this section.

(2) Eligibility Review. All Rural Rescue Applications will first be reviewed as described in this paragraph and eligibility will be confirmed pursuant to §~~50~~49.5 and §~~50~~49.6 of this chapter and the criteria listed in subparagraphs (A)-(C) of this paragraph. Applications found to be ineligible will be notified.

(A) Applications must be funded through TRDO-USDA;

(B) Applications must able to provide evidence that the loan:

(i) has been foreclosed and is in the TRDO-USDA inventory; or

(ii) is being foreclosed; or

(iii) is being accelerated; or

(iv) is in imminent danger of foreclosure or acceleration; or

(v) is for an Application in which two adjacent parcels are involved, of which at least one parcel qualifies under clauses (i) - (iv) of this subparagraph and for which the Application is submitted under one ownership structure, one financing plan an for which there are no market rate units; and

(C) Applicants must be identified as in compliance with TRDO-USDA regulations.

(3) Threshold Review. Applications will be evaluated in detail against the Threshold Criteria. Applications found to be ineligible and/or not meeting Threshold Criteria will be notified of any Administrative Deficiencies, in which event the Applicant is given an opportunity to correct such deficiencies. Applications not meeting Threshold Criteria after receipt and review of the Administrative Deficiency response will be terminated and the Applicant will be provided a written notice to that effect. The Department shall not be responsible for the Applicant's failure to meet the Threshold Criteria, and any failure of the Department's staff to notify the Applicant of such inability to satisfy the Threshold Criteria shall not confer upon the Applicant any rights to which it would not otherwise be entitled. Not all Applications will be reviewed in detail for Threshold Criteria.

(4) Selection Criteria Review. All Rural Rescue Applications will be evaluated against the Selection Criteria and a score will be assigned to the Application. The minimum score for Selection Criteria is not required to be achieved to be eligible.

(5) Administrative Deficiencies. If an Application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies as further described in subsection (d)(4) of this section.

(6) Underwriting and Compliance Evaluation and Criteria. The Department will assign all eligible Rural Rescue Applications meeting the eligibility and threshold requirements for review for financial feasibility by the Department's Real Estate Analysis Division, or the Department may have an external party perform the underwriting evaluation to the extent it determines appropriate. The expense of any external underwriting evaluation shall be paid by the Applicant prior to the commencement of the aforementioned evaluation. The Department or external party shall underwrite an Application to determine the financial feasibility of the Development and an appropriate level of Housing Tax Credits as further described in subsection (d)(6) of this section. Rural Rescue Development Applications will also be reviewed for evaluation of the previous participation by the Department's Portfolio Management and Compliance Division in accordance with Chapter 60 of this title.

(7) Site Evaluation. Site conditions shall be evaluated through a physical site inspection by the Department or its assigns as further described in subsection (d)(8) of this section.

(8) Credit Ceiling and Applicability of this chapter. All Rural Rescue Applicants will receive their credit allocation out of the ~~2009~~2010 Credit Ceiling and therefore, will be required to follow the rules and guidelines identified in the ~~2009~~2010 Qualified Allocation Plan and Rules (QAP). However, because the ~~2009~~2010 QAP will not be in effect during the time period that the Rural Rescue Applications can be submitted, Applications submitted and eligible under the Rural Rescue Set-Aside will be considered by the Board to have satisfied the requirements of the ~~2009~~2010 QAP and are waived from ~~2009~~2010 QAP requirements that are changes from the ~~2008~~2009 QAP, to the extent permitted by statute.

(9) Procedures for Recommendation to the Board. Consistent with subsection (k) of this section, staff will make its recommendation to the Committee. The Committee will make commitment

recommendations to the Board. Staff will provide the Board with a written, documented recommendation which will address at a minimum the financial and programmatic viability of each Application and a breakdown of which Selection Criteria were met by the Applicant. The Board will make its decision based on §~~50~~49.10(a) of this chapter. Any award made to a Rural Rescue Development will be credited against the TRDO-USDA Set-Aside for the ~~2009~~2010 Application Round, as required under subsection (d)(5) of this section.

(10) Limitation on Allocation. No more than $350,000 in credits will be forward committed from the ~~2009~~2010 State Housing Credit Ceiling. To the extent Applications are received that exceed the maximum limitation, staff will prepare the award for Board consideration noting for the Board that the award would require a waiver of this limitation.

(g) **Experience Pre-Certification Procedures.** No later than 14 days prior to the close of the Application Acceptance Period for Competitive Housing Tax Credit Applications, an Applicant must submit the documents required in this subsection to obtain the required pre-certification. For Applications submitted for Tax-Exempt Bond Applications or Applications not applying for Competitive Housing Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.) all of the documents in this section must be submitted with the Application. Upon receipt of the evidence required under this section, a certification from the Department will be provided to the Applicant for inclusion in its Application(s). Evidence must show that one of the Development Owner's General Partners, the Developer or their Principals have a record of successfully constructing or developing residential units (single family or multifamily) in the capacity of owner, General Partner or Developer. If a Public Housing Authority organized an entity for the purpose of developing residential units the Public Housing Authority shall be considered a Principal for the purpose of this requirement. If the individual requesting the certification was not the Development Owner, General Partner or Developer, but was the individual within one of those entities doing the work associated with the development of the Units (responsibility for work associated with the development of Units includes, but is not limited to, application submission, third-party engagement, post award activities, construction, cost certification, etc.), the individual must show that the units were successfully developed as required in paragraphs (1) and (2) of this subsection, and also provide written confirmation from the entity involved stating that the individual was the person responsible for the development. If rehabilitation experience is being claimed to qualify for an Application involving New Construction, then the rehabilitation must have been substantial and involved at least $12,000 of direct hard cost per unit.

(1) The term "successfully" is defined as acting in a capacity as the owner, General Partner, or Developer of:

(A) At least 100 residential units or, if less than 100 residential units, 80% of the total number of Units the Applicant is applying to build (e.g. you must have 40 units successfully built to apply for 50 Units); or

(B) At least 36 residential units if the Development is a Rural Development; or

(C) At least 25 residential units if the Development has 36 or fewer total Units.

(2) One or more of the following documents must be submitted: American Institute of Architects (AIA) Document A111 - Standard Form of Agreement Between Owner & Contractor, AIA Document G704 - Certificate of Substantial Completion, IRS Form 8609, HUD Form 9822, development agreements, partnership agreements, or other documentation satisfactory to the Department verifying that the Development Owner's General Partner, partner (or if Applicant is to be a limited liability company, the managing member), Developer or their Principals have the required experience. If submitting the IRS Form 8609, only one form per Development is required. The evidence must clearly indicate:

(A) That the Development has been completed (i.e. Development Agreements, Partnership Agreements, etc. must be accompanied by certificates of completion);

(B) That the names on the forms and agreements tie back to the Development Owner's General Partner, partner (or if Applicant is to be a limited liability company, the managing member), Developer or their Principals as listed in the Application; and

(C) The number of units completed or substantially completed.

(h) **Threshold Criteria.** The following Threshold Criteria listed in this subsection are mandatory requirements that must be submitted at the time of Application submission unless specifically indicated otherwise:

(1) Completion and submission of the Application, which includes the entire Uniform Application and any other supplemental forms which may be required by the Department. (§2306.1111)

(2) Completion and submission of the Site Packet as provided in the Application.

(3) Set-Aside Eligibility. Documentation must be provided that confirms eligibility for all Set-Asides under which the Application is seeking funding as required in the Application.

(4) Certifications. The "Certification Form" provided in the Application confirming the following items:

(A) A certification of the basic amenities selected for the Development. All Developments must meet at least the minimum threshold of points. These points are not associated with the selection criteria points in subsection (i) of this section. The amenities selected must be made available for the benefit of all tenants. If fees in addition to rent are charged for amenities reserved for an individual tenant's use, then the amenity may not be included among those provided to satisfy this requirement. Developments must provide a minimum number of common amenities in relation to the Development size being proposed. The amenities selected must be selected from clause (ii) of this subparagraph and made available for the benefit of all tenants. Developments proposing Rehabilitation (excluding Reconstruction) or proposing Single Room Occupancy will receive 1.5 points for each point item (do not round). Applications for non-contiguous scattered site housing, including New Construction, reconstruction, Adaptive Reuse, Rehabilitation, and single-family design, will have the threshold test applied based on the number of Units per individual site, and must submit a separate certification for each individual site under control by the Applicant. Any future changes in these amenities, or substitution of these amenities, must be approved by the Department in accordance with §~~50~~49.17(d) of this chapter and may result in a decrease in awarded credits if the substitution or change includes a decrease in cost, or in the cancellation of a Commitment Notice or Carryover Allocation if all of the Common Amenities claimed are no longer met.

(i) Applications must meet a minimum threshold of points (based on the total number of Units in the Development) as follows:

(I) Total Units are less than ~~13~~16, 0 points are required to meet Threshold for Single Room Occupancy and 1 point is required to meet threshold for all other Developments;

(II) Total Units are ~~between 13~~16 ~~and~~to 24, ~~1~~2 points ~~is~~are required to meet Threshold;

(III) Total Units are ~~between~~ 25 ~~and~~to 40, 3 points are required to meet Threshold;

(IV) Total Units are ~~between~~ 41 ~~and~~to 76, 6 points are required to meet Threshold;

(V) Total Units are ~~between~~ 77 ~~and~~to 99, 9 points are required to meet Threshold;

(VI) Total Units are ~~between~~ 100 ~~and~~to 149, 12 points are required to meet Threshold;

(VII) Total Units are ~~between~~ 150 ~~and~~to 199, 15 points are required to meet Threshold; or

(VIII) Total Units are 200 or more, 18 points are required to meet Threshold.

(ii) Amenities for selection include those items listed in subclauses (I)-(XXV~~I~~) of this clause. Both Developments designed for families and Qualified Elderly Developments can earn points for providing each identified amenity unless the item is specifically restricted to one type of Development. All amenities must meet accessibility standards as further described in subparagraphs (D) and (F) of this paragraph. An Application can only count an amenity once, therefore combined functions (a library which is part of a community room) only count under one category. Spaces for activities must be sized appropriately to serve the anticipated population.

(I) Full perimeter fencing (2 points);

(II) Controlled gate access (1 point);

(III) Gazebo w/sitting area (1 point);

(IV) Accessible walking/jogging path separate from a sidewalk (1 point);

(V) Community laundry room with at least one front loading washer (1 point);

(VI) Barbecue grill and picnic table-at least one of each for every 50 Units (1 point);

(VII) Covered pavilion that includes barbecue grills and tables (2 points);

(VIII) Swimming pool (3 points);

(IX) Furnished fitness center equipped with a minimum of two of the following fitness equipment options with at least one option per every 40 Units or partial increment of 40 Units: stationary bicycle, elliptical trainer, treadmill, rowing machine, universal gym, multi-functional weight bench, sauna, stair climber, etc. The maximum number of equipment options required for any Development, regardless of number of Units, shall be five (2 points);

(X) Equipped and functioning business center or equipped computer learning center with 1 computer for every 30 Units proposed in the Application, 1 printer for every 3 computers (with minimum of one printer), and 1 fax machine (2 points);

(XI) Furnished Community room (1 point);

(XII) Library with an accessible sitting area (separate from the community room) (1 point);

(XIII) Enclosed sun porch or covered community porch/patio (2 points);

(XIV) Service coordinator office in addition to leasing offices (1 point);

(XV) Senior Activity Room (Arts and Crafts, etc.) (2 points);

(XVI) Health Screening Room (1 point);

(XVII) Secured Entry (elevator buildings only) (1 point);

(XVIII) Horseshoe pit, putting green or shuffleboard court (1 point);

(XIX) Community Dining Room w/full or warming kitchen (3 points);

(XX) One Children's Playscape Equipped for 5 to 12 year olds, or one Tot Lot (1 Point);

(XXI) Two Children's Playscapes Equipped for 5 to 12 year olds, two Tot Lots, or one of each (2 points);

(XXII) Sport Court (Tennis, Basketball or Volleyball) (2 points);

(XXIII) Furnished and staffed Children's Activity Center (3 points);

(XXIV) Community Theater Room equipped with a 52 inch or larger screen with surround sound equipment; DVD player; and theater seating (3 points); or

(XXV) Green Building amenities (Rehabilitation Developments will receive 1.5 points for each point requested for the green building amenities):~~(for example, evaporative coolers, passive solar heating/cooling, water conserving fixtures, collected water (at least 50%) for irrigation purposes, sub-metered electric meters, exceed Energy Star standards, photovoltaic panels for electricity and design and wiring for the use of such panels, construction waste management, provide recycle service, water permeable walkways and parking areas, or other Department approved items). (3 points); or~~

~~(XXVI) Hot Tub/Jacuzzi Spa (1 point).~~

(-a-) evaporative coolers (for use in designated counties listed in the Application Materials, 2009 Housing Tax Credit Site Demographics Information) (1 point);

(-b-) passive solar heating/cooling (3 points maximum)

(-1-)Two points if the glazing area on the north- and south-facing walls of the building is at least 50% greater than the sum of the glazing area on the east- and west- facing walls; and the east-west axis of the building is within 15 degrees of due east-west.

(-2-)One point if in addition to the east-west axis of the building oriented within 15 degrees of due east-west, utilize a narrow floor plate (less than 40 feet), single loaded corridors and open floor plan to optimize daylight penetration and passive ventilation (note: to qualify for this particular point, application must also implement the 15 degree building orientation option above); and 100% of HVAC condenser units are shaded so they are fully shaded 75% of the time during summer months (May through August); and solar screens or solar film on all East, West, and South Windows with building oriented to east-west axis within 15 degrees of due east-west, west-south axis within 15 degrees of due west-south, and south-east axis within 15 degrees of due south-east.

(-c-) water conserving features (2 points maximum, 1 point for each):

(-1-)Install low-flow toilets using less than or equal to 1.6 gallons per flush, or high efficiency toilets using less than or equal to 1.28 gallons/flush.

(-2-)Install bathroom lavatory faucets and showerheads that do not exceed 2.0 gallons/minute and kitchen faucets that do not exceed 1.5 gallons/minute. Applies to all fixtures throughout development. Rehab projects may choose to install compliant faucet aerators instead of replacing entire faucets.

(-d-) solar water heaters (Solar water heaters designed to provide at least 25% of the average energy used to heat domestic water throughout the entire development.) (2 points);

(-e-) irrigation and landscaping (must implement both of the following) (2 points)

(-1-)collected water (at least 50%) for irrigation purposes;

(-2-)selction of native trees and plants that are appropriate to the site's soils and microclimate and locate then to allow for shading in the sumer and allow for heat gain in the winter

(-f-) sub-metered utility meters (2 points maximum);

(-1-)Sub-metered utility meters on rehab project without existing sub-meters or new construction senior project (2 points); or

(-2-)Sub-metered utility meters on new construction project (excluding new construction senior project) (1 point)

(-g-) energy efficiency (4 points maximum);

(-1-)Three points if Energy Elements include Energy-Star qualified windows and glass doors; and Exterior envelope insulation, vapor barriers and air barriers greater than or equal to Energy Star air barrier and insulation criteria; and HVAC, domestic hot water heater, or insulation that exceeds Energy Star standards or exceeds the IRC 2006;

OR

(-2-)Four points if the project promotes energy efficiency by meeting the requirements of Energy Star for Homes by either complying with the appropriate builder option package or a HERS score of 85.

(-h-) thermally and draft efficient doors (SHGC of 0.40 or lower and U-value specified by climate zone according to the 2006 IECC) (2 points);

(-i-) photovoltaic panels for electricity and design and wiring for the use of such panels (3 points maximum);

(-1-)Photovoltaic panels that total 10 kW (1point);

(-2-)Photovoltaic panels that total 20 kW (2 points);

(-3-)Photovoltaic panels that total 30 kW (3 points)

(-j-) construction waste management and implementation of EPA's Best Management Practices for erosion and sedimentation control during construction (1 point);

(-k-) recycling service provided throughout the compliance period (1 point);

(-l-) water permeable walkways (at least 20% of walkways and parking) (1 point).

(-m-) bamboo flooring, wool carpet, linoleum flooring, straw board, poplar OSB, or cotton batt insulation (50% of flooring on the ground floor of the development must be finished concrete and/or ceramic tile. 50% of the flooring on upper floors must be ceramic tile and/or a flooring material that is Floor Score Certified (developed by the Resilient Floor Covering Institute), applied with a Floor Score Certified adhesive and comes with a minimum 7-year wear through warranty. (2 points);

~~(-a-)evaporative coolers (for use in designated counties listed in the Application Materials, 2009 Housing Tax Credit Site Demographics Information) (1 point);~~

~~(-b-)passive solar heating/cooling (3 points);~~

~~(-c-)water conserving features (toilets using less than or equal to 1.6 gallons per flush, showerheads, kitchen faucets or bathroom faucets using less than or equal to 2.0 gallons per minute) (1 point for each);~~

~~(-d-)solar water heaters (2 points);~~

~~(-e-)collected water (at least 50%) for irrigation purposes (2 points);~~

~~(-f-) sub-metered utility meters (3 points);~~

~~(-g-)Energy Star qualified windows and glass doors (2 points);~~

~~(-h-)thermally and draft efficient doors (SHGC of 0.40 and U-value specified by climate zone according to the 2006 IECC)(2 points);~~

~~(-i-) photovoltaic panels for electricity and design and wiring for the use of such panels (3 points);~~

~~(-j-) construction waste management and implementation of EPA's Best Management Practices for erosion and sedimentation control during construction (1 point);~~

~~(-k-)exterior envelope insulation, vapor barriers and air barriers greater than or equal to Energy Star air barrier and insulation criteria (2 points);~~

~~(-l-) HVAC, windows, domestic hot water heater or insulation that exceeds Energy Star standards or exceeds the IRC 2006 (2 points);~~

~~(-m-)bamboo flooring, wool carpet, linoleum flooring, straw board, poplar OSB, or cotton batt insulation (2 points);~~

~~(-n-)recycling service provided throughout the compliance period (1 point); or~~

~~(-o-)water permeable walkways (1 point).~~

(B) A certification that the Development will have all of the following Amenities at no charge to the tenants. All New Construction or Reconstruction Units must provide the amenities in clauses (i)-(~~ix~~viii) of this subparagraph. Rehabilitation (excluding Reconstruction) and Adaptive Reuse must provide the amenities in clauses (ii) - (ix) of this subparagraph unless expressly identified as not required. (§2306.187)

(i) All New Construction Units must be wired with ~~6 pair CAT5e wiring or better to provide phone and data service to each unit and wired with COAX cable to provide TV and high speed internet data service to each unit~~RG-6 COAX or better and CAT3 phone cable or better, wired to each bedroom, dining room and living room;

(ii) Blinds or window coverings for all windows;

(iii) Disposal and Energy-Star or equivalently rated dishwasher (not required for TRDO-USDA or SRO Developments);

(iv) Energy-Star or equivalently rated (not required for SRO Developments) Refrigerator;

(v) ~~Energy-Star or equivalently rated~~ Oven/Range (not required for SRO Developments);

(vi) Exhaust/vent fans (vented to the outside) in bathrooms;

(vii) Energy-Star or equivalently rated ceiling fans in living areas and bedrooms; and

(viii) Energy-Star or equivalently rated lighting ~~fixtures~~ in all Units, which may include compact florescent bulbs.

~~;~~

~~(ix) Emergency 911 or public telephone accessible and available to tenants 24 hours a day~~.

(C) A certifiation that the Development will meet the minimum threshold for size of Units as provided in clauses (i) – (v) of this subparagraph. These minimum requirements are not associated with the selection criteria points in subsection (i) of this section. Developments proposing Rehabilitation (excluding Reconstruction) or Single Room Occupancy will not be subject to the requirements of this subparagraph.

(i) 550 square feet for an efficiency Unit;

(ii) 650 square feet for a non-elderly one Bedroom Unit; 550 square feet for an elderly one Bedroom Unit;

(iii) 900 square feet for a non-elderly two Bedroom Unit; 700 square feet for an elderly two Bedroom Unit;

(iv) 1,000 square feet for a three Bedroom Unit; and

(v) 1,200 square feet for a four Bedroom Unit.

(~~C~~D) A certification that the Development will adhere to the Texas Property Code relating to security devices and other applicable requirements for residential tenancies, and will adhere to local building codes or if no local building codes are in place then to the most recent version of the International Building Code.

(~~D~~E) A certification that the Applicant is in compliance with state and federal laws, including but not limited to, fair housing laws, including Chapter 301, Property Code, Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), and the Fair Housing Amendments Act of 1988 (42 U.S.C. §§3601 et seq.); the Civil Rights Act of 1964 (42 U.S.C. §§2000a et seq.); the Americans with Disabilities Act of 1990 (42 U.S.C. §§12101 et seq.); the Rehabilitation Act of 1973 (29 U.S.C. §§701 et seq.); Fair Housing Accessibility; the Texas Fair Housing Act; and that the Development is designed consistent with the Fair Housing Act Design Manual produced by HUD, the Code Requirements for Housing Accessibility 2000 (or as amended from time to time) produced by the International Code Council and the Texas Accessibility Standards. (§2306.257; §2306.6705(7))

(~~E~~F) A certification that the Applicant will attempt to ensure that at least 30% of the construction and management businesses with which the Applicant contracts in connection with the Development are Minority Owned Businesses, and that the Applicant will submit a report at least once in each 90-day period following the date of the Commitment Notice until the Cost Certification is submitted, in a format prescribed by the Department and provided at the time a Commitment Notice is received, on the percentage of businesses with which the Applicant has contracted that qualify as Minority Owned Businesses. (§2306.6734)

(~~F~~G) Pursuant to §2306.6722, any Development supported with a Housing Tax Credit allocation shall comply with the accessibility standards that are required under §504, Rehabilitation Act of 1973 (29 U.S.C. §794), and specified under 24 C.F.R. Part 8, Subpart C. The Applicant must provide a certification from the Development engineer, an accredited architect or Department-approved third party accessibility specialist, that the Development will comply with the accessibility standards that are required under §504, Rehabilitation

Act of 1973 (29 U.S.C. §794), and specified under 24 C.F.R. Part 8, Subpart C and this subparagraph. (§2306.6722 and §2306.6730)

(~~G~~H) For Developments involving New Construction (excluding New Construction of non-residential buildings) where some Units are two-stories or single family design and are normally exempt from Fair Housing accessibility requirements, a minimum of 20% of each Unit type (i.e. one bedroom, two bedroom, three bedroom) must provide an accessible entry level and all common-use facilities in compliance with the Fair Housing Guidelines, and include a minimum of one bedroom and one bathroom or powder room at the entry level. A similar certification will also be required after the Development is completed from an inspector, architect, or accessibility specialist.

(~~H~~I) A certification that the Development will be equipped with energy saving devices that meet the standard statewide energy code adopted by the state energy conservation office, unless historic preservation codes permit otherwise for a Development involving historic preservation. All Units must be air-conditioned. The measures must be certified by the Development architect as being included in the design of each tax credit Unit at the time the 10% Test Documentation is submitted and in actual construction upon Cost Certification. (§2306.6725(b)(1))

(~~I~~J) A certification that the Development will be built by a General Contractor that satisfies the requirements of the General Appropriation Act, Article VII, Rider 8(c) applicable to the Department which requires that the General Contractor hired by the Development Owner or the Applicant, if the Applicant serves as General Contractor, must demonstrate a history of constructing similar types of housing without the use of federal tax credits.

(~~J~~K) A certification that the Development Owner agrees to establish a reserve account consistent with §2306.186 Texas Government Code and as further described in §1.37 of this title.

(~~K~~L) A certification that the Applicant, Developer, or any employee or agent of the Applicant has not formed a Neighborhood Organization for purposes of subsection (i)(2) of this section, has not given money or a gift to cause the Neighborhood Organization to take its position of support or opposition, nor has provided any assistance to a Neighborhood Organization to meet the requirements under subsection (i)(2) of this section which are not allowed under that subsection, as it relates to the Applicant's Application or any other Application under consideration in ~~2008~~2009.

(~~L~~M) Operate in accordance with the requirements pertaining to rental assistance in Chapter 60 of this title.

(~~M~~N) A certification that the Development Owner will contract with a Management Company throughout the Compliance Period that will perform criminal background checks on all adult tenants, head and co head of households.

(5) Design Items. This exhibit will provide:

(A) All of the architectural drawings identified in clauses (i) - (iii) of this subparagraph. While full size design or construction documents are not required, the drawings must have an accurate and legible scale and show the dimensions. All Developments involving New Construction, or conversion of existing buildings not configured in the Unit pattern proposed in the Application, must provide all of the items identified in clauses (i) - (iii) of this subparagraph. For Developments involving Rehabilitation for which the Unit configurations are not being altered, only the items identified in clauses (i) and (iii) of this subparagraph are required:

(i) A site plan which:

(I) Is consistent with the number of Units and Unit mix specified in the "Rent Schedule" provided in the Application;

(II) Is consistent with the number of buildings and building type/unit mix specified in the “Building/Unit Configuration” provided in the Application; and

(III) Identifies all residential and common buildings~~ and amenities~~; ~~and~~

~~(III) Clearly delineates the flood plain boundary lines and all easements shown in the site survey;~~

(ii) Floor plans and elevations for each type of residential building and each common area building clearly depicting the height of each floor and a percentage estimate of the exterior composition. Adaptive Reuse Developments, are only required to provide building plans delineating each unit by number, type and area consistent with those in the "Rent Schedule" and pictures of each elevation of the existing building depicting the height of each floor and percentage estimate of the exterior composition; and

(iii) Unit floor plans for each type of Unit~~ showing special accessibility and energy features~~. The net rentable areas these Unit floor plans represent should be consistent with those shown in the "Rent Schedule" and “Building/Unit Configuration” provided in the Application. Adaptive Reuse Developments, are only required to provide Unit floor plans for each distinct typical Unit type (i.e. one-bedroom, two-bedroom) and for all Units types that vary in area by 10% from the typical Unit; and

(B) A boundary survey of the proposed Development Site and of the property to be purchased. In cases where more property is purchased than the proposed Development Site, the survey or plat must show the survey calls for both the larger site and the Development Site. The survey must clearly delineate the flood plain boundary lines and show all easements. The survey does not have to be recent; but it must show the property purchased and the property proposed for the Development Site. In cases where the Development Site is only a part of the site being purchased, the depiction or drawing of the Development Site may be professionally compiled and drawn by an architect, engineer or surveyor.

(6) Evidence of the Development's development costs and corresponding credit request and syndication information as described in subparagraphs (A) - (G) of this paragraph.

(A) A written narrative describing the financing plan for the Development, including any non-traditional financing arrangements; the use of funds with respect to the Development; the funding sources for the Development including construction, permanent and bridge loans, rents, operating subsidies, and replacement reserves; and the commitment status of the funding sources for the Development. This information must be consistent with the information provided throughout the Application. (§2306.6705(1))

(B) All Developments must submit the "Development Cost Schedule" provided in the Application. This exhibit must have been prepared and executed not more than 6 months prior to the close of the Application Acceptance Period.

(C) Provide a letter of commitment from a syndicator that, at a minimum, provides an estimate of the amount of equity dollars expected to be raised for the Development in conjunction with the amount of Housing Tax Credits requested for allocation to the Development Owner, including pay-in schedules, syndicator consulting fees and other syndication costs. No syndication costs should be included in the Eligible Basis. (§2306.6705(2) and (3))

(D) For Developments located in a Qualified Census Tract (QCT) as determined by the Secretary of HUD or otherwise~~and~~ qualifying for a 30% increase in Eligible Basis, pursuant to the Code, §42(d)(5)(C) or §49.6(h)(3) and (4) of this chapter, if permitted under §~~50~~49.6(h) of this chapter, Applicants must submit a copy of the census map clearly showing that the proposed Development is located within a QCT. Census tract numbers must be clearly marked on the map, and must be identical to the QCT number stated in the Department's Reference Manual.

(E) Rehabilitation Developments (including reconstruction) and Adaptive Reuse~~)~~ must submit a Property Condition Assessment meeting the requirements of paragraph (14)(C) of this subsection.

(F) If offsite costs are included in the budget as a line item, or embedded in the site acquisition contract, or referenced in the utility provider letters, then the supplemental form "Off Site Cost Breakdown" must be provided.

(G) If projected site work costs include unusual or extraordinary items or exceed $9,000 per Unit, then the Applicant must provide a detailed cost breakdown prepared by a Third Party engineer or architect, and a letter from a certified public accountant allocating which portions of those site costs should be included in Eligible Basis and which ones may be ineligible.

(7) Evidence of readiness to proceed as evidenced by at least one of the items under each of subparagraphs (A)-(D) of this paragraph:

(A) Evidence of Property control in the name of the Development Owner. If the evidence is not in the name of the Development Owner, then the documentation should reflect an expressed ability to transfer the rights to the Development Owner. All of the sellers of the proposed Property for the 36 months prior to the first day of the Application Acceptance Period and their relationship, if any, to members of the Development team must be identified at the time of Application (not required at Pre-Application). One of the following items described in clauses (i)-(iii) of this subparagraph must be provided, and if the acquisition can be characterized as an identity of interest transaction as described in §1.32 of this title, items described in clause (iv) of this subparagraph must also be provided:

(i) A recorded warranty deed with corresponding executed settlement statement, unless required to submit items under clause (iv) of this subparagraph; or

(ii) A contract for lease (the minimum term of the lease must be at least 45 years) which is valid for the entire period the Development is under consideration for tax credits; or

(iii) A contract for sale, ~~or~~ an exclusive option to purchase or a lease which is valid for the entire period the Development is under consideration for tax credits. For Tax Exempt Bond Development Applications, site control must be valid through December 1, ~~2007~~2008 with option to extend through March 1, ~~2008~~2009 (Applications submitted for lottery) or 90 days from the date of the bond reservation with the option to extend through the scheduled TDHCA Board meeting at which the award of Housing Tax Credits will be considered. The potential expiration of site control does not warrant the Application being presented to the TDHCA Board prior to the scheduled meeting.

(iv) If the acquisition can be characterized as an identity of interest transaction, as described in §1.32 of this title, subclauses (I), (II) and (III) of this clause, ~~will be required~~the Applicant must provide (not required at Pre-Application):

(I) Documentation of the original acquisition cost in the form of a settlement statement or, if a settlement statement is not available, the seller's most recent audited financial statement specifically indicating the asset value for the Development Site; and

(II) If the original acquisition cost evidenced by subclause (I) of this clause is less than the acquisition cost claimed in the Application;

(-a-) An appraisal meeting the requirements of paragraph (14)(D) of this subsection; and

(-b-) Any other verifiable costs of owning, holding, or improving the Property that, when added to the value from subclause (I) of this clause, justifies the Applicant's proposed acquisition amount.

(-1-) For land-only transactions, documentation of owning, holding or improving costs since the original acquisition date may include property taxes, interest expense, a calculated return on equity at a rate consistent with the historical returns of similar risks, the cost of any physical improvements made to the property, the cost of rezoning, replatting or developing the property, or any costs to provide or improve access to the property.

(-2-) For transactions which include existing buildings that will be rehabilitated or otherwise maintained as part of the Development, documentation of owning, holding, or improving costs since the original acquisition date may include capitalized costs of improvements to the property, a calculated return on equity at a rate consistent with the historical returns of similar risks, and allow the cost of exit taxes not to exceed an amount necessary to allow the sellers to be made whole in the original and subsequent investment in the property and avoid foreclosure.

(III) In no instance will the acquisition cost utilized by the underwriter exceed the lesser of the original acquisition cost evidenced by subclause (I) of this clause plus costs identified in subclause (II)(-b-) of this clause, or the "as-is" value conclusion evidenced by subclause (II)(-a-) of this clause.

(v) As described in clauses (ii) and (iii) of this subparagraph, property control must be continuous. Closing on the property is acceptable, as long as evidence is provided that there was no period in which control was not retained.

(B) Evidence from the appropriate local municipal authority that satisfies one of clauses (i) - (iii) of this subparagraph. Documentation may be from more than one department of the municipal authority and must have been prepared and executed not more than 6 months prior to the close of the Application Acceptance Period. (§2306.6705(5))

(i) For New Construction, Adaptive Reuse or reconstruction Developments, a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction stating that (For Tax-Exempt Bond Applications the items in clauses (I) - (III) of this clause must be submitted no later than 14 days prior to the Board meeting when the housing tax credits will be considered):

(I) The Development is located within the boundaries of a political subdivision which does not have a zoning ordinance; and either subclauses (II) or (III) of this clause;

(II) The letter must state that the Development is consistent with a local consolidated plan, comprehensive plan, or other local planning document that addresses affordable housing; or

(III) The letter must state that there is a need for affordable housing, if no such planning document exists.

(ii) For New Construction or reconstruction Developments, a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction stating that:

(I) The Development is permitted under the provisions of the zoning ordinance that applies to the location of the Development; or

(II) The Applicant is in the process of seeking the appropriate zoning and has signed and provided to the political subdivision a release agreeing to hold the political subdivision and all other parties harmless in the event that the appropriate zoning is denied~~, and a time schedule for completion of appropriate zoning~~ (§2306.6705(1)(B)). The Applicant must also provide at the time of Application a copy of the application for appropriate zoning filed with the local entity responsible for zoning approval and proof of delivery of that application in the form of a signed certified mail receipt, signed overnight mail receipt, or confirmation letter from said official. Final approval of appropriate zoning must be achieved and documentation of acceptable zoning for the Development, as proposed in the Application, must be provided to the Department at the time the Commitment Fee, or Determination Notice Fee, is paid. If this evidence is not provided with the Commitment Fee, any commitment of credits will be rescinded. No extensions may be requested for the deadline for submitting evidence of final approval of appropriate zoning.

(iii) For Rehabilitation Developments, if the property is currently a non-conforming use as presently zoned, a letter from the chief executive officer of the political subdivision or another local official with appropriate jurisdiction which addresses the items in subclauses (I) - (IV) of this clause:

(I) A detailed narrative of the nature of non-conformance;

(II) The applicable destruction threshold;

(III) Owner's rights to reconstruct in the event of damage; and

(IV) Penalties for noncompliance.

(C) Evidence of interim and permanent financing sufficient to fund the proposed Total Housing Development Cost less any other funds requested from the Department and any other sources documented in the Application. Any local, state or federal financing identified in this section which restricts household incomes at any AMGI lower than restrictions required pursuant to the Rules must be identified in the Rent Schedule and the local, state or federal income restrictions must include corresponding rent levels that do not exceed 30% of the income limitation in accordance with §42(g) of the Code. The income and corresponding rent restrictions will be imposed by the Housing Tax Credit LURA and monitored throughout the extended use period. Such evidence must be consistent with the sources and uses of funds represented in the Application and shall be provided in one or more of the following forms described in clauses (i) - (iv) of this subparagraph:

(i) Bona fide financing in place as evidenced by:

(I) A valid and binding loan agreement;

(II) Deed(s) of trust in the name of the Development Owner expressly allowing transfer to the Development Owner; and

(III) For TRDO-USDA §515 Developments involving, an executed TRDO-USDA letter indicating TRDO-USDA has received a Consent Request, also referred to as a Preliminary Submittal, as described in 7 CFR §3560.406 and a copy of the original loan documents; or,

(ii) Bona fide commitment or term sheet for the interim and permanent loans issued by a lending institution or mortgage company that is actively and regularly engaged in the business of lending money which is addressed to the Development Owner and which has been executed by the lender (the term of the loan must be for a minimum of 15 years with at least a 30 year amortization). The commitment must state an expiration date and all the terms and conditions applicable to the financing including the mechanism for determining the interest rate, if applicable, and the anticipated interest rate and any required Guarantors. Such a commitment may be conditional upon the completion of specified due diligence by the lender and upon the award of tax credits; or,

(iii) Any Federal, State or local gap financing, whether of soft or hard debt, must be identified at the time of Application as evidenced by:

(I) Evidence from the lending agency that an application for funding has been made or from the Applicant indicating an intent to apply for funding; and

(II) A term sheet which clearly describes the amount and terms of the funding, and the date by which the funding determination will be made and any commitment issued, must be submitted; and

(III) Evidence of application for funding from another Department program is not required except as indicated on the Uniform Application, as long as the Department funding is on a concurrent funding period with the Application submitted and the Applicant clearly indicates that such an Application has been filed as required by the Application Submission Procedures Manual; and

(IV) If the commitment from any funding source identified in this subparagraph has not been received by the date the Department's Commitment Notice is to be submitted, the Application will be reevaluated for financial feasibility. If the Application is infeasible without the funding source, the Commitment Notice may be rescinded; or

(iv) If the Development will be financed through more than 5% of Development Owner contributions, provide a letter from an Third Party CPA verifying the capacity of the Development Owner to provide the proposed financing with funds that are not otherwise committed together with a letter from the Development Owner's bank or banks confirming that sufficient funds are available to the Development Owner. Documentation must have been prepared and executed not more than 6 months prior to the close of the Application Acceptance Period.

(D) Provide the documents in clauses (i) - (iii) of this subparagraph:

(i) A copy of the full legal description for the Development Site; and

(ii) A current valuation report from the county tax appraisal district and documentation of the current total property tax rate for the Development Site (unless the site is located on land that is not subject to federal, state or local property taxes), and

(iii) A copy of:

(I) The current title policy (or title status report if on Tribal Land) which shows that the ownership (or leasehold) of the Development Site is vested in the ~~exact~~ name of the Development Owner; or

(II) a current title commitment with the proposed insured matching ~~exactly~~ the name of the Development Owner and the title of the Development Site vested in the exact name of the seller or lessor as indicated on the sales contract, option or lease.

(III) If the title policy, title status report, or commitment is more than six months old as of the day the Application Acceptance Period closes, then a letter from the title company/Bureau of Indian Affairs indicating that nothing further has transpired on the policy, title status report or commitment.

(8) Evidence in the form of a certification of all of the notifications described in the subparagraphs of this paragraph. Such notices must be prepared in accordance with the "Public Notifications" certification provided in the Application.

(A) Evidence in the form of a certification that the Applicant met the requirements and deadlines identified in clauses (i) - (iii) of this subparagraph. Notification must not be older than three months from the first day of the Application Acceptance Period. (§2306.6705(9)). If evidence of these notifications was submitted with the Pre-Application Threshold for the same Application and satisfied the Department's review of Pre-Application Threshold, then no additional notification is required at Application, except that re-notification is required by tax credit Applicants who have submitted a change in the Application, whether from Pre-Application to Application or as a result of an Administrative Deficiency that reflects a total Unit increase of greater than 10%, a total increase of greater than 10% for any given level of AMGI, or a change to the population being served (elderly, Intergenerational Housing or family). For Applications submitted for Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only under other Multifamily Programs (HOME, Housing Trust Fund, etc.), notifications and proof thereof must not be older than three months prior to the date the Volume III of the Application is submitted.

(i) The Applicant must request a list of Neighborhood Organizations on record with the county and state whose boundaries include the proposed Development Site from local elected officials as follows:

(I) No later than January ~~15~~20, ~~2008~~2009 for Competitive Housing Tax Credit Applications (or for Tax-Exempt Bond Applications, Rural Rescue, or Applications not applying for Tax Credits, but applying only for other Multifamily Programs such as HOME, Housing Trust Fund, etc., not later than ~~21~~14 days prior to submission of the Threshold documentation), the Applicant must e-mail, fax or mail with registered receipt a completed "Neighborhood Organization Request" letter as provided in the Application to the local elected official for the city and county where the Development is proposed to be located. If the Development is located in an Area that has district based local elected officials, or both at-large and district based local elected officials, the request must be made to the city council member or county commissioner representing that district; if the Development is located an Area that has only at-large local elected officials, the request must be made to the mayor or county judge for the jurisdiction. If the Development is not located within a city or is located in the Extra Territorial Jurisdiction (ETJ) of a city, the county local elected official must be contacted. In the event that local elected officials refer the Applicant to another source, the Applicant must request Neighborhood Organizations from that source in the same format.

(II) If no reply letter is received from the local elected officials by February ~~21~~20, ~~2008~~2009, (or For Tax-Exempt Bond Developments or Applications not applying for Tax Credits, but applying only for other Multifamily Programs such as HOME, Housing Trust Fund, etc., by 7 days prior to the submission of the Application), then the Applicant must certify to that fact in the "Application Notification Certification Form" provided in the Application.

(III) The Applicant must list all Neighborhood Organizations on record with the county or state whose boundaries include the proposed Development Site as outlined by the local elected officials, or that the Applicant has knowledge of as of the submission of the Application, in the "Application Notification Certification Form" provided in the Application.

(ii) Not later than the date the Application is submitted, notification must be sent to ~~-~~all of the following individuals and entities by e-mail, fax or mail with registered receipt return or similar tracking mechanism e-mail, fax or mail with registered receipt in the format required in the "Application Notification Template" provided in the Application. Developments located in an Extra Territorial Jurisdiction (ETJ) of a city are not required to notify city officials, however, are required to notify county officicals. Evidence of Notification is required in the form of a certification in the "Application Notification Certification Form" provided in the Application, although it is encouraged that Applicants retain proof of delivery of the notifications, to the persons or entites prescribed subclauses (I)-(IX) of this clause, in the event that the Department requires proof of Notification. Evidence of proof of delivery is demonstrated by signed receipt for mail or courier delivery and confirmation of receipt by recipient for facsimile and electronic mail. Officials to be notified are those officials in office at the time the Application is submitted.

(I) Neighborhood Organizations on record with the state or county whose boundaries include the proposed Development Site as identified in clause (i)(III) of this subparagraph.

(II) Superintendent of the school district containing the Development;

(III) Presiding officer of the board of trustees of the school district containing the Development;

(IV) Mayor of the ~~governing body~~Governing Body of any municipality containing the Development;

(V) All elected members of the ~~governing body~~Governing Body of any municipality containing the Development;

(VI) Presiding officer of the ~~governing body~~Governing Body of the county containing the Development;

(VII) All elected members of the ~~governing body~~Governing Body of the county containing the Development;

(VIII) State senator of the district containing the Development; and

(IX) State representative of the district containing the Development.

(iii) Each such notice must include, at a minimum, all of the following:

(I) The Applicant's name, address, individual contact name and phone number;

(II) The Development name, address, city and county;

(III) A statement informing the entity or individual being notified that the Applicant is submitting a request for Housing Tax Credits with the Texas Department of Housing and Community Affairs;

(IV) Statement of whether the Development proposes New Construction, reconstruction, Adaptive Reuse or Rehabilitation;

(V) The type of Development being proposed (single family homes, duplex, apartments, townhomes, high-rise etc.) and population being served (family, Intergenerational Housing or elderly);

(VI) The approximate total number of Units and approximate total number of low-income Units;

(VII) The approximate percentage of Units serving each level of AMGI (e.g. 20% at 50% of AMGI, etc.) and the approximate percentage of Units that are market rate;

(VIII) The number of Units and proposed rents (less utility allowances) for the low-income Units and the number of Units and the proposed rents for any market rate Units. Rents to be provided are those that are effective at the time of the Application, which are subject to change as annual changes in the area median income occur; and

(IX) The expected completion date if credits are awarded.

(B) Signage on Property or Alternative. A Public Notification Sign shall be installed on the Development Site prior to the date the Application is submitted unless prohibited by local ordinance or code.

Scattered site Developments must install a sign on each Development Site. For Competitive Housing Tax Credit Applications the date, time and location of the public hearing, as published by the Department and closest to the Development Site, must be included on the sign. For Tax-Exempt Bond Developments, regardless of the Priority of the Application or the Issuer, the sign must be installed within thirty (30) days of the Department's receipt of Volumes I and II. The date, time and location of the bond Tax Exempt Fiscal Responsibility Act (TEFRA) public hearing must be included on the sign no later than thirty (30) days prior to the scheduled public hearing. Evidence submitted with the Application must include photographs of the site with the installed sign. The sign must be at least 4 feet by 8 feet in size and located within twenty feet of, and facing, the main road adjacent to the site. The sign shall be continuously maintained on the site until the day that the Board takes final action on the Application for the Development. The information and lettering on the sign must meet the minimum requirements identified in the Application. For Tax-Exempt Bond Developments, regardless of the issuer, the Applicant must certify to the fact that the sign was installed within 30 days of submission and the date, time and location of the ~~bond~~TEFRA hearing is indicated on the sign at least 30 days prior to the date of the scheduled hearing. In areas where the Public Notification Sign is prohibited by local ordinance or code, an alternative to installing a Public Notification Sign and at the same required time, the Applicant shall, mail written notification to those addresses described in either clause (i) or (ii) of this subparagraph. This written notification must include the information otherwise required for the sign as provided in the Application. The final Application must include a map of the proposed Development Site and mark the distance required by clause (i) or (ii) of this subparagraph, up to 1,000 feet, showing street names and addresses; a list of all addresses the notice was mailed to; an exact copy of the notice that was mailed; and a certification that the notice was mailed through the U.S. Postal Service and stating the date of mailing. If Public Notification Sign is prohibited by local ordinance or code, evidence of the applicable ordinance or code must be submitted in the Application.

(i) All addresses required for notification by local zoning notification requirements. For example, if the local zoning notification requirement is notification to all those addresses within 200 feet, then that would be the distance used for this purpose; or

(ii) For Developments located in communities that do not have zoning, communities that do not require a zoning notification or those located outside of a municipality, all addresses located within 1,000 feet of any part of the proposed Development Site.

(C) If any of the Units in the Development are occupied at the time of Application, then the Applicant must certify that it has notified each tenant at the Development of all the information otherwise required on the sign, including the Department's public hearing schedule for comment on submitted Applications.

(9) Evidence of the Development's proposed ownership structure and the Applicant's previous experience as described in subparagraphs (A) - (D) of this paragraph.

(A) Chart which clearly illustrates the complete organizational structure of the final proposed Development Owner and of any Developer or Guarantor, providing the names and ownership percentages of all Persons having an ownership interest in the Development Owner or the Developer or Guarantor, as applicable, whether directly or through one or more subsidiaries. Nonprofit entities, public housing authorities, publicly traded corporations, individual board members, and executive directors must be included in this exhibit.

(B) Each Applicant, Development Owner, Developer or Guarantor, or any entity shown on an organizational chart as described in subparagraph (A) of this paragraph that has ownership interest in the Development Owner, Developer or Guarantor, shall provide the following documentation, as applicable:

(i) For entities that are not yet formed but are to be formed either in or outside of the state of Texas, a certificate of reservation of the entity name from the Texas Secretary of State; or

(ii) For existing entities whether formed in or outside of the state of Texas, evidence that the entity has the authority to do business in Texas or has applied for such authority in the form of a Certificate of Filing from the Texas Secretary of State.

(C) Evidence that each entity shown on the organizational chart described in subparagraph (A) of this paragraph that has ownership interest in the Development Owner, Developer or Guarantor, has provided a copy of the completed and executed Previous Participation and Background Certification Form to the Department. Nonprofit entities, public housing authorities and publicly traded corporations are required to submit documentation for the entities involved; documentation for individual board members and executive directors is required for this exhibit. Any Person receiving more than 10% of the Developer fee will also be required to submit documents for this exhibit. The ~~2008~~2009 versions of these forms, as required in the

Uniform Application, must be submitted. Units of local government are also required to submit this document. The form must include a list of all developments that are, or were, previously under ownership or Control of the Person. All participation in any TDHCA funded or monitored activity, including non-housing activities, must be disclosed.

(D) Evidence, in the form of a certification, that one of the Development Owner's General Partners, the Developer or their Principals have a record of successfully constructing or developing residential units in the capacity of owner, General Partner or Developer. Evidence must be a certification from the Department that the Person with the experience satisfies this exhibit, as further described under subsection (g)(1) of this section. Applicants must request this certification at least fourteen days prior to the close of the Application Acceptance Period. Applicants must ensure that the Person whose name is on the certification appears in the organizational chart provided in subparagraph (A) of this paragraph.

(10) Evidence of the Development's projected income and operating expenses as described in subparagraphs (A) - (D) of this paragraph:

(A) All Developments must provide a 30-year proforma estimate of operating expenses and supporting documentation used to generate projections (operating statements from comparable properties).

(B) If rental assistance, an operating subsidy, an annuity, or an interest rate reduction payment is proposed to exist or continue for the Development, any related contract or other agreement securing those funds or proof of application for such funds must be provided, which at a minimum identifies the source and annual amount of the funds, the number of Units receiving the funds, and the term and expiration date of the contract or other agreement. (§2306.6705(4))

(C) Applicant must provide documentation from the source of the "Utility Allowance" estimate used in completing the Rent Schedule provided in the Application. This exhibit must clearly indicate which utility costs are included in the estimate.

(D) Occupied Developments undergoing Rehabilitation must also submit the items described in clauses (i) - (iv) of this subparagraph.

(i) The items in subclauses (I) and (II) of this clause are required unless the current property owner is unwilling to provide the required documentation. In that case, submit a signed statement as to the Applicant's inability to provide all documentation as described.

(I) Submit at least one of the following:

(-a-) Historical monthly operating statements of the subject Development for 12 consecutive months ending not more than 3 months from the first day of the Application Acceptance Period;

(-b-) The two most recent consecutive annual operating statement summaries;

(-c-) The most recent consecutive six months of operating statements and the most recent available annual operating summary;

(-d-) All monthly or annual operating summaries available and a written statement from the seller refusing to supply any other summaries or expressing the inability to supply any other summaries, and any other supporting documentation used to generate projections may be provided; and

(II) A rent roll not more than 6 months old as of the first day the Application Acceptance Period, that discloses the terms and rate of the lease, rental rates offered at the date of the rent roll, Unit mix, tenant names or vacancy, and dates of first occupancy and expiration of lease.

(ii) A written explanation of the process used to notify and consult with the tenants in preparing the Application; (§2306.6705(6))

(iii) For Intergenerational Housing Applications or Qualified Elderly Developments, identification of the number of existing tenants qualified under the target population elected under this title;

(iv) A relocation plan outlining relocation requirements and a budget with an identified funding source; and (§2306.6705(6))

(v) If applicable, evidence that the relocation plan has been submitted to the appropriate legal or governmental agency. (§2306.6705(6))

(11) Applications involving Nonprofit General Partners and Qualified Nonprofit Developments.

(A) All Applications involving a nonprofit General Partner, regardless of the Set-Aside applied under, in which the Development will receive some financial or tax benefit for the involvement of the nonprofit General Partner, must submit all of the documents described in clauses (i) and (ii) of this subparagraph and indicate the nonprofit status on the carryover documentation and IRS Forms 8609: (§2306.6706)

(i) An IRS determination letter which states that the nonprofit organization is a §501(c)(3) or (4) entity or; and

(ii) The "Nonprofit Participation Exhibit."

(B) Additionally, all Applications applying under the Nonprofit Set-Aside, established under §~~50~~49.7(b)(1) of this chapter, must also provide the following information with respect to the Qualified Nonprofit Organization as described in clauses (i) - (iii) of this subparagraph.

(i) A Third Party legal opinion stating:

(I) That the nonprofit organization is not affiliated with or Controlled by a forprofit organization and the basis for that opinion; and

(II) That the nonprofit organization is eligible, as further described, for a Housing Credit Allocation from the Nonprofit Set-Aside and the basis for that opinion. Eligibility is contingent upon the non-profit organization Controlling the Development, or if the organization's Application is filed on behalf of a limited partnership, or limited liability company, the Qualified Nonprofit Organization must be the controlling Managing Member; and otherwise meet the requirements of the Code, §42(h)(5); and

(III) That one of the exempt purposes of the nonprofit organization is to provide low-income housing; and

(IV) That the nonprofit organization prohibits a member of its board of directors, other than a chief staff member serving concurrently as a member of the board, from receiving material compensation for service on the board; and

(V) That the Qualified Nonprofit Development will have the nonprofit entity or its nonprofit Affiliate or subsidiary be the Developer or co-Developer as evidenced in the development agreement; and

(ii) A copy of the nonprofit organization's most recent audited financial statement; and

(iii) Evidence in the form of a certification that a majority of the members of the nonprofit organization's board of directors principally reside:

(I) In this state, if the Development is located in a Rural Area; or

(II) Not more than 90 miles from the Development, if the Development is not located in a Rural Area.

(12) Applicants applying for acquisition credits ~~must provide~~ must provide:

(A) An appraisal meeting the requirements of paragraph (14)(D) of this subsection; and

(B) An "Acquisition of Existing Buildings Form."

(13) Evidence of Financial Statement and Authorization to Release Credit Information. The financial statements and authorization to release credit information must be unbound and clearly labeled. A "Financial Statement and Authorization to Release Credit Information" must be completed and signed for any General Partner, Developer or Guarantor and any Person that has an ownership interest of 10% or more in the Development Owner, General Partner, Developer, or Guarantor. Nonprofit entities, public housing authorities and publicly traded corporations are only required to submit documentation for the entities involved; documentation for individual board members and executive directors is not required for this exhibit.

(A) Financial statements for an individual must not be older than 6 months ~~90 days~~ from the first day of the Application Acceptance Period.

(B) Financial statements for partnerships or corporations should be for the most recent fiscal year ended 90 days from the first day of the Application Acceptance Period. An audited financial statement should be provided, if available, and all partnership or corporate financials must be certified. Financial statements are required for an entity even if the entity is wholly-owned by a Person who has submitted this document as an individual.

(C) Entities that have not yet been formed and entities that have been formed recently but have no assets, liabilities, or net worth are not required to submit this documentation, but must submit a statement with their Application that this is the case.

(14) Supplemental Threshold Reports. All Applications must include documents under subparagraphs (A) and (B) of this paragraph. If required under paragraph (6) of this subsection, a Property Condition Assessment as described in subparagraph (C) of this paragraph must be submitted. If required under paragraphs (7) or (12) of this subsection, an appraisal as described in subparagraph (D) of this paragraph must be submitted. All submissions must meet the requirements stated in subparagraphs (E) - (G) of this paragraph.

(A) A Phase I Environmental Site Assessment (ESA) report:

(i) Prepared by a qualified Third Party;

(ii) Dated not more than 12 months prior to the first day of the Application Acceptance Period. In the event that a Phase I Environmental Site Assessment on the Development is more than 12 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated letter or updated report dated not more than three months prior to the first day of the Application Acceptance Period from the Person or organization which prepared the initial assessment confirming that the site has been re-inspected and reaffirming the conclusions of the initial report or identifying the changes since the initial report; and

(iii) Prepared in accordance with the Department's Environmental Site Assessment Rules and Guidelines, §1.35 of this title.

(iv) Developments whose funds have been obligated by TRDO-USDA will not be required to supply this information; however, the Applicants of such Developments are hereby notified that it is their responsibility to ensure that the Development is maintained in compliance with all state and federal environmental hazard requirements.

(B) A comprehensive Market Analysis report:

(i) Prepared by a Third Party Qualified Market Analyst approved by the Department in accordance with the approval process outlined in the Market Analysis Rules and Guidelines, §1.33 of this title;

(ii) Dated not more than 6 months prior to the first day of the Application Acceptance Period. In the event that a Market Analysis is more than 6 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated Market Analysis from the Person or organization which prepared the initial report; however the Department will not accept any Market Analysis which is more than 12 months old as of the first day of the Application Acceptance Period; and

(iii) Prepared in accordance with the methodology prescribed in the Department's Market Analysis Rules and Guidelines, §1.33 of this title.

(iv) For Applications in the TRDO-USDA Set-Aside proposing acquisition and Rehabilitation with residential structures at or above 80% occupancy at the time of Application Submission, the appraisal, required under paragraphs (7) or (12) of this subsection and prepared in accordance with the Uniform Standards of Professional Appraisal Practice and the Department's Appraisal Rules and Guidelines, §1.34 of this title, will satisfy the requirement for a Market Analysis; however the Department may request additional information as needed. (§2306.67055) (§42(m)(1)(A)(iii))

(C) A Property Condition Assessment (PCA) report (required for Rehabilitation, reconstruction and Adaptive Reuse Developments):

(i) Prepared by a qualified Third Party;

(ii) Dated not more than 6 months prior to the first day of the Application Acceptance Period; and

(iii) Prepared in accordance with the Department's Property Condition and Assessment Rules and Guidelines, §1.36 of this title.

(iv) For Developments which require a capital needs assessment from TRDO-USDA, the capital needs assessment may be substituted and may be more than 6 months old, as long as TRDO-USDA has confirmed in writing that the existing capital needs assessment is still acceptable and it meets the requirements of §1.36 of this title.

(D) An appraisal report:

(i) Prepared by a qualified Third Party;

(ii) Dated not more than 6 months prior to the first day of the Application Acceptance Period. In the event that an appraisal is more than 6 months old prior to the first day of the Application Acceptance Period, the Applicant must supply the Department with an updated appraisal from the Person or organization which prepared the initial report; however the Department will not accept any appraisal which is more than 12 months old as of the first day of the Application Acceptance Period; and

(iii) Prepared in accordance with the Uniform Standards of Professional Appraisal Practice and the Department's Appraisal Rules and Guidelines, §1.34 of this title.

(iv) For Developments that require an appraisal from TRDO-USDA, the appraisal may be more than 6 months old, as long as TRDO-USDA has confirmed in writing that the existing appraisal is still acceptable.

(E) Inserted at the front of each of these reports must be a transmittal letter from the individual preparing the report that states that the Department is granted full authority to rely on the findings and conclusions of the report. The transmittal letter must also state the report preparer has read and understood the Department rules specific to the report found at §§1.33 - 1.36 of this title.

(F) All Applicants acknowledge by virtue of filing an Application that the Department is not bound by any opinion expressed in the report. The Department may determine from time to time that information not required in the Department's Rules and Guidelines will be relevant to the Department's evaluation of the need for the Development and the allocation of the requested Housing Credit Allocation Amount. The Department may request additional information from the report provider or revisions to the report to meet this need. In instances of non-response by the report provider, the Department may substitute in-house analysis.

(G) The requirements for each of the reports identified in subparagraphs (A) - (C) of this paragraph can be satisfied in either of the methods identified in clause (i) or (ii) of this subparagraph and meet the requirements of clause (iii) of this subparagraph.

(i) Upon Application submission, the documentation for each of these exhibits may be submitted in its entirety; or

(ii) Upon Application submission, the Applicant may provide evidence in the form of an executed engagement letter with the party performing each of the individual reports that the required exhibit has been commissioned to be performed and that the delivery date will be no later than April 1, ~~2008~~2009. In addition to the submission of the engagement letter with the Application, a map must be provided that reflects the Qualified Market Analyst's intended market area. Subsequently, the entire exhibit must be submitted on or before 5:00 p.m. CST, April 1, ~~2008~~2009. If the entire exhibit is not received by that time, the Application will be terminated and will be removed from consideration.

(iii) A single hard copy of the report and a searchable soft copy in the format of a single file containing all information and exhibits in the hard copy report, presented in the order they appear in the hard copy report on a CD-R clearly labeled with the report type, Development name, and Development location are required.

(15) Self-Scoring. Applicant's self-score must be completed on the "Application Self-Scoring Form." An Applicant may not adjust the Application Self Scoring Form, after the submission of the Application, without a request from the Department as a result of an Administrative Deficiency.

(i) **Selection Criteria.** All Applications will be scored and ranked using the point system identified in this subsection. Unless otherwise stated, ~~use normal rounding~~do not round calculations. Points other than paragraphs (2) and (6) of this subsection will not be awarded unless requested in the Self Scoring Form. All Applications, with the exception of TRDO-USDA Applications, must receive a final score totaling a minimum of ~~111~~118, not including any points awarded or deducted pursuant to paragraphs (2) and (6) of this subsection to be eligible for an allocation of Housing Tax Credits. Maximum Total Points: ~~228~~240.

(1) Financial Feasibility of the Development. Financial Feasibility of the Development based on the supporting financial data required in the Application that will include a Development underwriting pro forma from the permanent or construction lender. (§2306.6710(b)(1)(A)). Applications may qualify to receive 28 points for this item. No partial points will be awarded. Evidence will include the documentation required for this exhibit, as reflected in the Application submitted, in addition to the commitment letter required under subsection (h)(7)(C) of this section. The supporting financial data shall include:

(A) A fifteen year pro forma prepared by the permanent or construction lender:

(i) Specifically identifying each of the first five years and every fifth year thereafter;

(ii) Specifically identifying underlying assumptions including, but not limited to general growth factor applied to income and expense; and

(iii) Indicating that the Development maintains a minimum 1.15 debt coverage ratio throughout the initial fifteen years proposed for all third party lenders that require scheduled repayment; and

(B) A statement in the commitment letter, or other form deemed acceptable by the Department, indicating that the lender's assessment finds that the Development will be feasible for fifteen years.

(C) For Developments receiving financing from TRDO-USDA, the form entitled "Sources and Uses Comprehensive Evaluation for Multi-Family Housing Loans" or other form deemed acceptable by the Department shall meet the requirements of this section.

(2) Quantifiable Community Participation from Neighborhood Organizations on Record with the State or County and Whose Boundaries Contain the Proposed Development Site. Points will be awarded based

on written statements of support or opposition from Neighborhood Organizations on record with the state or county in which the Development is to be located and whose boundaries contain the proposed Development site. (§2306.6710(b)(1)(B); §2306.6725(a)(2)). It is possible for points to be awarded or deducted based on written statements from organizations that were not identified by the process utilized for notification purposes under subsection (h)(8)(A)(ii) of this section if the organization provides the information and documentation required in subparagraphs (A) - (C) of this paragraph. It is also possible that neighborhood organizations that were initially identified as appropriate organizations for purposes of the notification requirements will subsequently be determined by the Department not to meet the requirements for scoring. If an organization is determined not to be qualified under this paragraph, the organization may qualify under paragraph (18)(B) of this subsection.

(A) Basic Submission Requirements for Scoring. Each Neighborhood Organization may submit one letter (and enclosures) that represents the organization's input. In order to receive a point score, the letter (and enclosures) must be received, by the Department, or postmarked, if mailed by the U.S Postal Service, ~~(or similar tracking system) by the Department~~ no later than February ~~29~~27, ~~2008~~2009, for letters relating to Applications that submitted a Pre-Application, or April 1, ~~2008~~2009 if a Pre-Application was not submitted. Letters should be addressed to the Texas Department of Housing and Community Affairs, "Attention: ~~Executive Director~~Director of Multifamily Finance (Neighborhood Input)." Letters received after the applicable deadline will be summarized for the Board's information and consideration, but will not affect the score for the Application. The organization's letter (and enclosures) must:

(i) State the name and location of the proposed single Development;

(ii) Certify that the letter is signed by the persons with the authority to sign on behalf of the neighborhood organization, and provide:

(I) the street and/or mailing addresses;

(II) day and evening phone numbers;

(III) and e-mail addresses and/or facsimile numbers for the signer of the letter and one additional contact for the organization;

~~and~~

~~(IV) for one additional contact including their contact information for the organization;~~

(iii) Certify that the organization has boundaries, and that the boundaries in effect February ~~29~~27, ~~2008~~2009 contain the proposed Development Site;

(iv) Certify that the organization meets the definition of "Neighborhood Organization as defined in §~~50~~49.3(63) of this chapter." For the purposes of this section, a "Neighborhood Organization" is defined as an organization of persons living near one another within the organization's defined boundaries in effect February ~~29~~27, ~~2008~~2009 that contain the proposed Development site and that has a primary purpose of working to maintain or improve the general welfare of the neighborhood. "Neighborhood Organizations" include homeowners associations, property owners associations, and resident councils in which the council is commenting on the Rehabilitation or reconstruction of the property occupied by the residents. "Neighborhood Organizations" do not include broader based "community" organizations;

(v) Include documentation showing that the organization is on record as of February ~~29~~27, ~~2008~~2009 with the state or county in which the Development is proposed to be located. The receipt of a QCP letter, by the Department on or before February ~~29~~27, ~~2008~~2009, that meets the requirements outlined in the QCP neighborhood information packet and the ~~2008~~2009 QAP, will constitute being on record with the State. The Neighborhood Organization letter must be signed by two officials or board members of the Neighborhood Organization and must include in its letter, a contact name with a mailing address and phone number of persons signing the letter; ~~and~~ a written description and map of the organization's geographical boundaries~~,~~; ~~as well as~~and proof that the boundaries described were in effect as of February ~~29~~27, ~~2008~~2009. This request must be received no later than February ~~29~~27, ~~2008~~2009. Acceptance of this documentation will be subject to Department approval. The Department is permitted to issue a deficiency notice for this registration process and if satisfied, the organization will still be deemed to be timely placed on record with the state;

(vi) Accurately certify that the Neighborhood Organization was not formed by any Applicant, Developer, or any employee or agent of any Applicant (the seller of land is not considered, with the exception of an identity of interest, to be an agent of the Application) in the ~~2008~~2009 Competitive Housing Tax Credit Application Round, that the organization and any member did not accept money or a gift to cause the Neighborhood Organization to take its position of support or opposition, and has not provided any assistance other than education and information sharing to the Neighborhood Organization to meet the requirements of this subparagraph for any Application in the Application Round (i.e. hosting a public meeting, providing the "TDHCA Information Packet for Neighborhoods" to the Neighborhood Organization, or referring the Neighborhood Organization to TDHCA staff for guidance). Applicants may not provide any "production" assistance to meet these requirements for any Application in the Application Round (i.e. use of fax machines owned by the Applicant, use of legal counsel related to the Applicant, or assistance drafting a letter for the purposes of this subparagraph). Any deficiency notices issued to the Neighborhood Organization will also be sent to the Applicant for information purposes only. Applicants may not provide delivery assistance of any communication between the Neighborhood Organization and the Department and Applicants may not assist the Neighborhood Organization in preparing its response to a deficiency notice.. Applicants may provide information about the deficiency notice process or deadlines to a Neighborhood Organization;

(vii) While not required, the organization is encouraged to hold a meeting to which all the members of the organization are invited to consider whether the organization should support, oppose, or be neutral on the proposed Development, and to have the membership vote on whether the organization should support, oppose, or be neutral on the proposed Development. The organization is also encouraged to invite the Developer or Applicant to this meeting; and

(viii) Letters from Neighborhood Organizations, and subsequent correspondence from Neighborhood Organizations, may not be provided via the Applicant which includes facsimile and email communication.

(B) Scoring of Letters (and Enclosures). The input must clearly and concisely state each reason for the Neighborhood Organization's support for or opposition to the proposed Development.

(i) The score awarded for each letter for this exhibit will range from a maximum of +24 for the position support to +12 for the neutral position to 0 for a position of opposition. The number of points to be allocated to each organization's letter will be based on the organization's letter and evidence enclosed with the letter. The final score will be determined by the Executive Director. The Department may investigate a matter and contact the Applicant and Neighborhood Organizations for more information. The Department may consider any relevant information specified in letters from other Neighborhood Organizations regarding a Development in determining a score.

(ii) The Department highly values quality public input addressed to the merits of a Development. Input that points out matters that are specific to the neighborhood, the proposed site, the proposed Development, or Developer are valued. If a proposed Development is permitted by the existing or pending zoning or absence of zoning, concerns addressed by the allowable land use that are related to any multifamily development may generally be considered to have been addressed at the local level through the land use planning process. Input concerning positive efforts or the lack of efforts by the Applicant to inform and communicate with the neighborhood about the proposed Development is highly valued. If the Neighborhood Organization refuses to communicate with the Applicant the efforts of the Applicant will not be considered negative. Input that evidences unlawful discrimination against classes of persons protected by Fair Housing law or the scoring of which the Department determines to be contrary to the Department's efforts to affirmatively further fair housing will not be considered.

(iii) In general, letters that meet the requirements of this paragraph and:

(I) Establish at least one reason for support or opposition will be scored the maximum points for either support (+24 points) or opposition (zero); or

(II) That do not establish a reason for support or opposition or that are unclear will be considered ineligible and scored as neutral (+12 points).

(iv) If an Application receives multiple eligible letters, the average score of all eligible letters will be applied to the Application.

(v) Applications for which no letters from Neighborhood Organizations are scored will receive a neutral score of +12 points.

(C) Basic Submission Deficiencies. The Department is authorized but not required to request that the Neighborhood Organization provide additional information or documentation the Department deems relevant to clarify information contained in the organization's letter (and enclosures). If the Department determines to request additional information from an organization, it will do so by e-mail or facsimile to the e-mail address or facsimile number provided with the organization's letter. If the deficiencies are not clarified or corrected in the Department's determination within ~~seven~~ five business days from the date the e-mail or facsimile is sent to the organization, the organization's letter will not be considered further for scoring and the organization will be so advised. This potential deficiency process does not extend any deadline required above for the "Quantifiable Community Participation" process. An organization may not submit additional information or documentation after the applicable deadlines except in response to an e-mail or facsimile from the Department specifically requesting additional information.

(3) The Income Levels of Tenants of the Development. Applications may qualify to receive up to 22 points for qualifying under only one of subparagraphs (A) - (F) of this paragraph. To qualify for these points, the household incomes must not be higher than permitted by the AMGI level (must round to the next highest whole Unit, no less than one Unit). If a Development includes market rate or non-restricted Units, to qualify for these points at least 10% of all the Units that are not Low-Income Units (i.e. market rate or non-restricted Units) in the Development must be set-aside with incomes at or below 80% of AMGI. The Development Owner, upon making selections for this exhibit, will set aside Units at the levels of AMGI and will maintain the percentage of such Units continuously over the compliance and extended use period as specified in the LURA. These income levels require corresponding rent levels that do not exceed 30% of the income limitation in accordance with §42(g), Internal Revenue Code. (§2306.111(g)(3)(B); §2306.111(g)(3)(E); §2306.6710(b)(1)(C); §2306.6710(e); and §42(m)(1)(B)(ii)(I))

(A) 22 points if at least 80% of the ~~Total~~Low-Income Units in the Development are set-aside with incomes at or below 50% of AMGI; or

(B) 22 points if at least 40% of the ~~Total~~Low-Income Units in the Development are set-aside with incomes at or below a combination of 50% and 30% of AMGI in which at least 5% of the ~~Total~~ Low-Income Units are at or below 30% of AMGI; or

(C) 20 points if at least 60% of the ~~Total~~Low-Income Units in the Development are set-aside with incomes at or below 50% of AMGI; or

(D) 18 points if at least 10% of the ~~Total~~Low-Income Units in the Development are set-aside with incomes at or below 30% of AMGI; or

(E) 16 points if at least 40% of the ~~Total~~Low-Income Units in the Development are set-aside with incomes at or below 50% of AMGI; or

(F) 14 points if at least 35% of the ~~Total~~Low-Income Units in the Development are set-aside with incomes at or below 50% of AMGI.

(4) The Size and Quality of the Units (Development Characteristics). Applications may qualify to receive up to 20 points. Applications may qualify for points under both subparagraphs (A) and (B) of this paragraph. (§2306.6710(b)(1)(D) and §42(m)(1)(C)(iii))

(A) Size of the Units. Applications may qualify to receive 6 points. The Development must meet the minimum requirements identified in this subparagraph to qualify for points. Six points for this item will be automatically granted for Applications involving Rehabilitation (excluding Reconstruction), Developments receiving funding from TRDO-USDA, or Developments proposing ~~single room occupancy~~Single Room Occupancy without meeting these square footage minimums if requested in the Self Scoring Form. The square feet of all of the Units in the Development, for each type of Unit, must be at least the minimum noted in clauses (i) - (v) of this subparagraph. Changes to an Application during any phase of the review process that decreases the square footage below the minimums noted in clauses (i) - (v) of this subparagraph, will be re-evaluated and may result in a reduction of the Application score.

(i) ~~500~~600 square feet for an efficiency Unit;

(ii) ~~650~~700 square feet for a non-elderly one Bedroom Unit; ~~550~~600 square feet for an elderly one Bedroom Unit;

(iii) ~~900~~950 square feet for a non-elderly two Bedroom Unit; 750 square feet for an elderly two Bedroom Unit;

(iv) ~~1,000~~1,050 square feet for a three Bedroom Unit; and

(v) ~~1,200~~1,250 square feet for a four Bedroom Unit.

(B) Quality of the Units. Applications may qualify to receive ~~up to~~ 14 points. Applications in which Developments provide specific amenity and quality features in every Unit at no extra charge to the tenant will be awarded points based on the point structure provided in clauses (i) - (xix) of this subparagraph, not to exceed 14 points in total. Applications involving scattered site Developments must have all of the Units located with a specific amenity to count for points. Applications involving Rehabilitation (excluding reconstruction) or single room occupancy may receive 1.5 points for each point item, not to exceed 14 points in total (do not round).

(i) Covered entries (1 point);

(ii) Nine foot ceilings in living room and all bedrooms (at minimum) (1 point);

(iii) Microwave ovens (1 point);

(iv) Self-cleaning or continuous cleaning ovens (1 point);

(v) Ceiling fixtures in all rooms (light with ceiling fan in living area and all bedrooms) (1 point);

(vi) Refrigerator with icemaker (1 point);

(vii) Laundry connections (2 points);

(viii) Storage room or closet, of approximately 9 square feet or greater, which does not include bedroom, entryway or linen closets - does not need to be in the Unit but must be on the property site (1 point);

(ix) Laundry equipment (washers and dryers) for each individual unit including a front loading washer and dryer in required UFAS compliant Units (3 points);

(x) Thirty year architectural shingle roofing (1 point);

(xi) Covered patios or covered balconies (1 point);

(xii) Covered parking (including garages) of at least one covered space per Unit (2 points);

(xiii) 100% masonry on exterior, which can include stucco, cementitious board products, concrete brick and mortarless concrete masonry, but not EIFS synthetic stucco (3 points) (Applicants may not select this item if item (xiv) of this subclause is selected);

(xiv) Greater than 75% masonry on exterior, which can include stucco and cementitious board products, concrete brick and mortarless concrete masonry, but not EIFS synthetic stucco (1 point) (Applicants may not select this item if item (xiii) of this subclause is selected);

(xv) Use of energy efficient alternative construction materials (for example, Structural Insulated Panel construction) with wall insulation at a minimum of R-20 (3 points);

(xvi) R-15 Walls / R-30 Ceilings (rating of wall system) (3 points);

(xvii) 14 SEER HVAC or evaporative coolers in dry climates for New Construction, Adaptive Reuse, and reconstruction or radiant barrier in the attic for Rehabilitation (excluding reconstruction) (3 points);

(xviii) High Speed Internet service to all Units at no cost to residents (2 points); or

(xix) Fire sprinklers in all Units (2 points).

(5) The Commitment of Development Funding by Local Political Subdivisions. Applications may qualify to receive up to 18 points for qualifying under this paragraph provided for under Development Funding. (§2306.6710(b)(1)(E))

(A) Basic Submission Requirements for Scoring. Evidence of the following must be submitted in accordance with the Application Submission Procedures Manual (ASPM).

(i) The loans, grant(s) or in-kind contribution(s) must be attributed to the Total Housing Development Costs, as defined in this ~~title~~ chapter, unless otherwise stipulated in this section.

(ii) An Applicant may ~~only~~ submit enough sources to substantiate the point request, and all sources must be included in the Sources and Uses form. For example, if an Applicant is requesting 18 points, five sources may be submitted if each is for an amount equal to 1% of the Total Housing Development Cost. ~~However, five sources may not be submitted if each source is for an amount equal to 5% of the Total Housing Development Cost.~~

(iii) An Applicant may substitute any source in response to a Deficiency Notice or after the Application has been submitted to the Department.

(iv) A loan does not qualify as an eligible source unless it has a minimum term of the later of 1-year or the Placed in Service date, and the interest rate must be at the Applicable Federal Rate (AFR) or below (at the time of loan closing).

(v) In-kind contributions such as donation of land, tax exemptions, or waivers of fees such as building permits, water and sewer tap fees, or similar contributions are only eligible for points if the in-kind contribution provides a tangible economic benefit that results in a quantifiable Total Housing Development Cost reduction to benefit the Development will be acceptable to qualify for these points. The quantified value of the Total Housing Development Cost reduction may only include the value during the period the contribution or waiver is received and/or assessed. Donations of land must be under the control of the Applicant, pursuant to subsection (h)(7) of this section to qualify. The value of in-kind contributions may only include the time period between award, or August 1, ~~2008~~2009 and the Development's Placed in Service date, with the exception of contributions of land. The full value of land contributions, as established by the appraisal required pursuant to clause (viii) of this subparagraph. Contributions in the form of tax exemptions or abatements may only count for points if the contribution is in addition to any tax exemption or abatement required under statute.

(vi) To the extent that a Notice of Funding Availability (NOFA) is released and funds are available, funds from TDHCA's HOME Investment Partnerships (HOME) Program will qualify if a resolution, dated on or before the date the Application Acceptance Period ends, is submitted with the Application from the Local Political Subdivision authorizing the Applicant to act on behalf of the Local Political Subdivision in applying for HOME Funds from TDHCA for the particular Application. TDHCA's HOME funds may be substituted for a source originally submitted with the Application, provided the HOME funds substituted are from a NOFA released after the Application Acceptance Period ends and a resolution is submitted with the substitution documentation from the Local Political Subdivision authorizing the Applicant to act on behalf of the Local Political Subdivision in applying for HOME Funds from TDHCA for the particular Application.

(vii) Development based rental subsidies may qualify under this section if evidence of the remaining value of the contract is submitted from the Local Political Subdivision. The value of the contract does not include past subsidies.

(viii) Evidence to be submitted with the Application must include a copy of the commitment of funds; a copy of the application to the funding entity and a letter from the funding entity indicating that the application was received; or a certification of intent to apply for funding that indicates the funding entity and program to which the application will be submitted, the loan amount to be applied for and the specific proposed terms. For in-kind contributions, evidence must be submitted in the Application from Local Political Subdivision substantiating the value of the in-kind contributions. For in-kind contributions of land, evidence of the value of the contribution must be in the form of an appraisal.

(ix) If not already provided, at the time the executed Commitment Notice is required to be submitted, the Applicant or Development Owner must provide evidence of a commitment approved by the ~~governing body~~Governing Body of the Local Political Subdivision for the Development Funding to the Department. If the funding commitment from the Local Political Subdivision has not been received by the date the Department's Commitment Notice is to be submitted, the Application will be evaluated to determine if the loss of these points would have resulted in the Department's not committing the tax credits. If the loss of points would have made the Application noncompetitive, the Commitment Notice will be rescinded and the credits reallocated. If the Application would still be competitive even with the loss of points and the loss would not have impacted the recommendation for an award, the Application will be reevaluated for financial feasibility. If the Application is infeasible without the Local Political Subdivision's Development Funding, the Commitment Notice will be rescinded and the credits reallocated.

(x) Funding commitments from a Local Political Subdivision will not be considered final unless the Local Political Subdivision attests to the fact that any funds committed were not first provided to the Local Political Subdivision by the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application, unless the Applicant itself is a Local Political Subdivision or subsidiary.

(B) Scoring. Points will be determined on a sliding scale based on the percentage of the Total Housing Development Costs of the Development, as reflected in the in the Development Cost Schedule. If a revised Development Cost Schedule is submitted to the Department in response to a deficiency notice at anytime during the review process, the Revised Development Cost Schedule will be utilized for this calculation, and Applicants will be notified of the revised score, consistent with subsection (e) of this section. Do not round for the following calculations. The "total contribution" is the total combined value of qualifying loan(s), grants or in-kind contributions from a Local Political Subdivision pursuant to subparagraph (A) of this paragraph. ~~The required percentages for Rural Developments listed in clauses (i) – (iii) of this subparagraph only apply to Rural Developments applying for local funds.~~

(i) A total contribution equal to or greater than 1% (for Urban Developments) and 0.5% (for Rural Developments) of the Total Housing Development Cost of the Development receives 6 points; or

(ii) A total contribution equal to or greater than 2.5% (for Urban Developments) and 1.5% (for Rural Developments) of the Total Housing Development Cost of the Development receives 12 points; or

(iii) A total contribution equal to or greater than 5% (for Urban Developments) and 3% (for Rural Developments) of the Total Housing Development Cost of the Development receives 18 points.

(6) The Level of Community Support from State Representative or State Senator. The level of community support for the Application, evaluated on the basis of written statements received from the State Representative or State Senator that represents the district containing the proposed Development Site.

(§2306.6710(b)(1)(F) and ~~(f);~~ §2306.6725(a)(2)). Applications may qualify to receive 14 points for this item. Letters ~~of support~~ must identify the specific Development and must clearly state support for or opposition to the specific Development. This documentation will be accepted with the Application or through delivery to the Department from the Applicant or the State Representative or Senator ~~by~~on or before 5:00 p.m. (CST) April 1, ~~2008~~2009. A State Representative or State Senator may withdraw (in writing) a letter that is submitted by the April 1st deadline on or before June 15, 2009. The previous position of support or opposition will be scored as neutral. State Representatives or Senators to be considered are those State Representatives or Senators in office at the time the Application is submitted. Letters of support from State Representatives or Senators that do not represent the district containing the proposed Development Site will not qualify for points under this Exhibit. Neutral letters, or letters that do not specifically refer to the Development, will receive neither positive nor negative points. Letters from State of Texas Representative or Senator: support letters are +14 points; opposition letters are -14 points for a maximum of either 14 or -14 points. If one letter is received in support and one letter is received in opposition the score would be 0 points.

(7) The Rent Levels of the Units. Applications may qualify to receive up to 12 points for qualifying under this exhibit. (§2306.6710(b)(1)(G)). ~~If 80% or fewer of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 7 points. If between 81% and 85% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 8 points. If between 86% and 90% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 9 points. If between 91% and 95% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 10 points. If greater than 95% of the Units in the Development (excluding any Units reserved for a manager) are restricted to having rents plus the allowance for utilities equal to or below the maximum tax credit rent, then the Development shall be awarded 12 points.~~ Provided the Application has qualified for points under paragraph (i)(3) of this subsection, Income Levels of Tenants of the Development, an Application may qualify for points under this subsection by providing additional Low-Income Units at 50% of AMGI (must round up to the next whole Unit, not less than one Unit), as follows:

(A) An Application may receive 12 points if the Development provides an additional 10% of all Low-Income Units in excess of those committed in subsection (i)(3) of this section at rents and incomes at or below 50% of AMGI; or

(B) An Application may receive 6 points if the Development provides an additional 5% of all Low-Income Units in excess of those committed in paragraph (3) of this subsection at rents and incomes at or below 50% of AMGI.

(8) The Cost of the Development by Square Foot (Development Characteristics). Applications may qualify to receive 10 points for this item. (§2306.6710(b)(1)(H); §42(m)(1)(C)(iii)). For this exhibit, costs shall be defined as construction costs, including site work, direct hard costs, contingency, contractor profit, overhead and general requirements, as represented in the Development Cost Schedule. This calculation does not include indirect construction costs. The calculation will be costs per square foot of net rentable area (NRA). For the purposes of this paragraph only, if the proposed Development is an elevator building serving elderly~~, a single room occupancy Development,~~ or a high rise building serving any population, the NRA may include elevator served interior corridors. If the proposed Development is a Single Room Occupancy Development, the NRA may include elevator served interior corridors and may include up to 50 square feet of common area per ~~efficiency~~ Unit. As it relates to this paragraph, an interior corridor is a corridor that is enclosed, heated and/or cooled and otherwise finished space. The calculations will be based on the cost listed in the Development Cost Schedule and NRA shown in the Rent Schedule of the Application. Developments qualify for 10 points if their costs do not exceed $~~85~~95 per square foot for Qualified Elderly, single family design, transitional, and ~~single room occupancy~~Single Room Occupancy Developments (transitional housing for the homeless and ~~single room occupancy~~Single Room Occupancy units as provided in the Code, §42(i)(3)(B)(iii) and (iv)), unless located in a "First Tier County" in which case their costs do not exceed $~~87~~ 97 per square foot; and $~~75~~ 85 for all other Developments, unless designated as "First Tier" by the Texas Department of Insurance, in which case their costs do not exceed $~~77~~ 87 per square foot. For ~~2007~~2008, the First Tier counties are Aransas, Brazoria, Calhoun, Chambers, Galveston, Jefferson, Kenedy, Kleberg, Matagorda, Nueces, San

Patricio, and Willacy. There are also specifically designated First Tier communities in Harris County that are east of State Highway 146, and evidence in the Application must include a map with the Development site designated clearly within the community. These communities are Pasadena, Morgan's Point, Shoreacres, Seabrook and La Porte. Intergenerational Developments will receive 10 points if costs described above do not exceed the square footage limit for elderly and non-elderly units as determined by using the NRA attributable to the respective elderly and non-elderly units. The Department will determine if points will be awarded by multiplying the NRA for elderly units by the applicable square footage limit for the elderly units and adding that total to the result of the multiplication of the NRA for family units by the applicable non-elderly square footage limit. If this maximum cost amount is equal to, or greater than the total of the costs identified above for the Application, points will be awarded (10 points).

(9) The Services to be Provided to Tenants of the Development. Applications may qualify to receive up to 8 points. (§2306.6710(b)(1)(I)~~; §~~and §2306.6725(a)(1)~~; General Appropriation Act, Article VII, Rider 7~~)

(A) The Applicant must certify that the Development will provide a combination of special supportive services appropriate for the proposed tenants. The provision of supportive services will be included in the LURA as selected from the list of services identified in this paragraph. No fees may be charged to the tenants for any of the services. Services must be provided on-site or transportation to off-site services must be provided (maximum of 7 points).

(i) Applications will be awarded points for selecting services listed in clause (ii) of this subparagraph based on the following scoring range:

(I) Two points will be awarded for providing two of the services; or

(II) Four points will be awarded for providing four of the services; or

(III) Seven points will be awarded for providing six of the services.

(ii) Service options include child care; transportation; basic adult education; legal assistance; counseling services; GED preparation; English as a second language classes; vocational training; home buyer education; credit counseling; financial planning assistance or courses; health screening services; health and nutritional courses; organized team sports programs or youth programs; scholastic tutoring; any other programs described under Title IV-A of the Social Security Act (42 U.S.C. §§601 et seq.) which enables children to be cared for in their homes or the homes of relatives; ends the dependence of needy families on government benefits by promoting job preparation, work and marriage; prevents and reduces the incidence of out-of wedlock pregnancies; and encourages the formation and maintenance of two-parent families; or any other services approved in writing by the Department.

(B) In addition, Applications will receive 1 point for providing Notary Public Services to tenants at no cost to the tenant. This will be included in the LURA.

(10) Declared Disaster Areas (§2306.6710(b)(1)). Applications may receive 7 points, if at time the complete Application is submitted or at any time within the two-year period preceding the date of submission, the proposed Development site is located in a Disaster Area as defined in §~~50~~49.3 of this chapter.

(11) Rehabilitation, (which includes reconstruction) or Adaptive Reuse. Applications may qualify to receive 6 points. Applications proposing to build solely Rehabilitation (excluding New Construction of non-residential buildings), solely reconstruction (excluding New Construction of non-residential buildings), or solely Adaptive Reuse qualify for points.

(12) Housing Needs Characteristics. (§42(m)(1)(C)(ii)). Applications may qualify to receive up to 6 points. Each Application may receive a score if correctly requested in the self score form based on objective measures of housing need in the Area where the Development is located. This Affordable Housing Need Score for each Area will be published in a Site Demographic Characteristics table in the Reference Manual.

(13) ~~Development Includes the Use of Existing Housing as part of a~~ Community Revitalization ~~Plan~~ (Development Characteristics) (§42(m)(1)(C)(iii)) or Historic Preservation. Applications may qualify to receive 6 points for ~~this item~~either subparagraph (A) or (B) of this paragraph. ~~(§42(m)(1)(C)(iii))~~

(A) The Development ~~is an~~includes the use of Existing Residential ~~Development~~Housing and propose~~d~~s any Rehabilitation or any Reconstruction that is part of a Community Revitalization Plan. Evidence of the Community Revitalization Plan (such evidence must include an ordinance, resolution, or otherwise recorded documentation of a vote taken by the local elected Governing Body specifically adopting the Community Revitalization Plan) and a letter from the chief executive officer or other local official with appropriate jurisdiction of local ~~g~~Governing ~~b~~Body stating that the Development Site is located within the targeted development areas outlined in the Community Revitalization Plan must be submitted; or~~.~~

(B) The Development includes the use of an existing building that is designated as historic by a federal or state Entity and proposes Rehabilitation (including reconstruction) or Adaptive Reuse. The Development itself must have the designation; points in this subparagraph are not available for Developments simply located within historic districts or areas that do not have a designation on the building. The Development must include the historic building. Evidence will include proof of the historic designation from the appropriate Governmental Body.

(14) Pre-Application Participation Incentive Points. (§2306.6704) Applications that submitted a Pre-Application during the Pre-Application Acceptance Period and meet the requirements of this paragraph will qualify to receive 6 points for this item. To be eligible for these points, the Application must:

(A) Be for the identical Development Site, or reduced portion of the Development Site as the proposed Development Site under control in the Pre-Application;

(B) Have met the Pre-Application Threshold Criteria;

(C) Be serving the same target population (family, Intergenerational Housing, or elderly) as in the Pre-Application;

(D) Be serving the same target Set-Asides as indicated in the Pre-Application (Set-Asides can be dropped between Pre-Application and Application, but no Set-Asides can be added); and

(E) Be awarded by the Department an Application score that is not more than 5% greater or less than the number of points awarded by the Department at Pre-Application, with the exclusion of points for support and opposition under paragraphs (2), (6), and (18) of this of this subsection. The Application score used to determine whether the Application score is 5% greater or less than the number of points awarded at Pre-Application will also include all point losses under subsection (d)(4) of this section. An Applicant must choose, at the time of Application either clause (i) or (ii) of this subparagraph:

(i) To request the Pre-Application points and have the Department cap the Application score at no greater than the 5% increase regardless of the total points accumulated in the scoring evaluation. This allows an Applicant to avoid penalty for increasing the point structure outside the 5% range from Pre-Application to Application; or

(ii) To request that the Pre-Application points be forfeited and that the Department evaluate the Application as requested in the self-scoring sheet.

(15) Economic Development Initiatives. A Development that is located in one of the following two areas may qualify to receive 4 points. For the purpose of this paragraph, "area" shall mean the boundaries of any zone or community in subparagraph (A) of this paragraph or the area in which funds in subparagraph (B) of this paragraph must be used:

(A) a Designated State or Federal Empowerment/Enterprise Zone, Urban Enterprise Community, or Urban Enhanced Enterprise Community. To be eligible for these points, Applicants must submit a letter and a map of the zoned area from a city/county official stating that the proposed Development is located within such a designated zone or area; is eligible to receive the state or federal economic development grants or loans; and the city/county still has available funds. The letter should be no older than 6 months from the first day of the Application Acceptance Period. (General Appropriation Act, Article VII, Rider ~~6~~3; §2306.127); or

(B) an area that has received an award as of November 1, ~~2007~~2008, within the past three years from the Texas Capital Fund, Texas or Federal Enterprise Zone Fund, Texas Leverage Fund, Industrial Revenue Bond Program, Emerging Technologies, Skills Development, Rural Business Enterprise Grants, Certified Development Company Loans, or Micro Loan Program or other state or federally funded economic development initiatives (This excludes limited highway improvement and roadwork projects, but does include broader regional transportation initiatives targeted to expanding economic development). Grants that qualify in these areas are included in the Application Reference Manual.

(C) Points under subparagraphs (A) and (B) of this paragraph will not be granted if more than 3 tax credit Developments have been awarded in that area in the last 7 years. The Applicant must provide evidence of the boundaries of the area, as required in the Application and Application Submission Procedures Manual.

(16) Development Location. (§2306.6725(a)(4)); §42(m)(1)(C)(i)). Applications may qualify to receive 4 points. Evidence, not more than 6 months old from the first day of the Application Acceptance Period, that the Development Site is located within one of the geographical areas described in subparagraphs (A)-(~~E~~F) of this paragraph. Areas qualifying under any one of the subparagraphs (A)-(~~E~~F) of this paragraph will

receive 4 points. An Application may only receive points under one of the subparagraphs (A)-(~~E~~F) of this paragraph.

(A) A geographical Area which is an Economically Distressed Area; a Colonia; or a Difficult Development Area (DDA) as specifically designated by the Secretary of HUD at the time of Application submission. (§2306.127)

(B) The Development is located in a county that has received an award as of November 1, ~~2007~~2008, within the past three years, from the Texas Department of Agriculture's Rural Municipal Finance Program or Real Estate Development and Infrastructure Program. Cities which have received one of these awards are categorized as awards to the county as a whole so Developments located in a different city than the city awarded, but in the same county, will still be eligible for these points.

(C) The Development is located in a census tract which has a median family income (MFI), as published by the United States Bureau of the Census (U.S. Census), that is higher than the median family income for the county in which the census tract is located. This comparison shall be made using the most recent data available as of the date the Application Round opens the year preceding the applicable program year. Developments eligible for these points must submit evidence documenting the median income for both the census tract and the county. These Census Tracts are outlined in the ~~2007~~2008 Housing Tax Credit Site Demographic Characteristics Report.

(D) The proposed Development will serve families with children (at least 70% of the Units must have an eligible bedroom mix of two bedrooms or more) and is proposed to be located in an elementary school attendance zone of an elementary school that has an academic rating of "Exemplary" or "Recognized," or comparable rating if the rating system changes. The date for consideration of the attendance zone is that in existence as of the opening date of the Application Round and the academic rating is the most current rating determined by the Texas Education Agency as of that same date. (§42(m)(1)(C)(vii))

(E) The proposed Development will expand affordable housing opportunities for low-income families with children outside of poverty areas. This must be demonstrated by showing that the Development will serve families with children (at least 70% of the Units must have an eligible bedroom mix of two bedrooms or more) and that the census tract in which the Development is proposed to be located has no greater than 10% poverty population according to the most recent census data. Intergenerational Developments may qualify for points if 70% of the non-elderly Units in the Development have an eligible bedroom mix of two bedrooms or more. (§42(m)(1)(C)(vii)). These Census Tracts are outlined in the ~~2008~~2009 Housing Tax Credit Site Demographic Characteristics Report.

(F) The proposed Development is located in an Urban Core, that is properly zoned for the intended use ~~and provides infill housing~~.

(17) ~~Development Location in non-urban Areas. §42(m)(1)(C)(i)). Applications may qualify to receive 6 points if the Development is not located in a Rural Area and has a population less than 100,000 based on the most current Decennial Census.~~ Green Building Initiatives. Application may qualify to receive up to 6 points for providing green building amenities (points under this paragraph may not be requested for the same items utilized for points under subsection (h)(4)(A)(ii)(XXV), Threshold Amenities) (Rehabilitation Developments will receive 1.5 points for each point requested for the green building amenities):

(-a-) evaporative coolers (for use in designated counties listed in the Application Materials, 2009 Housing Tax Credit Site Demographics Information) (1 point);

(-b-) passive solar heating/cooling (3 points maximum)

(-1-)Two points if the glazing area on the north- and south-facing walls of the building is at least 50% greater than the sum of the glazing area on the east- and west- facing walls; and the east-west axis of the building is within 15 degrees of due east-west.

(-2-)One point if in addition to the east-west axis of the building oriented within 15 degrees of due east-west, utilize a narrow floor plate (less than 40 feet), single loaded corridors and open floor plan to optimize daylight penetration and passive ventilation (note: to qualify for this particular point, application must also implement the 15 degree building orientation option above); and 100% of HVAC condenser units are shaded so they are fully shaded 75% of the time during summer months (May through August); and solar screens or solar film on all East, West, and South Windows with building oriented to east-west axis within 15 degrees of due east-west, west-south axis within 15 degrees of due west-south, and south-east axis within 15 degrees of due south-east.

(-c-) water conserving features (2 points maximum, 1 point for each):

(-1-)Install low-flow toilets using less than or equal to 1.6 gallons per flush, or high efficiency toilets using less than or equal to 1.28 gallons/flush.

(-2-)Install bathroom lavatory faucets and showerheads that do not exceed 2.0 gallons/minute and kitchen faucets that do not exceed 1.5 gallons/minute. Applies to all fixtures throughout development. Rehab projects may choose to install compliant faucet aerators instead of replacing entire faucets.

(-d-) solar water heaters (Solar water heaters designed to provide at least 25% of the average energy used to heat domestic water throughout the entire development.) (2 points);

(-e-) irrigation and landscaping (must implement both of the following) (2 points)

(-1-)collected water (at least 50%) for irrigation purposes;

(-2-)selction of native trees and plants that are appropriate to the site's soils and microclimate and locate then to allow for shading in the sumer and allow for heat gain in the winter

(-f-) sub-metered utility meters (2 points maximum);

(-1-)Sub-metered utility meters on rehab project without existing sub-meters or new construction senior project (2 points); or

(-2-)Sub-metered utility meters on new construction project (excluding new construction senior project) (1 point)

(-g-) energy efficiency (4 points maximum);

(-1-)Three points if Energy Elements include Energy-Star qualified windows and glass doors; and Exterior envelope insulation, vapor barriers and air barriers greater than or equal to Energy Star air barrier and insulation criteria; and HVAC, domestic hot water heater, or insulation that exceeds Energy Star standards or exceeds the IRC 2006;

OR

(-2-)Four points if the project promotes energy efficiency by meeting the requirements of Energy Star for Homes by either complying with the appropriate builder option package or a HERS score of 85.

(-h-) thermally and draft efficient doors (SHGC of 0.40 or lower and U-value specified by climate zone according to the 2006 IECC) (2 points);

(-i-) photovoltaic panels for electricity and design and wiring for the use of such panels (3 points maximum);

(-1-)Photovoltaic panels that total 10 kW (1point);

(-2-)Photovoltaic panels that total 20 kW (2 points);

(-3-)Photovoltaic panels that total 30 kW (3 points)

(-j-) construction waste management and implementation of EPA's Best Management Practices for erosion and sedimentation control during construction (1 point);

(-k-) recycling service provided throughout the compliance period (1 point);

(-l-) water permeable walkways (at least 20% of walkways and parking) (1 point).

(-m-) bamboo flooring, wool carpet, linoleum flooring, straw board, poplar OSB, or cotton batt insulation (50% of flooring on the ground floor of the development must be finished concrete and/or ceramic tile. 50% of the flooring on upper floors must be ceramic tile and/or a flooring material that is Floor Score Certified (developed by the Resilient Floor Covering Institute), applied with a Floor Score Certified adhesive and comes with a minimum 7-year wear through warranty. (2 points);

~~(A) evaporative coolers (for use in designated counties listed in the Application Materials, 2009 Housing Tax Credit Site Demographics Information)(1 point);~~

~~(B) passive solar heating/cooling (3 points);~~

~~(C) water conservation fixtures (toilets using less than or equal to 1.6 gallons per flush, showerheads, kitchen faucets or bathroom faucets using less than or equal to 2.0 gallons per minute)(1 point for each);~~

~~(D) solar water heaters (2 points);~~

~~(D) water collection (at least 50%) for irrigation purposes (2 points);~~

~~(E) sub-metered utility meters (3 points);~~

~~(F) Energy-Star qualified windows and glass doors (2 points);~~

~~(G) thermally and draft efficient doors (SHGC of 0.40 and U-value specified by climate zone according to the 2006 IECC)(2 points);~~

~~(H) photovoltaic panels for electricity and design and wiring for use of such panels (4 points);~~

~~(I) construction waste management and implementation of EPA's Best Management Practices for erosion and sedimentation control during construction (2 points);~~

~~(J) recycle service provided throughout the compliance period (1 point);~~

~~(K) water permeable walkways (1 point);~~

~~(L) selection of native trees and plants that are appropriate to the site's soils and microclimate and locate them to provide shading in the summer and allow for heat gain in the winter (2 points);~~

~~(M) exterior envelope insulation, vapor barriers and air barriers greater than or equal to Energy Star air barrier and insulation criteria (2 points);~~

~~(N) HVAC, windows, domestic hot water heater or insulation that exceeds Energy Star standards or exceeds the IRC 2006 (2 points); or~~

~~(O) bamboo flooring, wool carpet, linoleum flooring, straw board, poplar OSB, or cotton batt insulation (2 points).~~

(18) Demonstration of Community ~~Support~~ Input other than Quantifiable Community Participation: ~~If an Applicant requests these points on the self scoring form and correctly certifies to the Department that there are no Neighborhood Organizations that meet the Department's definition of Neighborhood Organization pursuant to §5049.3(63) of this chapter and 12 points were awarded~~ if an Application was awarded 12 points under paragraph (2) of this subsection, then that ~~Applicant~~ Application may receive up to 6 points for letters that qualify for points under subparagraphs (A), (B) or (C) of this paragraph. An Application may not receive points under more than one of the subparagraphs (A) – (C). All letters must be received by February 27, 2009 for the Application to receive these points. At no time will the Application receive a score lower than zero for this item

(A) An Application may receive two points (maximum of 6 points) for each letter of support submitted from a community or civic organization that serves the community in which the site is located. Letters of support must identify the specific Development and must state support of the specific Development at the proposed location. The community or civic organization must provide some documentation of its existence in the community in which the Development is located to include, but not be limited to, listing of services and/or members, brochures, annual reports, etc. Letters of support from organizations that are not active in the area that includes the location of the Development will not be counted. For purposes of this ~~item~~subparagraph, community and civic organizations do not include neighborhood organizations, governmental entities (excluding Special Management Districts), taxing entities or educational activities. Organizations that were created by a governmental entity or derive their source of creation from a governmental entity do not qualify under this item. For purposes of this item, educational activities include school districts, trade and vocational schools, charter schools and depending on how characterized could include day care centers; it would not include a PTA or PTO as that is a service organization even though it supports an educational activity. ~~Letters of support received after February 29, 2008, will not be accepted for this item. Two points will be awarded for each letter of support submitted in the Application, not to exceed 6 points.~~ Should an Applicant elect this option and the Application receives letters in opposition by February ~~29~~27, ~~2008~~2009, then two points will be subtracted from the score for each letter in opposition, provided that the letter is from an organization serving the community~~. At no time will the Application, however, receive a score lower than zero for this item.~~

(B) An Application may receive 6 points for a letter of support, from a property owners association created for a master planned community whose boundaries include the development site, that does not meet the requirements of a Neighborhood Organization for points under paragraph (2) of this subsection.

(C) An Application may receive 6 points for a letter of support from a Special Management District, whose boundaries, as of February 27, 2009, include the Development Site and for which there is not a Neighborhood Organization on record with the county or state. ~~At no time will the Application receive a score lower than zero for this item.~~

(19) Developments in Census Tracts with No Other Existing Same Type Developments Supported by Tax Credits: The Application may receive 6 points if the proposed Development is located in a census tract in which there are no other existing Developments supported by Housing Tax Credits that serve the same type of household, regardless of whether the development serves families, or elderly individuals (Intergenerational Housing is not a type of household as it relates to this paragraph). Applicant must provide evidence of the

census tract in which the Development is located. (§2306.6725(b)(2)). These Census Tracts are outlined in the ~~2008~~2009 Housing Tax Credit Site Demographic Characteristics Report.

(20) Tenant Populations with Special Housing Needs. Applications may qualify to receive 4 points for this item. (§42(m)(1)(C)(v)). The Department will award these points to Applications in which at least 10% of the Units are set aside for Persons with Special Needs. Throughout the Compliance Period, unless otherwise permitted by the Department, the Development Owner agrees to affirmatively market Units to Persons with Special Needs. In addition, the Department will require a minimum 12 month period during which Units must either be occupied by Persons with Special Needs or held vacant. The 12 month period will begin on the date each building receives its certificate of occupancy. For buildings that do not receive a Certificate of Occupancy, the 12 month period will begin on the placed in service date as provided in the Cost Certification manual. After the 12 month period, the owner will no longer be required to hold Units vacant for households with special needs, but will be required to continue to affirmatively market Units to household with special needs.

(21) Length of Affordability Period. Applications may qualify to receive up to 4 points. (§2306.6725(a)(5); §2306.111(g)(3)(C); §2306.185(a)(1) and (c); §2306.6710(e)(2); and §42(m)(1)(B)(ii)(II)). In accordance with the Code, each Development is required to maintain its affordability for a 15-year compliance period and, subject to certain exceptions, an additional 15-year extended use period. Development Owners that are willing to extend the affordability period for a Development beyond the 30 years required in the Code may receive points as follows:

(A) Add 5 years of affordability after the extended use period for a total affordability period of 35 years (2 points); or

(B) Add 10 years of affordability after the extended use period for a total affordability period of 40 years. (4 points)

(22) Site Characteristics. Development Sites, including scattered sites, will be evaluated based on proximity to amenities, the presence of positive site features and the absence of negative site features. Sites will be rated based on the criteria in subparagraphs (A) and (B) of this paragraph.

(A) Proximity of site to amenities. Developments Sites located within a one mile radius (two-mile radius for Developments competing for a Rural Regional Allocation) of at least three services appropriate to the target population will receive four points. A site located within one-quarter mile of public transportation that is accessible to all residents including Persons With Disabilities and/or located within a community that has "on demand" transportation, special transit service, or specialized elderly transportation for Qualified Elderly Developments, will receive full points regardless of the proximity to amenities, as long as the Applicant provides appropriate evidence of the transportation services used to satisfy this requirement. If a Development is providing its own specialized van or on demand service, then this will be a requirement of the LURA. Only one service of each type listed in clauses (i) - (xiv) of this subparagraph will count towards the points. A map must be included identifying the Development Site and the location of the services. The services must be identified by name on the map. If the services are not identified by name, points will not be awarded. All services must exist or, if under construction, must be at least 50% complete by the date the Application is submitted. (4 points)

(i) Full service grocery store or supermarket.
(ii) Pharmacy.
(iii) Convenience Store/Mini-market.
(iv) Department or Retail Merchandise Store.
(v) Bank/Credit Union.
(vi) Restaurant (including fast food).
(vii) Indoor public recreation facilities, such as civic centers, community centers, and libraries.
(viii) Outdoor public recreation facilities such as parks, golf courses, and swimming pools.
(ix) Hospital/medical clinic.
(x) Medical offices (physician, dentistry, optometry).
(xi) Public Schools (only eligible for Developments that are not Qualified Elderly Developments).
(xii) Senior Center.
(xiii) Dry cleaners.
(xiv) Family video rental (Blockbuster, Hollywood Video, Movie Gallery).

(B) Negative Site Features. Development Sites with the following negative characteristics will have points deducted from their score. For purpose of this exhibit, the term 'adjacent' is interpreted as sharing a boundary with the Development Site. The distances are to be measured from all boundaries of the Development Site to all boundaries of the property containing the negative site feature. If an Applicant negligently fails to note a negative feature, double points will be deducted from the score or the Application may be terminated. If none of these negative features exist, the Applicant must sign a certification to that effect. (~~-5~~-6 points)

(i) Developments located adjacent to or within 300 feet of junkyards will have 1 point deducted from their score.

(ii) Developments located adjacent to or within 300 feet of active railroad tracks will have 1 point deducted from their score, unless the Applicant provides evidence that the city/community has adopted a Railroad Quiet Zone or the railroad in question is commuter or light rail. Rural Developments funded through TRDO-USDA are exempt from this point deduction.

(iii) Developments located adjacent to or within 300 feet of heavy industrial uses such as manufacturing plants will have 1 point deducted from their score.

(iv) Developments located adjacent to or within 300 feet of a solid waste or sanitary landfills will have 1 point deducted from their score.

(v) Developments where the buildings are located within the "fall line" of high voltage transmission power lines will have 1 point deducted from their score.

~~(vi) Developments where the buildings are located adjacent to or within 300 feet of a sexually oriented business will have 1 point deducted from their score. For the purpose of this clause, sexually oriented business shall be defined as stated in §243.002 of the Texas Government Code.~~

(vi~~i~~) Developments where the buildings are located within the accident zones or clear zones for commercial or military airports will have 1 point deducted from their score.

(23) Development Size. The Development consists of not more than 36 Units (3 points).

(24) Qualified Census Tracts with Revitalization. Applications may qualify to receive 1 point for this item. (§42(m)(1)(B)(ii)(III)). Applications will receive the points for this item if the Development is located within a Qualified Census Tract and contributes to a concerted Community Revitalization Plan. Evidence of the Community Revitalization Plan (such evidence must include an ordinance, resolution, or otherwise recorded documentation of a vote taken by the local elected Governing Body specifically adopting the Community Revitalization Plan) and a letter from the chief executive officer or other local official with appropriate jurisdiction of the local ~~g~~Governing ~~b~~Body stating that the Development Site is located within the targeted development areas outlined in the Community Revitalization Plan must be submitted.

(25) Sponsor Characteristics. Applications may qualify to receive a maximum of 2 points for this item for qualifying under either subparagraph (A) or (B) of this paragraph. (§42(m)(1)(C)(iv))

(A) An Application will receive these two points for submitting a plan to use Historically Underutilized Businesses (HUB) in the development process consistent with the Historically Underutilized Business Guidelines for contracting with the State of Texas. The Applicant will be required to submit a report of the success of the plan as part of the cost certification documentation, in order to receive IRS Forms 8609.

(B) An Application will receive these points if there is evidence that a HUB that does not meet the experience requirements under subsection (g) of this section, as certified by the Texas ~~Facilities Commission~~Comptroller of Public Accounts, has at least 51% ownership interest in the General Partner and materially participates in the Development and operation of the Development throughout the Compliance Period. To qualify for these points, the Applicant must submit a certification from the Texas ~~Facilities Commission~~Comptroller of Public Accounts that the Person is a HUB at the close of the Application Acceptance Period. The HUB will be disqualified from receiving these points if any Principal of the HUB has developed, and received 8609's for, more than two Developments involving tax credits. Additionally, to qualify for these points, the HUB must partner with an experienced Developer (as defined by subsection (g) of this section); the experienced Developer, as an Affiliate, will not be subject to the credit limit described under §~~50~~49.6(d) of this chapter for one Application per Application Round. For purposes of this section the experienced Developer may not be a Related Party to the HUB.

(26) Developments Intended for Eventual Tenant Ownership - Right of First Refusal. Applications may qualify to receive 1 point for this item. (§2306.6725(b)(1)); (§42(m)(1)(C)(viii)). Evidence that Development Owner agrees to provide a right of first refusal to purchase the Development upon or following the end of the Compliance Period for the minimum purchase price provided in, and in accordance with the

requirements of, §42(i)(7) of the Code (the "Minimum Purchase Price"), to a Qualified Nonprofit Organization, the Department, or either an individual tenant with respect to a single family building, or a tenant cooperative, a resident management corporation in the Development or other association of tenants in the Development with respect to multifamily developments (together, in all such cases, including the tenants of a single family building, a "Tenant Organization"). Development Owner may qualify for these points by providing the right of first refusal in the following terms.

(A) Upon the earlier to occur of:

(i) The Development Owner's determination to sell the Development; or

(ii) The Development Owner's request to the Department, pursuant to §42(h)(6)(E)(II) of the Code, to find a buyer who will purchase the Development pursuant to a "qualified contract" within the meaning of §42(h)(6)(F) of the Code, the Development Owner shall provide a notice of intent to sell the Development ("Notice of Intent") to the Department and to such other parties as the Department may direct at that time. If the Development Owner determines that it will sell the Development at the end of the Compliance Period, the Notice of Intent shall be given no later than two years prior to expiration of the Compliance Period. If the Development Owner determines that it will sell the Development at some point later than the end of the Compliance Period, the Notice of Intent shall be given no later than two years prior to date upon which the Development Owner intends to sell the Development.

(B) During the two years following the giving of Notice of Intent, the Sponsor may enter into an agreement to sell the Development only in accordance with a right of first refusal for sale at the Minimum Purchase Price with parties in the following order of priority:

(i) During the first six-month period after the Notice of Intent, only with a Qualified Nonprofit Organization that is also a community housing development organization, as defined for purposes of the federal HOME Investment Partnerships Program at 24 C.F.R. §92.1 (a "CHDO") and is approved by the Department;

(ii) During the second six-month period after the Notice of Intent, only with a Qualified Nonprofit Organization or a Tenant Organization; and

(iii) During the second year after the Notice of Intent, only with the Department or with a Qualified Nonprofit Organization approved by the Department or a Tenant Organization approved by the Department.

(iv) If, during such two-year period, the Development Owner shall receive an offer to purchase the Development at the Minimum Purchase Price from one of the organizations designated in clauses (i) - (iii) of this subparagraph (within the period(s) appropriate to such organization), the Development Owner shall sell the Development at the Minimum Purchase Price to such organization. If, during such period, the Development Owner shall receive more than one offer to purchase the Development at the Minimum Purchase Price from one or more of the organizations designated in clauses (i) - (iii) of this subparagraph (within the period(s) appropriate to such organizations), the Development Owner shall sell the Development at the Minimum Purchase Price to whichever of such organizations it shall choose.

(C) After whichever occurs the later of:

(i) The end of the Compliance Period; or

(ii) Two years from delivery of a Notice of Intent, the Development Owner may sell the Development without regard to any right of first refusal established by the LURA if no offer to purchase the Development at or above the Minimum Purchase Price has been made by a Qualified Nonprofit Organization, a Tenant Organization or the Department, or a period of 120 days has expired from the date of acceptance of all such offers as shall have been received without the sale having occurred, provided that the failure(s) to close within any such 120-day period shall not have been caused by the Development Owner or matters related to the title for the Development.

(D) At any time prior to the giving of the Notice of Intent, the Development Owner may enter into an agreement with one or more specific Qualified Nonprofit Organizations and/or Tenant Organizations to provide a right of first refusal to purchase the Development for the Minimum Purchase Price, but any such agreement shall only permit purchase of the Development by such organization in accordance with and subject to the priorities set forth in subparagraph (B) of this paragraph.

(E) The Department shall, at the request of the Development Owner, identify in the LURA a Qualified Nonprofit Organization or Tenant Organization which shall hold a limited priority in exercising a right of first refusal to purchase the Development at the Minimum Purchase Price, in accordance with and subject to the priorities set forth in subparagraph (B) of this paragraph.

(F) The Department shall have the right to enforce the Development Owner's obligation to sell the Development as herein contemplated by obtaining a power-of-attorney from the Development Owner to execute such a sale or by obtaining an order for specific performance of such obligation or by such other means or remedy as shall be, in the Department's discretion, appropriate.

(27) Leveraging of Private, State, and Federal Resources. Applications may qualify to receive 1 point for this item. (§2306.6725(a)(3)). Funding sources used for points under paragraph (5) of this subsection, may not be used for this point item.

(A) Evidence must be submitted in the Application that the proposed Development has received or will receive loan(s), grant(s) or in-kind contributions from a private, state or federal resource, which include Capital Grant Funds and HOPE VI funds, that is equal to or greater than 2% (~~not using normal rounding~~do not round) of the Total Housing Development Costs reflected in the Application.

(B) For in-kind contributions, evidence must be submitted in the Application from a private, state or federal resource which substantiates the value of the in-kind contributions. Development based rental subsidies from private, state or federal resource may qualify under this section if evidence of the remaining value of the contract is submitted from the source. The value of the contract does not include past subsidies.

(C) Qualifying funds awarded through local entities may qualify for points if the original source of the funds is from a private, state or federal source. If qualifying funds awarded through local entities are used for this item, a statement from the local entity must be provided that identifies the original source of funds.

(D) Applicants may only submit enough sources to substantiate the point request, and all sources must be included in the Sources and Uses form. For example, two sources may be submitted if each is for an amount equal to 1% of the Total Housing Development Cost. However, two sources may not be submitted if each source is for an amount equal to 2% of the Total Housing Development Cost.

(E) The funding must be in addition to the primary funding (construction and permanent loans) that is proposed to be utilized and cannot be issued from the same primary funding source or an affiliated source. The provider of the funds must attest to the fact that they are not the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application and attest that none of the funds committed were first provided to the entity by the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application, unless the Applicant itself is a Local Political Subdivision.

(F) The Development must have already applied for funding from the funding entity. Evidence to be submitted with the Application must include a copy of the commitment of funds or a copy of the application to the funding entity and a letter from the funding entity indicating that the application was received. At the time the executed Commitment Notice is required to be submitted, the Applicant or Development Owner must provide evidence of a commitment approved by the ~~governing body~~Governing Body of the entity for the sufficient financing to the Department. If the funding commitment from the private, state or federal source, or qualifying substitute source, has not been received by the date the Department's Commitment Notice is to be submitted, the Application will be evaluated to determine if the loss of these points would have resulted in the Department's not committing the tax credits. If the loss of points would have made the Application noncompetitive, the Commitment Notice will be rescinded and the credits reallocated. If the Application would still be competitive even with the loss of points and the loss would not have impacted the recommendation for an award, the Application will be reevaluated for financial feasibility. If the Application is infeasible without the commitment from the private, state or federal source, the Commitment Notice will be rescinded and the credits reallocated. Funds from the Department's HOME and Housing Trust Fund sources will only qualify under this category if there is a Notice of Funding Availability (NOFA) out for available funds and the Applicant is eligible under that NOFA.

(G) To qualify for this point, the Rent Schedule must show that at least 3% (not using normal rounding) of all low-income Units are designated to serve individuals or families with incomes at or below 30% of AMGI.

(28) Third-Party Funding Commitment Outside of Qualified Census Tracts. Applications may qualify to receive 1 point for this item. (§2306.6710(e)(1)). Evidence that the proposed Development has documented and committed Third-Party funding sources and the Development is located outside of a Qualified Census Tract. The provider of the funds must attest to the fact that they are not the Applicant, the Developer, Consultant, Related Party or any individual or entity acting on behalf of the proposed Application and attest that none of the funds committed were first provided to the entity by the Applicant, the Developer,

Consultant, Related Party or any individual or entity acting on behalf of the proposed Application. The commitment of funds (an application alone will not suffice) must already have been received from the Third-Party funding source and must be equal to or greater than 2% (~~not using normal rounding~~do not round) of the Total Development Costs reflected in the Application. Funds from the Department's HOME and Housing Trust Fund sources will not qualify under this category. The Third-Party funding source cannot be a loan from a commercial lender.

~~(29) Bonus Points. Applications may qualify to receive up to 6 points for this item.~~

~~(A) An Application may receive 2 points if the Applicant had submitted acceptable proof of site control at the time of Carryover (November 1, 2008) for Applications that received a Housing Tax Credit commitment made in the Application Round preceding the current round. For purposes of this subparagraph, evidence of site control will consist of an executed deed for the subject property bearing the marks of receipt for filing by the county clerk and confirming the Development Owner as the grantee;~~

~~(B) An Application may receive 2 points if the Applicant has submitted the complete, acceptable, required documentation for the 10% Test, on or before June 1 for Applications that received a Housing Tax Credit commitment made in the Application Round preceding the current round (Applications that request extensions of the June 1 date, are not eligible for these bonus points);~~

~~(C) An Application may receive 2 points for having 5 or less aggregate deficiencies through the combined Eligibility, Selection and Threshold reviews;~~

~~(D) An Application may receive 1 point for having 10 or less aggregate deficiencies through the combined Eligibility, Selection and Threshold reviews; and/or~~

~~(D) An Application may receive 1 point if an Applicant satisfies deficiencies, to the satisfaction of the Department, on or before the third business day following the date of the deficiency notice.~~

(29) Scoring Criteria Imposing Penalties. (§2306.6710(b)(2))

(A) Penalties will be imposed on an Application if the Applicant has requested an extension of the Carryover or 10% Test deadline, and did not meet the original submission deadline, relating to Developments receiving a Housing Tax Credit commitment made in the Application Round preceding the current round. For each extension request made, the Applicant will receive a 5 point deduction. No penalty points or fees will be deducted for extensions that were requested on Developments that involved Rehabilitation when the Department is the primary lender, or for Developments that involve TRDO-USDA as a lender if TRDO-USDA or the Department is the cause for the Applicant not meeting the deadline.

(B) Penalties will be imposed on an Application if the Developer or Principal of the Applicant has been removed by the lender, equity provider, or limited partners in the past five years for failure to perform its obligations under the loan documents or limited partnership agreement. An affidavit will be provided by the Applicant and the Developer certifying that they have not been removed as described, or requiring that they disclose each instance of removal with a detailed description of the situation. If an Applicant or Developer submits the affidavit, and the Department learns at a later date that a removal did take place as described, then the Application will be terminated and any Allocation made will be rescinded. The Applicant, Developers or Principals of the Applicant that are in court proceedings at the time of Application must disclose this information and the situation will be evaluated on a case-by-case basis. 3 points will be deducted for each instance of removal.

(C) Penalties will be imposed on an Application if Developer or Principal of the Applicant violates the Adherence to Obligations pursuant to subsection (c) of this section.

(j) **Tie Breaker Factors.**

(1) In the event that two or more Applications receive the same number of points in any given Set-Aside category, Rural Regional Allocation or Urban Regional Allocation, or Uniform State Service Region, and are both practicable and economically feasible, the Department will utilize the factors in this paragraph, in the order they are presented, to determine which Development will receive a preference in consideration for a tax credit commitment.

(A) Applications involving any Rehabilitation or Reconstruction of existing Units will win this first tier tie breaker over Applications involving solely New Construction or Adaptive Reuse.

(B) The Application located in the municipality or, if located outside a municipality, the county that has the lowest state average of units per capita supported by Housing Tax Credits or private activity bonds at the time the Application Round begins as reflected in the Reference Manual will win this second tier tie breaker.

(C) The amount of requested tax credits per net rentable square foot (the lower credits per square foot has preference).

(D) Projects that are intended for eventual tenant ownership. Such Developments must utilize a detached single family site plan and building design and have a business plan describing how the project will convert to tenant ownership at the end of the 15-year compliance period.

(2) This paragraph identifies how ties will be handled when dealing with the restrictions on location identified in §~~50~~49.5(a)(8) of this chapter, and in dealing with any issues relating to capture rate calculation. When two Tax-Exempt Bond Developments would violate one of these restrictions, and only one Development can be selected, the Department will utilize the reservation docket number issued by the Texas Bond Review Board in making its determination. When two Competitive Housing Tax Credits Applications in the Application Round would violate one of these restrictions, and only one Development can be selected, the Department will utilize the tie breakers identified in paragraph (1) of this subsection. When a Tax-Exempt Bond Development and a Competitive Housing Tax Credit Application in the Application Round would both violate a restriction, the following determination will be used:

(A) Tax-Exempt Bond Developments that receive their reservation from the Bond Review Board on or before April 30, ~~2008~~2009 will take precedence over the Housing Tax Credit Applications in the ~~2008~~2009 Application Round;

(B) Housing Tax Credit Applications approved by the Board for tax credits in July ~~2008~~2009 will take precedence over the Tax-Exempt Bond Developments that received their reservation from the Bond Review Board on or between May 1, ~~2008~~2009 and July 31, ~~2008~~2009; and

(C) After July 31, ~~2008~~2009, a Tax-Exempt Bond Development with a reservation from the Bond Review Board will take precedence over any Housing Tax Credit Application from the ~~2008~~2009 Application Round on the Waiting List. However, if no reservation has been issued by the date the Board approves an allocation to a Development from the Waiting List of Applications in the ~~2008~~2009 Application Round or a forward commitment, then the Waiting List Application or forward commitment will be eligible for its allocation.

(k) **Staff Recommendations.** (§2306.1112 and §2306.6731) After eligible Applications have been evaluated, ranked and underwritten in accordance with the QAP and the Rules, the Department staff shall make its recommendations to the Executive Award and Review Advisory Committee. The Committee will develop funding priorities and shall make commitment recommendations to the Board. Such recommendations and supporting documentation shall be made in advance of the meeting at which the issuance of Commitment Notices or Determination Notices shall be discussed. The Committee will provide written, documented recommendations to the Board which will address at a minimum the financial or programmatic viability of each Application and a list of all submitted Applications which enumerates the reason(s) for the Development's proposed selection or denial, including all factors provided in §~~50~~49.10(a) of this chapter that were used in making this determination.

§~~50~~49.10. Board Decisions; Waiting List; Forward Commitments.

(a) **Board Decisions.** The Board's decisions shall be based upon the Department's and the Board's evaluation of the proposed Developments' consistency with the criteria and requirements set forth in this QAP and Rules.

(1) On awarding tax credits, the Board shall document the reasons for each Application's selection, including any discretionary factors used in making its determination, and the reasons for any decision that conflicts with the recommendations made by Department staff. The Board may not make, without good cause, a commitment decision that conflicts with the recommendations of Department staff. Good cause includes the Board's decision to apply discretionary factors. (§2306.6725(c); §2306.6731; and §42(m)(1)(A)(iv))

(2) In making a determination to allocate tax credits, the Board shall be authorized to not rely solely on the number of points scored by an Application. It shall in addition, be entitled to take into account, as it deems appropriate, the discretionary factors listed in this paragraph. The Board may also apply these discretionary factors to its consideration of Tax-Exempt Bond Developments. If the Board disapproves or fails to act upon an Application, the Department shall issue to the Applicant a written notice stating the reason(s) for the Board's disapproval or failure to act. In making tax credit decisions (including those related to Tax-Exempt

Bond Developments), the Board, in its discretion, may evaluate, consider and apply any one or more of the following discretionary factors: (§2306.111(g)(3))

(A) The Developer market study;

(B) The location;

(C) The compliance history of the Developer;

(D) The financial feasibility;

(E) The appropriateness of the Development's size and configuration in relation to the housing needs of the community in which the Development is located;

(F) The Development's proximity to other low-income housing Developments;

(G) The availability of adequate public facilities and services;

(H) The anticipated impact on local school districts;

(I) Zoning and other land use considerations;

(J) Any matter considered by the Board to be relevant to the approval decision and in furtherance of the Department's purposes; and

(K) Other good cause as determined by the Board.

(3) Before the Board approves any Application, the Department shall assess the compliance history of the Applicant with respect to all applicable requirements; and the compliance issues associated with the proposed Development, including compliance information provided by the Texas State Affordable Housing Corporation. The Committee shall provide to the Board a written report regarding the results of the assessments. The written report will be included in the appropriate Development file for Board and Department review. The Board shall fully document and disclose any instances in which the Board approves a Development Application despite any noncompliance associated with the Development or Applicant. (§2306.057)

(b) **Waiting List.** (§2306.6711(c) and (d)). If the entire State Housing Credit Ceiling for the applicable calendar year has been committed or allocated in accordance with this chapter, the Board shall generate, concurrently with the issuance of commitments, a waiting list of additional Applications ranked by score in descending order of priority based on Set-Aside categories and regional allocation goals. The Board may also apply discretionary factors in determining the Waiting List. If at any time prior to the end of the Application Round, one or more Commitment Notices expire and a sufficient amount of the State Housing Credit Ceiling becomes available, the Board shall issue a Commitment Notice to Applications on the waiting list subject to the amount of returned credits, the regional allocation goals and the Set-Aside categories, including the 10% Nonprofit Set-Aside allocation and 15% At-Risk Set-Aside allocation and 5% TRDO-USDA Set-Aside required under the Code, §42(h)(5). At the end of each calendar year, all Applications which have not received a Commitment Notice shall be deemed terminated. The Applicant may re-apply to the Department during the next Application Acceptance Period.

(c) **Forward Commitments.** The Board may determine to issue commitments of tax credit authority with respect to Applications from the State Housing Credit Ceiling for the calendar year following the year of issuance (each a "forward commitment") to Applications submitted in accordance with the rules and timelines required under this rule and the Application Submission Procedures Manual. The Board will utilize its discretion in determining the amount of credits to be allocated as forward commitments and the reasons for those commitments considering score and discretionary factors. The Board may utilize the forward commitment authority to allocate credits to TRDO-USDA Developments which are experiencing foreclosure or loan acceleration at any time during the ~~2008~~2009 calendar year, also referred to as Rural Rescue Developments. Applications that are submitted under the ~~2008~~2009 QAP and granted a Forward Commitment of ~~2009~~2010 Housing Tax Credits are considered by the Board to comply with the ~~2009~~2010 QAP by having satisfied the requirements of this ~~2008~~2009 QAP, except for statutorily required QAP changes.

(1) Unless otherwise provided in the Commitment Notice with respect to a Development selected to receive a forward commitment, actions which are required to be performed under this chapter by a particular date within a calendar year shall be performed by such date in the calendar year of the Credit Ceiling from which the credits are allocated.

(2) Any forward commitment made pursuant to this section shall be made subject to the availability of State Housing Credit Ceiling in the calendar year with respect to which the forward commitment is made. If a forward commitment shall be made with respect to a Development placed in service in the year of

such commitment, the forward commitment shall be a "binding commitment" to allocate the applicable credit dollar amount within the meaning of the Code, §42(h)(1)(C).

(3) If tax credit authority shall become available to the Department in a calendar year in which forward commitments have been awarded, the Department may allocate such tax credit authority to any eligible Development which received a forward commitment, in which event the forward commitment shall be canceled with respect to such Development.

§~~50~~49.11. Required Application Notifications, Receipt of Public Comment, and Meetings with Applicants; Viewing of Pre-Applications and Applications; Confidential Information.

(a) **Required Application Notifications, Receipt of Public Comment, and Meetings with Applicants.**

(1) Within approximately 14 days after the close of the Pre-Application Acceptance Period, the Department shall publish a Pre-Application Submission Log on its web site. Such log shall contain the Development name, address, Set-Aside, number of Units, requested credits, owner contact name and phone number. (§2306.6717(a)(1))

(2) Approximately 30 days before the close of the Application Acceptance Period, the Department will release the evaluation and assessment of the Pre-Applications on its web site.

(3) Not later than 14 days after the close of the Pre-Application Acceptance Period, or Application Acceptance Period for Applications for which no Pre-Application was submitted, the Department shall: (§2306.1114)

(A) Publish an Application submission log on its web site.

(B) Give notice of a proposed Development in writing that provides the information required under clause (i) of this subparagraph to all of the individuals and entities described in clauses (ii) - (x) of this subparagraph. (§2306.6718(a)-(c))

(i) The following information will be provided in these notifications:

(I) The relevant dates affecting the Application including the date on which the Application was filed, the date or dates on which any hearings on the Application will be held and the date by which a decision on the Application will be made;

(II) A summary of relevant facts associated with the Development;

(III) A summary of any public benefits provided as a result of the Development, including rent subsidies and tenant services; and

(IV) The name and contact information of the employee of the Department designated by the director to act as the information officer and liaison with the public regarding the Application.

(ii) Presiding officer of the ~~governing body~~Governing Body of the political subdivision containing the Development (mayor or county judge) to advise such individual that the Development, or a part thereof, will be located in his/her jurisdiction and request any comments which such individual may have concerning such Development.

(iii) If the Department receives a letter from the mayor or county judge of an affected city or county that expresses opposition to the Development, the Department will give consideration to the objections raised and will offer to visit the proposed site or Development with the mayor or county judge or their designated representative within 30 days of notification. The site visit must occur before the Housing Tax Credit can be approved by the Board. The Department will obtain reimbursement from the Applicant for the necessary travel and expenses at rates consistent with the state authorized rate; (General Appropriation Act, Article VII, Rider 5) (§42(m)(1))~~;~~

(iv) Any member of the ~~governing body~~Governing Body of a political subdivision who represents the Area containing the Development. If the ~~governing body~~Governing Body has single-member districts, then only that member of the ~~governing body~~Governing Body for that district will be notified, however if the ~~governing body~~Governing Body has at-large districts, then all members of the ~~governing body~~Governing Body will be notified;

(v) State representative and state senator who represent the community where the Development is proposed to be located. If the state representative or senator host a community meeting, the Department, if timely notified, will ensure staff are in attendance to provide information regarding the Housing Tax Credit Program; (General Appropriation Act, Article VII, Rider 8(d))

(vi) United States representative who represents the community containing the Development;

(vii) Superintendent of the school district containing the Development;

(viii) Presiding officer of the board of trustees of the school district containing the Development;

(ix) Any Neighborhood Organizations on record with the city or county in which the Development is to be located and whose boundaries contain the proposed Development site or otherwise known to the Applicant or Department and on record with the state or county; and

(x) Advocacy organizations, social service agencies, civil rights organizations, tenant organizations, or others who may have an interest in securing the development of affordable housing that are registered on the Department's email list service.

(C) The Department shall maintain an electronic mail notification service that will notify a subscriber, by zip code, of: (§2306.67171)

(i) The receipt of a Pre-Application or Application within 14 days of receipt;

(ii) The publication of materials to be presented to the Board for the Pre-Application or Application referred to in clause (i) of this subparagraph; and

(iii) Any public hearing for the Pre-Application or Application referred to in clause (i) of this subparagraph.

(D) The elected officials identified in subparagraph (B) of this paragraph will be provided an opportunity to comment on the Application during the Application evaluation process. (§42(m)(1))

(4) The Department shall hold at least three public hearings in different Uniform State Service Regions of the state to receive comment on the submitted Applications and on other issues relating to the Housing Tax Credit Program for competitive Applications under the State Housing Credit Ceiling. (§2306.6717(c))

(5) The Department shall make available on the Department's website information regarding the Housing Tax Credit Program including notice of public hearings, meetings, Application Round opening and closing dates, submitted Applications, and Applications approved for underwriting and recommended to the Board, and shall provide that information to locally affected community groups, local and state elected officials, local housing departments, any appropriate newspapers of general or limited circulation that serve the community in which a proposed Development is to be located, nonprofit and for-profit organizations, on-site property managers of occupied Developments that are the subject of Applications for posting in prominent locations at those Developments, and any other interested persons including community groups, who request the information. (§2306.6717(b))

(6) Approximately forty days prior to the date of the July Board meeting at which the issuance of Commitment Notices shall be discussed, the Department will notify each Applicant of the receipt of any opposition received by the Department relating to his or her Development at that time.

(7) Not later than the third working day after the date of completion of each stage of the Application process, including the results of the Application scoring and underwriting phases and the commitment phase, the results will be posted to the Department's web site. (§2306.6717(a)(3))

(8) At least thirty days prior to the date of the July Board meeting at which the issuance of Commitment Notices shall be discussed, the Department will:

(A) Provide the Application scores to the Board; (§2306.6711(a)) and

(B) If feasible, post to the Department's web site the entire Application, including all supporting documents and exhibits, the Application Log as further described in §~~50~~49.19(b) of this chapter, a scoring sheet providing details of the Application score, and any other documents relating to the processing of the Application. (§2306.6717(a)(1) and (2))

(9) A summary of comments received by the Department on specific Applications shall be part of the documents required to be reviewed by the Board under this subsection if it is received 30 business days prior to the date of the Board Meeting at which the issuance of Commitment Notices or Determination Notices shall be discussed. Comments received after this deadline will not be part of the documentation submitted to the Board. However, a public comment period will be available prior to the Board's decision, at the Board meeting where tax credit commitment decisions will be made.

(10) Not later than the 120th day after the date of the initial issuance of Commitment Notices for Housing Tax Credits, the Department shall provide an Applicant who did not receive a commitment for Housing Tax Credits with an opportunity to meet and discuss with the Department the Application's deficiencies, scoring and underwriting. (§2306.6711(e))

(b) **Viewing of Pre-Applications and Applications.** Pre-Applications and Applications for tax credits are public information and are available upon request after the Pre-Application and Application Acceptance Periods close, respectively. All Pre-Applications and Applications, including all exhibits and other supporting materials, except Personal Financial Statements and Social Security numbers, will be made available for public disclosure after the Pre-Application and Application periods close, respectively. The content of Personal Financial Statements may still be made available for public disclosure upon request if the Attorney General's office deems it is not protected from disclosure by the Texas Public Information Act.

(c) **Confidential Information.** The Department may treat the financial statements of any Applicant as confidential and may elect not to disclose those statements to the public. A request for such information shall be processed in accordance with §552.305 of the Texas Government Code. (§2306.6717(d))

§~~50~~49.12. Tax-Exempt Bond Developments: Filing of Applications; Applicability of Rules; Supportive Services; Financial Feasibility Evaluation; Satisfaction of Requirements.

(a) **Filing of Applications for Tax-Exempt Bond Developments.** Applications for a Tax-Exempt Bond Development may be submitted to the Department as described in paragraphs (1) and (2) of this subsection:

(1) Applicants which receive advance notice of a Program Year ~~2008~~2009 reservation as a result of the Texas Bond Review Board's (TBRB) lottery for the private activity volume cap must file a complete Application not later than 12:00 p.m. on December ~~28~~29, ~~2007~~2008. Such filing must be accompanied by the Application fee described in §~~50~~49.20 of this chapter.

(2) Applicants which receive advance notice of a Program Year ~~2008~~2009 reservation after being placed on the waiting list as a result of the TBRB lottery for private activity volume cap must submit Volume 1 and Volume 2 of the Application and the Application fee described in §~~50~~49.20 of this chapter prior to the Applicant's bond reservation date as assigned by the TBRB. Those Applications designated as Priority 3 by the TBRB must submit Volumes I and II within 14 days of the bond reservation date if the Applicant intends to apply for tax credits regardless of the Issuer. Any outstanding documentation required under this section regardless of Priority must be submitted to the Department at least 60 days prior to the Board meeting at which the decision to issue a Determination Notice would be made unless a waiver is requested by the Applicant. The Department staff will have limited discretion to recommend an Application with appropriate justification of the late submission.

(3) Applications involving multiple sites must submit the required information as outlined in the Application Submission Procedures Manual. The Application will be considered to be one Application as identified in Chapter 1372, Texas Government Code.

(b) **Applicability of Rules for Tax-Exempt Bond Developments.** Tax-Exempt Bond Development Applications are subject to all rules in this ~~title~~ chapter, with the only exceptions being the following sections: §~~50~~49.4 of this chapter (regarding State Housing Credit Ceiling), §~~50~~49.7 of this chapter (regarding Regional Allocation and Set-Asides), §~~50~~49.8 of this chapter (regarding Pre-Application), §~~50~~49.9(d) and (f) of this chapter (regarding Evaluation Processes for Competitive Applications and Rural Rescue Applications), §~~50~~49.9(i) of this chapter (regarding Selection Criteria), §~~50~~49.10(b) and (c) of this chapter (regarding Waiting List and Forward Commitments), and §~~50~~49.14(a) and (b) of this chapter (regarding Carryover and 10% Test). Such Developments requesting a Determination Notice in the current calendar year must meet all Threshold Criteria requirements stipulated in §~~50~~49.9(h) of this chapter. Such Developments which received a Determination Notice in a prior calendar year must meet all Threshold Criteria requirements stipulated in the QAP and Rules in effect for the calendar year in which the Determination Notice was issued; provided, however, that such Developments shall comply with all procedural requirements for obtaining Department action in the current QAP and Rules; and such other requirements of the QAP and Rules as the Department determines applicable. ~~This documentation must be submitted no later than 14 days before the Board meeting where the credits will be considered.~~ Applicants will be required to meet all conditions of the Determination Notice by the time the construction loan is closed unless otherwise specified in the Determination Notice. Applicants must meet the requirements identified in §~~50~~49.15 of this chapter. No later than 60 days following closing of the bonds, the Development Owner must also submit a Management Plan and an Affirmative Marketing Plan (as further described in the Carryover Allocation Procedures Manual), and evidence must be provided at this time of attendance of the Development Owner or management company at Department-approved Fair Housing training relating to leasing and management issues for at least five hours and the Development architect and engineer at Department-approved Fair Housing training relating to design issues for at least five hours. Certifications must not be older than two years. Applications that receive a reservation from the Bond Review Board on or before December 31, ~~2007~~2008 will be required to satisfy the requirements of the ~~2007~~2008 QAP; Applications that receive a reservation from the Bond Review Board on or after January 1, ~~2008~~2009 will be required to satisfy the requirements of the ~~2008~~2009 QAP.

(c) **Supportive Services for Tax-Exempt Bond Developments.** Tax-Exempt Bond Development Applications must provide an executed agreement with a qualified service provider for the provision of special supportive services that would otherwise not be available for the tenants. No fees may be charged to the tenants for any of the services. Services must be provided on-site or transportation to off-site services must be provided. The provision of these services will be included in the LURA. Acceptable services as described in paragraphs (1) - (3) of this subsection include:

(1) The services must be in at least one of the following categories: child care, transportation, notary public service, basic adult education, legal assistance, counseling services, GED preparation, English as a second language classes, vocational training, home buyer education, credit counseling, financial planning assistance or courses, health screening services, health and nutritional courses, organized team sports programs, youth programs, scholastic tutoring, social events and activities, community gardens or computer facilities;

(2) Any other program described under Title IV-A of the Social Security Act (42 U.S.C. §§601 et seq.) which enables children to be cared for in their homes or the homes of relatives; ends the dependence of needy families on government benefits by promoting job preparation, work and marriage; prevents and reduces the incidence of out-of wedlock pregnancies; and encourages the formation and maintenance of two-parent families; or

(3) Any other services approved in writing by the Issuer. The plan for tenant supportive services submitted for review and approval of the Issuer must contain a plan for coordination of services with state workforce development and welfare programs. The coordinated effort will vary depending upon the needs of the tenant profile at any given time as outlined in the plan.

(d) **Financial Feasibility Evaluation for Tax-Exempt Bond Developments.** Code §42(m)(2)(D) requires the bond issuer (if other than the Department) to ensure that a Tax-Exempt Bond Development does not receive more tax credits than the amount needed for the financial feasibility and viability of a Development throughout the Compliance Period. Treasury Regulations prescribe the occasions upon which this determination must be made. In light of the requirement, issuers may either elect to underwrite the Development for this purpose in accordance with the QAP and the Underwriting Rules and Guidelines, §1.32 of this title or request that the Department perform the function. If the issuer underwrites the Development, the Department will, nonetheless, review the underwriting report and may make such changes in the amount of credits which the Development may be allowed as are appropriate under the Department's guidelines. The Determination Notice issued by the Department and any subsequent IRS Form(s) 8609 will reflect the amount of tax credits for which the Development is determined to be eligible in accordance with this subsection, and the amount of tax credits reflected in the IRS Form 8609 may be greater or less than the amount set forth in the Determination Notice, based upon the Department's and the bond issuer's determination as of each building's placement in service. Any increase of tax credits, from the amount specified in the Determination Notice, at the time of each building's placement in service will only be permitted if it is determined by the Department, as required by Code §42(m)(2)(D), that the Tax-Exempt Bond Development does not receive more tax credits than the amount needed for the financial feasibility and viability of a Development throughout the Compliance Period. Increases to the amount of tax credits that exceed 110% of the amount of credits reflected in the Determination Notice are contingent upon approval by the Board. Increases to the amount of tax credits that do not exceed 110% of the amount of credits reflected in the Determination Notice may be approved administratively by the Executive Director.

(e) **Satisfaction of Requirements for Tax-Exempt Bond Developments.** If the Department staff determines that all requirements of this QAP and Rules have been met, the Department will recommend that the Board authorize the issuance of a Determination Notice. The Board, however, may utilize the discretionary factors identified in §~~50~~49.10(a) of this chapter in determining if they will authorize the Department to issue a

Determination Notice to the Development Owner. The Determination Notice, if authorized by the Board, will confirm that the Development satisfies the requirements of the QAP and Rules in accordance with the Code, §42(m)(1)(D).

(f) **Certification of Tax Exempt Applications with New Docket Numbers.** Applications that are processed through the Department review and evaluation process and receive an affirmative Board Determination, but do not close the bonds prior to the bond reservation expiration date, and subsequently have that docket number withdrawn from the Bond Review Board, may have their Determination Notice reinstated. The Applicant would need to receive a new docket number from the Texas Bond Review Board. One of the following must apply:

(1) The new docket number must be issued in the same program year as the original docket number and must not be more than four months from the date the original application was withdrawn from the BRB. The application must remain unchanged. This means that at a minimum, the following can not have changed: site control, total number of units, unit mix (bedroom sizes and income restrictions), design/site plan documents, financial structure including bond and Housing Tax Credit amounts, development costs, rent schedule, operating expenses, sources and uses, ad valorem tax exemption status, target population, scoring criteria (TDHCA issues) or BRB priority status including the effect on the inclusive capture rate. Note that the entities involved in the Applicant entity and Developer can not change; however, the certification can be submitted even if the lender, syndicator or issuer changes, as long as the financing structure and terms remain unchanged. Notifications under §~~50~~49.9(h)(8) of this chapter are not required to be reissued. In the event that the Department's Board has already approved the Application for tax credits, the Application is not required to be presented to the Board again (unless there is public opposition) and a revised Determination Notice will be issued once notice of the assignment of a new docket number has been provided to the Department and the Department has confirmed that the capture rate and market demand remain acceptable. This certification must be submitted no later than thirty days after the date the Bond Review Board issues the new docket number and no later than thirty days before the anticipated closing. In the event that the Department's Board has not yet approved the Application, the Application will continue to be processed and ultimately provided to the Board for consideration. This certification must be submitted no later than thirty days after the date the Bond Review Board issues the new docket number and no later than forty-five days before the anticipated Department's Board meeting date.

(2) If there are changing to the Application as referenced in paragraph (1) of this subsection, the Application will be required to submit a new Application in full, along with the applicable fees, to be reviewed and evaluated in its entirety for a new determination notice to be issued.

§~~50~~49.13. Commitment and Determination Notices; Agreement and Election Statement; Documentation Submission Requirements.

(a) **Commitment and Determination Notices.** If the Board approves an Application the Department will:

(1) If the Application is for a commitment from the State Housing Credit Ceiling, issue a Commitment Notice to the Development Owner which shall:

(A) Confirm that the Board has approved the Application; and

(B) State the Department's commitment to make a Housing Credit Allocation to the Development Owner in a specified amount, subject to the feasibility determination described in §~~50~~49.16 of this chapter, and compliance by the Development Owner with the remaining requirements of this chapter and any other terms and conditions set forth therein by the Department. This commitment shall expire on the date specified therein unless the Development Owner indicates acceptance of the commitment by executing the Commitment Notice~~ or Determination Notice~~, pays the required fee specified in §~~50~~49.20 of this chapter, and satisfies any other conditions set forth therein by the Department. The Commitment Notice expiration date may not be extended.

(2) If the Application regards a Tax-Exempt Bond Development, issue a Determination Notice to the Development Owner which shall:

(A) Confirm the Board's determination that the Development satisfies the requirements of this QAP; and

(B) State the Department's commitment to issue IRS Form(s) 8609 to the Development Owner in a specified amount, subject to the requirements set forth in §~~50~~49.12 of this chapter and compliance by the Development Owner with all applicable requirements of this chapter and any other terms and conditions set forth therein by the Department. The Determination Notice shall expire on the date specified therein unless the Development Owner indicates acceptance by executing the Determination Notice and paying the required fee specified in §~~50~~49.20 of this chapter. The Determination Notice shall also expire unless the Development Owner satisfies any conditions set forth therein by the Department~~ within the applicable time period~~. The Determination Notice expiration may not be extended.

(3) Notify, in writing, the mayor or other equivalent chief executive officer of the municipality in which the Property is located informing him/her of the Board's issuance of a Commitment Notice or Determination Notice, as applicable.

(4) A Commitment or Determination Notice shall not be issued with respect to any Development for an unnecessary amount or where the cost for the total development, acquisition, construction or Rehabilitation exceeds the limitations established from time to time by the Department and the Board, unless the Department staff make a recommendation to the Board based on the need to fulfill the goals of the Housing Tax Credit Program as expressed in this QAP and Rules, and the Board accepts the recommendation. The Department's recommendation to the Board shall be clearly documented.

(5) A Commitment or Determination Notice shall not be issued with respect to the Applicant, the Development Owner, the General Contractor, or any Affiliate of the General Contractor that is active in the ownership or Control of one or more other low-income rental housing properties in the state of Texas administered by the Department that is in Material Noncompliance with the LURA (or any other document containing an Extended Low-income Housing Commitment) or the program rules in effect for such property, as described in Chapter 60 of this title.

(6) The executed Commitment or Determination Notice must be returned to the Department on the date specified within the Commitment Notice or Determination Notice, which shall be no earlier than ten days of the effective date of the Notice.

(b) **Agreement and Election Statement.** Together with the Development Owner's acceptance of the Carryover Allocation, the Development Owner may execute an Agreement and Election Statement, in the form prescribed by the Department, for the purpose of fixing the Applicable Percentage for the Development as that for the month in which the Carryover Allocation was accepted (or the month the bonds were ~~issued~~ closed for Tax-Exempt Bond Developments), as provided in the Code, §42(b)(2). Current Treasury Regulations, §1.42-8(a)(1)(v), suggest that in order to permit a Development Owner to make an effective election to fix the Applicable Percentage for a Development, the Carryover Allocation Document must be executed by the Department and the Development Owner within the same month. The Department staff will cooperate with a Development Owner, as possible or reasonable; to assure that the Carryover Allocation Document can be so executed.

(c) **Documentation Submission Requirements at Commitment of Funds.** No later than the date the Commitment Notice or Determination Notice is executed by the Applicant and returned to the Department with the appropriate Commitment or Determination Fee as further described in §~~50~~49.20(f) of this chapter, the following documents must also be provided to the Department. Failure to provide these documents may cause the Commitment or Determmination to be rescinded. For each Applicant all of the following must be provided:

(1) Evidence that the entity has the authority to do business in Texas in the form of a Certificate of Filing from the Texas Secretary of State;;

(2) A Certificate of Account Status from the Texas Comptroller of Public Accounts or, if such a Certificate is not available because the entity is newly formed, a statement to such effect; and a Certificate of Organization from the Secretary of State;

(3) Copies of the entity's governing documents, including, but not limited to, its Articles of Incorporation, Articles of Organization, Certificate of Limited Partnership, Bylaws, Regulations and/or Partnership Agreement; and

(4) Evidence that the signer(s) of the Application have the authority to sign on behalf of the Applicant in the form of a corporate resolution or by-laws which indicate same from the sub-entity in Control and that those Persons signing the Application constitute all Persons required to sign or submit such documents.

§~~50~~49.14. Carryover; 10% Test; Commencement of Substantial Construction.

(a) **Carryover.** All Developments which received a Commitment Notice, and will not be placed in service and receive IRS Form 8609 in the year the Commitment Notice was issued, must submit the Carryover documentation to the Department no later than November ~~1~~2 of the year in which the Commitment Notice is issued pursuant to §42(h)(I)(c) IRC.

(1) Commitments for credits will be terminated if the Carryover documentation, or an approved extension, has not been received by this deadline. In the event that a Development Owner intends to submit the Carryover documentation in any month preceding November of the year in which the Commitment Notice is issued, in order to fix the Applicable Percentage for the Development in that month, it must be submitted no later than the first Friday in the preceding month.

(2) If the financing structure, syndication rate, amount of debt or syndication proceeds are revised at the time of Carryover from what was proposed in the original Application, applicable documentation of such changes must be provided and the Development may be reevaluated by the Department.

(3) The Carryover Allocation format must be properly completed and delivered to the Department as prescribed by the Carryover Allocation Procedures Manual.

(4) All Carryover Allocations will be contingent upon the Development Owner providing evidence that the Development site is still under control of the Development Owner. For purposes of this paragrapg, site control must be identical to the same Development Site that was submitted at the time of Application Submission.

(5) The Department will not execute a Carryover Allocation Agreement with any Owner in Material Noncompliance on October 1, 2009.

(6) The Development Owner may receive bonus points, as referenced in §49.9(i)(29) of this chapter, in the Application Round following the execution of the Carryover Allocation Agreement, if the Development Owner provides evidence of the purchase, transfer, lease or otherwise has ownership, of the Development Site, at the time of submission of the Carryover documentation.

~~following, in addition to all other conditions placed upon the Application in the Commitment Notice:~~

~~(1) The Development Owner for all New Construction and Adaptive Reuse Developments must have purchased the Development Site.~~

~~(2) A current original plat or survey of the land, prepared by a duly licensed Texas Registered Professional Land Surveyor. Such survey shall conform to standards prescribed in the Manual of Practice for Land Surveying in Texas as promulgated and amended from time to time by the Texas Surveyors Association as more fully described in the Carryover Procedures Manual.~~

~~(3) For all Developments involving New Construction or Adaptive Reuse, evidence of the availability of all necessary utilities/services to the Development site must be provided. Necessary utilities include natural gas (if applicable), electric, trash, water, and sewer. Such evidence must be a letter or a monthly utility bill from the appropriate municipal/local service provider. If utilities are not already accessible, then the letter must clearly state: an estimated time frame for provision of the utilities, an estimate of the infrastructure cost, and an estimate of any portion of that cost that will be borne by the Development Owner. Letters must be from an authorized individual representing the organization which actually provides the services. Such documentation should clearly indicate the Development property. If utilities are not already accessible (undeveloped areas), then the letter should not be older than three months from the first day of the Application Acceptance Period.~~

~~(4) The Department will not execute a Carryover Allocation Agreement with any Owner in Material Noncompliance on October 1, 2008.~~

(b) **10% Test.** No later than ~~six~~ eleven months from the date the Carryover Allocation Document is executed by the Department and the Development Owner, more than 10% of the Development Owner's reasonably expected basis must have been incurred pursuant to §42(h)(1)(E)(i) and (ii) of the Internal Revenue Code (as amended by The Housing and Economic Recovery Act of 2008) and Treasury Regulations, §1.42-6. The evidence to support the satisfaction of this requirement must be submitted to the Department no later than ~~June 30~~December 1 of the year following the execution of the Carryover Allocation Document in a format prescribed by the Department. At the time of submission of the documentation, the Development Owner must also submit a Management Plan and an Affirmative Marketing Plan as further described in the Carryover Allocation Procedures Manual. Evidence must be provided at this time of attendance of the Development Owner or management company at Department-approved Fair Housing training relating to leasing and management issues for at least five hours and the Development architect and engineer at Department-approved Fair Housing training relating to design issues for at least five hours on or before the time the 10% Test Documentation is submitted. Certifications must not be older than two years from the date of submission of the 10% Test Documentation. The 10% Test Documentation will be contingent upon the following, in addition to all other conditions placed upon the Application in the Commitment Notice:

(1) The Development Owner for all Developments must have purchased, transferred, leased or otherwise have ownership, of the Development Site.

(2) A current original plat or survey of the land, prepared by a duly licensed Texas Registered Professional Land Surveyor. Such survey shall conform to standards prescribed in the Manual of Practice for Land Surveying in Texas as promulgated and amended from time to time by the Texas Surveyors Association as more fully described in the Carryover Procedures Manual.

(3) For all Developments involving New Construction or Adaptive Reuse, evidence of the availability of all necessary utilities/services to the Development site must be provided. Necessary utilities include natural gas (if applicable), electric, trash, water, and sewer. Such evidence must be a letter or a monthly utility bill from the appropriate municipal/local service provider. If utilities are not already accessible, then the letter must clearly state: an estimated time frame for provision of the utilities, an estimate of the infrastructure cost, and an estimate of any portion of that cost that will be borne by the Development Owner. Letters must be from an authorized individual representing the organization which actually provides the services. Such documentation should clearly indicate the Development property. If utilities are not already accessible (undeveloped areas), then the letter should not be older than three months from the first day of the Application Acceptance Period.

(4) The Development Owner must submit evidence of having commenced and continued substantial construction activities as defined in Chapter 60 of this title.

(5) The Development Owner may receive bonus points, as referenced in section 49.9(i)(29) of this chapter, in the Application Round following the execution of the Carryover Allocation Agreement, if the Development Owner provides evidence that the requirements of the 10% Test were met, on or before June 1 in the year following the execution of the Carryover Allocation Agreement (with the exception of the documentation required in paragraph (4) of this subsection), and submits the complete documentation, to the Department, on or before June 1 in the year following the execution of the same Carryover Allocation Agreement. The submission of the commencement of substantial construction documentation, as referenced in paragraph (4) of this subsection, will be required on or before December 1 of the year following the Carryover Allocation Agreement.

~~(c) **Commencement of Substantial Construction.** The Development Owner must submit evidence of having commenced and continued substantial construction activities as defined in Chapter 60 of this title. The evidence must be submitted not later than December 1 of the year after the execution of the Carryover Allocation Document with the possibility of an extension as described in §50.20 of this chapter.~~

§~~50~~49.15. LURA, Cost Certification.

(a) **Land Use Restriction Agreement (LURA).** The Development Owner must request a LURA from the Department no later than the date specified in Chapter 60 of this title, the Department's Compliance Rules. The Development Owner must date, sign and acknowledge before a notary public the LURA and send the original to the Department for execution. The initial compliance and monitoring fee must be accompanied by a statement, signed by the Owner, indicating the start of the Development's Credit Period and the earliest placed in service date for the Development buildings. After receipt of the signed LURA from the Department, the Development Owner shall then record the LURA, along with any and all exhibits attached thereto, in the real property records of the county where the Development is located and return the original document, duly certified as to recordation by the appropriate county official, to the Department no later than the date that the Cost Certification Documentation is submitted to the Department. If any liens (other than mechanics' or materialmen's liens) shall have been recorded against the Development and/or the Property prior to the recording of the LURA, the Development Owner shall obtain the subordination of the rights of any such lienholder, or other effective consent, to the survival of certain obligations contained in the LURA, which are required by §42(h)(6)(E)(ii) of the Code to remain in effect following the foreclosure of any such lien. Receipt of such certified recorded original LURA by the Department is required prior to issuance of IRS Form 8609. A representative of the Department, or assigns, shall physically inspect the Development for compliance with the Application and the representations, warranties, covenants, agreements and undertakings contained therein. Such inspection will be conducted before the IRS Form 8609 is issued for a building, but it shall be conducted in no event later than the end of the second calendar year following the year the last building in the Development is placed in service. The Development Owner for Tax-Exempt Bond Developments shall obtain a subordination agreement wherein the lien of the mortgage is subordinated to the LURA. The LURA shall contain any provision which requires the Development Owner to restrict rents and incomes at any AMGI level, as approved by the Board. The restricted gross rents for any AMGI level outlined in the LURA will be calculated in accordance with §42(g)(2)(A), Internal Revenue Code.

(b) **Cost Certification.** The Cost Certification Procedures Manual sets forth the documentation required for the Department to perform a feasibility analysis in accordance with §42(m)(2)(C)(i)(II), Internal Revenue Code, and determine the final Credit to be allocated to the Development.

(1) To request IRS Forms 8609, Developments must have:

(A) Placed in Service by December 31 of the year the Commitment Notice was issued if a Carryover Allocation was not requested and received; or December 31 of the second year following the year the Carryover Allocation Agreement was executed;

(B) Scheduled a final construction inspection in accordance with Chapter 60 of this title, the Department's Compliance Monitoring Policies and Procedures;

(C) Informed the Department of and received written approval for all Development amendments in accordance with §~~50~~49.17(c) of this chapter;

(D) Submitted to the Department the LURA in accordance with subsection (a) of this section;

(E) Paid all applicable Department fees; and

(F) Prepared all Cost Certification documentation as more fully described in the Cost Certification Procedures Manual including:

(i) Carryover Allocation Agreement/Determination Notice and Election Statement;
(ii) Owner's Statement of Certification;
(iii) Owner Summary;
(iv) Evidence of Nonprofit and CHDO Participation;
(v) Evidence of Historically Underutilized Business (HUB) Participation;
(vi) Development Summary;
(vii) As-Built Survey;
(viii) Closing Statement;
(ix) Title Policy;
(x) Evidence of Placement in Service;
(xi) Independent Auditor's Reports;
(xii) Total Development Cost Schedule;
(xiii) AIA Form G702 and G703, Application and Certificate for Payment;
(xiv) Rent Schedule;
(xv) Utility Allowance;
(xvi) Annual Estimated Operating Expenses and 15-Year Proforma;
(xvii) Current Annual Operating Statement and Rent Roll;
(xviii) Final Sources of Funds;
(xix) Executed Limited Partnership Agreement;
(xx) Loan Agreement or Firm Commitment;
(xxi) Architect's Certification of Fair Housing Requirements; and
(xxii) TDHCA Compliance Workshop Certificate.

(2) Required Cost Certification documentation must be received by the Department no later than January 15 following the year the Credit Period begins. Any Developments issued a Commitment Notice or Determination Notice that fails to submit its Cost Certification documentation by this deadline will be reported to the IRS and the Owner will be required to submit a request for extension consistent with §~~50~~49.20(l) of this chapter.

(3) The Department will perform an initial evaluation of the Cost Certification documentation within 45 days from the date of receipt and notify the Owner in a deficiency letter of all additional required documentation. Any deficiency letters issued to the Owner pertaining to the Cost Certification documentation will also be copied to the syndicator. The Department will issue IRS Forms 8609 no later than 90 days from the date that all required documents have been received.

(4) The Department will perform an evaluation to determine if the Applicant is in Material Noncompliance with the LURA (or any other document containing an Extended Low-income Housing Commitment) or the program rules in effect for the subject property, as described in Chapter 60 of this title, prior to issuance of IRS Forms 8609.

§~~50~~49.16. Housing Credit Allocations.

(a) In making a commitment of a Housing Credit Allocation under this chapter, the Department shall rely upon information contained in the Application to determine whether a building is eligible for the credit under the Code, §42. The Development Owner shall bear full responsibility for claiming the credit and assuring that the Development complies with the requirements of the Code, §42. The Department shall have no responsibility for ensuring that a Development Owner who receives a Housing Credit Allocation from the Department will qualify for the tax credit.

(b) The Housing Credit Allocation Amount shall not exceed the dollar amount the Department determines is necessary for the financial feasibility and the long term viability of the Development throughout the affordability period. (§2306.6711(b)). Such determination shall be made by the Department at the time of issuance of the Commitment Notice or Determination Notice; at the time the Department makes a Housing Credit Allocation; and as of the date each building in a Development is placed in service. Any Housing Credit Allocation Amount specified in a Commitment Notice, Determination Notice or Carryover Allocation Document is subject to change by the Department based upon such determination. Such a determination shall be made by the Department based on its evaluation and procedures, considering the items specified in the Code, §42(m)(2)(B), and the department in no way or manner represents or warrants to any Applicant, sponsor, investor, lender or other entity that the Development is, in fact, feasible or viable.

(c) The General Contractor hired by the Development Owner must meet specific criteria as defined by the General Appropriation Act, Article VII, Rider 8(c). A General Contractor hired by a Development Owner or a Development Owner, if the Development Owner serves as General Contractor must demonstrate a history of constructing similar types of housing without the use of federal tax credits. Evidence must be submitted to the Department, in accordance with §~~50~~49.9(h)(4)(I) of this chapter, which sufficiently documents that the General Contractor has constructed some housing without the use of Housing Tax Credits. This documentation will be required as a condition of the Commitment Notice or Carryover Allocation Agreement, and must be complied with prior to commencement of construction and at cost certification and final allocation of credits.

(d) An allocation will be made in the name of the Development Owner identified in the related Commitment Notice or Determination Notice. If an allocation is made to a member or Affiliate of the ownership entity proposed at the time of Application, the Department will transfer the allocation to the ownership entity as consistent with the intention of the Board when the Development was selected for an award of tax credits. Any other transfer of an allocation will be subject to review and approval by the Department consistent with §~~50~~49.17(c) of this chapter. The approval of any such transfer does not constitute a representation to the effect that such transfer is permissible under §42 of the Code or without adverse consequences thereunder, and the Department may condition its approval upon receipt and approval of complete current documentation regarding the owner including documentation to show consistency with all the criteria for scoring, evaluation and underwriting, among others, which were applicable to the original Applicant.

(e) The Department shall make a Housing Credit Allocation, either in the form of IRS Form 8609, with respect to current year allocations for buildings placed in service, or in the Carryover Allocation Document, for buildings not yet placed in service, to any Development Owner who holds a Commitment Notice which has not expired, and for which all fees as specified in §~~50~~49.20 of this chapter have been received by the Department and with respect to which all applicable requirements, terms and conditions have been met. For Tax-Exempt Bond Developments, the Housing Credit Allocation shall be made in the form of a Determination Notice. For an IRS Form 8609 to be issued with respect to a building in a Development with a Housing Credit Allocation, satisfactory evidence must be received by the Department that such building is completed and has been placed in service in accordance with the provisions of the Department's Cost Certification Procedures Manual. The Cost Certification documentation requirements will include a certification and inspection report prepared by a Third-Party accessibility specialist to certify that the Development meets all required accessibility standards. IRS Form 8609 will not be issued until the certifications are received by the Department. The Department shall mail or deliver IRS Form 8609 (or any successor form adopted by the Internal Revenue Service) to the Development Owner, with Part I thereof completed in all respects and signed by an authorized official of the Department. The delivery of the IRS Form 8609 will occur only after the Development Owner has complied with all procedures and requirements listed within the Cost Certification Procedures Manual. Regardless of the year of Application to the Department for Housing Tax Credits, the current year's Cost Certification Procedures Manual must be utilized when filing all cost certification materials. A separate Housing Credit Allocation shall be made with respect to each building within a Development which is eligible for a tax credit; provided, however, that where an allocation is made pursuant to a Carryover Allocation Document on a Development basis in accordance with the Code, §42(h)(1)(F), a housing credit dollar amount shall not be assigned to particular buildings in the Development until the issuance of IRS Form 8609s with respect to such buildings. The Department may delay the issuance of IRS Form 8609 if any Development violates the representations of the Application.

(f) In making a Housing Credit Allocation, the Department shall specify a maximum Applicable Percentage, not to exceed the Applicable Percentage for the building permitted by the Code, §42(b), and a maximum Qualified Basis amount. In specifying the maximum Applicable Percentage and the maximum Qualified Basis amount, the Department shall disregard the first-year conventions described in the Code, §42(f)(2)(A) and §42(f)(3)(B). The Housing Credit Allocation made by the Department shall not exceed the amount necessary to support the extended low-income housing commitment as required by the Code, §42(h)(6)(C)(i).

(g) Development inspections shall be required to show that the Development is built or rehabilitated according to construction threshold criteria and Development characteristics identified at application. At a minimum, all Development inspections must meet Uniform Physical Condition Standards (UPCS) as referenced in Treasury Regulation §1.42-5(d)(2)(ii) and include an inspection for quality during the construction process while defects can reasonably be corrected and a final inspection at the time the Development is placed in service. All such Development inspections shall be performed by the Department or by an independent Third Party inspector acceptable to the Department. The Development Owner shall pay all fees and costs of said inspections as described in §~~50~~49.20 of this chapter. Details regarding the construction inspection process are set forth in the Department Rule Chapter 60 of this title, the Department's Compliance Monitoring Policies and Procedures (§2306.081; General Appropriation Act, Article VII, Rider 8(b)).

(h) After the entire Development is placed in service, which must occur prior to the deadline specified in the Carryover Allocation Document and as further outlined in §~~50~~49.15 of this chapter, the Development Owner shall be responsible for furnishing the Department with documentation which satisfies the requirements set forth in the Cost Certification Procedures Manual. For purposes of this title, and consistent with IRS Notice 88-116, the placed in service date for a new or existing building used as residential rental property is the date on which the building is ready and available for its specifically assigned function and more specifically when the first Unit in the building is certified as being suitable for occupancy in accordance with state and local law and as certified by the appropriate local authority or registered architect as ready for occupancy. The Cost Certification must be submitted for the entire Development; therefore partial Cost Certifications are not allowed. The Department may require copies of invoices and receipts and statements for materials and labor utilized for the New Construction or Rehabilitation and, if applicable, a closing statement for the acquisition of the Development as well as for the closing of all interim and permanent financing for the Development. If the Development Owner does not fulfill all representations and commitments made in the Application, the Department may make reasonable reductions to the tax credit amount allocated via the IRS Form 8609, may withhold issuance of the IRS Form 8609s until these representations and commitments are met, and/or may terminate the allocation, if appropriate corrective action is not taken by the Development Owner.

(i) The Board at its sole discretion may allocate credits to a Development Owner in addition to those awarded at the time of the initial Carryover Allocation in instances where there is bona fide substantiation of cost overruns and the Department has made a determination that the allocation is needed to maintain the Development's financial viability.

(j) The Department may, at any time and without additional administrative process, determine to award credits to Developments previously evaluated and awarded credits if it determines that such previously awarded credits are or may be invalid and the owner was not responsible for such invalidity.

(k) If an Applicant returns a full credit allocation after the Carryover Allocation deadline required for that allocation, the Department will impose a penalty on the score for any Competitive Housing Tax Credit Applications submitted by that Applicant or any Affiliate of that Applicant for any Application in an Application Round occurring concurrent to the return of credits or if no Application Round is pending the Round immediately following the return of credits unless otherwise exempted in accordance with the Board's policy pursuant to the implementation of The Housing and Economic Recovery Act of 2008, H.R. 3221, in September 2008. The penalty will be assessed in an amount that reduces the Applicant's final awarded score by an additional 20%.

§~~50~~49.17. Board Reevaluation, Appeals Process; Provision of Information or Challenges Regarding Applications; Amendments; Housing Tax Credit and Ownership Transfers; Sale of Tax Credit Properties; Withdrawals; Cancellations; Alternative Dispute Resolution.

(a) **Board Reevaluation.** (§2306.6731(b)). Regardless of development stage, the Board shall reevaluate a Development that undergoes a substantial change between the time of initial Board approval of the Development and the time of issuance of a Commitment Notice or Determination Notice for the Development. For the purposes of this subsection, substantial change shall be those items identified in subsection (d)(4) of this section. The Board may revoke any Commitment Notice or Determination Notice issued for a Development that has been unfavorably reevaluated by the Board.

(b) **Appeals Process.** (§2306.6715) An Applicant may appeal decisions made by the Department as follows.

(1) The decisions that may be appealed are identified in subparagraphs (A)-(D) of this paragraph.

(A) A determination regarding the Application's satisfaction of:

(i) Eligibility Requirements;

(ii) Disqualification or debarment criteria;

(iii) Pre-Application or Application Threshold Criteria;

(iv) Underwriting Criteria;

(B) The scoring of the Application under the Application Selection Criteria; and

(C) A recommendation as to the amount of Housing Tax Credits to be allocated to the Application.

(D) Any Department decision that results in termination of an Application.

(2) An Applicant may not appeal a decision made regarding an Application filed by another Applicant.

(3) An Applicant must file its appeal in writing with the Department not later than the seventh day after the date the Department publishes the results of any stage of the Application evaluation process identified in §~~50~~49.9 of this chapter. In the appeal, the Applicant must specifically identify the Applicant's grounds for appeal, based on the original Application and additional documentation filed with the original Application. If the appeal relates to the amount of Housing Tax Credits recommended to be allocated, the Department will provide the Applicant with the underwriting report upon request.

(4) The Executive Director of the Department shall respond in writing to the appeal not later than the 14th day after the date of receipt of the appeal. If the Applicant is not satisfied with the Executive

Director's response to the appeal, the Applicant may appeal directly in writing to the Board, provided that an appeal filed with the Board under this subsection must be received by the Board before:

(A) The seventh day preceding the date of the Board meeting at which the relevant commitment decision is expected to be made; or

(B) The third day preceding the date of the Board meeting described by subparagraph (A) of this paragraph, if the Executive Director does not respond to the appeal before the date described by subparagraph (A) of this paragraph.

(5) Board review of an appeal under paragraph (4) of this subsection is based on the original Application and additional documentation filed with the original Application. The Board may not review any information not contained in or filed with the original Application. The decision of the Board regarding the appeal is final.

(6) The Department will post to its web site an appeal filed with the Department or Board and any other document relating to the processing of the appeal. (§2306.6717(a)(5))

(c) **Provision of Information or Challenges Regarding Applications from Unrelated Entities to the Application.** The Department will address information or challenges received from unrelated entities to a specific ~~2008~~2009 active Application, utilizing a preponderance of the evidence standard, as stated in paragraphs (1) - (3) of this subsection, provided the information or challenge includes a contact name, telephone number, fax number and e-mail address of the person providing the information or challenge and must be received by the Department no later than June 15, ~~2008~~2009:

(1) Within 14 business days of the receipt of the information or challenge, the Department will post all information and challenges received (including any identifying information) to the Department's website~~.~~;

(2) Within seven business days of the receipt of the information or challenge, the Department will notify the Applicant related to the information or challenge. The Applicant will then have seven business days to respond to all information and challenges provided to the Department~~.~~; and

(3) Within 14 business days of the receipt of the response from the Applicant, the Department will evaluate all information submitted and other relevant documentation related to the investigation. This information may include information requested by the Department relating to this evaluation. The Department will post its determination summary to its website. Any determinations made by the Department cannot be appealed by any party unrelated to the Applicant.

(d) **Amendment of Application Subsequent to Allocation by Board.** (§2306.6712 and §2306.6717(a)(4))

(1) If a proposed modification would materially alter a Development approved for an allocation of a Housing Tax Credit, or if the Applicant has altered any selection criteria item for which it received points, the Department shall require the Applicant to file a formal, written request for an amendment to the Application.

(2) The Executive Director of the Department shall require the Department staff assigned to underwrite Applications to evaluate the amendment and provide an analysis and written recommendation to the Board. The appropriate party monitoring compliance during construction in accordance with §~~50~~49.18 of this chapter shall also provide to the Board an analysis and written recommendation regarding the amendment. For amendments which require Board approval, the amendment request must be received by the Department at least 30 days prior to the Board meeting where the amendment will be considered.

(3) The Board must vote on whether to approve an amendment. The Board by vote may reject an amendment and, if appropriate, rescind a Commitment Notice or terminate the allocation of Housing Tax Credits and reallocate the credits to other Applicants on the Waiting List if the Board determines that the modification proposed in the amendment:

(A) would materially alter the Development in a negative manner; or

(B) would have adversely affected the selection of the Application in the Application Round.

(4) Material alteration of a Development includes, but is not limited to:

(A) a significant modification of the site plan;

(B) a modification of the number of units or bedroom mix of units;

(C) a substantive modification of the scope of tenant services;

(D) a reduction of 3% or more in the square footage of the units or common areas;

(E) a significant modification of the architectural design of the Development;

(F) a modification of the residential density of the Development of at least 5%;

(G) an increase or decrease in the site acreage of greater than 10% from the original site under control and proposed in the Application; and

(H) any other modification considered significant by the Board.

(5) In evaluating the amendment under this subsection, the Department staff shall consider whether the need for the modification proposed in the amendment was:

(A) Reasonably foreseeable by the Applicant at the time the Application was submitted; or

(B) Preventable by the Applicant.

(6) This section shall be administered in a manner that is consistent with the Code, §42.

(7) Before the 15th day preceding the date of Board action on the amendment, notice of an amendment and the recommendation of the Executive Director and monitor regarding the amendment will be posted to the Department's web site.

(8) In the event that an Applicant or Developer seeks to be released from the commitment to serve the income level of tenants targeted in the Real Estate Analysis Report at the time of the Commitment Notice issuance, as approved by the Board, the following procedure will apply. For amendments that involve a reduction in the total number of low-income Units being served, or a reduction in the number of low-income Units at any level of AMGI, as approved by the Board, evidence must be presented to the Department that includes written confirmation from the lender and syndicator that the Development is infeasible without the adjustment in Units. The Board may or may not approve the amendment request, however, any affirmative recommendation to the Board is contingent upon concurrence from the Real Estate Analysis Division that the Unit adjustment (or an alternative Unit adjustment) is necessary for the continued feasibility of the Development. Additionally, if it is determined by the Department that the allocation of credits would not have been made in the year of allocation because the loss of low-income targeting points would have resulted in the Application not receiving an allocation, and the amendment is approved by the Board, the approved amendment will carry a penalty that prohibits the Applicant and all persons or entities with any ownership interest in the Application (excluding any tax credit purchaser/syndicator), from participation in the Housing Tax Credit Program (for both the Competitive Housing Tax Credit Developments and Tax-Exempt Bond Developments) for 24 months from the time that the amendment is approved.

(e) **Housing Tax Credit and Ownership Transfers.** (§2306.6713) A Development Owner may not transfer an allocation of Housing Tax Credits or ownership of a Development supported with an allocation of Housing Tax Credits to any Person including ~~other than~~ an Affiliate of the Development Owner unless the Development Owner obtains the Executive Director's prior, written approval of the transfer. The Executive Director may not unreasonably withhold approval of the transfer.

(1) Transfers (other than an Affiliate included in the ownership structure) will not be approved prior to the issuance of IRS Forms 8609 unless the Development Owner can provide evidence that a hardship is creating the need for the transfer (potential bankruptcy, removal by a partner, etc.). A Development Owner seeking Executive Director approval of a transfer and the proposed transferee must provide to the Department a copy of any applicable agreement between the parties to the transfer, including any third-party agreement with the Department.

(2) A Development Owner seeking Executive Director approval of a transfer must provide the Department with documentation requested by the Department, including but not limited to, a list of the names of transferees and Related Parties; and detailed information describing the experience and financial capacity of transferees and related parties. All transfer requests must disclose the reason for the request. The Development Owner shall certify to the Executive Director that the tenants in the Development have been notified in writing of the transfer before the 30th day preceding the date of submission of the transfer request to the Department. Not later than the fifth working day after the date the Department receives all necessary information under this section, the Department shall conduct a qualifications review of a transferee to determine the transferee's past compliance with all aspects of the Housing Tax Credit Program, LURAs; and the sufficiency of the transferee's experience with Developments supported with Housing Credit Allocations. If the viable operation of the Development is deemed to be in jeopardy by the Department, the Department may authorize changes that were not contemplated in the Application.

(3) As it relates to the Credit Cap further described in §~~50~~49.6(d) of this chapter, the credit cap will not be applied in the following circumstances:

(A) In cases of transfers in which the syndicator, investor or limited partner is taking over ownership of the Development and not merely replacing the general partner; or

(B) In cases where the General Partner is being replaced if the award of credits was made at least five years prior to the transfer request date.

(f) **Sale of Certain Tax Credit Properties.** Consistent with §2306.6726, Texas Government Code, not later than two years before the expiration of the Compliance Period, a Development Owner who agreed to provide a right of first refusal under §2306.6725(b)(1), Texas Government Code and who intends to sell the property shall notify the Department of its intent to sell.

(1) The Development Owner shall notify Qualified Nonprofit Organizations and tenant organizations of the opportunity to purchase the Development. The Development Owner may:

(A) During the first six-month period after notifying the Department, negotiate or enter into a purchase agreement only with a Qualified Nonprofit Organization that is also a community housing development organization as defined by the Federal Home Investment Partnership Program (HOME);

(B) During the second six-month period after notifying the Department, negotiate or enter into a purchase agreement with any Qualified Nonprofit Organization or tenant organization; and

(C) During the year before the expiration of the compliance period, negotiate or enter into a purchase agreement with the Department or any Qualified Nonprofit Organization or tenant organization approved by the Department.

(2) Notwithstanding items for which points were received consistent with §~~50~~49.9(i) of this chapter, a Development Owner may sell the Development to any purchaser after the expiration of the compliance period if a Qualified Nonprofit Organization or tenant organization does not offer to purchase the Development at the minimum price provided by §42(i)(7), Internal Revenue Code of 1986 (26 U.S.C. §42(i)(7)), and the Department declines to purchase the Development.

(g) **Withdrawals.** An Applicant may withdraw an Application prior to receiving a Commitment Notice, Determination Notice, Carryover Allocation Document or Housing Credit Allocation, or may cancel a Commitment Notice or Determination Notice by submitting to the Department a notice, as applicable, of withdrawal or cancellation, and making any required statements as to the return of any tax credits allocated to the Development at issue.

(h) **Cancellations.** The Department may cancel a Commitment Notice, Determination Notice or Carryover Allocation prior to the issuance of IRS Form 8609 with respect to a Development if:

(1) The Applicant or the Development Owner, or the Development, as applicable, fails to meet any of the conditions of such Commitment Notice or Carryover Allocation or any of the undertakings and commitments made by the Development Owner in the Applications process for the Development;

(2) Any statement or representation made by the Development Owner or made with respect to the Development Owner or the Development is untrue or misleading;

(3) An event occurs with respect to the Applicant or the Development Owner which would have made the Development's Application ineligible for funding pursuant to §~~50~~49.5 of this chapter if such event had occurred prior to issuance of the Commitment Notice or Carryover Allocation; or

(4) The Applicant or the Development Owner or the Development, as applicable, fails to comply with these Rules or the procedures or requirements of the Department.

(i) **Alternative Dispute Resolution Policy.** In accordance with §2306.082, Texas Government Code, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at §1.17 of this title.

§~~50~~49.18. Compliance Monitoring and Material Noncompliance.

The Code, §42(m)(1)(B)(iii), requires the Department as the housing credit agency to include in its QAP a procedure that the Department will follow in monitoring Developments for compliance with the provisions of the Code, §42 and in notifying the IRS of any noncompliance of which the Department becomes aware. Detailed compliance rules and procedures for monitoring are set forth in Chapter 60 of this title.

§~~50~~49.19. Department Records; Application Log; IRS Filings.

(a) **Department Records.** At all times during each calendar year the Department shall maintain a record of the following:

(1) The cumulative amount of the State Housing Credit Ceiling that has been committed pursuant to Commitment Notices during such calendar year;

(2) The cumulative amount of the State Housing Credit Ceiling that has been committed pursuant to Carryover Allocation Documents during such calendar year;

(3) The cumulative amount of Housing Credit Allocations made during such calendar year; and

(4) The remaining unused portion of the State Housing Credit Ceiling for such calendar year.

(b) **Application Log.** (§2306.6702(a)(3) and §2306.6709) The Department shall maintain for each Application an Application Log that tracks the Application from the date of its submission. The Application Log will contain, at a minimum, the information identified in paragraphs (1) - (9) of this subsection.

(1) The names of the Applicant and all General Partners of the Development Owner, the owner contact name and phone number, and full contact information for all members of the Development Team;

(2) The name, physical location, and address of the Development, including the relevant Uniform State Service Region of the state;

(3) The number of Units and the amount of Housing Tax Credits requested for allocation by the Department to the Applicant;

(4) Any Set-Aside category under which the Application is filed;

(5) The requested and awarded score of the Application in each scoring category adopted by the Department under the Qualified Allocation Plan;

(6) Any decision made by the Department or Board regarding the Application, including the Department's decision regarding whether to underwrite the Application and the Board's decision regarding whether to allocate Housing Tax Credits to the Development;

(7) The names of individuals making the decisions described by paragraph (6) of this subsection, including the names of Department staff scoring and underwriting the Application, to be recorded next to the description of the applicable decision;

(8) The amount of Housing Tax Credits allocated to the Development; and

(9) A dated record and summary of any contact between the Department staff, the Board, and the Applicant or any Related Parties.

(c) **IRS Filings.** The Department shall mail to the Internal Revenue Service, not later than the 28th day of the second calendar month after the close of each calendar year during which the Department makes Housing Credit Allocations, a copy of each completed (as to Part I) IRS Form 8609, the original of which was mailed or delivered by the Department to a Development Owner during such calendar year, along with a single completed IRS Form 8610, Annual Low-income Housing Credit Agencies Report. When a Carryover Allocation is made by the Department, a copy of the Carryover Allocation Agreement will be mailed or faxed to the Development Owner by the Department. The original of the Carryover Allocation Document will be retained by the Department and IRS Form 8610 Schedule A will be filed by the Department with IRS Form 8610 for the year in which the allocation is made. The Department shall be authorized to vary from the requirements of this section to the extent required to adapt to changes in IRS requirements.

§~~50~~49.20. Program Fees; Refunds; Public Information Requests; Adjustments of Fees and Notification of Fees; Extensions; Penalties.

(a) **Timely Payment of Fees.** All fees must be paid as stated in this section, unless the Executive Director has granted a waiver for specific extenuating and extraordinary circumstances. To be eligible for a waiver, the Applicant must submit a request for a waiver no later than 10 business days prior to the deadlines as stated in this section. Any fees, as further described in this section, that are not timely paid will cause an Applicant to be ineligible to apply for tax credits and additional tax credits and ineligible to submit extension requests, ownership changes and Application amendments. Payments made by check, for which insufficient funds are available, may cause the Application, ~~c~~Commitment or ~~a~~Allocation to be terminated.

(b) **Pre-Application Fee.** Each Applicant that submits a Pre-Application shall submit to the Department, along with such Pre-Application, a non refundable Pre-Application fee, in the amount of $10 per Unit. Units for the calculation of the Pre-Application Fee include all Units within the Development, including tax credit, market rate and owner-occupied Units. Pre-Applications without the specified Pre-Application Fee in the form of a check will not be accepted. Pre-Applications in which a CHDO or Qualified Nonprofit Organization intends to serve as the managing General Partner of the Development Owner, or Control the managing General Partner of the Development Owner, will receive a discount of 10% off the calculated Pre-Application fee. (General Appropriation Act, Article VII, Rider 7; §2306.6716(d)). For Tax Exempt Bond Developments with the Department as the issuer, the Applicant shall submit the following fees: $1,000 (payable to TDHCA), $~~1,500~~2,000 (payable to Vinson & Elkins, Bond Counsel), and $5,000 (payable to the Texas Bond Review Board).

(c) **Application Fee.** Each Applicant that submits an Application shall submit to the Department, along with such Application, an Application fee. For Applicants having submitted a Pre-Application which met Pre-Application Threshold and for which a Pre-Application fee was paid, the Application fee will be $20 per Unit. For Applicants not having submitted a Pre-Application, the Application fee will be $30 per Unit. Units for the calculation of the Application Fee include all Units within the Development, including tax credit, market rate and owner-occupied Units. Applications without the specified Application Fee in the form of a check will not be accepted. Applications in which a CHDO or Qualified Nonprofit Organization intends to serve as he managing General Partner of the Development Owner, or Control the managing General Partner of the Development Owner, will receive a discount of 10% off the calculated Application fee. (General Appropriation Act, Article VII, Rider 7; §2306.6716(d)). For Tax Exempt Bond Developments with the Department as the Issuer the Applicant shall submit a tax credit application fee of $30 per unit and bond application fee of $10,000. For Tax-Exempt Bond Development refunding Applications, with the Department as the issuer, the Application Fee will be $10,000 unless the refunding is not required to have a TEFRA public hearing, in which case the fee will be $5,000. Those Applications utilizing a local issuer only need to submit the tax credit application fee.

(d) **Refunds of Pre-Application or Application Fees.** (§2306.6716(c)). Upon written request from the Applicant, the Department shall refund the balance of any fees collected for a Pre-Application or Application that is withdrawn by the Applicant or that is not fully processed by the Department. The amount of refund on Pre-Applications not fully processed by the Department will be commensurate with the level of review completed. Intake and data entry will constitute 50% of the review, and Threshold review prior to a deficiency issued will constitute 30% of the review. Deficiencies submitted and reviewed constitute 20% of the review. The amount of refund on Applications not fully processed by the Department will be commensurate with the level of review completed. Intake and data entry will constitute 20% of the review, the site visit will constitute 20% of the review, Eligibility and Selection review will constitute 20%, and Threshold review will constitute 20% of the review, and underwriting review will constitute 20%. The Department must provide the refund to the Applicant not later than the 30th day after the date of request.

(e) **Third Party Underwriting Fee.** Applicants will be notified in writing prior to the evaluation of a Development by an independent external underwriter in accordance with §~~50~~49.9(d)(6), (e)(3), and (f)(6) of this chapter if such a review is required. The fee must be received by the Department prior to the engagement of the underwriter. The fees paid by the Development Owner to the Department for the external underwriting will be credited against the commitment fee established in subsection (f) of this section, in the event that a Commitment Notice or Determination Notice is issued by the Department to the Development Owner.

(f) **Commitment or Determination Notice Fee.** Each Development Owner that receives a Commitment Notice or Determination Notice shall submit to the Department, not later than the expiration date on the Commitment or Determination notice, a ~~non-refundable c~~Commitment or Determination fee equal to 5% of the annual Housing Credit Allocation amount. The ~~c~~Commitment or Determination fee shall be paid by check. If a Development Owner of an Application awarded Competitive Housing Tax Credits has paid a Commitment Fee and returns the credits by November 1, ~~2008~~2009, the Development Owner ~~will~~may receive a refund of 50% of the Commitment Fee. If a Development Owner of an Application awarded Housing Tax Credits associated with Tax-Exempt Bonds has paid a Determination Fee and is not able close on the bond transaction within 90 days of the determination by the Board, the Development Owner may receive a refund of 50% of the Determination Fee. The Determination Fee will not be refundable after the 90 days of the issuance of the Determination Notice.

(g) **Compliance Monitoring Fee.** Upon receipt of the cost certification, the Department will invoice the Development Owner for compliance monitoring fees. The amount due will equal $40 per tax credit unit. The fee will be collected, retroactively if applicable, beginning with the first year of the credit period. The invoice must be paid prior to the issuance of form 8609. Subsequent anniversary dates on which the compliance monitoring fee payments are due shall be determined by the month the first building is placed in service. For Tax-Exempt Bond Developments with the Department as the issuer, the annual tax credit compliance fee will be paid annually in advance (for the duration of the compliance or affordability period) and is equal to $40/Unit beginning two years from the first payment date of the bonds; ~~the bond compliance fee is paid in advance (for as long as the bonds are outstanding) and is equal to $15/Unit beginning two years from the first payment date of the bonds;~~ the asset management fee is paid in advance and is equal to $25/Unit beginning two years from the first payment date. Compliance fees may be adjusted from time to time by the Department.

(h) **Building Inspection Fee.** The Building Inspection Fee must be paid at the time the Commitment Fee is paid. The Building Inspection Fee for all Developments is $750. Inspection fees in excess of $750 may be charged to the Development Owner not to exceed an additional $250 per Development.

(i) **Tax-Exempt Bond Credit Increase Request Fee.** As further described in §~~50~~49.12 of this chapter, requests for increases to the credit amounts to be issued on IRS Forms 8609 for Tax-Exempt Bond Developments must be submitted with a request fee equal to 5% of the amount of the credit increase for one year.

(j) **Public Information Requests.** Public information requests are processed by the Department in accordance with the provisions of the Government Code, Chapter 552. The Department uses the guidelines promulgated by The Texas Facilities Commission to determine the cost of copying, and other costs of production.

(k) **Periodic Adjustment of Fees by the Department and Notification of Fees.** (§2306.6716(b)). All fees charged by the Department in the administration of the tax credit program will be revised by the Department from time to time as necessary to ensure that such fees compensate the Department for its administrative costs and expenses. The Department shall publish each year an updated schedule of Application fees that specifies the amount to be charged at each stage of the Application process. Unless otherwise determined by the Department, all revised fees shall apply to all Applications in process and all Developments in operation at the time of such revisions.

(l) **Extension and Amendment Requests.**

(1) All extension requests relating to the ~~Commitment Notice,~~ Carryover, Documentation for 10% Test, Substantial Construction Commencement, Placed in Service or Cost Certification requirements ~~and amendment requests~~ shall be submitted to the Department in writing and be accompanied by a mandatory non-refundable extension fee in the form of a check in the amount of $2,500. Such requests must be submitted to the Department no later than the date for which an extension is being requested. All requests for extensions totaling less than 6 months may be approved by the Executive Director and are not required to have Board approval. For extensions that require Board approval, the extension request must be received by the Department at least 15 business days prior to the Board meeting where the extension will be considered. The extension request shall specify a requested extension date and the reason why such an extension is required. Carryover extension requests shall not request an extended deadline later than December 1st of the year the Commitment Notice was issued. The Department, in its sole discretion, may consider and grant such extension

requests for all items. If an extension is required at Cost Certification, the fee of $2,500 must be received by the Department to qualify for issuance of Forms 8609.

(2) Amendment requests must be submitted consistent with §~~50~~49.17(d) of this chapter. Amendment requests shall be submitted to the Department in writing and be accompanied by a mandatory non-refundable amendment fee in the form of a check in the amount of $2,500. The amendment request will not be considered received until the corresponding fee is received. The Board may waive related fees for good cause.

(m) **Penalties.** Development Owners who have more tax credits allocated to them than they can substantiate through Cost Certification will return those excess tax credits prior to issuance of 8609's. For Competitive Housing Tax Credit Developments, a penalty fee equal to the one year credit amount of the lost credits (10% of the total unused tax credit amount) will be required to be paid by the Owner prior to the issuance of form 8609's if the tax credits are not returned, and 8609's issued, within 180 days of the end of the first year of the credit period. This penalty fee may be waived without further Board action if the Department recaptures and re-issues the returned tax credits in accordance with §42, Internal Revenue Code.

§~~50~~49. 21.Manner and Place of Filing All Required Documentation.

(a) All Applications, letters, documents, or other papers filed with the Department must be received only between the hours of 8:00 a.m. and 5:00 p.m. on any day which is not a Saturday, Sunday or a holiday established by law for state employees.

(b) All notices, information, correspondence and other communications under this ~~title~~ chapter shall be deemed to be duly given if delivered or sent and effective in accordance with this subsection. Such correspondence must reference that the subject matter is pursuant to the Tax Credit Program and must be addressed to the Housing Tax Credit Program, Texas Department of Housing and Community Affairs, P.O. Box 13941, Austin, TX 78711-3941 or for hand delivery or courier to 221 East 11th Street, Austin, Texas 78701 or more current address of the Department as released on the Department's website. Every such correspondence required or contemplated by this ~~title~~ chapter to be given, delivered or sent by any party may be delivered in person or may be sent by courier, telecopy, express mail, telex, telegraph or postage prepaid certified or registered air mail (or its equivalent under the laws of the country where mailed), addressed to the party for whom it is intended, at the address specified in this subsection. Regardless of method of delivery, documents must be received by the Department no later than 5:00 p.m. for the given deadline date. Notice by courier, express mail, certified mail, or registered mail will be considered received on the date it is officially recorded as delivered by return receipt or equivalent. Notice by telex or telegraph will be deemed given at the time it is recorded by the carrier in the ordinary course of business as having been delivered, but in any event not later than one business day after dispatch. Notice not given in writing will be effective only if acknowledged in writing by a duly authorized officer of the Department.

(c) If required by the Department, Development Owners must comply with all requirements to use the Department's web site to provide necessary data to the Department.

§~~50~~49.22. Waiver and Amendment of Rules.

(a) The Board, in its discretion, may waive any one or more of these Rules if the Board finds that waiver is appropriate to fulfill the purposes or policies of Chapter 2306, Texas Government Code, or for other good cause, as determined by the Board.

(b) Section 1.13 of this title may be waived for any person seeking any action by filing a request with the Board.

(c) The Department may amend this chapter and the Rules contained herein at any time in accordance with the Government Code, Chapter 2001.

§~~50~~49.23. Deadlines for Allocation of Housing Tax Credits. (§2306.6724)

(a) Not later than September 30 of each year, the Department shall prepare and submit to the Board for adoption the draft QAP required by federal law for use by the Department in setting criteria and priorities for the allocation of tax credits under the Housing Tax Credit program.

(b) The Board shall adopt and submit to the Governor the QAP not later than November 15 of each year.

(c) The Governor shall approve, reject, or modify and approve the QAP not later than December 1 of each year. (§2306.67022) (§42(m)(1))

(d) The Board shall annually adopt a manual, corresponding to the QAP, to provide information on how to apply for Housing Tax Credits.

(e) Applications for Housing Tax Credits to be issued a Commitment Notice during the Application Round in a calendar year must be submitted to the Department not later than March 1.

(f) The Board shall review the recommendations of Department staff regarding Applications and shall issue a list of approved Applications each year in accordance with the Qualified Allocation Plan not later than June 30.

(g) The Board shall approve final commitments for allocations of Housing Tax Credits each year in accordance with the Qualified Allocation Plan not later than July 31, unless unforeseen circumstances prohibit action by that date. In any event, the Board shall approve final commitments for allocations of Housing Tax Credits each year in accordance with the Qualified Allocation Plan not later than September 30. Department staff will subsequently issue Commitment Notices based on the Board's approval. Final commitments may be conditioned on various factors approved by the Board, including resolution of contested matters in litigation.

BOARD ACTION REQUEST

November 13, 2008

Action Items

Presentation, Discussion and Possible Action on the publication in the *Texas Register* of a notice of proposed amendments to Title 10, Part 1 of the Texas Administrative Code, §60 concerning the Compliance Monitoring Rules.

Required Action

Approve, reject or approve with modifications publication of the proposed amendment of 10 TAC Chapter 60 Subchapter A for comment in the *Texas Register.*

Background

The draft Compliance Monitoring Rules presented today include changes resulting from HR 3221 and the Internal Revenue Service final Treasury Regulation 1.42-10 regarding utility allowances released on July 29, 2008. In addition, the draft rules reflect staff input and input from the public received at roundtables held on June 25, 2008, July 28, 2008 and October 8, 2008. Some significant changes to the draft rules include:

Throughout the rule all references to the Federal Deposit Insurance Corporation's (FDIC) Affordable Housing Program rules have been eliminated. The Department terminated the agreement to monitor on behalf of the FDIC effective September 1, 2008.

The definition of Substantial Construction in §60.102 has been amended in response to public input. The new definition is as follows:

"The minimum activity necessary to meet the requirements of substantial construction for new construction Developments will be defined as 1) completion of the clubhouse (if applicable), 2) having all permits, 3) all grading completed, 4) all utility distribution completed, 5) all Right of Way access and one of the following: 100% of the foundations in place and 50% of the framing completed OR 25% of all residential buildings dried in."

Substantial changes have been made to §60.109 to make the Compliance Monitoring Rules consistent with the new Treasury Regulation 1.42-10. The new regulation does not allow utilities paid to or through the owner of the building to be included in the utility allowance estimate. Utilities paid to the owner of the building or to a third party billing company must be treated as a mandatory fee. Rent, plus mandatory fees, plus an allowance for utilities paid by a resident directly to a utility provider must be less than the allowable limit. The draft rules also reflect the additional options provided by the new regulation: The HUD Utility Model Schedule, and an energy

energy consumption model.

Substantial changes have been made to §60.111. HR 3221 eliminated the requirement to perform annual recertifications of household income on 100% low-income projects. However, the rules regarding student status remain in effect. In addition, HR 3221 created a requirement for State Housing Finance Agencies to report certain information to HUD on an annual basis. §60.111 has been amended to create procedures and rules for implementing these changes. The rules to be followed regarding additional rent and occupancy restrictions have also been modified to adapt to the elimination of recertifications. The draft rules allow a household to maintain their designation from the time of move in, regardless of increases in income, provided that the owners keep the rent appropriately restricted.

More detail has been added to §60.112 and §60.114. Staff reports that failure to perform affirmative marketing and failure to provide social services are common findings from onsite monitoring visits. More detail has been added to these sections to help owners comply.

Minor changes have been made to §60.116. Staff suggests that the evaluation of the Uniform Physical Condition Standards Inspection report should take into consideration if 20% or more of the *violations noted* were level two or three violations rather than determining if 20% of the *units inspected* had a level two or three violation. A review of reports indicates that this is a more meaningful way to measure the level of compliance.

The IRS 8823 Audit Guide restricts the amount of the application fee that owners may charge prospective residents. Staff frequently cites this as a finding of noncompliance and owners have been misinformed or unclear about the program requirements. Changes have been made to §60.118 in an attempt to alleviate confusion.

Staff suggests that §60.122 be amended to require HTC Owners to correct all noncompliance before the subject development will receive its 8609s.

Other minor changes are not noted here but included in the rule.

Recommendation

Approve the publication of the draft Compliance Monitoring Rules for publication in the *Texas Register*.

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 60 COMPLIANCE ADMINISTRATION
SUBCHAPTER A COMPLIANCE MONITORING

§60.101 Purpose and Overview

(a) This rule satisfies the requirement of §42(m)(1)(B)(iii) Internal Revenue Code (Code) to provide a procedure that will be followed for monitoring for noncompliance with the provisions of the Code and to notify the Internal Revenue Service of such noncompliance. The Department monitors rental Developments [~~developments~~] receiving assistance under:
(1) the Housing Tax Credit program (HTC);
(2) the HOME Investment Partnerships program (HOME);
(3) the Tax Exempt Bond program (BOND);
(4) the Housing Trust Fund program (HTF); and
(5) the Community Development Block Grant Disaster Recovery Program (CDBG)[~~; and~~]
[~~(6) the Federal Deposit Insurance Corporation's Affordable Housing Program (AHP) (formerly the Resolution Trust Corporation's Affordable Housing Disposition Program).~~]

(b) All properties monitored by the Department are subject to the Department's enforcement rules, found in Subchapter C of this chapter.

(c) Compliance monitoring begins with the commencement of construction and continues to the end of the long term Affordability Period. The Portfolio Management and Compliance Division (PMC) monitors to ensure Owners [~~owners~~] comply with the program rules and regulations, Chapter 2306, Texas Government Code, the Land Use Restriction Agreement (LURA) requirements and conditions, and representations imposed by the Application or award of funds by the Department. These rules do not address forms and other records that may be required of Development Owners by the Internal Revenue Service (IRS) or other governmental entities [~~more generally~~], whether for purposes of filing annual returns or supporting Development Owner tax positions during an IRS or other governmental audit.

§60.102 Definitions

The following words and terms, when used in this subchapter, shall have the following meanings, unless the context clearly indicates otherwise.

(1) Affordability Period--The Affordability Period commences as specified in the Land Use Restriction Agreement (LURA)[~~,~~] or federal regulation, or commences on the first day of the Compliance Period as defined by §42(i)(1) of the Internal Revenue Code (IRC) and continues through the appropriate program's affordability requirements or termination of the LURA, whichever is earlier [~~later~~]. The term of the Affordability Period shall be imposed by the LURA or other deed restriction and may be terminated upon foreclosure. The Department reserves the right to extend the Affordability Period for HOME properties that fail to meet program requirements. During [~~this~~] the Affordability Period [~~period~~] the Department shall monitor to ensure compliance with programmatic rules, regulations, and Application representations.

(2) Application--An Application, in the form prescribed by the Department, filed with the Department by an Applicant, including any exhibits or other supporting material. (§2306.6702)

(3) Architect of Record--The architect licensed in the jurisdiction that the project is located in, who prepares, stamps and signs the construction documents, and is legally recorded as the architect for the project.

(4) Board--The governing Board of the Texas Department of Housing and Community Affairs.

(5) Code--The U.S. Internal Revenue Code of 1986, as amended from time-to-time, together with any applicable regulations, rules, rulings, revenue procedures, information statements or other official pronouncements issued by the United States Department of the Treasury or the Internal Revenue Service.

(6) Compliance Period--With respect to a Housing Tax Credit building, the period of 15 taxable years, beginning with the first year of the Credit Period, pursuant to the Code §42(i)(1).

(7) Continuously Occupied--The same household has resided in the Unit for at least 12 months.

(8) Credit Period--With respect to a Housing Tax Credit building, the period of 10 taxable years, beginning with the taxable year the building is placed in service or at the election of the Development Owner, the succeeding taxable year, as more fully defined in the Code §42(f)(1).

(9) Department--The Texas Department of Housing and Community Affairs, an official and public agency of the State of Texas pursuant to Chapter 2306, Texas Government Code.

(10) Development--A property or work or a project, building, structure, facility, or undertaking, whether existing, new construction, remodeling, improvement, or rehabilitation, that meets or is designed to meet minimum property standards required by the Department and that is financed under the provisions of Chapter 2306, Texas Government Code.

(11) Extended Use Period--With respect to a Housing Tax Credit building, the period beginning on the first day of the Compliance Period and ending the later of:

(A) the date specified in the Land Use Restriction Agreement, or

(B) the date which is 15 years after the close of the Compliance Period.

(12) Historically Underutilized Business (HUB)--Any entity defined as a historically underutilized business with its principal place of business in the State of Texas in accordance with Chapter 2161, Texas Government Code.

(13) Housing Quality Standards--The property condition standards described in 24 Code of Federal Regulations §982.401.

[~~(14) Housing Sponsor--Sometimes referred to as "Development Owner." An individual, joint venture, partnership, limited partnership, trust, firm, corporation, limited liability company, other form of business organization or cooperative that is approved by the Department as qualified to own, construct, acquire, rehabilitate, operate, manage, or maintain a housing Development, subject to the regulatory powers of the Department and other terms and conditions.~~]

(14)(~~15~~) HTC Development--Sometimes referred to as "HTC Property." A Development using Housing Tax Credits allocated by the Department.

(15) HUD -- The United States Department of Housing and Urban Development.

(16) HUD-regulated Building--The rents and utility allowances of the building are reviewed by HUD on an annual basis.

(17) Low Income Unit--A Unit that is intended for occupancy by an income eligible household, as defined by the Department or the Code.

(18) Land Use Restriction Agreement or LURA--An agreement between the Department and the Development Owner which is a binding covenant upon the Development Owner's successors in interest that encumbers the Development with respect to the requirements of Chapter 2306[~~,~~]Texas Government Code,[~~;~~] the Code,[~~;~~] and the requirements of the various programs administered or funded by the Department.

(19) Material Noncompliance--

(A) A Housing Tax Credit Development located within the state of Texas will be classified by the Department as being in Material Noncompliance status if the noncompliance score for such Development is equal to or exceeds a threshold of 30 points in accordance with the Material Noncompliance provisions, methodology, and point system of this title.

(B) Non HTC Developments monitored by the Department with 1 to 50 Low Income Units will be classified as being in Material Noncompliance status if the noncompliance score is equal to or exceeds a threshold of 30 points. Non HTC Developments monitored by the Department with 51 to 200 Low Income Units will be classified as being in Material Noncompliance status if the noncompliance score is equal to or exceeds a threshold of 50 points. Non HTC Developments monitored by the Department with 201 or more Low Income Units will be classified as being in Material Noncompliance status if the noncompliance score is equal to or exceeds a threshold of 80 points.

(C) For all programs, a Development will be in Material Noncompliance if the noncompliance is stated in §60.121 of this chapter to be Material Noncompliance.

(20) Non HTC Development--Sometimes referred to as Non HTC Property. Any Development not utilizing Housing Tax Credits.

(21) Substantial Construction--

(A) The minimum activity necessary to meet the requirements of substantial construction for new construction Developments will be defined as 1) completion of the clubhouse (if applicable), 2) having all permits, 3) all grading completed, 4) all utility distribution completed, 5) all Right of Way access and one of the following: 100% of the foundations in place and 50% of the framing completed OR 25% of all residential buildings dried in.

~~1) having building permits, 2) the foundation of all residential buildings and the clubhouse in place 3) 50% of the framing completed and 4) at least 20% of the construction contract amount for the Development expended, adjusted for any change orders, as certified by the inspecting architect.~~]

(B) The minimum activity necessary to meet the requirement of Commencement of Substantial Construction for rehabilitation Developments will be defined as having 1) building permits issued or a clearance from the City stating that building permits are not required, 2) a certification that there are no reasonably foreseeable issues or circumstances which may prevent or delay the start and progress of construction or the timely successful completion of rehabilitation and 3) at least 20% of the construction budget expended as documented by the inspecting architect.

(22) Unit--Any residential rental Unit in a Development consisting of an accommodation, including a single room used as an accommodation on a non-transient basis that contains complete physical facilities and fixtures for living, sleeping, eating, cooking, and sanitation.

(23) Unit Type--Units will be considered different Unit Types if there is any variation in the number of bedroom, bathrooms or a square footage difference equal to or more than 120 square feet. *Example 101(1)*: A [.~~For example,~~] [~~a~~] two bedroom one bath Unit is considered a different Unit Type than a two bedroom two bath Unit. A three bedroom two bath Unit with 1,000 square feet is considered a different Unit Type than a three bedroom two bath Unit with 1,200 square feet. A one bedroom one bath Unit with 700 square feet will be considered equivalent to a one bedroom, one bath Unit with 800 square feet.

(24) UPCS--Uniform Physical Condition Standards as developed by the Real Estate Assessment Center of the Department of Housing and Urban Development.

§60.103 Construction Monitoring

(a) The Department will monitor the entire construction phase for all applicable requirements according to the level of risk. After Final [~~final~~] Construction during the Affordability Period [~~affordability period~~], the Department [~~department~~] will periodically monitor the Development [~~development~~] to assure that the initial compliance review was correct.

(b) The Department will not provide any funding to any Development unless the Owner [~~owner~~] certifies that the housing Development is, or will be upon completion of construction, in compliance with the following housing laws:

(1) state and federal fair housing laws, including Chapter 301, Property Code, the Texas Fair Housing Act, Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601, et seq.), and the Fair Housing Amendments of 1988 (42 U.S.C. §§3601, et seq.);

(2) the Civil Rights Act of 1964 (42 U.S.C. §§2000a, et seq.);

(3) the Americans with Disabilities Act of 1990 (42 U.S.C. §§12101, et seq.); and

(4) Section 504, Rehabilitation Act of 1973 (29 U.S.C. §§701, et seq.). (§2306.257)

(c) Evidence of Commencement of Substantial Construction must be submitted no later than the deadline established in the Development's Commitment Notice. Four percent BOND properties are not required to submit evidence of Substantial Construction.

(d) Copies of any construction reports supplied to a syndicator must be supplied to the Department upon request.

(e) Copies of any reports issued during construction that indicate changes that affect the representations made during the Application [~~application~~] process must be supplied to the Department upon request.

(f) Owners are required to submit evidence of construction completion within thirty days of completion in a format prescribed by the Department. In addition, the Architect of Record must submit a certification that the Development [~~property~~] was built in compliance with all applicable laws.

(g) The Department will conduct a final inspection after receipt of notification of construction completion. During the inspection, the Department will confirm that committed amenities have been provided and will inspect for compliance with the applicable laws referenced in subsection (b) of this section. In addition, a UPCS inspection may be completed.

(h) Owners will be provided a written notice after the final inspection. If any deficiencies are noted, a 90 day corrective action period will be provided.

(i) Forms 8609 and final retainage will not be released until the Owner [~~owner~~] receives written notice from the Department that all noted deficiencies have been resolved.

(j) During any construction inspection, if the Owner [~~owner~~] and the Department are unable to agree that an identified issue is a violation, the Owner [~~owner~~] must request Alternative Dispute Resolution. The process for engaging ADR is outlined in §60.123 of this chapter.

§60.104 Recording of Land Use Restriction Agreements (HTC Properties)

(a) In general, no credit is allowable for a building unless there is a properly executed LURA in effect at the end of the first year of the Credit Period [~~credit period~~]. A draft of the proposed [~~Requests for a~~] LURA must be provided no later than September 1st of the calendar year in which the Owner [~~owner~~] intends to have it recorded. The Department cannot guarantee that a draft [~~A request for a~~] LURA received after September 1st will be processed in the same calendar year. [~~may not be able to be processed by the Department in the same calendar year.~~]

(b) LURAs [~~Land Use Restriction Agreements~~] will impose the rent and income restrictions identified in the Development's [~~property's~~] final underwriting report.

(c) The Department will not issue Forms 8609 until it receives the original, properly recorded LURA.

§60.105 Reporting Requirements

(a) The Department requires reports to be submitted electronically through the Department's web-based Compliance Monitoring and Tracking System (CMTS) and in the format prescribed by the Department. The Electronic Compliance Reporting Filing Agreement and the Owner's Designation of Administrator of Accounts forms must be filed no later than September 1st of the year following the award. The Department will provide general instruction regarding the electronic transfer of data. Under special circumstances, the Department may, at its discretion, waive the online reporting requirements where a hardship can be demonstrated. In the absence of a written waiver, all Developments are required to submit reports online.

(b) Each Development is required to submit an Annual Owner's Compliance Report (AOCR). Depending on the property, some or all of the Report must be submitted. The first AOCR is due the second year following the award. For example, if a Development is awarded funds in calendar year 2007, the first report is due in 2009. The AOCR is comprised of 4 sections:

(1) Part A "Owner's Certification of Program Compliance." All Development Owners must annually certify to compliance with applicable program requirements. The AOCR Part A shall include answers to all questions required by Treasury Regulation 1.42-5(b)(1) or the applicable program rules. In addition, Owners [~~owners~~] [~~,with the exception of the FDIC's Affordable Housing Program properties,~~]are required to report on the race [~~racial~~] and ethnicity, [~~ethnic composition~~] family composition, age, income, use of rental assistance, disability status, and monthly rental payments of individuals and families applying for and receiving assistance. HTC [~~Housing Tax Credit~~] properties during the Compliance Period will also be required to provide the name and mailing address of the syndicator in the Annual Owner's Compliance Report.

(2) Part B "Unit Status Report." All Developments must annually report the information related to individual household income, rent, certification dates and other necessary data to ensure compliance with applicable program regulations.

(3) Part C "Housing for Persons with Disabilities." The Department must establish a system that requires Owners [~~owners~~] of state or federally assisted housing Developments with 20 or more housing Units to report information regarding housing Units designed for persons with disabilities. The questions on Part C satisfy this requirement. [~~The FDIC's Affordable Housing Properties are not required to submit Part C of the Annual Owner's Compliance Report.~~]

(4) Part D "Owner's Financial Certification." Developments funded by the Department must annually provide the data requested in the Owner's Financial Certification. [~~The FDIC's Affordable Housing Properties are not required to submit Part D of the Annual Owner's Compliance Report.~~]

(c) Parts A, B and C of the Annual Owner's Compliance Report must be provided to the Department no later than March 1st of each year, reporting data current as of December 31 of the previous year (the reporting year). Part D, "Owner's Financial Certification", which includes the current audited financial statements and income and expenses of the Development for the prior year, must be submitted to the Department no later than the last day of April each year.

(d) Any Development for which the AOCR, Part A, "Owner's Certification of Program Compliance," is not received or is received past the due date will be considered not in compliance with these rules. If Part A is incomplete, improperly completed, or is not submitted by the Development Owner, it will be considered not received and not in compliance with these rules. The Department will report to the IRS on Form [~~form~~] 8823, Low-Income Housing Credit Agencies Report of Noncompliance or Building Disposition, any HTC Development that fails to comply with this requirement.

(e) Department staff will review Part A of the AOCR for compliance with the requirements of the appropriate program. If it appears that the Development [~~property~~] is not in compliance based upon the report, the Owner [~~owner~~] will be given written notice and provided a corrective action period to clarify or correct the report. If the Owner [~~owner~~] does not respond to the notice, the report will be subject to the sanctions listed in subsections (f) and (g) of this section.

(f) If any required section, or sections (Parts A, B, C or D), of the report are not received on or before the deadline for submission specified in subsection (c) of this section, a notice of noncompliance will be sent to the Owner [~~owner~~], specifying a corrective action deadline. If the report is not received on or before the corrective action deadline, the Department shall:

(1) For all HTC properties, issue Form [~~form~~] 8823 notifying the Internal Revenue Service of the violation.

(2) For all properties, score the noncompliance in accordance with §60.121 of this chapter.

(g) The Department may assess and enforce the following sanctions against an Owner [~~a Housing Sponsor~~] who fails to submit the AOCR on or before March 1 of each year. These sanctions will be assessed for multiple, consistent, and/or repeated violations of failure to submit the AOCR by March 1 of each year:[~~.~~]

(1) A [~~Impose a~~] late processing fee in an amount equal to $1,000;

(2) An HTC Development that fails to submit the required AOCR for three consecutive years [~~in a row~~] may be reported to the Internal Revenue Service as no longer in compliance and never expected to comply.

(h) Periodic Unit Status Reports. HOME, Housing Trust Fund, [~~the FDIC's Affordable Housing Properties~~] and properties funded under the Department's CDBG Disaster Recovery Program[~~,~~]shall provide tenant information provided on Part B, "Unit Status Report," at least quarterly during lease up and until occupancy requirements are achieved. Once the Department determines that all occupancy requirements are met, the Development shall submit the Unit Status Report at least annually and as required by this section.

(i) Developments financed by Tax Exempt Bonds issued by the Department shall report quarterly throughout the Qualified Project Period unless notified by the Department of a change in the reporting frequency.

(j) Owners are encouraged to continuously maintain current resident data in the Department's Compliance Monitoring and Tracking System. Under certain circumstances, such as in the event of a natural disaster, the Department may require all Developments to provide current occupancy data through CMTS [~~the Department's Compliance Monitoring and Tracking System~~].

(k) All rental Developments funded or administered by the Department will be required to submit a current Unit Status Report prior to an onsite monitoring visit.

§60.106 Record Keeping Requirements

(a) Development Owners must comply with program recordkeeping requirements. Records must include sufficient information to comply with the reporting requirements of §60.105 of this chapter and any additional programmatic requirements. HTC Development Owners [~~Housing tax credit property owners~~] must retain records sufficient to comply with the reporting requirements of Treasury Regulation 1.42-5(b)(1). Records must be kept for each qualified Low Income [~~low income rental~~] Unit and building in the Development, commencing with lease up activities and continuing on a monthly basis until the end of the Affordability Period.

(b) Each Development that is administered by the Department [~~including the FDIC's AHPis required to~~] must retain [~~the~~] records as required by the specific funding program rules and regulations. In general, retention schedules include but are not limited to the provision of subsections (c) - (f) of this section.
(c) HTC records must be retained for at least six years after the due date (with extensions) for filing the federal income tax return for that year; however, the records for the first year of the Credit Period must be retained for at least six years beyond the due date (with extensions) for filing the federal income tax return for the last year of the Compliance Period of the building[~~.~~] (§1.42-5(b)(2) of the Code).
(d) Retention of records for HOME rental Developments and the CDBG Disaster Recovery program must comply with the provisions of 24 CFR §92.508(c), which generally requires retention of rental housing records for five years after the Affordability Period terminates.
(e) Housing Trust Fund (HTF) rental Developments must retain tenant files for at least three years beyond the date the tenant moves from the Development. Records pertinent to the funding of the award, including but not limited to the Application, Development [~~development~~] costs and documentation, must be retained for at least five years after the Affordability Period terminates.
(f) Other rental Developments funded or administered in whole or in part by the Department must comply with record retention requirements as required by rule or deed restriction.

§60.107 Notices to the Department

(a) If any of the events in paragraphs (1) - (3) of this subsection occur, written notice must be provided to the Department within the timeframes as follows:
(1) Any sale, transfer, exchange, of the Development or any portion of the Development. Notification must be provided at least 30 days prior to this event.
(2) The Development suffers in whole or in part a casualty loss. Notification must be provided within 30 days following the event of loss using the Department's Notice of Casualty Loss (for general casualty losses) or Notice of Disaster Casualty Loss (specific to loss as a result of a Presidentially Declared Disaster).
(3) Owners of [~~Tax-Exempt~~] Bond Developments shall notify the Department of the date 10 percent of the Units are occupied and the date 50 percent of the Units are occupied within 90 days of such dates.
(b) Owners are responsible for maintaining current information (including contact persons, physical addresses, mailing addresses, email addresses, and phone numbers) for the Ownership [~~ownership~~] entity[~~,~~] and management company in the Department's Compliance Monitoring and Tracking System (CMTS). Treasury Regulations require the Department to notify Housing Tax Credit Owners [~~owners~~] of upcoming reviews and instances of noncompliance. The Department will rely on the information supplied by the Owner in CMTS [~~owner-supplied information in CMTS~~] to meet this requirement.

§60.108 Determination, Documentation and Certification of Annual Income

(a) For all programs administered by the Department, annual income shall be determined consistent with the Section [~~§~~]8 program, using the definitions of annual income described in HUD Handbook 4350.3 as amended from time to time. At the time of program designation as a low income household, owners must certify and document household income. In general, all low income households must be certified prior to move in.
(b) The Department permits Owners [~~owners~~] to use check stubs or other documentation of income and assets provided by the applicant or household in lieu of employment verification

forms. It is not necessary to first attempt to obtain an employment verification form as required by the HUD 4350.3.

(c) The Department requires the use of the TDHCA Income Certification form, unless the property also participates in the Rural Development or a project Based HUD program, in which case, the other program's income certification form will be accepted.

§60.109 Utility Allowances

(a) The Department will monitor to determine if HTC, BOND [~~Bond~~], CDBG, HOME, and HTF properties comply with published rent limits which include an allowance for tenant paid utilities. For HTC buildings, if the residents pay utilities directly to the owner of the building or to a third party billing company, this monthly amount will be considered a mandatory fee. The rent, plus all mandatory fees, plus an allowance for those utilities paid by the resident directly to a utility provider must be less than the allowable limit. For Non-HTC buildings, owners may account for utilities paid directly to the owner or to a third party billing company in their utility allowance. Where residents are responsible for some, or all, of the utilities--other than telephone, [~~and~~] cable, and internet--Development Owners must use a utility allowance that complies with both this section and the applicable program regulations. An Owner [~~owner~~] may not change utility allowance methods without [~~the~~] written approval from the Department. Any such request must include the Utility Allowance Questionnaire found on the Department's website.

(b) Rural Housing Service (RHS) Buildings or buildings with RHS assisted tenants. [~~Farmer's Home Administration (FmHA) Buildings or buildings with FmHA assisted tenants layered with any Department program~~]. The applicable utility allowance for the Development will be determined under the method prescribed by the Rural Housing Service [~~Farmer's Home Administration~~] (or successor agency). No other utility method described in this section can be used by RHS buildings or buildings with RHS assisted tenants.

(c) HUD-Regulated Buildings [~~buildings~~] layered with any Department program. If neither the building nor any tenant in the building receives RHS [~~FmHA~~] rental assistance payment, and the rents and the utility allowances of the building are reviewed by HUD on an annual basis (HUD-regulated Building [~~building~~]), the applicable utility allowance for all rent restricted units in the building is the applicable HUD utility allowance. No other utility method described in this section can be used by HUD-regulated buildings.

(d) Other Buildings. For all other rent-restricted Units, Development Owners must use one of the following methods:

(1) The utility allowance established by the applicable Public Housing Authority (PHA). The Department will utilize Texas Local Government Code Chapter 392 to determine which PHA is the most applicable to the Development. If the applicable PHA allowance lists flat fees for any utility, those flat fees must be included in the calculation of the utility allowance if the resident is responsible for that utility.

(A) If an Owner chooses to implement a methodology as described in paragraphs (2), (3), (4), or (5) of this subsection, for units occupied by Section 8 voucher holders, the utility allowance remains the applicable PHA utility allowance established by the PHA from which the household's voucher is received.

(2) A written estimate from a local utility provider. If there are multiple utility companies that service the Development, the local provider must be a residential utility company that offers service to the residents of the Development requesting the methodology. The Department will use the Texas Electric Choice website: http://www.powertochoose.org/_content/_compare/compare.aspx to verify the availability of service. If the utility company is not listed as a provider in the Development's ZIP code, the

request will be denied. Additionally, the estimate must specifically include all "component deregulated charges" for providing the utility service.[~~, or~~]

(3) The HUD Utility Model Schedule. A utility estimate can be calculated by using the "HUD Utility Model Schedule" that can be found at http://www.huduser.org/datasets/lihtc/html (or successor URL). The rates used must be no older than the rates in effect 60 days prior to the beginning of the 90 day period in which the Owner intends to implement the allowance. For Owners calculating a utility allowance under this methodology, the model, along with all back-up documentation used in the model, must be submitted to the Department, on a CD, within the timeline described in subsection (f) of this section.

(4) An energy consumption model. The utility consumption estimate must be calculated by a properly licensed mechanical engineer or an individual holding a valid Residential Energy Service Network (RESNET) or Certified Energy Manager (CEM) certification. The individual must not be related to the Owner within the meaning of section 267(b) or 707(b) of the Code. The utility consumption estimate must, at minimum, take into consideration specific factors that include, but are not limited to, unit size, building orientation, design and materials, mechanical systems, appliances, and characteristics of building location, or

(5)[~~(3)~~] An allowance based upon an average of the actual use of similarly constructed and sized Units [~~units~~] in the building using actual utility usage data and rates, provided that the Development Owner has the written permission of the Department. This methodology is referred to as the "Actual Use Method."

(e) For a Development Owner [~~development owner~~] to use the Actual Use Method they must:

(1) provide a minimum sample size of usage data for at least 5 Continuously Occupied Units [~~continuously occupied units~~] of each Unit Type or 20% of each Unit Type whichever is greater. *Example 109(1):* A Development [~~property~~] has 20 three bedroom one bath Units and 80 three bedroom two bath Units. Each bedroom/bathroom equivalent Unit is within 120 square feet of the same floor area. Data [~~data~~] must be supplied for at least 5 of the three bedroom one bath Units and 16 of the three bedroom two bath Units. If there are less than 5 Units [~~units~~] of any Unit Type, data for 100% of the Unit Type must be provided.

(2) the following information must be scanned onto a CD and submitted to the Department no later than the beginning of the 90 day period in which the Owner intends to implement the allowance, reflecting data no older than 60 days prior to the 90 day implementation period. *Example 109(2):* The utility provider releases the information regarding electric usage at Westover Townhomes of February 5, 2009. The data provided is from February 1, 2008 through January 31, 2009. The Owner must submit the information to the Department no later than March 31, 2009 for the information to be valid. [~~within 45 days of receipt of the data from the utility provider:~~]

(A) An Excel spreadsheet listing each unit for which data was obtained to meet the minimum sample size requirement of a Unit Type, [~~every unit on the property,~~] the number of bedrooms, bathrooms and square footage for each Unit, the household's move in date, [~~and~~] the actual kilowatt usage, [~~billing history by month~~] for each Unit [~~unit~~],for which data was obtained, and the rates in place at the time of the submission.

(B) A copy of the request to the utility provider (or billing entity for the utility provider) to provide usage data.

(C) All documentation obtained from the utility provider (or billing entity for the utility provider) and/or copies of actual utility bills gathered from the residents, including all usage data not needed to meet the minimum sample size requirement and any written correspondence from the utility provider.

(D) The rent roll showing occupancy as of the end of the month for the month in which the data was requested from the utility provider.

(E) Documentation of the current utility allowance used by the Development.

(3) Upon receipt of the required information, the Department will determine if the Development Owner has provided the minimum information necessary to calculate an allowance using the Actual Use Method. If so, the Department shall calculate the utility allowance for each bedroom size using the following guidelines:

(A) If data is obtained for more than 20% or 5 of each Unit Type, all data will be used to calculate the allowance.

(B) If more than 12 months of data is provided for any Unit [~~unit~~], only the data for the most current 12 months will be averaged.

(C) The allowance will be calculated by multiplying the average units of measure for the applicable utility (i.e. kilowatts over the last 12 months by the current rate) [~~averaging the utility costs~~] for all Unit Types within that bedroom size. For example, if sufficient data is supplied for 18 two bedroom one baths and 12 two bedroom two baths, the data for all 30 Units [~~units~~] will be averaged to calculate the allowance for all two bedroom Units.

(D) The allowance will be rounded up to the next whole dollar amount.

(E) If the data submitted indicates 0 (zero) usage for any month, the data for that unit will not be used to calculate the Utility Allowance.

(4) The Department will complete its evaluation and calculation within 90 [~~30~~] days of receipt of all the information requested in paragraph (2) of this subsection. [~~If the allowance increases, owners must implement the allowance for all rent restricted Units within 90 days of the effective date. The effective date of the new utility allowances is the date of the notice to the owner establishing the new utility allowances computed under this subsection. The allowance calculated using the Actual Use Method will be valid for twelve months.~~]

(5) For newly constructed Developments or Developments that have units which have not been continuously occupied, the Department, on a case by case basis, may use consumption data for units of similar size and construction in the geographic area to calculate the utility allowance. [~~Once the Actual Use Method is approved for use by the Department, the Development Owner must continue to provide the data listed in paragraph (2) of this subsection on an annual basis. The data must be supplied to the Department within 60 days of the expiration of the previous years' allowance. If the owner is unable to obtain the necessary billing histories from the utility provider in subsequent years, the owner must request permission to change utility allowance methods.~~]

(f) Effective dates. If the Owner uses the methodologies as described in subsections (b), (c), or (d)(1) of this section, any changes to the allowance can be implemented immediately, but must be implemented for rent due 90 days after the change. For methodologies as described in paragraphs (d)(2), (d)(3), (d)(4), or (d)(5) of this section, the allowance cannot be implemented until the estimate is submitted to the Department and is made available to the residents by posting in a common area of the leasing office at the Development. This action must be taken by the beginning of the 90 day period in which the Owner intends to implement the utility allowance. With the exception of the methodology described in paragraph (d)(5) of this section, if a response is not received by the Department within the 90 day period, the Owner may temporarily use the submission as a safe harbor until the Department provides written authorization (the Owner cannot assume that the allowance is approved by the Department but can operate in good faith prior to notification). Failure to submit the proposed utility allowance to the Department and make it available to the residents will result in a finding of noncompliance.

(g) Requirements for Annual Review. Owners utilizing the methods described in paragraphs d(2), d(3), d(4) or d(5) of this section must once a calendar year submit copies of the utility estimate to the Department and simultaneously make the estimate available to the residents by posting the estimate in a common area of the leasing office at the Development. Changes in utility allowances cannot be implemented until the estimate has been submitted to the Department and made available to the residents by posting in the leasing office and a 90 day period has elapsed. The back up documentation required by the methodology the Owner has chosen must be submitted to the Department for approval no later than October 1st; however, the Department encourages Owners to submit documentation prior to the October 1st deadline in order to ensure that the Department has adequate time to review and respond to the Owner's estimate.

(h)[~~(f)~~] Combining Methodologies. With the exception of HUD regulated buildings and RHS [~~FmHA~~] buildings, Owners may combine any methodology described in this section for each utility service type paid directly by the resident and not by or through the Owner of the building (electric, [~~water~~] gas etc.). For example, if residents are responsible for electricity and gas [~~water~~], an Owner [~~owner~~] may use the appropriate PHA allowance to determine the gas [~~water~~] portion of the allowance and use the Actual Use Method to determine the electric portion of the allowance.

(i)[~~(g)~~] Increases in Utility Allowances for Developments with HOME funds. Because [~~because~~] the HOME final rule does not provide a grace period for implementing increased utility allowances, changes in utility allowances must be implemented on the published effective date. [~~All other properties shall implement increases in utility allowances within 90 days of the effective date of the change~~].

(j)~~(h)~~The owner shall maintain and make available for inspection by the tenant the data upon which the utility allowance schedule is calculated. Records shall be made available at the resident manager's office during reasonable business hours or, if there is no resident manager, at the dwelling unit of the tenant at the convenience of both the apartment owner and tenant.]

§60.110 Lease Requirements (HTC and HOME Properties)

(a) For HTC properties, Revenue Ruling 2004-82 prohibits the eviction or termination of tenancy for other than good cause of low income households throughout the entire Affordability Period and for three years after termination of an extended low-income housing commitment. Owners executing or renewing leases after November 1, 2007 shall specifically state in the lease or in an addendum attached to the lease that evictions or terminations of tenancy for other than good cause are prohibited.

(b) For HOME properties, the HOME Final Rule [~~final rule~~] prohibits Owners [~~owners~~] from evicting low income residents or refusing to renew a lease except for serious or repeated violations of the terms and conditions of the lease, for violations of applicable federal state or local law, for completion of the tenancy period for transitional housing, or for other good cause. To terminate tenancy, the Owner [~~owner~~] must serve written notice to [~~upon~~] the tenant specifying the grounds for the action at least 30 days before the termination of tenancy. Owners executing or renewing leases after November 1, 2007 shall specifically state in the lease or in an addendum attached to the lease that evictions or non-renewal of leases for other than good cause are prohibited[~~.~~] (24 CFR §92.253).

(c) The Department does not determine if an Owner [~~owner~~] has good cause or if a resident has violated the lease terms. If there is a challenge to a good cause eviction, that determination will be made by a court of competent jurisdiction or an agreement of the parties in arbitration. The Department will rely on the court decision or the agreement of the parties.

(d) HTC and BOND properties must use a lease or lease addendum that requires households to report changes in student status.

§60.111 Income at Recertification (Housing Tax Credit Properties)

(a) Under the Code, HTC Development Owners [~~owners~~] elect a minimum set aside requirement of 20/50 or 40/60 (20% of the Units [~~units~~] restricted to the 50% income and rent limits or 40% of the Units [~~units~~] restricted to the 60% income and rent limits). The minimum set aside elected by the Development Owner sets the maximum income and rent limits at the property. The Housing Tax Credit program requires mixed income properties to comply with the Available Unit Rule. Regardless of §60.111 if a household's income exceeds 140% of the income limit elected by the minimum set aside, owners must comply with the Available Rule. Many HTC Development [~~development~~] Owners [~~owners~~] agreed to lease Units to households with an annual income and rent lower than the maximum limits (for example at the 30%, 40% or 50% income and rent limits) established by the minimum set aside election of the Owner. This requirement is referred to as "additional occupancy restrictions" and is reflected in the Development's Land Use Restriction Agreement. When monitoring, the Department will examine the actual rent and income levels of all tenants to determine if additional rent and income requirements in the LURA are being met. Household income at recertification for the additional occupancy restrictions will be monitored as follows:

(1)[~~(b)~~]Households initially designated at the 30% income and rent limits. If upon recertification, the household's income exceeds the 30% limit~~, but remains less than the 40% limit,~~ the Unit [~~unit~~] will continue to meet the 30% set aside requirement provided that the Owner [~~owner~~] does not charge rent in excess of the 30% rent limits. ~~If upon recertification, the household's income exceeds the 40% limit, but is less than the 50% limit, the unit will continue to meet the 30% set aside requirement provided that the owner does not charge rent in excess of the 40% rent limits. If the household's income exceeds the 50% income limit, the unit no longer meets the 30% set aside requirement.~~ The household will not be required to vacate the Unit [~~unit~~] for other than good cause. The Owner [~~owner~~] will not be found in noncompliance provided that when the household moves out, the next available Unit [~~unit~~] on the property is leased to a household with an income and rent less than the 30% limits. If the household is replaced, the rent for the previously qualified Unit may be increased to the limit established by the minimum set aside, subject to applicable HTC [~~tax credit~~] requirements, lease provisions and local tenant-landlord laws.

(2)[~~(c)~~] Households initially designated at the 40% income and rent limits. If upon recertification, the household's income exceeds the 40% limit, ~~but is less than the 50% limit,~~ the Unit [~~unit~~] will continue to meet the 40% set aside requirement provided that the Owner [~~owner~~] does not charge rent in excess of the 40% rent limits. ~~If the household's income exceeds the 50% income limit, the unit no longer meets the 40% set aside requirement.~~ The household will not be required to vacate the Unit [~~unit~~] for other than good cause. The Owner [~~owner~~] will not be found in noncompliance, provided that when the household moves out, the next available Unit [~~unit~~] on the property is leased to a household with an income and rent less than the 40% limits. If the household is replaced, the rent for the previously qualified Unit may be increased to the limit established by the minimum set aside, subject to applicable HTC [~~tax credit~~] requirements, lease provisions and local tenant-landlord laws.

(3)[~~(d)~~]Households initially designated at the 50% income and rent limits (for HTC properties with the 40/60 minimum set aside). If upon recertification, the household's income exceeds the 50% income limit, the Unit [~~unit~~] will continue to meet the 50% set aside provided that the Owner does not charge rent in excess of the 50% rent limits. ~~no longer meets the Development's additional occupancy restriction.~~ The household will not be required to vacate the Unit [~~unit~~] for other than good cause. The Owner [~~owner~~] will not be found in noncompliance[~~,~~] provided that when the household moves out, the next available Unit [~~unit~~] on the property is leased to a household with an income and rent less than the 50% limits.

Once the household has been replaced, the rent for the previously qualified Unit may be increased to the limit established by the minimum set aside, subject to applicable HTC [~~tax credit~~] requirements, lease provisions and local tenant-landlord laws. ~~*Example 111.1:* A 100 unit property agreed to lease 10 units to households with an income and rent under the 30% limits. The remaining 90 units are subject to the 60% income and rent limits. Upon recertification, it is determined that one of the 30% households has experienced an increase in income; their re-certified annual income is now between the 40% and 50% income limits. The owner can continue to count this unit towards the 30% set aside provided that the rent charged remains at or below the 40% rent limit.~~

(b)[~~(c)~~] This section does not apply to households designated at the maximum income and rent limits required by the Code. Nor does this section in any way require a Development to lease more Units [~~units~~] under the additional occupancy restrictions than established in the LURA [~~Land Use Restriction Agreement~~].

(c) For those properties that are not required to perform recertifications, households will maintain the designation they had at move in. Owners must ensure that lower rent restrictions are adhered to throughout the household's occupancy.

(d) Preservation, HTF, HOME and BOND Developments, with any market units in one or more buildings (as evidenced in their LURA) must continue to perform annual recertifications of all households residing in program units. Owners of 100% low income Developments are not required to perform annual income recertifications. HTC owners must perform annual income recertifications if the project has any market rate units. For HTC Developments, the election made on Part II of the 8609 will determine if a building is part of a project. HTC Development owners must submit forms 8609 with part II completed. The Department may also require HTC Owners to complete form 8821 to permit the Department to confirm the elections with the IRS.

(e) For HTC, Preservation, HTF, and/or BOND Developments in which the LURA requires 100% of the units to be leased to income eligible families, the following recertification requirements apply:

(1) To comply with HUD reporting requirements, once every calendar year, the Development must collect a self-certification form from each household that reports the number of household members, the age of each household member, disability status, monthly rental assistance amounts received (if any), and race and ethnicity. In addition, the self certification will collect information about student status to establish ongoing compliance under the HTC and BOND programs. The Development must use the Department's *Annual Eligibility Certification* to collect this information and must maintain the certification in all household files.

(2) On 100% low income Housing Tax Credit developments, households may transfer to any unit within the same project (as determined on Part II of the 8609 for HTC Developments). On mixed income Housing Tax Credit Developments, households may transfer to any unit within the Development if as of their most recent (re) certification, their income was less than 140% of the maximum allowable limit. If the owner of a Housing Tax Credit development elected to treat each building as a separate project, households must be certified and low income to transfer to another building.

(3) Owners must review the *Annual Eligibility Certification* for the following items which would require further action:

(A) Changes in household composition. If members are added to an existing household, Owners must determine eligibility and complete a certification. The new household must be screened for income, assets, and student status and the existing Income Certification form must be updated. Owners must obtain first hand or third party verification of income and assets.

(i) If the Development becomes aware of the additions to households during the year, this action must be taken at the time the new household member moves in; Owners may not wait until the *Annual Eligibility Certification* is completed to take action. The Unit Status Report must be updated to reflect current circumstances as the property becomes aware of changes in household size.

(ii) If all original tenants have vacated the unit, the remaining tenants must be certified as a new income-qualified household unless the tenants were income qualified at the time of move in. HTC Units in noncompliance will be reported to the IRS on Form(s) 8823 and/or scored in the Department's Compliance Status System as applicable.

(B) Student status. Developments must use a lease addendum (or incorporate into their lease) a requirement for households to report changes in student status. If at any time the household reports a change in student status or discloses a change on the *Annual Eligibility Certification* form, the Owner must determine if the household is still eligible under the program. If the household meets one of the exceptions, documentation supporting eligibility must be gathered and retained in the lease file. Units in noncompliance will be reported to the IRS on Form(s) 8823 and/or scored in the Department's Compliance Status System as applicable.

(4) Failure to complete the *Annual Eligibility Certification* and maintain the form in household files will result in an issue of noncompliance that will be scored as shown in §60.121 under "Owner failed to maintain or provide Annual Eligibility Certification". No Form(s) 8823 will be filed with the IRS for the noncompliance.

(5) If a 100% low income Development continues to complete full recertifications, the Annual Eligibility Certification form must still be completed and the Unit Status Report must be updated at the completion of the recertification. The Department will not review the recertification paperwork during monitoring visits unless noncompliance is identified with the initial certification.

(e) For HOME Investment Partnership Developments, in accordance with §92.252 and §92.203 of the HOME Final Rule, the following recertification requirements apply:

(1) Once every calendar year, the Development must collect a self-certification form from each household that reports the household's income, number and ages of household members, student status, disability status, monthly rental assistance amounts received (if any), and race and ethnicity. The Development must use the Department's *Income Certification* form to collect this information and must maintain the certification in all household files. Failure to complete the *Income Certification* and maintain the form in household files will result in an issue of noncompliance that will be scored as shown in §60.121 under "Owner failed to maintain or provide Annual Eligibility Certification".

(2) HOME Developments must also complete full recertifications of each HOME Unit in every sixth year of the Development's Affordability Period. *Example 111.1*: A HOME property with an affordability period beginning in 2010 must perform full recertifications of all HOME households in 2015. All households must be re-certified, even households that moved in during 2014. Full recertifications at any other time are not required unless, the household self reports an annual income in excess of the 80% Area Median Income or as stated in §92.252, there is evidence that the tenant's written statement failed to completely and accurately state information about the family's size or income or the property has otherwise been directed to institute full recertifications by the Department.

§60.112 Requirements Pertaining to Households with Rental Assistance

(a) The Department will monitor to ensure Development Owners comply with §2306.269 and §2306.6728, Texas Government Code, regarding residents receiving rental assistance under Section [~~§~~]8, United States Housing Act of 1937 (42 U.S.C. §1437F).

(b) The policies, standards, and sanctions established by this section apply only to:

(1) multifamily housing Developments that receive the following assistance from the Department on or after January 1, 2002[~~:~~](§2306.185):

(A) a loan or grant in an amount greater than 33% of the market value of the Development on the date the recipient took legal possession of the Development; or

(B) a loan guarantee for a loan in an amount greater than 33% of the market value of the Development on the date the recipient took legal title to the Development;

(2) multifamily rental housing Developments that applied for and were awarded housing tax credits after 1992;[~~.~~]

(3) housing Developments that benefit from the incentive program under §2306.805 of the Texas Government Code;[~~.~~]

(4) housing Developments that receive funding from the HOME program (24 CFR §92.252(d)).

(c) Owners ~~Housing Sponsors~~ of multifamily rental housing Developments described in subsection (a) of this section are prohibited from:

(1) excluding an individual or family from admission to the Development because the individual or family participates in the HOME Tenant Based Rental Assistance Program or the housing choice voucher program under Section [~~§~~]8, United States Housing Act of 1937 (42 U.S.C. §1437f); and

(2) using a financial or minimum income standard for an individual or family participating in the voucher program that requires the individual or family to have a monthly income of more than 2.5 times the individual's or family's share of the total monthly rent payable to the Owner [~~owner~~] of the Development. A household participating in the voucher program or receiving any other type of rental assistance may not be required to have a minimum income exceeding $2,500 per year.

(d) To demonstrate compliance with this section, Owners [~~Housing Sponsors~~] shall:

(1) State in their leasing criteria that the Development will comply with state and federal fair housing and antidiscrimination laws;

(2) Apply screening criteria uniformly, (rental, credit, and/or criminal history) including employment policies, [~~uniformly~~] and in a manner consistent with the Texas and Federal Fair Housing Acts, program guidelines, and the Department's rules;

(3) Approve and distribute an Affirmative Marketing Plan that will be used to attract prospective applicants of all minority and non-minority groups in the housing market area regardless of their race, color, religion, sex, national origin, disability, familial status, or religious affiliation. Racial groups to be marketed to may include White, African American, Native American, Alaskan Native, Asian, Native Hawaiians or Other Pacific Islanders. Other groups in the housing market area who may be subject to housing discrimination include, but are not limited to, Hispanic or Latino groups, persons with disabilities, families with children, or persons with different religious affiliations. The Affirmative Marketing plan must be provided to the property management and onsite staff. Owners [~~Housing Sponsors~~] are encouraged to use HUD Form 935.2A or successors as applicable. The Affirmative Marketing Plan must identify the following:

(A) Which group(s) the Owner believes are least likely to apply for housing at the Development without special outreach. All Developments must select persons with disabilities as one of the groups identified as least likely to apply. When identifying racial/ethnic minority groups the property will market to, factors such as the characteristics of the housing's market area should be considered. *Example 112.1:* An Owner obtains census data showing that 6.5% of city's total population identify as Asian Americans. However, the Owner's demographic data for the Development shows that 0 Asian American households are represented. The Owner chooses to identify Asian American groups as one of the groups least likely to apply at the Development without special outreach.

(B) Procedures that will be used by the Owner to inform and solicit applications from persons who are least likely to apply. Specific media and community contacts that reach those groups designated as least likely to apply must be identified (community outreach contacts may include neighborhood, minority, or women's organizations, grass roots faith-based or community-based organizations, labor unions, employers, public and private agencies, disability advocates, or other groups or individuals well known in the community that connect with the identified group(s)). *Example 112.2:* An Owner has identified the disabled as least likely to apply and has decided to send letters on a quarterly basis to the Case Manager at a non-profit organization coordinating housing for developmentally disabled adults. Additionally, the Owner will advertise upcoming vacancies in a monthly newsletter circulated by an organization serving the hearing impaired.

(C) How the Owner will assess the success of Affirmative Marketing efforts. Affirmative Marketing Plans should be reviewed on an annual basis to determine if changes should be made and plans must be updated every five years to fully capture demographic changes in the housing's market area. [~~methods to market the property to persons with disabilities~~]

(D) Records of marketing efforts must be maintained for review by the Department during onsite monitoring visits. *Example 112.3:* The Owner keeps copies of all quarterly correspondence mailed to the contacts or community groups identified in the Affirmative Marketing Plan. The letters are dated and addressed and show that the Owner is actively marketing vacancies or a waiting list to the groups identified in the Owner's plan. Failure to maintain a reasonable Affirmative Marketing Plan and documentation of marketing efforts will result in a finding of noncompliance.

§60.113 Onsite Monitoring

(a) The Department may perform an onsite monitoring review of any low income Development, and review and photocopy all documents and records supporting compliance with Departmental programs through the end of the Compliance Period or the end of the period covered by the LURA [~~Land Use Restriction Agreement~~], whichever is later. The Development Owner shall permit the Department access to the Development premises and records.

(b) The Department will perform onsite monitoring reviews of each low income Development. The Department will conduct:

(1) the first review of HTC Developments by the end of the second calendar year following the year the last building in the Development is placed in service.

(2) the first review of all other Developments as leasing commences.

(3) [~~a~~] subsequent reviews at least once every three years during the Affordability Period.

(4) a physical inspection of the Development including the exterior of the Development, Development amenities, and an interior inspection of a sample of Units.

(5) limited reviews of physical conditions, including follow-up inspections to verify completion of reported corrective action, may be conducted without prior notice (unless access to tenant units is required, in which case at least 48 hours notice will be provided).

(c) The Department will perform onsite file reviews and monitor:

(1) a sampling of the low income resident files in each Development, and review the income certifications,

(2) the documentation the Development Owner has received to support the certifications,
(3) the rent records and any additional information that the Department deems necessary.

(d) At times other than onsite [~~on-site~~] reviews, the Department may request for review, in a format designated by the Department, information on tenant income and rent for each Low Income Unit and may require a Development Owner to submit copies of the tenant files, including copies of the income certification, the documentation the Development Owner has received to support that certification, and the rent record for any low income tenant.

(e) The Department will select the Low Income Units and tenant records that are to be inspected and reviewed. Original records are required for review. The Department will not give Development Owners advance notice that a particular Unit, tenant record, or a particular year will be inspected or reviewed. However, the Department will give reasonable notice to the Development Owner that an onsite inspection or a tenant record review will occur so the Development Owner may notify tenants of the inspection or assemble original tenant records for review. If a credible complaint of fraud or other egregious noncompliance is received, the Department reserves the right to conduct unannounced onsite monitoring visits.

§60.114 Monitoring for Social Services

(a) If a Development's LURA [~~property'sLand Use Restriction Agreement~~] requires the provision of social services, the Department will confirm this requirement is being met. Owners are required to maintain sufficient documentation to evidence that services are actually being provided. Documentation will [~~may~~] be reviewed during onsite visits and [~~or~~] must be submitted to the Department upon request. *Example 114.1:* The Owner's LURA requires provision of on-site daycare services. The Owner maintains daily sign in sheets to demonstrate attendance and keeps a roster of the households that are regularly participating in the program. The Owner also keeps copies of all newsletters and fliers mailed out to the Development tenants that reference daycare services.

(b) Supportive services must be provided throughout the entire Affordability Period, beginning once the Development completes lease up after final construction or acquisition. If an Owner [~~owner~~] wishes to change the scope of services provided, prior approval from the Department is necessary. The Department, upon review of the Owner's request and the Development's original application, may also require the Owner to submit a proposed amendment to the LURA. It is not necessary to obtain prior written approval to change the provider of services unless the scope of services is being changed. Failure to comply with the requirements of this section shall result in a finding of noncompliance.

§60.115 Monitoring for Non-Profit Participation or HUB Participation

(a) If a Development's LURA [~~property's Land Use Restriction Agreement~~] requires the material participation of a non-profit or Historically Underutilized Business (HUB), the Department will confirm this requirement is being met throughout the development phase and ongoing operations of the property. Owners are required to maintain sufficient documentation to evidence that a non-profit or HUB is materially participating. Documentation may be reviewed during onsite visits or must be submitted to the Department upon request.

(b) If an Owner [~~owner~~] wishes to change the non-profit, or HUB, prior approval from the Department is necessary. The Annual Owner's Compliance Report also requires Owners [~~owners~~] to certify to compliance with this requirement. Failure to comply with the requirements of this section shall result in a finding of noncompliance. In addition, the Internal Revenue Service will be notified if the non-profit is not materially participating on a Housing Tax Credit property during the Compliance Period.

(c) The Department does not enforce partnership agreements or determine equitable fund distributions of partnerships. These disputes are matters for a court of competent jurisdiction.

§60.116 Property Condition Standards

(a) All Developments funded by the Department must be decent, safe, sanitary [~~and~~] in good repair, and suitable for occupancy throughout the Affordability Period. The Department will use HUD's Uniform Physical Condition Standards (UPCS) to determine compliance with property condition standards. In addition, Developments must comply with all local heath, safety, and building codes. The Department may contract with a third party to complete UPCS inspections.

(b) Housing Tax Credit Development [~~property~~] Owners [~~owner~~] are required by Treasury Regulation 1.42-5 to report (through the Annual Owner's Compliance Report) any local health, safety, or building code violations. HTC Developments that fail to comply with local codes shall be reported to the IRS.

(c) The Department will evaluate UPCS reports in the following manner:

(1) A finding of Major Violations will be cited if:

(A) [~~uncorrected~~] life threatening health, safety, or fire safety hazards [~~(other than smoke detectors and blocked egresses which are addressed in subsection (d) of this section)~~] are reported on the Notification of Exigent and Fire Safety Hazards Observed form and are not corrected within 24 hours of the inspection with notification submitted to the Department within 72 hours of the inspection. Failure to notify the Department within 72 hours of the correction of any exigent health and safety or fire safety hazards listed on the Notification will result in a finding of Major Violations of the Uniform Physical Condition Standards for the Development. [~~in any building exterior, building system, common area, site, or dwelling Unit;~~]

(B) 20% of the violations noted are level three deficiencies [~~or more of buildings or dwelling Units inspected have any level three violation~~] other than level three deficiencies reported on the Notification of Exigent and Fire Safety Hazards Observed form and corrected in the 72 hour limit; or

(C) an overall UPCS score of less than 60% (59% or below) is reported.

(2) A finding of Pattern of Minor Violations will be assessed if:

(A) 20% of the violations noted are level two deficiencies [~~or more of the buildings or dwelling Units inspected have any level two violation~~]; or

(B) An overall score between 60% and 79% is reported.

(3) Findings of both Major and Minor Violations will be assessed if deficiencies reported meet the criteria for both.

[~~(d) Owners are ultimately responsible for compliance. However, the Department recognizes that despite an owner's effort to comply, residents may disable smoke detectors or arrange their furniture in a manner that blocks a fire egress. If inoperable smoke detectors or resident caused blocked egresses are noted during the UPCS inspection, they will not be taken into consideration for the purposes of the Department's evaluation of the report provided that the Department is notified of the correction within 72 hours. If the owner fails to notify the Department of the correction of inoperable smoke detectors and/or blocked egresses within 72 hours the property will be considered to have Major violations of the Uniform Physical Condition Standards.~~]

(d)[~~(e)~~]The Department is required to [~~must~~] report to the Internal Revenue Service on Form [~~form~~] 8823 any HTC Development [~~property~~] that fails to comply with any [~~the~~] requirements of the UPCS or local codes at any time (including smoke detectors and blocked egresses). Accordingly, the Department will submit Form(s) [~~forms~~] 8823 for any UPCS violation. However, if the violation(s) do not meet the conditions described in subsection (c)(1) or (2) of this section, the issue will be noted in the Department's compliance status system as Administrative Reporting and no points will be assigned in the Department's compliance status evaluation of the Development.[~~property~~]. Non HTC properties that do not meet thresholds for Major and Pattern of Minor Violations as described in subsections (c)(1) or (2) in this section and correct all life threatening health, safety, and fire safety hazards noted at the time of inspection as directed in subsection (c)(1)(A) of this section will not receive findings for UPCS inspections. Items noted that do not exceed thresholds for Major and Pattern of Minor Violations must be corrected by submission of an Owner's Certification of repair within the 90 day corrective action period.

[~~(f)Property representatives will have the opportunity and are encouraged to correct deficiencies while the inspector is on site. Such corrected items will not be assessed a finding unless there is a pattern of the same violation (25% or more of dwelling Units or buildings inspected with the same deficiency).~~]

(e)[~~(g)~~] Acceptable evidence of correction of deficiencies is a certification from an appropriate licensed professional that the item now complies with the inspection standard or other documentation that will allow the Department to reasonably determine when the repair was made and whether the repair sufficiently corrected the violation(s) of UPCS standards (examples of such documentation includes work orders, photographs, and/or invoices to third party repair specialists).[~~or other documentation that the violation has been corrected.~~]

(f)[~~(h)~~] The Department will provide a 90 day corrective action period to respond to a notice of noncompliance for violations of the Uniform Physical Condition Standards. The Department will grant up to an additional 90 day extension if there is good cause and the Owner [~~owner~~] clearly requests an extension.

[~~(i) The FDIC's Affordable Housing Program does not establish a specific set of property standards that owners must meet. Therefore, the Department cannot conduct physical assessments of the FDIC's Affordable Housing Properties. However, if the Department discovers that an owner is not adequately maintaining the physical condition of the property, the Department may request the owner make corrections and/or inform the local housing inspector. In addition, if the Department is notified by a local code enforcement entity that an Affordable Housing Property is not in compliance with local health, safety and building codes, the Department will notify the FDIC and cooperate with any enforcement activities requested by the FDIC.~~]

(g)[~~(j)~~] Section 92.251 of the HOME Final Rule [~~final rule~~] requires rental property assisted with HOME funds to be maintained in compliance with all local codes and Housing Quality Standards (24 CFR §982.401). To meet this requirement, all HOME rental Development Owners must annually complete an HQS inspection of all HOME assisted Units. The Department will review HQS inspection sheets for all units for compliance with this requirement during onsite monitoring visits.

§60.117 Notice to Owners

The Department will provide written notice to the Development Owner if the Department does not receive the AOCR or discovers through audit, inspection, review or any other manner that the Development is not in compliance with the provisions of the deed restrictions, conditions imposed by the Department, or program rules and regulations, including §42 of the IRC. Owners may request that results of monitoring reviews be emailed if all email addresses in CMTS are up to date. If Owners request such notices be sent by email, a paper copy will not be mailed by the Department. The notice will specify a correction period of 90 days from the date of notice to the Development Owner, during which the Development Owner may respond to the Department's findings, bring the Development into compliance, or supply any missing documentation or certifications. The Department may extend the correction period for up to six months from the date of the notice to the Development Owner if there is good cause for granting an extension. If any communication to the Development Owner under this section is returned to the Department as refused, unclaimed or undeliverable, the Development may be considered not in compliance without further notice to the Development Owner. The Development Owner is responsible for providing the Department with current contact information, including address(es) and phone number(s). The Development Owner must also provide current contact information to the Department as required by §1.22 of this title (relating to Providing Current Contact Information to the Department).

§60.118 Special Rules Regarding Rents and Rent Limit Violations

(a) Rent or Utility Allowance Violations of the maximum allowable limit (HTC). Under the HTC [~~housing tax credit~~] program, the amount of rent paid by the household plus an allowance for utilities, plus any mandatory fees, such as utilities paid to the owner, cannot exceed the maximum applicable limit (as determined by the minimum set aside elected by the Owner [~~owner~~]) published by the Department. If it is determined that a HTC Development[~~Housing Tax Credit property~~], during the Compliance Period, collected rent in excess of the rent limit established by the minimum set aside, the Department will report the violation as corrected on the date that the rent plus the utility allowance, plus fees, is less than the applicable limit. The refunding of overcharged rent does not avoid the disallowance of the credit by the Internal Revenue Service.

(b) Rent or Utility Allowance Violations of additional rent restrictions (HTC). If the Owner [~~owner~~] agreed to lease Units at rents less than the maximum allowed under the Code (additional occupancy restrictions), the Department will require the Owner [~~owner~~] to refund to the affected residents the amount of rent that was overcharged. This applies during the entire Affordability Period. The noncompliance event will be considered corrected on the date which is the later of the date the overcharged rent was refunded/credited to the resident or the date that the rent plus the utility allowance is equal to or less than the applicable limit. *Example 118(1):* For Internal Revenue Code §42 purposes, the maximum allowable limit is ~~in~~ 60%. However, the Owner [~~owner~~] agreed to lease some Units [~~units~~] to households at the 30% income and rent limits. It was discovered that the 30% households were overcharged rent. The Owner [~~owner~~] will be required to reduce the current amount of rent charged and refund the excess rents to the households.

(c) Rent Violations of the maximum allowable limit due to application fees (HTC). Under the HTC program, Owners may not charge tenants any overhead costs as part of the application fee. Owners must only charge the actual cost for application fees as supported by invoices from the screening company the Owner uses. Documentation of Development costs for application processing or screening fees must be made available during onsite visits or upon request. The Department will review application fee documentation during onsite monitoring visits. If the Department determines from a review of the documentation that the Owner has overcharged residents an application fee, the noncompliance will be reported to the IRS on Form(s) 8823. The noncompliance will be corrected on the later of January 1st of the next year or as of the date the application fee is reduced and evidence of a reduced application fee is supplied to the Department. Owners are not required to refund the overcharged fee amount. If the Development refunds the overcharged fee in full or in part, the units will remain out of compliance until January 1st of the next year or until the application fee is reduced.

(d)[~~(c)~~] Rent or Utility Allowance Violations on Non Housing Tax Credit properties. If it is determined that the property collected rent in excess of the allowable limit, the Department will require the Owner [~~owner~~] to refund to the affected residents the amount of rent that was overcharged. [~~The issue will be considered corrected on date which is the later of the date the overcharged rent was refunded/credited to the resident or the date that the rent plus the utility allowance is less than the applicable limit.~~]
(e)[~~(d)~~] Trust Account to be established. If the Owner [~~owner~~] is required to refund rent under subsection (b) or (d)~~(c)~~ of this section and cannot locate the resident, the excess rent collected must be deposited into a trust account for the tenant. The account must remain open for a four year period, [~~or~~] until all funds are claimed, or for four years. If funds are not claimed after the four year period, the unclaimed funds must be remitted to the Texas Comptroller of Public Accounts Unclaimed Property Holder Reporting Section to be dispersed as required by Texas unclaimed property statutes.
(f)[~~(e)~~] Rent Adjustments for HOME properties. Section 92.252 of the HOME Final Rule requires Owners [~~owners~~] to charge households with an income in excess of 80% at recertification, a rent equal to the lesser of 30% of the household's adjusted income or the market rent for comparable unassisted Units [~~units~~] in the neighborhood. If at recertification the household self certifies an income in excess of the 80% limit, documentation of all income, assets and allowable deductions must be obtained by the owner. The Department will find a HOME property in noncompliance with this section if the Owner [~~owner~~] fails to determine the over income household's adjusted income and [~~or~~] maintain documentation of market rents for comparable unassisted Units in the neighborhood.
(g)[~~(f)~~] Special conditions for CDBG properties. To determine if a Unit [~~unit~~] is rent restricted, the amount of rent paid by the household, plus an allowance for utilities, plus any rental assistance payment must be less than the applicable limit.

§60.119 Notices to the Internal Revenue Service (HTC Properties)

(a) Even when an event of noncompliance is corrected, the Department is required to file IRS Form 8823 with the IRS. IRS Form 8823 will be filed not later than 45 days after the end of the correction period specified in the Notice to Owner (including any extensions permitted by the Department) but will not be filed before the end of the correction period. The Department will indicate on IRS Form 8823 the nature of the noncompliance and will indicate whether the Development Owner has corrected the noncompliance.
(b) The Department will retain records of noncompliance or failure to certify for six years beyond the Department's filing of the respective IRS Form 8823. The Department will retain the AOCRs and records for three years from the end of the calendar year the Department receives the certifications and records.
(c) The Department will send the Owner [~~owner~~] of record copies of any IRS Form(s) [~~Forms~~] 8823 submitted to the IRS. Copies of Form(s) 8823 will be submitted to the syndicator for Developments awarded tax credits after January 1, 2004. The Development Owner is responsible for providing the name and mailing address of the syndicator in the Annual Owner's Compliance Report.

§60.120 Monitoring Procedures for Housing Tax Credit Properties After the Compliance Period

(a) Housing Tax Credit properties allocated credit in 1990 and after are required under the Code (§42(h)(6)) to record a LURA restricting the property for at least 30 years. Various sections of the Code specify monitoring rules State Housing Finance Agencies must implement during the Compliance Period.

(b) After the Compliance Period, the Department will continue to monitor Housing Tax Credit Developments using the rules detailed in paragraphs (1) - (13) of this subsection.

(1) On site monitoring visits will continue to be conducted approximately every three years, unless the Department determines that a more frequent schedule is necessary;

(2) In general, the Department will review 10% of the low income files. No less than 5 files and no more than 20 files will be reviewed;

(3) The exterior of the property, all building systems and 20% but no more than 35 of the Development's Low Income Units will be physically inspected to determine compliance with HUD's Uniform Physical Condition Standards;

(4) Each Development shall submit an annual report in the format prescribed by the Department;

(5) Reports to the Department must be submitted electronically as required in §60.105 of this chapter;

(6) Compliance monitoring fees will continue to be submitted to the Department annually in the amount stated in the LURA;

(7) All households must be income qualified upon initial occupancy of any Low Income Unit. Proper verifications of income are required, and the Department's Income Certification form must be completed unless the Development participates in the Rural Rental Housing Program or a project based HUD program;

(8) Rents will remain restricted for all Low Income Units. After the Compliance Period, utilities paid to the owner can be accounted for in the utility allowance. The tenant paid portion of the rent plus the applicable utility allowance must not exceed the applicable limit;

[~~(9) Owners and managers must continue to screen households for income, assets, and household size on an annual basis. In addition, an Income Certification form must be completed on an annual basis;~~]

(9)[~~(10)~~] All additional income and rent restrictions defined in the LURA remain in effect;

(10)[~~(11)~~] Other requirements defined in the LURA, such as the provision of social services or serving special needs households, will remain in effect;

(11)[~~(12)~~] The Owner [~~owner~~] shall not terminate the lease or evict low income ~~the~~ residents for other than good cause [~~or refuse to renew the lease except for Material Noncompliance with the lease or other good cause~~]; and

(12)[~~(13)~~] The total number of required Low Income Units must be maintained Development wide.

(c) After the first 15 years of the Extended Use Period, certain requirements will not be monitored as detailed in paragraphs (1) – (3)~~(4)~~ of this subsection.

[~~(1) At recertification verification of income and assets will not be required;~~]

(1)[~~(2)~~] The student restrictions found in §42(i)(3)(D) of the Code. An income qualified household consisting entirely of full time students may occupy a Low Income Unit;

[~~(3)~~] ~~The Available Unit Rule found in Treasury Regulation §1.42-15;~~ [~~and~~]

(2)[~~(4)~~] The building applicable fraction found in the Development's Cost Certification and/or the LURA. Low income occupancy requirements will be monitored Development wide, not building by building; and,

(3) Household transfers between buildings restricted by §42(g)(1). All households, regardless of HTC income level designation, will be allowed to transfer between buildings with the Development.

(d) Unless specifically noted in this section, all requirements of this chapter and §42 of the Internal Revenue Code remain in effect for the Extended Use Period. These Post Year 15 Monitoring Rules apply only to the Housing Tax Credit Developments administered by the

Department. Participation in other programs administered by the Department may require additional monitoring to ensure compliance with the requirements of those programs.

§60.121 Material Noncompliance Methodology

(a) The Department maintains a compliance history of each monitored Development in the Department's Compliance Status System. Developments with more than one program administered by the Department are scored by program. The Development will be considered in Material Noncompliance if the score for any single program exceeds the noncompliance limit for that program.

(b) A Development will not be assigned the scores noted in this section until after the Owner [~~owner~~] has been provided a written notice of the noncompliance and provided a corrective action deadline to show that either the Development [~~property~~] was never [~~never was~~] in noncompliance or that the noncompliance event has been corrected.

(c) This section identifies all possible noncompliance events for all programs monitored by the Department. However, not all issues listed in this section pertain to all Developments. In addition, only certain noncompliance events are reportable on Form [~~form~~] 8823. Those events that are reportable under the HTC [~~Housing Tax Credit~~] program on Form [~~form~~] 8823 are so indicated in subsections (k) and (j) of this section.

(d) For HTC [~~Housing Tax Credit~~] Developments, all Forms [~~forms~~] 8823 issued by the Department will be entered into the Department's Compliance Status System. However, Forms [~~forms~~] 8823 issued prior to [~~the development of~~] January 1, 1998 will not be considered in determining Material Noncompliance.

(e) For all programs, a Development will be in Material Noncompliance if the noncompliance event is stated in this section to be Material Noncompliance. The Department may take into consideration the representations of the Applicant regarding noncompliance events; however, the compliance records of the Department shall be presumed to be correct.

(f) All Developments, regardless of status, that are or have been administered, funded, or monitored by the Department are scored even if the Development no longer actively participates in the program, with the exception of properties in the FDIC's Affordable Housing Disposition Program.

(g) A Development's score will be reduced by the number of points needed to be one point under the Material Noncompliance threshold provided that: [~~under the following circumstances~~]:

(1) The Development has no previously reported [~~uncorrected~~] noncompliance events that are uncorrected, [~~and~~]

(2) All newly identified noncompliance events are [~~were~~] corrected during the corrective action period, [~~and~~]

(3) All corrective action documentation for the newly identified noncompliance is [~~was~~] provided to the Department during the corrective action period, and[~~.~~]

(4) The Development was not already in Material Noncompliance at the time of its most recent monitoring review.

(h) Noncompliance events are categorized as either "Development events" or "Unit/building events." Development events of noncompliance affect some or all the buildings in the Development; however, the Development will receive only one score for the noncompliance event rather than a score for each building. Other noncompliance events are identified individually by Unit and will receive the appropriate score for each Unit cited with an event. The Unit scores and the Development scores accumulate towards the total score of the Development. Violations under the HTC program are identified by Unit; however, the building is scored rather than the Unit and the building will receive the noncompliance score if one or more of the Units are in noncompliance.

(i) Uncorrected noncompliance events, if applicable to the Development, will carry the maximum number of points until the noncompliance event has been reported corrected by the Department. Once reported corrected by the Department, the score will be reduced to the "corrected value." Corrected noncompliance will no longer be included in the Development score three years after the date the noncompliance was reported corrected by the Department.

(j) Each noncompliance event is assigned a point value. The possible events of noncompliance and associated "corrected" and "uncorrected" points are listed in subsection (k) of this section.

(k) Figure: 10 TAC §60.121(k) lists events of noncompliance that affect the entire Development [~~development~~] rather than an individual Unit [~~unit~~]. The first column of the chart identifies the noncompliance event. The second column identifies the number of points assigned this event while the issue is uncorrected. Material Noncompliance for a HTC Development [~~property~~] is 30 points. Material Noncompliance for a non HTC property with 1 to 50 low income units is 30 points. Material Noncompliance [~~noncompliance~~] for a non HTC property with 51 to 200 Low Income Units is 50 points. Material Noncompliance for non [~~Non~~] HTC properties with 201 or more Low Income Units [~~low income units~~] is 80 points. The third column lists the number of points assigned to this event when the issue is corrected until three years after correction. The fourth column indicates what programs the noncompliance event applies to. The last column indicates if the issue is reportable on Form [~~form~~] 8823 for HTC Developments [~~Housing Tax Credit properties~~].

Figure: 10 TAC §60.121(k)

Noncompliance Event	**Uncorrected Points**	**Corrected Points**	**Programs**	**If HTC, on Form 8823?**
Major property condition violations	Material Noncompliance	10	All programs [~~HTC~~ ~~Bonds~~ ~~HOME~~ ~~HTF~~ ~~CDBG~~]	Yes
Pattern of minor property condition violations	10	5	All programs [~~HTC~~ ~~Bonds~~ ~~HOME~~ ~~HTF~~ ~~CDBG~~]	Yes
Administrative reporting of property condition	0	0	HTC [~~Bonds~~	Yes

violations			~~HOME~~ ~~HTF~~ ~~CDBG~~]	
Owner refused to lease to a holder of rental assistance certificate/voucher because of the status of the prospective tenant as such a holder	Material Noncompliance	10	See §60.112	Yes
Owner failed to approve and distribute an Affirmative Marketing Plan as required under §60.112 of this chapter	10~~3~~	3~~1~~	See §60.112	No
Development failed to comply with requirements limiting minimum income standards for Section [~~§~~]8 residents.	10	3	See §60.112	No
Development is not available to general public	10	0	HTC	Yes
HUD or DOJ notification of possible Fair Housing Act violation	0	0	HTC	Yes
Determination of a violation under the Fair Housing Act	Material Noncompliance	10	All programs	Yes
Development is out of compliance and never expected to comply/ Foreclosure	Material Noncompliance	NA/No correction possible	All programs	Yes
Owner did not allow on-site monitoring review	Material Noncompliance	5	All programs	Yes
LURA not in effect	Material Noncompliance	5	All programs	Yes
Development failed to meet minimum set aside	20	10	HTC Bonds	Yes
No evidence of, or failure	10	3	HTC	Yes

to certify to, material participation of a non-profit or HUB, if required by the Land Use Restriction Agreement				
Development failed to meet additional State required rent and occupancy restrictions	10	3	All programs [~~HTC Home HTF Bonds~~]	No
The Development failed to provide required supportive services as promised at Application	10	3	HTC Bonds	No
The Development failed to provide housing to the elderly as promised at Application	10	3	All programs [~~HTC Bonds HOME HTF CDBG~~]	No
Failure to provide special needs housing	10	3	All programs [~~HTC Bonds HOME HTF CDBG~~]	No
Changes in Eligible Basis or Applicable Percentage	3	NA, No correction possible	HTC	Yes
Failure to submit part or all of the AOCR or failure to submit any other annual, monthly, or quarterly report required by the Department	10	3	All programs	Yes
Utility Allowance not calculated properly	20	10[~~5~~]	All programs [~~HTC Bonds HOME~~	Yes

			~~HTF~~ ~~CDBG~~]	
[~~Failure to comply with the Next Available Qualifying Unit Rule~~	~~3~~	~~1~~	~~AHP~~	~~Na~~]
Owner failed to execute required lease provisions, including language required by §60.110 or exclude prohibited lease language	10[~~3~~]	3[~~1~~]	HTC HOME	No
Failure to provide annual Housing Quality Standards inspection	10	3	HOME	NA
Development has failed to establish and maintain a reserve account in accordance with §1.37 of this title	Material Noncompliance	10	HTC	No
Development substantially changed the scope of services as presented at initial Application without prior Department approval	10[~~4~~]	3[~~0~~]	HTC	No
Change in O[~~o~~]wnership or General Partner without proper notification to and approval of Department	10[~~4~~]	3[~~0~~]	All programs	No
Failure to provide a notary public as promised at Application	10[~~5~~]	3[~~1~~]	HTC	No
Violations of the Unit Vacancy Rule	3	1	HTC	Yes
Casualty loss	0	0	All programs	Yes

(l) Figure: 10 TAC §60.121(l) lists 10 events of noncompliance associated with individual Units [~~units~~]. The first column of the chart identifies the noncompliance event. The second column identifies the number of points assigned this event while the issue is uncorrected. Material Noncompliance for a HTC property is 30 points. Material noncompliance for a non HTC property with 1-50 low income units is 30 points. Material noncompliance for a non HTC property with 51 to 200 Low Income Units is 50 points. Material Noncompliance for non [~~Non~~] HTC properties with 201 or more Low Income Units [~~low income units~~] is 80 points. The third column lists the number of points assigned this event when the issue is corrected until three years after the event is corrected. The fourth column indicates what programs the noncompliance event applies to. The last column indicates if the issue is reportable on Form [~~form~~] 8823 for Housing Tax Credit properties.

Figure: 10 TAC §60.121(l)

Noncompliance Event	Uncorrected Points	Corrected Points	Programs	If HTC, on Form [~~form~~] 8823?
Unit not leased to Low Income Household	5	1	All programs	Yes
Low Income Units occupied by nonqualified full-time students	3	1	HTC during the compliance period and Bond	Yes
Low Income Units used on transient basis	3	1	HTC Bond	Yes
Household income increased above the re-certification limit and an available Unit was rented to a market tenant	3	1	HTC During the compliance period Bonds HOME HTF [~~AHP~~]	Yes
Gross rent exceeds the highest rent allowed under the LURA or other deed restriction	5	1	All programs	Yes
Failure to maintain or provide tenant income certification and documentation	3	1	All programs	Yes
Unit not available for rent	3	1	All programs	Yes
Failure to maintain or provide Annual Eligibility Certification [~~Qualifying Unit~~	3	1	All programs[~~AHP~~]	No[~~NA~~]

~~designation removed from household~~				
Development evicted or terminated the tenancy of a low income tenant for other than good cause	10	3	HTC HOME	Yes
Household income increased above 80% at recertification and Owner [~~owner~~] failed to properly determine rent	3	1	HOME	NA

§60.122 Previous Participation Reviews

(a) Prior to providing any Department assistance, executing a Carryover Allocation Agreement, or processing a request for a Qualified Contract, the Portfolio Management and Compliance Division will conduct a previous participation review to determine if the requesting entity owes the Department any fees, has any outstanding audit issues or any uncorrected issues of noncompliance. Assistance includes but is not limited to allocating any Department funds, permitting the transfer of Ownership [~~ownership~~] of a property, engaging in loan or contract [~~or LURA~~] modifications, and providing incentive awards.

(b) HTC Developments with any uncorrected issues of noncompliance will not be issued Form 8609s, Low Income Housing Credit Allocation Certification, until the noncompliance is corrected.

(c)[~~(b)~~] If during the previous participation review an uncorrected issue of noncompliance is identified on a HOME Development monitored by the Department, the entity requesting assistance will be notified of the issue and provided a 5 day period to submit all necessary corrective action to cure the violation(s). The notification will be in writing and may be delivered by email. If the requesting entity does not cure the issues, the Application for assistance will be terminated. If the Application [~~application~~] is terminated, the applicant has the ability to appeal as provided in §1.7 of this title.

(d)[~~(c)~~] If during the previous participation review, the Department determines that the requesting entity has control of an existing Development monitored by the Department that is in Material Noncompliance, the Application for assistance will be terminated.

(e)[~~(d)~~] If during the previous participation review, the Department determines that the requesting entity is on the Department's or the Department of Housing Urban Development's debarred list, the Application for assistance will be terminated.

(f)[~~(e)~~] In accordance with §2306.057 of the Texas Government Code, the Board shall fully document and disclose any instances in which the Board approves a project Application despite any noncompliance associated with the project, applicant, or affiliate. If an Application is terminated because of the Previous Participation Review, the applicant may appeal the decision in accordance with §1.7 or §1.8 of this title.

(g)[~~(f)~~] Treatment of previously owned Developments during a Previous Participation review:

(1) The Department will not take into consideration the score of a Development transferred by the applicant over three years ago.

(2) The Department will not take into consideration the score of a Development whose Affordability Period ended over three years ago.

(3) The Department will not take into consideration scores attributed to Developments for noncompliance with FDIC's Affordable Housing Disposition Program.

(4)[~~(3)~~] If the Development [~~property~~] was transferred less than three years ago, the Department will determine the score for the noncompliance events with a date of noncompliance identified during the applicant's period of Ownership [~~ownership~~]. If the points associated with the noncompliance events identified during the applicant's period of Ownership [~~ownership~~] exceed the threshold for Material Noncompliance, the Application will not be recommended.

(h)[~~(g)~~] Date for determining of Material Noncompliance. For HTC Applications, the score in effect on May 1st of the year the HTC Application is submitted will be used. For Carryover Allocations, the score in effect on October 1st of the year the award is being made will be used. For all other requests for assistance, the score in effect the day of Previous Participation Review is being conducted will be used.

§60.123 Alternative Dispute Resolution (ADR)

(a) It is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures (ADR) to assist in resolving disputes under the Department's jurisdiction. If at any time an applicant or other person would like to engage the Department in an ADR process, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at §1.17 of this title.

(b) In all phases of monitoring, (construction and throughout the entire Affordability Period) if a potential issue of noncompliance has been identified, Owners [~~owners~~] will be provided a written notice of noncompliance. The Department will provide up to a 90 day corrective action period which can and will be extended for an additional 90 days if there is good cause and the Owner [~~owner~~] requests an extension.

(c) Owners must respond to the Department's notice of noncompliance. If an Owner [~~owner~~] does not respond, this ADR process which is explained in this section cannot be initiated.

(d) If an Owner [~~owner~~] does not agree with the Department's assessment of compliance, they should clearly explain their position and provide as much supporting documentation as possible. If the position is reasonable and well supported, the issue of noncompliance will be cleared with no further action taken, i.e. for HTC properties, Form(s) [~~form~~] 8823 will not be filed with the Internal Revenue Service and the issue will not be scored in the Department's compliance status system.

(e) If an Owner's [~~owner's~~] response indicates disagreement with the Department's assessment of noncompliance, but does not appear to be a valid concern to the Department, staff will notify the Owner [~~owner~~] in writing of their right to engage in ADR. The Owner [~~owner~~] must respond in 5 days and request ADR. In addition, the owner must request an extension of the corrective action deadline, if one is still available. If the owner does not respond to the staff's invitation to engage in ADR, the Department's assessment of the violation is final.

(f) The Department must meet the Treasury Regulation requirement found in §1.42-5 and file Form [~~form~~] 8823 within 45 days after the end of the corrective action period. Therefore, it is possible that the Owner [~~owner~~] and Department may still be engaged in ADR. In this circumstance, the Form [~~form~~] 8823 will be filed. However, it will be sent to the IRS with an explanation that the owner disagrees with the Department's assessment and is pursuing ADR. All Owner [~~owner~~] supplied documentation supporting their position will be supplied to the IRS. Although the violation will be reported to the IRS within the required timeframes, it will not be scored in the Department's compliance status system pending outcome of ADR.

§60.124 Liability

Compliance with the program requirements, including compliance with §42 of the IRC, is the sole responsibility of the Development Owner. By monitoring for compliance, the Department in no way assumes any liability whatsoever for any action or failure to act by the Development Owner, including the Development Owner's noncompliance with §42 of the IRC, the Fair Housing Act, §504 of the Rehabilitation Act of 1973, HOME program regulations, BOND program requirements, and all other programs monitored by the Department.

§60.125 Applicability

Unless otherwise noted, these provisions apply to all Developments administered by the Department.

§60.126 Waiver

The Board, in its discretion and within the limits of law, may waive any one or more of these Rules if the Board finds that a waiver is appropriate to fulfill the purposes or policies of Chapter 2306, Texas Government Code, or for other good cause, as determined by the Board.

HOME DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval for publication in the *Texas Register* of a final order adopting repeal of 10 TAC Chapter 53, HOME Program, Rule and final order adopting new 10 TAC Chapter 53, HOME Program Rule.

Requested Action

Adoption of the Repeal of 10 TAC Chapter 53, HOME Investment Partnerships Program, and final order adopting new 10 TAC Chapter 53, HOME Program Rule.

Background

The Department conducted six public meetings to accept public comment on the proposed changes to the HOME Program Rule (10 TAC Chapter 53) as published September 19, 2008 in the *Texas Register*. Public hearings on the new rule were held in Austin (September 24, 2008), Fort Worth (September 26, 2008), Lubbock (September 29, 2008), El Paso (October 1, 2008), Brownsville (October 3, 2008), and Houston (October 6, 2008). Additionally, written comments on the new rule were accepted by mail, e-mail, and facsimile through October 20, 2008. The Department also received comments in writing, by e-mail, fax, and mail.

This rule ensures compliance with all statutory requirements, including recent federal rule changes, incorporates public input from the recent HOME Program Rule Roundtable and Public Hearing process, formalizes existing policy and guidelines contained in the HOME Program Application and Submission Procedures Manual and includes recommendations for revisions of necessary policy and administrative changes to further enhance the HOME Program's operation assimilating organizational changes of the HOME Division. In order to offer consistency and uniformity among housing programs, changes were made to the rule in the areas of definition. To provide clarity regarding administrative processes, additional sections were added to assist in formalizing those program processes.

The responses to public comment are summarized following this section and include administrative clarifications, changes and corrections made to the HOME Program Rule by staff, as well as substantive public comments and the corresponding Department response. Comments and responses are presented in the order the issues appear in 10 TAC Chapter 53. For ease of review, after each comment title, numbers are shown in parentheses. These numbers refer to the person or organization that made the comment as reflected in the commenter key, located at the end of this document. Copies of the exact comment letters provided are available on the Department's website. In some cases the text of the draft rule, as taken out for public comment, is provided first to provide the proper context for the comment provided.

General Public Comment

Comment:
Commenter recommends recognition of an Agency of the State or Community Mental Health Center to be listed as eligible applicants as permitted by the HOME Final Rule. (12)

Staff Response:
Both entity types are currently eligible either as governmental entities or non-profit organizations under the HOME Program Rule. No change is recommended at this time.

Comment:
Commenter recommends that Special Needs households be exempt from participating in the mandatory self-sufficiency program as currently required under the Tenant-Based Rental Assistance (TBRA) program and be permitted to participate in a community wide program or alternate program exclusively serving this special needs population. (12)

Staff Response:
Currently, TBRA program requirements require participation in a self-sufficiency program to make certain the household is able to transition to a more permanent housing solution. By removing this requirement, households may be placed at risk of losing their housing at the end of the contract term, without a good alternative that will continue to provide quality and safe affordable housing. No change is recommended at this time.

Comment:
Commenter asks the Department to recognize the difficulty of repaying loans on housing rented by or owned by extremely low income working households and request housing assistance to farmworkers be provided as grants. (15)

Staff Response:
Currently, non-profit organizations and units of general local government assisting farmworkers are eligible to apply for funding and assist farmworker families. Understandably, many of these families are among the lowest income families in the state and while the Department cannot provide assistance in the form of a grant, it is anticipated that many of these families would qualify for deferred-forgivable loans under the current HOME rule. No change is recommended at this time.

Comment:
Commenter includes a variety of recommendations including exploring more seamless contributions of funding and working to improve mechanism to layer financing in more effective and efficient ways. A second recommendation requests that staff offer a multifamily application workshop jointly with Texas Rural Development, Texas State Affordable Housing Corporation, and other potential leveraged resources upon the issuance of the USDA 2009 Section 514/516

Notice of Funding Availability. The final recommendation under this comment requests that HOME and Housing Trust Fund monies serve as “first-funding” for multifamily Farmworker developments, allowing enough lead time to allow housing sponsors to secure all financing within various agency timeframes and deadlines. (15)

Staff Response:
While these recommendations are not rule specific, the Division will take the recommendations under advisement and direct staff to examine ways to improve processes so that the effectiveness of the Department’s HOME and HTF funds are maximized. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comment:
Commenter requests the establishment of a pilot program for farmworker housing so grant guidelines can differ slightly form those in the established HOME program, recognizing that providing housing options for farmworkers may require some specific concessions. (15)

Staff Response:
While these recommendations are not rule specific, the Division will take the recommendations under advisement. As stated previously, the program’s current structure allows entities to apply for and distribute funds to farmworker families. Income incentives are structured in all of the Division’s programs to target the lowest-income families. Staff would welcome applications to assist these families and would work closely would the administrator to encourage the success of the program and provide more specific recommendations at a later date, if appropriate.

Comment:
Commenter request that repair dollars are made available to individually-owned and multifamily rental housing currently serving farmworkers. (15)

Staff Response:
Under the current program guidelines, owner-occupied housing is eligible for housing assistance through the HOME program. Additionally, the Division has an annual set-aside in its rental allocation to specifically assist with rental preservation, which would include multifamily rental housing. Unfortunately, the Division does not currently offer repair funds for single-family rental housing—our focus is family-owned housing. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comment:
Commenter asks the Division to utilize Tenant-Based Rental Assistance for farmworkers, especially migrant workers. (15)

Staff Response:

As with all HOME programs, non-profits or units of general local government that would like to apply for Tenant-Based Rental Assistance may request these funds. However, there are federal regulations that stipulate lease requirements and regulations that effectively limit the portability, that create challenges in the administration of the program for a migrant Farmworker family. As long as an organization can meet the federal requirements of the program, the Division welcomes applications and would work to encourage their success. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comment:
Commenter states that the USDA Rural Development regulations and the HOME regulations together force the developer to take the lower rents, which are the HUD fair-market rents, and apartments cannot operate on that amount. There are several instances where this problem has resurfaced and it has been difficult to resolve even with reducing the HOME loan amount and getting a Housing Trust Fund loan to cover the units. Units without rental assistance or on deep subsidy are the exception to this challenge. (17)

Staff Response:
Staff has been working closely with USDA Rural Development on resolving issues together on proposed transactions including subsidy layering. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comment:
Commenter makes several recommendations to address timelines for internal policies not currently addressed in the program rule. This includes language in agreements prohibiting setups of projects within 90 days of the end of the contract term and loan closing requirements. (8)

Staff Response:
As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time, however, staff will continue to work to streamline processes for contract administrators.

Comments on the Proposed HOME Program Rule, 10 TAC, Chapter 53

§53.1 Purpose

Comment:
Commenter requests the Department make the 2009 proposed rules retroactive to govern the 2008 contracts that will be written on the 2008 HOME applications that are currently being submitted to the Department. (7)

Staff Response:

Staff recognizes this issue, concurs and recommends a change (highlighted below) to the proposed rule as follows:

§53.1. Purpose

This Chapter clarifies the use and administration of all funds provided to the Texas Department of Housing and Community Affairs (Department) by the United States Department of Housing and Urban Development (HUD) pursuant to Title II of the Cranston-Gonzalez National Affordable Housing Act of 1990 (42 USC §§12701-12839) and HUD regulations at 24 CFR, Part 92. All provisions of this Chapter apply to any Application received on or after the date of adoption of this Chapter by the Department's Board. Existing Contracts or Applications received prior to the date of adoption of this Chapter may be amended in writing at the request of the Administrator or Applicant and with Department approval, subjecting the Contract or Application to all provisions of this Chapter. Amendments proposing only partial adoption of this Chapter are not permitted and no amendment adopting this Chapter shall be permitted if, in the discretion of the Department, any of the provisions of this Chapter conflict with the NOFA under which the existing Contract was awarded or Application was submitted.

The State's HOME Program is designed to:

(1) focus on the areas with the greatest housing need described in the State Consolidated Plan;

(2) provide funds for home ownership and rental housing through acquisition, new construction, rehabilitation, tenant-based rental assistance, and pre-development loans;

(3) promote partnerships among all levels of government and the private sector, including non-profit and for-profit organizations; and

(4) provide low, very low, and extremely low income families with affordable, decent, safe and sanitary housing.

§53.8 Notice of Receipt of Application or Proposed Application. Administrative Change

Based on public comment received for the Housing Trust Fund Rule and for clarification, staff recommends the following change to the proposed rule:

(a) Not later than the 14th day after the date an Application or a proposed Application for housing funds described by §2306.111 has been filed for multifamily or single family development, the Department shall provide written notice of the filing of the Application or proposed Application to the following Persons:

§53.31 (g) Owner-Occupied Housing Assistance Program (OCC)

Language in Draft Rule: *(g) The maximum amount of assistance (including soft costs), unless otherwise specified in the NOFA, to an eligible Household is based on Household size:*

(1) Rehabilitation that is Reconstruction for 1 to 4 person Household: $65,000 ~~60,000;~~

(2) Rehabilitation that is Reconstruction for 5 to 6 person Household: $72,000 ~~67,500;~~

(3) Rehabilitation that is Reconstruction for 7 or more person Household: $80,000 ~~75,000~~ ;and

(4) Rehabilitation that is not Reconstruction: $30,000.

Comment:

Commenter requests that the price per house maximum be set at the time of the NOFA, not as part of the rules-making process as this will allow staff latitude to make changes as necessary due to rising construction costs. (7)

Staff Response:
Staff has researched and evaluated the request for an increase in the amount of assistance per household for construction costs and is recommending changes to §53.31 (g) to accommodate changes in housing costs. Based on that analysis and the recommended changes, staff does not feel it is necessary to make adjustments at the time of release of the NOFA. No change to the rule is recommended.

Comment:
Commenter requests that the maximum cost per home be raised to $75,000 and states that this increase will take into account increased construction costs and to allow adequate funds for soft costs. (7)

Several commenters stated that their companies are currently working with the HOME Owner-Occupied (OCC) program and that they are each building an 860 square foot home, four sides brick, three bedrooms, one bathroom. If the company were to bid on the house today, the bid would be between $59,000 and $64,500 per home, to build one at a time, according to one commenter, and approximately $70,000 according to the other commenter. If the project had five or six homes together, the bid would be between $57,000 and $62,000 per home according to one commenter and would reflect a cost savings of about $63,000 according to the other commenter. It is important to note that these costs do not include demolition of the existing structure. (59) (9)

Commenter states the $60,000 existing maximum for the 1-4 person household has been insufficient for some time now. While a $5,000 increase is a start, it will still not meet the cost of home reconstruction in this program; the costs are far above the $65,000 amount. While some communities can assist with these costs through local match, many of the smaller, more poverty stricken communities or communities impacted by disasters will not be able to assist. (5)

Commenter requests increases in costs regarding the Owner-Occupied Program. The current caps or restrictions have not caught up to the times and especially given today's environment, increasing costs of not only rehab but also reconstruction certainly puts a strain in getting that housing out for very low-income homeowners for rehab and reconstruction projects. (11)

Staff Response:
Staff has researched various methods of establishing a construction cost limitation and is recommending the $73.00 cost per square foot maximum based on using the *Marshall and Swift Residential Cost Handbook* for single family homes of average quality and sample plans utilized for constructing homes in the OCC Program. The maximum cost per square foot determined using *Marshall and Swift* compares extremely well to the numerous independent bids received during the public comment period. The actual costs for demolition and aerobic septic systems have been excluded from the maximum per square foot cost since these are not standard costs

associated with OCC reconstructs throughout the State of Texas. Oftentimes, demolition costs are provided as match by the communities administering the OCC award and also vary greatly between contractors that perform the construction work. Lastly, the $73.00 per square foot maximum does take into consideration increased third-party inspection Texas Residential Construction Commission requirements. Staff recommends the following changes to the rule:

(g) The maximum amount of assistance is the total of construction costs and soft costs provided to an eligible Household. The total construction costs are limited to:

> *(1) Rehabilitation that is Reconstruction: The lesser of $73.00 per square foot or $80,000, if the Reconstruction includes actual costs for an aerobic septic system and/or demolition. If the Reconstruction includes costs for an aerobic septic system and/or demolition, the total construction costs cannot exceed $73.00 per square foot exclusive of the aerobic septic system and demolition costs; and,*
>
> *(2) Rehabilitation that is not Reconstruction: $30,000.*

This recommended change necessitates a change to 53.32 (f) and (i) due to the references to construction costs associated with reconstructed units and the delineation between construction costs and soft costs. Staff has included the following proposed changes in the Rule:

(f) The maximum amount of assistance for Rehabilitation that is not Reconstruction is the total of the construction costs and soft costs provided to an eligible Person with Disabilities Household that is also using funds for acquisition and is limited to $20,000. Rehabilitation assistance must be utilized for accessibility modifications to the unit.

(i) When an MHU is being replaced with newly constructed housing (site-built) or any housing unit being replaced on an alternate site, the maximum amount of assistance is the total of construction costs and soft costs provided to an eligible Household. The total construction costs are limited to:

> *(1) Rehabilitation that is Reconstruction: The lesser of $73.00 per square foot or $80,000, if the Reconstruction includes actual costs for an aerobic septic system and/or demolition. If the Reconstruction includes costs for an aerobic septic system and/or demolition, the total construction costs cannot exceed $73.00 per square foot exclusive of the aerobic septic system and demolition costs.*

§53.32. (b) Homebuyer Assistance Program (HBA)

Language in Draft Rule: *(b) Eligible property types are limited to single family dwellings, condominium units and cooperative units in mutual housing projects. An MHU is not an eligible property type for Rehabilitation. HOME funds may be used to replace (Reconstruct) an ~~owner-occupied housing~~ existing unit with a new MHU or Modular Home if:*
(1) the unit complies with standards at 24 CFR §92.205 and with the Texas Manufactured Housing Standards Act~~, §19(1)~~;

(2) the unit is permanently installed;
(3) the unit is permanently attached to utilities; and
(4) the ownership of the unit is recorded in the taxing authority of the county in which it is located.

Comment:
Commenter requests clarification on whether HOME funds should be allowed to be used to assist first time home buyers in acquiring an existing Manufactured Housing Unit (MHU) if no repairs are required and the unit passes inspection requirements as evidenced by a final inspection performed by an approved inspector. (8)

Staff Response:
It has been the Department's practice to limit acquisition only activities to new Manufactured Housing Units only. Staff is concerned that allowing the use of homebuyer assistance toward existing units, without research or more background information, will result in investment of funds toward substandard units. In order to be of the most benefit to the homeowner, inspection and/or physical standards would have to be developed. Staff will take the recommendation under advisement, but will need to research further before providing recommendations to the Board for a rule change. To clarify the requirement, staff recommends the following rule change:

(b) Eligible property types are limited to single family dwellings, condominium units and cooperative units in mutual housing projects. An new MHU is an eligible property type for acquisition only. An MHU is not an eligible property type for Rehabilitation. HOME funds may be used to replace (Reconstruct) an ~~owner-occupied housing~~ existing unit with a new MHU or Modular Home if:
(1) the unit complies with standards at 24 CFR §92.205 and with the Texas Manufactured Housing Standards Act~~, §19(1)~~;
(2) the unit is permanently installed;
(3) the unit is permanently attached to utilities; and
(4) the ownership of the unit is recorded in the taxing authority of the county in which it is located.

§53.32 (e) Homebuyer Assistance Program (HBA)
Language in Draft Rule: *(e) The maximum amount of assistance (including soft costs), unless otherwise specified in the NOFA, to an eligible Household for downpayment and closing cost assistance is the lesser of based on Household size and AMFI as follows:*

(1) $15,000 for For Persons with Disabilities: $15,000; or
(2) For a 1 to 4 Person Household at 80% or less of the AMFI: $10,000;
(3) For a 5 or more Person Household at 80% or less of the AMFI purchasing a house with a minimum of 4 bedrooms: $15,000;
(4) For a 1 to 4 Person Household at 60% or less of the AMFI: $15,000; and
(5) For a 5 or more Person Household at 60% or less of the AMFI purchasing a house with a minimum of 4 bedrooms: $20,000.

Comment:
Commenter states that for homebuyer assistance, a $10,000 cap is not enough for underwriting the cost of housing particularly in markets where housing is very limited. The entity must exclusively go to reconstruction and then needs all of the possible subsidy to make it possible for first-time homebuyers who are low income. (11)

Commenter suggests that to make an impact and drive the program out to the rural areas, the Department should provide $15,000 worth of assistance for areas within an MSA and $20,000 for areas outside the MSA. An additional recommendation would be to provide a base of $10,000 in homebuyer assistance for existing housing and then provide $20,000 for new construction, since new construction is more expensive. (8)

Commenter suggests eliminating separate award amount for persons with disabilities as having a disability does not equate to any financial status or need and concludes if a particular property needs to be retrofitted to address ease of accommodation, it is eligible under Paragraph (f) as an acquisition and rehabilitation. (8)

Staff Response:
Staff recognizes the points made by the commenter, especially as they relate to AMFI comparisons and since this recommendation would result in a higher amount of assistance in rural areas, staff concurs and recommends a change (highlighted below) to the proposed rule as follows:

(e) The maximum amount of assistance is the total of the downpayment and closing cost assistance and soft costs provided to an eligible Household. The total amount of downpayment and closing cost assistance is limited to:

(1) For Persons with Disabilities: $15,000; or

(2) For Households assisted in a non-Participating Jurisdiction: $20,000.

This recommended change necessitates a change to 53.32 (g) and (l) due to the references to acquisition and closing cost assistance associated with acquisition activities and the delineation between assistance costs and soft costs. Staff has included the following proposed changes in the Rule:

(g) The maximum amount of assistance is the total of the acquisition, closing, and soft costs provided to an eligible Household for a contract for deed conversion and is limited to $25,000. In the case of a contract for deed conversion housing unit that involves both the acquisition of a loan on an existing MHU and/or the loan for the associated land, the Executive Director may grant an exception to exceed this amount, however, the Executive Director will not grant an exception to exceed $40,000 of assistance.

(l) The total amount of assistance less soft costs under this section and Program Activity, including Rehabilitation and activities involving contract for deed conversion, an MHU being

replaced with newly constructed housing (site-built), and a housing unit being replaced on an alternate site, will be provided in the form of a zero percent (0%) deferred, forgivable Loan with a term based on the federal affordability requirements as defined in 24 CFR §92.254.

§53.32 (m) Homebuyer Assistance Program (HBA)

Language in the Draft Rule: *(m) The following first lien purchase loan requirements are imposed for households receiving Homebuyer Assistance:*
(1) No adjustable rate mortgage loans (ARMs) are allowed;
(2) No mortgages with a loan to value equal to or greater than 100% are allowed;
(3) No Subprime Mortgage Loans are allowed;
(4) An origination fee and any other fees associated with the mortgage loan may not exceed 2% of the loan amount; and
(5) The debt to income ratio (back-end ratio) may not exceed 45%.

Comment:

Commenter asks that we add "No 3-2-1 or 2-1 interest rate buydowns are allowed" to this section of the rule. If a lender is going to provide a discount rate and a discounted interest rate, then it should be for the life of the loan, not for two or three years, in which case all we're doing is delaying the default for two or three years. The recommendation would be to prohibit two-one buy-downs or three-two-one buy-downs in this program, at least until the market turns around. (8)

Commenter asks that we add "An origination fee and any other non-pass through fees associated with the mortgage loan may not exceed 2% of the mortgage loan amount for origination and discount fees and 1% of the mortgage loan amount for other non-pass through fees" to this section of the rule. Currently, there is a 1 percent origination fee and generally there is a 1 percent or maybe a 2 percent discount fee to discount the interest rate for the homebuyer. This is not an incentive to participate in the program. The suggestion would be to increase at least the minimum to a 3 percent total and provide putting more leeway for the mortgage lender to provide discount points to lower the interest rate. (8)

Staff Response:

Staff concurs with the interest rate buy-down comments and recommends a change (highlighted below) to the proposed rule below. Staff also recommends clarifying other fees but does not recommend an increase in the fees a lender is able to charge above that which is proposed in the Rule.

§53.32 (m) Homebuyer Assistance Program
The following first lien purchase loan requirements are imposed for households receiving Homebuyer Assistance:

> *(1) No adjustable rate mortgage loans (ARMs) or interest rates buydown loans are allowed;*
>
> *(2) No mortgages with a loan to value equal to or greater than 100% are allowed;*

(3) No Subprime Mortgage Loans are allowed;

(4) An origination fee and any other fees associated with the mortgage loan (other than fees reimbursed to third-parties) may not exceed 2% of the loan amount; and

(5) The debt to income ratio (back-end ratio) may not exceed 45%.

§53.45 (d) Rental Housing Development (Multifamily) Application Requirements. Administrative Change

Language in the Draft Rule: *(d) Unless further restricted or amended by the NOFA, Applications must comply with all of the current Qualified Allocation Plan and Rules in effect at the time of application's submission at 10 TAC §49.9 (h), excluding subsections ~~(4)(A)~~, ~~(4)(I)~~, (4)(J), (11), (12), 14(G) and (15).*

Staff Recommendation:

Staff would like to remove the exclusion on subsections (4)(A) and (4)(I) for the HOME program as currently HOME NOFAs are available in open application cycles based on a first-come, first-served basis and the NOFAs clarify that third-party reports are due at the time of application submission, rather than the Housing Tax Credit Program due date.

§53.47 (a)(2) Application and Award Limitations. Administrative Change

Language in Draft Rule: *(a) The Department reserves the right to reduce the amount requested in an Application based on Program Activity or Project feasibility, underwriting analysis, or availability of funds.*

(2) The Contract award amount for disaster relief shall not exceed $520,000, including administrative costs, per state or federally declared disaster, or as may be otherwise allowed by the Board. Only one Application per affected Unit of General Local Government may be submitted for each declared disaster. Public Housing Authorities (PHAs) and Nonprofit organizations may only act as an Applicant, in lieu of the Unit of General Local Government, if they are so designated by the affected Unit of General Local Government. If the disaster is a federally declared disaster, the Applicant may not submit an application or be funded until 90 days have expired from the federal declaration date. Applications for disaster relief will only be accepted within six (6) months after the first day assistance under this program is made available.

Staff Recommendation:

This administrative change recommended is to be added to this section by staff provides clarification on the contract award amount and is adjusted to reflect the amount of administrative funds associated with the contract.

§53.48 Application Review Process

Comment:
Commenter recommends green building criteria be expanded to encourage that rehabilitation of existing homes be as energy efficient as possible, suggesting that language be added in Subchapter D involving green building criteria that could be awarded special consideration. For example under 53.48 (2) (A), language could be added such as "Applications that are able to offer Green Building Amenities, such as those QAP Sections 49.9 (h) (4) (A) (ii) (XXV) and Section 49.9 (i) (17), will be given special consideration." (16)

Staff Response:
If recommended and implemented at this time, the change would not be vetted properly through the rulemaking process. Additionally, since HOME funds are currently available through a non-competitive first-come, first-served basis, there are no points to be applied to this type of criteria and staff is uncertain of the definition of 'special consideration' as proposed by the commenter. No change is recommended is recommended at this time.

§53.72 Pre-Award Costs. Administrative Change

Language in the Draft Rule**:** *(a) Before the effective date of the HOME Contract, the Contract Administrator may incur and be reimbursed for travel costs, as provided for with Administrative funds, related to mandatory implementation training required by the Department as a condition of receiving a HOME award and Contract.*

Staff Recommendation:
This administrative change recommended to be added to this section by staff provides clarification on the types of costs eligible for reimbursement according the the federal regulations and allows for reasonable reimbursement of costs associated with the program.

(b) Department authorized pre-award costs for predevelopment costs, including but not limited to legal, architectural, engineering, appraisal, surveying, environmental, and market study fees, may be paid if incurred before the effective date of the Contract if the costs are in accordance with 24 C.F.R. § 92.212 and at the sole discretion of the Department.

§53.74 (a)(6) Contract Amendments

Language in Draft Rule: *(6) Increase in funds. In the case of a modification or amendment to the dollar amount of the Contract, such modification or amendment does not increase the dollar amount by more than 25% of the original Contract or $50,000, whichever is greater. Modifications and/or amendments that increase the dollar amount by more than 25% of the original Contract or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval.*

Staff Recommendation:

Since the recommendation included in §53.1 will result in amendment requests to increase the contract amount by more than 25% because of the increased maximum amount of costs associated per housing unit for the OCC and HBA programs, staff recommends the Board allow the Executive Director to approve any increases greater than 25% of the original Contract or $50,000 which are a result of an amendment to be governed by this adopted rule. Staff recommends the following change to the proposed Rule:

(6~~2~~) Increase in funds. In the case of a modification or amendment to the dollar amount of the Contract, such modification or amendment does not increase the dollar amount by more than 25% of the original Contract or $50,000, whichever is greater. Modifications and/or amendments that increase the dollar amount by more than 25% of the original Contract or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval~~.~~, except for increases that result in a dollar amount increase that is more than 25% of the original Contract amount on an existing Contract for which an Administrator has requested an amendment to be governed by all provisions of this Chapter as allowed in Section 53.1 of this Chapter.

§53.80 (e)(1) Documents Supporting Mortgage Loans. Administrative Change

Language in Draft Rule: *(1) ~~(2)~~ A title report ~~commitment~~ no older than ninety (90) days that evidences Homeownership and no tax lien, no child support lien, no mechanic's lien ~~or~~ and no materialmen's lien;*

(2) ~~(3)~~ Tax certificate ~~no older than ninety (90) days~~ that evidences a current paid status, and in the case of delinquency, evidence of an approved payment plan with the taxing authority and evidence that the payment plan is current;

Staff Recommendation:

These administrative changes (highlighted above) are recommended to clarify the requirements for these documents.

(1) ~~(2)~~ A title report that evidences eligible forms of homeownership pursuant to Section 53.31(b) of this Chapter ~~commitment no older than ninety (90) days that evidences Homeownership~~ and no tax lien, no child support lien, and no mechanic~~'~~s or ~~and no~~ materialma~~e~~n~~'~~s lien.~~;~~ The title report must be a non-insurance report of the property from the current owner's date of the last deed vesting title to the present, including complete deed information; grantees, grantors, execution and recording dates, recording references, and legal description, as well as all open mortgages/deed of trusts;

§51.18 General Contract Administration. Administrative Change

Language in Draft Rule: *All Administrators and Development Owners must use the forms provided on the Department's website and comply with the Department's procedural and* *documentation requirements as outlined in the Program Manual and in this section including~~,~~ ~~but not limited to~~:*

(16) ~~(15)~~ Ensure and verify that each building construction contractor performing activities in the amount of $10,000 or more under the Contract is registered and maintains good standing with the Texas Residential Construction Commission~~ in accordance with 16 TAC, Subtitle C, §16.001~~ in accordance with Chapters 401 and 416 of the Texas Property Code;

(17) ~~(16)~~ Ensure and verify that each housing unit being rehabilitated in the amount of $10,000 or more under the Contract is registered with the Texas Residential Construction Commission~~ in accordance with 16 TAC, Subtitle C, §426.003~~ in accordance with Section 426.003 of the Texas Property Code;

(21) ~~(20)~~ Conduct appropriate property inspections and documentation in accordance with applicable program requirements. Ensure compliance with the Texas Residential Construction Commission inspection requirements under Title 16 of the Texas Property Code;

Staff Recommendation:
These administrative changes (highlighted above) are recommended to clarify the contract administration requirements to ensure compliance with the Texas Residential Construction Commission requirements.

§53.85 (a)(1) Administrative and Soft Costs Limitations. Administrative Change
Language in Draft Rule: *(1) Administrator must use funds for Administrative Costs in accordance with 24 CFR §92.207. For the OCC, HBA, and contract for deed conversion Program Activities, funds for Administrative Costs cannot exceed 4% of the ~~Contract award for~~ total project costs for the entire Contract term. For the TBRA Program Activity, funds for Administrative Costs cannot exceed 4% of the ~~Contract award for~~total project funds per year of the Contract term. For Program Activities that are serving Persons with Disabilities, funds for Administrative Costs cannot exceed 6% of the total project costs for the entire Contract term.*

Staff Recommendation:
This administrative change (highlighted above) is recommended by staff to provides clarity regarding the amount of administrative funds available for the various contract and program types. The 6% administrative costs for contracts serving Persons with Disabilities was previously established and approved in the One Year Action Plan.

§53.85 Figure 10 TAC 53.85(a)(6) Administrative and Soft Costs Limitations.
Language in Draft Rule:

OCC and HBA with Rehabilitation	Reconstruction	Rehabilitation
Project Soft or Administrative Cost per ACTIVITY		

Application intake and processing	$ 600	$ 600
Credit Report	$ 50	$ 50
Construction and disbursement documentation preparation	$ 250	$ 250
Environmental review	$ 400	$ 400
Exempt administrative environmental	$ 50	$ 50
Final inspection	$ 300	$ 300
Information services	$ 4~~2~~00	$ ~~-~~4~~2~~00
Initial inspection	$ 500	$ 500
Procurement of contractor	$ 300	$ 300
Progress inspections (up to 7 at $~~200~~ 300 max each, minimum of 4 required)[1]	$ 2,100	$ 2,100
Pre-construction conference	$ 300	$ 300
Project document preparation	$ 100	$ 100
Punch list verification inspection	$ 300	$ 300
Schedule of values	$ 100	$ 100
Work write-up	N/A	$ 500[2]
Work write-up summary/cost estimate	$ 400[2]	$ 400[2]
Administrative Cost Only per CONTRACT		
Affirmative marketing plan	$ 200	$ 200
Financial management	$ 200	$ 200
Procurement of professional service provider	$ 300	$ 300
Recordkeeping	$ 800	$ 800
Project Soft Cost Only per ACTIVITY ~~or CONTRACT~~		
Plans (market value)	N/A	$ 200
Plans and specification manual (market value)	$700 ~~2,000~~[2,~~3~~]	N/A
Specification manual	N/A	$ 200

[1] A maximum of two (2) progress inspections are allowed when a housing unit is replaced with an MHU.

[2] Work write-up, Work write-up summary/cost estimate, p~~P~~lans and specifications are not ~~an~~ allowable costs when a housing unit is replaced with an MHU.

~~[3]Plans and specification manual is limited to $2,000 per Contract.~~

Comment:
Commenter states that to allow for adequate funds in the two categories of administrative and soft costs to manage projects, an overall increase of approximately $5,000 per grant is needed. (7)

Staff Response:
While administrative funds are based on a per contract amount, the soft cost limitations are based on a per project basis. Futhermore, an overall increase of $5,000 per grant is not justified or evaluated for cost reasonableness. No change is recommended.

Comment:
Commenter requests an increase in costs for Application Intake and Processes from $600 to $800 per Activity. Commenter states this line item requires extensive time to meet with all prospective applicants, often on numerous occasions. The process requires much personal assistance, which many times due to age or educational experience, must be assisted as the applicant cannot collect the required documentation themselves. Additionally, due to the length of time it takes to move through bidding and loan process, often re-verification of income has to occur. (10)

Staff Response:
Staff has carefully examined this proposed increase and due to lack of substantial data and the $100 increase already proposed, does not recommend a change to the Rule at this time.

Comment:
Commenter requests an increase in the cost for Construction and Disbursement Documentation Preparation from $250 to $400 per Activity. Commenter states this line item includes preparing subcontracts between the Contract Administrators and builders (which was not required before the CA became the contractor). This estimate also includes draw and match preparation, which can be a lengthy process. Additionally, each project now includes three hard cost draws at fifty percent (50%) construction complete, one hundred percent (100%) construction complete and final ten percent (10%) retainage. (10)

Staff Response:
The definition of this line item does not include the preparation of subcontracts between the Contract Administrator and builder. The line item consists primarily of data entry into the Department's Contract System and the completion of contract templates required for draw processing. Staff has reviewed the request and does not recommend a change.

Comment:
Commenter requests an increase to the cost for Environmental Reviews from $400 to $500 per Activity. Commenter states that this recommendation more accurately reflects the time and documentation required to complete the tiering process which involves both an overall review of the area and site specific reviews of each property. (10)

Staff Response:
Staff has reviewed the request and is of the opinion that $400 per Activity to complete the environmental review requirements is sufficient. This amount is also very reasonable when compared to historical requests for reimbursements for this type of soft cost, for which the documentation requirements have not increased. No change recommended at this time.

Comment:
Commenter requests an increase in the cost to provide Information Services from $200 to $600 per Activity. Commenter states that this recommendation is the most undervalued on the list because from the time the home is completed and turned over to the assisted homeowner, each family requires much personal attention and many hours of communication and assistance. (10)

Staff Response:
This line item is defined as the cost incurred to provide information to homeowners, propective homebuyers and/or tenants and consists primarily of information as it relates to Fair Housing, which is not applicable to OCC, loan procedures, warranties, and lead-based paint notification. While much of the costs associated with time and personal attention spent with homeowners is included in the Application intake and processing line item, staff agrees in part with the recommended increase and proposes changes to increase this line item maximum by $200 as reflected and highlighted in the figure above in order to offset costs incurred with providing homeowners with loan procedures.

§53.85 Figure 10 TAC 53.85(a)(6) Administrative and Soft Costs Limitations.
Administrative Change

Staff Recommendation:
The figure above also reflects staff clarification regarding the maximum amount of project soft costs associated with the plans and specification manual (change is highlighted). Staff has researched this cost and is making a recommended change to this line item maximum based on information obtained from the *Marshall and Swift Residential Cost Handbook* and historical reimbursement requests.

Recommendation

Staff recommends Board approval of the Repeal of 10 TAC Chapter 53, HOME Investment Partnerships Program Rule, and final order adopting new 10 TAC Chapter 53, HOME Program Rule.

DRAFT
Board Review Pending

Texas Department of Housing and Community Affairs
“HOME Program Rule”

TITLE 10, Part 1, Chapter 53, Texas Administrative Code

Subchapter A. GENERAL

§53.1. Purpose

This Chapter clarifies the use and administration of all funds provided to the Texas Department of Housing and Community Affairs (Department) by the United States Department of Housing and Urban Development (HUD) pursuant to Title II of the Cranston-Gonzalez National Affordable Housing Act of 1990 (42 USC §§12701-12839) and HUD regulations at 24 CFR, Part 92. All provisions of this Chapter apply to any Application received on or after the date of adoption of this Chapter by the Department's Board. Existing Contracts or Applications received prior to the date of adoption of this Chapter may be amended in writing at the request of the Administrator or Applicant, and with Department approval, to subject the Contract or Application to all provisions of this Chapter. Amendments proposing only partial adoption of this Chapter are prohibited and no amendment adopting this Chapter shall be granted if, in the discretion of the Department, any of the provisions of this Chapter conflict with the NOFA under which the existing Contract was awarded or Application was submitted. The State's HOME Program is designed to:

(1) focus on the areas with the greatest housing need described in the State Consolidated Plan;

(2) provide funds for home ownership and rental housing through acquisition, new construction, rehabilitation, tenant-based rental assistance, and pre-development loans;

(3) promote partnerships among all levels of government and the private sector, including non-profit and for-profit organizations; and

(4) provide low, very low, and extremely low income families with affordable, decent, safe and sanitary housing.

§53.2. Definitions

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.

(1) Act--HOME Investment Partnership Act at Title II of the Cranston-Gonzalez National Affordable Housing Act as amended, at 42 USC §§12701, et seq.

(2) Activity--A single housing unit with a unique physical address. An activity may also refer to an individual Project or site.

(3) Administrative Deficiencies--The absence of information or a document from the application as required in this Chapter or applicable NOFA.

(4) Administrator--The Person responsible for performing under a Contract with the Department.

(5) Affiliate--An individual, corporation, partnership, joint venture, limited liability company, trust, estate, association, cooperative or other organization or entity of any nature whatsoever that directly, or indirectly through one or more intermediaries, Controls, is Controlled by, or is under common Control with any other Person, and specifically shall include parents or subsidiaries. Affiliates also include all General Partners, Special Limited Partners and Principals with an ownership interest.

(6) Affiliated Party--A person in a relationship with the Administrator on a Contract with the Department.

(7) Annual Income--As defined in 24 CFR §92.203.

(8) Applicant--A Person who has submitted to the Department an Application for Department funds or other assistance.

(9) Application--A request for funds submitted to the Department in a form prescribed by the Department, including any exhibits or other supporting material.

(10) Application Acceptance Period--The period of time that Applications may be submitted to the Department as more fully described in the applicable NOFA.

(11) Application Submission Procedures Manual (ASPM)--The manual that sets forth the procedures, forms, and instructions for the completion and submission of an Application to the Department.

(12) Area Median Family Income (AMFI)--The income estimated and determined by HUD as the median family income with adjustments for family size and geographic locations.

(13) Articles of Incorporation--The document that sets forth the basic terms for a corporation's existence and is the official recognition of the corporation's existence.

(14) Board--The governing board of the Texas Department of Housing and Community Affairs.

(15) Business Plan--The written document that for the purposes of CHDO certification outlines the CHDO's plan for developing eligible housing activities, its internal operations, and citizen participation process.

(16) Bylaws--A rule or administrative provision adopted by a corporation for its internal governance. Bylaws are enacted apart from the Articles of Incorporation. Bylaws and amendments to Bylaws must be formally adopted in the manner prescribed by ~~the organization's Articles of Incorporation or~~ current Bylaws by either the organization's board

of directors or the organization's members, whoever has the authority to adopt and amend Bylaws.

(17) CFR--Code of Federal Regulations.

(18) Chapter 2306--The enabling statute for the Department found in the Texas Government Code.

(19) CHDO Service Area--A Community in which a CHDO owns, developed and/or sponsored CHDO eligible housing activities for the low income residents of the city/place or county they serve.

(20) Colonia--A geographic area that is located in a county some part of which is within 150 miles of the international border of this state that consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood, and that:

(A) Has a majority population composed of individuals and families of low income and very low income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed area under §17.921, Texas Water Code; or

(B) Has the physical and economic characteristics of a Colonia, as determined by the department.

~~(21) Colonia Housing Standards--The Department's HUD approved housing standards that allow Colonia residents the opportunity to rehabilitate their homes when located in a designated Colonia.~~

(21) ~~(22)~~ Community--Urban areas means one or several Neighborhoods, a city, a county, or a metropolitan area and for Rural Areas means one or several Neighborhoods, a town, a village, a county or multi-county area, but not the whole state. For purposes of this Chapter, the Applicant should clearly define the area. For example, the city of Dallas would not include all of Dallas and Collin counties but Dallas and Collin counties would include the city of Dallas.

(22) ~~(23)~~ Community Housing Development Organization (CHDO)--A private nonprofit, community-based service organization that has obtained or intends to obtain staff with the capacity to develop affordable housing for the community it serves in accordance with 24 CFR §92.2 and which is certified as such by the Department. To be certified as a CHDO by the Department, the organization must act in the capacity of Developer, Owner or Sponsor as defined in this chapter.

(23) ~~(24)~~ Community Housing Development Organization (CHDO) Developer--The CHDO:

(A) Either owns a Property and develops a Project, or has a contractual obligation to a property owner to develop a Project; and

(B) Performs all the functions typically expected of for-profit Developers, and assumes all the risks and rewards associated with being the Project Developer.

(i) For RHD, the CHDO must obtain financing, and Rehabilitate, Reconstruct or construct the Project. If it owns the Property, the CHDO may maintain ownership and manage the Project over the long term. If it does not own the Property, the CHDO must enter into a contractual obligation with the property owner. This contractual obligation is independent of the PJ.

(ii) For HBA, the CHDO must obtain Project financing, Rehabilitate, Reconstruct or construct the dwelling(s), and have title of the property and the HOME loan/grant obligations transferred to a HOME-qualified homebuyer within a specified timeframe. If it does not own the Property, the CHDO must enter into a contractual obligation with the property owner. This contractual obligation is independent of the PJ.

(24) ~~(25)~~ Community Housing Development Organization (CHDO) Owner--The CHDO holds valid legal title to or has a long-term (99-year minimum) leasehold interest in a rental Property. The CHDO may be a Development Owner with one or more Persons. If it owns the Project in partnership, it or its wholly-owned nonprofit or for-profit subsidiary must be the managing General Partner with effective control (i.e., decision-making authority) of the Project. The CHDO may be both Development Owner and Developer, or may have another entity as the Developer.

(25) ~~(26)~~ Community Housing Development Organization (CHDO) Sponsor--The CHDO:

(A) For RHD, the CHDO may develop a Project that it solely or partially owns and agrees to convey ownership to a second non-profit organization at a predetermined time prior to or during Development or upon completion of the Development of the Project. The HOME funds are invested in the Project owned by the CHDO. The CHDO Sponsor selects prior to commitment of HOME funds the non-profit organization that will obtain ownership of the Property. The non-profit assumes from the CHDO the HOME obligation (including any repayment of loans) for the Project at a specified time. If the Property is not transferred to the non-profit organization, the CHDO Sponsor remains liable for the HOME loan/grant obligation. The non-profit organization must be financially and legally separate from the CHDO Sponsor. The CHDO Sponsor must provide sufficient resources to the non-profit organization to ensure the Development and long-term operation of the Project.

(B) For HBA, the CHDO owns a Property, then shifts responsibility for the Project to another nonprofit at some specified time in the Development process. The second nonprofit, in turn, transfers title along with the HOME loan/grant obligations and recapture requirements to an Income Eligible Household within a specified timeframe. The HOME funds are invested in the Property owned by the CHDO. The other nonprofit being sponsored by the CHDO acquires the completed units, or brings to completion the Rehabilitation or construction of the Property. At completion of the Rehabilitation or construction, the second nonprofit is required to sell the Property along with the HOME loan/grant obligations to an Income Eligible Household.

(C) For either type of sponsorship, the CHDO must own the Property prior to the development phase of the project.

(26) ~~(27)~~ Community Housing Development Organization Pre-Development Loan--A form of assistance in which funds are made available as loans to cover those costs outlined in 24 CFR §92.301.

(27) ~~(28)~~ Competitive Application Cycle--A defined period of time that Applications may be submitted according to a published Notice of Funding Availability (NOFA) that will include a submission deadline and selection or scoring criteria. Applications will be reviewed in accordance with the rules for application review published in the NOFA and the ASPM.

(28) ~~(29)~~ Conflict of Interest--A conflict between the private interests and the official responsibilities of a Person in a position of trust, as specified in 24 CFR §92.356.

(29) ~~(30)~~ Consolidated Plan--The State Consolidated Plan prepared in accordance with 24 CFR, Part 91, which describes the needs, resources, priorities and proposed activities to be undertaken with respect to certain HUD programs and is subject to approval annually by HUD.

(30) ~~(31)~~ Contract--The executed written agreement between the Department and an Administrator or Development Owner performing an activity related to a program that outlines performance requirements and responsibilities assigned by the document.

(31) ~~(32)~~ Control--The possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any Person, whether through the ownership or voting securities, by contract or otherwise, including specifically ownership of more than 50% of the General Partner interest in a limited partnership, or designation as a managing General Partner of a limited liability company.

(32) Council of Governments (COG)--A regional body which serves an area of several counties to address regional planning including but not limited to transporation planning, economic and community development, information gathering and processing, hazard mitigation and emergency preparedness, and water and environmental planning.

(33) Deobligated Funds--The funds released by an Administrator or Development Owner or recovered by the Department canceling a Contract or award involving some or all of a

contractual financial obligation between the Department and an Administrator or Development Owner.

(34) Department--The Texas Department of Housing and Community Affairs.

(35) Developer--Any Person entering into a contract with the Development Owner to provide development services with respect to the Development and receiving a fee for such services and any other Person receiving any portion of such fee, whether by subcontract or otherwise.

(36) Development--A Project that has a construction component, either in the form of New Construction or Rehabilitation of multi-unit or single family residential housing.

(37) Development funding--

> (A) A loan or grant; or
>
> (B) An in-kind contribution, including a donation of real Property, a fee waiver for a building permit or for water or sewer service, or a similar contribution that:
>
> > (i) provides an economic benefit; and
> >
> > (ii) results in a quantifiable cost reduction for the applicable Development.

(38) Development Owner--Any Person, General Partner, or Affiliate of a Person who owns or proposes a Development or expects to acquire Control of a Development under a purchase contract approved by the Department and is the Person responsible for performing under the Contract with the Department.

(39) Development Site--The area, or if scattered site, areas, for which the Development is proposed to be located and is to be under the Development Owner's Control.

(40) Executive Award and Review Advisory Committee (EARAC)--The Department committee that will develop funding priorities and make funding and allocation recommendations to the Board based upon the evaluation of an Application in accordance with the housing priorities as set forth in Chapter 2306 of the Texas Government Code, and as set forth herein, and the ability of an Applicant to meet those priorities.

(41) Expenditure--An approved expense evidenced by documentation submitted by the Administrator or Development Owner to the Department for purposes of drawing funds from HUD's IDIS for work completed, inspected and certified as complete, and as otherwise required by the Department.

(42) Family--Includes but is not limited to the following types of families as defined in 24 CFR §5.403:

> (A) A family with or without children;

(B) An elderly family;

(C) A near elderly family;

(D) A disabled family;

(E) A displaced family;

(F) The remaining member of a tenant family; or

(G) A single person who is not an elderly or displaced person or a person with disabilities or the remaining member of a tenant family.

(43) Feasibility Analysis--The process of performing a budgetary justification for Reconstruction which compares the cost of Rehabilitation to the replacement costs of a housing unit for the purposes of OCC.

(44) FHA 203(b) Mortgage Limits ("203(b) Limits")--The mortgage limits established under 203(b) of the National Housing Act (12 USC §1709(b) which may be obtained from the HUD Field Office.

(45) Final Rule--The current final rule as published by HUD as 24 CFR, Part 92 with amendments.

(46) General Contractor--A Person who contracts for the construction or Rehabilitation of an entire Development, rather than a portion of the work. The General Contractor hires subcontractors, such as plumbing contractors, electrical contractors, etc., coordinates all work, and is responsible for payment to the subcontractors.

(47) General Partner--A Person or Persons who is identified as the general partner of the partnership that is the Development Owner and that has general liability for the partnership. In addition, unless the context shall clearly indicate the contrary, if the Development Owner in question is a limited liability company, the term "General Partner" shall also mean the managing member or other party with management responsibility for the limited liability company.

(48) Grant--Financial assistance that is awarded in the form of money to a housing sponsor for a specific purpose and that is not required to be repaid. For purposes of this Chapter, a grant includes a forgivable loan.

(49) Homebuyer Assistance Program (HBA)--A Program Activity for the purpose of providing HOME funds for acquisition, acquisition with Rehabilitation, down payment, closing costs, and gap financing assistance provided to Income Eligible Households. Rehabilitation may be combined with HBA to provide contract for deed conversions and assist Person with Disabilities.

(50) HOME--The HOME Investment Partnerships Program at 42 USC §§12701-12839 and the regulations promulgated thereafter at 24 CFR, Part 92.

(51) Household--One or more persons occupying a housing unit (24 CFR §92.2).

(52) HUD--The United States Department of Housing and Urban Development, or its successor.

(53) HUD's Maximum Per-unit Subsidy Amount ("§221(d)(3) L~~l~~imits")--The per-unit dollar limitations established under §221(d)(3)(ii) of the National Housing Act for elevator-type projects that apply to the area in which the housing is located.

(54) IDIS--The electronic grants management information system named the Integrated Disbursement and Information System established by HUD to be used tracking and reporting HOME funding progress.

(55) Income Eligible Households--The federal definition which is:

(A) Low-Income Households--Households whose Annual Incomes do not exceed 80% of the AMFI;~~.~~

(B) Very Low-Income Households--Households whose Annual Incomes do not exceed 50% of the AMFI; and~~.~~

(C) Extremely Low Income Households--Households whose Annual Incomes do not exceed 30% of the AMFI.

(56) Intergenerational Housing--Housing that includes specific units that are restricted to the age requirements of a Qualified Elderly Development and specific units that are not age restricted in the same Development that:

(A) Have separate and specific buildings exclusively for the age restricted units;

(B) Have separate and specific leasing offices and leasing personnel exclusively for the age restricted units;

(C) Have separate and specific entrances, and other appropriate security measures for the age restricted units;

(D) Provide shared social service programs that encourage intergenerational activities but also provide separate amenities for each age group;

(E) Share the same Development site;

(F) Are developed and financed under a common plan and owned by the same Person for federal tax purposes; and

(G) Meet the requirements of the federal Fair Housing Act.

(57) Land Use Restriction Agreement (LURA)--An agreement between the Department and a Person related to a specific Property or Properties which is ~~binding upon a Person's successors in interest,~~ filed with the responsible recording authority~~, and encumbers the Property with respect to requirements in this Chapter, Chapter 2306 of the Texas Government Code and the Final Rule~~.

(58) Loan--Financial assistance that is awarded in the form of money and an executed written agreement between the Department and Person for a specific purpose and that is required to be repaid.

(59) Manufactured Housing Unit (MHU)--As defined by HUD at 24 CFR 3280.2 ~~is~~ a structure transportable in one or more sections which, in traveling mode, is 8 body-feet or more in width or 40 body-feet or more in length, or when erected on site, is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities ~~facilities~~, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein.

(60) Match--Eligible forms of non-federal contributions to a Program Activity or Project in the forms specified in 24 CFR §92.220, CPD Notice 97-03 and the Department's Match Guide.

(61) Material Noncompliance--A~~a~~s is defined in~~ 10 TAC,~~ Chapter 60, Subchapter A of this title.

(62) Modular Housing--As defined by HUD is a home built in sections in a factory to meet state, local, or regional building codes. Once assembled, the modular unit becomes permanently fixed to one site.

(63) Mortgagor--The Person who borrows money and uses his or her real property as collateral and security for the payment of the debt.

(64) Neighborhood--As defined by HUD, a geographic location designated in comprehensive plans, ordinances, or other local documents as a neighborhood, village, or similar geographical designation that is within the boundary but does not encompass the entire area of a Unit of General Local Government; except that if the unit of general local government has a population under 25,000, the neighborhood may, but need not, encompass the entire area of a Unit of General Local Government (24 CFR §92.2).

(65) New Construction--Any Development not meeting the definition of Rehabilitation.

(66) NOFA--Notice of Funding Availability, published in the Texas Register.

(67) Nonprofit organization--A public or private organization that:

(A) Is organized under state or local laws;

(B) Has no part of its net earnings inuring to the benefit of any member, founder, contributor, or individual;

(C) Has a current tax exemption ruling from the Internal Revenue Service (IRS) under §501(c)(3), a charitable, nonprofit corporation, or §501(c)(4), a community or civic organization, of the Internal Revenue Code of 1986, as evidenced by a certificate from the IRS that is dated 1986 or later. The exemption ruling must be effective on the date of the application and must continue to be effective throughout the length of any contract agreements; or classification as a subordinate of a central organization non-profit under the Internal Revenue Code, as evidenced by a current group exemption letter, that is dated 1986 or later, from the IRS that includes the Applicant. The group exemption letter must specifically list the Applicant; and

(D) A private nonprofit organization's pending application to the IRS for exemption status under §501(c)(3) or ~~(c)~~(4) status cannot be used to comply with the tax status requirement.

(68) Open Application Cycle--A defined period of time during which Applications may be submitted according to a published NOFA and which will be reviewed on a first-come, first-served basis until all funds available are committed, or until the NOFA is closed, whichever is earlier.

(69) Owner-Occupied Housing Assistance (OCC)--A Program Activity for the purpose of providing HOME funds for the Rehabilitation of existing owner-occupied housing for Income Eligible Households. Housing assistance for disaster relief is provided under this Program Activity.

(70) Participating Jurisdiction (PJ)--Any state or Unit of General Local Government, including consortia as specified in 24 CFR §92.101, designated by HUD in accordance with 24 CFR §92.105.

(71) Person--Any individual, partnership, corporation, association, unit of government, community action agency, or public or private organization of any character.

(72) Persons with Disabilities--A Household composed of one or more Persons, at least one of whom is a Person, who has a disability that is a physical, mental, or emotional impairment that is expected to be of long-continued and indefinite duration, substantially impedes his or her ability to live independently, and is of such a nature that such ability could be improved by more suitable housing conditions. A Person will also be considered to have a disability if he or she has a developmental disability, which is a severe, chronic disability and as further defined at 24 CFR §92.2.

(73) Persons with Special Needs--Individuals or categories of individuals determined by the Department to have unmet housing needs consistent with 42 USC §§12701, et seq. and as provided in the Consolidated Plan and may include any households composed of one or

more persons with alcohol and/or drug addictions, Colonia residents, Persons with Disabilities, elderly, victims of domestic violence, persons with HIV/AIDS, homeless populations, ~~and~~ migrant farm workers, and public housing residents.

(74) Predevelopment Costs--Costs related to a specific eligible Project including:

(A) Predevelopment housing project costs that the Department determines to be customary and reasonable, including but not limited to consulting fees, costs of preliminary financial applications, legal fees, architectural fees, engineering fees, engagement of a development team, site control, and title clearance;

(B) Pre-construction housing project costs that the Department determines to be customary and reasonable, including but not limited to, the costs of obtaining firm construction loan commitments, architectural plans and specifications, zoning approvals, engineering studies and legal fees; and

(C) Predevelopment costs do not include general operational or administrative costs.

(75) Principal--A Person, or Persons, that will exercise Control over a partnership, corporation, limited liability company, trust, or any other private entity. In the case of:

(A) Partnerships, Principals include all General Partners, special limited partners and Principals with ownership interest;

(B) Corporations, Principals include any officer authorized by the board of directors to act on behalf of the corporation, including the president, vice president, secretary, treasurer and all other executive officers, and each stock holder having a ten percent or more interest in the corporation; and

(C) Limited liability companies, Principals include all managing members, members having a ten percent or more interest in the limited liability company or any officer authorized to act on behalf of the limited liability company.

(76) Principal Residence--The primary housing unit a Person or Household inhabits.

(77) Program Activity--The specific purposes for which HOME funds are used and required in the Contract with the Administrator.

(78) Program Income--The gross income received by the Department, Development Owners or Administrators directly generated from the use of HOME funds or matching contributions as further described in 24 CFR §92.2.

(79) Project--A site or an entire building (including a manufactured housing unit), or two or more buildings, together with the site or sites on which the building or buildings are located, that are under common ownership, management, and financing and are to be assisted with HOME funds, under a commitment by the owner, as a single undertaking under 24 CFR §92.2.

(80) Property--The real estate and all improvements thereon which are the subject of the Application (including all items of personal property affixed or related thereto), whether currently existing or proposed to be built thereon in connection with the Application.

(81) Qualified Elderly Development--A Development which meets the requirements of the federal Fair Housing Act and:

(A) Is intended for, and solely occupied by, individuals 62 years of age or older; or

(B) Is intended and operated for occupancy by at least one individual 55 years of age or older per unit, where at least 80% of the total housing units are occupied by at least one individual who is 55 years of age or older; and where the Development Owner publishes and adheres to policies and procedures which demonstrate an intent by the owner and manager to provide housing for individuals 55 years of age or older.

(82) Qualified Market Analyst--A real estate appraiser certified or licensed by the Texas Appraiser Licensing and Certification Board, a real estate consultant, or other professional currently active in the subject property's market area who demonstrates competency, expertise, and the ability to render a high quality written report. The individual's performance, experience, and educational background will provide the general basis for determining competency as a market analyst. Competency will be determined by the Department, in its sole discretion. The Qualified Market Analyst must be a Third Party.

(83) Received Date--The date and time that an Application is physically received by the Department.

(84) Rehabilitation--The improvement or modification of an existing residential development through an alteration, addition, or enhancement. The term includes the demolition of an existing residential development and the Reconstruction of any development units, but does not include the improvement or modification of an existing residential development for the purpose of an adaptive reuse of the development. In accordance with the federal definition of Reconstruction at 24 CFR §92.2, the term also means the demolition and rebuilding, on the same lot, of housing standing on the site at the time of commitment of HOME funds. The number of units on the lot may not be decreased or increased as part of the rehabilitation, but the number of rooms per unit may be increased or decreased. Rehabilitation also includes replacing an existing substandard MHU with a new MHU.

(85) Rental Housing Development (RHD)--A Program Activity and Project for the purpose of providing HOME funds for the acquisition, New Construction or Rehabilitation of multi-family or single family rental housing, or conversion of commercial property to rental housing for Income Eligible Households.

(86) Rural area--An area that is located:

(A) Outside the boundaries of a primary metropolitan statistical area or a metropolitan statistical area;

(B) Within the boundaries of a primary metropolitan statistical area or a metropolitan statistical area, if the statistical area has a population of 25,000 or less and does not share a boundary with an urban area; or

(C) In an area that is eligible for funding by the Texas Rural Development Office of the United States Department of Agriculture, other than an area that is located in a municipality with a population of more than 50,000.

(87) Rural Development--A Development or proposed Development that is located in a Rural Area, other than rural New Construction Developments with more than 80 units.

(88) Service Area--The city(ies), county(ies) and/or place(s) identified in the Contract that the Administrator will serve.

(89) Set-Aside--A statutory or federally mandated reservation of a portion of available funds or units for specific types of housing priorities, Program Activities or geographic locations.

(90) Single Family Housing Development--A Program Activity and Project for the purpose of providing HOME funds for the acquisition, and/or New Construction or Rehabilitation of affordable single family housing units Income Eligible Households to acquire homeownership.

(91) State Recipient--A Unit of General Local Government designated by the Department to receive HOME funds.

(92) Subprime Mortgage Loan -- A mortgage loan that is made at a higher interest rate than the prime rate offered by conventional lenders to a Person with higher credit risk characteristics or other underwriting deficiencies.

(93) ~~(92)~~ Subrecipient--A public agency or nonprofit organization selected by the Department to administer all or a portion of the Department's HOME program. A public agency or nonprofit that receives HOME funds solely as a developer or owner of housing is not a Subrecipient. The Department's selection of a Subrecipient is not subject to the procurement procedures and requirements.

(94) ~~(93)~~ TAC--Texas Administrative Code.

(95) ~~(94)~~ Tenant-Based Rental Assistance (TBRA)--A Program Activity for the purpose of providing HOME funds for rental subsidy and security and utility deposit assistance to Income Eligible Households.

(96) ~~(95)~~ Texas Minimum Construction Standard (TMCS)--The program standard used to determine the minimum acceptable housing condition for the purposes of Rehabilitation, New Construction, and acquisition.

(97) ~~(96)~~ Third Party--A Person who is not:

(A) An Applicant, Administrator, Borrower, General Partner, Developer, Development Owner, or General Contractor; or

(B) An Affiliate, Affiliated Party to the Applicant, Administrator, Borrower, General Partner, Developer, Development Owner or General Contractor; or

(C) A Person receiving any portion of the administration, contractor fee or developer fee.

(98) ~~(97)~~ Unit of General Local Government--A city, town, county, or other general purpose political subdivision of the State; a consortium of such subdivisions recognized by HUD in accordance with 24 CFR §92.101 and any agency or instrumentality thereof that is established pursuant to legislation and designated by the chief executive to act on behalf of the jurisdiction. An urban county is considered a unit of general local government under the HOME Program.

(99) ~~(98)~~ Urban Area--The area that is located within the boundaries of a primary metropolitan statistical area other than an area that is described by paragraph (86) of this section.

(100) ~~(99)~~ USC--The United States Code.

§53.3. Ex Parte Communications

(a) During the period beginning on the date project Applications are filed in an application cycle and ending on the date the board makes a final decision with respect to the approval of any Application in that cycle, a member of the Board may not communicate with the following Persons:

(1) an Applicant or a Related Party, as defined by state law, including board rules, and federal law; and

(2) any Person who is:

(A) active in the construction, rehabilitation, ownership, or control of the proposed project, including:

(i) a General Partner or contractor; and
(ii) a Principal or Affiliate of a General Partner or contractor; or

(B) employed as a consultant, lobbyist, or attorney by an Applicant or a Related Party.

(b) Subject to subsection (c) of this section, during the period beginning on the date project Applications are filed in an application cycle and ending on the date the Board makes a final decision with respect to the approval of any Application in that cycle, an employee of the Department may communicate about the Application with the following Persons:

(1) the Applicant or a Related Party, as defined by state law, including board rules, and federal law; and

(2) any Person who is:

(A) active in the construction, Rehabilitation, ownership, or Control of the proposed Project, including:

(i) a General Partner or contractor; and

(ii) a Principal or Affiliate of a General Partner or contractor; or

(B) employed as a consultant, lobbyist or attorney by the Applicant or a Related Party.

(c) A communication under subsection (b) of this section may be oral or in any written form, including electronic communication through the internet, and must satisfy the following conditions:

(1) the communication must be restricted to technical or administrative matters directly affecting the Application;

(2) the communication must occur or be received on the premises of the Department during established business hours; and

(3) a record of the communication must be maintained and included with the Application for purposes of Board review and must contain the following information:

(A) the date, time, and means of communication;

(B) the names and position titles of the Persons involved in the communication and, if applicable, the Person's relationship to the Applicant;

(C) the subject matter of the communication; and

(D) a summary of any action taken as a result of the communication.

(d) Notwithstanding subsection (a) or (b) of this section, a Board member or Department employee may communicate without restriction with a Person listed in subsection (a) or (b) of this section during any board meeting or public hearing held with respect to the Application, but not during a recess or other non-record portion of the meeting or hearing.

(e) Subsection (a) of this section does not prohibit the Board from participating in social events at which a Person with whom communications are prohibited may or will be present, provided that all matters related to Applications to be considered by the Board will not be discussed.

§53.4. Waivers in Disaster Areas

It is the policy of the Department to utilize the waivers granted by HUD in disaster areas unless otherwise specifically stated in any NOFA released.

§53.5. Printed Materials Available

Upon request, any materials identified as available of the Department's website in this Chapter may also be distributed in hard copy.

§53.6. Alternative Dispute Resolution

The Department encourages Persons to use the Alternative Dispute Resolution rules found in §1.17 of this title, to resolve disputes.

§53.7. Compliance Rules

Rental ~~Multifamily~~ Developments (whether single family homes or Developments with four or more units) are subject to the relevant compliance rules found in Chapter 60 of this title.

§53.8. Notice of Receipt of Application or Proposed Application

(a) Not later than the 14th day after the date an Application or a proposed Application for housing funds described by §2306.111 has been filed for multifamily or single family development, the Department shall provide written notice of the filing of the Application or proposed Application to the following Persons:

(1) the United States representative who represents the community containing the Development described in the Application;

(2) members of the legislature who represent the community containing the Development described in the Application;

(3) the presiding officer of the governing body of the political subdivision containing the Development described in the Application;

(4) any member of the governing body of a political subdivision who represents the area containing the Development described in the Application;

(5) the superintendent and the presiding officer of the board of trustees of the school district containing the Development described in the Application; and

(6) any neighborhood organizations on record with the state or county in which the Development described in the Application is to be located and whose boundaries contain the proposed development site.

(b) The notice provided under subsection (a) of this section must include the following information:

(1) the relevant dates affecting the Application, including:

(A) the date on which the Application was filed;

(B) the date or dates on which any hearings on the Application will be held; and

(C) the date by which a decision on the Application will be made;

(2) a summary of relevant facts associated with the development;

(3) a summary of any public benefits provided as a result of the Development, including rent subsidies and tenant services; and

(4) the name and contact information of the employee of the Department designated by the director to act as the information officer and liaison with the public regarding the Application.

§53.9. Environmental Clearance and Loan Closing Are Required Prior to Construction

Administrators and Development Owners must not proceed or allow a contractor to proceed with construction, including demolition, on any Activity, Project or Development without first completing the required environmental clearance procedures and Loan closing with the Department.

Subchapter B. ALLOCATION OF FUNDS

§53.20. Consolidated Plan

The Department will annually develop a Consolidated Plan One-Year Action Plan that will determine funding priorities and Set-Asides for the use of funds provided under the Act by HUD. Funds will be released only after approval of the One-Year Action Plan by HUD.

§53.21. Allocation of Funds

(a) The Department shall administer all federal housing funds provided to the state under the Act in accordance with the Final Rule and Chapter 2306 of the Texas Government Code by:

> (1) adopting a goal to apply an aggregate minimum of 25% of the division's total housing funds toward housing assistance for individuals and families of extremely low and very low income, pursuant to §2306.111(b);
>
> (2) expending 95% of these funds for the benefit of non-participating small cities and Rural Areas that do not qualify to receive funds under the Act directly from HUD; <u>and</u>
>
> (3) expending 5% of these funds for Persons with Disabilities who live in any area of the state as required by §2306.111(c).

(b) The funds under subsection (a)(2) of this section shall be allocated according to the regional allocation formula adopted as required by Chapter 2306.

(c) The funds will not be regionally allocated as required by subsection (b) of this section if the funds are reserved for contract for deed conversions or for Set-Asides mandated by state or federal law and each Contract for Deed Set-Aside equals not more than 10% of the total allocation of funds.

(d) The funds under subsection (a)(3) of this section are not subject to the regional allocation formula and may be used in any region of the state. Limitations on funds for a single region, if any, will be included within a NOFA. If limitations are not included in a NOFA, the maximum funds available are 5% of the annual allocation.

(e) The Department will make every effort to distribute funds throughout the state as outlined in the Department's Consolidated Plan One-Year Action Plan and in accordance with Chapter 2306.

(f) Redistribution. In an effort to commit HOME funds in a timely manner, the Department may reallocate funds to other areas identified in the Consolidated Plan, at its own discretion.

(g) Deobligated Funds. The Department shall use Deobligated Funds in accordance with §1.19 of this title. As required by Chapter 2306, the deobligated funds will be expended under the same allocation method called for under subsection (a)(2) of this section and are not subject to the regional allocation formula.

Subchapter C. PROGRAM ACTIVITIES

§53.30. Activities in Consolidated Plan

Through its Consolidated Plan, the Department has identified general guidelines for funding of a Program Activity. Applicants that meet the qualifications identified in this Chapter and under the terms of a NOFA may apply for any Program Activity the Department funds.

§53.31. Owner-Occupied Housing Assistance Program (OCC)

(a) Eligible activities are limited to the Rehabilitation or Reconstruction of existing owner-occupied housing. The Rehabilitation of an MHU is not an eligible activity.

(b) Eligible forms of homeownership are limited to fee simple title to the real property, a 99-year leasehold interest in the real property, a 50-year leasehold interest on trust, a 50-year leasehold on restricted Indian lands, or ownership or membership in cooperative or a mutual housing project that constitutes homeownership under Texas law.

(c) Eligible property types are limited to single family dwellings, condominium units and cooperative units in mutual housing projects. An MHU is not an eligible property type for Rehabilitation. HOME funds may be used to replace (Reconstruct) an owner-occupied housing unit with a new MHU or Modular Home if:

(1) the unit complies with standards at 24 CFR §92.205 and with the Texas Manufactured Housing Standards Act under Chapter 1201 of the Texas Occupation Code~~, §19(1)~~;

(2) the unit is permanently installed in accordance with the Texas Manufactured Housing Standards Act;

(3) the unit is permanently attached to utilities; and

(4) the ownership of the unit is recorded in the taxing authority of the county in which it is located.

(d) The Household must comply with the following initial eligibility requirements:

(1) own and occupy the single family unit as its Principal Residence;

(2) be an Income Eligible Household;

(3) be located within the Administrator's Service Area; and

(4) meet all other eligibility requirements.

(e) Real property taxes assessed on the housing unit must be current and/or the Household must be participating in an approved payment plan with the taxing authority.

(f) The property must not be encumbered with tax liens, child support liens, or mechanic or materialmen's liens.

(g) The maximum amount of assistance is the total of construction costs and soft costs ~~(including soft costs), unless otherwise specified in the NOFA,~~ provided to an eligible Household. The total construction costs are limited to ~~is based on Household size~~:

(1) Rehabilitation that is Reconstruction: The lesser of $73.00 per square foot or $80,000, if the Reconstruction includes actual costs for an aerobic septic system and/or demolition. If the Reconstruction includes costs for an aerobic septic system and/or demolition, the total construction costs cannot exceed $73.00 per square foot exclusive of the aerobic septic system and demolition costs; and, ~~for 1 to 4 person Household: $65,000 60,000;~~

~~(2) Rehabilitation that is Reconstruction for 5 to 6 person Household: $72,000 67,500;~~

~~(3) Rehabilitation that is Reconstruction for 7 or more person Household: $80,000 75,000 ;and~~

(24) Rehabilitation that is not Reconstruction: $30,000.

(h) The minimum amount of assistance to an eligible household is $1,000.

(i) The estimated value of the housing unit, after Rehabilitation or Reconstruction, must not exceed the HUD §203(b) Limits.

(j) The form of assistance to an eligible Household is based on AMFI except in the instances of an MHU being replaced with newly constructed housing (site-built) on the same site or any housing unit being replaced on an alternate site. In accordance with the Housing Assistance Rider ~~5~~ of the Department's Legislative Appropriation, the Department shall use the state average median family income in determining the form of assistance as prescribed in Figure: 10 TAC §53.31(j) for eligible Households living in those counties where the area median family income is lower than the state average median family income. For Rehabilitation (excluding Homebuyer Assistance and contract for deed conversion), the Loan amount is based upon the amount of assistance to be provided to the household. Once construction is complete, the loan balance will be determined by subtracting soft costs and/or costs of lead-based paint remediation. ~~from the 'as complete' final appraised value of the housing unit, the appraised value of the existing housing unit (initial appraisal) and 10% of the 'as complete' final appraised value. To ensure the correct equity credit is provided,~~ T~~t~~he Department will ~~reduce~~ adjust the Loan ~~amount~~ balance with a principal reduction in the amount necessary to arrive at the correct ~~loan~~ Loan balance, taking into account any change orders that resulted in a net decrease or increase in the amount of assistance. Any loan that has not closed at the time this Chapter is adopted will follow the provisions in this subsection.

Figure: 10 TAC 53.31(j)

AMFI	Rehabilitation or Reconstruction
≤30% AMFI	0% interest, 5-year deferred, forgivable Loan.
>30% and ≤50% AMFI	0% interest, 15- year deferred, forgivable Loan.
>50% and ≤60% AMFI	0% interest, 20-year deferred, forgivable Loan.
>60% and ≤80% AMFI	0% interest, 20-year term repayable Loan.

(k) When an MHU is being replaced with newly constructed housing (site-built) or any housing unit being replaced on an alternate site, the activity is considered acquisition and will trigger affordability requirements for homeownership as defined by 24 CFR §92.254. (Refer to §53. 32(l)~~14~~ of this subchapter.)

(l) In the event that the housing unit ceases to be the Principal Residence of the Household, the Department has established that the federal recapture requirements as defined in 24 CFR §92.254 will be imposed.

(m) In the event that the housing unit ceases to be the Principal Residence of the Household, the forgiveness of the Loan, if applicable, will cease, unless the Property is transferred by devise, descent or operation of law upon the death of the homeowner that is a Household whose Annual Income does not exceed 30% of the AMFI. The Department shall use the state average median family income for eligible Households living in those counties where the area median family income is lower than the state average median family income, as defined in the Housing Assistance Rider ~~5~~ of the Department's Legislative Appropriation, to apply this subsection. Any Contract that is active at the time this Chapter is adopted will follow the provisions in this subsection.

(n) In the event that the housing unit is sold, the Department will recapture the shared net proceeds available based on the requirements of 24 CFR §92.254 and the housing unit must be sold for an amount not less than the current appraised value as then appraised by the appropriate governmental authority without prior written consent of the Department unless the balance on the Loan will be paid at closing.

(o) Housing units assisted with HOME funds must meet or exceed the TMCS ~~or CHS~~, as applicable, and all applicable codes and standards. In addition, housing that is Rehabilitated under this Chapter must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances in accordance with the Final Rule.

§53.32. Homebuyer Assistance Program (HBA)

(a) Eligible activities are limited to the acquisition or acquisition and Rehabilitation, Reconstruction, or New Construction of single family housing units.

(b) Eligible property types are limited to single family dwellings, condominium units and cooperative units in mutual housing projects. A new MHU is an eligible property type for acquisition only. An MHU is not an eligible property type for Rehabilitation. HOME funds may be used to replace (Reconstruct) an ~~owner-occupied housing~~ existing unit with a new MHU or Modular Home if:

(1) the unit complies with standards at 24 CFR §92.205 and with the Texas Manufactured Housing Standards Act under Chapter 1201 of the Texas Occupation Code~~, §19(1)~~;

(2) the unit is permanently installed in accordance with the Texas Manufactured Housing Standards Act;

(3) the unit is permanently attached to utilities; and

(4) the ownership of the unit is recorded in the taxing authority of the county in which it is located.

(c) The Household must comply with the following initial eligibility requirements:

(1) occupy the assisted single family unit as its Principal Residence;

(2) be an Income Eligible Household and for contract for deed conversion, the Households Annual Income must not exceed 60% AMFI;

(3) be located within the Administrator's Service Area; ~~and~~

(4) meet all other eligibility requirements;and

(5) complete a homebuyer counseling program/class.

(d) The Property must not be encumbered with tax liens, child support liens, or mechanic or materialmen's liens.

(e) The maximum amount of assistance is the total of the downpayment and closing cost assistance and soft costs provided ~~(including soft costs), unless otherwise specified in the NOFA,~~ to an eligible Household. The total amount of ~~for~~ downpayment and closing cost assistance is limited to ~~the lesser of based on Household size and AMFI as follows~~:

(1) ~~$15,000 for~~ For Persons with Disabilities: $15,000; or

(2) For ~~a 1 to 4 Person~~ Households assisted in a non-Participating Jurisdiction~~at 80% or less of the AMFI~~: $2~~1~~0,000~~;~~.

~~(3) For a 5 or more Person Household at 80% or less of the AMFI purchasing a house with a minimum of 4 bedrooms: $15,000;~~

~~(4) For a 1 to 4 Person Household at 60% or less of the AMFI: $15,000; and~~

~~(5) For a 5 or more Person Household at 60% or less of the AMFI purchasing a house with a minimum of 4 bedrooms: $20,000.~~

(f) The maximum amount of assistance for Rehabilitation that is not Reconstruction is the total of the construction costs and soft costs provided to an eligible Person with Disabilities ~~PWD~~ Household that is also using funds for acquisition and is limited to $20,000. Rehabilitation assistance must be utilized for accessibility modifications to the unit.

(g) The maximum amount of assistance is the total of the acquisition, closing, and soft costs provided to an eligible Household for ~~acquisition and closing costs for~~ a contract for deed conversion and is limited to $25,000. In the case of a contract for deed conversion housing unit that involves both the acquisition of a loan on an existing MHU and/or the loan for the associated land, the Executive Director may grant an exception to exceed this amount, however, the Executive Director will not grant an exception to exceed $40,000 of assistance.

(h) The maximum amount of assistance for Rehabilitation to an eligible Household for a contract for deed conversion is limited to the OCC Program Activity requirements in §53.31(g)~~13(g)~~ of this chapter.

(i) When an MHU is being replaced with newly constructed housing (site-built) or any housing unit being replaced on an alternate site, the maximum amount of assistance is the total of construction costs and soft costs provided to an eligible Household. The total construction costs are limited to ~~is based on Household size~~:

~~(1)~~ Rehabilitation that is Reconstruction: The lesser of $73.00 per square foot or $80,000, if the Reconstruction includes actual costs for an aerobic septic system and/or demolition. If the Reconstruction includes costs for an aerobic septic system and/or demolition, the total construction costs cannot exceed $73.00 per square foot exclusive of the aerobic septic system and demolition costs.~~for 1 to 4 person Household: $65,000 60,000;~~

~~(2) Rehabilitation that is Reconstruction for 5 to 6 person Household: $72,000; 67,500~~

~~(3) Rehabilitation that is Reconstruction for 7 or more person Household: $80,000; and 75,000~~

(j) The minimum amount of assistance to an eligible Household is $1,000.

(k) The purchase price of the housing unit, plus the value of the Rehabilitation or Reconstruction if applicable, must not exceed 95% of the area's median purchase price as specified in the HUD §203(b) Limits.

(l) The total amount of assistance less soft costs under this section and Program Activity, including Rehabilitation and activities involving contract for deed conversion, an MHU being replaced with newly constructed housing (site-built), and a housing unit being replaced on an alternate site, will be provided in the form of a zero percent (0%) deferred, forgivable Loan with a term based on the federal affordability requirements as defined in 24 CFR §92.254.

(m) The following first lien purchase loan requirements are imposed for households receiving Homebuyer Assistance:

(1) No adjustable rate mortgage loans (ARMs) or interest rates buy-down loans are allowed;

(2) No mortgages with a loan to value equal to or greater than 100% are allowed;

(3) No Subprime Mortgage Loans are allowed;

(4) An origination fee and any other fees associated with the mortgage loan (other than fees reimbursed to third-parties) may not exceed 2% of the loan amount; and

(5) The debt to income ratio (back-end ratio) may not exceed 45%.

(n) ~~(m)~~ Any forgiveness of the Loan occurs upon the anniversary date of the Household's continuous occupancy as its Principal Residence and continues on an annual pro-rata basis until maturity of the Loan.

(o) ~~(n)~~ In the event that the housing unit ceases to be the Principal Residence of the Household, the Department has established that the federal recapture requirements as defined in 24 CFR §92.254 will be imposed.

(p) ~~(o)~~ In the event that the housing unit ceases to be the Principal Residence of the Household, the forgiveness of the Loan, if applicable, will cease.

(q) ~~(p)~~ In the event that the housing unit is sold, the Department will recapture the shared net proceeds available based on the requirements of 24 CFR §92.254 and the housing unit must be sold for an amount not less than the current appraised value as then appraised by ~~but~~ the appropriate governmental authority ~~without prior written consent of the Department~~ unless the balance on the Loan will be paid at closing.

(r) ~~(q)~~ Housing units that will be rehabilitated ~~assisted~~ with HOME funds must meet or exceed the TMCS ~~or CHS~~, as applicable, and all applicable codes and standards. In addition, housing that is Rehabilitated under this Chapter must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances in accordance with the Final Rule. Housing units that are provided assistance for acquisition only, must meet all applicable state and local housing quality standards and code requirements. In the absence of such standards and requirements, the housing units must meet the Housing Quality Standards (HQS) in 24 CFR §982.401.

(s) ~~(r)~~ This Program Activity is a CHDO-eligible activity.

§53.33. Tenant-Based Rental Assistance Program (TBRA)

(a) TBRA is provided to eligible tenants for payment of rental subsidies and for a period of time that does not exceed 24 months per Household. Security deposits and utility deposits may be provided in conjunction with rental assistance.

(b) The Household must comply with the following initial eligibility requirements:

(1) participate in an approved self-sufficiency program;

(2) maintain Principal Residency in the rental unit for which the subsidy is being provided;

(3) be an Income Eligible Household;

(4) reside in a rental unit that is located within the Administrator's Service Area; and

(5) meet all other eligibility requirements.

(c) Assistance to an eligible Household is limited by:

(1) for rental subsidy, cannot exceed twenty-four (24) months per Household per Contract; and

(2) for security deposit, cannot exceed two (2) months rent for the unit.

(d) The rental standard must not exceed HUD's "Fair Market Rent for the Housing Choice Voucher Program."

(e) Rental units must be inspected prior to occupancy and must comply with Housing Quality Standards established by HUD.

§53.34. Rental Housing Development Program (RHD)

(a) Eligible activities include the acquisition and New Construction or Rehabilitation of multifamily housing Developments and as further defined in the NOFA. Owners of rental units assisted with HOME funds must comply with income and rent restrictions for the duration of the required affordability period as required and defined at 24 CFR §92.252. Housing assisted with HOME funds must meet all applicable codes and standards. In addition, housing that is Newly Constructed or Rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances in accordance with 24 CFR §92.251(a).

(b) This Program Activity is a CHDO-eligible activity.

§53.35. Single Family Housing Development Program

(a) Eligible activities include the acquisition and New Construction or Rehabilitation of single family housing and as further defined in the NOFA. Single family housing units assisted with HOME funds must comply with the required affordability requirements as defined at 24 CFR §92.254. In addition, housing that is Newly Constructed or Rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances in accordance with the 24 CFR §92.251(a). If eligible, an Applicant that applies for Single Family Housing Development may also apply for Homebuyer Assistance.

(b) This Program Activity is a CHDO-eligible activity.

§53.36. CHDO Pre-Development Loan Program

Applicants for pre-development loans will be required to have a summary description of a proposed Development and be able to show the necessary development experience to apply, as outlined in the NOFA and Application. Predevelopment loan funds may only be used for activities such as project-specific technical assistance, site control loans, and project-specific seed money. Pre-development Loans must be repaid from construction loan proceeds or other project income.

§53.37. Prohibited Activities

Department awards may not be used to:

(1) Provide project reserve accounts, except as provided in 24 CFR §92.206(d)(5), or operating subsidies;

(2) Provide tenant-based rental assistance for the special purposes of the existing Section 8 program, in accordance with §212(d) of the Act;

(3) Provide non-federal matching contributions required under any other Federal program;

(4) Provide assistance authorized under §9 of the 1937 Act (Public Housing Capital and Operating Funds);

(5) Provide assistance to eligible low-income housing under 24 CFR Part 248 (Prepayment of Low Income Housing Mortgages), except that assistance may be provided to priority purchasers as defined in 24 CFR §248.101;

(6) Provide assistance (other than tenant-based rental assistance or assistance to a homebuyer to acquire housing previously assisted with HOME funds) to a project previously assisted with HOME funds during the period of affordability established by the PJ in the written agreement under 24 CFR §92.504. However, additional HOME funds may be committed to a project up to one year after project completion (24 CFR §92.502), but the

amount of HOME funds in the Project may not exceed the maximum per-unit subsidy amount established under 24 CFR §92.250;

(7) Pay for the acquisition of Property owned by the PJ, except for Property acquired by the PJ with HOME funds, or Property acquired in anticipation of carrying out a HOME project;

(8) Pay delinquent taxes, fees or charges on Properties to be assisted with HOME funds;

(9) Pay for any cost that is not eligible under 24 CFR §§92.206 - 92.209;

(10) Assist Persons who owe payments identified by the Comptroller of Texas as relevant;

(11) Assist Households whose Property has current tax liens and/or judgments to the State of Texas against it; or

(12) Provide Rehabilitation on a housing unit without prior written consent of all Persons who have a valid lien or ownership interest in the Property.

Subchapter D. APPLICATION REQUIREMENTS AND PROCEDURES

§53.40. Competitive and Open Cycles

All NOFAs will be presented to the Board. The Department will declare within a NOFA whether the application cycle will be a competitive or open cycle. Funds made available for disaster relief ~~will~~ may not be released in a NOFA but will be provided in accordance with the Department's Deobligated Funds Policy §1.19 of this title.

§53.41. Eligible Applicants

The following organizations or entities are eligible to apply for HOME eligible activities:

(1) nonprofit organizations;

(2) CHDOs;

(3) Units of General Local Government;

(4) for-profit entities and sole proprietors; and

(5) public housing agencies.

§53.42. Ineligible Applicants and Applications

The following violations will cause an Applicant and any Applications they have submitted to be ineligible:

(1) The Applicant, Development Owner, or Developer is an Administrator of a previously funded Contract for which Department ~~HOME~~ funds have been partially or fully deobligated due to failure to meet contractual obligations during the 12 months prior to application submission date, unless the deobligation was voluntary and prior to the contract term expiration date, or was the remainder on a completed Contract;

(2) The Applicant, Development Owner, or Developer has failed to submit a response to provide an explanation, evidence of corrective action or a payment of disallowed costs or fees as a result of a monitoring review;

(3) The Applicant, Development Owner, or Developer has failed to make timely payment or is delinquent on any loans or fee commitments made with the Department on the date of the Application submission;

(4) The Applicant, Development Owner, or Developer has been or is barred, suspended, or terminated from procurement in a state or federal program or listed in the List of Parties Excluded from Federal Procurement or Non-Procurement Programs or has otherwise been debarred by HUD or the Department;

(5) The Applicant, Development Owner, or Developer has violated the State's revolving door policy;

(6) The Applicant, Development Owner, or Developer has been convicted of a state or federal felony crime involving fraud, bribery, theft, misrepresentation of material fact, misappropriation of funds, or other similar criminal offenses within fifteen years preceding the Application deadline;

(7) The Applicant, Development Owner, or Developer at the time of Application submission is:

> (A) subject to an enforcement or disciplinary action under state or federal securities law or by the NASD;
>
> (B) subject to a federal tax lien;
>
> (C) or is the subject of an enforcement proceeding with any governmental entity;

(8) The Applicant, Development Owner, or Developer with any past due audits has not submitted those past due audits to the Department in a satisfactory format on or before the Application submission date in accordance with §1.3 of this title;

(9) The submitted Application has an entire volume of the Application missing; has excessive omissions of documentation from the threshold Criteria or uniform Application documentation; or is so unclear, disjointed, or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department. If an Application is determined ineligible pursuant to this section, the Application will be terminated without being processed as an Administrative Deficiency. To the extent that a review was able to be performed, specific reasons for the Department's determination of ineligibility will be included in the termination letter to the Applicant;

(10) The Applicant, Development Owner, or Developer or anyone that has Controlling ownership interest in the Development Owner or Developer that is active in the ownership or Control of one or more other rent restricted rental housing properties in the state of Texas administered by the Department is in Material Noncompliance with the LURA;

(11) The Application is a joint venture Application for the same Program Activity to serve the same town, city, or county that is identified in the Application already submitted as a sole Application for the same Program Activity in the same town, city or county;

(12) Applicant is requesting funding not related to Persons with Disabilities in a PJ; or

(13) Any Application that includes financial participation by a Person who, during the five-year period preceding the date of the bid or award, has been convicted of violating a federal law in connection with a contract awarded by the federal government for relief, recovery, or Reconstruction efforts as a result of Hurricanes Rita or Katrina or any other disaster occurring after September 25, 2005, or was assessed a federal civil or administrative penalty in relation to such a contract.

§53.43. Application Forms and Materials and Deadlines

(a) The Department will develop and publish on its website an Application and ASPM, that if completed, would satisfy the requirements for requesting funds from the Department. The Department may limit the eligibility of Applications in the NOFA and ASPM. Threshold and selection criteria and any other Application requirements will be specified in the NOFA approved by the Board.

(b) Applicants must submit an Application by the deadline date specified in the NOFA using the Application, ASPM and forms required by the Department. All Applications must be received during business hours (8:00 a.m. to 5:00 p.m. Central Standard Time) on any business day.

§53.44. General Applicant Eligibility Requirements

(a) An Applicant must satisfy each of the following requirements in order to be eligible to apply for HOME funding and as more fully described in the NOFA and Application, when applicable:

(1) provide evidence of its ability to carry out the program in the areas of financing, acquiring, rehabilitating, developing or managing affordable housing Developments;

(2) demonstrate fiscal, programmatic, and contractual compliance on previously awarded Department Contracts or Loans;

~~(3) submit any past due audit to the department in a satisfactory format on or before the application deadline, in accordance with §1.3 of this title;~~
(3~~4~~) demonstrate satisfactory performance otherwise required by Department rules and set out in the Application; and

(4~~5~~) comply with all requirements to utilize the Department's website to provide necessary data to the Department.~~;~~

~~(6) provide certification that no person or entity that would benefit from the award of HOME funds has provided a source of Match or has satisfied the Applicant's cash reserve obligation or made promises in connection therewith;~~

~~(7) provide certification that all contractors, consulting firms, Administrators, and Development Owners will sign an affidavit to attest that each request for payment of~~

~~HOME funds is for the actual cost of providing a service and that the service does not violate any conflict of interest provisions; and~~

~~(8) if required or requested, provide reasonable Match.~~

(b) Noncompliance. Each Application will be reviewed for its compliance history by the Department, consistent with Chapter 60 of this title. Applications containing Persons found to be in Material Noncompliance, or otherwise violating the compliance rules of the Department, will be terminated.

(c) All entities receiving funds of $25,000 or more must be registered in the federal Central Contractor Registration (CCR) and have a current Data Universal Numbering System (DUNS) number.

§53.45. Rental Housing Development (Multifamily) Application Requirements

(a) Rental Housing Development site and development restrictions include all those items referred to in the Final Rule, and any additional items included in the NOFA for RHD.

(b) Developments involving New Construction will be limited to 252 Units. These maximum unit limitations also apply to those Developments which involve a combination of Rehabilitation and New Construction. Developments that consist solely of acquisition and Rehabilitation or Rehabilitation only may exceed the maximum unit restrictions. Developments in Rural Areas are limited to no more than 80 units. The minimum number of units shall be 4 units.

(c) For funds being used for RHD, the Development Owner must establish a reserve account consistent with Texas Government Code, §2306.186, and as further described in §1.37 of this title.

(d) Unless further restricted or amended by the NOFA, Applications must comply with all of the current Qualified Allocation Plan and Rules in effect at the time of application's submission at 10 TAC §~~50~~ 49.9 (h), excluding subsections ~~(4)(A)~~, ~~(4)(I)~~, (4)(J), (11), (12), 14(G) and (15).

§53.46. Multifamily Applicants also Seeking Housing Tax Credits

Applicants who are seeking housing tax credits and are also seeking funds under this Chapter for the same Development must meet the requirements under the Qualified Allocation Plan for the year in which they are applying for these funds and all of the requirements of this subchapter unless specifically waived by the Department.

§53.47. Application and Award Limitations

(a) The Department reserves the right to reduce the amount requested in an Application based on Program Activity or Project feasibility, underwriting analysis, or availability of funds.

(1) The Contract award amount, including administrative costs, ~~for OCC~~ shall not exceed the established amount ~~$375,000 per Applicant per~~ in the NOFA.

~~(2) The Contract award amount for HBA shall not exceed $300,000 per Applicant per NOFA, however, up to $500,000 may be awarded to HBA Applicants whose Service Area includes multiple counties within a Uniform State Service Region.~~

~~(3) The Contract award amount for TBRA shall not exceed $300,000 per Applicant per NOFA.~~

~~(4) The Contract award amount for contract for deed conversions shall not exceed $500,000 per NOFA, except as may be otherwise allowed by the Board or NOFA.~~

(2~~5~~) The Contract award amount for disaster relief shall not exceed $52~~0~~0,000, including administrative costs, per state or federally declared disaster, or as may be otherwise allowed by the Board. Only one Application per affected Unit of General Local Government may be submitted for each declared disaster. Public Housing Authorities (PHAs) and Nonprofit organizations may only act as an Applicant, in lieu of the Unit of General Local Government, if they are so designated by the affected Unit of General Local Government. If the disaster is a federally declared disaster, the Applicant may not submit an application or be funded until 90 days have expired from the federal declaration date. Applications for disaster relief will only be accepted within six (6) months after the first day assistance under this program is made available.

(3~~6~~) The Contract Award amount for RHD or Single Family Development activities shall not exceed the established amount in the NOFA ~~$3 million~~. The Department reserves the right to set maximum loan to value limitations and minimum Match requirements on all Development activities.

(4~~7~~) The Contract award amount for CHDO Operating Expenses shall not exceed:

(A) the lesser of clauses (i) or (ii) of this subparagraph:

(i) fifty percent (50%) of the CHDO's total annual operating expenses in that fiscal year; or

(ii) five percent (5%) of the CHDO funds awarded for the Project from the CHDO Set-Aside; and

(B) $75,000 ~~50,000~~, whichever is greater.

(C) An Applicant shall not receive more than one award of CHDO operating funds during the same fiscal year of the Department regardless of the number of Applications submitted.

(5~~8~~) The Contract award amount for CHDO Predevelopment Loans may not exceed $50,000 per Application. Applicants may submit only one Application per NOFA to cover eligible costs.

~~(b) The Board may waive the amounts in this section by stating the increase in the applicable NOFA~~.

(b) An Applicant may submit an Application to apply for additional funding as long as the Applicant is 100% committed on their current contract for the same activity.

§53.48. Application Review Process

(a) Applications received by the Department in response to an Open Application Cycle NOFA will be handled in the following manner:

(1) The Department will accept Applications on an ongoing basis, during the Application Acceptance Period specified in the NOFA or until such date when the Department makes notice to the public that an Open Application Cycle has been closed, whichever is earlier; and

(2) Each Application will be handled on a first-come, first-served basis as further described in this section. Each Application will be assigned a Received Date based on the date and time it is physically received by the Division ~~Department~~. Then each Application will be reviewed on its own merits in three review phases, as applicable. Applications will continue to be prioritized for funding based on its Received Date unless it does not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over Applications that may have an earlier Received Date but that did not timely complete a phase of review.

(A) Phase One will begin as of the Received Date and will include a review of eligibility and threshold criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM and will issue a notice of any Administrative Deficiencies for threshold criteria and eligibility within 45 days of the Received Date. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Two, if applicable~~, and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase and do not require additional review in Phase Two or Three will be reviewed for recommendation to the Board by the Committee.

(B) Phase Two will include a comprehensive review for financial feasibility for RHD and Single Family Development Program Activities. Financial feasibility reviews will be conducted by the Real Estate Analysis (REA) Division consistent with §1.32 of this title. REA will create an underwriting report identifying staff's recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. The Department will issue a notice of any Administrative Deficiencies within 45 days of the date the Application enters Phase Two. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Three, if applicable~~, and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not satisfied within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase and do not require additional review in Phase Three will be reviewed for recommendation to the Board by the Committee.

(C) Phase Three will only entail the review of the CHDO Certification Application. The Department will ensure review of these materials and issue notice of any Administrative Deficiencies on the CHDO Certification Application within 30 days of the Application enters Phase Three. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into the final review phase of the Application process~~ and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Only upon satisfaction of all Administrative Deficiencies will the Application be forwarded to the final phase of the Application process. Upon completion of the applicable final review phase, the Application will be reviewed for recommendation to the Board by the Committee.

(3) Because Applications are processed in the order they are received by the Department, it is possible that the Department will expend all available HOME funds before an Application has completed all phases of its review. In the case that all HOME funds are committed before an Application has completed all phases of the review process, the Department will notify the applicant that their application will remain active for ninety (90) days in its current phase. If new HOME funds become available, Applications will continue onward with their review without losing their Received Date priority. If HOME funds do not become available within ninety (90) days of the notification, the Applicant will be notified that their Application is no longer under consideration. The Applicant must reapply to be considered for future funding. If on the date an Application is received by the Department, no funds are available under this NOFA, the Applicant will be notified that no funds exist under the NOFA and the Application will not be processed.

(b) Applications received by the Department in response to a Competitive Application Cycle NOFA will be handled in the following manner:

(1) The Department will accept Applications on an ongoing basis during the Application Acceptance Period as specified in the NOFA;

(2) Applications submitted and accepted by the Department will be reviewed for eligibility, threshold and selection criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM. A comprehensive review of financial feasibility for RHD and Single Family Development Program Activities will be conducted by the Real Estate Analysis (REA) Division consistent with §1.32 of this title. REA will create an underwriting report identifying staff's recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. If applicable, a review of the CHDO Certification Application will be performed. The Department will issue a notice of any Administrative Deficiencies for items reviewed within 45 days of the Received Date. If Administrative Deficiencies are not cured to the satisfaction of the Department within five (5) business days of the deficiency notice date, then five (5) points shall be deducted from the selection score for each additional day the Administrative Deficiency remains unresolved. If Administrative Deficiencies are not clarified or corrected within seven (7) business days from the deficiency notice date, then the Application shall be terminated; and

(3) Upon completion of review and no unresolved Administrative Deficiencies, the Application will be reviewed for recommendation to the Board by the Committee.

(c) Administrative Deficiencies. If an application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies including threshold and/or selection criteria documentation and/or financial feasibility analysis. The Department staff may request clarification or correction in a deficiency notice in the form of a facsimile and a telephone call to the Applicant advising that such a request has been transmitted. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. To cure an Administrative Deficiency, an Applicant must provide a clarification, further definition or exposition of an issue, an explanation as to why an Applicant has provided certain information, or resolution of a discrepancy where an Applicant has provided conflicting information. An Administration Deficiency may not be cured by substantially changing an Application or providing any new unrequested information. An Applicant may not change or supplement any part of an Application in any manner after submission to the Department, and may not add any Set-asides, increase their award amount, or revise their unit mix (both income levels and bedroom mixes), except in response to a direct request from the Real Estate Analysis Division to remedy an Administrative Deficiency as further described in this title or by amendment of an Application after a commitment or allocation of HOME funds.

(d) Decline to Fund. The Department may decline to fund any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications which are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department reserves the right to negotiate individual elements of any Application.

§53.49. Selection Criteria for Program Activities

Selection criteria for any Program Activities will be described in the applicable NOFA and ASPM. The Applicant's self-score must be completed in the Application. An Applicant may not adjust the self-score without a request from the Department as a result of an Administrative Deficiency.

Subchapter E. COMMUNITY HOUSING DEVELOPMENT ORGANIZATION (CHDO)

§53.50. Application Procedures for Certification of CHDO

(a) An Applicant requesting certification as a CHDO must submit an application for CHDO certification in a form prescribed by the Department. The CHDO Application must be submitted with an Application for HOME funding under the CHDO Set-Aside. The Application must include documentation evidencing the requirements of this subsection:

(1) The Applicant must be organized as a private nonprofit organization under the Texas Nonprofit Corporation Act or other state not-for-profit/nonprofit statute as evidenced by:

(A) charter; or

(B) Articles of Incorporation.

(2) The Applicant must be registered with the Secretary of State to do business in the State of Texas.

(3) No part of the private nonprofit organization's net earnings inure to the benefit of any member, founder, contributor, or individual, as evidenced by:

(A) charter; or

(B) Articles of Incorporation.

(4) The Applicant must have the following tax status:

(A) A current tax exemption ruling from the Internal Revenue Service (IRS) under §501(c)(3), a charitable, nonprofit corporation, or §501(c)(4), a community or civic organization, of the Internal Revenue Code of 1986, as evidenced by a certificate from the IRS that is dated 1986 or later. The exemption ruling must be effective on the date of the Application and must continue to be effective while certified as a CHDO; or

(B) Classification as a subordinate of a central organization non-profit under the Internal Revenue Code, as evidenced by a current group exemption letter, that is dated 1986 or later, from the IRS that includes the Applicant. The group exemption letter must specifically list the Applicant; and a private nonprofit organization's pending application for §501(c)(3) or §(c)(4) status cannot be used to comply with the tax status requirement under this subparagraph.

(5) The Applicant must have among its purposes the provision of decent housing that is affordable to low and moderate income people as evidenced by a statement in the organization's:

(A) Articles of Incorporation;~~,~~

(B) Charter;

(C) Resolutions; or

(D) Bylaws; and

(E) A Business Plan for the CHDO, as prescribed in the CHDO Application.

(6) The Applicant must have a clearly defined CHDO Service Area. The Applicant may include as its service area an entire Community, but not the whole state. The Applicant must provide evidence of its participation in the Community for each city/place or county listed in the Service Area. Private nonprofit organizations serving special populations must also define the geographic boundaries of its Service Areas and provide evidence of its participation in the Community for each city/place or county listed in the Service Area. This ~~sub~~paragraph does not require a private nonprofit organization to represent only a single neighborhood.

(7) An Applicant must have the following capacity and experience:

(A) Conforms to the financial accountability standards of 24 CFR §84.21, "Standards of Financial Management Systems" as evidenced by:

(i) a notarized statement by the Executive Director or chief financial officer of the organization in a form prescribed by the Department;

(ii) a certification from a Certified Public Accountant; or

(iii) a HUD approved audit summary; and,

(iv) a written narrative describing internal controls used to create financial duties and safe guard corporate assets; and

(v) a written narrative describing the conflict of interest policy governing employees and development activities and procurement; and

(vi) a written narrative describing the current corporation's financial structure can support housing development activities; and

(vii)a written narrative describing the organization's ability to manage additional rental development activities, if applicable.

(B) Demonstrated capacity for carrying out activities assisted with HOME funds, as evidenced by:

(i) documentation that describes the experience of key staff members who have successfully completed projects similar to those to be assisted with HOME funds; or

(ii) contract(s) with consultant firms or individuals who have housing experience similar to projects to be assisted with HOME funds, to train appropriate key staff of the organization.

(C) Has a history of serving the low income residents of the Community within the city/place or county which housing to be assisted with HOME funds is to be located as evidenced by:

(i) documentation of at least one year of experience in serving that Community; or

(ii) for newly created organizations formed by local churches, service or community organizations, a statement that documents that its parent organization has at least one year of experience in serving the Community in which the housing to be assisted with HOME funds is to be located; and

(iii) The CHDO or its parent organization must be able to document one year of serving the Community in which housing to be assisted with HOME funds is to be located prior to the date the PJ provides HOME funds to the organization. In the submission, the organization must document and describe its history (or its parent organization's history) of serving the community in which the housing to be assisted with HOME funds is to be located by describing and documenting CHDO eligible activities which it provided (or its parent organization provided), such as, developing new housing, rehabilitating existing stock and managing housing stock, or delivering non-housing services that have had lasting benefits for the Community, such as counseling, food relief, or childcare facilities. The statement in the submission package must be signed by the president or other official of the organization.

(8) An Applicant must have the following organizational structure. The Applicant must maintain at least one-third of its governing board's membership for residents of low-income neighborhoods, other low-income community residents, or elected representatives of low-income neighborhood organizations in the Applicant's service area. Low-income neighborhoods are defined as neighborhoods where 51 % or more of the residents are low-income. Residents of low-income neighborhoods do not have to be low income individuals themselves. If a low-income individual does not live in a low-income neighborhood as herein defined, the low-income individual must certify that he qualifies as a low-income individual. This certification is in addition to the affidavit required in subparagraph (B) of this paragraph. For the purpose of this paragraph, elected representatives of low-income

neighborhood organizations include block groups, town watch organizations, civic associations, neighborhood church groups, Neighbor Works organizations and any organization composed primarily of residents of a low-income neighborhood as herein defined whose primary purpose is to serve the interest of the neighborhood residents. Compliance with this paragraph shall be evidenced by:

(A) a written provision or statement in the organizations Bylaws, Charter or Articles of Incorporation;

(B) an affidavit in a form prescribed by the Department signed by the organization's Executive Director and notarized; and

(C) a current roster of all Board of Directors, including names and mailing addresses. The required one-third low-income residents or elected representatives must be marked on list as such.

(9) The Applicant must provide a formal process for low-income, program beneficiaries to advise the organization in all of its decisions regarding the design, siting, development, and management of affordable housing projects. The formal process should include a system for community involvement in parts of the private nonprofit organization's service areas where housing will be developed, but which are not represented on its boards. Input from the low-income community is not met solely by having low-income representation on the board. The formal process must be in writing and approved or adopted by the private nonprofit organization, as evidenced by:

(A) an organization's Bylaws; or

(B) a written statement of operating procedures approved by the governing body. Statement must be original letterhead, signed by the Executive Director and evidence date of board approval; and

(C) a ~~A~~ Resolution as prescribed by the Department and evidence date of board approval.

(10) A local or state government and/or public agency cannot qualify as a CHDO, but may sponsor the creation of a CHDO. A private nonprofit organization may be chartered by a State or local government, but the following restrictions apply:

(A) The state or local government may not appoint more than one-third of the membership of the organization's governing body;

(B) The board members appointed by the state or local government may not, in turn, appoint the remaining two-thirds of the board members;

(C) No more than one-third of the governing board members may be public officials. Public officials include elected officials, appointed public officials, employees of the participating jurisdiction, or employees of the sponsoring state or local government, and individuals appointed by a public official. Elected officials include, but are not limited to, state legislators or any other statewide elected officials. Appointed public officials include, but are not limited to, members of any regulatory and/or advisory boards or commissions that are appointed by a State official;

(D) Public officials who themselves are low-income residents or representatives do not count toward the one-third minimum requirement of community representatives in subparagraph (A) of this paragraph; and

(E) Compliance with subparagraphs (A) - (E) of this paragraph shall be evidenced by the Applicant's:

(i) ~~organization's~~ Bylaws with evidence date of board approval;

(ii) Charter; or

(iii) Articles of Incorporation.

(11) If the Applicant is sponsored or created by a for-profit entity, the for-profit entity may not appoint more than one-third of the membership of the Applicant's governing body, and the board members appointed by the for-profit entity may not, in turn, appoint the remaining two-thirds of the board members, as evidenced by the Applicant's:

(A) Bylaws with evidence date of board approval;

(B) Charter; or

(C) Articles of Incorporation.

(D) An Applicant may be sponsored or created by a for-profit entity provided the for-profit entity's primary purpose does not include the development or management of housing, as evidenced in the for-profit organization's Bylaws. If an Applicant is associated or has a relationship with a for-profit entity or entities, the Applicant must prove it is not controlled, nor receives directions from individuals, or entities seeking profit as evidenced by:

(i) the Applicant's ~~organization's~~ Bylaws with evidence date of board approval; or

(ii) a Memorandum of Understanding (MOU);

(12) CHDOs that are in partnership agreements associated with the Development must maintain effective Control and decision making control over the Development. All legally binding ownership and/or partnership agreements must clearly state the CHDO's role in the Development, as evidenced by the Applicant's:

(A) partnership agreement; and/or

(B) ownership agreement; and/or

(C) developer agreement ; and/or

(D) sponsorship agreement.

(13) Religious or Faith-based Organizations may sponsor a CHDO if the CHDO meets all the requirements of this section. While the governing board of a CHDO sponsored by a religious or a faith-based organization remains subject to all other requirements in this section, the faith-based organization may retain control over appointments to the board. If a CHDO is sponsored by a religious organization, the following restrictions also apply:

(A) Housing developed must be made available exclusively for the residential use of program beneficiaries and must be made available to all persons regardless of religious affiliations or beliefs;

(B) A religious organization that participates in the HOME program may not use HOME funds to support any inherently religious activities: such as worship, religious instruction, or proselytizing;

(C) HOME funds may not be used for the acquisition, construction, or rehabilitation of structures to the extent that those structures are used for inherently religious activities. Sanctuaries, chapels, or other rooms which a faith-based CHDO uses as its principal place of worship are always ineligible for HOME-funded improvements;

(D) Compliance with subparagraphs (A) - (C) of this paragraph may be evidenced by the Applicant's:

(i) ~~Organization's~~ Bylaws;

(ii) Charter; or

(iii) Articles of Incorporation.

(b) An Application for CHDO Certification will only be accepted if submitted with an Application to the Department for HOME funds. If all requirements under this section are met, the Applicant will be certified as a CHDO upon the award of HOME funds by the Department. A new Application for CHDO certification must be submitted to the Department with each new Application for HOME funds under the CHDO Set-Aside.

(c) Community Housing Development Organizations (CHDO) that have received an award of HOME funds must submit recertification documentation every two years. The recertification documentation is due to the Department biannually on the last day of the anniversary month in which the Board approved the CHDO Set-Aside award. The recertification documentation must include, but is not limited to:

(1) A narrative describing the housing production objectives accomplished over the last 2-year period;~~.~~

(2) A description of any ongoing/future initiatives;~~.~~

(3) A statement of objectives for the CHDO over the next two years;~~.~~

(4) A timeline and budget describing the completion of any development activities undertaken by the CHDO within the last two years;~~.~~

(5) An organizational chart listing current personnel and a brief description of each individual's position, primary responsibilities and authority in the organization;~~.~~

(6) A written statement indicating how the current organization's financial structure can support housing development activities in the future;~~.~~

(7) A written statement describing how the CHDO will continue to leverage other resources in the future;~~.~~ and

(8) A written statement describing ways in which the Department can assist your organization through technical assistance, capacity building, and/or training.

Subchapter F. AWARDS AND CONTRACTS

§53.70. Process for Awards

(a) All recommendations for awards will be presented to the Committee before presentation to the Board. All Applications must comply with all applicable program requirements or regulations established in 24 CFR Part 92 and in this chapter.

(b) Applicants applying in response to an Open Application Cycle will be prioritized for recommendation to the Board based on the process described in §53.48 of this chapter and as otherwise specified in the NOFA.

(c) Applicants applying in response to a Competitive Application Cycle will be ranked by highest score per Program Activity, per Uniform State Service Region and Area Type, unless otherwise specified in the NOFA.

> (1) If sufficient qualified Applications are not received for a Program Activity in a Uniform State Service Region and Area Type, the funds will be redirected to the next Uniform State Service Region that had a higher number of qualified Applicants for that same Program Activity type, unless otherwise specified in the NOFA.
>
> (2) If sufficient Applications are not received in a Uniform State Service Region and Area Type for a Program Activity, the funds will be redirected to the Uniform State Service Region and Area Type with the highest number of qualified Applicants for another Program Activity type, unless otherwise specified in the NOFA.

(d) In the event of a tie between two or more Applicants, the Department reserves the right to determine which Application will receive a recommendation for funding, or as otherwise specified in the NOFA. Tied Applicants may also receive a partial recommendation for funding.

(e) When the remainder of the allocation for an allocation within a Uniform State Service Region is insufficient to completely fund the next ranked Application in the Program Activity or Uniform State Service Region, it is within the discretion of the Department to:

> (1) award a partial amount to the next ranked Application, reducing the scope of the Application proportionally;
>
> (2) make necessary adjustments to fully fund the Application; or
>
> (3) transfer the remaining funds to other Program Activities or Uniform State Service Regions.

(f) Applications may also receive a partial recommendation for funding. A minimum award amount may be established to ensure feasibility.

(g) Applications receiving a favorable EARAC recommendation are presented to the Board for approval, pending the availability of HOME funds.

(h) Applicants may appeal ~~on the~~ staff's decision regarding their Applications in accordance with §1.7 of this title.

(i) Board approval of the award of any HOME funds, acquisition or construction activities will be conditional upon a completed Loan closing and any other conditions deemed necessary by the Department.

§53.71. Contract Required after Award

Any Program Activity funded under this program will be governed by a written Contract that identifies the terms and conditions related to the awarded funds. The Contract will not be effective until executed by all parties to the Contract. Any amendments must be in writing and are subject to the requirements of this c~~C~~hapter.

§53.72. Pre-Award Costs

(a) Before the effective date of the HOME Contract, the Contract Administrator may incur and be reimbursed for travel costs, as provided for with Administrative funds, related to mandatory implementation training required by the Department as a condition of receiving a HOME award and Contract.

(b) Department authorized pre-award costs for predevelopment costs, including but not limited to legal, architectural, engineering, appraisal, surveying, environmental, and market study fees, may be paid if incurred before the effective date of the Contract if the costs are in accordance with 24 C.F.R. § 92.212 and at the sole discretion of the Department.

§53.73~~2~~. Contract Terms

(a) Unless otherwise changed by agreement of the parties in a Contract or the applicable NOFA, the terms found in Contract shall be consistent with the following and performance under the Contract will be evaluated with the following benchmarks:

(1) OCC Program Activity. The Contract term will not exceed 24 ~~22~~ months. Performance under the Contract term will be based on the following benchmarks from the Contract begin date:

(A) 6 months, exempt administrative and broad review environmental clearance must be complete, and if not tiering, the first Household to be assisted must be environmentally cleared;

(B) 8 months, Authority to Use Grant Funds must be fully executed and all Households to be assisted must be environmentally cleared;

(C) 12 months, 100% of funds must be committed to Households to be assisted;

(D) 18 ~~15~~ months, 100% of Household's Loans must be closed, if applicable;

(E) 22 ~~20~~ months, 100% of construction must be complete for all Households to be assisted; and

(F) 24 ~~22~~ months, 100% funds drawn and 100% of match requirement supplied.

(2) HBA Program Activity. The Contract term will not exceed 24 months. Performance under the Contract term will be based on the following benchmarks from the Contract begin date:

(A) 6 months, exempt administrative and environmental clearance must be complete for at least one Household to be assisted;

(B) 12 months, environmental clearance must be complete for at least 50% of the Households to be assisted, 50% of funds must be committed, 25% of funds drawn, and 25% of match supplied;

(C) 18 months, environmental clearance must be complete for at least 75% of the Households to be assisted, 75% of funds must be committed, 50% of funds drawn, and 50% of match requirement supplied; and

(D) 24 months, 100% of funds must be committed, 100% of funds drawn, and 100% of matched supplied.

(3) TBRA Program Activity. The Contract term will not exceed 36 months. Performance under the Contract term will be based on the following benchmarks from the Contract begin date:

(A) 6 months, exempt administrative environmental clearance must be complete and application intake complete for 30% for Households to be assisted;

(B) 9 months, application intake complete for 75% for Households to be assisted;

(C) 12 months, 100% of funds must be committed to Households to be assisted and 25% of funds drawn;

(D) 18 months, 100% of funds already committed and 35% of funds drawn;

(E) 24 months, 100% of funds already committed and 50% of funds drawn; and

(F) 36 months, 100% of funds already committed and 100% of funds drawn.

(4) Rental Housing Development and Single Family Housing Development Program Activity. The Contract term will not exceed 36 months based on the size of the development and length of the Development period. Performance under the Contract term will be based on benchmarks established in the Contract and specific to the Development. Repayment of Loans or affordability periods will extend beyond the Contract end date depending on the Final Rule and Chapter 2306 requirements.

(5) CHDO Pre-Development Loans. The initial contract term will not exceed 24 months. Repayment is expected from development funds if development is begun prior to 24 months.

(b) Revised benchmarks and/or lower percentages, due to extenuating or unforeseeable circumstances, may be allowed and as approved by the Department.

§53.74~~3~~. Contract Amendments

(a) Amendment requests to be approved by the Executive Director of the Department are allowable under the following circumstances:

(1) Time extensions. The Executive Director may collectively provide up to one six-month extension to the end date of any Contract. Any additional time extension granted by the Executive Director shall include a statement by the Executive Director relating to unusual, ~~and~~ non foreseeable, or extenuating circumstances that warrant more than a six-month extension. If the extension is longer than six months and the Executive Director determines that a statement related to unusual,~~ or~~ non-foreseeable, or extenuating circumstances cannot be issued, it will be presented to the Board for approval, approval with modifications, or denial of the requested extension; ~~and~~

(2) Changes in Match. The Executive Director may grant approval of a modification or amendment to the dollar amount of the Match requirement, if such amendment that does not decrease the dollar amount by more than 25% of the original amount committed. In the cases where the reduction in Match is greater than 25% or significantly decreases the benefits to be received by the Department, in the estimation of the Executive Director, the modification or amendment will be presented to the Board for approval;

(3) Changes in Area Median Family Income (AMFI) levels. The Executive Director may grant approval of a modification or amendment to the AMFI levels of the households to be served under said contract, if Contract Administrator provides a statement relating to unusual, non-foreseeable, or extenuating circumstances that warrant such a request to be granted and the Executive Director determines that such request does not violate Department rules. In the case that the Executive Director determines that such request is not warranted and/ or violates Department rules, the request will be presented to the Board for approval;

(4) Changes to Services Areas. The Executive Director may grant approval of the modification or amendment to the Service Area being served under said contract, if Contract Administrator provides a statement relating to unusual, non-foreseeable, or extenuating circumstances that warrant such a request to be granted and the Executive Director determines that does not violate Department rules. In the case that the Executive Director determines that such request is not warranted and/or violates Department rules, the request will be presented to the Board for approval;

(5) Changes in number of Households to serve. The Executive Director may grant approval of the modification or amendment to the reduction in the number of the Households to be served under said contract, if Contract Administrator provides a statement relating to unusual, non-foreseeable, or extenuating circumstances that warrant such request to be granted and the Executive Director determines that such request does not violate Department rules. In the case the Executive Director determines that such request is not warranted and/or violates Department rules, the request will be presented to the Board for approval; and

(6~~2~~) Increase in funds. In the case of a modification or amendment to the dollar amount of the Contract, such modification or amendment does not increase the dollar amount by more than 25% of the original Contract or $50,000, whichever is greater. Modifications and/or amendments that increase the dollar amount by more than 25% of the original Contract or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval~~.~~, except for increases that result in a dollar amount increase that is more than 25% of the original Contract amount on an existing Contract for which an Administrator has requested an amendment to be governed by all provisions of this Chapter as allowed in Section 53.1 of this Chapter.

(b) If the Administrator or Development Owner fails to meet a benchmark requirement and does not seek, or is not granted, an extension of a benchmark, the awarded funds related to the lack of performance may be entirely or partially deobligated at the Department's sole discretion.

(c) Waiver. The Board, in its discretion and within the limits of federal and state law, may waive any one or more of the requirements of this Chapter if the Board finds that waiver is appropriate to fulfill the purposes or policies of Chapter 2306, Texas Government Code, or for good cause, as determined by the Board.

(d) Accounting Requirements. Within 60 days after the Contract end date, the Administrator or Development Owner shall provide a full accounting of funds expended under the terms of the Contract. Failure of an Administrator or Development Owner to provide full accounting of funds expended under the terms of a Contract shall be sufficient reason for the Department to deny any future Contract to the Administrator or Development Owner.

(e) Individual benchmarks. Each benchmark is an individual term and subject to the amendment processes. An interim benchmark extension may or may not extend the entire Contract at the Department's discretion.

Subchapter G. LOANS AND CONTRACT ADMINISTRATION

§53.80. Documents Supporting Mortgage Loans

(a) Administrators and Development Owners must not proceed or allow a contractor to proceed with construction, including demolition, on any Activity, Project or Development without first completing the required environmental clearance procedures and Loan closing with the Department.

(b) A mortgage Loan shall be evidenced by a mortgage or deed of trust note or bond and by a mortgage that creates a lien on the housing development and on all real property that constitutes the site of or that relates to the housing development.

(c) A note or bond and a mortgage or deed of trust:

(1) must contain provisions satisfactory to the Department;

(2) must be in a form satisfactory to the department; and

(3) may contain exculpatory provisions relieving the borrower or its principal from personal liability if the department agrees.

(d) For each Loan made for the Development of multifamily housing with funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 USC §§12701, et seq.), the D~~d~~epartment shall obtain a mortgagee's title policy in the amount of the loan. The Department may not designate a specific title insurance company to provide the mortgagee title policy or require the borrower to provide the policy from a specific title insurance company. The borrower shall select the title insurance company to close the loan and to provide the mortgagee title policy. ~~Award amount for disaster relief shall not exceed $500,000 per State declared disaster, or as may be otherwise allowed by the Board. Only one application per affected Unit of General Local Government may be submitted for each designated disaster. Public Housing Authorities (PHAs) and Nonprofit organizations may only act as an Applicant, in lieu of the Unit of General Local Government, if they are so designated by the affected Unit of General Local Government.~~

(e) Documentation required for OCC and HBA with Rehabilitation Loans: The Administrator must ensure the following documents are submitted to the Department in order to request Loan documents be prepared for the Household:

~~(1) An as-is appraisal no older than ninety (90) days. The Department will accept an as-built appraisal as the final appraisal if no change orders or modifications occur. If change orders or modifications occur, the Administrator must submit a certification from an appraiser that addresses a potential increase or decrease to the final value of the property;~~

(1) ~~(2)~~ A title report that evidences eligible forms of homeownership pursuant to Section 53.31(b) of this Chapter ~~commitment no older than ninety (90) days that evidences Homeownership~~ and no tax lien, no child support lien, and no mechanic~~'~~s or ~~and no~~ materialma~~en'~~s lien.~~;~~ The title report must be a non-insurance report of the property from the current owner's date of the last deed vesting title to the present, including complete deed information; grantees, grantors, execution and recording dates, recording references, and legal description, as well as all open mortgages/deed of trusts;

(2) ~~(3)~~ Tax certificate ~~no older than ninety (90) days~~ that evidences a current paid status, and in the case of delinquency, evidence of an approved payment plan with the taxing authority and evidence that the payment plan is current;

(3) ~~(4)~~ Life event documentation, as applicable;

(4) ~~(5)~~ A copy of the original contract for deed, for contract for deed conversion Loan; and

(5) ~~(6)~~ A current payoff statement, for contract for deed conversion Loan.

(f) Trailing documentation requirements for ~~HBA~~ Loans~~ for downpayment and closing cost assistance~~. Within ninety (90) days after the Loan closing date, the Administrator or Development Owner must submit to the Department the original recorded deed of trust and transfer of lien, if applicable. Failure to submit these documents within ninety (90) days after the Loan closing date will result in the Department withholding payment for disbursement requests.

§53.81. General Contract Administration

All Administrators and Development Owners must use the forms provided on the Department's website and comply with the Department's procedural and documentation requirements as outlined in the HOME Program Manual and in this section including~~, but not limited to~~:

(1) Contract must be signed and executed by all appropriate authorized parties;

(2) Attend training as required by the Department;

(3) Develop and comply with written procurement selection criteria and committees;

(4) Procure consultants, if applicable. Consultants may not participate in or direct any part of the process for procuring consultants;

(5) Complete all applicable Department Contract System access request forms and requirements;

(6) Perform environmental clearance procedures before committing or expending funds to a Project or Activity, performing any construction activities, including demolition, or the occurrence of the Loan closing, if applicable;

(7) Develop and comply with written accounting, reporting, filing, and documentation procedures;

(8) Develop and comply with written applicant intake and selection criteria for and ensure program eligibility which must include, but is not limited to:

(A) Homeownership, if applicable;

(B) Income eligibility;

(C) Assisted Households must be located within the Administrator's Service Area, as defined by the Contract;

(D) Property taxes are current, if applicable; and

(E) Assist Special Needs Households, if applicable.

(9) Develop and comply with affirmative marketing procedures in accordance with the Final Rule;

(10) Complete applicant intake and applicant selection. Notify each applicant Household in writing of either acceptance or denial of HOME assistance within sixty (60) days following receipt of the intake application;

(11) To ensure compliance with the Texas Comptroller of Public Accountants requirements, Contract Administrators are required to ensure the applicant Household does not owe a debt to the State of Texas including , but not limited to, tax liens, child support liens, or student loan delinquencies;

(12) ~~(11)~~ Ensure that no Conflict of Interest exists between Households to be assisted and Persons designated to receive or assist with the application intake process;

(13) ~~(12)~~ Document and verify all income and asset eligibility requirements for the Household to be assisted;

(14) ~~(13)~~ Ensure compliance with applicable audit certification requirements;

(15) ~~(14)~~ Ensure that the demolition and removal of all dilapidated units on the lot occurs prior to the Household's occupancy of the Newly Constructed or Rehabilitated housing unit;

(16) ~~(15)~~ Ensure and verify that each building construction contractor performing activities in the amount of $10,000 or more under the Contract is registered and maintains good standing with the Texas Residential Construction Commission ~~in accordance with 16 TAC, Subtitle C, §16.001~~ in accordance with Chapters 401 and 416 of the Texas Property Code;

(17) ~~(16)~~ Ensure and verify that each housing unit being rehabilitated in the amount of $10,000 or more under the Contract is registered with the Texas Residential Construction Commission~~ in accordance with 16 TAC, Subtitle C, §426.003 ~~in accordance with Section 426.003 of the Texas Property Code;

(18) ~~(17)~~ Provide building construction contractor oversight and ensure builder's risk coverage is provided;

(19) ~~(18)~~ Ensure that the demolition of any housing unit does not occur less than 6 (six) months prior to the Contract end date;

(20) ~~(19)~~ Ensure compliance with applicable construction or property standards and lead-based paint requirements;

(21) ~~(20)~~ Conduct appropriate property inspections and documentation in accordance with applicable program requirements. Ensure compliance with the Texas Residential Construction Commission inspection requirements under Title 16 of the Texas Property Code;

(22) ~~(21)~~ Submit required documentation and electronic requests for Project setups and disbursement requests to the Department;

(23) ~~(22)~~ Submit support documentation for Project setups and disbursement requests within thirty (30) days of electronic submission to the Department;

(24) ~~(23)~~ Submit all Project setups and support documentation for Households to be assisted no later than ninety (90) days prior to the Contract end date. In the event that a loan closing is required for single family Rehabilitation or Reconstruction, non-development activities, all Project setups and support documentation must be submitted no later than one hundred eighty (180) days prior to the Contract end date;

(25) ~~§53.44(a)(6)~~ Provide certification that no person or entity that would benefit from the award of HOME funds has provided a source of Match or has satisfied the Applicant's cash reserve obligation or made promises in connection therewith;

(26) ~~§53.44(a)(7)~~ Provide certification that all contractors, consulting firms, Administrators, and Development Owners will sign an affidavit to attest that each request for payment of HOME funds is for the actual cost of providing a service and that the service does not violate any conflict of interest provisions; and

(27) ~~§53.44(a)(8)~~ If required or requested, provide reasonable Match and submit required documentation to the Department;

~~(24) Submit required Match documentation to the Department;~~

(28) ~~(25)~~ Not retain Program Income of any kind, including Program Income to fund other eligible HOME Activities;

(29) ~~(26)~~ Submit any Program Income received to the Department within ten (10) days of receipt;

(30) ~~(27)~~ Return any refunds to the Department's accounting division and include a written explanation of the return of funds, the Contract number, name of Administrator or Development Owner, Activity address and Activity number referenced on the check;

(31) ~~(28)~~ Submit required documentation for Project completion reports and certificate of Contract Completion no later than sixty (60) days from the Contract end date; and

(32) ~~(29)~~ Complete the terms of the Contract.

§53.82. Conflict of Interest

The Conflict of Interest provisions in 24 CFR §92.356 apply to any Person who is an employee, agent, consultant, officer, or elected official or appointed official of the Department, Administrator or Development Owner. All Administrators and Development Owners must comply with procedures to submit a request to the Department to grant an exception to any conflicts prohibited by 24 CFR §92.356. The request submitted to the Department must include a disclosure of the nature of the conflict, accompanied by an assurance that there has been public disclosure of the conflict and a description of how the public disclosure was made. No HOME funds can be used to assist a Household until HUD has granted an exception to the Conflict of Interest provisions.

§53.83. Procurement

(a) All Administrators acting in the capacity of State Recipients must comply with procurement requirements and regulations established under 24 CFR Part 84 pertaining to the HOME Program, 24 CFR Part 92, Chapter 2254, Texas Government Code, and the HOME Program Manual, as well as any other applicable state and/or local procurement requirements.

(b) Administrators acting in the capacity of Subrecipients must comply with procurement requirements and regulations established under 24 CFR Part 85 pertaining to the HOME Program, as well as any other applicable state and/or local procurement requirements.

(c) Procurement procedures and the selection process must be integrated into the Administrator's HOME program and must comply with federal, state, and local procurement requirements. The Administrator must have a written code of conduct governing employees, officers, or agents engaged in administering a HOME Contract and appoint a Procurement Officer to manage the bid process.

(d) Procedures established for procurement of building construction contractors may not include requirements for the provision of general liability insurance coverage for an amount to exceed the value of the contract.

(e) HOME funds may not be used to directly or indirectly employ, award contracts to, or otherwise engage the services of any service provider or vendor during any period for which the service provider or vendor has been debarred, suspended, or designated as ineligible on the federal Excluded Parties Listing System.

(f) Building construction contractors must be procured using a formal sealed bid procedure for single family New Construction or Rehabilitation Activities or Projects.

(g) Professional service providers must be procured using an open competitive procedure for single family New Construction or Rehabilitation Activities or Projects. Professional services may not be procured based solely on the lowest priced bid. Consultants may not participate in or direct the process of procurement for consultants.

(h) Goods and services other than professional services and building construction contractors, for an amount less than $100,000 may be procured using documented price quotation procedures.

§53.84. Project Setups and Disbursement Requests

All Administrators and Development Owners must comply with procedures and timeframes established by this Chapter and the HOME Program Manual to submit requests for Project setup and disbursement requests and support documentation required by the Department. The Department reserves the right to request additional documentation or clarification from the Administrator or Development Owners. Requests must be made electronically and submitted in accordance with applicable benchmarks to the Department using the online TDHCA Contract System database as defined in the "TDHCA Contract System Users Guide."

§53.85. Administrative and Soft Costs Limitations

(a) The Department has established cost guidelines and limitations for administrative and soft costs related to the OCC, TBRA, and HBA Program Activities.

(1) Administrator must use funds for Administrative Costs in accordance with 24 CFR §92.207. For the OCC, ~~and~~ HBA, and contract for deed conversion Program Activities, funds for Administrative Costs cannot exceed 4% of the ~~Contract award for~~ total project costs for the entire Contract term. For the TBRA Program Activity, funds for Administrative Costs cannot exceed 4% of the ~~Contract award for~~ total project funds per year of the Contract term. For Program Activities that are serving Persons with Disabilities, funds for Administrative Costs cannot exceed 6% of the total project costs for the entire Contract term.

(2) ~~(1)~~ With the exception of Administrative Costs ~~and Plans and specification manual~~ per Contract, these costs are maximums per Activity or Project and may not be exceeded

without approval by the Department. Upon prior approval of the Department, exceptions may be allowed in the case of Rehabilitation activities for lead-based paint hazard reduction and/or relocation and cost categories and limitations not identified in the proposed rule.

(3) ~~(2)~~ Contract Administrators must certify that the amount being disbursed is for the actual amount of costs.

(4) ~~(3)~~ Costs that may be categorized as either a project soft cost or an administrative cost are identified below. No duplicate disbursement of costs is allowed. Costs may only be disbursed as either a project soft cost or administrative cost but not both. Additionally, costs may only be disbursed once per occurrence when providing both acquisition and construction type of assistance to the same Project or Activity as may take place with, but not limited to, contract for deed conversions.

(5) ~~(4)~~ Unless otherwise noted, all items are limited to one (1) occurrence per Project or Activity.

(6) ~~(5)~~ Third-party project soft costs related to loan closing requirements, such as appraisals, title reports or insurance, tax certificates, and recording fees, are not subject to a maximum per Activity or Project. However, these soft costs are subject to the ~~limitations of the~~ maximum ~~percentage of hard or project costs identified in subsection (c) of this section~~ amount of assistance established for the Program Activity.

Figure: 10 TAC 53.85(a)(6)~~(4)~~

OCC and HBA with Rehabilitation	Reconstruction	Rehabilitation
Project Soft or Administrative Cost per ACTIVITY		
Application intake and processing	$ ~~500~~ 600	$ ~~500~~ 600
Credit Report	$ 50	$ 50
Construction and disbursement documentation preparation	$ 250	$ 250
Environmental review	$ 400	$ 400

Financial management	$ ~~150~~ 200
Procurement of professional service provider	$ ~~200~~ 300
Recordkeeping	$ ~~400~~ 800
Project Soft Cost Only per ~~PROJECT~~ACTIVITY	
Credit Report	$ 50
Homebuyer Counseling	$ 300

(b) The allowable activities for each cost category are defined as follows:

(1) Administrative costs are costs incurred for activities performed directly by the Administrator and include general management and oversight, salaries, wages and related costs of staff, travel costs incurred for official business in carrying out the Contract, public information, and other costs required for the administration of the program such as purchase of equipment, insurance, utilities, office supplies, and rental and maintenance (not purchase) of office space;.

(2) ~~(1)~~Affirmative marketing plan is the cost incurred to develop a written plan for ensuring that marketing, advertising, and outreach activities are provided to all protected classes and to the populations being served by the Contract. This includes the development of advertising materials and hand-outs and public presentation;

(3) ~~(2)~~ Application intake and processing is the cost incurred for the completion of all intake application documentation and forms, verification of all sources of income, employment verification, asset verification and imputation and re-verification of all expired documentation. This includes all Department-required forms, worksheets, addenda and certifications required for the household's application intake and processing;

~~(3) Appraisal is the cost incurred in obtaining appraisals prepared by an independent, state-licensed real estate appraiser;~~

(4) Construction and disbursement documentation preparation is the cost incurred in the preparation of forms required by the Department that are related to construction or disbursement documentation and include electronic entry into the TDHCA Contract System, support documentation preparation and completion of Department-required forms including, but not limited to, the Contractor Request for Payment, Lien Waiver Affidavits, Final Bills Paid Affidavit and Certification of Completion;

(5) Environmental review is the cost incurred for the preparation and completion of all required forms, checklists and certifications, publication activities and Request for Release of Funds and Finding of No Significant Impact and Eight Step Process, if applicable;

(6) Exempt administrative environmental is the cost incurred in the completion of an exemption form for administrative expenses;

(7) Final inspection is the cost incurred in performing a final walk through and physical inspection of the assisted housing unit noting any deficient items that must be corrected before final payment and the completion of any Department-required forms or checklists;~~.~~

(8) Financial management is the cost incurred in the management of all project and program accounts using a fund type accounting system that can trace each expense to an individual Project or to the program as a whole and ensures compliance with OMB circulars. A written or printed journal of all transactions including receipt and disbursement of funds should be included;

(9) Homebuyer counseling is the cost incurred to provide a minimum of eight hours of counseling provided by a certified homebuyer counselor. Instruction may include, but is not limited to, financial management, credit management, homebuyer education, and/or job training;

(10) Information services is the cost incurred to provide information to homeowners, prospective homebuyer and/or tenants. These may include the following:

> (A) Fair housing--cost incurred to provide information to prospective homebuyers and tenants (not applicable to OCC);
>
> (B) Loan procedures--cost incurred to provide information pertaining to fair lending practices, loan requirements, and closing procedures to participants in OCC and HBA (not applicable to TBRA);
>
> (C) Warranty (Project cost only)--cost incurred to provide an explanation of the builder's homeowner warranty (must comply with Texas Residential Construction Commission requirements) to households assisted with Reconstruction or Rehabilitation activities;
>
> (D) Lead-based paint--cost incurred to provide lead-based paint hazard notification to all applicants in all HOME Program Activities;

(11) Initial inspection is the cost incurred in the completion of the initial physical inspection of the housing unit to be assisted and Department-required forms and checklists. The inspection must identify all health and safety concerns regarding the housing unit, all sub-standard conditions that require repair or replacement to comply with applicable codes and standards and the TMCS, and provide enough detail to complete a work write-up, and if applicable, a justification of Reconstruction;

(12) Plans is ~~are~~ the cost incurred to obtain a complete set of plans, which shall include a site plan for each housing unit showing known easements and lot set-backs, a floor plan, a front elevation, a foundation plan, a plumbing and electrical plan and a mechanical and energy efficiency plan. If these plans are purchased from or donated by a licensed architect or engineer they should bear the appropriate stamp. While builders may require less complete plan sets and it is understood that some of these details may be combined on the same sheet, any plans set that does not include this level of detail will be pro-rated accordingly;

(13) Pre-construction conference is the cost incurred in conducting a meeting with the homeowner and building construction contractor to explain and discuss the construction process being undertaken. This meeting should include a description of construction activities and procedures, expectations of the final product, an explanation of the roles and duties for all parties, detail and review of the timelines and contractual milestones, required access and use of utilities, provision of appropriate security measures, selection of products and improvements to be provided, and a discussion of appropriate handicap accessibility features;

(14) Procurement of contractor is the cost incurred in the preparation of bid documents, pre-bid advertising, conducting of the pre-bid conference, the verification of required builder certifications, conducting of the walk-through of housing units to be assisted, conducting checks of bidder qualifications and references, conducting bid opening including keeping minutes and tabulations, the review of the bids, conducting contract negotiation and verification, the notification of award and the completion of any Department-required forms;

(15) Procurement of professional service provider is the cost incurred to procure a professional service provider (i.e. consultant). The Administrator must use negotiated bidding procedures for the procurement of professional service providers (i.e. consultants) and provide for independent procurement of professional service providers (i.e. consultants may not participate in any aspect of procuring consultants);

(16) Progress inspections is the cost incurred in performing inspections at logical points during the construction process or prior to approving each draw that verify quality and completeness of work to date and are signed by the inspector and Contract Administrator. Upon completion of the progress inspection, the Contract Administrator must send a copy of the completed inspection report to the homeowner. The homeowner must also sign to acknowledge receipt of the completed Progress Inspection Report. Logical points of inspection include but are not limited to:

(A) Foundation--prior to pouring a monolithic foundation and after initial curing or alternatively after completion of piers;~~,~~

(B) Framing--completion of framing;~~,~~

(C) Rough-in--after completion of electrical and plumbing but before covering and placement of fixtures;~~,~~ and

(D) Substantial completion.~~;~~

(17) Progress inspections should each require at least one hour and include inspection forms, filed notes, sketches, and/or photographs adequate for verification of that stage of completion;

(18) Project documentation preparation is the cost incurred in the preparation of forms required by the Department that are not related to income eligibility or construction and include, but are not limited to, the TDHCA Contract System Access Request, Direct Deposit Authorization, Texas Application for Payee Identification, and Audit Certification;

(19) Property inspections is the cost incurred to perform an inspection of the subject property in order to certify that no sub-standard conditions exist according to TMCS using the Department's forms;

(20) Punch list verification inspection is the cost incurred in performing a final physical inspection of the assisted housing unit to verify the completion of punch list items only;

(21) Recordkeeping is the cost incurred to develop, prepare and maintain a recordkeeping system in the order prescribed by the Departments which includes three separate types of filing for program, environmental, and project areas;

(22) Schedule of values is the cost incurred to prepare a line-item description of each work activity and its associated cost and enter electronically into the Department's Contract System as the budget;

(23) Specification manual is the cost incurred to prepare or obtain a single generic manual to be used for multiple sites or projects detailing the methods and materials to be used on all construction jobs. The homeowner's choices may be included but should be detailed for each job. All trade areas and construction activities must be included in the specification manual. In cases where there are no local requirements for specifications and TMCS are used, no additional cost should be requested for disbursement;

(24) Work write-up is the cost incurred to prepare or obtain a complete description of the work activity specific to Rehabilitation required to bring the entire structure into compliance with the applicable construction standards. It must include all units of measurement, materials to be used, methods of application, and all necessary construction detail and/or may be used in conjunction with a specification manual; and

(25) Work write-up/cost estimate is the cost incurred in performing the Feasibility Analysis which is a budgetary justification for Reconstruction which compares the cost of Rehabilitation to the replacement costs of a housing unit and in the completion of Department-required forms. The analysis must include a summary of the steps and costs required to correct the deficiencies identified in the initial inspection.

~~(c) Notwithstanding the limitations of subsection (a) of this section, the total of all soft costs for each Project or Activity is limited based on the maximum amount of assistance allowed for the housing unit and is calculated as a percentage of the hard or project costs for each Activity or Project. For example, a household that is eligible to be assisted with an OCC Reconstruction amount of assistance of $67,500, the maximum amount of total soft costs is derived by dividing $67,500 by 1.09 and then subtracting this amount from $67,500, which equals $5,573.39. There is no minimum percentage for soft costs per housing unit. These percentages are the maximums allowed per Activity or Project and may not be exceeded without approval by the Department. Upon prior approval of the Department, exceptions may be allowed in the case of Rehabilitation activities for lead-based paint hazard reduction and/or relocation.~~

~~Figure: 10 TAC 53.85(c)~~

~~Type of Activity~~		~~Max Percentage for soft costs based on Hard Costs or Project Costs~~	~~Max Percentage for administrative costs based on Total Project Costs~~

HOME DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval for publication in the *Texas Register* a final order adopting repeal of 10 TAC Chapter 51, Housing Trust Fund Rule, and final order adopting new 10 TAC Chapter 51, Housing Trust Fund Rule.

Requested Action

Approve, Deny or Approve with Amendments for publication in the *Texas Register* a final order adopting repeal of 10 TAC Chapter 51, Housing Trust Fund Rule, and final order adopting new 10 TAC Chapter 51, Housing Trust Fund Rule.

Background

The Department conducted six public meetings to accept public comment on the proposed changes to the Housing Trust Fund Rule (10 TAC Chapter 53) as published September 19, 2008 in the *Texas Register*. Public hearings on the new rule were held in Austin (September 24, 2008), Fort Worth (September 26, 2008), Lubbock (September 29, 2008), El Paso (October 1, 2008), Brownsville (October 3, 2008), and Houston (October 6, 2008). Additionally, written comments on the new rule were accepted by mail, e-mail, and facsimile through October 20, 2008. The Department also received comments in writing, by e-mail, fax, and mail.

This rule ensures compliance with all statutory requirements, incorporates public input from the recent Housing Trust Fund Program Roundtable and Public Hearing process, formalizes existing policy and guidelines contained in the Housing Trust Fund program manuals and includes recommendations for revisions of necessary policy and administrative changes to further enhance operations.

The responses to public comment are summarized below and include administrative clarifications, changes and corrections made to the Housing Trust Fund Rule by staff, as well as public comments and the corresponding Department response. Comments and responses are presented in the order the issues appear in 10 TAC Chapter 51. For ease of review, after each comment title, numbers are shown in parentheses. These numbers refer to the person or organization that made the comment as reflected in the commenter key, located at the end of this document. Copies of the exact comment letters provided are available on the Department's website. In some cases the text of the draft rule, as taken out for public comment, is provided first to provide the proper context for the comment provided.

General Public Comment

Comment:
Commenter requests the establishment of a Housing Trust Fund demonstration program for housing development, preservation, and organizational capacity-building to serve farmworker housing. (15)

Staff Response:
The Housing Trust Fund (HTF) has established several successful demonstration housing programs over the last several years. While there has not been a farmworker specific demonstration program, non-profit organizations and units of general local government are eligible to apply for any of the Housing Trust Fund programs and serve farmworkers as a part of their program design. It is important to note the Department is currently proposing a capacity building grant through the Office of Colonia Initiatives and the Department has made funds available to multifamily housing development and preservation throughout the year. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comment:
Commenter requests the Department make available at least $3 million in funding with the stated purpose of producing and preserving housing for Texas farmworkers, improving the conditions in which Texas farmworkers live, and increasing the availability and affordability of housing for Texas farmworkers. (15)

Staff Response:
The Department is committed to providing quality, affordable housing. Last year 95% of HOME funds and approximately 20% of Housing Tax Credits were programmed for the purpose of improving housing conditions in rural Texas. Unfortunately, the need is greater than current resources are able to address. While the Department has not set-aside funding for Farmworker housing, eligible organizations may apply for many of the Department’s available funds and serve the Farmworker community. The Department will take this request under advisement as it requests an increase in Housing Trust Fund money.

Comment:
Provide financial and technical assistance that would be available through a variety of programs to be established by TDHCA or programs proposed by potential grantees in response to grant solicitations. The commenter provided a detailed list for how the funds could be programmed and new projects. (15)

Staff Response:
The Department appreciates the detailed suggestions prioritizing the different ways the Department could approach technical assistance in the Farmworker community. Unfortunately, there is a shortage of funds to provide technical assistance at the level requested. However, the Department will take the comments under advisement as it pursues increasing the capacity of the

Housing Trust Fund and as it programs the Trust Fund dollars in the 2010 Housing Trust Fund Plan.

Comment:
Commenter requests the development of ongoing sources of funding to continue farmworker housing activities in the future using philanthropy grants, program related investments, and other potential resources and ideas. (15)

Staff Response:
The Department will research these recommendations as it develops housing policy in the future. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comment:
Commenter requests the Department explore other state's programs for applicability in Texas. (15)

Staff Response:
The Department will research these recommendations as it develops housing policy in the future. As no specific rule change is currently requested, there is no recommendation for a rule change to address this issue at this time.

Comments on the Proposed Housing Trust Fund Rule, 10 TAC, Chapter 51

§51.2 Definitions. Administrative Change

Language in Draft Rule: *(37) Loan--Financial assistance that is awarded in the form of money and in an executed agreement between the Department and Person for a specific purpose and that is required to be repaid.*

Staff Recommendation:
Staff recommends an administrative change to add the word 'repaid' to complete the definition.

§51.3 Notice of Receipt of Application or Proposed Application

Comment:
Commenter recommends clarification to this section to ensure that this section applies only to multifamily applications and that notice will only be given if required by federal or state law. (18)

Staff Response:
Staff concurs with the comment and recommends the following clarification to the proposed rule:

(a) Not later than the 14th day after the date an Application or a proposed Application for housing funds described by §2306.111 has been filed for multifamily or single family development, the Department shall provide written notice of the filing of the Application or proposed Application to the following Persons:

§51.6 Basic Eligible Activities

Language in Draft Rule*: (c) Pursuant to §2306.754, Applicants combining other Housing Trust Fund funding with the Texas Bootstrap Loan Program funds must limit total Department loans to $30,000.*

Comment:

Commenter contends that §2306.754 does not seem to apply to other TDHCA programs and therefore, recommends the elimination of this subsection. (18)

Staff Response:

The statute, at §2306.754, indicates that the source for loans in excess of the $30,000 committed by the Bootstrap Program, must come from "local governmental entities, nonprofit organizations, or private lenders." This list does not include any other Department programs or state or federal funds. To ensure compliance with the statute, staff recommends no change.

§51.10 Multifamily Development Application Requirements

Language in Draft Rule:

~~(a)~~ Rental Housing Development Site and Development Restrictions. Restrictions include all those items referred to in Chapter 2306, Texas Government Code and any additional items included in the NOFA for rental housing developments.

~~(b) Limitations on the Size of Developments. Developments involving new construction will be limited to 252 units. These maximum Unit limitations also apply to those Developments which involve a combination of rehabilitation and new construction. Developments that consist solely of acquisition/rehabilitation or rehabilitation only may exceed the maximum unit restrictions. The minimum number of units shall be 4 units.~~

Comment:

Commenter recommends reverting to the previous language on multifamily size limitations as it provides clarity on the intent of leveraging Housing Trust Fund funds for multifamily development and prevents the Department from overcommiting funds to multifamily rental at the expense of single family homeownership. (18)

Staff Response:

Staff proposed the elimination of this subsection in order to maintain flexibility in the use of the Housing Trust Funds. The programming of the annual appropriation of Housing Trust Funds is outlined in the Annual Plan and delineates the set-asides and funding available for multifamily and single family activities, as well as any other eligible activities. No change to the proposed rule is recommended.

§51.13 (a)(2)Criteria for Funding

Language in Draft Rule:
(2) Evaluation Factors. Pursuant to §2306.203(c), Texas Government Code, the criteria used to evaluate applications, as more fully reflected in the NOFA, will include at a minimum the:

(A) leveraging of federal funds including the extent to which the project will leverage State funds with other resources, including federal resources, and private sector funds;

(B) cost-effectiveness of a proposed development; and

(C) extent to which individuals and families of very low income and extremely low income are served by the development.

Comment:
Commenter suggests adding language that would include the cost of energy as one of the evaluation factors. (16)

Staff Response:
While staff agrees with the importance of energy saving costs in affordable housing, it does not recommend a revision to this section. This section of the rule specifically relates to a statutory citation, of which energy costs is not referenced. To the extent the Department incentivizes energy costs as an evaluation factor it will be included in the Trust Fund Annual Plan and/or the Notices of Funding Availability.

§51.18 General Contract Administration. Administrative Change

Language in Draft Rule: *All Administrators and Development Owners must use the forms provided on the Department's website and comply with the Department's procedural and documentation requirements as outlined in the Program Manual and in this section including:*

> *(16) Ensure and verify that each building construction contractor performing activities in the amount of $10,000 or more under the Contract is registered and maintains good standing with the Texas Residential Construction Commission~~ in accordance with 16 TAC, Subtitle C, §16.001~~ in accordance with Chapters 401 and 416 of the Texas Property Code;*
>
> *(17) Ensure and verify that each housing unit being rehabilitated in the amount of $10,000 or more under the Contract is registered with the Texas Residential Construction Commission~~ in accordance with 16 TAC, Subtitle C, §426.~~003 in accordance with Section 426.003 of the Texas Property Code;*
>
> *(21) Conduct appropriate property inspections and documentation in accordance with applicable program requirements. Ensure compliance with the Texas Residential Construction Commission inspection requirements under Title 16 of the Texas Property Code;*

Staff Recommendation:
These administrative changes (highlighted above) are recommended to clarify the contract administration requirements to ensure compliance with the Texas Residential Construction Commission requirements.

Commenter Key

# Assigned	COMMENTER	Rule
15	Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.	HOME, HTF, QAP, General
16	Cyrus Reed, PhD, Conservation Director, Lone Star Chapter of Sierra Club	HOME, QAP, Bond, REA, HTF, CAP (WAP)
18	Matt Hull, Executive Director, Habitat Texas	HTF

Recommendation

Staff recommends Board approval for publication in the *Texas Register* a final order adopting repeal of 10 TAC Chapter 51, Housing Trust Fund Rule, and final order adopting new 10 TAC Chapter 51, Housing Trust Fund Rule.

DRAFT
Board Review Pending

Texas Department of Housing and Community Affairs
“Housing Trust Fund Rule”

TITLE 10, Part 1, Chapter 51, Texas Administrative Code

§51.1. Purpose

This Chapter clarifies the use and administration of the Housing Trust Fund. The Department shall use the Housing Trust Fund to provide loans, grants, or other comparable forms of assistance to local units of government, public housing authorities, for profit entities, nonprofit organizations, income-eligible individuals, families, and households to finance, acquire, rehabilitate, and develop decent, safe, and sanitary housing. The fund is created pursuant to §2306.201, Texas Government Code. The use of the Housing Trust Fund is limited to activities pursuant to §2306.202, Texas Government Code:

(1) assistance for individuals and families of low and very low income;

(2) technical assistance and capacity building to nonprofit organizations engaged in developing housing for individuals and families of low and very low income;

(3) security for repayment of revenue bonds issued to finance housing for individuals and families of low and very low income; and

(4) subject to the limitations in §2306.251, Texas Government Code, the Department may also use the fund to acquire property to endow the fund.

§51.2. Definitions

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.

(1) Administrative Deficiencies--The absence of information or a document from the application as required in this rule or applicable NOFA.

(2) Administrator--The Person responsible for performing under a Contract with the Department.

(3) Affiliate--An individual, corporation, partnership, joint venture, limited liability company, trust, estate, association, cooperative or other organization or entity of any nature whatsoever that directly, or indirectly through one or more intermediaries, Controls, is Controlled by, or is under common Control with any other Person, and specifically shall include parents or subsidiaries. Affiliates also include all General Partners, Special Limited Partners and Principals with an ownership interest.

(4) Affiliated Party--A Person in a relationship with the Administrator on a Contract with the Department.

(5) Applicant--A person who has submitted an Application for Department funds or other assistance.

(6) Application--A request for funds submitted to the Department in a form prescribed by the Department, including any exhibits or other supporting material.

(7) Application Acceptance Period--The period of time that Applications may be submitted to the Department as more fully described in the applicable NOFA.

(8) Application Submission Procedures Manual ("ASPM")--The manual which sets forth the procedures, forms and instructions for the completion and submission of an Application to the Department.

(9) Area Median Family Income ("AMFI")--The income estimated and determined by HUD as the median family income with adjustments for family size and geographic locations.

(10) Articles of Incorporation--The document that sets forth the basic terms for a corporation's existence and is the official recognition of the corporation's existence.

(11) Board--The governing board of the Texas Department of Housing and Community Affairs.

(12) Bylaws--A rule or administrative provision adopted by a corporation for its internal governance. Bylaws are enacted apart from the Articles of Incorporation. Bylaws and amendments to Bylaws must be formally adopted in the manner prescribed by current Bylaws by either the organization's board of directors or the organization's members, whoever has the authority to adopt and amend Bylaws.

(13) ~~(12)~~ Capacity Building--Educational and organizational support assistance to promote the ability of community housing development organizations and nonprofit organizations to maintain, rehabilitate and construct housing for low, very low, and extremely low-income persons and families. This activity may include:

(A) organizational support to cover expenses for housing development or management related training, technical and other assistance to the board of directors, staff, and members of the nonprofit organizations or community housing development organizations;

(B) technical assistance and training related to housing development, housing management, or other subjects related to the provision of housing or housing services; or

(C) studies and analyses of housing needs.

(14) ~~(13)~~ Chapter 2306--The enabling statute for the Department found in Texas Government Code, Chapter 2306.

(15) ~~(14)~~ Colonia--A geographic area that is located in a county some part of which is within 150 miles of the international border of this state that consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood, and that:

(A) has a majority population composed of individuals and families of low income and very low income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed area under §17.921, Texas Water Code; or

(B) has the physical and economic characteristics of a colonia, as determined by the Department ~~Texas Water Development Board~~.

~~(15) Colonia Housing Standards--The Department's HUD approved housing standards that allows Colonia residents with the opportunity to rehabilitate their homes when located in a designated Colonia.~~

(16) Competitive Application Cycle--A defined period of time that Applications may be submitted according to a published Notice of Funding Availability (NOFA). Applications will be reviewed in accordance with the rules for application review published in the NOFA, and the ASPM.

(17) ~~(18)~~ Contract--The executed written agreement between the Department and an Administrator performing an activity related to a program that outlines performance requirements and responsibilities assigned by the document.

(18) ~~(17)~~ Control--The possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any Person, whether through the ownership or voting securities, by contract or otherwise, including specifically ownership of more than 50% of the General Partner interest in a limited partnership, or designation as a managing General Partner of a limited liability company.

(19) Council of Governments (COG)--A regional body which serves an area of several counties to address regional planning including but not limited to transporation planning, economic and community development, information gathering and processing, hazard mitigation and emergency preparedness, and water and environmental planning.

(20) ~~(19)~~ Deobligated Funds--The funds released by an Administrator or Contractor or recovered by the Department canceling a ~~c~~Contract or award involving some or all of a contractual financial obligation between the Department and an Administrator or ~~contractor~~Development Owner.

(21) ~~(20)~~ Department--The Texas Department of Housing and Community Affairs.

(22) ~~(21)~~ Developer--Any Person entering into a contract with the Development Owner to provide development services with respect to the Development and receiving a fee for such services and any other Person receiving any portion of such fee, whether by subcontract or otherwise.

(23) ~~(22)~~ Development--A Project that has a construction component, either in the form of N~~n~~ew C~~c~~onstruction or the R~~r~~ehabilitation of multi-unit or single family residential housing that meet the affordability requirements.

(24) ~~(23)~~ Development Funding--

(A) a loan or grant; or

(B) an in-kind contribution, including a donation of real property, a fee waiver for a building permit or for water or sewer service, or a similar contribution that:

(i) provides an economic benefit; and

(ii) results in a quantifiable cost reduction for the applicable development.

(25) ~~(24)~~ Development Owner--Any Person, General Partner, or Affiliate of a Person who owns or proposes a Development or expects to acquire Control of a Development under a purchase contract approved by the Department.

(26) ~~(25)~~ Development Site--The area, or if scattered site areas, for which the Development is proposed to be located and is to be under the Development Owner's Control.

(27) ~~(26)~~ Executive Award and Review Advisory Committee ("The Committee")--The Department committee that will develop funding priorities and make funding and allocation recommendations to the Board based upon the evaluation of an Application in accordance with the housing priorities as set forth in Chapter 2306, Texas Government Code, and as set forth herein, and the ability of an Applicant to meet those priorities.

(28) ~~(27)~~ General Contractor--One who contracts for the construction or Rehabilitation of an entire Development, rather than a portion of the work. The General Contractor hires subcontractors, such as plumbing contractors, electrical contractors, etc., coordinates all work, and is responsible for payment to the subcontractors.

(29) ~~(28)~~ General Partner--The partner, or collective of partners, identified as the general partner of the partnership that is the Development Owner and that has general liability for the partnership. In addition, unless the context shall clearly indicate the contrary, if the Development Owner in question is a limited liability company, the term "General Partner" shall also mean the managing member or other party with management responsibility for the limited liability company.

(30) ~~(29)~~ Grant--Financial assistance that is awarded in the form of money to a housing sponsor for a specific purpose and that is not required to be repaid. For purposes of this chapter, a Grant includes a forgivable loan.

(31) ~~(30)~~ Household--One or more persons occupying a housing unit.

(32) ~~(31)~~ Housing Development Costs--The total of all costs incurred, or to be incurred, by the Development Owner in acquiring, constructing, rehabilitating and financing a Development as determined by the Department based on the information contained in the Application. Such costs include reserves and any expenses attributable to commercial areas.

(33) ~~(32)~~ HUD--The United States Department of Housing and Urban Development, or its successor.

(34) ~~(34)~~ Income Eligible Households--

(A) Low-Income Households--Households whose annual incomes do not exceed 80% of the median income of the area, as determined by HUD and published by the Department, with adjustments for family size.

(B) Very Low-Income Households--Households whose annual incomes do not exceed 60% of the median family income for the area, as determined by HUD and published by the Department, with adjustments for family size.

(C) Extremely Low Income Households--Households whose annual incomes do not exceed 30% of the median income of the area, as determined by HUD and published by the Department, with adjustments for family size.

(35) ~~(33)~~ Intergenerational Housing--Housing that includes specific units that are restricted to the age requirements of a Qualified Elderly Development and specific units that are not age restricted in the same Development that:

(A) have separate and specific buildings exclusively for the age restricted units;

(B) have separate and specific leasing offices and leasing personnel exclusively for the age restricted units;

(C) have separate and specific entrances, and other appropriate security measures for the age restricted units;

(D) provide shared social service programs that encourage intergenerational activities but also provide separate amenities for each age group;

(E) share the same Development site;

(F) are developed and financed under a common plan and owned by the same Person for federal tax purposes; and

(G) meet the requirements of the federal Fair Housing Act.

(36) ~~(35)~~ Land Use Restriction Agreement ("LURA")--An ~~Land Use Restriction A~~agreement between ~~that has been executed by~~ the Department and a Person related to a specific property, or properties, which is filed with the responsible recording authority.

(37) ~~(36)~~ Loan ~~Agreement~~--Financial assistance that is awarded in the form of money and in ~~A~~an executed agreement between the Department and ~~a~~ Person for a specific purpose and that is required to be repaid~~regarding the terms and conditions of a loan provided to the Person from the Department~~.

(38) ~~(37)~~ Material Noncompliance--As is defined in ~~Title 10 Texas Administrative Code,~~ Chapter 60, Subchapter A of this title.

(39) Manufactured Housing Unit (MHU)--As defined by HUD is a structure transportable in one or more sections which, in traveling mode, is 8 body-feet or more in width or 40 body-feet or more in length, or when erected on site, is 320 square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required facilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein.

(40) ~~(38)~~ Memorandum of Understanding (MOU)--A written agreement detailing the understanding between the parties.

(41) Modular Housing--As defined by HUD is a home built in sections in a factory to meet state, local, or regional building codes. Once assembled, the modular unit becomes permanently fixed to one site.

(42) ~~(39)~~ Mortgagor ("Borrower")--The Person who borrows money and uses his or her real property as collateral and security for the payment of the debt.

(43) ~~(40)~~ New C~~c~~onstruction--Any Development not meeting the definition of Rehabilitation or Reconstruction.

(44) ~~(41)~~ NOFA--Notice of Funding Availability, published in the Texas Register.

(45) ~~(42)~~ Nonprofit Organization--A public or private organization that:

(A) is organized under state or local laws;

(B) has no part of its net earnings inuring to the benefit of any member, founder, contributor, or individual;

(C) has a current tax exemption ruling from the Internal Revenue Service (IRS) under §501(c)(3), a charitable, nonprofit corporation, or §501(c)(4), a community or civic organization, of the Internal Revenue Code of 1986, as evidenced by a certificate from the IRS that is dated 1986 or later. The exemption ruling must be effective on the date of the application and must continue to be effective throughout the length of any contract agreements; or classification as a subordinate of a central organization non-profit under the Internal Revenue Code, as evidenced by a current group exemption letter, that is dated 1986 or later, from the IRS that includes the Applicant. The group exemption letter must specifically list the Applicant; and

(D) A private nonprofit organization's pending application for §501(c)(3) or (c)(4) status cannot be used to comply with the tax status requirement.

(46) ~~(43)~~ Open Application Cycle--A defined period during which applications may be submitted according to a published NOFA and which will be reviewed on a first come-first served basis until all funds available are committed, or until the NOFA is closed, whichever is earlier.

(47) ~~(44)~~ Person--Any individual, partnership, corporation, association, unit of government, community action agency, or public or private organization of any character.

(48) ~~(45)~~ Persons with Disabilities--A Household composed of one or more persons, at least one of whom is a Person, who has a disability that is a physical or mental impairment that substantially limits one or more major life activities; has a record of such impairment; or is regarded as having such an impairment as defined in the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. §15002).

(49) ~~(46)~~ Person with Special Needs--Individuals or categories of individuals determined by the Department to have unmet housing needs:

(A) consistent with 42 USC §§12701 et seq. and as provided in the Consolidated Plan and may include any households composed of one or more persons with alcohol and/or drug addictions, Colonia residents, Persons with Disabilities, elderly, victims of domestic violence, persons with HIV/AIDS, homeless populations and migrant farm workers, and public housing residents.

(B) Housing Trust Funds may also be awarded through Persons legally responsible for caring for a Person with Special Needs, pursuant to §2306.511, Texas Government Code.

(50) ~~(47)~~ Predevelopment Costs--Reimbursable costs related to a specific eligible housing project including:

(A) Predevelopment housing project costs that the Department determines to be customary and reasonable, including but not limited to consulting fees, architectural fees, engineering fees, engagement of a development team, site control, and title clearance;

(B) Pre-construction housing project costs that the Department determines to be customary and reasonable, including but not limited to, the costs of obtaining architectural plans and specifications, zoning approvals, engineering studies and legal fees; and

(C) Predevelopment costs do not include general operational or administrative costs.

(51) ~~(48)~~ Principal--Any Person that does or will exercise Control over a partnership, corporation, limited liability company, trust or any other private entity. In the case of:

(A) Partnerships, Principals include all General Partners, Special Limited Partners and Principals with ownership interest;

(B) Corporations, Principals include any officer authorized by the board of directors to act on behalf of the corporation, including the president, vice president, secretary, treasurer and all other executive officers, and each stock holder having a ten percent or more interest in the corporation; and

(C) Limited liability companies, Principals include all managing members, members having a ten percent or more interest in the limited liability company or any officer authorized to act on behalf of the limited liability company.

(52) Principal Residence--The primary housing unit a Person or Household inhabits.

(53) ~~(49)~~ Project--A site or an entire building (including a manufactured housing unit), or two or more buildings, together with the site or sites on which the building or buildings are located, that are under common ownership, management, and financing.

(54) ~~(50)~~ Property--The real estate and all improvements thereon which are the subject of the Application whether currently existing or proposed to be built thereon in connection with the Application.

(55) ~~(51)~~ Public Housing Authority--A housing authority established under the Texas Local Government Code, Chapter 392.

(56) Qualified Elderly Development--A Development which meets the requirements of the federal Fair Housing Act and:

(A) is intended for, and solely occupied by, individuals 62 years of age or older; or

(B) is intended and operated for occupancy by at least one individual 55 years of age or older per unit, where at least 80% of the total housing units are occupied by at least one individual who is 55 years of age or older; and where the Development Owner publishes and adheres to policies and procedures which demonstrate an intent by the owner and manager to provide housing for individuals 55 years of age or older.

(57) ~~(52)~~ Received Date--The date and time at which an Application is actually received by the Department.

(58) ~~(53)~~ Rehabilitation--The improvement or modification of an existing residential development through an alteration, addition, or enhancement. The term includes the demolition of an existing residential development and the reconstruction of any development units, but does not include the improvement or modification of an existing residential development for the purpose of an adaptive reuse of the development. Rehabilitation also includes replacing and existing substandard MHU with a new MHU.

(59) ~~(54)~~ Resolution--Formal action by a corporate board of directors or other corporate body authorizing a particular act, transaction, or appointment. Resolutions must be in writing and state the specific action that was approved and adopted, the date the action was approved and adopted, and the signature of Person or Persons authorized to sign resolutions. Resolutions must be approved and adopted in accordance with the corporate Bylaws.

(60) ~~(55)~~ Rural Area--An area that is located:

(A) outside the boundaries of a primary metropolitan statistical area or a metropolitan statistical area;

(B) within the boundaries of a primary metropolitan statistical area or a metropolitan statistical area, if the statistical area has a population of 25,000 or less and does not share a boundary with an urban area; or

(C) in an area that is eligible for funding by the Texas Rural Development Office of the United States Department of Agriculture, other than an area that is located in a municipality with a population of more than 50,000.

(61) ~~(56)~~ Rural Development--A development or proposed development that is located in a Rural Area, other than rural new construction Developments with more than 80 units.

(62) Service Area--The city(ies), county(ies) and/or place(s) identified in the Contract that the Administrator will serve.

(63) ~~(57)~~ TAC--Texas Administrative Code.

(64) ~~(58)~~ Third Party--A Person who is not:

(A) an Applicant, General Partner, Developer, or General Contractor, or

(B) an Affiliate or a Related Party to the Applicant, General Partner, Developer or General Contractor, or

(C) a Person(s) receiving any portion of the contractor fee or developer fee.

(65) ~~(59)~~ Unit of General Local Government--A city, town, county, or other general purpose political subdivision of the State.

(66) ~~(60)~~ Urban Area--The area that is located within the boundaries of a primary metropolitan statistical area other than an area described by §2306.004(28-a)(B), Texas Government Code, or eligible for funding as described by §2306.004(28-a)(C).

§51.3. Notice of Receipt of Application or Proposed Application

(a) Not later than the 14th day after the date an Application or a proposed Application for housing funds described by §2306.111 has been filed for multifamily or single family development, the Department shall provide written notice of the filing of the Application or proposed Application to the following Persons:

(1) the United States representative who represents the community containing the Development described in the Application;

(2) members of the legislature who represent the community containing the Development described in the Application;

(3) the presiding officer of the governing body of the political subdivision containing the Development described in the Application;

(4) any member of the governing body of a political subdivision who represents the area containing the Development described in the Application;

(5) the superintendent and the presiding officer of the board of trustees of the school district containing the Development described in the Application; and

(6) any neighborhood organizations on record with the state or county in which the Development described in the Application is to be located and whose boundaries contain the proposed development site.

(b) The notice provided under subsection (a) of this section must include the following information:

(1) the relevant dates affecting the Application, including:

(A) the date on which the Application was filed;

(B) the date or dates on which any hearings on the Application will be held; and

(C) the date by which a decision on the Application will be made;

(2) a summary of relevant facts associated with the development;

(3) a summary of any public benefits provided as a result of the Development, including rent subsidies and tenant services; and

(4) the name and contact information of the employee of the Department designated by the director to act as the information officer and liaison with the public regarding the Application.

§51.4. Loan Closing Is Required Prior to Construction

Administrators and Development Owners must not proceed or allow a contractor to proceed with construction, including demolition, on any Activity, Project or Development without first completing the Loan closing, if required, with the Department.

§51.5~~3~~. Allocation of Housing Trust Funds

(a) Pursuant to §2306.201, Texas Government Code, the Housing Trust Fund is a fund administered by the Department, and placed with the Texas Treasury Safekeeping Trust Company.

(b) Uses of the Housing Trust Fund will be limited to those defined by §2306.202, Texas Government Code.

(c) Each biennium the first $2.6 million available through the housing trust fund for loans, grants, or other comparable forms of assistance shall be set aside and made available exclusively for local units of government, public housing authorities, and nonprofit organizations. Any additional funds may also be made available to for-profit organizations so long as at least 45 percent of available funds in excess of the first $2.6 million shall be made available to nonprofit organizations. The remaining portion shall be competed for by nonprofit organizations, for-profit organizations, and other eligible entities, pursuant to §2306.202, Texas Government Code.

(d) Funds shall be allocated to achieve broad geographic dispersion by awarding funds in accordance with §2306.111(d) and (g), Texas Government Code.

(e) The Department shall require that Applicants target at least 50% of those units served by housing trust funds to individuals and families earning less than 60% of AMFI.

(f) Bond indenture requirements governing expenditure of bond proceeds deposited in the housing trust fund shall govern and prevail over all other allocation requirements established in this Section. However, the Department shall distribute these funds in accordance with the requirements of this Section to the extent possible.

(g) Housing Trust Funds may also be allocated to the Texas Bootstrap Loan Program and will be awarded in accordance with §2306.753, Texas Government Code.

§51.6~~4~~. Basic Eligible Activities

(a) Pursuant to §2306.202, Texas Government Code, the Department, through the housing finance division, shall use the housing trust fund to provide Loans, Grants, or other comparable forms of assistance to Units of General Local Government, Public Housing Authorities, for-profit entities, Nonprofit organizations, and Income-Eligible individuals, families, and Households to finance, acquire, Rehabilitate, and Develop decent, safe, and sanitary housing. In each biennium the first $2.6 million available through the housing trust fund for Loans, Grants, or other comparable forms of assistance shall be set aside and made available exclusively for Units of General Local Government, Public Housing Authorities, and Nonprofit organizations. Any additional funds may also be made available to for-profit organizations so long as at least forty-five percent (45%) of available funds in excess of the first $2.6 million shall be made available to Nonprofit organizations for the purpose of acquiring, Rehabilitating, and Developing decent, safe, and sanitary housing. The remaining portion shall be competed for by nonprofit organizations, for-profit organizations, and other eligible entities. Notwithstanding any other section of this chapter, but subject to the limitations in §2306.251(c), the Department may also use the fund to acquire property to endow the fund.

(b) Use of the fund is limited to providing:

(1) assistance for individuals and families of low and very low income;

(2) technical assistance and capacity building to nonprofit organizations engaged in developing housing for individuals and families of low and very low income; and

(3) security for repayment of revenue bonds issued to finance housing for individuals and families of low and very low income.

(c) Pursuant to §2306.754, Applicants combining other Housing Trust Fund funding with the Texas Bootstrap Loan Program funds must limit total Department loans to $30,000.

§51.7. Prohibited Activities

Department awards may not be used to:

(1) assist Persons who owe payments identified by the Comptroller of Texas as relevant;

(2) assist Households whose Property has current tax liens and/or judgments to the State of Texas against it; or

(3) provide Rehabilitation on a housing unit without prior written consent of all Persons who have a valid lien or ownership interest in the Property.

§51.8~~5~~. Application Procedures and Requirements

(a) Competitive and Open Application Cycles. All NOFAs will be presented to the Board. The Department will declare within a NOFA whether the application cycle will be a competitive or open cycle.

(b) Ex Parte Communications

(1) During the period beginning on the date Applications are filed in response to a NOFA and ending on the date the Board makes a final decision with respect to the approval of any Application for that NOFA, a member of the Board may not communicate with the following persons:

(A) an Applicant or a Related Party, as defined by state law, including board rules, and federal law; and

(B) any Person who is:

(i) active in the construction, Rehabilitation, ownership, or Control of the proposed Project, including:

(ii) a General Partner or Contractor; and

(iii) a Principal or Affiliate of a General Partner or Contractor; or

(iv) employed as a consultant, lobbyist, or attorney by an Applicant or a Related Party.

(2) Subject to paragraph (1) of this subsection, during the period beginning on the Applications are filed in response to a NOFA and ending on the date the Board makes a final decision with respect to the approval of any Application for that NOFA, an employee of the Department may communicate about the Application with the following Persons:

(A) the Applicant or a Related Party, as defined by state law, including board rules, and federal law; and

(B) any Person who is:

(i) active in the construction, rehabilitation, ownership, or control of the proposed project including:

(ii) a General Partner or Contractor; and

(iii) a Principal or Affiliate of a General Partner or contractor; or

(iv) employed as a consultant, lobbyist or attorney by the Applicant or a Related Party.

(3) A communication under paragraph (2) of this subsection may be oral or in any written form, including electronic communication through the internet, and must satisfy the following conditions:

(A) the communication must be restricted to technical or administrative matters directly affecting the Application;

(B) the communication must occur or be received on the premises of the Department during established business hours; and

(C) a record of the communication must be maintained and included with the Application for purposes of Board review and must contain the following information:

(i) the date, time, and means of communication;

(ii) the names and position titles of the Persons involved in the communication and, if applicable, the Person's relationship to the Applicant;

(iii) the subject matter of the communication; and

(iv) a summary of any action taken as a result of the communication.

(4) Notwithstanding paragraphs (1), (2) or (3) of this subsection, a Board member or Department employee may communicate without restriction with a Person listed in paragraphs (1) or (2) of this subsection during any Board meeting or public hearing held with respect to the Application, but not during a recess or other nonrecord portion of the meeting or hearing.

(5) Paragraph (1) of this subsection does not prohibit the Board from participating in social events at which a Person with whom communications are prohibited may or will be present, provided that all matters related to Applications to be considered by the Board will not be discussed.

(c) Eligible Applicants. The following organizations or entities are eligible to apply for Program Activities:

(1) Nonprofit organizations;

(2) Units of General Local Government;

(3) for-profit entities and sole proprietors; and

(4) Public Housing Agencies.

(d) Ineligible Applications, Activities, and Restrictions. The following conditions will cause an Applicant, and any applications they have submitted, to be ineligible:

(1) The Applicant, Development Owner, or Developer is an Administrator of a previously funded Contract for which Department funds ~~Housing Trust Funds~~ have been partially or fully deobligated due to failure to meet contractual obligations during the 12 months prior to application submission date, unless the deobligation was voluntary and prior to the contract term expiration date, or was the remainder on a completed Contract.

(2) The Applicant, Development Owner, or Developer has failed to submit or is delinquent in a response to provide an explanation, evidence of corrective action or a payment of disallowed costs or fees as a result of a monitoring review.

(3) The Applicant, Development Owner, or Developer has failed to make timely payment or is delinquent on any loans or fee commitments made with the Department on the date of the Application submission.

(4) The Applicant, Development Owner, or Developer has been or is barred, suspended, or terminated from procurement in a state or federal program or listed in the List of Parties Excluded from Federal Procurement of Non-procurement Programs or has otherwise been debarred by HUD or the Department.

(5) The Applicant, Development Owner, or Developer has violated the State's revolving door policy.

(6) The Applicant, Development Owner, or Developer has been convicted of a state or federal felony crime involving fraud, bribery, theft, misrepresentation of material fact, misappropriation of funds, or other similar criminal offenses within fifteen years preceding the Application deadline.

(7) The Applicant, Development Owner, or Developer at the time of Application submission is: subject to an enforcement or disciplinary action under state or federal securities law or by the NASD is subject to a federal tax lien; or is the subject of an enforcement proceeding with any governmental entity.

(8) The Applicant, Development Owner, or Developer ~~has issues covered under~~with any past due audits has not submitted those past due audits to the Department in a satisfactory format on or before the Application submission date in accordance with ~~10 TAC~~ §1.3 of this title.

(9) The submitted Application has an entire volume of the Application missing; has excessive omissions of documentation from the threshold Criteria or uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review can not reasonably be performed by the Department, as determined by the Department. If an Application is determined ineligible pursuant to this section, the Application will be terminated without being processed as an Administrative Deficiency. To the extent that a review was able to be performed, specific reasons for the Department's determination of ineligibility will be included in the termination letter to the Applicant.

(10) The Applicant, Development Owner, or Developer or anyone that has Controlling ownership interest in the Development Owner or Developer that is active in the ownership or Control of one or more other rent restricted rental housing properties in the state of Texas administered by the Department is in Material Noncompliance with the LURA.

(11) The Application is a joint venture Application for the same Program Activity to serve the same town, city, or county that is identified in the Application already submitted as a sole Application for the same Program Activity in the same town, city or county.

(12) Any Application that includes financial participation by a Person who, during the five-year period preceding the date of the bid or award, has been convicted of violating a federal law in

connection with a contract awarded by the federal government for relief, recovery, or reconstruction efforts as a result of Hurricanes Rita or Katrina or any other disaster occurring after September 25, 2005, or was assessed a federal civil or administrative penalty in relation to such a contract.

(13) Applications which propose the refinancing or rehabilitation of properties constructed within the past 5 years and previously funded by the Department are not eligible.

(14) Displacement of Existing Affordable Housing. Housing Trust Funds shall not be utilized on a development that has the effect of permanently displacing low, very low, and extremely low income persons and families. Low-Income persons who may be temporarily displaced by the rehabilitation of affordable housing may be eligible for compensation of moving and relocation expenses. If a Housing Trust Fund recipient violates the dislocation provision of this paragraph, that recipient risks loss of Housing Trust Funds and the landlord/developer must pay the affected tenant's costs and all moving expenses.

(e) Noncompliance. Each Application will be reviewed for its compliance history by the Department, consistent with Chapter 60, Subchapter A of this title. Applications containing Persons found to be in Material Noncompliance or otherwise violating the compliance rules of the Department will be terminated.

(f) Application Form and Materials. The Department will develop and publish on its website an Application and ASPM that if completed would satisfy the requirements for requesting funds from the Department. The Department may limit the eligibility of Applications in the NOFA and ASPM. Threshold and selection criteria and any other Application requirements will be specified in the NOFA approved by the Board.

(g) General Application Requirements. Applicants must submit an Application by the deadline date specified in the NOFA using the Application and ASPM forms required by the Department. All Applications must be received during business hours (8:00 a.m. to 5:00 p.m. Central Standard Time) on any business day. Completion and submission of the Application includes the entire Uniform Application and any other supplemental forms which may be required by the Department. (§2306.1111)

(h) Application Limitations. The Department reserves the right to reduce the amount requested in an Application based on activity or Project feasibility, underwriting analysis, or availability of funds.

§51.9. Single Family Housing Programs

Eligible activities include the acquisition and/or New Construction or Rehabilitation of single family housing or rental subsidies, including security or utility deposits, and as further defined in the NOFA. Single family housing units assisted with HTF funds must comply with the required affordability requirements. In addition, housing that is Newly Constructed or Rehabilitated with HTF funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances. The NOFA will include any limitations to the maximum award amounts, the Contract terms, performance benchmarks, and cost limitations.

§51.10~~6~~. Multifamily Development Application Requirements

~~(a) ~~Rental Housing Development Site and Development Restrictions. Restrictions include all those items referred to in Chapter 2306, Texas Government Code and any additional items included in the NOFA for rental housing developments.

~~(b) Limitations on the Size of Developments. Developments involving new construction will be limited to 252 units. These maximum Unit limitations also apply to those Developments which involve a combination of rehabilitation and new construction. Developments that consist solely of acquisition/rehabilitation or rehabilitation only may exceed the maximum unit restrictions. The minimum number of units shall be 4 units.~~

§51.11~~7~~. Multifamily Development Applicants Requesting Additional Funding from Other Housing Finance Programs

(a) If an Application is submitted to the Department for a Development that requests funds from two separate housing finance programs, one of which includes the Housing Trust Fund, and only one of the housing finance programs is operated as a Competitive Application Cycle, then the Application will be handled in accordance with the competitive cycle guidelines for that program. If an Application is submitted for two separate housing finance programs where both programs are either open cycle, or competitive, one of which is Housing Trust Fund, the Application will be handled in accordance with the most restrictive program rules with the approval of the Department's Executive Director. Threshold and any other rental requirements will be noted in any NOFA released.

(b) Applicants who are seeking tax credits and are also seeking funds under this Chapter for the same Development must meet the requirements under the Qualified Allocation Plan for the year in which they are applying for these funds~~ tax credits,~~ and all of the requirements of this Chapter unless specifically waived by the Department.

~~(c) Public Notification. Applicants for Rental Development activities will be required to provide written notification to each of the following persons or entities 14 days prior to the submission of any application package. Failure to provide written notifications 14 days prior to the submission of an application package at a minimum will cause an application to lose its "received by date" under open application cycles, or be terminated under competitive application cycles. Applicants must provide notifications to:~~

~~(1) the executive officer and elected members of the governing board of the community where the development will be located. This includes municipal governing boards, city councils, and County governing boards;~~

~~(2) all neighborhood organizations whose defined boundaries include the location of the Development;~~

~~(3) executive officer and Board President of the school district that covers the location of the Development;~~

~~(4) residents of occupied housing units that may be rehabilitated, reconstructed or demolished;~~

~~(5) the State Representative and State Senator whose district covers the location of the Development; and~~

~~(6) The notification letter must include, but not be limited to, the address of the development site, the number of units to be built or rehabilitated, the proposed rent and income levels to be served, and all other details required of the NOFA and Application Manual.~~

§51.12~~8~~. Application Review Process ~~Procedure and Requirements~~

(a) Applications received by the Department in response to an Open Application Cycle NOFA will be handled in the following manner:

(1) The Department will accept Applications on an ongoing basis, until such date when the Department makes notice to the public that an Open Application Cycle has been closed.

(2) Each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a Received Date based on the date and time it is physically received by the Department. Then each application will be reviewed on its own merits in two review phases, as applicable. Applications will continue to be prioritized for funding based on its Received Date unless it does not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over Applications that may have an earlier Received Date but that did not timely complete a phase of review.

(A) Phase One will begin as of the Received Date and will include a review of eligibility and threshold criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM and will issue a notice of any Administrative Deficiencies~~ for threshold criteria~~. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Two, if applicable, and will continue to be prioritized by their Received Date. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase and do not require additional review in Phase Two, will be reviewed for recommendation to the Board by the Committee.

(B) Phase Two will include a comprehensive review for financial feasibility for Development Activities. Financial feasibility reviews will be conducted by the Real Estate Analysis (REA) Division consistent with §1.32 of this title. REA will create an underwriting report identifying staff's recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. The Department may issue a notice of any Administrative Deficiencies. Applications with Administrative Deficiencies not satisfied within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase will be reviewed for recommendation to the Board by the Committee.

(3) Because applications are processed in the order they are received by the Department it is possible that the Department will expend all available Housing Trust Fund funds before an application has completed all phases of review. In the case that all Housing Trust Fund funds are committed before an application has completed all phases of the review process, the Department will notify the applicant that their application will remain active for ninety (90) days in its current phase. If new Housing Trust Fund funds become available, Applications will continue onward with their review without losing their Received Date priority. If Housing Trust Fund funds do not become available within ninety (90) days of the notification, the Applicant will be notified that their Application is no longer under consideration. The applicant must reapply to be considered for future funding. If on the date an Application is received by the Department, no funds are available under the NOFA, the applicant will be notified that no funds remain under the NOFA and that the application will not be processed.

(b) Applications received by the Department in response to a Competitive Application Cycle NOFA for housing development activities will be handled in the following manner:

(1) The Department will accept Applications on an ongoing basis during the Application Acceptance Period as specified in the NOFA.

(2) Applications submitted and accepted by the Department will be reviewed for eligibility, threshold and selection criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM. A comprehensive review of financial feasibility for Development activities will be conducted by the Real Estate Analysis (REA) Division consistent with §1.32 of this title for all competitive applications. REA will create an underwriting report identifying staff's recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. The Department will issue a notice of any Administrative Deficiencies for items reviewed. If Administrative Deficiencies are not cured to the satisfaction of the Department within five (5) business days of the deficiency notice date, then five (5) points shall be deducted from the selection score for each additional day the Administrative Deficiency remains unresolved. If Administrative Deficiencies are not clarified or corrected within seven (7) business days from the deficiency notice date, then the Application shall be terminated.

(3) Upon completion of review and no unresolved Administrative Deficiencies, the Application will be reviewed for recommendation to the Board by the Committee.

(c) Administrative Deficiencies. If an application contains deficiencies which, in the determination of the Department staff, require clarification or correction of information submitted at the time of the Application, the Department staff may request clarification or correction of such Administrative Deficiencies including threshold and/or selection criteria documentation and/or financial feasibility analysis. The Department staff may request clarification or correction in a deficiency notice in the form of a facsimile and a telephone call to the Applicant advising that such a request has been transmitted. The time period for responding to a deficiency notice begins at the start of the business day following the deficiency notice date. An Applicant may not change or supplement any part of an Application in any manner after submission to the Department, increase their award amount, or revise their unit mix (both income levels and bedroom mixes), except in response to a direct request from the Real Estate

Analysis Division to remedy an Administrative Deficiency as further described in this title or by amendment of an Application after a commitment or allocation of Housing Trust Fund monies.

(d) The Department may decline to fund any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications which are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department reserves the right to negotiate individual elements of any Application.

(e) A site visit will be conducted. Applicants must receive recommendation for approval from the Department to be considered for funding by the Board.

(f) Applicants may appeal staff's decisions regarding their applications consistent with §1.7 of this title.

(g) Alternative Dispute Resolution Policy. Applicants may utilize the Department's Alternative Dispute Resolution process as defined by §1.17 of this title.

§51.13~~9~~. Criteria for Funding

(a) In considering applications for funding, the Department considers the following requirements under §2306.203, Texas Government Code, and such others as may be enumerated during the funding cycle:

(1) Minimum Eligibility Criteria. To be considered for funding, an Applicant must first demonstrate that it meets each of the following threshold criteria:

(A) the Application is consistent with the requirements established in this rule and the NOFA;

(B) the Applicant provides evidence of its ability to carry out the proposal in the areas of financing, acquiring, Rehabilitating, Developing or managing an affordable housing Development;

(C) the proposal addresses and identifies a housing need. This assessment will be based on statistical data, surveys and other indicators of need as appropriate; and

(D) any outstanding Housing Trust Fund Pre-Development loans for the same proposed Development Site must be paid in full at the time of Loan closing for the current requested funds.

(2) Evaluation Factors. Pursuant to §2306.203(c), Texas Government Code, the criteria used to evaluate applications, as more fully reflected in the NOFA, will include at a minimum the:

(A) leveraging of federal funds including the extent to which the project will leverage State funds with other resources, including federal resources, and private sector funds;

(B) cost-effectiveness of a proposed development; and

(C) extent to which individuals and families of very low income and extremely low income are served by the development.

(b) The Board has final approval on all recommendations for funding.

(c) Eligible Applicants that have been approved for funding and that require a material change in the project description must provide a written request for the material change to the Department prior to implementing the change.

(1) A material change may include, but is not limited to, the following:

(A) Change in project site;

(B) Change in the number of units or set asides; and

(C) An increase in funding that is not permitted under §51.18~~14~~ of this C~~c~~hapter.

(2) Failure to comply with this subsection may result in the termination of funding to Applicant.

§51.14~~10~~. Process for Awards ~~During Competitive Application Cycle~~

(a) All recommendations for awards will be presented to the Committee before presentation to the Board. All Applications must comply with all applicable program requirements or regulations.

(b) Applicants applying in response to an Open Application Cycle will be prioritized for recommendation to the Board based on the process described in §51.12 of this Chapter and as otherwise specified in the NOFA.

(c) ~~a~~Applicants applying in response to a Competitive Application Cycle will be ranked by highest score per Uniform State Service Region per Area Type unless otherwise specified in the NOFA.

(d) ~~b~~ In event of a tie between two or more Applicants, the Department reserves the right to determine which Application will receive a recommendation for funding. This decision will be based on housing need factors and feasibility of the proposed Project identified in the Application. Tied Applicants may also receive a partial recommendation for funding.

(e) ~~c~~ If sufficient qualified Applications are not received for a Uniform State Service Region or Area Type, the funds will be redirected to the next Uniform State Service Region that had a higher number of qualified Applicants unless otherwise specified in the NOFA.

(f) ~~d~~ Applicants may also receive a partial recommendation for funding. A minimum award amount may be established to ensure feasibility.

(g) ~~e~~When the remainder of the allocation within a Uniform State Service Region is insufficient to completely fund the next ranked Application in the Uniform State Service Region, it is within the discretion of the Department to:

(1) fund the next ranked application for the partial amount, reducing the scope of the Application proportionally;

(2) make necessary adjustments to fully fund the Application; or

(3) transfer the remaining funds to another Uniform State Service Region.

~~(f) All recommendations for awards will be presented to the Committee before presentation to the Board. All Applications must comply with all applicable program requirements or regulations.~~

(h) ~~(g)~~ Applications receiving a favorable staff recommendation are presented to the Board for approval, pending the availability of Housing Trust Fund funds.

(i) ~~(h)~~ Applicants may appeal staff's decision regarding their Applications in accordance with §1.7 of this title.

(j) ~~(i)~~ Even after Board approval of the award of any Housing Trust Fund funds, acquisition or construction activities will be conditional upon a completed Loan closing, if required, and any other conditions deemed necessary by the Department.

§51.15~~11~~. Contract Required after Award

Any activity funded under this program will be governed by a written Contract that identifies the terms and conditions related to the awarded funds. The Contract will not be effective until executed by all parties to the Contract. Any amendments must be in writing and are subject to the requirements of this Chapter.

§51.16~~12~~. Documents Supporting Mortgage Loans

(a) A mortgage L~~l~~oan shall be evidenced by a mortgage or deed of trust note or bond and by a mortgage that creates a lien on the housing development and on all real property that constitutes the site of or that relates to the housing development.

(b) A note or bond and a mortgage or deed of trust:

(1) must contain provisions satisfactory to the D~~d~~epartment;

(2) must be in a form satisfactory to the D~~d~~epartment; and

(3) may contain exculpatory provisions relieving the Borrower or its Principal from personal liability if the D~~d~~epartment agrees.

(c) For each L~~l~~oan made for the Development of multifamily housing with Housing Trust Fund funds provided to the State, the Department shall obtain a mortgagee's title policy in the amount of the loan. The Department may not designate a specific title insurance company to provide the mortgagee title policy or require the borrower to provide the policy from a specific title insurance company. The borrower shall select the title insurance company to close the L~~l~~oan and to provide the mortgagee title policy.

(d) For each Loan made for the acquisition, New Construction, and/or Rehabilitation of single family housing with Housing Trust Fund funds provided to the State, the Department shall specify the requirements in the associated program manual and/or NOFA. This may include, but not be limited to, any title documents, appraisals, property tax status, surveys or life event documentation.

(e) For Loans that provide downpayment, gap financing and/or closing cost assistance, the Administrator or Development Owner must submit to the Department the original recorded deed of trust and transfer of lien, if applicable. Failure to submit these documents within ninety (90) days after the Loan closing date may result in the Department withholding payment for disbursement requests.

§51.17~~13~~. Amendments

(a) Amendment requests to be approved by the Executive Director are allowable under the following circumstances:

(1) Time extensions. The Executive Director may collectively provide up to one six month extension to the end date of any Contract. Any additional time extension granted by the Executive Director shall include a statement by the Executive Director relating to unusual, ~~and~~ non foreseeable or extenuating circumstances. If the extension is longer than six months and the Executive Director determines ~~does not feel he can issue~~that a statement related to unusual, ~~or~~ non-foreseeable, or extenuating circumstances cannot be issued, it will be presented to the Governing Board for approval, approval with modifications, or denial of the requested extension;~~;.~~

(2) Changes in Area Median Family Income (AMFI) levels. The Executive Director may grant approval of a modification or amendment to the AMFI levels of the households to be served under said contract, if Contract Administrator provides a statement relating to unusual, non-foreseeable or extenuating circumstances that warrant such a request to be granted and the Executive Director determines that such request does not violate Department rules. In the case that the Executive Director determines that such request is not warranted and/ or violates Department rules, the request will be presented to the Board for approval;

(3) Changes to Services Area. The Executive Director may grant approval of the modification or amendment to the Service Area being served under said contract, if Contract Administrator provides a statement relating to unusual, non-foreseeable or extenuating circumstances that warrant such a request to be granted and the Executive Director determines that does not violate Department rules. In the case that the Executive Director determines that such request

is not warranted and/or violates Department rules, the request will be presented to the Board for approval;

(4) Changes in number of Households to serve. The Executive Director may grant approval of the modification or amendment to the reduction in the number of the Households to be served under said Contract, if Contract Administrator provides a statement relating to unusual, non-foreseeable or extenuating circumstances that warrant such request to be granted and the Executive Director determines that such request does not violate Department rules. In the case the Executive Director determines that such request is not warranted and/or violates Department rules, the request will be presented to the Board for approval; or

(5~~2~~) Increase in funds. In the case of a modification or amendment to the dollar amount of the award, such modification or amendment does not increase the dollar amount by more than 25% of the original award or $50,000, whichever is greater. Modifications and/or amendments that increase the dollar amount by more than 25% of the original award or $50,000, whichever is greater; or significantly decrease the benefits to be received by the Department, in the estimation of the Executive Director, will be presented to the Board for approval.

(b) If the Administrator or Development Owner fails to meet ~~the~~ a benchmark ~~contract milestones or Contract term~~ requirement~~s~~ and does not seek, or is not granted, ~~a Contract amendment for~~ an extension of a ~~milestone~~ benchmark~~or the entire term~~, the awarded funds related to the lack of performance may be entirely or partially deobligated at the Department's sole discretion.

(c) Additional Funds. In the event the Department receives additional funds, the Department, with Board approval, may elect to distribute funds to other Administrators or Development Owners.

(d) Accounting Requirements. Within 60 days following the conclusion of a contract issued by the Department the recipient shall provide a full accounting of funds expended under the terms of the contract. Failure of a recipient to provide full accounting of funds expended under the terms of a contract shall be sufficient reason to terminate the contract and for the Department to deny any future contract to the recipient.

(e) Individual benchmarks ~~Milestones~~. Each benchmark ~~milestone~~ is an individual term and subject to the amendment processes. An interim milestone extension may or may not extend the entire ~~contract~~ Contract at the Department's discretion.

§51.18. General Contract Administration

All Administrators and Development Owners must use the forms provided on the Department's website and comply with the Department's procedural and documentation requirements as outlined in the Program Manual and in this section including:

(1) Contract must be signed and executed by all appropriate authorized parties.

(2) Attend training as required by the Department.

(3) Develop and comply with written procurement selection criteria and committees.

(4) Procure consultants, if applicable. Consultants may not participate in or direct any part of the process for procuring consultants.

(5) Complete all applicable Department Contract System access request forms and requirements.

(6) Perform Loan closing, if required, prior to performing any construction activities, including demolition.

(7) Develop and comply with written accounting, reporting, filing, and documentation procedures.

(8) Develop and comply with written applicant intake and selection criteria and ensure program eligibility which must include, but is not limited to:

(A) Homeownership, if applicable;

(B) Income eligibility;

(C) Assisted Households must be located within the Administrator's Service Area, as defined by the Contract;

(D) Property taxes are current, if applicable; and

(E) Assist Special Needs Households, if applicable.

(9) Develop and comply with affirmative marketing procedures.

(10) Complete applicant intake and applicant selection. Notify each applicant Household in writing of either acceptance or denial of assistance within sixty (60) days following receipt of the intake application.

(11) To ensure compliance with the Texas Comptroller of Public Accounts requirements, Contract Administrators are required to ensure the applicant Household does not owe a debt to the State of Texas including tax liens, child support liens, or student loan delinquencies.

(12) Ensure that no Conflict of Interest exists between Households to be assisted and Persons designated to receive or assist with the application intake process.

(13) Document and verify all income and asset eligibility requirements for the Household to be assisted.

(14) Ensure compliance with applicable audit certification requirements.

(15) Ensure that the demolition and removal of all dilapidated units on the lot occurs prior to the Household's occupancy of the Newly Constructed or Rehabilitated housing unit.

(16) Ensure and verify that each building construction contractor performing activities in the amount of $10,000 or more under the Contract is registered and maintains good standing with the Texas Residential Construction Commission ~~in accordance with 16 TAC, Subtitle C, §16.001~~ in accordance with Chapters 401 and 416 of the Texas Property Code.

(17) Ensure and verify that each housing unit being rehabilitated in the amount of $10,000 or more under the Contract is registered with the Texas Residential Construction Commission ~~in accordance with 16 TAC, Subtitle C, §426.003~~ in accordance with Section 426.003 of the Texas Property Code.

(18) Provide building construction contractor oversight and ensure builder's risk coverage is provided.

(19) Ensure that the demolition of any housing unit does not occur less than 6 (six) months prior to the Contract end date.

(20) Ensure compliance with applicable construction or property standards and lead-based paint requirements.

(21) Conduct appropriate property inspections and documentation in accordance with applicable program requirements. Ensure compliance with the Texas Residential Construction Commission inspection requirements under Title 16 of the Texas Property Code.

(22) Submit required documentation and electronic requests for Project setups and disbursement requests to the Department.

(23) Submit support documentation for Project setups and disbursement requests within thirty (30) days of electronic submission to the Department.

(24) Submit all Project setups and support documentation for Households to be assisted no later than ninety (90) days prior to the Contract end date. In the event that a loan closing is required for single family Rehabilitation or Reconstruction, non-development activities, all Project setups and support documentation must be submitted no later than one hundred eighty (180) days prior to the Contract end date.

(25) Submit required documentation for Project completion reports and certificate of Contract Completion no later than sixty (60) days from the Contract end date.

(26) Complete the terms of the Contract.

§51.19~~14~~. Other Program Requirements

(a) Employment opportunities. In connection with the planning and carrying out of any project assisted under the Act, to the greatest extent feasible, opportunities for training and employment shall be given to low, very low, and extremely low-income persons who meet position requirements residing within the area in which the project is located.

(b) Conflict of Interest.

(1) Conflict Prohibited. No person described in paragraph (2) of this subsection who exercises or has exercised any functions or responsibilities with respect to Housing Trust Fund activities under the Statute or who is in a position to participate in a decision making process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from a Housing Trust Fund assisted activity, or have an interest in any Housing Trust Fund contract, subcontract or agreement or the proceeds hereunder, either for themselves or those with whom they have family or business ties, during their tenure or for one year thereafter.

(2) Persons Covered. The conflict of interest provisions of paragraph (1) of this subsection apply to any person who is an employee, agent, consultant, officer, elected official or appointed official of the Administrator or Development Owner.

(c) Grant funds management and procurement. Except as specifically modified by law or the provision of this Chapter, Contract Administrator or Development Owner must comply with the rules promulgated by the Office of the Governor under the Uniform Grant Management Act (Texas. Government Code, Chapter 783 and 1 TAC Chapter 5) to administer the Housing Trust Fund. Contract Administrator or Development Owner must comply with all applicable state, and local laws, regulations, and ordinances for making procurements with Housing Trust Fund monies. Contract Administrator or Development Owner must ensure compliance with the requirements of the Texas Government Code Chapter 2254.

(d) ~~(c)~~ Right to Inspect and Monitor.

(1) The Department may, at any time, inspect and monitor the records and the work of the Project so as to ascertain the level of Project completion, quality of work performed, inventory levels of stored material, compliance with the approval plans and specifications, property standards, and program rules and requirements.

(2) Any unsatisfactory findings in the inspection may result in a reduction in the amount of funds requested or termination of funding.

(3) Within 45 days of completion of any construction, and before the release of any retainage funds, Administrators and Development Owners are required to notify the Department of the completion by submitting a certificate of completion and any other documents required by program guidelines, including, but not limited to, the following:

(A) Architect's Certification of Substantial Compliance;

(B) Administrator or Development Owner's Certificate of Substantial Completion; and

(C) Administrator or Development Owner's and Supplier's Release of Lien and warrantee.

(4) The Department performs a final close-out visit and assists owners in preparing for long-term compliance requirements upon completion of project development.

(e) ~~(d)~~ Compliance.

(1) Recipient must maintain compliance with each of its Contracts with the Department.

(2) Restrictions are stated and enforced through a regulatory agreement.

(3) These restrictions include, but are not limited to the following:

(A) Rent restrictions;

(B) Record keeping and reporting; and

(C) Income targeting of tenants.

(4) The Department monitors compliance with project restrictions and any other covenants by Recipient in any Housing Trust Fund agreement. An annual per unit compliance fee of $25.00 may be charged for this review.

(f) ~~(e)~~ For funds being used for multifamily rental properties, the Recipient must establish a reserve account consistent with §2306.186, Texas Government Code, and as further described in §1.37 of this title.

~~(f) Accounting Requirements. Within 60 days following the conclusion of a contract issued by the Department the Recipient shall provide a full accounting of funds expended under the terms of the contract. Failure of a recipient to provide full accounting of funds expended under the terms of a contract shall be sufficient reason to terminate the contract and for the Department to deny any future contract to the recipient.~~

§51.20~~15~~. Citizen Participation

(a) The Department holds at least one public hearing annually, and additional public hearings prior to consideration of any proposed significant changes to these rules, to solicit comments from the public, eligible applicants, and Administrators and Development Owner on the Department's rules, guidelines, and procedures for the Housing Trust Fund.

(b) The Department considers the comments it receives at public hearings. The Board annually reviews the performance, administration, and implementation of the Housing Trust Fund in light of the comments it receives. The Board also reviews funding goals and set-asides relating to Allocation of Housing Trust Funds.

(c) Unless the request is made during a Competitive Application Cycle, Applications for Housing Trust Funds are public information and the Department shall afford the public an opportunity to comment on proposed housing applications prior to making awards.

(d) Complaints will be handled in accordance with the Department's complaint procedures of §1.2 of this title.

§51.21~~16~~. Records to be Maintained

(a) Administrator or Development Owners are required, at least on an annual basis, to submit to the Department information required under Chapter 1 of this title, which may include, but is not limited to:

(1) such information as may be necessary to determine whether a project is benefiting low, very low, and extremely low-income persons and families;

(2) the monthly rent or mortgage payment for each dwelling unit in each structure assisted;

(3) such information as may be necessary to determine whether Administrators and Development Owners has carried out their housing activities in accordance with the requirements and primary objectives of the Housing Trust Fund and implementing regulations;

(4) the size and income of the household for each unit occupied by a low, very low, or extremely low-income person or family;

(5) data on the extent to which each racial and ethnic group and households have applied for and benefited from any project or activity funded in whole or in part with funds made available under Texas Government Code, Chapter 2306. This data shall be updated annually; and

(6) A final statement of accounting upon completion of the Project.

(b) Administrator or Development Owners shall maintain records pertinent to the tenant's files for a period of at least three years.

(c) Administrator or Development Owners shall maintain records pertinent to funding awards including but not limited to project costs and certification work papers for a period of at least five years.

(d) Administrator or Development Owners shall maintain records in an accessible location.

§51.22~~17~~. Waiver

The Board may, in its discretion, waive any one or more of the rules set forth in this chapter to accomplish its legislative mandates or for other compelling circumstances.

Action Item

Status Report on the Issuance of IRS Forms 8609 for the 2005 Competitive Housing Tax Credit Developments with 2008 Binding Agreements for Additional Credits

Required Action

Discuss Status of IRS Forms 8609 for the 2005 Competitive Housing Tax Credit Developments with 2008 Binding Agreements for Additional Credits

Background

The purpose of this agenda item is to give a status report on all 2005 developments that have been awarded 2008 additional tax credits, but which have not yet been issued IRS Forms 8609. IRS Forms 8609 must be issued before December 31, 2008 in order for the 2008 tax credits to be valid. Therefore, this report presents staff's options for addressing the remaining developments that have not been issued IRS Forms 8609 to date.

Originally there were 64 developments with 2005 and 2008 tax credits. Nine of these returned the additional 2008 tax credits and another 23 have had IRS Forms 8609 issued. Currently there are 32 developments with 2005 and 2008 tax credits that have not yet been issued IRS Forms 8609. Six of these 32 have not submitted a cost certification to the Department: three of these were due October 1, 2008 and have missed that deadline; the other three of these received a placement in service extension until December 31, 2008 and as a result the cost certifications are not due until April 1, 2009. That leaves 26 developments that have submitted a cost certification and have issues outstanding. Two of these 26 received a partial year placement in service extension until May 2008. Another of the 26 sustained damage during Hurricane Dolly after placement in service and will not be repaired during 2008, and therefore cannot receive clearance for the final inspection.

The amount of 2008 credits still outstanding is $1,752,919.

		Outstanding Issues			
		LURA	Final Inspection	Amendment	Ownership Transfer
32	Total Pending 2008 Binding Agreements	17	25	13	7
3	Category 1 – Cost Certifications Not Submitted (without PIS Extensions) – Binding Agreements Terminated	3	3	0	0
3	Category 2 – Developments with PIS Extensions - Cost Certifications Not Yet Received	2	3	0	0
2	Category 3 – Developments with PIS Extensions - Cost Certifications Received and Reviewed	2	2	0	0
1	Category 4 – Development with Hurricane Dolly Damage	1	1	1	0
23	Category 5 – All Remaining Pending Developments	9	16	12	7

Each owner has been provided several notifications that IRS Forms 8609 must be issued during 2008 in order for the 2008 tax credits to be valid.

1. Extensions of Cost Certification Submission (sent March-May 2008) – Owners that requested extensions of the cost certification submission deadline and received Executive Director approval received a letter stating that the Department must issue IRS Forms 8609 prior to December 31, 2008.
2. Developments that Missed the Cost Certification Submission Deadline (sent mid-April 2008) – All owners that missed the April 1, 2008 cost certification submission deadline were notified that the Department would rescind 2008 credit from any owner who failed to submit the cost certification documentation by July 1, 2008.
3. Deficiency Notices (sent April-August 2008) – Each owner that submitted a cost certification has received a cost certification deficiency request stating that for 2008 tax credits to be valid, IRS Forms 8609 must be issued in 2008.
4. Mid-September Notification – All owners with cost certifications still in process as of September 16, 2008, with the exception of those that had recently been issued a deficiency letter and were within the allotted response timeline, were sent email correspondence regarding the December 31, 2008 deadline.
5. Early October Notification – Owners with cost certifications in process as of October 6, 2008 were sent a follow up email requesting a status update. Any owners not emailed in mid-September because their deficiency deadline had not passed, were also emailed.
6. Late October Notification – The owner of each development that that submitted a cost certification and did not receive a placement in service extension received a letter on October 17, 2008 stating that if all cost certification deficiencies are not resolved by December 1, 2008, the 2008 tax credits will be rescinded.

The 32 developments that have not been issued IRS Forms 8609 are categorized into five groups:

1. *Category 1 – Cost Certifications Not Submitted* (3) – One owner received an extension of the cost certification deadline until October 1, 2008 for three developments: 05001 / 08001 Mountainview Apartments; 05002 / 08002 Villa Apartments; and 05003 / 08003 Oasis Apartments. The October 1st deadline was much later than the Department typically grants, but this extension was recommended by staff and approved by the Board in part to allow the

owner to work through some issues with USDA. The owner has not submitted the cost certifications to date. Staff has been unable to confirm whether these developments have been placed in service. In 2004, this owner had a similar situation with three other developments. In late 2007, the owner agreed to return the additional 2007 credits for the three 2004 developments. The Department also has not received cost certifications for the three 2004 developments to date, nor has the owner returned the 2004 credits. Staff has been unable to contact the owner regarding either the 2004 or 2005 developments.

Category 1 Solution – Terminate Binding Allocation Agreements – On October 24, 2008, the Department terminated the Binding Allocation Agreements for the 2008 tax credits. The owner did not appeal this determination; therefore the terminations are final.

2. *Category 2 – Developments with PIS Extensions until December 31, 2008* (3) – Three developments received one-year placement in service extensions pursuant to IRS Revenue Procedures 95-28 and 2007-54: 05165 / 08051 Lincoln Park Apartments; 05198 / 08060 Olive Grove Manor; and 05204 / 08062 Ambassador North Apartments. Cost certifications for these developments are not due until April 1, 2009 and have not been submitted to the Department.

   Category 2 Solution – Carry Over 2008 Credits – In the fall of 2007, staff pursued the option to carry over 2007 credits when the Department similarly had many outstanding cost certifications for 2004 developments with 2007 tax credits. At that time, the Department's outside counsel, Anthony Freeman, advised against completing carryovers of the 2007 tax credits. However, the Department did carryover 2007 credits for three 2004 developments that received an extension of the placement in service deadline. Because these developments had not placed in service prior to 2007, the carryover was an acceptable option. Staff is considering this option for the three developments that received placement in service extensions until December 31, 2008.

3. *Category 3 – Developments with PIS Extension until May 2008* (2) – Two developments received a partial-year placement in service extension pursuant to IRS Revenue Procedures 95-28 and 2007-54: 05116 / 08036 Wahoo Frazier Townhomes; and 05207 / 08063 CityView at the Park. The cost certifications for these developments have been received by the Department and the owners are currently working to resolve all deficiencies. However, in the event the owners are unable to resolve all deficiencies, additional consideration may be warranted considering the placement in service extension.

   Category 3 Solution – Options: 1) Issue IRS Forms 8609; 2) Carry Over 2008 Credits; 3) Issue IRS Forms 8609 and Establish Escrow Account – Three possible options exist to address these developments. First, if all cost certification deficiencies are resolved prior to December 31, 2008 staff will issue the IRS Forms 8609. This is the most desirable option.

   If the owners are unable to resolve all cost certification deficiencies by December 31, 2008, two other options may be considered. First, as discussed previously, the 2008 tax credits may be carried over if the developments placed in service in 2008. This is an option for 05116 / 08036 Wahoo Frazier Townhomes, but is not an option for 05207 / 08063 CityView at the Park, which placed in service in 2007.

The final option is to issue the IRS Forms 8609 prior to the completion of all cost certification requirements, but require that an escrow account be established. At the end of 2007, the Department allowed some owners to establish such an escrow account via a Tri-Party Agreement which required the owner to escrow a dollar amount considered appropriate by the Department. These funds were held in the escrow account, and could not be withdrawn without the express consent of the Department. With this escrow agreement in place, the IRS Forms 8609 were issued to the developments prior to all cost certification requirements being met, enabling the owners to preserve the 2007 tax credits. The Department could institute this policy again, and model the escrow agreements after those entered into in 2007.

4. *Category 4 – Development with Hurricane Dolly Damage* (1) – One development sustained significant damage during Hurricane Dolly: 05028 / 08014 Sevilla Apartments. The owner recently cancelled a scheduled UPCS inspection of the development and has notified the PMC Division that repairs to the development will not be completed in 2008. Because of this, the development will be unable to receive final inspection clearance in 2008, which is a requirement that must be met prior to the issuance of IRS Forms 8609.

   Category 4 Solution – Issue IRS Forms 8609 and Establish Escrow Account – As discussed for Category 3 developments, the Department can issue the IRS Forms 8609 prior to the completion of all cost certification requirements, but require that an escrow account be established. The escrow agreement would be modeled after those entered into in 2007.

5. *Category 5 – All Remaining Pending Developments* (23) – The remaining 23 developments have submitted a cost certification to the Department, but have not yet resolved all deficiencies. These developments do not have extenuating circumstances such as those discussed above.

   Category 5 Solution – Rescind 2008 Credits on December 1 – A final reminder notice was sent on October 17, 2008 notifying owners that the 2008 tax credits will be rescinded if all cost certification deficiencies are not resolved by December 1, 2008. This requires that all amendments, ownership transfers, final inspections, as well as cost certification deficiencies are resolved. If these issues are not resolved by December 1, 2008, the owner will be sent a notice that the credits have been rescinded. The owner will have the opportunity to appeal the decision to the Executive Director and Board during the December Board meeting.

Recommendations

This item is presented for informational purposes only; staff does not recommend any action at this time.

DISASTER RECOVERY DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation and Discussion of the Disaster Recovery Division's Status Report on CDBG and FEMA AHPP Contracts Administered by TDHCA

Requested Action

Presentation and Discussion of the Disaster Recovery Division's Status Report on CDBG and FEMA AHPP Contracts Administered by TDHCA

Background

This Board Action Request summarizes the activities of the Disaster Recovery Division which has oversight responsibility for Community Development Block Grant (CDBG) Disaster Recovery Programs for Round I and Round II funding administered by TDHCA, as well as the FEMA Alternative Housing Pilot Program (AHPP).

Public Law 109-148 – 1st Supplemental ($74.5 Million)

Under the **1st Supplemental CDBG Disaster Recovery Program (referred to as Round I),** three Councils of Governments (COGs) are responsible for administering housing contracts to help restore and rebuild in areas of the State most directly impacted by Hurricane Rita. Of the $74.5 million, the total funding allocation administered by the COGs is $40,259,276 broken down as follows:

- Deep East Texas Council Of Governments (DETCOG) - $6,745,034
- Houston-Galveston Area Council (H-GAC) - $7,015,70
- South East Texas Regional Planning Commission (SETRPC) - $26,498,536
    - *SETRPC - $15,788,536*
    - *Beaumont - $5,145,000*
    - *Port Arthur - $5,565,000*

The Disaster Recovery Division has been focused on assisting the COGs with completion of activities under Round I by December 31, 2008; however Hurricane Ike has delayed activities specifically in SETRPC and H-GAC. As of this Board meeting, the COGs cumulatively have over 100% of their contracted number of households to be served either under bid award, under construction, or completed. The COGs are continuing to access HTF dollars to finance gap amounts as well. As of October 31, 2008, $587,197 of HTF dollars has been committed and $262,720 had been drawn. The COGs have identified an estimated need of approximately $950,283 of the $1,000,000 reserved under the HTF program.

Staff continues to receive weekly updates from each COG to gauge their progress in completing contract activities. The COGs have completed assistance to eighty-nine (89) households since the last Board report for a total of three hundred eighteen (318) households to date and another sixty (60) are currently under construction.

Financial Summary

	Current Budget	Admin $ Drawn To Date	Project $ Drawn To Date	Total Drawn	% of Funds Disbursed
DETCOG	**$6,745,034.00**	**$594,005.64**	**$3,864,561.43**	**$4,458,567.07**	**66.10%**

COG Activity Highlights as of October 31, 2008

Deep East Texas Council of Governments

DETCOG has delivered homes to ninety-nine (99) households, has eight (8) additional homes pending delivery or start of construction, has five (5) rehabilitation projects under construction, and has completed construction activities for eight (8) rehabilitation projects as of October 31, 2008. DETCOG's Housing Trust Fund (HTF) contract amount is $178,321. DETCOG has identified a gap financing need for eighty-four (84) households totaling approximately $197,322.

Houston-Galveston Area Council

H-GAC has delivered fifty-eight (58) homes to homeowners, has completed construction for nine (9), has twenty-four (24) households under construction, and has nineteen (19) households pending the on-set of activities. H-GAC's HTF contract amount is $184,414. H-GAC has reported a gap financing need for sixty-two (62) households totaling $166,509.

South East Texas Regional Planning Commission

SETRPC has delivered or completed construction of ninety-eight (98) homes, has thirteen (13) homes under construction, and has twenty-eight (28) more homes ready to begin construction activities as of October 31, 2008. The total HTF contract amount for SETRPC including its subcontractors is $637,265. In total, SETRPC has identified a gap financing need for one hundred sixty-eight (168) households totaling approximately $586,441.

SETRPC continues to work closely with each of its subcontractors, the cities of Beaumont and Port Arthur to move the program forward to a successful completion.

City of Beaumont

The City of Beaumont has two (2) houses out to bid and fifteen (15) homes under contract as of October 31, 2008. The city also has six (6) homes under construction, and has completed assistance to thirty-three (33) households.

City of Port Arthur

As of October 31, 2008, eight (8) houses are out to bid, twelve (12) construction contracts have been signed and are pending the on-set of construction activities, twelve (12) units are under construction, and twenty-one (21) homes have been completed.

Public Law 109-234 – Round II ($428 Million)

The **2nd Supplemental CDBG Disaster Recovery Funding (referred to Round II)** is the second of two awards in CDBG funding to help restore and rebuild in areas of the State most directly impacted by Hurricanes Rita, but it also addresses needs arising from Katrina evacuees. The total funding allocation is $428,671,849, broken down as follows:

2nd Supplemental CDBG Disaster Recovery Activity	Available Funding	Amount Contracted per Activity	Cumulative Expenditures	% of Expenditures Disbursed	Balance Remaining
Rental Housing Stock Restoration Program (“Rental”)	$82,866,984	$81,147,333	$8,953,662	11.03%	$72,193,671
ORCA’s Restoration of Critical Infrastructure Program (Infrastructure)	$42,000,000	$42,000,000	$5,350,048.73	12.74%	$36,649,951.27
City of Houston and Harris County Public Service and CDP (“Houston/Harris”)	$60,000,000	$60,000,000	$14,075,526.37	23.46%	$45,924,473.63
Homeowner Assistance Program (“HAP”)	$210,371,273	$210,371,273	$4,362,560.44	2.07%	$206,008,712.56
Sabine Pass Restoration Program (“SPRP”)	$12,000,000	$12,000,000	$189,607.20	1.58%	$11,810,392.80
State Administration Funds (Used to Administer Funding)	$21,433,592	$21,433,592	$5,275,943.73	24.62%	$16,157,648.27
Total CDBG Round 2 Funding	**$428,671,849**	**$426,952,198**	**$38,207,348.47**	**8.95%**	**$388,744,849.53**

CDBG Round 2 City of Houston and Harris County Public Service and Community Development Program

City of Houston

Funding of $20 million was allocated to the Houston Police Department for establishment of the Housing Safety Component, composed of civilian and officer personnel. Civilian personnel consist of administrative staff that supports the officer personnel and the entry of the overtime incurred by officers on behalf of the hurricane evacuee population.

Funding of $20 million was also allocated to carry out rehabilitation of existing multi-family housing stock through the existing Apartment to Standards Program. These funds will provide rehabilitation of multi-family housing to the evacuee population. The City of Houston is in the final procurement stages of selecting and awarding a contractor to administer the multi-family housing component.

The City of Houston has expended approximately 33% of its $42,000,000 allocation through June 2008. The Housing Safety Component has expended 60.32% of its $20,000,000 allocation. The Apartments to Standards component has two multi-family projects with one project fully underway and the other project initiated in October 2008. The Apartments to Standards program was also allocated $20,000,000 and is 9% expended.

Harris County

Funding of $20 million was allocated to provide services to the residents of Harris County among five different program components: Expanded Services to Hurricane Evacuees (Harris County Sheriff’s Dept.), Evacuee Medical Services (Harris County Hospital District), Katrina Crisis Counseling Program (Mental Health and Mental Retardation Authority), Youth Offenders Services (Harris County Sheriff’s Dept.) and the Disaster Housing Assistance Program Component (Harris County).

Harris County has expended approximately 2.80% of its $21,000,000 allocation. Expenditures for each program component have been submitted; however, Harris County is completing its oversight and monitoring responsibilities before these expenses are submitted for reimbursement.

CDBG Round 2 Multifamily Rental Housing Stock Restoration Program

On September 13, 2007, the TDHCA Board awarded $81.1 million to repair or rebuild seven Golden Triangle-area affordable multifamily rental properties damaged or destroyed by Hurricane Rita. The construction work, once completed, will restore rental unit housing to 813 low-income individuals and families. Award-specific status is outlined in the table below:

Loan Number	Development Name	City	Total Units	Type of Activity	CDBG Loan Amount	Funds Drawn/ Expended	Environ Clearance Date	Loan Closing Date*	Notes on Status of Award
7060007	Orange Navy Homes	Orange	115	Recon.	$14,189,439	$1,178,834	9/22/08	10/15/08	Started Construction
7060010	Brittany Place II Single Family	Port Arthur	100	Recon.	$13,077,366	$0	03/11/08	11/20/08*	Pending Clearance of Environmental 8-Step Process.
7060006	Pointe North	Beaumont	158	Recon.	$13,778,332	$0	9/30/08	8/31/08	Started Construction
7060011	Gulfbreeze Plaza I	Port Arthur	86	Recon.	$9,067,577	$0	03/18/08	11/15/08*	Closing is pending resolution of HUD issue (not TDHCA requirement, but can not close until issue is resolved).
7060012	Gulfbreeze Plaza II	Port Arthur	148	Recon.	$13,280,250	$2,399,653.23	03/18/08	6/11/08	Started Construction
7060008	Virginia Estates	Beaumont	110	Rehab	$6,707,534	$1,886,929.88	05/26/08	05/26/08	Started Construction
7060009	Brittany Place I Multifamily	Port Arthur	96	Recon.	$11,046,835	$3,488,244.89	03/11/08	4/09/08	Started Construction
		Totals:	**813**		**$81,147,333**	**$8,953,662.00**			

* Awarded applications have not closed, and dates reflected are anticipated closing dates.
** Only applicable once closed on the loan.

CDBG Round 2 Homeowner Assistance Program and Sabine Pass Restoration Program Update from ACS State & Local Solutions, Inc.

Hurricane Ike and its aftermath caused some delays in inspection and construction, particularly in the Sabine Pass Restoration Program. Service Centers in Port Arthur and Beaumont were closed for approximately ten days after Ike but have since reopened. The Jasper Service Center was closed during the storm but reopened immediately after Ike passed through the area. Although both the Sabine Pass Restoration Program and the Homeowners Assistance Program have resumed normal operations at this time, modifications to the application process were required to account for duplication of benefit issues associated with Ike. Inspection activity has resumed and eligibility determination staff has been augmented. Several closings have taken place in Sabine Pass and environmental public noticing is being published for the Homeowners Assistance Program.

HAP – Modifications were made to the HAP application to address the duplication of benefits issue created by Ike. This additional information will serve to prevent violations of the Stafford Act and subsequent audit findings. Inspection activity in HAP has picked up and are proceeding according to plan. Environmental public noticing is being posted. Several applicants are expected to close within a few weeks. As of 10/27, 1093 HAP Supplemental Applications have been returned.

The months of August and September saw over a half dozen Community Days held to assist homeowners in the completion of their applications. Some events had to be rescheduled and additional Community Days are planned.

SPRP – The first three real estate closings were held in Sabine Pass from 16 – 20 October. Construction of foundations and footings for these homes began the week of 28 October. As of 10/27, 114 Supplemental Applications for assistance have been received, 63 inspections have been conducted, and 50 applicants have been determined eligible for assistance. Further details are contained in the data included below.

An informational meeting was held at the Sabine Pass High School on September 25th to answer questions and provide information relative to Ike. The meeting was attended by officials from Port Arthur, TDHCA, ACS and approximately 325 residents of the area. Data collected at this meeting indicated that of 22 homes that were elevated, 10 were destroyed, 11 were damaged and 1 sustained no damage. Of 25 homes that were not elevated, all were destroyed.

In summary, hurricane Ike dealt a severe blow to the Sabine Pass area. Service Centers were closed for a period of time, inspections were suspended and the program had to make several adjustments to deal with issues of duplication of benefit, flood insurance requirements and other regulatory issues created by this second disaster to hit the area in a three-year period. It is anticipated that these issues will continue to complicate eligibility determination in the future. Notwithstanding these difficulties, the program is moving forward with actual construction activity expected to accelerate in the coming weeks. Inspection activity is robust and additional staff have been added to the eligibility function.

FEMA Affordable Housing Pilot Program

The Disaster Recovery Division is also responsible for administration of the Federal Emergency Management Agency (FEMA) award of $16,471,725 for the Affordable Housing Pilot Program (AHPP). The purpose of the AHPP is to demonstrate an alternative housing solution to the FEMA trailer in the areas affected by the 2005 Hurricanes.

On January 7, 2008, the Federal Emergency Management Agency (FEMA) announced that TDHCA was awarded $16,471,725 for the Affordable Housing Pilot Program (AHPP). The purpose of the AHPP is to demonstrate an alternative housing solution to the FEMA trailer in the areas affected by the 2005 Hurricanes for a time period of twenty-four months. A one-time exemption to the Stafford Act, AHPP permits the use of FEMA funding to study alternatives to the FEMA trailer by examining cost-effective solutions that meet a variety of housing needs. Pursuant to FEMA requirements, the pre-fabricated units must be awarded within the 22 counties affected by the 2005 Hurricanes.

The Heston Group was selected to pilot a pre-fabricated, panelized solution which can be deployed quickly and built to accommodate a diverse population.

The Department has been working diligently with the Heston Group, identifying and managing activities to be performed before the delivery of the first 50 homes.

Letters of interest have been sent to a total of 100 potential occupants. There are currently 59 interested potential occupants; 13 out of those 59 have been verified eligible. TDHCA staff is working through obtaining ownership and current property tax documentation from the remaining 46.

The Heston Group has completed the Environmental Historic Preservation worksheet for the first four single family sites in East Texas and those worksheets have been submitted to FEMA. FEMA expects that the Environmental Clearance will be given no later than the first week in December provided no environmental issues arise.

TDHCA staff continues to work closely with the Harris County Housing Authority (HCHA) to finalize a contract for the placement of 20 women in Harris County on a group site.

DISASTER RECOVERY DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of Requests for Amendments to CDBG Disaster Recovery housing contracts administered by TDHCA for CDBG Round 1 Funding

Requested Action

Approve the requests for amendments related to Houston-Galveston Area Council's and South East Texas Regional Planning Commission's housing contract under the CDBG Disaster Recovery Program

Background

The State of Texas Action Plan (Action Plan) approved by the U. S. Department of Housing and Urban Development related to the *CDBG Disaster Recovery Funds to Areas Most Impacted & Distressed by Hurricane Rita* specifically states that contract amendments that vary more than 5% must be approved by the TDHCA Board.

Houston-Galveston Area Council C 06 0001

Summary of Request

H-GAC is requesting Amendment #4 to: a) increase the cost limit for reconstruction properties located within the 100-year floodplain and/or that require utility work and other requirements to meet local code requirements; b) extend the end date of the contract from December 31, 2008 to February 28, 2009; c) adjust the current budget categories to support the cost limit increase and extension; and d) decrease the number of reconstruction and rehabilitation households.

To date, H-GAC has completed assistance to fifty-nine (59) homeowners and plans to have ninety-two (92) homes delivered/completed by the current end date of December 31, 2008. Additional time will be needed to serve thirteen (13) additional households where H-GAC encountered construction delays due to unforeseen circumstances (i.e., Hurricane Ike, septic system upgrade requirements, etc.) and to serve applicants who will receive assistance in the form of a forgivable loan. The time extension will allow H-GAC to move forward with the construction of thirteen (13) additional homes, for a total of one hundred five (105). If a time extension is not granted, H-GAC will be unable to initiate construction for these thirteen (13) additional homes.

H-GAC is also requesting an increase in their maximum funding assistance level from sixty-five thousand ($65,000) to seventy-five thousand dollars ($75,000). H-GAC has determined that costs associated with flood-proofing, replacing failing septic systems, and meeting other local, State and Federal requirements will cause several projects to exceed the current reconstruction limit of sixty-five thousand dollars ($65,000). Increasing the reconstruction amount to seventy-five thousand dollars ($75,000) will allow H-GAC to move forward with reconstruction activities for sixteen (16) households, three (3) of which are currently approved and ready for construction to begin.

Supporting the requested cost increase and time extension will require minor budget adjustments. The changes include increasing the project delivery line item by seventy-five thousand dollars ($75,000), decreasing the rehabilitation line item by twenty-five thousand dollars ($25,000) and decreasing the reconstruction line item by fifty thousand dollars ($50,000).

The one rehabilitation project planned by H-GAC cannot proceed as approved as a result of damage caused by Hurricane Ike. As a result, H-GAC is requesting the elimination of the rehabilitation line item. This change will result in a reduction of rehabilitation beneficiaries by two (2). Adjusting for the increase in the reconstruction limit and slight increase in the project delivery line item will decrease the number of reconstruction beneficiaries by eleven (11). As a result of these changes, the total number of assisted households will decrease slightly from one hundred ten (110) to one hundred five (105).

Budget

	Amend #3	**This Request**	**Change**	**Percent Change**
Rehabilitation	$25,000	$0	($25,000)	-100.0%
Reconstruction	$6,192,954	$6,217,954	$25,000	1%
Planning	$277,879	$277,879	$0	0.0%
Project Delivery	$493,001	$493,001	$0	0.0%
General Administration	$26,872	$26,872	$0	0.0%
TOTAL	**$7,015,706**	**$7,015,706**	**$0**	

Beneficiaries

	Amend #3 Beneficiaries	**This Request**	**Change**	**Percent Change**
Rehabilitation	2	0	(2)	-100.0%
Reconstruction	295	284	(11)	-3.7%
TOTAL	**297**	**294**	**(13)**	

Requested Action

Approve H-GAC's request to increase the cost limit for reconstruction properties to seventy-five thousand ($75,000), extend the end date of the contract from December 31, 2008 to February 28, 2009, adjust the current budget categories to support the cost limit increase and extension, and decrease the number of reconstruction and rehabilitation beneficiaries by thirteen (13).

South East Texas Regional Planning Commission (SETRPC) Contract Number C 06 0003

Summary of Request

SETRPC is requesting Amendment #5 to extend their contract from December 31, 2008 to April 30, 2009. To date, SETRPC has completed assistance to one hundred thirty-seven (137) homeowners and has fifty (50) housing units under construction that will be complete by the end of the contract term. SETRPC also has thirty-six (36) housing units either out to bid or on order, nineteen (19) households are in loan closing pending installation or construction activities, and twenty-two (22) projects have been approved for assistance that are pending the on-set of construction activities. This extension is being requested to provide assistance to these seventy-seven (77) households that SETRPC anticipates will be underway by the end of the current contract term. Primarily as a result of delays caused by Hurricane Ike, SETRPC continues to experience issues that will, in all likelihood, result in the inability to complete the homes by December 31, 2008.

Requested Action

Approve SETRPC's request to extend the contract end date from December 31, 2008 to April 30, 2009 to allow for the completion of assistance to a minimum of seventy-seven (77) additional households.

DISASTER RECOVERY DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and possible Approval of Amendment 6 to the State of Texas Partial Action Plan for Disaster Recovery to Use Community Development Block Grant (CDBG) Funding (Action Plan).

Requested Action

Approve, deny or approve with changes the proposed Amendment 6 related to the Homeowner Assistance Program (HAP) and Sabine Pass Restoration Program (SPRP) to remove maximum benefit restrictions.

Background

The Partial Action Plan for Disaster Recovery to Use Community Development Block Grant (CDBG) Funding (Action Plan) was approved by the U.S. Department of Housing and Urban Development (HUD) on April 13, 2007. The General Use of Funds and Funding Allocation under the Plan totaled $428,671,849. HUD requires the Department to request a change to the plan when a substantial amendment is made that would impact beneficiaries or benefits to be delivered (among other concerns). To date, there have been five (5) total amendments to the Action Plan approved by the TDHCA Board of Directors and HUD. Staff , in consultation with our contractor ACS, is proposing **Amendment 6** for board consideration today, which is relating to the HAP and SPRP Maximum Limitations.

Amendment 6 Summary

TDHCA is requesting a substantial amendment submitted under Amendment Request 6 for HUD's approval Due to the costs associated after the homeowner is identified and approved. There is no increase in cost due to administrative issues, but the increases are in the delivery to individuals. When ACS issued a Request for Proposals, the building costs have come back at the total amount of the allowable benefits. This was the case largely in every application submitted. The problem has occurred because that does not include closing costs, remediation cost (where applicable for environmental, lead based paint, and asbestos), cost to elevate, cost to demolish existing home and/or cost to get infrastructure and the lot at the build ready stage. Not all of these costs will be associated with every home, but virtually all of the homes will have some of these costs.

In addition, given the Hurricane Ike response in the area, we have already heard that there will be an increase in labor and material costs from our previously received bids.

We are requesting that the Board remove the cap from the Action Plan through the amendment process, To be certain, staff will be returning to the Board with limitations in place, but it will be based on current market constraints and what we are finding is the need. As the amendment takes longer since it requires HUD approval, we would like to start the amendment process prior to bringing you the new caps in December.

Further information on the amendment's impact in the Action Plan is outlined in the attached document "TDHCA Proposed Action Plan Amendment 6 for HUD Approval. This form is similar to the HUD required amendment request format.

As we still need additional public comment, written comments on this amendment will be accepted by mail, e-mail, and facsimile through November 13, 2008.

Recommendation

Staff recommends Governing Board approval of the Amendment 6 to the Action Plan, as proposed.

State of Texas

Partial Action Plan for Disaster Recovery to Use Community Development Block Grant (CDBG) Funding

Public Law 109-234

to Assist with the Recovery of Distressed Areas
Related to the Consequences of

Hurricanes Katrina, Rita, and Wilma in the Gulf of Mexico in 2005

TDHCA Proposed Action Plan Amendment 6 for HUD Approval

(Second Allocation)

Changes to the HAP and SPRP Maximum Limitations and Multifamily Use of Funds

Public Comment: November 6, 2008 through November 13, 2008
Original Submission: November 14, 2008

Texas Department of Housing and Community Affairs

TABLE OF CONTENTS

TDHCA Amendment 6 Request to HUD Regarding HAP and SPRP Programs

National Objective: Benefit to Low and Moderate income persons.

Activity Amount: HAP -- $210 Million SPRP -- $12 Million

Relevant Action Plan and Amendment History:

Public Law 109-234 (effective June 15, 2006) provided $5.2 billion supplemental appropriation of CDBG Disaster Recovery Funding for *"necessary expenses related to disaster relief, long-term recovery, and restoration of infrastructure in the most impacted and distressed areas related to the consequences of Hurricanes Katrina, Rita, or Wilma."* In reviewing the totality of the need in the five state region covered by the law, $428,671,849 was specifically allocated to Texas by the Secretary of HUD. As further provided for under the law, *"funds provided under this heading shall be administered through an entity or entities designated by the Governor of each State."* Governor Rick Perry has designated TDHCA as this entity for the State of Texas.

The Partial Action Plan for Disaster Recovery to Use Community Development Block Grant (CDBG) Funding was approved by the Governing Board February 1, 2007 and was forwarded to the Department of Housing and Urban Development (HUD) for approval February 6, 2007. On April 13, 2007 the Action Plan was approved by HUD. The total funding allocation is $428,671,849.

Substantial Amendment 6 Request Summary:

TDHCA is requesting a substantial amendment submitted under Amendment Request 6 for HUD's approval:

1. **HAP/SPRP Maximum Benefit:** The maximum benefit has been removed for reconstruction, replacement, and/or new construction of a qualified home for the HAP and SPRP, including manufactured housing units. The previous limits are included below for reference:

    - ~~1 - 4 person Household: $60,000~~ (**Amendment 6 = no limit)**
    - ~~5 - 6 person Household: $67,500~~ (**Amendment 6 = no limit)**
    - ~~7 or more person Household: $75,000~~ (**Amendment 6 = no limit)**

NOTE: The Maximum Benefit for the HAP and SPRP rehabilitation has not changed, and remains at $40,000, as approved in the Partial Action Plan.

Public Comment Summary and Final TDHCA Board Response for Approved Amendment 6

Citizen Participation and Public Input

Written comments on this amendment were accepted by mail, e-mail, and facsimile November 6 - 13, 2008. The TDHCA Board meeting served as a public hearing to receive public comment for the proposed amendment to the Action Plan.

Summary of Comments and State's Response for Proposed Action Plan Amendment 6

[To be included after comment is received]

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Review and Possible Approval of staff recommendations (based on a Request for Applications process) to award the Community Services Block Grant (CSBG), the Comprehensive Energy Assistance Program (CEAP), and the Weatherization Assistance Program (WAP) to Subrecipients to serve Duval and McMullen counties.

Required Action

Staff recommends the designation of Bee Community Action Agency as the CSBG eligible entity to administer CSBG, CEAP, and WAP grants in McMullen County and the designation of the Institute of Rural Development Inc., as the entity to administer CSBG, CEAP, and WAP grants in Duval County.

Background

The Department received two applications from interested parties in response to the Request for Applications. One application was submitted by Bee Community Action Agency to administer the CSBG, WAP, and CEAP grants in McMullen County and a second proposal was submitted by the Institute for Development Inc., to administer CSBG, WAP, and CEAP grants in McMullen and Duval Counties. Based on the application scores and review by the Department, staff recommends that Bee Community Action Agency receive CSBG and CEAP contracts beginning November 15, 2008, through December 31, 2009, for the initial amounts of $50,000 and $59,991 respectively. Additionally the Department recommends Bee Community Action Agency receive WAP contracts beginning November 15, 2008, through March 31, 2009, in the total amount of $18,067.

The application submitted by the Institute of Rural Development Inc., to administer the CSBG, WAP, and CEAP grants in McMullen and Duval Counties indicated the late completion of the annual audit for two consecutive years. The staff recommends that the Institute of Rural Development Inc. be conditionally approved to administer the CSBG, WAP, and CEAP grants in Duval County. The Department expects annual audits to be completed and submitted in accordance with the Single Audit Act and OMB Circular A-133. The staff recommends the Institute of Rural Development Inc. be awarded CSBG and CEAP contracts beginning December 1, 2008 through December 31, 2009, for the amounts of $50,000 and $71,104 respectively. Additionally the Department recommends the Institute of Rural Development Inc. receive WAP contracts beginning December 1, 2008, through March 31, 2009, in the total amount of $23,242.

The initial contracts for the recommended subrecipients will be amended to reflect the Notice of Grant Awards recently received by the Department.

Recommendation

The Community Affairs Division recommends that the Board approve the designation of Bee Community Action Agency as the CSBG eligible entity to administer CSBG, CEAP, and WAP programs in McMullen County and the designation of the Institute of Rural Development Inc., as the entity to administer the CSBG, CEAP, and WAP programs in Duval County.

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Review and Possible Approval of a plan for the Low Income Home Energy Assistance Program (LIHEAP) award for Program Year (PY) 2009.

Required Action

Staff recommends Board approval of the plan to obligate the 2009 LIHEAP allocation of $169,220,882 less the allowable holdover of 10%. Approval of the awards for each program will be requested at subsequent Board meetings.

Background

The United States Department of Health and Human Services (USDHHS) awards LIHEAP funds annually to the State of Texas. On October 16, 2008, USDHHS awarded $158,109,984 in block grant funding; $11,085,977 in Emergency Contingency funding; and $24,921 in leveraging funds to the State of Texas for Program Year (PY) 2009. This is a significant increase; the award to the Department is approximately four times greater than the allocation received in prior years. Staff recommends a holdover of the maximum allowable 10% $16,922,088 of the total LIHEAP award for contingency funding or to be distributed in PY 2010. The purpose of this holdover is to increase the Department's flexibility to address the needs of the low income population and minimize the impact of uncertain funding levels from the USDHHS.

Historically, the Department has allocated approximately 75% of available LIHEAP funding to the Comprehensive Energy Assistance Program (CEAP), the maximum allowable 15% to the Weatherization Assistance Program (WAP), and the remaining 10% to program administration, at both the subrecipient and state level, as allowed by USDHHS.

CEAP Awards

Consistent with past methodology, staff plans to request approval to obligate the 75% CEAP portion of the award and the associated administration at the December 18, 2008 Board Meeting for PY 2009 CEAP contracts which begin January 1, 2009 through December 31, 2009. An estimated funding table for the PY 2009 CEAP contract is attached to this item.

WAP Awards

Consistent with past methodology, staff plans to request approval to obligate the 15% WAP portion of the award, and the associated administration, in spring 2009 for Board review and approval for PY 2009 WAP contracts that begin April 1, 2009 through March 31, 2010. The Department is awaiting the final determination of the PY 2009 DOE grant award and will make estimated funding figures for PY 2009 WAP contracts available at a later date. If current expenditures necessitate obligation of additional WAP funds in PY 2008 contracts, staff will present that recommendation to the Board at the December 18, 2008 Board Meeting.

Obligation of the 2009 LIHEAP Award	
2009 LIHEAP Award	$169,220,882
10% Carryover	$16,922,088
Available for 2009 obligation	$152,298,794
TDHCA Administration	$4,568,291
Amount Available for Program Obligation	$147,730,503
CEAP Obligation	$123,928,638
WAP Obligation	23,801,865

Recommendation

Staff recommends that the Board approve the plan for the allocation of the Low Income Home Energy Assistance Program (LIHEAP) award for Program Year (PY) 2009 as described above.

Obligation of 90% the 2009 LIHEAP Award, 2009 Emergency Contingency Award, and 2009 Leveraging Incentive Award
Total of $123,928,638

CEAP Subrecipient	Estimated Funding
Aspermont Small Business Development	$ 932,314
Bee Community Action Agency	$ 515,112
Bexar County Community and Develement Services	$ 7,459,838
Big Bend Community Action Agency	$ 1,020,930
Brazos Valley Community Action Agency	$ 3,010,405
Cameron-Willacy Counties Community Projects Inc.	$ 3,531,731
Caprock Community Action Association	$ 1,236,426
Central Texas Opportunities	$ 1,407,106
Combined Community Action	$ 988,170
Community Action Committee of Victoria, Texas	$ 1,722,602
Community Action Corporation of South Texas	$ 1,058,376
Community Action Inc. of Hays, Caldwell	$ 680,358
Community Action Program, Inc.	$ 931,148
Community Council of Reeves	$ 465,804
Community Council of South Central TX	$ 2,451,777

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Review and Possible Approval of 2009 Emergency Shelter Grant Program (ESGP) Notice of Funding Availability (NOFA).

Required Action

Department staff recommends approval of the ESGP Fiscal Year 2009 Notice of Funding Availability (NOFA) to be used by the Department in its competitive funds distribution and obligation process. The Department expects to receive approximately $5 million from the U. S. Department of Housing and Urban Development (HUD) for Fiscal Year 2009.

Background

The Department has administered the ESGP since 1987. The Department receives its ESGP funding from HUD as part of the State of Texas Consolidated Annual Plan. The ESGP program year is from September 1 through August 31. The Department is authorized to make grants to units of general local government and to private nonprofit organizations if the unit of government in which services will be provided approves such application. ESGP funds may be used for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating expenses and essential services in connection with emergency shelters for the homeless, and for homelessness prevention activities.

The Department annually prepares a Notice of Funding Availability for use by eligible applicant organizations interested in applying for ESGP funding. ESGP regulations require that the Department obligate the funds within sixty-five days of the date of its annual grant award letter, which the Department receives sometime between February and May of each year. Due to the critical timeline for obligation of ESGP funds, the Department is recommending that the Board approve the NOFA today so that it can promptly be made available.

The deadline for receipt of NOFA applications for ESGP funding is January 9, 2009 which will ensure that Department staff are able to review and score the applications and make funding recommendations in time to meet the sixty-five day obligation deadline. It is anticipated that the awards will be brought to the Board in May of 2009.

The Department regionally allocates 95% of the annual ESGP allocation based on the poverty population of each Uniform Service Region. Applicants from a particular region compete only against other applicants from the same region. The Department maintains 5% of the ESGP funds for administration and monitoring of the grant and shares a portion of this reserve with units of local government that receive an ESGP award from the Department.

The Department utilizes review teams and a standardized scoring instrument to evaluate and score each eligible application. The scoring instrument follows the content and order of the ESGP NOFA. The Department's Portfolio Management and Compliance Division is consulted to determine if applicants have any audit issues.

Due to the limited amount of funds available, not all applications are funded and the ones which are funded may not be fully funded. The system for determining the applications to be funded will be based on the amount of funds available in the region and may take into consideration the percentage of funds requested and the ranking of the application within the region.

Recommendation

Staff recommends the Board approve the Department's FY 2009 ESGP Notice of Funding Availability.

RE: FFY 2009 Texas Emergency Shelter Grants Program Notice of Fund Availability

The Texas Department of Housing and Community Affairs (the Department) is pleased to provide you with the FFY 2009 Texas Emergency Shelter Grants Program (ESGP) Notice of Fund Availability (NOFA), funded through the U.S. Department of Housing and Urban Development (HUD).

The Department will sponsor an ESGP Application Workshop on Thursday, November 20, 2008 in the small auditorium at the Commons Center, located at the University of Texas J.J. Pickle Research Campus (see attached map). Registration will begin at 8:00 a.m. Attendees do not need to pre-register for the workshop and no fee will be charged for attendance. Attendance is not mandatory, but all potential applicants are welcome. The Department encourages entities who are applying for ESGP funds for the first time or entities that have not attended an application workshop in prior years to attend the workshop.

During this workshop, Department staff will review the enclosed application packet and answer general questions regarding its completion. **Please review the enclosed application packet prior to the workshop and bring your copy to the workshop.**

Participation in this workshop does not imply that a represented applicant organization will receive FFY 2009 ESGP funding.

The Department looks forward to receiving your completed NOFA application. Questions pertaining to the content of this application packet or eligible activities may only be directed to Rita Gonzales-Garza, Project Manager for Planning & Contract Implementation at (512)475-3905 (Rita.Garza@tdhca.state.tx.us) and Al Almaguer, Planner, at (512) 475-3908 (Al.Almaguer@tdhca.state.tx.us). This application is posted on the Department's website: http://www.tdhca.state.tx.us/cs.htm#ESGP.

Application Workshop

The Commons Center Small Auditorium

UT Austin J.J. Pickle Research Campus
10100 Burnet Road (corner of Burnet Rd. and Braker Lane)
Austin, TX 78758

Phone: 512-471-5898
Website: www.utexas.edu/facilities/commons

Thursday, November 20, 2008
9 am—4 pm
Registration begins at 8 am

Parking

The Commons Center has plenty of free parking. Enter the J.J. Pickle Research Campus on the East Entrance off Burnet Rd. or on the North Entrance off Braker Lane.

Location

Northwest area of Austin adjacent to the intersection of MoPac (Loop 1) and Braker Lane.

Traveling on IH 35

Take the US-183 N exit. Take the Burnet Rd. exit. At the light, turn right onto Burnet Rd. and drive 3/4 mile to the east entrance of the J.J. Pickle Research Campus. Turn left into campus and get a temporary parking permit from the guard gate.

Application

Bring your copy of the application to the workshop.

ESGP NOFA SUBMISSION INFORMATION

DEADLINE FOR RECEIPT: Thursday, January 8, 2009
by 5:00 p.m. CST

TWO COPIES DUE: One Original and Two Complete Copies

Applicants must submit one original and two complete copies of the application on or before the deadline. Applications that arrive after the deadline will not be considered. Diskettes or other electronic documents will not be accepted. If you would like to confirm the Department's receipt of application, e-mail Chery Freeman at cfreeman@tdhca.state.tx.us two weeks after your submission.

Mailing Address:
(All U.S. Postal Service including Express)

Hand Delivery:

If you are hand delivering the application, contact Rita D. Gonzales-Garza at (512) 475-3905 or Al Almaguer (512) 475-3908 when you arrive at the lobby of our building so they may accept your application.

Please use the following format for the narrative portion of the application:

- Minimum 11 font
- Double spaced
- Standard 8½ " x 11" paper with 1" margins
- Narrative must not exceed 10 consecutively numbered pages, double spaced.
- Collaborative applications are allowed two additional pages for each additional organization with a maximum of 20 pages for the entire proposal.

Complete applications must be bound using binder clips. **DO NOT USE FOLDERS OR NOTEBOOKS OF ANY TYPE.** The original application must contain original signatures and original pictures.

Questions pertaining to the content of this application packet may only be directed to Rita Gonzales-Garza, Project Manager for Planning & Contract Implementation at (512) 475-3905. This application is posted on the Department's website: http://www.tdhca.state.tx.us/cs.htm#ESGP .

TIMELINE FOR FY 2009 ESGP NOFA APPLICATION CYCLE

2009 Program Year: September 1, 2009 - August 31, 2010

November 18, 2008	The application will be available through the TDHCA website: **www.tdhca.state.tx.us/cs.htm#ESGP**
November 20, 2008	ESGP Application Workshop will take place from 9:00 a.m. to 4:00 p.m. in Austin at the UT Austin J.J. Pickle Research campus at 10100 Burnet Road, Austin Texas, 78758, Phone: (512) 471-5898. Website: **www.utexas.edu/facilities/commons** The purpose of this workshop is to provide a forum where organizations intending to apply for ESGP funds may ask questions and get information on how to complete the ESGP application. Persons do not need to register to attend workshop. Attendance is not mandatory and will not be a factor in awarding ESGP funds.
January 8, 2009	Deadline for applicants to submit 2009 ESGP NOFA Application.
May 2009	Department's notification to award recipients and applicants.

APPENDICES

BACKGROUND

The Emergency Shelter Grants Program (ESGP) is to be utilized for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating expenses and essential services in connection with emergency shelters for the homeless, and for homeless prevention activities. The program is designed to be the first step in a continuum of assistance to enable homeless individuals and families to move toward independent living as well as to prevent homelessness.

ESGP was established by the Homeless Housing Act of 1986 in response to the growing issue of homelessness in the United States. In 1987, the ESG program was incorporated into Title IV of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. Sec. 11371- 11378), now known as the McKinney-Vento Homeless Assistance Act. ESGP funds are federal funds awarded to the State of Texas by the U. S. Department of Housing and Urban Development (HUD).

The Texas Legislature designated the Texas Department of Housing and Community Affairs (the Department) to administer this program pursuant to Sec. 2306.094, Texas Government Code. ESGP funds will be made available to eligible applicants to carry out the purpose of the Emergency Shelter Grants Program based on this statewide competitive NOFA process. The Department has not been notified of the ESGP award amount for Texas in FY 2009.

PROGRAM PURPOSE

The Emergency Shelter Grants Program (ESGP) is designed to be part of a continuum of assistance to enable homeless individuals and families to move toward independent living as well as to prevent homelessness. The objectives of the ESGP shall be to:

1. Help improve the quality of emergency shelters for the homeless;

1. Help meet the costs of operating and maintaining emergency shelters;

1. Provide essential services so that homeless individuals have access to the assistance they need to improve their situation; and

1. Provide emergency intervention assistance to prevent homelessness.

Note: ESGP funds cannot be utilized for permanent housing projects.

Definition of Homeless

The term "homeless" or "homeless individual" includes:

1. An individual who lacks a fixed, regular, and adequate nighttime residence, or
1. An individual who has a primary nighttime residence that is:
    - ( ) a supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill);
    - ( ) an institution that provides a temporary residence for individuals intended to be institutionalized; or,

( ) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. (Exclusion: The term "homeless" or "homeless individual" does not include any individual imprisoned or otherwise detained pursuant to an Act of Congress or a State law.)

Note: ESGP funds cannot be utilized to assist or care for children in State custody.

ELIGIBLE APPLICANT ORGANIZATIONS

Units of general local government

To be considered as a unit of general local government, an applicant organization must have, among other responsibilities, the authority to assess and collect local taxes and to provide general governmental services.

Private nonprofit organizations

To be considered as a private nonprofit organization, an applicant organization must document existing status as a 501(c) tax-exempt entity. Private nonprofit organizations applying for ESGP funds must be established for eleemosynary purposes and whose activities include, but are not limited to, the promotion of social welfare and the prevention or elimination of homelessness. The entity's net earnings may not inure the benefit of any individual(s). Refer to documentation requirements under Eligibility Documentation.

Faith-based organizations receiving ESGP funds, like all organizations receiving HUD funds, must serve all eligible beneficiaries without regard to religion.

Collaborative applications

The Department will accept collaborative applications; however, we will not assign bonus points. To be considered as a collaborative, the application must include two or more organizations that will use ESGP funds to provide services to the target population as part of a local continuum of care. If a unit of general local government applies for only one organization, this will not be considered a collaborative application. The Department intends for collaborative applications to be an effort among organizations who serve the homeless population to coordinate services and prevent duplication of services. If an ESGP applicant organization plans to utilize another organization to provide a service such as child care, the organization providing child care should not be considered a collaborative partner but should be considered a subcontractor.

ELIGIBILITY DOCUMENTATION

The following information **must be included** in each ESGP application. **Failure to provide this documentation will deem the application ineligible for funding:**

1. Documentation of the participation of a **homeless or formerly homeless individual** on the board of directors or other equivalent policymaking entity of such recipient, to the extent that such entity considers and makes policies and decisions regarding any facility, services, or other assistance of the recipient. Applicants who have not previously received ESGP funds from the Department are exempt from the requirement, but must comply with the requirement prior to execution of a contract with the Department.

1. Attachments B, C, and D must be completed to provide information regarding this requirement. A copy of the section in the bylaws which authorizes the governing board or equivalent policymaking entity to make policies for the organization must also be included. This is also to be completed by the lead partner in a collaborative application, even if the lead partner is a city or county.

All private nonprofit organizations must document their status as a 501(c) tax-exempt entity. The Department prefers that the ruling be on IRS letterhead which is legible and signed by the IRS District Director. Expired advanced rulings from the IRS are not acceptable. Other documentation which may be utilized to document a 501(c) tax-exempt status may be a letter from the State of Texas Comptroller of Public Accounts or a certified legal document showing status. Local nonprofit affiliate of a State or national nonprofit can be submitted if your organization is a subsidiary of a parent organization. In case of the latter, provide a copy of the page listing your organization in the documents filed with the IRS.

1. Private nonprofit organizations must document that the activities proposed for ESGP funding have received local government approval from the city or county in which the project is located. Such approval is to be documented on Attachment E – Local Government Certification Form which must be signed by the county judge or mayor, or their official designee (such as city manager, assistant city manager, community development director or human services director) for the locality in which the project is located.

NOTE: Any partner in the collaborative who fails to provide eligibility documentation will be deemed ineligible for funding. If the application is selected for funding and one of the organization(s) in the collaborative was deemed ineligible, the Department will negotiate the final grant amount only with the organization(s) that met all three eligibility requirements.

Eligibility Documentation and Other Requirements for Collaborative Applications:

0. Each organization, including the lead organization in a collaborative application, must submit Attachments B, C, and D, along with a copy of the section in the bylaws which authorizes the board of directors or equivalent policymaking entity to make policies and decisions for the organization. A lead organization providing only administrative support, should complete Attachments B, C, and D and indicate and indicate non-applicable if such is the case.

0. Each organization in a collaborative application, including the lead organization, must document the current 501(c) tax-exempt status. The Department prefers that the ruling be on IRS letterhead which is legible and signed by the IRS District Director. Expired advanced rulings from the IRS are not acceptable. Other documentation which may be utilized to document a 501(c) tax-exempt status may be a letter from the State of Texas Comptroller of Public Accounts or a certified legal document showing status. Local nonprofit affiliate of a State or national nonprofit can be submitted if your organization is a subsidiary of a parent organization. In case of the latter, provide a copy of the page listing your organization in the documents filed with the IRS.

0. A private nonprofit organization, acting as the lead agency in a collaborative application, must document that the project(s) proposed for ESGP funding has received approval from the city or county in which the administrative office of the lead agency is located (Attachment E). Refer to Eligibility Documentation section for additional information.

0. Due to the limited amount of ESGP funding, collaborative applications are limited to a request of no more than $100,000 per each partner with a maximum of $300,000 for the application.

AWARD AMOUNTS

The Department has established a minimum of $30,000 and a maximum of $100,000 for ESG program awards. **An organization can submit only one application either as a single entity or as part of a collaborative effort**. Applicants submitting an application for the Special Initiative Project are limited to submitting an application for only the Special Initiative Project. A collaborative application is limited to a maximum request of $300,000, with a limit of $100,000 per partner. The Department will not set limitations on the number of organizations that can be part of a collaborative application, but the Department does recommend that collaborative applications consider limiting the collaboration to no more than 5 organizations. The limitations are based on the amount of ESGP funds estimated to be available to each region and the ESGP funding pattern utilized by the Department. The limitations are not to be interpreted as a commitment by the Department to award these amounts. All projects should be planned for a maximum of 12 months.

The Department will provide administrative funds to a unit of general local government (city or county) selected for ESGP funding, whether the entity provides services directly or acts as the lead agency in a collaborative application. These funds will be provided during the final stage of contract negotiation and will not exceed 4% of the applicant's ESGP award.

The Department reserves the right to negotiate the final grant amounts and local match with successful applicants to ensure judicious use of ESGP funds. The Department may consider the amount of HUD funds awarded to entitlement entities (see Appendix V) when making funding decisions to applicants that are a unit of general local government. This consideration does not apply to private nonprofit organizations located in ESGP entitlement cities or counties.

FINANCIAL DOCUMENTATION

All applications must include documentation of fiscal accountability, even if this information has been previously submitted to the Department. All collaborative applications from non-profits must submit financial documentation for each organization in a collaborative. For collaborative applications from units of general local government, the Department expects that fiscal accountability documentation will be reviewed by the city or county.

An applicant organization that spends more than $500,000 in *federal funds* during its fiscal year must have a single audit conducted for that year. The threshold for expenditure of *federal funds* was increased from $300,000 to $500,000 for organizations with fiscal years ending after December 31, 2003. If a single audit is required for your organization, a portion of the audit cost may be included in the proposed ESGP budget.

An applicant organization that *does not exceed* the $500,000 federal fund expenditure threshold is exempt from the single audit requirements. In this case, audit costs may **not** be included in the proposed ESGP budget.

An applicant organization must include its most recent complete audit report and if applicable, a management letter as part of the financial documentation for this application. An audit on diskette will not be accepted. If your agency is not required to have a single audit performed, the application must include the end-of-the-year financial statements (balance sheet, income statement, and statement of cash flow).

CONTRACTS AND REPORTING

ESGP contracts will be signed electronically. Applicant organizations must have a computer on-site with the capability of downloading software from the Internet.

ESGP monthly reporting will be electronic via the Internet. Applicant organizations must have a computer on-site with the capability to transmit monthly financial and programmatic reports and receive electronic transmissions. Specific information on the format and due dates of required reports will be provided to grant subrecipients.

ELIGIBLE ACTIVITIES

ESGP funds are designed to address the immediate needs of homeless persons to assist their movement to permanent housing. ESGP funds may also benefit persons at risk of becoming homeless. ESGP funds cannot be utilized to care for or assist children in State custody.

The Department encourages applications that include an innovative approach to providing emergency shelter and/or transitional housing to homeless individuals and families. Transitional housing projects should be designed to provide housing and appropriate essential services to homeless persons in order to facilitate the movement of individuals or families to permanent housing within a specified time, usually 24 months.

ESGP grant amounts may be used for one or more of the following activities:

A. OPERATION ADMINISTRATION

Not more than **10%** of an applicant's ESGP budget may be requested for administrative salaries (including fringe benefits). The 10% limitation applies to each partner in the collaborative application. Appropriate staff which may be charged as administrative staff are the executive director, program director, supervisors, administrative support staff, etc. Job descriptions for these positions are **not** required to be included in the ESGP application.

A. REHABILITATION

Rehabilitation is defined as the labor, materials, tools, and other costs of improving buildings. Subrecipients must comply with Title 24, Subpart E, Section 576.59 Relocation and Acquisition requirements.

Examples of allowable rehabilitation projects include, but are not limited to, accumulated deferred maintenance (replacing flooring), replacement of principle fixtures and components, improvements to increase energy efficiency (replacing a furnace or air conditioning unit), and structural changes necessary to make the facility accessible for persons with physical disabilities. Rehabilitation projects include deferred repairs for items that are inoperable or broken and in need of replacement prior to the submission of the ESGP application. Rehabilitation does not include non-deferred repairs.

Types of rehabilitation projects include:

- **Conversion:** a change in the use of a building to an emergency shelter or transitional housing where rehabilitation costs exceed 75% of the value of the building **after** conversion. If selected for funding, the facility would be required to be used as a shelter for the homeless for at least **10 years**.
- **Major rehabilitation:** rehabilitation or conversion involving costs in excess of 75% of the value of the building **prior to** the proposed rehabilitation or conversion. If selected for funding, the facility would be required to be used as a shelter for the homeless for at least **10 years**.
- **Renovation:** rehabilitation that involves costs of 75% or less of the value of the building **prior to** the proposed rehabilitation. If selected for funding, the facility would be required to be used as a shelter for the homeless for at least **3 years**.

All rehabilitation activity funded through ESGP must occur **within the existing structure**, must not increase the square footage of the structure involved, and must comply with local government safety and sanitation requirements. (Refer to Section 504 of the Rehabilitation Act of 1973, as amended, as provided in 24 CFR 8.23 (a) or (b)).

Deferred repairs are items that are inoperable or broken and in need of replacement prior to the application period. These types of repairs are considered Rehabilitation activities.

ESGP funds shall not be used for the following activities:

- Permanent housing;
- Acquisition of real property;
- New construction;
- Addition of square footage;
- Property clearance or demolition; and
- Building maintenance and repairs (see Maintenance and Operations).

C. ESSENTIAL SERVICES

ESGP legislation limits to 30% the amount of funds that may be used for Essential Services activities. Therefore, the Department will require ESGP applications to **limit requests** for Essential Services activities to **30%** of the proposed budget. **The 30% limitation applies to each partner in a collaborative application.**

Essential Services activities address the immediate needs of homeless individuals and enable homeless persons to become more independent and/or to secure permanent housing. Essential services may include direct client services concerned with employment, health, drug abuse prevention, and education, including but not limited to:

- Assistance in obtaining permanent housing;
- Medical and psychological counseling and supervision;
- Employment counseling, job placement, and job training (including tuition and books);
- Nutritional counseling and the salary of food preparers (cooks);
- Substance abuse treatment and counseling;
- Assistance in obtaining other federal, state, and local assistance including mental health benefits, medical assistance, Veteran's benefits, and income support assistance such as SSI, TANF, and Food Stamps;
- Other services such as childcare, food vouchers, client clothing, or medical assistance (doctor visits, prescriptions, eye glasses or other prostheses, etc.);
- Transportation costs directly associated with ESGP service delivery, such as bus tokens, bus fare, cab fare, airfare, salary of van driver, etc; and,
- Salary for staff whose **sole duty** is to work directly with clients to provide the above services. Staff salaries may include wages and fringe benefits as described in the applicant organization's personnel policies. **No administrative salaries may be paid with Essential Services funds.**

The application **must include a job description** for any position to be paid in full or in part with ESGP funds under this category.

If your agency received local funds (locally generated tax revenue) from a unit of local government in the past 12 months, and if your ESGP application includes a request for funds to provide essential services, your Project Narrative must describe how the service(s) will be a new service or will result in a quantifiable increase in the level of service that was provided with local funds during the previous 12 months.

ESG funds can be used by grantees or their recipients for a new service or a quantifiable increase in the level of service above that provided during the immediately previous 12-month period. This provision in the legislation prohibits using ESG funds to replace existing government or non-profit funding of services. However, once a new or increased level of service meets the above standards, then ESG funds may be used to continue funding that service in subsequent years.

A. MAINTENANCE, OPERATION, AND FURNISHINGS

ESGP funds may be used for maintenance, operation, furnishings, and equipment costs. The Department will accept applications that include Maintenance, Operation, and Furnishings as a part of the project or as the sole activity of a project.

Maintenance costs include contract services for copier or security system maintenance, pest control, lawn care, contracted janitorial service, etc.

Operation costs include facility rent, utilities, internet service, and telephone; building maintenance and non-deferred repairs; food for shelter residents; vehicle maintenance, registration, repairs, and fuel; building or equipment insurance; fidelity bond coverage; office and maintenance supplies; contracted security services; single audit expenses (if required), staff mileage reimbursement (for travel relating to ESGP service delivery), and pre-award travel expenses (for successful applicants to attend an orientation workshop).

Non-deferred repairs are items that break during the contract period, such as:

- repairing a window that is broken;
- repairs due to water damage; or
- repairing a broken furnace or air conditioning unit.

Deferred repairs are items that are inoperable or broken and in need of replacement prior to the application period. These types of repairs are considered Rehabilitation activities.

Equipment may include computers, printers, software, refrigerator, stove, tools, vehicles, etc. All equipment with a useful life of more than one year and an acquisition cost of $500 or more must be included in a cumulative inventory report submitted to the Department each contract year.

Furnishings may include beds, mattresses, linens, desks, tables, chairs, etc.

- An applicant that participates in a local Continuum of Care may use ESGP funds to facilitate the required Homeless Management Information System (HMIS) which may include the purchase of software and/or annual access fees to facilitate data collection and reporting of client-level information.

A. HOMELESSNESS PREVENTION

Homelessness Prevention funds may be used to assist individuals who are homeless or at risk of becoming homeless. The Department will accept applications that include Homelessness Prevention as a part of the project or as the sole activity of a project. There are no limitations in the amount of funds which may be requested for homelessness prevention.

Homelessness Prevention funds may be used to provide direct monetary assistance on behalf of individuals whose annual income is at or below the federal poverty guideline when **all** of the following conditions are met:

1) The individual or family is unable to make the required payments due to a sudden reduction in income or a sudden increase in expenses;

1) The assistance is necessary to avoid the foreclosure, eviction, or termination of utility services (excluding telephone service);

1) There is reasonable prospect that the individual or family will be able to resume the payments within a reasonable period of time (determined by the applicant organization and used consistently among all clients); and

1) The assistance does not replace funding for pre-existing homelessness prevention activities from any other sources.

Homelessness Prevention funds must be used to assist those individuals and families that would actually become or remain homeless without ESGP homelessness prevention funds. Homelessness Prevention assistance may include:

1) Short-term subsidies to help defray rent and utility arrearages for families that have received a notice of eviction, termination of utility services, or payments to prevent the transfer of service;
2) Security deposits or first month's rent to enable a homeless family (or individuals in emergency/ transitional housing) to acquire permanent housing;
3) Programs to provide mediation for landlord/tenant disputes;
4) Programs to provide legal services for the representation of indigent tenants in eviction proceedings;
5) Payments to prevent foreclosure on a home; and,
6) Other innovative programs and activities designed to prevent the incidence of homelessness.

Ineligible homelessness prevention activities include: Direct payment to individuals.

INELIGIBILE ACTIVITIES

Rehabilitation activities funded through ESGP cannot increase the square footage of the structure involved and must occur within the existing structure. (Refer to Section 504 of the Rehabilitation Act of 1973, as amended, as provided in 24 CFR 8.23 (1) or (b).)

ESGP funds shall not be utilized for permanent housing; acquisition of real property; new construction; addition of square footage, property clearance or demolition; direct payments to individuals; to support inherently religious activities such as worship, religious instruction, or proselytization; or to rehabilitate or repair buildings such as sanctuaries, chapels, and other rooms that a congregation uses as its principal place of worship.

ESGP funds shall not be used for application for Federal funds or unprogrammed funds.

ESGP funds shall not be used for recruitment or on-going training of staff, depreciation, advertisement, entertainment, conferences, or retreat, public relations, advertising, bad debts/late fees, or mortgage payments of the subrecipient organization.

MATCH REQUIREMENT

ESGP subrecipients must match their award amount with an equal or greater amount of resources other than ESGP funds. Therefore, ESGP applicant organizations must demonstrate access to resources that may be used as match **after** the date of the grant award. Matching funds used for this ESGP project may not be used to match any other project or grant. ESGP funds received from units of local government may not be used to match State the ESGP grant. Supportive Housing Program and Community Development Block Grants from the U.S. Housing and Urban Development Department may be used as match sources. Match resources may include:

DONATED SUPPLIES: Donated goods such as clothing, furniture, equipment, etc. Include the source and an estimated value for all donated goods.

CASH DONATIONS OR GRANTS: Private donations or grants from foundations, nonprofits, or local, state, and federal sources. A single grant may serve as the required match.

VALUE OF DONATED BUILDING: The fair market value of a donated building in the year that it is donated. The building must be proposed for ESGP-related activities and must not currently be in use for these activities. The narrative should state when the building was donated and for what purpose, the current use of the building, and how long the building has been used for its current purpose. The application must include documentation from a realtor or appraiser as to the fair market value of the property.

RENT OR LEASE: Rent paid for space currently used to provide services to the homeless. *Include the source of funds used to pay rent.* The fair market rent or lease value of a building owned by or space that is donated (rent-free) to the applicant organization is also an acceptable match resource. To document fair market value, the application must include a letter from a realtor or appraiser that specifies the location of building, square footage, value per square foot, and total lease or rent value based on 12-month occupancy.

SALARIES: Any staff salary paid with general operating funds or grant funds (CSBG, CDBG, United Way, VOCA, etc.). The position(s) used as match must be involved in ESGP-related activities and the hours utilized for match must be for hours worked for ESGP related activities. For each position include the title, annual salary, percentage of time dedicated to ESGP activities, source of funds and the dollar amount proposed as match.

VOLUNTEERS: Time and services contributed by volunteers, with a value not to exceed $5 per hour.

ENVIRONMENTAL REVIEW PROCEDURES – Rehabilitation Projects Only

The 1988 McKinney Amendment Act revised the environmental review procedures for assistance under Title IV of the Act, including ESGP, by making applicable the provisions of, and regulations and procedures under section 104(g) of the Housing and Community Development Act of 1974 (42 U.S.C. Sec. 5304 (f)). The regulations are codified at 24 CFR Part 58. Also, see 24 CFR 576.57e (Release of Funds), and 24 CFR 35 (Lead Based Paint Hazard Reduction).

1. An application from a *private nonprofit organization* that requests funding for Rehabilitation activities must include a letter documenting that the applicant has requested assistance with environmental requirements from the Chief Elected Official (CEO) of the city or county in which the assisted project will be located. If the applicant is considering using a prior environmental review, refer to environmental review requirements under the Environmental Review Procedures item 4. below. *Collaborative applications* must include this documentation for each applicant organization requesting rehabilitation funds.

1. Applications including a request for Rehabilitation funds must include a completed **Preliminary Environmental Review Checklist (Attachment N)** which has been executed by the authorized signatory for the applicant organization or by a local elected official (or designee) of the city or county that has agreed to assist with the environmental requirements.. An organization that is awarded funds for rehabilitation activities must submit a final Environmental Review Checklist.

1. No funds may be obligated or expended for rehabilitation activities until the project has been environmentally cleared. For ESGP funds distributed by the State *to units of general local government*, the unit of general local government must assume the environmental responsibilities, and the State will be responsible for providing a release of funds in accordance with the requirements of 24 CFR Part 58.

   For funds distributed by the State to nonprofit organizations, the State must assume the environmental responsibilities, and HUD will provide the release of funds in this instance.

   In either case, funds may be obligated or expended only after the *Request for Release of Funds* and *Certification of Compliance with Environmental Regulations* at 24 CFR Part 58 have been approved in writing.

1. The Department may accept a previous environmental review if: 1) the environmental review is not more than 5 years old and no structural changes have occured; 2) the certifying entity provides documentation that no environmentally significant changes have occurred since the review was done; and 3) a copy of the environmental review is submitted as part of the ESGP application.

1. *Units of general local government* that request Rehabilitation funds must assume the required environmental review responsibilities.

1. If the structure proposed for Rehabilitation activities was built prior to 1978, the application must address the risk of the presence of lead-based paint according to the guidelines contained in 24 CFR 35 "*Requirements for Notification, Evaluation and Reduction of Lead-Based paint Hazards in Federally Owned Residential Property and Housing Receiving Federal Assistance.*" The HUD website includes helpful information, including a certification for lead-based paint risk assessment (www.hud.gov/lead/ click on "Training" in left hand column). *Collaborative applications* must include this documentation for each facility for which rehabilitation funds are requested.

SELECTION PROCESS & FUNDS DISTRIBUTION

The Department utilizes a statewide competitive NOFA to obligate ESGP funds.

In FFY 2009, ESGP funds will be reserved for each of the 13 Uniform State Service Regions (Appendix I). A portion of the total funds available will be reserved for each of the 13 Uniform State Service Regions based on the poverty population of each region (i.e. 3.95% of the State's available ESGP allocation will be reserved for Region 1 with 3.95% of the state's poverty population). Poverty population is based on the 2000 U.S. Census figures.

A team of reviewers will first pre-screen all applications to ensure they meet all eligibility requirements. Applications will be grouped, reviewed, and evaluated according to region. If an application does not meet all eligibility requirements, it will be deemed ineligible and will not be scored. Since this is a competitive process, the Department **will not** notify organizations of any deficiencies during the pre-screening and review process. It is the Department's expectation that before an application is submitted, each organization in a collaborative as well as single organizations, have thoroughly reviewed the application and its requirements.

Applications which meet all eligibility requirements will be reviewed and scored using a standard review instrument, *based on this instruction packet*. The scores for each application will be averaged to obtain a team score. Point adjustments will be made based on bonus point criteria and/or identified monitoring issues. Applications will then be ranked according to adjusted score within each region. **Applications that receive a score below 70% of the highest score in their region will not be considered for funding.** Applicants who have unresolved monitoring and audit findings from any TDHCA funded program will be ineligible for ESGP funding. The Department also considers the most recent monitoring results for organizations that have previously received ESGP funds and timely submission of reports. The Department's Board must approve all awards.

Applicants not selected to receive ESGP funds may request a review of their application no later than 30 days after the date of the written funding notification from the Department as per Texas Administrative Code, Title 10, Part 1, Chapter 1, Subchapter A, Section 1.7.

The Department will determine the number of applications which can be funded within each region based on the amount of funds available for distribution in each region. ESGP funds reserved for a particular region will be obligated to eligible applicant organizations within that region. If the region does not have enough eligible applications which meet the funding threshold, funds will be redistributed to regions whose funding is below $250,000.

The Department will award **bonus points** in the FFY 2009 application process as follows:

A. Three points for applications received from an ESGP non-entitlement area (See Appendix V),

B. One point for application which requests ESGP funds to provide homelessness prevention assistance; and,

C. Three points for an application from a single applicant organization who has not previously received ESGP funds from the Department. If funded under a collaborative application, all applicants must meet criteria.

D. One point for documentation of attendance by homeless representative at 75% or more of Board meeting or Policy making entity meeting. For a collaborative, all partners would have to meet the requirement.

Factors to be considered in the review of each eligible application include, but are not limited to:

(1) APPLICATION CONTENT (15 POINTS TOTAL) 1 Point will be awarded for the submission of each required item specified in the Application Instructions, pages 12-15 of Application. For applicants requesting to use ESGP funds for Rehabilitation, up to 6 points may be deducted for failure to provide information requested on Application Instructions, page 14-15, item 25. (a) thru (f).

(2) COMPLETION OF TABLES (30 POINTS TOTAL)
  (A) Proposed Budget Table – Attachment F (12 pts)
  (B) Match Table - Attachment G (8 pts)
  (C) Resource Documentation Table - Attachment H (10 pts)

A Resource Documentation Table must be submitted for each county to be served, points will be deducted if not submitted. Other possible point deductions if tables are not completed according to instructions, if the amount requested in categories exceeds allowable percentages as specified in application instructions, and if required match support was not included. Points may also be deducted for not including job descriptions for Essential Service positions to be funded with ESGP. For collaborative applications, points will be deducted if budget, match, and resource tables were not submitted for each applicant and a comprehensive budget for the entire project. A Resource

(3) NARRATIVE (50 TOTAL POINTS)
I. Description of Applicant Organization
A. Organization and Services Provided. Questions on page 17 of Application, I.A. 1. thru 6., maximum of 20 points.
A. Coordination Efforts. Questions on page 17-18, I. B. 1. thru 3., maximum of 10 points.
A. Previous ESGP Funding. Questions on page 18 of Application, I.C. 1.thur 2., maximum of 4 possible point deductions for failure to provide information.

II. Unmet Need. Questions on page 18 of Application, II.A., maximum of 10 points.

III. Proposed Use of ESGP funds. Questions on page 18-19 of Application, III.1. thru 5., maximum of 10 points and possible point deductions of 27 points for failure to provide information requested in questions 3.a. thru e. regarding use of funds by category.

(4) CONCLUSION (5 TOTAL POINTS)
Questions on page 19 of Application, IV. 1. thru 3.

PAST PERFORMANCE REVIEW. The Department will also take into consideration performance related to any funding received from the Department and the results of the Single Audit. The results of this review may deem an applicant ineligible to receive funding. The Department will also review the history of submission of ESGP reports and the expenditure rate of ESGP funds and points will be deducted for late reports and for expenditure rates below 83%. Organizations with expenditure rates below 50% may not be eligible to receive ESGP funds.

APPLICATION CONTENT

All pages of the application, excluding the audit, must be numbered. The original and the two copies must have required signatures when the form requires a signature.

Each application must contain the items listed below **in the following order:**

1. **State of Texas ESGP NOFA Form** – Form must be placed on the top of the application.
1. **Table of Contents** – must include page numbers.
1. **Attachment A (Standard Form 424)** – Complete the blank spaces but do not complete the shaded boxes. On #12., only list the counties where the ESGP funded services will be provided. The counties identified in the Form 424 must match the counties identified in the ESGP NOFA Form and in the application. The person signing this form must be the authorized signatory for the ESGP contract, if awarded. For collaborative applications, only the lead agency must sign and submit a Standard Form 424.
1. **Attachment B** – *Eligibility Documentation Regarding Homeless Representation.* Complete this form to identify the homeless or formerly homeless person that serves on the Board of Directors or on a Policymaking Entity. If the homeless person serves on the Policymaking Entity, then complete a form for both the Board and the Policymaking Entity. This form is required for each organization in a collaborative application.
1. **Attachment C** –*Roster for Board of Directors or Policymaking Entity.* Complete the form and provide the requested information for member of the applicant's board of directors or equivalent policymaking entity. If the homeless person serves on the Policymaking Entity, then complete a form for both the Board and the Policymaking Entity. The homeless or formerly homeless individual must be identified by placing an X in the name column on the form. This form is required for each organization in a collaborative application.
1. **Attachment D-** *Attendance Roster for Board of Directors or Policymaking Entity.* Complete this form using the official attendance records for the board of directors or equivalent policymaking entity. If the homeless person serves on the Policymaking Entity, then complete a form for both the Board and the Policymaking Entity. The homeless or formerly homeless individual must be identified by placing an X in the name column on the form. This form is required for each organization in a collaborative application.
1. **Articles of Incorporation -** Include a copy of the section in the Articles of Incorporation which includes the mission and goals for which the organization was established.
1. **Copy of Bylaws** – For organizations where the homeless representative serves on the policy making entity and not the board, include a copy of the section in the bylaws which authorizes the policymaking entity to make policies and decisions for the organization. For collaborative applications, include this documentation for each organization. Ensure that the pertinent section in the bylaws is highlighted or clearly marked.
1. **Attachment E** - *Local Government Certification Form* – all private nonprofit applicants must document that the project proposed for ESGP funding received local government approval. Applications submitted by units of government do not need to submit Attachment E. For a collaborative application, only the lead agency needs to submit a completed Attachment E. The certification form may be signed by the county judge or mayor, or their official designee (such as city manager, assistant city manager, community development director or human services director) for the locality in which the project is located.
1. Existing Internal Revenue Service (IRS) ruling – All private nonprofit organizations must document their status as a 501(c) tax-exempt entity. The Department prefers that the ruling be on IRS letterhead which is

legible and signed by the IRS District Director. Expired advanced rulings from the IRS are not acceptable. Other documentation which may be utilized to document a 501(c) status may be a letter from the State of Texas Comptroller of Public Accounts or a certified legal document showing status. Local nonprofit affiliate of a State or national nonprofit can be submitted if your organization is a subsidiary of a parent organization. In case of the latter, provide a copy of the page listing your organization in the documents filed with the IRS.

1. **Project Narrative** – The narrative must not exceed 10 pages. Collaborative applications are allowed two additional pages for each additional organization (maximum of 20 pages). The narrative must be formatted using a minimum of 11 font size, double spaced, on standard 8 ½" x 11" paper with 1" margins. Refer to instructions on pages 11-13.

1. **Job Descriptions** – Job descriptions for all positions paid for with Essential Services must be included.

1. **Attachment F** – *Proposed Budget Table.* For each of the ESGP eligible activities categories, enter a description and of each item, the method of calculation, the basis for cost, the line item total and category total. Include staff titles where appropriate. In the Detail of Activities by Category and Method of Calculation Column, briefly describe the item for which ESGP funds are requested and the method of calculation. In the Basis for Cost Column, briefly describe how the cost estimate was established. In the Line Item Totals Column, list the total cost for each item requested. In the Category Totals column, provide the total dollar requested figure for each of the categories in A-E. Collaborative applications must include a comprehensive Budget Table that includes all activities proposed by the collaborative effort, as well as one Budget Table for each organization in the collaborative.

1. **Attachment G** – *Proposed Match Table.* The Match Table must include a brief description of the type of match, the dollar value of the match, the source of match funds (name of grant or donor) and the method of calculation for each match resource proposed. The Match Total must equal or exceed the amount of ESGP funds requested. Collaborative applications must include a comprehensive Match Table that includes all activities proposed by the collaborative effort, as well as one Match Table for each organization in the collaborative.

   Note: If the building was donated in the past 12 months for use as a shelter and the fair market rent or lease value of any building is proposed for use as match, include a letter from a realtor or appraiser documenting the location of the building, square footage, value per square foot, and total lease or rent value based on 12-month occupancy. If salaries are used as match, submit the title, annual salary, percentage of time dedicated to ESGP activities, source of funds, and the dollar amount for employee positions to be used as match.

1. **Attachment H** -*Resource Documentation Table* – A separate table must be completed for each county in which the organization proposes to provide ESGP services. For collaborative applications, one table must be submitted for each county served by the application partners. Include verifiable sources for all data included and data relevant to the population to be served. See Appendix II for a listing of websites that may be useful in gathering this information. Fill in the name of the county and the organization. The Data Required column states the information that is being requested. In the ESGP Data Provided column, provide the requested information. The data should be the most recently available data and should be presented briefly and concisely. The text should be a comprehensive summary of the needs of the homeless and poverty population in the county to be served. In the Data Source column, provide the data sources utilized in the Data Provided column and provide dates that census, assessments, or surveys were conducted.

1. **Photographs** – The original application must include original or digital photographs of at least two different views (one of the exterior and one of the interior) of the facility from which assistance is to be provided. The second copy of the application can have copies of photos. For collaborative applications, each organization must submit photographs of at least two different views (one of the exterior and one of the interior)of the facility from which services are provided.

1. **Attachment I** – *Homeless Management Information System Reporting form.* All applicants must include this form to fulfill the requirement under various statutory authorities and Congressional direction to collect information about the nature and extent of homelessness. This form must be completed by each organization in the collaborative project.

1. **Attachment J** – *Previous ESGP Funding form.* This form must be used to identify ESGP funds received from TDHCA (or TDCA) directly or through a subcontract agreement. This form must be completed, as applicable, by each organization in the collaborative project.

1. **Attachment K** – *ESGP Applicant Certification.* All applicants must include a signed certification form. For collaborative applications, only the lead agency must provide this certification.

1. **Attachment L** – *Certification Regarding Lobbying.* All applicants must include a signed certification form. For collaborative applications, only the lead agency must provide this certification.

1. **Attachment M** – Audit Certification Form. All applicants must submit a completed form. For collaborative applications, all partners, including the lead agency must submit a completed form for the most recently completed fiscal year.

1. **Fiscal Accountability** - All applications must include documentation of fiscal accountability, even if this information has been previously submitted to the Department. All collaborative applications from non-profits and cities or counties must submit financial documentation for each organization in a collaborative (this includes the lead organization). For collaborative applications from units of general local government, the Department expects that fiscal accountability documentation will be reviewed by the city or county prior to submission. Submit one complete unbound copy of your organization's most recent Single Audit report. A duplicate copy of the Single Audit report does not need to be submitted. **If applicable, a management letter must be included with the audit.** If your organization does not have a Single Audit, the following end-of-the-year financial statements must be included: (1) balance sheet; (2) income statement; and (3) a statement of cash flow. Refer to page 4 for information on audit requirements.

1. **Documentation of a Current Fidelity Bond** – All applicants and each partner in the collaborative must include documentation of a current fidelity bond or a letter of commitment to obtain the same prior to execution of an ESGP contract. A fidelity bond covers policyholders for losses that they incur as a result of fraudulent acts by specified individuals. Fidelity bond coverage must include all persons authorized to sign or counter-sign checks or to disburse sizable amounts of cash. Fidelity Bond or letter of commitment must be for a minimum of $10,000.

1. **Rehabilitation Documentation** - ***(only for applicants requesting Rehabilitation funds).***

   All applications that include a request for Rehabilitation funds must include as applicable:

   (a) **Attachment N** – *Preliminary Environmental Review Statutory Checklist.*
   An application that requests ESGP funding for Rehabilitation activities must include the completed Preliminary Environmental Review Checklist (Attachment N) signed by the authorized signatory for the applicant organization and by the Chief Elected Official of the city or county that has agreed to assist with the environmental requirements (See page 9 of this document for more details on Rehabilitation requirements). Collaborative applications must include an Attachment N for each organization requesting Rehabilitation funds. Copy this form as necessary. Units of general local government requesting Rehabilitation funds must assume the required environmental review responsibilities and must submit documentation as required.

   (a) **Property Appraisal.** Any reasonable method for determining property value is acceptable. Examples of no cost or low cost appraisals include a city or county tax appraisal or a broker's price opinion based on sales of comparable properties in the area. **Collaborative applications must include an appraisal of each property proposed for rehabilitation.**

(a) **Flood Plain Map.** Maps must be certified by the Federal Emergency Management Agency (FEMA) or the City/County in which project is located and include the panel number and indicate the location of the project. **Collaborative applications must include a flood plain map for each project proposed for rehabilitation.**

(a) **Letter from the Texas Historical Commission** (THC) regarding the historical significance of the facility. A copy of the letter requesting THC clearance is acceptable to meet the application deadline. If your organization is awarded ESGP funds, you will be required to forward THC response to the Department. When requesting clearance from the Texas Historical Commission, include any written information regarding the structure and pictures of at least two sides of the structure. Address your letter to: Stan Graves, Director of Architecture, Texas Historical Commission, Post Office Box 12276, Austin, Texas 78711, 512-463-6100. **Collaborative applications must include a THC letter for each site proposed for rehabilitation.**

(a) **Photographs.** Photos must be submitted for the specific areas proposed for rehabilitation. Collaborative applications must include photographs of the areas proposed for rehabilitation by each organization requesting rehabilitation funds.

(a) **Private nonprofit organizations requesting rehabilitation funds must:** 1) provide a letter documenting that the organization has requested assistance with environmental review requirements from the Chief Elected Official (CEO) of the city or county in which the assisted project will be located or a letter that documents this assistance. If using a prior environmental review, refer to Environmental Review Procedures.

Collaborative applications must include this documentation for each applicant organization requesting rehabilitation funds.

PROJECT NARRATIVE INSTRUCTIONS

The narrative portion of the application must provide all the information requested when applicable. The narrative must be formatted with one-inch margins and double-spaced on 81/2"X 11" paper. Minimum font size is 11 pitch. The narrative must not exceed 10 pages for applications involving one organization. Collaborative applications will be allowed two additional pages per organization up to a maximum of 20 pages. All projects should be planned for a maximum of 12 months.

Organize the project narrative with clear headings and subheadings and in the same order as the following. If any heading or subheading does not apply to your project, please indicate N/A next to it.

Part I. Description of Applicant Organization

This section should give a clear and concise description of the applicant's organization. Collaborative applications should include descriptions for each organization included in the collaborative.

A. Organization and Services Provided

1. Describe your organization's history and mission. Include information on the current staff size and the educational background and work experience of key management staff.

2. Provide information about the board of directors, such as a list of subcommittees, how often the board and subcommittees meet, how the board has utilized recommendations from the homeless representative to change the organization's policies, practices, or services.

3. Describe:
   a. The type(s) of services currently provided.
   b. The total number of persons to be served annually in the program to be supported with ESGP funds.
   c. The target group(s) served.
   d. The location of office(s) or shelter providing assistance. Location includes the cities and/or counties to be served through the proposed ESGP project.
   e. Shelter capacity (bed space), if applicable.

4. Describe the services provided which have a long-term impact/outcome on the homeless individuals served. Such services could include, but not be limited to, education, employment, substance abuse, family functioning skills, transitional or permanent housing, etc.

5. Describe case management services provided to homeless individuals.

6. If applicable, describe any formal or informal restrictions on services provided and the basis for these restrictions.

B. Coordination Efforts

1. Describe how services are coordinated. Describe what types of services your organization coordinates with other service providers to meet the various needs of the homeless clients or clients who may become homeless.

2. **For collaborative applications only**, provide information on how and which services will be coordinated among the organizations included in the collaborative application.

3. Describe your organization's participation in the local homeless coalition or coordinating council which coordinates social services in your service area and describe your organization's participation in the development of the Continuum of Care application to HUD for the community in which the proposed services will be provided.

C. Previous ESGP Funding (if applicable)

1. Describe how previous ESGP funds improved or increased the services available from your organization. If ESGP funds have not been received previously, state such.

2. Describe new sources of funds acquired during previous years when an ESGP grant was received. Additionally, describe the recent efforts made to develop other funding sources during the past five years and provide information on new funding received from these efforts.

Part II. Unmet Need

This section of the proposal must address the unmet needs of the homeless population in your service area and describe the specific unmet needs and gaps in services that your organization will address if the ESGP proposal is funded.

. Based on the data provided in the Resource Documentation Table, describe the unmet needs or gaps in services for the homeless population in your service area. The needs or gaps in services should represent the array of services that are necessary, but either do not exist or are not adequately being provided by the existing service delivery system.

. Based on the data in the Resource Documentation Table, provide a description of the specific unmet need(s) and gaps in services that your organization will meet and address if the proposed ESGP project is funded. Specify the specific services which will be provided and state whether the service is currently not provided in the community or is not being adequately provided by the existing service delivery system.

Part III. Proposed Use of ESGP funds

A detailed description of the project for which you are requesting funding. Include the following information in the description:

1. Who are the proposed customers to be served with ESGP funds? Include demographic information (sex, race, age, gender, etc.) on the population that will benefit from ESGP funding.

1. How many customers do you plan to assist with ESGP services?

1. Based on the proposed ESGP budget, provide a description of::

    a. **Operation Administration** – describe the operation administration costs which are to be funded with ESGP.

    a. **Essential Services –**

        (0) Provide a description of the Essential Services to be funded with ESGP.

        (0) Provide the name and title of the Essential Services staff whose salary will be paid in whole or in part, with ESGP funds and provide relevant information on their education and experience.

        (0) Applicants requesting Essential Services funds must provide information on whether the applicant organization previously received **local funds** (funds from a city or county) to provide Essential Services activities. If local funds were received by the applicant during the previous 12 calendar months before the receipt of ESGP funds, to provide Essential Services, then the applicant must describe of how the proposed service(s) will be a new service or will be a quantifiable increase in the level or service previously funded with local government funds.

a. **Maintenance, Operation, and Furnishings** – Describe the Maintenance, Operation, and Furnishings to be funded with ESGP funds and describe how the items funded with ESGP funds will benefit your organization's ability to deliver services.

a. **Homelessness Prevention** – Describe the type(s) of prevention activities to be provided with ESGP funds. Also, include a detailed implementation plan which includes:

(1) Staff positions which will be responsible for providing the homelessness prevention activities;

(2) The criteria which will be used to determine eligibility to receive assistance; and,

(3) A description of the method which will be used to determine if the applicant meets the eligibility requirements for homelessness prevention assistance as per ESGP regulations and requirements.

a. **Rehabilitation** – Include a description of the Rehabilitation activities to be funded with ESGP funds. Also include documentation on the construction date and current appraised value of the facility. If the facility was constructed prior to 1978, include a discussion of abatement of lead-based paint and/or asbestos. Non-profit organizations must include documentation that the city or county has been contacted regarding (or has agreed) assistance with required environmental review.

a. Provide the names of any subcontractors (e.g. a child care provider) which will be utilized to deliver ESGP funded services and provide information on the services they will deliver.

1. Describe how your organization plans to measure the effectiveness of the services provided to your clients. In measuring effectiveness, your organization may set outcome measures for some of the services to be delivered on clients to be served. For example, 25 of the 200 persons provided with emergency shelter will be placed in a permanent job. Twelve (12) of the 25 persons placed in a job will earn an income above 100% of federal poverty income guidelines.

1. Describe how your organization will involve homeless families and individuals in rehabilitating, maintaining and operating the shelter or other facilities, and/or providing services.

Part IV. Conclusion

1. What significant and beneficial impact(s) will the proposed project have on the homeless population in your service area? What are the results or benefits to be achieved by carrying out the proposed activities?

1. Describe the current outcome related services provided which will have a long term impact on the individual and/or families served. Such services and assistance can include, but are not limited to, assistance at setting and attaining educational goals, obtaining job skills, obtaining employment, completing a substance abuse rehabilitation program, etc.

1. If your organization is not currently providing outcome related services which have a long term impact on the individual or families life, describe plans to provide outcome related services.

Organizational Unit:

Address (give city, county, state and zip code)

Name, and telephone number of the person to be contacted on matters involving this application (give area code)

6. EMPLOYER IDENTIFICATION NUMBER (EIN):
☐☐ – ☐☐☐☐☐☐☐

7. TYPE OF APPLICANT: *(enter appropriate letter in box)* ☐

A. State	H. Independent School District
B. County	I. State Controlled Institution of Higher Learning
C. Municipal	J. Private University
D. Township	K. Indian Tribe
E. Interstate	L. Individual
F. Intermunicipal	M. Profit Organization
G. Special District	N. Other (Specify): ____________

8. Type of Application

☐ New ☐ Continuation ☐ Revision

If Revision, enter appropriate letter(s) in box(es) ☐ ☐
A. Increase Award B. Decrease Award C. Increase Award
D. Decrease Duration Other *(specify)*

9. Name of Federal Agency:
U.S. Department of Housing and Urban Development

10. Catalog of Federal Domestic Assistance Number: **14•231**
Title: ***Emergency Shelter Grants Program***

11. Descriptive Title of Applicant's Project:
Emergency Shelter Grants Program

12. Areas Affected for ESGP Funded Project (counties,):

13. PROPOSED PROJECT:
Start Date: Ending Date:

14. CONGRESSIONAL DISTRICTS OF:
a. Applicant **b.** Project

15. ESTIMATED FUNDING:

a. Federal	$	.00
b. Applicant	$	xxxxxxxxxxxxx
c. State	$	xxxxxxxxxxxxx
d. Local	$	xxxxxxxxxxxxx
e. Other	$	xxxxxxxxxxxxxx
f. Program Income	$	xxxxxxxxxxxxx
g. TOTAL	$	

16. Is Application Subject To Review By State Executive Order 12372 Process?
a. Yes. This Preapplication/Application was Made Available to the State Executive Order 12372 Process for Review on:
DATE ____________________

No. ☐ Program Is Not Covered by E.O. 12372
☐ Or Program Has not Been Selected by State for Review

17. a. Is the Applicant Delinquent on Any Federal Debt?
☐ Yes If "Yes" attach an explanation ☐ No

b. Did you receive technical assistance from:	Yes	No
A TDHCA Independent Contractor?	☐	☐
A TDHCA Field Office?______________	☐	☐
Other______________________	☐	☐

18. **TO THE BEST OF MY KNOWLEDGE AND BELIEF, ALL DATA IN THIS APPLICATION, PREAPPLICATION ARE TRUE AND CORRECT. THE DOCUMENT HAS BEEN DULY AUTHORIZED BY THE GOVERNING BODY OF THE APPLICANT AND THE APPLICANT WILL COMPLY WITH ALL ASSURANCES AND CERTIFICATIONS IF ASSISTANCE IS AWARDED.**

a. Typed Name of Authorized Representative (same as below)
b. Title
c. Telephone Number

d. Signature of Authorized Representative (Person authorized to execute contract, if awarded)
e. Date Signed

Eligibility Documentation Regarding Homeless Representation

Documentation of the active participation of a homeless or formerly homeless individual on the governing board or other equivalent policymaking entity which makes policies and decisions regarding any facility, service, or other assistance is a requirement for organizations applying for ESGP funds as per 24 CFR Part V, 576.56 (b) (1).

Please complete the following form for your organization. If submitting a collaborative application, **each organization in the collaborative must submit this form.**

Name of Organization: ______________________________

1. Does the organization have representation of a Homeless or Formerly Homeless member on the Board of Directors or other equivalent Policymaking Entity?

   _______Yes, homeless representative serves on the Board of Directors.

   _______ Yes, homeless representative serves on a Policymaking Entity.

   _______ No

2. The name(s) of Homeless or Formerly Homeless Member(s) currently serving the Board of Directors or equivalent Policymaking Entity is:

   (1). ______________________________ (2). ______________________________

3. The name of the Policymaking Entity is:______________________________
   Who appoints members to the Policymaking Entity? ☐ Executive Director ☐ Board ☐ Other

4. a. Does the Policymaking Entity consider and make policies and decisions regarding any facility, service, or other assistance provided by your organization? ________ Yes ________ No

   b. If yes, explain the types of policies and decisions regarding the facility, services, or other assistance which are made by the Policymaking Entity?

   c. Explain if and how the policies and decisions made by the Policymaking Entity are forwarded to the Board of Directors and explain what occurs once these policies and decisions are presented to the Board of Directors.

I certify that this organization has a currently active homeless or formerly homeless individual on its Board of Directors or equivalent policy making entity; that their attendance is documented in this application; and their name is clearly identified on the documentation included in this application.

Authorized Representative:______________________________ Date:______________

FFY 2009
Attachment C

Name of Organization: ______________________________

Note: If the homeless representative serves on a Policymaking Entity, provide a roster of the Policymaking Entity and of the Board of Directors.

Roster for ☐ Board of Directors or

Roster for ☐ Policymaking Entity

For November 2007 - November 2008

FFY 2009 Resource Documentation Table

Name of Organization: ______________________________

County ________________

All applicants, regardless of service delivery area, must complete one table for each **county** to be served. If this is a collaborative application, indicate name of lead partner in the name of organization and complete a table for each county to be served. Needs should be documented through a verifiable resource. A summary of this information should be utilized in responding to Part II. of the Project Narrative.

Data Required	Data Provided	Data Source
1. Approximate number of homeless persons in the county		
2. Previous homeless studies (Cite source and method, i.e. day or longitudinal)		
3. Existing shelters in the county: (Include shelter name, population served, and bed capacity for each shelter listed)		
4. Housing Authority Information (Include number of housing authority units, Section 8 vouchers, persons currently on the waiting list)		
5. Other Housing Data a. Average monthly rent b. Other types of accessible, affordable housing such as boarding houses, long-term hotels and motels c. Any other factors that affect the availability of housing in the county		

FY 2008 Resource Documentation Table

Name of Organization: ______________________________

County ________________

Data Required	Data Provided	Data Source
6. Other agencies which assist persons who are homeless or at-risk of homelessness (List Agency name, population served, type of assistance offered and note if agency is a member of the local Homeless Coalition)		
7. Services needed, but not provided (unmet needs and gaps in service): (Include information on the types of service needed; the nearest location to obtain service; frequency that service is required or needed versus its availability; transportation issues; etc. Also, identify how the data was obtained on the unmet needs and gaps in services and identify the information source used to document the need for the service).		
8. Local poverty statistics a. Percentage of poverty (County) b. Approximate number of persons in poverty (County)		
9. County Unemployment Rate		
10. Other local events and issues which affect the county's ability to respond to the needs of the homeless population. (New employers, new resources available, plant layoffs, natural disasters, decrease in previous services, etc.)

FFY 2009 Emergency Shelter Grants Program

Homeless Management Information System (HMIS) Reporting

Name of Organization: ______________________________

All applicants, including each collaborative partner, must include this form to fulfill the requirement under various statutory authorities to collect information about the nature and extent of homelessness. And must participate in the HMIS Reporting System failure to participate in the HMIS Reporting System, even if your organization is not in a Continuum of Care jurisdiction, could result in disallowed costs and may result in termination of ESGP funding.

Section A:

1. My organization **is:** ☐ _____ or **is not** ☐ in a Continuum of Care jurisdiction.
2. My organization **receives** ☐ or **does not receive** ☐ Continuum of Care funds.
3. My organization is ☐ or is not ☐ currently participating in the Homeless Management Information System (HMIS) Reporting System.

   Our organization will begin reporting to the HMIS System (indicate month/year): _____

If your organization is currently not participating in the HMIS reporting system, explain your plan of action to do so: ______________________________

____

4. My organization will utilize a portion of the FY 2009 ESGP funds to cover costs of participating in the HMIS reporting.

   _____Yes _____No

5. The individual who serves as the HMIS Administrator for the Continuum of Care coalition in my area is:

   ____

   and his/her contact information (address, phone #, and e-mail) is as follows:

   ____

Section B.

I, ______________________________, Title ______________________________, certify to the best of my knowledge and belief, that I have submitted truthful information on behalf of ______________________________ (Name of Organization).

ESGP APPLICANT CERTIFICATION

I, ______________________________, ________________________, authorized to act on behalf
(Name) (Title)

of ____________________________________, certify that:
(eligible entity applying for ESG funds)

1. the applicant organization possesses legal authority to apply for and receive funds and carry out activities authorized by the Emergency Shelter Grants Program;

2. the applicant certifies that this application does not include proposed financial participation by a person who, during the five-year period preceding the date of the application, has been convicted of violating a federal law or assessed a penalty in a federal civil or administrative enforcement action in connection with a contract awarded by the federal government as a result of Hurricane Rita, Hurricane Katrina, or any other disaster occurring after September 24, 2005. Applicant acknowledges that any award by the Texas Department of Housing and Community Affairs pursuant to this application may be terminated and payment withheld if this certification is inaccurate.

3. the applicant organization will provide the matching funds required by 24 CFR 576.51 and 42 U.S.C. 11375, including a description of the sources and amounts of such supplemental funds;

4. if this application is funded, ESGP funds will be obligated within 180 days of the contract start date;

5. if this application is funded, each project receiving ESGP funding will administer, in good faith, a policy designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries;

6. if this application is funded, recipient will develop and implement procedures to ensure the confidentiality of records pertaining to any individual receiving assistance due to family violence;

7. if this application is funded, homeless individuals and families will be involved, to the maximum extent practicable, through employment, volunteer services, or otherwise, in constructing, renovating, maintaining, and operating facilities assisted under ESGP, in providing services assisted under ESGP, and in providing services for occupants of facilities assisted under ESGP;

8. the applicant organization has provided for the participation of homeless individuals on its governing board or other policymaking entity;

9. the applicant organization will ensure compliance with the Drug-Free Workplace Act of 1988;

10. the applicant organization will participate in the development and implementation, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of persons from publicly funded institutions and systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons. I further understand that State and local governments are primarily responsible for the care of these individuals and that ESGP funds are not to be used to assist such persons in place of State and local resources;

ESGP APPLICANT CERTIFICATION

11. the applicant organization will meet HUD's standards for participation in a local Homeless Management Information System (HMIS) and the collection and reporting of client-level information;

12. any renovation carried out with ESGP assistance shall be sufficient to ensure that the building involved is safe and sanitary;

13. the renovation will assist homeless individuals in obtaining: (A) appropriate supportive services, including permanent housing, medical and mental health treatment, counseling, supervision, and other services essential for achieving independent living; and (B) other Federal, state, local, and private assistance available for such individuals; and,

14. all ESGP-funded activities will be carried out in accordance with all applicable laws and regulations of the U.S. Department of Housing and Urban Development and the Texas Department of Housing and Community Affairs.

Authorized Signature & Title

Certification Regarding Lobbying

I, ____, authorized to act on behalf of
(name and title)

___________________________________, certify to the best of my knowledge and belief,
(eligible entity applying for ESG funds)

that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the State, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the State shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The State shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose according to the Government-wide Guidance for New Restrictions on Lobbying (Fed. Reg. December 20, 1989; 52306).

____
(Type or print name and title of certifying person)

__________________________ ____________________
(Signature) (Date)

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than 100,000 for each such failure.

Explosive and Flammable Operations [24 CFR 51C]					
Toxic Chemicals and Radioactive Materials [24 CFR 58.5(i)]					
Airport Clear Zones and Accident Potential Zones [24 CFR 51D]					

DETERMINATION:

( ) This project converts to Exempt, per Section 58.34(a)(12), because it does not require any mitigation for compliance with any listed statutes or authorities, nor requires any formal permit or license (Status "A" has been determined in the status column for all authorities); **Funds may be drawn down** for this (now) EXEMPT project; OR

( ) This project cannot convert to Exempt because one or more statutes/authorities require consultation or mitigation. Complete consultation/mitigation requirements, publish NOI/RROF and obtain Authority to Use Grant Funds (HUD 7015.16) per Section 58.70 and 58.71 before drawing down funds; OR

( ) The unusual circumstances of this project may result in a significant environmental impact. This project requires preparation of an Environmental Assessment (EA). Prepare the EA according to 24 CFR Part 58 Subpart E.

PREPARER SIGNATURE: ______________________ DATE: __________

PREPARER NAME: ______________________

RESPONSIBLE ENTITY AGENCY

OFFICIAL SIGNATURE: ______________________

NAME, TITLE: ______________________

CITY, COUNTY: ______________________

DATE: __________

INSTRUCTIONS for completing the STATUTORY CHECKLIST

For HUD funded projects which are categorically excluded per 24 CFR §58.35(a), the Responsible Entity (**RE**) must make a determination of whether the proposal achieves compliance with each applicable statute, Executive Order or regulation with or without requiring formal consultation procedures, mitigation, permits or having adverse effects on the resources protected by the statute. (These instructions are a brief description of the essential findings needed to establish compliance. These instructions are not intended to replace the applicable regulations. Applicable regulations take precedence over these brief instructions). The Preparer of the Statutory Checklist must **DOCUMENT AND/OR ATTACH THE SOURCES OF THE DETERMINATION.**

Record the finding status on the STATUTORY CHECKLIST for each listed Federal statute, regulation, or authority as follows:
Status "A" applies when compliance with the authority is achieved without adverse effects on the protected resource, without necessary mitigation or attenuation AND when no formal consultation, permit or agreement is required to establish compliance. In these situations, enter "A" in the STATUTORY CHECKLIST status column.
Status "B" applies when project compliance with the authority requires formal consultation, a permit or agreement, OR when the proposal may have an adverse effect on the protected resources. Part B summarizes what additional steps or formal procedures must be completed prior to submitting a Request for Release of Funds (RROF) to HUD or to the State. Evidence of completion and implementation of the required procedures or mitigation must be retained in the project Environmental Review Record (ERR).

Historic Properties (including archeology):
A) The RE and SHPO agree that there are No Historic Properties Affected per 36 CFR 800.4, no adverse effects on historic properties per §800.5(b), or SHPO has not objected within 30 days to such fully documented determinations.
B) The proposal has an adverse effect on historic properties. Consult with SHPO et al., per §800.5 et seq., to resolve or mitigate adverse effects.

Floodplain Management:
A) The project does not involve property acquisition, management, construction or improvements within a 100 year floodplain (Zones A or V) identified by FEMA maps, and does not involve a "critical action" (e.g., emergency facilities, facility for mobility impaired persons, etc.) within a 500 year floodplain (Zone B). If FEMA has not published flood maps, the RE must make a finding based on best available data, e.g. from the City/County Engineer or local Flood Control Agency.
B) Complete the 8-step decision making process according to 24 CFR Part 55.20 to document that there are no practicable alternatives to the proposal and to mitigate effects of the project in a floodplain.

Wetlands Protection:
A) The project does not involve new construction within or adjacent to wetlands, marshes, wet meadows, mud flats or natural ponds per field observation and maps issued by the USDI Fish & Wildlife Service or U.S. Corps of Engineers.
B) Complete the 8-step decision making process in 24 CFR 55.20 to document there are no practicable alternatives and to mitigate effects of the project on wetlands. Such action also requires obtaining a permit from the U.S. Corps of Engineers under Section 404 of the Clean Water Act.

Coastal Zone Management:
A) The project does not involve the placement, erection or removal of materials, nor an increase in the intensity of use in the Coastal Zone (CZ) per certified local coastal plan, State Coastal Commission, etc.
B) Secure concurrence from the CZ Commission or delegated local planning commission with your determination of consistency with the applicable CZ Plan, or obtain coastal zone permit.

Sole Source Aquifers (Safe Drinking Water Act):
A) The project is not located within a U.S. EPA-designated sole source aquifer watershed area per EPA Ground Water Office.
B) Consult with the Water Management Division of EPA to design mitigation measures to avoid contaminating the aquifer and implement appropriate mitigation measures.

Endangered Species:
A) The RE determines that the proposal will have "no effect" **or** "is not likely to adversely affect" any federally protected (listed or proposed) Threatened or Endangered Species (i.e., plants or animals, fish, or invertebrates), nor adversely modify critical habitats. This finding is to be based on contact made with the U.S. Fish and Wildlife Service and/or with State Department of Fish and Game, or by special study completed by a professional biologist or botanist and approved by the above agency. Only a determination of "no effect" does not require being sent to U.S. FWS for concurrence.
B) Consult with the U.S. FWS or with the National Marine Fisheries Service, in accordance with procedural regulations contained in 50 CFR Part 402. Formal consultation with FWS or NMFS is always required for federally funded "major construction" activities and anytime a "likely to adversely affect" determination is made.

Wild and Scenic Rivers:
A) The project is not located within one mile of a listed Wild and Scenic River, **OR** the project will have no effects on the natural, free flowing or scenic qualities of a river in the National Wild and Scenic Rivers system.
B) Consult with the U.S. Department of Interior, National Park Service for impact resolution and mitigation.

Air Quality:

A) The project is located within an "attainment" area, **OR,** if within a "non-attainment" area, conforms with the EPA-approved State Implementation Plan (SIP), per contact with the State Air Quality Management District or Board, **AND** the project requires no individual NESHAP permit or notification;

B) Negotiate suitable mitigation measures with the Air Quality Management District or Board, obtain necessary permits, issue required notices. (For example, 40 CFR §61.145 requires 10-day prior notification to the Air Quality District Administrator whenever either 260 linear ft., 160 sq. ft., or 35 cubic ft., of asbestos containing material is to be disturbed).

Farmland Protection:

A) The project site does not include prime or unique farmland, or other farmland of statewide or local importance as identified by the U.S. Department of Agriculture, Natural Resources Conservation Service NRCS (formerly the Soil Conservation Service, **OR** the project site includes prime or unique farmland, but is located in an area committed to urban uses;

B) Request evaluation of land type from the NRCS using Form AD-1006, and consider the resulting rating in deciding whether to approve the proposal, as well as mitigation measures (including measures to prevent adverse effects on adjacent farmlands).

Noise Abatement and Control:

A) The project does not involve development of noise sensitive uses, **OR** the project is not within 1,000 feet of a major or arterial roadway, 3,000 feet of a railroad, or 15 miles from a major (listed) airport **OR** ambient noise level is documented to be 65 LDN (CNEL) or less, based upon the HUD Noise Assessment Guidelines (NAG) for calculating noise levels and Airport Noise Contour map;

B) Apply the noise standard, per 24 CFR §51.101, to the decision whether to approve the proposal (see §51.104), and implement noise attenuation measures (NAG page 39-40) as applicable.

Explosive or Flammable Operations:

A) The project is located at an Acceptable Separation Distance (ASD) from any above-ground explosive or flammable fuels or chemicals containers according to "Siting of HUD-Assisted Projects Near Hazardous Facilities" (Appendices F & G, pp. 51-52), **OR** the project will expose neither people nor buildings to such hazards;

B) mitigate the blast overpressure or thermal radiation hazard with the construction of a barrier of adequate size and strength to protect the project (per 24 CFR 51.205).

Toxic Chemicals and Radioactive Materials:

A) The subject and adjacent properties are free of hazardous materials, contamination, toxic chemicals, gasses and radioactive substances which could affect the health or safety of occupants or conflict with the intended use of the subject property. Particular attention should be given to nearby dumps, landfills, industrial sites and other operations with hazardous wastes.

B) Mitigate the adverse environmental condition by removing, stabilizing or encapsulating the toxic substances in accordance with the requirements of the appropriate Federal, state or local oversight agency; **OR** reject the proposal.

Airport Clear Zones and Accident Potential Zones:

A) The project is not within an FAA-designated civilian airport Runway Clear Zone (RCZ) -or Runway Protection Zone, or within a military airfield Clear Zone (CZ) or Accident Potential Zone (APZ) -Approach Protection Zone, based upon information from the airport or military airfield administrator identifying the boundaries of such zones, **OR** the project involves only minor rehabilitation, **OR** the project involves only the sale or purchase of an existing property in the RCZ or CZ;

B) It is **HUD** policy not to provide any development assistance, subsidy or insurance in RCZs or CZs unless the project will not be frequently used or occupied by people and the airport operator provides written assurances that there are no plans to purchase the project site.

Environmental Justice:

A) The proposed site is suitable for its proposed use and will NOT be adversely impacted by adverse environmental conditions;

B) Site suitability is a concern; the proposal is adversely affected by environmental conditions impacting low income or minority populations. Avoid such impacts or mitigate them to the extent practicable. Address and mitigate the disproportional human health or environmental effects adversely affecting the low income or minority populations **OR** reject the proposal.

Appendix III

Sample Budget

Detail of Activities by Category & Method of Calculation	Basis for Cost	Line Item Totals	Category Totals
Total Requested Funds: $ 92,000			
A. OPERATION ADMINISTRATION (10% of grant)			**$9,18**
Executive Director (10% of $4,500 x 12 months)	Prior year's expenditures (PYE)	$5,400	
Finance Director (9% of $3,500 x 12 months)		$3,780	
B. REHABILITATION			**$9,85**
Replace air conditioning unit (1 a/c unit @ $7,848)	Bids	$7,848	
Retile kitchen (350 square feet x $5.72)	Bids	$2,002	
C. ESSENTIAL SERVICES (30% of funds requested)			**$27,36**
Salaries (list positions and amounts)		$13,068	
Cook -Portion of Salary : $10,800 ($18,000 yr x 60%)	PYE		
Fringe Benefits (insurance, healthcare, FICA): $2,268 ($3,780 x 60%)	PYE		
Other:			
Childcare: $12,900 (43 children x $300 a month)		$14,299	
Transportation (bus passes, taxi fares): $1399 (1,300 bus fares x .75 = $975; 53 taxi fares @ $8 = $424)	PYE		
D. MAINTENANCE, OPERATION, AND FURNISHINGS			**$35,60**
Maintenance (contractual agreements only)		$3,530	
Copier lease $1,980 ($250 month x 66% x 12)	PYE		
Pest Control $996 ($125 month x 66% x 12)	PYE		
Security System $554 ($70 month x 66% x 12)	PYE		
Operation: (excluding staff but including)		$26,623	
Pre-award Travel Expenses $250 (2 staff x 1 trip @ $125 each)	PYE		
Repairs (non-deferred) $11,172 (See attached bid estimates)	PYE		
Insurance (Liability) $1,845 ($233 month x 66% x 12)	PYE		
Utilities $3,564 ($450 month x 66% x 12)	PYE		
Telephone $1,584 ($200 month x 66% x 12)	PYE		
Other: van registration $ 120 (1 van @ $120)	PYE		
Equipment (list item(s) and amount)			
Refrigerator $ 2,988 (2 refrigerators @ $1,494 each)	PYE		
Food Slicer $ 350 (1 slicer @ $350)	PYE		
Computers $4,750 (5 computers @ $950 each)	PYE		
Furnishings (list items(s) & amount)			
Beds $1,750 (5 beds at $350 each)	Actual Prices as p Catalog	$5,450	
Mattresses $600 (5 mattresses at $120 each)			
Couches $1,900 (2 couches at $950 each)			
Entertainment center $1,200 (1 entertainment Ctr. @ $1,200)			
E. HOMELESSNESS PREVENTION			**$10,00**
Rent deposits (Rent for 10 families at $400 each)	Prior Year's Record (PYR)	$4,000	
Utilities (utilities for 30 families at an average of $200 each)		$6,000	
TOTAL		**$92,000**	**$92,00**

Sample Match

TYPE	DOLLAR VALUE	SOURCE OF MATCH	METHOD OF CALCULATION
Donated Supplies (clothing, furnitur equipment, etc.)	$ 1,500	Clothing donation from Rutherford's Department store	Based on prior year's donation
Cash Donations Or Grants	$ 30,000	VOCA grant $30,000	Total Grant - $36,000 $36,000 / 12 months = $3,000 per month $3,000/mo. x 10 months = $30,000 (10 months only during ESGP contract perio 9/1/04 to 6/30/05)
Value of Donate Building	$ 27,000	Vacant house donated by Savi Mission to be used in the curre contract year as a shelter	1,800 sq. ft. x $ 15.00 per sq. ft. as fa market value (see appraiser's letter)
Fair Rental or Leas Value	$ 16,500	Lease on building @ 214 Main St.	1,100 sq. ft. x $1.25 per sq. ft. = $1,375/mo $1,375/mo. x 12 months = $16,500
Salaries	$ 11,500	Percentage of staff compensation paid with CSBG funds: Community Development Directo $6,000 Chief Financial Officer $5,500	$40,000 x 15% = $6,000 $55,000 x 10% = $5,500
Volunteers (@ $5/hour)	$ 2,600	520 volunteer hours	10 hours a week x 52 weeks = 520 hours 520 hours x $5.00 = $2,600
Other (such as fundraisers)	$ 3,000	5K Run fundraiser	Based on prior year's revenue from Race
MATCH TOTAL	$ 92,100		

Sample Collaborative Budget

Consolidated Budget

Detail of Activities by Category	Basis for Cost	Line Item Totals	Category Totals
Total Requested Funds: $ 158,500

BILLING CODE 6210–01–S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Annual Update of the HHS Poverty Guidelines

AGENCY: Department of Health and Human Services.

ACTION: Notice.

SUMMARY: This notice provides an update of the HHS poverty guidelines to account for last calendar year's increase in prices as measured by the Consumer Price Index.

DATES: *Effective Date:* Date of publication, unless an office administering a program using the guidelines specifies a different effective date for that particular program.

ADDRESSES: Office of the Assistant Secretary for Planning and Evaluation, Room 404E, Humphrey Building, Department of Health and Human Services (HHS), Washington, DC 20201.

FOR FURTHER INFORMATION CONTACT: For information about how the guidelines are used or how income is defined in a particular program, contact the Federal, State, or local office that is responsible for that program. Contact information for two frequently requested programs is given below:

For information about the Hill-Burton Uncompensated Services Program (free or reduced-fee health care services at certain hospitals and other facilities for persons meeting eligibility criteria involving the poverty guidelines), contact the Office of the Director, Division of Facilities Compliance and Recovery, Health Resources and Services Administration, HHS, Room 10–105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857. To speak to a person, call (301) 443–5656. To receive a Hill-Burton information package, call 1–800–638–0742 (for callers outside Maryland) or 1–800–492–0359 (for callers in Maryland). You also may visit *http://www.hrsa.gov/hillburton/default.htm.* The Division of Facilities Compliance and Recovery notes that as set by 42 CFR 124.505(b), the effective date of this update of the poverty guidelines for facilities obligated under the Hill-Burton Uncompensated Services Program is sixty days from the date of this publication.

For information about the percentage multiple of the poverty guidelines to be used on immigration forms such as USCIS Form I–864, Affidavit of Support, contact U.S. Citizenship and Immigration Services at 1–800–375–5283 or visit *http://www.uscis.gov/files/form/I-864p.pdf.*

For information about the number of people in poverty or about the Census Bureau poverty thresholds, visit the Poverty section of the Census Bureau's Web site at *http://www.census.gov/hhes/www/poverty.html* or contact the Census Bureau's Demographic Call Center Staff at (301) 763–2422 or 1–866–758–1060 (toll-free).

For general questions about the poverty guidelines themselves, contact Gordon Fisher, Office of the Assistant Secretary for Planning and Evaluation, Room 404E, Humphrey Building, Department of Health and Human Services, Washington, DC 20201—telephone: (202) 690–7507—or visit *http://www.aspe.hhs.gov/poverty/.*

SUPPLEMENTARY INFORMATION:

Background

Section 673(2) of the Omnibus Budget Reconciliation Act (OBRA) of 1981 (42 U.S.C. 9902(2)) requires the Secretary of the Department of Health and Human Services to update, at least annually, the poverty guidelines, which shall be used as an eligibility criterion for the Community Services Block Grant program. The poverty guidelines also are used as an eligibility criterion by a number of other Federal programs. The poverty guidelines issued here are a simplified version of the poverty thresholds that the Census Bureau uses to prepare its estimates of the number of individuals and families in poverty.

As required by law, this update is accomplished by increasing the latest published Census Bureau poverty thresholds by the relevant percentage change in the Consumer Price Index for All Urban Consumers (CPI–U). The guidelines in this 2008 notice reflect the 2.8 percent price increase between calendar years 2006 and 2007. After this inflation adjustment, the guidelines are rounded and adjusted to standardize the differences between family sizes. The same calculation procedure was used this year as in previous years. (Note that these 2008 guidelines are roughly equal to the poverty thresholds for calendar year 2007 which the Census Bureau expects to publish in final form in August 2008.) The guideline figures shown represent annual income.

2008 POVERTY GUIDELINES FOR THE 48 CONTIGUOUS STATES AND THE DISTRICT OF COLUMBIA

Persons in family	Poverty guideline
1	$10,400
2	14,000
3	17,600
4	21,200
5	24,800
6	28,400
7	32,000
8	35,600

For families with more than 8 persons, add $3,600 for each additional person.

2008 POVERTY GUIDELINES FOR ALASKA

Persons in family	Poverty guideline
1	$13,000
2	17,500
3	22,000
4	26,500
5	31,000
6	35,500
7	40,000
8	44,500

For families with more than 8 persons, add $4,500 for each additional person.

2008 POVERTY GUIDELINES FOR HAWAII

Persons in family	Poverty guideline
1	$11,960
2	16,100
3	20,240
4	24,380
5	28,520
6	32,660
7	36,800
8	40,940

For families with more than 8 persons, add $4,140 for each additional person.

Separate poverty guideline figures for Alaska and Hawaii reflect Office of Economic Opportunity administrative practice beginning in the 1966–1970 period. (Note that the Census Bureau poverty thresholds—the version of the poverty measure used for statistical purposes—have never had separate figures for Alaska and Hawaii.) The poverty guidelines are not defined for Puerto Rico or other outlying jurisdictions. In cases in which a Federal program using the poverty guidelines serves any of those jurisdictions, the Federal office that administers the program is generally responsible for deciding whether to use the contiguous-states-and-DC guidelines for those jurisdictions or to follow some other procedure.

Due to confusing legislative language dating back to 1972, the poverty guidelines have sometimes been mistakenly referred to as the "OMB" (Office of Management and Budget) poverty guidelines or poverty line. In fact, OMB has never issued the guidelines; the guidelines are issued each year by the Department of Health and Human Services. The poverty guidelines may be formally referenced as "the poverty guidelines updated periodically in the Federal Register by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. 9902(2)."

Some programs use a percentage multiple of the guidelines (for example, 125 percent or 185 percent of the guidelines), as noted in relevant authorizing legislation or program regulations. Non-Federal organizations that use the poverty guidelines under their own authority in non-federally-funded activities can choose to use a percentage multiple of the guidelines such as 125 percent or 185 percent.

The poverty guidelines do not make a distinction between farm and non-farm families, or between aged and non-aged units. (Only the Census Bureau poverty thresholds have separate figures for aged and non-aged one-person and two-person units.)

Note that this notice does not provide definitions of such terms as "income" or "family." This is because there is considerable variation in how different programs that use the guidelines define these terms, traceable to the different laws and regulations that govern the various programs.

Therefore, questions about how a particular program applies the poverty guidelines (for example, Is income before or after taxes? Should a particular type of income be counted? Should a particular person be counted in the family or household unit?) should be directed to the organization that administers the program.

Dated: January 17, 2008.

Michael O. Leavitt,

Secretary of Health and Human Services.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institute for Occupational Safety and Health; Decision To Evaluate a Petition To Designate a Class of Employees at Spencer Chemical Co., Jayhawks Works, Pittsburg, KS, To Be Included in the Special Exposure Cohort

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) gives notice as required by 42 CFR 83.12(e) of a decision to evaluate a petition to designate a class of employees at Spencer Chemical Co., Jayhawks Works, Pittsburg, Kansas, to be included in the Special Exposure Cohort under the Energy Employees Occupational Illness Compensation Program Act of 2000. The initial proposed definition for the class being evaluated, subject to revision as warranted by the evaluation, is as follows:

Facility: Spencer Chemical Co., Jayhawks Works.

Location: Pittsburg, Kansas.

Job Titles and/or Job Duties: All employees.

Period of Employment: January 1, 1958 through December 31, 1963.

FOR FURTHER INFORMATION CONTACT: Larry Elliott, Director, Office of Compensation Analysis and Support, National Institute for Occupational Safety and Health (NIOSH), 4676 Columbia Parkway, MS C–46, Cincinnati, OH 45226, Telephone 513–533–6800 (this is not a toll-free number). Information requests can also be submitted by e-mail to *OCAS@CDC.GOV.*

Dated: January 15, 2008.

Texas Department of Housing and Community Affairs
HB 1196 (80th Legislature) Agreement

The Texas Department of Housing and Community Affairs, an agency of the State of Texas ("Department"), and ____ an ESGP ("Applicant") are the parties to this agreement ("Parties").

Whereas Applicant desires to be awarded a contract with the Department to provide Emergency Shelter Grants Program (ESGP) program services for the 2009 Program Year (ESGP contract year September 1, 2009 thru August 31, 2010), and

Whereas HB 1196 (80th Regular Session) requires the Parties to enter into agreement for the repayment of any public subsidy under certain conditions.

Now therefore, the Parties agree as follows:

1. Applicant agrees that if Applicant, or a branch, division, or department of Applicant is convicted of a violation under Title 8 U.S.C. Section 1324a(a), Applicant shall repay the amount of public subsidy with interest, at the rate of 5% per annum, not later than the 120th day after the date the Department notifies Applicant of the violation.
2. Applicant is entering into this agreement prior to receiving any 2009 Program Year funding from the Department.
3. Applicant acknowledges that entering this agreement does not constitute an award by the Governing Body of the Department ("Board") of any funding, nor a guarantee that Applicant will be granted any funds by the Board with respect to the 2009 Program Year.
4. The person signing this agreement on behalf of Applicant hereby certifies that he/she has been duly authorized by Applicant to bind the Applicant to the terms herein.

Title 24: Housing and Urban Development

PART 576—EMERGENCY SHELTER GRANTS PROGRAM: STEWART B. McKINNEY HOMELESS ASSISTANCE ACT

Section Contents

Subpart A—General

Subpart B—Eligible Activities

Subpart C—Award and Use of Grant Amounts

Subpart D—Reallocations

Subpart E—Program Requirements

Subpart F—Grant Administration

Authority: 42 U.S.C. 3535(d) and 11376.

Source: 54 FR 46799, Nov. 7, 1989, unless otherwise noted.

Subpart A—General

§ 576.1 Applicability and purpose.

This part implements the Emergency Shelter Grants program contained in subtitle B of title IV of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11371–11378). The program authorizes the Secretary to make grants to States, units of general local government, territories, and Indian tribes (and to private nonprofit organizations providing assistance to homeless individuals in the case of grants made with reallocated amounts) for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating expenses and essential services in connection with emergency shelters for the homeless, and for homeless prevention activities. The program is designed to be the first step in a continuum of assistance to enable homeless individuals and families to move toward independent living as well as to prevent homelessness.

[61 FR 51548, Oct. 2, 1996]

§ 576.3 Definitions.

The terms *Grantee* and *HUD* are defined in 24 CFR part 5.

Administrative costs means as the term is defined in §583.135(b) of this part, except that the exclusion relates to the costs of carrying out eligible activities under §576.21(a).

Consolidated plan means the plan prepared in accordance with part 91 of this title. An approved consolidated plan means a consolidated plan that has been approved by HUD in accordance with part 91 of this title.

Conversion means a change in the use of a building to an emergency shelter for the homeless under this part, where the cost of conversion and any rehabilitation costs exceed 75 percent of the value of the building after conversion.

Emergency shelter means any facility, the primary purpose of which is to provide temporary or transitional shelter for the homeless in general or for specific populations of the homeless.

Essential services includes services concerned with employment, health, drug abuse, and education and may include (but are not limited to):

(1) Assistance in obtaining permanent housing.

(2) Medical and psychological counseling and supervision.

(3) Employment counseling.

(4) Nutritional counseling.

(5) Substance abuse treatment and counseling.

(6) Assistance in obtaining other Federal, State, and local assistance including mental health benefits; employment counseling; medical assistance; Veteran's benefits; and income support assistance such as Supplemental Security Income benefits, Aid to Families with Dependent Children, General Assistance, and Food Stamps;

(7) Other services such as child care, transportation, job placement and job training; and

(8) Staff salaries necessary to provide the above services.

Formula city or county means a metropolitan city or urban county that is eligible to receive an allocation of grant amounts under §576.5.

Homeless means as the term is defined in 42 U.S.C. 11302.

Homeless prevention means activities or programs designed to prevent the incidence of homelessness, including (but not limited to):

(1) Short-term subsidies to defray rent and utility arrearages for families that have received eviction or utility termination notices;

(2) Security deposits or first month's rent to permit a homeless family to move into its own apartment;

(3) Mediation programs for landlord-tenant disputes;

(4) Legal services programs for the representation of indigent tenants in eviction proceedings;

(5) Payments to prevent foreclosure on a home; and

(6) Other innovative programs and activities designed to prevent the incidence of homelessness.

Indian tribe means as the term is defined in 42 U.S.C. 5302(a).

Major rehabilitation means rehabilitation that involves costs in excess of 75 percent of the value of the building before rehabilitation.

Metropolitan city means a city that was classified as a metropolitan city under 42 U.S.C. 5302(a) for the fiscal year immediately preceding the fiscal year for which emergency shelter grant amounts are made available.

Nonprofit recipient means any private nonprofit organization providing assistance to the homeless, to which a State or unit of general local government distributes emergency shelter grant amounts.

Obligated means that the grantee or State recipient, as appropriate, has placed orders, awarded contracts, received services, or entered similar transactions that require payment from the grant amount. Grant amounts that a unit of general local government or State awards to a private nonprofit organization by a written agreement or letter of award requiring payment from the grant amount are obligated.

Private nonprofit organization means as the term is defined in 42 U.S.C. 11371.

Rehabilitation means the labor, materials, tools, and other costs of improving buildings, other than minor or routine repairs. The term includes where the use of a building is changed to an emergency shelter and the cost of this change and any rehabilitation costs does not exceed 75 percent of the value of the building before the change in use.

Renovation means rehabilitation that involves costs of 75 percent or less of the value of the building before rehabilitation.

Responsible entity means as the term is defined in §58.2 of this title, as applied though §58.1(b)(3) of this title and §576.57(e).

State means each of the several States and the Commonwealth of Puerto Rico.

Territory means each of the following: the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, Palau (Trust Territory of the Pacific), and any other territory or possession of the United States.

State recipient means any unit of general local government or nonprofit organization to which a State makes available emergency shelter grant amounts.

Unit of general local government means any city, county, town, township, parish, village, or other general purpose political subdivision of a State.

Urban county means a county that was classified as an urban county under 42 U.S.C. 5302(a) for the fiscal year immediately preceding the fiscal year for which emergency shelter grant amounts are made available.

Value of the building means the monetary value assigned to a building by an independent real estate appraiser, or as otherwise reasonably established by the grantee or the State recipient.

[54 FR 46799, Nov. 7, 1989, as amended at 56 FR 56128, Oct. 31, 1991; 60 FR 1918, Jan. 5, 1995; 61 FR 5210, Feb. 9, 1996; 61 FR 51548, Oct. 2, 1996]

§ 576.5 Allocation of grant amounts.

(a) *Territories.* HUD will set aside for allocation to the territories an amount equal to 0.2 percent of the total amount of each appropriation under this part in any fiscal year. HUD will allocate this set-aside amount to each territory based upon its proportionate share of the total population of all territories.

(b) *States, metropolitan cities, urban counties, and Indian tribes.* HUD will allocate the amounts that remain after the set-aside to territories under paragraph (a) of this section, to States, metropolitan cities, urban counties, and Indian tribes, as provided in 42 U.S.C. 11373. HUD will subsequently distribute the amount set aside for Indian tribes under this paragraph as provided in §576.31.

(c) *Notification of allocation amount.* HUD will notify in writing each State, metropolitan city, urban county, and territory that is eligible to receive an allocation under this section of the amount of its allocation.

[61 FR 51549, Oct. 2, 1996]

Subpart B—Eligible Activities

§ 576.21 Eligible activities.

(a) *Eligible activities.* Emergency shelter grant amounts may be used for one or more of the following activities relating to emergency shelter for the homeless:

(1) Renovation, major rehabilitation, or conversion of buildings for use as emergency shelters for the homeless;

(2) Provision of essential services to the homeless, subject to the limitations in paragraph (b) of this section;

(3) Payment for shelter maintenance, operation, rent, repairs, security, fuel, equipment, insurance, utilities, food, and furnishings. Not more than 10 percent of the grant amount may be used for costs of staff;

(4) Developing and implementing homeless prevention activities, subject to the limitations in 42 U.S.C. 11374(a)(4) and paragraph (c) of this section. Grant funds may be used under this paragraph to assist families that have received eviction notices or notices of termination of utility services only if the conditions stated in 42 U.S.C. 11374(a)(4) are met; and

(5) Administrative costs, in accordance with 42 U.S.C. 11378.

(b) *Limitations on provision of essential services.* (1) Grant amounts provided by HUD to units of general local government, territories, or Indian tribes, and grant amounts provided by a State to State recipients, may be used to provide an essential service under paragraph (a)(2) of this section only if the service is a new service, or is a quantifiable increase in the level of a service above that which the unit of general local government (or, in the case of a nonprofit organization, the unit of general local government in which the proposed activities are to be located), territory, or Indian tribe, as applicable, provided with local funds during the 12 calendar months immediately before the grantee or State recipient received initial grant amounts.

(2) Limits on the use of assistance for essential services established in 42 U.S.C. 11374(a)(2) are applicable even when the unit of local government, territory, or Indian tribe provides some or all of its grant funds to a nonprofit recipient. This limitation may be waived in accordance with 42 U.S.C. 11374.

(c) *Limitation on homeless prevention activities.* Limits on the use of assistance for homeless prevention activities established in 42 U.S.C. 11374(a)(4) are applicable even when the unit of local government, territory, or Indian tribe provides some or all of its grant funds to a nonprofit recipient.

[61 FR 51549, Oct. 2, 1996]

§ 576.23 Faith-based activities.

(a) Organizations that are religious or faith-based are eligible, on the same basis as any other organization, to participate in the Emergency Shelter Grants program. Neither the Federal government nor a State or local government receiving funds under Emergency Shelter Grants programs shall discriminate against an organization on the basis of the organization's religious character or affiliation.

(b) Organizations that are directly funded under the Emergency Shelter Grants program may not engage in inherently religious activities, such as worship, religious instruction, or proselytization as part of the programs or services funded under this part. If an organization conducts such activities, the activities must be offered separately, in time or location, from the programs or services funded under this part, and participation must be voluntary for the beneficiaries of the HUD-funded programs or services.

(c) A religious organization that participates in the Emergency Shelter Grants program will retain its independence from Federal, State, and local governments, and may continue to carry out its mission, including the definition, practice, and expression of its religious beliefs, provided that it does not use direct Emergency Shelter Grants funds to support any inherently religious activities, such as worship, religious instruction, or proselytization. Among other things, faith-based organizations may use space in their facilities to provide Emergency Shelter Grants-funded services, without removing religious art, icons, scriptures, or other religious symbols. In addition, an Emergency Shelter Grants-funded religious organization retains its authority over its internal governance, and it may retain religious terms in its organization's name, select its board members on a religious basis, and include religious references in its organization's mission statements and other governing documents.

(d) An organization that participates in the Emergency Shelter Grants program shall not, in providing program assistance, discriminate against a program beneficiary or prospective program beneficiary on the basis of religion or religious belief.

(e) Emergency shelter grants may not be used for the rehabilitation of structures to the extent that those structures are used for inherently religious activities. Emergency shelter grants may be used for the rehabilitation of structures only to the extent that those structures are used for conducting eligible activities under this part. Where a structure is used for both eligible and inherently religious activities, emergency shelter grants may not exceed the cost of those portions of the rehabilitation that are attributable to eligible activities in accordance with the cost accounting requirements applicable to emergency shelter grants in this part. Sanctuaries, chapels, or other rooms that an Emergency Shelter Grants-funded religious congregation uses as its principal place of worship, however, are ineligible for Emergency Shelter Grants-funded improvements. Disposition of real property after the term of the grant, or any change in use of the property during the term of the grant, is subject to government-wide regulations governing real property disposition (*see* 24 CFR parts 84 and 85).

(f) If a State or local government voluntarily contributes its own funds to supplement federally funded activities, the State or local government has the option to segregate the Federal funds or commingle them. However, if the funds are commingled, this section applies to all of the commingled funds.

[68 FR 56406, Sept. 30, 2003]

§ 576.25 Who may carry out eligible activities.

(a) *Generally.* As provided in 42 U.S.C. 11373 eligible activities may be carried out by all State recipients and grantees, except States.

(b) *States.* All of a State's formula allocation, except for administrative costs, must be made available to the following entities:

(1) Units of general local government in the State, which may include formula cities and counties even if such cities and counties receive grant amounts directly from HUD; or

(2) Private nonprofit organizations, in accordance with 42 U.S.C. 11373(c).

(c) *Nonprofit recipients.* Units of general local government, territories, and Indian tribes may distribute all or part of their grant amounts to nonprofit recipients to be used for emergency shelter grant activities.

[61 FR 51549, 51550, Oct. 2, 1996]

Subpart C—Award and Use of Grant Amounts

Source: 54 FR 46799, Nov. 7, 1989, unless otherwise noted. Redesignated at 61 FR 51550, Oct. 2, 1996.

§ 576.31 Application requirements.

(a) *Indian tribes.* After funds are set aside for allocation to Indian tribes under §576.5, HUD will publish a Notice of Funding Availability (NOFA) in the Federal Register. The NOFA will specify the requirements and procedures applicable to the allocation and competitive awarding of these set-aside funds to eligible Indian tribe applicants.

(b) *States, territories, and formula cities and counties.* To receive emergency shelter grant amounts, a State, territory, or formula city or county must:

(1) Submit documentation required under this part, part 5 of this title, or any other applicable provisions of Federal law; and

(2) Submit and obtain HUD approval of a consolidated plan that includes activities to be funded under this part. This consolidated plan serves as the jurisdiction's application for funding under this part.

[61 FR 51550, Oct. 2, 1996]

§ 576.33 Review and approval of applications.

(a) *Conditional grant.* HUD may make a conditional grant restricting the obligation and use of emergency shelter grant amounts. Conditional grants may be made where there is substantial evidence that there has been, or there will be, a failure to meet the requirements of this part. In such a case, the reason for the conditional grant, the action necessary to remove the condition, and the deadline for taking those actions will be specified. Failure to satisfy the condition may result in imposition of a sanction under §576.69, or in any other action authorized under applicable Federal law.

(b) *Grant agreement.* The grant will be made by means of a grant agreement executed by HUD and the grantee. HUD will not disburse funds before the grant agreement is fully executed.

[54 FR 46799, Nov. 7, 1989, as amended at 60 FR 1918, Jan. 5, 1995. Redesignated and amended at 61 FR 51550, Oct. 2, 1996]

§ 576.35 Deadlines for using grant amounts.

(a)(1) *States.* Each State must make available to its State recipients all emergency shelter grant amounts that it was allocated under §576.5 within 65 days of the date of the grant award by HUD. Funds set aside by a State for homeless prevention activities under §576.21(a)(4) must be made available to State recipients within 180 days of the grant award by HUD.

(2) *State recipients*—(i) *Obligation of grant funds.* Each State recipient must have its grant amounts obligated (as that term is defined at §576.3) within 180 days of the date on which the State made the grant amounts available to the State recipient. In the case of grants for homeless prevention activities under §576.21(a)(4), State recipients are required to obligate grant amounts within 30 days of the date on which the State made the grant amounts available to the State recipient.

(ii) *Expenditure of grant funds.* Each State recipient must spend all of its grant amounts within 24 months of the date on which the State made the grant amounts available to the State recipient. In the case of grants for homeless prevention activities, State recipients must spend such sums within 180 days of the date on which the State made the grant amounts available to the recipient.

(b) *Formula cities and counties, territories and Indian tribes—Expenditure of grant funds.* Each formula city or county, territory, and Indian tribe must spend all of the grant amounts it was allocated or awarded under §576.5 or 576.31 within 24 months of the date of the grant award by HUD.

(c) *Failure to meet deadlines.* (1) Any emergency shelter grant amounts that are not made available or obligated within the applicable time periods specified in paragraph (a)(1) or (b) of this section will be reallocated under §576.45.

(2) The State must recapture any grant amounts that a State recipient does not obligate and spend within the time periods specified in paragraph (a)(2) of this section. The State, at its option, must make these amounts and other amounts returned to the State (except amounts referred to in §576.22(b)(6) available as soon as practicable to other units of general local government for use within the time period specified in paragraph (a)(2) of this section or to HUD for reallocation under §576.45.

[54 FR 46799, Nov. 7, 1989. Redesignated and amended at 61 FR 51550, Oct. 2, 1996]

Subpart D—Reallocations

Source: 54 FR 46799, Nov. 7, 1989, unless otherwise noted. Redesignated at 61 FR 51550, Oct. 2, 1996.

§ 576.41 Reallocation; lack of approved consolidated plan—formula cities and counties.

(a) *Applicability.* This section applies where a formula city or county fails to submit or obtain HUD approval of its consolidated plan within 90 days of the date upon which amounts under this part first become available for allocation in any fiscal year.

(b) *Grantee.* HUD will make available to the State in which the city or county is located the amounts that a city or county referred to in paragraph (a) of this section would have received.

(c) *Notification of availability.* The responsible HUD field office will promptly notify the State of the availability of any reallocation amounts under this section.

(d) *Eligibility for reallocation amounts.* In order to receive reallocation amounts under this section, the State must:

(1) Execute a grant agreement with HUD for the fiscal year for which the amounts to be reallocated were initially made available.

(2) If necessary, submit an amendment to its application for that fiscal year for the reallocation amounts it wishes to receive. The amendment must be submitted to the responsible HUD field office no later than 30 days after notification is given to the State under paragraph (c) of this section.

(e) *Amendment review and approval.* (1) Section 576.33 governs the review and approval of application amendments under this section. HUD will endeavor to make grant awards within 30 days of the application amendment deadline, or as soon thereafter as practicable.

(2) Program activities represented by proposed amendments are subject to environmental review under §576.57 in the same manner as original proposals.

(f) *Deadlines for using reallocated grant amounts.* Section 576.35 governs the use of amounts reallocated under this section.

(g) *Amounts that cannot be reallocated.* Any grant amounts that cannot be reallocated to a State under this section will be reallocated as provided by §576.43. Amounts that are reallocated under this section, but that are returned or unused, will be reallocated under §576.45.

[54 FR 46799, Nov. 7, 1989, as amended at 56 FR 56128, Oct. 31, 1991; 60 FR 1918, Jan. 5, 1995. Redesignated and amended at 61 FR 51551, Oct. 2, 1996]

§ 576.43 Reallocation of grant amounts; lack of approved consolidated plan—States, territories, and Indian tribes.

(a) *Applicability.* This section applies when:

(1) A State, territory, or Indian tribe fails to obtain approval of its consolidated plan within 90 days of the date upon which amounts under this part first become available for allocation in any fiscal year; or

(2) Grant amounts cannot be reallocated to a State under §576.41.

(b) *Grantees.* (1) HUD will reallocate the amounts that a State or Indian tribe referred to in paragraph (a)(1) of this section would have received:

(i) In accordance with 42 U.S.C. 11373(d)(3); and

(ii) If grant amounts remain, then to territories that demonstrate extraordinary need or large numbers of homeless individuals.

(2) HUD will make available the amounts that a territory under paragraph (a)(1) of this section would have received to other territories that demonstrate extraordinary need or large numbers of homeless individuals.

(c) *Notification of funding availability.* HUD will make reallocations to States and Indian tribes under this section by direct notification or Federal Register notice that will set forth the terms and conditions under which amounts under this section are to be reallocated and grant awards made. In the case of reallocations to Territories, the responsible HUD field office will promptly notify each Territory of any reallocation amounts under this section, and indicate the terms and conditions under which reallocation amounts are to be made available and grant awards made.

(d) *Eligibility for reallocation amounts.* In order to receive reallocation amounts under this section, the formula city or county, State, territory, or Indian tribe must:

(1) Submit an amendment, in accordance with 24 CFR part 91, to its consolidated plan for that program year to cover activities for the reallocation amount it wishes to receive; and

(2) Execute a grant agreement with HUD for the fiscal year for which the amounts to be reallocated were initially made available.

(e) *Review and approval.* (1) Section 576.53, and such additional requirements as HUD may specify in the notification under paragraph (c) of this section, govern the review and approval of application amendments under this section. HUD will rank the amendments and make grant awards under this section on the basis of the following factors:

(i) The nature and extent of the unmet homeless need within the jurisdiction in which the grant amounts will be used;

(ii) The extent to which the proposed activities address this need; and

(iii) The ability of the grantee to carry out the proposed activities promptly.

(2) HUD will endeavor to make grant awards within 30 days of the application amendment deadline, or as soon thereafter as practicable.

(f) *Grant amounts.* HUD may make a grant award for less than the amount applied for or for fewer than all of the activities identified in the application amendment.

(g) *Deadlines for using reallocated amounts.* Section 576.35 governs the use of amounts reallocated under this section.

(h) *Amounts not reallocated.* Any grant amounts that are not reallocated under this section, or that are reallocated, but are unused, will be reallocated under §576.45(d). Any amounts that are reallocated, but are returned, will be reallocated under §576.45(c).

[54 FR 46799, Nov. 7, 1989, as amended at 56 FR 56129, Oct. 31, 1991; 60 FR 1918, Jan. 5, 1995. Redesignated and amended at 61 FR 51551, Oct. 2, 1996]

§ 576.45 Reallocation of grant amounts; returned or unused amounts.

(a) *General.* From time to time, HUD will reallocate emergency shelter grant amounts that are returned or unused, as those terms are defined in paragraph (f) of this section. HUD will make reallocations under this section by direct notification or Federal Register Notice that will set forth the terms and conditions under which the grant amounts are to be reallocated and grant awards are to be made.

(b) *FEMA boards.* HUD may use State and local boards established under the Emergency Food and Shelter Program administered by the Federal Emergency Management Agency, as a resource to identify potential applicants for reallocated grant amounts.

(c) *Reallocation—returned grant amounts*—(1) *States and formula cities and counties.* HUD will endeavor to reallocate returned emergency shelter grant amounts that were initially allocated under §576.5 to a State or a formula city or county, for use within the same jurisdiction. Reallocation of these grant amounts is subject to the following requirements:

(i) Returned grant amounts that were allocated to a State will be made available (A) first, to units of general local government within the State and (B) if grant amounts remain, then to other States.

(ii) Returned grant amounts that were allocated to a formula city or county will be made available:

(A) First, for use in the city or county, to units of general local government that are authorized under applicable law to carry out activities serving the homeless in the jurisdiction;

(B) If grant amounts remain, then to the State in which the city or county is located;

(C) If grant amounts remain, to units of general local government in the State; and

(D) If grant amounts remain, to other States.

(2) *Indian tribes.* Returned grant amounts that were allocated to an Indian tribe will be made available to other Indian tribes.

(3) *Territories.* Returned grant amounts that were allocated to a territory will be made available, first, to other territories and, if grant amounts remain, then to States.

(4) *Further reallocation: States, formula cities and counties, territories, and Indian tribes.* HUD will reallocate under paragraph (e) of this section any grant amounts that remain after applying the preceding provisions of paragraph (c) of this section or that are returned to HUD after reallocation under those provisions.

(5) The responsible HUD field office will announce the availability of returned grant amounts. The announcement will establish deadlines for submitting applications, and will set out other terms and conditions relating to grant awards, consistent with this part. The announcement will specify the application documents to be submitted.

(6) The responsible HUD field office may establish maximum grant amounts, considering the grant amounts available, and will rank the applications using the criteria in paragraph (e) of this section.

(7) HUD may make a grant award for less than the amount applied for or for fewer than all of the activities identified in the application, based on competing demands for grant amounts and the extent to which the respective activities address the needs of the homeless.

(8) HUD will endeavor to make grant awards within 30 days of the application deadline or as soon thereafter as practicable.

(9) Grants awarded under this section are subject to environmental review under §576.57.

(d) *Reallocation—unused grant amounts.* Unused grant amounts will be added to the appropriation for the fiscal year immediately following the fiscal year in which the amounts become available to HUD for reallocation, and will be allocated in accordance with the provisions of §576.5 of this part.

(e) *Selection criteria.* HUD will award grants under paragraph (c) of this section based on consideration of the following criteria:

(1) The nature and extent of the unmet homeless need within the jurisdiction in which the grant amounts will be used;

(2) The extent to which the proposed activities address this need; and

(3) The ability of the grantee to carry out the proposed activities promptly.

(f) *Definitions—returned or unused grant amounts.* (1) For purposes of this section, emergency shelter grant amounts are considered "returned" when they become available for reallocation because a jurisdiction does not execute a grant agreement with HUD for them.

(2) For purposes of this section, emergency shelter grant amounts are considered "unused" (i.e., Federal deobligation):

(i) When they become available for reallocation by HUD after a grantee has executed a grant agreement with HUD for those amounts; or

(ii) The amounts remain after reallocation under §576.43 or paragraph (c) of this section.

[54 FR 46799, Nov. 7, 1989, as amended at 57 FR 54507, Nov. 19, 1992; 60 FR 1918, Jan. 5, 1995. Redesignated and amended at 61 FR 51551, Oct. 2, 1996]

Subpart E—Program Requirements

Source: 54 FR 46799, Nov. 7, 1989, unless otherwise noted. Redesignated at 61 FR 51550, Oct. 2, 1996.

§ 576.51 Matching funds.

(a) *General.* Each grantee, other than a territory, must match the funding provided by HUD under this part as set forth in 42 U.S.C. 11375. The first $100,000 of any assistance provided to a recipient that is a State is not required to be matched, but the benefit of the unmatched amount must be shared as provided in 42 U.S.C. 11375(c)(4). Matching funds must be provided after the date of the grant award to the grantee. Funds used to match a previous ESG grant may not be used to match a subsequent grant award under this part. A grantee may comply with this requirement by providing the matching funds itself, or through matching funds or voluntary efforts provided by any State recipient or nonprofit recipient (as appropriate).

(b) *Calculating the matching amount.* In calculating the amount of matching funds, in accordance with 42 U.S.C. 11375(a)(3), the time contributed by volunteers shall be determined at the rate of $5 per hour. For purposes of this paragraph, the grantee will determine the value of any donated material or building, or of any lease, using a method reasonably calculated to establish a fair market value.

[61 FR 51552, Oct. 2, 1996]

§ 576.53 Use as an emergency shelter.

(a)(1) *Restrictions and definition.* Period of use restrictions applicable to assistance provided under this part are governed by 42 U.S.C. 11375(a). Use of grant amounts for developing and implementing homeless prevention activities does not trigger period of use requirements.

(2) For purposes of the requirements under this section, the term *same general population* means either the same types of homeless persons originally served with ESG assistance (i.e., battered spouses, runaway children, families, or mentally ill individuals), or persons in the same geographic area.

(b) *Calculating the applicable period.* The 3- and 10-year periods applicable under paragraph (a) of this section begin to run:

(1) In the case of a building that was not operated as an emergency shelter for the homeless before receipt of grant amounts under this part, on the date of initial occupancy as an emergency shelter for the homeless.

(2) In the case of a building that was operated as an emergency shelter before receipt of grant amounts under this part, on the date that grant amounts are first obligated for the shelter.

[54 FR 46799, Nov. 7, 1989. Redesignated and amended at 61 FR 51552, Oct. 2, 1996]

§ 576.55 Building standards.

(a) Any building for which emergency shelter grant amounts are used for conversion, major rehabilitation, rehabilitation, or renovation must meet local government safety and sanitation standards.

(b) For projects of 15 or more units, when rehabilitation costs are:

(1) 75 percent or more of the replacement cost of the building, that project must meet the requirements of §8.23(a) of this title; or

(2) Less than 75 percent of the replacement cost of the building, that project must meet the requirements of §8.23(b) of this title.

[61 FR 51552, Oct. 2, 1996]

§ 576.56 Homeless assistance and participation.

(a) *Assistance.* (1) Grantees and recipients must assure that homeless individuals and families are given assistance in obtaining:

(i) Appropriate supportive services, including permanent housing, medical health treatment, mental health treatment, counseling, supervision, and other services essential for achieving independent living; and

(ii) Other Federal, State, local, and private assistance available for such individuals.

(2) Requirements to ensure confidentiality of records pertaining to the provision of family violence prevention or treatment services with assistance under this part are set forth in 42 U.S.C. 11375(c)(5).

(3) Grantees and recipients may, in accordance with 42 U.S.C. 11375(e), terminate assistance provided under this part to an individual or family who violates program requirements.

(b) *Participation.* (1) Each unit of local government, Indian tribe, and nonprofit recipient that receives funds under this part must provide for the participation of homeless individuals on its policymaking entity in accordance with 42 U.S.C. 11375(d).

(2) Each State, territory, Indian tribe, unit of local government, and nonprofit recipient that receives funds under this part must involve homeless individuals and families in providing work or services pertaining to facilities or activities assisted under this part, in accordance with 42 U.S.C. 11375(c)(7).

[61 FR 51552, Oct. 2, 1996]

§ 576.57 Other Federal requirements.

In addition to the Federal requirements set forth in 24 CFR part 5, use of emergency shelter grant amounts must comply with the following requirements:

(a) *Nondiscrimination and equal opportunity.* The nondiscrimination and equal opportunity requirements at 24 CFR part 5 are modified as follows:

(1) *Rehabilitation Act requirements.* HUD's regulations at 24 CFR part 8 implement section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794). For purposes of the emergency shelter grants program, the term "dwelling units" in 24 CFR part 8 shall include sleeping accommodations.

(2) Use of emergency shelter grant amounts must also comply with the requirement that the grantee or the State recipient make known that use of the facilities and services is available to all on a nondiscriminatory basis. If the procedures that the grantee or recipient intends to use to make known the availability of the facilities and services are unlikely to reach persons of any particular race, color, religion, sex, age, national origin, familial status, or disability who may qualify for such facilities and services, the grantee or recipient must establish additional procedures that will ensure that such persons are made aware of the facilities and services. Grantees and recipients must also adopt procedures which will make available to interested persons information concerning the location of services and facilities that are accessible to persons with disabilities.

(b) *Applicability of OMB Circulars.* [1] The policies, guidelines, and requirements of 24 CFR part 85 (codified pursuant to OMB Circular No. A–102) and OMB Circular No. A–87, as they relate to the acceptance and use of emergency shelter grant amounts by States and units of general local government, and Nos. A–110 and A–122 as they relate to the acceptance and use of emergency shelter grant amounts by private nonprofit organizations.

[1] OMB Circulars referenced in this section are available at the Entitlement Cities Division, Room 7282, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410.

(c) The Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821–4846), the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4851–

4856), and implementing regulations at part 35, subparts A, B, J, K, and R of this title apply to activities under this program.

(d) *Conflicts of interest.* In addition to the conflict of interest requirements in OMB Circulars A–102 and A–110, no person—

(1)(i) Who is an employee, agent, consultant, officer, or elected or appointed official of the grantee, State recipient, or nonprofit recipient (or of any designated public agency) that receives emergency shelter grant amounts and

(ii) Who exercises or has exercised any functions or responsibilities with respect to assisted activities, or

(2) Who is in a position to participate in a decisionmaking process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from the activity, or have an interest in any contract, subcontract, or agreement with respect thereto, or the proceeds thereunder, either for him or herself or for those with whom he or she has family or business ties, during his or her tenure, or for one year thereafter. HUD may grant an exception to this exclusion as provided in §570.611 (d) and (e) of this chapter.

(e) *Environmental review responsibilities*—(1) *Generally.* Responsible entities must assess the environmental effects of each application under part 58 of this title. An applicant must include in its application an assurance that the applicant will assume all the environmental review responsibility that would otherwise be performed by HUD as the responsible Federal official under the National Environmental Policy Act of 1969 (NEPA) and related authorities listed in part 58 of this title. The grant award is subject to completion of the environmental responsibilities set out in part 58 of this title within a reasonable time period after notification of the award. This provision does not preclude the applicant from enclosing its environmental certification and Request for Release of Funds with its application.

(2) *Awards to States.* In the case of emergency shelter grants to States that are distributed to:

(i) Units of general local government, the unit of general local government shall be the responsible entity, and the State will assume HUD's functions with regard to the release of funds; or

(ii) Nonprofit organizations, the State shall be the responsible entity, and HUD will perform functions regarding release of funds under part 58 of this title.

(3) *Release of funds.* HUD will not release funds for an eligible activity if the grantee, recipient, or any other party commits emergency shelter grant funds before the grantee submits, and HUD approves, any required Request for Release of Funds.

(f) *Audit.* The financial management systems used by a State, formula city or county, governmental entity, or an Indian tribe that is a grantee under this program must provide for audits in accordance with part 44 of this title. A private nonprofit organization is subject to the audit requirements of OMB Circular A–133, as set forth in part 45 of this title. (OMB Circulars are available from the Executive Office of the President, Publication Service, 725 17th Street, NW., Suite G–2200, Washington, DC 20503, Telephone, 202–395–7332.)

(g) *Audit.* The financial management system used by a State or unit of general local government that is a grantee or State recipient must provide for audits in accordance with 24 CFR part 44. A private nonprofit organization is subject to the audit requirements of OMB Circular A–133, as set forth in 24 CFR part 45.

(h) *Lobbying and disclosure requirements.* The disclosure requirements and prohibitions of 42 U.S.C. 3537a and 3545 and 31 U.S.C. 1352 (the Byrd Amendment), and the implementing regulations at parts 4 and 87 of this title.

(i) *Davis-Bacon Act.* The provisions of the Davis-Bacon Act (40 U.S.C. 276a–276a–5) do not apply to this program.

(j) *Intergovernmental review.* The requirements of Executive Order 12372 and the regulations issued under the order at 24 CFR part 52, to the extent provided by Federal Register notice in accordance with 24 CFR 52.3.

[54 FR 46799, Nov. 7, 1989, as amended at 57 FR 33256, July 27, 1992; 61 FR 5210, Feb. 9, 1996. Redesignated and amended at 61 FR 51552, Oct. 2, 1996; 64 FR 50226, Sept. 15, 1999]

§ 576.59 Relocation and acquisition.

(a) *Minimizing displacement.* Consistent with the other goals and objectives of this part, grantees and recipients must assure that they have taken all reasonable steps to minimize the displacement of persons (families, individuals, businesses, nonprofit organizations, and farms) as a result of a project assisted under this part.

(b) *Relocation assistance for displaced persons.* A displaced person (defined in paragraph (f)(1) of this section) must be provided relocation assistance at the levels described in, and in accordance with, 49 CFR part 24, which contains the government-wide regulations implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601–4655).

(c) *Real property acquisition requirements.* The acquisition of real property for a project is subject to the URA and the requirements described in 49 CFR part 24, subpart B.

(d) Responsibility of grantees and recipients. Each grantee and recipient must assure that it will comply with the URA, the regulations at 49 CFR part 24, and the requirements of this section. The cost of assistance required by this section may be paid from local public funds, funds provided in accordance with this part, or funds available from other sources.

(e) *Appeals.* A person who disagrees with the grantee's or recipient's determination concerning a payment or other assistance required by this section may file a written appeal of that determination with the grantee or recipient. The appeal procedures to be followed are described in 49 CFR 24.10.

(f) *Definition*—(1) *Displaced person.* (i) The term "displaced person" means a person (family, individual, business, nonprofit organization, or farm) that moves from real property, or moves personal property from real property, permanently and involuntarily, as a direct result of acquisition, rehabilitation, or demolition for a project assisted under this part. Permanent, involuntary moves for an assisted project include:

(A) A permanent move from the real property (building or complex) following notice by the grantee, recipient or property owner to move permanently from the property, if the move occurs on or after the date that the grantee or recipient submits to HUD an application for assistance that is later approved and funded;

(B) A permanent move from the real property that occurs before the submission of the application to HUD, if the grantee, recipient or HUD determines that the displacement resulted directly from acquisition, rehabilitation, or demolition for the project, or

(C) A permanent move from the real property by a tenant-occupant of a dwelling unit that occurs after the execution of the agreement between the recipient and HUD if:

(*1*) The tenant has not been provided a reasonable opportunity to lease and occupy a suitable, decent, safe and sanitary dwelling in the same building/complex following the completion of the project at a rent, including estimated average utility costs, that does not exceed the greater of the tenant's rent and estimated average utility costs before the initiation of negotiations, or 30 percent of gross household income; or

(*2*) The tenant has been required to relocate temporarily but the tenant is not offered payment for all reasonable out-of-pocket expenses incurred in connection with the temporary relocation or other conditions of the temporary relocation are not reasonable, and the tenant does not return to the building/complex; or

(*3*) The tenant is required to move to another unit in the same building/complex but is not offered reimbursement for all reasonable out-of-pocket expenses incurred in connection with the move.

(ii) A person does not qualify as a "displaced person" if:

(A) The person has been evicted for cause based upon a serious or repeated violation of material terms of the lease or occupancy agreement and HUD determines that the eviction was not undertaken for the purpose of evading the obligation to provide relocation assistance;

(B) The person moved into the property after the submission of the application and, before commencing occupancy, received written notice of the expected displacement;

(C) The person is ineligible under 49 CFR 24.2(g)(2); or

(D) HUD determines that the person was not displaced as a direct result of acquisition, rehabilitation, or demolition for the project.

(iii) The grantee or recipient may, at any time, request a HUD determination of whether a displacement is or would be covered under this section.

(2) Initiation of negotiations. For purposes of determining the type of replacement housing payment to be made to a residential tenant displaced as a direct result of privately undertaken rehabilitation, demolition, or acquisition of the real property, the term "initiation of negotiations" means the execution of the agreement between the grantee and HUD.

(Approved by the Office of Management and Budget under OMB control number 2506–0089)

[54 FR 46799, Nov. 7, 1989, as amended at 54 FR 52397, Dec. 21, 1989. Redesignated at 61 FR 51553, Oct. 2, 1996]

Subpart F—Grant Administration

Source: 54 FR 46799, Nov. 7, 1989, unless otherwise noted. Redesignated at 61 FR 51550, Oct. 2, 1996.

§ 576.61 Responsibility for grant administration.

Grantees are responsible for ensuring that emergency shelter grant amounts are administered in accordance with the requirements of this part and other applicable laws. The State, territory, Indian tribe, or unit of local government is responsible for ensuring that its recipients carry out the recipients' emergency shelter grant programs in compliance with all applicable requirements in the case of:

(a) A State making grant amounts available to State recipients; or

(b) A territory, Indian tribe, or unit of general local government distributing grant amounts to nonprofit recipients.

[54 FR 46799, Nov. 7, 1989. Redesignated and amended at 61 FR 51553, Oct. 2, 1996]

§ 576.63 Method of payment.

Payments are made to a grantee upon its request after the grant agreement has been fully executed, and may include a working capital advance for 30 days' cash needs or an advance of $5,000, whichever is greater. Thereafter, the grantee will be reimbursed for the amount of its actual cash disbursements. If a grantee requests a working capital advance, it must base the request on a realistic, firm estimate of the amounts required to be disbursed over the 30-day period in payment of eligible activity costs.

[54 FR 46799, Nov. 7, 1989. Redesignated and amended at 61 FR 51553, Oct. 2, 1996]

§ 576.65 Recordkeeping.

(a) Each grantee must ensure that records are maintained for a 4-year period to document compliance with the provisions of this part.

(b) Requirements to ensure confidentiality of records pertaining to the provision of family violence prevention or treatment services with assistance under this part are set forth in 42 U.S.C. 11375(c)(5).

[61 FR 51553, Oct. 2, 1996]

§ 576.67 Sanctions.

(a) *HUD sanctions.* If HUD determines that a grantee is not complying with the requirements of this part or of other applicable Federal law, HUD may (in addition to any remedies that may otherwise be available) take any of the following sanctions, as appropriate:

(1) Issue a warning letter that further failure to comply with such requirements will result in a more serious sanction;

(2) Condition a future grant;

(3) Direct the grantee to stop the incurring of costs with grant amounts;

(4) Require that some or all of the grant amounts be remitted to HUD;

(5) Reduce the level of funds the grantee would otherwise be entitled to receive; or

(6) Elect not to provide future grant funds to the grantee until appropriate actions are taken to ensure compliance.

(b) *State sanctions.* If a State determines that a State recipient is not complying with the requirements of this part or other applicable Federal laws, the State must take appropriate actions, which may include the actions described in paragraph (a) of this section. Any grant amounts that become available to a State as a result of a sanction under this section must, at the option of the State, be made available (as soon as practicable) to other nonprofit organizations or units of general local government located in the State for use within the time periods specified in §576.35(a)(2), or to HUD for reallocation under §576.45(d).

(c) *Reallocations.* Any grant amounts that become available to HUD as a result of the imposition of a sanction under this section will be reallocated under §576.45(d).

[54 FR 46799, Nov. 7, 1989. Redesignated and amended at 61 FR 51553, Oct. 2, 1996]

BOND FINANCE DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Items

Presentation, Discussion and Possible Approval of Resolution No. 09-002 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2006 Series A-C (Program 66).

Required Action

Approval of Resolution No. 09-002 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2006 Series A-C (Program 66).

Background

The mortgage loan origination period related to TDHCA's Single Family Mortgage Revenue Bonds, 2006 Series A-C (Program 66) will terminate on January 1, 2009. If the origination period is not extended, any unspent proceeds will be used for an unexpended bond proceeds redemption. During the time of TDHCA's bond pricing, investors ask issuers about our history of unspent bond proceeds. Because of these extensions, TDHCA can positively report to investors that our last single family unexpended bond proceeds redemption was for $10,000 in 1997. This is the amount that remained after applying the de minimis exception of $250,000. Staff recommends extending the certificate purchase date for Program 66 to May 1, 2009. The table below reflects Program 66's balances, per the master servicer's records, as of November 3, 2008.

Total Lendable Bond Proceeds			$ 242.8 million
Assisted Funds Unreserved Balance	6.125%	$ 0.0 million	
Unassisted Funds Unreserved Balance	5.625%	$ 0.3 million	
Loans in Mortgage Pipeline Pending Closing		$ 4.3 million	
= Total Unspent Proceeds Balance			$ 4.6 million
Mortgages Closed, Funded, and Purchased			$ 238.2 million

A significant amount ($238.2 million) of the mortgage funds have been purchased out of $242.8 million since the bonds closed on June 28, 2006. For families constructing a new home, 180 days are needed to complete the processing of funds reserved in the pipeline. If any of these loans should fall-out, the extension of the certificate purchase period would allow ample time to close and fund new loans.

Recommendation

Approve Resolution No. 09-002 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2006 Series A-C (Program 66).

Resolution No. 09-002

RESOLUTION AUTHORIZING THE EXTENSION OF THE CERTIFICATE PURCHASE PERIOD FOR SINGLE FAMILY MORTGAGE REVENUE REFUNDING BONDS, 2006 SERIES A; SINGLE FAMILY MORTGAGE REVENUE REFUNDING BONDS, 2006 SERIES B AND SINGLE FAMILY MORTGAGE REVENUE BONDS, 2006 SERIES C; AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS RELATING THERETO; MAKING CERTAIN FINDINGS AND DETERMINATIONS IN CONNECTION THEREWITH; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose, among others, of obtaining funds to acquire, finance or acquire participating interests in such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans or participating interests, and to mortgage, pledge or grant security interests in such mortgages or participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, in order to implement its Bond Program No. 66, the Department issued its Single Family Mortgage Revenue Refunding Bonds, 2006 Series A in the aggregate principal amount of $59,555,000 (the "2006 Series A Bonds"), its Single Family Mortgage Revenue Refunding Bonds, 2006 Series B in the aggregate principal amount of $70,485,000 (the "2006 Series B Bonds"), and its Single Family Mortgage Revenue Bonds, 2006 Series C in the aggregate principal amount of $105,410,000 (the "2006 Series C Bonds" and together with the 2006 Series A Bonds and the 2006 Series B Bonds, collectively, the "2006 Series A/B/C Bonds") pursuant to a Single Family Mortgage Revenue Bond Trust Indenture dated as of October 1, 1980 between the Department, as successor to the Texas Housing Agency, and The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A.), as successor trustee (the "Trustee"), as supplemented and amended (collectively, the "Single Family Indenture"), and the Forty-Sixth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2006 (the "Forty-Sixth Supplement") with respect to the 2006 Series A Bonds, the Forty-Seventh Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2006 (the "Forty-Seventh Supplement") with respect to the 2006 Series B Bonds and the Forty-Eighth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2006 (the "Forty-Eighth Supplement") with respect to the 2006 Series C Bonds, each between the Department and the Trustee, for the purpose, among others, of providing funds to make and acquire qualified mortgage loans (including participating interests therein) during the Certificate Purchase Period (as described in the Forty-Sixth Supplement); and

WHEREAS, concurrently with the issuance of the 2006 Series A/B/C Bonds, the Department issued its Single Family Mortgage Revenue Refunding Bonds, 2006 Series D in the aggregate principal amount of $29,685,000 (the "2006 Series D Bonds") and its Single Family Mortgage Revenue Refunding Bonds, 2006 Series E in the aggregate principal amount of $17,295,000 (the "2006 Series E Bonds") pursuant to the Single Family Indenture and the Forty-Ninth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2006 with respect to the 2006 Series D Bonds and the Fiftieth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2006 with respect to the 2006 Series E Bonds, each between the Department and the Trustee, for the purpose, among others, of refunding certain prior bonds of the Department; and

WHEREAS, pursuant to Resolution No. 08-001 adopted on October 11, 2007, the Department extended the Certificate Purchase Period with respect to the 2006 Series A/B/C Bonds to January 1, 2009, or the first business day thereafter; and

WHEREAS, the Department desires to approve and authorize (i) the extension of the Certificate Purchase Period for the 2006 Series A/B/C Bonds to May 1, 2009 in accordance with the terms of the Forty-Sixth Supplement, (ii) all actions to be taken with respect thereto, and (iii) the execution and delivery of all documents and instruments in connection therewith;

NOW THEREFORE BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

ARTICLE I

EXTENSION OF CERTIFICATE PURCHASE PERIOD; APPROVAL OF DOCUMENTS

Section 1.1--Approval of Extension of the Certificate Purchase Period. The extension of the Certificate Purchase Period to May 1, 2009, or the first business day thereafter, is hereby authorized, subject to advice of any financial advisor, bond counsel or other advisor to the Department, such extension to be effectuated under and in accordance with the Single Family Indenture and the Forty-Sixth Supplement, and the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all documents and instruments in connection therewith and to request and deliver all certificates as may be required by the terms of the Forty-Sixth Supplement in connection therewith.

Section 1.2--Execution and Delivery of Other Documents. The authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all agreements, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices, written requests and other papers, whether or not mentioned herein, as may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.3--Authorized Representatives. The following persons are each hereby named as authorized representatives of the Department for purposes of executing and delivering the documents and instruments referred to in this Article I: the Chairman of the Board; the Vice Chair of the Board; the Secretary to the Board; the Executive Director of the Department; and the Director of Bond Finance of the Department.

ARTICLE II

GENERAL PROVISIONS

Section 2.1--Purpose of Resolution. The Board has expressly determined and hereby confirms that the acquisition of mortgage loans or the purchase of Mortgage Certificates resulting from the extension of the Certificate Purchase Period will accomplish a valid public purpose of the Department by providing for the housing needs of persons and families of low, very low and extremely low income and families of moderate income in the State.

Section 2.2--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 2.3--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

BOND FINANCE DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Items

Presentation, Discussion and Possible Approval of Resolution No. 09-003 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2007 Series A (Program 69).

Required Action

Approval of Resolution No. 09-003 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2007 Series A (Program 69).

Background

The mortgage loan origination period related to TDHCA's Single Family Mortgage Revenue Bonds, 2007 Series A (Program 69) will terminate on February 1, 2009. If the origination period is not extended, any unspent proceeds will be used for an unexpended bond proceeds redemption. During the time of TDHCA's bond pricing, investors ask issuers about our history of unspent bond proceeds. Because of these extensions, TDHCA can positively report to investors that our last single family unexpended bond proceeds redemption was for $10,000 in 1997. This is the amount that remained after applying the de minimis exception of $250,000. Staff recommends extending the certificate purchase date for Program 69 to February 1, 2010. The table below reflects Program 69's balances, per the master servicer's records, as of November 3, 2008.

Total Lendable Bond Proceeds			$ 97.2 million
Assisted Funds Unreserved Balance	5.99%	$ 0.3 million	
Unassisted Funds Unreserved Balance	5.25%	$ 0.0 million	
Loans in Mortgage Pipeline Pending Closing		$ 3.5 million	
= Total Unspent Proceeds Balance			$ 3.8 million
Mortgages Closed, Funded, and Purchased			$ 93.4 million

A significant amount ($93.4 million) of the mortgage funds have been purchased out of $97.2 million since the bonds closed on June 5, 2007. For families constructing a new home, 180 days are needed to complete the processing of funds reserved in the pipeline. If any of these loans should fall-out, the extension of the certificate purchase period would allow ample time to close and fund new loans.

Recommendation

Approve Resolution No. 09-003 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2007 Series A (Program 69).

Resolution No. 09-003

RESOLUTION AUTHORIZING THE EXTENSION OF THE CERTIFICATE PURCHASE PERIOD FOR SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE BONDS, 2007 SERIES A; AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS RELATING THERETO; MAKING CERTAIN FINDINGS AND DETERMINATIONS IN CONNECTION THEREWITH; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose, among others, of obtaining funds to acquire, finance or acquire participating interests in such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans or participating interests, and to mortgage, pledge or grant security interests in such mortgages or participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, in order to implement its Bond Program No. 69, the Department issued its Single Family Variable Rate Mortgage Revenue Bonds, 2007 Series A in the aggregate principal amount of $143,005,000 (the "2007 Series A Bonds") pursuant to a Single Family Mortgage Revenue Bond Trust Indenture dated as of October 1, 1980 between the Department, as successor to the Texas Housing Agency, and The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A.), as successor trustee (the "Trustee"), as supplemented and amended (collectively, the "Single Family Indenture"), and the Fifty-Fourth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2007 between the Department and the Trustee (the "Fifty-Fourth Supplement") with respect to the 2007 Series A Bonds, for the purpose, among others, of providing funds to make and acquire qualified mortgage loans (including participating interests therein) during the Certificate Purchase Period (as described in the Fifty-Fourth Supplement); and

WHEREAS, the Certificate Purchase Period with respect to the 2007 Series A Bonds ends on February 1, 2009, unless extended; and

WHEREAS, the Department desires to approve and authorize (i) the extension of the Certificate Purchase Period for the 2007 Series A Bonds to February 1, 2010 in accordance with the terms of the Fifty-Fourth Supplement, (ii) all actions to be taken with respect thereto, and (iii) the execution and delivery of all documents and instruments in connection therewith;

NOW THEREFORE BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

ARTICLE I

EXTENSION OF CERTIFICATE PURCHASE PERIOD; APPROVAL OF DOCUMENTS

Section 1.1--Approval of Extension of the Certificate Purchase Period. The extension of the Certificate Purchase Period to February 1, 2010, or the first business day thereafter, is hereby authorized, subject to advice of any financial advisor, bond counsel or other advisor to the Department, such extension to be effectuated under and in accordance with the Single Family Indenture and the Fifty-Fourth Supplement, and the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all documents and instruments in connection therewith and to request and deliver all certificates as may be required by the terms of the Fifty-Fourth Supplement in connection therewith.

Section 1.2--Execution and Delivery of Other Documents. The authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all agreements, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices, written requests and other papers, whether or not mentioned herein, as may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.3--Authorized Representatives. The following persons are each hereby named as authorized representatives of the Department for purposes of executing and delivering the documents and instruments referred to in this Article I: the Chairman of the Board; the Vice Chair of the Board; the Secretary to the Board; the Executive Director of the Department; and the Director of Bond Finance of the Department.

ARTICLE II

GENERAL PROVISIONS

Section 2.1--Purpose of Resolution. The Board has expressly determined and hereby confirms that the acquisition of mortgage loans or the purchase of Mortgage Certificates resulting from the extension of the Certificate Purchase Period will accomplish a valid public purpose of the Department by providing for the housing needs of persons and families of low, very low and extremely low income and families of moderate income in the State.

Section 2.2--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 2.3--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

BOND FINANCE DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Items

Presentation, Discussion and Approval of Resolution No. 09-004 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2007 Series B (Program 70) and authorizing entering into a new acquisition fund investment agreement.

Required Action

Approval of Resolution No. 09-004 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2007 Series B (Program 70) and authorizing entering into a new acquisition fund investment agreement.

Background

The mortgage loan origination period related to TDHCA's Single Family Mortgage Revenue Bonds, 2007 Series B (Program 70) will terminate on April 1, 2009. If the origination period is not extended, any unspent proceeds will be used for an unexpended bond proceeds redemption. During the time of TDHCA's bond pricing, investors ask issuers about our history of unspent bond proceeds. Because of these extensions, TDHCA can positively report to investors that our last single family unexpended bond proceeds redemption was for $10,000 in 1997. This is the amount that remained after applying the de minimis exception of $250,000. Staff recommends extending the certificate purchase date for Program 70 to April 1, 2010. The table below reflects Program 70's balances, per the master servicer's records, as of November 3, 2008.

Total Lendable Bond Proceeds			$ 161.5 million
Assisted Funds Unreserved Balance	6.50%	$ 0.0 million	
Unassisted Funds Unreserved Balance	5.75%	$ 5.6 million	
Loans in Mortgage Pipeline Pending Closing		$ 46.7 million	
= Total Unspent Proceeds Balance			$ 52.3 million
Mortgages Closed, Funded, and Purchased			$ 109.2 million

A significant amount ($109.2 million) of the mortgage funds have been purchased out of $161.5 million since the bonds closed on September 20, 2007. For families constructing a new home, 180 days are needed to complete the processing of funds reserved in the pipeline. If any of these loans should fall-out, the extension of the certificate purchase period would allow ample time to close and fund new loans.

The current acquisition fund investment agreement will not expire until August 31, 2009. If the $52.3 million are not purchased by that date, Bond Finance will have the ability to enter into a new investment agreement.

Recommendation

Approve Resolution No. 09-004 authorizing the extension of the certificate purchase period for Single Family Mortgage Revenue Bonds, 2007 Series B (Program 70) and authorizing entering into a new acquisition fund investment agreement.

Resolution No. 09-004

RESOLUTION AUTHORIZING THE EXTENSION OF THE CERTIFICATE PURCHASE PERIOD FOR SINGLE FAMILY MORTGAGE REVENUE BONDS, 2007 SERIES B; AUTHORIZING ARRANGEMENTS RELATING TO AN INVESTMENT AGREEMENT; AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS RELATING THERETO; MAKING CERTAIN FINDINGS AND DETERMINATIONS IN CONNECTION THEREWITH; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose, among others, of obtaining funds to acquire, finance or acquire participating interests in such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans or participating interests, and to mortgage, pledge or grant security interests in such mortgages or participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, in order to implement its Bond Program No. 70, the Department issued its Single Family Mortgage Revenue Bonds, 2007 Series B in the aggregate principal amount of $157,060,000 (the "2007 Series B Bonds") pursuant to a Single Family Mortgage Revenue Bond Trust Indenture dated as of October 1, 1980 between the Department, as successor to the Texas Housing Agency, and The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A.), as successor trustee (the "Trustee"), as supplemented and amended (collectively, the "Single Family Indenture"), and the Fifty-Sixth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of September 1, 2007 between the Department and the Trustee (the "Fifty-Sixth Supplement") with respect to the 2007 Series B Bonds, for the purpose, among others, of providing funds to make and acquire qualified mortgage loans (including participating interests therein) during the Certificate Purchase Period (as described in the Fifty-Sixth Supplement); and

WHEREAS, the Certificate Purchase Period with respect to the 2007 Series B Bonds ends on April 1, 2009, unless extended; and

WHEREAS, the investment agreement pursuant to which certain proceeds of the 2007 Series B Bonds are invested during the initial Certificate Purchase Period expires with respect to such proceeds on August 31, 2009; and

WHEREAS, the Department desires to approve and authorize (i) the extension of the Certificate Purchase Period for the 2007 Series B Bonds to April 1, 2010 in accordance with the terms of the Fifty-Sixth Supplement, (ii) arrangements to obtain a new investment agreement to provide for the investment of certain proceeds of the 2007 Series B Bonds during the Certificate Purchase Period, as so extended, (iii) all actions to be taken with respect thereto, and (iv) the execution and delivery of all documents and instruments in connection therewith;

NOW THEREFORE BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

ARTICLE I

EXTENSION OF CERTIFICATE PURCHASE PERIOD; APPROVAL OF DOCUMENTS

Section 1.1--Approval of Extension of the Certificate Purchase Period. The extension of the Certificate Purchase Period to April 1, 2010, or the first business day thereafter, is hereby authorized, subject to advice of any financial advisor, bond counsel or other advisor to the Department, such extension to be effectuated under and in accordance with the Single Family Indenture and the Fifty-Sixth Supplement, and the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all documents and instruments in connection therewith and to request and deliver all certificates as may be required by the terms of the Fifty-Sixth Supplement in connection therewith.

Section 1.2--Investment Agreement and Investment Agreement Broker. The investment of certain proceeds of the 2007 Series B Bonds held under the Fifty-Sixth Supplement during the Certificate Purchase Period, as so extended, is hereby approved and the Executive Director and the Director of Bond Finance each are authorized hereby to complete arrangements for investment in an investment agreement, including, without limitation, selection of the investment agreement broker, if any.

Section 1.3--Authorization of Investment Agreement. The execution and delivery of an investment agreement pursuant to which certain proceeds of the 2007 Series B Bonds will be invested during the Certificate Purchase Period, as so extended, is hereby authorized and approved and the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver such investment agreement and all documents and instruments in connection therewith.

Section 1.4--Execution and Delivery of Other Documents. The authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all agreements, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices, written requests and other papers, whether or not mentioned herein, as may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.5--Authorized Representatives. The following persons are each hereby named as authorized representatives of the Department for purposes of executing and delivering the documents and instruments referred to in this Article I: the Chairman of the Board; the Vice Chair of the Board; the Secretary to the Board; the Executive Director of the Department; and the Director of Bond Finance of the Department.

ARTICLE II

GENERAL PROVISIONS

Section 2.1--Purpose of Resolution. The Board has expressly determined and hereby confirms that the acquisition of mortgage loans or the purchase of Mortgage Certificates resulting from the extension of the Certificate Purchase Period will accomplish a valid public purpose of the Department by providing for the housing needs of persons and families of low, very low and extremely low income and families of moderate income in the State.

Section 2.2--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 2.3--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

BOND FINANCE DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Items

Presentation, Discussion and Approval of Resolution No. 09-009 authorizing entering into a new float fund investment agreement for the Residential Mortgage Revenue Bond, 2000 Series B-E, 2001 Series A-E and 2003 Series A.

Required Action

Approval of Resolution No. 09-009 authorizing entering into a new float fund investment agreement for the Residential Mortgage Revenue Bond, 2000 Series B-E, 2001 Series A-E and 2003 Series A.

Background

Each month the Residential Mortgage Revenue Bond (RMRB) program receives repayments and prepayments from mortgage loans. These funds are held and invested in a guaranteed investment contract (GIC) until semi-annual principal and interest bond payments are due. The RMRB 2000 Series B-E, 2001 Series A-E and 2003 Series A funds were invested in a GIC with American International Group (AIG). On September 15, 2008, AIG was downgraded by S&P from AA- to A-.

The AIG downgrade had the potential of having our three AAA rated RMRB bonds downgraded. Bond Finance worked with our Financial Advisor, RBC Capital Markets, for several weeks along with the rating agencies to resolve this potential issue. After several working group meetings with staff, our financial advisor, bond counsel and disclosure counsel, a decision was made to withdraw our funds from AIG. On October 10, 2008 all of our funds from AIG were returned without incurring any cancellation or termination fees.

Staff is requesting approval to enter into a new float fund guaranteed investment contract with a new provider to replace AIG for the short term investment of indenture funds. Staff will be working closely with our GIC Broker, Grant Street Group Inc., to solicit investors through a competitive bid process.

Recommendation

Approval of Resolution No. 09-009 authorizing entering into a new float fund investment agreement for the Residential Mortgage Revenue Bond, 2000 Series B-E, 2001 Series A-E and 2003 Series A.

.

Resolution No. 09-009

RESOLUTION AUTHORIZING ARRANGEMENTS RELATING TO REPLACEMENT INVESTMENT AGREEMENTS FOR RESIDENTIAL MORTGAGE REVENUE BONDS, SERIES 2000B/C/D/E, SERIES 2001A/B/C/D/E AND SERIES 2003A; AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS RELATING THERETO; MAKING CERTAIN FINDINGS AND DETERMINATIONS IN CONNECTION THEREWITH; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose, among others, of obtaining funds to acquire, finance or acquire participating interests in such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans or participating interests, and to mortgage, pledge or grant security interests in such mortgages or participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and (d) to issue its revenue bonds for the purpose refunding any bonds theretofore issued by the Department or the Texas Housing Agency, its predecessor (the "Agency") under such terms, conditions and details as shall be determined by the Board; and

WHEREAS, the Department has issued its Residential Mortgage Revenue Bonds, Series 2000B, Residential Mortgage Revenue Refunding Bonds, Series 2000C, Residential Mortgage Revenue Refunding Bonds, Series 2000D and Residential Mortgage Revenue Bonds, Taxable Series 2000E (collectively, the "Series 2000B/C/D/E Bonds"), its Residential Mortgage Revenue Bonds, Series 2001A, Residential Mortgage Revenue Refunding Bonds, Series 2001B, Residential Mortgage Revenue Refunding Bonds, Series 2001C, Residential Mortgage Revenue Bonds, Series 2001D and Residential Mortgage Revenue Bonds, Series 2001E (collectively, the "Series 2001A/B/C/D/E Bonds"), and its Residential Mortgage Revenue Refunding Bonds, Series 2003A (the "Series 2003A Bonds"), pursuant to a Residential Mortgage Revenue Bond Trust Indenture dated November 1, 1987 (the "Trust Indenture") between the Department, as successor to the Texas Housing Agency and The Bank of New York Mellon Trust Company, N.A., as successor trustee (the "Trustee"), as supplemented and amended from time to time (the supplemental indentures relating to the foregoing bonds are hereinafter referred to as "Supplemental Indentures" and the Supplemental Indentures and the Trust Indenture are collectively referred to as the "Indenture"); and

WHEREAS, certain funds held under the Indenture relating to the Series 2000B/C/D/E Bonds, the Series 2001A/B/C/D/E Bonds and the Series 2003A Bonds were invested in investment agreements (the "AIG Investment Agreements") with AIG Matched Funding Corp. ("AIG"), which investment agreements were terminated by the Department as of October 10, 2008 in accordance with the terms thereof following rating agency downgrades of AIG; and

WHEREAS, the Department desires to approve and authorize (i) arrangements to obtain one or more replacement investment agreements to provide for the investment of funds previously authorized to be invested under the AIG Investment Agreements relating to the Series 2000B/C/D/E Bonds, the Series 2001A/B/C/D/E Bonds and the Series 2003A Bonds, (ii) all actions to be taken with respect thereto, and (iii) the execution and delivery of all documents and instruments in connection therewith;

NOW THEREFORE BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

ARTICLE I

ARRANGEMENTS FOR INVESTMENT AGREEMENTS; APPROVAL OF DOCUMENTS

Section 1.1--Investment Agreements and Investment Agreement Broker. The investment of certain funds held under the Indenture relating to the Series 2000B/C/D/E Bonds, the Series 2001A/B/C/D/E Bonds and the Series 2003A Bonds is hereby approved and the Executive Director or any Acting Executive Director of the Department and the Director of Bond Finance of the Department each are authorized hereby to complete arrangements for investment in one or more investment agreements, including, without limitation, selection of the investment agreement broker, if any.

Section 1.2--Authorization of Investment Agreements. The execution and delivery of one or more investment agreements pursuant to which funds held under the Indenture relating to the Series 2000B/C/D/E Bonds, the Series 2001A/B/C/D/E Bonds and the Series 2003A Bonds will be invested is hereby authorized and approved and the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver such investment agreement and all documents and instruments in connection therewith.

Section 1.3--Execution and Delivery of Other Documents. The authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all agreements, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices, written requests and other papers, whether or not mentioned herein, as may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.4--Authorized Representatives. The following persons are each hereby named as authorized representatives of the Department for purposes of executing and delivering the documents and instruments referred to in this Article I: the Chairman of the Board; the Vice Chair of the Board; the Secretary to the Board; the Executive Director or any Acting Executive Director of the Department; and the Director of Bond Finance of the Department.

ARTICLE II

GENERAL PROVISIONS

Section 2.1--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 2.2--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

PASSED AND APPROVED this 13th day of November, 2008.

BOND FINANCE DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Approval of Resolution No. 09-007 authorizing application to the Texas Bond Review Board for reservation of H.R. 3221 single family private activity bond authority in the amount of $120 million and presentation, discussion and approval of a Mortgage Credit Certificate Program (MCC) for first-time homebuyers (Program 73) to be administered by the Texas Department of Housing and Community Affairs.

Required Action

Approval of Resolution No. 09-007 authorizing application to the Texas Bond Review Board for reservation of H.R. 3221 single family private activity bond authority in the amount of $120 million and presentation, discussion and approval of a Mortgage Credit Certificate Program (MCC) for first-time homebuyers (Program 73) to be administered by the Texas Department of Housing and Community Affairs.

Background

TDHCA is currently administering its latest MCC program that was issued on June 26, 2008. Of the $15 million in MCC authority, TDHCA has issued $9.2 million, leaving $5.8 million of authority. TDHCA expects to be out of this MCC authority in January of 2009. By approving this resolution, TDHCA will be able to continue issuing new MCCs under Program 73 in February of 2009.

A mortgage credit certificate is an instrument designed to assist persons of low to moderate income to better afford individual ownership. The procedures for issuing MCCs were established by the United States Congress as an alternative to the issuance of single family mortgage revenue bonds. As distinguished from a bond program, in an MCC program no bonds are issued, no mortgage money is actually used, many of the costs associated with a bond program are not incurred, and lenders are required to pay only nominal up-front fees.

Mortgage Credit Certificates help make ownership of a new or existing home more affordable by entitling the homeowner to a personal tax credit of up to $2,000 against their federal tax liability for a portion of the interest paid on their home mortgage. For example, a homeowner that purchased a home for $121,000 at 6% for 30 years would have a monthly principal and interest payment of $725. With an MCC, homeowners can submit a revised W-4 Withholding Form to his or her employer to reduce the federal withholding tax by $167 per month, which increases the borrower’s disposable income by reducing their federal income tax obligation. This same homeowner can also deduct the yearly mortgage interest paid of approximately $5,220 ($7,220 less $2,000) as an itemized deduction on their annual federal income tax return. Simply put, an MCC is a dollar for dollar reduction of income taxes owed.

In order to be eligible for an MCC, borrowers must comply with the same first-time homebuyer requirements stipulated by the Internal Revenue Code for mortgage revenue bonds. For example, MCC recipients must occupy the residence as their primary residence, comply with income limits and comply with home purchase price limits. MCCs cannot be used when mortgages are funded with tax-exempt bond proceeds.

Under Federal guidelines, the Department, as an issuer of mortgage revenue bonds can trade $1 of bond authority for $0.25 of MCC authority. In all of the Departments past MCC programs, the Board authorized trading $60 million of bond authority for $15 million in MCC authority. Today, staff is recommending using $120 million of bond authority for $30 million in MCC authority. Bond Finance anticipates using $60 million of H.R. 3221 single family private activity bond authority along with $60 million of already requested and approved 2008 single family private activity bond authority to issue $30 million in MCC authority. The remaining $60 million of H.R. 3221 single family private activity bond authority will be carried forward and utilized for future single family issuances which staff will come back to the Board for specific program approval.

MCC Program 73 Example

$60M of H.R. 3221 Volume Cap and $60M of 2008 Volume Cap Allocated for MCCs	$120 million
IRS MCC Conversion Factor	$0.25
MCC Issuance Authority	$30 million
Average 2007 Mortgage Credit Certificate Program Mortgage Amount	$121,000
Market Mortgage Interest Rate	6.00%
First Year Mortgage Interest	$7,220
MCC Certificate Credit Rate	30%
Tax Credit Amount	$2,166
Maximum Tax Credit Allowed	$2,000
Schedule A Mortgage Interest Deduction	$5,220

Lenders participating in TDHCA’s previous Mortgage Credit Certificate Programs have expressed continued interest in mortgage credit certificates.

Recommendation

Approval of Resolution No. 09-007 authorizing application to the Texas Bond Review Board for reservation of H.R. 3221 single family private activity bond authority in the amount of $120 million and presentation, discussion and approval of a Mortgage Credit Certificate Program (MCC) for first-time homebuyers (Program 73) to be administered by the Texas Department of Housing and Community Affairs.

Resolution No. 09-007

RESOLUTION AUTHORIZING THE FILING OF AN APPLICATION FOR RESERVATION WITH TEXAS BOND REVIEW BOARD WITH RESPECT TO EMERGENCY HOUSING VOLUME CAP FOR QUALIFIED MORTGAGE BONDS; APPROVING THE CONVERSION OF AUTHORITY TO ISSUE QUALIFIED MORTGAGE BONDS TO MORTGAGE CREDIT CERTIFICATES; AUTHORIZING IMPLEMENTATION OF TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS 2009 MORTGAGE CREDIT CERTIFICATE PROGRAM; APPROVING THE FORM AND SUBSTANCE OF THE MCC PARTICIPATION AGREEMENT, THE PROGRAM MANUAL AND THE PROGRAM SUMMARY; AUTHORIZING THE EXECUTION OF DOCUMENTS AND INSTRUMENTS NECESSARY OR CONVENIENT TO CARRY OUT THE 2009 MORTGAGE CREDIT CERTIFICATE PROGRAM; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the “Department”) has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended from time to time (the “Act”), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for persons and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the “Governing Board”) from time to time) at prices they can afford; and

WHEREAS, the Act authorizes the Department: (a) to make, acquire and finance, and to enter into advance commitments to make, acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the “State”); (b) to issue its bonds, for the purpose, among others, of obtaining funds to acquire or finance such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans or participating interests, and to mortgage, pledge or grant security interests in such mortgages or participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, Section 103 and Section 143 of the Internal Revenue Code of 1986, as amended (the “Code”), provide that the interest on obligations issued by or on behalf of a state or a political subdivision thereof the proceeds of which are to be used to finance owner-occupied residences shall be excludable from gross income of the owners thereof for federal income tax purposes if such issue meets certain requirements set forth in Section 143 of the Code; and

WHEREAS, Section 146(a) of the Code requires that certain “private activity bonds” (as defined in Section 141(a) of the Code) must come within the issuing authority’s private activity bond limit for the applicable calendar year in order to be treated as obligations the interest on which is excludable from the gross income of the holders thereof for federal income tax purposes; and

WHEREAS, the private activity bond “State Ceiling” (as defined in Section 146(d) of the Code) applicable to the State for calendar year 2008 is subject to allocation, in the manner authorized by Section 146(e) of the Code, pursuant to Chapter 1372 Texas Government Code, as amended (the “Allocation Act”); and

WHEREAS, pursuant to Section 3021 of the Housing and Economic Recovery Act of 2008, additional private activity bond volume cap for qualified mortgage bonds and qualified residential rental projects has become available to the State of Texas (the “Emergency Housing Volume Cap”); and

WHEREAS, in order to reserve a portion of the Emergency Housing Volume Cap for bonds (the “Emergency Reservation”), and to satisfy the requirements of Section 146(a) of the Code, the Governing Board has determined to file an application for reservation for Emergency Housing Volume Cap for qualified mortgage bonds (the "Application for Reservation") with the Texas Bond Review Board (the "Bond Review Board"), in the manner authorized by Section 146(e) of the Code;

WHEREAS, the Allocation Act and the rules promulgated thereunder by the Bond Review Board (the "Allocation Rules") require that an Application for Reservation be accompanied by a copy of the certified resolution of the issuer authorizing the filing of the Application for Reservation; and

WHEREAS, the Governing Board has determined to authorize the filing of an Application for Reservation in the amount of $120,000,000 with respect to qualified mortgage bonds; and

WHEREAS, the Department has previously received a reservation of a portion of the private activity bond State Ceiling applicable to the State for 2008 for qualified mortgage bonds pursuant to Bond Review Board Certificate of Reservation Docket Number 3687 (the "2008 Standard Reservation"); and

WHEREAS, upon receipt of the Emergency Reservation, the Department desires to convert an amount not to exceed the $60,000,000 of the amount of the State Ceiling reserved for qualified mortgage bonds and represented by the Standard Reservation and $60,000,000 of the amount of the State Ceiling represented by the Emergency Reservation to mortgage credit certificates ("MCCs"), to be used for the Department's 2009 Mortgage Credit Certificate Program (the "2009 MCC Program"); and

WHEREAS, the Governing Board desires to authorize the execution and delivery of the MCC Participation Agreement (the "Participation Agreement") in substantially the form attached hereto; and

WHEREAS, the Governing Board desires to approve the Program Manual (the "Program Manual") in substantially the form attached hereto, setting forth the terms and conditions upon which MCCs will be issued by the Department; and

WHEREAS, the Governing Board desires to approve the Program Summary (the "Program Summary") in substantially the form attached hereto setting forth the terms of the 2009 MCC Program; and

WHEREAS, the Governing Board desires to approve the use of an amount not to exceed $100,000 of Department funds to pay the costs of implementing the 2009 MCC Program; and

WHEREAS, the Governing Board desires to approve the forms of the Participation Agreement, the Program Manual and the Program Summary, in order to find the form and substance of such documents to be satisfactory and proper and the recitals contained therein to be true, correct and complete; and has determined to implement the 2009 MCC Program in accordance with such documents by authorizing the 2009 MCC Program, the execution and delivery of such documents and the taking of such other actions as may be necessary or convenient to carry out the 2009 MCC Program; NOW, THEREFORE,

BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

ARTICLE I
APPROVAL OF APPLICATION FOR RESERVATION

Section 1.1--Application for Reservation. The Governing Board hereby authorizes Vinson & Elkins L.L.P., as Bond Counsel to the Department, to file on its behalf with the Bond Review Board an Application for Reservation with respect to qualified mortgage bonds in the amount of $120,000,000, together with any other documents and opinions required by the Bond Review Board as a condition to the granting of the Emergency Reservation.

Section 1.2--Authorization of Certain Actions. The Governing Board authorizes the Executive Director or any Acting Executive Director, the staff of the Department as designated by the Executive Director or any Acting Executive Director, as appropriate, and Bond Counsel to take such actions on its behalf as may be necessary to carry out the purposes of this Resolution. The Executive Director or any Acting Executive Director, the staff of the Department, as designated by the Executive Director or any Acting Executive Director, and Bond Counsel are further authorized to submit to the Bond Review Board elections to carry forward the Standard Reservation and the Emergency Reservation.

Section 1.3--MCC Authority. Upon receipt of the Emergency Reservation, the Department shall take such steps as are necessary to convert $60,000,000 of its authority to issue qualified mortgage bonds under the Standard Reservation and $60,000,000 of its authority to issue qualified mortgage bonds under the Emergency Reservation to MCCs in order to implement the 2009 MCC Program.

ARTICLE II
APPROVAL OF MCC DOCUMENTS

Section 2.1--2009 MCC Program. The 2009 MCC Program is hereby authorized.

Section 2.2--Approval, Execution and Delivery of the Participation Agreement. The form and substance of the Participation Agreement are hereby approved, and that the authorized representatives of the Department named in this Resolution each are hereby authorized to execute, attest and affix the Department’s seal to the Participation Agreement, and to deliver the Participation Agreement to the other parties thereto.

Section 2.3--Approval of Program Manual and Program Summary. The form and substance of the Program Manual and Program Summary are hereby authorized and approved.

Section 2.4--Execution and Delivery of Other Documents. The authorized representatives of the Department named in this Resolution are each hereby authorized to execute, attest, affix the Department’s seal to and deliver such other agreements, advance commitment agreements, assignments, bonds, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices of acceptance, written requests, public notices and other papers, whether or not mentioned herein, as may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, the Participation Agreement, the Program Manual and the Program Summary.

Section 2.5--Power to Revise Form of Documents. Notwithstanding any other provision of this Resolution, the authorized representatives of the Department named in this Resolution are each hereby authorized to make or approve such revisions in the form of the documents attached hereto as exhibits as, in the judgment of such authorized representative, and in the opinion of Vinson & Elkins L.L.P., Bond Counsel to the Department, may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution, such approval to be evidenced by the execution of such documents by the authorized representatives of the Department named in this Resolution.

Section 2.6--Exhibits Incorporated Herein. All of the terms and provisions of each of the documents listed below as an exhibit shall be and are hereby incorporated into and made a part of this Resolution for all purposes:

Exhibit A - Participation Agreement
Exhibit B - Program Manual
Exhibit C - Program Summary

Section 2.7--Authorized Representatives. The following persons are each hereby named as authorized representatives of the Department for purposes of executing and delivering the documents and instruments referred to in this Article II: the Chairman of the Governing Board; the Vice Chair of the Governing Board; the Secretary to the Governing Board; the Executive Director or any Acting Executive Director of the Department, the Deputy Executive Director for Administration of the Department and the Director of Bond Finance of the Department.

Section 2.8--Department Contribution. The Department authorizes the contribution of Department funds in an amount not to exceed $100,000 to pay certain costs of implementing the 2009 MCC Program.

ARTICLE III
GENERAL PROVISIONS

Section 3.1--Purposes of Resolution. The Governing Board of the Department has expressly determined and hereby confirms that the implementation of the 2009 MCC Program contemplated by this Resolution accomplish a valid public purpose of the Department by providing for the housing needs of individuals and families of low, very low and extremely low income and families of moderate income in the State.

Section 3.2--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Governing Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Governing Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Governing Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Governing Board at which this Resolution was considered, and any documents made available to the Governing Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

Section 3.3--Effective Date. This Resolution shall be in full force and effect from and upon its adoption.

BOND FINANCE DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, discussion and approval of Resolution No. 09-008 authorizing the Department to seek a change in liquidity providers due to the ratings downgrade of current providers for seven outstanding variable rate demand obligations and a liquidity provider for new issuance of Single Family Variable Rate Mortgage Revenue Bonds, Program 71.

Required Action

Approval of Resolution No. 09-008 authorizing the Department to seek a change in liquidity providers due to the ratings downgrade of current providers for seven outstanding variable rate demand obligations and a liquidity provider for new issuance of Single Family Variable Rate Mortgage Revenue Bonds, Program 71.

Background

TDHCA has Standby Purchase Agreements (SBPA) with two liquidity providers, one with DEPFA Bank (**De**utsche **Pfa**ndbriefanstalt) totaling $175M and one with DEXIA (Dexia Banque Internationale) totaling $192M. After the Lehman Brothers bankruptcy and AIG bailout in mid September, DEPFA was downgraded to BBB and DEXIA was downgraded to AA- which caused $286M out of a possible $367M in variable rate demand bonds to become bank bonds. Bank bonds are bonds that the remarketing agent was unable to remarket so the liquidity provider steps in to purchases those bonds. When DEPFA purchased those bonds they were downgraded from A-1 to A-2. Our bank bonds held by DEXIA have not been downgraded.

Due to the above referenced events, Bond Finance is holding weekly meetings with our professionals to address these issues. The result of those meetings have focused staff into finding new liquidity providers with the intent to terminate DEPFA first as they have the most potential in affecting TDHCA's bond ratings. The next step is to terminate DEXIA and replace them with a new liquidity provider(s). With the new liquidity providers, our bank bonds will become marketable and at that point TDHCA will be able to re-enter the market with our new Single Family Mortgage Revenue Bond, Program 71.

During our September 4, 2008 board meeting, the Board approved DEXIA as the liquidity provider for Program 71. On September 30, 2008, DEXIA as mentioned was downgraded to AA- and on October 10, 2008 DEXIA informed TDHCA that it was withdrawing liquidity support for Program 71. After the Department is successful in acquiring a new liquidity provider(s) and after the bank bonds have been successfully remarketed, then TDHCA will be able to reassess the need of a new liquidity provider for Program 71. Staff is coming to the Board today for approval if needed of a new liquidity provider that will be used with Program 71.

Staff, in consultation with our financial advisor, is working with the Federal Home Loan Bank (FHLB) of Dallas and the Texas Comptroller of Public Accounts for replacement and new liquidity support. On October 23, 2008, the FHLB of Dallas approved becoming a liquidity facility and on October 24, 2008, TDHCA requested liquidity support from them. We have also requested The Texas Comptroller of Public Accounts to assist TDHCA with liquidity. Currently, the Comptroller is reviewing responses to a survey of other state issuers also in need of liquidity. They are primarily focused on general obligation or general revenue backed debt, but may consider revenue debt if they determine there is capacity. On

October 10, 2008, TDHCA also responded to a survey from NCSHA as they work with Fannie Mae for providing liquidity support.

Because of the unusual circumstances where by current liquidity providers are not offering new liquidity to anyone at this time, TDHCA is unable to select liquidity providers through a normal request for proposal process. TDHCA is searching for new liquidity providers such as the Federal Home Loan Bank of Dallas, the Texas Comptroller of Public Accounts, and Fannie Mae.

By authorizing a change in the two current liquidity providers (DEPFA and DEXIA), the Department will terminate those agreements and replace them with one or more (to be determined) highly-rated liquidity providers. Staff is requesting that the board delegate authority to the Chairman of the Board or Executive Director (the "Authorized Representative") to select new liquidity providers and approve the final terms of the liquidity facilities. The Authorized Representative shall select a liquidity provider that will produce a rating on the Bonds that is sufficient to allow the bonds to be successfully remarketed.

Recommendation

Approval of Resolution No. 09-008 authorizing the Department to seek a change in liquidity providers due to the ratings downgrade of current providers for seven outstanding variable rate demand obligations and a liquidity provider for new issuance of Single Family Variable Rate Mortgage Revenue Bonds, Program 71.

Resolution No. 09-008

RESOLUTION APPROVING REPLACEMENT OF THE LIQUIDITY FACILITIES FOR THE DEPARTMENT'S SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE REFUNDING BONDS, 2004 SERIES B, TAXABLE JUNIOR LIEN SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE BONDS, SERIES 2004A, SINGLE FAMLY VARIABLE RATE MORTGAGE REVENUE BONDS, 2004 SERIES D, SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE REFUNDING BONDS, 2005 SERIES A, TAXABLE SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE REFUNDING BONDS, 2005 SERIES C, SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE BONDS, 2006 SERIES H, AND SINGLE FAMILY VARIABLE RATE MORTGAGE REVENUE BONDS, 2007 SERIES A; AUTHORIZING ARRANGEMENTS RELATING TO SUBSTITUTE LIQUIDITY FACILITIES; APPROVING ARRANGEMENTS FOR LIQUIDITY FACILITY FOR THE VARIABLE RATE SINGLE FAMILY MORTGAGE REVENUE BONDS ASSOCIATED WITH PROGRAM 71; AUTHORIZING THE EXECUTION AND DELIVERY OF DOCUMENTS AND INSTRUMENTS RELATING THERETO; MAKING CERTAIN FINDINGS AND DETERMINATIONS IN CONNECTION THEREWITH; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for individuals and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time); and

WHEREAS, the Act authorizes the Department: (a) to make and acquire and finance, and to enter into advance commitments to make and acquire and finance, mortgage loans and participating interests therein, secured by mortgages on residential housing in the State of Texas (the "State"); (b) to issue its bonds, for the purpose, among others, of obtaining funds to acquire, finance or acquire participating interests in such mortgage loans, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such single family mortgage loans or participating interests, and to mortgage, pledge or grant security interests in such mortgages or participating interests, mortgage loans or other property of the Department, to secure the payment of the principal or redemption price of and interest on such bonds; and (d) to issue its revenue bonds for the purpose refunding any bonds theretofore issued by the Department or the Texas Housing Agency, its predecessor (the "Agency") under such terms, conditions and details as shall be determined by the Board; and

WHEREAS, the Department has previously issued its (i) Single Family Variable Rate Mortgage Revenue Refunding Bonds, 2004 Series B pursuant to the certain Single Family Mortgage Revenue Bond Trust Indenture dated as of October 1, 1980 between the Department, as successor to the Agency, and The Bank of New York Trust Company, N.A., as successor trustee (the "Trustee"), as supplemented and amended (collectively, the "Single Family Indenture"), and the Thirty-Seventh Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of April 1, 2004 between the Department and the Trustee; (ii) Taxable Junior Lien Single Family Variable Rate Mortgage Revenue Bonds, Series 2004A pursuant to that certain Junior Lien Trust Indenture dated as of May 1, 1994 between the Department and the Trustee, as amended and supplemented, and the Fourth Supplemental Junior Lien Trust Indenture (Series Supplement 2004A) between the Department and the Trustee; (iii) Single Family Variable Rate Mortgage Revenue Bonds, 2004 Series D pursuant to the Single Family Indenture and the Thirty-Ninth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of October 1, 2004 between the Department and the Trustee; (iv) Single Family Variable Rate Mortgage Revenue Refunding Bonds, 2005 Series A pursuant to the Single Family Indenture and the Forty-Second Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of April 1, 2005 between the Department and the Trustee; (v) Taxable Single Family Variable Rate Mortgage Revenue Refunding Bonds, 2005 Series C pursuant to the Single Family

Indenture and the Forty-Fourth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of December 1, 2005 between the Department and the Trustee; (vi) Single Family Variable Rate Mortgage Revenue Bonds, 2006 Series H pursuant to the Single Family Indenture and the Fifty-Third Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of November 1, 2006 between the Department and the Trustee; and (vii) Single Family Variable Rate Mortgage Revenue Bonds, 2007 Series A pursuant to the Single Family Indenture and the Fifty-Fourth Supplemental Single Family Mortgage Revenue Bond Trust Indenture dated as of June 1, 2007 between the Department and the Trustee; and

WHEREAS, the foregoing series of bonds are hereinafter collectively referred to as the "Prior Variable Rate Bonds" and the supplemental indentures pursuant to which such Prior Variable Rate Bonds were issued are hereinafter collectively referred to as the "Variable Rate Supplemental Indentures"; and

WHEREAS, liquidity support for the Prior Variable Rate Bonds is currently provided by Dexia Credit Local, acting through its New York Branch ("Dexia"), or by DEPFA BANK plc, acting through its New York Branch, pursuant to separate standby bond purchase agreements (the "Existing Liquidity Facilities"); and

WHEREAS, as a result of rating agency downgrades of the Existing Liquidity Facility providers, the secondary market for the Department's Prior Variable Rate Bonds has been severely impaired; and

WHEREAS, in accordance with the respective Variable Rate Supplemental Indentures and the Existing Liquidity Facilities, the Board now desires to approve and authorize (i) replacement of the Existing Liquidity Facilities and arrangements for a Substitute Liquidity Facility (as defined in the respective Variable Rate Supplemental Indenture) for each series of the Prior Variable Rate Bonds (collectively, the "Substitute Liquidity Facilities"), (ii) all actions to be taken with respect thereto, and (iii) the execution and delivery of all documents and instruments in connection therewith; and

WHEREAS, pursuant to Resolution No. 08-031 adopted on September 4, 2008, the Board approved Dexia Credit Local, acting through its New York Branch, as the provider of liquidity support for the Department's Single Family Variable Rate Mortgage Revenue Bonds expected to be issued to provide funds for the Department's Single Family Program No. 71 (the "New Variable Rate Bonds"); and

WHEREAS, Dexia has declined to provide liquidity support for the New Variable Rate Bonds and the Board therefore desires to approve and authorize (i) arrangements for a provider of liquidity support for the New Variable Rate Bonds (the "New Liquidity Facility"), (ii) all actions to be taken with respect thereto, and (iii) the execution and delivery of all documents and instruments in connection therewith;

NOW THEREFORE BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

ARTICLE I

REPLACEMENT OF EXISTING LIQUIDITY FACILITIES AND ARRANGEMENTS FOR NEW LIQUIDITY SUPPORT

Section 1.1--Replacement of Existing Liquidity Facilities. Replacement of the Existing Liquidity Facilities is hereby approved.

Section 1.2--Substitute Liquidity Facilities for Prior Variable Rate Bonds and Liquidity Support for New Variable Rate Bonds. The Chairman of the Board, the Executive Director or any Acting Executive Director of the Department and the Director of Bond Finance of the Department each are authorized hereby to complete arrangements for a Substitute Liquidity Facility for each series of the Prior Variable Rate Bonds and a replacement for Dexia, as the provider of liquidity support for the New Variable Rate Bonds, including in each case selection of the provider thereof and the approval of the final terms of the Substitute Liquidity Facilities and the New Liquidity Facility, and the authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all such Substitute Liquidity Facilities and the instrument representing the New Liquidity Facility, and documents, agreements and instruments in connection therewith.

Section 1.3--Execution and Delivery of Other Documents. The authorized representatives of the Department named in this Resolution each are authorized hereby to execute and deliver all agreements, certificates, contracts, documents, instruments, releases, financing statements, letters of instruction, notices, written requests and other papers, whether or not mentioned herein, as may be necessary or convenient to carry out or assist in carrying out the purposes of this Resolution.

Section 1.4--Authorized Representatives. The following persons are each hereby named as authorized representatives of the Department for purposes of executing and delivering the documents and instruments referred to in this Article I: the Chairman of the Board; the Vice Chair of the Board; the Secretary to the Board; the Executive Director or any Acting Executive Director of the Department; the Deputy Executive Director for Administration of the Department; and the Director of Bond Finance of the Department.

ARTICLE II

GENERAL PROVISIONS

Section 2.1--Effective Date. That this Resolution shall be in full force and effect from and upon its adoption.

Section 2.2--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

[Execution page follows]

PASSED AND APPROVED this 13th day of November, 2008.

HOME DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of Request for Amendments to HOME Program Contracts/Commitments:

1000950	City of Cleveland	OCC – DR
1000952	Liberty County	OCC – DR
1000951	City of Ames	OCC – DR
1000986	Creekside Villas Senior Village	RHD

Requested Action

Approve, Deny or Approve with Conditions Request for Amendment to HOME Investment Partnerships Program Commitment/Contracts:

1000950	City of Cleveland	OCC - DR
1000952	Liberty County	OCC – DR
1000951	City of Ames	OCC – DR
1000986	Creekside Villas Senior Village	RHD

City of Cleveland, Liberty County and City of Ames

Background

The City of Cleveland, Liberty County and City of Ames are each requesting an amendment to raise the maximum amounts of assistance that can be provided to homeowners for the reconstruction of their home to $75,000, $80,000 and $85,000, depending on family size.

All three administrators were awarded contracts at the May 8, 2008 board meeting. They each were awarded funds in the amount of $510,000 - $500,000 in project funds and $10,000 in administrative funds; each is required to assist seven (7) households with incomes at or below 50% Area Median Family Income (AMFI). Under the current rules, which were in place at the time the three administrators were awarded funds, maximum amounts of assistance are $60,000; $67,500 and $75,000, depending on family size.

All three administrators have cited the same reasons for requesting these amendments which is the increase of costs in the area. The costs of the materials, fuel, equipment operations, along with the costs of demolition and clean up have risen. The administrators further indicate that costs associated with closings, appraisals and surveys have also significantly increased.

HOME staff recommends that all three administrators be allowed to amend their contracts to increase the maximum amount of assistance as outlined in the proposed HOME Program Rules that were presented to the Board today.

It is important to note that these three contracts are still in the early stages of implementation and are working toward completing and meeting their first contractual benchmark, environmental clearance. The assigned Performance Team staff member will be in close communication with the city to ensure that this and all other benchmarks are met to ensure successful contract completion.

Current Contract Status

Amendment Number:	1
Administrator:	City of Cleveland

Recommendation

HOME staff recommends that the City of Cleveland, Liberty County and the City of Ames be allowed to amend their contracts to increase the maximum amounts of assistance as outlined in the proposed HOME Program Rules that were presented to the Board today.

Creekside Villas Senior Village

Background

On July 31, 2008 the Board approved a $1,200,000 HOME award for Creekside Villas Senior Village (application number 08253). The subject development is proposed to be a 144-unit elderly multifamily rental property located in Buda, Hays County. The development also received a 9% Housing Tax Credit award of $1,200,000 at the July 31, 2008 Board meeting.

On October 1, 2008, the Applicant submitted a request for consideration for $299,017 in additional Housing Tax Credits for applications that received 9% credits during the 2008 cycle pursuant to the Board's direction. Additionally, the Applicant's letter includes a second option for an amendment to increase their HOME loan from $1,200,000 to $3,000,000 and a decrease in the interest rate from the Long-term Applicable Federal Rate (AFR) to 0%. This request is being considered in conjunction with the Board's decision to allow applications awarded Housing Tax Credits during the 2008 competitive cycle to submit new information for staff's consideration. This second option also includes a smaller request for $29,017 in additional credits; however, this credit request has been evaluated separately as it is part of the package of additional Housing Tax Credit requests that is before the Board today under another agenda item.

The Applicant provided all pertinent documentation to support the request for an increase in the HOME loan. This documentation was reviewed by HOME staff and was reevaluated by the Real Estate Analysis (REA) Division for feasibility. The underwriting report with addendum is attached. In conjunction with the increase in the HOME loan, the Applicant has not elected to restrict any additional HOME units. However, no additional units are required to meet program or NOFA requirements and based on the REA evaluation, it appears that the development's ability to support additional restrictions is limited by cashflow. Moreover, the primary need for the increase in funds appears to be an increase in development costs of approximately $2,000,000 and a decrease in the syndication rate from 84% to 77%. The development continues to meet the Real Estate Analysis Rules and Guidelines, whether or not the Applicant receives an increase in Housing Tax Credits.

The Department's rules in Title 10 of the Texas Administrative Code, Section 1.19 (e)(2)(F) provides that the Board may approve additional funds out of deobligated sources for a previously awarded eligible contract "for circumstances considered unique or extenuating by the Department's Board." The Applicant has indicated that the current turmoil in credit markets warrants the increase in funds and that HOME funds may be more viable due to lack of demand for credits. However, the Applicant acknowledges that development costs were mistakenly understated at application.

The Portfolio Management and Compliance Division has reviewed the application and no issues of material non-compliance were identified. If approved by the Board, the Applicant will receive written agreements that reflect all conditions listed in the final amended underwriting report and any additional conditions deemed appropriate by the Department or Board. Staff will verify during a second compliance review at contract generation that there are no unresolved audit findings and questioned or disallowed cost prior to execution of the written agreement.

Current Development Information

Development Owner:	DDC Creekside Villas, Ltd.
Principal of General Partner	Crossroads Housing Development Corporation (CHDO)
Development Name:	Creekside Villas Senior Village
Contract:	Colby Denison
Site Location:	10.96 acres on FM 967
City/County:	Buda/Hays County
Regional Allocation Category:	Urban
Set-Aside:	CHDO
Population Served:	Elderly

Region:	7
Type of Development:	New Construction
Units:	29 HOME Units / 144 Total Units
Original Award Amount:	$1,200,000
Original Loan Terms:	Fully amortizing 35-year loan at AFR
Recommended Award Amount:	$3,000,000
Recommended Loan Terms:	Fully amortizing 35-year loan at 0%

Attached:

- Applicant’s loan modification request;
- Applicant Evaluation; and
- Underwriting Report.

Recommendation

Staff recommends approval of an increase in the current HOME Investment Partnerships Program Rental Housing Development Program award for Creekside Villas Senior Village (application number 08253) for a total loan of $3,000,000 subject to the terms and conditions reflected in the addendum to the underwriting report and any additional evaluation required to ensure that any other Board actions to award addition Housing Tax Credit does not result in more funding than is necessary. Staff recommends that the increase in funds be awarded from the Department’s available balance of deobligated HOME funds.

RE: HOME Owner Occupied Housing Assistance for Disaster Relief Application No. 2008-0009 and HOME Contract No. 1000950

Dear Ms. Arellano:

The City is requesting an amendment to raise the maximum amount we can expend per structure that will still allow for the completion of reconstructed homes within the total awarded allocation of $500,000.00 as was approved by the TDHCA Board. The City of Cleveland is requesting an amendment on the above contract, for the following reason(s):

> The maximum amount allowed per structure is not sufficient to complete the work required under the HOME Program. This is due to significant increases in construction costs in this area. We have obtained bid proposals for construction, closing cost, appraisal(s), and survey(s). Base on this information the City obtained, we believe that construction cannot be complete with the maximum amount of $60,000.00. We are requesting that the maximum amount be increase to $75,000.00, $80,000.00, and $85,000.00 depending on the family size.

There are several reasons why the overall cost of construction has increased in Liberty County. The costs of materials have risen rapidly. The rising cost of fuel has increased, equipment operation along with cost of demolition, and clean up. Further, with Liberty County being on the edge of much of the construction activity associated with Hurricane Rita assistance, construction costs are generally higher. This is because many of the construction contractors used in our program are working with a much higher dollar amount for the basically the same floor plan in TDHCA programs in neighboring counties.

Without this amendment, the City will not be able to complete the contract activities. We would appreciate your favorable consideration on this amendment request. If you have any questions please call the City's consultant Public Management Inc., Rick Valdez (281) 592-0439.

Sincerely,

Jill Kirkonis

Tom Gouris
Robbye Meyer
TDHCA
RE: #08253 Creekside Villas - Additional Tax Credit Analysis

Dear Tom and Robbye,

I had no idea how difficult it would be to accomplish the board's request to submit new sources and uses with backup letters from lender and syndicator. The market turmoil has caused almost weekly changes to the requirements by both lender and equity. The result is that I am submitting new sources and uses along with these comments.

Please find the following included in this submittal along with comments:

1) New Development Cost Schedule
    a. I have increased direct construction cost estimate to reflect what we believe will be the cost of these improvements. After speaking with many subcontractors, I had mistakenly assumed in my original application that most of the line items would be roughly equivalent to a 3 story stick frame product. Please note that we believe our changes are within 5% of those costs determined by underwriting. Here are highlighted examples of several line items that have increased due to these discussions:
        i. **(MEP)** I had assumed in my original application that mechanical, plumbing and electrical contractors would charge roughly the same price per fixture for the podium product as they did for our three story product. We have increased these budget line items.
        ii. **(CONCRETE PODIUM)** I increased the concrete estimate to reflect current pricing as provided by several podium concrete subcontractors. The podium aspect of these buildings is the most costly differential from a 3 story product.
        iii. **(MASONRY)** I had assumed masonry would be roughly the same per square foot, but discovered that the scaffolding and moving materials up to those heights on such a tall building is much more expensive. I have increased this budget line item.

        iv. **(GR, Overhead, Profit & Contringency)** General Requirements, Overhead, Profit and Contingency have all increased respectively along with the above increases.

2) PNC Equity Letter & JP Morgan Chase Debt Letter
3) New Summary Sources & Uses
4) New Rent Schedule
    a. Changed to reflect market study rents for 60% units
5) New Detailed Expense Schedule
    a. Reflects LOI with updated rents from Rent Schedule.

OPTION 2 – Additional tax credits and HOME Funds

We would like for TDHCA to consider the option of allocating additional HOME Funds to Creekside Villas, along with a change to the interest rate structure, in addition to providing additional tax credits. We were awarded $1.2MM in HOME Funds from the CHDO set-aside. We would like to request an additional $1.8MM in HOME Funds and change the rate of interest on the entire $3,000,000 of HOME Funds to 0%.

We believe that changing the structure of the interest rate will cause these funds to be taken out of basis which we have assumed in our model. We believe that there is more certainty and security for our project with additional HOME Funds than additional tax credits due to the uncertainty surrounding and lack of demand for tax credits. We also believe that TDHCA may need to allocate from sources other than tax credits depending upon the need statewide for the additional tax credits. We have submitted the financial proformas for this scenario for TDHCA to consider. This option will substantially reduce the additional tax credits requested by Creekside Villas from $299,017 to $29,017. In the event that TDHCA doesn't have enough tax credits to fully allocate all requests, this is certainly our preferred option.

Sincerely,

Colby Denison

Applications 08149 and 08150 are associated with HOME #537603, West Avenue Apartments. The development has a score of 29 but was identified with uncorrected issues of noncompliance. PMC staff is conducting an on-site monitoring visit on October 23rd; a determination of compliance will be made at that time.

No other issues were identified with the awards reviewed above. Please let me know if you have any questions or concerns.

Key Attributes: Seniors; New Construction, Urban, CHDO

ALLOCATION

	NEW REQUEST*			**RECOMMENDATION**		
TDHCA Program	Amount	Interest	Amort/Term	**Amount**	**Interest**	**Amort/Term**
HOME Activity Funds	$3,000,000	AFR	35/35	**$3,000,000**	**0.00%**	**35/35**
Housing Tax Credit (Annual)	$1,229,017			**$1,200,000**		

* The requested HOME loan amounts to a $1.8M increase in the original Board approved award. The requested HTC amount is based on the September 4, 2008 Board approved policy regarding HR3221to allow 2008 awards the opportunity to submit specific evidence for re-evaluation for consideration of additional credits.

CONDITIONS

1 Receipt, review, and acceptance of documentation by cost certification verifying no buildings and/or improvements to include drives are located in the 100-year floodplain. Should buildings or improvements be found to be in the floodplain, a flood hazard mitigation plan must be provided to include, at a minimum, consideration and documentation of floodplain reclamation sitework costs, building flood insurance and tenant flood insurance costs.

2 Receipt, review, and acceptance, by carryover, of updated loan and equity commitments which are not more than 30 days old.

3 Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

Income Limit	Rent Limit	Number of Units
30% of AMI	30%/ Low Home	8
50% of AMI	Low Home	6
60% of AMI	High Home*	15

* These High HOME units are designated as 50% units for tax credits

PROS	CONS
▫ This would be the first seniors only tax credit development in Buda.	▫ The Market Analyst's capture rate by unit type suggests that the market for 2 bedroom units targeting 60% households may be saturated; yet almost 1/3 of the units are designed to serve that market.

ADDENDUM

The subject transaction was originally underwritten during the 2008 9% cycle and was approved to receive an annual tax credit allocation of $1.2M in addition to a HOME award of $1.2M amortized over 35 years at AFR. It should be noted that the original underwriting analysis that was posted and presented to the TDHCA Board for approval reflected only 11 HOME designated units based on the information provided in the original application. However, subsequent to Board approval of the published underwriting report the Applicant provided a revised rent schedule to designate 29 HOME units. This revision did not change the proforma assumptions for the Underwriter or the Applicant and, therefore, had no impact on the original underwriting analysis or the recommended award amounts. However, in conjunction with the current amendment request the Underwriter has reflected the correct amount of HOME units required for the subject development.

On October 1, 2008 the Department received a request from the Applicant to amend the application as follows:

- An increase in the annual tax credits of $29,017 for a total annual allocation of $1,229,017.
- An increase in the HOME loan of $1.8M for a total HOME loan of $3M, and a restructure of the interest rate from AFR to 0%.

The Applicant has indicated that these changes are necessary because there is more certainty and security for the development with additional HOME funds than with uncertain market and lack of demand associated with additional tax credits alone.

Additionally, pursuant to the September 4, 2008 Board approved policy regarding HR3221, the Applicant took the opportunity to also submit a request for consideration of an additional allocation of credits in the amount of $299,017, given that the HOME funds remain at $1.2M. The September 4th approved policy provided that for all 2007 and 2008 awards that had not closed on their syndication for tax credits, additional information could be provided to the Department for consideration of additional credits. As of the date of this addendum the Applicant has not closed on the syndication of the tax credits.

The Underwriter has evaluated the impact of these changes on the financial viability of the transaction and the tax credit award based on the documentation provided and the requested changes. Only those portions of the report that are materially affected by the proposed changes are discussed below. This report should be read in conjunction with the original underwriting report with a full evaluation of the originally proposed development plan and structure.

It should be noted that the originally approved development plan continues to meet the Department's guidelines despite the drop in the credit price from $0.84 to the currently quoted $0.77. Based on the Underwriter's evaluation of the current proforma and construction costs provided by the Applicant, the decrease in tax credit equity would result in the need for $2,700,326 in additional funds. This amount is 25% more than the amount of developer fee available. The Department could require that a portion of the related or un-related contractor fee be deferred to cover the remaining gap, and the entire amount could be projected to be repaid within 15 years of stabilized operation.

This section intentionally left blank.

OPERATING PROFORMA ANALYSIS

Income:

The Underwriter's rent and income assumptions remain the same as in the original underwriting report. However, while initially, the Applicant chose not to anticipate the rents quoted by the Market Analyst as achievable but rather utilize rents that were $7 to $10 less than the underwritten rent for the units targeting 60% households, the revised rent schedule now indicates the market rents for these units.

The Applicant’s secondary income and vacancy and collection loss assumptions are in line with current TDHCA underwriting guidelines and effective gross income is within 5% of the Underwriter's estimate.

Expense:

The Applicant’s total revised annual operating expense projection at $3,857 per unit is within 5% of the Underwriter’s estimate of $3,937, derived from the TDHCA database, and third-party data sources. The Applicant’s budget shows several line item estimates that deviate significantly when compared to the database averages, specifically: General & Administrative ($16K lower), Repairs & Maintenance ($20K lower), and Water, Sewer & Trash ($32K higher).

Conclusion:

The Applicant’s effective gross income, operating expenses, and net operating income are within 5% of the Underwriter’s estimates; therefore, the Applicant's year one proforma will continue to be used to determine the development's debt capacity. The currently proposed permanent financing structure (including the increased $3M HOME funds) results in an initial year’s debt coverage ratio (DCR) of 1.18, which is within the Department’s DCR guideline of 1.15 to 1.35.

Feasibility:

The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.15 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

CONSTRUCTION COST ESTIMATE EVALUATION

Direct Construction Cost:

The Applicant’s revised development cost schedule reflects a $2M increase in total development costs, which the Applicant indicates is largely attributed to erroneous assumptions of a 3-story stick frame product instead of the proposed 4-story product. The Applicant indicates no changes in sitework or indirect construction costs; however, the direct construction cost estimate has been increased by $1M, and as a result, certain other eligible and ineligible costs have also shifted significantly according to the new cost schedule. It should be noted, the $817K or 5% increase in total development costs currently estimated by the Underwriter is entirely a result of the Applicant's increases in contingency, contractor & developer fees, ineligible costs and interim financing.

Accordingly, the Underwriter's direct construction cost estimate based on the current Marshall & Swift - derived estimate remains the same as underwriting at Application 5 months ago. This estimate is 6% lower than the Applicant’s current estimate.

Interim Interest Expense:

The Underwriter reduced the Applicant’s eligible interim financing fees by $93,750 to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant’s eligible basis estimate.

Contingency & Fees:

The Applicant’s contractor and developer fees exceed the maximums allowed by HTC guidelines by a total of $14,064 based on their own construction costs. Consequently the Applicant’s eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs.

Conclusion:

The Applicant’s total development cost is within 5% of the Underwriter’s estimate; therefore, the Applicant’s cost schedule will be used to determine the development’s need for permanent funds and to calculate eligible basis. An eligible basis of $16,547,930 supports annual tax credits of $1,489,314. This figure will be compared to the Applicant’s previously approved credits and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

Source:	TDHCA HOME			Type:	**Loan**			
Principal:	$3,000,000	Interest Rate:	4.2% AFR	☒	Fixed	Amort:	420	months

Comments:

Current request for 35 year amortization at 0% interest rate. Due to the significant financing restructure, the Applicant has removed the $3M in HOME funds from basis.

Source:	PNC Multifamily Capital		Type:	**Syndication**	
Proceeds:	$9,461,537	Syndication Rate:	77%	Anticipated HTC:	$ 1,200,000

Comments:

The anticipated credit price has decreased by $0.07 per dollar of credit, which has not had a significant impact on the viability of the originally structured transaction. Of note, although the submitted updated equity letter indicates anticipated tax credits of $1,499,017 (based on the Applicant's "Option 1" additional credit request without additional HOME funds), it appears that the Applicant's current revised request for tax credits ("Option 2" with additional HOME funds; $1,229,017) is also based on the lower $.077 credit price and higher 9% applicable percentage.

Amount:	$676,939	Type:	**Deferred Developer Fees**

CONCLUSIONS

Financing Structure based on Amendment Request:

As indicated above, the Applicant has requested an $1.8M increase in the originally approved HOME loan, which results in a total requested HOME loan of $3M.

The Applicant's total development cost estimate less the revised permanent loan of $5.5M and the originally awarded $1.2M in HOME funds indicates the need for $11,938,478 in gap funds. Based on the currently submitted syndication terms, a tax credit allocation of $1,550,762 annually would be required to fill this gap in financing. Alternatively, if the development were to receive the originally approved tax credit amount of $1.2M, resulting in proceeds of $9,238,152 based on the current $0.77 credit price, a gap in financing of $2.7M would result. This would required 100% of the developer fee available and a portion of the contractor fee, all of which is projected to be repaid within 15 years.

The Underwriter, therefore, recognizes that under the current underwriting proforma and based on the current construction costs, the Applicant displays a need for additional funds.

This section intentionally left blank.

The Applicant’s total development cost estimate less the revised permanent loan of $5.5M and the proposed $3M HOME loan indicates the need for $10,138,478 in gap funds. If the Applicant were to receive the original $1.2M in annual credits awarded in July 2008, syndication proceeds would amount to $9,238,152 based on the current credit price of $0.77. This would leave a gap in financing of $900,326 which amounts to 42% of the developer fee available and the development would remain feasible.

Alternatively, if the Board approves both the Applicant's request for increased HOME funds of $3M and total annual credits of $1,229,017 resulting in proceeds of $9,461,538, this would leave a gap of $676,940 or 31% of the developer fee available. This means that if the Board approves both the development would not be oversubsidized. However, as indicated above the development would remain feasible if only the additional HOME funds were granted.

Therefore, the Underwriter recommends approval of the increased HOME funds even if the additional tax credits are awarded separately.

The HOME award amount is below the 221(d)(3) limit for this project. In addition, the HOME award is below the prorata share of development cost based on the number HOME units to total units.

Return on Equity:

A subsidy layering evaluation of the cash on cash return on the deferred developer fee and syndication proceeds reflects a return of just over 1% annually over 30 years not accounting for the value of the credits to the investors. A simple return on only deferred developer fee based upon first year income is relatively high but this is less meaningful because it neglects to consider the tax credit induced equity. The Department's objectives of providing not more than is necessary to develop and operate safe decent and affordable housing will be met under the proposed financing structure.

DEVELOPMENT

Creekside Villas Senior Village

Location: 10.96 acres on FM 967 Region: 7

City: Buda County: Hays Zip: 78610 ☐ QCT ☐ DDA

Key Attributes: Seniors; New Construction, Urban, CHDO

ALLOCATION

	REQUEST			**RECOMMENDATION**		
TDHCA Program	Amount	Interest	Amort/Term	**Amount**	**Interest**	**Amort/Term**
HOME Activity Funds	$1,200,000	AFR	40/40	**$1,200,000**	**AFR**	**35/35**
Housing Tax Credit (Annual)	$1,200,000			**$1,200,000**		

CONDITIONS

1 Receipt, review, and acceptance of documentation by cost certification verifying no buildings and/or improvements to include drives are located in the 100-year floodplain. Should buildings or improvements be found to be in the floodplain, a flood hazard mitigation plan must be provided to include, at a minimum, consideration and documentation of floodplain reclamation sitework costs, building flood insurance and tenant flood insurance costs.

2 Receipt, review, and acceptance, by carryover, of updated loan and equity commitments which are not more than 30 days old.

3 Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

SALIENT ISSUES

30% of AMI	30% of AMI	8
50% of AMI	50% of AMI	50
60% of AMI	60% of AMI	86

TDHCA SET-ASIDES for HOME LURA		
Income Limit	Rent Limit	Number of Units
30% of AMI	30%/ Low Home	8
50% of AMI	Low Home	0
60% to 80% of AMI	High Home*	3

* These High HOME units are designated as 50% units for tax credits

This section intentionally left blank.

PROS	CONS
▫ This would be the first seniors only tax credit development in Buda.	▫ The Market Analyst's capture rate by unit type suggests that the market for 2 bedroom units targeting 60% households may be saturated; yet almost 1/3 of the units are designed to serve that market.

SITE ISSUES

Total Size: 10.96 acres Scattered site? ☐ Yes ☒ No
Flood Zone: Zones X & AE Within 100-yr floodplain? ☒ Yes ☐ No
Zoning: MFR Needs to be re-zoned? ☐ Yes ☒ No ☐ N/A

Comments:

According to the FEMA Flood Insurance Rate Map, the majority of subject site appears to be located Zone X; however, a small portion of the site along Onion Creek appears to be located in Zone AE, which is within the l00-year flood plain.

Receipt, review, and acceptance of documentation by cost certification verifying no buildings and/or improvements to include drives are located in the 100-year floodplain. Should buildings or improvements be found to be in the floodplain, a flood hazard mitigation plan should be provided to include, at a minimum, consideration and documentation of floodplain reclamation sitework costs, building flood insurance and tenant flood insurance costs is a condition of this report.

	Subject Units	Unstabilized Comparable (PMA)	Unstabilized Comparable (25% SMA)	Total Supply	Total Demand (w/25% of SMA)	Inclusive Capture Rate
Market Analyst p. 71	144	116	0	260	677	38.40%
Underwriter	144	0	0	144	348	41.42%
HISTA Data Model	144	0	0	144	416	34.59%

It should be noted, Huntington is a proposed 120-unit 9% HTC development targeting seniors within the defined PMA boundaries; however, it is a lower scoring application as of the date of this underwriting report, and even if it were to be funded, this analysis suggests support for additional units and the inclusion of the 116 LIHTC units still yields a capture rate marginally below the Department maximum of 75% for senior developments.

Primary Market Occupancy Rates:

"The average occupancy for comparable properties in the subject's primary market area was reported at 94.16%. Occupancy rates and rental rates in this market area have remained stable over the past few years, with gradual increases in rent" (p. 10)

Absorption Projections:

"Considering the strong absorption history of similar properties and the lack of available quality affordable units in this market, we project that the subject property will lease to stabilized occupancy within six to eight months following completion of the construction." (p.85)

RENT ANALYSIS (Tenant-Paid Net Rents)					
Unit Type (% AMI)	Proposed Rent	Program Maximum	Market Rent	Underwriting Rent	Savings Over Market

2 BR 968 SF 50%	$731	$731	$865	$731	$134
2 BR 968 SF 60%	$855	$891	$865	$865	$0

Market Impact:

"Based on the high occupancy levels of the existing properties in the market, along with the strong recent absorption history, we project that the subject property will have minimal sustained negative impact upon the existing apartment market. Any negative impact from the subject property should be of reasonable scope and limited duration." (p.12)

Comments:

The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

Concentration:

Staff has calculated the concentration rate of the areas surrounding the property in accordance with section 1.32 (i)(2) of the Texas Administrative Code approved in 2007. The Underwriter has concluded a census tract concentration of less than 1 unit per square mile which is less than the 1,432 units per square mile limit and a Primary Market Area concentration of 9.7 units per square mile which is less than the 1,000 units per square mile limit. Therefore, the proposed development is in an area which has an acceptable level of apartment dispersion based upon the Department's standard criteria.

OPERATING PROFORMA ANALYSIS

Income: Number of Revisions: None Date of Last Applicant Revision: N/A

The Underwriter utilized the lesser of the Market Analyst's market rent conclusion or the projected rents collected per unit calculated by subtracting tenant-paid utility allowances as of January 1, 2007, maintained by the Kyle Housing Authority, from the 2008 program gross rent limits. Tenants will be required to pay electric utility costs only. The Applicant chose not to anticipate the rents quoted by the Market Analyst as achievable but rather utilized rents that are $7 to $10 less than the underwritten rent for the units targeting 60% households.

This section intentionally left blank.

The Applicant’s secondary income and vacancy and collection loss assumptions are in line with current TDHCA underwriting guidelines, and despite the Applicant's use of slightly lower rents for the 60% units, effective gross income is within 5% of the Underwriter's estimate.

Expense: Number of Revisions: None Date of Last Applicant Revision: N/A

The Applicant’s total annual operating expense projection at $3,847 per unit is within 5% of the Underwriter’s estimate of $3,937, derived from the TDHCA database, and third-party data sources. The Applicant’s budget shows several line item estimates that deviate significantly when compared to the database averages, specifically: General & Administrative ($17K lower), Repairs & Maintenance ($20K lower), and Water, Sewer & Trash ($32K higher).

Conclusion:

The Applicant’s effective gross income, operating expenses, and net operating income are within 5% of the Underwriter’s estimates; therefore, the Applicant's year one proforma will be used to determine the development's debt capacity. The proposed permanent financing structure results in an initial year’s debt coverage ratio (DCR) of 1.35, which is within the Department’s DCR guideline of 1.15 to 1.35.

Feasibility:

The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.15 and continued positive cashflow. Therefore, the development can be characterized as feasible for the long-term.

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE Number of Revisions: None Date of Last Applicant Revision: N/A

Acquisition Value:

The site cost of $100,347 per acre or $7,639 per unit is assumed to be reasonable since the acquisition is an arm’s-length transaction.

This section intentionally left blank.

Sitework Cost:

The Applicant claimed sitework costs over the Departments maximum guideline of $9,000 per unit and provided sufficient third party certification through a detailed certified cost estimate by an engineer to justify these costs. In addition, these costs have been reviewed by the Applicant’s CPA, Thomas Stephen & Company, LLP, to preliminarily opine that all $2.2M will be considered eligible. The CPA has not indicated that this opinion of eligibility has taken into account the effect of the recent IRS Technical Advisory Memorandums on the eligibility of sitework costs.

Direct Construction Cost:

The Applicant’s direct construction cost estimate is $635K or 8% lower than the Underwriter’s Marshall & Swift Residential Cost Handbook-derived estimate.

Interim Interest Expense:

The Underwriter reduced the Applicant’s eligible interim financing fees by $12,600 to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant’s eligible basis estimate.

Contingency & Fees:

The Applicant’s contractor and developer fees exceed the maximums allowed by HTC guidelines by a total of $1,891 based on their own construction costs. Consequently the Applicant’s eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs.

Conclusion:

The Applicant’s total development cost is within 5% of the Underwriter’s estimate; therefore, the Applicant’s cost schedule will be used to determine the development’s need for permanent funds and to calculate eligible basis. An eligible basis of $14,794,652 supports annual tax credits of $1,230,915. This figure will be compared to the Applicant’s request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

SOURCES & USES Number of Revisions: 1 Date of Last Applicant Revision: 4/4/2008

Source: PNC Multifamily Capital Type: **Interim to Permanent Financing**

Interim: $8,400,000 Interest Rate: 6.0% ☒ Fixed Term: 24 months

Permanent: $5,300,000 Interest Rate: 6.77% ☒ Fixed Amort: 420 months

Comments:

Interim Rate: floating at LIBOR plus 200 bps; Permanent Rate will be estimated at close of construction based 10 year treasury plus 200 bps, underwritten at 6.77%

Source: TDHCA HOME Type: **Loan**

Principal: $1,200,000 Interest Rate: 4.2% AFR ☒ Fixed Amort: 420 months

Comments:

Original request was for 40 year amortization but latest info suggests Applicant is willing to have parity amortization with conventional lender at 35 years. Must maintain AFR interest rate or significant rent restructure or HOME funds removed from basis.

This section intentionally left blank.

Source: PNC Multifamily Capital Type: **Syndication**

Proceeds: $10,077,984 Syndication Rate: 84% Anticipated HTC: $ 1,200,000

Comments:

Due to the recent volatility in credit pricing, it should be noted, any decrease in rate could increase the amount of deferred developer fee. A decrease below $0.68 per dollar of credit may increase the amount of deferred developer fee such that 100% of the fee would be utilized and the need to defer contractor fee may be warranted; additionally, a decrease below $0.52 per credit dollar may jeopardize the financial viability of the transaction. Alternatively, should the final credit price increase to more than $0.842, all deferred developer fees would be eliminated and an adjustment to the credit amount may be warranted.

Amount: $28,797 Type: **Deferred Developer Fees**

Market Uncertainty:

The financial market for tax credit developments from both a loan and equity perspective are in their greatest period of uncertainty since the early 1990's and fluctuations in pricing and private funding are expected to continue to occur. The Underwriter has evaluated the pricing flexibility independently for credits and interest rates under which this development could continue to be considered financially feasible. Because of the significant number of potential scenarios, the Underwriter has not modeled the potential impact of movement on both interest rates and equity pricing occurring at the same time.

Due to the uncertainty in the market and the potential for such movement in both equity pricing and interest rates, this report is conditioned upon updated loan and equity commitments at the submission of carryover. Should the revised commitments reflect changes in the anticipated permanent interest rate(s) and equity price, a re-evaluation of the financial feasibility of the transaction should be conducted.

CONCLUSIONS

Recommended Financing Structure:

The Applicant’s total development cost estimate less the permanent loan of $5,300,000 and the $1.2M HOME loan indicates the need for $10,106,783 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $1,203,429 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant’s request ($1.2M), the gap-driven amount ($1,203,429), and eligible basis-derived estimate ($1,230,915), the Applicant’s request of $1.2M is recommended resulting in proceeds of $10,077,984 based on a syndication rate of 84%.

The Underwriter’s recommended financing structure indicates the need for $28,799 in additional permanent funds. Deferred developer fees in this amount appear to be repayable from development cashflow within one year of stabilized operation.

The HOME award amount is below the 221(d)(3) limit for this project. In addition, the HOME award is below the prorata share of development cost based on the number HOME units to total units.

Return on Equity:

A subsidy layering evaluation of the cash on cash return on the deferred developer fee and syndication proceeds reflects a return of just over 1% annually over 30 years not accounting for the value of the credits to the investors. A simple return on only deferred developer fee based upon first year income is relatively high but this is less meaningful because it neglects to consider the tax credit induced equity. The Department's objectives of providing not more than is necessary to develop and operate safe decent and affordable housing will be met under the proposed financing structure.

Re: TDHCA Outreach Activities

The attached document highlights outreach activities on the part of TDHCA staff for September and October 2008. The information provided focuses primarily on activities Executive and staff has taken on voluntarily, as opposed to those mandated by the Legislature (i.e., tax credit hearings, TEFRA hearings, etc.). This list may not account for every activity undertaken by staff, as there may be a limited number of events not brought to my attention.

For brevity sake, the chart provides the name of the event, its location, the date of the event, division(s) participating in the event, and an explanation of what role staff played in the event. Should you wish to obtain additional details regarding these events, I will be happy to provide you with this information.

TDHCA Outreach Activities, September/October 2008

A compilation of activities designed to increase the awareness of TDHCA programs and services or increase the visibility of the Department among key stakeholder groups and the general public
