a) Presentation, Discussion and Possible Approval of the Policy for Implementation of HR 3221 on the Housing Tax Credit Program including possible allocation of 2008 Housing Tax Credit ceiling [This item was posted to the website on August 29, 2008]

Public Comment:

Michael Hartman, Dennis Hoover, Dan Algier, Bill Fisher, Robert Johnson, Mike Sugrue, Granger McDonald, Nicole Flores, Ray Lucas, Sarah Andre, Dianna McIver, Dick Kilday, Barry Kahn, Mahesh Aiyer, Terri Anderson all spoke on draft plans for credit use and necessary changes.

Gloria Ray made a motion seconded by Juan Muñoz to provide some clarifications based on HR 3221 additional credits and related issues as follows:

1. **Additional credits to all 2007 Awards (whether awarded from the 2007 ceiling of a 2008 forward commitment) that have not closed utilizing a gap method, allowing for new syndication letters and a 9% rate applied to qualified basis. No new cost documentation will be submitted.**

2. **No additional Credits to 2007 Awards that have closed but allowed them to submit specific evidence for reevaluation that includes new sources and uses and the final debt equity as closed by September 18, 2008. Any additional credits warded based on this submission will be made in the November meeting.**

3. **No action is being taken on 2008 awards.**

4. **Where amendments are needed to the 2006, 2007, or 2008 deals to help cost engineer developments should be submitted to be considered in the November and December meetings.**

5. **The $1.2 cap per transaction is waived for awards from 2007 and 2008 relating to the possible increase of HR 3221 or other credits. The awards are not limited to the $1.2 million cap or their original application request.**

6. **The 2 million dollar cap will apply to the ceiling of the cap year awarded the additional credits regardless of the initial award.**

7. **The board has extended to December 1 or 11 months from allocation. The 2009 QAP will include an incentive to submit the 10% test by June 1 for points in the following year.**

8. **The requirement to have the property purchased will be moved from carry-over to the 10% test as long as site control is maintained.**

9. **The Board waives any non-statutory penalties for applicants awarded credits who return these credits between September 3, 2008 and November 1, 2008. Credits returned after November 1, 2008 will have the penalties applied.**

The final motion passed unanimously.

NOTE: For a complete review of this discussion, the transcript must be read on both September 3, 2008 and September 4, 2008. The topic was originally tabled On September 3, 2008 after discussion on a motion made by Gloria Ray and seconded by Tom Cardenas and unanimously supported. On September 4, 2008, the issue was taken off the table on a motion by Gloria Ray, seconded by Tom Cardenas, and unanimously supported. The above final motion was then made and approved.

Item 3: Rules:

a) Presentation, Discussion and Possible Approval to publish the proposed amendments of 10 TAC, Chapter 1, §§31-37, Draft 2009 Real Estate Analysis Rules and Guidelines in the *Texas Register*

Motion made to approve draft rules for publication in the *Texas Register* by Tom Cardenas, seconded by Juan Muñoz, and passed unanimously.

b) Presentation, Discussion and Possible Action on the publication in the *Texas Register* of a notice proposing the repeal of the following chapters of Title 10, Part 1 of the Texas Administrative Code: Chapter 5 concerning Community Services Programs, Chapter 6 concerning Energy Assistance Programs, and Chapter 8 concerning Project Access Rules

Motion made to approve draft repeal of rules for publication in the *Texas Register* by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

c) Presentation, Discussion and Possible Action on the publication in the *Texas Register* of a notice proposing new Title 10, Part 1 of the Texas Administrative Code, Chapter 5 concerning Community Affairs Programs

Public Comment by Stella Rodriguez.

Motion made to approve draft rules with amendments provided at the meeting for publication in the *Texas Register* by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

d) Presentation, Discussion and Possible Approval to publish a draft of proposed amendments to 10 TAC Chapter 7, First-Time Homebuyer Program rules for comment in the *Texas Register*

Motion made to approve draft rules for publication in the *Texas Register* by Tom Cardenas, seconded by Gloria Ray, and passed unanimously.

e) Presentation, Discussion and Possible Approval to publish the proposed repeal of 10 TAC Chapter 53, HOME Investment Partnership Program, and a draft of proposed new 10 TAC Chapter 53, HOME

Program Rule for comment in the *Texas Register*

Public Comment by Robin Cisco.

Motion made to approve the repeal and draft rules for publication in the *Texas Register* by Tom Cardenas and Leslie Bingham-Escareño and passed unanimously

f) Presentation, Discussion and Possible Approval to publish the proposed amendments of 10 TAC Chapter 51, Housing Trust Fund Rule for comment in the *Texas Register*

Motion made to approve draft rules for publication with the staff requested addition of adding, "repaid" to definition 37 in the *Texas Register* by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

g) Presentation, Discussion and Possible Approval to publish the proposed repeal of 10 TAC Chapter 49, concerning 2007 Housing Tax Credit Program Qualified Allocation Plan and Rules, and a draft of proposed new 10 TAC Chapter 49, concerning 2009 Housing Tax Credit Program Qualified Allocation Plan and Rules for comment in the *Texas Register*

Public comment by: Cyrus Reed, Michael Hartman, Fay Dai, Charles Price, Sunshine Matthews, Sarah Anderson, Dianna McIver, Granger McDonald and Chris Richardson.

Motion made to approve the repeal and draft rules for publication in the *Texas Register* by Gloria Ray, seconded by Juan Muñoz, and passed unanimously.

h) Presentation, Discussion and Possible Approval to publish the proposed repeal of 10 TAC Chapter 35, Multifamily Housing Revenue Bond Rules, and a draft of proposed new 10 TAC Chapter 35, 2009 Multifamily Revenue Bond Rules for comment in the *Texas Register*

Motion made to approve repeal and draft rules for publication in the *Texas Register* by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

Item 4: Housing Resource Center:

a) Presentation, Discussion and Possible Approval of the 2009 State of Texas Consolidated Plan: One-Year Action Plan draft for Public Comment

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

b) Presentation, Discussion and Possible Approval of the 2009 Regional Allocation Formula Methodology (Draft for Public Comment)

Motion made to approve staff recommendation on a motion by Tom Cardenas, seconded by Juan Muñoz, and passed unanimously.

c) Presentation, Discussion and Possible Approval of the 2009 Affordable Housing Needs Score (Draft for Public Comment)

Motion made to approve staff recommendation on a motion by Juan Muñoz, seconded by Tom Cardenas, and passed unanimously.

Item 5: Internal Audit:

a) Approval of Minutes of the June 26, 2008 Audit Committee Meeting

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

b) Presentation, Discussion and Possible Approval of the Internal Audit Division's Fiscal Year 2009 Audit Plan

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Leslie Bingham-Escareño, and passed unanimously.

c) Status of the Internal Audit Division's Fiscal Year 2008 Audit Plan

No Action Taken

d) Presentation and Discussion of the State Auditor's Office Audit Report on the Single Family Mortgage Revenue Bond Program

Additional Comment by Matt Pogor and Gary Machak

No Action Taken

e) Presentation and Discussion of the Department of Housing and Urban Development's Monitoring Report on CDBG Disaster Recovery Funds

No Action Taken

f) Status of External Audits

No Action Taken

Item 6: Real Estate Analysis:

a) Presentation, Discussion and Possible Action for 2008 Competitive Housing Tax Credit Appeals of Underwriting

08260	Harris Manor Apartments

Public Comment by Etan Miwis and George Littlejohn

Motion made by Leslie Bingham-Escareño to grant the appeal, seconded by Tom Cardenas and passed unanimously.

b) Presentation, Discussion and Possible Action on Housing Tax Credit Allocation Amount for IRS Forms 8609:

05195 / 08059	San Gabriel Senior Village

Public comment by Cynthia Bast

Motion made by Gloria Ray to approve an allocation of $54,454 from the 2008 credit ceiling and seconded by Leslie Bingham Escareño and passed

unanimously

Item 7: Disaster Recovery:

a) Presentation and Discussion of the Disaster Recovery Division's Status Report on CDBG and FEMA AHPP Contracts Administered by TDHCA

No Action Taken

b) Presentation, Discussion and Possible Approval of a Substantial Amendment to Harris County's portion of the Partial Action Plan for Disaster Recovery to Use Community Development Block Grant CDBG Funding

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Tom Cardenas, and passed unanimously.

c) Presentation, Discussion, and Possible Approval Related to Unobligated Funds under CDBG Round 1

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Leslie Bingham Escareño, and passed unanimously.

d) Presentation, Discussion and Possible Approval of CDBG Disaster Recovery Multifamily Rental Award Extensions and Amendments

07903	Brittany Place Homes

Public Comment by Sharon Adams, Mark Viatore and Bill Fisher

Motion made to approve staff recommendation on a motion by Juan Muñoz, seconded by, and passed unanimously.

e) Presentation, Discussion and Possible Approval of Requests for Amendments to CDBG Disaster Recovery Contracts Administered by TDHCA for CDBG Round 1Funding

C060003	SETRPC

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Juan Muñoz, and passed unanimously.

Item 8: Bond Finance:

a) Presentation, Discussion and Possible Approval of Resolution 08-030 authorizing the issuance of TDHCA's Single Family Mortgage Revenue Bonds (Draw Down Facility)

Motion made to approve staff recommendation on a motion by Gloria Ray, seconded by Leslie Bingham-Escareño, and passed unanimously.

b) Presentation, Discussion and Possible Approval of a Request for Proposal ("RFP") for investment banking firms interested in providing investment banking services as Senior Manager and Co-Manager for one or more proposed single family mortgage revenue bonds starting in 2009

Motion made to approve staff recommendation on a motion by Leslie Bingham-Escareño, seconded by Gloria Ray, and passed unanimously.

c) Presentation, Discussion and Approval of Resolution No. 08-033 authorizing application to the Texas Bond Review Board for reservation of HR 3221 single family private activity bond authority

Motion made to approve staff recommendation on a motion by Leslie Bingham-Escareño, seconded by Gloria Ray, and passed unanimously.

d) Presentation, Discussion and Possible Approval of Resolution 08-031 authorizing the issuance of TDHCA's Single Family Mortgage Revenue Bonds, 2008 Series A and Single Family Variable Rate Mortgage Revenue Bonds, 2008 Series B (Program 71)

Motion made to approve staff recommendation on a motion by Tom Cardenas, seconded by Leslie Bingham Escareño, and passed unanimously.

Item 9: HOME Division:

a) Presentation and Discussion of the Current HOME Fund Balance Report

No Action Taken

b) Presentation, Discussion and Possible Approval of HOME Program Award Recommendations

Disaster Relief Program		
2008-0061	LaSalle County	Cotulla
Homebuyer Assistance Program		
2008-0032	FUTURO Communities	Uvalde
Tenant Based Rental Assistance		
2008-0055	Center for Health Care Serv.	San Antonio

Motion made to approve all of item (b) remaining on agenda staff recommendation on a motion by Gloria Ray, seconded by Tom Cardenas and passed unanimously.

c) HOME Rental Housing Development Program and Determination of Housing Tax Credits

08405	Sierra Ridge	Georgetown

Withdrawn from Agenda

Item 10: Multifamily Division Items - Housing Tax Credit Program Items:

a) Presentation, Discussion and Possible Approval of Housing Tax Credit Amendments

03184 Pegasus Dallas

Public Comment by Twilla Revelle

Motion made to postpone item to next board meeting made by Gloria Ray and seconded by Leslie Bingham Escareño and passed unanimously

04432 Mariposa Apartment Communities San Marcos

Public Comment by Stuart Shaw

Motion made to postpone item to next board meeting made by Gloria Ray and seconded by Leslie Bingham Escareño and passed unanimously

07203 Melbourne Senior Community Alvin

Public Comment by Bill Shircliff, Larry Buehler and Barry Palmer.

Motion made by Gloria Ray to approve the amendment requested by applicant, seconded by Tom Cardenas, and passed unanimously.

07206 Villa Estella Trevino Edinburg

Public Comment from Gilberto De Los Santos, Estella Trevino, and Froylan Soliz (testimony made in Spanish translated by Annette Cornier)

Motion made by Leslie Bingham Escareño to approve the amendment requested by applicant, seconded by Juan Muñoz, and passed unanimously.

07291 Cypress Creek Houston

Public Comment by Stuart Shaw and Barry Palmer

Motion made by Gloria Ray to approve the amendment requested by applicant, seconded by Juan Muñoz, and passed unanimously.

COMMUNITY AFFAIRS DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Review and Possible Approval of the 2009 Section 8 Payment Standards for Housing Choice Vouchers.

Required Action

Staff recommends approval of the 2009 Section 8 Payment Standards for Housing Choice Vouchers in accordance with 24 CFR Section 982.503.

Background

The U.S. Department of Housing and Urban Development (HUD) at 24 CFR 982.503, requires Public Housing Authorities (PHAs), such as the Texas Department of Housing and Community Affairs (the Department), to adopt annually a payment standard schedule that establishes voucher payment standard amounts for each Fair Market Rent (FMR) area in the PHA jurisdiction. The PHA must establish payment standard amounts for each "unit size," defined as the number of bedrooms (one-bedroom, two-bedrooms, etc.) in each housing unit.

The Department, operating as a PHA, may establish the payment standard amount at any level between 90 percent and 110 percent of the published FMR for that unit size. The Department operates its Housing Choice Voucher Program in 31 counties. Staff recommends establishing its payment standard at 100 percent of FMR for 30 of those counties and 110 percent of FMR for the remaining county. Of the 31 counties in which the Department provides Section 8 housing assistance, 30 counties will remain at 100 percent of FMR, 1 county (Ellis) will remain at 110 percent of FMR. Due to the cost of housing in Ellis County, the FMR for the county, and the income levels of Housing Choice Voucher Program participants in the county will remain at 110% of the payment standard so that the Department can continue to cover its portion of the housing assistance payments for tenants in this county.

Staff recommends these payment standards because it will allow current tenants to continue to afford the units they have selected, will help new tenants find affordable units, and should allow the Department to stay within the budget that we expect for fiscal year 2009. The attached Exhibit A details the Department's recommended payment standards.

Recommendation

Approve the 2009 Section 8 Payment Standards for Housing Choice Vouchers, Resolution #09-010 as presented by staff.

RESOLUTION NO. 09-010

RESOLUTION OF THE BOARD OF DIRECTORS ADOPTING PAYMENT STANDARD FOR SECTION 8 HOUSING CHOICE VOUCHERS

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to Chapter 2306, Texas Government Code, as amended (the "Act"), for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for persons and families of low and very low income (as defined in the Act) and families of moderate income (as described in the Act and determined by the Governing Board of the Department (the "Board") from time to time);

WHEREAS, 24 CFR Section 982.503, Voucher tenancy, states that a Public Housing Authority (PHA) must adopt a payment standard schedule that establishes voucher payment amounts for each Fair Market Rent (FMR) area in the PHA jurisdiction. The PHA must establish payment standard amounts for each "unit size."

WHEREAS, the PHA's voucher payment standard schedule shall establish a single payment standard for each unit size in an FMR area;

WHEREAS, the Department in operating as a PHA may establish the payment standard amount for a unit size at any level between 90 percent and 110 percent of the published FMR for that size unit;

WHEREAS, the payment standard amounts on the PHA schedule are used to calculate the monthly housing assistance payment for a family;

WHEREAS, the Department has reviewed the Payment Standards by geographic area, and wishes to establish a Payment Standard at 100 percent of FMR in the areas so referenced in the attached Payment Standards;

WHEREAS, the Department wishes to establish payment standards at 110 percent of FMR in the area so referenced in the attached Payment Standards; and

WHEREAS, such Payment Standards meet the guidelines of the Federal Registers, HUD Handbooks, Notices, Transmittals, and the needs of these communities.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

The Governing Board hereby approves and adopts the attached Section 8 Payment Standards for Housing Choice Vouchers for each jurisdiction in which the Department participates as a PHA. The Payment Standards are attached as Exhibit A.

This Resolution shall be in full force and effect from and upon their adoption. The Department shall initiate the Payment Standards effective **January 1, 2009**.

Written notice of the date, hour, and place of the meeting of the Board at which this Resolution was considered, and the subject of this Resolution, was furnished to the Secretary of State and posted for at least seven (7) days preceding the convening of such meeting, on a bulletin board in the main office of the Secretary of State located at a place convenient to the public; that such place was readily accessible to the general public at all times from the time of such posting until the convening of such meeting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code; and that written notice of the date, hour, and place of the meeting of the Board and of the subject of this Resolution was published in the *Texas Register* at least seven (7) days preceding the convening of such meeting, as required by the Texas Government Code § 2306 and Texas Register and Texas Government Code, respectively.

PASSED AND APPROVED this 13th day of November 2008.

FINANCIAL ADMINISTRATION DIVISION

BOARD ACTION REQUEST
November 13, 2008

Report Item
4th Quarter Investment Report

Required Action
Presentation of the Department's 4th Quarter Investment Report

Background

- This report is in the prescribed format and detail as required by the Public Funds Investment Act. It shows in detail the types of investments, their maturity, their carrying (face amount) value and fair value at the beginning and end of the quarter.

- Overall, the portfolio carrying value increased by $21,450,518 for a total of $1,731,932,872. There were 3 new Multi-Family issuances for a total of $41 million during the 4th quarter. The Residential Mortgage Revenue Bond indenture paid $10 million in principal and $8 million in interest. The remaining difference is accounted for by construction draws made by multi-family projects currently under construction and interest earnings from investments.

  The portfolio consists of (See Page 4):

	Beginning Quarter	Ending Quarter
Mortgage Backed Securities (MBS)	76%	77%
Guaranteed Investment Contract/ Investment Agreement (GIC/IA)	17%	11%
Repurchase Agreements	4%	8%
Other (Cd's, MM's, T-Bonds)	3%	4%

The 6% decrease in GIC/IA is a result of liquidation of long term investments to prepare for Single Family indenture debt service and the remaining decrease is accounted by construction draws related to multi-family projects. The 4% increase in Repurchase Agreements is a result of the investments of funds from GIC/IA to pay for debt service during the month of September related to the Single Family indenture.

The portfolio activity for the quarter:

- $53,431,468 of MBS purchases during the quarter represent portfolio activity for new loans originated.

- The maturities in MBS this quarter were $21,242,337 which represents loan payoffs. The table below shows a strong trend in new loans and loan payoffs.

	4th Qtr	**1st Qtr**	**2nd Qtr**	**3rd Qtr**	**4thQtr**	
	FY 07	**FY 08**	**FY 08**	**FY 08**	**FY 08**	**Total**
Purchases	68,725,501	95,998,230	93,023,499	42,139,623	53,431,468	353,318,321
Sales						
Maturities	21,031,442	20,582,531	18,007,506	21,441,989	21,242,337	102,305,805

- The fair value (the amount at which a financial instrument could be exchanged in a current transaction between willing parties) decreased $6,988,955 (See Pages 1 and 5) increasing the difference between fair value and carrying value (the Department's acquisition cost of its financial instruments net of amortization) with fair value being less. The national average for a 30-year fixed mortgage as reported by HSH Associates Financial Publishers (a national clearinghouse of mortgage data) was 7.00% for the end of August up from 6.56% at the end of May. The spread between the market rate and our below-market rates is increasing. There are various factors that affect the fair value of these investments but there is a correlation between the prevailing mortgages of interest rates and the change in market value.

- Given the current financial environment, this change in market value is to be expected. If current mortgage rates continue to increase, the Department can expect another decrease in market value next quarter. However, the change is cyclical and is reflective of the overall change in the bond market as a whole.

- The process of valuing investments at fair value (market value) generates unrealized gains and losses. These gain or losses do not impact the overall portfolio because the Department does not liquidate these investments (mortgage backed securities) but holds them until maturity.

- The fact that our investments provide the appropriate cash flow to pay debt service and eventually retire the related bond debt is more important than their relative value in the bond market as a whole.

- The more relevant measures of indenture parity, projected future cash flows, and the comparison of current interest income to interest expense are not part of a public funds investment report. The next page is an additional analysis prepared by the Bond Finance group (it is not part of the PFIA report). This report shows parity (ratio of assets to liabilities) by indentures with assets greater than liabilities in a range from 103.10% to 115.39% which would indicate the Department has sufficient assets to meet its obligations. This is considered strong by rating agencies. The interest comparison shows interest income greater than interest expense by indenture and indicates a current positive cash flow.

* No relationship can be drawn between the "ACCRUED INT RECVBL @ 08/31/08" figures and the corresponding investment values, because of various factors (e.g. purchase date of investment; interest payment terms-daily, monthly & semi-annual; etc..).
In addition to the aforementioned factors with regards to the Multi Family Indenture, the Department is carrying $139,614,923 of investments pledged as reserves by participating entities. The Department is carrying these investments with their corresponding liability purely for tracking the flow of funds.

(b) (8) The Department is in compliance with regards to investing its funds in a manner which will provide by priority the following objectives: (1) safety of principal, (2) sufficient liquidity to meet Department cash flow needs, (3) a market rate of return for the risk assumed, and (4) conformation to all applicable state statutes governing the investment of public funds including Section 2306 of the Department's enabling legislation and specifically, Section 2256 of the Texas Government Code, the Public Funds Investment Act.

HOME DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of Revisions to the HOME Program 2008 Single Family (Owner-Occupied Housing Assistance, Tenant-Based Rental Assistance, and Homebuyer Assistance Programs), Contract for Deed Program, 2008 Single Family Persons with Disabilities, Rental Housing Development Program, and Community Housing Development Program Notices of Funding Availability (NOFAs) to be updated with the adopted HOME Program Rule changes.

Requested Action

Approve, Deny or Approve with Amendments the Revisions to the HOME Program 2008 Single Family (Owner-Occupied Housing Assistance, Tenant-Based Rental Assistance, and Homebuyer Assistance Programs), Contract for Deed Program, 2008 Single Family Persons with Disabilities, Rental Housing Development Program, and Community Housing Development Program Notices of Funding Availability (NOFAs) to be updated with the adopted HOME Program Rule changes.

Background

All open and active HOME Program Notices of Funding Availability (NOFAs), reflecting multiple activity types, are combined in this one action item. All of the NOFAs have been amended to reflect changes associated with the revised HOME Program Rule (10 TAC Chapter 53) that will be considered for approval by the Board today. Staff has also made minor administrative corrections. Based on public comment received, staff is recommending a change to Section 53.1 of the HOME Program Rule to allow applicants to opt into the 2009 HOME Program Rule. The updated and amended NOFAs are attached with blackline reflecting the changes recommended by staff.

For the Rental Housing Development NOFA, any 2007 unused funds will be transferred into the 2008 RHD NOFA as previously approved by the Board. Staff recommends the following clarifications and revisions to the Rental Housing Development NOFAs (CHDO and non-CHDO) that are not necessitated by rule changes. The specific language can be viewed in the attached NOFA.

- Clarification of the rent restrictions applicable for the NOFA’s required income targeting of 5% of the total units for families earning at or below 30% of area median family income.
- Addition of specific additional income and rent targeting requirements that, if met, will allow forgivable debt and clarification that contingent repayment structures will only be recommended under specific circumstances.
- Addition of a requirement that payment and performance bonds be secured when the Department’s funds have first lien position and are used to finance construction activities.
- Revision of language specifying the required formatting for the application, which will be described in further detail in the Final Application Submission Procedures Manual (ASPM).

Recommendation

Staff recommends approval of the updated and amended HOME Program 2008 Single Family (Owner-Occupied Housing Assistance, Tenant-Based Rental Assistance, and Homebuyer Assistance Programs), Contract for Deed Program, 2008 Single Family Persons with Disabilities, Rental Housing Development Program, and Community Housing Development Program Notices of Funding Availability (NOFAs) to be updated with the adopted HOME Program Rule changes and approval to release for publication in the *Texas Register*.

Texas Department of Housing and Community Affairs

HOME Investment Partnerships Program (HOME)

2008 Single Family

(Owner-Occupied Housing Assistance, Tenant-Based Rental Assistance, and Homebuyer Assistance Programs)

Notice of Funding Availability (NOFA)

1) **Summary.**
   a) The Texas Department of Housing and Community Affairs ("the Department") announces the availability of $23,034,118 in funding from the HOME Investment Partnerships Program (HOME) funds for single family housing programs including owner-occupied housing assistance, homebuyer assistance, and tenant-based rental assistance to assist low income Texans. As published in the 2008 State of Texas Consolidated Plan One-Year Action Plan, $16,123,882 is available for the owner-occupied Housing Assistance (OCC) Program, $3,455,118 is available for the Homebuyer Assistance (HBA) Program, and $3,455,118 is available for the Tenant-Based Rental Assistance (TBRA) Program.

   b) The availability and use of these funds is subject to the Department's HOME Program Rule at Title 10 Texas Administrative Code (10 TAC) Chapter 53 in effect at the time the application is submitted, the Federal HOME regulations governing the HOME program (24 CFR Part 92), and Chapter 2306, Texas Government Code. Other federal regulations may also apply such as, but not limited to, 24 CFR parts 50 and 58 for environmental requirements, 24 CFR §85.36 and §84.42 for conflict of interest and 24 CFR Part 5, subpart A for fair housing. Applicants are encouraged to familiarize themselves with all of the applicable state and federal rules that govern the program.

2) **Allocation of Funds.**
   a) These funds are made available through the Department's 2008 annual HOME allocation from the U.S. Department of Housing and Urban Development (HUD) and may also include uncommitted, deobligated and program income HOME funds. The funds are set-aside for eligible applicants proposing to provide assistance to eligible homeowners in need of rehabilitation or reconstruction of their primary residence, homebuyers for the acquisition including downpayment and closing costs toward the purchase of a home, and

households seeking tenant-based rental assistance. Households assisted with HOME funds must be at or below 80% of the Area Median Family Income (AMFI), as defined by HUD.

b) In accordance with Texas Government Code Chapter 2306.111, housing funds awarded in the HOME Program must be allocated utilizing the Regional Allocation Formula (RAF) developed by the Department. Funds are allocated for each Program Activity to each Uniform State Service Region and rural and urban area types.

c) In accordance with 10 TAC §53.48(a) this NOFA will be an open application cycle. Funds will first be available for HOME Program Activities, specified in this NOFA, utilizing the RAF for each activity, on a first-come, first-served basis. Applications will be accepted by the Department on an on-going basis utilizing the funds allocated by the RAF until the earlier of the request of all funds or **5:00 p.m. Wednesday, October 15, 2008, regardless of method of delivery.**

d) **On Thursday, October 16, 2008** funds for each HOME Program Activity not requested under the open cycle utilizing the RAF will be made available statewide (excluding PJs) in any Uniform State Service Region. Funds will remain set-aside within each HOME Program Activity. Applications will be accepted by the Department on an on-going basis until the earlier of the request of all funds or **5:00 p.m. Thursday, January 15, 2009, regardless of method of delivery.**

e) **On Friday, January 16, 2009** any funds not requested under the statewide, Program Activity specific open cycle, will be made available in any Uniform State Service Region (excluding PJs) for any eligible HOME Program Activity specified in this NOFA. Applications will be accepted by the Department on an on-going basis until the earlier of the award of all funds or **5:00 p.m. Thursday, April 30, 2009, regardless of method of delivery.**

f) Requirements of the Regional Allocation Formula and 10 TAC §53.48(a) will be utilized in prioritizing funding recommendations. Applicants may apply for the maximum allowed in each activity even though the amount of available funds utilizing the RAF may be less. However, only the maximum allowable under the RAF will be recommended for award during the RAF period.

3) Limitation on Funds.

a) Funds will not be eligible for use in a Participating Jurisdiction (PJ). Any HOME funds available for serving households in a PJ will only be made available under a separate NOFA for Persons with Disabilities as described in the 2008 State of Texas Consolidated Plan One-Year Action Plan.

b) The Department awards HOME funds to eligible entities and the maximum award amount may not exceed $~~375~~390,000, including administrative costs, for Owner-Occupied Housing Assistance, $~~300~~312,000, including administrative costs, for Homebuyer Assistance, and $~~300~~336,000, including administrative costs, for Tenant-

Based Rental Assistance. Up to $~~500~~520,000, including administrative costs, may be awarded to Homebuyer Assistance applicants whose Service Area includes multiple counties within a Uniform State Service Region. An Applicant may submit an Application to apply for additional funding as long as the Applicant is 100% committed on their current contract for the same activity funded under this NOFA.

c) With the exception of Tenant-Based Rental Assistance, the minimum HOME assistance amount per unit may not be less than $1,000 per HOME assisted unit. The per-unit subsidy may not exceed the per-unit dollar limits established by the U. S. Department of Housing and Urban Development (HUD) under §221(d)(3) of the National Housing Act, which are applicable to the area in which the housing is located, and as published by HUD. The purchase price of the housing unit, plus the value of the rehabilitation or reconstruction if applicable, must not exceed 95% of the area's median purchase price as specified in the HUD 203(b) Limits.

d) Each applicant that is awarded HOME funds may also be eligible to receive funding for administrative costs. The award amount for administrative costs shall not exceed the amount allowed per 10 TAC §53.85~~ for each type of activity including:~~. Administrator must use funds for Administrative costs in accordance with 24 CFR §92.207. For the OCC and HBA Program Activities, funds for Administrative Costs cannot exceed 4% of the total project costs for the entire contract term. For the TBRA Program Activity, funds for Administrative Costs cannot exceed 4% of the total project funds per year of the Contract term.

~~i)OCC (Reconstruction) – Maximum Percentage for Administrative Costs based on Total Project Costs is two percent (2%)~~

~~ii)OCC (Rehabilitation Only) – Maximum Percentage for Administrative Costs based on total Project Costs is two percent (2%)~~

~~iii)HBA (Downpayment & Closing Costs Only) – Maximum Percentage for Administrative Costs is four percent (4%)~~

~~iv)TBRA – Maximum Percentage for Administrative Costs is four percent (4%)~~

e) In accordance with §53.72, before the effective date of the HOME Contract, the Contract Administrator may incur and be reimbursed for travel costs, as provided for with Administrative funds, related to mandatory implementation training required by the Department as a condition of receiving a HOME award and Contract.

4) Eligible and Prohibited Activities.

a) Eligible activities include those permissible under the federal HOME Final Rule at 24 CFR §92.205 and the Department's HOME Program Rule at 10 TAC §53.31 for OCC, §53.32 for HBA, and §53.33 for TBRA.

b) Prohibited activities include those at 24 CFR §92.214 and 10 TAC §53.37.

5) **Eligible and Ineligible Applicants.**

a) Eligible Applicants are Units of General Local Government**,** Nonprofit Organizations**,** Public Housing Authorities (PHAs), and for-profit entities.

b) Applicants may be ineligible for funding if they meet any of the criteria listed in 10 TAC §53.42 of the Department's HOME Program Rule. Applicants are encouraged to familiarize themselves with the Department's certification and debarment policies prior to application submission.

6) **Matching Funds.**

Applicants will be required to submit documentation on all financial resources to be used in the development that may be considered match to the Department's federal HOME requirements. Applicants must provide firm commitments as defined in accordance with the Federal HOME rules at 24 CFR §92.218 and the Department's Match Guide and will be provided with the appropriate forms and instructions on how to report eligible match.

7) **Affordability Requirements.**

a) Applicants should be aware that there are minimum affordability periods necessary for HOME-assisted housing. The unit assisted must be the primary residence of the homebuyer. Single family housing units assisted with HOME funds must comply with the required affordability requirements as defined at 24 CFR §92.254. Awarded entities will provide the HOME assistance to the homebuyer in the form of a loan. Each loan will be in the form of a zero percent (0%) interest, deferred forgivable loan with a term based on the total amount of assistance provided and in accordance with 24 CFR §92.254. All loans to assisted homebuyers must be evidenced by loan documents provided by the Department. Each loan to an assisted homebuyer and homeowners must be payable to Department. Each loan for reconstruction or rehabilitation shall be evidenced by a construction loan agreement, note, deed of trust, mechanic's lien note, and mechanic's lien contract secured by the property and must be fully executed before any construction activities commence.

b) If at any time prior to the full loan period there occurs a resale of the property, a refinance of any superior lien, a repayment of any superior lien, or if the unit ceases to be the assisted Household's principal residence, the remaining loan balance shall become due and payable.

c) Forgiveness of the loan balance is calculated based on a pro-rata annual share of the loan term. The anniversary date of the loan shall constitute completion of the year. Any partial year shall not be waived. The amount due will be based on the pro-rata share number of years of the remaining loan term.

d) In the event the home is sold (voluntary or involuntary)~~,~~; the assisted Household will pay the loan balance from the shared net proceeds of the sale. The shared net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs. A copy of the HUD closing statement must be provided.

8) **Site and Construction Restrictions.**

a) Pursuant to 24 CFR §92.251, housing that is constructed or rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion. In the absence of a local code for new construction or rehabilitation, HOME-assisted new construction or rehabilitation must meet, as applicable, the International Residential Code, Texas Minimum Construction Standards (TMCS) and be in compliance with the basic access standards in new construction, established by §2306.514, Texas Government Code. In addition, housing that is rehabilitated with funds awarded under this NOFA must meet all applicable energy efficiency standards established by §2306.187 of the Texas Government Code, and energy standards as verified by RESCHECK, in accordance with the Final Rule.

b) At the completion of the assistance, all properties must meet the International Residential Code and local building codes. If a home is reconstructed, the applicant must also ensure compliance with the universal design features in new construction, established by Chapter 2306.514, Texas Government Code, required for any applicant utilizing federal or state funds administered by TDHCA in the construction of single family homes.

c) All other HOME-assisted housing (e.g., acquisition) must meet all applicable State and local housing quality standards and code requirements and if there are no such standards or code requirements, the housing must meet the housing quality standards in 24 CFR §982.401. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a)(1).

d) Rental units secured though HOME assistance must be inspected prior to occupancy and must comply with Housing Quality Standards (HQS) established by HUD in 24 CFR Part 92.

9) **Owner-Occupied Housing Assistance (OCC*).***

a) A total of $16,123,882 in funding released under this NOFA may be used to administer an Owner-Occupied Housing Assistance Program to provide eligible households with loans for the rehabilitation or reconstruction of existing -owner-occupied housing and earning 80 percent (80%) or less of the Area Median Family Income (AMFI) as defined by HUD. As defined in 10 TAC §53.31(d)(1), the home must be the principal residence of the homeowner.

b) The table below shows the allocation of funds to the 13 State Service Regions and the corresponding rural and urban distribution within each region.

Table 1. OCC Regional, Rural, and Urban Funding Amounts							
Region	Place for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban Funding Amount	Urban Funding %
1	Lubbock	910,061	5.6%	909,892	100.0%	169	0.0%
2	Abilene	597,429	3.7%	584,786	97.9%	12,643	2.1%
3	Dallas/Fort Worth	2,851,824	17.7%	875,549	30.7%	1,976,275	69.3%
4	Tyler	2,049,849	12.7%	1,598,672	78.0%	451,177	22.0%
5	Beaumont	947,455	5.9%	858,034	90.6%	89,421	9.4%
6	Houston	1,145,014	7.1%	469,856	41.0%	675,158	59.0%
7	Austin/Round Rock	685,992	4.3%	386,245	56.3%	299,747	43.7%
8	Waco	756,726	4.7%	402,488	53.2%	354,238	46.8%
9	San Antonio	823,099	5.1%	516,486	62.7%	306,613	37.3%
10	Corpus Christi	1,166,337	7.2%	966,385	82.9%	199,952	17.1%
11	Brownsville/Harlingen	2,833,963	17.6%	2,054,998	72.5%	778,965	27.5%
12	San Angelo	818,629	5.1%	571,332	69.8%	247,297	30.2%
13	El Paso	537,503	3.3%	298,381	55.5%	239,122	44.5%
	Total	$16,123,882	100.0%	$10,493,105	65.1%	$5,630,777	34.9%

c) ~~As per~~In accordance with 10 TAC §53.47(a)(1), the maximum award amount for OCC shall not exceed $~~375~~390,000, including administrative costs, per Application. In accordance with §53.85 up to 4% of the total project costs may be requested for administrative costs.~~In accordance with 10 TAC §53.85, up to two percent (2%) of the requested project funds may be requested for administrative costs.~~

d) Owner-Occupied Housing Assistance to a household is provided in the form of a loan and in accordance with 10 TAC §53.31(g), the maximum amount of assistance is the total of construction costs and ~~(including~~ soft costs~~)~~ provided to an eligible household. The total construction costs are ~~is~~ limited to~~as follows~~ :

~~i)~~i) Rehabilitation that is Reconstruction: The lesser of $73.00 per square foot or $80,000, if the Reconstruction includes actual costs for an aerobic septic system and/or demolition. If the Reconstruction includes costs for an aerobic septic system and/or demolition, the total construction costs cannot exceed $73.00 per square foot exclusive of the aerobic septic system and demolition costs; and,~~for 1 to 4 person Household: $65,000 60,000Rehabilitation that is Reconstruction for 1 - to 4 person Household: $6065,000;~~

~~ii)Rehabilitation that is Reconstruction for 5 - to 6 person Household: $6772,500;~~

~~iii)Rehabilitation that is Reconstruction for 7 or more person Household: $7580,000; and,~~

~~iv)~~ ii) Rehabilitation that is not Reconstruction: $30,000

e) In accordance with 10 TAC §53.73~~2~~(a)(1), the contract term for OCC Program Activity shall not exceed ~~22~~24 months and performance under the contract will be evaluated according to the following benchmarks:

   i) 6 months, exempt administrative and broad review environmental clearance must be complete, and if not tiering, the first Household to be assisted must be environmentally cleared;

   ii) 8 months, Authority to Use Grant Funds must be fully executed and all Households to be assisted must be environmentally cleared;

   iii) 12 months, 100% of funds must be committed to Households to be assisted;

   iv) 18~~5~~ months, 100% of Household's Loans must be closed, if applicable;

   v) 22~~0~~ months, 100% of construction must be complete for all Households to be assisted; and

   vi) 24~~2~~ months, 100% funds drawn and 100% of match requirement supplied.

10) A minimum threshold score of 25 is required in order to be considered for funding. The following threshold criteria listed in the subsection are mandatory requirements at the time of application submission unless specifically indicated otherwise and will be included in the written agreement, if awarded funds:

   i) **Affordable Housing Needs Score:** Points range from zero to seven as published by the Department. Maximum 7 points.

   ii) **Match**: Per 24 CFR §92.218, the Department will recognize eligible forms of matching contributions made from nonfederal resources. The following table will be used to determine match requirement and associated points:

Table 2. OCC Housing Program Required Community Match Contributions

City Population	County Population	Required Match % of Project Funds Requested	Points	Additional Points
< 3000	< 20,000	5%	10	10 points for each additional percent of match provided
3,000 – 5,000	20,000 – 75,000	10%	10	7 points for each additional percent of match provided
> 5,000	> 75,000	12.5%	10	5 points for each additional percent of match provided

iii. ~~iv.~~ **Income Targeting**: In order to meet its annual goal of assisting very low to extremely low income families, the Department incentivizes application points for income targeting of households assisted. The following table will be used to determine income targeting requirements and associated points. Maximum 20 points. In accordance with the Housing Assistance Rider of the Department's Legislative Appropriation, in order to meet the 30% and below AMFI goal, Applicants, if awarded, may use the state average median family income to determine income eligibility for eligible households living in those counties where the area median family income is lower than the state average median family income.

~~For those counties where the Area Median Family Income (AMFI) is at or below the state average median family income the applicant will receive the same number of points for income targeting when serving households at or below 50% AMFI as those counties exceeding the statewide median income targeting households at or below 30% AMFI. Maximum 20 points.~~

Table 3. Point Incentives for Income Targeting

Income Target	Points
0% to 29.99 % of units at 60% AMFI	1
30% to 59.99 % of units at 60% AMFI	3
60% to 100 % of units at 60% AMFI	5
0% to 29.99% of units at 30% AMFI	+6
30% to 59.99% of units at 30% AMFI	+11
60% to 100% of units at 30% AMFI	+15

~~iii)~~iv. **Cash Reserve**: Each awarded applicant will be required to expend funds according to program guidelines and request funds from the Department for eligible expenses. Every Applicant must evidence the ability to administer the program and commit adequate cash reserves of at least $120,000 to facilitate administration of the program during the Department's disbursement process. Cash reserves are not permanently invested in the project but are used for short term deficits that are reimbursed by program funds. Evidence of this commitment and the amount of the commitment must be included in the Applicant's resolution and budget.

~~iv)~~v. **Resolution:** All applications submitted must include an **original** resolution from the Applicant's direct governing body, authorizing the submission of the Application, commitment and amount of cash reserves for use during the contract period, source of funds for match obligation and match dollar amount, naming of a person and the person's title authorized to represent the organization and signature authority to execute a contract. If an Applicant that is a nonprofit organization is requesting a waiver of the grant application fee, they must do so in the resolution, and must state that the nonprofit organization offers expanded services such as child care, nutrition programs, job training assistance, health services, or human services. The resolution must be signed and dated within the six months preceding the application submission date.

~~v)~~vi. **Description of Demand**: All applicants must submit a narrative that describes in detail the demand evidenced for the proposed number of units to be assisted in the proposed service area. Source data, calculations, assumptions, and pictures of housing stock must be included.

11) Homebuyer Assistance (HBA).

a) Approximately $3,455,118 of HOME Funds released under this NOFA shall be used to administer a Homebuyer Assistance Program, providing downpayment and closing cost assistance (including soft costs) to eligible first time homebuyers for the acquisition of affordable single family housing.

b) The table below shows the allocation of funds to the 13 State Service Regions and the corresponding rural and urban distribution within each region.

Table 4. HBA Regional, Rural, and Urban Funding Amounts

Region	Place for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban Funding Amount	Urban Funding %
1	Lubbock	195,013	5.6%	194,977	100.0%	36	0.0%
2	Abilene	128,020	3.7%	125,311	97.9%	2,709	2.1%
3	Dallas/Fort Worth	611,105	17.7%	187,618	30.7%	423,488	69.3%
4	Tyler	439,253	12.7%	342,573	78.0%	96,681	22.0%
5	Beaumont	203,026	5.9%	183,864	90.6%	19,162	9.4%
6	Houston	245,360	7.1%	100,683	41.0%	144,677	59.0%
7	Austin/Round Rock	146,998	4.3%	82,767	56.3%	64,232	43.7%
8	Waco	162,156	4.7%	86,247	53.2%	75,908	46.8%
9	San Antonio	176,378	5.1%	110,676	62.7%	65,703	37.3%
10	Corpus Christi	249,929	7.2%	207,082	82.9%	42,847	17.1%
11	Brownsville/Harlingen	607,278	17.6%	440,357	72.5%	166,921	27.5%
12	San Angelo	175,421	5.1%	122,428	69.8%	52,992	30.2%
13	El Paso	115,179	3.3%	63,939	55.5%	51,240	44.5%
	Total	**$3,455,118**	**100.0%**	**$2,248,523**	**65.1%**	**$1,206,595**	**34.9%**

c) In accordance with 10 TAC §53.47(a)(1), the maximum award amount for HBA shall not exceed $~~300~~312,000, including administrative costs, per Application; however, up to $~~500~~520,000, including administrative costs, may be awarded to HBA Applicants whose Service Area includes multiple counties within a Uniform State Service Region. ~~In accordance with the 2008 Consolidated Plan One Year Action Plan,~~ In accordance with 10 TAC §53.85(a)(1), for the HBA Program Activities, funds for Administrative costs cannot exceed 4% of the total project costs for the entire Contract term. ~~up to four percent (4%) of the requested project funds may be requested for administrative costs.~~

d) In accordance with §53.32(e), the maximum amount of assistance is the total of the ~~for~~ downpayment and closing cost assistance and ~~(including~~ soft costs~~)~~ provided to an eligible household. The total amount of downpayment and closing cost assistance is limited to $2~~1~~0,000.

e) In accordance with 10 TAC 53.32(m), t~~T~~he following first lien purchase loan requirements are imposed for households receiving Homebuyer Assistance:

   i) No adjustable rate mortgage loans (ARMs) or interest rate buy-down loans are allowed;

   ii) No mortgages with a loan to value equal to or greater than 100% are allowed;

   iii) No S~~s~~ubprime ~~m~~Mortgage ~~l~~Loans are allowed;

   iv) An origination fee and any other fees associated with the mortgage loan may not exceed 2% of the loan amount; and,

   v) The debt to income ratio (back-end ratio) may not exceed 45%.

f) HBA assistance will be in the form of a 0% interest 5 or 10 year deferred forgivable loan ~~depending~~ contingent upon the total amount of assistance, creating a 2nd or 3rd lien with a term based on the federal affordability requirements as defined in 24 CFR §92.254.

g) In accordance with 10 TAC §53.73~~2~~(a)(2), the contract term for the HBA Program Activity shall not exceed 24 months and performance under the contract will be evaluated according to the following benchmarks:

   i) 6 months, exempt administrative and environmental clearance must be complete for at least one Household to be assisted;

   ii) 12 months, environmental clearance must be complete for at least 50% of the Households to be assisted, 50% of funds must be committed, 25% of funds drawn, and 25% of match supplied;

   iii) 18 months, environmental clearance must be complete for at least 75% of the Households to be assisted, 75% of funds must be committed, 50% of funds drawn, and 50% of match requirement supplied; and

   iv) 24 months, 100% of funds must be committed, 100% of funds drawn, and 100% of matched supplied.

h) A minimum threshold score of 15 is required in order to be considered for funding. The following threshold criteria listed in the subsection are mandatory requirements at the time of application submission unless specifically indicated otherwise and will be included in the written agreement, if awarded funds:

i) **Affordable Housing Needs Score:** Points range from zero to seven, as published by the Department. Maximum 7 points.

ii) **Match**: the following table will be used to determine match requirement and associated points:

Table 5. HBA Program Required Community Match Contributions

Required Match % of Project Funds Requested	Points	Additional Points
5%	10	10 points for each additional percent of match provided

iii) **Income Targeting:** In order to meet its annual goal of assisting very low to extremely low income families, the Department incentivizes application points for income targeting of households assisted The following table will be used to determine income targeting requirements and associated points. Maximum 20 points.

Table 6. Point Incentives for Income Targeting

Income Target	Points
0% to 29.99% of units at 60% AMFI	3
30% to 59.99% of units at 60% AMFI	7
60% to 100% of units at 60% AMFI	10

iv) **Cash Reserve**: Each awarded applicant will be required to expend funds according to program guidelines and request funds from the Department for eligible expenses. Every Applicant must evidence the ability to administer the program and commit adequate cash reserves of at least $60,000 to facilitate administration of the program during the Department’s disbursement process. Cash reserves are not permanently invested in the project but are used for short term deficits that are paid by program funds. Evidence of this commitment and the amount must be included in the Applicant’s resolution and budget.

v) **Resolution:** All applications submitted must include an **original** resolution from the Applicant’s direct governing body, authorizing the submission of the Application, commitment and the amount of cash reserves for use during the contract period, source of funds for match obligation and match dollar amount, naming of a person and the person’s title authorized to represent the organization and signature authority to execute a contract. If an Applicant that is a nonprofit organization is requesting a waiver of the grant application fee, they must do so in the resolution, and must state that the nonprofit organization offers expanded services such as child care, nutrition programs, job training assistance, health services, or human services. . The resolution must be signed and dated within the six months preceding the application deadline date.

vi) **Description of Demand**: It will be a threshold requirement to submit a narrative that describes in detail the demand evidenced for the proposed number of units to be assisted in the proposed service area. Source data, calculations and assumptions must be included.

vii) **Homebuyer Counseling:** It will be a threshold requirement for each applicant to submit the level of homebuyer counseling that will be provided. A minimum of 8 hours of homebuyer counseling must be provided. Evidence must include documentation describing the level of homebuyer counseling proposed, including post purchase counseling. Applicant must state who will provide the homebuyer counseling. A copy of the curriculum and a copy of the proposed written agreement for service provider (if the applicant is not providing the service) must also be provided.

12) Tenant-Based Rental Assistance (TBRA).

a) Approximately $3,455,118 of HOME funds released under this NOFA shall be used to administer a Tenant-Based Rental Assistance Program to provide eligible households rental subsidies, including security and utility deposits to tenants earning 80 percent (80%) or less of the Area Median Family Income (AMFI) as defined by HUD. In accordance with 24 CFR 92.216, not less than 90% of the households assisted with respect to TBRA or rental units, must have incomes at or below 60% of the AMFI, as defined by HUD.

b) The table below shows the allocation of funds to the 13 State Service Regions and the corresponding rural and urban distribution within each region.

Table 7. TBRA. Regional, Rural, and Urban Funding Amounts

Region	Place for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban Funding Amount	Urban Funding %
1	Lubbock	195,013	5.6%	194,977	100.0%	36	0.0%
2	Abilene	128,020	3.7%	125,311	97.9%	2,709	2.1%
3	Dallas/Fort Worth	611,105	17.7%	187,618	30.7%	423,488	69.3%
4	Tyler	439,253	12.7%	342,573	78.0%	96,681	22.0%
5	Beaumont	203,026	5.9%	183,864	90.6%	19,162	9.4%
6	Houston	245,360	7.1%	100,683	41.0%	144,677	59.0%
7	Austin/Round Rock	146,998	4.3%	82,767	56.3%	64,232	43.7%
8	Waco	162,156	4.7%	86,247	53.2%	75,908	46.8%
9	San Antonio	176,378	5.1%	110,676	62.7%	65,703	37.3%
10	Corpus Christi	249,929	7.2%	207,082	82.9%	42,847	17.1%
11	Brownsville/Harlingen	607,278	17.6%	440,357	72.5%	166,921	27.5%
12	San Angelo	175,421	5.1%	122,428	69.8%	52,992	30.2%
13	El Paso	115,179	3.3%	63,939	55.5%	51,240	44.5%
	Total	$3,455,118	100.0%	$2,248,523	65.1%	$1,206,595	34.9%

c) In accordance with 10 TAC §53.47(a)(1~~3~~) the maximum award amount for TBRA shall not exceed $~~300~~336,000, including administrative costs, per Application. In accordance with §53.85(a)(1), for the TBRA program activity, funds for administrative costs cannot exceed 4% of the total project funds per year of the Contract term. ~~In accordance with the 2008 Consolidated Plan One Year Action Plan, up to four percent (4%) of the requested project funds may be requested for administrative costs~~. In accordance with 10 TAC §53.73~~2~~(a)(3) the contract term for TBRA shall not exceed 36 months, however, individual household assistance is limited to 24 months.

d) Through the TBRA program, rental subsidy and security and utility deposit assistance is provided to tenants as a grant, in accordance with written tenant selection policies, for a period not to exceed twenty-four (24) months, which shall include among its objectives the securing of a permanent source of affordable housing on or before the expiration of the rental subsidy. Security deposits and utility deposits may be provided in conjunction with rental assistance. A security deposit cannot exceed two (2) months rent for the unit.

e) As per 10 TAC §53.33, the Household must comply with the following initial eligibility requirements: participate in an approved self-sufficiency program; maintain principal residency in the rental unit for which the subsidy is being provided; be an income eligible household; reside in a rental unit that is located within the Administrator's Service Area; and meet all other eligibility requirements.

f) As defined in 10 TAC §53.33(d) the rental standard must not exceed HUD's "Fair Market Rent for the Housing Choice Voucher Program." Rental units must be inspected prior to occupancy and must comply with Housing Quality Standards established by HUD.

g) In accordance with 10 TAC §53.73~~2~~(a)(3), the contract term for the TBRA Program shall not exceed 36 months and performance under the contract will be evaluated according to the following benchmarks:

   i) 6 months, exempt administrative environmental clearance must be complete and application intake complete for 30% for Households to be assisted;

   ii) 9 months, application intake complete for 75% for Households to be assisted;

   iii) 12 months, 100% of funds must be committed to Households to be assisted and 25% of funds drawn;

   iv) 18 months, 100% of funds already committed and 35% of funds drawn;

   v) 24 months, 100% of funds already committed and 50% of funds drawn; and

   vi) 36 months, 100% of funds already committed and 100% of funds drawn.

h) A minimum threshold score of 15 is required in order to be considered for funding. The following threshold criteria listed in the subsection are mandatory requirements at the time of application submission unless specifically indicated otherwise and will be included in the written agreement, if awarded funds:

   i) **Affordable Housing Needs Score:** Points range from zero to seven, as published by the Department. Maximum 7 points.

   ii) **Income Targeting- Maximum 20 points**: In order to meet its annual goal of assisting very low to extremely low income families, the Department incentivizes application points for income targeting of households assisted. The following table will be used to determine income targeting requirements and associated points. ~~For those counties where the area median family income (AMFI) is at or below the state average median family income income the applicant will receive the same number of points for income targeting when serving households at or below 50% AMFI as those counties exceeding the statewide median income targeting households at or below 30% AMFI.~~
   In accordance with the Housing Assistance Rider of the Department's Legislative Appropriation, in order to meet the 30% and below AMFI goal, Applicants, if awarded, may use the state average median family income to determine income eligibility for eligible households living in those counties where the area median family income is lower than the state average median family income.

Table 8. Point Incentives for Income Targeting

Income Target	Points
0% to 29.99 % of units at 60% AMFI	1
30% to 59.99 % of units at 60% AMFI	3
60% to 100 % of units at 60% AMFI	5
0% to 29.99% of units at 30% AMFI	+6
30% to 59.99% of units at 30% AMFI	+11
60% to 100% of units at 30% AMFI	+15

iii) **Cash Reserve**: Each awarded applicant will be required to expend funds according to program guidelines and request funds from the Department for eligible expenses. Every Applicant must evidence the ability to administer the program and commit adequate cash reserves of at least one month of rent for the number of households proposed to serve as stated in the application to facilitate administration of the program during the Department's disbursement process. Cash reserves are not permanently invested in the project but are used for short term deficits that are reimbursed by program funds. Evidence of this commitment and the amount must be included in the Applicant's resolution and budget.

iv) **Resolution:** All applications submitted must include an **original** resolution from the Applicant's direct governing body, authorizing the submission of the Application, commitment and amount of cash reserves for use during the contract period, source of funds for match obligation and match dollar amount, naming of a person and the person's title authorized to represent the organization and signature authority to execute a contract. If an Applicant that is a nonprofit organization is requesting a waiver of the grant application fee, they must do so in the resolution, and must state that the nonprofit organization offers expanded services such as child care, nutrition programs, job training assistance, health services, or human services. The resolution must be signed and dated within the six months preceding the application deadline date.

v) **Description of Demand**: It will be a threshold requirement to submit a narrative that describes in detail the demand evidenced for the proposed number of units to be assisted in the proposed service area. Source data, calculations and assumptions must be included.

vi) **TBRA Self Sufficiency Program:** It will be a threshold requirement for each Applicant to submit a proposed detailed Self Sufficiency Plan and must describe the process for the transition of households to permanent housing by the end of the 24-month rental assistance contract term.

(1) The documentation must describe the necessary components for the overall plan proposed for transition of potential tenants. This plan, like a case management plan, should detail the need of the tenant, how these needs will be addressed

including any agreements with service providers who shall assist the tenant at meeting these needs, and a proposed timeframe for completing those activities. The plan must include:

(a) A sample household budget which will utilize existing sources of income such as employment, disability payments and other types of support that details how the assisted household will afford to be self-sufficient by the end of the 24-month rental assistance.

(b) If additional income is required to attain self-sufficiency, a plan for attaining the required education or training, or a job search plan must be included.

(c) Specific housing goals that will be completed on or before the end of the 24-month assistance period include: finding permanently subsidized housing, affordable market housing or other permanent housing solutions. The plan should include the required steps such as completing an application, approximate waiting time to get into the type of housing desired and the cost of the housing to the tenant.

13) Review Process.

a) Pursuant to 10 TAC §53.48(a), each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a "received date" based on the date and time it is physically received by the Division~~Department~~. Then each application will be reviewed on its own merits as applicable. Applications will continue to be prioritized for funding based on their "received date". Applications will be reviewed for applicant and activity eligibility, and threshold criteria as described in this NOFA.

i) The Department will ensure review of materials required under the NOFA and Application Submission Procedures Manual (ASPM) and will issue a notice of any Administrative Deficiencies within 45 days of the received date. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase will be reviewed for recommendation to the Board by the Committee.

ii) Because Applications are processed in the order they are received by the Department, it is possible that the Department will expend all available HOME funds before an Application has been completely reviewed. If on the date an Application is received by the Department, no funds are available under this NOFA, the Applicant will be notified that no funds exist under the NOFA and the Application will not be processed

b) Pursuant to 10 TAC §53.42 if a submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department, will be terminated without being processed as an Administrative Deficiency.

c) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications that are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department reserves the right to negotiate individual elements of any Application

d) All Applicants will be processed through the Department's Application Evaluation System, and will include a previous award and past performance evaluation. Poor past performance may disqualify an Applicant for a funding recommendation or the recommendation may include conditions.

e) Funding recommendations of eligible Applicants will be presented to the Department's Governing Board of Directors based on eligibility and limited by the total amount of funds available under this NOFA and the maximum award amount.

f) In accordance with §2306.082, Texas Government Code and 10 TAC §53.6, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 TAC §1.17

g) An Applicant may appeal decisions made by staff in accordance with 10 TAC §1.7.

14) Application Submission.

a) All applications submitted under this NOFA must be received on or before 5:00 p.m. on **Thursday, April 30, 2009, regardless of method of delivery.**

b) The Department will accept applications from 8 a.m. to 5 p.m. each business day, excluding federal and state holidays from the date this NOFA is published on the Department's web site until the deadline. Question regarding this NOFA should be addressed to:

HOME Division
221 E. 11th Street
Austin, Texas 78701
Telephone: (512) 463-8921
E-mail: HOME@tdhca.state.tx.us

c) All applications must be submitted, and provide all documentation, as described in this NOFA and associated application materials.

d) Applicants must submit one complete printed copy of all Application materials and one complete scanned copy on a disc of the Application materials as detailed in the Application Submission Procedures Manual (ASPM). All scanned copies must be scanned in accordance with the guidance provided in the ASPM.

e) All Application materials including manuals, NOFA, program guidelines, and all applicable HOME rules, will be available on the Department's website at www.tdhca.state.tx.us. Applications will be required to adhere to the HOME Rule and threshold requirements in effect at the time of the Application submission. Applications must be on forms provided by the Department, and cannot be altered or modified and must be in final form before submitting them to the Department.

f) Applicants are required to remit a non-refundable Application fee payable to the Texas Department of Housing and Community Affairs in the amount of $30 per Application. Payment must be in the form of a check, cashier's check or money order. Do not send cash. Per §2306.147(b), Texas Government Code requires the Department to waive Application fees for nonprofit organizations that offer expanded services such as child care, nutrition programs, job training assistance, health services, or human services. These organizations must include proof of their exempt status and a description of their supportive services in lieu of the Application fee. The Application fee is not an allowable or reimbursable cost under the HOME Program.

g) This NOFA does not include text of the various applicable regulatory provisions that may be important to the HOME Program. For proper completion of the application, the Department strongly encourages potential applicants to review the State and Federal regulations, and contact the HOME Division for guidance and assistance.

h) **Application Workshop:** the Department will present application workshops in locations throughout the State which will provide an overview of the HOME Program Activities eligible under this NOFA and will also provide Application preparation and submission requirements, evaluation criteria, and state and federal program information. The Application workshop schedule and registration will be posted on the Department's website at www.tdhca.state.tx.us

i) **Audit Requirements:** An applicant is not eligible to apply for funds or any other assistance from the Department unless a past audit or Audit Certification Form has been submitted to the Department in a satisfactory format on or before the application deadline for funds or other assistance per 10 TAC §1.3(b). This is a threshold requirement outlined in the application, therefore applications that have outstanding past audits will be disqualified. Staff will not recommend applications for funding to the Department's Governing Board unless all unresolved audit findings, questions or disallowed costs are resolved per 10 TAC §1.3(c).

j) Applications must be sent via overnight delivery to:

HOME Division
Texas Department of Housing and Community Affairs
221 East 11th Street
Austin, TX 78701-2410

or via the U.S. Postal Service to:

HOME Division
Texas Department of Housing and Community Affairs
Post Office Box 13941
Austin, TX 78711-3941

NOTE: *This NOFA does not include the text of the various applicable regulatory provisions that may be important to the particular HOME Program. For proper completion of the application, the Department strongly encourages potential applicants to review all applicable State and Federal regulations.*

Texas Department of Housing and Community Affairs

HOME Investment Partnerships Program

Contract for Deed Program
Notice of Funding Availability (NOFA)

1) Summary

The Texas Department of Housing and Community Affairs ("the Department") announces the availability of approximately $9,280,000 in funding from the HOME Investment Partnerships Program for contract for deed conversions for low-income Texans. The availability and use of these funds is subject to the Department's HOME Program Rule at Title 10 Texas Administrative Code (10 TAC) Chapter 53 in effect at the time the application is submitted, the Federal HOME regulations governing the HOME program (24 CFR Part 92), and Chapter 2306, Texas Government Code. Other federal regulations may also apply such as, but not limited to, 24 CFR parts 50 and 58 for environmental requirements, 24 CFR §§85.36 and 84.42 for conflict of interest and 24 CFR Part 5, subpart A for fair housing. Applicants are encouraged to familiarize themselves with all of the applicable state and federal rules that govern the program.

2) Allocation of HOME Funds

a) These funds are made available through the Department's deobligated HOME funds reserved for contract for deed conversions and the 2006, 2007, and 2008 allocations of HOME funds from the U. S. Department of Housing and Urban Development (HUD). The funds are set-aside for eligible applicants proposing to provide assistance to eligible homebuyers for the acquisition or the acquisition and rehabilitation, new construction or reconstruction of properties for the purposes of converting an eligible contract for deed to homeownership. In accordance with Rider 6 of the Department's General Appropriations Act, all funds released under this NOFA are to be used for contract for deed conversion for families that reside in a colonia with household income at or below 60% of the Area Median Family Income (AMFI), as defined by HUD.

b) In accordance with §2306.111, Texas Government Code, these funds are not subject to the Regional Allocation Formula (RAF).

c) In accordance with 10 TAC §53.48, this NOFA will be an open application cycle and funding will be available on a first-come, first-served basis. Applications will be accepted by the Department on an on-going basis **until all funds have been awarded or 5:00 p.m. on May 1, 2009, whichever occurs first, regardless of method of delivery**. Applicants are encouraged to review the application process cited above and described herein. Applications that do not meet eligibility and minimum threshold criteria will not be considered for funding.

3) Limitation on Funds

a) Funds will not be eligible for use in a Participating Jurisdiction (PJ). Any HOME funds available for serving households in a PJ will only be made available under a separate NOFA for Persons with Disabilities as described in the 2008 State of Texas Consolidated Plan One-Year Action Plan.

b) The Department awards HOME funds to eligible organizations and the maximum award amount may not exceed $~~500~~520,000, including administrative costs, per contract. Applicants may apply for additional funds of up to $~~500~~520,000 under this NOFA if the applicant has successfully committed 100% of the project funds of the previous award funded under this NOFA. The maximum amount of funds that may be awarded per applicant is $1 million under this NOFA. The minimum HOME assistance amount per unit may not be less than $1,000 per HOME assisted unit. The per-unit subsidy may not exceed the per-unit dollar limits established by the United States Department of Housing and Urban Development (HUD) under §221(d)(3) of the National Housing Act, which are applicable to the area in which the development is located, and as published by HUD. The purchase price of the housing unit, plus the value of the rehabilitation or reconstruction if applicable, must not exceed 95% of the area's median purchase price as specified in the HUD 203(b) Limits.

c) The contract term shall not exceed 24 months and performance under the contract will be evaluated according to the following benchmarks:

  (a) 6 months, exempt administrative and broad review environmental clearance must be complete, and if not tiering, the first Household to be assisted must be environmentally cleared;
  (b) 8 months, Authority to Use Grant Funds must be fully executed and all Households to be assisted must be environmentally cleared;
  (c) 12 months, 100% of funds must be committed to Households to be assisted;
  (d) 16 months, 100% of Household's Loans must be closed, if applicable;
  (e) 22 months, 100% of construction must be complete for all Households to be assisted; and
  (f) 24 months, 100% funds drawn and 100% of match requirement supplied.

d) In accordance with 10 TAC §53.32(g), the maximum amount of assistance is the total of the acquisition, closing, and soft costs provided to an eligible household ~~for acquisition and closing costs (including soft costs)~~ for a contract for deed conversion and is limited to $25,000. In the case of a contract for deed conversion housing unit that involves both the acquisition of a loan on an existing MHU and/or the loan for the associated land, the

Executive Director may grant an exception to exceed this amount; however, the Executive Director will not grant an exception to exceed $40,000 of assistance.

e) In accordance with 10 TAC §53.32 (h), the maximum amount of assistance for rehabilitation (including soft costs) to an eligible household for a contract for deed conversion is limited to the OCC Program Activity requirements in 10 TAC §53.31 (g) as follows:
    - i) Rehabilitation that is Reconstruction: The lesser of $73.00 per square foot or $80,000, if the Reconstruction includes actual costs for an aerobic septic system and/or demolition. If the Reconstruction includes costs for an aerobic septic system and/or demolition, the total construction costs cannot exceed $73.00 per square foot exclusive of the aerobic septic system and demolition costs; and, ~~Rehabilitation that is Reconstruction for 1 – 4 person Household: $60,000;~~
    - ~~ii)Rehabilitation that is Reconstruction for 5 – 6 person Household: $67,500;~~
    - ~~iii)Rehabilitation that is Reconstruction for 7 or more person Household: $75,000; and,~~
    - ~~iv)~~ii) Rehabilitation that is not Reconstruction: $30,000.

f) Each applicant that is awarded HOME funds may also be eligible to receive funding for administrative costs of 4% of the total project costs for the entire Contract term. The award amount for administrative costs shall not exceed the amount allowed per 10 TAC §53.85.

4) Eligible and Prohibited Activities

a) Eligible activities include those permissible under the federal HOME Final Rule at 24 CFR §92.205 and the Department's HOME Program Rule at 10 TAC §§53.31 and 53.32 and must involve contract for deed conversion activity.

b) Prohibited activities include those at 24 CFR §92.214 and 10 TAC §53.37.

c) Funds will not be eligible for use in a Participating Jurisdiction (PJ). Any HOME funds available for serving households in a PJ will only be made available under a separate NOFA for Persons with Disabilities as described in the 2008 State of Texas Consolidated Plan One-Year Action Plan.

5) Eligible and Ineligible Applicants

a) Eligible applicants include nonprofit organizations, units of general local government, for-profit entities and public housing agencies.

b) Applicants may be ineligible for funding if they meet any of the criteria listed in §53.42 of the Department's HOME Program Rule, with the exception of applicants who have had funds deobligated for delays in completing their contractual requirements as described in §53.42(1). Applicants are encouraged to familiarize themselves with the Department's certification and debarment policies prior to application submission.

6) Matching Funds

Applicants will be required to submit documentation on all financial resources to be used in the development that may be considered match to the Department's federal HOME requirements. Applicants must provide firm commitments as defined in accordance with the Federal HOME rules at 24 CFR §92.218 and the Department's Match Guide and will be provided with the appropriate forms and instructions on how to report eligible match.

7) Affordability Requirements

a) Applicants should be aware that there are minimum affordability periods necessary for HOME-assisted housing. The unit assisted must be the primary residence of the homebuyer. Single family housing units assisted with HOME funds must comply with the required affordability requirements as defined at 24 CFR §92.254. Awarded organizations will provide the HOME assistance to the homebuyer in the form of a loan. Each loan will be in the form of a zero percent (0%) interest, deferred forgivable loan with a term based on the total amount of assistance provided and in accordance with 24 CFR §92.254. All loans to assisted homebuyers must be evidenced by loan documents provided by the Department. Each loan to an assisted homebuyer must be payable to Department. Each loan for rehabilitation shall be evidenced by a construction loan agreement, note, deed of trust, mechanic's lien note, and mechanic's lien contract secured by the property and must be fully executed before any construction activities commence.

b) If at any time prior to the full loan period there occurs a resale of the property, a refinance of any superior lien, a repayment of any superior lien, or if the unit ceases to be the assisted homebuyer's principal residence, the remaining loan balance shall become due and payable.

c) Forgiveness of the loan balance is calculated based on a pro-rata annual share of the loan term. The anniversary date of the loan shall constitute completion of the year. Any partial year shall not be waived. The amount due will be based on the pro-rata share number of years of the remaining loan term.

d) In the event the home is sold (voluntary or involuntary), the assisted homebuyer will pay the loan balance from the shared net proceeds of the sale. The shared net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs. A copy of the HUD closing statement must be provided.

8) Site and Construction Restrictions

a) The property assisted must be located in a Colonia. Pursuant to 10 TAC, Chapter 53, a Colonia is defined as a geographic area that is located in a county some part of which is within 150 miles of the international border of this state that consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood, and that:

    i) has a majority population composed of individuals and families of low income and very low income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed area under §17.921, Texas Water Code; or

    ii) has the physical and economic characteristics of a Colonia, as determined by the Department.

b) Pursuant to 24 CFR §92.251, housing that is constructed or rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion. In the absence of a local code for new construction or rehabilitation, HOME-assisted new construction or rehabilitation must meet, as applicable, the International Residential Code, Texas Minimum Construction Standards (TMCS) and be in compliance with the basic access standards in new construction, established by §2306.514, Texas Government Code. In addition, housing that is rehabilitated with funds awarded under this NOFA must meet all applicable local codes, rehabilitation standards, ordinances, zoning ordinances, energy efficiency standards established by §2306.187 of the Texas Government Code, and energy standards as verified by RESCHECK, in accordance with the Final Rule.

c) All other HOME-assisted housing (e.g., acquisition) must meet all applicable State and local housing quality standards and code requirements and if there are no such standards or code requirements, the housing must meet the housing quality standards in 24 CFR §982.401. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a)(1).

9) Threshold Criteria

The following threshold criteria listed in this subsection are mandatory requirements at the time of application submission unless specifically indicated otherwise:

a) **Cash Reserve:** Each awarded applicant will be required to expend funds according to program guidelines and request funds from the Department for eligible expenses. Every Applicant must evidence the ability to administer the program and commit adequate cash reserves of at least $50,000 to facilitate administration of the program during the Department’s disbursement process. Cash reserves are not permanently invested in the project but are used for short term deficits that are paid by program funds. Evidence of this commitment must be included in the Applicant’s resolution.

b) **Resolution:** All applications submitted must include an **original** resolution from the Applicant’s direct governing body, authorizing the submission of the Application, commitment of cash reserves for use during the contract period, source of funds for match obligation and match dollar amount, naming a person authorized to represent the organization and signature authority to execute a contract. If an Applicant that is a nonprofit organization is requesting a waiver of the grant application fee, they must do so in the resolution, and must state that the nonprofit organization offers expanded services such as child care, nutrition programs, job training assistance, health services, or human services.

c) **Colonia Status Requirement:** Applicants are required to submit support documentation verifying that the targeted Colonia(s) in which the proposed households will be assisted is registered with the Office of the Attorney General or the Secretary of the State as a Colonia. Information regarding Colonia status is available online through the Office of the Attorney General at http://maps.oag.state.tx.us/colgeog/ and through the Secretary of the State at http://www.sos.state.tx.us/border/colonias/reg-colonias/index.shtml. ~~http://www.sos.texas.gov/border/colonias/reg-colonias/index.shtml~~

d) **Match:** Applicants are required to provide eligible match in the amount of 5% or more of the requested project funds. Applicants will be required to submit documentation on all financial resources to be used in the development that may be considered match to the Department's federal HOME requirements. Applicants must provide firm commitments in accordance with the Federal HOME rules at 24 CFR §92.218 and the Department's Match Guide. Match is a threshold requirement.

10) Review Process

a) Pursuant to 10 TAC §53.48, each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a "received date" based on the date and time it is physically received by the ~~Department~~ Division. Then each application will be reviewed on its own merits as applicable. Applications will continue to be prioritized for funding based on their "received date". Applications will be reviewed for applicant and activity eligibility, and threshold criteria as described in this NOFA.

The Department will ensure review of materials required under the NOFA and Application Submission Procedures Manual (ASPM) and will issue a notice of any Administrative Deficiencies within 45 days of the received date. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase will be reviewed for recommendation to the Board by the Committee.

Because Applications are processed in the order they are received by the Department, it is possible that the Department will expend all available HOME funds before an Application has been completely reviewed. If on the date an Application is received by the Department, no funds are available under this NOFA, the Applicant will be notified that no funds exist under the NOFA and the Application will not be processed.

b) Pursuant to the HOME Rule §53.42 if a submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department, will be terminated without being processed as an Administrative Deficiency.

c) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications that are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department strives, through its loan terms, to securitize its funding while ensuring the financial feasibility of a Development. The Department reserves the right to negotiate individual elements of any Application.

d) In accordance with §2306.082 Texas Government Code and 10 TAC §53.6, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 Texas Administrative Code §1.17.

e) An Applicant may appeal decisions made by staff in accordance with 10 TAC §1.7.

11) Application Submission

a) All applications submitted under this NOFA must be received on or before 5:00 p.m. on **May 1, 2009**. The Department will accept applications from 8 a.m. to 5 p.m. each business day, excluding federal and state holidays from the date this NOFA is published on the Department's web site until the deadline. Question regarding this NOFA should be addressed to:

HOME Division
221 E. 11th Street
Austin, Texas 78701
Telephone: (512) 463-8921
E-mail: HOME@tdhca.state.tx.us

b) All applications must be submitted, and provide all documentation, as described in this NOFA and associated application materials.

c) Applicants must submit one complete printed copy of all Application materials and one complete scanned copy on a disc of the Application materials as detailed in the Application Submission Procedures Manual (ASPM). All scanned copies must be scanned in accordance with the guidance provided in the ASPM.

d) All Application materials including manuals, NOFA, program guidelines, and all applicable HOME rules, will be available on the Department's website at www.tdhca.state.tx.us. Applications will be required to adhere to the HOME Rule and threshold requirements in effect at the time of the Application submission. Applications must be on forms provided by the Department, and cannot be altered or modified and must be in final form before submitting them to the Department.

e) Applicants are required to remit a non-refundable Application fee payable to the Texas Department of Housing and Community Affairs in the amount of $30 per Application. Payment must be in the form of a check, cashier's check or money order. Do not send cash. §2306.147(b) of the Texas Government Code requires the Department to waive Application fees for nonprofit organizations that offer expanded services such as child care, nutrition programs, job training assistance, health services, or human services. These organizations must include proof of their exempt status and a description of their supportive services in lieu of the Application fee. The Application fee is not an allowable or reimbursable cost under the HOME Program.

f) Applications must be sent via overnight delivery to:

HOME Division
Texas Department of Housing and Community Affairs
221 East 11th Street
Austin, TX 78701-2410

or via the U.S. Postal Service to:

HOME Division
Texas Department of Housing and Community Affairs
Post Office Box 13941
Austin, TX 78711-3941

NOTE: *This NOFA does not include the text of the various applicable regulatory provisions that may be important to the particular HOME ~~CHDO Rental Housing Development~~ Program. For proper completion of the application, the Department strongly encourages potential applicants to review all applicable State and Federal regulations.*

Texas Department of Housing and Community Affairs
HOME Investment Partnerships Program (HOME)

2008 Single Family Persons with Disabilities Notice of Funding Availability (NOFA)

1) **Summary.**
   a) The Texas Department of Housing and Community Affairs ("the Department") announces the availability of $1,500,000 in funding from the HOME Investment Partnerships Program (HOME) 2008 allocation for single family housing programs including Homebuyer Assistance (HBA) and Tenant-Based Rental Assistance (TBRA) to assist low income, persons with disabilities. For the first one hundred eighty (180) days of this NOFA, $750,000 in funding will be available for the HBA activity and $750,000 in funding will be available for the TBRA program activity. Funding will be available in any area of the state including Participating Jurisdictions (PJs). After the first one hundred eighty (180) day cycle, funds will be available on a first-come, first-served basis to either activity in any area of the state (including PJs).

   b) The availability and use of these funds is subject to the Department's HOME Program Rule at Title 10 Texas Administrative Code (10 TAC) Chapter 53 in effect at the time the application is submitted, the Federal HOME regulations governing the HOME program (24 CFR Part 92), and Chapter 2306, Texas Government Code. Other federal regulations may also apply such as, but not limited to, 24 CFR parts 50 and 58 for environmental requirements, 24 CFR §85.36 and §84.42 for conflict of interest and 24 CFR Part 5, subpart A for fair housing. Applicants are encouraged to familiarize themselves with all of the applicable state and federal rules that govern the program.

2) **Allocation of Funds.**
   a) These funds are made available through the Department's 2008 annual HOME allocation from the U.S. Department of Housing and Urban Development (HUD). The funds are set-aside for eligible applicants proposing to provide assistance to eligible homebuyers for the acquisition or acquisition and rehabilitation for accessibility of affordable single family housing and households seeking rental subsidies including security and utility deposits through tenant-based rental assistance. Households assisted with HOME funds

must be at or below 80% of the Area Median Family Income (AMFI) and meet the definition of a person with disability, as defined by HUD.

b) In accordance with 10 TAC §53.48(a) this NOFA will be an open application cycle on statewide first-come, first-served basis. TBRA funds will be available for the first 90 days **only** to those applicants proposing to assist persons transitioning from an institution and at least 50% of the total households proposed must be targeted to persons transitioning from an institutional setting into a community placement or community setting. Applications will be accepted by the Department on an on-going basis until all funds have been requested or **5:00 p.m. Friday, December 19, 2008, regardless of method of delivery.**

c) **On Monday, December 22, 2008** funds not requested under the first 90-day cycle will be made available to any eligible applicant under each activity specified in this NOFA. Applications will be accepted by the Department on an on-going basis until all funds have been requested or **5:00 p.m. Friday, March 20, 2009, regardless of method of delivery.**

d) **On Monday, March 23, 2009** any remaining funds not requested under either the HBA or TBRA set-aside will be made available to either activity specified in this NOFA. Applications will be accepted by the Department on an on-going basis until all funds have been requested or **5:00 p.m. Friday, May 29, 2009.**

3) Limitation on Funds.

a) Funds are eligible for use in a Participating Jurisdiction (PJ) as described in the 2008 State of Texas Consolidated Plan One-Year Action Plan.

b) The Department awards HOME funds to eligible organizations and the maximum award amount may not exceed $~~300~~318,000, including administrative costs, for Homebuyer Assistance and $~~300~~318,000, including administrative costs, for Tenant-Based Rental Assistance. Up to $~~500~~530,000, including administrative costs, may be awarded to Homebuyer Assistance applicants whose Service Area includes multiple counties within a Uniform State Service Region. An applicant may submit an Application to apply for additional funding as long as the Applicant is 100% committed on their current contract for the same activity funded under this NOFA.

c) With the exception of Tenant-~~-~~Based Rental Assistance, the minimum amount of HOME assistance per unit is $1,000. The per-unit subsidy may not exceed the per-unit dollar limits established by the U. S. Department of Housing and Urban Development (HUD) under §221(d)(3) of the National Housing Act, which are applicable to the area in which the development is located, and as published by HUD. The purchase price of the housing unit, plus the value of the rehabilitation if applicable, must not exceed 95% of the area's median purchase price as specified in the HUD 203(b) Limits.

d) Each applicant that is awarded HOME funds may also be eligible to receive funding for administrative costs. In accordance with §53.85(a)(1), for Program Activities that are serving Persons with Disabilities, funds for Administrative Costs cannot exceed 6% of the total project costs for the entire Contract term.~~the 2008 State of Texas Consolidated Plan One Year Action Plan, the award amount for administrative costs shall not exceed six percent (6%) of the total project funds requested.~~

e) In accordance to §53.72, before the effective date of the HOME Contract, the Contract Administrator may incur and be reimbursed for travel costs, as provided for with Administrative funds, related to mandatory implementation training required by the Department as a condition of receiving a HOME award and Contract.

4) Eligible and Prohibited Activities.

a) Eligible activities include those permissible under the federal HOME Final Rule at 24 CFR §92.205 and the Department's HOME Program Rule at 10 TAC §53.32 for HBA and §53.33 for TBRA.

b) Prohibited activities include those at 24 CFR §92.214 and 10 TAC §53.37.

5) Eligible and Ineligible Applicants.

a) Eligible Applicants are Units of General Local Government**,** Nonprofit Organizations**,** Public Housing Authorities (PHAs), and for-profit entities.

b) Applicants may be ineligible for funding if they meet any of the criteria listed in 10 TAC §53.42 of the Department's HOME Program Rule. Applicants are encouraged to familiarize themselves with the Department's certification and debarment policies prior to application submission.

6) Affordability Requirements.

a) Applicants should be aware that there are minimum affordability periods necessary for HOME-assisted housing. Single family housing units assisted with HOME funds must comply with the required affordability requirements as defined at 24 CFR §92.254. Awarded organizations will provide the HOME assistance to the homebuyer in the form of a loan. Each loan will be in the form of a zero percent (0%) interest, deferred forgivable loan with a term based on the total amount of assistance provided and in accordance with 24 CFR §92.254. All loans to assisted homebuyers must be evidenced by loan documents provided by the Department. Each loan to an assisted homebuyer must be payable to Department.

b) If at any time prior to the full loan period there occurs a resale of the property, a refinance of any superior lien, a repayment of any superior lien, or if the unit ceases to be the assisted Household's principal residence, the remaining loan balance shall become due and payable.

c) Forgiveness of the loan balance is calculated based on a pro-rata annual share of the loan term. The anniversary date of the loan shall constitute completion of the year. Any partial year shall not be waived. The amount due will be based on the pro-rata share number of years of the remaining loan term.

d) In the event the home is sold (voluntary or involuntary), the assisted Household will pay the loan balance from the shared net proceeds of the sale. The shared net proceeds are the sales price minus superior loan repayment (other than HOME funds) and any closing costs. A copy of the HUD closing statement must be provided.

7) **Site and Construction Restrictions.**

a) Pursuant to 24 CFR §92.251, housing that is constructed or rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion. In the absence of a local code for new construction or rehabilitation, HOME-assisted new construction or rehabilitation must meet, as applicable, the International Residential Code, Texas Minimum Construction Standards (TMCS) and be in compliance with the basic access standards in new construction, established by §2306.514, Texas Government Code. In addition, housing that is rehabilitated with funds awarded under this NOFA must meet energy efficiency standards established by §2306.187 of the Texas Government Code, and energy standards as verified by RESCHECK, in accordance with the Final Rule.

b) All other HOME-assisted housing (e.g., acquisition) must meet all applicable State and local housing quality standards and code requirements and if there are no such standards or code requirements, the housing must meet the housing quality standards in 24 CFR §982.401. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a)(1).

c) Rental units secured though HOME assistance must be inspected prior to occupancy, inspected annually, and must comply with Housing Quality Standards (HQS) established by HUD in 24 CFR Part 92.

8) **Homebuyer Assistance (HBA).**

a) During the first one hundred eighty (180) days of this NOFA, approximately $750,000 of the HOME funds released under this NOFA will be set-aside for Homebuyer Assistance. This program activity may be used to provide assistance to eligible first time homebuyers for the acquisition or acquisition with rehabilitation of affordable single family housing by providing downpayment and closing cost assistance (including soft costs). If needed, rehabilitation must be provided for required accessibility modifications. Eligible homebuyers may receive loans up to $35,000 for downpayment, closing costs and rehabilitation (including soft costs). A maximum of $15,000 of the $35,000 loan may be used for downpayment and closing costs (including soft costs). The balance of the loan can be used for required accessibility modifications but cannot exceed $20,000.

b) ~~As defined in~~In accordance with 10 TAC §53.47(a)(1~~2~~), the maximum award amount for HBA shall not exceed $318~~00~~,000, including administrative costs. ~~per Applicant per NOFA; ~~H~~h~~owever, up to $53~~0~~0,000, including administrative costs may be awarded to HBA Applicants whose Service Area includes multiple counties within a Uniform State Service Region. ~~In accordance with the 2008 Consolidated Plan One Year Action Plan,~~

~~up to six percent (6%) of the requested project funds may be requested for administrative costs~~.

c) As defined in 10 TAC §53.32 (e), the maximum amount of assistance to an eligible Household for downpayment and closing cost assistance (including soft costs) is $15,000 for Persons with Disabilities. As defined in 10 TAC ~~-~~§53.32 (f), the maximum amount of assistance for rehabilitation is the total of construction costs and soft~~s~~ costs provided to an eligible household that is also using funds for acquisition and is limited to $20,000. Rehabilitation assistance must be utilized for accessibility modifications to the unit.

d) The following first lien purchase loan requirements are imposed for households receiving Homebuyer Assistance:

i) No adjustable rate mortgage loans (ARMs) or interest rate buy-down loans are allowed.
ii) No mortgages with a loan to value equal to or greater than 100% are allowed;
iii) No subprime mortgage loans are allowed;
iv) An origination fee and any other fee associated with the mortgage loan may not exceed 2% of the loan amount; and
v) The income ratio (back-end ratio) may not exceed 45%.

e) HBA assistance will be in the form of a 0% interest, 5 or 10 year deferred, forgivable loan depending on the amount of assistance, creating a 2nd or 3rd lien with a term based on the federal affordability requirements as defined in 24 CFR §92.254.

f) In accordance with 10 TAC §53.73~~2~~(a)(2), the contract term for the HBA Program Activity shall not exceed 24 months and performance under the contract will be evaluated according to the following benchmarks:

i) 6 months, exempt administrative and environmental clearance must be complete for at least one Household to be assisted;

ii) 12 months, environmental clearance must be complete for at least 50% of the Households to be assisted, 50% of funds must be committed, 25% of funds drawn, and 25% of match supplied;

iii) 18 months, environmental clearance must be complete for at least 75% of the Households to be assisted, 75% of funds must be committed, 50% of funds drawn, and 50% of match requirement supplied; and

iv) 24 months, 100% of funds must be committed, 100% of funds drawn, and 100% of matched supplied.

g) A minimum threshold score of 12 is required in order to be considered for funding. The following threshold criteria listed in the subsection are mandatory requirements at the time of application submission unless specifically indicated otherwise and will be included in the written agreement, if awarded funds:

i) **Affordable Housing Needs Score:** Points range from zero to seven, as published by the Department. Maximum 7 points.

ii) **Income Targeting:** In order to meet its annual goal of assisting very low to extremely low income families, the Department incentivizes application points for income targeting of households assisted The following table will be used to determine income targeting requirements and associated points. Maximum 10 points.

Table 1~~2~~. Point Incentives for Income Targeting

Income Target	Points
0% to 29.99% of units at 60% AMFI	3
30% to 59.99% of units at 60% AMFI	7
60% to 100% of units at 60% AMFI	10

iii) **Experience Providing Services to Persons with Disabilities:** Applicants must have at least 5 or more years providing services specifically targeting the needs of persons with disabilities as evidenced by previous contracts with funding entities for these services. To satisfy the requirement for this category, applicant may provide evidence of a partnership with an entity or organization that meets the requirement. Maximum 5 points.

iv) **Experience Providing Homebuyer Assistance Service**: Applying entity must have at least two (2) years experience providing homebuyer assistance services as evidenced by current or previous contracts with funding entities for these services. To satisfy the requirement for this category, applicant may provide evidence of a partnership with an entity or organization that meets this requirement. Maximum 5 points.

v) **Cash Reserve**: Each awarded applicant will be required to expend funds according to program guidelines and request funds from the Department for eligible expenses. Every Applicant must evidence the ability to administer the program and commit adequate cash reserves of at least $60,000 to facilitate administration of the program during the Department's disbursement process. Cash reserves are not permanently invested in the project but are used for short term deficits that are paid by program funds. Evidence of this commitment and the amount must be included in the Applicant's resolution.

vi) **Resolution:** All applications submitted must include an **original** resolution from the Applicant's direct governing body, authorizing the submission of the Application, commitment and the amount of cash reserves for use during the contract period, naming of a person and the person's title authorized to represent the organization and signature authority to execute a contract. If an Applicant that is a nonprofit organization is requesting a waiver of the grant application fee, they must do so in the resolution, and must state that the nonprofit organization offers expanded services such as child care, nutrition programs, job training assistance, health services, or human services. The resolution must be **signed and dated** within the six months preceding the application submission date.

vii) **Description of Demand**: It will be a threshold requirement to submit a narrative that describes in detail the demand evidenced for the proposed number of units to be assisted in the proposed service area. Source data, calculations and assumptions must be included.

viii) **Homebuyer Counseling:** It will be a threshold requirement for each applicant to submit the level of homebuyer counseling that will be provided. A minimum of 8 hours of homebuyer counseling must be provided. Evidence must include documentation describing the level of homebuyer counseling proposed, including post purchase counseling. Applicant must state who will provide the homebuyer counseling. A copy of the curriculum and a copy of the proposed written agreement for service provider (if the applicant is not providing the service) must also be provided.

ix) **Plan for Identifying Accessibility needs of the Homebuyer.** Applicant must submit a plan that clearly describes the process and expertise to be used in determining the accessibility needs of the homebuyer. The plan should include resumes of qualified/experienced staff or proposed agreement with a qualified/experienced third party company or agency.

9) Tenant-Based Rental Assistance (TBRA).

a) During the first one hundred eighty (180) days of this NOFA, approximately $750,000 of HOME Funds released under this NOFA will be set-aside for Tenant-Based Rental Assistance. This program activity may be used to provide eligible households rental subsidies, including security and utility deposits. In accordance with 24 CFR 92.216, not less than 90% of the households assisted with respect to TBRA or rental units, must have incomes at or below 60% of the AMFI, as defined by HUD.

b) During the first ninety (90) days of this NOFA, only applicants committing at least 50% of the proposed households to be assisted to persons transitioning from an institutional setting into a community placement or community setting may apply. After the first 90 days, funds will be made available to any applicant under the TBRA set-side.

c) In accordance with 10 TAC §53.47(a)(1~~3~~) the maximum award amount for TBRA shall not exceed $318~~00~~,000 per Applicant~~ per NOFA~~. ~~In accordance with the 2008 Consolidated Plan-One Year Action Plan, up to six percent (6%) of the requested project funds may be requested for administrative costs.~~ In accordance with 10 TAC §53.73~~2~~(3) the contract term for TBRA shall not exceed 36 months, however, individual household assistance is limited to 24 months per Household per Contract.

d) Through the TBRA program, rental subsidy and security and utility deposit assistance is provided to tenants as a grant, in accordance with written tenant selection policies, for a period not to exceed twenty-four (24) months, which shall include among its objectives the securing of a permanent source of affordable housing on or before the expiration of the rental subsidy. Security deposits and utility deposits may be provided in conjunction with rental assistance. A security deposit cannot exceed two (2) months rent for the unit.

e) In accordance with 10 TAC §53.33, the household must comply with the following initial eligibility requirements: participate in an approved self-sufficiency program; maintain principal residency in the rental unit for which the subsidy is being provided; be an income eligible household; reside in a rental unit that is located within the Administrator's Service Area; meet the definition of persons with disabilities as defined by HUD; and meet all other eligibility requirements.

f) As defined in 10 TAC §53.33(d) the rental standard must not exceed HUD's "Fair Market Rent for the Housing Choice Voucher Program." Rental units must be inspected prior to occupancy and re-inspected annually, and must comply with Housing Quality Standards established by HUD.

g) In accordance with 10 TAC §53.73(a)(3), the contract term for the TBRA Program shall not exceed 36 months and performance under the contract will be evaluated according to the following benchmarks:

   i) 6 months, exempt administrative environmental clearance must be complete and application intake complete for 30% for Households to be assisted;

   ii) 9 months, application intake complete for 75% for Households to be assisted;

   iii) 12 months, 100% of funds must be committed to Households to be assisted and 25% of funds drawn;

   iv) 18 months, 100% of funds already committed and 35% of funds drawn;

   v) 24 months, 100% of funds already committed and 50% of funds drawn; and

   vi) 36 months, 100% of funds already committed and 100% of funds drawn.

h) A minimum threshold score of 10 is required in order to be considered for funding. The following threshold criteria listed in the subsection are mandatory requirements at the time of application submission unless specifically indicated otherwise and will be included in the written agreement, if awarded funds:

   i) **Affordable Housing Needs Score:** Points range from zero to seven, as published by the Department. Maximum 7 points.

ii) **Income Targeting:** Maximum 20 points. In order to meet its annual goal of assisting very low to extremely low income families, the Department incentivizes application points for income targeting of households assisted. The following table will be used to determine income targeting requirements and associated points.

In accordance with the Housing Assistance Rider of the Department's Legislative Appropriation, in order to meet the 30% and below AMFI goal, Applicants, if awarded, may use the state average median family income to determine income eligibility for eligible households living in those counties where the area median family income is lower than the state average median family income.~~For those counties where the area median family income (AMFI) is at or below the state average median family income will receive the same number of points for income targeting when serving households at or below 50% AMFI as those counties exceeding the statewide median income targeting households at or below 30% AMFI. Maximum 20 points~~.

Table 2~~3~~. Point Incentives for Income Targeting

Income Target	Points
0% to 29.99 % of units at 60% AMFI	1
30% to 59.99 % of units at 60% AMFI	3
60% to 100 % of units at 60% AMFI	5
0% to 29.99% of units at 30% AMFI	+6
30% to 59.99% of units at 30% AMFI	+11
60% to 100% of units at 30% AMFI	+15

iii) **Experience Providing Services to Persons with Disabilities:** Applicants must have at least 5 or more years providing services specifically targeting the needs of persons with disabilities as evidenced by previous contracts with funding entities for these services. To satisfy the requirement for this category, applicant may provide evidence of a partnership with an entity or organization that meets the requirement. Maximum 5 points.

iv) **Experience Providing Rental Voucher Services:** Applying entity must have at least two (2) years experience providing rental voucher services as evidenced by current or previous contracts with funding entities for these services. To satisfy the requirement for this category, applicant may provide evidence of a partnership with an entity or organization that meets this requirement. Maximum 5 points.

v) **Cash Reserve**: Each awarded applicant will be required to expend funds according to program guidelines and request funds from the Department for eligible expenses. Every Applicant must evidence the ability to administer the program and commit adequate cash reserves of at least one month of rent for the number of households proposed to serve as stated in the application to facilitate administration of the program during the Department's disbursement process. Cash reserves are not permanently invested in the project but are used for short term deficits that are reimbursed by program funds. Evidence of this commitment and the amount must be included in the Applicant's resolution.

vi) **Resolution:** All applications submitted must include an **original** resolution from the Applicant's direct governing body, authorizing the submission of the Application, commitment and amount of cash reserves for use during the contract period, naming of a person and the person's title authorized to represent the organization and signature authority to execute a contract. If an Applicant that is a nonprofit organization is requesting a waiver of the grant application fee, they must do so in the resolution, and must state that the nonprofit organization offers expanded services such as child care, nutrition programs, job training assistance, health services, or human services. The resolution must be signed and dated within the six months preceding the application submission date.

vii) **Description of Demand**: It will be a threshold requirement to submit a narrative that describes in detail the demand evidenced for the proposed number of units to be assisted in the proposed service area. Source data, calculations and assumptions must be included.

viii) **TBRA Self Sufficiency Program:** It will be a threshold requirement for each applicant to submit a proposed detailed Self Sufficiency Plan and must describe the process for the transition of households to permanent affordable housing by the end of the 24-month rental assistance contract term.

(1) The documentation must describe the necessary components for the overall plan proposed for transition of potential tenants. This plan, like a case management plan, should detail the need of the tenant, how these needs will be addressed including any agreements with service providers who shall assist the tenant at meeting these needs, and a proposed timeframe for completing those activities. The plan must include:

(a) A sample household budget which will utilize existing sources of income such as employment, disability payments and other types of support that details how the assisted household will afford to be self-sufficient by the end of the 24-month rental assistance.

(b) If additional income is required to attain self-sufficiency, a plan for attaining the required education or training, or a job search plan must be included.

(c) Specific housing goals that will be completed on or before the end of the 24-month assistance period include: finding permanently subsidized housing, affordable market housing or other permanent housing solutions. The plan should include the required steps such as completing an application, approximate waiting time to get into the type of housing desired and the cost of the housing to the tenant.

10) Review Process.

a) Pursuant to 10 TAC §53.48(a), each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a "received date" based on the date and time it is physically received by the ~~Department~~Division. Then each application will be reviewed on its own merits as applicable. Applications will continue to be prioritized for funding based on their "received date". Applications will be reviewed for applicant and activity eligibility, and threshold criteria as described in this NOFA.

   i) The Department will ensure review of materials required under the NOFA and Application Submission Procedures Manual (ASPM) and will issue a notice of any Administrative Deficiencies within 45 days of the received date. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase will be reviewed for recommendation to the Board by the Committee.

   ii) Because Applications are processed in the order they are received by the Department, it is possible that the Department will expend all available HOME funds before an Application has been completely reviewed. If on the date an Application is received by the Department, no funds are available under this NOFA, the Applicant will be notified that no funds exist under the NOFA and the Application will not be processed

b) Pursuant to 10 TAC §53.42 if a submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department, will be terminated without being processed as an Administrative Deficiency.

c) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications that are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department reserves the right to negotiate individual elements of any Application

d) All Applicants will be processed through the Department's Application Evaluation System, and will include a previous award and past performance evaluation. Poor past performance may disqualify an Applicant for a funding recommendation or the recommendation may include conditions.

e) Funding recommendations of eligible Applicants will be presented to the Department's Governing Board of Directors based on eligibility and limited by the total amount of funds available under this NOFA and the maximum award amount.

f) In accordance with §2306.082, Texas Government Code and 10 TAC §53.6, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 TAC §1.17

g) An Applicant may appeal decisions made by staff in accordance with 10 TAC §1.7.

11) Application Submission.

a) All applications submitted under this NOFA must be received on or before **5:00 p.m. on Friday, May 29, 2009, regardless of method of delivery.**

b) The Department will accept applications from 8 a.m. to 5 p.m. each business day, excluding federal and state holidays from the date this NOFA is published on the Department's web site until the deadline. Question regarding this NOFA should be addressed to:

HOME Division
221 E. 11th Street
Austin, Texas 78701
Telephone: (512) 463-8921
E-mail: HOME@tdhca.state.tx.us

c) All applications must be submitted, and provide all documentation, as described in this NOFA and associated application materials.

d) Applicants must submit one complete printed copy of all Application materials and one complete scanned copy on a disc of the Application materials as detailed in the Application Submission Procedures Manual (ASPM). All scanned copies must be scanned in accordance with the guidance provided in the ASPM.

e) All Application materials including manuals, NOFA, program guidelines, and all applicable HOME rules, will be available on the Department's website at www.tdhca.state.tx.us. Applications will be required to adhere to the HOME Rule and threshold requirements in effect at the time of the Application submission. Applications must be on forms provided by the Department, and cannot be altered or modified and must be in final form before submitting them to the Department.

f) Applicants are required to remit a non-refundable Application fee payable to the Texas Department of Housing and Community Affairs in the amount of $30 per Application. Payment must be in the form of a check, cashier’s check or money order. Do not send cash. Per §2306.147(b), Texas Government Code requires the Department to waive Application fees for nonprofit organizations that offer expanded services such as child care, nutrition programs, job training assistance, health services, or human services. These organizations must include proof of their exempt status and a description of their supportive services in lieu of the Application fee. The Application fee is not an allowable or reimbursable cost under the HOME Program.

g) This NOFA does not include text of the various applicable regulatory provisions that may be important to the HOME Program. For proper completion of the application, the Department strongly encourages potential applicants to review the State and Federal regulations, and contact the HOME Division for guidance and assistance.

h) **Application Workshop:** the Department will present application workshops in locations throughout the State which will provide an overview of the HOME Program Activities eligible under this NOFA and will also provide Application preparation and submission requirements, evaluation criteria, and state and federal program information. The Application workshop schedule and registration will be posted on the Department’s website at www.tdhca.state.tx.us

i) **Audit Requirements:** An applicant is not eligible to apply for funds or any other assistance from the Department unless a past audit or Audit Certification Form has been submitted to the Department in a satisfactory format on or before the application deadline for funds or other assistance per 10 TAC §1.3(b). This is a threshold requirement outlined in the application, therefore applications that have outstanding past audits will be disqualified. Staff will not recommend applications for funding to the Department’s Governing Board unless all unresolved audit findings, questions or disallowed costs are resolved per 10 TAC §1.3(c).

j) Applications must be sent via overnight delivery to:

Texas Department of Housing and Community Affairs
HOME Division
221 East 11th Street
Austin, TX 78701-2410

or via the U.S. Postal Service to:

Texas Department of Housing and Community Affairs
HOME Division
Post Office Box 13941
Austin, TX 78711-3941

NOTE: *This NOFA does not include the text of the various applicable regulatory provisions that may be important to the particular HOME Program. For proper completion of the application, the Department strongly encourages potential applicants to review all applicable State and Federal regulations.*

Texas Department of Housing and Community Affairs

HOME Investment Partnerships Program

Rental Housing Development Program
Notice of Funding Availability (NOFA)

1) Summary

The Texas Department of Housing and Community Affairs (“the Department”) announces the availability of approximately $~~5,000,000~~11,459,907 in funding from the HOME Investment Partnerships Program for the development of affordable rental housing for low-income Texans. The availability and use of these funds is subject to the State HOME Rules at Title 10 Texas Administrative Code (10 TAC) Chapter 53 (“HOME Rules”) in effect at the time application is submitted, the Federal HOME regulations governing the HOME program (24 CFR Part 92), and Chapter 2306, Texas Government Code. Other Federal regulations may also apply such as, but not limited to, 24 CFR Parts 50 and 58 for environmental requirements, Davis-Bacon Act for labor standards, 24 CFR §§85.36 and 84.42 for conflict of interest and 24 CFR Part 5, Subpart A for fair housing. Applicants are encouraged to familiarize themselves with all of the applicable state and federal rules that govern the program.

2) Allocation of HOME Funds

a) These funds are made available through the Department’s allocation of HOME funds from the U.S. Department of Housing and Urban Development (HUD). These HOME funds have been set-aside for rental housing development activities. At least $2,000,000 of these funds are set-aside for rental development proposals which involve the acquisition and rehabilitation of existing affordable housing that is at-risk of losing the benefit of a subsidy in the form of a below-market interest rate loan, interest rate reduction, rental subsidy, Section 8 housing assistance payment, rental supplement payment, rental assistance payment, or equity incentive. The ~~remaining $3,000,000 in funds~~remaining funds will be available to all eligible applicants for rental development activities. Applications for the Preservation Set-Aside must include evidence that any stipulation to maintain affordability in the contract granting the subsidy is at-risk of expiring, or that the federally insured mortgage on the Development is eligible for prepayment, within the next 24 months from the date of application submission. An Application for a Development that includes the demolition of the existing units which have received any of the previously listed benefits will not qualify as a Preservation Development unless the redevelopment will include the same site and is supplemented with HOPE VI funding or funding from the Local Housing Authority's capital grant fund. All funds released under this NOFA are to be used for the creation of affordable rental housing for low-income Texans earning 80 percent or less of the Area Median Family Income (AMFI).

b) In accordance with 10 TAC §53.48, this NOFA will be conducted as an open application cycle and funding will be available on a first-come, first-served basis. ~~Applications will be accepted and subject to the Regional Allocation Formula until~~ Applications submitted prior to 5:00 p.m. on **August 25, 2008** were subject to the Regional Allocation Formula. Any funds not requested in an application received by 5:00 p.m. **August 25, 2008**, ~~will~~ have collapsed into an open application cycle with funding available statewide and not subject to the RAF. Applicants are encouraged to review the application process cited above and described herein. Applications that do not meet minimum threshold and financial feasibility will not be considered for funding. Based on the availability of funds, applications for the statewide open application cycle will be accepted until 5:00 p.m. **April 30, 2009.**

c) The Department awards HOME funds, typically as a loan, to eligible recipients for the provision of housing for low, very low and extremely low-income individuals and families, pursuant to 10 TAC §53.41. Award amounts are limited to no more than $3 million per development. The minimum HOME award may not be less than $1,000 per HOME assisted unit. The maximum award may not exceed 90% of the Total Development Costs ("TDC") unless a resolution of support and commitment for a financial contribution to the development is made by the local unit of government in which the proposed development resides or the proposed development is located in an area where the HUD Fair Market Rents are less than the Calculated~~-~~ HOME Rents[1] but will be limited follows:

Rent	Resolution from Local Government	Max award as % of TDC	% of TDC from other sources
FMR greater than High Home	No	90%	10%
FMR greater than High Home	Yes	92%	8%
FMR less than or equal to High Home	No	93%	7%
FMR less than or equal to	Yes	95%	5%

---

[1] The Calculated HOME Rents in this section refers to the calculated rent for a household earning 65% of the area median income for High HOME or 50% of the area median income for Low HOME before considering the HUD determined Fair Market Rent. The final High and Low HOME Rents for underwriting, operations and compliance is always limited to the lesser of this calculated rent and the HUD determined Fair Market Rent.

High Home			
FMR less than or equal to Low Home	No	96%	4%
FMR less than or equal to Low Home	Yes	98%	2%

The remaining percentage of total development cost must be in the form of permanent loans with a maturity of at least 20 years, in-kind contributions or grants from third-party private or public entities. Developments with USDA or other government-sponsored loans that will remain as permanent financing may be used to satisfy this requirement from a public or private entity. Loans or grants from the Department will not satisfy this requirement. The per-unit subsidy may not exceed the per-unit dollar limits established by the United States Department of Housing and Urban Development (HUD) under §221(d)(3) of the National Housing Act, which are applicable to the area in which the development is located, and as published by HUD. The Department's underwriting guidelines in 10 TAC §1.32 will be used which set as a ~~minimum~~ feasibility criterion a 1.15 debt coverage ratio minimum. Where the anticipated debt coverage ratio in the year after completion exceeds 1.35 before considering the proposed HOME funds, a repayable loan, in whole or part, will be recommended.

~~d)The RAF tables listed below specify the allocation of funds based on the 13 Uniform State Service Regions and the rural and urban county distribution for each region.~~

~~Table 1. Regional, Rural, and Urban Funding Amounts for Rental Housing Development~~

~~Region~~	~~Place for Geographical Reference~~	~~Regional Funding Amount~~	~~Regional Funding %~~	~~Rural Funding Amount~~	~~Rural Funding %~~	~~Urban Funding Amount~~	~~Urban Funding %~~

~~e)~~d) Developments involving rehabilitation must establish that the rehabilitation will substantially improve the condition of the housing and will involve at least $~~12,000~~ 15,000 per unit in direct hard costs, unless the property is also being financed by the United States Department of Agriculture's Rural Development program. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a) (1).

e) When Department funds will have a first lien position and funds are used for new construction and/or rehabilitation, assurance of completion of the development in the form of payment and performance bonds in the full amount of the construction contract will be required. Such assurance of completion will run to the Department as obligee and must be documented prior to closing.

3) Eligible and Prohibited Activities

a) Eligible activities will include those permissible under the federal HOME Rule at 24 CFR §92.205, the State HOME Rules at 10 TAC §53.34, which involve only the acquisition, rehabilitation or construction of affordable rental developments.

b) Prohibited activities include those under federal HOME rules at 24 CFR §92.214 and 10 TAC §53.37.

c) Rental development funds will not be eligible for use in a Participating Jurisdiction (PJ). Any HOME funds available for serving households in a PJ will only be made available under a separate NOFA for Persons with Disabilities as described in the ~~2008~~ 2009 State of Texas Consolidated Plan One-Year Action Plan.

d) Refinancing of federally financed properties or use of HOME funds for properties constructed within five years of the submission of an Application for assistance will not be permissible.

4) Eligible and Ineligible Applicants

a) The Department provides HOME funding to qualified nonprofit organizations, for-profit entities, sole proprietors, public housing authorities and units of general local government.

b) Applicants may be ineligible for funding if they meet any of the criteria listed in §53.42 of the Department's HOME rule, and ineligibility with any requirements under 10 TAC §49.5~~50.5~~(a) excluding subsections (5) - (8). Applicants are encouraged to familiarize themselves with the Department's certification and debarment policies prior to application submission.

5) Matching Funds

a) Applicants will be required to submit documentation on all financial resources to be used in the development that may be considered match to the Department's federal HOME requirements. Applicants must provide firm commitments as defined in accordance with the Federal HOME rules at 24 CFR §92.218 and the Department's Match Guide and will be provided with the appropriate forms and instructions on how to report eligible match.

6) Rental Housing Development Affordability Requirements

a) Applicants should be aware that there are minimum affordability standards necessary for HOME assisted rental developments. Initial occupancy income restrictions require that at least 90% of the units are affordable to persons below 60% AMFI and that 20% of the units are affordable to person below 50% AMFI. Over the remaining affordability period at least 20% of HOME assisted units should be affordable to persons earning 50% or less than the AMFI, all remaining units must be affordable to persons earning 80% or less than the AMFI.

b) Each development will have a two-tier affordability term.

    i) The first tier will entail the federally required affordability term. For new construction or acquisition of new housing, this term is 20 years. For rehabilitation or acquisition of existing housing, the term is 5 years if the HOME investment is less than $15,000 per unit; 10 years if the HOME investment is $15,000 to $40,000 per unit; and 15 years if the HOME investment is greater than $40,000 per unit. This first tier is subject to all federal laws and regulations regarding HOME requirements, recapture, net proceeds and affordability.

    ii) The second tier of affordability is the additional number of years required to bring the total term of affordability up to 30 years or the term of the loan agreement. For example, the second tier of affordability on a 10-year federal affordability term is 20 additional years. The second tier, or remaining term, is subject only to state regulations and affordability requirements.

c) Properties will be restricted under a Land Use Restriction Agreement ("LURA"), or other such instrument as determined by the Department for these terms. Among other restrictions, the LURA may require the owner of the property to continue to accept subsidies which may be offered by the federal government, prohibit the owner from exercising an option to prepay a federally insured loan, impose tenant income-based occupancy and rental restrictions, or impose any of these and other restrictions as deemed necessary at the sole discretion of the Department in order to preserve the property as affordable housing on a case-by-case basis.

7) **Site and Development Restrictions**

a) Pursuant to 24 CFR §92.251, housing that is constructed or rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion. In the absence of a local code for new construction or rehabilitation, HOME-assisted new construction or rehabilitation must meet, as applicable, one of three model codes: Uniform Building Code (ICBO), National Building Code (BOCA), Standard (Southern) Building Code (SBCCI); or the Council of American Building Officials (CABO) one or two family code; or the Minimum Property Standards (MPS) in 24 CFR §200.925 or §200.926. To avoid duplicative inspections when Federal Housing Administration (FHA) financing is involved in a HOME-assisted property, a participating jurisdiction may rely on a Minimum Property Standards (MPS) inspection performed by a qualified person. Newly constructed housing must meet the current edition of the Model Energy Code published by the Council of American Building Officials.

b) All other HOME-assisted housing (e.g., acquisition) must meet all applicable State and local housing quality standards and code requirements and if there are no such standards or code requirements, the housing must meet the housing quality standards in 24 CFR §982.401. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a)(1).

c) Housing must meet the accessibility requirements at 24 CFR Part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. §794) and covered multifamily dwellings, as defined at 24 CFR §100.201, must also meet the design and construction requirements at 24 CFR §100.205, which implement the Fair Housing Act (42 U.S.C. 3601–3619). Additionally, pursuant to the 2009~~8~~ Qualified Allocation Plan (QAP), 10 TAC §49.9(h)(4)(H)~~50.9(h)(4)(G)~~, Developments involving New Construction (excluding New Construction of nonresidential buildings) where some Units are two-stories and are normally exempt from Fair Housing accessibility requirements, a minimum of 20% of each Unit type (i.e. one bedroom, two bedroom, three bedroom) must provide an accessible entry level and all common-use facilities in compliance with the Fair Housing Guidelines, and include a minimum of one bedroom and one bathroom or powder room at the entry level. A certification will be required after the Development is completed from an inspector, architect, or accessibility specialist. Any Developments designed as single family structures must also satisfy the requirements of §2306.514, Texas Government Code.

d) All of the current Qualified Allocation Plan and Rules 10 TAC §49.6~~50.6~~, excluding subsections (d), (f), (g) and (h) apply.

e) Developments involving new construction will be limited to 252 Units. These maximum Unit limitations also apply to those Developments which involve a combination of rehabilitation and new construction. Developments that consist solely of acquisition/rehabilitation or rehabilitation only may exceed the maximum Unit restrictions. The minimum number of units shall be 4 units, pursuant to 10 TAC §53.45(b).

8) Threshold Criteria

a) Housing units subsidized by HOME funds must be affordable to low, very-low or extremely low-income persons. Mixed Income rental developments may only receive funds for units that meet the HOME program affordability standards. All applications intended to serve persons with disabilities must adhere to the Department's Integrated Housing Rule at 10 TAC §1.15.

b) For funds being used for Rental Housing Developments, the Recipient must establish a reserve account consistent with §2306.186, Texas Government Code, and as further described in 10 TAC §1.37, pursuant to 10 TAC §53.45(c).

c) All applications will be required to meet Section 8 Housing Quality Standards detailed under 24 CFR §982.401, Texas Minimum Construction Standards, as well as the Fair Housing Accessibility Standards and Section 504 of the Rehabilitation Act of 1973. Developments must also meet all local building codes or standards that may apply. If the development is located within a jurisdiction that does not have building codes, developments must meet the most current International Building Code.

d) Pursuant to 10 TAC §53.8(a), Applicants for Rental Development activities will be required to provide written notification to each of the following persons or entities 14 days prior to the submission of any application package. Failure to provide written notifications 14 days prior to the submission of an application package at a minimum will cause an application to be terminated under competitive application cycles. Applicants must provide notifications to:

i) the executive officer and elected members of the governing board of the community where the development will be located. This includes municipal governing boards, city councils, and County governing boards;

ii) all neighborhood organizations whose defined boundaries include the location of the Development;

iii) executive officer and Board President of the school district that covers the location of the Development;

iv) residents of occupied housing units that may be rehabilitated, reconstructed or demolished; and

v) the State Representative and State Senator whose district covers the location of the Development.

vi) the notification letter must include, but not be limited to, the address of the development site, the number of units to be built or rehabilitated, the proposed rent and income levels to be served, and all other details required of the NOFA and Application Manual.

e) The following Threshold Criteria listed in this subsection are mandatory requirements at the time of Application submission unless specifically indicated otherwise:

~~i)An applicant shall provide certification that no person or entity that would benefit from the award of HOME funds has provided a source of match or has satisfied the Applicant's cash reserve obligation or made promises in connection therewith, pursuant to 10 TAC §53.44(6).~~

~~ii)All contractors, consulting firms, and Administrators must sign and submit an affidavit with each draw to attest that each request for payment of HOME funds is for the actual cost of providing a service and that the service does not violate any conflict of interest provisions, pursuant to 10 TAC §53.44(7).~~

~~iii)~~i)To encourage the inclusion of families and individuals with the highest need for affordable housing, applicants must target a minimum of 5% of the total units for individuals or families earning 30% or less of area medium income for the development site. Additionally, 20% of the total units proposed must be HOME units. Developments with existing and continuing USDA 515 program loans and rental assistance or project-based Section 8 are exempt from this minimum target requirement.

ii) If the Applicant elects to restrict 10% of all units for households at or below 30% of AMFI and at least 50% of all units for households at or below 50% of AMFI, and those units are not designated to serve very or extremely low-income households through another subsidy source with the exception of developments with existing and continuing USDA 515 program loans and rental assistance or project-based Section 8, the Department may allow a forgivable loan only for those extremely and/or very low-income units. Developments layered with Housing Tax Credits are not eligible for this optional election unless the funds are deducted from eligible basis. Applications must still meet the requirements of the Real Estate Analysis (REA) Rules and Guidelines in 10 TAC §1.32.

iii) Staff will not recommend to the Department's Governing Board any contingent payment loans except for applications with first lien debt that is insured by HUD or the Federal Housing Administration (FHA) or for applications with other lenders with which the Department has a Memorandum of Agreement permitting such contingent payment debt structures. All contingent payment loans must also meet the minimum debt coverage ratio requirements in the Real Estate Analysis Rules and Guidelines described in 10 TAC §1.32.

iv) All units targeting Extremely Low Income households at 30% of area median income and 30% of area median income must also restrict rents at comparable levels using the Housing Tax Credit program rents calculated annually by the Department and available on the Department's website (www.tdhca.state.tx.us). These additional restrictions will limit the tenant paid portion of the rent and any applicable utility allowance.

~~iv)~~v) To encourage the involvement of other public agencies and private entities in affordable housing, applicants must provide a minimum percentage of the total development costs in loans, in-kind contributions, or grants from third-party public or private entities as identified in section (2)(c) of this NOFA.

~~v)~~vi) All of the Qualified Allocation Plan and Rules in effect at the time of application submission at 10 TAC §49.9(h)~~50.9(h)~~, excluding subsections (4)(J) ~~(I)~~, (11), (12), (14)(G) and (15).

~~vi)~~vii) An applicant is not eligible to apply for funds or any other assistance from the Department unless audits are current at the time of application or the Audit Certification Form has been submitted to the Department in a satisfactory format on or before the application deadline for funds or other assistance per 10 TAC §1.3(b).

9) Review Process

a) Pursuant to 10 TAC §53.48, each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a ~~"received date"~~ Received Date based on the date and time it is physically received by the ~~Department~~ Division. Then each application will be reviewed on its own merits in three review phases, as applicable. Applications will continue to be prioritized for funding based on their ~~"received date"~~ Received Date unless they do not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over applications that may have an earlier ~~"received date"~~Received Date but that did not timely complete a phase of review. Applications will be reviewed for Applicant and Activity Eligibility, Threshold Criteria, and Financial Feasibility as described in this NOFA.

Phase One will begin as of the Received Date and will include a review of eligibility and threshold criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM and will issue a notice of any Administrative Deficiencies for threshold criteria and eligibility within 45 days of the Received Date. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Two, if applicable~~, and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds.

Phase Two will include a comprehensive review for financial feasibility for RHD and Single Family Development Program Activities. Financial feasibility reviews will be conducted by the Real Estate Analysis (REA) Division consistent with 10 TAC §1.32 of this title. REA will create an underwriting report identifying staff's recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. The Department will issue a notice of any Administrative Deficiencies within 45 days of the date the Application enters Phase Two. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Three, if applicable~~, and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not satisfied within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase and do not require additional review in Phase Three will be considered for placement on the next available Board meeting agenda.

Phase Three will only entail the review of the CHDO Certification Application. The Department will ensure review of these materials and issue notice of any Administrative Deficiencies on the CHDO Certification Application within 30 days of the Application enters Phase Three. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into the final review phase of the Application process~~ and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Only upon satisfaction of all Administrative Deficiencies will the Application be forwarded to the final phase of the Application process. Upon completion of the applicable final review phase, the Application will be considered for placement on the next available Board meeting agenda.

Because Applications are processed in the order they are received by the Department, it is possible that the Department will expend all available HOME funds before an Application has completed all phases of its review. In the case that all HOME funds are committed before an Application has completed all phases of the review process, the Department will notify the applicant that their application will remain active for ninety (90) days in its current phase. If new HOME funds become available, Applications will continue onward with their review without losing their Received Date priority. If HOME funds do not become available within ninety (90) days of the notification, the Applicant will be notified that their Application is no longer under consideration. The Applicant must reapply to be considered for future funding. If on the date an Application is received by the Department, no funds are available under this NOFA, the Applicant will be notified that no funds exist under the NOFA and the Application will not be processed.

b) Pursuant to the QAP and 10 TAC §53.42 if a submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department, will be terminated with notice and rights to appeal but without being processed as an Administrative Deficiency. To the extent that a review was unable to be performed, specific reasons for the Department's determination of ineligibility will be included in the termination letter to the Applicant.

c) A site visit may be conducted as part of the HOME Program development feasibility review. Applicants must receive recommendation for approval from the Department to be considered for HOME funding by the Board.

d) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications which are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department strives, through its loan terms, to securitize its funding while ensuring the financial feasibility of a Development. The Department reserves the right to negotiate individual elements of any Application.

e) In accordance with §2306.082 Texas Government Code and 10 TAC §53.6, it is the Department's policy to encourage the use of appropriate Alternative Dispute Resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 TAC §1.17.

f) An Applicant may appeal decisions made by staff in accordance with 10 TAC §1.7.

10) Application Submission

a) All applications submitted under this NOFA must be received on or before **5:00 p.m. on April 30, 2009.** The Department will accept applications from 8 a.m. to 5 p.m. each business day, excluding federal and state holidays from the date this NOFA is published on the Department's web site until the deadline. For questions regarding this NOFA please contact ~~Barbara Skinner~~ Cameron Dorsey at 512-475-~~1643~~ 2669 or via e-mail at ~~barbara.skinner@tdhca.state.tx.us~~cameron.dorsey@tdhca.state.tx.us.

b) If an Application is submitted to the Department that requests funds from two separate housing finance programs, the Application will be handled in accordance with the guidelines for each housing program. The Applicant is responsible for adhering to the deadlines and requirements of both programs.

c) All applications must be submitted, and provide all documentation, as described in this NOFA and associated application materials.

d) Applicants must submit ~~one complete printed copy of all Application materials and one complete scanned copy of~~ the Application materials as detailed in the ~~2008~~ Final ASPM in effect at the time the application is submitted. All scanned copies must be scanned in accordance with the guidance provided in the ~~2008~~ Final ASPM in effect at the time the application is submitted.

e) The application consists of ~~three~~ several parts~~: bound items, unbound items and electronic submission~~ as described in the Final ASPM. A complete application for each proposed development must be submitted in an electronic PDF format on a recordable compact disc (CD-R). Incomplete applications or improperly ~~bound~~ compiled applications will not be accepted. ~~The bound volumes of the application must be bound using red pressboard binders. Each volume must be submitted in a separate red pressboard binder. If the required documentation for a volume exceeds the capacity of one binder, a second binder may be used to subdivide the volume.~~ Applicants must submit ~~one complete printed copy of all application materials and one complete electronic or scanned copy stored on compact disc of~~ the application materials as detailed in the ~~2008~~ Final ASPM in effect at the time the application is submitted.

f) Third party reports – If all applicable third party reports are not received at the time of application submission, the Application will be terminated.

g) All Application materials including manuals, NOFA, program guidelines, and all applicable HOME rules, will be available on the Department's website at www.tdhca.state.tx.us. Applications will be required to adhere to the HOME Rule and threshold requirements in effect at the time of the Application submission. Applications must be on forms provided by the Department, and cannot be altered or modified and must be in final form before submitting them to the Department.

h) Applicants are required to remit a non-refundable Application fee payable to the Texas Department of Housing and Community Affairs in the amount of $500.00 per Application. Payment must be in the form of a check, cashier's check or money order. Do not send cash. Section 2306.147(b) of the Texas Government Code requires the Department to waive Application fees for nonprofit organizations that offer expanded services such as child care, nutrition programs, job training assistance, health services, or human services. These organizations must include proof of their exempt status and a description of their supportive services in lieu of the Application fee. The Application fee is not a reimbursable cost under the HOME Program.

i) Applications must be sent via overnight delivery to:

HOME Division
Texas Department of Housing and Community Affairs
Attn: Barbara Skinner
221 East 11th Street
Austin, TX 78701-2410

or via the U.S. Postal Service to:

HOME Division
Texas Department of Housing and Community Affairs
Attn: Barbara Skinner
Post Office Box 13941
Austin, TX 78711-3941

NOTE: *This NOFA does not include the text of the various applicable regulatory provisions that may be important to the particular HOME Rental Housing Development Program. For proper completion of the application, the Department strongly encourages potential applicants to review all applicable State and Federal regulations.*

Texas Department of Housing and Community Affairs

HOME Investment Partnerships Program

Community Housing Development Organization (CHDO)
Rental Housing Development Program
Notice of Funding Availability (NOFA)

1) Summary

The Texas Department of Housing and Community Affairs ("the Department") announces the availability of approximately $5,966,488 in funding from the HOME Investment Partnerships Program for Community Housing Development Organizations (CHDO) to develop affordable rental housing for low-income Texans. The availability and use of these funds is subject to the Department's HOME Program Rule at Title 10 Texas Administrative Code (10 TAC) Chapter 53 in effect at the time the application is submitted, the Federal HOME regulations governing the HOME program (24 CFR Part 92), and Chapter 2306, Texas Government Code. Other federal regulations may also apply such as, but not limited to, 24 CFR parts 50 and 58 for environmental requirements, Davis-Bacon Act for labor standards, 24 CFR §§85.36 and 84.42 for conflict of interest and 24 CFR part 5, subpart A for fair housing. Applicants are encouraged to familiarize themselves with all of the applicable state and federal rules that govern the program.

2) Allocation of HOME Funds

a) These funds are made available through the Department's allocation of HOME funds from the U. S. Department of Housing and Urban Development (HUD). The funds are set-aside for eligible CHDO and rental housing development proposals which involve new construction, rehabilitation, acquisition and rehabilitation of affordable housing development activities. All funds released under this NOFA are to be used for the creation of affordable ~~single family and~~ rental housing for low-income Texans earning 80 percent or less of the Area Median Family Income (AMFI).

b) In accordance with 10 TAC §53.48, this NOFA will be conducted as an open application cycle and funding will be available on a first-come, first-served basis. Applications submitted prior to ~~Applications will be accepted and subject to the Regional Allocation~~

~~Formula until~~ 5:00 p.m. on **August 25, 2008** were subject to the Regional Allocation Formula. Any funds not requested in an application received by 5:00 p.m. **August 25, 2008**, ~~will~~ have collapsed into an open application cycle with funding available statewide and not subject to the RAF. Applicants are encouraged to review the application process cited above and described herein. Applications that do not meet minimum threshold and financial feasibility will not be considered for funding. Based on the availability of funds, applications for the statewide open application cycle will be accepted until 5:00 p.m. **April 30, 2009.**

c) The Department awards HOME funds, typically as a loan, to eligible recipients for the provision of housing for low, very low and extremely low-income individuals and families, pursuant to 10 TAC §53.41. Award amounts are limited to no more than $4,000,000 per development. The minimum HOME award may not be less than $1,000 per HOME assisted unit. The maximum award may not exceed 90% of the Total Development Costs ("TDC") unless a resolution of support and commitment for a financial contribution to the development is made by the local unit of government in which the proposed development resides or the proposed development is located in an area where the HUD Fair Market Rents are less than the Calculated HOME Rents[1] but will be limited follows:

Rent	Resolution from Local Government	Max award as % of TDC	% of TDC from other sources
FMR greater than High Home	No	90%	10%
FMR greater than High Home	Yes	92%	8%
FMR less than or equal to High Home	No	93%	7%
FMR less than or equal to High Home	Yes	95%	5%
FMR less than or equal to Low Home	No	96%	4%
FMR less than or equal to Low Home	Yes	98%	2%

The remaining percentage of total development cost must be in the form of permanent loans with a maturity of at least 20 years, in-kind contributions or grants from third-party private or public entities. Developments with USDA or other government-sponsored loans that will remain as permanent financing may be used to satisfy this requirement from a public or private entity. Loans or grants from the Department will not satisfy this requirement. The per-unit subsidy may not exceed the per-unit dollar limits established

---

[1] The Calculated HOME Rents in this section refers to the calculated rent for a household earning 65% of the area median income for High HOME or 50% of the area median income for Low HOME before considering the HUD determined Fair Market Rent. The final High and Low HOME Rents for underwriting, operations and compliance is always limited to the lesser of this calculated rent and the HUD determined Fair Market Rent.

by the United States Department of Housing and Urban Development (HUD) under §221(d)(3) of the National Housing Act, which are applicable to the area in which the development is located, and as published by HUD. For rental housing developments, the Department's underwriting guidelines in 10 TAC §1.32 will be used which set as a ~~minimum~~ feasibility criterion a 1.15 debt coverage ratio minimum. Where the anticipated debt coverage ratio in the year after completion exceeds 1.35 before considering the proposed HOME funds, a repayable loan, in whole or part will be recommended.

~~d)The RAF table listed below specifies the allocation of funds based on the 13 Uniform State Service Regions and the rural and urban distribution for each region.~~

~~Table 1. Regional, Rural, and Urban Funding Amounts~~

~~Region~~	~~Place for Geographical Reference~~	~~Regional Funding Amount~~	~~Regional Funding %~~	~~Rural Funding Amount~~	~~Rural Funding %~~	~~Urban Funding Amount~~	~~Urban Funding %~~
~~1~~	~~Lubbock~~	~~$336,759~~	~~5.6%~~	~~$336,697~~	~~100.0%~~	~~$62~~	~~0.0%~~
~~2~~	~~Abilene~~	~~$221,073~~	~~3.7%~~	~~$216,394~~	~~97.9%~~	~~$4,678~~	~~2.1%~~
~~3~~	~~Dallas/Fort Worth~~	~~$1,055,290~~	~~17.7%~~	~~$323,989~~	~~30.7%~~	~~$731,302~~	~~69.3%~~
~~4~~	~~Tyler~~	~~$758,527~~	~~12.7%~~	~~$591,573~~	~~78.0%~~	~~$166,954~~	~~22.0%~~
~~5~~	~~Beaumont~~	~~$350,596~~	~~5.9%~~	~~$317,507~~	~~90.6%~~	~~$33,089~~	~~9.4%~~
~~6~~	~~Houston~~	~~$423,701~~	~~7.1%~~	~~$173,866~~	~~41.0%~~	~~$249,836~~	~~59.0%~~
~~7~~	~~Austin/Round Rock~~	~~$253,845~~	~~4.3%~~	~~$142,926~~	~~56.3%~~	~~$110,919~~	~~43.7%~~
~~8~~	~~Waco~~	~~$280,019~~	~~4.7%~~	~~$148,937~~	~~53.2%~~	~~$131,082~~	~~46.8%~~
~~9~~	~~San Antonio~~	~~$304,580~~	~~5.1%~~	~~$191,121~~	~~62.7%~~	~~$113,459~~	~~37.3%~~
~~10~~	~~Corpus Christi~~	~~$431,592~~	~~7.2%~~	~~$357,601~~	~~82.9%~~	~~$73,990~~	~~17.1%~~
~~11~~	~~Brownsville/Harlingen~~	~~$1,048,681~~	~~17.6%~~	~~$760,432~~	~~72.5%~~	~~$288,249~~	~~27.5%~~
~~12~~	~~San Angelo~~	~~$302,926~~	~~5.1%~~	~~$211,416~~	~~69.8%~~	~~$91,510~~	~~30.2%~~
~~13~~	~~El Paso~~	~~$198,898~~	~~3.3%~~	~~$110,413~~	~~55.5%~~	~~$88,485~~	~~44.5%~~
	~~Total~~	~~$5,966,488~~	~~100.0%~~	~~$3,882,873~~	~~65.1%~~	~~$2,083,615~~	~~34.9%~~

~~e)~~d) Each CHDO that is awarded HOME funds may also be eligible to receive a grant for CHDO Operating Expenses. Applicants will be required to submit organizational operating budgets, audits and other financial and non-financial materials detailed in the HOME application. The award amount for CHDO Operating Expenses shall not exceed $75,000~~50,000, with the exception that CHDO's who have never received a HOME award from the Department may receive Operating Expenses~~ in accordance with 10 TAC §53.47(a)(~~7~~4). Awards for operating expenses will be drawn over a two-year period of time. The Department reserves the right to limit an Applicant to receive not more than one award of CHDO Operating Expenses during the same fiscal year and to further limit the award of CHDO Operating Expenses.

~~f)~~e) Developments involving rehabilitation must establish that the rehabilitation will substantially improve the condition of the housing and will involve at least $~~12,000~~15,000 per unit in direct hard costs, unless the property is also being financed by the United States Department of Agriculture's Rural Development program. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a)(1).

f) When Department funds will have a first lien position and funds are used for new construction and/or rehabilitation, assurance of completion of the development in the form of payment and performance bonds in the full amount of the construction contract will be required. Such assurance of completion will run to the Department as obligee and must be documented prior to closing.

3) Eligible and Prohibited Activities

a) Eligible activities will include those permissible under the federal HOME Rule at 24 CFR §92.205, the State HOME Rules at 10 TAC §53.34 and 53.50, which involve only the acquisition, rehabilitation or construction of affordable developments.

b) Prohibited activities include those under federal HOME rules at 24 CFR §92.214 and 10 TAC §53.37.

c) Development funds will not be eligible for use in a Participating Jurisdiction (PJ). Any HOME funds available for serving households in a PJ will only be made available under a separate NOFA for Persons with Disabilities as described in the ~~2008~~ 2009 State of Texas Consolidated Plan One-Year Action Plan.

d) Refinancing of federally financed properties or use of HOME funds for properties constructed within five years of the submission of an Application for assistance will not be permissible.

4) Eligible and Ineligible Applicants

a) The Department provides HOME CHDO funding to qualified nonprofit organizations eligible for CHDO certification. CHDO Certification will be awarded in accordance with the rules and procedures as set forth in the HOME rules at 10 TAC §53.50, Community Housing Development Organization (CHDO) Certification. A separate application process is required for CHDO Certification. Review and approval of the CHDO Certification occurs during the threshold review process, however Applicants will not receive a formal certification until the award of the HOME funds has been approved by the Department's Board. The CHDO Application package will be available with all other application materials on the Department's website. A new Application for CHDO certification must be submitted to the Department with each new Application for HOME Development funds under the CHDO set aside.

b) CHDO Applicants must be the Sponsor, Owner or Developer of the proposed Development. Applicants who apply through a Limited Partnership will be required to provide evidence, at the time of CHDO certification and commitment, that the CHDO

Applicant is the Managing General Partner of the partnership and has effective control (decision making authority) over the development and management of the property, pursuant to 24 CFR §92.300.

c) Applicants may be ineligible for funding if they meet any of the criteria listed in §53.42 of the Department's HOME rule, and ineligibility with any requirements under 10 TAC §~~50.5~~49.5 of this title excluding subsections (5) thru (8). Applicants are encouraged to familiarize themselves with the Department's certification and debarment policies prior to application submission.

5) Matching Funds

~~a)~~ Applicants will be required to submit documentation on all financial resources to be used in the development that may be considered match to the Department's federal HOME requirements. Applicants must provide firm commitments as defined in accordance with the Federal HOME rules at 24 CFR §92.218 and the Department's Match Guide and will be provided with the appropriate forms and instructions on how to report eligible match.

6) Rental Housing Development Affordability Requirements

a) Applicants should be aware that there are minimum affordability standards necessary for HOME assisted rental developments. Initial occupancy income restrictions require that at least 90% of the units are affordable to persons below 60% AMFI and that 20% of the units are affordable to person below 50% AMFI. Over the remaining affordability period at least 20% of HOME assisted units should be affordable to persons earning 50% or less than the AMFI, all remaining units must be affordable to persons earning 80% or less than the AMFI.

b) Each development will have a two-tier affordability term.

i) The first tier will entail the federally required affordability term. For new construction or acquisition of new housing, this term is 20 years. For rehabilitation or acquisition of existing housing, the term is 5 years if the HOME investment is less than $15,000 per unit; 10 years if the HOME investment is $15,000 to $40,000 per unit; and 15 years if the HOME investment is greater than $40,000 per unit. This first tier is subject to all federal laws and regulations regarding HOME requirements, recapture, net proceeds and affordability.

ii) The second tier of affordability is the additional number of years required to bring the total term of affordability up to 30 years or the term of the loan agreement. For example, the second tier of affordability on a 10-year federal affordability term is 20 additional years. The second tier, or remaining term, is subject only to state regulations and affordability requirements.

c) Properties will be restricted under a Land Use Restriction Agreement ("LURA"), or other such instrument as determined by the Department for these terms. Among other restrictions, the LURA may require the owner of the property to continue to accept subsidies which may be offered by the federal government, prohibit the owner from exercising an option to prepay a federally insured loan, impose tenant income-based occupancy and rental restrictions, or impose any of these and other restrictions as deemed necessary at the sole discretion of the Department in order to preserve the property as affordable housing on a case-by-case basis.

7) **Site and Development Restrictions**

a) Pursuant to 24 CFR §92.251, housing that is constructed or rehabilitated with HOME funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion. In the absence of a local code for new construction or rehabilitation, HOME-assisted new construction or rehabilitation must meet, as applicable, one of three model codes: Uniform Building Code (ICBO), National Building Code (BOCA), Standard (Southern) Building Code (SBCCI); or the Council of American Building Officials (CABO) one or two family code; or the Minimum Property Standards (MPS) in 24 CFR §200.925 or §200.926. To avoid duplicative inspections when Federal Housing Administration (FHA) financing is involved in a HOME-assisted property, a participating jurisdiction may rely on a Minimum Property Standards (MPS) inspection performed by a qualified person. Newly constructed housing must meet the current edition of the Model Energy Code published by the Council of American Building Officials.

b) All other HOME-assisted housing (e.g., acquisition) must meet all applicable State and local housing quality standards and code requirements and if there are no such standards or code requirements, the housing must meet the housing quality standards in 24 CFR §982.401. When HOME funds are used for a rehabilitation development the entire unit must be brought up to the applicable property standards, pursuant to 24 CFR §92.251(a)(1).

c) Housing must meet the accessibility requirements at 24 CFR part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and covered multifamily dwellings, as defined at 24 CFR §100.201, must also meet the design and construction requirements at 24 CFR 100.205, which implement the Fair Housing Act (42 U.S.C. 3601–3619). Additionally, pursuant to the ~~2007~~ 2009 Qualified Allocation Plan (QAP), §~~§~~49.9(h)(4)(~~G~~H), Developments involving New Construction (excluding New Construction of nonresidential buildings) where some Units are two-stories and are normally exempt from Fair Housing accessibility requirements, a minimum of 20% of each Unit type (i.e. one bedroom, two bedroom, three bedroom) must provide an accessible entry level and all common-use facilities in compliance with the Fair Housing Guidelines, and include a minimum of one bedroom and one bathroom or powder room at the entry level. A certification will be required after the Development is completed from an inspector, architect, or accessibility specialist. Any Developments designed as single family structures must also satisfy the requirements of §2306.514, Texas Government Code.

d) All of the current Qualified Allocation Plan and Rules 10 TAC §~~50.6~~49.6, excluding subsections (d), (f), (g) and (h) apply.

e) Developments involving new construction will be limited to 252 Units. These maximum Unit limitations also apply to those Developments which involve a combination of rehabilitation and new construction. Developments that consist solely of acquisition/rehabilitation or rehabilitation only may exceed the maximum Unit restrictions. The minimum number of units shall be 4 units, pursuant to 10 TAC §53.45 (b).

8) Threshold Criteria

a) Housing units subsidized by HOME funds must be affordable to low, very-low or extremely low-income persons. Mixed Income rental developments may only receive funds for units that meet the HOME program affordability standards. All applications intended to serve persons with disabilities must adhere to the Department's Integrated Housing Rule at 10 TAC §1.15.

b) For funds being used for Rental Housing Developments, the Recipient must establish a reserve account consistent with §2306.186, Texas Government Code, and as further described in 10 TAC §1.37 of this title, pursuant to 10 TAC 53.45 (c).

c) All applications will be required to meet Section 8 Housing Quality Standards detailed under 24 CFR §982.401, Texas Minimum Construction Standards, as well as the Fair Housing Accessibility Standards and Section 504 of the Rehabilitation Act of 1973. Developments must also meet all local building codes or standards that may apply. If the development is located within a jurisdiction that does not have building codes, developments must meet the most current International Building Code.

d) Pursuant to 10 TAC §53.8(a), Applicants for Rental Development activities will be required to provide written notification to each of the following persons or entities 14 days prior to the submission of any application package. Failure to provide written notifications 14 days prior to the submission of an application package at a minimum will cause an application to be terminated under competitive application cycles. Applicants must provide notifications to:

   i) the executive officer and elected members of the governing board of the community where the development will be located. This includes municipal governing boards, city councils, and County governing boards;

   ii) all neighborhood organizations whose defined boundaries include the location of the Development;

   iii) executive officer and Board President of the school district that covers the location of the Development;

   iv) residents of occupied housing units that may be rehabilitated, reconstructed or demolished; and

v) the State Representative and State Senator whose district covers the location of the Development.

vi) the notification letter must include, but not be limited to, the address of the development site, the number of units to be built or rehabilitated, the proposed rent and income levels to be served, and all other details required of the NOFA and Application Manual.

e) The following Threshold Criteria listed in this subsection are mandatory requirements at the time of Application submission unless specifically indicated otherwise:

~~i)An applicant shall provide certification that no person or entity that would benefit from the award of HOME funds has provided a source of match or has satisfied the Applicant's cash reserve obligation or made promises in connection therewith, pursuant to 10 TAC §53.44(6).~~

~~ii)All contractors, consulting firms, and Administrators must sign and submit an affidavit with each draw to attest that each request for payment of HOME funds is for the actual cost of providing a service and that the service does not violate any conflict of interest provisions, pursuant to §53.44 (7).~~

~~iii)~~i) To encourage the inclusion of families and individuals with the highest need for affordable housing, applicants for rental housing development must target a minimum of 5% of the total units for individuals or families earning 30% or less of area median family income for the development site. Additionally, 20% of the total units proposed must be HOME units. Developments with existing and continuing USDA 515 program loans and rental assistance or project-based Section 8 are exempt from this minimum target requirement.

ii) All units targeting Extremely Low Income households at 30% of area median income and 30% of area median income must also restrict rents at comparable levels using the Housing Tax Credit program rents calculated annually by the Department and available on the Department's website (www.tdhca.state.tx.us). These additional restrictions will limit the tenant paid portion of the rent and any applicable utility allowance.

iii) If the Applicant elects to restrict 10% of all units for households at or below 30% of AMFI and at least 50% of all units for households at or below 50% of AMFI, and those units are not designated to serve very or extremely low-income households through another subsidy source with the exception of developments with existing and continuing USDA 515 program loans and rental assistance or project-based Section 8, the Department may allow a forgivable loan only for those extremely and/or very low-income units. Developments layered with Housing Tax Credits are not eligible for this optional election unless the funds are deducted from eligible basis. Applications must still meet the requirements of the Real Estate Analysis (REA) Rules and Guidelines in 10 TAC §1.32.

iv) Staff will not recommend to the Department’s Governing Board any contingent payment loans except for applications with first lien debt that is insured by HUD or the Federal Housing Administration (FHA) or for applications with other lenders with which the Department has a Memorandum of Agreement permitting such contingent payment debt structures. All contingent payment loans must also meet the minimum debt coverage ratio requirements in the Real Estate Analysis Rules and Guidelines described in 10 TAC §1.32.

~~iv)~~v) To encourage the involvement of other public agencies and private entities in affordable housing, applicants must provide a minimum~~–~~ percentage~~–~~ of the total development costs in loans, in-kind contributions, or grants from third-party ~~-~~public or private entities as identified in section 2(c) of this NOFA.

~~v)~~vi) All of the Qualified Allocation Plan and Rules in effect at the time of application submission at 10 TAC §49.9(h), excluding subsections (4)(~~I~~J), (11), (12), (14)(G) and (15).

~~vi)~~vii) An applicant is not eligible to apply for funds or any other assistance from the Department unless audits are current at the time of application or the Audit Certification Form has been submitted to the Department in a satisfactory format on or before the application deadline for funds or other assistance per 10 TAC §1.3(b).

9) Review Process

a) Pursuant to 10 TAC §53.48, each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a ~~"r~~Received D~~d~~ate~~"~~ based on the date and time it is physically received by the ~~Department~~Division. Then each application will be reviewed on its own merits in three review phases, as applicable. Applications will continue to be prioritized for funding based on their ~~"r~~Received ~~date~~Date~~"~~ unless they do not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over applications that may have an earlier ~~"r~~Received ~~date~~Date~~"~~ but that did not timely complete a phase of review. Applications will be reviewed for Applicant and Activity Eligibility, Threshold Criteria, and Financial Feasibility as described in this NOFA.

Phase One will begin as of the Received Date and will include a review of eligibility and threshold criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM and will issue a notice of any Administrative Deficiencies for threshold criteria and eligibility within 45 days of the Received Date. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Two, if applicable~~, and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds.

Phase Two will include a comprehensive review for financial feasibility~~ for RHD and Single Family Development Program Activities~~. Financial feasibility reviews will be conducted by the Real Estate Analysis (REA) Division consistent with §1.32 of this title. REA will create an underwriting report identifying staff's recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. The Department will issue a notice of any Administrative Deficiencies within 45 days of the date the Application enters Phase Two. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Three, if applicable~~, and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not satisfied within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase and do not require additional review in Phase Three will be considered for placement on the next~~-~~ available Board meeting agenda.

Phase Three will only entail the review of the CHDO Certification Application. The Department will ensure review of these materials and issue notice of any Administrative Deficiencies on the CHDO Certification Application within 30 days of the Application enters Phase Three. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into the final review phase of the Application process~~ and will continue to be prioritized by their Received Date~~. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Only upon satisfaction of all Administrative Deficiencies will the Application be forwarded to the final phase of the Application process. Upon completion of the applicable final review phase, the Application will be considered for placement on the next available Board meeting agenda..

Because Applications are processed in the order they are received by the Department, it is possible that the Department will expend all available HOME funds before an Application has completed all phases of its review. In the case that all HOME funds are committed before an Application has completed all phases of the review process, the Department will notify the applicant that their application will remain active for ninety (90) days in its current phase. If new HOME funds become available, Applications will continue onward with their review without losing their Received Date priority. If HOME funds do not become available within ninety (90) days of the notification, the Applicant will be notified that their Application is no longer under consideration. The Applicant must reapply to be considered for future funding. If on the date an Application is received by the Department, no funds are available under this NOFA, the Applicant will be notified that no funds exist under the NOFA and the Application will not be processed.

b) Pursuant to the HOME Rule §53.42 if a submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department, will be terminated with notice and rights to appeal but without being processed as an Administrative Deficiency. To the extent that a review was unable to be performed, specific reasons for the Department's determination of ineligibility will be included in the termination letter to the Applicant.

c) A site visit will be conducted as part of the HOME Program development feasibility review. Applicants must receive recommendation for approval from the Department to be considered for HOME funding by the Board.

d) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications which are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department strives, through its loan terms, to securitize its funding while ensuring the financial feasibility of a Development. The Department reserves the right to negotiate individual elements of any Application.

e) In accordance with §2306.082 Texas Government Code and 10 TAC §53.6, it is the Department's policy to encourage the use of appropriate alternative dispute resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 Texas Administrative Code §1.17.

f) An Applicant may appeal decisions made by staff in accordance with 10 TAC §1.7.

10) Application Submission

a) All applications submitted under this NOFA must be received on or before 5:00 p.m. on **April 30, 2009**. The Department will accept applications from 8 a.m. to 5 p.m. each business day, excluding federal and state holidays from the date this NOFA is published on the Department's web site until the deadline. For questions regarding this NOFA please contact ~~Barbara Skinner~~Cameron Dorsey at 512-475-~~1643~~ 2669 or via e-mail at ~~barbara.skinner@tdhca.state.tx.us~~cameron.dorsey@tdhca.state.tx.us.

b) If an Application is submitted to the Department that requests funds from two separate housing finance programs, the Application will be handled in accordance with the guidelines for each housing program. The Applicant is responsible for adhering to the deadlines and requirements of both programs.

c) All applications must be submitted, and provide all documentation, as described in this NOFA and associated application materials.

d) Applicants must submit ~~one complete printed copy of all Application materials and one complete scanned copy of~~ the Application materials as detailed in the ~~2008~~ Final ASPM in effect at the time the application is submitted. All scanned copies must be scanned in accordance with the guidance provided in the ~~2008~~ Final ASPM in effect at the time the application is submitted.

e) The application consists of ~~three~~ several parts~~: bound items, unbound items and electronic submission~~ as further described in the Final ASPM. A complete application for each proposed development must be submitted in an electronic PDF format on a recordable compact disc (CD-R). Incomplete applications or improperly ~~bound~~ compiled applications will not be accepted. ~~The bound volumes of the application must be bound using red pressboard binders. Each volume must be submitted in a separate red pressboard binder. If the required documentation for a volume exceeds the capacity of one binder, a second binder may be used to subdivide the volume.~~ Applicants must submit ~~one complete printed copy of all application materials and one complete electronic or scanned copy stored on compact disc of~~ the application materials as detailed in the ~~2008~~ Final ASPM in effect at the time the application is submitted.

f) Third party reports – If all applicable third party reports are not received at the time of application submission, the Application will be terminated.

g) All Application materials including manuals, NOFA, program guidelines, and all applicable HOME rules, will be available on the Department's website at www.tdhca.state.tx.us. Applications will be required to adhere to the HOME Rule and threshold requirements in effect at the time of the Application submission. Applications must be on forms provided by the Department, and cannot be altered or modified and must be in final form before submitting them to the Department.

h) Applicants are required to remit a non-refundable Application fee payable to the Texas Department of Housing and Community Affairs in the amount of $500.00 per Application. Payment must be in the form of a check, cashier's check or money order. Do not send cash. §2306.147(b) of the Texas Government Code requires the Department to waive Application fees for nonprofit organizations that offer expanded services such as child care, nutrition programs, job training assistance, health services, or human services. These organizations must include proof of their exempt status and a description of their supportive services in lieu of the Application fee. The Application fee is not a reimbursable cost under the HOME Program.

i) Applications must be sent via overnight delivery to:

HOME Division
Texas Department of Housing and Community Affairs
Attn: Barbara Skinner
221 East 11th Street
Austin, TX 78701-2410

or via the U.S. Postal Service to:

HOME Division
Texas Department of Housing and Community Affairs
Attn: Barbara Skinner
Post Office Box 13941
Austin, TX 78711-3941

NOTE: *This NOFA does not include the text of the various applicable regulatory provisions that may be important to the particular HOME CHDO Rental Housing Development Program. For proper completion of the application, the Department strongly encourages potential applicants to review all applicable State and Federal regulations.*

HOME DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of the Revisions to the 2009 Housing Trust Fund Rental Production Program Notice of Funding Availability (NOFA) to be updated with adopted Housing Trust Fund Rule changes.

Requested Action

Approve, Deny or Approve with Amendments the Revisions to the 2009 Housing Trust Fund Rental Production Program Notice of Funding Availability (NOFA) to be updated with adopted Housing Trust Fund Rule changes.

Background

The 2009 Housing Trust Fund Rental Production Program NOFA was originally approved by the Board in September 2008 as one of the programs described in the 2009 Housing Trust Fund Annual Plan. The NOFA made available $2,594,000 to provide financing for rental housing developments which involve new construction, rehabilitation, or acquisition and rehabilitation. All units subsidized with Housing Trust Funds must set aside units for households at or below 50% of Area Median Family Income (AMFI). The amended Rental Production Program NOFA has been updated reflect changes necessitated by the revised Housing Trust Fund Rule and Qualified Allocation Plan that will be considered by the Board today. Additionally, staff has made minor administrative corrections and proposes the following changes:

- Clarification that the Department will not recommend a contingent payment loans or loans repayable from cashflow except for an application with first lien debt that is insured by HUD or the Federal Housing Administration (FHA) or for applications with other lenders with which the Department has a Memorandum of Agreement permitting such contingent payment debt structures.
- Addition of a requirement that payment and performance bonds be secured when the Department's funds have first lien position and are used to finance construction activities.
- Revision of language specifying the required formatting for the application, which will be described in further detail in the Final Application Submission Procedures Manual (ASPM).
- Clarification of consistent Board policy to have corresponding rent and income levels for restricted units.

The updated and amended NOFA is attached with blackline reflecting the changes recommended by staff.

Recommendation

Staff recommends approval of the updated and amended 2009 Housing Trust Fund Rental Housing Production NOFA and approval to release for publication in the *Texas Register*.

Texas Department of Housing and Community Affairs

2009 Housing Trust Fund

Rental Production Program
Notice of Funding Availability (NOFA)

1) Summary.

The Texas Department of Housing and Community Affairs ("the Department") announces the availability of approximately $2,594,000 in funding from the Housing Trust Fund for financing of affordable rental housing for very low-income and extremely low-income Texans. The availability and use of these funds is subject to the state Housing Trust Fund Rule at Title 10 Texas Administrative Code (10 TAC) Chapter 51 ("HTF Rules") and Chapter 2306, Texas Government Code in effect at the time an application is submitted. Applicants are encouraged to familiarize themselves with all of the applicable rules that govern the program.

2) Allocation of Housing Trust Funds.

a) These funds are made available through 2008 and 2009 General Revenue Funds and local revenues appropriated to the Housing Trust Fund during the 80th Legislative Session for financing rental housing developments which involve new construction, rehabilitation or acquisition and rehabilitation. All funds released under this NOFA are to be used for the subsidizing of affordable rental housing units that target very low-income Texans earning 50 % or less of Area Median Family Income (AMFI). Additionally, if the funds are used to target extremely low-income Texans earning 30% or less of the AMFI and those units are not designated to serve extremely low-income households through another subsidy source with the exception of developments with existing and continuing USDA 515 program loans and rental assistance or project-based Section 8, the Department may allow a forgivable loan only for those extremely low-income units.

b) In accordance with 10 TAC §51.~~8~~12, this NOFA will be an Open Application Cycle and funding will be available on a first-come, first-served statewide basis. Applications will be accepted until 5:00 p.m. **April 6, 2009** unless all funds are committed prior to this date. Applicants are encouraged to review the application process cited above and described herein. Applications that do not meet minimum threshold and financial feasibility will not be considered for funding.

c) The Department will allocate Housing Trust Fund awards as a loan, to eligible recipients for the provision of housing for very low and extremely low-income individuals and families. The Department's underwriting guidelines at 10 TAC §1.32 will be used which set as a ~~minimum~~ feasibility criterion a 1.15 debt coverage ratio minimum.

d) Award amounts are limited to no more than $500,000 per development.

e) Developments involving rehabilitation must establish that the rehabilitation will substantially improve the condition of the housing and will involve at least $~~12,000~~15,000 per unit in direct hard costs, unless the property is also being financed by the United States Department of Agriculture's Rural Development program.

f) When Department funds will have a first lien position and funds are used for new construction and/or rehabilitation, assurance of completion of the development in the form of payment and performance bonds in the full amount of the construction contract will be required. Such assurance of completion will run to the Department as obligee and must be documented prior to closing.

3) Eligible and Ineligible Activities and Restrictions.

a) Eligible activities will include the financing, new construction, acquisition and/or rehabilitation of affordable rental housing developments.

b) If an application is determined ineligible pursuant to §~~51.5(d)(9)~~51.8(d)(9), the application will be terminated without being processed as an Administrative Deficiency. To the extent that a review was able to be performed, specific reasons for the Department's determination of ineligibility will be included in the termination letter to the Applicant.

c) Restrictions include the displacement of existing affordable housing. Pursuant to §2306.203(a)(4) of the Texas Government Code, Housing Trust Funds shall not be utilized on a development that has the effect of permanently and involuntarily displacing low, very low, and extremely low income persons and families. Low-Income persons who may be temporarily displaced by the rehabilitation of affordable housing may be eligible for compensation of moving and relocation expenses. If a Housing Trust Fund recipient violates the permanent dislocation provision of this subsection, that recipient risks loss of Housing Trust Funds and the landlord/developer must pay the affected tenant's costs and all moving expenses.

4) Eligible and Ineligible Applicants.

a) The Department provides HTF to qualified local units of government, public housing authorities, nonprofit organizations and for-profit entities.

b) Ineligible Applicants will include the following:

  i) Previously funded recipient(s) whose Housing Trust Funds have been partially or fully deobligated due to failure to meet contractual obligations during the 12 months prior to the current funding cycle;

  ii) Applicants, or persons affiliated with the Applicant that have been barred, suspended, or terminated from procurement in a state or federal program and listed in the List of Parties Excluded from Federal Procurement of Non-procurement Programs;

    - iii) Applicants or persons affiliated with the Applicant that are subject of enforcement action under state or federal securities law, or are the subject of an enforcement proceeding with a state or federal agency or another governmental entity;
    - iv) Applicants or persons affiliated with the Applicant that have unresolved audit findings related to previous or current funding agreements with the Department;
    - v) Applicants or persons affiliated with the Applicant that have delinquent loans, fees or other commitments with the Department, until payment is made;
    - vi) Applicants who have not satisfied all threshold requirements described in this title, and the NOFA to which they are responding, and for which Administrative Deficiencies were unresolved;
    - vii) Applicants who have submitted incomplete Applications;
    - viii) Applicants or persons affiliated with the Applicant that have been otherwise barred by the Department;
    - ix) Applicants are subject to 10 TAC §1.13; or
    - x) Applicants or persons affiliated with the Applicant that have breached a contract with a public agency.
  - c) Each Application will be reviewed for its compliance history by the Department, consistent with 10 TAC Chapter 60. Applicants, or persons affiliated with an Application, found to have a Development or Contract in Material Noncompliance with the Department, will have their Application(s) terminated.

5) Affordability Requirements.

  - a) Pursuant to §2306.203(6) of the Texas Government Code, Applicants proposing multifamily housing, new construction or rehabilitation, will be required to guarantee the Development will remain affordable to income qualified families or individuals for a period of twenty (20) years.
  - b) Properties will be restricted under a Land Use Restriction Agreement ("LURA"), or other such instrument as determined by the Department for these terms. Among other restrictions, the LURA may require the owner of the property to continue to accept subsidies which may be offered by the federal government, prohibit the owner from exercising an option to prepay a federally insured loan, impose tenant income-based occupancy and rental restrictions, or impose any of these and other restrictions as deemed necessary at the sole discretion of the Department in order to preserve the property as affordable housing on a case-by-case basis.

6) Site and Development Restrictions.

  - a) Housing that is constructed or rehabilitated with HTF funds must meet all applicable local codes, rehabilitation standards, ordinances, and zoning ordinances at the time of project completion. In the absence of local codes applications will be required to meet Texas Minimum Construction Standards, as well as the Fair Housing Accessibility Standards and Section 504 of the Rehabilitation Act of 1973. Developments must also meet all local building codes or standards that may apply.
  - b) Housing must meet the accessibility requirements at 24 CFR Part 8, which implements §504 of the Rehabilitation Act of 1973 (29 U.S.C. §794) and covered multifamily dwellings, as defined at 24 CFR §100.201, must also meet the design and construction requirements at 24 CFR §100.205, which implement the Fair Housing Act (42 U.S.C.

§§3601–3619). Any Developments designed as single family structures must also satisfy the requirements of §2306.514, Texas Government Code.

7) Threshold Criteria.

a) Housing units subsidized by HTF funds must be affordable to very-low (50% AMFI or below) or extremely low-income (30% AMFI or below) persons. Mixed Income rental developments may only receive funds for units that serve very-low or extremely low-income persons. All applications intended to serve persons with disabilities must adhere to the Department's Integrated Housing Rule at 10 TAC §1.15.

b) The Recipient must establish a reserve account consistent with §2306.186, Texas Government Code, and as further described in 10 TAC §1.37.

c) Staff will not recommend to the Department's Governing Board any contingent payment loans except for applications with first lien debt that is insured by HUD or the Federal Housing Administration (FHA) or for applications with other lenders with which the Department has a Memorandum of Agreement permitting such contingent payment debt structures. All contingent payment loans must meet the minimum debt coverage ratio requirements in the Real Estate Analysis Rules and Guidelines described in 10 TAC §1.32.

~~c)~~d) The following Threshold Criteria listed in this subsection are mandatory requirements at the time of Application submission unless specifically indicated otherwise. Applicants must demonstrate the application can meet the following threshold criteria to be considered for funding:

- i) The application is consistent with the requirements established in the HTF rules and the NOFA.
- ii) The Applicant provides evidence of its ability to carry out the proposal in the areas of financing, acquiring, rehabilitating, developing or managing an affordable housing development.
- iii) To encourage the inclusion of families and individuals with the highest need for affordable housing, A~~a~~pplicants must target units for individuals or families earning 50% or less of area median family income for the development site. Additionally, 10% of the total units in the proposed development must be designated as HTF units. Developments with existing and continuing USDA 515 program loans and rental assistance or project-based Section 8 are exempt from this minimum targeting requirement. All units designated as HTF units must have corresponding income and rent restrictions.
- iv) An ~~applicant~~ Applicant is not eligible to apply for funds or any other assistance from the Department unless audits are current at the time of application or the Audit Certification Form has been submitted to the Department in a satisfactory format on or before the application deadline for funds or other assistance per 10 TAC §1.3(b).
- v) All of the current Qualified Allocation Plan and Rules in effect at the time of application submission at 10 TAC §~~50~~49.9(h), excluding subsections (11), (12), (14)(G) and (15).

8) Review Process.

a) Pursuant to 10 TAC §51.8, each application will be handled on a first-come, first-served basis as further described in this section. Each application will be assigned a "Received

Date" based on the date and time it is physically received by the Department. Then each application will be reviewed on its own merits in two review phases, as applicable. Applications will continue to be prioritized for funding based on their "Received Date" unless they do not proceed into the next phase(s) of review. Applications proceeding in a timely fashion through a phase will take priority over applications that may have an earlier "Received Date" but that did not timely complete a phase of review. Applications will be reviewed for Applicant and Activity Eligibility, Threshold Criteria, and Financial Feasibility as described in this NOFA.

Phase One will begin as of the Received Date and will include a review of eligibility and threshold criteria and all Application requirements. The Department will ensure review of materials required under the NOFA and ASPM and will issue a notice of any Administrative Deficiencies for threshold criteria and eligibility within 45 days of the Received Date. Applicants who are able to resolve their Administrative Deficiencies within five (5) business days will be forwarded into Phase Two, if applicable, and will continue to be prioritized by their Received Date. Applications with Administrative Deficiencies not cured within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase and do not require additional review in Phase Two will be reviewed for recommendation to the Board by the Committee.

Phase Two will include a comprehensive review for financial feasibility for Development Activities. Financial feasibility reviews will be conducted by the Real Estate Analysis (REA) Division consistent with 10 TAC §1.32. REA will create an underwriting report identifying staff’s recommended Loan terms, the Loan or Grant amount and any conditions to be placed on the Development. The Department will issue a notice of any Administrative Deficiencies within 45 days of the date the Application enters Phase Two. Applications with Administrative Deficiencies not satisfied within five (5) business days, will be terminated and must reapply for consideration of funds. Applications that have completed this Phase will be reviewed for recommendation to the Board by the Committee.

Because applications are processed in the order they are received by the Department, it is possible that the Department will expend all available Housing Trust Fund funds before an application has completed all phases of review. In the case that all Housing Trust Fund funds are committed before an application has completed all phases of the review process, the Department will notify the A~~a~~pplicant that their application will remain active for ninety (90) days in its current phase. If new Housing Trust Fund funds become available, Applications will continue onward with their review without losing their Received Date priority. If Housing Trust Fund funds do not become available within ninety (90) days of the notification, the Applicant will be notified that their Application is no longer under consideration. The ~~applicant~~ Applicant must reapply to be considered for future funding. If on the date an Application is received by the Department, no funds are available under the NOFA, the ~~applicant~~ Applicant will be notified that no funds remain under the NOFA and that the application will not be processed.

b) If a submitted Application has an entire Volume of the application missing; has excessive omissions of documentation from the Threshold Criteria or Uniform Application documentation; or is so unclear, disjointed or incomplete that a thorough review cannot reasonably be performed by the Department, as determined by the Department, the Application will be terminated without being processed as an Administrative Deficiency.

c) Pursuant to 10 TAC §51.~~8~~12(e), a site visit will be conducted as part of the HTF Program development feasibility review. Applicants must receive recommendation for approval from the Department to be considered for HTF funding by the Board.

d) The Department may decline to consider any Application if the proposed activities do not, in the Department's sole determination, represent a prudent use of the Department's funds. The Department is not obligated to proceed with any action pertaining to any Applications which are received, and may decide it is in the Department's best interest to refrain from pursuing any selection process. The Department strives, through its loan terms, to securitize its funding while ensuring the financial feasibility of a Development. The Department reserves the right to negotiate individual elements of any Application.

e) In accordance with §2306.082 Texas Government Code and 10 TAC §51.12~~8~~(g), it is the Department's policy to encourage the use of appropriate Alternative Dispute Resolution procedures ("ADR") under the Governmental Dispute Resolution Act, Chapter 2009, Texas Government Code, to assist in resolving disputes under the Department's jurisdiction. As described in Chapter 154, Civil Practices and Remedies Code, ADR procedures include mediation. Except as prohibited by the Department's ex parte communications policy, the Department encourages informal communications between Department staff and Applicants, and other interested persons, to exchange information and informally resolve disputes. The Department also has administrative appeals processes to fairly and expeditiously resolve disputes. If at anytime an Applicant or other person would like to engage the Department in an ADR procedure, the person may send a proposal to the Department's Dispute Resolution Coordinator. For additional information on the Department's ADR Policy, see the Department's General Administrative Rule on ADR at 10 TAC §1.17.

f) An Applicant may appeal decisions made by staff in accordance with 10 TAC §1.7.

9) Application Submission.

a) All applications submitted under this NOFA must be received on or before 5:00 p.m. on **April 6, 2009**. The Department will accept applications from 8 a.m. to 5 p.m. each business day, excluding federal and state holidays from the date this NOFA is published on the Department's web site until the deadline. For questions regarding this NOFA please contact ~~Barbara Skinner~~Cameron Dorsey at 512-475-~~1643~~ 2669 or via e-mail at ~~barbara.skinner@tdhca.state.tx.us~~cameron.dorsey@tdhca.state.tx.us.

b) If an Application is submitted to the Department for a Development that requests funds from two separate housing finance programs, and only one of the housing finance programs is operated as a competitive cycle, the Application will be handled in accordance with the guidelines for each housing program. The Applicant is responsible for adhering to the deadlines and requirements of both programs. If an Application is submitted for two separate housing finance programs where both programs are either open cycle, or competitive, the Application will be handled in accordance with the guidelines of each housing program. The Applicant is responsible for adhering to the deadlines and requirements of both programs.

c) Applications submitted to the Department must be complete and include all support documentation and associated application materials as described in this NOFA.

d) Applicants must submit ~~two complete printed~~ copies of all Application materials as detailed in the ~~2008~~ Application Submission and Procedure Manual (ASPM) for Housing Trust Fund in effect at the time the application is submitted.

e) The application consists ~~of three~~several parts~~: bound items, unbound items and electronic submission. A~~and a complete application for each proposed development must be submitted in an electronic PDF format on a recordable compact disc (CD-R).~~.~~ Incomplete applications or improperly ~~bound~~ compiled applications will not be accepted. ~~The bound volumes of the application must be bound using red pressboard binders. Each volume must be submitted in a separate red pressboard binder. If the required documentation for a volume exceeds the capacity of one binder, a second binder may be used to subdivide the volume.~~

f) If third party reports are not received at the time of application submission, the Application will be terminated.

g) Application materials including manuals, NOFA, program guidelines, and applicable Housing Trust Fund rules, will be available on the Department's website at www.tdhca.state.tx.us. Applications will be required to adhere to the Housing Trust Fund Rule and threshold requirements in effect at the time of the Application submission. Applications must be on forms provided by the Department, and cannot be altered or modified and must be in final form before submitting them to the Department.

h) Applicants are required to remit a non-refundable Application fee payable to the Texas Department of Housing and Community Affairs in the amount of $200.00 per Application. Payment must be in the form of a check, cashier's check or money order. Do not send cash. Section 2306.147(b) of the Texas Government Code requires the Department to waive Application fees for nonprofit organizations that offer expanded services such as child care, nutrition programs, job training assistance, health services, or human services. These organizations must include proof of their exempt status and a description of their supportive services in lieu of the Application fee.

i) Applications must be sent via overnight delivery to:

HOME Division
Texas Department of Housing and Community Affairs
Attn: Barbara Skinner
221 East 11th Street
Austin, TX 78701-2410

or via the U.S. Postal Service to:

HOME Division
Texas Department of Housing and Community Affairs
Attn: Barbara Skinner
Post Office Box 13941
Austin, TX 78711-3941

NOTE: *This NOFA does not include the text of the various applicable regulatory provisions that may be important to the particular Housing Trust Fund Program. For proper completion of the application, the Department strongly encourages potential A~~a~~pplicants to review all applicable State and Federal regulations.*

Housing Resource Center
BOARD ACTION REQUEST
November 13, 2008

Action Items

Presentation, Discussion and Possible Approval of the *2009 State of Texas Consolidated Plan: One-Year Action Plan*

Requested Action

Approval of the *2009 State of Texas Consolidated Plan: One-Year Action Plan*

Background

The Texas Department of Housing and Community Affairs (TDHCA), Office of Rural Community Affairs (ORCA), and Department of State Health Services (DSHS) prepare the *2009 State of Texas Consolidated Plan: One-Year Action Plan* (Plan) in accordance with 24 CFR §91.320. TDHCA coordinates the preparation of the State of Texas Consolidated Plan documents although two of the programs addressed in the documents are administered through other state agencies. The Plan covers the State's administration of the Community Development Block Grant Program (CDBG) by ORCA, the Housing Opportunities for Persons with AIDS Program (HOPWA) by DSHS, and the Emergency Shelter Grants (ESG) Program and the HOME Investment Partnerships Program by TDHCA.

The Plan reports on the intended use of funds received by the State of Texas from the U.S. Department of Housing and Urban Development (HUD) for Program Year 2009. The Program Year begins on February 1, 2009, and ends on January 31, 2010. The Plan also illustrates the State's strategies in addressing the priority needs and specific goals and objectives identified in the *2005-2009 State of Texas Consolidated Plan*.

The Plan was available for public comment from September 19th through October 20th, 2008. See Attachment A for a summary of the comment received and the State's reasoned responses. As noted in Attachment A, one change is recommended to the Plan regarding the HOME Colonia Model Subdivision Program. The final version of the Plan is due to HUD by December 15th.

Summary of significant changes from the 2*008 Consolidated Plan: One-Year Action Plan* for the HOME and ESG programs. Note that the Plan includes significant revisions to the CDBG portion of the document; however the CDBG program is administered by the Office of Rural Community Affairs.

HOME Program:

- Describes ability to reprogram funds from undersubscribed activity or set-aside to another activity, see page 38.
- Rental housing development and rental housing preservation are combined into one activity called rental housing development that includes acquisition, construction, and rehabilitation of multifamily rental housing, see pages 38 and 41.

- Homebuyer assistance limits will be established in the program rules or the Notice of Funding Available (NOFA) when funds are made available, see page 41.
- The approximately $2 million in HOME funds for persons with disabilities will be allocated with approximately $1 million for rental development and approximately $1 million for Tenant-Based Rental Assistance (TBRA) and Home Buyer Assistance (HBA) with optional rehabilitation as developed in cooperation with the Disability Advisory Workgroup, see page 44.
- Replaced full description of federal requirements for lead-based paint with reference to federal rule, see page 51.

ESG Program:

- An additional recipient requirement stating that renovation must bring the building to safe and sanitary conditions and the renovation must assist individuals in obtaining other services and assistance, see page 55.
- Additional detail on the monitoring assessment process developed by the Portfolio Management and Compliance Division in conjunction with the Community Affairs Division, see page 57.

Recommendation

Staff recommends approval of the *2009 State of Texas Consolidated Plan: One-Year Action Plan.*

ATTACHMENT A

SUMMARY OF PUBLIC COMMENT

Comment:

Explore more seamless combinations of funding, including TDHCA and Rural Development funding. Improve mechanisms to layer financing in more effective and efficient ways. (15)

Response:

The Department constantly explores options for more efficient and effective delivery of program funds and is receptive to suggestions on how to improve program plans. Regulatory and operational challenges exist when multiple federal programs administered by various federal agencies that were designed independently are combined. The Department works closely with funding agencies to identify opportunities; clarify requirements and mitigate obstacles when possible. In addition, the Department is actively pursing additional flexible funding for the State Housing Trust Fund.

Comment:

Offer an application workshop jointly with Texas Rural Development staff upon the issuance of USDA's 2009 Section 514/516 Notice of Funding Availability. Include RD, TDHCA, Texas State Affordable Housing Corporation, and other potential leveraged resources. (15)

Response:

Department staff works closely with other funding organizations to facilitate the use of federal funds in subsidy layering. However, the release of federal funds from the various programs occurs at different cycles throughout the year. In order to allow for funding to be available throughout the year, the HOME Division maintains a long, open-cycle Notice of Funding Availability (NOFA), provides an application workshop at the release of the funds, and has dedicated staff to provide ongoing technical assistance through the application cycle. Due to federal requirements, the Department may not release early or delay the notification of availability of federal funds. The Division will take the recommendations under advisement and direct staff to examine ways to improve processes so that the effectiveness of the Department's HOME and HTF funds are maximized.

Comment:

Allow HOME and HTF to serve as "first funding" committed in order to attract RD and other resources. Allow enough lead time (perhaps using forward commitments and conditional commitments) and flexibility to allow housing sponsors to secure all financing within various agency's timeframes and deadlines. (15)

Response:

Currently, the Department is working to provide a continuous variety of funds, so applicants may utilize all of the resources available to them in creating a successful housing application. HOME and Housing Trust Fund dollars are available on first-come, first-serve basis and staff is dedicated to providing technical assistance, so applicants are successful in applying for these funds. However, the application and use of these funds must work within the federal programmatic requirements.

Comment:

Apply repair dollars available through TDHCA to farmworker housing. (15)

Response:

Under the current program guidelines, owner-occupied housing is eligible for housing assistance through the HOME program. Additionally, the Division has an annual set-aside in its rental allocation to specifically assist with rental preservation, which would include multifamily rental housing. Unfortunately, the Division does not currently offer repair funds for single-family rental housing—our focus is family-owned housing.

Comment:

Assist in the development of Comprehensive Needs Analysis (CNA) for existing farm labor housing, to determine future viability and best funding options. Conduct regional needs assessment for farmworker housing (as was conducted in three counties by TDHCA in 2008). (15)

Response:

TDHCA recently published the "Overall Housing Needs Assessment for Parmer, Castro and Deaf Smith Counties," a study of multifamily housing need, including farmworker housing, in three rural counties in the Panhandle. Funding for affordable housing research and regional market studies is appropriated from the Texas Legislature and is sufficient to produce between three to four regional market studies a year. The Department is open to conducting additional studies on the housing needs of farmworkers, although with limited resources we will consider research on other vulnerable populations as well.

Comment:

Although included as a member of TDHCA's Special Needs category, TDHCA needs to better serve farmworkers. According to recent Annual Performance Reports to the State of Texas Consolidated Plan, only two migrant households were served in fiscal year 2005, four were served in fiscal year 2006, and one in fiscal year 2007. If farmworkers are being served more frequently (and we suspect that farmworkers living in colonias participate in Office of Colonia Initiatives' Bootstrap and other programs), documentation needs to be more comprehensive on the number of farmworkers actually served. (15)

Response:

The Department concurs that the data available on farmworkers served is most likely not representative of the actual numbers. The Department relies on the quality of information entered by program subrecipients and will work to improve the quality of reported data.

Comment:

Implement TDHCA's own recommendations cited in its report completed September, 2006 titled "Migrant Labor Housing Facilities in Texas: A report on the Quantity, Availability, Need and Quality of Migrant Labor Housing in the State." Such recommendations include:

> a. Expand education and research, making the migrant community more aware of licensing requirements and more likely to report possible unlicensed activity.
>
> b. Pursue an open and ongoing dialogue with farmworker advocacy groups to provide for a better understanding of where state and federal resources might most effectively assist both this sector of Texas residents and the larger agricultural industry, such as loans or other subsidies to improve and expand licensed facilities and the broadening of this sector's awareness of the array of other housing subsidies. (15)

Response:

Since September 1, 2005, when responsibility for the licensing and inspection of migrant labor housing facilities was transferred from the Department of State Health Services to TDHCA, TDHCA has undertaken the following activities related to education and outreach:

a. Six Manufactured Housing staff members have attended training on Housing Quality Standards, including inspection requirements for farmworker housing. The Department developed an inspection report customized for farmworker housing facilities.
b. TDHCA performs annual on-site physical inspections of migrant housing facilities and required annual license renewal. All identified violations must be corrected and a follow-up inspection by TDHCA verifies the corrective action.
c. All licensed facilities post a notice in Spanish and English with instructions on how to file a complaint and contact TDHCA, including reporting unlicensed facilities.
d. Representatives from several TDHCA divisions, including HOME, the Office of Colonia Initiatives, the Housing Resource Center, Manufactured Housing, and Multifamily Finance Production, have attended and presented information on housing programs at the 2007 and 2008 Annual Farmworker Housing Summits. Several internal discussions, including discussions with TDHCA's funding agencies, on farmworker housing options have explored various possibilities of funding for farmworker housing, including the use of Tenant-Based Rental Assistance or housing tax credits.

Comment:

Establish a Regional Intermediary Pilot Program to Facilitate Investment of HOME funds in the Border Region

Commenter calls on the state of Texas to establish a regional intermediary pilot program for investing funds in the Border region. This includes allocating a percentage of HOME dollars for direct investment in non-profit, community development organizations in the Border region. Commenter requests representatives from the region provide input in the selection of the intermediary in the Regional Allocation Formula (RAF) Regions 11 & 13. Finally, the commenter recommends intermediaries should be able to use a percentage of the funding for their own development projects and receive a percentage of the HOME administrative funding. (14)

Response:

One of the proposed definition clarifications in the proposed rule is the addition of the definition for Councils of Government. These organizations are eligible to apply for funds, can represent a multi-county area, often have local representation as a component of the organization's structure, and would receive an allocation of administrative funds to assist in the administration of the program. Additionally, areas of the state that may be underserved could be eligible to apply for funding directly from HUD by forming a consortium, which is what this proposed model suggests.

The Department understands the great need in Regions 11 and 13 and has made several large awards, such as the recent Colonia Model Subdivision award, that addresses the need in a similar way to the proposed model. HOME staff is working closely with Contract Administrators in the area to encourage success on current contracts and apply for a variety of funds available to the area, such as the Contract for Deed program. Therefore, staff does not recommend the implementation of this proposed model at this time.

Comment:

Invest in Technical Assistance and Regional Cooperation Among Community Development Corporations in the Border Region

Commenter recommends the Department set-aside a minimum of $150,000 to support technical assistance and cooperative business arrangements for and among non-profit, community development corporations operating in the Border region to enhance the efficacy of this sector. The type of technical assistance and the selection of technical assistance providers should be determined by a panel comprised of representatives from non-profit community development corporations operating in the Border region. (14)

Response:

Unfortunately, federal regulations prohibit the use of HOME funds for technical assistance. While Housing Trust Fund monies may be used for technical assistance, there has not been a precedent to utilize these funds for cooperative business arrangements development of community development organizations, staff understands there are other organizations and funding sources in the State working toward this goal. As we cannot address this recommendation with HOME funds, no change is recommended at this time.

Comment:

Establish Benchmarks for the Timeliness of HOME-related Administrative Processing and Legal Review by the State of Texas

Commenter recommends that benchmarks be established for the timeliness of the State's HOME-related administrative processing and legal review. (14)

Response:

Benchmarks are currently identified by program type in the HOME Rule and allot time for various administrative processes. No change is recommended at this time.

Comment:

As a Condition of Rental Assistance, Special Needs Households May Participate in a Community Wide or Alternate Program in Lieu of a Self-Sufficiency Program

Commenter recommends that Special Needs households be exempt from participating in the mandatory self-sufficiency program as currently required under the Tenant-Based Rental Assistance (TBRA) program and be permitted to participate in a community wide program or alternate program exclusively serving this special needs population. (12)

Response:

Currently, TBRA program requirements require participation in a self-sufficiency program to make certain the household is able to transition to a more permanent housing solution. By removing this requirement, households may be placed at risk of losing their housing at the end of the contract term, without a good alternative that will continue to provide quality and safe affordable housing.

Comment:

Community Housing Development Organization (CHDO) HOME Funds for Land Acquisition and Single-Family Lot Development

Commenter requests for the Department to consider allocating CHDO HOME funds for land acquisition and single-family lot development using the Colonia Model Subdivision Program as a model for the single-family program. Commenter states that being able to subordinate lot development funds to a qualified buyer’s first mortgage would accomplish the same as a buyer “grant” fund program by helping the developer/builder create an entry-level for-sale product. The CHDO HOME funds would provide equity for single-family housing construction. (13)

Commenter states that there is not a plan for a CHDO NOFA, which creates a serious dilemma in that the organization depends on development projects to sustain the organization. For an organization to be successful, the primary focus is on one thing and one thing only; the organization does one thing and does it well, and that is single-family housing development. If there is no CHDO money for single-family housing development, then basically the organization would cease to exist. (6)

Response:

Staff is currently recommending changes to the One-Year Action Plan that would reserve one million ($1,000,000) dollars in funds for ninety (90) days toward the Colonia Model Subdivision Program and set-aside remaining funds for CHDO Single-Family Development.

Comment:

Allow for an Agency of the State or Community Mental Health Center to be Listed as an Eligible Applicant

Commenter recommends recognition of Agency of the State or Community Mental Health Center to be listed as eligible applicants as permitted by the HOME Final Rule. (12)

Response:

Both entity types are currently eligible either as governmental entities or non-profit organizations under the HOME Program Rules. No change is recommended at this time.

Comment:

Commenter states that in 2004 he received assistance through the Home of Your Own (HOYO) program and wanted to applaud the program. Through the City of Fort Worth and the State of Texas, over 61 families over the last eight years purchase a house or receive modifications for those homeowners after they've closed on a house. The commenter states he fully supports this program. (63)

Staff Response:

Staff appreciates the comments and looks forward to providing more assistance for families in the future**.**

2009 State of Texas Consolidated Plan
One-Year Action Plan

TABLE OF CONTENTS

INTRODUCTION

The Texas Department of Housing and Community Affairs (TDHCA), Office of Rural Community Affairs (ORCA) and Department of State Health Services (DSHS) have completed the *2009 State of Texas Consolidated Plan One-Year Action Plan* ("the Plan") in accordance with 24 CFR §91.320. When the combined actions of TDHCA, ORCA, and DSHS are referenced in the Plan, the organizations are collectively referred to as "the State."

The Plan reports on the intended use of funds received by the State of Texas from the US Department of Housing and Urban Development (HUD) for Program Year (PY) 2009. The Program Year begins on February 1, 2009, and ends on January 31, 2010. The performance report on PY 2008 funds will be available in May 2009. The Plan covers the State's administration of the HOME Investment Partnerships Program (HOME), Emergency Shelter Grants Program (ESG), Community Development Block Grant Program (CDBG), and the Housing Opportunities for Persons with AIDS Program (HOPWA).

The Plan illustrates the State's strategies in addressing the priority needs and specific goals and objectives identified in the *2005-2009 State of Texas Consolidated Plan*. The Plan consists of the following sections:

- Executive Summary. Provides a detailed synopsis of the One-Year Action Plan.
- General Information. A description of the State's plan to undertake other activities that fulfill requirements of §91.320 (i) and (j).
- Action Plans. Program-specific plans for HOME, ESG, CDBG, and HOPWA illustrating funding guidelines and fund allocations as required under 24 CFR §91.320 (g).
- Form Applications and Certifications. Contains Standard Form 424, the application for federal resources, as well as HUD required certifications.

EXECUTIVE SUMMARY

The 2009 One-Year Action Plan illustrates the combined actions of the Texas Department of Housing and Community Affairs (TDHCA), Office of Rural Community Affairs (ORCA) and Department of State Health Services (DSHS), referred to collectively as "the State." In particular, this action plan addresses the priority needs and specific objectives identified in the *2005-2009 State of Texas Consolidated Plan*. The Consolidated Plan covers the State's administration of the HOME Investment Partnerships Program (HOME), Emergency Shelter Grants Program (ESG), Community Development Block Grant Program (CDBG), and the Housing Opportunities for Persons with AIDS Program (HOPWA).

Objectives and Outcomes

The 2009 One-Year Action Plan:

1. Reports on the intended use of funds received by the State of Texas from the US Department of Housing and Urban Development (HUD) for Program Year (PY) 2009
2. Explains the State's method for distributing CDBG, ESG, HOME, and HOPWA program funds
3. Provides opportunity for public input on the development of the annual plan

The State's progress in achieving the goals put forth in the One-Year Action Plan will be measured according to HUD guidelines (24 CFR 91.520) and outlined in the 2008 Annual Performance Report.

In accordance with the guidelines from HUD, the State complies with the new CPD Outcome Performance Measurement System. Program activities are categorized into the objectives and outcomes listed in the chart below.

	OUTCOME 1 Accessibility	**OUTCOME 2** Affordability	**OUTCOME 3** Sustainability
OBJECTIVE #1 Suitable Living Environment	Enhance Suitable Living Environment Through Improved/New Accessibility **(SL-1)**	Enhance Suitable Living Environment Through Improved/New Affordability **(SL-2)**	Enhance Suitable Living Environment Through Improved/New Sustainability **(SL-3)**
OBJECTIVE #2 Decent Housing	Create Decent Housing with Improved/New Availability **(DH-1)**	Create Decent Housing with Improved/New Affordability **(DH-2)**	Create Decent Housing with Improved/New Sustainability **(DH-3)**
OBJECTIVE #3 Economic Opportunity	Provide Economic Opportunity Through Improved/New Accessibility **(EO-1)**	Provide Economic Opportunity Through Improved/New Affordability **(EO-2)**	Provide Economic Opportunity Through Improved/New Sustainability **(EO-3)**

The objectives and outcomes as they apply to each of the four programs are listed below. The performance figures are based on actual performance during the Program Year (February 1st through January 31st) of current contracts and actual units and households served. In contrast, the performance measures reported to the Texas Legislative Budget Board for the State Fiscal Year (September 1st through August 31st) are based on projected units and households at time of award. The HOME performance figures reported herein may include funding from several years as funds from previous years are deobligated and refunded.

HOME Program Performance Measures

Outcomes and Objectives	Performance Indicators	Expected Number
DH-2	Rental units assisted through new construction and rehabilitation	870
DH-2	Tenant-based rental assistance units	725
DH-2	Existing homeowners assisted through owner-occupied assistance	432
DH-2	First-time homeowners assisted through homebuyer assistance	437

ESG Performance Measures

Outcomes and Objectives	Performance Indicators	Expected Number
SL-1	Provide funding to support the provision of emergency and/or transitional shelter to homeless persons.	40,302
DH-2	The provision of non-residential services including homelessness prevention assistance.	59,860

CDBG Performance Measures

Outcomes and Objectives	Performance Indicators	Expected Number
SL-1	Neighborhood Facilities	2
SL-1	Water/Sewer Improvements	133
SL-2	Water/Sewer Improvements	5
SL-3	Water/Sewer Improvements	47
SL-1	Street Improvements	45
SL-2	Street Improvements	3
SL-3	Street Improvements	12
SL-1	Rehabilitation; Single Unit Residential	48
DH-2	Rehabilitation; Single Unit Residential	2
DH-3	Rehabilitation; Single Unit Residential	5
DH-2	Homeownership Assistance	2
SL-1	Parks, Playgrounds, and Other Recreational Facilities	2
SL-1	Public Service	3
DH-2	Public Service	2
SL-1	Clearance Demolition Activities	5
SL-3	Clearance Demolition Activities	2
EO-1	ED Direct Financial Assistance for For-Profits	1
EO-2	ED Direct Financial Assistance for For-Profits	19

HOPWA Performance Measures

Outcomes and Objectives	Performance Indicators	Expected Number
DH-2	TBRA housing assistance	550

Outcomes and Objectives	Performance Indicators	Expected Number
DH-2	STRMU housing assistance	700
DH-2	Supportive Services (restricted to case mgt., smoke detectors, and phone service)	1250
DH-1	Permanent Housing Placement (security deposits, application fees, credit checks)	20

Evaluation of Past Performance

The HOME Program committed $28,004,990 with 750 total beneficiaries reported in PY 2007 (February 1, 2007, through January 31, 2008). Delayed distribution of federal funding inhibited the timely disbursement of PY 2007 funds. In addition, a biennial funding cycle implemented in 2006-2007 in response to public input resulted in insufficient applicants. Distribution of the funds by activity is described in the table below.

HOME Funds Committed, PY 2007

Activity	Amount
Homebuyer Assistance (all activities)	$1,889,700
Owner Occupied Housing Assistance	$17,497,754
Tenant Based Rental Assistance	$2,229,368
CHDO Rental Development	$4,026,043
CHDO Operating Expenses	$75,000
Rental Housing Development	$955,000
Rental Housing Preservation	$1,332,125
Total	$28,004,990

The ESG Program committed $4,842,391 through 76 grants, with 111,291 total beneficiaries reported in PY 2007. Funds were used toward activities including renovation of buildings for use as emergency shelters, provision of essential services to the homeless, payment of operating costs of shelters, and development of homeless prevention services. The breakdown of the total funding is described in the table below.

ESG Funds Committed, PY 2007

Use of Funding	Amount
Funds Committed	$4,788,848
Carry-In Funds Committed*	$53,543
Total	**$4,842,391**

*Carry-In represents the unexpended fund balance from the prior year's allocation

During Program Year 2007, the Texas CDBG Program committed a total of $82,944,201 through 286 awarded contracts. For contracts that were awarded in PY 2007, 696,863 persons received service. Distribution of the funds by activity is described in the table below.

CDBG Funds Committed, PY 2007

Fund	Program Description	2007 Total Obligation
Community Development	Provides grants on a competitive basis to address public facility and housing needs such as sewer, water system, road, and drainage improvements.	$29,776,548
Community Development Supplemental Fund	Allocates additional funds among the 24 state planning regions using a different allocation formula. Same application and purposes as the Community Development Fund.	15,382,155
Texas Capital Fund	Provides financing for projects that create and retain jobs primarily for low- and moderate-income persons.	11,411,900
Colonia Construction Fund	Provides grants for colonia projects; primarily water, sewer and housing.	5,097,668
Colonia EDAP Fund	Provides grants for colonias for the cost of service lines, service connections, and plumbing improvements associated with being connected to a Texas Water Development Board's (TWDB) Economically Distressed Areas Program (EDAP)-funded water and sewer system improvement project.	439,614
Colonia Planning Fund	Colonia Area Planning Fund – provides grants for preliminary surveys and site engineering, provides assistance towards the cost of architectural services, mortgage commitments, legal services, and obtaining construction loans. Colonia Comprehensive Planning Fund - provides assistance that is used to conduct a complete inventory of the colonias that includes demographic, housing, public facilities, public services, and land use statistics.	177,750
Colonia Self-Help Centers	Provides grant funds for the operation of seven Self-Help Centers in colonias.	2,860,216
Non-Border Colonia	This fund is available on a biennial basis to eligible county applicants for primarily water and sewer projects in severely distressed unincorporated areas located farther than 150 miles from the Texas-Mexico border and within non-entitlement counties.	500,000
Planning / Capacity Building	Provides grants on a competitive basis to communities for planning activities that address public facility and housing needs.	664,000
Disaster Relief/ Urgent Need	Provides grants to communities on an as-needed basis for recovery from disasters such as floods or tornadoes and Urgent water and sewer needs of recent origin that are unanticipated and pose a serious public safety or health hazard.	11,605,656
STEP Fund	Provides grants to cities and counties for solving water and sewer problems with a self-help approach that requires local participation through donated labor and materials.	4,928,694
Micro-Enterprise Loan Fund	Provides a tool for rural communities to assist their very small businesses (5 or fewer employees) access capital.	100,000

Fund	Program Description	2007 Total Obligation
Total		**$82,944,201**

The HOPWA Program expended $2,648,406 through 26 project sponsors, with 2,416 beneficiaries of housing assistance reported in PY 2007. Funds were used toward tenant-based rental assistance and emergency assistance to prevent homelessness of low-income persons with HIV/AIDS. Distribution of the funds by activity is described in the table below.

HOPWA Program Expenditures, PY 2007

Eligible Activities	Amount
Expenditures for TBRA	$1,554,095
Expenditures for STRMU	$609,318
Expenditures for Supportive Services	$291,095
Total	**$2,648,406**

Consultation and Public Participation

The Action Plan was made available for public comment from September 19, 2008, through October 20, 2008. Public hearings were held at 6 locations across the state – Austin, Brownsville, Fort Worth, El Paso, Houston, and Lubbock – to allow citizens to respond and comment in a public forum. A total of 47 people attended the public hearings. Written comment was accepted at the public hearings, as well as by mail, fax, or email. Public notice of the draft comment period and the hearings was made through an announcement in the Texas Register, on the TDHCA website, as well as e-mail notifications to members of the agency's e-mail list.

Summary of public comment and the corresponding reasoned responses are included in the "Summary of Public Comment" section of the Action Plan.

Within the "Summary of Public Comment" section of the Action Plan, a table lists the individuals and organizations that provided comment. This list includes the public and private agencies whose input ("consultation") was incorporated into the plan, as required by 24 CFR Part 91.

Additionally, the Plan includes summary of comment received at public hearings held by ORCA specifically regarding the CDBG sections of the Plan.

GENERAL INFORMATION

The following section outlines the State's strategies in regard to eight categories of required actions. These categories include Citizen Participation, Institutional Structure, Available Resources, Meeting Underserved Needs, Poverty Level Households, Needs of Public Housing, Monitoring, and Lead-Based Paint Initiatives.

CITIZEN PARTICIPATION

SUMMARY OF CITIZEN PARTICIPATION PROCESS

The Action Plan was made available for a 32-day public comment period from September 19, 2008, through October 20, 2008. In addition, public hearings were held at 6 locations across the state: Austin, Brownsville, Dallas, El Paso, Houston, and Lubbock. Written comment was accepted at the public hearings and by mail, fax, or email. A total of 47 people attended the public hearings.

The notification process for the public hearings included the following: a notice in the *Texas Register*, a TDHCA website posting; email to TDHCA email lists including approximately 3,000 cities, counties, developers, non-profit organizations, legislative contacts, advocacy groups, subcontractors, and other interested parties. Spanish speaking staff was in attendance at the hearings in El Paso and Brownsville to assist individuals who require a language interpreter.

A summary of the comments and the Staff's reasoned responses is provided below in Part A, "Consolidated Plan Hearings."

SUMMARY OF PUBLIC COMMENT

A. Consolidated Plan Hearings

Below is a summary of comment received during the public comment period and the State's responses.

Comment:
Explore more seamless combinations of funding, including TDHCA and Rural Development funding. Improve mechanisms to layer financing in more effective and efficient ways. (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)
Response:
The Department constantly explores options for more efficient and effective delivery of program funds and is receptive to suggestions on how to improve program plans. Regulatory and operational challenges exist when multiple federal programs administered by various federal agencies that were designed independently are combined. The Department works closely with funding agencies to identify opportunities; clarify requirements and mitigate obstacles when possible. In addition, the Department is actively pursing additional flexible funding for the State Housing Trust Fund.

Comment:
Offer an application workshop jointly with Texas Rural Development staff upon the issuance of USDA's 2009 Section 514/516 Notice of Funding Availability. Include RD, TDHCA, Texas State Affordable Housing Corporation, and other potential leveraged resources. (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)

Response:
Department staff works closely with other funding organizations to facilitate the use of federal funds in subsidy layering. However, the release of federal funds from the various programs occurs at different cycles throughout the year. In order to allow for funding to be available throughout the year, the HOME Division maintains a long, open-cycle Notice of Funding Availability (NOFA), provides an application workshop at the release of the funds, and has dedicated staff to provide ongoing technical assistance through the application cycle. Due to federal requirements, the Department may not release early or delay the notification of availability of federal funds. The Division will take the recommendations under advisement and direct staff to examine ways to improve processes so that the effectiveness of the Department's HOME and HTF funds are maximized.

Comment:
Allow HOME and HTF to serve as "first funding" committed in order to attract RD and other resources. Allow enough lead time (perhaps using forward commitments and conditional commitments) and flexibility to allow housing sponsors to secure all financing within various agency's timeframes and deadlines. (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)
Response:
Currently, the Department is working to provide a continuous variety of funds, so applicants may utilize all of the resources available to them in creating a successful housing application. HOME and Housing Trust Fund dollars are available on first-come, first-serve basis and staff is dedicated to providing technical assistance, so applicants are successful in applying for these funds. However, the application and use of these funds must work within the federal programmatic requirements.

Comment:
Apply repair dollars available through TDHCA to farmworker housing. (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)
Response:
Under the current program guidelines, owner-occupied housing is eligible for housing assistance through the HOME program. Additionally, the Division has an annual set-aside in its rental allocation to specifically assist with rental preservation, which would include multifamily rental housing. Unfortunately, the Division does not currently offer repair funds for single-family rental housing—our focus is family-owned housing.

Comment:
Assist in the development of Comprehensive Needs Analysis (CNA) for existing farm labor housing, to determine future viability and best funding options. Conduct regional needs assessment for farmworker housing (as was conducted in three counties by TDHCA in 2008). (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)
Response:
TDHCA recently published the "Overall Housing Needs Assessment for Parmer, Castro and Deaf Smith Counties," a study of multifamily housing need, including farmworker housing, in three rural counties in the Panhandle. Funding for affordable housing research and regional market studies is appropriated from the Texas Legislature and is sufficient to produce between three to four regional market studies a year. The Department is receptive to conducting additional studies on the housing needs of farmworkers, although with limited resources the Department will consider research on other vulnerable populations as well.

Comment:

Although included as a member of TDHCA's Special Needs category, TDHCA needs to better serve farmworkers. According to recent Annual Performance Reports to the State of Texas Consolidated Plan, only two migrant households were served in fiscal year 2005, four were served in fiscal year 2006, and one in fiscal year 2007. If farmworkers are being served more frequently (and we suspect that farmworkers living in colonias participate in Office of Colonia Initiatives' Bootstrap and other programs), documentation needs to be more comprehensive on the number of farmworkers actually served. (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)

Response:

The Department concurs that the data available on farmworkers served is most likely not representative of the actual numbers. The Department relies on the quality of information entered by program subrecipients and will work to improve the quality of reported data.

Comment:

Implement TDHCA's own recommendations cited in its report completed September, 2006 titled "Migrant Labor Housing Facilities in Texas: A report on the Quantity, Availability, Need and Quality of Migrant Labor Housing in the State." Such recommendations include:

a. Expand education and research, making the migrant community more aware of licensing requirements and more likely to report possible unlicensed activity.

b. Pursue an open and ongoing dialogue with farmworker advocacy groups to provide for a better understanding of where state and federal resources might most effectively assist both this sector of Texas residents and the larger agricultural industry, such as loans or other subsidies to improve and expand licensed facilities and the broadening of this sector's awareness of the array of other housing subsidies. (Kathy Tyler, Housing Services Director, Motivation Education & Training, Inc.)

Response:

Since September 1, 2005, when responsibility for the licensing and inspection of migrant labor housing facilities was transferred from the Department of State Health Services to TDHCA, TDHCA has undertaken the following activities related to education and outreach:

a. Six Manufactured Housing staff members have attended training on Housing Quality Standards, including inspection requirements for farmworker housing. The Department developed an inspection report customized for farmworker housing facilities.

b. TDHCA performs annual on-site physical inspections of migrant housing facilities and required annual license renewal. All identified violations must be corrected and a follow-up inspection by TDHCA verifies the corrective action.

c. All licensed facilities post a notice in Spanish and English with instructions on how to file a complaint and contact TDHCA, including reporting unlicensed facilities.

d. Representatives from several TDHCA divisions, including HOME, the Office of Colonia Initiatives, the Housing Resource Center, Manufactured Housing, and Multifamily Finance Production, have attended and presented information on housing programs at the 2007 and 2008 Annual Farmworker Housing Summits. Several internal discussions, including discussions with TDHCA's funding agencies, on farmworker housing options have explored various possibilities of funding for farmworker housing, including the use of Tenant-Based Rental Assistance or housing tax credits.

Comment:

Establish a Regional Intermediary Pilot Program to Facilitate Investment of HOME funds in the Border Region

Commenter calls on the state of Texas to establish a regional intermediary pilot program for investing funds in the Border region. This includes allocating a percentage of HOME dollars for direct investment in non-profit, community development organizations in the Border region. Commenter requests representatives from the region provide input in the selection of the intermediary in the Regional Allocation Formula (RAF) Regions 11 & 13. Finally, the commenter recommends intermediaries should be able to use a percentage of the funding for their own development projects and receive a percentage of the HOME administrative funding. (Noel Poyo, Executive Director, NALCAB - The National Association for Latino Community Asset Builders)

Response:

One of the proposed definition clarifications in the proposed rule is the addition of the definition for Councils of Government. These organizations are eligible to apply for funds, can represent a multi-county area, often have local representation as a component of the organization's structure, and would receive an allocation of administrative funds to assist in the administration of the program. Additionally, areas of the state that may be underserved could be eligible to apply for funding directly from HUD by forming a consortium, which is what this proposed model suggests.

The Department understands the great need in Regions 11 and 13 and has made several large awards, such as the recent Colonia Model Subdivision award, that addresses the need in a similar way to the proposed model. HOME staff is working closely with Contract Administrators in the area to encourage success on current contracts and apply for a variety of funds available to the area, such as the Contract for Deed program. Therefore, staff does not recommend the implementation of this proposed model at this time.

Comment:

Invest in Technical Assistance and Regional Cooperation Among Community Development Corporations in the Border Region

Commenter recommends the Department set-aside a minimum of $150,000 to support technical assistance and cooperative business arrangements for and among non-profit, community development corporations operating in the Border region to enhance the efficacy of this sector. The type of technical assistance and the selection of technical assistance providers should be determined by a panel comprised of representatives from non-profit community development corporations operating in the Border region. (Noel Poyo, Executive Director, NALCAB - The National Association for Latino Community Asset Builders)

Response:

Unfortunately, federal regulations prohibit the use of HOME funds for technical assistance. While Housing Trust Fund monies may be used for technical assistance, there has not been a precedence to utilize these funds for cooperative business arrangements development of community development organizations, staff understands there are other organizations and funding sources in the State working toward this goal. As we cannot address this recommendation with HOME funds, no change is recommended at this time.

Comment:

Establish Benchmarks for the Timeliness of HOME-related Administrative Processing and Legal Review by the State of Texas

Commenter recommends that benchmarks be established for the timeliness of the State's HOME-related administrative processing and legal review. (Noel Poyo, Executive Director, NALCAB - The National Association for Latino Community Asset Builders)

Response:

Benchmarks are currently identified by program type in the HOME Rule and allot time for various administrative processes. No change is recommended at this time.

Comment:
As a Condition of Rental Assistance, Special Needs Households May Participate in a Community Wide or Alternate Program in Lieu of a Self-Sufficiency Program
Commenter recommends that Special Needs households be exempt from participating in the mandatory self-sufficiency program as currently required under the Tenant-Based Rental Assistance (TBRA) program and be permitted to participate in a community wide program or alternate program exclusively serving this special needs population. (Steven Schnee, ED, MHMRA, Harris County)
Response:
Currently, TBRA program requirements require participation in a self-sufficiency program to make certain the household is able to transition to a more permanent housing solution. By removing this requirement, households may be placed at risk of losing their housing at the end of the contract term, without a good alternative that will continue to provide quality and safe affordable housing.

Comment:
Community Housing Development Organization (CHDO) HOME Funds for Land Acquisition and Single-Family Lot Development
Commenter requests for the Department to consider allocated CHDO HOME funds for land acquisition and single-family lot development using the Colonia Model Subdivision Program as a model for the single-family program. Commenter states that being able to subordinate lot development funds to a qualified buyer's first mortgage would accomplish the same as a buyer "grant" fund program by helping the developer/builder create an entry-level for-sale product. The CHDO HOME funds would provide equity for single-family housing construction. (Barry Halla, Life Rebuilders, Inc.)
Commenter states that there is not a plan for a CHDO NOFA, which creates a serious dilemma in that the organization depends on development projects to sustain the organization. For an organization to be successful, the primary focus is on one thing and one thing only; the organization does one thing and does it well, and that is single-family housing development. If there is no CHDO money for single-family housing development, then basically the organization would cease to exist. (David Diaz, Midland Community Development Corporation)
Response:
Staff is currently recommending changes to the One-Year Action Plan that would reserve funds one million ($1,000,000) dollars in funds for ninety (90) days toward the Colonia Model Subdivision Program and set-aside remaining funds for CHDO Single-Family Development.

Comment:
Allow for an Agency of the State or Community Mental Health Center to be Listed as an Eligible Applicant
Commenter recommends recognition of Agency of the State or Community Mental Health Center to be listed as eligible applicants as permitted by the HOME Final Rule. (Steven Schnee, ED, MHMRA, Harris County)
Response:
Both entity types are currently eligible either as governmental entities or non-profit organizations under the HOME Program Rules. No change is recommended at this time.

Comment:
Commenter states that in 2004 he received assistance through the Home of Your Own (HOYO) program and wanted to applaud the program. Through the City of Fort Worth and the State of Texas, over 61 families over the last eight years purchase a house or receive modifications for those homeowners after they've closed on a house. The commenter states he fully supports this program. (Dennis Barnes)

Staff Response:

Staff appreciates the comments and looks forward to providing more assistance for families in the future.

B. ORCA CDBG Action Plan Hearings

October 11, 2007
Austin, TX
(6 PM)
<u>Summary of Public Comments</u>:

One comment - Non-border Colonia Fund should stay as a separate fund.
Another comment - Non-Border Colonia Fund should be removed. If retain it, then increase the maximum amount.

Past Performance –Gave USDA example – if had a couple of extensions, bankruptcy, litigation, bad consultant / engineer – doesn't allow for corrective measures although that would be hard for ORCA staff to quantify.

Should reduce Past Performance scoring to 5% from 10%. Cover just the last two biennial cycles. One deduction per consulting firm. Or one deduction for each business location of a consulting firm.

Several comments - Examples of objective questions should be removed from the Action Plan.
Another comment – Examples of objective questions should be retained.

Failure to perform is a threshold issue. We should penalize them by making them ineligible for 2 years. Three strikes and you are out. They should not be able to apply the next time.

One comment: Proposed Action Plan is flawed. ORCA offered only one solution to the issue. ORCA has taken the HUD finding and is going to 100% objective scoring. HUD is saying that is not the only fix. ORCA is misrepresenting HUD. There are other options. ORCA needs to consider unintended consequences of the proposal. All applications will be pre-scored. It will be a disaster for the system. There was no discussion / no chance. The majority of scores in a region will be the maximum possible points. Objective questions should be removed from the Action Plan. The proposed Action Plan goes too far, weakens it. RRC Task Force – did not consider options or processes. Only wanted us to develop the factors. Don't feel any other options were allowed or considered.

October 15, 2007
Arlington, TX
<u>Summary of Public Comments</u>:

The regional objective scoring requirements will "open-up grant program to reevaluate priorities".

The reduced number of RRC scoring members (due to only quorum present, conflict rules, and low/high score removed) remains a problem.

Concern with using new Schedule C as milestone for past performance points – implementation schedule may not fit all projects.

Suggestion to verify RRC member's commitment/time to serve on RRC.

Please allow consideration of "credit" for force account work for STEP projects.

October 19, 2007
Canyon, TX

Summary of Public Comments:

ORCA should continue to concentrate its focus on community development programs instead of programs such as the micro-enterprise loan and the small business loan program. The focus should be on CDBG projects such as water and sewer infrastructure.

There should be more funds in CDBG projects.

HUD should listen to the COG's especially PRPC and continue with the RRC system.

How far back will ORCA look back for past performance to score applications in 2009?

October 22, 2007
Wharton, TX
Summary of Public Comments: None

November 1, 2007
Pecos, TX
Summary of Public Comments:

Will the HUD program requirements still apply, such as eligibility and National Objectives? May need to be clarified in the 2009 Action Plan.

Clarification may be needed in the 2009 Action Plan regarding disqualification of an application. Will ORCA or the RRC disqualify an application? Will an RRC have the authority to disqualify an application?

Will the colonia planning cycle be annual or biennial?

It was suggested that the ORCA website be revised to allow documents in WORD.

It was suggested that the same ORCA staff that attended the RRC meetings also attend any follow-up meetings held by the RRCs.

There may be quorum issues due to appointments during the RRC organizational meetings. It was suggested that ORCA assist with contacting the Governor's Office related to the appointments.

A suggestion was made that ORCA staff also be certified to manage contracts.

November 5, 2007
Alice, TX
Summary of Public Comments:

What funding options are available, since drainage is a major issue?

What is the maximum amount allotted for the Renewable Energy program?

Who can be a member of the RRC and how can new members be appointed?

Information was requested on ORCA's Rural Access to Emergency Devices Grant Program (Rural AED Grant).

November 9, 2007
Nacogdoches, TX
Summary of Public Comments:

- Establishing an Objective RRC scoring process, in which all scoring criteria would be quantifiable and verifiable.
    1. The list of examples of RRC objective scoring factors cited on pages 34-35 should be removed. Instead, ORCA should develop a “prototype scoring matrix” that is clearly quantifiable and objective for RRC members to use as a reference guide in developing their own Guidebook and scoring criteria. This ORCA-developed model would list all the objective scoring factors used in a mock grading exercise of all applications from a small sample COG representing perhaps 12-15 communities including cities and counties. ORCA would grade each application against the objective factors and include the outcome of each applicant’s score in the RRC Guidebook.
    2. Verbiage in paragraph a(1) “Responsibilities of the RRC” (page 34 of the plan) should be amended to read:
       “Each Regional Review Committee is responsible for determining local project priorities and factors through a series of meetings soliciting public input. ORCA will provide the RRC a prototype of objective scoring factors that may be presented at these public meetings.” (The idea is that the scoring criteria would be made available for public review well in advance of the grant application cycle.)

    3. The group recommended additional verbiage after the following paragraph on page 35:
       Add a new paragraph (6) TIMELINES: The RRC Guidebook should be adopted by the RRC and approved by ORCA at least 120 days prior to the application deadline. (the group recommended this be in BOLD print).

       The selection of the entity responsible for calculating the RRC scores must be identified in the RRC Guidebook and must define the role of each entity selected. ORCA shall be responsible for reviewing all scores for accuracy and for determining the final ranking of applicants once the RRC and TxCDBG scores are summed. The RRC is responsible for providing to the public the RRC scores and their respective appeals process, while the TxCDBG is responsible for publishing the final ranking of the applications.

- State score would constitute only 10% of the maximum RRC score for Past Selection (3%) and Past Performance (7%).

  The group suggested the Past Performance criterion be eliminated because it is already:
    1. addressed in the contract verbiage itself (i.e., in SECTION 3 “CONTRACTOR PERFORMANCE” of the Community Development contracts), and
    2. covered in the APPLICANT THRESHOLD AND PAST PERFORMANCE REQUIREMENTS section on pages 26-27 of the action plan.

  Further, the group felt that the paragraph on Past Performance scoring as written on pages 35-36 is, in itself, subjective in nature. For instance, the meaning of the statement, “The evaluation of an applicant’s past performance will include, but is not necessarily limited to the following:”… could be open to interpretation and analysis.

  The group suggested that if the Past Performance criterion was eliminated, the Past Selection criterion be increased from 3% to a range of between 5% and 10% to make up for this offset.

  IF, however, ORCA chooses to keep past performance as a state scoring factor, then past performance should only apply to Community Development contracts and should be defined in clear (verifiable and quantifiable) terms.

- Each RRC would develop a Regional Review Committee Guidebook that would include all the objective scoring factors and other procedures. The RRC must clearly indicate how responses would be scored under each factor. Each RRC Guidebook must obtain written approval from ORCA.

  Reference previous group comments: ADD NEW PARA (6) TIMELINES: The RRC Guidebook should be adopted by the RRC and approved by ORCA at least 120 days prior to the application deadline. (the group recommended this be in BOLD print).

Other Changes:

- Establishes the duty of the ORCA board in HB 2542 to hear appeals of State Review Committee decisions and render a decision.

The group recommended the following change to the last paragraph in the section entitled State Review Committee (SRC) - Composition and Role on page 26:

<u>"An applicant for a grant, loan, or award under a community development block grant program may appeal a decision of the State Review Committee by filing a complaint with the ORCA board. The board will hold a hearing on a complaint filed with the board and render a decision."</u>

(ADDED) Applicants shall be provided ten (10) business days following public release of scores in which to file an appeal. This includes the state itemized scores.

Applicant Threshold & Past Performance.

- Allows TxCDBG management to determine if an applicant has or does not have the capacity to manage and administer project based on prior performance.

The recommendation is to remove this statement from paragraph F.1.d. on page 26 of the plan. The group felt that ORCA already has this authority as stated in the actual contracts and in the action plan discussion on thresholds in this same paragraph.

- Requires an administrator of TxCDBG contracts awarded in PY 2009 to attend the TxCDBG Project Implementation Manual workshop.

The group suggested this statement on page 29 of the plan be further clarified as follows:

<u>"In order to administer a TxCDBG contract awarded in PY 2009, the administrator </u>(consultant or self-administering contractor)<u> must attend and retain the completion certificate at the most recent TxCDBG Project Implementation Manual workshop. (This requirement excludes Texas Capital Fund and Colonia Self-Help Center Set-aside contracts.)</u>

TxCDBG Scoring.

- Introduces Expenditure timeframes as a possible Past Performance scoring consideration.

As mentioned in previous comments, the group recommended the past performance factor be removed as a TxCDBG scoring consideration (page 35-36). However, IF this section on past performance remains, the group was still insistent that this particular past performance criterion be removed from the plan. The group felt that possibly applying rigid expenditure timeframes across the board to all contracts could not be accomplished equitably. For instance, success in achieving the 50%-, 75%-, and 90%-construction progress milestones might vary depending on the type of construction project that is underway (examples: elevated water storage tank versus a sewer line versus a water line versus road improvements).

Project Length.

- Reduces the maximum STEP contract term from 36 to 24 months to increase the timely expenditure of TxCDBG funds.

Group consensus was that STEP projects should be 36 months in duration. They also recommended there be more flexibility available in STEP contracts to allow for possible increased rates for Admin/Engineering activities.

November 12, 2007
Anson, TX
<u>Summary of Public Comments</u>: None

November 19, 2007
Uvalde, TX
<u>Summary of Public Comments</u>:

Remember – "With great powers comes great responsibility"

Should require city and county staff to attend TxCDBG Implementation Workshop, not just their consultant.

How will ORCA handle the RRC portion of the application? Will there be a separate workshop by each RRC to explain their scoring? (more than just the organizational meeting.)

9 out of 11 AACOG RRC members will not participate in the RRC. Discussed appointment process.

Hear ORCA is planning to revise its website. Glad to hear it. (it's needed) Look forward to a friendlier website.

Past Performance – do not think fair to punish for an extension despite weather delays (federal disaster declarations)

Sugar Land, TX

TEXAS COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

2009 PROPOSED ACTION PLAN

II. ALLOCATION OF CDBG FUNDS
B. DESCRIPTION OF FUNDS
Colonia Planning Component

In order to qualify for the Colonia Area Planning activities, the county applicant must have a Colonia Comprehensive Plan in place that prioritizes problems and colonias for future action. The targeted colonia must be included in the Colonia Comprehensive Plan.

Comments: Is the intent to remove the restriction on one-time assistance from the Colonia Comprehensive Planning Fund? If so scoring priority should be given to applicants that have not been previously funded before those seeking updates.

C. ALLOCATION OF AVAILABLE FUNDS BY FUND CATEGORY

The U.S. Department of Housing and Urban Development has not yet announced the State's 2009 program year CDBG allocation. The State's 2009 allocation could be lower than the 2007 allocation of $73,611,737.

The amount available for Tx CDBG assistance will be the 2009 State CDBG allocation amount plus an estimated $2,000,000 in program income. Funds will be allocated according to the following percentages of the State's 2009 allocation upon the execution of the grant agreement with HUD:

FUND	2009 PERCENT	AMOUNT AVAILABLE
Planning And Capacity Building Fund	0.90	

Comments: It is suggested that the planning fund be increased 0.10% with funds from the STEP fund. Planning for a long period was funded at a full 1.0% and it would be reasonable to restore this activity to at least that amount. The demand for this activity has been extremely high with many good applications not being recommended for assistance due to the lack of funds.

III. APPLICATION INFORMATION
E. REVIEW PROCESS
2. State Review Committee (SRC) - Composition and Role

An applicant for a grant, loan, or award under a community development block grant program may appeal a decision of the State Review Committee by filing a complaint with the ORCA board. The board will hold a hearing on a complaint filed with the board and render a decision.

Comments: The standards for an appeal need to be clearly stated. Note the standards used by TDHCA as available in their TAC website as follows:
http://info.sos.state.tx.us/pls/pub/readtac$ext.ViewTAC?tac_view=5&ti=10&pt=1&ch=1&sch=A&rl=Y
Subsections 1.7 and 1.8.

F. APPLICANT THRESHOLD AND PAST PERFORMANCE REQUIREMENTS

1. Demonstrate the ability to manage and administer the proposed project, including meeting all proposed benefits outlined in its application, by using the following criteria:
    d. TxCDBG management may determine that an applicant has or does not have the capacity to manage and administer the proposed project based on an applicant's prior performance on a TxCDBG contract.
2. Demonstrate the financial management capacity to operate and maintain any improvements made in conjunction with the proposed project, by using the following criteria:

c. TxCDBG management may determine that an applicant has or does not have the financial management capacity to operate and maintain any improvements made in conjunction with the proposed project based on a review of audited financial records, current financial status, or current financial management of a TxCDBG contract.

Comments: These need to be further clarified as to specific circumstances whereby a city or county would understand how such a severe determination of lack of capacity could be made. The agency could be critizied for not having clear and specific polcies with uniform enforcement.

10. Tx CDBG funds cannot be expended in any county that is designated as eligible for the Texas Water Development Board Economically Distressed Areas Program unless the county has adopted and is enforcing the Model Subdivision Rules established pursuant to Section 16.343 of the Water Code.

Comments: EDAP has been expanded statewide and counties are no longer going to be “designated” as EDAP eligible. Technically every county in Texas is eligible if they have an area that qualifies as economically distressed under the statutes and if an application for EDAP funds is made to assist that area.

G. ADMINISTRATION OF TxCDBG CONTRACTS – In order to administer a TxCDBG contract awarded in PY 2009, the administrator must attend and retain the completion certificate at the most recent TxCDBG Project Implementation Manual workshop. (This requirement excludes Texas Capital Fund and Colonia Self-Help Center Set-aside contracts.)

Comments: Additional clarification is requested as who are the administrators and who can represent administrators at these workshops. If contracted grant administrators may attend on behalf of their client communities then this requirement is acceptable, assuming the “most recent” workshop means “most recent round of workshops.” If the communities must attend this is a burdensome and unnecessary requirement.

IV. APPLICATION SELECTION CRITERIA

C. DESCRIPTION OF SELECTION CRITERIA BY FUND CATEGORY

1. COMMUNITY DEVELOPMENT FUND

<u>a.Regional Review Committee (RRC) Objective Scoring</u>

(1) Responsibilities of the RRC:

Each Regional Review Committee is responsible for determining local project priorities and factors. All scoring criteria must be verifiable as well as quantifiable. Furthermore, all scoring factors must be capable of being uniformly applied to all units of general local government within each region and must be applicable to all types of eligible activities.

Comments: Very difficult standards to meet. How does an enforcement letter for a sewer problem be uniformly applied to a drainage or street project. Is this a HUD standard?

b. TxCDBG Scoring - Other Considerations – Maximum Points - 10% of Maximum Possible Score for Each RRC

(1) Past Selection – Maximum Points - 3% of Maximum Possible RRC Score for each region - are awarded to each applicant that did not receive a 2007 or 2008 Community Development Fund or Community Development Supplemental Fund contract award

Comments: Is this referring to State scoring? It is not very clear.

(2) Past Performance - Maximum Points - 7% of Maximum Possible RRC Score for each region

An applicant can receive from ten (10) to zero (0) points based on the applicant’s past performance on previously awarded Tx CDBG contracts. The applicant’s score will be primarily based on our assessment of the applicant’s performance on the applicant's two (2) most recent Tx CDBG contracts that have reached the end of the original contract period stipulated in the contract within the past 6 years. The Tx CDBG will also assess the applicant's performance on existing Tx CDBG contracts that have not reached the end of the original contract period. Applicants that have never received a Tx CDBG grant award will automatically receive these points. The Tx CDBG will assess the applicant's performance on Tx CDBG contracts up to the application deadline date. The applicant's performance after the application deadline date will not be evaluated in this assessment. The evaluation of an applicant's past performance will include, but is not necessarily limited to the following:

- The expenditure timeframes on the applicable TXCDBG contracts.

Comments: These timeframes were never discussed with stakeholders prior to their inclusion in the 2007 contracts and new Implementation Manual. Scoring should NOT be dependent on retroactively introduced thresholds. See comments made regarding the Implementation Manual.

2b. TEXAS CAPITAL FUND Main Street Program

The selection criteria for the Main Street Program of the Texas Capital Fund will focus upon factors which may include, but which are not limited to, the following:

a. Aid in the elimination of slum or blight
b. The applicant must have been designated by the Texas Historical Commission as a Main Street City
c. Feasibility of project
d. Generation of a greater ratio of private investment to Texas Capital Fund investment
e. Texas Historical Commission scoring
f. Community profile

Following the assessment based on the selection criteria described above, projects will be reviewed and evaluated upon the following additional factors: history of the applicant community in the program; strength of marketing plan; and justification of minimum Texas Capital Fund contribution necessary to serve the project.

Comments: Scoring for this Fund needs to be modified to eliminate subjectivity, particularly with the scoring criteria as required by and used by the Texas Historical Commission.

4. PLANNING AND CAPACITY BUILDING FUND 430 Total Points Maximum

c. Project Design -- 375 Points (Maximum)
(4) Planning Strategy and Products 275 points

- New applicants receive up to 50 points while previous recipients of planning funds receive either up to 40 or 20 points depending on the level of implementation of previously funded activities. Recipients of Tx CDBG planning funds prior to PY 1995 will be considered new applicants for this scoring factor
- Up to 225 points are awarded for the applicant's Proposed Planning Effort based on an evaluation of the following:
    - the extent to which any previous planning efforts have been implemented or accomplished;
    - how clearly the proposed planning effort will resolve community development needs addressed in the application;
    - whether the proposed activities will result in the development of a viable and implementable strategy and be an efficient use of grant funds; and
    - demonstration of local commitment.

Comments: Scoring for this Fund needs to be modified to eliminate subjectivity.

==

Steve Kerbow
Kerbow and Associates Consulting, Inc.
Palestine, Texas

Kerbow and Associates Consulting, Inc., comments on the proposed 2009 CDBG Program Action Plan follow:

1. We concur with most of the program funding category consolidation, except there should be no Renewal Energy Demonstration Pilot Program. Renewal Energy Demonstration Pilot Program funds should be reallocated to the Community Development Fund.

2. We strongly disagree that grant applicant past performance should constitute an ORCA scoring factor. While we are very supportive of improving the State's expenditure ratio, we believe that the current threshold system is sufficient in preventing non-performing recipients from receiving additional funding and that there may be better methods of improving the expenditure ratio rather than measures in the proposal.

   Events or circumstances are often beyond the control of the recipient, which cause contract extensions. The proposed Action Plan is punitive in nature only and does not allow for corrective measures that the recipient may have instituted to prevent reoccurrence of delaying issues. There are a number of current or past contracts on which our firm has worked where the recipient followed legal or ORCA procedures in attempting to resolve matters that resulted in not completing the project within a timely manner.

   Following are several examples:

   a. A recipient had to obtain a contract extension due to the failure of exterior paint on a water storage facility. In this case, the problem was found in time to make the corrections within the 2-year contract period, but the contractor refused to make corrections. The engineer would not issue a Certificate of Construction Completion due to the obvious construction problems. After some preliminary legal negotiations, the contractor finally repainted the tank, but again, a time extension of was needed because of circumstances beyond the control of the recipient. The recipient was performing its due diligence and should not be penalized.

   b. Another recipient's sewer and storm water construction improvements were completed in a timely manner, but the utility construction caused the road to collapse before the contract was closed. The ensuing legal efforts involved four (4) years to resolve. This recipient was performing its due diligence and should not be penalized.

   c. Recipients have teamed up with U.S.D.A. Rural Development (R.D.) to fund projects that TxCDBG funds alone could not address. The average R.D. approval has been four (4) years and this has resulted in contract extensions due to the R.D. approval process. As this leveraging of funds is encourages by ORCA, and the recipient has little control over R.D. funding, these recipients should not be penalized.

   d. Recipients sometimes receive poor engineering, administrative, or construction services. The proposed Action Plan does not allow for corrective measures that the recipient may have taken after a bad experience, such as not allowing the firm to work within the jurisdiction. If the recipient shows that corrective measures have been taken, these recipients should not be penalized.

   e. Counties often sponsor applications on behalf of non-profit utility providers, where the non-profits sometime fail to perform in a timely manner. If the County shows that corrective measures have been taken, these recipients should not be penalized.

Until ORCA develops an internal system that can accurately assess whether or not a recipient has simply not performed in a timely manner or there have been circumstances clearly beyond the control of the recipient, the ORCA proposal will unduly penalize those recipients that have incurred delays for very legitimate reasons. Therefore, we recommend that the past performance scoring factor be eliminated for the 2009 Action Plan.

3. Questions similar to ORCA's 2007/2008 TxCDBG Project Impact scoring factors for "other considerations" should not be used by RRC's as these were subjective and not quantifiable.

==

Mrs. Jewel M. Otto
Muenster City Council

I have been a member of the Texoma RRC for a number of years and have always felt the process used to evaluate and score applicants for funding of infrastructure projects through ORCA gave each applicant fair and equitable assessment. I think it is very beneficial to have some local input and would encourage you, if possible, to let us continue the evaluation process we now use or at least have some input in the funding in our area.

INSTITUTIONAL STRUCTURE

Understanding that no single entity will be able to address the enormous needs of the State of Texas, ORCA, TDHCA, and DSHS support the formation of partnerships in the provision of housing, housing-related, and community development endeavors. Considering that the limited amount of financial resources available for affordable housing, community service, and community development activities can be a major obstacle for a single agency to try to address the needs of the state, partnering with other organizations, as well as fund layering and leveraging, helps to stretch those funds that are available.

ORCA, TDHCA, and DSHS are primarily pass-through funding agencies and distribute federal funds to local entities that in turn provide assistance to households. Because of this, the agencies work with many housing and community development partners, including consumer groups, community based organizations, neighborhood associations, community development corporations, councils of governments, community housing development organizations, community action agencies, real estate developers, social service providers, local lenders, investor-owned electric utilities, local government, nonprofits, faith-based organizations, property managers, state and local elected officials, and other state and federal agencies.

There are many benefits to these partnerships: risk and commitment are shared; the principle of reciprocity requires that local communities demonstrate an awareness of their needs and a willingness to participate actively in solving problems, therefore local communities play an active role in tailoring the project to their needs; partners are able to concentrate specifically on their area of expertise; and a greater variety of resources ensure a well targeted affordable product.

HOME AND ESG

The HOME Program encourages partnerships in order to improve the provision of affordable housing. Organizations receiving HBA/ADDI funds are required to provide homebuyer education classes to households directly, or coordinate with a local organization that will provide the education. In addition, organizations receiving TBRA funds must provide self-sufficiency services directly, or coordinate with a local organization that will provide the services. Finally, partnerships with Community Housing Development Organizations and non profit and private-sector organizations facilitate the development of quality rental housing development and assist in the rehabilitation of owner-occupied housing.

TDHCA encourages ESG subrecipients to coordinate services with housing and other service agencies. Collaborative applications funded with ESG funds are required to coordinate services and to provide services as part of a local continuum of care. At the time the Department monitors ESG subrecipients, coordination efforts are reviewed.

CDBG

CDBG funds are awarded to non-entitlement units of general local government thereby providing these communities with financial resources to respond to its community development needs. Such may include planning; constructing community facilities, infrastructure, and housing; and implementing economic development initiatives. Each applicant to the CDBG fund is required throughout its citizen participation process to inform local housing organizations of its intention to apply for CDBG funding through the CDBG and invite their input into the project selection process.

TxCDBG continues to coordinate with the Texas Department of Housing and Community Affairs, the Texas Department of Agriculture, the Texas Water Development Board, Annual State Agency Meeting on Rural Issues, and the 24 Regional Councils of Governments to further its mission and target beneficiaries of CDBG funds through programs such as the Colonia Self-Help Centers, the Colonia Economically Distressed Areas Program, the Housing Tax Credit Program, and the Texas Capital Fund.

HOPWA

DSHS contracts with eight Administrative Agencies, which contract directly with the Project Sponsors serving all 26 HSDAs in the state to administer the HOPWA program. The AAs also administer the delivery of a range of other HIV health and social services, including the Ryan White grant and State HIV Services funds. This structure ensures the coordination of all agencies serving people with HIV/AIDS, avoids duplication, saves dollars, and provides the best possible coordination of services for people with HIV/AIDS in each local community. HOPWA program information is made available to all HIV service agencies in the HSDA and a referral network is established for potential clients. DSHS HOPWA clients are linked through their case managers to a comprehensive network of medical care and supportive services for persons living with HIV/AIDS and their families, consisting of 64 local providers across the state. HOPWA Project Sponsors collaborate locally with these providers to ensure that clients receive the services they need to begin treatment and remain in care. Additionally, Project Sponsors collaborate with local housing authorities in their areas to assure that HOPWA clients are referred to the housing programs and services that best fit their needs and circumstances. Most notable is collaboration of Project Sponsors with local Housing Choice Voucher programs.

AVAILABLE RESOURCES

The Plan must describe the Federal resources expected to be available to address the priority needs and specific objectives identified in the strategic plan, in accordance with §91.315. Descriptions of the funding amounts for the specific HUD programs covered by this Plan are provided in each program's Action Plan section. The Plan must also describe resources from private and non-federal public sources that are reasonably expected to be made available to address the needs identified in the plan. The Plan must explain how Federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. A description of the match requirements of the HUD programs covered by this Plan are provided in each program's Action Plan section.

HOME PROGRAM

For the HOME Program, Section 2306.111(d) of the Texas Government Code requires that TDHCA use a Regional Allocation Formula (RAF) to allocate its HOME funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions TDHCA uses for planning purposes. To mitigate any inherent inequities in the way these resources are regionally allocated, the RAF compares each region's level of need to its level of resources. Regional funding adjustments are made based on the results of this comparison. The following available resources were determined to have been available or distributed in FY 2007 in the areas eligible for TDHCA HOME funds.

Source	Funding Level*
Texas Housing Trust Fund	$867,352
Housing Opportunities for Persons with HIV/AIDS	$429,542
HUD PHA Capital Funds	$32,200,371
HUD Housing Choice Vouchers (Sec. 8)	$139,690,050
USDA Multifamily Development	$4,565,687
USDA Rental Assistance	$28,515,830
Housing Tax Credits	$183,550,266
TXBRB Multifamily Tax Exempt Bond	$29,919,340
Housing Tax Credits w/ MF Tax Exempt Bond	$31,824,051
USDA Owner Occupied	$38,824,561
TXBRB Single Family Bond	$158,942,464
HUD HOME Investment Partnerships Program	$23,831,296
Total	$674,356,567

*2007 figures. Updated 2008 dollar amounts will be included in the final version of the Plan.

HOPWA

Leveraged funds are absolutely essential for the provision of HOPWA program administration and supportive services for HOPWA clients in the state of Texas. DSHS, AAs, and Project Sponsors expect to continue to receive leveraged funds from federal, state, local, and private resources to administer the HOPWA program and to achieve established program objectives for 2009. Based on leveraged funds received in 2007, DSHS estimates $196,075 of federal and state funds to provide administration at the state level; $79,189 in leveraged funds at the Administrative Agency level; and $85,701 at the Project Sponsor level. In 2007, Project Sponsors also reported $119,441 was leveraged for housing assistance and $904,083 for supportive services. DSHS anticipates similar levels of leveraged resources for 2009.

GENERAL INFORMATION ON OTHER PROGRAMS

TDHCA is required by State law to publish a *Program Guide* that outlines state and federal housing and housing-related programs available in Texas. The guide describes all TDHCA programs and includes housing-related programs from other state and federal agencies. This detailed document is organized by activity area and then by administering entity. For each specific program, contact information at the appropriate agency is provided. The 120-plus page document is updated annually and is currently available on line at http://www.tdhca.state.tx.us/ppa/housing-center/pubs.htm or in hard copy upon request.

MEETING UNDERSERVED NEEDS AND MITIGATING BARRIERS TO AFFORDABLE HOUSING

The State has identified various obstacles that may affect the ability to meet underserved needs in Texas. They include the lack of affordable housing, lack of organization capacity, lack of organizational outreach, local opposition to affordable housing, regulatory barriers to affordable housing, and area income characteristics (particularly in rural areas). The State takes actions to mitigate these obstacles such as effectively using existing resources to administer programs, providing information resources to individuals and local areas, and coordinating resources. The following outlines those specific actions proposed by the program areas to meet underserved needs and develop affordable housing.

HOME AND ESG

The HOME Program provides grant funds, deferred forgivable loans and repayable loans to Units of General Local Government, nonprofit and for-profit organizations, Community Housing Development Organizations (CHDOs), and Public Housing Authorities (PHAs). These funds are primarily used to foster and maintain affordable housing by providing rental assistance, rehabilitation, or reconstruction of owner-occupied housing units, down payment and closing cost assistance with or without accessibility modifications for the acquisition of affordable single family housing, single family housing development, and funding for rental housing development including the preservation of existing affordable or subsidized rental housing.

HOME funds may also be used in conjunction with the Housing Tax Credit Program to construct or rehabilitate affordable rental housing.

Regarding ESG, while TDHCA encourages the use of ESG funds to provide affordable transitional housing, the majority of funds are utilized to provide emergency shelter. These funds meet the needs of local homeless populations.

CDBG

TxCDBG encourages affordable housing projects using several methods in the allocation of CDBG funds to the eligible communities that can participate in its programs, including favorable state scoring and regional prerogative to prioritize funding for housing infrastructure and rehabilitation. Each region is encouraged to set aside a percentage of the regional allocation for housing improvement projects, and housing applications are scored as high priority projects at the state level. Housing projects continue to be funded through the Colonia Self-Help Centers as well.

In addition, CDBG funding provides a cost savings for housing when CDBG funds are used to provide first-time water and wastewater services by installing water and sewer yardlines and paying impact and connection fees for qualifying residents. For PY 2009, the TxCDBG will make funds available through five different grant categories to provide water or sewer services on private property, with the vast majority being low and moderate income households.

The most commonly cited obstacle to meeting the underserved community development needs of Texas cities (aside from inadequate funding) is the limited administrative capacity of the small rural towns and counties the CDBG program serves. TxCDBG staff offers technical assistance to communities to promote successful CDBG projects.

CDBG funding also helps cities and counties study affordable housing conditions. The plans produced through a TxCDBG planning contracts provide both valuable data concerning a city's or county's affordable housing stock and planning tools for expanding their affordable housing. In PY 2009, TxCDBG will make funds available for planning through the Planning and Capacity Building Fund and the Colonia Planning and Construction Fund.

The Colonia Self-Help Centers continue to address affordable housing needs in border counties by assisting qualifying colonia residents to finance, refinance, construct, improve or maintain a safe, suitable home in suitable areas.

Another obstacle to meeting underserved needs applies to colonias projects. There have been cases when a county applies to provide water service to an area, but more than one water supply corporation or city may have a Certificate of Convenience and Necessity (CCN) in that territory (CCNs have been issued which have overlapping territories). In these cases, a dispute over which water supply corporation/city has the right to serve the territory (and therefore collect the revenues) may arise. A public hearing process may be necessary to resolve this issue, which can then delay projects for months. TxCDBG will continue to work with regulatory agencies as appropriate to resolve issues in project areas in a timely manner.

HOPWA

The Texas HOPWA program continues to meet the needs of underserved populations in several ways.

As assessed regularly by Ryan White needs assessments in all HSDAs, housing needs are high among people living with HIV/AIDS. The Texas HOPWA program meets the needs of this underserved population throughout the state by providing essential housing and utilities assistance as part of a comprehensive medical and supportive services system. As a result, people living with HIV/AIDS and their families are able to maintain safe and affordable housing, reduce their risk of homelessness, and access medical care and supportive services.

In addition, DSHS is continuing to update funding allocations to address the changing needs of local communities and to maximize and target HOPWA funding to HSDAs that are in greatest need. DSHS will consider a variety of factors including but not exclusive to HIV/AIDS morbidity, poverty level, housing costs and needs, homelessness data, program waitlists, and program expenditures.

POVERTY-LEVEL HOUSEHOLDS

According to the 2000 US Census, Texas has the ninth highest poverty rate among the states: 15.4 percent compared to the national rate of 12.4 percent. The federal government defined the poverty threshold for 1999 as $17,029 in income for a family of four, and many poor families make substantially less than this. Poverty can be self-perpetuating, creating barriers to education, employment, health, and financial stability.

ORCA, TDHCA, and DSHS have an important role in addressing Texas poverty. These agencies seek to reduce the number of Texans living in poverty, thereby providing a better future for all Texans. This means trying to provide long-term solutions to the problems facing people in poverty and targeting resources to those with the greatest need.

HOME AND ESG

Through the HOME Tenant-Based Rental Assistance Program, TDHCA assists households with rental subsidy and security and utility deposit assistance for a period not to exceed 24 months. As a condition to receiving rental assistance, households must participate in a self-sufficiency program, which can include job training, GED classes, or drug dependency classes. The HOME Program enables households to receive rental assistance while participating in programs that will enable them to improve employment options and increase their economic independence and self-sufficiency. Additionally, the Department allocates funding toward the rehabilitation and construction of affordable rental housing, incentivizing units to assist very low income households and assists very low income households along the border by promoting the conversion of contract for deed arrangements to traditional mortgages.

The ESG Program funds activities that provide shelter and essential services for homeless persons, as well as intervention services for persons threatened with homelessness. Essential services for homeless persons include medical and psychological counseling, employment counseling, substance abuse treatment, transportation, and other services.

For individuals threatened with homelessness, homelessness prevention funds can be used for short-term subsidies to defray rent and utility arrearages for households receiving late notices, security deposits, and payments to prevent foreclosure.

CDBG

A substantial majority, 85%, of TxCDBG funds are obligated to cities and counties under the funding competitions meeting the national objective to “principally benefit low and moderate income persons.” TxCDBG encourages the funding of communities with a high percentage of persons in poverty through its application scoring. The CDBG projects under this national objective are required to serve 51 percent low to moderate income persons; however, for PY2009, the state scoring portion of the largest fund category, the Community Development Fund, provides for points only if it meets the national objective of benefiting low and moderate income persons. In addition, the CDBG allocation formula used to distribute Community Development funds among regions includes a variable for poverty. The percentage of persons in poverty for each region is factored into the allocation formula in order to target funding toward the greatest need.

The CDBG economic development funds have been instrumental in creating infrastructure and jobs. By creating and retaining jobs through assistance to businesses and then providing lower income people access to these jobs, TxCDBG can be a very effective anti-poverty tool. This potential will be further maximized by providing jobs that offer workplace training and education, fringe benefits, opportunities for promotion, and services such as child care. In addition, programs that improve infrastructure affords the opportunity to upgrade existing substandard housing (such as in the colonias) and build new affordable housing where none could exist before.

HOPWA

The DSHS HOPWA Program serves HIV positive persons based on income eligibility criteria of no more than 80 percent of the area median income with adjustments for family and household size, as determined by HUD income limits. With varying poverty levels and housing needs in each HSDA across the state, some Project Sponsors may set stricter local income limits to maximize and target HOPWA resources to those with very low-income or poverty-level income. While many of the HOPWA clients assisted may be at poverty-level, this is not a requirement under 24 CFR 574.3.

NEEDS OF PUBLIC HOUSING

The future success of Public Housing Authorities (PHAs) will center on ingenuity in program design, emphasis on resident participation towards economic self-sufficiency, and partnerships with other organizations to address the needs of this population. While the State of Texas does not have any direct or indirect jurisdiction over the management or operations of PHAs, it is important to maintain a relationship with these service providers.

HOME AND ESG

Because PHAs are eligible applicants under the HOME Program, TDHCA sends notices of funding availability to all PHAs in the state. At HOME application workshops, application processes are discussed in detail, including those related to HBA. Furthermore, staff of PHAs, especially those receiving HOME funds and those with Section 8 Homeownership programs, are targeted by TDHCA's Texas Statewide Homebuyer Education Program for training to provide homebuyer education opportunities and self-sufficiency tools for PHA residents.

In addition to PHAs that have received HOME funds to provide homebuyer assistance in their areas, PHAs have also received HOME tenant-based rental assistance funds, enabling them to provide additional households with rental assistance and services to increase self-sufficiency.

PHA residents are eligible to receive assistance and services from ESG grantees.

In addition to HOME and ESG activities related to PHAs, TDHCA performs certifications of consistency with the State's Consolidated Plan. In 1999, TDHCA, as required by 24 CFR §903.15, started a certification process to ensure that the annual plans submitted by PHAs in an area without a local Consolidated Plan are consistent with the State of Texas's Consolidated Plan.

CDBG

Litigation concerning CDBG funding and public housing authorities, known as *Young v. Martinez*, focused attention and funds on these areas in the past. The State provided three funding set-asides to address Court-ordered activities under the Final Order and Decree for the litigation, obligating a total of $13,664,753.18 for 62 *Young v. Martinez* Fund projects in PHA areas. Although the litigation has been settled, TxCDBG continues to serve public housing areas through other funding categories as residents of PHAs qualify as low to moderate income beneficiaries for CDBG projects.

HOPWA

The HOPWA program administered by DSHS does not provide public housing assistance. However, Project Sponsors coordinate closely with local housing authorities for client referrals and to address local housing issues.

MONITORING

The State ensures compliance with program and comprehensive planning requirements through various compliance measures.

HOME AND ESG

TDHCA has established oversight and monitoring procedures within the TDHCA HOME, Portfolio Management and Compliance and Community Affairs divisions to ensure that activities are completed and funds are expended in accordance with contract provisions and applicable state and federal rules, regulations, policies, and related statutes. TDHCA's monitoring efforts are guided by both its responsibilities under the HOME and ESG programs and its affordable housing goals for the State of Texas. These monitoring efforts include the following:

- Identifying and tracking program and project results
- Identifying technical assistance needs of subrecipients
- Ensuring timely expenditure of funds
- Documenting compliance with program rules
- Preventing fraud and abuse
- Identifying innovative tools and techniques that support affordable housing goals
- Ensuring quality workmanship in funded projects
- Long-term compliance
- Risk management
- Sanctions

Identifying and Tracking Program and Project Results

HOME contract and project activities are tracked through the TDHCA Contract System, including funds committed, pending projects, funds drawn, activities and contracts completed, and funds disbursed through the internet-based system, HUD's IDIS, and other reports generated as needed. The Contract System provides information necessary to track the success of the program and identify process improvements and administrator training needs. IDIS tracks HOME Program data such as commitment and disbursement activities, the number of units developed, the number of households assisted, the ongoing expenditures of HOME funds, and beneficiary information.

Other resources utilized by TDHCA to track project results include a performance team, to provide oversight and monitor contract progress, and an asset management division and loan servicing division. If either of these areas identifies problems, steps are taken to resolve the issue, including project workouts and oversight of reserve accounts. Real Estate Analysis, the division for underwriting economic feasibility pre-award, is also responsible for identification of high risk housing developments, and is responsible for review of housing sponsored annual financial statements and other asset management functions during the affordability period.

ESG project and contract activities are tracked through TDHCA's website, which maintains an Oracle-based reports system. This system maintains funds drawn, funds expended, performance data, and other reports as needed. ESG data such as commitment and disbursement activities, number of persons assisted, ongoing expenditures, and program activities are also tracked through HUD's IDIS.

Identifying Technical Assistance Needs Subrecipients

Identification of technical assistance needs for HOME and ESG subrecipients is performed through analysis of administrator management practices, analysis of sources used by TDHCA to track technical assistance such as information captured in the HOME Division Database and Contract System, review of documentation submitted, desk reviews based on the requirements identified in the Compliance Supplement and State Affordable Housing Program requirements, project completion progress, results of on-site audits, technical assistance visits, phone calls, monitoring visits, and desk reviews conducted by Department staff.

Ensuring Timely Expenditure of Funds

TDHCA ensures adequate progress is made toward committing and expending HOME and ESG funds. Regular review of internal reports and data from IDIS is performed to assess progress of fund commitment and to ensure that all funds are committed by the expiration date of 24 months from the last day of the month in which HUD and TDHCA enter into an Agreement. Performance deadlines for spending and matching funds are reviewed on a monthly basis to track expenditure totals. HOME set-aside requirements are also tracked as a part of the HOME Fund Balance Report, which reports the Division's status of HOME funds including program income and deobligated funds. The Department has also added performance benchmarks in the Department's rules and as part of its written agreements with subrecipients as further incentive of timely expenditure of funds.

Documenting Compliance with Program Rules

Compliance with program rules is documented through contract administration and other formal monitoring processes. Staff document compliance issues as part of their ongoing contract management reviews and notify administrators of any noncompliance and required corrective action. On-site reviews, including physical onsite project site inspections of a representative sample of project sites, on-site reviews of client files, shelters, and the delivery of services are conducted with summarized reports identifying necessary corrective actions.

TDHCA has developed a set of standards for HOME administrators to follow to ensure that subcontractors and lower-tiered organizations entering into contractual agreements with administrators perform activities in accordance with contract provisions and applicable state and federal rules, regulations, policies, and related statutes.

TDHCA maintains a database to document an administrator's compliance history with rental housing developments. During the application process the previous participation of the applicant is evaluated. If there are any minor uncorrected issues of noncompliance identified, the request for funding will be denied unless those issues are corrected. If material noncompliance is identified, the application is terminated. The compliance history is considered by TDHCA's Board prior to finalizing awards and evaluated again prior to execution of written agreements.

Preventing Fraud and Abuse

TDHCA monitors for mismanagement of funds in the HOME and ESG programs during onsite visits through a review of supporting documentation provided by the administrator and through information gathered from outside sources. This is done throughout the contract period to ensure that funds are spent on eligible activities. If an administrator mismanages funds, sanctions are enforced and disallowed costs are refunded to TDHCA. Also, if fraud is suspected, TDHCA makes referrals and works closely with HUD, the State Auditor's Office, the Inspector General, the Internal Revenue Service, and local law enforcement agencies as applicable.

Identifying Innovative Tools and Techniques that Support Affordable Housing Goals

Staff identifies innovative tools and techniques to support affordable housing goals by attending trainings and conferences, maintaining contact with other state affordable housing agencies, and through the HUD internet listserv and HUD website.

Ensuring Quality in Funded Projects

Ensuring the administrator provides the committed product, amenities and compliance with accessibility requirements is a Departmental priority. Staff ensures the quality of workmanship in HOME-funded projects through the inspection process. TDHCA staff, in conjunction with Manufactured Housing Inspectors conduct inspections to substantiate the quality of the work performed. Deficiencies and concerns are identified during an initial inspection, with corrective action required by construction completion. The clearance of a final inspection is required of all rental housing developments funded by the Department.

TDHCA staff has attended trainings and become familiar with the construction standards of Section 504, Rehabilitation Act of 1973. Manufactured Housing Inspection Staff assisting with conducting inspections have been given the necessary tools to thoroughly complete these inspections and are provided annual training by Department staff on the procedures, expectations, and accessibility requirements.

Other processes used to ensure quality workmanship have included plan reviews. With the 2006 commitments the Department will require plans to have architectural sign off on specifications, and confirm compliance with committed amenities and compliance with any accessibility requirements.

Long-Term Compliance

The PMC Division is responsible for long term monitoring of income eligibility and tenure of affordability for applicable HOME projects. In other cases where written agreements require long-term oversight (such as land use restrictive covenants), reporting and enforcement procedures have been implemented.

The PMC division performs on-site monitoring visits in accordance with the requirements of the HOME Program and Department policies and procedures, as described in the Financing/Loan Agreements, Deed Restrictions, and Regulatory and Land Use Restriction Agreement. If a property participates in more than one housing program, the most restrictive monitoring procedure is followed.

Risk Management

HOME contracts are monitored based on a risk assessment model that is updated on an annual basis or more frequently if required. Some of the elements of the Risk Assessment Model may include the type of activity, existence of a construction component, Davis/Bacon requirements, results of previous on-site visits, status of the most recent monitoring report, amount funded, previous administrator experience, entity type, and Single Audit status. In addition to the results of the risk assessment survey, referrals from division staff are considered when determining in depth monitoring reviews or required technical assistance. An emphasis is placed on monitoring of contracts within the current draw period and contracts with projects in the affordability period as defined by HUD.

If complaints are received by TDHCA, they are considered a risk management element and will be reviewed in detail. Supplemental monitoring activities will be performed to ensure program compliance and detection of possible fraud or mismanagement.

The Risk Assessment Model is also implemented for ESG. Some of the elements of the Risk Assessment Model include the following: length of time since last on-site visit, results of last on-site visit, status of most recent monitoring report, timeliness of grant reporting, total amount funded during assessment period, total amount funded for all TDHCA contracts during assessment period, number of TDHCA contracts funded during assessment period, and Single Audit Status. In addition to the results of the risk assessment survey consideration is also given to recommendations made from other TDHCA divisions regarding performance with other TDHCA funded programs.

Sanctions

Based on the results of ongoing HOME monitoring, sanctions are imposed for noncompliance issues based on the severity of noncompliance, which may include delays in project set-ups, draw request processing, questioned/disallowed costs, suspension of the contract, or contract termination. When necessary, the Executive Director executes a referral to the State Auditor's Office for investigation of fraud as required by Section 321.022(a) of the Texas Government Code. Sanctions imposed may affect future application requests and scoring. In addition, if fraud or mismanagement of funds is suspected, TDHCA will make referrals and work closely with HUD, the State Auditor's Office, the Inspector General, the Internal Revenue Service, and local law enforcement agencies as applicable.

The majority of HOME administrators comply with program rules and regulations. However, for the handful who do not, after technical assistance and a corrective action period is provided, administrative penalties are considered. Through a new section of the Texas Administrative Code adopted in December of 2007, TDHCA now has the authority to assess administrative penalties for event of noncompliance, ranging from $100 to up to $1000 per day for serious noncompliance events. Staff has contacted HOME administrators with uncorrected events of noncompliance and provided a final opportunity for correction before pursuing administrative penalties.

In addition, the Department has the ability to debar individuals and companies from participation in our programs. The Department is currently considering the debarment of one consultant and one construction company. If debarred, they will be listed as such on the Department's website which will likely affect their ability to be awarded contracts with other state and federal agencies. At this time, the parties under consideration are moving quickly to cure identified deficiencies; an indication that the existence of the Department's enforcement tools is effective.

The results of ongoing ESG monitoring will also determine if sanctions are imposed for noncompliance issues. Sanctions range from the use of the cost reimbursement method of payment, deobligation of funds, suspension of funds, and termination of the contract. TDHCA's legal staff is notified and referrals are made to the Attorney General's Office. Sanctions imposed affect the future consideration of ESG applications for funding.

CDBG

The monitoring function of the TxCDBG has four components: project implementation, contract management, audit, and monitoring compliance.

Project Implementation

Prior to the award of funds, each community is evaluated for compliance in prior contracts. The application scoring process at the state level includes a scoring factor for past performance on CDBG contracts. In addition, once a funding recommendation has been made the contract is routed through the Program Development, Compliance and Finance Divisions to verify that no outstanding issues in previously awarded contracts prevent the contract execution for the recommended award.

Contract Management

All open TxCDBG projects are assigned to a specific Regional Coordinator who is responsible for contract compliance and project management. All projects have formal contracts that include all federal and state requirements. Regional Coordinators monitor progress and compliance through formal reporting procedures. Program Specialists for Labor Standards and Environmental compliance also exist under the Project Management function. Additionally, all reimbursement requests require complete supporting documentation before payment is made.

Audit

The audit function is authorized by OMB A-133, which requires that governmental units and nonprofit organizations spending more than $500,000 in either federal or state funds during their fiscal years ending after December 31, 2003, submit a copy of a Single Audit to the Agency. A Single Audit is required for desk review by ORCA regardless of whether there are findings noted in the audit pertaining to CDBG funds, since it is an additional monitoring tool used to evaluate the fiscal performance of grantees.

Monitoring Compliance

The on-site programmatic reviews are conducted on every CDBG contract prior to close-out to ensure the contractual obligations of each grant are met. The projects are considered available for review when 75 percent of the contracted funds have been drawn down, and for construction projects, when construction has been substantially completed. Interim monitoring reviews may be conducted as necessary.

The areas reviewed include procurement procedures paid with CDBG funds or with match dollars, accounting records including copies of cancelled checks, bank statements and general ledgers (source documentation is reviewed at the time of draw requests), equipment purchases and/or procurement for small purchases, on-site review of environmental records, review of any applicable construction contracts, file review of any applicable client files for rehabilitation services, review of labor standards and/or a review of local files if internal staff used for construction projects, and a review of documentation on hand pertaining to fair housing and civil rights policies.

In addition to the formal monitoring function described above, the staff of the Compliance Division communicates with the staff of the Community Development Division as needed to evaluate issues throughout the contract implementation phase of CDBG contracts in order to identify and possibly resolve contract issues prior to the monitoring phase of the project.

HOPWA

A team of 7 DSHS Field Operations staff monitor the AAs' HOPWA administration activities, and the AAs monitor the Project Sponsors for HOPWA program compliance. This monitoring involves periodic site visits, technical assistance, and the submission of quarterly progress reports. Desk audits are conducted by the Contract Management Unit at the division level in DSHS. Additionally, fiscal audits are conducted as part of a centralized service of DSHS, the Contract Monitoring and Oversight Section, directly under the Chief Operations Officer.

Administrative Agencies and Project Sponsors are required to comply with HUD regulations, the DSHS Program Manual and their contractual Statement of Work. The DSHS HOPWA program manual is located at http://www.dshs.state.tx.us/hivstd/fieldops/hopwa.shtm. The HOPWA monitoring tool is located at http://www.dshs.state.tx.us/hivstd/fieldops/page_02/hopwa.doc. The HOPWA Statement of Work is located at http://www.dshs.state.tx.us/hivstd/funding/hopwa/HOPWA_Renewal.doc. Principles for fiscal administration are established by the Texas Uniform Grants Management Standards located at http://www.governor.state.tx.us/divisions/stategrants/files/UGMS062004.doc. The requirements for project monitoring are established by DSHS in the Administrative Agency Core Competencies document located at http://www.dshs.state.tx.us/hivstd/pops/pdf/pdf_administrative_duties_standards.pdf.

LEAD-BASED PAINT HAZARDS

The health risks posed by lead-based paint to young children are the most significant health issue facing the housing industry today. According to *The Prevalence of Lead-Based Paint in U.S. Housing* (Environmental Health Perspectives, October 2002), 38 million homes have conditions that are likely to expose families to unsafe levels of lead. These homes are disproportionately older housing stock typical to low income neighborhoods, and the potential for exposure increases as homeowners and landlords defer maintenance. This older housing stock is the target of rehabilitation efforts and is often the desired “starter home” of a family buying their first home.

HOME AND ESG

The HOME Program requires lead screening in housing built before 1978 for all HOME eligible activities and in accordance with 24 CFR Part 92.355 and 24 CFR Part 35, subparts A, B, J, K, M, and R.

For ESG, TDHCA evaluates and reduces lead-based paint hazards for conversion, renovation, or rehabilitation projects funded with ESG funds, and tracks work in these efforts as required by Chapter 58 of the Environmental Protection Act.

CDBG

The TxCDBG encourages the reduction of lead-based hazards through favorable scoring under its Community Development Funds for the replacement of lead fixtures and other lead hazards that are an imminent public health threat. In addition, lead-based paint mitigation is a common activity eligible under housing rehabilitation that is funded under the Colonia Construction Fund and Community Development Funds. Each contract awarded requires the sub-grantee to conform to Section 302 of the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4831(b)) and procedures established by the TxCDBG in response to the Act.

In accordance with CDBG state regulations and the Lead-Based Paint Poisoning Prevention Act, TxCDBG has adopted a policy to eliminate as far as practicable the hazards of lead poisoning due to the presence of lead-based paint in any existing housing assisted under the CDBG. In addition, this policy prohibits the use of lead-based paint in residential structures constructed or rehabilitated with federal assistance. Abatement procedures should be included in the housing rehabilitation contract guidelines for each project and must appear in the approved work write-up documentation for all homes built prior to 1978 that will be rehabilitated, as outlined in the Housing Rehabilitation Manual.

HOPWA

DSHS requires Project Sponsors to give all HOPWA clients the lead-based paint pamphlet entitled *Protect Your Family from Lead in Your Home (*Environmental Protection Agency) during the intake process. The client's case record must include documentation that a copy of the pamphlet was given to the client.

For each HOPWA household, the case manager must certify the following:

> If the structure was built prior to 1978, and there is a child under the age of six who will reside in the property, and the property has a defective paint surface inside or outside the structure, the property cannot be approved until the defective surface is repaired by at least scraping and painting the surface with two coats of non-lead based paint. Defective paint surface means: applicable surface on which paint is cracking, scaling, chipping, peeling or loose. If a child under age six residing in the HOPWA-assisted property has an Elevated Blood

Lead Level, paint surfaces must be tested for lead-based paint. If lead is found present, the surface must be abated in accordance with 24 CFR Part 35.

HOUSING ACTION PLAN:
HOME INVESTMENT PARTNERSHIPS PROGRAM

FEDERAL RESOURCES EXPECTED PY 2009

The purpose of the HOME Investment Partnerships (HOME) Program is to expand the supply of decent, safe, and affordable housing for extremely low, very low, and low income households, and to alleviate the problems of excessive rent burdens, homelessness, and deteriorating housing stock. HOME strives to meet both the short-term goal of increasing the supply and the availability of affordable housing. TDHCA provides technical assistance through application and implementation workshops to all recipients of HOME funds to ensure that all participants meet and follow the state implementation guidelines and federal regulations.

The State of Texas HOME Program anticipates receiving $40,000,000 in HOME funds (including $266,637 of American Dream Downpayment Initiative (ADDI) funds from HUD for PY 2009. The HOME Program also estimates approximately $2.5 million in program income.

ALLOCATION OF PY 2009 FUNDS

TDHCA will use the following method for allocating funds and may make adjustments throughout the program year to transfer funding from an undersubscribed activity or set-aside to an activity that may be experiencing higher demand with the Board's approval:

Use of Funds	Estimated Available Funding	% of Total HOME Allocation
Administration Funds (10% of PY 2008) *	$4,000,000	10%
CHDO Project Funds Set Aside (15% of PY 2008) **	$6,000,000	15%
CHDO Operating Expenses Set Aside (5% of CHDO Set Aside) *	$300,000	1%
State Mandated Funds for Contract for Deed Conversions *	$2,000,000	5%
Housing Programs for Persons with Disabilities *	$2,000,000	5%
Rental Housing Development Program	$5,000,000	13%
General Funds for Single Family Activities***	$23,200,000	55%
Total PY 2008 HOME Allocation and Program Income Estimate***	$42,500,000	104%
PY 2008 American Dream Downpayment Initiative (ADDI) Funds***	$266,637	—
Total Estimated Funding Available for Distribution	$42,233,363	—

* The funding for these activities is not subject to the Regional Allocation Formula.

**$1,000,000 will be reserved from the CHDO set-aside for the Colonia Model Subdivision Program. If sufficient applications are not received for this activity within the first 90 days of the NOFA, the remaining funds will be directed to single family development. TDHCA may set aside 10% of the annual CHDO set-aside for Predevelopment Loans.

***Calculations include $2,500,000 in estimated program income.

The following targets will be used to distribute General Funds for Single Family Activities:

Activity	Funding Amount	% of Available Funding
Homebuyer Assistance	$3,480,000	15%
Owner Occupied Housing Assistance	$16,240,000	70%
Tenant Based Rental Assistance	$3,480,000	15%
Total Estimated Funding Available for Distribution	$23,200,000	100.0%

ESTIMATED PY 2009 BENEFICIARIES

Based on estimated PY 2008 program activity, TDHCA calculates that the number of PY 2009 beneficiaries assisted will be approximately 1,019 low, very low, or extremely low income households. On the basis of historical performance, TDHCA estimates that approximately 60 percent of those households will be minority households.

DEFINITIONS

Basic Access Standards (as required by §2306.514, Texas Government Code): These requirements apply only to newly constructed single family housing.

(1) at least one entrance door, whether located at the front, side, or back of the building:

(A) is on an accessible route served by a ramp or no-step entrance; and

(B) has at least a standard 36-inch door;

(2) on the first floor of the building:

(A) each interior door is at least a standard 32-inch door, unless the door provides access only to a closet of less than 15 square feet in area;

(B) each hallway has a width of at least 36 inches and is level, with ramped or beveled changes at each door threshold;

(C) each bathroom wall is reinforced for potential installation of grab bars;

(D) each electrical panel, light switch, or thermostat is not higher than 48 inches above the floor; and

(E) each electrical plug or other receptacle is at least 15 inches above the floor; and

(3) if the applicable building code or codes do not prescribe another location for the breaker boxes, each breaker box is located not higher than 48 inches above the floor inside the building on the first floor.

A person who builds single family affordable housing to which this section applies may obtain a waiver from TDHCA of the requirement described by Subsection (a)(1)(A) if the cost of grading the terrain to meet the requirement is prohibitively expensive.

Colonia: As defined in §2306.581, Texas Government Code:

(1) "Colonia" means a geographic area that is located in a county some part of which is within 150 miles of the international border of this state, that consists of 11 or more dwellings that are located in close proximity to each other in an area that may be described as a community or neighborhood, and that:

(A) has a majority population composed of individuals and families of low income and very low income, based on the federal Office of Management and Budget poverty index, and meets the qualifications of an economically distressed area under Section 17.921, Water Code; or

(B) has the physical and economic characteristics of a colonia, as determined by the department.

Persons with Disabilities: A household composed of one or more persons, at least one of whom has a disability. A person is considered to have a disability if the person has a physical, mental, or emotional impairment that

- is expected to be of long-continued and indefinite duration,
- substantially impedes his or her ability to live independently, and
- is of such a nature that such ability could be improved by more suitable housing conditions.

A person will also be considered to have a disability if he or she has a developmental disability, which is a severe, chronic disability and as further defined at 24 CFR §92.2.

Special Needs Populations: Includes the following: persons with disabilities, persons with alcohol or other drug addiction, persons with HIV/AIDS and their families, the elderly, victims of domestic violence, persons living in colonias, the homeless, and migrant farmworkers.

ELIGIBLE APPLICANTS

- Units of General Local Government
- Nonprofit and For-Profit Organizations
- Community Housing Development Organizations (CHDOs)
- Public Housing Authorities (PHAs)

ELIGIBLE SERVICE AREAS

Per Section 2306.111(c), TDHCA shall expend 95 percent of HOME funds for the benefit of non–PJ areas of the state. Five percent of HOME funds shall be expended for the benefit of persons with disabilities who live in any area of the state.

DESCRIPTION OF ACTIVITIES

OWNER-OCCUPIED HOUSING ASSISTANCE (OCC)

Rehabilitation or reconstruction cost assistance is provided to eligible homeowners for rehabilitation or reconstruction of their existing home. The home must be the principal residence of the homeowner.

At the completion of the assistance, all properties must meet the International Residential Code and local building codes. If a home is reconstructed, the applicant must also ensure compliance with the universal design features in new construction, established by §2306.514, Texas Government Code, required for any applicants utilizing federal or state funds administered by TDHCA in the construction of single family homes.

The available funding for this activity is approximately $16 million, which may only be used in non-PJs.

TENANT-BASED RENTAL ASSISTANCE (TBRA)

Rental subsidy and security and utility deposit assistance is provided to tenants, in accordance with written tenant selection policies, for a period not to exceed 24 months.

The available funding for this activity is approximately $3.4 million, which may only be used in non-PJs. This amount does not include any Housing Program for Persons with Disabilities TBRA funding that may be issued under a separate NOFA.

HOMEBUYER ASSISTANCE (HBA) WITH OR WITHOUT REHABILITATION

Down payment, closing cost, rehabilitation, and contract for deed conversion assistance is provided to homebuyers for the acquisition of affordable single family housing. This activity may also be used for the following:

- Construction costs associated with architectural barrier removal in assisting homebuyers with disabilities by modifying a home purchased with HOME assistance to meet their accessibility needs.
- Acquisition and rehabilitation costs associated with contract for deed conversions to serve colonia residents.
- Construction costs associated with the rehabilitation of a home purchased with HOME assistance.
- Acquisition or new construction costs for the replacement of manufactured housing.

Eligible homebuyers may receive assistance in the form of a loan. The maximum amount of the homebuyer assistance cannot exceed HUD's 221(d)(3) limits per unit and is further restricted in the Department's HOME Program Rule or the NOFA when funds are made available. HBA loans are to be repaid at the time of resale of the property, refinance of the first lien, repayment of the first lien, or if the unit ceases to be the assisted homebuyer's principal residence. If any of these occur before the end of the loan term, the amount of recapture will be based on the pro-rata share of the remaining loan term and the shared net proceeds in the event of sale of the housing unit.

At the completion of the assistance, all properties must meet the International Residential Code and local building codes. Compliance with the basic access standards in new construction, established by §2306.514, Texas Government Code, is also required for any applicants utilizing federal or state funds administered by TDHCA in the construction of single family homes.

The available funding for this activity is approximately $3.4 million, which may only be used in non-PJs. This amount does not include the Housing Program for Persons with Disabilities HBA funding, which may be issued under a separate NOFA, nor does it include ADDI funds, which are only available upon reauthorization.

RENTAL HOUSING DEVELOPMENT

Awards for eligible applicants are to be used for the acquisition, construction, and rehabilitation of affordable multifamily rental housing.

TDHCA will not provide funding for the refinancing and/or acquisition of affordable housing developments that were constructed within the past 5 years. Eligible applicants include nonprofit organizations, CHDOs, units of general local government, for-profit entities, sole proprietors, and public housing authorities.

Owners are required to make housing units available to low, very low, and extremely low income families and must meet long-term rent restrictions. A standard underwriting review will be performed on applications under this activity. TDHCA generally make awards in form of a loan, however grants may be recommended to and approved by TDHCA's Board based on the underwriting review. Owners of rental units assisted with HOME funds must comply with initial and long-term income restrictions and keep the units affordable for a minimum period. Housing assisted with HOME funds must, upon completion, meet all applicable local, state, and federal construction standards and building codes. Additionally, the owner and/or all future owners of a HOME-assisted rental project must maintain all units in full compliance with local, state, and federal housing codes, which include, but are not limited to, the International Residential Code, Texas Government Code, and Section 504 of the 1973 Rehabilitation Act for the full required period of affordability.

The use of HOME Rental Housing Development funds will be limited to those allowable under 24 CFR Part 92. Eligible expenses and activities may further be limited by TDHCA in accordance with state legislation. Rental Housing Development funds may also be used for the acquisition and/or rehabilitation (including barrier removal activities) for the preservation of existing affordable or subsidized rental housing. Additionally, TDHCA will ensure that all multifamily rental housing developments are built and managed in accordance with its Integrated Housing Rule, 10 TAC §1.15.

Approximately $5 million is available for Rental Housing Development Funding for these activities may only be used in non-PJs. This amount does not include the Housing Program for Persons with Disabilities Rental Development funding which may be issued under a separate NOFA.

ADMINISTRATIVE EXPENSES

Up to 10 percent of the sum of the Program Year HOME basic formula allocation and program income may be set aside for HOME Administrative expenses. Typically, up to 4 percent of the Administrative Expenses Set-Aside may be provided to applicants receiving HOME funds for the cost of administering the program. TDHCA may allow a higher percentage of the Administrative Expenses Set-Aside for some applicants based on the activity being performed. For-profit organizations are not eligible to receive administrative funds. TDHCA will retain the remaining 6 percent of the Administrative Expenses Set-Aside to cover the internal cost of administering the statewide program. TDHCA may utilize these funds for construction and Section 504 inspection costs as needed.

AMERICAN DREAM DOWNPAYMENT INITIATIVE

The American Dream Downpayment Initiative (ADDI) was signed into law on December 16, 2003, and was created to help first time homebuyers with down payment and closing cost assistance. ADDI aims to increase the homeownership rate, especially among lower income and minority households, and revitalize and stabilize communities.

Under ADDI, the definition of a first time homebuyer is an individual and his or her spouse who have not owned a home during the three year period prior to the purchase of a home with assistance under the ADDI program. The term also includes displaced homemakers and single parents. The minimum amount of ADDI funds in combination with HOME funds that must be invested in a project is $1,000. The amount of ADDI assistance provided to any family may not exceed the greater of six percent of the purchase price of a single family housing unit or $10,000. This assistance is in the form of a second or third lien loan. In order to ensure the suitability of households receiving ADDI assistance, first time homebuyers will be required to participate in a homebuyer counseling course.

The American Dream Downpayment Assistance Act authorized up to $200 million nationally annually for fiscal years 2004 – 2007. Approximately $266,637 will be reserved for down payment assistance. These funds must be used in non-PJs. ADDI funding may, at the discretion of TDHCA, include funds for rehabilitation for first time homebuyers in conjunction with home purchases assisted with ADDI funds. The rehabilitation may not exceed 20 percent of the annual ADDI allocation. In accordance with 24 CFR 91.320, applicants must submit a plan for conducting targeted outreach to residents and tenants of public and manufactured housing and to other families assisted by public housing agencies.

TDHCA will continue to promote ADDI through the public hearings held across the state. The program will also be promoted around the state through a Texas Association of Realtors continuing education course for which Department staff provide information. The course was designed to improve the state homeownership rate and to educate Realtors about the availability of affordable housing products.

Since Texas has a large number of manufactured housing units and manufactured housing dealers, questions from real estate agents always arise about the availability of low interest rate loan funds and the availability of down payment assistance. Through continuing education courses and outreach, TDHCA is able to inform real estate agents about how ADDI can assist manufactured housing buyers. In addition, TDHCA will work closely with the Manufactured Housing Division to create awareness of ADDI funds directly to eligible first time homebuyers.

TDHCA also operates a First Time Homebuyer Program hotline. Over 1,200 calls are received on average per month. Interested homebuyers are provided literature and made aware of the various products and programs available.

CHDO SET-ASIDE

A minimum of 15 percent of the annual HOME allocation, approximately $6,000,000 (plus $300,000 in operating expenses) is reserved for CHDOs. CHDO set-aside projects are owned, developed, or sponsored by the CHDO, and result in the development of rental units or homeownership. Development includes projects that have a construction component, either in the form of new construction or the rehabilitation of existing units. If the CHDO owns the project in partnership, it or its wholly-owned for-profit or nonprofit subsidiary must be the managing general partner. These organizations can apply for multifamily rental housing acquisition, rehabilitation, or new construction, as well as for the acquisition, rehabilitation, or new construction of single family housing (through direct funding or loan guarantees). CHDOs can also apply for homebuyer assistance if their organization is the owner or developer of the single family housing project. These funds may only be used in non-PJs.

Once awarded, a CHDO development must remain controlled by a certified CHDO for the entire affordability term.

In accordance with 24 CFR 92.208, up to 5 percent of the State's CHDO Set-Aside may be used for operating expenses for CHDOs. In accordance with 92.300(a)(2)(f), A CHDO may not receive HOME funding for any fiscal year in an amount that provides more than 50 percent or $50,000, whichever is greater, of the CHDOs total operating expenses in that fiscal year. TDHCA may award CHDO Operating Expenses in conjunction with the award of CHDO Development Funds, or through a separate application cycle not tied to a specific activity. In addition, TDHCA may elect to set aside up to 10 percent of funding for predevelopment loans funds, which may only be used for activities such as project-specific technical assistance, site control loans, and project-specific seed money. Predevelopment loans must be repaid from construction loan proceeds or other project income. In accordance with 24 CFR 92.301, TDHCA may elect to waive predevelopment loan repayment, in whole or in part, if there are impediments to project development that TDHCA determines are reasonably beyond the control of the CHDO.

CONTRACT FOR DEED CONVERSIONS

The 80th Legislature passed Appropriations Rider 6 to TDHCA's appropriation, which requires TDHCA to spend no less than $4 million for the biennium on contract for deed conversions for families that reside in a colonia and earn 60 percent or less of the applicable area median family income (AMFI). Furthermore, TDHCA is targeted to convert no less than 200 contracts for deeds into traditional notes and deeds of trust. The intent of this program is to help colonia residents become property owners by converting their contracts for deeds into traditional mortgages. Households served under this initiative must not earn more than 60 percent of AMFI and the home converted must be their primary residence. The properties proposed for this initiative must meet TDHCA's definition of a colonia as defined in Chapter 2306, Texas Government Code or as published in the Department's program rules. These funds may only be used in non-PJs.

To help TDHCA meet this mandate, $2,000,000 in PY 2009 HOME program funds will be targeted to assist households described under this initiative. These funds are a statutorily required set-aside and are not subject to the Regional Allocation Formula, pursuant to §2306.111(d-1)(2) of the Texas Government Code.

COLONIA MODEL SUBDIVISION LOAN PROGRAM SET-ASIDE

Per Subchapter GG of Chapter 2306, Texas Government Code, the intent of this program is to provide low-interest-rate or possible interest-free loans to promote the development of new, high-quality residential subdivisions or infill housing that provide alternatives to substandard colonias, and housing options affordable to individuals and families of extremely low and very low income who would otherwise move into substandard colonias. TDHCA will only make loans to CHDOs it has certified and for the types of activities and costs described under the previous section regarding CHDO Set-Aside. $1,000,000 will be set-aside for the first 90 days of the NOFA to assist households described under this initiative. Any funds remaining after the first 90 days of the NOFA will be directed to single family development activities throughout the State. These funds will not be subject to the Regional Allocation Formula. These funds may only be used in non-PJs.

These funds are a State mandated set-aside and are not subject to the Regional Allocation Formula, pursuant to §2306.111(d-1)(2) of the Texas Government Code.

HOUSING PROGRAMS FOR PERSONS WITH DISABILITIES

Approximately $2 million of directed assistance for persons with disabilities will be issued under a separate NOFA or NOFAs including eligible activities for Rental Development, TBRA, and HBA with optional rehabilitation activities. This NOFA or NOFAs, separate from the regular HOME activity funding, will provide up to $1,000,000 for Rental Development and $1,000,000 for TBRA and HBA with optional rehabilitation. With the exception of for-profit applicants, funding awards associated with tenant based rental assistance and homebuyer assistance with optional rehabilitation programs will allow up to 6 percent administration costs with no match requirement.

Within the requirements of 2306.111(c) of the Texas Government Code as described below, applications under the $2 million NOFA or NOFAs may serve any area of the state. In its administration of federal housing funds provided to the state under the Cranston-Gonzalez National Affordable Housing Act (42 USC Section 12701 et. seq.), TDHCA shall expend 95 percent of these funds for the benefit of non-participating small cities and rural areas that do not qualify to receive funds under the Cranston-Gonzalez National Affordable Housing Act directly from the United States Department of Housing and Urban Development. Five percent of these funds shall be expended for the benefit of persons with disabilities who live in any area of the state. Eligible applicants include nonprofits, for-profits, units of general local government, and public housing authorities with a documented history of working with special needs populations, or working in partnership with organizations with a documented history of working with special needs populations. TDHCA will ensure that all housing developments are built and managed in accordance with its Integrated Housing Rule, 10 TAC **§**1.15. In addition, funds for rental development may only be used to bring the units for persons with disabilities to be at 30 percent of Area Median Family Income or below.

SPECIAL NEEDS POPULATIONS

Subject to the availability of qualified applications, TDHCA has a goal to allocate a minimum of 20 percent of the annual HOME allocation to applicants serving persons with special needs. Eligible applicants include nonprofits, for-profits, units of general local government, and PHAs with documented histories of working with special needs populations. All HOME Program activities will be included in attaining this goal. Additional incentives may be established under each of the eligible activities to assist TDHCA in reaching its goal.

FUNDING DISTRIBUTION

Subject to Texas Government Code §2306.111, HOME funds will be distributed according to the established Regional Allocation Formula (RAF). The 2008 RAF distributes funding for the following activities:

- CHDO Project Funds,
- Rental Housing Development Program,
- Single Family Activity Program.

Senate Bill 1908, passed during the 80th session of the Texas Legislature, affected changes to the allocation of HOME funds. Funds for the Housing Program for Persons with Disabilities are not regionally allocated and are therefore not factored into the formula below.

The table below shows the draft regional funding distribution for all of the activities distributed under the RAF, except for the ADDI funds, which will be distributed under the RAF if re-authorized by Congress. Targeted funding amounts for each activity will also be established using the percentages generated by the RAF.

2009 Targeted Distribution of Funds under the Draft RAF

Region	Place for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban Funding Amount	Urban Funding %
1	Lubbock	$1,899,836	5.6%	$1,899,399	100.0%	$437	0.0%
2	Abilene	$866,719	2.5%	$842,271	97.2%	$24,449	2.8%
3	Dallas/Fort Worth	$6,571,515	19.2%	$2,230,520	33.9%	$4,340,995	66.1%
4	Tyler	$3,641,873	10.6%	$3,196,234	87.8%	$445,639	12.2%
5	Beaumont	$1,777,124	5.2%	$1,626,844	91.5%	$150,280	8.5%
6	Houston	$2,662,428	7.8%	$905,471	34.0%	$1,756,957	66.0%
7	Austin/Round Rock	$1,885,064	5.5%	$715,659	38.0%	$1,169,404	62.0%
8	Waco	$1,149,137	3.4%	$759,059	66.1%	$390,078	33.9%
9	San Antonio	$1,762,628	5.2%	$1,132,545	64.3%	$630,084	35.7%
10	Corpus Christi	$2,041,485	6.0%	$1,373,964	67.3%	$667,521	32.7%
11	Brownsville/Harlingen	$7,139,695	20.9%	$4,021,377	56.3%	$3,118,318	43.7%
12	San Angelo	$1,609,447	4.7%	$655,454	40.7%	$953,992	59.3%
13	El Paso	$1,193,049	3.5%	$837,837	70.2%	$355,213	29.8%
	Total	$34,200,000	100.0%	$20,196,634	59.1%	$14,003,366	40.9%

TDHCA does not provide priorities for allocating investment geographically to areas of minority concentration as described in Section 91.320(d). However, the geographic distribution of HOME funds to minority populations is analyzed annually. TDHCA is statutorily required by the Texas Government Code to provide a comprehensive statement on its activities during the preceding year through a document called the *State of Texas Low Income Housing Plan and Annual Report*. Part of this document describes the ethnic and racial composition of families and individuals applying for and receiving assistance from each housing-related program operated by TDHCA.

REVIEW OF APPLICATIONS

All programs will be operating and announced by the release of either an open or competitive cycle Notice of Funding Availability. Applicants must submit a completed application to be considered for funding, along with an application fee determined by TDHCA and outlined in the NOFA and/or application guidelines. Applications containing false information and applications not received by the deadline will be terminated and notified in writing. All applications must be received by TDHCA by the deadline identified in the NOFA and/or application materials, regardless of method of delivery.

Applications received by TDHCA will be reviewed for threshold, eligibility and/or scoring criteria in accordance with the Department's rules and application review procedures published in the NOFA and/or application materials.

SELECTION PROCESS

All applications for funds are reviewed for threshold and eligibility requirements regarding application documentation and compliance with Department requirements on previously awarded contracts. Qualifying applications are recommended for funding based on the Department's rules and any additional requirements established in the Notice of Funding Availability. Applications may be recommended up to the limit of funds in accordance with the Department's rules are as further restricted in the Notice of Funding Availability. Applications submitted for development activities will also receive a review for financial feasibility and underwriting. Applications will be reviewed and recommended for funding in the manner prescribed in the State of Texas HOME Program Rules. In any of the activities, the Department may integrate incentive points for applicants to further meet the needs of persons with disabilities.

MATCH REQUIREMENTS

TDHCA will provide matching contributions from several sources for HOME funds drawn down from the State's HOME Investment Trust Funds Treasury account within the fiscal year. The State sources include the following:

- Loans originated from the proceeds of single family mortgage revenue bonds issued by the State. TDHCA will apply no more than 25 percent of bond proceeds to meet its annual match requirement.
- Match contributions from the State's Housing Trust Fund to affordable housing projects that are not HOME assisted, but that meet the requirements as specified in 24 CFR 92.219(b)(2).
- Eligible match contributions from State recipients, as specified in 24 CFR 92.220.
- Match contributions from local political jurisdictions provided through the abatement of real estate property taxes for affordable housing properties developed and owned by qualified CHDO applicants.

Additionally, TDHCA will continue to carry forward match credit.

DEOBLIGATED HOME PROGRAM FUNDS

When administrators have not successfully expended the HOME funds within their contract period, TDHCA deobligates the funds and pools the dollars to award applicants according to TDHCA's Deobligated Funds Policy as defined in 10 TAC §1.19.

APPLICABLE FEDERAL AND STATE REGULATIONS

HOME funds will be distributed in accordance with the eligible activities and eligible costs listed in 24 CFR 92.205–92.209 and 10 TAC Chapter 53. All local administrators will be required to execute certifications that the program will be administered according to federal HOME regulations and State HOME Rules.

Developments receiving funding from TDHCA must comply with accessibility standards required under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), as amended, and specified under 24 CFR Part 8, Subpart C. This includes a provision that a minimum of 5 percent of the total dwelling units or at least one unit, whichever is greater, must be made accessible for individuals with mobility impairments. An additional 2 percent of the total number of dwelling units or at least one unit, whichever is greater, must be accessible for individuals with hearing or vision impairments. In the event that a project does not meet the requirements of Section 504, TDHCA will consider using HOME deobligated funds for eligible Section 504 activities with the purpose of bringing noncompliant projects into compliance when appropriate and when such a request is supported by circumstances beyond the control of the administrator. This provision will not apply if Section 504 activities were included as part of the budget in contracts between TDHCA and administrators.

THE PLANNING PROCESS AND PUBLIC PARTICIPATION

The planning process will include a review of the federal and state regulations that govern the HOME Program, the regional needs assessment, and Department goals and mandates.

The *2009 State of Texas Consolidated Plan: One-Year Action Plan (Draft for Public Comment)* was available for public comment from September 8, 2008, through October 10, 2008. Additionally, TDHCA will hold public hearings in which constituents are given the opportunity to make general comments on the direction of all Department programs. During this time, citizens and organizations were encouraged to send written comment on the Plan via mail, email, or fax.

Any amendments made to the HOME Program Rules are published in the *Texas Register* for a 30-day comment period. The HOME Program also receives public comment during TDHCA Board of Directors meetings.

MINORITY PARTICIPATION

TDHCA encourages minority employment and participation among all applicants under the HOME Program. All applicants to the HOME Program are required to submit an affirmative marketing plan as part of the application process. Additionally, TDHCA encourages applicant outreach to Historically Underutilized Businesses.

RECAPTURE PROVISIONS UNDER HOMEOWNERSHIP PROGRAMS

If the participating jurisdiction intends to use HOME funds for homebuyers, the guidelines for resale or recapture must be described as required in 24 CFR 92.254(a)(5).

TDHCA has elected to utilize the recapture provision under 24 CFR 92.254(a)(5)(ii) as its method of recapturing HOME funds under any program the State administers that is subject to this provision.

1. The following methods of recapture would be acceptable to TDHCA and will be identified in the note prior to closing:
    a. Recapture the amount of the HOME investment reduced on a prorata share based on the time the homeowner has owned and occupied the unit measured against the required affordability period. The recapture amount is subject to available shared net proceeds in the event of sale or foreclosure of the housing unit.
    b. In the event of sale or foreclosure of the housing unit, if the shared net proceeds (i.e., the sales price minus closing costs; any other necessary transaction costs; and loan repayment, other than HOME funds) are in excess of the amount of the HOME investment that is subject to recapture, then the net proceeds may be divided proportionately between TDHCA and the homeowner as set forth in the following mathematical formulas:

       (HOME investment / (HOME investment + homeowner investment)) X net proceeds = HOME amount to be recaptured

       (HOME investment / (HOME investment + homeowner investment)) X net proceeds = amount to homeowner
2. The HOME investment that is subject to recapture is based on the amount of HOME assistance that enabled the homebuyer to buy the dwelling unit. This is also the amount upon which the affordability period is based. This includes any HOME assistance that reduced the purchase price from fair market value to an affordable price, but excludes the amount between the cost of producing the unit and the market value of the property (i.e., the development subsidy). The recaptured funds must be used to carry out HOME-eligible activities. If HOME funds were used for development subsidy and therefore not subject to recapture, the resale provisions at 24 CFR 92.254(a)(5)(i) apply.
3. Upon recapture of the HOME funds used in a single family homebuyer project with more than one unit, the affordability period on the rental units may be terminated at the discretion of TDHCA.

In certain instances, TDHCA may choose to utilize the resale provision at 24 CFR 92.254(a)(5)(i) under any program the State administers that is subject to this provision.

1. The following method of resale would be acceptable to TDHCA and will be identified in the note prior to closing:
    a. Resale requirements must ensure that, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability, the housing is made available for subsequent purchase only to a buyer whose family qualifies as a low or very low income family and will use the property as its principal residence.
    b. The resale requirement must also ensure that the price at resale provides the original HOME-assisted owner a fair return on investment (including the homeowner's investment and any capital improvement) and ensure that the housing will remain affordable to a reasonable range of low or very low income homebuyers.
    c. The period of affordability is based on the total amount of HOME funds invested in the housing.
2. Except as provided in paragraph 24 CFR 92.254(a)(5)(i)(B), deed restrictions, covenants running with the land, or other similar mechanisms must be used as the mechanism to impose the resale requirements.

OTHER FORMS OF INVESTMENT

If a participating jurisdiction intends to use other forms of investment not described in §92.205(b), a description of the other forms of investment must be provided.

The State is not proposing to use any form of investment in its HOME Program that is not already listed as an eligible form of investment in 24 CFR 92.205(b).

REFINANCING DEBT

If the State intends to use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds, it must state its refinancing guidelines required under 24 CFR § 92.206(b).

TDHCA may use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds as described in 24 CFR § 92.206(b). TDHCA shall use its underwriting and evaluation standards, codified at 10 TAC §§1.31-1.36 and its HOME Program Rule at 10 TAC §53, for refinanced properties in accordance with its administrative rules. At a minimum, these rules require the following:

- That rehabilitation is the primary eligible activity for developments involving refinancing of existing debt;
- Sets a minimum funding level for rehabilitation on a per unit basis;
- Requires a review of management practices to demonstrate that disinvestments in the property has not occurred;
- That long term needs of the project can be met;
- That the financial feasibility of the development will be maintained over an extended affordability period;
- State whether new investment is being made to maintain current affordable units, and or create additional affordable units;
- Specifies the required period of affordability;
- Specifies that HOME funds may be used throughout the entire jurisdiction, except as TDHCA may be limited by the Texas Government Code; and
- States that HOME funds cannot be used to refinance multifamily loans made or insured by any Federal program, including CDBG.

CPD OUTCOME PERFORMANCE MEASUREMENT SYSTEM REPORTING

In accordance with the guidelines from HUD, TDHCA will comply with the new CPD Outcome Performance Measurement System. Compliance will be attained through the creation and development of additional tracking screens in TDHCA’s central database to enable the Department to capture information needed for input into IDIS. HOME Program eligible activities will be categorized into the objectives and outcomes listed in the chart below. It is anticipated most HOME Program eligible activities will be categorized as Outcome #2 and Objective #2.

The performance figures are based on actual performance during the Program Year (February 1st through January 31st) of current contracts and actual units and households served. In contrast, the performance measures reported to the Texas Legislative Budget Board for the State Fiscal Year (September 1st through August 31st) are based on projected units and households at time of award. The HOME performance figures reported herein may include funding from several years as funds from previous years are deobligated and refunded.

	OUTCOME 1	OUTCOME 2	OUTCOME 3
OBJECTIVE #1 **Suitable Living Environment**	Enhance Suitable Living Environment Through Improved/New Accessibility	Enhance Suitable Living Environment Through Improved/New Affordability	Enhance Suitable Living Environment Through Improved/New Sustainability
OBJECTIVE #2 **Decent Housing**	Create Decent Housing with Improved/New Availability	**Create Decent Housing with Improved/New Affordability (DH-2)**	Create Decent Housing with Improved/New Sustainability
OBJECTIVE #3 **Economic Opportunity**	Provide Economic Opportunity Through Improved/New Accessibility	Provide Economic Opportunity Through Improved/New Affordability	Provide Economic Opportunity Through Improved/New Sustainability

HOME Program Performance Measures

Outcomes and Objectives	Performance Indicators	Expected Number
DH-2	No. of rental units assisted through new construction and rehabilitation	870
DH-2	No. of tenant-based rental assistance units	725
DH-2	No. of existing homeowners assisted through owner-occupied assistance	432
DH-2	No. of first-time homeowners assisted through homebuyer assistance	437

HOME PROGRAM ACTIONS

This section describes how the HOME Program addresses the following: affordable housing, public housing resident initiatives, lead-based paint hazards, poverty-level households, and institutional structure.

AFFORDABLE HOUSING

The HOME Program provides grant funds, deferred forgivable loans, and repayable loans to units of local government, nonprofit and for-profit organizations, community housing development organizations (CHDOs), and public housing authorities (PHAs). These funds are primarily used to foster and maintain affordable housing by providing rental assistance, rehabilitation, or reconstruction of owner-occupied housing units, down payment and closing cost assistance with optional rehabilitation for the acquisition of affordable single family housing, single family development and funding for rental housing development preservation of existing affordable or subsidized rental housing.

PUBLIC HOUSING RESIDENT INITIATIVES

Because PHAs are eligible applicants under the HOME Program, TDHCA sends notices of funding availability to all PHAs in the state. At HOME application workshops, application processes are discussed in detail, including those related to HBA. In addition to PHAs that have received HOME funds to provide homebuyer assistance in their areas, PHAs have also received HOME tenant-based rental assistance funds, enabling them to provide additional households with rental assistance and services to increase self-sufficiency.

LEAD-BASED HAZARDS

The HOME Program requires an environmental site assessment and the abatement of lead-based paint if the structure being rehabilitated was constructed prior to 1978. There is significant training, technical assistance, and oversight of this requirement on each contract funded under the HOME Program.

POVERTY-LEVEL HOUSEHOLDS

Through the HOME Tenant-Based Rental Assistance Program, TDHCA assists households with rental subsidy and security and utility deposit assistance for a period not to exceed two years. As a condition to receiving rental assistance, households must participate in a self-sufficiency program, which can include job training, GED classes, or drug recovery classes. The HOME Program enables households to receive rental assistance while participating in programs that will enable them to improve employment options and increase their economic independence and self-sufficiency.

INSTITUTIONAL STRUCTURE

The HOME Program encourages partnerships in order to improve the provision of affordable housing. Organizations receiving HBA funds are required to provide homebuyer education classes to households directly, or coordinate with a local organization that will provide the education. In addition, organizations receiving TBRA funds must provide self-sufficiency services directly, or coordinate with a local organization that will provide the services.

HOMELESS ACTION PLAN:
EMERGENCY SHELTER GRANTS PROGRAM

FEDERAL RESOURCES EXPECTED PY 2009

TDHCA expects to receive $5,261,641 for PY 2009. This estimate is based on the State's ESG allocation for PY 2008, which was $5,261,641.

RECIPIENTS

Recipients of ESG funds are units of general local government and private nonprofit organizations.

ESTIMATED PY 2009 BENEFICIARIES

It is estimated that in PY 2009 76 private nonprofit entities and units of general local government will be funded to administer projects that will provide shelter and related services to homeless persons and/or intervention services to persons at risk of homelessness. Activities administered by several of these funded entities will involve collaborative efforts with approximately 12 other sub entities. It is estimated that approximately 100,162 homeless persons will be assisted in PY 2009.

TARGETED BENEFICIARIES

The targeted beneficiaries are homeless individuals and individuals at risk of homelessness.

FUNDING DISTRIBUTION

TDHCA has administered the Emergency Shelter Grants Program (ESG) since 1987. TDHCA will administer the S-094-DC-48-0001 ESG funds in a manner consistent with the McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. Sec 11371 *et seq.*). TDHCA will obligate PY 2009 ESG funds through a statewide competitive application process. ESG funds are reserved for each of the State's 13 Uniform State Service Regions based on the poverty population of each region taken from the 2000 US Census.

OBJECTIVES

The objectives of ESG consist of the following:

- Help improve the quality of emergency shelters for the homeless.
- Make additional emergency shelters available.
- Help meet the costs of operating and maintaining emergency shelters.
- Provide essential services so that homeless individuals have access to the assistance they need to improve their situations.
- Provide emergency intervention assistance to prevent homelessness.

The State's strategy to help homeless persons includes: community outreach efforts to ensure that homeless persons and persons at risk of homelessness are aware of available services, providing funding to support emergency shelter and transitional housing programs, helping homeless persons make the transition to permanent housing and independent living through comprehensive case management, and supporting other efforts to address homelessness. This strategy is outlined below.

Helping low income families avoid becoming homeless:

- TDHCA awards ESG funds using the competitive process described in the ESG One-Year Action Plan. In that process, up to 30 percent of the State's ESG annual allocation is made available to support homelessness prevention activities, and up to 30 percent of the ESG annual allocation is made available to provide essential services. Homelessness prevention efforts include short-term rent and utility assistance for homeless individuals and families and, if they meet certain criteria, those who are at-risk of losing their housing.
- Applicants for ESG funding are required to demonstrate coordination with other providers in their communities as part of the ESG scoring criteria. ESG grant recipients are encouraged to maximize all community resources when providing homelessness prevention assistance to ensure the appropriate use of these limited resources.

Reaching out to homeless persons and assessing their individual needs:

- Each application for ESG funding includes information about the case management system used by the applicant organization.
- Each application for ESG funding includes a description of services provided to homeless persons. This description is evaluated during the application review process as a criterion for receiving ESG funding.

ESG grant recipients will be required to report on outcomes achieved by homeless persons assisted. Reporting on outcomes will provide TDHCA with information on the long-term impact of the services provided such as the attainment of transitional housing or permanent housing, obtaining a GED or high school diploma or the achievement of other education and training goals, obtaining job skills, job placement, etc.

Addressing the emergency shelter and transitional housing needs of homeless persons:

- ESGP grants provide support to organizations that provide emergency services, shelter, and transitional housing to homeless persons and families.
- To ensure equitable distribution of funding, a portion of the ESGP allocation is reserved for each of the 13 regions in the state on the basis of the poverty population in each region. TDHCA expects to fund 76 projects in PY 2009. (See the ESGP Obligation Process later in this section.)

Helping homeless persons make the transition to permanent housing:

- ESGP funds can be used to pay rent and utility deposits as well as first month's rent for homeless individuals making the transition to permanent housing.

Supporting other efforts to address homelessness:

- The State has contracted with an organization to provide technical assistance in FY 2009 to rural homeless coalitions representing approximately 182 Texas counties and will support the State's effort to assist rural communities in their efforts to access federal CoC funds and that are interested in being part of the State's application for Continuum of Care funds for the balance of state areas in the State. Types of technical assistance to be rendered will include, but not be limited to, homeless counts/surveys, compilation of a housing and services inventory, identification of housing gaps, and development of homeless discharge plan strategies for their area. Organizations receiving the technical assistance must be located in a Balance of State area and applying for Continuum of Care funds through the U.S. Department of Housing and Urban Development. The State has released a Request for Proposals for interested parties to submit a proposal. The first year of funding is expected to begin September 1, 2008. The first contract will be for 12 months with the possibility of renewal for an additional 12 months. The Department expects that as a result of the technical assistance that will be rendered, the State will submit a more competitive application to HUD for Continuum of Care funds. If the State receives Continuum of Care funds for the Balance of State areas, additional homeless persons will be assisted in the State. The source of funding for this contract is State general revenue funds.

ELIGIBLE ACTIVITIES

ESG funds may be used for the following eligible activities:

1. Renovation, major rehabilitation, or conversion of buildings to be used as emergency shelters for the homeless.
2. Provision of essential services, including, but not limited to, the following:
    a. Assistance in obtaining permanent housing
    b. Medical and psychological counseling and supervision
    c. Employment counseling
    d. Nutritional counseling
    e. Substance abuse treatment and counseling
    f. Assistance in obtaining other federal, state, and local assistance
    g. Other services such as child care, transportation, job placement, and job training
    h. Staff salaries necessary to provide the above services

    These services may be provided only pursuant to Sec. 414 of the McKinney Act as amended by Sec. 832 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. Sec. 11374), which requires that services funded with ESG must be provided in a nondiscriminatory manner.
3. Payment of maintenance, operation, and furnishings costs, except that not more than 10 percent of the amount of any ESG grant may be used to pay operation staff costs.
4. Developing and implementing homeless prevention activities as per Sec. 414 of the McKinney Act as amended by Sec. 832 of the Cranston-Gonzalez National Affordable Housing Act.

RECIPIENT REQUIREMENTS

Recipients of ESG funding are required to meet certain minimum specifications that include, but are not limited to, the following:

1. Being a unit of general local government or private nonprofit organization.
2. Documenting, in the case of a private nonprofit organization, that the proposed project has the approval of the city, county, or other unit of local government in which the project will operate.
3. Providing for the participation of homeless or formerly homeless individuals on their board of directors or other policy-making entity.
4. Assuring that ESG subrecipients obligate funds within 180 days from the date that TDHCA received the award letter from HUD.
5. Documentation of fiscal accountability, as specified in the application.
6. Proposing to undertake only eligible activities.
7. Demonstrating need.
8. Assuring ability to provide matching funds.
9. Demonstrating effectiveness in serving the homeless, including the ability to establish, maintain, and/or improve the self-sufficiency of homeless individuals.
10. Assuring that homeless individuals will be involved in the provision of services funded through ESG, to the maximum extent feasible, through employment, volunteerism, renovating, maintaining or operating facilities, and/or providing direct services to occupants of facilities assisted with ESG funds.
11. Assuring the operation of an adequate, sanitary, and safe homeless facility.

12. Assuring that it will administer, in good faith, a policy designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries.
13. Assuring that it will develop and implement procedures to ensure the confidentiality of records of any individual receiving assistance as a result of family violence.
14. Proposing a sound plan consistent with the State of Texas Consolidated Plan, the McKinney-Vento Homeless Assistance Act, and all other assurances and certifications.
15. Assuring the participation in the development and implementation, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of person from publicly funded institutions and systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) to prevent such discharge from immediately resulting in homelessness for such persons. ESG funds are not to be used to assist such persons in place of State and local resources.
16. Assuring that it will meet HUD's standards for participation in a local Homeless Management Information System and the collection and reporting of client-level information.
17. Any renovation carried out with ESGP assistance shall be sufficient to ensure that the building involved is safe and sanitary, and the renovation will assist homeless individuals in obtaining:

    (A) appropriate supportive services, including permanent housing, medical and mental health treatment, counseling, supervision, and other services essential for achieving independent living; and
    (B) other Federal, state, local, and private assistance available for such individuals.

FUND OBLIGATION PROCESS

TDHCA will obligate PY 2009 ESG funds to units of general local government or to private nonprofit organizations which have local government approval to operate a project which assists homeless individuals. TDHCA will evaluate all applications received and award funds in accordance with the application specifications. This statewide competitive application process will allow ESG funds to be distributed equitably.

The State's anticipated ESG allocation for PY 2009 is $5,261,641 less 5 percent ($263,082) for state administration costs of which approximately $21,684 will be shared with subrecipient organizations which are units of general local government. TDHCA reserves ESG funds for each of the 13 Uniform State Service Regions. Funds are reserved for each region in direct proportion to the percentage of poverty population that exists in each region according to the most recent county Census data. Applicants compete only against other applicants in their Uniform State Service Region.

TDHCA is statutorily required by the Texas Government Code to provide a comprehensive statement on its activities during the preceding year through a document called the *State of Texas Low Income Housing Plan and Annual Report*. Part of this document describes the ethnic and racial composition of families and individuals applying for and receiving assistance from each housing-related program operated by TDHCA.

TDHCA issues a notice of funding availability (NOFA) and posts an application to its website. Applications are also provided directly to any organization or individual upon request. As the applications are received, they are sorted by region and numbered consecutively. Teams review the applications according to assigned regions, using a standardized review instrument. A variety of factors, as per the application instructions, are evaluated and scored to determine each application's merit in identifying and addressing the needs of the homeless population, as well as the organization's capacity to carry out the proposed project.

The top scoring applications in each region will be recommended for funding based on the amount of funds reserved for each region. Any application which receives a score below 70 percent of the highest raw score from the region will not be considered for funding. All available ESG funds are obligated each year through 12-month contracts.

APPLICABLE FEDERAL AND STATE REGULATIONS

- 24 CFR 576 as amended;
- Title IV, Subtitle B of the McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. sec, 11371 et seq.)
- 10 Texas Administrative Code, Chapter 5, Subchapter C.

LEVERAGING RESOURCES

Section 576.51 of the ESG regulations state that each grantee must match the funding provided by HUD. Match resources must be provided after the date of the ESG grant award and must be provided in an amount equal to or greater than the ESG grant award. Resources used to match a previous grant may not be used to match a subsequent award. Sources of match may include, but are not limited to, unrestricted funds from the grant recipient, volunteer hours, the value of donated materials or buildings, or the fair market rent or lease value of a building used to provide services to the homeless population. Each applicant must identify the source and amount of match they intend to provide if they are selected for funding and may report monthly on the amount of match provided. ESG monitors review the match documentation during each on-site monitoring visit. A desk review is completed at the closeout of each contract to ensure, among other things, that each ESG recipient has provided an adequate amount of match during the contract period.

SPECIAL INITIATIVES AND PARTNERSHIPS

TDHCA is the lead agency in the Texas Interagency Council for the Homeless (TICH). TICH is charged with surveying and evaluating services for the homeless in Texas, assisting in the coordination and provision of services to homeless person throughout the State, increasing the flow of information among service providers and appropriate authorities, developing guidelines to monitor services to the homeless, providing technical assistance to the housing finance division of TDHCA in assessing housing needs for persons with special needs, establishing a central resource and information center for the State’s homeless population, and developing a strategic plan to address the needs of the homeless in cooperation with TDHCA and the Health and Human Services Commission.

TDHCA also supports with Community Services Block Grant and State of Texas general revenue funds, activities that address homelessness, including providing technical assistance to develop and strengthen homeless coalitions throughout Texas, distributing a statewide bimonthly newsletter on homelessness, maintaining an information resource center, workshops, sponsoring an annual statewide conference on homeless issues, and the provision of training and technical assistance to organizations interested in being part of the State’s application for Continuum of Care funds for the balance of state areas in the State.

MONITORING

TDHCA monitors ESG subrecipients based on an assessment of associated risks. The assessment of associated risks utilizes factors developed by the Department's Portfolio and Compliance Division in conjunction with the Community Affairs Division. The factors include the status of the most recent monitoring report, timeliness of grant reporting, results of the last on-site monitoring review, number and dollar amounts of Department funds contracts and single audit issues. Subrecipients with the highest rankings are considered high risk and will receive an on-site monitoring review. Subrecipients with low rankings will have a desk review conducted. During the monitoring review, staff determine subrecipients' compliance with the ESG contract, ESG State Regulations, State Policy Issuances, 24 CFR Ch V, Part 576, OMB Circulars related to expenditure of funds, and requirements of Chapter 58 of the Environmental Protection Act as it relates to projects funded for rehabilitation, conversion, or renovation.

CPD OUTCOME PERFORMANCE MEASUREMENT SYSTEM REPORTING

ESG began reporting using the HUD CPD Outcome Performance Measurement System on September 1, 2006, with the implementation of the 2006 ESG contracts. TDHCA will continue to utilize this reporting system in 2009. In 2007, the HUD CPD Outcome Performance Measurement System became automated whereby subrecipients began to report performance data via a Web based application. TDHCA's monthly performance reports have been amended to include changes in reporting requirements required by HUD and to gather data on persons assisted with services which are outcome oriented and have a long-term impact. ESG activities related to renovation/rehabilitation, essential services, maintenance, operations, and furnishings will fall under HUD's Outcome 1, Availability/Accessibility, and Objective 1, Create a Suitable Living Environment (SL-1). ESG activities related to homelessness prevention will be reported under HUD's Outcome 1, Affordability and Objective 2, Provide Decent Housing. (DH-2)

ESG Annual Action Plan
Planned Project Results

Outcomes and Objectives	Performance Indicators	Expected Number	Activity Description
SL-1 Availability/ Accessibility and Create a Suitable Living Environment	Accessibility for the purpose of creating a suitable living environment.	40,302	Provide funding to support the provision of emergency and/or transitional shelter to homeless persons.
DH-2 Affordability and Provide Decent Housing	Affordability for the purpose of providing decent housing.	59,860	The provision of non-residential services including homelessness prevention assistance.

ESG ACTIONS

This section describes how ESG addresses the following: affordable housing, public housing resident initiatives, lead-based pain hazards, poverty-level households, and institutional structure.

AFFORDABLE HOUSING

While TDHCA encourages the use of ESG funds to provide affordable transitional housing, the majority of funds are utilized to provide emergency shelter. Fostering affordable housing is not an initiative for which TDHCA provides funding or that TDHCA monitors for the ESG Program.

PUBLIC HOUSING RESIDENT INITIATIVES

Fostering public housing resident initiatives is not an initiative for which TDHCA provides funding or that TDHCA tracks for the ESG Program.

LEAD-BASED HAZARDS

TDHCA evaluates and reduces lead-based hazards for conversion, renovation, or rehabilitation projects funded with ESG funds and tracks work in these efforts in the ESG Program as required by Chapter 58 of the Environmental Protection Act.

POVERTY-LEVEL HOUSEHOLDS

While TDHCA encourages the use of ESG funds to help ESG clients lift themselves above the poverty line, it is not an initiative for which TDHCA provides funding or that TDHCA monitors for the ESG Program.

INSTITUTIONAL STRUCTURE

TDHCA encourages ESG subrecipients to coordinate services with housing and other service agencies. Collaborative applications funded with ESG funds are required to coordinate services and to provide services as part of a local continuum of care. TDHCA reviews ESG subrecipients' coordination efforts during on-site and desk monitoring.

CHRONIC HOMELESSNESS

Based on the 77 Emergency Shelter Grants (ESG) Program organizations funded in FY 2008, it is estimated that 45 of the 77 organizations serve the chronically homeless. Of the 77 subrecipients, 70 provide shelter and have a total of 5,171 beds available. Thirteen of these organizations are Salvation Army organizations. These organizations are located across the State. While the Department does not have a complete "inventory" of the supportive services offered by the ESG funded organizations, the Department began to collect information on the number of persons provided with supportive services in FY 2006. The range of supportive services include: legal advocacy, education, employment, housing, counseling, psychological treatment and/or psychological counseling, substance abuse treatment, medical assistance, parenting and budgeting classes, housing advocacy, transportation assistance, English-as-a- Second Language classes, and clothing.

The following inventory is an account of all the Emergency, Transitional Housing, and Permanent Supportive Housing beds reported in the 2007 Continuum of Care applications. The 2008 Continuum of Care data is not available at this time. These beds represent 245 Texas counties that applied for funding:

Emergency Shelter		
	Existing Beds	Unmet Need*
Family Beds	4,294	1,124
Individual Beds	6,499	5,087
Total	10,793	6,211

Transitional Housing		
	Existing Beds	Unmet Need*
Family Beds	4,914	3,442
Individual Beds	3,632	5,952
Total	8,546	9,349

Permanent Supportive Housing		
	Existing Beds	Unmet Need*
Family Beds	1,447	5,490
Individual Beds	2,179	245
Total	3,626	5,735

*Estimate based on 2007 Continuum of Care applications.

COMMUNITY DEVELOPMENT ACTION PLAN: COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

PROGRAM YEAR 2009 GENERAL PROGRAM INFORMATION

A. COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM ADMINISTRATION

The Office of Rural Community Affairs (ORCA) administers the State of Texas Community Development Block Grant Program (CDBG), called the Texas Community Development Block Grant Program (Texas CDBG). The Texas Department of Agriculture (TDA) administers the Texas Capital Fund through an interagency agreement between ORCA and TDA. The Tx CDBG will continue to fund the Colonia Self-Help Centers Fund but administration of that program will remain with the Texas Department of Housing and Community Affairs (TDHCA) Office of Colonia Initiatives through a Memorandum of Understanding between ORCA and TDHCA.

The mission of the Office of Rural Community Affairs is to assist rural Texans who seek to enhance their quality of life by facilitating, with integrity, the use of the resources of our state so that sustained economic growth will enrich the rural Texas experience for the benefit of all.

B. ELIGIBLE APPLICANTS

Eligible applicants are nonentitlement general purpose units of local government including cities and counties that are not participating or designated as eligible to participate in the entitlement portion of the federal Community Development Block Grant Program (CDBG). Nonentitlement cities that are not participating in urban county programs through existing participation agreements are eligible applicants (unless the city's population is counted towards the urban county CDBG allocation).

Nonentitlement cities are located predominately in rural areas and are cities with populations less than 50,000 thousand persons; cities that are not designated as a central city of a metropolitan statistical area; and cities that are not participating in urban county programs. Nonentitlement counties are also predominately rural in nature and are counties that generally have fewer than 200,000 persons in the nonentitlement cities and unincorporated areas located in the county.

Hidalgo County, a designated CDBG urban county, is eligible to receive assistance under the Texas Community Development Block Grant (Tx CDBG) Program Colonia Fund (and each fund category included under the Colonia Fund).

Counties eligible under both the Tx CDBG Colonia Fund and the Texas Water Development Board's Economically Distressed Areas Program (EDAP) are eligible under the Tx CDBG Colonia Economically Distressed Areas Program Fund. Non-entitlement cities located within eligible counties that meet other eligibility criteria, including the geographic requirements of the Colonia Fund, are also eligible applicants for the Tx CDBG Colonia Economically Distressed Areas Program Fund.

With the enactment of §43.905 of the Texas Local Government Code, a colonia that is annexed by a municipality remains eligible for five years after the effective date of the annexation to receive any form of assistance for which the colonia would be eligible if the annexation had not occurred. This only applies to a colonia annexed by a municipality on or after September 1, 1999.

C. ELIGIBLE ACTIVITIES

Eligible activities under the Texas Community Development Block Grant Program are listed in 42 U.S.C Section 5305. The Tx CDBG staff reviews all proposed project activities included in applications for all fund categories, except the Texas Capital Fund, to determine their eligibility. The Texas Department of Agriculture determines the eligibility of activities included in Texas Capital Fund applications.

All proposed activities must meet one of the following three National Program Objectives:

1. principally benefit low- and moderate-income persons; or
2. aid in the elimination of slums or blight; or
3. meet other community development needs of particular urgency which represent an immediate threat to the health and safety of residents of the community

Area benefit can be used to qualify street paving projects. However, for street paving projects that include multiple and non-contiguous target areas, each target area must separately meet the principally benefit low and moderate income national program objective. At least fifty-one percent (51%) of the residents located in each non-contiguous target area must be low and moderate income persons. A target area that does not meet this requirement cannot be included in an application for Tx CDBG funds. The only exception to this requirement is street paving eligible under the Disaster Relief/Urgent Need Fund.

D. INELIGIBLE ACTIVITIES

In general, any type of activity not described or referred to in 42 U.S.C Section 5305 is ineligible. Specific activities ineligible under the Texas Community Development Block Grant Program are:

1. construction of buildings and facilities used for the general conduct of government (e.g. city halls, courthouses, etc.);
2. new housing construction, except as last resort housing under 49 CFR Part 24 or affordable housing through eligible subrecipients in accordance with 24 CFR 570.204;
3. the financing of political activities;
4. purchases of construction equipment (except in limited circumstances under the STEP Program);
5. income payments, such as housing allowances; and
6. most operation and maintenance expenses (including smoke testing, televising / video taping line work, or any other investigative method to determine the overall scope and location of the project work activities)

The Texas Capital Fund (TCF) will not accept applications in support of public or private prisons, racetracks and projects that address job creation/retention through a government supported facility. The Texas Capital Fund Program may be used to financially assist/facilitate the relocation of a business when certain requirements, as defined in the application guidelines, are met.

E. PRIMARY BENEFICIARIES

The primary beneficiaries of the Texas Community Development Block Grant Program are low to moderate income persons as defined under the U.S. Department of Housing and Urban Development (HUD) Section 8 Assisted Housing Program (Section l02(c)). Low income families are defined as those earning less than 50 percent of the area median family income. Moderate income families are defined as those earning less than 80 percent of the area median family income. The area median family can be based on a metropolitan statistical area, a non-metropolitan county, or the statewide non-metropolitan median family income figure.

F. DISPLACEMENT OF PERSONS ASSISTED

Applicant localities must certify that they will minimize the displacement of persons as a result of activities assisted with Texas Community Development Block Grant Program grant funds.

II. ALLOCATION OF CDBG FUNDS

A. AVAILABLE FUND CATEGORIES

Assistance is available in six funding categories and one pilot program under the Texas Community Development Block Grant Program as indicated below:

Funds:
1. Community Development Fund
2. Texas Capital Fund
3. Colonia Fund
    - 3a. Colonia Planning and Construction Fund
    - 3b. Colonia Economically Distressed Areas Program Legislative Set-Aside
    - 3c. Colonia Self-Help Centers Legislative Set-Aside
4. Planning and Capacity Building Fund
5. Disaster Relief/Urgent Need Fund
6. Tx CDBG STEP Fund

Pilot Program:
Renewable Energy Demonstration Pilot Program

B. DESCRIPTION OF FUNDS

1. Community Development Fund

This fund is available on a biennial basis for funding from program years 2009 and 2010 through a 2009 annual competition in each of the 24 state planning regions. Applications received by the 2009 program year application deadline are selected to receive grant awards from the 2009 and 2010 program year allocations. The scoring of the applications is shared between ORCA and the 24 Regional Review Committees (RRC), with the RRC having the predominate percentage of the total possible score.

Regional Priority Set-asides: Housing and Non-Border Colonia projects - Each Regional Review Committee (RRC) is encouraged to allocate a percentage or amount of its Community Development Fund allocation to housing projects and, for RRCs in eligible areas, non-border colonia projects proposed in and for that region. Under a set-aside, the highest ranked applications for a housing or non-border colonia activity, regardless of the position in the overall ranking, would be selected to the extent permitted by the housing or non-border colonia set-aside level. If the region allocates a percentage of its funds to housing and/or non-border colonia activities and applications conforming to the maximum and minimum amounts are not received to use the entire set-asides, the remaining funds may be used for other eligible activities. (Under a housing and/or non-border colonia set-aside process, a community would not be able to receive an award for both a housing or non-border colonia activity and an award for another Community Development activity during the biennial process. Housing projects/activities must conform to eligibility requirements in 42 U.S.C Section 5305 and applicable HUD regulations.)

Funds for projects under the Community Development Fund are allocated among the 24 state planning regions based on the following:

REGIONAL ALLOCATION METHOD:

The original CD formula is used to allocate 40 percent of the annual state CDBG allocation; and the HUD formula is used to allocate 21.71 percent of the annual state CDBG allocation.

Original CD formula (40%) factors:

a.	Non-Entitlement Population	30%
b.	Number of Persons in Poverty	25%
c.	Percentage of Poverty Persons	25%
d.	Number of Unemployed Persons	10%
e.	Percentage of Unemployed Persons	10%

To the extent possible, the information used to calculate the regional allocations through these factors will be based on the eligible nonentitlement applicants within each region. The population and poverty information used is from the current available decennial census data. The unemployment information used is the current available annual average information.

HUD formula (21.71%) - the formula is the same methodology that HUD uses to allocate CDBG funds to the non-entitlement state programs. The HUD factors, percentages, and methodology are specified in 42 U.S.C. 5306(d). The Tx CDBG will use available data to calculate the allocations to each region.

Using the HUD methodology, the allocation for each region shall be the greater of an amount that bears the same ratio to the allocation for all 24 regions available as either:

(A) the average of the ratios between:

- the population of the nonentitlement areas in that region and the population of the nonentitlement areas of all 24 regions (counted one time - 25% weight);
- the extent of poverty in the nonentitlement areas in that region and the extent of poverty in the nonentitlement areas of all 24 regions (counted two times - 50% weight); and
- the extent of housing overcrowding in the nonentitlement areas in that region and the extent of housing overcrowding in the nonentitlement areas of all 24 regions (counted one time - 25% weight);

OR

(B) the average of the ratios between:

- the age of housing in the nonentitlement areas in that region and the age of housing in the nonentitlement areas in all 24 regions (counted two and one half times - 50% weight);
- the extent of poverty in the nonentitlement areas in that region and the extent of poverty in the nonentitlement areas of all 24 regions (counted one and one half times - 30% weight); and
- the population of the nonentitlement areas in that region and the population of the nonentitlement areas of all 24 regions (counted one time - 20% weight).

The Tx CDBG will continue to involve the non-entitlement communities and the public in a review of the regional allocation formula through public hearings, meetings of the ORCA board, Task Forces, and input from the State Community Development Review Committee, Regional Councils of Governments, local and state government officials, and other interested parties.

Some regions in the state have a small number of eligible applicants and these regions may receive regional allocations large enough to allow each eligible applicant in that region to apply for an equal share of the regional allocations. The share available to each eligible applicant in the region may amount to an equal share based on the number of eligible applicants and the 2009 and 2010 regional allocations for that region. Or the share available to each eligible applicant in the region may be based on an allocation formula used by the region to allocate the funds available through the 2009 and 2010 regional allocations for the region. Each applicant in one of these regions must meet all state and federal eligibility requirements including but not limited to Tx CDBG applicant threshold requirements, federal requirements for eligible activities, and federal requirements that each activity in an application meet one of the three national program objectives. Applicants in these regions are scored by the Regional Review Committees and the Tx CDBG staff in accordance with the established Community Development Fund selection criteria. The total score received by each applicant in these regions determines if the applicant receives funding from the 2009 regional allocation or 2010 regional allocation. Depending on the State of Texas' CDBG allocations for the 2009 and 2010 program years, there could be a large variance between the

2009 and 2010 regional allocations. If the 2010 regional allocation for one of these regions decreases significantly from the 2009 regional allocation, then the total scores received by applicants in these regions could in fact prevent some of the applicants from receiving funds from the 2010 regional allocation.

A significant increase or decrease to the State's 2009 CDBG allocation may result in corresponding increases or decreases to the 2009 Community Development Fund allocation and correspondingly higher or lower regional allocations.

Non-border colonia projects – available to eligible county applicants for projects in severely distressed unincorporated areas located farther than 150 miles from the Texas-Mexico border and non-entitlement counties, or portions of counties, within 150 miles of the Texas-Mexico border that are not eligible for the Colonia Fund because they are located in a standard metropolitan statistical area that has a population exceeding 1,000,000, as specified the Cranston-Gonzalez National Affordable Housing Act. Non-border colonia areas would be an identifiable unincorporated community that is determined to be colonia-like on the basis of objective criteria, including lack of potable water supply, lack of adequate sewage systems, and lack of decent, safe, and sanitary housing; and was in existence as a colonia before the date of the enactment of the Cranston-Gonzalez National Affordable Housing Act (November 28, 1990).

Applicants must demonstrate they are adequately addressing water supply and water conservation issues (in particular contingency plans to address drought-related water supply issues), as described in the application guidance.

Applications requesting funds for projects other than water and sewer must include a description of how the applicant's water and sewer needs would be met and the source of funding that would be used to meet these needs.

2. Texas Capital Fund

This economic development funding is used for projects that will create or retain permanent employment opportunities, primarily for low to moderate income persons, and for county economic and management development activities. Responsibility for this fund is contracted to the Texas Department of Agriculture through an interagency agreement. The funds may be used to provide financial assistance for eligible activities as cited in 42 U.S.C Section 5305, including the following activities.

a. Infrastructure improvements to assist a for-profit entity or a non-profit entity.
b. acquisition of real property or to acquire, construct, reconstruct, or rehabilitate public facilities to assist a for-profit entity.
c. Infrastructure improvements to assist Texas Main Street Program designated municipalities.
d. Downtown Revitalization Program that is designed to foster and stimulate economic development in downtown areas by providing financial assistance for public improvements to non-entitlement cities. This program encourages the elimination of slum and blighted areas by targeting the renovation and/or construction of sidewalks, lighting, drainage and other infrastructure improvements in downtown areas. Communities eligible for the Texas Main Street Program are not eligible for the Downtown Revitalization Program.
e. County economic and management development activities as approved by ORCA. Not more than five percent (5%) of the Texas Capital Fund allocation may be used for these activities. Section 487.352I of the Texas Government Code requires ORCA to "allocate not more than five percent of the funds allocated to the Department of Agriculture under the Texas Capital Fund to be used for county economic and management development." ORCA will review activities proposed for this assistance and determine if the activities are consistent with the federal law governing the CDBG program.
f. Assistance to private, for-profit entities, when the assistance is appropriate to carry out an economic development project (that shall minimize, to the extent practicable, displacement of existing businesses and jobs in neighborhoods) that:
    1) creates or retains jobs for low- and moderate-income persons;
    2) prevents or eliminates slums or blight;
    3) meets urgent needs;

4) creates or retains businesses owned by community residents;
5) assists businesses that provide goods or services needed by, and affordable to, low- and moderate-income residents; or
6) provides technical assistance to promote any of the activities under subparagraphs (1) through (5).

The Texas Capital Fund program will require repayment for Real Estate and Infrastructure projects, as follows:

a. Real Estate Development (including improvements to the business site) projects require full repayment with no interest accruing; and
b. Infrastructure Program (awards for infrastructure or railroad improvements on private property require full repayment with no interest accruing).

3. Colonia Fund

This fund is available to eligible county applicants for projects in severely distressed unincorporated areas which meet the definition as a "colonia" under this fund. Scoring of all the selection criteria for Colonia Fund applications is completed by Tx CDBG staff. The term "colonia" means any identifiable unincorporated community that is determined to be a colonia on the basis of objective criteria, including lack of potable water supply, lack of adequate sewage systems, and lack of decent, safe, and sanitary housing; and was in existence as a colonia before the date of the enactment of the Cranston-Gonzalez National Affordable Housing Act (November 28, 1990). Except for fund categories where additional restrictions apply, a county can only submit applications on behalf of eligible colonia areas located within 150 miles of the Texas-Mexico border region, except that any county that is part of a standard metropolitan statistical area with a population exceeding 1,000,000 is not eligible under this fund.

3a. Colonia Planning and Construction Fund

The allocation is available on a biennial basis for funding from program years 2009 and 2010 through a 2009 annual competition. Applications received by the 2009 program year application deadline are eligible to receive grant awards from the 2009 and 2010 program year allocations. Funding priority shall be given to Tx CDBG applications from localities that have been funded through the Texas Water Development Board Economically Distressed Areas Program (TWDB EDAP) where the Tx CDBG project will provide assistance to colonia residents that cannot afford the cost of service lines, service connections, and plumbing improvements associated with access to the TWDB EDAP-funded water or sewer system.

An eligible county applicant may submit one (1) application for the following eligible construction activities:

(1) Assessments for Public Improvements – The payment of assessments (including any charge made as a condition of obtaining access) levied against properties owned and occupied by persons of low- and moderate-income to recover the capital cost for a public improvement.

(2) Other Improvements – Other activities eligible under 42 U.S.C Section 5305 designed to meet the needs of colonia residents.

Colonia Planning Component

A portion of the funds will be allocated to two separate biennial competitions for applications that include planning activities targeted to selected colonia areas – (Colonia Area Planning activities), and for applications that include countywide comprehensive planning activities (Colonia Comprehensive Planning activities). Applications received by the 2009 program year application deadline are eligible to receive a grant award from the 2009 and 2010 program year allocations.

In order to qualify for the Colonia Area Planning activities, the county applicant must have a Colonia Comprehensive Plan in place that prioritizes problems and colonias for future action. The targeted colonia must be included in the Colonia Comprehensive Plan.

A Colonia Planning activities application must receive a minimum score for the Project Design selection factor of at least 70 percent of the maximum number of points allowable under this factor to be considered for funding.

(1) Colonia Area Planning Activities

An eligible county may submit an application for eligible planning activities that are targeted to one or more colonia areas. Eligible activities include:

- Payment of the cost of planning community development (including water and sewage facilities) and housing activities;
- costs for the provision of information and technical assistance to residents of the area in which the activities are located and to appropriate nonprofit organizations and public agencies acting on behalf of the residents; and
- costs for preliminary surveys and analyses of market needs, preliminary site engineering and architectural services, site options, applications, mortgage commitments, legal services, and obtaining construction loans.

(2) Colonia Comprehensive Planning Activities

To be eligible for these funds, a county must be located within 150 miles of the Texas-Mexico border. The applicant's countywide comprehensive plan will provide a general assessment of the colonias in the county, but will include enough detail for accurate profiles of the county's colonia areas. The prepared comprehensive plan must include the following information and general planning elements:

- Verification of the number of dwellings, number of lots, number of occupied lots, and the number of persons residing in each county colonia
- Mapping of the locations of each county colonia
- Demographic and economic information on colonia residents
- The physical environment in each colonia including land use and conditions, soil types, and flood prone areas
- An inventory of the existing infrastructure (water, sewer, streets, drainage) in each colonia and the infrastructure needs in each colonia including projected infrastructure costs
- The condition of the existing housing stock in each colonia and projected housing costs
- A ranking system for colonias that will enable counties to prioritize colonia improvements rationally and systematically plan and implement short-range and long-range strategies to address colonia needs
- Goals and Objectives
- Five-year capital improvement program

3b. Colonia Economically Distressed Areas Program (CEDAP) Legislative Set-aside

The allocation is distributed on an as-needed basis. Eligible applicants are counties, and nonentitlement cities located in those counties, that are eligible under the Tx CDBG Colonia Fund, including meeting the geographic requirements, and Texas Water Development Board's Economically Distressed Areas Program (TWDB EDAP). Eligible projects shall be located in unincorporated colonias; in colonias located in eligible nonentitlement cities that annexed the colonia and the application for improvements in the colonia is submitted within five (5) years from the effective date of the annexation; or in colonias located in eligible nonentitlement cities where the city is in the process of annexing the colonia where the improvements are to be made.

Eligible applicants may submit an application that will provide assistance to colonia residents that cannot afford the cost of service lines, service connections, and plumbing improvements associated with being connected to a TWDB EDAP-funded water and sewer system improvement project. An application cannot be submitted until the construction of the TWDB EDAP-funded water or sewer system begins.

Eligible program costs include water distribution lines and sewer collection lines providing connection to water and sewer lines installed through the Texas Water Development Board's Economically Distressed Areas Program (when approved by the Tx CDBG), taps and meters (when approved by the Tx CDBG), yard service lines, service

connections, plumbing improvements, and connection fees, and other eligible approved costs associated with connecting an income-eligible family's housing unit to the TWDB improvements.
An applicant may not have an existing CEDAP contract open in excess of 48 months and still be eligible for a new CEDAP award.

3c. Colonia Self-Help Centers Legislative Set-aside

In accordance with Subchapter Z, Chapter 2306, Government Code, TDHCA has established self-help centers in Cameron County, El Paso County, Hidalgo County, Starr County, and Webb County. If deemed necessary and appropriate, TDHCA may establish self-help centers in other counties (self-help centers have been established in Maverick County and Val Verde County) as long as the site is located in a county that is designated as an economically distressed area under the Texas Water Development Board Economically Distressed Areas Program (EDAP), the county is eligible to receive EDAP funds, and the colonias served by the center are located within 150 miles of the Texas-Mexico border.

The geographic area served by each self-help center is determined by TDHCA. Five (5) colonias located in each self-help center service area are designated to receive concentrated attention from the center. Each self-help center sets a goal to improve the living conditions of the residents located in the colonias designated for concentrated attention within a two-year period set under the contract terms. TDHCA has the authority to make changes to the colonias designated for this concentrated attention.

The TDHCA grant contract for each self-help center must be executed with the county where the self-help center is located. TDHCA will enter into a Texas Community Development Block Grant Program contract with each affected county. Each county enters into a subcontract with a non-profit community action agency, a public housing authority, or a non-profit organization.

A Colonia Residents Advisory Committee was established and not fewer than five persons who are residents of colonias were selected from the candidates submitted by local nonprofit organizations and the commissioners' court of a county where a self-help center is located. One committee member shall be appointed to represent each of the counties in which a self-help center is located. Each committee member must be a resident of a colonia located in the county the member represents but may not be a board member, contractor, or employee of or have any ownership interest in an entity that is awarded a contract through the Texas Community Development Block Grant Program. The Advisory Committee shall advise TDHCA regarding:

(1) the needs of colonia residents;
(2) appropriate and effective programs that are proposed or are operated through the centers; and
(3) activities that may be undertaken through the centers to better serve the needs of colonia residents.

The purpose of each center is to assist low income and very low income individuals and families living in colonias located in the center's designated service area to finance, refinance, construct, improve or maintain a safe, suitable home in the designated service area or in another suitable area. Each self-help center may serve low income and very low income individuals and families by:

(1) providing assistance in obtaining loans or grants to build a home;
(2) teaching construction skills necessary to repair or build a home;
(3) providing model home plans;
(4) operating a program to rent or provide tools for home construction and improvement for the benefit of property owners in colonias who are building or repairing a residence or installing necessary residential infrastructure;
(5) helping to obtain, construct, access, or improve the service and utility infrastructure designed to service residences in a colonia, including potable water, wastewater disposal, drainage, streets and utilities;
(6) surveying or platting residential property that an individual purchased without the benefit of a legal survey, plat, or record;
(7) providing credit and debt counseling related to home purchase and finance;
(8) applying for grants and loans to provide housing and other needed community improvements;

(9) providing other eligible services that the self-help center, with TDHCA approval, determines are necessary to assist colonia residents in improving their physical living conditions, including help in obtaining suitable alternative housing outside of a colonia's area;
(10) providing assistance in obtaining loans or grants to enable an individual or family to acquire fee simple title to property that originally was purchased under a contract for a deed, contract for sale, or other executory contract;
(11) monthly programs to educate individuals and families on their rights and responsibilities as property owners; and

(12) providing access to computers, the internet, and computer training.

A self-help center may not provide grants, financing, or mortgage loan services to purchase, build, rehabilitate, or finance construction or improvements to a home in a colonia if water service and suitable wastewater disposal are not available.

4. Planning And Capacity Building Fund

This fund is available on a biennial basis to assist eligible cities and counties in conducting planning activities that assess local needs, develop strategies to address local needs, build or improve local capacity, or that include other needed planning elements (including telecommunications and broadband needs). All planning projects awarded under this fund must include a section in the final planning document that addresses drought-related water supply contingency plans and water conservation plans.

A significant increase or decrease to the State's 2008 CDBG allocation may result in corresponding increases or decreases to the 2008 Planning and Capacity Building Fund allocations.

5. Disaster Relief / Urgent Need Fund

Disaster Relief assistance is available through this fund as needed for eligible activities in relief of disaster situations where either the Governor has proclaimed a state disaster declaration or the President has issued a federal disaster declaration. Tx CDBG may prioritize throughout the program year the use of Disaster Relief assistance funds based on the type of assistance or activity under consideration and may allocate funding throughout the program year based on assistance categories. Depending on the nature and extent of the damage caused by the natural disaster, priority for the use of Tx CDBG funds is the restoration of basic human needs such as water and sewer facilities, housing, and roads.

Urgent Need assistance is contingent upon the availability of funds for activities that will restore water or sewer infrastructure whose sudden failure has resulted in death, illness, injury, or pose an imminent threat to life or health within the affected applicant's jurisdiction. The infrastructure failure must not be the result of a lack of maintenance and must be unforeseeable. As an initial step, Tx CDBG undertakes an assessment of whether the situation is reasonably considered unforeseeable. An application for Urgent Need assistance will not be accepted by the Tx CDBG until discussions between the potential applicant and representatives of the Tx CDBG, the Texas Commission on Environmental Quality (TCEQ), and the Texas Water Development Board (TWDB) have taken place. Through these discussions, a determination shall be made whether the situation meets Tx CDBG Urgent Need threshold criteria; whether shared financing is possible; whether financing for the necessary improvements is, or is not, available from the TWDB; or that the potential applicant does, or does not, qualify for TWDB assistance. If Tx CDBG funds are still available, a potential applicant that meets these requirements will be invited to submit an application for Urgent Need funds.

To qualify for Disaster Relief funds:

- The situation addressed by the applicant must be both unanticipated and beyond the control of the local government.
- The problem being addressed must be of recent origin. For Disaster Relief assistance, this means that the application for assistance must be submitted no later than 12 months from the date of the Presidential or Governor's declaration.

- Under Disaster Relief, funds will not be provided under FEMA's Hazard Mitigation Grant Program for buyout projects unless ORCA receives satisfactory evidence that the property to be purchased was not constructed or purchased by the current owner after the property site location was officially mapped and included in a designated flood plain area.
- Each applicant for these funds must demonstrate that adequate local funds are not available, i.e., the entity has less than six months of unencumbered general operations funds available in its balance as evidenced by the last available audit required by state statute, or funds from other state or federal sources are not available to completely address the problem.
- Tx CDBG will consider whether funds under an existing Tx CDBG contract are available to be reallocated to address the situation.
- The distribution of these funds will be coordinated with other state agencies.

To qualify for Urgent Need funds:

- The situation addressed by the applicant must not be related to a proclaimed state disaster declaration or a federal disaster declaration.
- The situation addressed by the applicant must be both unanticipated and beyond the control of the local government.
- The problem being addressed must be of recent origin. For Urgent Need assistance, this means that the situation first occurred or was first discovered no more than 30 days prior to the date that the potential applicant provides a written request to the Tx CDBG for Urgent Need assistance. The Urgent Need Fund will not fund projects to address a situation that has been known for more than 30 days or should have been known would occur based on the applicant's existing system facilities.
- Each applicant for these funds must demonstrate that local funds or funds from other state or federal sources are not available to completely address the problem.
- The distribution of these funds will be coordinated with other state agencies.
- The infrastructure failure cannot have resulted from a lack of maintenance.
- Urgent Need funds cannot be used to restore infrastructure that has been cited previously for failure to meet minimum state standards.
- The infrastructure failure cannot have been caused by operator error.
- The infrastructure requested by the applicant cannot include back-up or redundant systems.
- Tx CDBG will consider whether funds under an existing Tx CDBG contract are available to be reallocated to address the situation.
- The Urgent Need Fund will not finance temporary solutions to the problem or circumstance.

Construction on an Urgent Need fund project must begin within ninety (90) days from the start date of the Tx CDBG contract. The Tx CDBG reserves the right to deobligate the funds under an Urgent Need Fund contract if the grantee fails to meet this requirement.

Each applicant for Urgent Need funds must provide matching funds. If the applicant's 2000 Census population is equal to or fewer than 1,500 persons, the applicant must provide matching funds equal to 10 percent of the Tx CDBG funds requested. If the applicant's 2000 Census population is over 1,500 persons, the applicant must provide matching funds equal to 20 percent of the Tx CDBG funds requested. For county applications where the beneficiaries of the water or sewer improvements are located in unincorporated areas, the population category for matching funds is based on the number of project beneficiaries.

6. Tx CDBG STEP Fund

Funds will be available for grants on a competitive award basis to cities and counties to provide grant assistance to cities and communities recognizing the need and willingness to solve water and sewer problems through the Texas Small Towns Environment Program (STEP) self-help techniques. The program will accept applications two times a year and utilize a competitive process to evaluate, score and award these projects.

Cities and counties receiving 2007 and 2008 Community Development Fund/Community Development Supplemental Fund grant awards for applications that did not include water, sewer, or housing activities are not eligible to receive a 2008 STEP Fund grant award. However, the Tx CDBG will give consideration to a city's or county's request to transfer funds (that are not financing basic human needs activities such as water, sewer, or housing activities) under a 2007 or 2008 Community Development Fund/Community Development Supplemental Fund grant award to finance water and sewer activities that will be addressed through self-help.

The Texas STEP approach to solving water and sewer needs recognizes affordability factors related to the construction and operations/maintenance of the necessary water or sewer improvements and then initiates a local focus of control based on the capacity and readiness of the community's residents to solve the problem through self-help. By utilizing the community's own resources (human, material and financial), the necessary water or sewer construction costs, engineering costs, and related administration costs can be reduced significantly from the cost for the installation of the same improvements through conventional construction methods.

Tx CDBG staff will provide guidance, assistance, and support to community leaders and residents willing to use self-help to solve their water and sewer problems.

Eligible Activities

For the Tx CDBG STEP Fund eligible activities are limited to:

- the installation of facilities to provide first-time water or sewer service
- the installation of water or sewer system improvements
- ancillary repairs related to the installation of water and sewer systems or improvements
- the acquisition of real property related to the installation of water and sewer systems or improvements (easements, rights of way, etc.)
- sewer or water taps and water meters
- water or sewer yard service lines (for low and moderate income persons)
- water or sewer house service connections (for low and moderate income persons)
- plumbing improvements associated with providing water or sewer service to a housing unit
- water or sewer connection fees (for low and moderate income persons)
- rental of equipment for installation of water or sewer
- reasonable associated administrative costs
- reasonable associated engineering services costs

Ineligible Activities

- any activity not described in the preceding ELIGIBLE ACTIVITIES section is ineligible under the Tx CDBG STEP Fund unless the activity is approved by the Texas Community Development Block Grant Program
- temporary solutions, such as emergency inter-connects that are not used on an on-going basis for supply or treatment and back-ups not required by the regulations of the Texas Commission on Environmental Quality.

The Tx CDBG will not reimburse for force account work for construction activities on the STEP project.

Funding Cycle

Applications are accepted two times a year for Texas STEP Funding as long as funds are available. Funds will be divided among the two application periods. After all projects are ranked, only those that can be fully funded will be awarded a grant. There will be no marginally funded grant awards.

The Tx CDBG will not accept an application for STEP Fund assistance until Tx CDBG staff and representatives of the potential applicant have evaluated the self-help process and Tx CDBG staff determine that self-help is a feasible method for completion of the water or sewer project, the community is committed to self-help as the means to address the problem, and the community is ready and has the capacity to begin and complete a self-help project. If it is determined that the community meets all of the STEP criteria then an invitation to apply for funds will be extended to the community and the application may be submitted.

Threshold Criteria

The self-help response to water and sewer needs may not be appropriate in every community. In most cases, the decision by a community to utilize self-help to obtain needed water and sewer facilities is based on the community's realization that it cannot afford even a "no frills" water or sewer system based on the initial construction costs and the operations/maintenance costs (including debt service costs) for water or sewer facilities installed through conventional financing and construction methods.

The following are threshold requirements for the Texas STEP framework. Without all these elements the project will not be considered under the Texas STEP fund:

1) one or more sparkplugs (preferably three)—local leaders willing to both lead and sustain the effort;
2) readiness—local perception of the problem and the willingness to take action to solve it;
3) capacity— manpower including some skills required to solve the problem;
4) 40% Savings off of retail price; and
5) must be performed predominately by community volunteer workers.

Upon completion of the project, the award recipient will be required to certify that work was performed predominately by community volunteer workers and a minimum of 40 percent savings off of retail prices was maintained (or the savings percentage specified in the application if greater).

Some of the key points staff will review for these thresholds include but are not limited to the following:

1) one or more sparkplugs (preferably three)—local leaders willing to both lead and sustain the effort; Leaders that have been identified and agreed on by the community:

    - at least two of the three sparkplugs must be residents and not local officials (local officials may serve as sparkplugs)
    - one should be detailed enough to maintain the paperwork needed for the project
    - one should have some knowledge or skills to lead the self-help effort
    - And one can have a combination of these skills or just be the motivator and problem solver of the group These are not absolutes but the best scenario for any project.

2) readiness—local perception of the problem and the willingness to take action to solve it:

    - a strong local perception of the problem
    - community perception that local implementation is the best and maybe only solution
    - community has confidence that they can do it adequately
    - community has no strong competing priority
    - local government is supportive and understands the urgency
    - public and private willingness to pay additional costs if needed (fees, hook-ups for churches, other)
    - effort and attention have already been given to local assessment of the problem
    - enthusiastic, capable support by the community from the county or regional field staff of the regulatory agency

3) capacity— manpower including some skills required to solve the problem:

    - Skilled workers within the community (heavy equipment operation, pipe laying, electrician, plumber, engineer, water operator, construction skills)
    - List of Volunteers by task
    - Possible equipment in community (not a requirement)
    - Letters stating support from local businesses in form of donation of supplies or manpower
    - Letter from service provider supporting project and agreeing to provide service

- CPA Letter documenting that the applying locality has financial and management capacity to compete project

4) 40% Savings off of retail price.

Documentation of the 40% savings off of the retail price:

- Two engineering break-outs of cost, one that shows the retail construction cost and another that shows the self-help cost and demonstrates the 40% savings
- Back-up documents of material quotes, pledges of equipment
- List of Volunteers by task
- Determination of appropriate technology and feasibility of project. (letter from engineer)

Pilot Program:
Renewable Energy Demonstration Pilot Program (Using Deobligated and/or Program Income)

The TxCDBG will develop a renewable energy pilot program funded solely through deobligated funds / program income for demonstration projects that employ renewable energy for at least 20% of the total energy requirements, (excluding the purchase of energy from the electric grid that was produced with renewable energy).

The priority will be for projects that are connected with providing public facilities to meet basic human needs such as water or waste water. It is anticipated that the projects funded would meet the National Objective of benefiting a “target area” where at least 51 percent of the residents are low and moderate income persons, although the project would be allowed to qualify under other National Objective alternatives. The maximum amount of the project would be $500,000 and the minimum would be $50,000.

(One example of a pilot program might be helping rural towns in thirsty West Texas install wind turbines to power desalination plants that would clean up brackish well water and make it drinkable, which at least one university in Texas is developing for a community in Texas.)

The projects will be selected on the following basis (which are assigned points under Section IV(C)(6) of this Action Plan):

(A) Type of Project: Primarily used in conjunction with providing public facilities to meet basic human needs such as water or waste water and/or benefit to low/moderate-income persons.

(B) Innovative Technology / Methods – A project that would demonstrate the application of innovative technology and/or methods.

(C) Duplication in Other Rural Areas – A project that could have widespread application (although it would not need to be applicable in every portion of the state.)

(D) Long-term Cost / Benefit and Texas Renewable Energy Goals – Projects that demonstrate long term cost / benefit analysis including benefits to the human environment and consistency with Texas renewable energy goals.

(E) Partnership / Collaboration – Projects that have a demonstrated partnership and collaboration with other entities focusing on promoting renewable energy including universities, funding agencies, associations, or businesses.

(F) Leveraging – projects with committed funds from other entities including funding agencies, local governments, or businesses – percent of portion of total project receiving TxCDBG funds is leveraged with other funds.

(G) Location in Rural Areas – Projects that benefit cites with populations under 10,000 and/or counties under 100,000.

C. ALLOCATION OF AVAILABLE FUNDS BY FUND CATEGORY

The U.S. Department of Housing and Urban Development has not yet announced the State's 2009 program year CDBG allocation. The State's 2009 allocation could be lower than the 2007 allocation of $73,611,737.

The amount available for Tx CDBG assistance will be the 2009 State CDBG allocation amount plus an estimated $2,000,000 in program income. Funds will be allocated according to the following percentages of the State's 2009 allocation upon the execution of the grant agreement with HUD:

FUND	2009 PERCENT	AMOUNT AVAILABLE
Community Development Fund	61.71 [1]	
Texas Capital Fund (TCF)	14.51	
Program Income		$ 2,000,000 [4]
Colonia Fund		
Colonia Planning and Construction Fund	7.28	
Colonia EDAP Legislative Set-aside	2.72	
Colonia Self-Help Centers Legislative Set-aside	2.50	
Planning And Capacity Building Fund	0.90	
Disaster Relief/Urgent Need Fund		
Disaster Relief	4.10	
Urgent Need	0 [2]	
Tx CDBG STEP Fund	3.14	
Administration - Percentage	2.00	
Administration - $100,000	0.1358	
Technical Assistance	1.00	
Pilot Programs (Deobligated Funds/ Program Income):		
Renewable Energy Demonstration Pilot Program	0 [3]	

Note: The percentages shown above are based on the State's actual 2007 allocation percentages. Changes to the above percentages may occur if the State's 2008 CDBG allocation is higher or lower than the 2007 allocation of $73,611,737.

Deobligated funds/program income notes:

[1] Allocated to each region based on Section II (B).

[2] Deobligated funds and/or program income sufficient to replenish to $1,000,000 is made available for the Urgent Need Fund on the first day of PY 2009. Based on a Tx CDBG Program determination of respective demand for financial assistance under the Urgent Need and Disaster Relief portions of the Disaster Relief/Urgent Need Fund, Urgent Need funds may be used for Disaster Relief projects.

[3] Deobligated funds and/or program income of $500,000 is made available on the first day of PY 2009.

The amounts for these fund categories may be adjusted during PY 2009 as needed.

4 Used based on Section II (C) (a).

Summary of Activities That Utilize 1% Technical Assistance Funding

Technical Assistance Performed Through the Community Development Program

The Texas Community Development Block Grant Program will conduct numerous on-site technical assistance visits funded with the one percent technical assistance (1% TA) set-aside approved by HUD. These visits will be conducted throughout the year when the Tx CDBG staff recognizes that assistance is needed at the local level or when assistance is requested by the grantees.

Tx CDBG Community Development staff, including ORCA field office staff, will visit localities that are preliminarily recommended for funding to verify information provided in the applications, to view the project sites, to distribute Project Implementation Manuals, and to provide technical assistance regarding the initial Tx CDBG project implementation procedures.

Other technical assistance visits will be conducted with 1% TA funds for special cases dealing with investigations, compliance issues, and to help contractor localities comply with all program requirements.

The 1% TA funds are utilized for a portion of staff salaries which allows Tx CDBG staff to provide greater one-on-one technical assistance to the small communities throughout the contract period.

The Texas Department of Agriculture is using 1% technical assistance funds for on-site technical assistance on the Texas Capital Fund program.

The Texas Department of Housing and Community Affairs is using 1% technical assistance funds for on-site technical assistance on the Colonia Self-Help Centers program.

The Tx CDBG is utilizing the 1% technical assistance funds to introduce, facilitate, and provide community access to the Texas Small Towns Environment Program (Texas STEP) which targets water and wastewater needs. Staff visits localities that are interested in utilizing the Texas STEP method of self-help and provides technical assistance on the development of a financial framework, managing a self-help project and building capacity within a community through self-help.

The Tx CDBG may utilize the 1% technical assistance funds to support Tx CDBG activities related to ORCA’s disaster relief efforts. State efforts for response to disasters and the mitigation of the consequences of disasters have required that ORCA dedicate considerable resources for disaster recovery efforts.

In 2009, the Tx CDBG will use a portion of the 1% technical assistance to provide outreach information regarding the CDBG program to local officials of non-entitlement cities and counties. The technical assistance will include information on the application process, program administration, and to improve their capacity to implement a CDBG program.

The 1% technical assistance funds will also be used by each of the 24 State Planning Regions to provide non-project specific technical assistance to cities and counties that are eligible for Tx CDBG funds in each region.

The 1% technical assistance funds may be used to support the operations of the border colonia technical assistance field offices.

The 1% technical assistance funds may be used to support the operations of ORCA’ technical assistance field offices in West Texas, South Texas, and East Texas and other ORCA Community Development-related field office activities.

Deobligated Funds, Unobligated Funds, and Program Income

(a) Deobligated funds, unobligated funds and program income generated by Texas Capital Fund projects shall be retained for expenditure in accordance with the Consolidated Plan. Program income derived from Texas Capital Fund projects will be used by the Tx CDBG for eligible Texas Community Development Block Grant Program activities in accordance with the Consolidated Plan.

Any deobligated funds, unobligated funds, program income, and unused funds from this year's allocation or from previous years' allocations derived from any Texas Community Development Block Grant Program Fund, including program income recovered from Texas Capital Fund local revolving loan funds, and any reallocated funds which HUD has recaptured from Small Cities may be redistributed among the established 2008 program year fund categories, for otherwise eligible projects. The selection of eligible projects to receive such funds is approved by the Executive Director and the ORCA Board on a priority needs basis with eligible disaster relief and urgent need projects as the highest priority, followed by, established priority uses within existing fund categories or programs, any awards necessary to resolve appeals under fund categories requiring publication of contract awards in the Texas Register, TCF projects, special needs projects, projects in colonias, housing activities, and other projects as determined by the Executive Director of ORCA. Other purposes or initiatives may be established as a priority use of such funds within existing fund categories or programs by the ORCA Board.

If a portion of the State's 2009 Community Development Block Grant allocation is rescinded by the federal government, or if the State's 2009 allocation is decreased or increased significantly from the State's 2008 allocation, the Tx CDBG may make corresponding changes within the fund allocation percentages as required.

(b) **Re-distribution of Funds Recaptured from Withdrawn Awards**. Should the applicant fail to substantiate or maintain the claims and statements made in the application upon which the award is based, including failure to maintain compliance with application thresholds in Section III, F.(1) through F.(4), within a period ending 90 days after the date of the Tx CDBG's award letter to the applicant, the award will be immediately withdrawn by the Tx CDBG (excluding the colonia self-help center awards). Should the applicant fail to execute the Tx CDBG's award contract (excluding Texas Capital Fund and colonia self-help center contracts) within 60 days from the date of the letter transmitting the award contract to the applicant, the award will be withdrawn by the Tx CDBG. For an award that is withdrawn from an application, the Tx CDBG follows different procedures for the use of those recaptured funds depending on the fund category where the award is withdrawn.

(1) Funds recaptured under the Community Development Fund from the withdrawal of an award made from the first year of the biennial funding are offered to the next highest ranked applicant from that region that was not recommended to receive an award from the first year regional allocation. Funds recaptured under the Community Development Fund from the withdrawal of an award made from the second year of the biennial funding are offered to the next highest ranked applicant from that region that was not recommended to receive full funding (the applicant recommended to receive marginal funding) from the second year regional allocation. Any funds remaining from the second year regional allocation after full funding is accepted by the second year marginal applicant are offered to the next highest ranked applicant from the region as long as the amount of funds still available exceeds the minimum Community Development Fund grant amount. Any funds remaining from the second year regional allocation that are not accepted by an applicant from the region or that are not offered to an applicant from the region may be used for other Tx CDBG fund categories and, if unallocated to another fund, are then subject to the procedures described in paragraph (a) of this section.

(2) For the Community Development Fund, if there are no remaining unfunded eligible applications in the region from the same biennial application period to receive the withdrawn funding, then the withdrawn funds may be used for other Tx CDBG fund categories and, if unallocated to another fund, are considered as deobligated funds, subject to the procedures described in paragraph (a) of this section.

(3) Funds recaptured under the Planning and Capacity Building Fund from the withdrawal of an award made from the first year of the biennial funding are offered to the next highest ranked applicant from that statewide competition that was not recommended to receive an award from the first year allocation. Funds recaptured under the Planning and Capacity Building Fund from the withdrawal of an award made from the second year of the biennial funding are offered to the next highest ranked applicant from that statewide competition that was not

recommended to receive full funding (the applicant recommended to receive marginal funding) from the second year allocation. Any funds remaining from the second year allocation after full funding is accepted by the second year marginal applicant are offered to the next highest ranked applicant from the statewide competition. Any funds remaining from the second year allocation that are not accepted by an applicant from the statewide competition or that are not offered to an applicant from the statewide competition may be used for other Tx CDBG fund categories and, if unallocated to another fund, are then subject to the procedures described in paragraph (a) of this section.

(4) Funds recaptured under the Colonia Planning and Construction Fund from the withdrawal of an award remain available to potential Colonia Program Fund applicants during that program year to meet the 10 percent colonia set-aside requirement and, if unallocated within the colonia fund, may be used for other Tx CDBG fund categories. Remaining unallocated funds are then subject to the procedures described in paragraph (a) of this section,.

(5) Funds recaptured under the Colonia Economically Distressed Areas Program Legislative Set-Aside from the withdrawal of an award remain available to potential Colonia Economically Distressed Areas program set-aside applicants during that program year. Any funds remaining from the program year allocation that are not used to fund Colonia Economically Distressed Areas Program set-aside applications within twelve months after the Tx CDBG receives the federal letter of credit would remain available to potential Colonia Program Fund applicants during that program year to meet the 10 percent colonia set-aside requirement and, if unallocated within the colonia fund, may be used for other Tx CDBG fund categories. Remaining unallocated funds are then subject to the procedures described in paragraph (a) of this section.

(7) Funds recaptured under the program year allocation for the Disaster Relief/Urgent Need Fund from the withdrawal of an award are subject to the procedures described in paragraph (a) of this section.

(8) Funds recaptured under the Small Towns Environment Program (STEP) Fund from the withdrawal of an award will be made available in the next round of STEP competition following the withdraw date in the same program year. If the withdrawn award had been made in the last of the two competitions in a program year, the funds would go to the next highest scoring applicant in the same STEP competition. If there are no unfunded STEP applicants, then the funds would be available for other Tx CDBG fund categories. Any unallocated STEP funds are subject to the procedures described in paragraph (a) of this section.

(9) Funds recaptured under the Texas Capital Fund from the withdrawal of an award are subject to the procedures described in paragraph (a) of this section.

D. PROGRAM INCOME

Program income is defined as gross income received by a state, a unit of general local government or a subrecipient of a unit of general local government that was generated from the use of CDBG funds. When program income is generated by an activity that is only partially funded with CDBG funds, the income shall be prorated to reflect the percentage of CDBG funds used. Any remaining program income must be used to establish an approved Revolving Loan Fund (RLF) or returned to the State.

The State may use up to the maximum allowable percentage of the amount recaptured and reportable to HUD each year for administrative expenses under the Texas Community Development Block Grant Program. This amount will be matched by the State on a dollar-for-dollar basis.

Program income includes, but is not limited to, the following:

- Payments of principal and interest on loans using CDBG funds
- Proceeds from the sale of loans made with CDBG funds
- Gross income from the use or rental of real or personal property acquired by the unit of general local government or a subrecipient with CDBG funds

- Gross income from the use, sale, or rental of real property and/or real property improvements owned by the unit of general local government or subrecipient that was constructed or improved with CDBG funds
- Gross income from the use of infrastructure improvements constructed or improved with CDBG funds
- Funds collected through special assessments, impact fees or other additional fees from benefiting businesses, if the special assessments or fees are used to recover all or part of the CDBG portion of public improvements
- Proceeds from the disposition of equipment purchased with CDBG funds
- Interest earned on funds held in an RLF account

1. Texas Capital Fund Program Income

For program income generated through Texas Capital Fund projects, communities that elect to participate in the recapture of program income for use at the local level through a designated Revolving Loan Fund (RLF) will be limited to receiving one Texas Capital Fund contract award per program year. If a community elects not to participate in the recapture of program income, the community may apply for as many Texas Capital Fund awards as it has eligible projects. This determination must be made at the time of the original award and cannot be changed with subsequent awards.

A local government, electing to retain program income at the local level, must have a Revolving Loan Fund Plan (RLFP) approved in writing by the Tx CDBG, prior to committing and expending any program income. The RLFP shall be approved and must be used for economic development in accordance with Title I of the United States Housing and Community Development Act of 1974, as amended. The RLFP must be submitted for approval no later than six (6) months from the commencement date of the contract. Program income generated by the award prior to the Tx CDBG approval of an RLFP must be returned to the State.

Funds retained in the local RLF must be committed within three years of the original Tx CDBG contract programmatic close date. Every award from the RLF must be used to fund the same type of activity, for the same business, from which such income is derived. A local Revolving Loan Fund (RLF) may retain a cash balance not greater than 33 percent of its total cash and outstanding loan balance. (If the local government does not comply with the local RLF requirements, all program income retained in the local RLF and any future program income received from the proceeds of the RLF must be returned to the State.

Communities electing to retain program income through an approved RLF are required to monitor and report to the State program income account balances reflecting amounts received and disbursed and the status of outstanding loans or leases. Such report should also include information regarding RLF loans, leases, and commitments made.

If the local government elects not to participate in program income recapture, fails to meet all requirements of this section or requirements identified in Section 6 of its TCF/Tx CDBG contract or an RLFP is not submitted for approval within the first six (6) months from the commencement date of the contract, then all program income must be returned to the state. This section, "Texas Capital Fund Program Income," replaces the Texas Capital Fund Program Income Sections of the Final Statements for program years 1989, 1990, 1991, 1992, 1993, 1994, and 1995 and affects all TCF local revolving loan funds established by contracts awarded in program years 1989, 1990, 1991, 1992, 1993, 1994, and 1995. The following provisions, however, do not apply: 1) "The RLFP must be submitted for approval no later than six (6) months from the commencement date of the contract. Program income generated by the award prior to Tx CDBG approval of an RLFP must be returned to the State." 2) "…every award from the RLF must be used to fund the same type of activity, for the same business, from which such income is derived." 3) "…contract or an RLFP is not submitted for approval within the first six (6) months from the commencement date of the contract, then all program income must be returned to the state."

2. Program Income Generated Through Housing Activities

For program income generated through housing activities funded through the Housing Fund or Tx CDBG fund categories other than the Texas Capital Fund, a local government, electing to retain program income at the local level, must have a Revolving Loan Fund Plan (RLFP) approved in writing by the Tx CDBG, prior to committing and expending any program income. The RLFP shall be approved and must be used for housing activities principally benefiting low to moderate income persons in accordance with Title I of the United States Housing and Community Development Act of 1974, as amended.

The RLFP must be submitted for approval at least sixty (60) days prior to the termination date of the contract award generating the program income. This requirement shall also apply to 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, and 2004 Housing Fund contract awards. Program income generated by the contract award prior to Tx CDBG approval of an RLFP must be returned to the State.

Funds retained in the local RLF must be committed within three years of the original Tx CDBG contract programmatic close date. A local Revolving Loan Fund (RLF) may retain a cash balance not greater than 33 percent of its total cash and outstanding loan balance. If the local government does not comply with the local RLF requirements, all program income retained in the local RLF and any future program income received from the proceeds of the RLF must be returned to the State.

Communities electing to retain program income through an approved RLF are required to monitor and report the amount of program income recaptured to the state with updates concerning the status of outstanding loans or leases on a quarterly basis, including but not limited to payments received and amendments to the original loan or lease agreement, as required by the Tx CDBG.

If the local government elects not to participate in program income recapture or an RLFP is not approved prior to the contract close-out, then all program income must be returned to the Tx CDBG.

III. APPLICATION INFORMATION

A. TYPES AND NUMBER OF APPLICATIONS

The following two types of applications are permitted under the Texas Community Development Block Grant Program:

1. Single Jurisdiction Applications

An eligible applicant may submit one application on its own behalf. When certain situations exist, which will be defined in Tx CDBG application guides, an eligible city may submit an application which benefits persons residing inside of the extraterritorial jurisdiction of the city, and a county may submit a single jurisdiction application on behalf of a city. The submitting city or county is accountable to the Tx CDBG for financial compliance and program performance. If a city or county submits a single jurisdiction application, or its residents are the beneficiaries of a single jurisdiction application, then the city or county cannot participate in another single jurisdiction or multi-jurisdiction application for the same funding category. Local accountability cannot be assigned to another party.

An application from an eligible city or county for a project that would primarily benefit another city or county that was not meeting the Tx CDBG application threshold requirements would be considered ineligible.

2. Multi-Jurisdiction Applications

Multi-Jurisdiction applications will be accepted from two or more eligible units of general local government where the application clearly demonstrates that the proposed activities will mutually benefit the residents of the city(ies)/county(ies) applying for such funds. One of the participating units of general local government must be designated to act as the authorized applicant for the multi-jurisdiction application and the authorized applicant is accountable to the Tx CDBG for financial compliance and program performance; however, all entities participating in the multi-jurisdiction application will be accountable for application threshold compliance. A multi-jurisdiction application generally cannot be submitted solely on the basis of administrative convenience. Any city or county participating in a multi-jurisdiction application may not submit a single jurisdiction application for the same funding category.

Under the Community Development Fund regional competitions, a multi-jurisdiction application that includes participating units of general local government from more than one state planning region will compete in the regional competition where the majority of the application activity beneficiaries are located.

B. APPLICATION CYCLES

Based on the support from cities and counties for previous biennial funding cycles, applications for the Community Development, Colonia Planning and Construction Fund, and Planning and Capacity Building Fund will be accepted on a biennial basis. The biennial funding cycles for these fund categories will improve the timeliness of the expenditure of CDBG funds and therefore prove more cost effective.

The following table summarizes the proposed frequency of application submission for various application types. The application deadline dates are subject to change:

TYPE OF APPLICATION	SUBMISSION CYCLE	APPLICATION DEADLINE
1. Community Development Fund	***Biennial***[1]	***September 2008***

2. Texas Capital Fund		
Real Estate Program	Four times annually	
Infrastructure Program	Four times annually	
Main Street Program	Annually	
Downtown Revitalization Program	Annually	
3. Colonia Fund:		
Planning and Construction Fund	Biennial	***December 2008***
EDAP Set-aside	As-needed	
4. Planning/Capacity Building Fund	***Biennial[1]***	***September 2008***
5. Disaster Relief/Urgent Need Fund:		
Disaster Relief	As needed	
Urgent Need[2]	By notification	
6. Tx CDBG STEP Fund	Two times annually	
Renewable Energy Demonstration Pilot Program	As announced, at least once annually.	

[1] The applications submitted for the program year 2009 Community Development Fund and Planning and Capacity Building Fund as part of the 2009/2010 biennial application process will be scored and ranked. Applications will be funded to the extent that allocated 2009 funds are available. Applications submitted for the Colonia Planning and Construction Fund will be scored and ranked. The final 2009 program year rankings under the Community Development Fund, Planning and Capacity Building Fund, Colonia Planning and Construction Fund will be used to determine the 2009 applicants that are selected for funding from the 2010 program year allocations. Only one application may be submitted for the combined 2009 program year and 2010 program year period under the Community Development Fund, Colonia Construction component, Colonia Planning component, and the Planning and Capacity Building Fund.

C. CONTRACT AWARDS

With the qualified exceptions of the Texas Capital Fund, Colonia Fund, and Disaster Relief/Urgent Need Fund, an applicant is eligible to receive only one grant award per fund. Maximum and minimum contract awards for any single project allowable under the Texas Community Development Block Grant Program are:

	CONTRACT AWARD	
FUND	MAXIMUM	MINIMUM
Community Development Fund		
Single Applicant	$ 800,000[1]	$ 75,000[1]
Multi-Jurisdiction Application	$ 800,000[1]	$ 75,000[1]
Texas Capital Fund		
Real Estate Program	$ 750,000[2]	$ 50,000
Infrastructure Program	$ 750,000[2]	$ 50,000
Main Street Program	$ 150,000[3]	$ 50,000
Downtown Revitalization Program	$ 150,000[3]	$ 50,000
Colonia Fund		

Construction Fund Component	$ 500,000	$ 75,000
EDAP Set-aside	$ 500,000	None
Area Planning Component	$ 100,000[4]	None
Comprehensive Planning Component	$ 200,000[4]	None
Planning / Capacity Building Fund	$ 50,000	None
Disaster Relief / Urgent Need Fund		
Disaster Relief Fund	$ 350,000	$ 50,000
Urgent Need Fund	$ 250,000	$ 25,000
Tx CDBG STEP Fund	$ 350,000	None
Renewable Energy Demonstration Pilot Program	$ 500,000	$ 50,000

[1] Regional Review Committees are authorized to establish a grant maximum for their respective regions between $250,000 and $800,000 for a single jurisdiction application and between $350,000 and $800,000 for a multi-jurisdiction application. The maximum amount for a housing or non-border colonia priority activity application is the same as other Community Development Fund applications in the region.

[2] The maximum contract award amount allows for administrative costs as outlined in the Texas Capital Fund Application Guidelines. The maximum award amount may be increased to an amount greater than $750,000, but may not exceed $1,000,000, if a unit of local government is applying for an award to provide infrastructure or real estate development improvements on behalf of a specific business, and that specific business will create or retain a designated number of jobs at a cost per job level that qualifies for the increased award amount. These increased award amounts are referred to as “jumbo” awards. The number of jobs, the cost per job, and the maximum percentage of Texas Capital Fund financing of the total project costs that will qualify an application for the increased award amount will be defined in Texas Capital Fund Application Guidelines. Texas Capital Funds are not specifically reserved for projects that could receive up to the $1,000,000 increased maximum grant amount, however, projects that receive an amount greater than $750,000 may not exceed $2,000,000 in total awards during the program year.

[3] Texas Capital Funds are specifically reserved for Main Street and the Downtown Revitalization infrastructure activities. The maximum award amount for a Main Street or Downtown Revitalization project is $150,000. Main Street Program projects may not exceed $600,000 in total awards. The Downtown Revitalization Program projects may not exceed $1,200,000 in total awards.

[4] The maximum grant award for the Colonia Comprehensive Planning component is set at $200,000. However, a sliding scale may be used to establish smaller maximum grant amounts based on an eligible county’s total unincorporated area population.

Amounts shown are maximum funding levels or contract "ceilings," since the Program can fund only the actual, allowable, and reasonable costs of the proposed project, not to exceed these amounts. All grants, except Texas Capital Fund, awarded under the Texas Community Development Block Grant Program are subject to negotiation between ORCA and the applicant regarding the final grant amount. Texas Capital Fund applications are subject to negotiation between the Texas Department of Agriculture and the applicant regarding the final award amount.

D. PROJECT LENGTH

All funded projects, except the Texas Capital Fund and Colonia Self-Help Centers Fund projects, must be completed within two years from the start date of the contract agreement. The Texas Capital Fund Main Street and Downtown Revitalization program awards will be made for a twenty-four (24) month term. The other Texas

Capital Fund programs must be completed within three years from the start date of the contract agreement. Contract end dates for Colonia Self-Help Center contracts may be adjusted to account for each program year award. Waivers through a contract amendment of these requirements for any Tx CDBG contract will only be granted when a waiver request is submitted in writing to ORCA or TDA (for Texas Capital Fund contracts) and ORCA or TDA finds that compelling circumstances exist outside the control of the local government that justify the approval of such a waiver.

E. REVIEW PROCESS

1. Regional Review Committees (RRC) - Composition

There is a Regional Community Development Review Committee in each of the 24 state planning regions. Each committee will be comprised of 12 members appointed at the pleasure of the Governor.

The Regional Review Committees may review and comment on applications to other Tx CDBG fund categories.

2. State Review Committee (SRC) - Composition and Role

A State Community Development Review Committee comprised of 12 local elected officials appointed by the Governor for two-year terms is provided for by State statute. Chapter 487.353 of the Texas Government Code prescribes the duties of the State Review Committee.
Chapter 487.353 says the State Review Committee shall:

(1) consult with and advise the executive director of ORCA on the administration and enforcement of the community development block grant program; and

(2) in consultation with the executive director and TxCDBG office staff, review and approve grant and loan applications and associated funding awards of eligible counties and municipalities and advise and assist the executive director regarding the allocation of program funds to those applicants.

The State Review Committee may annually recommend to the executive director a formula for allocating funds to each geographic state planning region established by the governor under Chapter 391, Local Government Code. The formula must give preference to regions according to the regions' needs.

An applicant for a grant, loan, or award under a community development block grant program may appeal a decision of the State Review Committee by filing a complaint with the ORCA board. The board will hold a hearing on a complaint filed with the board and render a decision.

3. Texas Capital Fund Review Process

The Texas Capital Fund applications will be reviewed and evaluated by Texas Department of Agriculture staff in accordance with the established selection criteria. Recommendations will be made to the Commissioner of the Texas Department of Agriculture for final award.

4. Clearinghouse Review

Regional review of projects will be consistent with guidelines adopted by the Governor's Office for review and comment under the Texas Review and Comment System and Chapter 391, Texas Local Government Code.

5. Regional Water Plans

Water activities included in Tx CDBG applications must be consistent with Regional Water Plans promulgated by Senate Bill 1. (Passed during the 75th State of Texas Legislative Session)

F. APPLICANT THRESHOLD AND PAST PERFORMANCE REQUIREMENTS

A city or county must meet the following requirements in order to submit an application or to receive funding through the Texas Community Development Block Grant Program:

1. Demonstrate the ability to manage and administer the proposed project, including meeting all proposed benefits outlined in its application, by using the following criteria:
    a. Provide the roles and responsibilities of local staff designated to administer or work on the proposed project. Also, include a plan of project implementation;
    b. Indicate intention to use a third-party administrator, if applicable;
    c. If local staff, along with a third-party administrator, will jointly administer the proposed project, the respective roles and responsibilities of the designated local staff; or
    d. TxCDBG management may determine that an applicant has or does not have the capacity to manage and administer the proposed project based on an applicant's prior performance on a TxCDBG contract.

2. Demonstrate the financial management capacity to operate and maintain any improvements made in conjunction with the proposed project, by using the following criteria:
    a. Evidence of a financial person on staff, or evidence of intent to contract financial oversight;
    b. Provide evidence or a statement certifying that financial records for the proposed project will be kept at an officially designated city/county site, accessible by the public, and will be adequately managed on a timely basis using generally accepted accounting principles; and/or
    c. TxCDBG management may determine that an applicant has or does not have the financial management capacity to operate and maintain any improvements made in conjunction with the proposed project based on a review of audited financial records, current financial status, or current financial management of a TxCDBG contract.

3. Levy a local property (ad valorem) tax or local sales tax option.

4. Demonstrate satisfactory performance on all previously awarded Texas Community Development Block Grant Program contracts, by using the following criteria:
    a. Exhibited past responses to audit and monitoring issues (over the most recent 48 months before the application due date) within prescribed times as indicated in ORCA's resolution letter(s);
    b. Evidence related to past contracts (over the most recent 48 months before the application due date), through close-out monitoring and reporting, that the activity or service was made available to all intended beneficiaries, that low and moderate income persons were provided access to the service, or there has been adequate resolution of issues regarding beneficiaries served.
    c. No outstanding delinquent response to a written request from Tx CDBG regarding a request for repayment of funds to Tx CDBG; or
    d. Not more than one outstanding delinquent response to a written request from Tx CDBG regarding compliance issues such as a request for closeout documents or any other required information.

5. Resolve any and all outstanding compliance and audit findings on previous and existing Texas Community Development Block Grant Program contracts, by using the following criteria:
    a. Applicant is actively participating in the resolution of any outstanding audit and/or monitoring issues by responding with substantial progress on outstanding issues within the time specified in the ORCA resolution process.

6. Submit any past due audit to ORCA in accordance with Title 10, Chapter 255, Subchapter A, Section 255.1 of the Texas Administrative Code.

    a. A community with one year's delinquent audit may be eligible to submit an application for funding by the established deadline, but the TXCDBG may withhold the award or issuance of a contract until it receives a satisfactory audit.

The Colonia Self-Help Center Fund and the Disaster Relief/Urgent Need Fund are exempt from the threshold.

b. A community with two years of delinquent audits may not apply for additional funding and may not receive a contract award. This applies to all funding categories under the Texas Community Development Block Grant Program.

The Colonia Self-Help Center Fund may be exempt from this threshold, since funds for the self-help center funding is included in the program's state budget appropriation. Failure to meet the threshold will be reported to the Texas Department of Housing and Community Affairs for review and recommendation.

7. **12-Month Applicant Threshold Requirement**

Obligate at least fifty percent (50%) of the total Tx CDBG funds awarded under an open Tx CDBG contract within twelve (12) months from the start date of the contract or prior to the application deadlines and have received all applicable environmental approvals from TxCDBG covering this obligation. This threshold is applicable to Tx CDBG contracts with an original 24-month contract period.

To meet this threshold, 50% of the Tx CDBG funds must be obligated through executed contracts for administrative services, engineering services, acquisition, construction, materials purchase, etc. The Tx CDBG contract activities do not have to be 50% completed, nor do 50% of the Tx CDBG contract funds have to be expended to meet this threshold.

Applicable to previously awarded Tx CDBG contracts under the following Tx CDBG fund categories

Community Development Fund
Community Development Supplemental Fund
Colonia Construction Fund
Colonia Fund Planning
Disaster Relief / Urgent Need Fund
Planning/Capacity Building Fund
Non-Border Colonia Fund

Not Applicable to previously awarded Tx CDBG contracts under the following Tx CDBG fund categories or when an applicant meets the eligibility criteria for the Tx CDBG Disaster Relief Fund

Texas Capital Fund
Colonia Self-Help Centers Fund
Housing Rehabilitation Fund
Housing Infrastructure Fund
Texas STEP
Colonia Economically Distressed Areas
Disaster Recovery Initiative
Young vs. Martinez
Microenterprise Loan Fund
Small Business Loan Fund
Section 108 Loan Guarantee

8. **24-Month Applicant Threshold Requirement**

Submit to ORCA the Certificate of Expenditures (COE) report showing the expended Tx CDBG funds and a final drawdown for any remaining Tx CDBG funds as required by the latest edition of the Texas Community Development Block Grant Program Project Implementation Manual. Any reserved funds on the COE must be approved in writing by Tx CDBG staff.

For purposes of meeting this threshold “expended” means that the construction and services covered by the Tx CDBG funds are complete and a drawdown for the Tx CDBG funds has been submitted prior to the application deadlines.

This threshold will apply to an open Tx CDBG contract with an original 24-month contract period and to Tx CDBG Contractors that have reached the end of the 24-month period prior to the application deadlines as described below:

Applicable to previously awarded Tx CDBG contracts under the following Tx CDBG fund categories

Community Development Fund
Community Development Supplemental Fund
Colonia Construction Fund
Colonia Fund Planning
Disaster Relief / Urgent Need Fund
Planning/Capacity Building Fund
Non-Border Colonia Fund

Not Applicable to previously awarded Tx CDBG contracts under the following Tx CDBG fund categories or when an applicant meets the eligibility criteria for the Tx CDBG Disaster Relief Fund

Texas Capital Fund
Colonia Self-Help Centers Fund
Housing Rehabilitation Fund
Housing Infrastructure Fund
Texas STEP (original 24-month contract, extended to 36-months) awarded prior to PY 2009
Colonia Economically Distressed Areas
Disaster Recovery Initiative
Young vs. Martinez
Microenterprise Loan Fund
Small Business Loan Fund
Section 108 Loan Guarantee

9. 36-Month Applicant Threshold Requirement

Submit to ORCA the Certificate of Expenditures (COE) report showing the expended Tx CDBG funds and a final drawdown for any remaining Tx CDBG funds as required by the latest edition of the Texas Community Development Block Grant Program Project Implementation Manual. Any reserved funds on the COE must be approved in writing by Tx CDBG staff.

For purposes of meeting this threshold "expended" means that the construction and services covered by the Tx CDBG funds are complete and a drawdown for the Tx CDBG funds has been submitted prior to the application deadlines.

This threshold is applicable for a previously awarded Tx CDBG contract with an original 36-month contract period or a STEP 24-month contract, extended to 36 months, and to Tx CDBG Contractors that have reached the end of the 36-month period prior to the application deadlines as described below:

Applicable to previously awarded Tx CDBG contracts under the following Tx CDBG fund categories

Texas STEP (original 36-month contract or original 24-month contract, extended to 36 months)

Not Applicable to previously awarded Tx CDBG contracts under the following Tx CDBG fund categories or when an applicant meets the eligibility criteria for the Tx CDBG Disaster Relief Fund

Texas Capital Fund (see Texas Capital Fund Section)
Colonia Self-Help Centers Fund
Housing Rehabilitation Fund
Colonia Economically Distressed Areas
Disaster Recovery Initiative
Young vs. Martinez
Microenterprise Loan Fund
Small Business Loan Fund

Section 108 Loan Guarantee

10. Tx CDBG funds cannot be expended in any county that is designated as eligible for the Texas Water Development Board Economically Distressed Areas Program unless the county has adopted and is enforcing the Model Subdivision Rules established pursuant to Section 16.343 of the Water Code.
11. Texas Capital Fund contractors must expend all but the reserved audit funds, or other reserved funds that are pre-approved by Texas Department of Agriculture staff, awarded under a Texas Capital Fund contract executed at least 36 months prior to the current program year application deadline and submit to the Texas Department of Agriculture the Certificate of Expenditures required by the most recent edition of the Texas Capital Fund Implementation Manual. Texas Capital Fund contractors intending to submit a new application may not have an existing contract with an award date in excess of 48 months prior to the application deadline date, regardless of extensions granted.

12. Based on a pattern of unsatisfactory (a.) performance on previously awarded Texas Community Development Block Grant Program contracts, (b.) management and administration of Tx CDBG contracts, or (c) financial management capacity based on a review of official financial records and audits, ORCA (or TDA, in the case of the Texas Capital Fund applications) may determine that an applicant is ineligible to apply for Tx CDBG funding even though at the application date it meets the threshold and past performance requirements. ORCA (or TDA, in the case of Texas Capital Fund applications) will consider the most recent 48 months before the application due date. An applicant would still remain eligible for funding under the Disaster Fund.

G. ADMINISTRATION OF TxCDBG CONTRACTS

In order to administer a TxCDBG contract awarded in PY 2009, the administrator (contracted administrators on behalf of the client community or the city or county staff of self-administering award recipients) must attend, and retain the completion certificate, from the most recent cycle of TxCDBG Project Implementation Manual workshops. (This requirement excludes Texas Capital Fund and Colonia Self-Help Center Set-aside contracts.) The TxCDBG contract recipient (city or county) is strongly encouraged to attend the TxCDBG Project Implementation Workshops even if it anticipates using an outside firm to provide it with contract administration services.

IV. APPLICATION SELECTION CRITERIA

A. GENERAL DESCRIPTION

The scoring criteria used in the TxCDBG are described in Section C below.
The points awarded under these criteria are combined to rank the projects in descending order. The projects in each fund are selected based on this descending order and the availability of dollars in each fund.

Texas Capital Fund Real Estate Program, and Infrastructure Program projects are evaluated based upon selection criteria that include, but are not limited to:

(1) Jobs
(2) Business Emphasis
(3) Feasibility
(4) Community Need

Texas Capital Fund Main Street Program and Downtown Revitalization Program projects are evaluated based upon selection criteria that include, but are not limited to:

(1) Community Profile
(2) Project Feasibility
(3) Leverage Ratio
(4) Aiding in the Elimination of Slum an/or Blight Conditions

Except for Main Street Program applications, Texas Capital Fund applications are reviewed and evaluated by Texas Department of Agriculture staff. The Texas Department of Agriculture staff and the Texas Historical Commission review and evaluate the Main Street Program applications. Recommendations for all Texas Capital Fund applications will be made to the Commissioner of the Texas Department of Agriculture for final award.

In accordance with Section 2310.403, Government Code, preference will be given to applications from governing bodies of communities designated as defense economic readjustment zones over other eligible applications for Tx CDBG grants and loans if at least fifty percent (50%) of the grant or loan will be expended for the direct benefit of the readjustment zone and the purpose of the grant or loan is to promote Tx CDBG-eligible economic development in the community or for Tx CDBG-eligible construction, improvement, extension, repair, or maintenance of Tx CDBG-eligible public facilities in the community.

Disaster Relief/Urgent Need applications must meet the threshold factors as discussed under the "Description of Funds" section.

Readiness to Proceed Requirements: In order to determine that the project is ready to proceed, the applicant must provide in its application information that:

a. Identifies the source of matching funds and provides evidence that the applicant has applied for the non-local matching funds, and for local matching funds, evidence that local matching funds would be available.

b. Provides written evidence of a ratified, legally binding agreement, contingent upon award, between the applicant and the utility that will operate the project for the continual operation of the utility system as proposed in the application. For utility projects that require the applicant or service provider to obtain a Certificate of Convenience and Necessity for the target area proposed in the application, provides written evidence that the Texas Commission on Environmental Quality has received the applicant or service provider's application.

c. Where applicable, provide a written commitment from service providers, such as the local water or sewer utility, stating that they will provide the intended services to the project area if the project is constructed.

Any applicant's cash match included in the Tx CDBG contract budget may not be obtained from any person or entity that provides contracted professional or construction-related services (other than utility providers) to the applicant to accomplish the purposes described in the Tx CDBG contract, in accordance with 24 CFR Part 570.

B. RESOURCES FOR DESCRIPTIONS OF SELECTION CRITERIA BY FUND CATEGORY

Starting on the next page, the descriptions for the selection criteria for each fund category provide a basic framework of the selection criteria and selection factors used to distribute the funds under each fund category. Additional information on the selection criteria, selection factors and methods used to determine scores for these fund categories is provided in the application guide for each fund category and in the Texas Administrative Code at 10 T.A.C., Part 6, Chapter 255, Subchapter A.

The information currently available for fund categories in the Texas Administrative Code may not yet reflect changes to selection criteria contained in this 2009 Action Plan for the 2009 program year. Any changes to the selection criteria will be published in the *Texas Register* prior to final adoption.

The Texas Administrative Code can be found on the Texas Secretary of State website at www.sos.state.tx.us. Listed below are the Tx CDBG fund categories that are currently contained in the Texas Administrative Code. Certain Texas Administrative Code sections are retained for previous Fund Categories to govern existing TxCDBG contracts.

Texas Administrative Code, Title 10 T.A.C., Part 6, Chapter 255, Subchapter A

Section	Section Title
255.1	General Provisions
255.2	Community Development Fund
255.3	*Young v. Martinez* Fund
255.4	Planning/Capacity Building Fund
255.5	Disaster Relief Fund
255.6	Urgent Need Fund
255.7	Texas Capital Fund
255.8	Regional Review Committees
255.9	Colonia Fund
255.10	Housing Fund
255.11	Small Towns Environment Program Fund
255.12	Microenterprise Loan Fund
255.13	Small Business Loan Fund
255.14	Section 108 Loan Guarantee Pilot Program
255.15	Community Development Supplemental Fund
255.16	Non-Border Colonia Fund

C. DESCRIPTION OF SELECTION CRITERIA BY FUND CATEGORY

1. COMMUNITY DEVELOPMENT FUND

a. Regional Review Committee (RRC) Objective Scoring

(1) Responsibilities of the RRC:
Each Regional Review Committee is responsible for determining local project priorities and objective factors for all its scoring components based on public input.

(2) Maximum RRC Points Possible:

The RRC shall establish the numerical value of the points assigned to each scoring factor and determine the total combined points for all RRC scoring factors.

(3) RRC Selection of the Scoring Factors:
The RRCs are responsible for convening public hearings to discuss and select the objective scoring factors that will be used to score applications at the regional level. The public must be given an opportunity to comment on the priorities and the scoring criteria considered. The final selection of the scoring factors is the responsibility of each RRC. Each RRC shall develop a Regional Review Committee Guidebook, in the format provided by TxCDBG staff, to notify eligible applicants of the objective scoring factors and other RRC procedures for the region.

(4) Examples of RRC Objective Scoring Factors:
Examples of objective scoring factors are shown in Appendix B to further clarify the term objective.

The RRC must clearly indicate how responses would be scored under each factor and use data sources that are verifiable to the public. After the RRC's adoption of its scoring factors, the score awarded to a particular application under any RRC scoring factor may not be dependent upon an individual RRC member's judgment or discretion. (This does not preclude collective RRC action that the state TxCDBG has approved under any appeals process.)

(5) RRC Priority Set-asides:
Housing and Non-Border Colonia projects - Each Regional Review Committee is highly encouraged to allocate a percentage or amount of its Community Development Fund allocation to housing projects and for RRCs in eligible areas, non-border colonia projects, for that region. Under a set-aside, the highest ranked applications for a housing or non-border colonia activity, regardless of the position in the overall ranking, would be selected to the extent permitted by the housing or non-border colonia set-aside level. If the region allocates a percentage of its funds to housing and/or non-border colonia activities and applications conforming to the maximum and minimum amounts are not received to use the entire set-asides, the remaining funds may be used for other eligible activities. (Under a housing and/or non-border colonia set-aside process, a community would not be able to receive an award for both a housing or non-border colonia activity and an award for another Community Development Fund activity during the biennial process. Housing projects/activities must conform to eligibility requirements in 42 U.S.C Section 5305 and applicable HUD regulations.) The RRC must include any set-aside in its Regional Review Committee Guidebook.

(6) RRC Designation of Staff Support:
The RRC shall select one of the following entities to develop the RRC Guidebook, calculate the RRC scores, and provide other administrative RRC support:

(i) Regional Council of Governments (COG), or
(ii) TxCDBG staff or TxCDBG designee, or
(iii) A combination of COG and TxCDBG staff or TXCDBG designee.

The RRC Guidebook should be adopted by the RRC and approved by TxCDBG staff at least 90 days prior to the application deadline.

The selection of the entity responsible for calculating the RRC scores must be identified in the RRC Guidebook and must define the role of each entity selected. ORCA shall be responsible for reviewing all scores for accuracy and for determining the final ranking of applicants once the RRC and TxCDBG scores are summed. The RRC is responsible for providing to the public the RRC scores, while the TxCDBG is responsible for publishing the final ranking of the applications.

(7) Tie-breaker in a region:
If needed in the ranking of applications within a region based on available funds remaining, a tie between multiple applications shall be broken based on the per capita income ranking, with a lower per capita income level ranking

higher, followed by a second tie-breaker, if needed, of the highest poverty rate ranking higher, followed by a third tie-breaker, if needed, of the highest annual unemployment rate ranking higher.

b. State Scoring (TxCDBG Staff Scoring) - Other Considerations – Maximum Points - 10% of Maximum Possible Score for Each RRC

(1) Past Selection – Maximum Points - 2% of Maximum Possible RRC Score for each region - are awarded to each applicant that did not receive a 2007 or 2008 Community Development Fund or Community Development Supplemental Fund contract award

(2) Past Performance - Maximum Points - 4% of Maximum Possible RRC Score for each region
An applicant can receive points based on the applicant's past performance on previously awarded Tx CDBG contracts. The applicant's score will be primarily based on our assessment of the applicant's performance on the applicant's most recent Tx CDBG contract that has reached the end of the original contract period stipulated in the contract within the past 4 years (for CD/CDS contracts only the 2003/2004 and 2005/2006 cycle awards will be considered). The Tx CDBG will also assess the applicant's performance on existing Tx CDBG contracts that have not reached the end of the original contract period. Applicants that have never received a Tx CDBG grant award will automatically receive these points. The Tx CDBG will assess the applicant's performance on Tx CDBG contracts up to the application deadline date. The applicant's performance after the application deadline date will not be evaluated in this assessment. (Adjustments may be made for contracts that are engaged in appropriately pursuing due diligence such as bonding remedies or litigation to ensure adequate performance under the TxCDBG contract.) The evaluation of an applicant's past performance will include the following:

- The applicant's completion of the previous contract activities within the original contract period.
- The applicant's submission of all contract reporting requirements such as Quarterly Progress Reports.
- The applicant's submission of the required close-out documents within the period prescribed for such submission.
- The applicant's timely response to monitoring findings on previous Tx CDBG contracts especially any instances when the monitoring findings included disallowed costs.
- The applicant's timely response to audit findings on previous Tx CDBG contracts.
- The expenditure timeframes on the applicable TXCDBG contracts.

(3) Benefit To Low/Moderate-Income (LMI) Persons -- Applications that meet the Low and Moderate Income National Objective for each activity (51 percent low/moderate-income benefit for each activity within the application) will receive 2% of the Maximum Possible RRC Score for each region.

(4) Cost per Household (CPH) – The total amount of TxCDBG funds requested by the applicant is divided by the total number of households benefiting from the application activities to determine the TxCDBG cost per household. (Use pro rata allocation for multiple activities.) – Up to 2% of the Maximum RRC Score for each region.

(i) Cost per household is equal to or less than $8,750 – 2%.
(ii) Cost per household is greater than $8,750 but equal to or less than $17,500 – 1.75%.
(iii) Cost per household is greater than $17,500 but equal to or less than $26,500 – 1.25%.
(iv) Cost per household is greater than $26,500 but equal to or less than $35,000 – 0.5%.
(v) Cost per household is greater than $35,000 – 0%.

(When necessary, a weighted average is used to score to applications that include multiple activities with different beneficiaries. Using as a base figure the TxCDBG funds requested minus the TxCDBG funds requested for administration, a percentage of the total TxCDBG construction and engineering dollars for each activity is calculated. Administration dollars requested is applied pro-rata to these amounts. The percentage of the total TxCDBG dollars for each activity is then multiplied by the appropriate score and the sum of the calculations determines the score. Related acquisition costs are applied to the associated activity.)

(Maximum State points - the calculated maximum score is rounded to a whole integer, with Past Selection, Past Performance, and LMI being rounded to a whole integer and CPH points being the difference.)

The RRC may not adopt scoring factors that directly negate or offset these state factors.

c. Other TxCDBG State Responsibilities:

The state TxCDBG staff will review each RRC Guidebook to ensure that the scoring procedures are in compliance with 24 CFR 91.320(k)(1). The regulation states in part that "The statement of method of distribution must provide sufficient information so that units of general local government will be able to understand and comment on it and be able to prepare responsive applications." TxCDBG staff will also review the scoring factors selected to ensure that all scoring factors are objective. Each RRC must obtain written approval from TxCDBG staff before implementing the RRC scoring process. As part of the approval process of the RRC Guidebook, the TxCDBG state staff may provide further details or elaboration on the objective scoring methodology, data sources and other clarifying details without the necessity of a subsequent RRC meeting.

In the event that an RRC fails to approve an objective scoring methodology to the satisfaction of the TxCDBG or if the RRC fails to implement the approved methodology, TxCDBG will be score and rank all applications for the region under the methodology shown in Appendix A of this Action Plan.

The state TxCDBG staff may establish:
(i) a deadline for the RRC to adopt objective factors for all of its scoring components and submit its adopted Guidebook incorporating the objective scoring methodology to the state TxCDBG staff for approval;
(ii) an RRC scoring review appeals process in the Guidebook Instructions and/or the Texas Administrative Code.

The TxCDBG will award 2008 funds for a region after its RRC has adopted an objective scoring for PY 2009. If the RRC does not adopt an objective scoring methodology and submit it to the state TxCDBG for approval by the established deadline above, the state TxCDBG staff will establish for the region the scoring factors in Appendix A for the 2009 applications as described above and will award PY 2008 funds for a region after the region's applications have been re-scored using the State scoring method in IV (C)(1)(a-e) of the 2007 Action Plan.

Only the state TxCDBG staff may disqualify an application submitted in a region. The regional scores for RRC factors and the ranking of applications are not considered final until they have been reviewed and approved by the state TxCDBG staff.

Community Development Fund Marginal Competition

Due to the two-year funding cycle proposed for program years 2009 and 2010, a Community Development Fund pooled marginal competition will not be conducted for program year 2009. A pooled marginal competition may be conducted for program year 2010 using available funds if the State's 2010 allocation is not decreased significantly from the State's estimated 2010 Community Development allocation.

All applicants whose marginal amount available is under $75,000 will automatically be considered under this competition.

When the marginal amount left in a regional allocation is equal to or above the Tx CDBG grant minimum of $75,000, the marginal applicant may scale down the scope of the original project design, and accept the marginal amount, if the reduced project is still feasible. Alternatively, such marginal applicants may choose to compete under the pooled marginal fund competition for the possibility of full project funding.

This fund consists of all regional marginal amounts of less than $75,000, any funds remaining from regional allocations where the number of fully funded eligible applicants does not utilize a region's entire allocation and the contribution of marginal amounts larger than $75,000 from those applicants opting to compete for full funding rather than accept their marginal amount.

The scoring factors used in this competition are the Tx CDBG Community Development Fund factors scored by TXCDBG staff as described in this section with the following adjustments (1) Past Selection – Ten (10) points are awarded to each applicant that did not receive a 2007 or 2008 Community Development Fund or Community Development Supplemental Fund contract award; (2) Past Performance – Up to 25 points; and (3) Community Distress -- 55 Points Maximum (Percentage of persons living in poverty 25 points; Per Capita Income 20 points; Unemployment Rate 10 points)

2a. TEXAS CAPITAL FUND Real Estate, And Infrastructure Programs

The selection criteria for the Real Estate, and Infrastructure Programs of the Texas Capital Fund will focus upon factors which may include, but which are not limited to, the following:

a. Creation or retention of jobs primarily for low to moderate income persons
b. Creation or retention of jobs primarily in areas of above average unemployment and poverty
c. Generation of a greater ratio of private investment to Texas Capital Fund investment
d. Expansion of markets through manufacturing and/or value-added processing
e. Provision of job opportunities at the lowest possible Texas Capital Fund cost per job
f. Benefit to areas of the state most in need by considering job impact to community
g. Assistance for small businesses and Historically Underutilized Businesses
h. Feasibility of project and ability to create and/or retain jobs

Following the assessment based on the selection criteria described above, projects will be reviewed and evaluated upon the following additional factors: history of the applicant community in the program; strength of business or marketing plan; management experience of the business' principals; and justification of minimum Texas Capital Fund contribution necessary to serve the project.

2b. TEXAS CAPITAL FUND Main Street Program

The selection criteria for the Main Street Program of the Texas Capital Fund will focus upon factors which may include, but which are not limited to, the following:

a. Aid in the elimination of slum or blight
b. The applicant must have been designated by the Texas Historical Commission as a Main Street City
c. Feasibility of project
d. Generation of a greater ratio of private investment to Texas Capital Fund investment
e. Texas Historical Commission scoring
f. Community profile

Following the assessment based on the selection criteria described above, projects will be reviewed and evaluated upon the following additional factors: history of the applicant community in the program; strength of marketing plan; and justification of minimum Texas Capital Fund contribution necessary to serve the project.

2c. TEXAS CAPITAL FUND Downtown Revitalization Program

The selection criteria for the Downtown Revitalization Program of the Texas Capital Fund will focus upon factors which may include, but which are not limited to, the following:

a. Aid in the elimination of slum or blight
b. Feasibility of project
c. Generation of a greater ratio of private investment to Texas Capital Fund investment
d. Community profile

Following the assessment based on the selection criteria described above, projects will be reviewed and evaluated upon the following additional factors: strength of marketing plan and justification of minimum Texas Capital Fund contribution necessary to serve the project.

3a. COLONIA CONSTRUCTION COMPONENT 430 Total Points Maximum

a. Community Distress -- 35 Points (Maximum)

• Percentage of persons living in poverty	15 points
• Per Capita Income	10 points
• Percentage of housing units without complete plumbing	5 points
• Unemployment Rate	5 points

b. Benefit To Low/Moderate-Income Persons -- 30 Points (Maximum)

A formula is used to determine the percentage of Tx CDBG funds benefiting low to moderate income persons. The percentage of low to moderate income persons benefiting from each construction, acquisition, and engineering activity is multiplied by the Tx CDBG funds requested for each corresponding construction, acquisition, and engineering activity. Those calculations determine the amount of Tx CDBG benefiting low to moderate income person for each of those activities. Then, the funds benefiting low to moderate income persons for each of those activities are added together and divided by the Tx CDBG funds requested minus the Tx CDBG funds requested for administration to determine the percentage of Tx CDBG funds benefiting low to moderate income persons. Points are then awarded in accordance with the following scale;

100% to 90% of Tx CDBG funds benefiting low to moderate income persons	30
89.99% to 80% of Tx CDBG funds benefiting low to moderate income persons	25
79.99% to 70% of Tx CDBG funds benefiting low to moderate income persons	20
69.99% to 60% of Tx CDBG funds benefiting low to moderate income persons	15
Below 60% of Tx CDBG funds benefiting low to moderate income persons	5

c. Project Priorities -- 195 Points (Maximum)

• Activities (service lines, service connections, and/or plumbing improvements) providing public access to EDAP-funded water or sewer systems	195
• First time public Water service activities (including yard service lines)	145
• First time public Sewer service activities (including yard service lines)	145
• Installation of approved residential on-site wastewater disposal systems for providing first time service	145
• Installation of approved residential on-site wastewater disposal systems for failing systems that cause health issues	140
• Housing Activities	140
• First time Water and/or Sewer service through a privately-owned for-profit utility	135
• Expansion or improvement of existing Water and/or Sewer service	120
• Street Paving and Drainage activities	75
• All Other eligible activities	20

A weighted average is used to assign scores to applications that include activities in the different Project Priority scoring levels. Using as a base figure the Tx CDBG funds requested minus the Tx CDBG funds requested for engineering and administration, a percentage of the total Tx CDBG construction dollars for each activity will be calculated. The percentage of the total Tx CDBG construction dollars for each activity will then be multiplied by the appropriate Project Priorities point level. The sum of these calculations determines the composite Project Priorities score.

d. Project Design -- 140 Points (Maximum)

Each application is scored by a committee composed of Tx CDBG staff using the following information submitted in the application to generate scores on the project design factor:

- For projects other than water and waste water, whether the applicant has already met its basic water and waste water needs.
- Whether the project has provided for future funding necessary to sustain the project.
- The severity of need within the colonia area(s) and how the proposed project resolves the identified need. Additional consideration is given to water system improvements addressing the impacts from the current drought conditions in the state.
- The applicant will use Tx CDBG funds to provide water or sewer connections, yard service lines, and/or plumbing improvements associated with providing access for colonia residents to water or sewer systems funded by the Texas Water Development Board Economically Distressed Areas Program (EDAP).
- The applicant's past efforts (with emphasis on the applicant's most recent efforts) to address water, sewer, and housing needs in colonia areas through applications submitted under the Tx CDBG Community Development Fund or through the use of CDBG entitlement funds.
- The Tx CDBG cost per low/moderate income beneficiary.
- Whether the applicant has provided any local matching funds for administrative, engineering, or construction activities.
- If applicable, the projected water and/or sewer rates after completion of the project based on 3,000 gallons, 5,000 gallons and 10,000 gallons of usage.
- The ability of the applicant to utilize the grant funds in a timely manner.
- Whether the applicant has waived the payment of water or sewer service assessments, capital recovery fees, and any other access fees for the low and moderate income project beneficiaries.
- The availability of grant funds to the applicant for project financing from other sources.
- The applicant's past performance on previously awarded Tx CDBG contracts.
- Proximity of project site to entitlement cities or metropolitan statistical areas.

e. Matching Funds -- 20 Points (Maximum)

Applicant(s) population equal to or less than 1,500 according to the 2000 Census:

• Match equal to or greater than 5% of grant request	20 points
• Match at least 2%, but less than 5% of grant request	10 points
• Match less than 2% of grant request	0 points

Applicant(s) population equal to or less than 3,000 but over 1,500 according to the 2000 Census:

• Match equal to or greater than 10% of grant request	20 points
• Match at least 2.5%, but less than 10% of grant request	10 points
• Match less than 2.5% of grant request	0 points

Applicant(s) population equal to or less than 5,000 but over 3,000 according to the 2000 Census:

• Match equal to or greater than 15% of grant request	20 points
• Match at least 3.5%, but less than 15% of grant request	10 points
• Match less than 3.5% of grant request	0 points

Applicant(s) population over 5,000 according to the 2000 Census:

• Match equal to or greater than 20% of grant request	20 points
• Match at least 5%, but less than 20% of grant request	10 points
• Match less than 5% of grant request	0 points

The population category under which county applications are scored is dependent upon the project type and the beneficiary population served. If the project is for activities in the unincorporated area of the county with a target area of beneficiaries, the population category is based on the unincorporated residents for the entire county. For county applications addressing water and sewer improvements in unincorporated areas, the population category is based on the actual number of beneficiaries to be served by the project activities.

The population category under which multi-jurisdiction applications are scored is based on the combined populations of the applicants according to the 2000 Census.

Applications that include a housing rehabilitation and/or affordable new permanent housing activity for low- and moderate-income persons as a part of a multi-activity application do not have to provide any matching funds for the housing activity. This exception is for housing activities only. The Tx CDBG does not consider sewer or water service lines and connections as housing activities. The Tx CDBG also does not consider on-site wastewater disposal systems as housing activities.

Demolition/clearance and code enforcement, when done in the same target area in conjunction with a housing rehabilitation activity, is counted as part of the housing activity. When demolition/clearance and code enforcement are proposed activities, but are not part of a housing rehabilitation activity, then the demolition/clearance and code enforcement are not considered as housing activities. Any additional activities, other than related housing activities, are scored based on the percentage of match provided for the additional activities.

Past Performance – 10 points (Maximum)

An applicant can receive from ten (10) to zero (0) points based on the applicant’s past performance on previously awarded Tx CDBG contracts. The applicant’s score will be primarily based on our assessment of the applicant’s performance on the applicant’s two (2) most recent Tx CDBG contracts that have reached the end of the original contract period stipulated in the contract. The Tx CDBG will also assess the applicant’s performance on existing Tx CDBG contracts that have not reached the end of the original contract period. Applicants that have never received a Tx CDBG grant award will automatically receive these points. The Tx CDBG will assess the applicant’s performance on Tx CDBG contracts up to the application deadline date. The applicant’s performance after the application deadline date will not be evaluated in this assessment. The evaluation of an applicant’s past performance will include, but is not necessarily limited to the following:

- The applicant’s completion of the previous contract activities within the original contract period.
- The applicant’s submission of all contract reporting requirements such as Quarterly Progress Reports, Certificates of Expenditures, and Project Completion Reports.
- The applicant’s submission of the required close-out documents within the period prescribed for such submission.
- The applicant’s timely response to monitoring findings on previous Tx CDBG contracts especially any instances when the monitoring findings included disallowed costs.
- The applicant’s timely response to audit findings on previous Tx CDBG contracts.

Colonia Construction Component Marginal Applicant

The marginal applicant is the applicant whose score is high enough for partial funding of the applicant's original grant request. If the marginal amount available to this applicant is equal to or more than the Colonia Construction Component grant minimum of $75,000, the marginal applicant may scale down the scope of the original project design, and accept the marginal amount, if the reduced project is still feasible. In the event that the marginal amount remaining in the Colonia Construction Component allocation is less than $75,000, then the remaining funds will be used to either fund a Colonia Planning Fund application or will be reallocated to other established Tx CDBG fund categories.

3b. COLONIA ECONOMICALLY DISTRESSED AREAS PROGRAM SET-ASIDE

The allocation is distributed on an as-needed basis to eligible counties, and nonentitlement cities located in those counties, that are eligible under the Tx CDBG Colonia Fund and Texas Water Development Board’s Economically Distressed Areas Program (TWDB EDAP). Unutilized funds under this program may be redistributed among the established 2008 program year fund categories, for otherwise eligible projects.

Eligible projects shall be located in unincorporated colonias; in colonias located in eligible nonentitlement cities that annexed the colonia and the application for improvements in the colonia is submitted within five (5) years from the effective date of the annexation; or in colonias located in eligible nonentitlement cities where the city is in the process of annexing the colonia where the improvements are to be made.

Eligible applicants may submit an application that will provide assistance to colonia residents that cannot afford the cost of service lines, service connections, and plumbing improvements associated with being connected to a TWDB EDAP-funded water and sewer system improvement project. An application cannot be submitted until the construction of the TWDB EDAP-funded water or sewer system begins.

Eligible program costs include water distribution lines and sewer collection lines providing connection to water and sewer lines installed through the Texas Water Development Board's Economically Distressed Areas Program (when approved by the Tx CDBG), taps and meters (when approved by the Tx CDBG), yard service lines, service connections, plumbing improvements, and connection fees, and other eligible approved costs associated with connecting an income-eligible family's housing unit to the TWDB improvements.

Tx CDBG staff will evaluate the following factors prior to awarding Colonia Economically Distressed Areas Program funds:

- The proposed use of the Tx CDBG funds including the eligibility of the proposed activities and the effective use of the funds to provide water or sewer connections/yard lines to water/sewer systems funded through EDAP.
- The ability of the applicant to utilize the grant funds in a timely manner.
- The availability of grant funds to the applicant for project financing from other sources.
- The applicant's past performance on previously awarded Tx CDBG contracts.
- Cost per beneficiary.
- Proximity of project site to entitlement cities or metropolitan statistical areas.

3c. COLONIA AREA PLANNING COMPONENT — 340 Total Points Maximum

a. Community Distress -- 35 Points (Maximum)

• Percentage of persons living in poverty	15 points
• Per Capita Income	10 points
• Percentage of housing units without complete plumbing	5 points
• Unemployment Rate	5 points

b. Benefit To Low/Moderate-Income Persons -- 30 Points (Maximum)

Points are then awarded based on the low to moderate income percentage for all of the colonia areas where planning activities are located according to the following scale;

100% to 90% of Tx CDBG funds benefiting low to moderate income persons	30
89.99% to 80% of Tx CDBG funds benefiting low to moderate income persons	25
79.99% to 70% of Tx CDBG funds benefiting low to moderate income persons	20
69.99% to 60% of Tx CDBG funds benefiting low to moderate income persons	15
Below 60% of Tx CDBG funds benefiting low to moderate income persons	5

c. Matching Funds -- 20 Points (Maximum)

Applicant(s) population equal to or less than 1,500 according to the 2000 Census:

• Match equal to or greater than 5% of grant request	20 points
• Match at least 2%, but less than 5% of grant request	10 points
• Match less than 2% of grant request	0 points

Applicant(s) population equal to or less than 3,000 but over 1,500 according to the 2000 Census:

• Match equal to or greater than 10% of grant request	20 points
• Match at least 2.5%, but less than 10% of grant request	10 points
• Match less than 2.5% of grant request	0 points

Applicant(s) population equal to or less than 5,000 but over 3,000 according to the 2000 Census:

• Match equal to or greater than 15% of grant request	20 points
• Match at least 3.5%, but less than 15% of grant request	10 points
• Match less than 3.5% of grant request	0 points

Applicant(s) population over 5,000 according to the 2000 Census:

• Match equal to or greater than 20% of grant request	20 points
• Match at least 5%, but less than 20% of grant request	10 points
• Match less than 5% of grant request	0 points

The population category under which county applications are scored is based on the actual number of beneficiaries to be served by the colonia planning activities.

d. Project Design -- 255 Points (Maximum)

Each application is scored by a committee composed of Tx CDBG staff using the following information submitted in the application to generate scores on the project design factor:

- The severity of need within the colonia area(s), how clearly the proposed planning effort will remove barriers to the provision of public facilities to the colonia area(s) and result in the development of an implementable strategy to resolve the identified needs.
- The planning activities proposed in the application.
- Whether each proposed planning activity will be conducted on a colonia-wide basis.
- The extent to which any previous planning efforts for colonia area(s) have been accomplished.
- The Tx CDBG cost per low/moderate-income beneficiary.
- The availability of grant funds to the applicant for project financing from other sources.
- The applicant's past performance on previously awarded Tx CDBG contracts.

A Colonia Planning Component application must receive a minimum score for the Project Design selection factor of at least 70 percent of the maximum number of points allowable under this factor to be considered for funding.

Colonia Area Planning Component Marginal Applicant

The marginal applicant is the applicant whose score is high enough for partial funding of the applicant's original grant request. The marginal applicant may scale down the scope of the original project design, and accept the marginal amount, if the reduced project is still feasible. Any unobligated funds remaining in the Colonia Area Planning allocation will be reallocated to either fund additional Colonia Comprehensive Planning applications, Colonia Construction Component applications, or will be reallocated to other established Tx CDBG fund categories.

3d. COLONIA COMPREHENSIVE PLANNING COMPONENT 200 Total Points Maximum

a. Community Distress -- 25 Points (Maximum)

• Percentage of persons living in poverty	10 points
• Per Capita Income	5 points
• Percentage of housing units without complete plumbing	5 points
• Unemployment Rate	5 points

b. Project Design -- 175 Points (Maximum)

Each application will be scored by a committee composed of Tx CDBG staff using the following information submitted in the application to generate scores on the project design factor:

- The severity of need for the comprehensive colonia planning effort and how effectively the proposed comprehensive planning effort will result in a useful assessment of colonia populations, locations, infrastructure conditions, housing conditions, and the development of short-term and long term strategies to resolve the identified needs.
- The extent to which any previous planning efforts for colonia area(s) have been accomplished.
- Whether the applicant has provided any local matching funds for the planning or preliminary engineering activities.
- The applicant's past performance on previously awarded Tx CDBG contracts.
- An applicant that has previously received a TxCDBG comprehensive planning award would receive lower priority for funding.

A Colonia Planning Component application must receive a minimum score for the Project Design selection factor of at least 70 percent of the maximum number of points allowable under this factor to be considered for funding.

Colonia Comprehensive Planning Component Marginal Applicant

The marginal applicant is the applicant whose score is high enough for partial funding of the applicant's original grant request. The marginal applicant may scale down the scope of the original project design, and accept the marginal amount, if the reduced project is still feasible. Any unobligated funds remaining in the Colonia Comprehensive Planning allocation will be reallocated to either fund additional Colonia Area Planning Fund applications, Colonia Construction Component applications, or will be reallocated to other established Tx CDBG fund categories.

4. PLANNING AND CAPACITY BUILDING FUND 430 Total Points Maximum

a. Community Distress -- 55 Points (Maximum)

• Percentage of persons living in poverty	25 points
• Per Capita Income	20 points
• Unemployment rate	10 points

b. Benefit to Low/Moderate Income Persons - 0 Points

Applicants are required to meet the 51% low/moderate income benefit as a threshold requirement, but no score is awarded on this factor.

c. Project Design -- 375 Points (Maximum)

(1) Program Priority 50 points

Applicant chooses its own priorities here with 10 points awarded per priority as provided below.

Base studies (base mapping, housing, land use, population components) are recommended as one selected priority for applicants lacking updated studies unless they have been previously funded by TXCDBG or have been completed using other resources.

An applicant requesting TxCDBG funds for fewer than five priorities may receive point credit under this factor for planning studies completed within the last 10 years that do not need to be updated. An applicant requesting TxCDBG funds for a planning study priority that was completed within the past 10 years using TxCDBG funds would not receive scoring credit under this factor.

Applicants should not request funds to complete a water or sewer study if funds have been awarded within the last two years for these activities or funds are being requested under other TxCDBG fund categories.

(2) Base Match 0 points

- Five percent match required from applicants with population equal to or less than 1,500.
- Ten percent match required from applicants with population over 1,500 but equal to or less than 3,000.
- Fifteen percent match required from applicants with population over 3,000 but equal to or less than 5,000.
- Twenty percent match required from applicants with population over 5,000.

The population will be based on available information in the latest national decennial census.

(3) Areawide Proposals 50 points

Applicants with jurisdiction-wide proposals because the entire jurisdiction is at least 51 percent low/moderate-income qualify for these points. County applicants with identifiable, unincorporated communities may also qualify for these points provided that incorporation activities are underway. Proof of efforts to incorporate is required. County applicants with identifiable water supply corporations may apply to study water needs only and receive these points.

(4) Planning Strategy and Products 275 points

- New applicants receive up to 50 points while previous recipients of planning funds receive either up to 30 or 20 points depending on the level of implementation of previously funded activities. Recipients of Tx CDBG planning funds prior to PY 2000 will be considered new applicants for this scoring factor

- Up to 225 points are awarded for the applicant’s Proposed Planning Effort based on an evaluation of the following:
  - the extent to which any previous planning efforts have been implemented or accomplished;
  - how clearly the proposed planning effort will resolve community development needs addressed in the application;
  - whether the proposed activities will result in the development of a viable and implementable strategy and be an efficient use of grant funds; and
  - demonstration of local commitment.

5. Tx CDBG STEP FUND 120 Total Points Maximum

The following is the selection criteria to be used by Tx CDBG staff for the scoring of assessments and applications under the Texas STEP Fund. The maximum score of 120 points is divided among five scoring factors:

a. Project Impact – 60 Points (Maximum)

Activity	Score
• First time service	60-40
• To address drought	60-40
• To address a severe impact to a water system (imminent loss of well, transmission line, supply impact)	60-40
• TCEQ relevant documentation or Texas Department of Health Imminent Threat to Health	60-40
• Problems due to severe sewer issues that can be addressed through the STEP process (documented)	60-40
• Problems due to severe pressure problems (documented)	50-40
• Line replacement (water or sewer) other than for above	40-30
• All other proposed water and sewer projects that are not reflected above	30-20

A weighted average will be used to assign scores to applications that include activities in the different Project Impact scoring levels. Using as a base figure the Tx CDBG funds requested minus the Tx CDBG funds requested for engineering and administration, a percentage of the total Tx CDBG construction dollars for each activity will be calculated. The percentage of the total Tx CDBG construction dollars for each activity will then be multiplied by the appropriate Project Impact point level. The sum of these calculations will determine the composite Project Impact score.

Factors that are evaluated by the Tx CDBG staff in the assignment of scores within the predetermined scoring ranges for activities include, but are not limited to, the following:

1. how the proposed project will resolve the identified need and the severity of the need within the applying jurisdiction; and
2. projects designed to bring existing services up to at least the state minimum standards as set by the applicable regulatory agency are generally given additional consideration.

b. STEP Characteristics, Merits of the Project, and Local Effort - 30 points (Maximum)

The Tx CDBG staff will assess the proposal for the following STEP characteristics not scored in other factors:

1. degree work will be performed by community volunteer workers, including information provided on the volunteer work to total work;
2. local leaders (sparkplugs) willing to both lead and sustain the effort;
3. readiness to proceed – the local perception of the problem and the willingness to take action to solve it;
4. capacity – the manpower required for the proposal including skills required to solve the problem;
5. merits of the projects, including the severity of the need, whether the applicant sought funding from other sources, cost in Tx CDBG dollars requested per beneficiary, etc.; and
6. local efforts being made by applicants in utilizing local resources for community development.

c. Past Participation and Performance – 15 Points (Maximum)

An applicant would receive ten (10) points if they do not have a current Texas STEP grant.

An applicant can receive from five (5) to zero (0) points based on the applicant's past performance on previously awarded Tx CDBG contracts. The applicant's score will be primarily based on our assessment of the applicant's performance on the applicant's two (2) most recent Tx CDBG contracts that have reached the end of the original contract period stipulated in the contract. The Tx CDBG will also assess the applicant's performance on existing Tx CDBG contracts that have not reached the end of the original contract period. Applicants that have never received a Tx CDBG grant award will automatically receive these points. The Tx CDBG will assess the applicant's performance on Tx CDBG contracts up to the application deadline date. The applicant's performance after the application deadline date will not be evaluated in this assessment. The evaluation of an applicant's past performance will include, but is not necessarily limited to the following:

- The applicant's completion of the previous contract activities within the original contract period.
- The applicant's submission of all contract reporting requirements such as Quarterly Progress Reports, Certificates of Expenditures, and Project Completion Reports.
- The applicant's submission of the required close-out documents within the period prescribed for such submission.
- The applicant's timely response to monitoring findings on previous Tx CDBG contracts especially any instances when the monitoring findings included disallowed costs.
- The applicant's timely response to audit findings on previous Tx CDBG contracts.

d. Percentage of Savings off of the retail price – 10 Points (Maximum)

For STEP, the percentage of savings off of the retail price is considered a form of community match for the project. In STEP, a threshold requirement is a minimum of 40 percent savings off the retail price for construction activities.

For Communities that are equal to or below 1,500 in Population

55% or more Savings	10 points
50% - 54.99% Savings	9 points
45% - 49.99% Savings	7 points
41% - 44.99% Savings	5 points

For Communities that are above 1,500 but equal to or below 3,000 in Population

55% or more Savings	10 points
50% - 54.99% Savings	8 points
45% - 49.99% Savings	6 points
41% - 44.99% Savings	3 points

For Communities that are above 3,000 but equal to or below 5,000 in Population

55% or more Savings	10 points
50% - 54.99% Savings	7 points
45% - 49.99% Savings	5 points
41% - 44.99% Savings	2 points

For Communities that are above 5,000 but equal to or below 10,000 in Population

55% or more Savings	10 points
50% - 54.99% Savings	6 points
45% - 49.99% Savings	3 points
41% - 44.99% Savings	1 points

For Communities that are 10,000 or above in Population

55% or more Savings	10 points
50% - 54.99% Savings	5 points

45% - 49.99% Savings	2 points
41% - 44.99% Savings	0 points

The population category under which county applications are scored is dependent upon the project type and the beneficiary population served. If the project is for beneficiaries for the entire county, the total population of the county is used. If the project is for activities in the unincorporated area of the county with a target area of beneficiaries, the population category is based on the unincorporated residents for the entire county. For county applications addressing water and sewer improvements in unincorporated areas, the population category is based on the actual number of beneficiaries to be served by the project activities.

The population category under which multi-jurisdiction applications are scored is based on the combined populations of the applicants according to the 2000 Census.

e. Benefit To Low/Moderate-Income Persons – 5 Points (Maximum)

Applicants are required to meet the 51 percent low/moderate-income benefit for each activity as a threshold requirement. Any project where at least 60 percent of the Tx CDBG funds benefit low/moderate-income persons will receive 5 points.

A project must score at least 75 points overall and 15 points under factor 12(b) to be considered for funding.

6. RENEWABLE ENERGY DEMONSTRATION PILOT PROGRAM 70 Total Points Maximum

(A) Type of Project: Primarily used in conjunction with providing public facilities to meet basic human needs such as water or waste water and/or benefit to low/moderate-income persons – up to 15 points.

(B) Innovative Technology / Methods – A project that would demonstrate the application of innovative technology and/or methods – up to 10 points.

(C) Duplication in Other Rural Areas – A project that could have widespread application (although it would not need to be applicable in every portion of the state.) – up to 10 points

(D) Long-term Cost / Benefit and Texas Renewable Energy Goals – Projects that demonstrate long term cost / benefit analysis including benefits to the human environment and consistency with Texas renewable energy goals – up to 10 points

(E) Partnership / Collaboration – Projects that have a demonstrated partnership and collaboration with other entities focusing on promoting renewable energy including universities, funding agencies, associations, or businesses – up to 10 points.

(F) Leveraging – projects with committed funds from other entities including funding agencies, local governments, or businesses.

Applicant(s) population equal to or less than 2,500 according to the latest decennial Census:

• Match equal to or greater than 15% of grant request	10 points
• Match at least 8% but less than 15% of grant request	5 points
• Match at least 3%, but less than 8% of grant request	3 points
• Match at least 2%, but less than 3% of grant request	1 point
• Match less than 2% of grant request	0 points

Applicant(s) population equal to or less than 5,000 but over 2,500 according to the latest decennial Census:

Match equal to or greater than 25% of grant request	10 points
Match at least 13% but less than 25% of grant request	5 points
Match at least 5%, but less than 13% of grant request	3 points
Match at least 3%, but less than 5% of grant request	1 point
Match less than 3% of grant request	0 points

Applicant(s) population equal to or less than 10,000 but over 5,000 according to the latest decennial Census:

Match equal to or greater than 35% of grant request	10 points
Match at least 18% but less than 35% of grant request	5 points
Match at least 7%, but less than 18% of grant request	3 points
Match at least 4%, but less than 7% of grant request	1 point
Match less than 4% of grant request	0 points

Applicant(s) population over 10,000 according to the latest decennial Census:

Match equal to or greater than 50% of grant request	10 points
Match at least 25% but less than 50% of grant request	5 points
Match at least 10%, but less than 25% of grant request	3 points
Match at least 5%, but less than 10% of grant request	1 point
Match less than 5% of grant request	0 points

The population category under which county applications are scored is dependent upon the project type and the beneficiary population served. If the project is for beneficiaries for the entire county, the total population of the county is used. If the project is for activities in the unincorporated area of the county with a target area of beneficiaries, the population category is based on the unincorporated residents for the entire county.

(G) Location in Rural Areas – Projects that benefit cites with populations under 10,000 and/or counties under 100,000 – 5 points.

V. PERFORMANCE MEASURES - GOALS, OBJECTIVES, OUTCOMES, STRATEGIES, AND OUTPUTS

Tx CDBG Strategic Plan Performance Measures:

The Tx CDBG currently has a performance measurement system is place that is part of its strategic plan and the Texas legislative budgeting process. The Tx CDBG has already implemented a performance measurement system that supports the HUD goals as stated in *CPD Notice – 03-09*, issued September 3, 2003, which "strongly encouraged each CPD formula grantee to develop and use a state or local performance measurement system." In this notice, HUD asked the State CDBG programs, along with all other CDBG grantees, that currently have and use a state or local performance measurement system to "(1) describe, in their next Consolidated Plan or Annual Action Plan, the method they use to measure the outputs and outcomes of their CPD formula grant programs."

The Tx CDBG has the following Performance Measures system in place for administering and evaluating the success of the CDBG non-entitlement program.

GOALS, OBJECTIVES AND OUTCOMES – For FY 2008-2009

Goal 1: Support Community and Economic Development Projects
Objective 1: Fund Facility, Economic Development, Housing, and Planning Projects
Outcome 1: Percent of the Small Communities' Population Benefiting from Projects
Outcome 2: Percent of Requested Project Funds Awarded to Projects Using Annual HUD Allocation

STRATEGIES AND EFFICIENCY, EXPLANATORY AND OUTPUT MEASURES – For 2007-2008

Goal 1: Support Community and Economic Development Projects
Objective 1: Fund Facility, Economic Development, Housing and Planning Projects
Strategy 1: Provide Grants for Community and Economic Development Projects
Efficiency 1: Average Agency Administrative Cost per Contract Administered
Output 1: Number of New Contracts Awarded
Output 2: Number of Projected Beneficiaries from New Contracts Awarded
Output 3: Number of Jobs Created/Retained through Contracts Awarded Annually
Output 4: Number of Projected Beneficiaries from Self-Help Center Contracts Funded
Output 5: Number of Programmatic Monitoring Visits Conducted
Output 6: Number of Single Audit reviews Conducted Annually

HUD CDBG Performance Outcome Measurement System:

The Tx CDBG has begun to implement the HUD CDBG Performance Outcome Measurement System, which is a nationwide reporting system based on standardized Objective categories, Outcome categories, and specific Output Indicators.

The outcome performance measurement system has three objectives: (1) Creating Suitable Living Environments, (2) Providing Decent Affordable Housing, and (3) Creating Economic Opportunities. There are also three outcomes under each objective: (1) Availability/Accessibility, (2) Affordability, and (3) Sustainability. Thus, the three objectives, each having three possible outcomes, produce nine possible outcome/objective combinations within which to categorize CDBG grant activities. Specific Output Indicators, many of which Tx CDBG has used in the HUD Integrated Disbursement and Information System reporting system, will be used to provide the quantifiable information used to actually measure the outcome/objective combinations for the funded CDBG projects (such as the number of persons who have new access to water facilities).

VI. OTHER 2009 CDBG PROGRAM GUIDELINES

A. COMMUNITY NEEDS ASSESSMENT

Each applicant for Tx CDBG funds must prepare an assessment of the applicant's housing and community development needs. The needs assessment submitted by an applicant in an application for the Community Development Fund must also include information concerning the applicant's past and future efforts to provide affordable housing opportunities in the applicant's jurisdiction and the applicant's past efforts to provide infrastructure improvements through the issuance of general obligation or revenue bonds.

B. LEVERAGING RESOURCES

Texas Capital Fund

The following matching funds requirements apply under the Real Estate, Infrastructure, Main Street and Downtown Revitalization Program:

a. The leverage ratio between all funding sources to the Texas Capital Fund (TCF) request may not be less than 1:1 for awards of $750,000 or less (except for the Main Street and Downtown Revitalization programs which both require 0.1:1, or more match), and 4:1 for awards of $750,100 to $1,000,000.

b. All businesses are required to make financial contributions to the proposed project. A cash injection of a minimum of 2.5% of the total project cost is required. Total equity participation must be no less than 10% of the total project cost. This equity participation may be in the form of cash and/or net equity value in fixed assets utilized within the proposed project. A minimum of a 33% equity injection (of the total projects costs) in the form of cash and/or net equity value in fixed assets is required, if the business has been operating for less than three years and is accessing the Real Estate program.

Over the past five program years the ratio of matching funds to Texas Capital Fund awards is approximately 3.75:1. If this ratio continues for the 2008 program year then the estimated amount of leveraged funds for the 2009 program year is approximately $45 million.

C. MINORITY HIRING/PARTICIPATION

The Tx CDBG encourages minority employment and participation among all applicants under the Community Development Block Grant Program. All applicants to the Community Development Block Grant Program shall be required to submit information documenting the level of minority participation as part of the application for funding.

D. CITIZEN PARTICIPATION

A grant to a locality under the Texas Community Development Block Grant Program may be awarded only if the locality certifies that it is following a detailed citizen participation plan that provides for and encourages citizen participation at all stages of the community development program. Tx CDBG applicants and funded localities are required to carry out citizen participation in accordance with the Citizen Participation Plan requirements described in Tx CDBG application guides.

APPENDIX A

PY 2009-2010 Community Development Fund Scoring for a region if the Regional Review Committee fails to adopt an Objective Methodology

1. COMMUNITY DEVELOPMENT FUND

a. Regional Review Committee (RRC) Project Priorities -- 100 points (Minimum)

The RRC's Project Priorities taken from the TxCDBG-approved RRC Scoring Guidelines for the region for the 2007-2008 CD/CDS cycle.
(Adjusted if necessary for an objective methodology as described in the PY 2009 TxCDBG Action Plan.)

b. Community Distress -- 55 Points (Maximum)

• Percentage of persons living in poverty	25 points
• Per Capita Income	20 points
• Unemployment Rate	10 points

Compare each applicant's per capita income level to all other applicants in the region based on the established TxCDBG method.

c. Benefit To Low/Moderate-Income Persons -- 20 Points (Maximum)

Applications that meet the Low and Moderate Income National Objective for each activity (51 percent low/moderate-income benefit for each activity within the application) will receive 20 points.

d. Project Impact -- 175 Points (Maximum)

Information submitted in the application or presented to the Regional Review Committees is used by a committee composed of Tx CDBG staff to generate scores on the Project Impact factor.

Each application is scored by a committee composed of Tx CDBG staff. Each committee member separately evaluates an application and assigns a score within a predetermined scoring range based on the application activities. The separate scores are then totaled and the application is assigned the average score. The scoring ranges used for Project Impact scoring are:

ACTIVITIES	SCORING RANGE
• Water, Sewer, and Housing	175 - 145
• Eligible Public Facilities Located In A Defense Economic Readjustment Zone	175 - 145
• Street Paving, Drainage, Flood Control and Accessibility Activities for Persons With Disabilities	160 - 130
• Fire Protection, Health Clinics, and Facilities Providing Shelter For Persons With Special Needs (Hospitals, Nursing Homes, Convalescent Homes)	145 - 125
• Community/Senior/Social Services Centers	135 - 115
• Demolition/Clearance, Code Enforcement	135 - 115
• Gas/Electrical Facilities and Solid Waste Disposal	130 - 110
• Access to Basic Telecommunications	125 - 105
• Jails, Detention Facilities	125 - 105
• All Other Eligible Activities	115 - 85

Multi-activity projects which include activities in different scoring ranges receive a combination score within the possible range. As an example, a project including street paving and demolition/clearance activities is scored within a range of 160-115. If the project included a water activity also, the possible range would be 175-115.

Other factors that are evaluated by the Tx CDBG staff in the assignment of scores within the predetermined scoring ranges for activities include, but are not limited to, the following:

- Each application is scored based on how the proposed project will resolve the identified need and the severity of the need within the applying jurisdiction.
- Projects addressing basic human needs such as water, sewer, and housing generally are scored higher than projects addressing other eligible activities.
- Projects providing a first-time public facility or service generally receive a higher score than projects providing an expansion or replacement of existing public facilities or services.
- Public water and sewer projects providing a first-time public facility or service generally receive a higher score than other eligible first-time public facility or service projects.
- Projects designed to bring existing services up to at least the state minimum standards as set by the applicable regulatory agency are generally also given additional consideration.
- For water and sewer projects addressing state regulatory compliance issues, the extent to which the issue was unforeseen.
- Projects designed to address drought-related water supply problems are generally also given additional consideration.
- Water and sewer projects providing first-time water or sewer service through a privately-owned for-profit utility or an expansion/improvement of the existing water or sewer service provided through a privately-owned for-profit utility may, on a case-by-case basis, receive less consideration than the consideration given to projects providing these services through a public nonprofit organization.
- Projects designed to conserve water usage may be given additional consideration.
- Water and sewer projects from applicants that demonstrate a long term commitment to reinvestment in the system and sound management of the system may be given additional consideration (including those that have remained in compliance with health and TCEQ system requirements).
- Consideration will be given to those water and sewer systems that have agreed to undertake improvements to their systems at TCEQ's recommendation but are not under an enforcement order because of this agreement.
- Projects that consider ORCA's Community Viability Index in establishing the issues to be addressed.
- Projects that use renewable energy technology for not less than 10% of the total energy requirements, (excluding the purchase of energy from the electric grid that was produced with renewable energy).

<u>e. Matching Funds -- 60 Points (Maximum)</u>

Applicant(s) population equal to or less than 1,500 according to the 2000 Census:

• Match equal to or greater than 5% of grant request	60 points
• Match at least 4% but less than 5% of grant request	40 points
• Match at least 3%, but less than 4% of grant request	20 points
• Match at least 2%, but less than 3% of grant request	10 points
• Match less than 2% of grant request	0 points

Applicant(s) population equal to or less than 3,000 but over 1,500 according to the 2000 Census:

• Match equal to or greater than 10% of grant request	60 points
• Match at least 7.5% but less than 10% of grant request	40 points
• Match at least 5%, but less than 7.5% of grant request	20 points
• Match at least 2.5%, but less than 5% of grant request	10 points

Match less than 2.5% of grant request	0 points

Applicant(s) population equal to or less than 5,000 but over 3,000 according to the 2000 Census:

Match equal to or greater than 15% of grant request	60 points
Match at least 11.5% but less than 15% of grant request	40 points
Match at least 7.5%, but less than 11.5% of grant request	20 points
Match at least 3.5%, but less than 7.5% of grant request	10 points
Match less than 3.5% of grant request	0 points

Applicant(s) population over 5,000 according to the 2000 Census:

Match equal to or greater than 20% of grant request	60 points
Match at least 15% but less than 20% of grant request	40 points
Match at least 10%, but less than 15% of grant request	20 points
Match at least 5%, but less than 10% of grant request	10 points
Match less than 5% of grant request	0 points

Tx CDBG funds cannot be used to install street/road improvements in areas that are not currently receiving water or sewer service from a public or private service provider unless the applicant provides matching funds equal to at least fifty percent (50%) of the total construction cost budgeted for the street/road improvements. This requirement will not apply when the applicant provides assurance that the street/road improvements proposed in the application will not be impacted by the possible installation of water or sewer lines in the future because sufficient easements and rights-of-way are available for the installation of such water or sewer lines.

The population category under which county applications are scored is dependent upon the project type and the beneficiary population served. If the project is for beneficiaries for the entire county, the total population of the county is used. If the project is for activities in the unincorporated area of the county with a target area of beneficiaries, the population category is based on the unincorporated residents for the entire county. For county applications addressing water and sewer improvements in unincorporated areas, the population category is based on the actual number of beneficiaries to be served by the project activities.

The population category under which multi-jurisdiction applications are scored is based on the combined populations of the applicants according to the 2000 Census.

Applications that include a housing rehabilitation and/or affordable new permanent housing activity for low- and moderate-income persons as a part of a multi-activity application do not have to provide any matching funds for the housing activity. This exception is for housing activities only. The Tx CDBG does not consider sewer or water service lines and connections as housing activities.

Demolition/clearance and code enforcement, when done in the same target area in conjunction with a housing rehabilitation activity, is counted as part of the housing activity. When demolition/clearance and code enforcement are proposed activities, but are not part of a housing rehabilitation activity, then the demolition/clearance and code enforcement are not considered as housing activities and are counted towards the ratio of local match to Tx CDBG funds requested. Any additional activities, other than related housing activities, are scored based on the percentage of match provided for the additional activities.

f. Other Considerations -- 40 Points (Maximum)

(1) Past Selection – 10 points are awarded to each applicant that did not receive a 2007 or 2008 Community Development Fund or Community Development Supplemental Fund contract award.

(2) Past Performance – 20 Points Maximum
An applicant can receive from thirty (30) to zero (0) points based on the applicant's past performance on previously awarded Tx CDBG contracts. The applicant's score will be primarily based on our assessment of the applicant's performance on the applicant's most recent Tx CDBG contract that has reached the end of the original

contract period stipulated in the contract within the past 4 years. The Tx CDBG will also assess the applicant's performance on existing Tx CDBG contracts that have not reached the end of the original contract period. Applicants that have never received a Tx CDBG grant award will automatically receive these points. The Tx CDBG will assess the applicant's performance on Tx CDBG contracts up to the application deadline date. The applicant's performance after the application deadline date will not be evaluated in this assessment. The evaluation of an applicant's past performance will include the following:

- The applicant's completion of the previous contract activities within the original contract period.
- The applicant's submission of all contract reporting requirements such as Quarterly Progress Reports.
- The applicant's submission of the required close-out documents within the period prescribed for such submission.
- The applicant's timely response to monitoring findings on previous Tx CDBG contracts especially any instances when the monitoring findings included disallowed costs.
- The applicant's timely response to audit findings on previous Tx CDBG contracts.
- The expenditure timeframes on the applicable TXCDBG contracts.

(3) Cost per Household – 10 Points Maximum. The total amount of TxCDBG funds requested by the applicant is divided by the total number of households benefiting from the application activities to determine the TxCDBG cost per beneficiary. (Use pro rata allocation for multiple activities.)

(i) Cost per beneficiary is equal to or less than $8,750 – 10 points.
(ii) Cost per beneficiary is greater than $8,750 but equal to or less than $17,500 – 8 points.
(iii) Cost per beneficiary is greater than $26,500 but equal to or less than $26,500 – 5 points.
(iv) Cost per beneficiary is greater than $26,500 but equal to or less than $35,000 – 2 points.
(v) Cost per beneficiary is greater than $35,000 – zero points.

When necessary, a weighted average is used to score to applications that include multiple activities with different beneficiaries. Using as a base figure the TxCDBG funds requested minus the TxCDBG funds requested for administration, a percentage of the total TxCDBG construction and engineering dollars for each activity is calculated. Administration dollars requested is applied pro-rata to these amounts. The percentage of the total TxCDBG dollars for each activity is then multiplied by the appropriate score and the sum of the calculations determines the score. Related acquisition costs are applied to the associated activity.

APPENDIX B – Examples of Objective Scoring Factors

1. Per Capita Income – 20 points maximum - Compare each applicant's per capita income level to all other applicants in the region.

Method: The base amount for the entire region is divided by the applicant's per capita income level and then multiplied by the maximum possible score of 20, provided the product may not exceed 20 points. The base amount is the average (mean) of the per capita income levels of all the applicants in the region multiplied by a factor 0.75.

Details:

Incorporated City Applications:
For an incorporated city, the data used to score is based on the 2000 decennial Census SF 3 information for the city's entire population.

For a new incorporated city that was not included in the 2000 decennial Census as an incorporated city, the data used to score is based on the 2000 decennial Census information for the entire county unincorporated population.

County Applications:
For a county, the data used to score is based on the 2000 decennial Census SF 3 information for:
the county's entire population (for county-wide benefit activities);
the county's entire unincorporated population (for activities that only benefit persons in unincorporated areas); or
the 2000 decennial census geographic area information specific to the unincorporated areas benefiting from the county's application activities (for activities that only benefit persons in unincorporated areas) (only census tracts, or block numbering areas, and block groups are allowable census geographic areas)

Geographic area information may be substituted only for county applications where the application activities benefit no more than two separate unincorporated target areas. County applications that include application activities for unincorporated areas that are located in more than two county precincts are scored for the entire county unincorporated population or the entire county population.

If a county elects to use census geographic area information that is specific to the unincorporated areas benefiting from the application activities, the county must submit the census geographic area identification number and the associated per capita income amount for each target area.

Multi-Jurisdiction applications - For multi-jurisdiction applications, the data used for scoring is based on a simple average of the per capita income amounts for all of the participating jurisdictions.

Data Source – US Bureau of the Census - 2000 Census – SF 3, Per Capita Income

2. Matching Funds -- 60 Points Maximum

Applicant(s) population equal to or less than 1,500 according to the 2000 Census:

• Match equal to or greater than 5% of grant request	60 points
• Match at least 4% but less than 5% of grant request	40 points
• Match at least 3%, but less than 4% of grant request	20 points
• Match at least 2%, but less than 3% of grant request	10 points
• Match less than 2% of grant request	0 points

Applicant(s) population equal to or less than 3,000 but over 1,500 according to the 2000 Census:

• Match equal to or greater than 10% of grant request	60 points
• Match at least 7.5% but less than 10% of grant request	40 points
• Match at least 5%, but less than 7.5% of grant request	20 points
• Match at least 2.5%, but less than 5% of grant request	10 points
• Match less than 2.5% of grant request	0 points

Applicant(s) population equal to or less than 5,000 but over 3,000 according to the 2000 Census:

• Match equal to or greater than 15% of grant request	60 points
• Match at least 11.5% but less than 15% of grant request	40 points
• Match at least 7.5%, but less than 11.5% of grant request	20 points
• Match at least 3.5%, but less than 7.5% of grant request	10 points
• Match less than 3.5% of grant request	0 points

Applicant(s) population over 5,000 according to the 2000 Census:

• Match equal to or greater than 20% of grant request	60 points
• Match at least 15% but less than 20% of grant request	40 points
• Match at least 10%, but less than 15% of grant request	20 points
• Match at least 5%, but less than 10% of grant request	10 points
• Match less than 5% of grant request	0 points

The population category for an incorporated city is based on the city's 2000 Census population. The population category under which county applications are scored is dependent upon the project type and the beneficiary population served. If the project is for beneficiaries for the entire county, the total population of the county is used. If the project is for activities in the unincorporated area of the county with a target area of beneficiaries, the population category is based on the unincorporated residents for the entire county. For county applications addressing water and sewer improvements in unincorporated areas, the population category is based on the actual number of beneficiaries to be served by the project activities.

The population category under which multi-jurisdiction applications are scored is based on the combined populations of the applicants according to the 2000 Census.

Multi-Jurisdiction Applications - The population category under which multi-jurisdiction applications will be scored will be based on the combined populations of the participating applicants according to the 2000 census. The guidelines for determining the population category for county applications will also apply to multi-jurisdiction applications when a county or counties are participants in a multi-jurisdiction application.

Data Source - US Bureau of the Census - 2000 Census, SF 3.

3. Project Priorities – 30 Points Maximum

a. Activities providing or improving water or wastewater (including yardlines on residential property) – 30 Points

b. Housing rehabilitation activities - 15 Points

c. All other eligible activities – 5 Points

(When necessary, a weighted-average is used to score to applications that include multiple activities. Using as a base figure the TxCDBG funds requested minus the TxCDBG funds requested for administration, a percentage of the total TxCDBG construction and engineering dollars for each activity is calculated. Administration dollars requested is applied pro-rata to these amounts. The percentage of the total TxCDBG dollars for each activity is then multiplied by the appropriate score and the sum of the calculations determines the score. Related acquisition costs are applied to the associated activity.)

CPD OUTCOME PERFORMANCE MEASUREMENT SYSTEM REPORTING:

The TxCDBG has implemented the HUD CPD Outcome Performance Measurement System Reporting and has added the performance measurement objectives and outcomes to its new application guides. All applicants are required to indicate the performance measures that best correspond with the activities they are proposing. TxCDBG staff enter the objectives and outcomes in its internal application review database. Upon the award of the funds, TxCDBG enter the performance measure information into the IDIS database. The TxCDBG staff update the information in IDIS as needed. In addition, for existing open contracts, TxCDBG staff has entered the objectives and outcomes for these contracts into the IDIS system.

The outcome performance measurement system has three objectives: (1) Creating Suitable Living Environments, (2) Providing Decent Affordable Housing, and (3) Creating Economic Opportunities. There are also three outcomes under each objective: (1) Availability/Accessibility, (2) Affordability, and (3) Sustainability. Thus, the three objectives, each having three possible outcomes, produce nine possible outcome/objective combinations within which to categorize CDBG grant activities. Specific Output Indicators, many of which Tx CDBG has used in the HUD Integrated Disbursement and Information System reporting system, are used to provide the quantifiable information used to actually measure the outcome/objective combinations for the funded CDBG projects (such as the number of persons who have new access to water facilities).

During the PY 2009 time period, the anticipated objectives and outcomes for the proposed eligible activities using all CDBG funds available are shown below; however, both the actual objectives and outcomes for individual funded projects may vary within the eligible activities depending on the applicant’s determination and selection. The number of activities below assumes the deobligated funds and program income available in PY 2009 will be made available for priorities as currently specified in the action plan:

HUD Matrix Code	HUD Matrix Name	Objective	Outcome	PY 2009 -Expected Number of Activities
03E	Neighborhood Facilities	Suitable Living Environment	Availability/ Accessibility	2
03J	Water/Sewer Improvements	Suitable Living Environment	Availability/ Accessibility	133
		Suitable Living Environment	Affordability	5
		Suitable Living Environment	Sustainability	47
03K	Street Improvements	Suitable Living Environment	Availability/ Accessibility	45
		Suitable Living Environment	Affordability	3
		Suitable Living Environment	Sustainability	12
14A	Rehabilitation; Single Unit Residential	Suitable Living Environment	Availability/ Accessibility	48
		Decent Housing	Affordability	2
			Sustainability	5
13	Homeownership Assistance	Decent Housing	Affordability	2
03F	Parks, Playgrounds, and Other Recreational Facilities	Suitable Living Environment	Availability/ Accessibility	2
05	Public Service	Suitable Living Environment	Availability/ Accessibility	3
		Decent Housing	Affordability	2
04	Clearance Demolition Activities	Suitable Living Environment	Availability/ Accessibility	5
			Sustainability	2
18A	ED Direct Financial Assistance for For-Profits	Economic Opportunity	Availability/ Accessibility	1
		Suitable Living Environment	Availability/ Accessibility	0
		Economic Opportunity	Affordability	19

338

NON-HOMELESS SPECIAL NEEDS ACTION PLAN: HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS

INTRODUCTION

The 2009 Action Plan for Housing Opportunities for Persons with AIDS (HOPWA) is part of the 2005–2009 State of Texas Consolidated Plan for program year 2009 (February 1, 2009, through January 31, 2010). Although this plan is part of the Consolidated Plan submitted to the US Department of Housing and Urban Development (HUD) by the Texas Department of Housing and Community Affairs, HUD will directly contract with the Texas Department of State Health Services (DSHS) for the HOPWA program, as it has done since 1992.

NEEDS STATEMENT

In 2006, persons living with HIV/AIDS (PLWHA) in Texas totaled 60,571. Over the past few years PLWHA show a net increase of about 4,000 cases per year with about 5,000 new cases and 1,000 deaths per year1. From 2002-2006 over one quarter of newly diagnosed persons in Texas received an AIDS diagnosis within one month of their HIV diagnosis. One third of all newly diagnosed received AIDS and HIV diagnoses within one year. In 2006, 39% (22,000) of PLWHA had no evidence of medical care (does not include Medicare, VA and some private payers). The 2008-2010 Texas Statewide Coordinated Statement of Need reported housing as one of the two most frequent gaps in services identified by clients in six of the seven HIV Service Delivery Areas (HSDAs) assessed in Texas2.

In 2008, DSHS distributed $24,944,468 in Ryan White and State Services contracts to provide a wide array of health and social services for persons with HIV/AIDS. In 2007, $77.9 million in state and federal funds was spent on HIV medications.

The Texas HOPWA program contributes to filling the unmet need by providing emergency housing assistance, rental assistance, supportive services, and permanent housing placement services. The continuation of HOPWA funding is critical in addressing the threat of homelessness for persons living with HIV/AIDS in Texas.

PROGRAM OBJECTIVES

The Texas DSHS HOPWA program provides housing assistance and supportive services for income-eligible individuals living with HIV/AIDS and their families to establish or better maintain a stable living environment in housing that is decent, safe, and sanitary, to reduce the risk of homelessness, and to improve access to health care and supportive services.

PROGRAM ACTIVITIES

The Texas DSHS HOPWA program proposes to continue the following activities.

Short-Term Rent, Mortgage, and Utility Assistance Program (STRMU)

---

[1] Texas Integrated Epidemiologic Profile for HIV/AIDS Prevention and Services Planning
http://www.dshs.state.tx.us/hivstd/planning/Epi_Profile_02012008.pdf

[2] 2008-2010 Texas Statewide Coordinated Statement of Need

This program provides short-term rent, mortgage, and utility payments to prevent homelessness of the tenant or mortgagor of a dwelling. It enables low income individuals at risk of becoming homeless to maintain housing for a period not to exceed 21 weeks in any 52-week period. Qualified clients are assisted with rent, mortgage, and/or utilities, up to the annual STRMU cap established locally. The project sponsor makes payments directly to the provider with the client paying any balance due.

Tenant-Based Rental Assistance Program (TBRA)

This program provides tenant-based rental assistance, including assistance for shared housing arrangements. It enables income-eligible HIV-positive clients to pay their rent and utilities until they are able to secure other affordable and stable housing. Clients must contribute the greater of 10 percent of gross income or 30 percent of adjusted gross income towards their rent, or they must contribute the amount of public assistance received for that purpose. The project sponsor pays the balance of the rent up to the fair market rent value.

Supportive Services

This program is limited to case management for HOPWA clients and the purchase of smoke detectors and basic telephone service assistance.

Permanent Housing Placement Services

This program is limited to assistance for housing placement costs, which may include application fees, related credit checks, and reasonable security deposits necessary to move persons into permanent housing, provided such deposits do not exceed the amount equal to two months of rent and are refunded to the program when the HOPWA client leaves the housing for which the deposit was made.

Program Improvement Activities

DSHS is in the process of improving the HOPWA program in various areas. DSHS plans to implement a HOPWA module as part of the state's AIDS Regional Information and Evaluation System (ARIES) for improved data reporting and evaluation. These activities are in addition to ongoing updates to the monitoring tools, program worksheets, and funding allocations. DSHS plans to provide ongoing training and technical assistance to administrative and Project Sponsor contractors.

ANNUAL PROGRAM GOALS

Based on prior-year performance and level funding from HUD, DSHS estimates that 700 households can be provided with short-term rent, mortgage, and utility payments, 550 households can be provided tenant-based rental assistance, and 20 households can be provided permanent housing placement during the 2009 project year. All households will be provided with supportive services funded through HOPWA, Ryan White, or other leveraged sources.

PROJECT SPONSOR SELECTION PROCESS

DSHS selects eight Administrative Agencies (AAs) across the state through a combination of competitive Requests for Proposals (RFP) and intergovernmental agency contracts. The AAs act as an administrative arm for DSHS by administering the HOPWA program locally for a five year project period. This period is concurrent with the Ryan White Part B grant period, which delivers case management and other supportive services to HOPWA clients.

These AAs in turn select HOPWA Project Sponsors through local competitive processes that are open to all grassroots, faith-based, community-based organizations, and governmental agencies. Each AA contracts with one or more Project Sponsors who directly provide HOPWA services to eligible clients throughout the state's 26 HSDAs. Some Project Sponsors may change during 2009 due to local competitive processes.

PROGRAM BUDGET

DSHS reserves three percent of the total award for administrative and indirect costs, including, personnel, supplies, travel, training/technical assistance, and contractual support for ARIES. Project Sponsors are allowed up to seven percent of their allocation for personnel or other administrative costs. The funding allocation is distributed geographically by HSDA and is based on a formula including HIV/AIDS morbidity, poverty level, and population distribution with annual adjustments for project sponsor funding needs.

The 2009 HOPWA Program budget based on level-funding of the 2008 grant award of $2,841,000 and unexpended prior year funds is allocated as follows:

DSHS administration (3%)	$85,230

(indirect costs, personnel, supplies, travel, training/technical assistance, contractual support for ARIES)

Contractual	$3,051,000
TBRA	$TBD
STRMU	$TBD
Supportive Services	$TBD
Permanent Housing Placement	$TBD
Project Sponsor Administration (7%)	$TBD

GEOGRAPHIC DISTRIBUTION

The funding allocations are geographically distributed across the state to the 26 HSDAs, excluding 35 counties located in the Eligible Metropolitan Areas (EMAs) that receive direct HOPWA funding from HUD. The 35 counties in the five directly-funded EMAs of Austin, Dallas, Fort Worth, Houston, and San Antonio are as follows: Bastrop, Caldwell, Hays, Travis, Williamson, Collin, Dallas, Delta, Denton, Ellis, Hunt, Kaufman, Rockwall, Johnson, Parker, Tarrant, Wise, Austin, Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery, San Jacinto, Waller, Atascosa, Bandera, Bexar, Comal, Guadalupe, Kendall, Medina, and Wilson.

Administrative Agencies and Project Sponsors

The following chart summarizes the estimated 2009 HOPWA funding allocation for the eight AAs and their 26 Project Sponsors/HSDAs. DSHS distributes funding in excess of the HUD grant award to spend down unobligated balances from previous years. The 2009 funding allocations are estimates based on 2008 funding levels, program expenditures, and waiting lists and may change as the 2009 HUD award is received and contracts are negotiated.

Administrative Agency	2009 funding allocation	Project Sponsor/HSDA	2009 funding allocation
Bexar County	198,000	Alamo Area Resource Center/San Antonio	91,000
		United Medical Centers/Uvalde	28,000
		Victoria City-County Health Department/Victoria	79,000

Brazos Valley Council of Governments P.O. Box 4128 Bryan, TX 77805-4128	258,000	Community Action, Inc./Austin	25,000
		San Angelo AIDS Foundation/Concho-Plateau	53,000
		United Way of the Greater Fort Hood Area/Temple-Killeen	35,000
		Project Unity/Bryan-College Station	67,000
		Waco/McLennan County Public Health District/Waco	78,000
Dallas County HHSD 2377 North Stemmons Frwy., Ste. 600 Dallas, TX 75207-2710	57,000	Dallas County Health and Human Services -HOPWA Program/Dallas	2,000
		Your Health Clinic/Sherman-Dennison	55,000
Houston Regional Resource Group 500 Lovett Boulevard, Ste. 100 Houston, TX 77006	749,000	AIDS Coalition of Coastal Texas/Galveston	20,000
		AIDS Foundation of Houston/Houston	30,000
		Health Horizons/Lufkin	149,000
		Special Health Resources for Texas, Inc. Longview/Tyler	322,000
		Special Health Resources for Texas, Inc. Paris/Texarkana	105,000
		Triangle AIDS Network/Beaumont-Port Arthur	123,000
Lubbock Regional MHMR Center P.O. Box 2828 1602 Tenth St. Lubbock, TX 79408-2828	340,000	Panhandle AIDS Service Organization/Amarillo	120,000
		Permian Basin Community Center/Permian-Basin	125,000
		Planned Parenthood Association of Lubbock/Lubbock	95,000
Planned Parenthood Center of El Paso 1801 Wyoming Avenue, Ste. 202 El Paso, TX 79902	506,000	Planned Parenthood Center of El Paso/El Paso	360,815
South Texas Development Council (STDC) P.O. Box 2187 4812 North Bartlett Laredo, TX 78044-2187	770,000	City of Laredo Health Department/Laredo	105,000
		Coastal Bend AIDS Foundation/Corpus Christi	320,000
		Valley AIDS Council/Brownsville	345,000
Tarrant County Health Department 1101 South Main St., Ste. 2500 Fort Worth, TX 76104-4802	173,000	AIDS Resources of Rural Texas – Abilene/Abilene	60,000
		AIDS Resources of Rural Texas – Weatherford/Fort Worth	55,000
		Wichita Falls Wichita County Health Department/Wichita Falls	58,000
Total	3,051,000		3,051,000

CLIENT PARTICIPATION

Clients participate in shaping local approaches to meeting housing needs in three ways:

All areas conduct periodic needs assessment of client needs, and assessment of housing needs are included in such assessments. These assessments vary in methodology and depth with which housing needs are explored, which is appropriate given the varying needs for housing assistance in various areas of the state. Additionally, all Ryan White Part A councils in Texas have either completed special assessments of homeless persons or persons at risk for homelessness, or will be completing such assessments within the next year. Assessments in all EMAs are joint Ryan White Part A and Part B assessments.

All planning areas in the state must have ways for community members, including clients, to have input into local priorities, allocations, and plans. All plans include discussions of how best to deliver services to meet the needs identified in assessments, and plans that prioritize expenditures on housing or identify housing needs that would include discussions of how best to meet these needs. Plans are written on three to four year cycles, but reviewed annually.

Finally, clients shape housing services via direct interactions with service providers. Through the intake system, HIV/AIDS clients are informed about the HOPWA program, assisted with the application, or referred directly to the HOPWA Project Sponsor. Clients' housing needs are also assessed regularly with case managers as circumstances change and as determined by clients' housing plans.

OUTCOME MEASURES

DSHS HOPWA contractors must address the following outcomes pursuant to the new performance measurement outcome system mandated by HUD:

Annual Action Plan - Planned Project Results

Outcomes and Objectives	**Performance Indicators**	**Expected Number**	**Activity Description**
DH-2	# of households served	550	TBRA housing assistance
DH-2	# of households served	700	STRMU housing assistance
DH-2	# of households served	1250[3]	Supportive Services (restricted to case mgt., smoke detectors, and phone service)
DH-1	# of households served	20	Permanent Housing Placement (security deposits, application fees, credit checks)
Key	Availability/Accessibility	Affordability	Sustainability
Decent Housing	DH-1	DH-2	DH-3

---

[3] This is based on total TBRA and STRMU households expected to be served. All HOPWA households are expected to receive case management services funded by multiple funding streams, including Ryan White, HOPWA, and other leveraged resources.

APPENDIX A:
STANDARD FORM 424 AND STATE CERTIFICATIONS

The forms and certifications will be included in the final version of the Action Plan to be sent to HUD.

APPENDIX B:
ACTION PLAN REQUIREMENTS

§ 91.320 Action Plan

The action plan must include the following:

(a) Standard Form 424;

(b) A concise executive summary that includes the objectives and outcomes identified in the plan as well as an evaluation of past performance, a summary of the citizen participation and consultation process (including efforts to broaden public participation) (24 CFR 91.300 (b)), a summary of comments or views, and a summary of comments or views not accepted and the reasons therefore (24 CFR 91.115 (b)(5)).

(c) Resources and objectives--(1) Federal resources. The consolidated plan must provide a concise summary of the federal resources expected to be made available. These resources include grant funds and program income.

(2) Other resources. The consolidated plan must indicate resources from private and non-federal public sources that are reasonably expected to be made available to address the needs identified in the plan. The plan must explain how federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. Where the state deems it appropriate, it may indicate publicly owned land or property located within the state that may be used to carry out the purposes identified in the plan;

(3) Annual objectives. The consolidated plan must contain a summary of the annual objectives the state expects to achieve during the forthcoming program year.

(d) Activities. A description of the state's method for distributing funds to local governments and nonprofit organizations to carry out activities, or the activities to be undertaken by the state, using funds that are expected to be received under formula allocations (and related program income) and other HUD assistance during the program year, the reasons for the allocation priorities, how the proposed distribution of funds will address the priority needs and specific objectives described in the consolidated plan, and any obstacles to addressing underserved needs.

(e) Outcome measures. Each state must provide outcome measures for activities included in its action plan in accordance with guidance issued by HUD. For the CDBG program, this would include activities that are likely to be funded as a result of the implementation of the state's method of distribution.

(f) Geographic distribution. A description of the geographic areas of the State (including areas of low-income and minority concentration) in which it will direct assistance during the ensuing program year, giving the rationale for the priorities for allocating investment geographically. When appropriate, the state should estimate the percentage of funds they plan to dedicate to target area(s).

(g) Affordable housing goals. The state must specify one-year goals for the number of households to be provided affordable housing through activities that provide rental assistance, production of new units, rehabilitation of existing units, or acquisition of existing units using funds made available to the state, and one-year goals for the number of homeless, non-homeless, and special-needs households to be provided affordable housing using funds made available to the state. The term affordable housing shall be as defined in 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership.

(h) Homeless and other special needs activities. Activities it plans to undertake during the next year to address emergency shelter and transitional housing needs of homeless individuals and families (including subpopulations), to prevent low-income individuals and families with children (especially those with incomes below 30 percent of median) from becoming homeless, to help homeless persons make the transition to permanent housing and independent living, specific action steps to end chronic homelessness, and to address the special needs of persons who are not homeless identified in accordance with Sec. 91.315(e);

(i) Barriers to affordable housing. Actions it plans to take during the next year to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing. Such policies, procedures, and processes include but are not limited to: land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment.

(j) Other actions. Actions it plans to take during the next year to implement its strategic plan and address obstacles to meeting underserved needs, foster and maintain affordable housing (including the coordination of Low-Income Housing Tax Credits with the development of affordable housing), evaluate and reduce lead-based paint hazards, reduce the number of poverty level families, develop institutional structure, enhance coordination between public and private housing and social service agencies, address the needs of public housing (including providing financial or other assistance to troubled public housing agencies), and encourage public housing residents to become more involved in management and participate in homeownership.

(k) Program-specific requirements. In addition, the plan must include the following specific information:

(1) CDBG. The action plan must set forth the state's method of distribution.

(i) The method of distribution shall contain a description of all criteria used to select applications from local governments for funding, including the relative importance of the criteria, where applicable. The action plan must include a description of how all CDBG resources will be allocated among funding categories and the threshold factors and grant size limits that are to be applied. The method of distribution must provide sufficient information so that units of general local government will be able to understand and comment on it, understand what criteria and information their application will be judged, and be able to prepare responsive applications. The method of distribution may provide a summary of the selection criteria, provided that all criteria are summarized and the details are set forth in application manuals or other official state publications that are widely distributed to eligible applicants. HUD may monitor the method of distribution as part of its audit and review responsibilities, as provided in Sec. 570.493(a)(1), in order to determine compliance with program requirements.

(ii) If the state intends to help nonentitlement units of general local government apply for guaranteed loan funds under 24 CFR part 570, subpart M, it must describe available guarantee amounts and how applications will be selected for assistance. If a state elects to allow units of general local government to carry out community revitalization strategies, the method of distribution shall reflect the state's process and criteria for approving local government's revitalization strategies.

(2) HOME. (i) The state shall describe other forms of investment that are not described in 24 CFR 92.205(b).

(ii) If the state intends to use HOME funds for homebuyers, it must state the guidelines for resale or recapture, as required in 24 CFR 92.254.

(iii) If the state intends to use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds, it must state its refinancing guidelines required under 24 CFR 92.206(b). The guidelines shall describe the conditions under which the state will refinance existing debt. At minimum, the guidelines must:

(A) Demonstrate that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing.

(B) Require a review of management practices to demonstrate that disinvestment in the property has not occurred; that the long-term needs of the project can be met; and that the feasibility of serving the targeted population over an extended affordability period can be demonstrated.

(C) State whether the new investment is being made to maintain current affordable units, create additional affordable units, or both.

(D) Specify the required period of affordability, whether it is the minimum 15 years or longer.

(E) Specify whether the investment of HOME funds may be state-wide or limited to a specific geographic area, such as a community identified in a neighborhood revitalization strategy under 24 CFR 91.315(g), or a federally designated Empowerment Zone or Enterprise Community.

(F) State that HOME funds cannot be used to refinance multifamily loans made or insured by any federal program, including the CDBG program.

(iv) If the state will receive funding under the American Dream Downpayment Initiative (ADDI) (see 24 CFR part 92, subpart M), it must include:

(A) A description of the planned use of the ADDI funds;

(B) A plan for conducting targeted outreach to residents and tenants of public and manufactured housing and to other families assisted by public housing agencies, for the purposes of ensuring that the ADDI funds are used to provide downpayment assistance for such residents, tenants, and families; and

(C) A description of the actions to be taken to ensure the suitability of families receiving ADDI funds to undertake and maintain homeownership, such as provision of housing counseling to homebuyers.

(3) ESG. The state shall identify the process for awarding grants to state recipients and a description of how the state intends to make its allocation available to units of local government and nonprofit organizations (including community and faith-based organizations).

(4) HOPWA. For HOPWA funds, the state must specify one-year goals for the number of households to be provided housing through the use of HOPWA activities for short-term rent; mortgage and utility assistance

payments to prevent homelessness of the individual or family; tenant-based rental assistance; and units provided in housing facilities that are being developed, leased or operated with HOPWA funds, and shall identify the method of selecting project sponsors (including providing full access to grassroots faith-based and other community-based organizations).

[71 FR 6969, Feb. 9, 2006]

HOUSING RESOURCE CENTER

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of the *2009 Regional Allocation Formula (RAF) Methodology*

Requested Action

Approval of the *2009 RAF Methodology* is requested.

- See Attachment A for a Summary of Public Comment and reasoned responses.
- See Attachment B for a Summary of Proposed Revisions to the RAF Methodology for 2009.
- See Attachment C for the 2009 Proposed RAF Distribution for the HOME, Housing Tax Credit (HTC) and Housing Trust Fund programs. Note that the percentages and figures may change in the final published version of the RAF based on Board actions at the November 13th meeting.
- See Attachment D for the *2009 RAF Methodology*.

Background

§2306.111(d) of the Texas Government Code requires that the Department use a Regional Allocation Formula (RAF) to allocate its HOME, Housing Trust Fund (HTF), and Housing Tax Credit (HTC) funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions used for planning purposes. The RAF also allocates funding to rural and urban areas within each region. As a dynamic measure of need, the RAF is revised annually to reflect updated data; respond to public comment; and better assess regional housing needs and available resources.

The HOME, HTC and HTF RAFs use slightly different formulas because the programs have different eligible activities, households, and geographical service areas. §2306.111(c) of the Texas Government Code requires that 95 percent of HOME funding be set aside for non-participating jurisdictions (non-PJs). Therefore, the HOME RAF only uses need and available resource data for non-PJs.

The RAF methodology was made available for public comment from September 19th through October 20th, 2008. The final methodology will be published on the TDHCA website. It should be noted that the Board is approving the formula methodology, not specific allocation amounts. Staff recommends updating the formula with recent award data following any Board action impacting 2008 awards during the November 13th meeting. Board action impacting 2008 awards could result in shifting allocation amounts. Staff recommends updating the formula with available data until November 21st, permitting the Department to submit the RAF with the HTC Application Submission Procedures Manual submitted to the Governor for signature with the Qualified Action Plan by December 1st. Note also that the tax credit amounts do not yet reflect forward commitments that may be made out of the 2009 ceiling.[1]

Recommendation

It is recommended that the Board approve the *2009 Regional Allocation Formula Methodology*

---

[1] Additional allocated funds, including Housing Tax Credits allocated to the State for disaster or economic recovery, are subject to the Regional Allocation Formula.

ATTACHMENT A
SUMMARY OF PUBLIC COMMENT

Comment:
The formula should be updated to reflect any deals which were awarded funds but subsequently returned the funds. (57)
Response:
The Department concurs and recommends updating the other available housing resources data to reflect the most current information available on deals that were awarded funds but subsequently returned the funds. Staff recommends updating the formula with available data until November 21st, following any action by the Board on November 13th and permitting the Department to include the RAF with the HTC Application Submission Procedures Manual submitted to the Governor for signature with the Qualified Action Plan by December 1st.

Comment:
Commenter appreciates the Department's Regional Allocation Formula and recommends continuation of the formula. (11)
Response:
No response required.

ATTACHMENT B
SUMMARY OF PROPOSED REVISIONS TO THE RAF METHODOLOGY

Population Estimates Update

The affordable housing need factors based on 2000 U.S. Census data (poverty, cost burdened households, overcrowded households, and units with incomplete kitchen or bathroom facilities) are adjusted to current year estimates by applying a growth factor. The growth factor is calculated based on the population growth experienced since the decennial census.

The final RAF methodology and distribution utilize a precise data set for population estimates that includes household and population data by income level and tenure (renter or owner). HISTA (Households by Income, Size, Tenure and Age) data is demographic data based on the 2000 U.S. Census with estimates and projected provided by Claritas, a leading demographics data provider widely used by market analysts. More information on HISTA data can be found at: http://www.ribbondata.com/abouthista.asp.

The proposed methodology will have no negative impact on the amount of statewide housing tax credit rural allocation due to statutory rural minimums of $500,000 per region and 20% of the overall state tax credit ceiling.

Recent Award Data

Any changes in awards or award amounts from the previous year may impact the final RAF allocation. It is recommended that staff use the most recent data available on awards to calculate the final allocation amounts. The final RAF allocations will be published on the TDHCA website, the State Low Income Housing Plan and Annual Report, and the HTC Application Procedures Submission Manual.

ATTACHMENT C
2009 RAF DISTRIBUTION FOR THE HTC, HOME AND HTF PROGRAMS

Note that shifts in the regional and allocation amounts should be expected in the final version of the regional allocation formula after updated data on other available resources is incorporated into the formula which may include significant credit allocations for Regions 5 and 6 associated with Hurricane Ike recovery. Also note that Board action, including forward commitments, may alter the total amount available for distribution in each region and subregion during the 2009 housing tax credit cycle.

2009 HTC RAF

Region	Place for Geographical Reference	Regional Funding Amount	Regional Funding %	Rural Funding Amount	Rural Funding %	Urban Funding Amount	Urban Funding %
1	Lubbock	$1,262,360	3.2%	$670,123	53.1%	$592,237	46.9%
2	Abilene	$588,399	1.5%	$541,199	92.0%	$47,200	8.0%
3	Dallas/Fort Worth	$10,928,516	27.3%	$1,038,506	9.5%	$9,890,010	90.5%
4	Tyler	$1,192,946	3.0%	$723,622	60.7%	$469,324	39.3%
5	Beaumont	$902,389	2.3%	$552,847	61.3%	$349,541	38.7%
6	Houston	$9,618,323	24.1%	$893,766	9.3%	$8,724,557	90.7%
7	Austin/Round Rock	$2,676,570	6.7%	$580,902	21.7%	$2,095,668	78.3%
8	Waco	$1,582,220	4.0%	$609,434	38.5%	$972,785	61.5%
9	San Antonio	$2,548,505	6.4%	$603,217	23.7%	$1,945,288	76.3%
10	Corpus Christi	$1,029,719	2.6%	$576,488	56.0%	$453,231	44.0%
11	Brownsville/Harlingen	$5,484,716	13.7%	$1,480,105	27.0%	$4,004,611	73.0%
12	San Angelo	$784,373	2.0%	$550,505	70.2%	$233,868	29.8%
13	El Paso	$1,364,195	3.4%	$582,398	42.7%	$781,798	57.3%
	Total	$39,963,231	100.0%	$9,403,113	23.5%	$30,560,118	76.5%

Rural Percent of Tax Credit Ceiling Amount: 20%

The final amount of rural funding for the HTC RAF was adjusted using the following steps. Step One: Regions with less than $500,000 rural funding were adjusted up to $500,000. Step Two: The rural percentage of the total tax credit ceiling amount was calculated and if the rural percentage was less than 20 percent, the rural amount for each region was increased at a rate equal to their regional funding percentage until the overall state rural percentage reached 20 percent.

2009 REGIONAL ALLOCATION FORMULA METHODOLOGY

BACKGROUND

Sections 2306.111(d) and 2306.1115 of the Texas Government Code require that TDHCA use a Regional Allocation Formula (RAF) to allocate its HOME, Housing Trust Fund (HTF), and Housing Tax Credit (HTC) funding. This RAF objectively measures the affordable housing need and available resources in 13 State Service Regions used for planning purposes. These regions are shown in "Figure 1. State Service Regions." The RAF also allocates funding to rural and urban areas within each region.

As a dynamic measure of need, the RAF is revised annually to reflect updated demographic and resource data; respond to public comment; and better assess regional housing needs and available resources. The RAF is submitted annually for public comment.

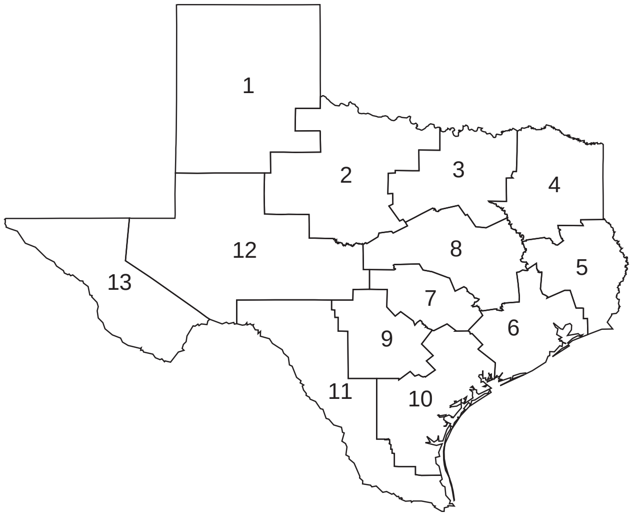

Figure 1. State Service Regions

The HOME, HTF and HTC RAFs use slightly different formulas because the programs have different eligible activities, households, and geographical service areas. §2306.111(c) of the Texas Government Code requires that 95 percent of HOME funding be set aside for non-participating jurisdictions (non-PJs). Therefore, the HOME RAF only uses need and available resource data for non-PJs.

METHODOLOGY

Consideration of Affordable Housing Need

The first part of the RAF determines the funding allocation based solely on objective measures of each region's share of the State's affordable housing need. The RAF uses the following 2000 US Census data to calculate this regional need distribution.

- Poverty: Number of persons in the region who live in poverty.
- Cost Burden: Number of households with a monthly gross rent or mortgage payment to monthly household income ratio that exceeds 30 percent.
- Overcrowded Units: Number of occupied units with more than one person per room.
- Units with Incomplete Kitchen or Plumbing: Number of occupied units that do not have all of the following: sink with piped water; range or cook top and oven; refrigerator, hot and cold piped water, flush toilet, and bathtub or shower.

Non-poverty data is for households at or below 80% of the Area Median Family Income (AMFI).

- Because the HTC program supports rental development activities, renter household data is used for the HTC RAF.
- Because the HOME and HTF programs support renter and owner activities, both renter and owner data is used in the HOME and HTF RAFs.

The following steps are used to measure regional need.

1. Need data is adjusted to current year levels by applying a growth factor based on the growth experienced since 2000.[1]
2. Each need measure is weighted to reflect its perceived relevance in assessing affordable housing need. Half the measure weight is associated with poverty because of the significant number of persons in poverty and the use of this factor in the HUD Community Planning and Development Program Formula Allocations. The remaining measure weight is proportionately allocated based on the relative size of the other three measure populations. The resulting need measure weights are: poverty = 50 percent, cost burden = 36 percent, overcrowding = 12 percent, and substandard housing = 2 percent.
3. The following steps calculate the funding distribution based on the need measures.
    a. The total RAF funding amount is multiplied by each need measure weight to determine the amount of funding distributed by that measure.
    b. Each measure's amount of funding is regionally distributed based on the distribution of persons or households in need.
4. The resulting regional measure distributions are then combined to calculate each region's need-based funding amount.
5. Each region's need based funding amount is divided by the total RAF funding amount. This quotient is the region's need percentage.

Consideration of Available Housing Resources

In addition to TDHCA, there are many other sources of funding that address affordable housing needs. To mitigate any inherent inequities in the way these resources are regionally allocated, the RAF compares each region's level of need to its level of resources.

Because the resources used in the RAF reflect the three programs' eligible households and activities, the following data is used.

- The HTC RAF uses rental funding sources.
- The HTF RAF uses sources of rental and owner funding.
- The HOME RAF uses sources of rental and owner funding in non-PJs.

The following resources are used in the HOME, HTF and HTC RAFs.

- Housing Tax Credits (4% and 9%)[2]
- Housing Trust Fund Rental Development Funding
- HUD HOME Funds (TDHCA and Participating Jurisdiction)
- HUD Housing for Persons with AIDS Funding
- HUD Public Housing Authority (PHA) Capital Funding
- HUD §8 Tenant-Based Rental Assistance (TDHCA & PHA)
- Multifamily Texas Housing Trust Fund

---

[1] The 2008 HISTA data, or Households by Income, Size, Tenure and Age, from Ribbon Demographics is utilized in the final RAF. HISTA data is based upon special tabulations of 2000 US Census data with demographic projections provided by Claritas.

[2] Estimated capital raised through the syndication of the HTCs. For the Final Methodology, this figure is $0.80 based upon a survey of HTC applicants. The Final RAF will utilize the most current award data available.

- Multifamily Tax-Exempt Bond Financing[3]
- United States Department of Agriculture (USDA) Multifamily Development Funding
- USDA Rental Assistance

The HOME and HTF RAFs also include the following sources of owner funding.

- USDA 502 and 504 Loans and Grants
- Single Family Bond Financing (TDHCA and Housing Finance Corporations)

These steps calculate the regional distribution of available housing resources.

1. The available resources are summed by region and for the state. The resulting sums are the regional and state resource totals.
2. The regional resource total is divided by the state resource total. This quotient is the region's resource percentage.

Comparison of Regional Need and Available Resource Distributions

In theory, if the measurement of regional need is accurate, then the region's need percentage should reflect its resource percentage. A region with a negative resource and need difference is considered to be "under allocated." This region should have received a larger portion of the available resources to address their need. Similarly, a region with a positive difference is considered "over allocated." Conversely, it should have received a smaller portion of the available resources.

To address differences between the regional need and resource distributions, the RAF uses a resource funding adjustment to shift a portion of the need based funding distribution from over allocated to under allocated regions.

A resource funding adjustment limit is used to ensure that a particular region or geographical area is not overly penalized or benefited by the resource funding adjustments. A region's need based funding amount cannot be reduced or increased by more than the percentage of the state's available resources that are not already regionally distributed. This percentage is calculated by finding the average difference between each funding source's regional distribution and the regional need percentages. Sources whose average of the regional differences exceeds five percent or that are not distributed to all regions are included in the resource funding adjustment limit.

The following steps calculate the resource funding adjustments.

1. The regional resource percentage and regional need percentage differences are calculated.
2. The resulting over allocated (positive) resource differences are summed to calculate the state resource difference.
3. The state resource difference is multiplied by the total RAF funding. This product is the state over allocated resource amount.
4. Each over allocated resource difference is divided by the state resource difference. This quotient is the over allocation percentage.
5. Each over allocation percentage is multiplied by the state over allocated resource amount to determine the base resource funding adjustment.

---

[3] The value of the bonds is 62 percent of the total bond amount. This is an estimate of the capital required to fill an affordability gap that remains after the capital raised through the syndication of the 4% HTCs is deducted from the total development cost. The Final RAF will utilize the most current award data available.

6. The region's need based funding amount is multiplied by the resource funding adjustment limit. This product is the maximum resource funding adjustment.
7. The lesser of the base resource funding adjustment and the maximum resource funding adjustment is the over allocated region's resource funding adjustment.
8. The over allocated regions' resource funding adjustments are summed. This total is the state under allocated resource amount.
9. Each under allocated (negative) resource difference is divided by the state resource difference to determine the under allocation percentage.
10. Each under allocation percentage is multiplied by the state under allocated resource amount. This product is the under allocated region's resource funding adjustment.

Consideration of Rural and Urban Need[4]

There are a number of factors that affect the distribution of resources to rural and urban areas. These include rural area feasible development sizes, allowable rent and income levels, and proximity to developers, contractors, and materials. Access to resources is also an issue because some funding, such as multifamily tax-exempt bond financing, does not work very well in rural areas. As required by §2306.111(d) of the Texas Government Code, to ensure an equitable distribution of funding to both rural and urban areas, the RAF analyzes the distribution of rural and urban need and resources at the regional level.

The RAF uses the following definitions to categorize rural and urban areas.

1. Area - The geographic area contained within the boundaries of:
   a. an incorporated place, or
   b. a Census Designated Place (CDP) as established by the U.S. Census Bureau for the most recent Decennial Census.
2. Rural – An Area that is:
   a. outside the boundaries of a metropolitan statistical area (MSA); or
   b. within the boundaries of a MSA, if the Area has a population of 25,000[5] or less and does not share a boundary with an Urban Area.[6]
   c. in an Area that is eligible for funding by the Texas Rural Development Office of the United States Department of Agriculture, other than an Area that is located in a municipality with a population of more than 50,000.[7]

3. Urban – An Area that:

---

[4] §2306.111(d) requires the RAF to consider "rural and urban areas" in its distribution of program funding.

[5] The definition of "population" in state law (Sec. 311.005(3), Government Code) is "the population shown by the most recent federal decennial census." Because of this requirement, the decennial census place population must be used to make the area type determination.

[6] Applicants may petition TDHCA to update the "Rural" designation of an incorporated area within a metropolitan statistical area by providing a letter from a local official. Such letter must clearly indicate that the area's incorporated boundary touches the boundary of another incorporated area with a population of over 25,000. To treat all applicants equitably, such letter must be provided to TDHCA prior to the commencement of the pre-application submission period for HTC applications, or application submission period for HOME applications.

[7] TDHCA utilizes the most recent list of designated places produced by the Texas USDA Rural Development State Office. Applicants may petition TDHCA to update the "Rural" designation of an area by providing a letter from a USDA Rural Development official clearly stating that the area is eligible for funding by USDA Rural Development. To treat all applicants equitably, such letter must be provided to TDHCA prior to the commencement of the pre-application submission period for HTC applications, or application submission period for HOME applications.

  a. is located within the boundaries of a metropolitan statistical area (MSA); or
  b. does not meet the Rural Area definition.

Measuring Rural and Urban Affordable Housing Need
The following steps calculate the level of need in rural and urban areas.

1. Need data are adjusted to current year levels by applying a growth factor based on the growth experienced since 2000.
2. The same need measure weights used to determine the regional need distribution are multiplied by the region's funding amount. This product is the measure funding amount.
3. Area level measure data is identified as being rural or urban based on the RAF area definitions.
4. Using the coded area data, each measure's affected number of rural and urban persons or households in the region is calculated.
5. The corresponding measure rural and urban percentages are calculated.
6. For each measure, the regional funding amount is multiplied by the measure rural and urban percentages to calculate the rural and urban measure funding amounts.
7. The rural and urban measure funding amounts are summed for the measures. These totals are the region's rural and urban need based funding amounts.
8. The region's rural and urban need based funding amounts are divided by the region's total funding amount. These quotients provide the region's rural and urban need percentages.

Measuring Rural and Urban Available Resources
The following steps calculate the Rural and Urban distribution of available housing resources.

1. The geographically coded area data is summed to calculate regional rural and urban resource totals. Funding allocated at the county level is proportionately distributed based on the percentage split between rural and urban areas within the county. The resulting totals are the rural and urban resource totals.
2. The corresponding regional rural and urban resource percentages are calculated.

Rural and Urban Available Resources Funding Adjustment
The following steps calculate the rural and urban area resource funding adjustments.

1. The differences between the rural and urban resource percentages and rural and urban need percentages are calculated. The resulting differences show which of the two areas (rural or urban) were over or under allocated.
2. Each over allocated (positive) area resource difference is multiplied by the region's funding amount. For example, if the urban area is over allocated, then the difference is multiplied by the Regional Funding Amount. The resulting product is the area's base resource funding adjustment.
3. The over allocated area's need based funding amount is multiplied by the resource funding adjustment limit. This product is the area's maximum resource funding adjustment.
4. The lesser of the area's base resource funding adjustment or the maximum resource funding adjustment is the area's resource funding adjustment.

Rural and Urban Regional Funding Amounts
The area's over allocated resource funding adjustment is subtracted from the over allocated area's need based funding amount and is added to the under allocated area's need based funding amount.

For the HTC RAF, the regional amount of rural funding is adjusted to a minimum of $500,000, if needed, and the overall state rural percentage of the total tax credit ceiling amount is adjusted to a minimum of 20 percent, if needed.

QUESTIONS AND COMMENTS

HOUSING RESOURCE CENTER

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of the *2009 Affordable Housing Need Score (AHNS) Methodology*

Required Action

Approval of the *2009 AHNS Methodology* is requested.

- See Attachment A for a Summary of Public Comment received during the comment period.
- See Attachment B for the proposed *2009 AHNS Methodology*.
- See Attachment C for the Housing Tax Credit (HTC), Housing Trust Fund (HTF), and HOME Scores as generated by the 2009 AHNS Methodology. Note that the scores may change in the final published version of the AHNS based on Board action at the November 13th meeting.

Background

The AHNS scoring criterion is used to evaluate HOME, HTC, and HTF applications. The formula is submitted annually for public comment. The final methodology and resulting scores are published on the TDHCA website.

While not specifically legislated by the state, the AHNS helps address other need based funding allocation requirements by responding to:

- an IRS Section 42 requirement that the selection criteria used to award the HTC funding must include "housing needs characteristics."
- State Auditor's Office (SAO) and Sunset findings that called for the use of objective, need based criteria to award TDHCA's funding.

Through the AHNS, applicants are encouraged to request funding to serve communities that have a high level of need. The HOME, HTF, and HTC programs use slightly modified versions of the AHNS because the programs have different eligible activities, households, and geographical areas. Under §2306.111(c) of the Texas Government Code, 95 percent of HOME funding is set aside for non-participating jurisdictions (PJ). Therefore, the HOME AHNS only uses need data for non-PJs. The AHNS was made available for public comment from September 19th through October 20th, 2008.

Updated data on the actual number of households served from the TDHCA central database has been incorporated into the AHNS. Staff recommends updating the scores with recent award data until November 21st to allow for any changes in 2008 awards during the November 13th Board meeting.

Recommendation

Approval for the release of the *2009 AHNS Methodology*.

ATTACHMENT A
SUMMARY OF PUBLIC COMMENT

Comment:
Because of the devastation caused by Hurricane Ike, it seems logical to raise the housing needs score to 6 in all cities affected by the Hurricane. (22)

Response:
Recent federal legislation addressing disaster recovery in the wake of Hurricane Ike has targeted a large amount of assistance to the areas impacted by the hurricane. An estimated $42 million in additional housing tax credits will be available to the affected counties for 2008, 2009, and 2010. Additional tax-exempt bond authority has been granted by Congress as well. Furthermore, the State will receive approximately $6.5 billion for hurricane recovery and it is anticipated that a portion will be dedicated to affordable housing. Given the disaster relief funding that is underway and anticipated in the area; staff does not recommend a change to the Affordable Housing Needs Score methodology.

2009 Affordable Housing Needs Score Methodology

Background

The AHNS scoring criterion is used to evaluate HOME, Housing Tax Credit (HTC), and Housing Trust Fund (HTF) applications. The formula is submitted annually for public comment. The final version is published in the SLIHP.

While not specifically legislated by the state, the AHNS helps address other need based funding allocation requirements by responding to:

- an IRS Section 42 requirement that the selection criteria used to award the HTC funding must include "housing needs characteristics."
- State Auditor's Office (SAO) and Sunset findings that called for the use of objective, need based criteria to award TDHCA's funding.

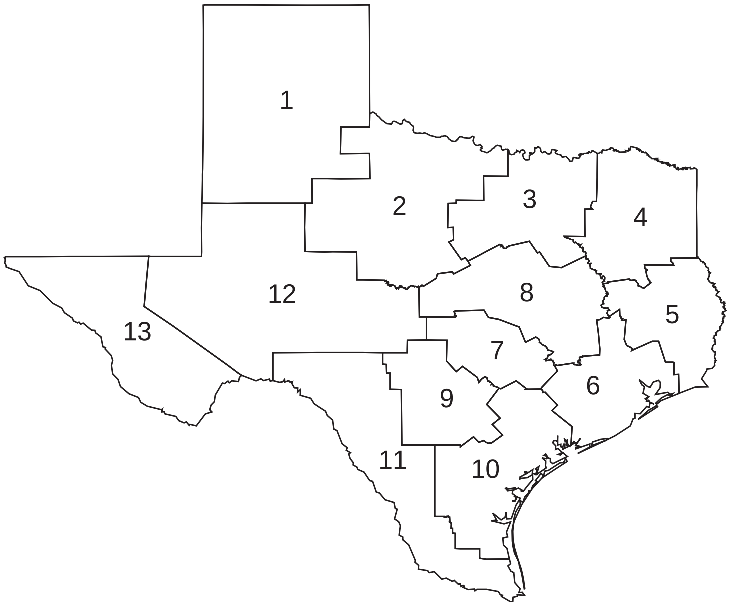

Figure 1. State Service Regions

The AHNS is an extension of the TDHCA Regional Allocation Formula (RAF) in that it provides a comparative assessment of each area's level of need relative to the other areas within its State Service Region. Through the AHNS, applicants are encouraged to request funding to serve communities that have a high level of need.

The HOME, HTF, and HTC programs use slightly modified versions of the AHNS because the programs have different eligible activities, households, and geographical areas. Under §2306.111(c) of the Texas Government Code, at least 95 percent of HOME funding is set aside for non-participating jurisdictions. Therefore, the HOME AHNS only uses need data for non-participating jurisdictions.

Methodology

The following steps measure each area's level of affordable housing need.

1) The Census number of households at or below 80% AMFI with cost burden establishes baseline for each area's number of households in need of housing assistance. The type of household considered for this baseline varies by activity.

   a) Renter data is used for the rental development (RD), tenant based rental assistance (TBRA), and down payment assistance (DPA) scores.
   b) Owner data is used for the owner occupied rehabilitation (OCC) score.

2) For each activity, an adjusted number of households with cost burden is calculated based on the difference between the area's population in the 2000 Census and the most accurate and recent population estimate data available.3) The number of households assisted using TDHCA funding since the Census was taken (April 1, 2000) is subtracted from the adjusted number of households with cost burden. The resulting number shows the area's estimated remaining need.

   a) For HTC scores, RD activity is used;
   b) For HOME and HTF TBRA and RD scores, TBRA[1] and RD activity is used;

---

[1] Because of the limited duration of TBRA, a conversion factor was used to equate the value of a voucher to an affordable housing unit. This factor equaled the voucher duration divided by the number of years since the Census. For 2008, this is 2 years/8 years or an approximate reduction in the number of households in need by 25 percent for each TBRA voucher.

   c) For HOME and HTF DPA scores, First Time Homebuyer and HOME DPA activity is used; and
   d) For HOME and HTF OCC scores, HOME OCC activity is used.

4) The estimated remaining need measure is used to quantify the area's level of need for each scoring activity as measured by the ratio of the area's households in need to the area's total households. This ratio shows the concentration of need within an area.

5) A sliding scale that compares each area's level of need to the region's other areas is used to assign points to each area based on its relative concentration of need (maximum of 6 points).

Rural and Urban Need

Section 2306.111(d) of the Government Code requires the RAF to consider rural and urban areas in its distribution of funds. To assist with this distribution, each area is classified using the RAF's geographic area definitions.

The RAF and AHNS use the following definitions to categorize rural and urban areas.

1. Area **-** The geographic area contained within the boundaries of:
   a. an incorporated place, or
   b. a Census Designated Place (CDP) as established by the U.S. Census Bureau for the most recent Decennial Census.
2. Rural – An Area that is:
   a. outside the boundaries of a metropolitan statistical area (MSA); or
   b. within the boundaries of a MSA, if the Area has a population of 25,000[2] or less and does not share a boundary with an Urban Area.[3]
   c. in an Area that is eligible for funding by the Texas Rural Development Office of the United States Department of Agriculture, other than an Area that is located in a municipality with a population of more than 50,000.[4]
3. Urban – An Area that:
   a. is located within the boundaries of a metropolitan statistical area (MSA); or
   b. does not meet the Rural Area definition.

For the HOME program, a county score is used for activities that will serve more than one Area within a county. If multiple counties or Areas in multiple counties will be served by an application, then the county scores will be averaged. Participating Jurisdictions (PJ) receive a score of zero.

---

[2] The definition of "population" in state law (Sec. 311.005(3), Government Code) is "the population shown by the most recent federal decennial census." Because of this requirement, the decennial census place population must be used to make the area type determination.

[3] Applicants may petition TDHCA to update the "Rural" designation of an incorporated area within a metropolitan statistical area by providing a letter from a local official. Such letter must clearly indicate that the area's incorporated boundary touches the boundary of another incorporated area with a population of over 25,000. To treat all applicants equitably, such letter must be provided to TDHCA prior to the commencement of the pre-application submission period for HTC applications, or application submission period for HOME applications.

[4] TDHCA utilizes the most recent list of designated places produced by the Texas USDA Rural Development State Office. Applicants may petition TDHCA to update the "Rural" designation of an area by providing a letter from a USDA Rural Development official clearly stating that the area is eligible for funding by USDA Rural Development. To treat all applicants equitably, such letter must be provided to TDHCA prior to the commencement of the pre-application submission period for HTC applications, or application submission period for HOME applications.

2009 HTC Affordable Housing Need Scores (AHNS)
Place Level
(Sorted by Region then Place)

Instructions:
Use this table to determine an application's AHNS:
(1) Locate the row that corresponds to the place where the funds will be used.
(2) Development sites located outside the boundaries of a place (as designated by the U.S. Census) will utilize the score of the place whose boundary is closest to the development site.
All questions relating to scoring an application under the AHN Scoring Component should be submitted in writing to Sharon Gamble via facsimile at (512) 475-0764 or by email at sharon.gamble@tdhca.state.tx.us.

2009 HOME Affordable Housing Need Scores (AHNS)
Place Level

(Sorted by Region then Place.)

Instructions:
Use this table to determine the AHNS of an application that will serve a **single** place.
Special Circumstances
(1) Rental Development activities that are not located within a place's jurisdiction will utilize the score of closest place.
(2) Participating Jurisdictions (PJ) recieve a score of zero and are not included in the table.
All questions relating to scoring an application under the AHN Scoring Component should be submitted in writing to Sandy Garcia via facsimile at (512) 475-4798 or by email at sandy.garcia@tdhca.state.tx.us.

2009 HOME Affordable Housing Need Scores (AHNS) County Level

(Sorted by Region then County.)

Instructions:
Use this table to determine an AHNS for an application that will serve an entire county, multiple counties, or multiple places within a county or counties.
Special Circumstances
(1) If multiple counties or places in multiple counties will be served by the application, then the county scores should be averaged.
(2) Participating Jurisdictions (PJ) recieve a score of zero and are not included in the table.
All questions relating to scoring an application under the AHN Scoring Component should be submitted in writing to Sandy Garcia via facsimile at (512) 475-4798 or by email at sandy.garcia@tdhca.state.tx.us.

2009 HTF Affordable Housing Need Scores (AHNS)
Place Level

(Sorted by Region then Place.)

Instructions:
Use this table to determine the AHNS of an application that will serve a **single** place.
Special Circumstances
(1) Rental Development activities that are not located within a place's jurisdiction will utilize the score of closest place.
All questions relating to scoring an application under the AHN Scoring Component should be submitted in writing to Sandy Garcia via facsimile at (512) 475-4798 or by email at sandy.garcia@tdhca.state.tx.us.

2009 HTF Affordable Housing Need Scores (AHNS) County Level

(Sorted by Region then County.)

Instructions:
Use this table to determine an AHNS for an application that will serve an entire county, multiple counties, or multiple places within a county or counties.
Special Circumstances
(1) If multiple counties or places in multiple counties will be served by the application, then the county scores should be averaged.
All questions relating to scoring an application under the AHN Scoring Component should be submitted in writing to Sandy Garcia via facsimile at (512) 475-4798 or by email at sandy.garcia@tdhca.state.tx.us.

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Items

Presentation, Discussion and Possible Approval for Housing Tax Credit Extensions.

Required Action

Approve, Amend or deny the requests for extensions related to one (1) 2004, three (3) 2005, one (1) 2006, and two (2) 2007 Housing Tax Credit commitments.

Background

Pertinent facts about the request for extension are given below. The requests were accompanied by a mandatory $2,500 extension request fee.

HTC No. 05623, Coral Hills Apartments
(Cost Certification Extension)

Summary of Request: Pursuant to §49.15(a) of the 2005 Qualified Allocation Plan "…Developments requesting IRS Forms 8609 must submit the required Cost Certification documentation no later than April 1 of the year following the date the buildings were placed in service...". The owner missed the April 1, 2007 deadline to submit cost certification documentation for the above referenced development. The owner submitted the full cost certification documentation on May 20, 2008 and the Real Estate Analysis Division is currently reviewing the documentation for completeness. The owner's extension request included all documentation necessary to comply with the requirement.

Owner:	Coral Hills Apartments, Ltd.
General Partner:	Summit America Properties XXIII, Inc.
Developer:	Summit Asset Management, LLC
Principals/Interested Parties:	W. Daniel Hughes, Jr.
City/County:	Houston/Harris
Set-Aside:	N/A
Type of Area:	Urban
Type of Development:	Acquisition/Rehab
Population Served:	Family
Units:	173 HTC units
2005 Allocation:	$214,140
Allocation per HTC Unit:	$1238
Extension Request Fee Paid:	$2,500
Current Deadline:	April 1, 2007
New Deadline Requested:	May 20, 2008
New Deadline Recommended:	**May 20, 2008**
Previous Extensions:	N/A
Staff Recommendation:	**Approve the extension as requested.**

HTC No. 05034, Gardens of Taylor
(Cost Certification Extension)

Summary of Request: Pursuant to §49.15(a) of the 2005 Qualified Allocation Plan, "…Developments requesting IRS Forms 8609 must submit the required Cost Certification documentation no later than April 1 of the year following the date the buildings were placed in service...". The owner missed the April 1, 2007 deadline to submit cost certification documentation for the above referenced development. The owner submitted the full cost certification documentation on September 3, 2008 and met the placed in service requirement identified in 49.15(a) of the 2005 Qualified Allocation Plan. Additionally, the owner has requested that the board consider refunding the $2500 extension fee for this extension request due to the owner's staff turnover, which led to the late submission of the cost certification documentation for this Development. The owner's extension request included all documentation necessary to comply with the requirement.

RE: 05-034/08-016 Gardens of Taylor Extension and Application Amendment Fees

Dear Mr. Bedell,

Please find enclosed a check in the amount of $5,000 to cover the above referenced fees. My request for 2-$2,500 checks to cover the fees resulted in one check for the total amount.

I have informed Mr. Ben Sheppard of the nature and handling of the Application Amendment fee so that he may begin work on the application amendment knowing that the fee has been remitted. I would greatly appreciate your sending a short email to notify me and him of its receipt.

Finally, Audrey Martin had indicated there had been some difficulty communicating deficiencies of the final inspection to us. If you could attach those to an email, I will see that we get those addressed and resolved while we are correcting those from the cost certification so that we can ensure all of the deficiencies are corrected in order for the Forms 8609 to be issued timely.

Thank you for all of your assistance and consideration during this process. If there is anything I have overlooked or additional information you require, please feel free to contact me.

Regards,

Kenneth A. Young

RE: 05-034/08-016 Gardens of Taylor Cost Certification

Dear Ms. Martin,

Thank you for your time this afternoon to discuss your email of September 2. I appreciate your informing me that the cost certification packet had arrived so that I knew it had completed its journey through the postal system.

As you will recall from our discussion, I am concerned about the additional $2,500 extension fee. As you are probably aware, these types of projects can ill afford unnecessary costs draining resources. As I shared with you during our telephone conversation, all staff with previous experience preparing and submitting cost certifications with TDHCA were no longer employed when we received your email regarding the original April 1 deadline. Our original extension request was for May 31. This date was selected for two reasons:

1) At that time we had already submitted documents and data to the outside auditor to have the cost certification prepared. Thus we felt that an extension of approximately two (2) months would be sufficient.
2) Although we were unsure as to the exact amount of time we would in fact need to complete the cost certification packet, we believed that a request for the following April 1 or even 6 or 8 months would be viewed as unreasonable. Furthermore, we wanted to convey that the packet was nearly, as we believed at the time, complete.

Several items required in the packet caused our original estimate to be substantially underestimated. The time required to collect or, in some instances, prepare the necessary documents caused our submission to be further delayed. The lack of these documents was due primarily, again, to the absence of any staff with any previous experience with the TDHCA Cost Certification Packet requirements. The delay occurred primarily due to:

Phone (785) 266-6133 info@continentalgroups.com Fax (785) 266-6134

- the LURA being not only unrecorded but not even been fully executed. Although processing of a LURA had begun, there were unresolved deficiencies in it. Not knowing a LURA had been started, a new one was prepared and submitted to TDHCA for review and execution, but was lost at TDHCA. Fortunately, when inquiry was made as to its arrival, the originally submitted LURA was reopened and its deficiencies cured. However, its review and execution by TDHCA and then shipping time back to us and then round trip for recording by the county clerk took considerable time.
- the exhibits requiring the architect's certification had not been submitted to the architect. Due to the time that had elapsed between the completion of the project and the request for such certification, there was some delay while the architect completed these certifications.

These, and other required documents, were pursued as expeditiously as possible while trying to accurately and completely compile the cost certification packet. Although we were unaware of the first deadline of April 1, we diligently pursued meeting the May 31 deadline. Unfortunately, in our inexperience, we did not realize that such a date was extremely underestimated. The resolution of the LURA alone took over one month. Although we do not anticipate having such difficulties in the future, should we again miss the April 1 deadline we will be able to make a much more informed estimate of the requested extension.

While we probably would not have needed an extension at all if the staff that started the processing of the LURA were available, the availability of that staff would have been able to give us better advice on how long the process would take. Simply put, the inexperience of the remaining staff underestimated the time requirement for compiling the cost certification packet. In light of the foregoing, we would ask that you reconsider our original request for extension using a date of August 31 rather than May 31.

Respectfully,

Kenneth A. Young

RE: 05-034/08-016 Gardens of Taylor Application Amendment

Dear Mr. Sheppard,

We have received the Request for Information regarding the cost certification for the above referenced project. Item #3 of that correspondence noted deficiencies in Exhibit 5A Development Summary with Architect's Certification. We are experiencing some difficulty obtaining an updated copy of Exhibit 5A. Once received, it will be forwarded to Mr. Rosalio Banuelos as part of the overall response to the cost certification deficiency notice.

First, in regards to the number of uncovered parking spaces, we would like to formally amend the application. The application shows 70 uncovered parking spaces and 22 "Clubhouse Parking Spaces" for a total of 92 parking spaces. The 70 uncovered spaces represent the total driveway parking spaces for the units (34-2 car garage and 2-1 car garage). The preliminary sketch of the site and the site plan both show two (2) rows of seven (7) spaces to the east of the community building, between it and Sloan Street. These 14 "Clubhouse Parking Spaces" plus the 70 spaces at the units makes the total uncovered parking spaces available 84. Moving the parking around to the front of the Community Building further reduced that number to 9 "clubhouse" spaces for a total of 79 which is the number of surface spaces to which the architect has certified. There has been no change in the number of surface spaces available for the tenant's use and we do not anticipate the reduction in clubhouse parking spaces to have any negative impact upon the community.

Second, in regards to the amenities to which the architect certified, we would like to formally amend and substitute the selected amenities. Two (2) of the noted amenities (covered entries and senior activity room) were, in fact, present and the architect simply failed to certify their presence. Two (2) other amenities (the horseshoe pit and mini-blinds) were put into place after the architect's last site visit during the construction process, which is why he did not certify them the first time. One (1) of the amenities (30-year architectural shingle roofing), through a communication failure by our construction manager, was not communicated to the architect or contractor. Consequently, "Comp Shingle (25-year)", as certified by the architect, is what was written in the project specifications and used in the construction. We would like to amend the application to substitute the following amenities in place (as certified by the architect) as correction of that deficiency: 1) Full perimeter fencing, 2) Equipped Business Center (computer & fax machine), 3) Library (separate from community room), 4) Self or continuous cleaning range, and 5) Central air system (14 SEER). These substitutions will increase the security, quality of life, and energy efficiency of the project to offset any negative impact due to the shorter life of the committed roofing materials. We further believe that the net effect on application points would be equal to or greater than the points awarded for the amenities to which we originally committed.

Finally, we had requested and been granted an extension of the April 1 cost certification deadline. The extended deadline of May 31 turned out to be overly optimistic on our part, due in large part to the inexperience of the newly hired staff with the Texas regulations. Therefore we have a second extension request (for August 31) that will be placed before the Board at its November meeting. In an effort to reduce the costs on a project that operates in an industry with severely limited cash flow to begin with, I would request that the extension and application amendment requests be combined into a single presentation before the Board.

I have made a similar request regarding the extension fee. Kent Bedell has explained to me that the $2,500 fee will be required in order for the extension request to go before the Board. At that time, the Board will also consider the request to waive the fee. If the decision is in our favor, then the fee would be refunded. I would expect the same process for this request. My check request for the fees resulted in one $5,000 check. I have forwarded that check, along with a letter detailing the amount and its dual purpose, to Mr. Bedell. I have enclosed a copy of the check and the letter for your reference.

As I pointed out at the outset, this application is part of the response to the cost certification review currently underway. I believe that most, if not all, of the requested documentation that is required to accompany such a request will be found there. If not, or if there is something I have omitted, please contact me directly. Thank you for your assistance and consideration in this process.

Respectfully,

Kenneth A. Young

Re: Extension for Artisan at Mission Creek Cost Certification Package (TDHCA # 060409)

Dear Mr. Bedell,

As required by the 2006 QAP, Franklin Development is requesting an extension on the submission of the Artisan at Mission Creek Cost Certification which was submitted to TDHCA August 2008. (8/18/08)

The delay in our submission was due to additional requirements needed by the auditor, Novogradac. These items took additional time to compile causing the delay in our submission. The required fee of $2,500 is submitted with this request per your instructions.

If you have any further questions, please don't hesitate to contact me.

Sincerely,

Ryan Wilson

Request for extension of time—late cost certification

Dear Rosalio:

Please accept this letter as our request for an extension of time to submit the cost certification past the January 15, 2008 deadline. The accountants were not able to submit cost certifications by January 15, 2008 due to the following reasons:

1. 100% of project costs were not recorded until March 2008.
2. The information to place buildings service and deem them qualified to recognize tax credits is available up to December 31, 2007. The calculation to qualify the buildings as able to recognize credit may not be finalized until post December 31, 2007.
3. The process to record the costs associated for year end 2007 and transfer the information financial statements as is required by the accountants surpasses December 31, 2007.
4. The process which the accountant's follow to verify, calculate and determine eligible basis as well as certify to the report exceeds the January 15 deadline as determined by TDHCA.

We have also enclosed our check number 8373 in the amount of $2500 as fees for this request.

Thank you for your review of the above. If you have any questions, please do not hesitate to contact me at 512 494 8200 ext. 212.

Sincerely,

Housing Tax Credit Program
Board Action Request
November 13, 2008

Action Item

Request review and board determination of one (1) four percent (4%) tax credit application with another issuer for tax-exempt bond transaction.

Recommendation

Staff is recommending that the board review and approve the issuance of one (1) four percent (4%) Tax Credit Determination Notices with **another issuer** for the tax-exempt bond transaction known as:

Development No.	Name	Location	Issuer	Total Units	LI Units	Total Development	Applicant Proposed Tax Exempt Bond Amount	Requested Credit Allocation	Recommended Credit Allocation
08419	Chaminade Apartments	San Antonio	San Antonio Housing Trust Fund HFC	200	200	$12,693,440	$7,250,000	$485,141	$481,307

MULTIFAMILY FINANCE PRODUCTION DIVISION
BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Issuance of Determination Notices for Housing Tax Credits associated with Mortgage Revenue Bond Transactions with other Issuers.

Requested Action

Approve, Amend or Deny the staff recommendation for Chaminade Apartments in San Antonio, #08419.

Summary of the Transaction

Background and General Information: The application was received on September 12, 2008. The Issuer for this transaction is San Antonio Housing Trust Finance Corporation with a reservation of allocation that expires on February 14, 2009. The development is acquisition and rehabilitation and will consist of 200 total units targeting the general population. All of the units (100%) are proposed to be restricted at 60% Area Median Family Income (AMFI). The proposed development will be located in San Antonio, Bexar County. The site is currently zoned for this type of development. The financing structure for this application indicates the bonds will be credit enhanced by Freddie Mac. Given the instability in the housing economic market, the applicant has indicated that Freddie Mac has committed to provide the credit enhancement financing for applications that were already in their pipeline. The Department has requested a copy of that letter; however, as of the date of this posting that letter has not been received.

Organizational Structure and Compliance: The Borrower is SAAHC Chaminade Apartments, L.P. and the General Partner is SAAHC Chaminade Apartments GP, LLC, of which the San Antonio Alternative Housing Corporation has 100% ownership interest. The Compliance Status Summary completed on October 13, 2008 reveals that the principals of the general partner have received five (5) multifamily awards that have been monitored with no material non-compliance.

Census Demographics: The development is to be located at 330 West Cheryl in San Antonio. Demographics for the census tract (1804.00) include AMFI of $34,248; the total population is 4,025; the percent of population that is minority is 90.43%; the percent of population that is below the poverty line is 32.60%; the number of owner occupied units is 539; the number of renter units is 820 and the number of vacant units is 72. (Census information from FFIEC Geocoding for 2008).

Public Comment: The Department has received no letters of support or opposition.

Recommendation

Staff recommends the Board approve the issuance of a Determination Notice of $481,307 in Housing Tax Credits for Chaminade Apartments.

Additionally, it is a condition of the Real Estate Analysis report that the Applicant submits to the Department a copy of the final executed Freddie Mac Commitment no later than November 12, 2008 and also submits, by this date, documentation from HUD that the anticipated increased HAP rents are achievable.

Units per Building		16	8	8	16	16	8	8				**200**	**152,800**

Development Plan:

The Applicant provided a Property Condition Assessment reflecting the following scope of work:

The apartment buildings will be renovated without the demolition of any buildings. The only interior demolition will occur in the 10 units that will be gutted and converted to fully ADA compliant units. The property currently does not have any ADA units. A full rehabilitation of the interior and the exterior of the units is proposed. Interior renovation will consist of new appliances, new flooring to include wood plank vinyl in the living areas and carpet in the bedrooms, cabinets and counter tops in the kitchens and bathrooms will be replaced where needed, new ceiling fans and light fixtures in the bedrooms and in the living room, and new interior doors. Exterior renovation will consist of new roofs, new energy efficient double paned windows, new exterior doors, new paint, new A/C units, repaired plumbing and sewer, restriped and sealed parking lot, and wrought iron parameter fencing where needed.

This section intentionally left blank.

A new swimming pool will be built and new playground equipment installed. The storage area in the leasing office will be converted to a community Learning Center with a computer lab. The laundry center will be completely renovated with new washer and dryer equipment installed.

Review of the original Property Condition Assessment (PCA) prepared by EMG revealed discrepancies between the construction costs identified in the PCA versus those identified in the Applicant's development cost schedule. After discussions with the Applicant regarding these differences, the Applicant provided a revised PCA reconciling the differences identified previously. The revised report was not materially different than the original PCA provided and included additional construction costs not included in the original report.

Relocation Plan:

The Applicant plans no permanent displacement or permanent relocation of existing residents by reason of the rehabilitation of the property.

HIGHLIGHTS of ENVIRONMENTAL REPORTS

Provider: AMEC Earth & Environmental, Inc.
Date: 9/9/2008

Recognized Environmental Concerns (RECs) and Other Concerns:

- The assessment has revealed no evidence of recognized environmental conditions in connection with the property other than what is detailed below:
- There are 16 pad-mounted electrical transformers on the subject property. These transformers are believed to be owned and maintained by CPS Energy. One of the older pad-mounted electrical transformers located on the northeast portion of the site behind Building 16 exhibited evidence of transformer oil leakage. No obvious surface soil staining was noted at the transformer location. AMEC recommends that the oily substance be sampled and analyzed for PCTs by the transformer owner. PCB analysis of the surface soils immediately joining the base of the transformer should also be conducted. Additionally, a request for repair or replacement should also be forwarded to the transformer owner.
- Therefore, this report is conditioned upon receipt, review and acceptance, by cost certification, of documentation that the soil surrounding the transformer behind building 16 has been tested and the repair or replacement of the transformer has been completed.

Primary Market Area (PMA): 17.25 square miles (2.3 miles radius)

The boundaries of the Primary Market Area follow those of the census tracts as listed: 480291704.01 480291705.00 480291706.00480291707.00 480291713.00 480291801.00 480291802.01 480291802.02 480291803.00 480291804.00 480291805.01 480291805.03 480291805.04 480291806.01 480291806.02 480291816.01 480291816.02 480291905.01 480291906.01. These boundaries approximately follow as such: North: Interstate 10 / Loop 410, East: Interstate 10, South: Culebra Road, and West: Loop 410.

Secondary Market Area (SMA):

A secondary market was not identified in the Market Study.

INCLUSIVE CAPTURE RATE						
	Subject Units	Unstabilized Comparable (PMA)	Unstabilized Comparable (25% SMA)	Total Supply	Total Demand (w/25% of SMA)	Inclusive Capture Rate
Market Analyst p. 58	200	0	0	200	1,631	12.3%
Underwriter	200	0	0	200	1,105	18.1%
HISTA-Based Data Alternate	200	0	0	200	333	60.0%

The Underwriter calculated an inclusive capture rate utilizing the HISTA-based data alternative method and concluded a capture rate of 60%, which is above the Department's 25% guideline for family developments. However, the Underwriter was able to corroborate the Market Analyst's calculations using the traditional method of calculating demand and found the capture rate conclusions using this method to be acceptable.

Primary Market Occupancy Rates:

"The current occupancy of the market area is 94.1% as a result of stable demand." (p. 10)

Absorption Projections:

"Absorption over the previous eight years for all unit types has been 120 units per year. We expect absorption to increase as the number of new household continues to grow, and as additional rental units become available." (p. 11)

Unit Type (% AMI)	Current Contract Rent	Proposed Contract Rent	Market Rent	Underwriting Rent	Increase Over Contract
1 BR 595 SF HAP	$367	$510	$560	$510	$143
2 BR 768 SF HAP	$415	$625	$625	$625	$210
3 BR 925 SF HAP	$443	$690	$725	$690	$247

Market Impact:

"The proposed project is not likely to have a dramatically detrimental effect on the balance of supply and demand in this market. Affordable projects are 95.2% occupied. Affordable family projects are 93.9% occupied. This demonstrates that the demand for new affordable rental housing is high." (p. 14)

Comments:

The Market Analyst has provided a market study that meets the Department's guidelines and results in an inclusive capture rate below the 25% maximum for family transactions. Moreover, the property is currently 96% occupied according to the rent roll as of January 2008 provided in the application.

OPERATING PROFORMA ANALYSIS

Income: Number of Revisions: None Date of Last Applicant Revision: N/A

The Applicant's net rents for all of the units are anticipated HAP Contract rents that have not yet been approved by HUD. The anticipated HAP Contract rents are, on average, 48% higher than the current HAP Contract rent levels. This is a significant increase that the Applicant is proposing and based on the Underwriter's analysis, at least this amount of increase is necessary in order for the development to maintain a minimum DCR of 1.15. Due to the significant increase anticipated, the Underwriter has asked the Applicant to provide some sort of documentation that conversations with HUD regarding the proposed increased HAP rents has occurred and that HUD is in agreement that the proposed rents are achievable. As a result, receipt, review and acceptance of this documentation by the November 13th Board meeting is a condition of this report. The property currently receives rental assistance on only 40 units. The market study reflects market rents that are at or slightly above the anticipated levels, which suggests that the anticipated rent levels would be achievable in this market.

The Underwriter has used the Applicant's anticipated basic rents for all units, but receipt, review, and acceptance, by cost certification, of documentation that HUD has approved the proposed increase in the HAP rents via a newly executed HAP contract is a condition of this report. The Applicant's secondary income and vacancy and collection loss estimates are in line with Department standards.

This section intentionally left blank.

Expense: Number of Revisions: None Date of Last Applicant Revision: N/A

The Applicant total expense estimate of $4,027 per unit is within 5% of the Underwriter's estimate of $4,108 per unit derived from actual 2007 operating statements for the property, the TDHCA database, and IREM data. In addition, the Applicant's estimates of several line items differ significantly from the Underwriter's, including: general & administrative (27.0K lower), and property tax ($14.5K lower).

The Application does not anticipate a property tax exemption due to the participation of the San Antonio Alternative Housing Corporation in the ownership structure. The actual operating statements reflect no property taxes have been paid for the past two years and the Bexar County Appraisal District website reflects that the property, under the current owner, has a full property tax exemption. Of note, recent conversations with the Applicant reveal that the Applicant will apply to receive a 50% property tax exemption, but this expectation was not reflected in the application exhibits due to the uncertainty of being able to receive the exemption. For purposes of this analysis the Underwriter included a full property tax estimate consistent with the Applicant's expectations of paying property taxes. However, should the development receive a full or partial property exemption the year one proforma would still be acceptable with a DCR that falls within the Department's guidelines.

Conclusion:

The Applicant's estimate of income, expenses and NOI are all within 5% of the Underwriter's estimate; therefore, the Applicant's Year One proforma is used to determine the development's debt capacity and debt coverage ratio (DCR). The proposed permanent financing structure results in an initial year's debt coverage ratio (DCR) of 1.20.

Feasibility:

The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Applicant’s base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.15 with positive cashflow through Year 15. Therefore, the development can be characterized as feasible.

ACQUISITION INFORMATION

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE Number of Revisions: One Date of Last Applicant Revision: 10/8/2008

Acquisition Value:

The site cost of $17,000 per unit is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost:

Since this is a proposed rehabilitation the associated sitework costs are minimal. The Applicant has estimated sitework costs of $2,618 per unit, which is slightly less than the estimate in the Property Condition Assessment provided. The underwriting analysis will reflect the value in the PCA.

Direct Construction Cost:

The Applicant's direct construction cost estimate is $3,387 higher than the estimate provided in the Property Condition Assessment (PCA). The underwriting analysis will reflect the PCA value.

Contingency & Fees:

The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion:

The Underwriter's cost schedule was derived from the PCA and information presented in the Application materials submitted by the Applicant. Any deviations from the Applicant's estimates are due to program and underwriting guidelines. Therefore, the Underwriter's development cost schedule will be used to determine the development's need for permanent funds and calculate eligible basis. An eligible basis of $11,082,023 supports annual tax credits of $481,307. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

Issuer: San Antonio Housing Trust FC
Source: Wachovia Securities Type: **Interim to Permanent Bond Financing**
Tax-Exempt: $7,240,000 Interest Rate: 5.31% ☐ Fixed Amort: 420 months

Comments:

During the construction period and stabilization years the interest rate will be 4.36% and require interest only payments during the 24 months the Letter of Credit will be in place. The permanent rate will be variable during the term of the permanent loan based on the actual weekly remarketing of the bonds using the Variable Rate Demand Bond process. For purposes of this analysis, the Underwriter used the underwritten tax-exempt interest rate as defined in the commitment letter of 3.66% swap rate plus 165.5 basis points (credit enhancement, swap enhancement and liquidity fee of 108 bp; lender servicing fee of 44 bp; remarketing fee of 10 bp; and trustee and issuer fees of 3.5 bp).

Source: San Antonio Housing Trust Foundation Type: **Permanent Financing**
Principal: $600,000 Interest Rate: 5.0% ☒ Fixed Amort: 420 months

Comments:

All principal and interest payments will be deferred for 2 years and will not accrue.

Source: San Antonio Alternative Housing Corp. Type: **Permanent Financing**
Principal: $50,000 Interest Rate: 5.0% ☒ Fixed Amort: 420 months

Comments:

Payable with available cash flow only

Source: First Sterling Financial Inc. Type: **Syndication**

Proceeds: $4,074,369 Syndication Rate: 84% Anticipated HTC: $ 485,141

Comments:

The committed credit price appears to be consistent with recent trends in pricing. However, the Underwriter has performed a sensitivity test and determined that the credit price can decline to $0.65. At this point the financial viability of the transaction may be jeopardized. Alternatively, should the final credit price increase to $0.94 all deferred developer fees would be eliminated and an adjustment to the credit amount may be warranted.

Due to the uncertainty in the market and the potential for such movement in both equity pricing and interest rates, this report is conditioned upon updated loan and equity commitments at the submission of carryover. Should the revised commitments reflect changes in the anticipated permanent interest rate and equity price, a re-evaluation of the financial feasibility of the transaction should be conducted.

Amount: $727,005 Type: **Deferred Developer Fees**

CONCLUSIONS

Recommended Financing Structure:

The Underwriter's total development cost estimate less the permanent loan of $7,240,000 and the $600,000 San Antonio Housing Trust loan and the $50,000 SAAHC loan indicates the need for $4,803,440 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $571,953 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Applicant's request of ($485,141), the gap-driven amount ($571,953), and eligible basis-derived estimate of ($481,307), the eligible basis-derived estimate of $481,307 is recommended resulting in proceeds of $4,042,173 based on a syndication rate of 84%.

The Underwriter's recommended financing structure indicates the need for $761,267 in additional permanent funds. Deferred developer and contractor fees in this amount appear to be repayable from development cashflow within five years of stabilized operation.

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Presentation, Discussion and Possible Approval of Resolution Authorizing the Filing of Applications to the Texas Bond Review Board for H.R. 3221 Multifamily Private Activity Bond Authority. Resolution Nos. 09-005 and 09-012.

Requested Action

Approve the Resolutions authorizing the filing of applications to the Texas Bond Review Board for reservation of H.R. 3221 Multifamily Private Activity Bond Authority.

Background

The Housing and Economic Recovery Act of 2008 (H.R. 3221), signed into law on July 30, 2008, provides $11 billion in new tax-exempt volume cap authority for single family and multifamily housing development throughout the country (apportioned based on population) for use through the end of the year 2010. Any unused new authority allocated in 2008 can be carried forward but only for housing issues. The State of Texas is projected to receive $748 million for use over the next two and a half years.

Staff has participated in working group meetings with the Texas Association of Local Housing Finance Agencies (TALHFA), the Texas State Affordable Housing Corporation (TSAHC) and the Texas Bond Review Board (TBRB) to help draft rules relating to the distribution and use of the $748 million. The TBRB approved, on August 29, 2008, emergency rules relating to the distribution of this new volume cap. Staff is confident that the Department will be able to utilize a portion of this additional volume cap over the time allotted to help finance multifamily developments and is requesting $90 million to finance approximately six multifamily developments.

In addition to the $90 million, staff is hereby requesting that the Executive Director be granted the authority to reserve any of the H.R. 3221 volume cap that remains unused prior to the deadline for which carryforward by an issuer must be made. To mitigate the risk of having the allocation go unused, it is the intent of the Department to partner with any local HFA's (housing finance agencies) should they receive applications for multifamily developments. Staff is requesting the Board's approval for the Executive Director to negotiate a fee structure with local HFA's to fully utilize the additional allocation.

Recommendation

Approve the Resolution authorizing the filing of applications to the Texas Bond Review Board for reservation of $90 million in H.R. 3221 Multifamily Private Activity Bond Authority.

Approve the Resolution authorizing the filing of applications to the Texas Bond Review Board for reservation of any unused H.R. 3221 Multifamily Private Activity Bond Authority in an amount to be determined by the Executive Director but not to exceed $400 million.

Resolution No. 09-005

RESOLUTION AUTHORIZING THE FILING OF AN APPLICATION FOR RESERVATION WITH TEXAS BOND REVIEW BOARD WITH RESPECT TO EMERGENCY HOUSING VOLUME CAP FOR QUALIFIED RESIDENTIAL RENTAL PROJECTS UNDER THE HOUSING AND ECONOMIC RECOVERY ACT OF 2008; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended, (the "Act") for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for persons and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by persons and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, pursuant to Section 3021 of the Housing and Economic Recovery Act of 2008, additional private activity bond volume cap for qualified mortgage bonds and qualified residential rental projects has become available to the State of Texas (the "Emergency Housing Volume Cap"); and

WHEREAS, in order to reserve a portion of the Emergency Housing Volume Cap for bonds (the "Reservation"), and to satisfy the requirements of Section 146(a) of the Internal Revenue Code of 1986, as amended (the "Code"), the Board has determined to file an application for reservation for Emergency Housing Volume Cap for one or more issues described in Section 142(a)(7) of the Code relating to qualified residential rental projects (the "Application for Reservation") with the Texas Bond Review Board (the "Bond Review Board"), in the manner authorized by Section 146(e) of the Code;

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

Section 1 - Application for Reservation. The Board hereby authorizes Vinson & Elkins L.L.P., as Bond Counsel to the Department, to file on its behalf with the Bond Review Board the Application for Reservation in the maximum amount of $90,000,000, together with any other documents and opinions required by the Bond Review Board as a condition to the granting of the Reservation.

Section 2 - Authorization of Certain Actions. The Board authorizes the Executive Director, the staff of the Department, as designated by the Executive Director, and Bond Counsel to take such actions on its behalf as may be necessary to carry out the purposes of this Resolution. The Executive Director, the staff of the Department, as designated by the Executive Director, and Bond Counsel are further authorized to submit to the Bond Review Board an election to carry forward the Reservation.

Section 3 - Purposes of Resolution. The Board has expressly determined and hereby confirms that the issuance of the bonds will accomplish a valid public purpose of the Department by providing for the housing needs of persons and families of low, very low and extremely low income and families of moderate income in the State.

Section 4 - Effective Date. This Resolution shall be in full force and effect from and upon its adoption.

Section 5 - Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

RESOLUTION AUTHORIZING THE FILING OF AN APPLICATION FOR RESERVATION WITH TEXAS BOND REVIEW BOARD WITH RESPECT TO UNRESERVED EMERGENCY HOUSING VOLUME CAP FOR QUALIFIED RESIDENTIAL RENTAL PROJECTS UNDER THE HOUSING AND ECONOMIC RECOVERY ACT OF 2008; AND CONTAINING OTHER PROVISIONS RELATING TO THE SUBJECT

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended, (the "Act") for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for persons and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by persons and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, pursuant to Section 3021 of the Housing and Economic Recovery Act of 2008, additional private activity bond volume cap for qualified mortgage bonds and qualified residential rental projects has become available to the State of Texas (the "Emergency Housing Volume Cap"); and

WHEREAS, in order to reserve a portion of the Emergency Housing Volume Cap for bonds (the "Reservation"), and to satisfy the requirements of Section 146(a) of the Internal Revenue Code of 1986, as amended (the "Code"), the Board has determined to file an application for reservation for Emergency Housing Volume Cap for one or more issues described in Section 142(a)(7) of the Code relating to qualified residential rental projects (the "Application for Reservation") with the Texas Bond Review Board (the "Bond Review Board"), in the manner authorized by Section 146(e) of the Code;

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BOARD OF THE TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS THAT:

<u>Section 1 - Application for Reservation</u>. The Board hereby authorizes Vinson & Elkins L.L.P., as Bond Counsel to the Department, to file on its behalf with the Bond Review Board the Application for Reservation in an amount not to exceed $400,000,000 of the unreserved portion of the State's Emergency Housing Volume Cap, together with any other documents and opinions required by the Bond Review Board as a condition to the granting of the Reservation.

<u>Section 2 - Authorization of Certain Actions.</u> The Board authorizes the Executive Director, the staff of the Department, as designated by the Executive Director, and Bond Counsel to take such actions on its behalf as may be necessary to carry out the purposes of this Resolution. The Executive Director,

the staff of the Department, as designated by the Executive Director, and Bond Counsel are further authorized to submit to the Bond Review Board an election to carry forward the Reservation.

Section 3 - Purposes of Resolution. The Board has expressly determined and hereby confirms that the issuance of the bonds will accomplish a valid public purpose of the Department by providing for the housing needs of persons and families of low, very low and extremely low income and families of moderate income in the State.

Section 4 - Effective Date. This Resolution shall be in full force and effect from and upon its adoption.

Section 5 - Notice of Meeting. REQUEST FOR BOARD ACTION
Multifamily Finance Production

Private Activity Bond Program – Waiting List

1 Priority 2 Application for 2008 Waiting List

TABLE OF EXHIBITS

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST

November 13, 2008

Action Item

Presentation, Discussion and Possible Action for the Inducement Resolution Declaring Intent to Issue Multifamily Housing Mortgage Revenue Bonds for Developments throughout the State of Texas and Authorizing the Filing of related Applications for the Allocation of Private Activity Bonds with the Texas Bond Review Board for Program Year 2008, Resolution No. 09-013.

Requested Action

Approve the Inducement Resolution to proceed with application submission to the Texas Bond Review Board for possible receipt of State Volume Cap issuance authority from the 2008 Private Activity Bond Program for one (1) application.

Background

The Texas Bond Review Board (BRB) administers the state's annual bond authority for the State of Texas. The Department is an issuer of Private Activity Bonds through the bond program. Each issuer's Board is required to induce an application for bonds prior to the submission to the BRB. The Board approval of the inducement resolution is the first step for the Board in the application process. The inducement allows staff to submit the application to the BRB to await a reservation of allocation. Once the application receives a reservation of allocation, the Applicant has 150 days to close on the private activity bond transaction. During the 150 day process, the Department will review the Applicant's complete application for threshold and compliance with the Department's Rules and is underwritten to determine financial feasibility. The Department will schedule and conduct a public hearing in the community of the proposed location of the development. The complete application including a transcript from the hearing will then be presented before the Board again for a decision on the actual issuance of the bonds as well as the allocation of housing tax credits.

Each year, the State of Texas is notified of the cap on the amount of private activity tax-exempt revenue bonds that may be issued within the state. Approximately $440 million is set aside for multifamily until August 7th for the 2008 bond program year. From this pool of funds, TDHCA has a set aside of approximately $89 million available for new 2008 applications. If the Board approves the Waiting List application listed below it will be submitted to the Texas Bond Review Board.

Inducement Resolution 09-013 includes one (1) application that was received on or before October 9, 2008. The application will reserve approximately $15 million in 2008 state volume cap. Upon Board approval to proceed, the application will be submitted to the Texas Bond Review Board for placement on the 2008 Waiting List. The TDHCA Board has previously approved twelve (12) applications for the 2008 program year and has closed two (2) applications.

<u>Costa Mariposa, App. #08617</u>– The proposed new construction will consist of 252 units and will target the general population. It will be located on the north side of Monticello Drive, directly east of the College of the Mainland and approximately 50 yards northwest of the intersection of Monticello Drive and N. Vauthier Road, Texas City, Galveston County. Demographics for the census tract (7227.00) include AMFI of $44,310; the total population is 3,942; the percent of the population that is minority is

93.38%; the number of owner occupied units is 1,067; number of renter occupied units is 392; and the number of vacant units is 112. (Census Information from FFIEC Geocoding for 2008).

Public Comment: The Department has not received any letters of support or opposition.

Recommendation

Approve the Inducement Resolution as presented by staff. Staff will present all appropriate information to the Board for a final determination for the issuance of the bonds and housing tax credits during the full application process for the bond issuance.

RESOLUTION NO. 09-013

RESOLUTION DECLARING INTENT TO ISSUE MULTIFAMILY REVENUE BONDS WITH RESPECT TO RESIDENTIAL RENTAL DEVELOPMENTS; AUTHORIZING THE FILING OF APPLICATIONS FOR ALLOCATIONS OF PRIVATE ACTIVITY BONDS WITH THE TEXAS BOND REVIEW BOARD; AND AUTHORIZING OTHER ACTION RELATED THERETO

WHEREAS, the Texas Department of Housing and Community Affairs (the "Department") has been duly created and organized pursuant to and in accordance with the provisions of Chapter 2306, Texas Government Code, as amended, (the "Act") for the purpose, among others, of providing a means of financing the costs of residential ownership, development and rehabilitation that will provide decent, safe, and affordable living environments for persons and families of low, very low and extremely low income and families of moderate income (all as defined in the Act); and

WHEREAS, the Act authorizes the Department: (a) to make mortgage loans to housing sponsors to provide financing for multifamily residential rental housing in the State of Texas (the "State") intended to be occupied by persons and families of low, very low and extremely low income and families of moderate income, as determined by the Department; (b) to issue its revenue bonds, for the purpose, among others, of obtaining funds to make such loans and provide financing, to establish necessary reserve funds and to pay administrative and other costs incurred in connection with the issuance of such bonds; and (c) to pledge all or any part of the revenues, receipts or resources of the Department, including the revenues and receipts to be received by the Department from such multifamily residential rental development loans, and to mortgage, pledge or grant security interests in such loans or other property of the Department in order to secure the payment of the principal or redemption price of and interest on such bonds; and

WHEREAS, it is proposed that the Department issue its revenue bonds for the purpose of providing financing for multifamily residential rental developments (each a "Development" and collectively, the "Developments") as more fully described in Exhibit A attached hereto. The ownership of each Development as more fully described in Exhibit A will consist of the ownership entity and its principals or a related person (each an "Owner" and collectively, the "Owners") within the meaning of the Internal Revenue Code of 1986, as amended (the "Code"); and

WHEREAS, each Owner has made not more than 60 days prior to the date hereof, payments with respect to its respective Development and expects to make additional payments in the future and desires that it be reimbursed for such payments and other costs associated with each respective Development from the proceeds of tax-exempt and taxable obligations to be issued by the Department subsequent to the date hereof; and

WHEREAS, each Owner has indicated its willingness to enter into contractual arrangements with the Department providing assurance satisfactory to the Department that 100 percent of the units of its Development will be occupied at all times by eligible tenants, as determined by the Board pursuant to the Act ("Eligible Tenants"), that the other requirements of the Act and the Department will be satisfied and that its Development will satisfy State law, Section 142(d) and other applicable Sections of the Code and Treasury Regulations; and

WHEREAS, the Department desires to reimburse each Owner for the costs associated with its Development listed on Exhibit A attached hereto, but solely from and to the extent, if any, of the proceeds of tax-exempt and taxable obligations to be issued in one or more series to be issued subsequent to the date hereof; and

WHEREAS, at the request of each Owner, the Department reasonably expects to incur debt in the form of tax-exempt and taxable obligations for purposes of paying the costs of each respective Development described on Exhibit A attached hereto; and

WHEREAS, in connection with the proposed issuance of the Bonds (defined below), the Department, as issuer of the Bonds, is required to submit for each Development an Application for Allocation of Private Activity Bonds (the "Application") with the Texas Bond Review Board (the "Bond Review Board") with respect to the tax-exempt Bonds to qualify for the Bond Review Board's Allocation Program in connection with the Bond Review Board's authority to administer the allocation of the authority of the state to issue private activity bonds; and

WHEREAS, the Board intends that the issuance of Bonds for any particular Development is not dependent or related to the issuance of Bonds (as defined below) for any other Development and that a separate Application shall be filed with respect to each Development; and

WHEREAS, the Board has determined to declare its intent to issue its multifamily revenue bonds for the purpose of providing funds to each Owner to finance its Development on the terms and conditions hereinafter set forth; NOW, THEREFORE,

BE IT RESOLVED BY THE BOARD THAT:

Section 1--Certain Findings. The Board finds that:

(a) each Development is necessary to provide decent, safe and sanitary housing at rentals that individuals or families of low and very low income and families of moderate income can afford;

(b) each Owner will supply, in its Development, well-planned and well-designed housing for individuals or families of low and very low income and families of moderate income;

(c) the financing of each Development is a public purpose and will provide a public benefit;

(d) each Owner is financially responsible; and

(e) each Development will be undertaken within the authority granted by the Act to the Department and each Owner.

Section 2--Authorization of Issue. The Department declares its intent to issue its Multifamily Housing Revenue Bonds (the "Bonds") in amounts estimated to be sufficient to (a) fund a loan or loans to each Owner to provide financing for its Development in an aggregate principal amount not to exceed those amounts, corresponding to each respective Development, set forth in Exhibit A; (b) fund a reserve fund with respect to the Bonds if needed; and (c) pay certain costs incurred in connection with the issuance of the Bonds. Such Bonds will be issued as qualified residential rental development bonds. Final approval of the Department to issue the Bonds shall be subject to: (i) the review by the Department's credit underwriters for financial feasibility; (ii) review by the Department's staff and legal counsel of compliance with federal income tax regulations and state law requirements regarding tenancy in each Development; (iii) approval by the Bond Review Board, if required; (iv) approval by the Attorney General of the State of Texas (the "Attorney General"); (v) satisfaction of the Board that each Development meets the Department's public policy criteria; and (vi) the ability of the Department to issue such Bonds in compliance with all federal and state laws applicable to the issuance of such Bonds.

Section 3--Terms of Bonds. The proposed Bonds shall be issuable only as fully registered bonds in authorized denominations to be determined by the Department; shall bear interest at a rate or rates to be determined by the Department; shall mature at a time to be determined by the Department but in no event later than 40 years after the date of issuance; and shall be subject to prior redemption upon such terms and conditions as may be determined by the Department.

Section 4--Reimbursement. The Department reasonably expects to reimburse each Owner for all costs that have been or will be paid subsequent to the date that is 60 days prior to the date hereof in connection with the acquisition of real property and construction of its Development and listed on Exhibit A attached hereto ("Costs of each respective Development") from the proceeds of the Bonds, in an amount which is reasonably estimated to be sufficient: (a) to fund a loan to provide financing for the acquisition and construction or rehabilitation of its Development, including reimbursing each Owner for all costs that have been or will be paid subsequent to the date that is 60 days prior to the date hereof in connection with the acquisition and construction or rehabilitation of its Development; (b) to fund any reserves that may be required for the benefit of the holders of the Bonds; and (c) to pay certain costs incurred in connection with the issuance of the Bonds.

Section 5--Principal Amount. Based on representations of each Owner, the Department reasonably expects that the maximum principal amount of debt issued to reimburse each Owner for the costs of its respective Development will not exceed the amount set forth in Exhibit A which corresponds to its Development.

Section 6--Limited Obligations. The Owner may commence with the acquisition and construction or rehabilitation of its Development, which Development will be in furtherance of the public purposes of the Department as aforesaid. On or prior to the issuance of the Bonds, each Owner will enter into a loan agreement on an installment payment basis with the Department under which the Department will make a loan to the Owner for the purpose of reimbursing each Owner for the costs of its Development and each Owner will make installment payments sufficient to pay the principal of and any premium and interest on the applicable Bonds. The proposed Bonds shall be special, limited obligations of the Department payable solely by the Department from or in connection with its loan or loans to each Owner to provide financing for the Owner's Development, and from such other revenues, receipts and resources of the Department as may be expressly pledged by the Department to secure the payment of the Bonds.

Section 7--The Development. Substantially all of the proceeds of the Bonds shall be used to finance the Developments, each of which is to be occupied entirely by Eligible Tenants, as determined by the Department, and each of which is to be occupied partially by persons and families of low income such that the requirements of Section 142(d) of the Code are met for the period required by the Code.

Section 8--Payment of Bonds. The payment of the principal of and any premium and interest on the Bonds shall be made solely from moneys realized from the loan of the proceeds of the Bonds to reimburse each Owner for costs of its Development.

Section 9--Costs of Development. The Costs of each respective Development may include any cost of acquiring, constructing, reconstructing, improving, installing and expanding the Development. Without limiting the generality of the foregoing, the Costs of each respective Development shall specifically include the cost of the acquisition of all land, rights-of-way, property rights, easements and interests, the cost of all machinery and equipment, financing charges, inventory, raw materials and other supplies, research and development costs, interest prior to and during construction and for one year after completion of construction whether or not capitalized, necessary reserve funds, the cost of estimates and of engineering and legal services, plans, specifications, surveys, estimates of cost and of revenue, other expenses necessary or incident to determining the feasibility and practicability of acquiring, constructing, reconstructing, improving and expanding the Development, administrative expenses and such other expenses as may be necessary or incident to the acquisition, construction, reconstruction, improvement and expansion of the Development, the placing of the Development in operation and that satisfy the Code and the Act. Each Owner shall be responsible for and pay any costs of its Development incurred by it prior to issuance of the Bonds and will pay all costs of its Development which are not or cannot be paid or reimbursed from the proceeds of the Bonds.

Section 10--No Commitment to Issue Bonds. Neither the Owners nor any other party is entitled to rely on this Resolution as a commitment to issue the Bonds and to loan funds, and the Department reserves the right not to issue the Bonds either with or without cause and with or without notice, and in such event the Department shall not be subject to any liability or damages of any nature. Neither the Owners nor any one claiming by, through or under each Owner shall have any claim against the Department whatsoever as a result of any decision by the Department not to issue the Bonds.

Section 11--No Indebtedness of Certain Entities. The Board hereby finds, determines, recites and declares that the Bonds shall not constitute an indebtedness, liability, general, special or moral obligation or pledge or loan of the faith or credit or taxing power of the State, the Department or any other political subdivision or municipal or political corporation or governmental unit, nor shall the Bonds ever be deemed to be an obligation or agreement of any officer, director, agent or employee of the Department in his or her individual capacity, and none of such persons shall be subject to any personal liability by reason of the issuance of the Bonds.

Section 12--Conditions Precedent. The issuance of the Bonds following final approval by the Board shall be further subject to, among other things: (a) the execution by each Owner and the Department of contractual arrangements providing assurance satisfactory to the Department that 100 percent of the units for each Development will be occupied at all times by Eligible Tenants, that all other requirements of the Act will be satisfied and that each Development will satisfy the requirements of Section 142(d) of the Code (except for portions to be financed with taxable bonds); (b) the receipt of an opinion from Vinson & Elkins L.L.P. or other nationally recognized bond counsel acceptable to the Department, substantially to the effect that the interest on the tax-exempt Bonds is excludable from gross income for federal income tax purposes under existing law; and (c) receipt of the approval of the Bond Review Board, if required, and the Attorney General.

Section 13--Certain Findings. The Board hereby finds, determines, recites and declares that the issuance of the Bonds to provide financing for each Development will promote the public purposes set forth in the Act, including, without limitation, assisting persons and families of low and very low income and families of moderate income to obtain decent, safe and sanitary housing at rentals they can afford.

Section 14--Authorization to Proceed. The Board hereby authorizes staff, Bond Counsel and other consultants to proceed with preparation of each Development's necessary review and legal documentation for the filing of an Application for the 2008 program year and the issuance of the Bonds, subject to satisfaction of the conditions specified in Section 2(i) and (ii) hereof. Staff may apply for private activity bond volume cap made available by the Housing and Economic Recovery Act of 2008. The Board further authorizes staff, Bond Counsel and other consultants to re-submit an Application that was withdrawn by an Owner so long as the Application is re-submitted within the current or following program year.

Section 15--Related Persons. The Department acknowledges that financing of all or any part of each Development may be undertaken by any company or partnership that is a "related person" to the respective Owner within the meaning of the Code and applicable regulations promulgated pursuant thereto, including any entity controlled by or affiliated with the respective Owner.

Section 16--Declaration of Official Intent. This Resolution constitutes the Department's official intent for expenditures on Costs of each respective Development which will be reimbursed out of the issuance of the Bonds within the meaning of Sections 1.142-4(b) and 1.150-2, Title 26, Code of Federal Regulations, as amended, and applicable rulings of the Internal Revenue Service thereunder, to the end that the Bonds issued to reimburse Costs of each respective Development may qualify for the exemption provisions of Section 142 of the Code, and that the interest on the Bonds (except for any taxable Bonds) will therefore be excludable from the gross incomes of the holders thereof under the provisions of Section 103(a)(1) of the Code.

Section 17--Authorization of Certain Actions. The Department hereby authorizes the filing of and directs the filing of each Application in such form presented to the Board with the Bond Review Board and each director of the Board are hereby severally authorized and directed to execute each Application on behalf of the Department and to cause the same to be filed with the Bond Review Board.

Section 18--Effective Date. This Resolution shall be in full force and effect from and upon its adoption.

Section 19--Books and Records. The Board hereby directs this Resolution to be made a part of the Department's books and records that are available for inspection by the general public.

Section 20--Notice of Meeting. Written notice of the date, hour and place of the meeting of the Board at which this Resolution was considered and of the subject of this Resolution was furnished to the Secretary of State and posted on the Internet for at least seven (7) days preceding the convening of such meeting; that during regular office hours a computer terminal located in a place convenient to the public in the office of the Secretary of State was provided such that the general public could view such posting; that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof was discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended; and that written notice of the date, hour and place of the meeting of the Board and of the subject of this Resolution was published in the Texas Register at least seven (7) days preceding the convening of such meeting, as required by the Administrative Procedure and Texas Register Act, Chapters 2001 and 2002, Texas Government Code, as amended. Additionally, all of the materials made available to the Board relevant to the subject of this Resolution were posted on the Department's website not later than the third day before the date of the meeting of the Board at which this Resolution was considered, and any documents made available to the Board by the Department on the day of the meeting were also made available in hard-copy format to the members of the public in attendance at the meeting, as required by Section 2306.032, Texas Government Code, as amended.

PASSED AND APPROVED this 13th day of November, 2008.

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

November 13, 2008

Action Items

Presentation, Discussion and Possible Approval of a Colonia Self Help Center (SHC) Program Award to Webb County through Community Development Block Grant (CDBG) Funding.

Required Action

Approve or deny the Colonia SHC Program award recommendation to Webb County.

Background

Colonia Self-Help Centers Program

The Colonia Self-Help Centers (SHC) were created by Acts of the 74th Legislature of the state of Texas in 1995. The purpose of a Colonia SHC is to assist individuals and families of low-income and very low-income to finance, refinance, construct, improve or maintain a safe, suitable home in the designated colonia service area or in another area that the Texas Department of Housing and Community Affairs (TDHCA) has determined is suitable. Pursuant to Subchapter Z of Chapter 2306 of the Texas Government Code, TDHCA has established Colonia SHCs in Cameron/Willacy, El Paso, Hidalgo, Starr and Webb Counties. If TDHCA determines it necessary and appropriate, statute allows for Colonia SHCs to be established in any other county if the county is designated as an economically distressed area under Chapter 17 of the Water Code. In 2001, the Department opened two additional centers in Maverick and Val Verde Counties to address the needs of colonias in those counties.

On February 1, 2007, the TDHCA Governing Board approved the first edition of the Colonia SHC Program Rules. The purpose of the rules was to make the program more transparent, reflect the self-help concepts included in statute and facilitate the completion of SHC activities within the original contract period. The development of program rules has led to a more structured and uniform funding proposal process.

TDHCA will allocate no more than $1.2 million per Colonia SHC contract in accordance with the Program Rules. If there are insufficient funds available from any specific year to fully fund a proposal, the affected county may accept the amount available at that time and then wait for the remainder to be funded with a contract utilizing the next year's funding allocation.

According to statute, it is the responsibility of TDHCA to designate a geographic area for the services provided by each SHC. In consultation with the Colonia Resident Advisory Committee (C-RAC) and the county, TDHCA designates 5 colonias in each service area to receive concentrated attention from that SHC. The purpose of the C-RAC is to advise the TDHCA Governing Board regarding the needs of the colonia residents, programs that are appropriate and effective for Colonia SHCs and activities that may be undertaken to better serve colonia residents. The county submitting a funding proposal is required to conduct and submit a needs assessment for each colonia designated to receive that concentrated attention in the proposal. Based on the results of the assessments, the county must develop a scope of work to be conducted for each colonia in accordance with the eligible activities as defined in statute and the Program Rules. A scope of work was outlined in a funding proposal and these proposals were formally presented to C-RAC (before the 30th day preceding the date on which a contract is scheduled to be awarded by the Board as required by Section 2306.585 (b) of the Texas Government Code) on October 3, 2008 in Webb County, Texas to receive their comments and suggestions in fulfillment of C-RAC's obligation to the Board.

Colonia SHC Funding

The Colonia SHCs are funded through a 2.5% set-aside (approximately $1.8 million per year) of the annual Community Development Block Grant (CDBG) non-entitlement allocation to the state of Texas. The management of CDBG funds is dictated through a Memorandum of Understanding (MOU) between the Office of Rural Community Affairs (ORCA), which receives the allocation from the US Department of Housing and Urban Development (HUD), and TDHCA. The Colonia SHC contracts are four-year contracts as specified by statute; however, if contractor localities are able to complete all contractual requirements before the expiration of the four-year contract period, they may go ahead and submit a proposal for a new contract. Proposals for new funding will be placed on a first-come, first-serve waiting list until there is sufficient funding available.

Colonia SHC Award Descriptions

Webb County

The Commissioners' Court of Webb County awarded the principal subcontract to service the Colonia SHC to the Webb County Community Action Agency. This will be Webb County's fourth Colonia SHC contract.

Contractor:	Webb County
Contact:	The Honorable Danny Valdez, County Judge
Address:	1000 Houston Street, 3rd Floor Laredo, Texas 78040

Purpose of Contract: The County of Webb, through their contract with the Webb County Community Action Agency, shall provide housing and community development to the following colonias: Los Altos, Tanquecitos I & II, San Carlos I & II, Ranchitos 359 East, and D-5 Acres. The County proposes to do the following housing and community development activities:

Performance activity	Proposed	Budget
Public Service		**$180,000.00**
• Construction Skills Training	40 classes	
• Homeownership and Instructional Classes	32 classes	
• Solid Waste Removal	4 activities	
• Technology Access	20 classes	
• Tool Library Program	1 library	
Residential Rehabilitation		**$710,000.00**
• Colonia Housing Rehabilitation	20 homes	$510,000.00
• House-to-Line Connections	21 Connections	$105,000.00

- Special Needs Home Improvements/Accessibility	35 homes	$95,000.00
Residential Reconstruction (Not Feasible for Rehab)	2 homes	**$90,000.00**
New Construction (Other 105 (a) 15)	2 homes	**$100,000.00**
Administration		**$120,000.00**
Total		**$1,200,000.00**

The Colonia SHC contract will benefit one thousand two hundred twelve (1,212) persons of which one thousand one hundred fifty-one (1,151) or ninety-five percent (95%) are of low to moderate income.

Webb County's Previous Performance

Webb County has successfully completed the project activities of two previous contracts. The county's third contract expired on October 30, 2008 and an on-site monitoring visit by the Department's Portfolio Management and Compliance Division is scheduled for the last week of November. It is anticipated that there will be no findings and that the contract will be administratively closed in a timely manner.

Recommendation

Approval of Colonia SHC funding award to Webb County for the operation of the Webb County Colonia SHC in the amount as described below.

NAME	FUNDING YEAR	TOTAL AWARD
Webb County	FY 2008	$1,200,000

2008 COLONIA SELF-HELP CENTER FUNDING AWARD

STAFF RECOMMENDATIONS

WEBB COUNTY

The Office of Colonia Initiatives Division of the Texas Department of Housing and Community Affairs recommends that Webb County be awarded a Colonia Self-Help Center Contract in the amount of $1,200,000 from a portion of the 2.5% set-aside from 2008 Community Development Block Grant allocation to the state of Texas from the US Department of Housing and Urban Development.

Contract Information

County:	Webb
Grantee:	Webb County
Fund:	Colonia Self-Help Center
Region Name:	South Texas Development Council
House District:	42
Senate District:	21
US Congress:	28
Funded Amount:	$1,200,000
Proposed Beneficiaries:	1,212

Project Description

Webb County shall provide housing and community development services through a Colonia Self-Help Center to the following colonias: Los Altos, Tanquecitos I & II, San Carlos I & II, Ranchitos 359 East, and D-5 Acres. The activities funded through the 2008 allocation will include: construction skill training, homeownership and instructional classes, solid waste removal, technology access, tool library, residential rehabilitation, house-to-line connections, special needs home improvements and accessibility, residential reconstruction, and new construction.

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

November 13, 2008

Action Items

Presentation, Discussion and Possible Approval of a Colonia Self Help Center (SHC) Program Award to Cameron/Willacy Counties through Community Development Block Grant (CDBG) Funding.

Required Action

Approve or deny the Colonia SHC Program award recommendation to Cameron/Willacy Counties.

Background

Colonia Self-Help Centers Program

The Colonia Self-Help Centers (SHC) were created by Acts of the 74th Legislature of the state of Texas in 1995. The purpose of a Colonia SHC is to assist individuals and families of low-income and very low-income to finance, refinance, construct, improve or maintain a safe, suitable home in the designated colonia service area or in another area that the Texas Department of Housing and Community Affairs (TDHCA) has determined is suitable. Pursuant to Subchapter Z of Chapter 2306 of the Texas Government Code, TDHCA has established Colonia SHCs in Cameron/Willacy, El Paso, Hidalgo, Starr and Webb Counties. If TDHCA determines it necessary and appropriate, statute allows for Colonia SHCs to be established in any other county if the county is designated as an economically distressed area under Chapter 17 of the Water Code. In 2001, the Department opened two additional centers in Maverick and Val Verde Counties to address the needs of colonias in those counties.

On February 1, 2007, the TDHCA Governing Board approved the first edition of the Colonia SHC Program Rules. The purpose of the rules was to make the program more transparent, reflect the self-help concepts included in statute and facilitate the completion of SHC activities within the original contract period. The development of program rules has led to a more structured and uniform funding proposal process.

TDHCA will allocate no more than $1.2 million per Colonia SHC contract in accordance with the Program Rules. If there are insufficient funds available from any specific year to fully fund a proposal, the affected county may accept the amount available at that time and then wait for the remainder to be funded with a contract utilizing the next year's funding allocation.

According to statute, it is the responsibility of TDHCA to designate a geographic area for the services provided by each SHC. In consultation with the Colonia Resident Advisory Committee (C-RAC) and the county, TDHCA designates 5 colonias in each service area to receive concentrated attention from that SHC. The purpose of the C-RAC is to advise the TDHCA Governing Board regarding the needs of the colonia residents, programs that are appropriate and effective for Colonia SHCs and activities that may be undertaken to better serve colonia residents. The county submitting a funding proposal is required to conduct and submit a needs assessment for each colonia designated to receive that concentrated attention in the proposal. Based on the results of the assessments, the county must develop a scope of work to be conducted for each colonia in accordance with the eligible activities as defined in statute and the Program Rules. A scope of work was outlined in a funding proposal and these proposals were formally presented to C-RAC (before the 30th day preceding the date on which a contract is scheduled to be awarded by the Board as required by Section 2306.585 (b) of the Texas Government Code) on October 3, 2008 in Webb County, Texas to receive their comments and suggestions in fulfillment of C-RAC's obligation to the Board.

Colonia SHC Funding

The Colonia SHCs are funded through a 2.5% set-aside (approximately $1.8 million per year) of the annual Community Development Block Grant (CDBG) non-entitlement allocation to the state of Texas. The management of CDBG funds is dictated through a Memorandum of Understanding (MOU) between the Office of Rural Community Affairs (ORCA), which receives the allocation from the US Department of Housing and Urban Development (HUD), and TDHCA. The Colonia SHC contracts are four-year contracts as specified by statute; however, if contractor localities are able to complete all contractual requirements before the expiration of the four-year contract period, they may go ahead and submit a proposal for a new contract. Proposals for new funding will be placed on a first-come, first-serve waiting list until there is sufficient funding available.

Colonia SHC Award Descriptions

Cameron/Willacy Counties

The Commissioners' Courts of Cameron/Willacy Counties awarded the principal subcontract to service the Colonia SHC to the Community Development Corporation of Brownsville (CDCB). This will be Cameron/Willacy Counties' fourth Colonia SHC contract.

Contractor: Cameron/Willacy Counties

Contact: The Honorable Carlos Cascos, Cameron County Judge

Address: 964 E. Harrison
Brownsville, TX 78520

Purpose of Contract: The Counties of Cameron and Willacy, through their contract with the Community Development Corporation of Brownsville (CDCB), shall provide housing and community development to the following colonias: Sunny Skies, Cameron Park, Laguna Heights, and La Paloma Colonias in Cameron County and the Los Angeles Colonia in Willacy County. The Counties propose to do the following housing and community development activities:

Performance activity	Proposed	Budget
Public Service		**$25,000.00**
• Homeownership Classes	125 classes	
• Tool Library Program	1 library	
Residential Rehabilitation		**$316,600.00**
• Colonia Housing Rehabilitation	18 homes	
• Colonia Self-Help Home Repair	45 homes	
Residential Reconstruction (Not Feasible for Rehab)	17 homes	**$708,400.00**
Administration		**$150,000.00**
Total		**$1,200,000.00**

The Colonia SHC contract will benefit seven thousand seven hundred twenty-three (7,723) persons, of which six thousand two hundred fifty-six (6,256) or eighty-one percent (81%) are of low to moderate income.

Cameron/Willacy Counties' Previous Performance

Cameron/Willacy Counties have completed the project activities of two previous contracts. The most recent third contract expired on July 31, 2007 and is being prepared for administrative closure by the Office of Rural Community Affairs. The delay between the expiration date and close date is a result of issues revolving around ineligible activities which were resolved through a combined effort by the OCI and TDHCA executive staff.

Recommendation

Cameron and Willacy Counties requested $1.5 million, $300,000 above the maxium amount allowable per the Texas Administrative Code, to cover additional housing rehabilitation and reconstruction costs. The OCI does not recommend a waiver to the maximum award and feels that the counties should utilize other disaster-related funds, including from the HOME Division. The additional $300,000 would decrease the amount of funding available for the other six Self-Help Centers if awarded. However, the OCI acknowledges that additional funding is available should the Board deem it appropriate to grant a waiver of the program rule for maximum allocation.

Approval of Colonia SHC funding award to Cameron/Willacy Counties for the operation of the Cameron/Willacy Counties Colonia SHC in the amount as described below.

NAME	FUNDING YEAR	TOTAL AWARD
Cameron/Willacy Counties	FY 2008	$206,994
	FY 2001*	$91.01
	FY 2002*	$847,891
	FY 2003*	$145,023.99
	Total	**$1,200,000**

* Deobligated Self-Help Center Program Funds

2008 COLONIA SELF-HELP CENTER FUNDING AWARD

STAFF RECOMMENDATIONS

CAMERON/WILLACY COUNTIES

The Office of Colonia Initiatives Division of the Texas Department of Housing and Community Affairs recommends that Cameron/Willacy Counties be awarded a Colonia Self-Help Center Contract in the amount of $1,200,000 from deobligated funds and the remainder of the 2.5% set-aside from 2008 Community Development Block Grant allocation to the state of Texas from the US Department of Housing and Urban Development.

Contract Information

County:	Cameron and Willacy
Grantee:	Cameron/Willacy Counties
Fund:	Colonia Self-Help Center
Region Name:	South Texas Development Council
House District:	37/38/43
Senate District:	27
US Congress:	15/27
Funded Amount:	$1,200,000
Proposed Beneficiaries:	7,723

Project Description

Cameron/Willacy Counties shall provide housing and community development services through a Colonia Self-Help Center to the following colonias: Sunny Skies, Cameron Park, Laguna Heights, La Paloma, and Los Angeles. The activities funded through deobligated funds and portions of the 2008/2009 allocation will include: homeownership classes, tool library, residential rehabilitation, self-help small home repair, and residential reconstruction.

OFFICE OF COLONIA INITIATIVES

BOARD ACTION REQUEST

November 13, 2008

Action Items

Presentation, discussion and possible approval of the Texas Department of Housing and Community Affairs (TDHCA) Texas Bootstrap Loan Program Notice of Funding Availability (NOFA).

Required Action

Approve, deny or approve with amendments the TDHCA Texas Bootstrap Loan Program NOFA.

Background

Staff is recommending the Board approve the announcement of the availability of approximately **Three Million Dollars ($3,000,000)** from the State of Texas Housing Trust Fund for the Bootstrap Program. The Bootstrap Program provides funds to purchase or refinance real property on which to build new residential or improve existing residential housing through self-help construction for very low and extremely low income individuals and/or families (owner-builders), including persons with special needs.

On July 31, 2008, the Department's Governing Board approved the 2009 Housing Trust Fund (HTF) Annual Plan. Included in the 2009 HTF Annual Plan was the use of $3,000,000 for the Texas Bootstrap Loan Program. TDHCA is required under Section 2306.753 (d) of the Texas Government Code, to set aside at least two-thirds ($2,000,000) of the available funds for Owner-Builders whose property is located in a county that has an economically distressed area. The remainder of the funding, one-third ($1,000,000), will be available statewide. Attached is the NOFA that will be posted in the *Texas Register* outlining the program guidelines. These funds will be added to the Bootstrap Reservation System which is a ready to proceed model and has separate pools of funding for the set-aside requirement and non set-aside areas which will ensure appropriate funding amounts for the respective areas.

TDHCA is required under Section 2306.7581 (a-1) of the Texas Government Code, to make available each state fiscal year $3,000,000 for mortgage loans to very low-income families (60% Area Median Family Income) not to exceed $30,000 per unit. This program is a self-help construction program, which is designed to provide very low-income families an opportunity to help themselves attain homeownership or repair their existing home through sweat equity. All participants under this program are required to provide at least 60 percent of the labor that is necessary to construct or rehabilitate the home. All applicable building codes and housing standards are adhered to under this program. In addition, nonprofit organizations can combine these funds with other sources such as private lending institutions, local governments, or any other sources; however, according to statute, all combined loans cannot exceed $60,000 per unit.

Recommendation

Approve or approve with modifications the TDHCA Texas Bootstrap Loan Program NOFA

<p><etb>Texas Department of Housing and Community Affairs<et>
<p><etb>FY 2009 Texas Bootstrap Loan Program<et>
<p><etb>Notice of Funding Availability (NOFA)<et>

<p>The Texas Department of Housing and Community Affairs (TDHCA), through its Office of Colonia Initiatives (OCI), is pleased to announce the availability of approximately Three Million Dollars ($3,000,000) of State of Texas Housing Trust Funds for the Texas Bootstrap Loan Program. The purpose of the funding is to purchase land and build new residential or improve existing residential housing through self-help construction methodologies for very low and extremely low income individuals and/or families (Owner-Builders) including persons with special needs. In an effort to attract a diverse group of nonprofit organizations that will serve various populations throughout the state and improve upon the efficiency of the traditional funding method, a reservation system will be utilized with this Notice of Funding Availability (NOFA). The reservation system must be utilized to secure these funds for Owner-Builder Applicants through nonprofit organizations certified by TDHCA as a Nonprofit Owner-Builder Housing Provider (NOHP) that has executed a Loan Origination Agreement in order to ensure compliance with the Texas Bootstrap Loan Program Rules and Guidelines.

<p>In order for a nonprofit organization to be certified by TDHCA as a NOHP, the nonprofit organization must also qualify as a tax-exempt organization listed under <*>501(c)(3) of the Internal Revenue Code of 1986.

<p><etb>Nonprofit Owner-Builder Housing Provider Requirements:<et>

<p>Designation as a NOHP and subsequent execution of a Loan Origination Agreement will entitle nonprofits to:
<p>(1)Qualify potential Owner-Builders for loans under this program.
<p>(2)Assist Owner-Builders in constructing or rehabilitating their home.
<p>(3)Originate and/or service loans in compliance with Texas Bootstrap Loan Program Rules and Guidelines.
<p>(4)Provide Owner-Builder education classes such as:
<p>(a)financial responsibilities of an Owner-Builder, including the consequences of an Owner-Builder’s failure to meet those responsibilities;
<p>(b)building of housing by Owner-Builders;
<p>(c)resources for low-cost building materials available to Owner-Builders; and
<p>(d)resources for building assistance available to Owner-Builders.

<p><*> 2306.753(a) of the Texas Government Code directs TDHCA to establish a priority in directing funds to Owner-Builders with an annual income of less than $17,500. The maximum loan amount using TDHCA funds may not exceed $30,000 per Owner-Builder. The total amount of loans made with TDHCA and any other source may not exceed a combined $60,000 per household. An NOHP will only be allowed to have up to ten reservations at any given time. Projects utilizing additional non-TDHCA resources will be required to provide additional documentation identifying the sources of these additional funds and information about their rates and terms.

<p><etb>Owner-Builder Eligibility Requirements:<et>

<p>To be eligible for up to a $30,000 loan from TDHCA, an Owner-Builder:
<p>(1)Must not have an annual income that exceeds 60 percent, as determined by TDHCA, of the greater of the state or local Area Median Family Income (AMFI), when combined with the income of any person who resides with the Owner-Builder.
<p>(2)Must have resided in this state for the preceding six months.

<p>(3)Must have successfully completed an Owner-Builder education class.
<p>(4)Must agree to provide at least 60 percent of the labor necessary to build or rehabilitate the proposed housing by working through a state certified NOHP; or must agree to provide an amount of labor equivalent to the amount required in connection with building or rehabilitating housing for others through a state certified NOHP.
<p>(5)Must not be currently delinquent or in default on any government loan.
<p>(6)Must not be currently delinquent or in default on child support payments.
<p>(7)Total debt to income ratio cannot exceed 45 percent.

<p>TDHCA is required under <*>2306.753(d) of the Texas Government Code, to set aside at least two-thirds ($2,000,000.00) of the available funds for Owner-Builders whose property is located in a county that is eligible to receive financial assistance under Subchapter K, Chapter 17, of the Water Code. The Texas Water Development Board considers a county eligible to receive financial assistance under Subchapter K, Chapter 17, Water Code, if: 1) the county contains an area that meets the criteria for an economically distressed area under Section 17.921(1), Water Code; and 2) the county has adopted and enforces the model rules under Section 16.343, Water Code. The remainder of the funding, one-third ($1,000,000), will be available statewide.

<p>The following counties currently meet the criteria to qualify under the definition for an economically distressed area.

<p>Bee
<P>Brewster
<p>Cameron
<p>Coryell
<p>Dimmit
<p>Duval

<p>Zavala

<p>For a current listing you may visit the following website:

<p>http://www.twdb.state.tx.us/assistance/msr/Resource%20Manual/msr.pdf

<p>The amounts available for distribution are as follows:

<p>For Fiscal Year 2009 (September 1, 2008)

<p>$2,000,000	Economically Distressed Areas (EDA)
<p>$1,000,000	Balance of State

<p>In order to submit an Owner-Builder loan application for reservation, an NOHP that has received a Program award in the past must be meeting all performance benchmarks as outlined in their current contract or agreement and must have an active Loan Origination Agreement with the Department.

<p><etb>Reservation System Guidelines:<et>

<p>After being certified as an NOHP and executing a Loan Origination Agreement, the nonprofit organization may begin to submit loan applications on behalf of the Owner-Builder Applicant. If more than one Owner-Builder Application is submitted they will be processed in the order entered into the Reservation System.

<p>All Application/Compliance Packages will be reviewed on a first-come, first-served basis. There will be no expedited applications except for an Owner-Builder Applicant with an annual income of less than $17,500.

<p>The following guidelines are a supplement to the Texas Bootstrap Loan Program Rules and Texas Bootstrap Loan Program Manual.

<p>After the Loan Origination Agreement is executed, the NOHP must register each individual Owner-Builder applicant into the TDHCA Texas Bootstrap Loan Program Registration System using the TDHCA website. After registering the Owner-Builder applicant, TDHCA must receive the completed Application/Compliance Package (Exhibit 9 of the Texas Bootstrap Loan Program Manual) within five business days of the date the registration was entered into the system.

<p>TDHCA Office of Colonia Initiatives (OCI) staff will review the Application/Compliance Package to ensure that the Owner-Builder applicant meets all program rules and guidelines. The NOHP will be notified in writing in the form of a Deemed Eligible Letter, that the Owner-Builder applicant has been deemed eligible and that funds have been reserved for one year from the date of issuance of a Deemed Eligible Letter (Form 10 of the Texas Bootstrap Loan Program Manual).

<p>If TDHCA staff is unable to deem the Owner-Builder applicant eligible the NOHP will be notified in writing of the reason(s) by either a Notice of

Deficiency Letter (Form 13 of the Texas Bootstrap Loan Program Manual) or Applicant Deemed Ineligible Letter (Form 12).

<p>Incomplete Application/Compliance Packages may not be accepted. All incomplete packages may be returned to the NOHP and the reservation may be cancelled. The NOHP must resubmit a new reservation and the Application/Compliance Package to TDHCA in order to be reconsidered for funding.

<p><etb>Maximum reservations allowed at any given time: 10<et>

<p><etb>Performance Benchmarks:<et>

<p>Once an Owner-Builder has been deemed eligible and funds have been reserved, depending on the type of loan being requested the NOHP must meet the following performance benchmarks.

<p>If the Owner-Builder Applicant qualifies for the Texas Bootstrap Loan Program, the OCI will issue a deemed eligible letter (pre-approval) which reserves the funds (up to $30,000 per reservation) for 12 months. The NOHP, in accordance with the Texas Bootstrap Loan Program Rules, will be given a six percent administration fee upon completion of the house and closing of each mortgage loan.

<p>In an effort to expedite expenditures, the NOHP will be required to meet specific performance benchmarks on that home within 12 months of the reservation. If the NOHP fails to meet the required benchmarks, the reservation will be subject to cancellation in accordance with the Loan Origination Agreement. TDHCA may choose to provide one 45-day extension due to extenuating circumstances that were beyond the Owner-Builder’s and/or the NOHP’s control. If the NOHP cannot meet the required benchmarks after the 45-day extension, the reservation will be cancelled. In order to receive another reservation on the same Owner-Builder Applicant the NOHP will be instructed to submit an updated application to ensure that the Owner-Builder Applicant still meets all Texas Bootstrap Loan Program Rules and Guidelines.

<p>Nonprofit organizations that have been certified as an NOHP and have executed the Loan Origination Agreement with TDHCA may begin submitting Owner-Builder loan applications to TDHCA.

<p><etb>Purchase Money Loan:<et>
<p>(1)Within 90 days of the respective reservation date the NOHP must have initiated the preconstruction process which includes the homeownership education and counseling programs of the organization.
<p>(2)Within 180 days of the respective reservation date construction must have started on the unit; and
<p>(3)Within one year of the respective reservation date the unit must be 100percent complete and the purchase money loan must have closed with the Owner-Builder Applicant.

<p><etb>Interim and Residential Construction Loans:<et>
<p>(1)Within 90 days of the respective reservation date, the loan must close and construction must have started on the unit;
<p>(2)Within 180 days of the respective reservation date, the unit must be at 40percent completion;
<p>(3)Within 270 days of the respective reservation date, the unit must be at 80percent completion; and

<p>(4)Within one year of the respective reservation date, the unit must be 100percent complete and the purchase money loan must have closed with the Owner-Builder Applicant.

<p>TDHCA will begin accepting reservations immediately, and continue to accept reservations on an ongoing basis until such time as all funding has been committed.

<p>The NOHP state certification application may be downloaded from TDHCA’s web-site located at <etb>http://www.tdhca.state.tx.us/ocidocs/NOHPApp.doc<et>.

<p>All interested parties are encouraged to participate in this program. For more information regarding this NOFA and the training please call Raul Gonzales with the Office of Colonia Initiatives at (800) 462-4251, visit the TDHCA’s web-site at <etb>http://www.tdhca.state.tx.us/oci/index.jsp<et> or e-mail your request to raul.gonzales@tdhca.state.tx.us.

BOARD ACTION REQUEST
NOVEMBER 13, 2008

Action Items

Presentation, Discussion and Possible approval of an amendment to 10 TAC, Chapter 7, Texas First Time Homebuyer Program rules.

Required Action

Adoption of an amendment to 10 TAC, Chapter 7, Texas First Time Homebuyer Program rules.

Background and Recommendations

Summary

Chapter 7 concerns the Texas First-Time Homebuyer Program as enacted in S.B.1908 and H.B. 1637, 80th Legislative Session. The purpose of the program is to make affordable mortgage loans, down payment assistance ("DPA") and mortgage credit certificates available to first-time home buyers. The chapter sets forth the types of assistance available, eligibility requirements, the application procedure, application fees, and describes the qualifications that mortgage lenders must meet to participate in the program. Generally, the program makes mortgage loans and mortgage credit certificates available to first time homebuyers with an income that does not exceed 115% AMFI (140% in targeted areas), and downpayment and closing cost assistance ("DPA") for incomes that do not exceed 80% AMFI. Rider 11 additionally requires that at least 30% of the bond proceeds available be set aside for one year for loans and that downpayment and closing cost assistance be made available to individuals and families at 60% AMFI.

Due to the recent mortgage crisis, stricter underwriting guidelines and homebuyer education requirements on conventional loans delivered through the MRB program, staff recommended one amendment to the rule which was the addition of a new homebuyer eligibility requirement in Section 7.3. The amendment requires completion of a pre-purchase homebuyer education course for all borrowers utilizing the Texas First Time Homebuyer or Mortgage Credit Certificate Programs. No public comment was received and staff proposes no changes since the amendment proposed in August 2008.

Recommendation

Staff recommends approval of the amendment to 10 TAC, Chapter 7, Texas First Time Homebuyer Program rules.

TITLE 10 COMMUNITY DEVELOPMENT
PART 1 TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
CHAPTER 7 TEXAS FIRST-TIME HOMEBUYER PROGRAM

§7.1 Purpose

The purpose of the Texas First-Time Homebuyer Program is to facilitate the origination of single-family mortgage loans for eligible first-time homebuyers, provide to qualifying homebuyers down payment and closing cost assistance, and to make available to qualifying first-time homebuyers mortgage credit certificates.

§7.2 Definitions

(a) Affidavit of eligible borrower--An affidavit substantially in the form of Exhibit A of the master mortgage origination agreement.

(b) Area median family income--The Department's determination, as permitted by §2306.123 of the Texas Government Code, of the median income of a family for an area using a source or methodology acceptable under federal law or rule. Percentages of the area median family income, as updated from time to time, may be found on the department's website in the "Combined Income and Purchase Price Limits Table."

(c) Areas of chronic economic distress--Those areas in the state, whether one or more, designated from time to time as areas of chronic economic distress by the state and approved by the Secretaries of Treasury and Housing and Urban Development pursuant to 26 USC §143(j), as amended from time to time, and related regulations.

(d) Contract for deed exception--The exception for certain mortgage loan eligibility requirements, as provided in the master mortgage origination agreement, available with respect to a principal residence owned under a contract for deed by a person whose family income is not more than 50% of the applicable median family income.

(e) Department--The Texas Department of Housing and Community Affairs.

(f) First-time homebuyer--A person who:

(1) resides in this state on the date on which an application is filed; and

(2) has not owned a home during the three years preceding the date on which an application under this program is filed, except if the application is with respect to a home in a targeted area. A person will be considered to have owned a home if the person had a present ownership interest in a home during the three years preceding the date on which the application was filed. In the event there is more than one person applying with respect to a home, each applicant must separately meet this three year requirement.

(g) Home--A dwelling in this state in which a first-time homebuyer intends to reside as the homebuyer's principal residence.

(h) Master mortgage origination agreement--The contract between the department and a mortgage lender, together with any amendments thereto, setting forth certain terms and conditions relating to the origination and sale of mortgage loans by the mortgage lender and the financing of such mortgage loans by the department.

(i) Maximum purchase price limit--The purchase price limits published and updated from time to time in the "Combined Income and Purchase Price Limits Table" found on the department's website.

(j) Mortgage credit certificate--Any certificate which:

(1) is issued under a qualified mortgage credit certificate program by the department;

(2) is issued to the first-time homebuyer/taxpayer in connection with the acquisition of the first-time homebuyer/taxpayer's principal residence; and

(3) specifies the certificate credit rate, and the certified indebtedness amount.

(k) Mortgage lender--A bank, trust company, savings bank, mortgage company, mortgage banker, credit union, national banking association, savings and loan association, life insurance company, or other financial institution authorized to transact business in this state and approved as a mortgage lender by the department.

(l) Present ownership interest--

(1) a fee simple interest;

(2) a joint tenancy, a tenancy in common or tenancy by the entirety;

(3) the interest of a tenant shareholder in a cooperative;

(4) a life estate;

(5) a land contract which does not fall within the contract for deed exception; or

(6) an interest held in trust for an a person that would constitute a present ownership interest if held directly by such person. The term, "present ownership interest" does not include:

(7) a remainder interest;

(8) a lease with or without an option to purchase;

(9) a mere expectancy to inherit an interest in a principal residence;

(10) the interest that a purchaser of a residence acquires on the execution of a purchase contract;

(11) a land contract which falls within the contract for deed exception; or

(12) an interest in other than a principal residence.

(m) Program--The Texas First-Time Homebuyer Program.

(n) Targeted areas--A census tract, as designated by the United States Secretary of Commerce, in which 70% or more of the families have incomes that are 80% or less of the statewide median income, such median income to be determined on the basis of the most recent decennial census for which data are available, or an area of chronic economic distress.

§7.3 Administration of the Program

(a) First-time homebuyer program eligibility requirements. To be eligible for any assistance under the program a first-time homebuyer must:

(1) qualify as a first-time homebuyer;

(2) be able to sign at loan closing an affidavit of eligible borrower; and

(3) apply with respect to a home whose purchase price does not exceed the maximum purchase price limit for the relevant area, and is either a new or existing single family residence, new or existing condominium or town home, or manufactured housing that has been converted to real property in accordance with the Texas Occupations Code Chapter 1201.

(4) completion of a pre-purchase homebuyer education course as determined by Department staff.

(b) Types of assistance available. Depending on the applicants' income, a first-time home buyer that applies for a loan under the program may also be eligible for down payment and closing cost assistance or mortgage credit certificates. Down payment and closing cost assistance or mortgage credit certificates may be awarded only in conjunction with an application for a mortgage loan.

(c) Income limits for loans. First-time homebuyers applying for a mortgage loan or a mortgage credit certificate must have an income of not more than 115 percent of area median family income or 140 percent of area median family income in targeted areas.

(d) Income limits for down payment and closing cost assistance. First-time homebuyers applying for down payment and closing cost assistance in conjunction with a mortgage loan must have an income of not more than 80 percent of area median family income.

(e) Application Procedure.

(1) Only applications filed on or after January 1, 2008 are subject to this Chapter.

(2) Applicants seeking assistance under the program must first contact a participating mortgage lender. A list of participating mortgage lenders may be obtained on the department's website or by contacting the department.

(3) All applicants shall complete an application with a participating mortgage lender and shall provide the following information at the time of application:

(A) written permission to obtain credit reports of the applicants on a form to be provided by the mortgage lender;

(B) an affidavit of Texas residency on a form to be provided by the mortgage lender;

(C) the most recent statements for all credit and bank accounts;

(D) pay stubs for the 3-month period prior to the month in which the application was filed;

(E) W-2 forms for the two most recent calendar years for which they are available;

(F) any information concerning debts that will not be paid off within twelve months of the date the application is filed, including, but not limited to the names of the associated creditors, account numbers and regular payment amounts;

(G) documentation of any other income or other form of support not evidenced above; and

(H) a copy of the executed sales contract for the subject property.

(f) Application Fees. Fees that may be collected by the mortgage lender from the first-time homebuyer relating to a mortgage loan include:

(1) an appropriate origination fee and buyer/seller points;

(2) all usual and reasonable settlement or financing costs that are permitted to be so collected by Federal Housing Administration ("FHA"), Veteran's Administration ("VA"), Rural Housing Services ("RHS"), Freddie Mac or Fannie Mae, as applicable, and other applicable laws, but only to the extent such charges do not exceed the usual and reasonable amounts charged in the area in which the home is located in cases where owner financing is not provided through a tax-exempt mortgage revenue bond financing. Such usual and reasonable settlement or financing costs shall include an application fee not to exceed $325 (which includes the funding fee and the tax compliance fee), the total estimated costs of a credit report on the applicants and an appraisal of the property to be financed with the mortgage loan, payable to the mortgage lender at or within ten (10) days of the application for a mortgage loan, title insurance survey fees, credit reference fees, legal fees, appraisal fees and expenses, credit report fees, FHA insurance premiums, private mortgage guaranty insurance premiums, VA guaranty fees, VA funding fees, RHS guaranty fees, hazard or flood insurance premiums, abstract fees, tax service fees, recording or registration fees, escrow fees, file preparation fees; and

(3) with respect to the issuance of mortgage credit certificates:

(A) an issuance fee;

(B) a non-refundable commitment fee; and

(C) a document handling fee.

§7.4 Criteria for Approving Participating Mortgage Lenders

To be approved by the Board for participation in the program, a mortgage lender shall:

(1) have maintained a loan origination office in the state for at least one year. Operation through brokers, correspondent institutions or other agents must be approved by the department;

(2) be either:
(A) a Federal Housing Administration ("FHA") approved mortgagee;
(B) an eligible lender in good standing for Veteran's Administration ("VA") guaranteed mortgage loans;
(C) an eligible lender in good standing for Rural Housing Service's ("RHS") guaranteed rural housing loan program; or
(D) a lender currently participating in the conventional home lending market for loans originated in accordance with Fannie Mae's Mortgage-Backed Securities and/or Freddie Mac's requirements;
(3) have a minimum net worth as required by the program's master servicer;
(4) have a minimum warehouse line of credit as required by the program's master servicer;
(5) agree to originate mortgages and assign mortgages and servicing to the department's master servicer;
(6) originate, process, underwrite, close and fund originated loans in the mortgage lender's own name; and
(7) be an approved seller/servicer with the program's master servicer.

§7.5 Insurance Requirements

Mortgage lenders must originate all mortgage loans in accordance with the loan origination, eligibility, credit underwriting standards, and applicable insurance requirements, in effect during the origination period for the applicable loan program (VA, FHA, USDA-RHS, or Fannie Mae/Freddie Mac Conventional).

§7.6 First-Time Homebuyer Occupancy and Use Requirements

(a) Occupancy requirement. The first-time homebuyer must occupy the home within 60 days after the date of closing as required in the Affidavit of Eligible Borrower.
(b) Prohibited uses. First-time homebuyers may not use the property, or any part thereof, as an investment property, rental property, vacation or second home, or recreational home.
(c) Use for a business. First-time homebuyers may not use more than 15% of the residence in a trade or business (including childcare services) on a regular basis for compensation. If the residence is to be used, in part, for a trade or business, a schematic drawing from an appraiser must be provided.

§7.7 Contracts with Mortgage Lenders

(a) As a condition precedent to participation in the program, a mortgage lender shall execute and deliver to the department the master mortgage origination agreement.
(b) The mortgage lender shall provide to the department certain other documents including a completed mortgage lender questionnaire, opinion of counsel to mortgage lender, and board resolution of mortgage lender, each in a form provided by the department.
(c) The department will provide to the mortgage lender notices of new bond programs and related guidelines. If the mortgage lender desires to participate in a bond program, the mortgage lender shall submit to the department an offer relating to such bond program.

§7.8 Conflicts with Bond Indentures and Applicable Law

(a) All assistance provided under the program is funded from mortgage revenue bonds issued by the department and is subject to changes in the mortgage revenue bond indentures and applicable law. If there is a conflict between this chapter and any bond indenture or applicable law regarding the use of the funds from mortgage revenue bonds, the mortgage relevant bond indenture or applicable law shall control.

(b) Assistance under this program is dependent, in part, on the availability of funds. The department may cease offering all or a part of the assistance available under the program at any time and in its sole discretion.

§7.9 Waiver

The Board, in its discretion and within the limits of federal and state law, may waive any one or more of these Rules if the Board finds that waiver is appropriate to fulfill the purposes or polices of Chapter 2306, Texas Government Code, or for good cause, as determined by the Board.

TEXAS HOMEOWNERSHIP DIVISION

BOARD ACTION REQUEST
NOVEMBER 13, 2008

Action Items

Presentation, Discussion and Possible Approval to terminate the Texas Loan Star Program.

Required Action

Approve or deny the termination of the Texas Loan Star Program.

Background and Recommendations

In conjunction with CitiMortgage and Fannie Mae, the Texas Loan Star Mortgage Program was released on September 20, 2005. The Texas Loan Star Program used funding sources provided by external market sources (CitiMortgage) and did not require any TDHCA or other state funding. The mortgage loans were funded through CitiMortgage's mortgage funding and warehousing facilities. The product did not require the issuance of bonds.

The program was designed to serve segments of the Texas homebuyer market currently not served by TDHCA's tax-exempt mortgage revenue bond program. The program offered eligible Texans conventional, conforming first lien mortgage loans at market level interest rates and 20-year second lien amortizing repayable loans up to eight percent of the purchase price for down payment and closing cost assistance. Up to 105% of the sale price on the home could be borrowed to cover downpayment and closing costs. In accordance with Fannie Mae guidelines at the time, no money down was required of the borrower. Target populations included low and moderate income homebuyers and families who may or may not have previously owned a home requiring down payment assistance and minimal loan application paperwork. Correspondent lenders approved through CitiMortgage originated the mortgage loans.

To date the program has had very limited success due primarily to a lack of interest from the correspondent lending community and the prohibitive cost of mortgage insurance associated with a 105% combined loan to value.

Over the course of the program, the TDHCA Board approved the reduction of fees associated with the program and approved the increase of income restrictions in targeted areas in an effort to increase loan originations. Despite the program adjustments, originations have continued to remain flat. To date, approximately 172 loans have been originated totaling $17.8 million in first lien mortgage loans and approximately $950,000 in second lien loans which will remain in place until they mature or are paid off and will not be impacted by any decision contemplated in this proposed Board Action.

Due to the recent mortgage meltdown, Fannie Mae underwriting guideline and loan delivery fee changes and the inability of mortgage insurance providers to offer mortgage insurance coverage for higher loan to value loans, the program is no longer viable. As a result of these actions, the Department was approached earlier this year by a consultant - Emerging Markets Group, LLC with a proposal to instead consider using FHA guidelines with the program. FHA allows downpayment assistance programs to be operated by governmental agencies and nonprofit instrumentalities of government using subordinate financing so long as the second lien is made or held by the eligible governmental body or instrumentality. The proposal, which provided few program guideline changes from those originally established, was submitted by the consultant to FHA for approval. To reiterate, the source of funds for the second lien is CitiMortgage, not TDHCA. Each participating lender advances the second lien funds at closing to the eligible borrower and CitiMortage reimburses them upon purchase of the first and second lien. Whether this was made clear or not in the information submitted for review by FHA is unknown (TDHCA was not made aware of the submission until after the fact) but an approval letter from FHA was received by the Department dated July 14, 2008 allowing the use of FHA guidelines in conjunction with the program.

In the course of performing its due diligence and preparing this item for presentation to the Board, staff contacted the individual referenced in the HUD approval letter and provided the program guidelines and flow chart that the consultant originally provided to the Department. It was also reiterated that no funds from TDHCA were being used to fund these loans. Although the second lien was to close in TDHCA's name, the source was and always has been CitiMortgage. As a result, their attorney opined that the TDHCA program did not conform to FHA regulations.

Prior to receiving the interpretation that the program guidelines did not conform to FHA guidelines, staff discussed and evaluated several other concerns regarding the program. They include:

- Because of the recent overall mortgage market crisis and the increase in foreclosures due to borrowers being overextended, often because of high loan to value ratios, staff felt it inappropriate to continue to support a program that promotes a 105% loan to value ratio.
- The program has the potential to have an adverse impact on mortgage originations for upcoming MRB Program 71. Under the Texas Loan Star Program structure, higher lender fees are allowed and downpayment assistance would be available up to 8% of the mortgage amount.

Therefore, based on the opinion from HUD, as well as the reasons noted above, staff is recommending the program be terminated.

Recommendation

Staff requests approval of the termination of the Texas Loan Star Mortgage Program.

MULTIFAMILY FINANCE PRODUCTION DIVISION

BOARD ACTION REQUEST
November 13, 2008

Action Item

Housing Tax Credit Amendments.

Requested Action

Approve, amend or deny the requests for amendments.

Background and Recommendations

§2306.6712, Texas Government Code, indicates that the Board should determine the disposition of a requested amendment if the amendment is a "material alteration," would materially alter the development in a negative manner or would have adversely affected the selection of the application in the application round. The statute identifies certain changes as material alterations and the requests presented below include material alterations.

The requests and pertinent facts about the affected developments are summarized below. The recommendation of staff is included at the end of each write-up.

Limitations on the Approval of Amendment Requests

The approval of a request to amend an application does not exempt a development from the requirements of Section 504 of the Rehabilitation Act of 1973, fair housing laws, local and state building codes or other statutory requirements that are not within the Board's purview. Notwithstanding information that the Department may provide as assistance, the development owner retains the ultimate responsibility for determining and implementing the courses of action that will satisfy applicable regulations.

Penalties for Amendment Requests

§50.9(c), 2008 Qualified Allocation Plan and Rules, entitled, "Adherence to Obligations," states in part:

> If a Development Owner does not produce the Development as represented in the Application; does not receive approval for an amendment to the Application by the Department prior to implementation of such amendment; or does not provide the necessary evidence for any points received by the required deadline:
>
> (1) The Development Owner must provide a plan to the Department, for approval and subsequent implementation, that incorporates additional amenities to compensate for the non-conforming components; and
>
> (2) The Board will opt either to terminate the Application and rescind the Commitment Notice, Determination Notice or Carryover Allocation Agreement as applicable or the Department must:
>
> (A) Reduce the score for Applications for Competitive Housing Tax Credits that are submitted by an Applicant or Affiliate related to the Development Owner of the non-conforming Development by up to ten points for the two Application Rounds concurrent to, or following, the date that the non-conforming aspect, or lack of financing, was recognized by the Department of the need for the amendment; the placed in service date; or the date the amendment is accepted by the Board.

(B) Prohibit eligibility to apply for Housing Tax Credits for a Tax-Exempt Bond Development that are [sic] submitted by an Applicant or Affiliate related to the Development Owner of the non-conforming Development for up to 24 months from the date that the non-conforming aspect, or lack of financing, was recognized by the Department of the need for the amendment; the placed in service date; or the date the amendment is accepted by the Board, less any time delay caused by the Department.

(C) In addition to, or in lieu of, the penalty in subparagraph A or B of this paragraph, the Board may assess a penalty fee of up to $1,000 per day for each violation.

HTC No. 03184, Pegasus

Summary of Request: This amendment was presented to the Board at the September 4, 2008 meeting. During the Board meeting before the amendment was presented to the Board, the owner requested a change to the amendment. The Board tabled the decision to November to allow staff to evaluate the additional request.

The development is a single high-rise building originally proposed to contain 124 tax credit units and 32 market rate units. The owner requested approval to increase the number of tax credit units by five units to 129 units and decrease the market rate units by five units to 27 units. The owner originally requested a mix of 40%, 50% and 60% AMGI units for these restricted units. The owner is now requesting all five of the additional tax credit units be restricted to 60% of AMGI. The owner also requested approval to decrease the net rentable area (NRA) but it has been determined that the reduction was merely a reflection of differences in methodology in measuring the space.

The owner stated that the increase in the ratio of tax credit units to market rate units (unit fraction) was needed to maintain an applicable fraction of at least 80% and, in turn, an eligible basis, of an amount sufficient to validate the issuance of IRS Forms 8609 for all of the tax credits that were originally awarded. The owner stated that the applicable fraction would be below 80% without the change. This increase in tax credit units would have reduced the overall application score by two points. However, the reduction in points would not have changed the recommendation for an award.

The development architect certified that washers and dryers were installed in all units. The amenity is an additional feature in the development as built that was not proposed in the application. It should also be noted that the final number of parking spaces was reduced from 316 to 294. The parking ratio of this elderly development was approved by the City of Dallas and is approximately 1.9 spaces per unit.

Staff believes the amendment requests have been satisfactorily mitigated and do not require further consideration.

Governing Law: §2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including a modification of the number of units or the bedroom mix of units and any other modification considered significant by the board.
Owner: Pegasus Villas, Ltd.
General Partner: Pegasus Stemmons Development, Inc.
Developers: Glenn Lynch Companies, Inc.
Principals/Interested Parties: Operation Relief Center, Inc. (Nonprofit)
Syndicator: Paramount Financial Group
Construction Lender: Red Capital Markets
Permanent Lender: Red Capital Markets
Other Funding: NA
City/County: Dallas/Dallas
Set-Aside: Elderly Population
Type of Area: Urban
Region: 3

Type of Development:	Acquisition/Rehabilitation (Adaptive Reuse)
Population Served:	Elderly Population
Units:	124 HTC units and 32 market rate units (as originally proposed)
2003 Allocation:	$1,153,613
Allocation per HTC Unit:	$9,303 (as originally proposed)
Prior Board Actions:	7/03 – Approved award of tax credits; 3/07 – Approved amendment (please see attachment).
Underwriting Reevaluation:	Does not recommend a change in the amount of credits.
Staff Recommendation:	**Staff recommends approving the request because the laundry equipment and additional low-income units are above and beyond the original development proposal while the parking spaces delivered meet City requirements. The change in low income units versus market rate units would be a condition of the LURA if approved.**
Penalty Assessment:	**Staff recommends no penalties pursuant to §50.9(c) of the QAP because the request for additional restricted units is being made before the implementation of the change and the other changes are not material alterations of the development and, therefore, are not subject to the penalties.**

HTC No. 04432, Mariposa Apartment Homes

Summary of Request: This amendment was also presented at the September 4, 2008 Board meeting. The Board tabled the decision to give staff the opportunity to clarify the confusion concerning the reduction in square footage.

The owner is requesting approval to change the site plan, unit mix and number of units. The owner is also requesting to make a substitution for self-cleaning ovens and microwave ovens that were proposed in all units but not installed and a second fireplace that was proposed but not installed in the clubhouse. The last deficiency covered by the request was that eight of 180 units were built without the covered balconies or porches that were proposed for all units.

Offsetting the deficiencies, documentation indicates that the development was built with some features that exceed the original proposal. The additional features include two additional one-bedroom units (currently designated as management units), R-15 insulation in the walls with R-30 insulation in the ceilings, and thirty-year architectural shingles. Other additions indicated by the owner include an entry ramp into the pool, dog park, sun room with complimentary tea and coffee, recreation room with card and pool tables and a television, rose garden, and both a community garden and a walking trail. The changes in amenities are summarized in the table below:

Original Proposed Amenities	Points	Additional As-Built Amenities	Points
Microwaves	1*	R15 Walls/R30 Ceilings	3*
Self-Cleaning Ovens	1*	30-Year Shingles	1*
Covered Patios	1*	Service Coordinator Office*	1**
2 Fireplaces	0	Card & TV Room	0
		In/Out Ramp for Swim Pool	0
		Fenced Dog Park	0
		Dispersed Community Areas	0
		Rose Garden	0
		Recreation room	0
Total Amenity Value	3	Total Additional Value	5

*These items were scoring items in 9% applications but not in the subject 4% application.

**One unit was to serve a service coordinator but was not committed in the LURA as required.

The changes include an increase in the average size of one-bedroom units from 709 square feet to 714 square feet and a decrease in average size of two-bedroom units from 1,050 square feet to 999 square feet. The unit sizes remain above the scoring minimums of 550 square feet and 750 square feet, respectively. The net rentable area of the development decreased by 1% from 151,149 square feet to 149,613 square feet and the total common area (corridors and office/clubhouse) of the development increased from 51,379 square feet to 53,248 square feet, or about 3.6%. At the September meeting the owner claimed the two-bedrooms units were actually increased from what was originally proposed. The owner did in fact increase the two-bedroom unit sizes from 946 at the time of application and 1050 at the time of approval. Therefore, the two-bedroom unit size was reduced from 1050 at the time of approval to 999 as built. The development architect certified to the reduction in square footage at the time of cost certification.

The owner stated that the site plan was changed to improve the original design, in part by including a central courtyard and adding two one-bedroom units.

Although the owner's request mentions changes in the parking spaces as needing approval, the 105 covered spaces certified by the architect as built exceeded the 100 covered spaces proposed. While the 135 open spaces built do not match the 180 open spaces proposed, this elderly development has 240 spaces of all types, or about 1.3 spaces per unit and this ratio was approved by the city.

The development was awarded tax credits in association with its tax-exempt bond financing and the changes proposed would not have affected the recommendation for an award. The owner believes the Department staff suggested that he delayed the completion of this amendment to avoid penalties during the 2007 competitive application cycle. Staff presented the facts as they occurred. A copy of the chronological facts are attached with this presentation.

The original and final site plans are included as attachments behind the owner's letter of request.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including a modification of the number of units or bedroom mix of units and any other modification considered significant by the board.
Owner:	Hunter Road Affordable Housing, Ltd.
General Partner:	SMRC Willow Springs, LLC, Managing GP; SMRC FPGP Inc., Co-GP

Principals/Interested Parties:	Housing Authority of the City of San Marcos, sole owner of both GPs; Stuart Shaw, owner of a special limited partner
Syndicator:	Paramount Financial Group
Construction Lender:	Newman Capital
Permanent Lender:	Newman Capital
Other Funding:	Tax Exempt Bonds from Capital Area HFC
City/County:	San Marcos/Hays
Set-Aside:	Tax Exempt Bond Development
Type of Area:	Exurban
Region:	7
Type of Development:	New Construction
Population Served:	Elderly Population
Units:	180 HTC units as originally proposed (2 units added as built)
2004 Allocation:	$482,804
Allocation per HTC Unit:	$2,682
Prior Board Actions:	7/04 – Approved award of tax credits\ 9/4/08 – Approved amendment for same owner (write-up attached)
Underwriting Reevaluation:	Does not recommend a change in the amount of credits.
Staff Recommendation:	**Staff recommends denying the request because the changes negatively affect the future tenants without providing sufficient**

mitigation. Staff recommends the owner provide additional amenities to compensate for the reduction in square footage in the two bedroom units and lack of microwaves in each unit.

Penalty Assessment:	**Staff recommends the assessment of appropriate penalties, pursuant to §50.9(c) of the QAP, because the request is made after the implementation of the changes.**

HTC No. 04489, Port Royal Homes

Summary of Request: The owner requested approval to change the building count from twelve buildings to nine buildings, unit count from 250 units to 252 units, parking from 500 open spaces to 250 carports and 148 open spaces (398 total spaces), and unit mix as follows:

	Application			Amendment			
Units	Number	Size	NRA	Units	Number	Size	NRA
1BR/1Bath	50	750	37,500	1BR/1Bath	12	750	9,000
			-	1BR/1Bath	36	820	29,520
2BR/1Bath	57	836	47,652	2BR/1Bath	51	921	46,971
2BR/2Bath	57	973	55,461	2BR/2Bath	51	1,042	53,142
				2BR/2Bath	19	1,082	20,558
3BR/2Bath	86	1,125	96,750	3BR/2Bath	83	1,125	93,375
	250		237,363		252		252,566

The table shows that the development was built with the following differences from the original proposal: 50 proposed vs. 48 built one-bedroom units, 57 proposed vs. 51 built two-bedroom units with one bathroom, 57 proposed vs. 70 built two-bedroom units with two bathrooms, 86 proposed vs. 83 built three-bedroom units. The final parking ratio was 1.58 spaces per unit.

The owner stated that the development was changed to accommodate the expansive soils and a drainage feature and these features were not fully considered at the time of application. The change would not change the evaluation of the application or the recommendation of the application for an award of tax credits.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including a modification of the number of units or bedroom mix of units and any other considered significant by the board.

Units:	250 HTC units
2004 Allocation:	$844,349
Allocation per HTC Unit:	$3,377

Prior Board Actions: 1/05 – Approved award of tax credits. 12/20/08
12/20/07 – Approved two amendments for same owner (write-ups attached)

Underwriting Reevaluation: The requested amendment does not negatively impact the underwriting of this development.

Staff Recommendation: **Staff recommends approving the request because the development as built is equivalent to the development as proposed.**

Penalty Assessment: **Staff recommends the assessment of appropriate penalties, pursuant to §50.9(c) of the QAP, because the request is made after the implementation of the changes.**

HTC No. 05025, Poinsettia Apartments

Summary of Request: The owner requested approval for a change in the site plan and building plans. The letter of request and site plans indicated that the development was proposed to have an office/clubhouse, recreational facilities and two residential buildings within a central block or island in the site, encircled by the site's main driveway. Across the driveway, along the perimeter of the site, the remaining eight residential buildings were to be built. In order to add office space in the central block, the owner moved one of the two residential buildings and stacked it on top of one of the perimeter buildings. In effect, a one-story fourplex was stacked on another one-story fourplex.

The development was completed with the same net rentable area as originally proposed, but with nine residential buildings instead of ten, and with more office space. The additional 2,578 square feet of office space was for the general administrative use of the Alamo Housing Authority as well as to serve tenants of the subject development's 24 public housing units.

The changes would not affect the score of the application or the recommendation for an award.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including any modification considered significant by the board.
Owner:	Poinsettia Housing, Ltd.
General Partner:	Alamo Housing Authority
Developers:	Poinsettia Housing Development, LLC
Principals/Interested Parties:	Alamo Housing Authority, Rick Deyoe, Enrique Flores
Syndicator:	PNC Financial
Construction Lender:	PNC Financial
Permanent Lender:	PNC Financial
Other Funding:	Alamo Housing Authority
City/County:	Alamo/Hidalgo
Set-Aside:	General Population
Type of Area:	Urban
Region:	11
Type of Development:	New Construction
Population Served:	General Population
Units:	100 HTC units
2005 Allocation:	$571,979
Allocation per HTC Unit:	$5,720
Prior Board Actions:	7/06 – Approved award of tax credits
Underwriting Reevaluation:	The proposed permanent loan amount has increased by $559,154, which may reduce the final credit amount at issuance of 8609s.
Staff Recommendation:	**Staff recommends approving the request. Although the offices will serve the entire jurisdiction of the housing authority, they are immediately available for the tenants of the subject development and their presence on-site is beneficial.**
Penalty Assessment:	**Staff recommends the assessment of appropriate penalties, pursuant to §50.9(c) of the QAP, because the request is made after the implementation of the changes.**

HTC No. 060125, Country Club Apartments

Summary of Request: The owner requested approval to change the target population from intergenerational to family. The owner stated the reason for the change as weak demand for the elderly units. The owner stated that the development was placed in service in January of 2008 and only two senior units had been leased and one pre-leased after eight months of leasing. The change would not change the score of the application or the recommendation of the application for an award of tax credits.

Staff has struggled with this request because the market study supported the demand for the proposed populations to be served at the time of application. However, now the market analyst supports the change in population served because the demand is not what was originally recommended. A decision with this amendment request is more of a policy issue for the Board.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including any modification considered significant by the board.
Owner:	Pecos Country Club Apartments, LP
General Partner:	Pecos Country Club Housing, LLC

Set-Aside:	Intergenerational Population
Type of Area:	Rural
Region:	12
Type of Development:	New Construction
Population Served:	Intergenerational Population
Units:	43 HTC units and 1 employee units
2006 Allocation:	$410,128
Allocation per HTC Unit:	$9,538
Prior Board Actions:	7/06 – Approved award of tax credits
Underwriting Reevaluation:	While the change will enhance project feasibility, the final loan amount may impact the ultimate amount of tax credits issued on the 8609s.
Staff Recommendation:	**Staff recommends denial of this request because the development will not be serving the target populations which it originally proposed to serve. If the Board approves the request, the change in target population will require a change in the recorded Land Use Restriction Agreement.**
Penalty Assessment:	**No penalty is recommended because the Board's approval has been requested prior to implementing the changes.**

HTC No. 060129, Chisholm Trail Crossings Apartments

(This request is the same as for 060125 above)

Summary of Request: The owner requested approval to change the target population from intergenerational to family. The owner stated the reason for the change as weak demand for the elderly units. The owner stated that the development was placed in service in January of 2008 and had not leased a single senior unit after eight months of leasing. The change would not change the score of the application or the recommendation of the application for an award of tax credits.

Governing Law:	§2306.6712, Texas Government Code. The code states that the Board must approve material alterations of a development, including any modification considered significant by the board.

ALLOCATION

	REQUEST			**RECOMMENDATION**		
TDHCA Program	Amount	Interest	Amort/Term	**Amount**	**Interest**	**Amort/Term**
Housing Tax Credit (Annual)	$1,153,613			**$1,153,613**		

* The original tax credit award amount was $1,153,613.

RECOMMENDATION

Staff has evaluated the financial viability of the requested amendment. Based on the information provided, the transaction does not currently meet the Department's 2008 Real Estate Analysis Rules and Guidelines. However, the requested amendment does not have an effect on the financial viability of the development; therefore, the Underwriter recommends approval of the requested amendment. The Underwriter anticipates that the development will achieve breakeven in year 5 and a 1.15 DCR prior to year 15; therefore, the Underwriter anticipates that the development will meet the Department's Real Estate Analysis Rules and Guidelines by year 15. If the Board chooses to approve the amendment, the Underwriter recommends a total allocation of $1,153,613. The development has satisfied all previous conditions and is currently completing the Cost Certification process.

SALIENT ISSUES

TDHCA SET-ASIDES for LURA

Income Limit	Rent Limit	Number of Units
30% of AMI	30% of AMI	25
40% of AMI	40% of AMI	13
50% of AMI	50% of AMI	25
60% of AMI	60% of AMI	66

During the September Board meeting, the Applicant's request was to have 26 30% units, 13 40% units, 27 50% units, and 63 60% units. The Applicant has since revised the request to reflect the income limits above.

ADDENDUM

The development was originally underwritten and approved for an award of 9% Housing Tax Credits in 2003. The reconstruction of the development has been completed and the development is currently leased at above 90% occupancy. Subsequently, on July 14, 2008, the Applicant submitted a request to amend the application. This amendment was presented to the Board during the September 2008 meeting and was tabled at that time to allow the Applicant to revise the amendment request. On October 13, 2008 the Applicant provided a revised request to amend the application as follows:

- Increase in the number of housing tax credit units from 124 to 129. The number of market rate units will decrease by 5 units, from 32 to 27, and no change will be made to the total number of units. Each of the units that will be changed from a market rate to a tax credit unit will be restricted at the 60% level. Under the original amendment request, the 5 additional tax credit units reflected income and rent targeting as follows: 1 30% unit, 2 50% units, and 2 60% units.

The original amendment submitted on July 14, 2008 also included a request to reduce the net rentable area ("NRA") in the development from 142,628 to 133,077, a 7% decrease. However, it was determined that a true decrease in square footage did not occur. Rather, the lower NRA figure of 133,007 was the result of a change from a market methodology of calculating NRA to a HUD methodology. Therefore, the as-built square footage of 133,007 is equivalent to a market NRA of 143,195, which represents a small increase in NRA since application. Therefore, that portion of the original amendment request has been omitted from the revised request, as NRA did not change in a manner that requires Board approval.

Regarding the increase in the number of rent-restricted units, the Applicant asserts that the reason for the increase is to allow the development to maintain an 80% applicable fraction, which allows the Applicant access to all of the tax credits originally allocated to the development. The change in the methodology for calculating NRA, from a market methodology to a HUD methodology, caused the applicable fraction based on square footage to fall below 80%. Therefore, the Applicant requested an increase in rent-restricted units to allow the development to once again have an 80% applicable fraction. This change will require an amendment to the development's LURA. According to the Underwriter's analysis, it appears that the development would continue to qualify for the entire amount of the original allocation without increasing the number of rent-restricted units and, as a result, the applicable fraction.

The change in the amendment request to set each of the 5 new tax credits units at the 60% income and rent levels has a small positive impact on the development's feasibility, as compared to the original amendment request. Both the Applicant's and Underwriter's income estimates increased by $7,800 annually. In addition, the Underwriter's analysis shows that the development would achieve breakeven in year 4, rather than year 5, as previously forecasted. In order for the development to achieve a 1.15 DCR, the total permanent loan of $10,003,400 (which includes the permanent loan of $9,003,400, and the two ORC loans of $500,000 each) would have to be reduced to $8,268,542. However, the Applicant has confirmed that the permanent loan amount will not be adjusted; therefore, it is appropriate to evaluate the development considering the current loan amounts.

CONCLUSIONS

Recommended Financing Structure:

As stated above, the proforma analysis results in a debt coverage ratio below the Department's minimum guideline of 1.15. However, as previously stated, the Applicant has indicated that there are no current plans to resize the loan in order to increase DCR, and as a result the Underwriter's recommended financing structure utilizes the current total permanent loan amount of $10,003,400, which includes the permanent loan of $9,003,400 and the two ORC loans of $500,000 each.

The Underwriter's total development cost estimate less the total permanent loan amount of $10,003,400 indicates the need for $9,803,716 in gap funds, which could be filled by a tax credit allocation of $1,167,110 based on the submitted syndication terms. Using the Underwriter's recommended decreased total permanent loan amount of $8,268,542, a gap of $11,538,573 could be filled with a tax credit allocation of $1,373,640. Of the three possible tax credit allocations, Applicant's request / previously Board approved allocation ($1,153,613), the gap-driven amount based on the current loan amount ($1,167,110), and eligible basis-derived estimate ($1,257,871), the Applicant's request / previously Board approved allocation of $1,153,613 is recommended resulting in proceeds of $9,690,344 based on a syndication rate of 84%.

This section intentionally left blank.

The Underwriter's recommended financing structure using a decreased total permanent loan amount indicates the need for $1,848,229 in additional permanent funds. This amount exceeds 100% of developer fee, $1,673,627, and therefore, would leave a gap of $174,602 that is unable to be filled. However, because there are no current plans to resize the primary permanent loan, an examination of deferred developer fee based on current loan terms is appropriate. Using the existing total permanent loan amount of 10,003,400, additional permanent funds in the amount of $113,372 are needed. Deferred developer in this amount appear to be repayable from development cashflow within 10 years of stabilized operation.

The development does not currently meet the Department's 2008 Real Estate Analysis Rules and Guidelines because the development is operating below a 1.15 DCR; however, the operating plan suggests that a return to a financially feasible position is possible in the near future.

RECOMMENDATION

Staff has evaluated the financial viability of the requested amendment. Based on the information provided, the transaction does not currently meet the Department's 2008 Real Estate Analysis Rules and Guidelines. However, the requested amendment does not have an effect on the financial viability of the development; therefore, the Underwriter recommends approval of the requested amendment. The Underwriter anticipates that the development will achieve breakeven in year 5 and a 1.15 DCR prior to year 15; therefore, the Underwriter anticipates that the development will meet the Department's Real Estate Analysis Rules and Guidelines by year 15. If the Board chooses to approve the amendment, the Underwriter recommends a total allocation of $1,153,613. The development has satisfied all previous conditions and is currently completing the Cost Certification process.

SALIENT ISSUES

TDHCA SET-ASIDES for LURA

Income Limit	Rent Limit	Number of Units
30% of AMI	30% of AMI	26
40% of AMI	40% of AMI	13
50% of AMI	50% of AMI	27
60% of AMI	60% of AMI	63

PROS

- The development is complete and is currently providing safe, decent, affordable housing to low-income Texans.
- The requested increase in the number of low income units will allow the development to serve a greater number of low-income tenants.
- Both the Underwriter's and Applicant's expense to income ratio is below 53%, which is well below the Department's 65% guideline.

CONS

- The development is considered infeasible pursuant to the Department's 2008 Real Estate Analysis Rules and Guidelines.
- The property is currently unable to pay its debt service and is relying on cash injections by the equity provider for operations.
- No resize of the loan is being considered as a means to improve the development's DCR.

ADDENDUM

The development was originally underwritten and approved for an award of 9% Housing Tax Credits in 2003. The reconstruction of the development has been completed and the development is currently leased at above 90% occupancy. Subsequently, on July 14, 2008, the Applicant submitted a request to amend the application as follows:

- An increase in the number of housing tax credit units from 124 to 129. The number of market rate units will decrease by 5 units, from 32 to 27, and no change will be made to the total number of units.
- A reduction in the net rentable area ("NRA") in the development from 142,628 to 133,077, a 7% decrease.

The Applicant asserts that the reason for the increase in the number of rent-restricted units is to allow the development to have a higher applicable fraction, which allows the Applicant access to all of the tax credits originally allocated to the development. According to the Applicant, the increased applicable fraction will also prevent adjusters under the Limited Partnership Agreement that will reduce equity to the development. However, according to the Underwriter's analysis, it appears that the development would continue to qualify for the entire amount of the original allocation without increasing the number of rent-restricted units and, as a result, the applicable fraction.

The net rentable area of the development decreased by 7% between application and the completion of the development. The average square footage of 1 bedroom units decreased from 655 to 608, a 7% decrease, and the average square footage of 2 bedroom units decreased from 1,069 to 1,031 square feet, a 4% decrease. The Applicant asserts that the reason for the decrease in the NRA and average unit sizes is the difference in the methodology used to calculate NRA at application, as compared to the methodology required by HUD, as a result of the FHA-insured mortgage.

The requested changes on their own do not seem to have a significant effect on the feasibility of the development. However, due to lower than projected actual rents the development is currently operating below a 1.00 DCR, and as a result would currently be considered infeasible by underwriting guidelines. The investor limited partner (Wachovia) has been active in the amendment request, and has contributed $76,754.44 to date enabling Pegasus to weather the initial unsteadiness in operations. The investor limited partner has not committed to fund operating deficits indefinitely, but has stated that their willingness to fund the deficits so far "can be taken as a sign of [Wachovia's] confidence that the operational challenges can be surmounted."

According to the investor limited partner, several factors contributed to the current situation. Rental concessions offered during the property's lease-up phase were larger, and lasted longer than forecasted. The Underwriter's analysis assumes achievement of maximum tax credit rents less utility allowances and still results in a DCR below a 1.00, without the inclusion of any rental concessions, but as a result of higher utility allowances and therefore lower maximum rents. The development is currently 94.87% occupied, and has been approximately 96% occupied over the past 6 months, according to the investor limited partner.

In addition, the investor limited partner stated that the development experienced several challenges that contributed to the initial unsteadiness in operations, including a lightning strike, a sprinkler break, and a fire, which required more intensive property management than is expected to be necessary going forward.

The Applicant has taken steps to decrease the development's utility expense, which has been high historically, in part due to the fact that the development is a high-rise building. The Applicant has entered into a fixed-rate pricing structure with TXU Energy to reduce utility costs, and has reported an average decrease in utility expense of 25% over the past 6 months.

The investor limited partner (Wachovia) has provided the Underwriter with the assumptions Wachovia has utilized to draw the conclusion that the development will achieve breakeven by the end of year 2010. Through December 2007, the development has had approximately $1.1M in operating deficits which have been funded with a combination of initial reserves and class B limited partner advances. So far in 2008 the development has incurred $76K in operating deficits, which Wachovia has already funded. Through December 2010, Wachovia expects that an additional $104K in operating deficits will be incurred, which Wachovia is willing to fund.

This section intentionally left blank.

The investor limited partner has assumed that income will grow at 3% per year, while existing concessions will decrease at a rate of 50% per year over the next 3 years, from $78K currently to $10K in 2011. In addition, Wachovia has assumed that expenses will grow at a rate of 4% per year, with the exception of make-ready expense which is anticipated to decrease by 25% per year for the next 3 years, and leasing expense which is anticipated to decrease by 40% per year over the next 3 years. Utilizing these assumptions, Wachovia concludes that the development will achieve breakeven in 2011, with continued improvements in operations and a DCR of 1.17 by 2017.

Wachovia has pointed out the presence of other mitigating factors. First, $525,801 in tax credit equity contributions remain outstanding and serve as a reserve of sorts. While the investor limited partner is not obligated to advance additional equity proceeds, Wachovia has exercised its discretion to do so in the past to fund operating deficits. The general partner has an unlimited obligation to fund operating deficits until the development achieves a 1.15 DCR. Finally, Wachovia has stated that the development would benefit from enhanced local sponsorship, and to that end Wachovia will explore the possibility of bringing in additional partners.

The development currently has a replacement reserve balance of $43K, which exceeds the annual replacement reserve requirement of $40K. Based on the existing balance, the development could forgo 1 year of replacement reserve expense, without depleting the existing reserve balance. If replacement reserve expense was $0 during year 1 of the Underwriter's proforma, the Underwriter's recommended DCR would be 1.00. The Underwriter's DCR would drop below a 1.00 in year 2 with a return to a full reserve for replacement set aside from income, however, and would not achieve a 1.00 again until year 5 with full reserves set aside. A DCR of 1.15 would be achieved prior to year 15.

OPERATING PROFORMA ANALYSIS

Income:

The Applicant's potential rents were calculated by subtracting tenant paid utility allowances from the City of Dallas from 2008 program gross rent limits. The decrease in income since application is attributable to the fact that gross rent limits have not increased, while utility allowances have increased. In addition, the increase in the number of restricted units has also marginally decreased income. Estimated secondary income of $19,212 is in line with the Department's standard at approximately $10 per unit per month, and as such is considered reasonable, though less than originally anticipated. Vacancy losses are also within Department guidelines. The Applicant's effective gross income estimate is within 5% of the Underwriter's estimate.

Expense:

The Applicant's total operating expense estimate of $3,564 per unit is 7% lower than the Underwriter's estimate of $3,845 per unit derived from the TDHCA database, IREM data, and actual operations at the property.

As stated previously, the Applicant has entered into a fixed-rate pricing structure with TXU Energy to reduce utility costs. However, the Underwriter's analysis has already taken this utility savings into account by utilizing current actual expenses, which presumably reflect the reduction in utility expense as compared to the period of time before the expense reduction measures were taken.

Conclusion:

The Applicant’s expenses and net operating income are not within 5% of the Underwriter’s estimates; therefore, the Underwriter's year one proforma will be used to determine the development's debt capacity. The proposed permanent financing structure results in an initial year’s debt coverage ratio (DCR) of 0.97, which is NOT within the Department’s DCR guideline of 1.15 to 1.35.

The loan converted to the permanent phase in November 2006 and the loan amount has increased by $2,675,400 since application. Currently, the development is unable to support debt service on this loan and is relying on the investor limited partner to fund current operating deficits. According to the Applicant and investor limited partner, there are no current plans to resize the loan in order to allow the development to support a lower debt service amount.

Feasibility:

While the development is complete, it is considered infeasible based on the Department's 2008 Real Estate Analysis Rules and Guidelines because the development's DCR is below the Department's minimum of 1.15. The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio below a 1.00. The Underwriter's proforma indicates that the development would not reach a 1.00 DCR until year 5, and would not reach a DCR of 1.15 (the Department's minimum for feasibility) until year 13. Therefore, the development cannot be characterized as feasible for the long-term.

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE

The Department has received the Cost Certification for this development, and as part of the Cost Certification documentation has received evidence of the final development costs, as certified by the development CPA. The Applicant's direct construction costs have increased by 39% from the Applicant's estimate at the time of application. However, because the development is a rehabilitation, the Underwriter utilized the Applicant's direct construction costs.

The 39% increase in direct construction costs also affected contractor fees, which increased by 28%. Developer fee, however, decreased by 11% since application. The final, certified costs indicate a 25% decrease in site work costs, a 27% decrease in indirect construction costs, a 418% increase in ineligible expenses, and a 486% increase in required reserves from the Applicant's estimates at application. According to the applicant, the increase in both ineligible expenses and reserves is a result of a change in financing structure to an FHA mortgage, for which HUD required larger escrows and reserves, and which increased financing costs due to a longer timeline to close on the loan.

Conclusion:

The Underwriter's cost schedule was derived from the Applicant's final costs presented in the Cost Certification documentation, as certified by the development CPA. The reduction in NRA has not affected the reasonableness of the Applicant's final, certified development costs. Any deviations from the Applicant's estimates are due to program and underwriting guidelines. Therefore, the Underwriter's development cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. Eligible basis of $1,720,306 for acquisition and adjusted basis of $14,411,100 for rehabilitation supports annual tax credits of $1,257,871. This figure will be compared to the Board approved tax credits, the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

SOURCES & USES

Source: Red Capital Group Type: **Permanent Financing**

Principal: $9,003,400 Interest Rate: 5.7% ☒ Fixed Amort: 480 months

Comments:

The loan converted to the permanent phase in November 2006. The loan amount increased by $2,675,400 since application. Currently, the development is unable to support debt service on this loan and is relying on the investor limited partner to fund current operating deficits. According to the Applicant and investor limited partner, there are no current plans to resize the loan in order to allow the development to support a lower debt service amount.

Comments:

The investor limited partner changed from Key Investment Fund Limited Partnership at application to Wachovia. Syndication proceeds increased by $325K as a result of an increase in the syndication rate from 81% at application to 84% at Cost Certification.

Amount: $616,569 Type: **Deferred Developer Fees**

CONCLUSIONS

Recommended Financing Structure:

As stated above, the proforma analysis results in a debt coverage ratio below the Department’s minimum guideline of 1.15. Therefore, the Underwriter's recommended financing structure indicates that a decrease in the total permanent loan amount to $8,173,595 based on the terms reflected in the Cost Certification materials would be required to increase the development's DCR to the Department's minimum of 1.15. However, as previously stated, the Applicant has indicated that there are no current plans to resize the loan in order to increase DCR, and as a result the Underwriter's recommended financing structure utilizes the current total permanent loan amount of $10,003,400.

The Underwriter’s total development cost estimate less the permanent loan of $10,003,400 indicates the need for $9,803,716 in gap funds, which could be filled by a tax credit allocation of $1,167,110 based on the submitted syndication terms. Using the Underwriter's recommended decreased total permanent loan amount of $8,173,595, a gap of $11,633,520 could be filled with a tax credit allocation of $1,384,944. Of the three possible tax credit allocations, Applicant’s request / previously Board approved allocation ($1,153,613), the gap-driven amount based on the current loan amount ($1,167,110), and eligible basis-derived estimate ($1,257,871), the Applicant’s request / previously Board approved allocation of $1,153,613 is recommended resulting in proceeds of $9,690,344 based on a syndication rate of 84%.

This section intentionally left blank.

The Underwriter's recommended financing structure using a decreased total permanent loan amount indicates the need for $1,943,176 in additional permanent funds. This amount exceeds 100% of developer fee, $1,673,627, and therefore, would leave a gap of $269,545 that is unable to be filled. However, because there are no current plans to resize the primary permanent loan, an examination of deferred developer fee based on current loan terms is appropriate. Using the existing total permanent loan amount of 10,003,400, additional permanent funds in the amount of $113,372 are needed. Deferred developer in this amount appear to be repayable from development cashflow within 11 years of stabilized operation.

The development does not currently meet the Department's 2008 Real Estate Analysis Rules and Guidelines because the development is operating below a 1.15 DCR; however, the operating plan suggests that a return to a financially feasible position is possible in the near future.

PROPERTY LOCATION

Location: 7200 North Stemmon Freeway ☒ **QCT** ☐ **DDA**

City: Dallas **County:** Dallas **Zip:** 75247

REQUEST

Amount	Interest Rate	Amortization	Term
$1,156,172	N/A	N/A	15 years

Other Requested Terms: Annual ten-year allocation of low-income housing tax credits

Proposed Use of Funds: New Construction **Property Type:** Multifamily

Set-Aside(s): ☒ General ☐ Rural ☐ TX RD ☐ Non-Profit ☒ Elderly ☐ At Risk

RECOMMENDATION

☒ RECOMMEND APPROVAL OF AN LIHTC ALLOCATION NOT TO EXCEED $1,153,613 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of verification by the City of Dallas as to the terms of the HOME program forgivable loan and its associated use restrictions;
2. Receipt, review, and acceptance of a plan of abatement for the asbestos, lead and mold in the building by a qualified professional and implemented in accordance with appropriate local state and federal regulations;
3. Should the terms or rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

The Pegasus Apartments was originally submitted and underwritten during the 2002 LIHTC cycle. The underwriting analysis recommended the project be approved subject to the following conditions:

1. Receipt, review, and acceptance of an acceptable Phase II Environmental Site Assessment report by a third party environmental engineer that reports findings with respect to lead based paint;
2. Receipt, review, and acceptance of an acceptable Operation and Maintenance Plan and an estimate of the current cost of abatement for asbestos by a third party environmental engineer;
3. Receipt, review, and acceptance of an acceptable mold assessment by a third party environmental engineer;
4. Review of the scoring points for deep income targeting as the deferred developer fee as determined by the Underwriter exceeds 50% of the eligible developer fee.
5. Receipt, review, and acceptance of a revised Permanent Loan Commitment reflecting debt services and to exceed $495,016
6. Should the terms of the proposed debt be altered, the previous condition should be re-evaluated.

The project did not receive an allocation in the 2002 cycle due to score reductions.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

Total Units: 156 **# Rental Buildings** 1 **# Common Area Bldgs** 0 **# of Floors** 16 **Age:** N/A yrs **Vacant:** Yes at 02/ 21/ 2003

Net Rentable SF: 142,642 **Av Un SF:** 914 **Common Area SF:** 48,698 **Gross Bldg SF:** 191,340

STRUCTURAL MATERIALS

Steel frame on a concrete slab, 34% glass 66% prefinished exposed aggregate masonry exterior wall covering, drywall and plaster interior wall surfaces, built-up and galvanized metal roofing. Twelve foot (12') ceiling height.

APPLIANCES AND INTERIOR FEATURES

Carpet & ceramic tile flooring, range & oven, garbage disposal, dishwasher, refrigerator, microwave oven, fiberglass tub/shower, washer & dryer connections, ceiling fans, laminated counter tops, individual water heaters.

ON-SITE AMENITIES

Management offices, furnished community room, residential kitchen, community laundry room, senior center with arts and crafts, wellness center, computer room/facilities, indoor swimming pool, picnic area, community garden/walk trail, fitness facilities and jacuzzi, public restrooms, monitored unit security, car wash area.

Uncovered Parking: 350 spaces **Carports:** N/A spaces **Garages:** N/A Spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: The Pegasus is a proposed acquisition, conversion and rehabilitation of an office building built in 1969 and abandoned in the mid-1980s. The application proposes 156 units of mixed income senior housing, comprised of 87 one bedroom/one bath units and 69 two bedroom/two bath units. The variation in size among units with the same number of bedrooms is unusually great. The 16-story building is located about 4.5 miles northwest of downtown Dallas.

Development Plan: The Applicant intends to remove all interior walls and completely renovate the building. Site Work is to include the upgrade of the utility lines, installation of an indoor swimming pool and deck and to perform landscaping around the site. The pool will actually be on the first floor of the building and though it is included in site work costs rather than considered a direct cost by the Applicant. Direct construction costs will consists of creating 156 multi-family units from the existing building. The main costs will be for carpentry, mechanical, electrical & plumbing, new windows, drywall and to install four new elevators. Asbestos is known to be present in the building. An unidentified type of mold was observed by the environmental inspector in areas exposed to the elements because of broken windows. Because the building was constructed in 1969, there is a high likelihood that lead-based paint is present.

Architectural Review: A letter from Preservation Dallas, dated December 14, 2001, explains the architectural and historical significance of the building, having been designed by Paul Rudolph, former Dean of the School of Architecture of Yale University, and a leader of the "Brutalist" style in which the building was designed. Characterized by its exposed concrete, and rough texture, the building is the only major accomplishment in the Brutalist style in Dallas, and one of only a few in Texas. It was commissioned by Texas Industries (TXI), a concrete company, to promote its then new Span-Deck floor system made of pre-cast, pre-stressed, hollow core, concrete planks separating each floor. Constructed of long, preformed concrete exterior wall sections, which are in appearance stacked horizontally across each other in alternate levels with glazed windows for sixteen stories, the building has been described by the architect as, "in essence a big log cabin." The building was originally intended to be one in a complex of four towers, the original design envisioning a "city within a city," with a collection of shops, restaurants, pedestrian's areas and offices around a mall. However only the single structure was ever built. In 1969, the Yale School of Art and Architecture building which was designed in the same style by the same architect was stormed and burned by a group of students, criticizing the interior space as unworkable, awkward, and unforgiving. For two decades to follow, Randolph fell out of popularity and was forced to design mostly outside of the United States. Shortly after construction of the subject building, TXI realized some difficulties leasing the office space, finding that the interior spaces were similarly somewhat inflexible and constraining as those of the Yale School of Art and Architecture. The building was eventually leased. The primary tenants, however, departed in the mid 1980s, and the building was soon after left vacant.

The proposed unit floor plans do a good job of utilizing the existing spaces in the building. However the constraints of having to work with an existing structure are evident in the occasional trapezoid shaped bedroom, triangular walk-in closet, or longer-than-normal hallway to a bedroom.

Supportive Services: The Applicant certifies that it will coordinate its tenant services with those provided through state workforce development and welfare programs, and will provide at least three of the tenant services named as options by TDHCA.

Schedule: The Applicant anticipates construction to begin in November of 2003, to be completed in Septemberof 2004, to be placed in service in September of 2004, and to be substantially leased-up in May of 2005.

SITE ISSUES

SITE DESCRIPTION

Size: 4.963 acres 216,188 square feet **Zoning/ Permitted Uses:** Mixed Use

Flood Zone Designation: Zone B **Status of Off-Sites:** Fully Improved

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is an irregularly shaped parcel located approximately 4.5 miles northwest of the central business district. The site has frontage on the south side of Mockingbird Lane and the east frontage road of Stemmons Freeway and has excellent visibility.

Adjacent Land Uses: Land uses in the overall area in which the site is located are mixed. Adjacent land uses include:

- **North:** Mockingbird Lane and offices beyond
- **South:** Hotels and industries with single family residential beyond
- **East:** Offices
- **West:** Stemmons Freeway with industries beyond

Site Access: The development has one main entry driveway from the Stemmons Freeway frontage road and an existing entry driveway that is a proposed access easement (according to the site plan) from Mockingbird Lane to the north. Access to Interstate Highway 35 is adjacent to the property, which provides connections to all other major roads serving the Dallas area.

Public Transportation: Public transportation to the area is provided by Dallas Area Rapid Transit (DART).

Shopping & Services: The site is within two miles of a supermarket and pharmacies, five miles from a major (regional) shopping center with a multi-screen theater. Restaurants, schools and churches are within easy driving distance. Hospitals and health care facilities are located within a very short driving distance of the site.

Special Adverse Site Characteristics: The primary conditions of concern are the presence of asbestos containing materials and unidentified molds, and the likely presence of lead based paint as discussed below.

Site Inspection Findings: TDHCA staff performed a site inspection on May 6, 2002 and found the location to be acceptable for the proposed development.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment (ESA) was performed on November 19, 2001, and was updated on February 27, 2003. A Phase II Asbestos Survey Report dated December 27, 2001 were performed HBC Engineering, Inc. The reports contained the following findings and recommendations:

Findings:

Mold: The Phase I states that suspect mold stains were observed on the walls of the upper floors, primarily in the stairwells. Identification and evaluation of suspect mold, however, is an issue beyond the scope of the assessment.

Asbestos-Containing Materials (ACM): An asbestos survey report (Phase II ESA) of the property, dated December 27, 2001, was prepared by HBC. The report details the existence of asbestos-containing materials, including some that may have been damaged.

Lead-Based Paint (LBP): Although no survey of LBP was performed, it is likely that the building contains LBP because of the year of construction (1970).

Radon: The Phase I ESA states that the site has a low potential for the presence of elevated levels of radon gas.

Noise: No findings were made in the environmental reports with respect to noise. Although the site is adjacent to an interstate highway, the location is typical of many offices and hotels.

Floodplain: The site is within the floodplain of the Trinity River and is protected from flooding by the levee.

Recommendations: The original Phase I ESA recommended removing a 55-gallon drum and disposing of it in compliance with state and local regulations. At the time of the update to the Phase I ESA, the drum was reported to have been removed, and is not a condition of the updated Phase I ESA. In view of the findings of the Phase II ESA, an Operations and Maintenance Plan for the asbestos should be formulated by a qualified professional and implemented in accordance with the appropriate regulations. An investigation for lead-based paint should be conducted prior to demolition and any necessary abatement should be implemented in compliance with applicable regulations. Although the ESAs did not make such a recommendation, the mold found to exist within the building should be tested and an appropriate plan for abatement administered in compliance with applicable regulations.

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. There will be 124 units (79% of the total) reserved for low-income/elderly tenants, of which 25 of the units (16%) will be reserved for households earning 30% or less of AMGI, 13 of the units (8%) will be reserved for households earning 40% or less of AMGI, 25 of the units (16%) will be reserved for households earning 50% or less of AMGI, and 61 units (39%) will be reserved for households earning 60% or less of AMGI. The remaining 32 units (21%) will be offered at market rents.

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$27,960	$31,920	$35,940	$39,900	$43,080	$46,260

MARKET HIGHLIGHTS

A market feasibility study dated March 11, 2003 was prepared by Apartment Market Data Research

Services, L.L.C. Information from the study follows:

Definition of Market/Submarket: The primary market area (PMA) is designated as the area bounded by Loop 635 to the north, I-30 to the south, the Dallas North Tollway to the east and MacArthur Boulevard to the west, effectively the northwest quadrant of Dallas (page 3).

Population: The estimated 2002 population of the PMA was 246,354 and is expected to increase by 1.7% annually to approximately 266,847 by 2007. Within the primary market area there were estimated to be 79,732 households in 2002.

Total Local/Submarket Demand for Rental Units:

ANNUAL INCOME-ELIGIBLE SUBMARKET DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	11	0.7%		%
Resident Turnover	1,598	95.9%		%
Other Sources: 10 yrs pent-up demand	57	3.4%		%
TOTAL ANNUAL DEMAND	1,666	**100%**		**100%**

Ref: p. 10

Inclusive Capture Rate: "The Market Analyst concluded a capture rate of 7.4% under the assumption that there were no other unstabilized elderly developments in the primary market area." (p. 11) The Underwriter calculated a capture rate of 16%.

Local Housing Authority Waiting List Information: "There are approximately 16,000 households on the combined waiting lists for Public Housing and Section 8 Housing." (p. 88)

Market Rent Comparables: The Market Analyst never explicitly states the potential market rents which could be achieved by the subject property. In one section the Analyst indicates that rents in the market area average $1.14 per square foot for one-bedroom units, and $1.03 for two-bedroom units, which for the subject would yield rents between $616 and $975 for one-bedroom units and rents between $842 and $1,443 for two-bedroom units (p. 112). In another section of the report, the analyst compares market rents of $865 for one-bedroom units and $1,146 for two-bedroom units to the proposed rents of the subject (p. 98). However in yet another section of the report the analyst uses $700 for one-bedroom units and $1,130 for two-bedroom units (p. 100). The Applicant proposes market rents of $825 for one-bedroom units and $999 for two-bedroom units, which would generally seem to be supported by data from the market study.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Proposed Max**	**Differential**
1-Bedroom (30%)	$314	$314	$0	$825	-$511
1-Bedroom (40%)	$440	$440	$0	$825	-$385
1-Bedroom (50%)	$564	$564	$0	$825	-$261
1-Bedroom (60%)	$689	$689	$0	$825	-$136
1-Bedroom (MR)	$825	N/A		$825	$0
2-Bedroom (30%)	$373	$373	$0	$999	-$626
2-Bedroom (40%)	$524	$524	$0	$999	-$475
2-Bedroom (50%)	$673	$673	$0	$999	-$326
2-Bedroom (60%)	$823	$823	$0	$999	-$176
2-Bedroom (MR)	$999	N/A		$999	$0

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Submarket Vacancy Rates: "The current occupancy of the market area is 92.1%. Newer projects constructed since 1990 average 93.5%, comparable market rate projects in the trade area average 93.4%, while rent restricted communities average 93.5%. There are no elderly projects in the trade area, but elderly projects throughout Dallas average 97% to 100% occupancy. Demand for new elderly rental apartment units is considered to be very high" (p. 12).

Absorption Projections: "Absorption over the previous twelve years is estimated to be 579 units per year. We expect this pace to continue as the number of new elderly households continues to grow, and as additional rental units become available." (p. 13)

"We estimate that the project would achieve a lease rate of approximately 7% to 10% of its units per month as they come on line for occupancy from construction. It is important to note that two other elderly developments that opened in the Dallas area in 2001 experienced an average monthly lease rate of 13% (33 units per month)." An 8% monthly lease-up rate would result in an 18-month stabilization period (page 87).

Known Planned Development: According to the market study, there are no senior's developments in the submarket that are now in lease-up or planned for construction (p. 79). The Underwriter is aware of one other elderly development proposed nearby Churchill at Brookehaven at 6839 Harry Hines but it is not likely that this development will be awarded credits this year due to $1.6M limitations. Two other elderly developments are being considered for Grand Prairie just outside the primary market area.

Effect on Existing Housing Stock: "The subject should not have a detrimental effect on any existing projects, as occupancies are strong at quality affordable housing communities in the northwestern portion of Dallas, and especially at elderly projects throughout Dallas." (p. 88)

The Underwriter found the market study to provide sufficient information to make an informed underwriting recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections are in accordance with the maximum rents allowed under LIHTC guidelines, and estimates of secondary income and vacancy and collection losses are in line with TDHCA underwriting guidelines. The development will receive other non-rental income in the form of a billboard lease, expiring in 2008, for $20,000 annually. With the view that the income from the billboard lease is not subject to the same vacancy and collection losses which apply to residential rental income, the applicant increased the proforma income from this source by $1,624 so that the original contract amount of $20,000 would net into the effective gross income. However, on reviewing the terms under which the lease may be discontinued, and the conditions for renewal of the lease or possible sale of the billboard, the underwriter cannot identify any cause to inflate the non-rental income in order to avoid allowances for vacancy and collection losses. This results in a difference of $1,495 between the applicant's and the underwriter's estimates of effective gross income.

Expenses: The Applicant's total expense estimate of $3,815 per unit is within 3% of a TDHCA database-derived estimate of $3,922 per unit for comparably-sized developments. The Applicant's budget shows several line item estimates, however, that deviate significantly when compared to the database averages, particularly payroll ($17,815 lower), water, sewer, and trash ($11,942 lower), and property tax ($24,645 higher).

Conclusion: The Applicant's estimated income is consistent with the Underwriter's expectations and total operating expenses are within 5% of the database-derived estimate. Therefore, the Applicant's NOI should be used to evaluate debt service capacity. In both the Applicant's and the Underwriter's income and expense estimates there is sufficient net operating income to service the proposed first lien permanent mortgage at a debt coverage ratio that is within an acceptable range of TDHCA underwriting guidelines of 1.10 to 1.30.

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: When the transaction was presented in 2002, the application included a purchase contract for the sale of the property for $3,500,000. When a tax-credit allocation was not received in 2002, the applicant retained a business associate, Bobby Cox, who is otherwise uninvolved in the transaction to negotiate the purchase of the property before the contract expired. According to the applicant, Mr. Cox negotiated the purchase of the partnership owning the property, and once the applicant was able to arrange for interim financing to purchase the property, sold it to the applicant for $3,150,000. As required by the Department's Underwriting Guidelines, the Applicant submitted documentation supporting its acquisition and holding costs of $3,236,925. Based on this documentation the underwriter can substantiate as much as approximately $2,908,000. An appraisal performed by Stephen B. Spraberry on February 26, 2003, concluded that the potential market value of the property, as is, would be $3,700,000, with the land valued at $1,725,000. The value of the property for tax-assessment purposes for 2002 was appraised at $2,950,000, with $1,846,510 attributable to the land. In the applicant's cost schedule, $3,000,000 is stated for acquisition costs with $1,681,470 being allocation for land. The Underwriter used the $2,908,000 in substantial acquisition and holding costs as the acquisition and included the pro-rated portion attributable to buildings based on the value of the appraisal. This resulted in the underwriter's estimate of eligible basis of $1,552,243, compared to the Applicant's estimate of $1,318,530.

Off-Site Costs: The Applicant's off-sites of $27,000 are reasonable and are as a result of replacing asphalt paving on an adjacent access easement.

Sitework Cost: The Applicant's claimed site work costs of $700,349 or $4,489 per unit are reasonable. The costs are supported by the work write-up of the Development's architect.

Demolition Cost: Demolition costs are included in the hard costs. According to the development CPA, the inclusion of demolition is acceptable under the Internal Revenue Code because they are part of the building that will remain in place; moreover they are incidental to the actual rehabilitation. The asbestos abatement costs could be considered in a similar fashion.

Direct Construction Cost: Rehabilitation of the subject building is an expensive proposal. The Applicant estimates a direct construction cost of $7,788,097. The Applicant also provided a work write-up signed by the Architect that accounted for the same sitework and direct cost. The underwriting analysis uses the Applicant's estimate of direct costs.

Ineligible Costs: The Applicant included $90,000 in marketing costs as an eligible cost; the Underwriter moved this to ineligible costs, resulting in an equivalent reduction in the Applicant's eligible basis.

Fees: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost estimate is within 5% of the Underwriter's verifiable estimate and is therefore generally acceptable. Since the Underwriter has been able to verify the Applicant's projected costs to a reasonable margin, and the Underwriter's cost reflect the Applicant's total cost breakdown as adjusted, it is used to calculate eligible basis and determine the LIHTC allocation. As a result an eligible basis of $14,568,609 is used to determine a credit allocation of $1,153,613 from this method. The resulting syndication proceeds will be used to compare to the gap of need using the Applicant's total costs to determine the recommended credit amount.

FINANCING STRUCTURE ANALYSIS

Permanent Financing: Interim and permanent financing will be provided by Key Bank. The interim loan, in an amount of $7,095,284 will be partially replaced by the permanent loan of $6,328,000 in conjunction with tax-credit proceeds. The primary loan will carry an interest rate of 300 basis points above U.S. 15-year treasuries, and will be amortized over 30 years. Debt service is estimated to be $531,000 annually for underwriting purposes.

The Applicant has also received a HOME award from the City of Dallas. While a letter from the City was provided confirming approval of a forgivable loan in the amount of $350,000, the letter does not precisely state what the terms of the loan are to be. In the application, the applicant indicates that the loan is forgivable over a ten year period, which the underwriter interprets to mean that as long as the project remains in compliance with certain use restrictions over a ten-year period, then no payments of the loan will become due. Use restrictions which are expected to accompany the loan were likewise not stated in the application. Verification by the City of Dallas as to the loan terms and the expected use restrictions should be provided as a condition of approval.

LIHTC Syndication: Key Investment Fund has offered to purchase 99.99% of the ownership interest in Pegasus Villas, Ltd., providing approximately $9,355,628 in equity at a rate of $0.81 per dollar of tax-credits.

Deferred Developer's Fees: Per the applicant's estimate, up to $776,708 in developer's fees may need to be deferred in order to match financing sources to the costs of the project.

Financing Conclusions: Subject to verification of the terms and restrictions associated with the HOME loan from the City of Dallas, the financing proposed by the applicant is acceptable as submitted. The slight reduction in recommended tax credits to $1,153,613 results in syndication proceeds of $9,343,327 and increased deferred developer fee by $4,224 to $780,932 deferred developer fee in this amount if repayable in less than ten years.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

The Applicant, Developer, General Contractor, Property Manager and Supportive Services provider are all related entities. These are common relationships for LIHTC-funded developments. These types of relationships are common for LIHTC transactions. For the acquisition of the property, Bobby Cox who is a business associate in other ventures with the developer, Glenn Lynch, acted as an intermediary between the original seller of the property, and the Applicant as the final purchaser. While this relationship appears to be acceptable and not trigger additional development interest concerns.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partners are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- Operation Relief Center submitted an unaudited financial statement as of 12/31/2002 reporting total assets of $1,928,756 and consisting of $9,341 in cash, receivables and employee advances, $1,587,728 in property, plant, and equipment, and $331,687 in other assets. Liabilities totaled $1,405,039, resulting in a net worth of $523,716.
- Glenn Lynch Companies, Inc. submitted an unaudited financial statement as of 12/31/2003 reporting total assets of $38,091,263 and consisting of $482,272 in cash, $35,819,793 in construction in progress, $758,439 in receivables, $723,589 in fixed assets, and $307,168 in investments and other assets. Liabilities totaled $37,888,686, resulting in a net worth of $202,577.

Background & Experience:

- The Applicant and General Partners are new entities formed for the purpose of developing the project.
- Operation Relief Center has completed one (1) LIHTC housing developments totaling 30 units since 1999.
- Glenn Lynch has completed seven (7) LIHTC housing developments totaling 1,206 units since 1997.

SUMMARY OF SALIENT RISKS AND ISSUES

Significant environmental risks exist regarding asbestos in particular and possibly lead based paint and mold.

Underwriter:	*Stephen Apple*	**Date:**	June 16, 2003
Director of Real Estate Analysis:	*Tom Gouris*	**Date:**	June 16, 2003

* The original tax credit award amount was $482,804.

RECOMMENDATION

Staff has evaluated the financial viability of the requested amendment. Based on the revised information provided, the transaction would meet the Department's 2008 Real Estate Analysis Rules and Guidelines if approved. If the Board chooses to approve the amendment, the Underwriter recommends a total allocation of $442,104. The development has satisfied all previous conditions and is currently completing the Cost Certification process.

SALIENT ISSUES

TDHCA SET-ASIDES for LURA		
Income Limit	Rent Limit	Number of Units
60% of AMI	60% of AMI	182

PROS	CONS
▫ The development is complete and is currently providing safe, decent, affordable housing to low-income Texans. ▫ The tenants will benefit from having management and maintenance employees living in the development.	▫ The acquisition is an identity of interest.

ADDENDUM

The subject development was originally underwritten and approved for an award of 4% Housing Tax Credits in 2004. In a letter to the Department dated September 10, 2007, the Owner has requested to amend the application as follows:

This section intentionally left blank.

- Approval of a revised site plan, which includes an increase in the number of one-bedroom units from 111 to 113, and a corresponding increase in total units from 180 to 182.
- Approval for the substitution of 30-year architectural roofing and R-15 Walls/R-30 Ceilings for self-cleaning ovens and microwaves.
- Approval for the installation of one fireplace in the community building instead of two.
- Approval for a reduction in the number of parking spaces from 180 uncovered parking spaces and 103 carport spaces to 135 uncovered parking spaces and 105 carport spaces.
- Approval for the addition of 3 employee occupied units.

In July of 2006 the Owner submitted an amendment request addressing the changes to the site plan and unit mix identified during the mid-development construction inspection conducted by the Department. However, the request was not fully processed, and in September of 2007, the Owner submitted a revised request addressing issues identified during the final construction inspection conducted by the Department. The Underwriter requested additional information of the Owner in order to evaluate the requested amendment. The Owner responded with the required information on March 31, 2008 via submission of the development's final Cost Certification. Therefore, this analysis will address the changes made to the development as built and reflected in the Cost Certification documentation submitted.

According to the Owner the site plan was reconfigured to make the property more appealing to the tenants. The number of one-bedroom units increased from 111 to 113, and this increased the total number of units at the development from 180 to 182. The reconfiguration of the site plan also resulted in slight changes to the unit sizes. The size of the one-bedroom units increased from 709 sq. ft. to 714 sq. ft., while the size of the two-bedroom units decreased from 1,050 sq. ft. to 999 sq. ft. The net rentable square footage decreased from 151,149 sq. ft. to 149,613 sq. ft. or 1%.

The Owner's amendment request also states two of the one-bedroom units are designated as management units, but after further communication, it was discovered that three of the one-bedroom units are used for employees. It should be noted that when the transaction was underwritten and approved in 2004 there were no employee units identified. The Underwriter confirmed with the Owner that no rents are being collected for these units. The Owner indicated two of the units are exempt units and these units will be permanent employee-occupied units. The third employee-occupied unit is a low-income qualified unit occupied by the supportive services employee. The Owner was not certain this unit would be available for lease in the near future.

In addition to the unit mix change, the following amenities committed to in the application were not provided: self-cleaning ovens, microwaves, and two fireplaces. The Owner indicated the microwave ovens and self-cleaning ovens were selected in the Unit Amenities and Quality section in the Development Certification, which should not have been completed since it applies to 9% LIHTC applications and not to the 4% Bond applications. Nevertheless, the Owner offers 30-year architectural roofing and R-15 Walls/R-30 Ceilings as substitutes. The number of fireplaces is also being addressed as the Owner stated that two fireplaces were inadvertently selected in the Activity Overview section of the application when only one fireplace was intended as reflected in the architectural plans submitted at application.

Finally, the number of parking spaces has changed from that proposed and approved due to the modification of the site plan, causing a reduction in the number of parking spaces on the site. Originally, the application indicated 180 uncovered parking spaces and 103 carport spaces, but the development was built with 135 uncovered parking spaces and 105 carport spaces. The Owner received approval for this variance from the City as evidenced by the Certificate of Occupancy.

OPERATING PROFORMA ANALYSIS

Income:

The Owner's rent projections as reflected in the Cost Certification are significantly lower than the maximum HTC rents and the market rents concluded in the original market study. The Underwriter used the 2008 HTC rents for purposes of this analysis, resulting in a potential gross income that is $89,133 greater than the Owner's projection. Of note, the Owner's actual rents collected according to a February 2008 rent roll reflects average rents of $628 and $789 for the one and two-bedroom units, respectively. This would result in a difference in potential income of $73K compared to the Owner's projected rental income.

The Owner's estimate of vacancy and collection loss rate of 7.5% is consistent with TDHCA's standards. Overall the Owner's effective gross income is not within 5% of the Underwriter's estimate.

Expense:

The Owner's estimate of $3,443 per unit in operating expenses is less than 1% greater than the Underwriter's $3,415 per-unit estimate. The particular line items that deviate significantly from the Underwriter's estimate are payroll and payroll tax ($72K or 38% higher) and repairs and maintenance ($25K or 28% lower). The Underwriter has confirmed via the Hays County Appraisal District website that the property is 100% tax exempt since it is owned by the Housing Authority of the City of San Marcos.

Despite differences between the Owner's and Underwriter's revised expense estimates, the Owner's total expenses are within 5% of the Underwriter's estimates, and both the Owner's and Underwriter's expense to income ratios are below 45%, which is well below the Department's 65% limit.

This section intentionally left blank.

Conclusion:

The Owner's estimates of expenses are within 5% of the Underwriter's estimate, however the Owner's projection of effective gross income and net operating income are more than 5% different than the Underwriter's projection. Therefore, the Underwriter's year one proforma is used to determine the development's debt capacity. Based on the final financing structure reflected in the Cost Certification the resulting DCR of 1.29 falls within the Department's guidelines.

Feasibility:

The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current Department guidelines. As noted above, the Underwriter’s base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio that remains above 1.15 and continued positive cashflow for the Department's 15 year minimum. Therefore, the development can be characterized as feasible for the long term.

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE

Stuart Shaw, a principal of the Owner and of the developer, originally acquired the site through the Stuart Shaw Family Partnership, Ltd. on January 31, 2002 for $334,576.70 plus closing costs. At cost certification, the Owner indicated the land transaction was structured with a ground lease so the property could obtain a tax exemption. The Ground Lease submitted as part of the cost certification documentation identifies the Housing Authority of the City of San Marcos as the landlord and Hunter Road Affordable Housing, Ltd. as the tenant. Additionally, the Ground Lease requires pre-payment of annual rent for the first ten years of the lease term, which amounts to $1,034,500. The Owner utilized this payment and $72,157 in closing costs as the acquisition cost. It must be noted that the Housing Authority of the City of San Marcos is related to a member of the development team. The Underwriter requested from the Owner an explanation of the transactions that took place for the acquisition of the land, but no additional information was provided.

Due to the fact that the transaction is considered an identity of interest acquisition, the acquisition value utilized in the Underwriter's analysis consists of the original acquisition price of the land of $334,576.70 plus closing costs, plus property tax and interest expenses for two years for a total acquisition cost of $385,184. This amount is consistent with the value utilized by the Underwriter when the transaction was initially underwritten.

While the Owner's final direct construction costs have increased by 10% from the Owner's estimate at the time of application, the Owner's final total development costs have decreased by $29K or less than 1%. The Owner's direct construction costs are within 5% of the Underwriter’s current construction cost estimate updated using current Marshall and Swift cost estimates and the revised development plans. The amenities that were omitted and substituted in the amendment request did not impact the Underwriter's underwriting since Marshall & Swift does not provide adjustments for these items. Therefore, the changes in amenities did not impact the credit allocation.

Conclusion:

The Owner's final total development cost, adjusted for the difference in acquisition cost, is within 5% of the Underwriter's estimate; therefore, the Owner's final costs will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $12,777,573 supports annual tax credits of $442,104. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds, adjusted for the difference in acquisition cost, to determine the final credit allocation.

FINANCING STRUCTURE

Issuer: Capital Area Housing Finance Corporation

Source: Wells Fargo Bank, N.A. Type: **Interim to Permanent Bond Financing**

Tax-Exempt: $10,895,000 Interest Rate: Variable ☐ Fixed Amort: 360 months

Comments:

The construction and permanent lender changed from Newman Capital at application to Wells Fargo. The loan amount increased by $30,000 from original underwriting and the interest rate decreased from an underwritten rate of 6.75% to BMA plus 2.35%, which is underwritten at 4.59% as of 8/5/08. The amortization period decreased from 40 years to 30 years.

The loan has not yet converted to the permanent phase. The Applicant expects conversion will occur during the end of the first quarter of 2009.

Source: Capmark Capital, Inc. Type: **Syndication**

Proceeds: $3,613,131 Syndication Rate: 82% Anticipated HTC: $ 436,192

Comments:

The original syndication commitment from Paramount Financial Group provided syndication proceeds of $3,481,084 at a rate of 80 cents per credit dollar. The new commitment from Capmark Capital provides an effective increase in the syndication rate to 82 cents per credit dollar and an increase in proceeds of $132,047.

Amount: $1,646,270 Type: **Deferred Developer Fees**

Amount: $170,448 Type: **Interest Income**

The Underwriter has included this source of funds with the deferred developer fees.

Amount: $187,483 Type: **263A Interest**

Amount: $7,443 Type: **GP Capital Contribution**

The Underwriter has included this source of funds with the deferred developer fees.

CONCLUSIONS

Recommended Financing Structure:

The owner's total development cost, adjusted for the difference between the Underwriter's and Owner's acquisition cost, less the permanent loan of $10,985,000 indicates the need for $4,903,302 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $599,792 annually would be required to fill this gap in financing. Of the four possible tax credit allocations: previously approved credit amount ($482,804), the Owner's request ($442,104), the gap-driven amount ($599,792), and eligible basis-derived estimate ($442,104), the Owner's requested credits of $442,104 is recommended resulting in proceeds of $3,614,201 based on a syndication rate of 82%.

The Underwriter’s recommended financing structure indicates the need for $1,101,618 in additional permanent funds. Deferred developer fee in this amount appears to be repayable from development cashflow within 5 years of stabilized operations.

RECOMMENDATION

NOT RECOMMENDED DUE TO THE FOLLOWING:

☒

- Significant outstanding site and cost changes and the new market study were not provided 60 days prior to the Board meeting (10TAC§50.12(b)
- The original of record market study and revisions could not support less than 100% inclusive capture rate (10TAC§1.32 (g)(2)

CONDITIONS

SHOULD THE BOARD APPROVE A DETERMINATION LETTER FOR THIS DEVELOPMENT, THE BOARD MUST WAIVE ITS RULES FOR THE ISSUES LISTED ABOVE. ANY SUCH

DETERMINATION OF CREDITS SHOULD NOT EXCEED $482,804 AND SUCH AN AWARD SHOULD BE CONDITIONED UPON THE FOLLOWING:

1. Receipt, review, and acceptance prior to the issuance of a determination notice of the Architect's revised unit matrix and detailed square footage breakdown typically found on the architectural plans prior to execution of a determination letter;
2. Receipt, review, and acceptance prior to the issuance of a determination notice of a) a detailed statement from the prior seller of the property, Tetco, Inc. as to their purpose in originally acquiring the site, and their use of the land since their initial ownership, and b) a supplement from the ESA provider reviewing Tetco, Inc.'s statement and assessing its implications with respect to the ESA's findings within 90 days of any Board approval;
3. Receipt, review, and acceptance at the time of cost certification that the water well has been closed in accordance with applicable regulations prior to cost certification
4. Receipt, review, and acceptance of a third party detailed site work cost breakdown for all sitework costs, including costs per unit of materials and numbers of units required certified by an architect or engineer familiar with the sitework costs of this proposed project, to be accompanied by a letter from a certified public accountant stating which costs are includable in eligible basis prior to the issuance of a determination notice;
5. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

Total Units: 180 **# Rental Buildings** 5 **# Common Area Bldgs** 1 **# of Floors** 3 **Age:** N/A yrs **Vacant:** N/A at / /

Net Rentable SF: 151,149 **Av Un SF:** 841 **Common Area SF:** 51,379 **Gross Bldg SF:** 204,628

STRUCTURAL MATERIALS

The structure will have a wood frame on a concrete slab on grade. According to the plans provided in the application the exterior will be comprised as 65% stucco veneer and 35% stone or cement fiber siding. The interior wall surfaces will be painted or papered drywall. The pitched roof will be finished with asphalt composite shingles.

APPLIANCES AND INTERIOR FEATURES

The interior flooring will be a combination of carpeting & linoleum. Each unit will include a range & oven, hood & fan, garbage disposal, dishwasher, refrigerator, ceiling fans, 9 foot ceilings fiberglass tub/shower, washer & dryer connections, and laminated counter tops.

ON-SITE AMENITIES

Community areas of 6,082 square feet will include an activity room, a t.v. room, a living room, management offices, fitness & laundry facilities, a kitchen, restrooms, and a barber shop/beauty salon. A swimming pool will also be planned for the development.

Uncovered Parking: 180 spaces **Carports:** 103 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: The Willow Springs Senior Residences is a dense (20 units per acre) new development of 180 units of affordable housing located in southwest San Marcos. The development is comprised of five large, connected, elevator-served, low-rise residential buildings as follows:

- 1 building of Type A with 26 one-bedroom/one-bath units, and 11 two-bedroom/two-bath units;
- 1 building of Type B with 18one-bedroom/one-bath units, and 8 two-bedroom/two-bath units;
- 1 building of Type C with 27 one-bedroom/one-bath units, and 12 two-bedroom/two-bath units;

- 1 building of Type D with 19 one-bedroom/one-bath units, and 30 two-bedroom/two-bath units; and
- 1 building of Type E with 21 one-bedroom/one-bath units, and 8 two-bedroom/two-bath units.

Revised architectural plans submitted to the Department on July 12, 2004 reflect 180 units as compared to the plans provided as part of the application which indicated that there are 182 units in the development. The revised plans do no provide a full unit/square footage breakdown on a building by building basis and the Applicant only incdicated in a later sent with the revised plans that they have increased area in the 2/2 units to 1,000-1,050 SF. The 2/2 units were originally listed at 946 square feet. The architectural plans provided reflect total building square footage which is significantly greater than previously indicated and if all of the 2/2 units are 1,050 square feet and the 1/1 units have not changed size would reflect common areas and corridors square footage representing 34% of the net rentable square footage. This is an exceptionally large percentage even for a senior's development and needs further investigation given the lack of specificity in the revised plans. Receipt, review, and acceptance prior to the issuance of a determination notice of the Architect's revised unit matrix and detailed square footage breakdown typically found on the architectural plans is therefore a condition of this report.

Architectural Review: Each of the units appears well arranged with an adequate amount of space in each of the rooms and work areas.

Supportive Services: The Applicant has indicated that supportive services will include transportation, recreational activities, and health seminars.

Schedule: The Applicant anticipates construction to begin in August of 2004 and to be completed in August of 2005. The development should be placed in service in May of 2005 and substantially leased-up in August of 2006.

SITE ISSUES

SITE DESCRIPTION

Size: 9.057 acres 394,522 square feet **Zoning/ Permitted Uses:** Multifamily

Flood Zone Designation: Zone X **Status of Off-Sites:** Partially Improved

SITE and NEIGHBORHOOD CHARACTERISTICS

Location San Marcos is located in south central Texas, approximately 35 miles south from Austin in Hays County. The site is an irregularly-shaped parcel located in the southwest area of the San Marcos, approximately 2.5 miles from the central business district. The site is situated on the west side of Hunter Road.

Adjacent Land Uses:

- **North:** Doris Miller Junior High School
- **South:** Retail and office center
- **East:** Restaurants, mobile homes, and vacant land across Hunter Road
- **West:** Single family residential

Site Access: The development is to have one main entrance, one from the west from Hunter Road. Access to Interstate Highway 35 is approximately one mile east, which provides connections to all other major roads serving the San Marcos area.

Public Transportation: Public transportation to the area is provided by the San Marcos Transit Authority. The location of the nearest bus stop is approximately 0.9 of a mile from the site.

Shopping & Services: The site is approximately within two miles of major grocery stores, pharmacies, shopping centers, libraries, post offices, restaurants, schools, and health care facilities.

Site Inspection Findings: TDHCA staff performed a site inspection on March 29, 2004 and found the location to be acceptable for the proposed development.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated April 7, 2004, 2003 and prepared by HBC/Terracon did not identify any recognized environmental conditions. The environmental professional identified a water well associated with a historic homestead which formerly stood on the site, and recommended that the well be plugged in accordance with applicable regulations. Receipt, review, and acceptance at the time of cost certification that the water well has been closed in accordance with applicable regulations is a condition of approval.

The report, however, does not conform to ASTM and TDHCA's guidelines by not having reviewed all reasonably attainable standard historical sources and not having conducted any interviews of owners or occupants of the property. The Underwriter noted that the prior seller of the property was Tetco, Inc. According to Hoover's Online (www.hoover's.com), "Tetco is a Texas-based retailer of gasoline. Tetco was founded by Tom E. Turner (hence the "Tetco" brand), and operates a statewide network of more than 300 stations. In addition, the company owns bulk chemical transporter Mission Petroleum Carriers and V.K. Knowlton Paving Contractors." Because of the prior seller's business in the petrochemical industry, a discussion of the prior seller's activities on the property is warranted, but is not present within the ESA report. Receipt, review, and acceptance prior to the issuance of a determination notice of a) a detailed statement from the prior seller of the property, Tetco, Inc. as to their purpose in originally acquiring the site, and their use of the land since their initial ownership, and b) a supplement from the ESA provider reviewing Tetco, Inc.'s statement and assessing its implications with respect to the ESA's findings is a condition of this report.

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside, and as a Priority 1 private activity bond lottery development the Applicant has elected the 100% at 60% option. All of the units (100% of the total) will be reserved for low-income, elderly tenants.

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$29,880	$34,140	$38,400	$42,660	$46,080	$49,500

MARKET HIGHLIGHTS

A market feasibility study dated April 9, 2004 was prepared by Capitol Market Research, Inc. ("Market Analyst") and an addendum letter was provided on June 2, 2004 highlighted the following findings:

Definition of Primary Market Area (PMA): "The Willow Springs Market Area is defined as the Austin MSA" (p. 57). This area encompasses approximately 4,300 square miles and is equivalent to a circle with a radius of 37 miles.

Population: The estimated population of senior households in 2003 was 211,350 and is expected to increase by 7.6% annually to approximately 291,785 by 2008. Within the primary market area there were estimated to be 126,557 senior households in 2003.

Total Primary Market Demand for Rental Units: The Market Analyst calculated a total demand of 698 income qualified, senior households who would be interested in senior specific housing for independent living, based on the current estimate of 47,582 income qualified senior households, a projected annual growth rate of 4% for this demographic profile, 4.8% of this population being interested in seniors rental housing for independent living, and an annual renter turnover rate of 24.6%. (pp. 51-55). The Market Analyst used an income band of $0 to $38,400.The Market Analyst provided no documentation that households with no income (or even income below the 50% AMI level) could afford to live at the development.

ANNUAL INCOME-ELIGIBLE SUBMARKET DEMAND SUMMARY

Type of Demand	Market Analyst		Underwriter	
	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	105	12%	179	19%

Resident Turnover	805	88%	743	81%
TOTAL ANNUAL DEMAND	**910**	**100%**	**922**	**100%**

Ref: p. 55

Inclusive Capture Rate: The Market Analyst provided a revised inclusive capture rate of 95.71% based upon 910 units of demand and 871 unstabilized affordable housing in the PMA (including the subject) (p. 55). The Underwriter calculated an inclusive capture rate of 108% based upon a revised supply of unstabilized comparable affordable units of 999 units. The Market Analyst excluded Heatherwilde Park in Pflugerville which has recently reached 90% occupancy but has not been at that level for a full 12 months as prescribed in 10TAC§1.32(g)(2) Including these units in the Market Analyst's inclusive capture rate calculation results in an unacceptable capture rate of 110%.

These capture rate calculations do not include the nearby Stone Brook Seniors (a 1999 private activity bond transaction) which according to the owner developer has struggled for three years to reach stabilized occupancy for its 280 units. The Underwriter has independently confirmed that by year end 2002 the property had exceeded 90% occupancy. The Underwriter's inclusive capture rate also does not include La Vista, a 1997 9% HTC transaction with 201 units dedicated to seniors but originally targeting seniors with hearing impairments. Due to the exceptionally targeted population of La Vista it is known to have struggled to lease-up and/or maintain occupancy. While La Vista should have stabilized several years ago it is uncertain if it ever did so in accordance with the departments requirements for exclusion in the inclusive capture rate calculation

Market Rent Comparables: The Market Analyst surveyed four comparable apartment projects totaling 429 units in the market area (p. 39).

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$635	$751	-$116	$732	-$97
2-Bedroom (60%)	$770	$898	-$128	$985	-$215

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The area wide seniors housing market surveyed for this report is currently reporting a 96.7% stabilized occupancy and many projects have a long waiting list." (p. 19).

Known Planned Development: "According to a survey conducted by Capitol Markets Research, there are four (4) other private new independent living communities under construction in the Austin area; one being built in partnership with the City of Austin and with a "202" HUD grant, one being built by the Travis County Housing Authority, one 9% LIHTC project and another tax credit project under construction in Cedar Park.. The City of Austin Housing Authority has no plans for building additional units, and while it is possible that additional properties may be submitted through the TDHCA tax credit application process, there are only three known applications (including the subject) currently on file. In addition, there are four other sites where an independent seniors project is under construction and two projects that were completed in 2003" (pp. 57-58).

Other Relevant Information: Subsequent to the submission of the original application, and after the Underwriter reviewed the addendum to the original market study and still had concerns regarding the inclusive capture rate, the Applicant submitted a second Market Study dated June 28, 2004 from O'Conner and Associates analyzing the potential market from a slightly different perspective. Commenting on the previous market study, O'Conner & Associates noted that the market area examined in the first analysis was much larger in population than TDHCA's guidelines suggest as appropriate, and that the method of determining potential demand was based on a survey of people who might be interested in independent seniors rental housing, rather than quantifying the total number of qualified households within the region, which resulted in an estimate of demand which was much more conservative than might typically be produced by a market analysis performed under TDHCA's guidelines. The O'Conner market study examines a potential primary market area surrounding San Marcos which includes an area extending from the southern limits of Austin to the northern outskirts of San Antonio, and includes the cities of Wimberly, Kyle, Lockhart, New Braunfels, and Seguin.

ANNUAL INCOME-ELIGIBLE SUBMARKET DEMAND SUMMARY

Type of Demand	Market Analyst		Underwriter	
	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	53	7%	204	22%
Resident Turnover	596	84%	725	78%
Other: Pent up demand	65	9%		
TOTAL ANNUAL DEMAND	**713**	**100%**	**929**	**100%**

The Market Analyst calculated a total demand of 713 income qualified, senior households based on the current estimate of 85,843 households, a projected annual growth rate of 3.4% for this demographic profile, 20% of the population qualifying in age, 21% qualifying by income, 33% of the population renting and an annual renter turnover rate of 60%. The Market Analyst used an income band of $21,771 to $38,400. The Underwriter did identify an error within the Market Analysts mathematical calculations which would result in a higher total number of 929 units of demand. The Market Analyst calculated an inclusive capture rate of 67% based upon 713 units of demand and 481 unstabilized affordable housing in the PMA (including the subject). The Underwriter calculated an inclusive capture rate of 48% based upon a revised supply of unstabilized comparable affordable units of 441 units, and a revised demand of 929 units. The Market analyst included Green Oaks, a 100 unit proposed 2004 9% transaction that would not have priority over this subject transaction but excluded 60 units at Eden Place in Seguin, a 2001 9% HTC which is, according to the Executive Director of the Housing Authority struggling to maintain occupancy but according to the O'Connor market study is 100% occupied.

Independently of the two market analyses provided with the application, the Underwriter was able to locate publicly available data from HUD and the U.S. Census Bureau identifying households by age, income, and ownership status for the Austin MSA and Hays County. With this information, the Underwriter inferred that there would be approximately 2,093 units of demand within the Austin MSA, and 213 units of demand within Hays County.

The O'Connor market study also appropriately provides two sets of comparable rents, an unrestricted set, which suggest market comparable rents of $710 and $950 respectively, but provides restricted comparable rents of $635 and $770 (equal to the Applicant's original rent projections). The fact that the unrestricted market rents are roughly equal to the maximums allowable tax credit rents of $751 and $898 but the restricted units are renting for far less than the maximum level suggests the level of supply at restricted rents may be greater than the demand at the 60% income level. In fact the restricted rent level conclusions reflect that demand meets supply at the 52% income level.

Conclusions: The original market study of record and its revisions could not support an inclusive capture rate less than 100% (10TAC§1.32 (g)(2)). The subsequent study, while otherwise acceptable, was provided less than 60 days prior to the Board meeting (10TAC§50.12(b)) and therefore requires a waiver by the Board of this rule to be accepted. With a Board waiver the second study provides sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections are significantly lower than the maximum rents allowed under HTC program guidelines and the potential market rents indicated by both market studies. In fact the rents proposed equate to the 52% AMI level. The Underwriter used the lesser of maximum HTC rents or revised market rents, resulting in a potential gross income $256,740 greater than the Applicant's projection. Conversely, the Applicant overstated secondary income and provided insufficient additional substantiation for their estimate. The Applicant's use of a vacancy and collection loss rate of 7.5% is consistent with TDHCA's standards. As a result of these differences the Applicant's effective gross income estimate is $211,038 less than the Underwriter's estimate.

Expenses: The Applicant's total expense estimate of $2,670 per unit is approximately 16% less than the Underwriter's database-derived estimate of $3,218 per unit for comparably-sized developments. The Applicant's budget shows several line item estimates that deviate significantly when compared to the database averages, particularly general and administrative ($28K lower), management fees ($23K lower), and payroll ($27K lower). The San Marcos Housing Authority's (SMHA's) effective ownership of the transaction for the purpose of furthering its public purposes will provide the property with a 100% property tax exemption.

Conclusion: The Applicant's estimated income and total estimated operating expense is inconsistent with the Underwriter's expectations and the Applicant's net operating income (NOI) estimate is not within 5% of the Underwriter's estimate. Therefore, the Underwriter's NOI will be used to evaluate debt service capacity. In both the Applicant's and the Underwriter's income and expense estimates there is sufficient net operating income to service the proposed first lien permanent mortgage at a debt coverage ratio that is within the TDHCA underwriting guidelines of 1.10 to 1.30. It should be noted that if the maximum tax credit rents can be achieved an additional $55K in income could be achieved and the DCR would significantly exceed the Department's 1.30 guideline.

ACQUISITION VALUATION INFORMATION

APPRAISED VALUE

Land Only: 9.057 acres	$1,050,000	**Date of Valuation:**	01/ 26/ 2004
Appraiser: Paul Hornsby & company	**City:** Austin	**Phone:**	(512) 477-6311

APPRAISAL ANALYSIS/CONCLUSIONS

An appraisal, provided by the purchaser, was performed by Paul Hornsby & Company and dated January 26, 2004. The appraisal reviewed five comparable land sales since 2001 ranging in price from $1.95 per s.f. to $2.69 per s.f. After adjustments for differences, the appraiser concluded with a value of $2.65 per s.f. for the subject property resulting in a total value of $1,050,000.

Seller:	Hunter Road Affordable Housing, Ltd. (to be formed)	**Related to Development Team Member:**	Yes

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: Stuart Shaw, a principal of the Applicant and of the Developer, originally acquired the site through the Stuart Shaw Family Partnership, Ltd. on January 31, 2002 for $334,576.70 plus closing costs. The Stuart Shaw Family Partnership entered into a Repurchase Agreement with Hunter Road Development, LLC, a principal of the Applicant and the Developer, and a subsidiary of GMAC, on January 30, 2004. The Repurchase Agreement which was submitted as documentation of site control alludes to the sale of the property to Hunter Road Development, LLC having already occurred for an unknown price, and defines the terms of an option for the Stuart Shaw Family Partnership, LLC to repurchase the property for $950,000 plus 12% interest during the term of the contract, plus any holding costs of taxes and insurance. This repurchase price is the basis of the Applicant's projected acquisition costs of $1,050,000. The Applicant provided a letter from their attorney, Barry Palmer at Coats Rose dated July 9, 2004 which confirms that "The Department has properly concluded that the acquisition of the Project will be an identity of interest acquisition; however the Department is improperly treating the acquisition by the Family Partnership as the original acquisition determining the site cost. The Department's position completely ignores the intervening sale of the site to the LLC by the Family Partnership which was carried out as an arm's length transaction between unrelated entities." The Letter also confirms that the sale price between from the Family Partnership to the LLC occurred at a price of $950,000 and that the repurchase agreement was executed by the Family Partnership to retain site control. The Texas Bond Review Board has previously required that the applicant in the 4% private activity bond lottery have site control and remain in place through closing of the bonds. The Applicant has left unexplained why the sale and immediate agreement to repurchase the property was conducted but claims that it is an arm's length transaction and is supported by the appraised value. The Department's identity of interest regulation at 10TAC section 1.32(e)(1)(B) indicates that the parties with the identity of interest in the transfer of a property would include the Applicant, Developer, Housing Consultant, or general contractor or affiliates or beneficial owners of same. In this case Mr. Shaw as the Principal of the Family Trust and the LLC are both partners in the Applicant and their sale and resale to each other constitute two identity of interest transfers but with same result of one; allowing a profit on the sale of the land to potentially escape from the transaction. The Underwriter included the original acquisition price of the land of $334,567.70 plus closing costs, plus property tax and interest expenses for two years for a total acquisition cost of $385,184. This equates to an acquisition cost of $0.98/SF, $42,529/acre, or $2,116/unit. Should the Applicant's total cost be used to evaluate the credit amount the sources of recommended funds will be reduced by the difference in the Underwriter and Applicant's acquisition cost.

<u>Sitework Cost</u>: The Applicant originally claimed sitework costs of $6,639 per unit which would have been considered reasonable compared to historical sitework costs for multifamily projects. On July 12, 2004 the Applicant submitted a new development cost budget which reflected an overall increase in costs of 12%. The Applicant's revised site work cost rose to $9,867 per unit which far exceeds the Department's guideline for sitework costs. Moreover, the Applicant claimed these additional sitework costs without providing any explanation for their significant increase though explanations for 13 other direct construction cost changes were provided. In the absence of any such substantiation, the Underwriter lowered the TDHCA sitework costs to $7.5K per unit for the purpose of evaluating the project's total construction budget. A third party detailed cost estimate certified by an architect or engineer familiar with the sitework costs of this proposed project is required as a condition of his report, to be accompanied by a letter from a certified public accountant stating which costs are includable in eligible basis.

<u>Direct Construction Cost</u>: The Applicant's original direct construction cost estimate were $47K or 1% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate, and were regarded as reasonable as submitted. The Applicant subsequently submitted significantly revised plans and a revised cost breakdown less than 60 days prior to the Board meeting date in violation of 10TAC§50.12(b). Staff did evaluate the new plans and found them to be wanting in specificity to corroborate the unit sizes and corridor and common areas. However based on the total building square footage, staff was able to make an estimate of the revised cost and found they may have indeed increased by 16% or more. The Applicant's revised direct costs are now 11% lower than the Underwriter's revised costs.

<u>Interim Financing Fees</u>: The Underwriter originally reduced the Applicant's eligible interim financing fees by $227K to reflect an apparent overestimation of eligible construction loan interest, to bring the eligible interest expense down to one year of fully drawn interest expense. However this reduction was taken care of by the Applicant in the revised cost breakdown.

<u>Fees</u>: The Applicant's contractor's and developer's fees for general requirements, general and administrative expenses, and profit are set at the maximums allowed by TDHCA guidelines, however the Applicant included another $75K of other fees in this section and, therefore, the Underwriter adjusted the Applicant's eligible basis by an equal amount.

<u>Conclusion</u>: The Applicant's total development costs identified to the Department increased by $1,791,827 or 12%. Due to the offsetting nature of the Applicant's overstatement of land and sitework cost and potential understatement of direct construction costs the Applicant's total development cost is now within 5% of the Underwriter's costs. Therefore, the Applicant's revised cost estimate is used to calculate eligible basis and determine the HTC allocation. As a result an eligible basis of $13,600,123 (or over $2M more than originally anticipated) is used to determine a credit allocation of $482,804 from this method. This is more than the $410,144 originally requested but should the Board waive the 60-day rule for the market study they should also do so for the tardy cost breakdown and credit request. The resulting syndication proceeds will be used to compare to the gap of need using the Underwriter's costs to determine the recommended credit amount.

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The tax-exempt bonds are to be issued by the Capital Area Housing Finance Corporation pursuant to a reservation of private activity cap in the amount of $12,000,000, and will be purchased by Newman Capital. Should the terms of the loan change prior to closing, the corresponding annual debt service ought to be no less than $775,743 in order to comply with the requirement of a maximum DCR of 1.30. This minimum debt service is strictly for TDHCA's analysis determining the amount of eligible annual tax credits. The actual choice of whether to increase debt or to defer a portion of the Developer's fee would be up to the Applicant and lender.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. The Applicant has subsequently provided a revised credit amount and it is anticipated that since the development partner is an affiliate of the syndicator the same rate can be achieved for the additional credits, however, receipt review and acceptance of same is a condition of this report.

Deferred Developer's Fees: The Applicant's originally proposed deferred developer's fees of $410,857 amount to 27% of the total fees originally anticipated. The Applicants revised estimate includes $1,791,827 in deferred fees or 100% of total developer fees claimed. When the excess land profit resulting form the identity of interest transfer is removed the true deferral of fees is reduced to $1,081,587.

Financing Conclusions: Based on the Applicant's revised budget the development is eligible for credits not to exceed $482,084. Syndication proceeds from this amount equate to $3,862,435. The Underwriter estimates that deferred developer fees of $1,081,587, exclusive of the higher land value transfer will be required to fund the gap of need. Should the Applicant's final direct construction cost exceed the cost estimate used to determine credits in this analysis additional Developer's fee may be deferred to fund such excesses.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

The Applicant, Developer, General Contractor, Property Manager and Supportive Services firm are all related entities. These are common relationships for HTC-funded developments. The PFG Holdings Corp., the Co-developer and Paramount Financial Group, the tax credit syndicator are related entities which are both subsidiaries of GMAC. Two of the principals of the applicant also have an identity of interest in the sale and resale of the property but the effect of this on the credit allocation was mitigated in the discussion of acquisition costs above.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- The Housing Authority of the City of San Marcos, the principal of the General Partner, submitted an audited financial statement as of September 30, 2002 reporting total assets of $11,235,852 and consisting of $2,558,974 in cash and other current assets, $8,468,011 in land, buildings, furniture and equipment, and $208,867 in other assets. Liabilities totaled $1,322,947, resulting in a net worth of $9,912,905.
- GMAC Commercial Holding Corp., the Co-developer and Special Limited Partner through its subsidiary PFG Holdings, Corp., submitted audited financial statements for the year ending December 31, 2002, showing total assets of $11,994,520,000, comprised of $12,325,000 in cash, $236,137,000 in short term investments, $536,776,000 in accounts and other receivables, $1,762,566,000 in investment securities, $6,632,000 in mortgage loans held for sale, $1,040,024,000 in mortgage loans held for investment, $337,487,000 in real estate investments, $402,117,000 in equity investments, $410,066,000 in mortgage servicing rights, $494,973,000 in other assets, and $129,783,000 in goodwill. Total liabilities of $10,878,058,000 result in shareholders' equity of $1,116,462,000.
- Stuart Shaw, the principals of one of the Co-developers, submitted an unaudited financial statements as of March 5, 2004 and is anticipated to be a guarantor of the development.

Background & Experience:

- PFG Holdings, Corp., through its subsidiary, Protech Development I, LLC, has completed one affordable development of 261 units in Texas since 2001, and 11 other developments totaling 1,158 units in other states throughout the country since 1999.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's estimated income, operating expenses, and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.
- Significant inconsistencies in the application could affect the financial feasibility of the development.
- The development could potentially achieve an excessive profit level (i.e., a DCR above 1.30) if the maximum tax credit rents can be achieved in this market.
- The seller of the property has an identity of interest with the Applicant.
- The significant financing structure changes being proposed have not been reviewed or accepted by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS
Real Estate Analysis Division
Underwriting Report Addendum

REPORT DATE: 09/17/08 PROGRAM: HTC FILE NUMBER: **04489**

DEVELOPMENT

Port Royal Homes

Location: 5350 West Military Drive Region: 9

City: San Antonio County: Bexar Zip: 78242 ☒ QCT ☐ DDA

Key Attributes: New Construction, General Population

ALLOCATION

	REQUEST			**RECOMMENDATION**		
TDHCA Program	Amount	Interest	Amort/Term	**Amount**	**Interest**	**Amort/Term**
Housing Tax Credit (Annual)	$884,485			**$884,485**		

* The development was originally awarded annual tax credits of $844,349.

RECOMMENDATION

Staff has evaluated the financial viability of the requested amendment. Based on the revised information provided, the transaction meets the Department's 2008 Real Estate Analysis Rules and Guidelines. If the Board chooses to approve the amendment, the Underwriter recommends a total allocation of $884,485.

Income Limit	Rent Limit	Number of Units
60% of AMI	60% of AMI	252

ADDENDUM

The subject development is a 4% bond transaction that was originally underwritten and approved in 2004. In association with the development's Final Construction Inspection and submission of the final Cost Certification, the owner has requested an amendment to the application as follows:

- A decrease in the number of residential buildings from twelve to nine.
- An increase in the number of units from 250 to 252.
- A decrease in the number of parking spaces from 500 to 398 total.

According to the owner, the number of residential buildings was decreased due to the pockets of bad soil conditions, highly expansive clay and a drainage feature requiring improvement and set back not contemplated at the time the application was submitted.

No specific reasons were cited for the other changes being requested. The development's unit mix changed to include more two-bedroom units than originally proposed and the number of total parking spaces decreased to 398. Of note, however, is that of the 398 parking spaces, 250 are carports which were not originally proposed in the application, and the remaining 148 spaces remain uncovered. The net result of these changes, according to the owner, result in a larger better equipped community. As reflected in the comparison below, the property was actually built with 15,203 or 6.4% more square footage than originally approved at application.

OPERATING PROFORMA ANALYSIS

Income:

The owner's projected rental income is calculated by subtracting the San Antonio Housing Authority utility allowances from the maximum 2008 HTC rent limits. The Underwriter's analysis utilizes the same calculated net rents resulting in an effective gross income that is within 5% of the Underwriter's estimate.

Expense:

The Owner's expense estimate at cost certification reveals a decrease from $3,575/unit to the currently estimated $3,102/unit. This decrease is primarily due to a 50% property tax exemption granted to the development. The owner indicated that the exemption was secured for 2007 and is currently being requested again for 2008. The Underwriter was able to verify the property tax exemption for 2007 via the Bexar County Appraisal District website and has included the exemption for purposes of this analysis.

The Underwriter was also provided with actual operating statements for the property for the first two quarters of 2008. Based on this information it appears that the property is currently operating at a 1.26 DCR which falls within the Department's Guidelines. Overall, the Owner's estimated expenses are 14% lower than the Underwriter's current estimate, derived from the TDHCA database, IREM and other sources. Additionally, both the Underwriter's and Owner's expense to income ratios are well below the Department's 65% limit.

Conclusion:

The Owner's estimate of income is within 5% of the Underwriter's estimate, however, the Owner's expenses and NOI are not within 5% of the Underwriter's estimates. Therefore, the Underwriter's Year One proforma is used to determine the development's debt capacity. Based on the final financial structure reflected in the cost certification the DCR of 1.16 falls within the Department's guidelines.

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE:

The Department has received the Cost Certification for this development, and as part of the documentation has received evidence of the final development costs, as certified by the development CPA. The Owner's direct construction costs have increased by $980K or 8% from the estimate provided at application. The Underwriter's current *Marshall & Swift Residential Cost Handbook* estimate is more than 19% higher than the Owner's final direct cost.

The 8% increase also attributed to an increase in contractor fees. Indirect construction costs increased by 6.5%, interim financing fees increased by 57% and reserves increased from $0 at application to $620K at cost certification. Developer fees remains unchanged.

Conclusion:

Overall, the Underwriter's current total development cost, estimated based on as-built architectural plans, are more than 10% higher than the Owner's final certified construction costs. Therefore, it appears that the changes made to the development has not affected the reasonableness of the Owner's final, certified development costs. As a result, the Owner's development cost schedule will be used to determine the development's final need for permanent funds and to calculate eligible basis. Eligible basis of $19,387,743 supports annual tax credits of $884,663. This figure will be compared to the Board approved tax credits, the Owner's current request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

Source: Centerline Type: **Permanent Financing**

Principal: $12,200,000 Interest Rate: 6.5% ☒ Fixed Amort: 480 months

Comments:

The loan converted to permanent as of March 2007. According to the Owner the lender required a 1.10 DSCR for conversion and the development met this 90-day test in 2007, although it was not clear which three months were utilized and the lender's underwriting assumptions at conversion were not made available to the Underwriter.

Source: Centerline Type: **Syndication**

Proceeds: $7,176,000 Syndication Rate: 85% Anticipated HTC: $ 884,485

Comments:

The syndication price remains the same at $0.85 per tax credit dollar as quoted at the time of application.

Amount: $2,035,897 Type: **Deferred Developer Fees**

CONCLUSIONS

Recommended Financing Structure:

As stated above, the proforma analysis results in a debt coverage ratio that falls within the Department's 2008 guidelines. Therefore, the owner's final and certified total development costs, less the permanent loan amount of $12.2M indicates the need for $9,554,512 in gap funds. Based on the final syndication terms a tax credit allocation of $1,123,987 annually would be required to fill this gap in financing. Of note, the Owner's final cost certification identifies a tax credit request that is higher than the amount originally awarded to this development. Per §50.12(d) of the 2008 QAP, a tax-exempt bond development may request an increase in tax credits if the Department determines that the development will not receive more tax credits than needed for the financial feasibility and viability of the transaction. Based on the cost certification review it appears that the requested additional credits are supported by the final certified development costs and eligible basis.

The requested increase in credit does not exceed 110% of the amount of credits reflected in the Determination Notice, therefore, per the QAP this increase can be approved administratively by the Executive Director. Additionally, per §50.20(i) of the 2008 QAP a Tax-Exempt Bond Credit Increase Request Fee equal to 5% of the amount of the credit increase for one year is required. The Owner has provided to the Department the required fee. Therefore, of the four possible tax credit amounts:

Tax Credit Allocation Previously Awarded:	$844,349
Tax Credit Allocation Requested by Owner:	**$884,485**
Tax Credit Allocation Determined by Eligible Basis:	$884,663
Tax Credit Allocation Determined by Gap in Financing:	$1,123,987

The allocation amount requested by the Owner and supported by the Owner's final eligible basis is recommended. An annual allocation of $884,485 results in total equity proceeds of $7,518,615 at a syndication price of $0.85 per tax credit dollar. The underwriter's recommended financing structure indicates the need for $2,035,897 in additional permanent funds. Deferred developer fees in this amount appear to be repayable by Year 10.

Underwriter:	Raquel Morales *Raquel Morales*	Date:	September 17, 2008

REQUEST

Amount	Interest Rate	Amortization	Term
1) $12,200,000	6.5%	40 yrs	18 yrs
2) $859,828	N/A	N/A	N/A

Other Requested Terms:
1) Tax-exempt private activity mortgage revenue bonds
2) Annual ten-year allocation of housing tax credits

Proposed Use of Funds: New construction **Property Type:** Multifamily

Special Purpose (s): General population

RECOMMENDATION

☒ RECOMMEND APPROVAL OF ISSUANCE OF $12,200,000 IN TAX-EXEMPT PRIVATE ACTIVITY MORTGAGE REVENUE BONDS, WITH A FIXED INTEREST RATE UNDERWRITTEN AT 6.5%, A REPAYMENT TERM OF 40 YEARS, AND A 40-YEAR AMORTIZATION PERIOD, SUBJECT TO CONDITIONS.

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $844,349 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Acceptance by the Board of the anticipated likely redemption of up to $580,000 in bonds at the conversion to permanent;
2. Receipt, review, and acceptance of a copy of the release of lien on the property or an updated title commitment showing clear title, prior to the initial closing on the property;
3. Receipt, review, and acceptance of documentation from a third party environmental engineer which indicates that all issues of environmental concern identified in the Phase I ESA with regard to the site have been mitigated and that there is no condition or circumstance that warrants further investigation or analysis, prior to the initial closing on the property;
4. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

The subject was submitted and underwritten in the 2003 9% HTC cycle as a 170-unit mixed-rate development named Merry Oaks Apartments involving some of the same principals of the current applicant. The underwriting analysis recommended the project be approved subject to the following conditions:

1. Receipt, review, and acceptance of a copy of the release of lien on the property or an updated title commitment showing clear title, prior to the initial closing on the property;
2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit amount may be warranted.

The project did not receive an allocation in the 2003 cycle.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

Total Units: 250 **# Rental Buildings** 12 **# Non-Res. Buildings** 1 **# of Floors** 3 **Age:** 0 yrs **Vacant:** N/A at / /

Net Rentable SF: 237,363 **Av Un SF:** 949 **Common Area SF:** 4,615 **Gross Bldg SF:** 241,978

STRUCTURAL MATERIALS

The structures will be wood frame on post-tensioned concrete slabs on grade. According to the plans provided in the application the exterior will be comprised as follows: 55% stucco/35% masonry veneer/10% cement fiber siding. The interior wall surfaces will be drywall and the pitched roofs will be finished with composite shingles.

APPLIANCES AND INTERIOR FEATURES

The interior flooring will be a combination of carpeting & vinyl. Each unit will include: range & oven, hood & fan, garbage disposal, dishwasher, refrigerator, fiberglass tub/shower, washer & dryer connections, ceiling fans, laminated counter tops, a central boiler water heating system, individual unit air conditioning, & 9-foot ceilings.

ONSITE AMENITIES

A 4,615-square foot community building will include activity rooms, management offices, fitness, maintenance, & laundry facilities, a kitchen, restrooms, a computer/business center, & a central mailroom. The community building, swimming pool, sports court, & equipped children's play area are located at the entrance to the property. In addition, perimeter fencing is planned for the site.

Uncovered Parking: 500 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Port Royal Homes is a 15.6-unit per acre, new construction development of 250 units of affordable housing located in southwest San Antonio. The development is comprised of 12 fairly evenly distributed large, garden style, walk-up residential buildings as follows:

- Seven Building Type I with six two-bedroom/one-bath units, six two-bedroom/one-bath units, and eight three-bedroom/two-bath units;

- Five Building Type II with ten one-bedroom/one-bath units, three two-bedroom/one-bath units, three two-bedroom/two-bath units, and six three-bedroom/two-bath units.

Architectural Review: The building and unit plans are of good design, sufficient size, and are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive buildings with simple fenestration.

SITE ISSUES

SITE DESCRIPTION

Size:	16.056	acres	699,399	square feet	**Zoning/ Permitted Uses:**	MF-25, Multi-Family District
Flood Zone Designation:		Zone X		**Status of Off-Sites:**	Partially improved	

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is an irregularly-shaped parcel located in the southwestern area of the city, approximately two miles from the central business district. The site is situated on the southwest side of Military Drive and the west side of Merry Oaks Drive.

Adjacent Land Uses:

- **North:** Military Drive immediately adjacent and Lackland Air Force Base beyond;
- **South:** single-family residential;
- **East:** Merry Oaks Drive immediately adjacent and vacant land beyond; and
- **West:** multifamily residential, a school, and a fast food restaurant immediately adjacent and single-family residential and Lackland Air Force Base beyond.

Site Access: Access to the property is from the southeast or northwest along Military Drive or the north or south from Merry Oaks Drive. The development is to have two entries, one each from Military Drive and Merry Oaks Drive. Access to Interstate Highway 410 is two miles west, which provides connections to all other major roads serving the San Antonio area.

Public Transportation: Public transportation to the area is provided by the city bus system, with stops on Military Drive.

Shopping & Services: The site is within three miles of major grocery/pharmacies and a variety of other retail establishments and restaurants. Schools, churches, and hospitals and health care facilities are located within a short driving distance from the site.

Special Adverse Site Characteristics: The title commitment lists a vendor's lien that must be cleared by the closing. Receipt, review, and acceptance of a copy of the release of lien on the property or an updated title commitment showing clear title prior to the initial closing on the property is a condition of this report.

Site Inspection Findings: TDHCA staff performed a site inspection on December 14, 2004 and found the location to be acceptable for the proposed development. The inspector noted the site is in an older, established area of the city with many employment opportunities, and that the proposed development would contribute to the revitalization of the area.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated November 17, 2004 was prepared by MAS–D Environmental & Associates, Inc. ("Analyst") and contained the following findings and recommendations:

Findings: "MAS-D Environmental makes the following significant findings and conclusions based on our Phase I ESA:

- Two rusted pole-mounted electrical transformers were observed as a potential on-site environmental concern or recognized environmental condition [due to the possibility of soil contamination by polychlorinated biphenyls (PCBs)] during the site visit;
- The Lackland Air Force Base LUST [leaking underground storage tank] site, located north of the subject property, was identified with groundwater impacts to a public and/or domestic water supply well. The site has not received closure from the state…" (p. 18)

Recommendations: "Based on the above findings and conclusions of the Phase I ESA, MAS-D Environmental makes the following recommendations:

- Either investigate the PCBs content of the two observed rusted pole-mounted electrical transformers located along the southern boundary of the subject property or collect shallow soil samples around the transformer poles to determine if the soil is impacted with PCBs.
- Review the TCEQ LUST state files for the Lackland Air Force Base property to determine the groundwater gradient and size of the contaminated plume." (p. 18)

The Underwriter sought clarification of these issues from the Analyst and received the following update in a letter dated December 17, 2004:

- "…We conclude that the contamination at Kelly [sic] is not likely to impact the subject property."
- "…we made a return site visit on December 15. We did not observe significant rust on the transformers in question…We took soil samples. Preliminary results are negative. However, the analysis is incomplete as of this writing. We will notify you of the final results."

Receipt, review, and acceptance of documentation by a third party environmental engineer which indicates that all issues of environmental concern identified in the Phase I ESA with regard to the site have been mitigated and that there is no condition or circumstance that warrants further investigation or analysis, prior to the initial closing on the property, is a condition of this report.

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside, although as a Priority 2 private activity bond lottery development the Applicant has elected the 100% at 60% option and all 250 of the units will be reserved for low-income tenants.

MAXIMUM ELIGIBLE INCOMES						
	1 Person	**2 Persons**	**3 Persons**	**4 Persons**	**5 Persons**	**6 Persons**
60% of AMI	$21,660	$24,720	$27,840	$30,900	$33,360	$35,820

MARKET HIGHLIGHTS

A market feasibility study dated November 15, 2004 was prepared by Butler Burgher, Inc. ("Market Analyst") and highlighted the following findings:

Definition of Primary Market Area (PMA): "The subject's primary market is the area bounded by U.S. Highway 90 (north border), Interstate Highway 35 (southeast border), and FM 1604 (southwest border)" (p. 2. This area encompasses approximately 32.4 square miles and is equivalent to a circle with a radius of 3.2 miles.

Population: The estimated 2004 population of the PMA is 110,776 and is expected to increase by 1.8% to approximately 112,776 by 2009. Within the primary market area there were estimated to be 30,492 households in 2004.

Total Primary Market Demand for Rental Units: The Market Analyst calculated a total demand of 1,706 qualified households in the PMA, based on the current estimate of 30,492 households, the projected annual household growth rate of 0.4%, renter households estimated at 37.39% of the population, income-qualified households estimated at 21%, and an annual renter turnover rate of 70.5 % (p. 56). The Market Analyst used an income band of $19,851 to $32,130.

ANNUAL INCOME-ELIGIBLE SUBMARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	21*	1%	10	1%
Resident Turnover	1,686	99%	1,688	99%
Other Sources:	0	0%	0	0%
TOTAL ANNUAL DEMAND	**1,706**	**100%**	**1,698**	**100%**

Ref: p. 56 * Analyst used two years of growth demand as permitted under TDHCA guidelines.

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 22.86% based upon 1,706 units of demand and 390 unstabilized affordable housing units in the PMA (the subject and the 140 rent-restricted units of the Rosemont at Miller's Pond development (#02075, fka Heatherwilde Apartments, currently leasing up) (p. 3). The Underwriter calculated an inclusive capture rate of 23.0% based upon a slightly lower demand estimate of 1,698 households.

Local Housing Authority Waiting List Information: "According to Ms. Pat Ortega with the San Antonio Housing Authority, the available inventory of public and subsidized housing is fully occupied, with several hundred families with vouchers currently looking for qualified housing in the local market. Waiting periods have been as long as three years due to limited supply and strong demand for all unit types. San Antonio Housing Authority's enrollment for Section 8 vouchers is closed as 12,000 qualified households are using vouchers with approximately 4,000 more on a waiting list. Furthermore, Bexar County has a substantial list of qualified families waiting for affordable housing." (p. 50)

Market Rent Comparables: The Market Analyst surveyed eight comparable apartment properties totaling 1,624 units in the market area. Seven of these properties were mixed rate HTC developments. "While incentives have been prevalent for market rate properties in the northern tier submarkets of San Antonio, leasing concessions are generally less common in the southern San Antonio submarkets, with incentives for LIHTC projects in the local market typically limited to the lease-up period in isolated cases. The rent comparables revealed minimal rental incentives that would affect the leasing of the subject property. (p. 60)

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (60%)	$542	$542	$0	$635	-$93
2-Bedroom (60%)	$652	$652	$0	$750	-$98
3-Bedroom (60%)	$752	$752	$0	$875	-$123

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "Occupancy in the S1 submarket increased steadily from 86% in 1997 (well below the overall market) to 97% in 2002 (above the overall market). Like the overall market, occupancies in the subject's submarket decreased slightly since peaking in 2000 but remain at healthy levels in the low to mid 90% range [95.9% in June 2004]. " (p. 36).

Absorption Projections: "An absorption level of 20 units/month after completion of the first available units is reasonable for the subject, as encumbered, considering the demand in the market for newly developed, affordable rental housing." (p. 3)

Known Planned Development: "Rosemont at Miller's Pond represents a new LIHTC property located approximately three miles southwest of the subject property. 140 of the property's 176 units are offered at below-market rates and are restricted to households earning between 20% and 50% of the area median income. (AMI). The project began leasing in July 2004 with the first units becoming available in August 2004. According to representatives of the owner, the property has leased 110 units (62.5% occupancy) resulting in an absorption rate of 27 units/month. No other planned projects have been identified by [Apartment MarketData Research] in the S1 submarket and we are not aware of any planned projects other than those identified above in the subject's submarket." (p. 38)

Effect on Existing Housing Stock: "The addition of the subject units is not expected to significantly impact the overall vacancy rate of the submarket since the subject is expected to quickly lease up to stabilization with occupancy in the mid-90% range." (p.68)

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections are the maximum rents allowed under HTC program guidelines, and are achievable according to the Market Analyst. The Applicant stated that the property will provide hot water from a central boiler system, and rents and expenses were calculated accordingly. The Applicant used a secondary income estimate of $20/unit/month which includes cable TV and telephone submetering; the Underwriter regards this estimate as reasonable based on historical data from this area. The Applicant utilized a lower vacancy and collection loss rate of 7%, and as a result the Applicant's effective gross income estimate is $10,137 (0.5%) greater than the Underwriter's estimate.

Expenses: The Applicant's total expense estimate of $3,604 per unit is 7.9% lower than the Underwriter's database-derived estimate of $3,914 per unit for comparably-sized developments in this area. The Applicant's budget shows several line item estimates that deviate significantly when compared to the database averages, particularly general and administrative ($26.5K lower), payroll ($34.4K lower), and property tax ($10.3K lower). The Applicant and Underwriter are using a 4% management fee based on an unexecuted draft management agreement with the related property manager. The Applicant's expenses do not include a CHDO property tax exemption and indicated no intention to apply for one, but the Applicant appears to be eligible for one and receipt of same would increase NOI by $80K and improve the feasibility of the development.

Conclusion: Although the Applicant's estimated income is consistent with the Underwriter's expectations, the total estimated operating expense is inconsistent with the Underwriter's expectations and the Applicant's net operating income (NOI) estimate is not within 5% of the Underwriter's estimate. Therefore, the Underwriter's NOI will be used to evaluate debt service capacity. Due primarily to the difference in operating expense estimates, the Underwriter's estimated debt coverage ratio (DCR) of 1.03 is less than the program minimum standard of 1.10. Therefore, the maximum debt service for this project should be limited to approximately $816K by a reduction of the loan amount and/or a reduction in the interest rate and/or an extension of the term. The Underwriter has therefore completed this analysis assuming a likely redemption of a portion of the bond amount resulting in a final anticipated bond amount of $11,620,000. In addition, the issuer fees and asset management fees may need to be deferred or paid out of cash flow for the first year of operations. If a property tax exemption were achieved, the full amount of the debt and all servicing fees would be fully serviced at above a 1.10 DCR.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 15.521 acres	$115,400	**Assessment for the Year of:**	2004
Per Acre:	$7,435	**Valuation by:**	Bexar Appraisal District
Prorated Value:, 16.056	$119,378	**Tax Rate:**	3.015374

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Purchase and sale agreement (16.056 acres)		
Contract Expiration Date:	2/ 15/ 2005	**Anticipated Closing Date:**	12/ 31/ 2004
Acquisition Cost:	$1,000,000	**Other Terms/Conditions:**	$5K earnest money, $5K/month extension fee

after 3/31/2004

Seller: PRS Realty II, L.P. **Related to Development Team Member:** No

CONSTRUCTION COST ESTIMATE EVALUATION

Aquisition Value: The site cost of $1,000,000 ($1.43/SF, $62,282/acre, or $4,000/unit), although over eight times the tax assessed value, is assumed to be reasonable since the acquisition is an arm's-length transaction.

Off-Site Costs: The Applicant claimed off-site costs of $150K for the extension of water and sewer lines to the property, but provided third party certification of only $105K to justify these costs, and therefore the Underwriter has used this lower amount in estimating the development cost.

Sitework Cost: The Applicant's claimed sitework costs of $6,900 per unit are within the Department's allowable guidelines for multifamily developments without requiring additional justifying documentation.

Direct Construction Cost: The Applicant's direct construction cost estimate is $32.4K or 0.3% lower than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate, and is therefore regarded as reasonable as submitted.

Interim Financing Fees: The Underwriter reduced the Applicant's eligible interim financing fees by $172,708 to reflect an apparent overestimation of eligible construction loan interest, to bring the eligible interest expense down to one year of fully drawn interest expense. This results in an equivalent reduction to the Applicant's eligible basis estimate.

Fees: The Applicant's contractor general requirements, contractor general and administrative fees, and contractor profit exceed the 6%, 2%, and 6% maximums allowed by HTC guidelines by $21K based on their own construction costs. Consequently the Applicant's eligible fees in these areas have been reduced by the same amount with the overage effectively moved to ineligible costs. The Applicant's developer fees also exceed 15% of the Applicant's adjusted eligible basis by $30,181 and therefore the eligible portion of the Applicant's developer fee must be reduced by the same amount.

Other Costs: The Applicant's contingency allowance exceeds the TDHCA 5% maximum guideline by $7.5K and therefore eligible basis will be reduced by an equivalent amount.

Conclusion: The Applicant's total development cost estimate is within 5% of the Underwriter's verifiable estimate and is therefore generally acceptable. Since the Underwriter has been able to verify the Applicant's projected costs to a reasonable margin, the Applicant's total cost breakdown, as adjusted by the Underwriter, is used to calculate eligible basis and estimate the HTC allocation. As a result, an eligible basis of $18,347,434 is used to determine a credit allocation of $844,349 from this method. The resulting syndication proceeds will be used to compare to the Applicant's request and to the gap of need using the Applicant's costs to determine the recommended credit amount.

FINANCING STRUCTURE

INTERIM TO PERMANENT BOND FINANCING

Source: Charter Mac Capital Solutions **Contact:** Marnie Miller

Construction Loan Amount: $12,200,000 **Interest Rate:** 5%

Permanent Loan Amount: $12,200,000 **Interest Rate:** 6.5%

Additional Information: 24-month interest-only construction period

Amortization: 40 yrs **Term:** 40 yrs **Commitment:** ☐ LOI ☐ Firm ☒ Conditional

Annual Payment: $857,109 **Lien Priority:** 1st **Date:** 12/ 13/ 2004

TAX CREDIT SYNDICATION

Additional Information: Based on allocation of $859,828

APPLICANT EQUITY

Amount: $1,085,056 **Source:** Deferred developer fee

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Bond Financing: The tax-exempt bonds are to be issued by TDHCA and purchased by CharterMac. The permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

GIC Income: The Applicant included $165,753 in anticipated income from investment of the bond proceeds in a guaranteed investment contract (GIC) during the construction stage. The Underwriter has included this source with developer fee in the following analysis.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $1,085,056 amount to 45% of the total fees.

Financing Conclusions: Based on the Applicant's adjusted estimate of eligible basis, the HTC allocation should not exceed $844,349 annually for ten years, resulting in syndication proceeds of approximately $7,176,438. Due to the difference in estimated net operating income, the Underwriter's debt coverage ratio (DCR) of 1.04 is less than the program minimum standard of 1.10. Therefore, the maximum debt service for this development should not exceed approximately $816K by a reduction of the permanent loan amount and/or a reduction in the interest rate and/or an extension of the term. At the terms specified in the permanent financing commitment this would result in a reduced first lien debt amount of $11.8M. To compensate for the potential reduction in loan funds the Applicant's deferred developer fee will be increased to $1,962,178, which amounts to approximately 82% of the total fee and which should be repayable in approximately 13 years.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

The Applicant, Developer, General Contractor, and Property Manager firm are all related entities. These are common relationships for HTC-funded developments.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant and General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
- ALT Affordable Housing Services, Inc. – Arbor Place, the nonprofit sole owner of the General Partner, submitted an audited financial statement as of May 31, 2004 reporting total assets of $7.7M and consisting of $46K in cash, $20K in receivables, $873K in restricted assets, $6.3M in real property and equipment, and $428K in bond issuance costs. Liabilities totaled $8.6M, resulting in a net assets deficit of ($885K).
- Mr. Saleem Jafar, the principal of the Developer, submitted an unaudited financial statement as of September 1, 2004 and is anticipated to be a guarantor of the development.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's estimated operating expenses and operating proforma are more than 5% outside of the Underwriter's verifiable ranges.
- A significant environmental risk exists regarding potential soil contamination by PCBs from pole-mounted electrical transformers.
- The recommended amount of deferred developer fee cannot be repaid within ten years, and any amount unpaid past ten years would be removed from eligible basis.
- The significant financing structure changes being proposed have not been reviewed/accepted by the Applicant, lenders, and syndicators, and acceptable alternative structures may exist.

Underwriter:	*Jim Anderson*	**Date:**	December 28, 2004
Director of Real Estate Analysis:	*Tom Gouris*	**Date:**	December 28, 2004

* The original tax credit award amount was $626,543.

RECOMMENDATIONS

Staff has evaluated the financial viability of the requested amendment. Based on the revised information provided in the cost certification and the amendment request, the transaction meets the Department's 2008 Real Estate Analysis Rules and Guidelines. The Underwriter recommends approval of the amendment. The Underwriter also recommends approval of a tax credit allocation of $621,944 based on the information provided in the amendment request and cost certification documentation. The Owner is still completing the cost certification review process and IRS Forms 8609 will not be released until all requirements of cost certification have been satisfied.

SALIENT ISSUES

TDHCA SET-ASIDES for LURA

Income Limit	Rent Limit	Number of Units
30% of AMI	30% of AMI	10
60% of AMI	60% of AMI	90

PROS

- The location of Housing Authority offices on site provide convenient access for tenants receiving vouchers and those living in public housing units.
- The combination of two residential buildings had no effect on NRA, unit size, or unit mix.

CONS

- Because the permanent loan has not converted to the permanent phase, it is possible that the development would be oversourced by $45,065 if the loan converts at the full loan amount.

This section intentionally left blank.

ADDENDUM

The development was originally underwritten and approved for an award of 9% Housing Tax Credits in 2005. The construction of the development has been completed and the development is currently completing the cost certification process. On October 16, 2007, the Owner submitted a request to amend the application as follows:

- A reduction in the number of residential buildings from 10 to 9.
- The addition of a 2,578 square foot building, which is attached to the community building, to house the offices of the Alamo Housing Authority.
- The addition of 24 public housing units which were not originally proposed at application.

The Owner asserts that the reduction in the number of residential buildings was implemented in order to provide sufficient space on the site to allow for the construction of the Housing Authority ("HA") offices. To accomplish this, two one-story, four unit residential buildings were combined into one two-story, eight-unit building. The individual unit floor plans, NRA, and unit mix were not affected by this change.

The Owner further asserts that the Housing Authority offices were intended to benefit tenants of the development who receive project-based vouchers or reside in public housing units. It should be noted that the rent schedule submitted with the cost certification does not reflect the presence of any project-based vouchers, and the Underwriter has been unable to secure an agreement between the Owner and Housing Authority supporting the presence of project-based vouchers.

In addition, 24 of the 100 units receive public housing operating subsidy pursuant to an Annual Contributions Contract. At the time of application, none of the units were proposed to received such an operating subsidy; however, the original application did proposed to demolish 40 existing public housing units. The 24 public housing units now included at the development, as completed, partially replace the 40 public housing units that were demolished.

The Underwriter has evaluated the effect of the requested changes on the feasibility of the development. Only those portions of the report that are materially affected by the proposed changes are discussed below. This report should be read in conjunction with the original underwriting report with a full evaluation of the originally proposed development plan and structure.

OPERATING PROFORMA ANALYSIS

Income:

The Owner's potential rents were calculated by subtracting tenant paid utility allowances, as determined using the Alamo Housing Authority's utility allowances for energy efficient units, from the Hidalgo County 2008 program gross rents for all non-public housing units. The decrease in income since application is attributable to the addition of 24 public housing units, for which the Owner indicated a rental rate of $0. The Owner included the operating subsidy in secondary income, in addition to approximately $43 per unit per month for deposit forfeitures, laundry income, carports, washer/dryer, and cable television.

The Underwriter used a different methodology to analyze income. The Underwriter calculated potential rents for the non-public housing units by subtracting utility allowances for energy efficient units from 2008 program maximum rents. The utility allowance for energy efficient units requires a special designation from the Housing Authority. The Owner was unable to provide evidence of this designation; however, the Housing Authority is involved in the ownership of the development, and the Underwriter therefore made the assumption that Housing Authority approval for the use of the special utility allowance could be reasonably secured for the development. For the public housing units, however, the Underwriter utilized an estimated rental rate that resulted in total income that equals the expenses that are estimated to be attributable to the public housing units. Despite the different methodologies, the Underwriter's and Owner's estimates of effective gross income are within 1% of one another.

Secondary income was limited to the Department's maximum of $15 per unit per month; however, income for cable was included, as this income is merely the result of a pass-through of cable expense to tenants (an optional service), and as such is reasonable.

As mentioned previously, correspondence between the Owner and Housing Authority at the time of original application suggest that the development may include 10 project-based vouchers from the Housing Authority. Recent correspondence from the Owner is unclear as to whether the development will have project-based vouchers, or rather will hold 10 units available for tenants that receive housing choice vouchers. The Underwriter was unable to verify either scenario, and therefore the Underwriter's analysis does not include additional subsidy from project-based vouchers.

Expense:

The Owner's total operating expense estimate of $3,033 is within 1% of the Underwriter's estimate of $3,031 per unit derived from the TDHCA database, IREM data, and actual expenses at the property.

Conclusion:

The Owner's effective gross income, operating expenses, and net income are all within 5% of the Underwriter's estimates; therefore, the Owner's estimates will be used to determine the development's debt capacity. The Owner's year one proforma results in a DCR of 1.15, which is within the Department's guidelines.

Feasibility:

The underwriting 30-year proforma utilizes a 3% growth factor for income and a 4% annual growth factor for expenses in accordance with current Department guidelines. As noted above, the Owner's base year effective gross income, expenses and net operating income were utilized, along with a decreased permanent loan amount, resulting in a debt coverage ratio that remains above 1.15 and continued positive cash flow for the Department's 15 year minimum. Therefore, the development can be characterized as feasible for the long term.

CONSTRUCTION COST ESTIMATE EVALUATION

COST SCHEDULE

The Department has received the Cost Certification for this development, and as part of the Cost Certification documentation has received evidence of the final development costs, as certified by the development CPA. Direct construction costs have increased by 13% from the Owner's estimate at the time of application. The 13% increase in direct construction costs also affected contractor and developer fees, which increased by 16% and 12%, respectively. The final, certified costs indicate a 60% increase in site work costs, a 21% decrease in indirect construction costs, and a 39% increase in ineligible costs. The increase in ineligible costs can be partially attributed to the addition of the Housing Authority offices.

The Owner's final development costs include the cost associated with the construction of the Housing Authority offices. According to the documentation provided in the cost certification, total costs for the Housing Authority offices total $113,935 ($3,935 for demolition and $110,000 for construction of the offices). The entire $110K attributed to the construction of the offices has been deducted from eligible basis for purposes of calculating the tax credits. Demolition costs are also not included in eligible basis. The Underwriter's analysis included an evaluation of the estimated cost to construct the Housing Authority offices using current Marshall and Swift costs, and resulted in an estimated construction cost of $118K or 7% greater than the amount certified by the Owner and CPA for the office space.

The total costs associated with the Housing Authority offices has been deducted from the total development cost for the purpose of calculating the gap-driven credit amount in order to ensure that no portion of the tax credits allocated to this development will fund construction of the Housing Authority offices.

This section intentionally left blank.

Conclusion:

The Owner's final total development cost is within 5% of the Underwriter's revised estimate; therefore, the Owner's cost schedule, as adjusted for the cost of the Housing Authority offices, will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $7,980,558 supports annual tax credits of $650,416. This figure will be compared to the Owner's request, the Board-approved allocation, and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE

SOURCES & USES

Source: PNC Bank Type: **Permanent Financing**

Principal: $2,757,586 Interest Rate: 7.05% ☒ Fixed Amort: 360 months

Comments:

The amount of the loan has increased by $559,154 since application, and the interest rate has decreased by 0.45%. The loan term and amortization remain unchanged. As of the date of this addendum the loan has not converted to the permanent phase. There is concern that should the permanent loan convert at the full amount reflected there is the potential for the development to be oversourced at the originally approved credit allocation amount. This will be discussed in further detail in the Conclusions section of the addendum.

Source: Alamo Housing Opportunities Corp. Type: **Permanent Financing**

Principal: $49,000 Interest Rate: 0.0% ☒ Fixed Term: 0 months

Comments:

This loan is a cash flow loan and as a result debt service for this loan has not been included in the Owner's proforma. The amount of this loan has decreased by $383,289 since application and the interest rate has increased from 6% to 12%.

The Owner confirmed that the loan was provided to finance a portion of the demolition cost associated with the total development. The Owner also confirmed that $3,935 of the total demolition cost was associated with the Housing Authority offices; therefore, only $45,065 of the loan amount will be utilized by the Underwriter in the total sources of funds for the tax credit development.

Source: PNC Multifamily Capital Type: **Syndication**

Proceeds: $6,139,508 Syndication Rate: $0.98 Anticipated HTC: $ 626,543

Comments:

The syndication rate increased from $0.89 at application to $0.98 at cost certification.

Amount: $64,935 Type: **Deferred Developer Fees**

CONCLUSIONS

Recommended Financing Structure:

As stated previously, the Owner's proforma analysis, including the proposed permanent loan amount and terms as reflected in the cost certification, results in a debt coverage ratio of 1.15 which is within the Department's guidelines of 1.15 to 1.35.

For the purpose of determining the gap in financing, the Owner's total development cost was reduced by the cost to construct the Housing Authority offices ($113,935). As a result, the adjusted total development cost used to determine the need for funds is $8,897,094. In addition, the amount of the loan from the Alamo Housing Opportunities Corp. will be reduced by the amount of proceeds, as indicated by the Owner, that were used to fund activities related to the Housing Authority offices ($49,000-$3,935 = $45,065).

This section intentionally left blank.

The Owner's final total development cost, less the permanent loan of $2,757,586 and less the Alamo Housing Opportunities Corporation cashflow loan of $45,065 indicates the need for $6,094,433 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $621,944 annually would be required to fill this gap in financing. Of the three possible tax credit allocations: the previously Board approved amount / Owner's request ($626,543), the gap-driven amount ($621,944), and eligible basis-derived estimate ($650,416), the gap-driven amount of $621,944 is recommended resulting in total syndication proceeds of $6,094,433 based on a syndication rate of $0.98. The Underwriter's recommended financing structure indicates the need for no additional permanent funds.

It should be noted that the Owner is aware of this reconciled credit amount based on the gap in need and disagrees with the Underwriter's conclusions. The Owner asserts that the staff is incorrectly allocating the entire $49,000 grant/cashflow loan from the Alamo Housing Opportunities Corporation to the Housing Authority office space costs, when in fact only a small portion of the costs of demolition ($3,935) should be attributed to this source of funding. In fact, the Underwriter is not allocating the entire $49K source to the office space costs. Only $3,935 of this source of funding has been allocated to the office space costs and deducted from the total $49K grant/loan, as indicated by the Owner. The remaining $45K grant/loan has been included as a permanent source of funds for the rest of the development.

The Owner asserts that the development is not oversourced and that deferred developer fee was required to fund the gap in financing. However, none of the information provided by the Owner provides support for this assertion when the development is evaluated separate from the Housing Authority offices.

During the review process of this amendment request and the cost certification documentation, the Owner has not indicated that a re-size of the permanent loan is anticipated. As reflected in the Underwriter's analysis, the proposed permanent loan and terms result in an acceptable 1.15 DCR using the Owner's proforma. However, should the Owner convert the loan to permanent at an amount different than what is reflected in this analysis, a re-evaluation of the changes would be recommended and a change in the recommended credit amount may be warranted.

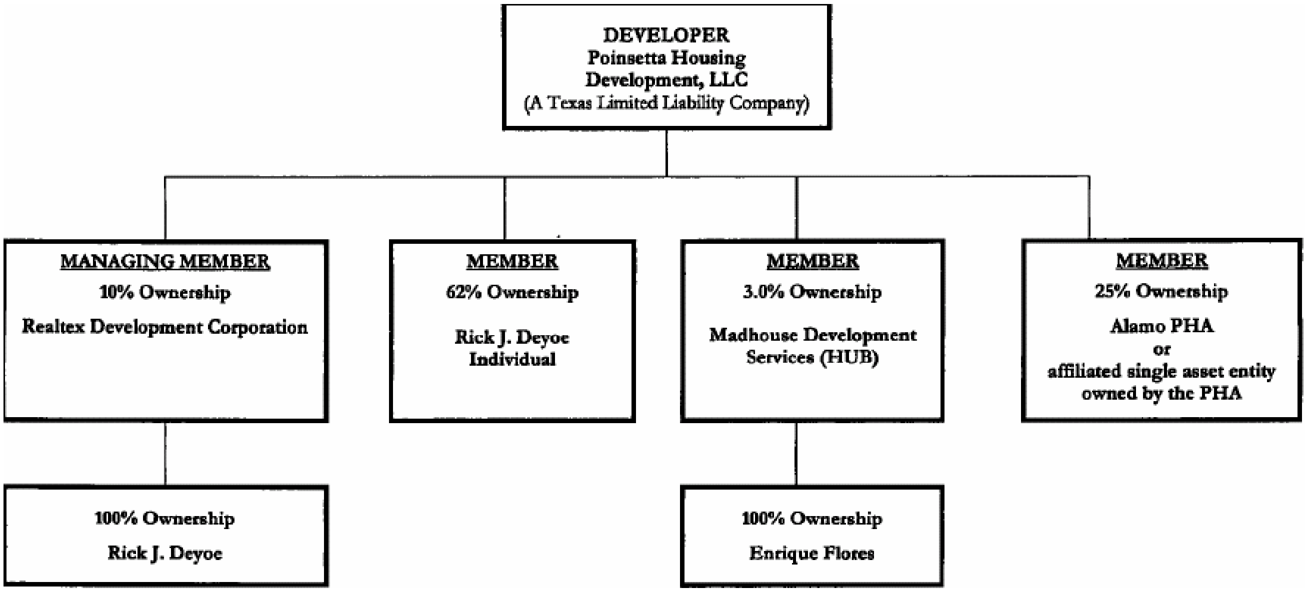
PRINCIPALS of the APPLICANT

Name:	Alamo Housing Authority	**(%):**	0.01	**Title:**	Managing General Partner/Member of Developer
Name:	Rick J Deyoe	**(%):**	0.01	**Title:**	Special Limited Partner/Member of Developer

DEVELOPER



PROPERTY LOCATION

Location: Between N 9th Street & N 10th Street at Duranta Ave ☐ **QCT** ☐ **DDA**

City: Alamo **County:** Hidalgo **Zip:** 78516

REQUEST

Amount	Interest Rate	Amortization	Term
$571,979	N/A	N/A	N/A

Other Requested Terms: Annual ten-year allocation of housing tax credits

Proposed Use of Funds: New Construction **Property Type:** Multifamily

Special Purpose (s): General Population, Urban/Exurban

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $571,979 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review and acceptance by cost certification that all applicable Texas Department of State Health Services regulations with regard to asbestos testing were followed prior to demolition of the existing buildings and evidence that lead-based paint testing was performed and recommendations of the for removal, as applicable, were followed.
2. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the tax credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

No previous reports.

DEVELOPMENT SPECIFICATIONS

IMPROVEMENTS

STRUCTURAL MATERIALS

The structure will wood frame on a slab on grade. According to the plans provided in the application the exterior will be comprised as follows: 50% stucco and 50% cement fiber siding. The interior wall surfaces will be drywall and the pitched roof will be finished with composite shingles.

APPLIANCES AND INTERIOR FEATURES

The interior flooring will be a combination of carpeting & vinyl. Each unit will include: range & oven, hood & fan, garbage disposal, dishwasher, refrigerator, microwave oven, tile tub/shower surround, washer & dryer connections, ceiling fans, laminated counter tops, individual heaters, individual heating and air conditioning, and 8-foot ceilings.

ONSITE AMENITIES

A 2,500-square foot community building will include an activity room, a furnished community room, management offices, fitness, laundry facility, restrooms, public telephone, and a computer/business center. The community building, swimming pool, picnic area, and equipped children's play area are located at the center of the property. In addition, a volleyball court, perimeter fencing with limited access gates, and barbecue grills are planned for the site.

Uncovered Parking:	153 spaces	**Carports:**	40 spaces	**Garages:**	0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Poinsetta Apartments is a 14-unit per acre new construction development of affordable housing located in Hidalgo County. The proposed site presently consists of an exiting 40-unit affordable multifamily housing community that will be demolished upon transfer of ownership. The new development will be comprised of 10 evenly distributed garden style residential buildings as follows:

- Two buildings with eight one-bedroom and eight three-bedroom units;
- Two buildings with 16 two-bedroom units;
- One building with eight two-bedroom and eight three-bedroom units;
- One building with four one-bedroom units;
- One building with four two-bedroom units;
- Two buildings with four three-bedroom units; and

- One building with two one-bedroom and two three-bedroom units.

Existing Subsidies: The existing 40-units (to be demolished) currently operate under a HUD project-based Annual Contributions Contract. According to a letter dated June 14, 2005 and signed by Rick J Deyoe, "The proposed development of 100 units currently does not include any public housing units that will be receiving rental assistance from the PHA's ACC other than for the 10 units in which the PHA has received application to provide project based vouchers, which it intends to commit subject to approval by HUD of compliance with all applicable rules and regulations governing such."

Development Plan: Although the proposed development does not include rehabilitation of existing units, a relocation plan is necessary due to the demolition of 40 public housing authority units currently located on the site. The tenants occupying the existing project have been informed of the plan to demolish their units. The units will be vacated subsequent to HUD approval for demolition. The PHA will request housing choice vouchers for the relocated tenants. The PHA will make available public housing units that may be vacant at the time of relocation. If a HUD demolition grant is made available, relocation expense will be paid from that source. Otherwise, the budget for the replacement housing (i.e., mixed finance development with tax credits) will include funding for the relocation allowances and/or funds from the Capital Funds may be used for relocation assistance. The subject's cost schedule includes $30,000 for relocation expense.

The relocation plan does not appear to include a general preference for the original displaced tenants to receive the first opportunity to move in to the proposed 100-unit development.

Architectural Review: The building and unit plans indicate the units are of sufficient size with adequate storage. They appear to be comparable to other modern apartment developments. The elevations reflect simple, yet attractive buildings.

SITE ISSUES

SITE DESCRIPTION

Size: 7.39 acres 321,908 square feet **Flood Zone Designation:** Zone B

Zoning: "R-2" district/multifamily apartment and townhouse dwelling district

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The property is located between 9th and 10th Street along Duranta Avenue in Alamo, Hidalgo County. Alamo is approximately 12.5 miles east of Mission.

Adjacent Land Uses:

- **North:** Duranta Avenue and one block of residential immediately adjacent and shopping center and US Highway 83 beyond;
- **South:** elementary school immediately adjacent and Birch Avenue and residential beyond;
- **East:** North 9th Street immediately adjacent and church and residential beyond; and
- **West:** North 10th Street immediately adjacent and residenital beyond.

Site Access: Access to the property is from the north and south from 9th Street. Access to US Highway 83 is less than one mile north, which provides connections to all other major roads serving Hidalgo County.

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: Numerous single-tenant and small neighborhood retail centers are scattered throughout the neighborhood. The subject site is within the Pharr, San Juan, Alamo Independent School District. A public library is located within a mile.

Site Inspection Findings: TDHCA staff performed a site inspection on April 22, 2005 and found the location to be acceptable.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 3, 2005 was prepared by Kleinfelder, Inc. and contained the following findings and recommendations:

Findings:

- **Asbestos-Containing Materials (ACM) and Lead-Based Paint (LBP):** An addendum to the ESA dated June 13, 2005 and signed by Mitchell T Young states, "In order to comply with [The Texas Department of State Health Services] TDSHS requirements, we recommend further testing of existing building materials for asbestos…We also recommend testing painted surfaces at the same time to verify the lead content of paints…Kleinfelder can provide the asbestos and lead testing at your request."
- **Radon:** "Based on the testing results, Hidalgo County did not show an elevated potential for indoor radon" (p. 10).
- **Leaking Petroleum Storage Tank (LPST):** "Although…three LPST incidents [were identified] within 0.5 miles of the subject property, further evaluation of the incidents does not indicate likely impact to the subject property" (p. 13).
- **Floodplain:** "The subject property is not mapped as being in the 100-year flood plain" (p. 9). An addendum to the ESA dated June 13, 2005 and signed by Mitchell T Young states, "…the subject property is covered by the map panel (480335001C) that is…dated September 1979, and indicates that the subject property lies within flood hazard 'ZoneB'…We spoke with Ms. Dalia Zuniga at the City of Alamo Planning Departments (phone: 956-787-0006), and she confirmed that the most current flood hazard map that she had was also this same map from September 1979."

Recommendations: "Based on the site and area conditions observed, as well as a review of regulatory documents, no evidence of recognized environmental conditions was identified for the subject site. No further environmental assessment is recommended" (p. 2).

Receipt, review and acceptance by cost certification that all applicable TDSHS regulations with regard to asbestos testing were followed prior to demolition of the existing buildings and evidence that lead-based paint testing was performed and recommendations of the for removal, as applicable, were followed is a condition of this report.

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. All of the units (100%) will be reserved for low-income tenants. Ten of the units (10%) will be reserved for households earning 30% or less of AMGI and the remaining 90 units will be reserved for households earning 60% or less of AMGI. In addition, the ten units set-aside to be affordable at 30% of AMGI will receive project-based rental assistance through Section 8.

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$17,820	$20,340	$22,920	$25,440	$27,480	$29,520

MARKET HIGHLIGHTS

A market feasibility study dated February 21, 2005 was prepared by O'Connor & Associates ("Market Analyst") and highlighted the following findings:

Definition of Primary Market Area (PMA): "The Primary Market is defined as that area within the City of Alamo" (p. 10). This area encompasses approximately 2.7 square miles and is equivalent to a circle with a radius of less than one mile.

Population: The estimated 2004 population of the City of Alamo was 15,698 and is expected to increase to approximately 17,051 by 2009. Within the primary market area there were estimated to be 4,931 households in 2004.

Total Primary Market Demand for Rental Units: The Market Analyst calculated a total demand based on income-qualified renter households estimated at 24.55% of the population (p. 31), appropriate household size at 88.15% of the population (p. 69), and an annual renter turnover rate of 75% (p. 62). The Market Analyst used an income band of $8,160 to $29,520. The Market Analyst was apparently unaware of the PHA's commitment to provide project-based Section 8 rental assistance for ten units, effectively moving the lower end of the income band to $0.

INCOME-ELIGIBLE PRIMARY MARKET RENTER DEMAND SUMMARY				
	Market Analyst		Underwriter	
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand
Household Growth	41	5%	22	3%
Resident Turnover	800	85%	704	97%
Other Sources: Unidentified	84	9%	N/A	N/A
Other Sources: Section 8 Vouchers	13	1%	N/A	N/A
TOTAL ANNUAL DEMAND	**938**	**100%**	**726**	**100%**

Ref: p. 69

Section 8 Voucher Demand: "According to the Housing Authority of the City of Alamo's PHA Plans, Annual Plan for Fiscal Year 2004, there were 70 housing vouchers in the City of Alamo. Theoretical demand from Section 8 Vouchers is calculated by multiplying the total number of vouchers by the ratio of income-qualified Senior households in the PMA and in Alamo. Theoretical demand = 70 x (519/2,078) = 17 Utilizing the typical 75% turnover rate, total demand from Section 8 Vouchers is estimated to be 13 units…" (p. 67).

Inclusive Capture Rate: "…a total of 100 units (only the subject…will be Family rent-restricted. As indicated earlier, there are approximately 938 potential households based on income eligibility, housing preference, and taking into consideration the typical turnover rate in the subject's primary market. Capture rate for 100 proposed affordable family units 10.66%" (p. 70). The Underwriter calculated an inclusive capture rate of 13.8% based upon a revised demand for 726 units. It should be noted, it is likely the existing tenants of the 40 units to be demolished will be given priority and may choose to return to the new construction property upon completion.

Market Rent Comparables: The Market Analyst surveyed four comparable apartment projects totaling 399 units in the market area (p. 46).

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed**	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (30%)	$129	$129	$0	$565	-$436
1-Bedroom (60%)	$368	$368	$0	$565	-$197
2-Bedroom (60%)	$436	$436	$0	$625	-$189
3-Bedroom (60%)	$495	$495	$0	$715	-$220

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

Primary Market Occupancy Rates: "The average occupancy within the McAllen/Edinberg/Mission MSA, as reported in the December 2004 Apartment MarketData report was 93.9%," while the data for Alamo indicates 99.1% (p. 36, 37).

Absorption Projections: "New construction in or near the subject's neighborhood has been limited over the past 12-48 months…Based on our research, most projects that are constructed in the McAllen/Edinberg/Mission area typically lease up in 12 months" (p. 41).

Known Planned Development: "Based on our research, there are no market rate and one affordable housing project (Las Brisas, a 26-unit Seniors HTC project) currently under construction, and no other approved projects in the subject's PMA" (p. 76). Las Brisas is located outside the city limits of Alamo; therefore, it would not impact the capture rate for the subject development. However, Alamo Village (9% HTC #05074) is also competing for 2005 tax credits. If both developments move forward, the additional 56 family units would result in an increase in inclusive capture rate to 21.5%, which is still under the Department's maximum guideline.

Market Study Analysis/Conclusions: The Underwriter found the information provided by the Appraiser to provide sufficient market information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's potential gross income projection is comparable to the Underwriter's estimate. The Applicant's secondary income and vacancy and collection loss are also within Department guidelines.

It should be noted that ten units may receive project-based Section 8 rental assistance through the Alamo Housing Authority. The rental assistance has been earmarked for the units set-aside at 30% of AMGI; the maximum subsidy will be set at the net tax credit rents for those units.

Expenses: The Applicant's total annual operating expense of $2,715 per unit is within 5% of the Underwriter's estimate of $2,814. The Underwriter calculated individual line item expenses based on TDHCA regional database information for developments of similar size, IREM database information for the Corpus Christi area, and the comparable developments' actual operating history. The development plans to receive a 100% property tax exemption due to the Housing Authority's involvement in the ownership structure.

Conclusion: The Applicant's income, total expense projections, and net operating income are each within 5% of the Underwriter's estimates. Therefore, the Applicant's Year 1 proforma will be used to determine the development's debt service capacity and long term feasibility. Both the Applicant's and the Underwriter's estimates indicate the proposed financing structure results in an initial debt coverage ratio (DCR) that is within the Department's (DCR) guideline of 1.10 to 1.30.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land:	$156,408	**Assessment for the Year of:**	2004
Building:	$482,000	**Valuation by:**	Hidalgo County Appraisal District
Total Assessed Value:	$638,408	**Tax Rate:**	3.004764

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control:	Contract for Lease	**Anticipated Closing Date:**	10/ 15/ 2005
Owner Name:	Alamo Housing Authority	**Related to Development Team Member:**	Yes

Additional Information: Ground lease for 75 years; annual payment of $100

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: No acquisition cost was included in the cost schedule. The Managing General Partner, Alamo Housing Authority, plans to donate the site.

Sitework Cost: The Applicant has estimated sitework costs of $5,721 per unit, or $6,621 per unit if the ineligible demolition costs are included. Demolition cost of $90,000 for removal of the existing 40 units was correctly characterized by the Applicant as an ineligible cost.

Direct Construction Cost: The Applicant's direct construction cost is 8% higher than the Underwriter's Marshall & Swift-derived estimate. Upon request, the Applicant submitted an AIA form G703 with construction costs for a development with a similar building design, constructed by an affiliate. Sierra Royale is a 76-unit development located in Robstown that received a 9% tax credit allocation in 2004. The square foot cost was adjusted for location and time with result of $40.97. The adjusted cost per square foot is $0.56 or slightly more than 5% higher than the Marshall and Swift estimate and provides a direct construction cost of $3,991,769.

Fees: The Applicant's contractor and developer fees are within current Department guidelines based on the submitted cost schedule.

Conclusion: Despite the difference in direct construction costs, the Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. An eligible basis of $7,158,689 supports annual tax credits of $579,854. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation.

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Financing: The conventional permanent financing commitment is inconsistent with the terms reflected in the sources and uses of funds listed in the application; while the lender has based its analysis on an annual debt service of $178,885, both the Applicant and Underwriter have assumed a higher debt service of $179,966.

The Applicant also plans to receive $432,289 from its managing general partner, Robstown PHA, structured as a loan with a 6% interest rate and payments from development cashflow. Therefore, these funds were not considered in the debt coverage ratio. It should be noted that the original source of the funds may be federal. Federally-sourced loans with deferred payments or payments from cashflow may be considered grant funds if it is likely the outstanding portion of the loan will not be repayable at the end of the committed term. In such a scenario, the development would be limited to a 4% tax credit allocation. However, the Underwriter believes the loan will be repaid over a 30-year period even with little or no repayment until the deferred developer fee is repaid.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. However, the syndication rate proposed in the commitment is in the middle of the range of current credit prices. If the final syndication rate were to increase by four cents per dollar of tax credit, an excess of funds would exist, all else held constant, and a reduction in recommended tax credits would be required based on the gap method of determining credits.

Deferred Developer's Fees: The Applicant's proposed deferred developer's fees of $221,324 amount to 30% of eligible fees. The developer has committed to deferring up to $500,000, structured as a loan with payment made from cashflow and a balloon at the end of 10 years.

Financing Conclusions: As stated above, the Applicant cost schedule was used to calculate the development's eligible basis. Although the resulting tax credits are less than the tax credits calculated based on the gap in need for permanent funds, they are greater than the Applicant's request due to the Applicant's use of an applicable percentage that is less than the current underwriting percentage of 8.10% for all 2005 9% tax credit developments. Therefore, the recommended annual tax credit allocation is $571,979, as requested. The resulting syndication proceeds indicate deferred developer fees will remain at $221,324 as anticipated by the Applicant. Deferred fees in this amount appear to be repayable from cashflow within 10 years of stabilized operation assuming no interest.

DEVELOPMENT TEAM

IDENTITIES of INTEREST

The Applicant, Developer, and Lender are related entities. These relationships are not prohibited under current HTC program rules.

APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE

Financial Highlights:

- The Applicant is a single-purpose entity created for the purpose of receiving assistance from TDHCA and therefore has no material financial statements.
- The General Partner, Alamo Housing Authority, submitted an unaudited Financial Statement as of November 30, 2004 reporting total assets of $2,425,918 and consisting of $59,462 in cash, $7,179 in net receivables, $382,989 in investments-general fund, $1,336 in prepaid insurance, $1,974,951 in property and equipment net of depreciation. Liabilities totaled $22,970, resulting in a net worth of $2,425,918.
- The submitted letters of interest for purchase of the tax credits and interim to permanent financing do not specifically state the name of proposed guarantors.

Background & Experience: Multifamily Production Finance Staff have verified that the Department's experience requirements have been met and Portfolio Management and Compliance staff will ensure that the proposed owners have an acceptable record of previous participation.

SUMMARY OF SALIENT RISKS AND ISSUES

- The Applicant's direct construction costs differ from the Underwriter's *Marshall and Swift*-based estimate by more than 5%.
- The owner of the property has an identity of interest with the Applicant.
- The property's project-based rent subsidy is subject to Federal funding and may not be renewed as anticipated.
- The anticipated ad valorem property tax exemption may not be received or may be reduced, which could affect the financial feasibility of the development.

Underwriter:	*Lisa Vecchietti*	**Date:**	July 5, 2005
Director of Real Estate Analysis:	*Tom Gouris*	**Date:**	July 5, 2005

DEVELOPMENT

Country Club Apartments

Location: 2700 Country Club Drive Region: 0
City: Pecos County: Reeves Zip: 79772 ☒ QCT ☐ DDA
Key Attributes: New Construction, Intergenerational

ALLOCATION

	REQUEST			**RECOMMENDATION**		
TDHCA Program	Amount	Interest	Amort/Term	**Amount**	**Interest**	**Amort/Term**
Housing Tax Credit (Annual)	$401,128			**$401,110**		

* The original tax credit award amount was $401,128.

RECOMMENDATION

Staff has evaluated the financial viability of the requested amendment. Based on the information provided, the transaction does not currently meet the Department's 2008 Real Estate Analysis Rules and Guidelines. However, the requested amendment does not have an effect on the financial viability of the development; therefore, the Underwriter recommends approval of the requested amendment. If the Board chooses to approve the amendment, the Underwriter recommends a total allocation of $401,110. The development has satisfied all previous conditions and is currently completing the Cost Certification process.

ADDENDUM

Country Club Apartments is an intergenerational development that was originally underwritten and approved during the 2006 9% cycle and received a tax credit allocation of $401,128 subject to conditions. The application proposed the new construction of a total of 44 units, 12 of which would be designated for senior tenants only. The Owner submitted the final cost certification documentation to the Department on May 29, 2008 and staff is currently reviewing the documentation for issuance of IRS Forms 8609. In a letter to the Department dated September 15, 2008 the Owner has requested to amend the application to allow the development to target all of its units to families and to amend its LURA to release the 12 units that are currently restricted to seniors. The Owner's letter states that despite extensive marketing efforts the development has been unable to lease the senior designated units due to market conditions in the area for senior units.

A rent roll submitted with the development's cost certification and dated 4/24/2008 shows that the development was 45% occupied at that time. Of the 24 vacancies at the development, all twelve of the senior units were vacant. A more recent rent roll for the development, dated 9/30/2008 shows that the property is currently 82% occupied and of the eight vacancies at the property, all but one are the senior designated units.

This addendum addresses the impact the Owner's requested change has on the financial viability of this transaction. The information presented in this addendum has been provided by the Owner via the subject amendment request and the documentation contained in the final cost certification submitted to the Department.

OPERATING PROFORMA ANALYSIS

Income:

The Owner's rent schedule at cost certification reflects gross rents that are lower than the 2008 maximum program rents for the area. The Owner explains in the cost certification that tenant paid rents are below the maximum limits to encourage lease-up of the property. Further discussions with the Owner reveal that there is no expectation that the market will be able to support the maximum program rents in the near future. As a result, the owner's collected rents were calculated by subtracting the appropriate utility allowance from gross rents that are lower than the maximum limits. The Underwriter's potential rent was calculated using the actual rents collected for each of the units as reflected in the latest rent roll submitted (9/30/2008).

Of note, the utility allowances calculated for each of the units differ slightly between the senior and family units. Tenants are responsible for all electric utilities plus water and sewer. The water and sewer estimates for senior units, provided by the Town of Pecos City, are lower than the estimates for family units. As a result, the owner's gross potential income appears to be higher due to the lower overall utility allowances for the senior designated units. However, since the owner has subsequently requested to target all of its units to families, the Underwriter is using the same utility allowance for all units. While the owner did not revise the rent schedule to reconcile this difference, the difference would amount to $1,440 less in the Owner's reflected potential rent.

The Owner's secondary income and vacancy and collection loss estimates are within current underwriting guidelines. Overall ,the Owner's effective gross income is within 5% of the Underwriter's estimate using actual rents collected.

Expense:

The Owner's operating expenses of $3,561/unit are 3% lower than the Underwriter's current estimate of $3,673/unit derived from the TDHCA database and IREM. The Owner provided actual year to date operating statements ending September 2008. However, since the last building was placed in service in January 2008 and the property is still in lease up, the Underwriter did not rely heavily upon these expenses because they may not reflect the true operations of the property at this time.

Conclusion:

While the Owner's income and operating expenses are each within 5% of the Underwriter's estimate, the Owner's NOI is not within 5%. Therefore, the Underwriter's proforma will be used to determine the development's debt service capacity. The proposed permanent financing structure reflects a DCR that falls within the Department's current guidelines of 1.15 to 1.35.

Of note, the Applicant's and Underwriter's expense to income ratios (71.16% and 74.08%, respectively) are above the current TDHCA guideline of 65%. However, this was not an underwriting requirement during the 2006 application round, therefore, the development will not be subject to this feasibility criteria at this time.

Feasibility:

Based on the Department's 2008 Real Estate Analysis Rules and Guidelines, the development is considered infeasible because the expense to income ratio is above 65%. The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized resulting in a debt coverage ratio of 1.20.

Of note is that the Underwriter's proforma, which utilizes the lower than program limit net rents currently being collected for the property, indicates that the development falls below a 1.15 DCR by Year 15 (the Department's minimum for feasibility). Therefore, it is questionable that the development can be characterized as feasible for the long-term (30 years) if the rents collected remain below the program limits. Alternatively, if the market turns and the maximum program rents can be achieved then the property remains feasible after Year 15.

CONSTRUCTION COST ESTIMATE EVALUATION

Conclusion:

Based on the final cost certification for the development, the Owner's total development costs increased by $195K or 5% from the costs estimated at application. The Underwriter re-evaluated the development as built and updated the construction cost estimate using current Marshall and Swift *Residential Cost Handbook* costs. The Underwriter's current construction cost estimate is within 5% of the Owner's actual construction costs as certified by the Owner's CPA.

FINANCING STRUCTURE

Source: Lancaster Pollard　Type: **Permanent Financing**

Principal: $659,000　Interest Rate: 6.66%　☒ Fixed　Amort: 480 months

Comments:

The original cost certification submission included a commitment from Lancaster Pollard dated 12/15/2006 reflecting a permanent loan amount of $705,000 guaranteed to be fixed at closing to not be more than 2.50% above the long term AFR over 480 months. Since this submission, Lancaster Pollard has provided to the Department a letter dated 10/31/2008 reflecting a permanent loan of $659,000 at the same rates and terms. According to the letter this is the expected permanent loan amount required in order to reach the lender's 1.20 DCR requirement. For purposes of this analysis the Underwriter has estimated the fixed interest rate using the long term AFR for November 2008 (4.16%).

Source: Centerline　Type: **Syndication**

Proceeds: $3,810,000　Syndication Rate: 95%　Anticipated HTC: $ 401,128

Comments:

The final Limited Partnership agreement reflects total capital contributions of $3,810,000 based on expected annual credits of $401,048 and a syndication rate of 95%. The final syndication rate is higher than the 89% rate estimated at application.

CONCLUSIONS

Recommended Financing Structure:

As stated above, the proforma analysis results in a debt coverage ratio that falls within the Department's guidelines. The Owner's final total development cost less the anticipated permanent loan of $659,000 indicates the need for $3,810,590 in gap funds. Based on the submitted syndication terms, a tax credit allocation of $401,110 annually would be required to fill this gap in financing. Of the three possible tax credit allocations, Owner's request ($401,128), the gap-driven amount ($401,110), and eligible basis-derived estimate ($415,699), the Owner's gap-driven amount of $401,110 is recommended resulting in proceeds of $3,810,590 based on a syndication rate of 95%.

The Underwriter's recommended financing structure indicates the need for no additional permanent funds.

Underwriter: Raquel Morales　Date: November 3, 2008

RECOMMENDATION

☒ RECOMMEND APPROVAL OF A HOUSING TAX CREDIT ALLOCATION NOT TO EXCEED $401,128[1] ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of a revised permanent financing commitment in the amount of $705,707, or deferred developer's fees sufficient to cover the gap in required funding.
2. Receipt, review, and acceptance, before commencement of construction, of the results of an environmental noise study, and evidence of the implementation of any recommendations.
3. Should the terms and rates of the proposed debt or syndication change, the transaction should be re-evaluated and an adjustment to the credit allocation amount may be warranted.

ARCHITECTURAL REVIEW

The building and unit plans are comparable to other modern apartment developments. They appear to provide acceptable access and storage. The elevations reflect attractive multifamily buildings.

STRUCTURAL MATERIALS

The structures will be constructed on a concrete slab. According to the plans provided in the application the exterior will be 92% cement fiber and 8% brick. The interior wall surfaces will be drywall and the roofs will be finished with composite shingles.

UNIT FEATURES

The interior flooring will be carpet and resilient covering. Threshold criteria for the 2006 QAP requires all development units to include: mini blinds or window coverings for all windows, a dishwasher, a disposal, a refrigerator, an oven/range, an exhaust/vent fan in bathrooms, and a ceiling fan in each living area and bedroom. New construction units must also include three networks: one for phone service, one for data service, and one for TV service. In addition, each unit will include: a microwave, an ice maker in the refrigerator, a self-cleaning oven, laundry connections, a ceiling fixture in each room, an individual heating and air conditioning unit, an individual water heater, and eight-foot ceilings.

ONSITE AMENITIES

In order to meet threshold criteria for a total of 41 or more units, the Applicant has elected to provide an accessible walking path, a barbecue grill and picnic table, public telephone(s) available to tenants 24 hours a

---

[1] The recommended tax credit allocation incorporates the July 28, 2006 TDHCA Board approval to raise the underwriting applicable percentage rates for the 2006 Application Round to 3.69% and 8.46% for the 30% and the 70% credit, respectively.

day, and two tot lot playgrounds equipped for young children.

In accordance with the criteria for an intergenerational development, the age restricted units will be in a separate elevator-equipped building, with a dedicated leasing office and leasing personnel. There will be separate entrances, card key access, and other appropriate security measures for the age restricted building. Shared social service programs will be provided that encourage intergenerational activities but also provide separate amenities for each age group. The staff will include an intergenerational coordinator experienced in effectively facilitating intergenerational activities.

Uncovered Parking: 73 spaces **Carports:** 0 spaces **Garages:** 0 spaces

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION

Description: Country Club Apartments is a 16-unit per acre new construction development located in Pecos, TX. The development is comprised of 3 garden style residential buildings and a separate elevator-equipped senior residential building as follows:

No. of Buildings	No. of Floors	1BR	2BR	3BR
1	2	0	0	8
1	2	0	8	0
1	2	0	8	8
1	2	6	6	0

The development includes a 1,532-square foot clubhouse area attached to the two-bedroom building, and a separate 795-square foot office and lobby area contained within the senior building dedicated to the administration of the age-restricted units.

SITE ISSUES

SITE DESCRIPTION

Total Size:	2.72 acres	**Scattered sites?**	☐ Yes ☒ No
Flood Zone:	Zone C	**Within 100-year floodplain?**	☐ Yes ☒ No
Current Zoning:	R-4 (Multifamily)	**Needs to be re-zoned?**	☐ Yes ☒ No ☐ N/A

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: SE Corner of County Club Drive and Starley Drive

Adjacent Land Uses:

- **North:** Starley Drive immediately adjacent and a gas station and Interstate Highway 20 beyond;
- **South:** Storage units immediately adjacent and the Pecos Country Club and Golf Course beyond;
- **East:** Starley Drive immediately adjacent and the Pecos Country Club and Golf Course beyond; and
- **West:** Country Club Drive immediately adjacent and Best Western Motel beyond.

Site Access: The property has two entrances from the west on Country Club Drive. Interstate Highway 20 is two blocks to the north. Odessa and Midland are the nearest large cities, to the east along IH 20 about 75 and 100 miles, respectively.

Public Transportation: The availability of public transportation was not identified in the application materials.

Shopping & Services: The police station, fire station, hospital, schools from elementary through college, and the public library are all located within about 2 miles, as are a convenience store, grocery store, retail shopping, a pharmacy, a restaurant, and a bank.

TDHCA SITE INSPECTION

Inspector: Manufactured Housing Staff **Date:** 05/09/2006

Overall Assessment: ☐ Excellent ☒ Acceptable ☐ Questionable ☐ Poor ☐ Unacceptable

Comments:

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 24, 2006 was prepared by Kaw Valley

Engineering, Inc. and supplemented by a letter dated July 3, 2006. The analyst reported the following findings and recommendations:

Findings:

- **Noise: "**The subject property is located approximately 1/8 mile from Interstate 20, and approximately ½ mile from the Municipal Airport. Considering the close proximity to these potential sources of excessive noise, it is recommended that a noise study be performed for the site." (p. 5)
- **Floodplain:** "The site is located outside the 100 and 500-year flood zones, according to the FEMA website." (p. 3)
- **Asbestos-Containing Materials (ACM):** "Since there were not any buildings present on the subject (property), asbestos containing materials and lead based paint are not anticipated to be a concern." (letter 7/3/06)
- **Lead-Based Paint (LBP):** "Since there were not any buildings present on the subject (property), asbestos containing materials and lead based paint are not anticipated to be a concern." (letter 7/3/06)
- **Lead in Drinking Water:** "The level of lead found in the drinking water as reported by (the City of Pecos) in their 2004 Annual Drinking Water Quality Report was within the established standards." (letter 7/3/06)
- **Radon:** "US EPA regulations addressing radon have set an exposure limit of 4.0 pCi/L. The Texas Department of State Health Services has conducted surveys … measured radon levels reached a maximum of 2.8 pCi/L with an average of 1.1 pCi/L in Reeves County.
- **Other:**
    - "The review of agency files indicated two Leaking Petroleum Storage Tanks (LTANKS) sites to exist within the prescribed radii. The files revealed that both of these sites have been closed with final concurrence issued. Consequently, environmental concerns are not anticipated from the LTANKS." (p. 8)
    - "The review of agency files indicated three Underground Storage Tank (UST) sites to exist within the prescribed radii. Two of the sites have fiber-reinforced plastic (FRP) tanks or composite steel tanks with FRP coating. The FRP is considered essentially noncorrodible. At the third site, all older steel tanks were removed and FRP tanks installed. Therefore, environmental concerns are not anticipated from the UST sites." (p. 8)
- **Recognized Environmental Concerns (RECs):** "No recognized environmental conditions or concerns are anticipated with the property." (p. 9)

Recommendations: "Two potential sources for excessive noise have been identified within one mile of the subject property … It is recommended that a noise study be performed for this site." (p. 9)

Receipt, review, and acceptance, before commencement of construction, of the results of an environmental noise study, and evidence of the implementation of any recommendations, are a condition of this report.

INCOME SET-ASIDE

The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. Forty-three of the units (98% of the total) will be reserved for low-income tenants. Five of the units (11%) will be reserved for households earning 30% or less of AMGI, thirty-eight units (86%) will be reserved for households earning 60% or less of AMGI, and the remaining unit will be offered to an employee at the 60% of AMGI rent.

MAXIMUM ELIGIBLE INCOMES

	1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons
60% of AMI	$18,120	$20,700	$23,280	$25,860	$27,900	$30,000

MARKET HIGHLIGHTS

A market feasibility study dated March 31, 2006 was prepared by Apartment MarketData, LLC ("Market Analyst") and supplemented by a letter dated July 14, 2006. The Analyst reported the following findings:

Secondary Market Information: The Market Analyst did not identify a Secondary Market Area.

Definition of Primary Market Area (PMA): "The boundaries of the Primary Market Area are as follows:

- North: County Road 424
- East: Ranch Road 873
- South: County Road 132
- West: County Road 211" (p. 30)

This area encompasses approximately 245 square miles and is equivalent to a circle with a radius of 9 miles.

Population: The estimated 2005 population of the PMA was 10,334 and is expected to decrease by 12% to approximately 9,212 by 2010. Within the primary market area there were estimated to be 3,406 family households and 1,506 elderly households in 2005.

Primary Market Occupancy Rates: "The current occupancy of the market area is 100% as a result of limited supply." (p. 90)

Absorption Projections: "Based on occupancy rates currently reported by existing projects, we opine that the market will readily accept the subject's units. Absorption in the Primary Market Area is nearly impossible to calculate for the trade area. There have been no new projects built in the trade area since 1990. As such, there has not been adequate new supply to determine a reasonable absorption rate for the submarket." (p. 90)

Unstabilized, Under Construction, and Planned Development: The Market Analyst did not identify any unstabilized, under construction, or planned developments in the PMA other than the subject property.

Market Impact: "The proposed project is not likely to have a dramatically detrimental effect on the balance of supply and demand in the market." (p. 14)

Market Rent Comparables: The Applicant initially expressed concern about the rents that would be achievable in the subject PMA. Proposed rents were slightly lower than HTC program rents for the 30% units, and significantly lower than program rents for the 60% units. The Market Analyst reported "There are no affordable projects in the PMA. There is only one market rate project in the PMA, Casa Manana, which was built in 1966 and has 32 units that are 100% occupied. Apartment MarketData conducted an analysis of 136 conventional (Market Rate) units … Three of the four market rate comparables are located in Fort Stockton, Texas, 50 miles southeast of Pecos … as the profile of the area is similar to that of Pecos." (p. 95) The Analyst concluded a market rate for the one bedroom that was $3 less than the one-bedroom 60% program rent, and market rates for the two and three bedroom units that were greater than the 60% program rents. The Underwriter questioned the Applicant's use of rents lower than the Market Analyst's estimates of market achievable rents, so the Applicant requested that the Analyst reassess these conclusions. The Analyst provided a revised evaluation on July 14, 2006, based solely on the one comparable property in Pecos. "We do not see evidence of price elasticity. That is, we do not believe that residents will be able to pay a significantly higher price to live at Pecos Country Club Apartments. The rent adjustment worksheets included in the market study, while applicable in most analysis, may not reflect the true nature of the Pecos market. As such, we would caution against automatically assuming that the rent potential of the project is equal to the maximum program rents." The Applicant at this time raised the proposed rents slightly to match this revised market analysis. The Underwriter concluded that data from a single property was insufficient to justify the Applicant's lower rent expectations, so the lesser of the original market rents or the HTC maximum program rents were used for underwriting purposes.

RENT ANALYSIS (net tenant-paid rents)					
Unit Type (% AMI)	**Proposed ***	**Program Max**	**Differential**	**Est. Market**	**Differential**
1-Bedroom (30%) senior	$195	$195	$0	$435	-$240
1-Bedroom (60%) senior	$415	$438	-$23	$435	-$20
2-Bedroom (30%) family	$225	$225	$0	$545	-$320
2-Bedroom (60%) senior	$480	$516	-$36	$545	-$65
2-Bedroom (60%) family	$480	$516	-$36	$545	-$65
3-Bedroom (30%) family	$245	$245	$0	$645	-$400
3-Bedroom (60%) family	$525	$581	-$56	$645	-$120

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =$500, program max =$600, differential = -$100)

*these are revised rents submitted on amended rent schedule 7/14/06

Family Market Demand: To determine the demand for the family units in the proposed development, the Market Analyst utilized a target household adjustment rate of 100% and a household size-appropriate adjustment rate of 93% (p. 49) The Analyst used the reduced rent amounts originally submitted by the Applicant, adjusted up by the utility allowance. Based on a 30% of AMGI two bedroom rent of $286 ($220 plus $66 utility allowance) and a 35% rent burden per household, the Analyst calculated a minimum income of $9,806 for the 30% units. Assuming 1.5 persons per bedroom (rounded up), the maximum household income for the 30% units is the 5 person income of $13,950. Similar calculations for the 60% units, based on a two bedroom minimum gross rent of $501, indicates an income band of $17,177 to $27,900. (p. 41). From these bands the Analyst determined an income eligible adjustment rate of 28%. (p. 42) The tenure appropriate adjustment rate of 5% is specific to the income-eligible population (p. 47). The Market Analyst indicates a turnover rate of 65% applies based on IREM. (p. 48)

As indicated above, the Underwriter applied the lesser of the original market rents or the maximum HTC program rents, and determined income bands of $9,977 to $14,000 for the 30% units and $19,954 to $27,900 for the 60% units. The Underwriter calculated an income eligible adjustment rate of 23%. The tenure appropriate adjustment rate of 23% is specific to the general population.

FAMILY MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	0	0%	-2	0%
Resident Turnover	103	100%	109	100%
TOTAL DEMAND	**103**	**100%**	**107**	**100%**

p. 50

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 30% based on a supply of 31 unstabilized affordable housing units in the PMA (including only the subject) and demand for 103 units. (p. 52) The Underwriter calculated an inclusive capture rate of 30% based on a supply of 32 unstabilized units divided by a revised demand estimate for 107 affordable units. Current TDHCA guidelines allow an inclusive capture rate as high as 100% for developments in rural areas.

Senior Market Demand: To determine the demand for the senior units in the proposed development, the Market Analyst utilized a target household adjustment rate of 44% (demographics p. 8) and a household size-appropriate adjustment rate of 100% since "with senior households, it is likely that most all of the households will be comprised of one or two persons." (p. 49) The Analyst used reduced rent amounts originally submitted by the Applicant. Based on a 30% of AMGI one bedroom gross rent of $237 and a 40% rent burden per senior household, the Analyst calculated a minimum income of $7,110 for the 30% units. Assuming 1.5 persons per bedroom (rounded up), the maximum household income for the 30% 1 bedroom units is the 2 person income of $10,350. Similar calculations for the 60% units indicate a minimum income of 12,510 based on a 1 bedroom rent of $417 and a maximum income of $23,280. (p. 43) From these bands the Analyst determined an income eligible adjustment rate of 14%. (p. 47) The tenure appropriate adjustment rate of 2% is specific to the income-eligible population (p. 47). The Market Analyst indicates a turnover rate of 65% applies based on IREM. (p. 48)

The Underwriter applied the maximum HTC program rents, and determined income bands of $7,260 to $10,350 for the 30% units and $14,550 to $23,280 for the 60% units. The Underwriter calculated an income eligible adjustment rate of 26%. The tenure appropriate adjustment rate of 14% is specific to the general population.

MARKET DEMAND SUMMARY				
	Market Analyst		**Underwriter**	
Type of Demand	**Units of Demand**	**% of Total Demand**	**Units of Demand**	**% of Total Demand**
Household Growth	0	0%	-3	0%
Resident Turnover	42	100%	34	100%
TOTAL DEMAND	**42**	**100%**	**31**	**100%**

p. 57

Inclusive Capture Rate: For the senior units, the Market Analyst calculated an inclusive capture rate of 29% based on a supply of 12 unstabilized affordable senior housing units in the PMA (including only the subject) and demand for 42 affordable units. (p. 52) The Underwriter calculated an inclusive capture rate of 39% based on a supply of 12 unstabilized units divided by a revised demand estimate for 31 affordable units. Current TDHCA guidelines allow an inclusive capture rate as high as 100% for developments in rural areas as well as those targeting the elderly.

Unit Mix Conclusion: "The subject project consists of 13.6% one bedroom units, 50.0% two bedroom units, and 36.4% three bedroom units. By comparison, family projects in the trade area offer 37.5% one bedrooms, and 62.5% two bedrooms … Because of the physical, economic, and functional characteristics of the LIHTC programs, it is logical that some variation will exist from market demographic characteristics to the actual physical project. It is our opinion, given current occupancies and the forecasted household growth, that the subject unit mix, for all purposes, will meet the needs of lower and median income families within the sub-market." (p. 93)

Market Study Analysis/Conclusions: The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: As explained above, the Applicant's initial projected rents were below the HTC program limits. They were later revised up, but still below program levels. The Underwriter utilized the lesser of the current HTC program rents, adjusted by subtracting the utility allowance provided by the Pecos Housing authority, or the market rents concluded in the submitted Market Study. Tenants will be required to pay electricity costs only. The Applicant indicated secondary income of $9 per unit per month from vending machines, laundry, and forfeited deposits. This is within the Department's guideline of $5 to $15 per unit per month. The Applicant's estimate for vacancy and collection losses is consistent with Department guidelines. The Applicant's lower rent figures resulted in an effective gross income that is 7% lower than the Underwriter's estimate.

Expenses: The Applicant's total annual operating expense projection at $3,450 per unit is not within 5% of the Underwriter's estimate of $3,754, derived from the TDHCA database and third-party data sources. The expense line items that differ most significantly from the Underwriter's estimates are payroll & payroll tax ($12K higher) and repairs & maintenance ($16K lower). In addition, the Applicant has overstated TDHCA compliance fees.

Conclusion: The Applicant's effective gross income, total annual operating expenses, and net operating income (NOI) each differs from the Underwriter's estimates by more than 5%; therefore the Underwriter's estimates will be used to evaluate debt capacity.

The Underwriter's NOI and debt service estimates result in a debt coverage ratio (DCR) above the current underwriting maximum guideline of 1.30. This indicates the project has sufficient cashflow to support a larger debt burden than anticipated. Therefore, the recommended financing structure reflects an increase in the permanent mortgage based on the interest rate and amortization period indicated in the permanent financing documentation submitted at application. This is discussed in more detail in the conclusion to the "Financing Structure Analysis" section (below).

Long-Term Feasibility: The underwriting 30-year proforma utilizes a 3% annual growth factor for income and a 4% annual growth factor for expenses in accordance with current TDHCA guidelines. As noted above, the Underwriter's base year effective gross income, expense and net operating income were utilized, including the recommended increase in permanent financing, resulting in continued positive cashflow and a debt coverage ratio that remains above 1.10 throughout the proforma period. Therefore, the development can be characterized as feasible for the long-term.

ACQUISITION VALUATION INFORMATION

ASSESSED VALUE

Land: 8.92 acres	$87,080	**Assessment for the Year of:**	2005
Subject Site: 2.72 acres (prorated)	$26,554	**Valuation by:**	Reeves County Appraisal District
Total Assessed Value:	$26,554	**Tax Rate:**	3.10297

EVIDENCE of SITE or PROPERTY CONTROL

Type of Site Control: Commercial and Industrial Real Estate Sale Contract (2.72 acres)

Contract Expiration:	08/01/2006	**Valid through Board Date?**	☒ Yes ☐ No
Acquisition Cost:	$27,200	**Other:**	
Seller:	Pecos Valley Country Club, Inc.	**Related to Development Team?**	☐ Yes ☒ No

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of $10,000 per acre is assumed to be reasonable since the acquisition is an arm's-length transaction.

Sitework Cost: The Applicant's claimed sitework costs of $7,159 per unit are within current Department guidelines. Therefore, further third party substantiation is not required.

Direct Construction Cost: The Applicant's direct construction cost estimate is $42K (2%) higher than the Underwriter's estimate derived from the Marshall & Swift *Residential Cost Handbook*.

Fees: The Applicant's estimated contractor's and developer's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines.

Conclusion: The Applicant's total development cost is within 5% of the Underwriter's estimate; therefore, the Applicant's cost schedule will be used to determine the development's need for permanent funds and to calculate eligible basis. The calculated eligible basis of $3,922,650 is increased by 30% to $5,099,445 because the subject site is located in a Qualified Census Tract. This adjusted basis and the higher applicable percentage rate approved by the TDHCA Board on July 28, 2006 support annual tax credits of $431,413. This figure will be compared to the Applicant's request and the tax credits calculated based on the gap in need for permanent funds to determine the recommended allocation. The Applicant's request will not limit the tax credits recommended as the requested allocation was most likely based on an understated applicable percentage rate.

FINANCING STRUCTURE ANALYSIS

Interim to Permanent Financing: The initial application included a proposal from CharterMac Capital for $620,000 interim construction financing for up to 24 months with interest-only payments at a fixed rate of 7%. When the project achieves 90% stabilized occupancy for 3 consecutive months, CharterMac would convert the funds to a permanent loan with a principal amount of $620,000 at a fixed rate of 8% amortized over 30 years. On July 14, 2006 the Applicant submitted a revised sources and uses of funds document indicating an intention to acquire interim and permanent financing in the amount of $665,000.

HTC Syndication: The tax credit syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. The revised sources and uses document indicates syndication proceeds reduced to $3,609,000.
