RECOMMENDATION

RECOMMEND APPROVAL OF AN LIHTC ALLOCATION NOT TO EXCEED \$845,579 ANNUALLY FOR TEN YEARS, SUBJECT TO CONDITIONS.

CONDITIONS

1. Receipt, review, and acceptance of evidence of rezoning of the site to a conforming use by execution of

commitment.

2. Should the terms or rates of the proposed debt or syndication change, the transaction should be reevaluated and an adjustment to the credit amount may be warranted.

REVIEW of PREVIOUS UNDERWRITING REPORTS

PROPOSAL and DEVELOPMENT PLAN DESCRIPTION									
Description: Sterling Springs Villas Apartments is a proposed new construction development of 120 units of mixed income housing located in east Midland. The development is comprised of 30 residential buildings as follows: ∉ Four Building Type A with four one-bedroom/one-bath units;									
 ✓ Two Building Type B with four one-bedroom/one-bath units; 									
 ✓ Two Building Type D with four one bedroom/one-bath units; ✓ Three Building Type C with four two-bedroom/one-bath units; 									
 ✓ Fince Durlding Type C with four two bedroom/one-bath units; ✓ Four Building Type D with four two-bedroom/one-bath units; 									
 ✓ Four Building Type B with four two bedroom/two-bath units; ✓ Seven Building Type E with four two-bedroom/two-bath units; and 									
 ✓ Seven Building Type E with four three-bedroom/two-bath units. ✓ Ten Building Type F with four three-bedroom/two-bath units. 									
<u>Architectural Review</u> : The buildings are a mix of one- and two-story fourplexes, with pitched roofs and mixed brick veneer and cement fiber siding exterior wall finish.									
Supportive Services: The Applicant did not specify a supportive services provider but committed to providing at least three of the services from the TDHCA list and estimated annual expenses at \$6,000.									
Schedule: The Applicant anticipates construction to begin in April of 2004, to be completed in April of 2005, and to be placed in service and to be substantially leased-up in September of 2005.									
CITE ICCIIEC									
SITE ISSUES SITE DESCRIPTION									
Size: 10 acres 435,600 square feet Zoning/ Permitted Uses: C-3, Commercial District, & 2F, Two- Size: 10 acres 435,600 square feet Zoning/ Permitted Uses: Family Dwelling, rezoning request submitted									
Flood Zone Designation: Zone X Status of Off-Sites: Partially improved									

SITE and NEIGHBORHOOD CHARACTERISTICS

Location: The site is an "L"-shaped parcel located in the east area of Midland, approximately one mile from the central business district. The site is situated on the southwest corner of the intersection of E. Golf Course Road and Fairgrounds Road.

Adjacent Land Uses:

- ∉ North: E. Golf Course Road with single-family residential beyond
- ∉ South: vacant land
- ∉ **East:** Fairgrounds Road with vacant land and single-family residential beyond
- ∉ West: an elderly LIHTC multifamily development (Santa Rita Senior Village, 9% LIHTC #02104) under construction, with a public high school and city park beyond

Site Access: Access to the property is from the east or west along Golf Course Road or the north or south from Fairgrounds Road. The development is to have two main entries off of Golf Course Road. Access to Interstate Highway 20 is one mile south, which provides connections to all other major roads serving the Midland and Odessa area.

<u>Public Transportation</u>: Public transportation is not available in Midland.

Shopping & Services: The site is within one mile of a major grocery/pharmacy, and all the private and public facilities of Midland are located within five miles.

Special Adverse Site Characteristics: The site is not currently zoned for multifamily residential use, and the Applicant has submitted a rezoning request. Receipt, review, and acceptance of evidence of rezoning of the site to a conforming use is a condition of this report.

<u>Site Inspection Findings</u>: TDHCA staff performed a site inspection on April 2, 2003 and found the location to be acceptable for the proposed development. The inspector noted the site is two miles south of a petroleum storage facility and approximately 900 yards west of a large electrical power substation, and expressed concern that more heavy industrial uses may be added to the area in the future.

HIGHLIGHTS of SOILS & HAZARDOUS MATERIALS REPORT(S)

A Phase I Environmental Site Assessment report dated March 24, 2003 was prepared by Barnett Engineering, Inc. and contained the following findings: "Based on the results of this reconnaissance, we believe that significant surface or subsurface contamination on the subject property is unlikely. A level II survey to further examine this area for contamination is not warranted." (executive summary)

POPULATIONS TARGETED

Income Set-Aside: The Applicant has elected the 40% at 60% or less of area median gross income (AMGI) set-aside. 114 of the units (95% of the total) will be reserved for low-income tenants. 56 of the units (47%) will be reserved for households earning 50% or less of AMGI, 58 units (48%) will be reserved for households earning 60% or less of AMGI, and the remaining six units (5%) will be offered at market rents.

╞						•	·					

MARKET HIGHLIGHTS

A market feasibility study dated March 25, 2003 was prepared by Mark Temple and highlighted the following findings:

Definition of Market/Submarket: "The primary or defined market area for the Sterling Springs Villas Apartments is considered Midland County...In addition, it is viewed a very strong secondary market exists due to the proposed site's proximity to the remaining Midland-Odessa MSA." (P. I-1) While this market area contains 900 square miles, its size is consistent with other midsized markets where the primary population is located in the county seat.

Population: The estimated 2002 population of Midland County was 116,981 and is expected to increase by 2.4% to approximately 119,802 by 2007. Within the primary market area there were estimated to be 43,208

households in 2007.

Total Local/Submarket Demand for Rental Units: "Based upon the TDHCA [market analysis methodology], there is an annual demand of approximately 650 units from 2003 to 2007." (p. IV-9)

ANNUAL INCOME-ELIGIBLE SUBMARKET DEMAND SUMMARY										
	Market	Analyst	Underwriter							
Type of Demand	Units of Demand	% of Total Demand	Units of Demand	% of Total Demand						
Household Growth	107	6%	14	1%						
Resident Turnover	1,748	94%	1,748	99%						
TOTAL ANNUAL DEMAND	1,855	100%	1,762	100%						

Ref: TDHCA Primary Market Analysis Summary

Inclusive Capture Rate: The Market Analyst calculated an inclusive capture rate of 19.5% based upon the subject's 120 units plus 241 vacant units in existing properties and a demand of 1,855 units. The Underwriter calculated an inclusive capture rate of 6.5% based upon a revised supply of unstabilized comparable affordable units of 120 divided by a revised demand of 1,762.

Local Housing Authority Waiting List Information: "Verification with the Midland Housing Authority indicates there is a lengthy waiting list for family and senior units. However, the actual total number of persons was not disclosed..." (p. IV-5)

Market Rent Comparables: The Market Analyst surveyed seven comparable apartment projects totaling 1,646 units in the market area. "The projected initial rents for the project are well within and below the rental range for comparable projects within the market area." (certificate, p. 2)

	RENT ANALYSIS (net tenant-paid rents)											
Unit Type (% AMI)	Proposed	Program Max	Differential	Est. Market	Differential							
1-Bedroom (50%)	\$357	\$388	-\$31	\$371	-\$14							
1-Bedroom (60%)	\$437	\$474	-\$37	\$371	+\$66							
2-Bedroom (50%)	\$430	\$468	-\$38	\$516	-\$86							
2-Bedroom (60%)	\$526	\$571	-\$45	\$516	+\$10							
2-Bedroom (MR)	\$575	N/A	N/A	\$516	+\$59							
3-Bedroom (50%)	\$499	\$541	-\$42	\$574	-\$75							
3-Bedroom (60%)	\$610	\$574	-\$36	\$574	+\$36							
3-Bedroom (MR)	\$615	N/A	N/A	\$574	+\$41							

(NOTE: Differentials are amount of difference between proposed rents and program limits and average market rents, e.g., proposed rent =\$500, program max =\$600, differential = -\$100)

Submarket Vacancy Rates: "The occupancy level of the market area is presently 93.7%." (p. III-1)

Absorption Projections: "Based upon current positive multifamily indicators and present absorption rates of 10 to 12 units per month, it is estimated that a 95+% occupancy level can be achieved in a six-to-eightmonth time frame." (p. IV-7)

Known Planned Development:

- ∉ "During the 2000's there have been no apartment projects built in the Midland market area." (p.III-28)
- ∉ "...the proposed family LIHTC apartment project will adjoin the sponsor's 136-unit senior LIHTC apartment project that was approved in 2002 [Santa Rita Senior Village, #02104]." (p. III-29)

Effect on Existing Housing Stock: "The proposed project, in light of the vacancy and absorption rates for the applicable market area, is not likely to result in an unreasonably high vacancy rate for comparable units within the market area (i.e., standard, well-maintained units within such market area that are reserved for occupancy by low and very low income tenants)." (certificate, p. 1)

The Underwriter found the market study provided sufficient information on which to base a funding recommendation.

OPERATING PROFORMA ANALYSIS

Income: The Applicant's rent projections are from \$31-\$51 below the maximum rents allowed under LIHTC guidelines, reflecting the Applicant's judgment of attainable rents. Based on the Market Analyst's estimated market rents, however, the Underwriter has increased rents on all of the 50% AMI units to the estimated market rents and decreased rents on all of the 60% AMI and market rate units to the estimated market rents. The net result of these largely offsetting adjustments is that the Underwriter's estimated potential gross rent is \$1,848 less than the Applicant's. Estimates of secondary income and vacancy and collection losses are in line with TDHCA underwriting guidelines; therefore the Underwriter's effective gross income estimate is \$1,712 (less than 1%) lower than the Applicant's.

Expenses: The Applicant's total expense estimate of \$3,435 per unit is within 5% of the Underwriter's database-derived estimate of \$3,610 per unit for comparably-sized developments. The Applicant's budget shows several line item estimates, however, that deviate significantly when compared to the database averages, particularly general and administrative (\$14.8K lower).

Conclusion: Although the Applicant's estimated income and total estimated operating expense are consistent with the Underwriter's expectations, the Applicant's net operating income is not within 5% of the Underwriter's estimate. Therefore, the Underwriter's NOI will be used to evaluate debt service capacity. In both the Applicant's and the Underwriter's income and expense estimates there is sufficient net operating income to service the proposed first lien permanent mortgage at a debt coverage ratio that is within the TDHCA underwriting guidelines of 1.10 to 1.30.

	ACQUISITION VALUATION INFORMATION											
ASSESSED VALUE												
Land: \$21,781 (prorated from 48.768-acre p			e parcel) Assessment for the Year of: 2002					_				
Building:	N/.	A				Valuation by:	Midland	dland Appraisal District				
Total Assessed Value:	\$21,781				Tax Rate:	2.8148			_			
	EVIDENCE of SITE or PROPERTY CONTROL											
Type of Site Control:		Earnes	t money	contract								
Contract Expiration D	ate: 10/ 31/ 2003			Anticipat	ed Closing Date:	10/	31/	2003				
Acquisition Cost:		\$ 190,000			Other Terms/Conditions: \$2,000 earnest money				money			
Seller: John M, Bushman and Carol Ann Bushman 1986 Children's Irrevocable Trust			5	Related to De	evelopment '	Team Me	mber:	No				

CONSTRUCTION COST ESTIMATE EVALUATION

Acquisition Value: The site cost of \$190,000 (\$0.44/SF or \$19K/acre), although 872% of the tax assessed value, is assumed to be reasonable since the acquisition is an arm's-length transaction.

<u>Sitework Cost</u>: The Applicant's claimed sitework costs of \$4,714 per unit are considered reasonable compared to historical sitework costs for multifamily projects.

Direct Construction Cost: The Applicant's direct construction cost estimate is \$179K or 3.7% higher than the Underwriter's Marshall & Swift *Residential Cost Handbook*-derived estimate, and is therefore regarded as reasonable as submitted.

Other: The Applicant's contingency allowance exceeds the TDHCA maximum guideline of 5% by \$1,670 and therefore eligible basis will be reduced by an equivalent amount.

Fees: The Applicant's contractor's fees for general requirements, general and administrative expenses, and profit are all within the maximums allowed by TDHCA guidelines. The Applicant's developer's fees are set at the maximums allowed by TDHCA guidelines, but with the reduction in eligible basis due to the misapplication of eligible basis discussed above now exceed the maximum by \$251.

<u>Conclusion</u>: The Applicant's total development cost estimate is within 5% of the Underwriter's verifiable estimate and is therefore generally acceptable. Since the Underwriter has been able to verify the Applicant's

projected costs to a reasonable margin, the Applicant's total cost breakdown, as adjusted, is used to calculate eligible basis and determine the LIHTC allocation. As a result an eligible basis of \$8,266,743 is used to						
determine a credit allocation of \$845,579 from this method. The resulting syndication proceeds will be used						
to compare to the gap of need using the Applicant's costs to determine the recommended credit amount.

Additional Information:						
APPLICANT EQUITY						
Amount: \$8,733 Source: Deferred developer fee						
FINANCING STRUCTURE ANALYSIS						

<u>Permanent Financing</u>: The permanent financing commitment is consistent with the terms reflected in the sources and uses of funds listed in the application.

<u>LIHTC</u> Syndication: The LIHTC syndication commitment is consistent with the terms reflected in the sources and uses of funds listed in the application. Based on the Applicant's adjusted estimate of eligible basis, the LIHTC allocation should not exceed \$845,579 annually for ten years, resulting in syndication proceeds of approximately \$6,425,515.

Deferred Developer's Fees: The Applicant's proposed deferred fees of \$8,733 amount to less than 1% of the total eligible fees.

Financing Conclusions: Based on the underwriting analysis, the Applicant's deferred developer fee will be increased to \$47,218, which represents approximately 4% of the eligible fee and which should be repayable from cash flow within approximately two years. Should the Applicant's final direct construction cost exceed the cost estimate used to determine credits in this analysis, additional deferred developer's fee should be available to fund those development cost overruns.

	DEVELOPMENT TEAM
	IDENTITIES of INTEREST
Ke	nt Hance. Sr. is the father of Kent (Ron) Hance, Jr. and Susan Hance Sorrells. Aubrea Hance is the wife of
Ro	n Hance. These are acceptable relationships for LIHTC-funded developments.
	APPLICANT'S/PRINCIPALS' FINANCIAL HIGHLIGHTS, BACKGROUND, and EXPERIENCE
Fir	nancial Highlights:
¢	The Applicant and Managing General Partner are single-purpose entities created for the purpose of receiving assistance from TDHCA and therefore have no material financial statements.
¢	The nonprofit Co-General Partner, Crossroads Housing Development Corporation, submitted an unaudited financial statement as of December 31, 2002 reporting total assets of \$181K and consisting of \$44K in cash, \$136K in real property, equipment, and fixtures. Liabilities totaled \$2K, resulting in a net worth of \$179K.
∉	The principals of the Developer, Kent Hance Sr., Kent Hance Jr., and Susan Hance Sorrells, submitted personal financial statements.
Ba	ckground & Experience:
¢	The Applicant and Managing General Partner are new entities formed for the purpose of developing the project.
∉	Crossroads Housing Development Corporation, the Co-General Partner, listed participation in one previous 76-unit LIHTC housing development.
¢	Kent Hance Sr., the 49.5% owner of the Developer, listed participation in six previous LIHTC housing developments in Texas totaling 682 units since 1997.
∉	Kent Hance Jr. and Susan Hance Sorrells, each 24.75% owners of the Developer, listed participation in five previous LIHTC housing developments in Texas totaling 608 units since 1997.
	SUMMARY OF SALIENT RISKS AND ISSUES
¢	The Applicant's estimated operating proforma is more than 5% outside of the Underwriter's verifiable ranges.
