## **TDHCA Legislative Update**

Michael Lyttle, TDHCA

# 87<sup>th</sup> Regular Session Report

- Total bills filed: 6,927
- Total bills passed: 1,073
- Percentage passed: 15.5%
- Third highest total of filed bills in last 10 regular sessions

## 87<sup>th</sup> Regular Session Report – passed legislation

- **House Bill 1558** (Button) - directs TDHCA to add a scoring incentive for housing tax credit applications proposed to be located within two miles of a veterans medical facility who will have a leasing preference for low income veterans. The bill was bracketed to Dallas, Tarrant, Bexar, and Travis counties.

## 87<sup>th</sup> Regular Session Report – passed legislation

- **Senate Bill 403** (Johnson) - expands list of entities eligible to which a developer can sell a development supported with low income housing tax credits within the first 60 days of the 180-day right of first refusal period to include public housing authorities and public facility corporations (if created by a public housing authority).

## 87<sup>th</sup> Regular Session Report – filed legislation that did not pass

- **House Bill 249** (Cortez) – bill would have removed 90-mile proximity requirement for nonprofit board members for NPOs participating in low income housing tax credit ownership structures. Some of these NPOs who would have been impacted are qualified regional and national nonprofits with proven affordable housing capacity and experience developing service-enriched affordable housing in Texas.  
*(companion bill was SB 1144).*

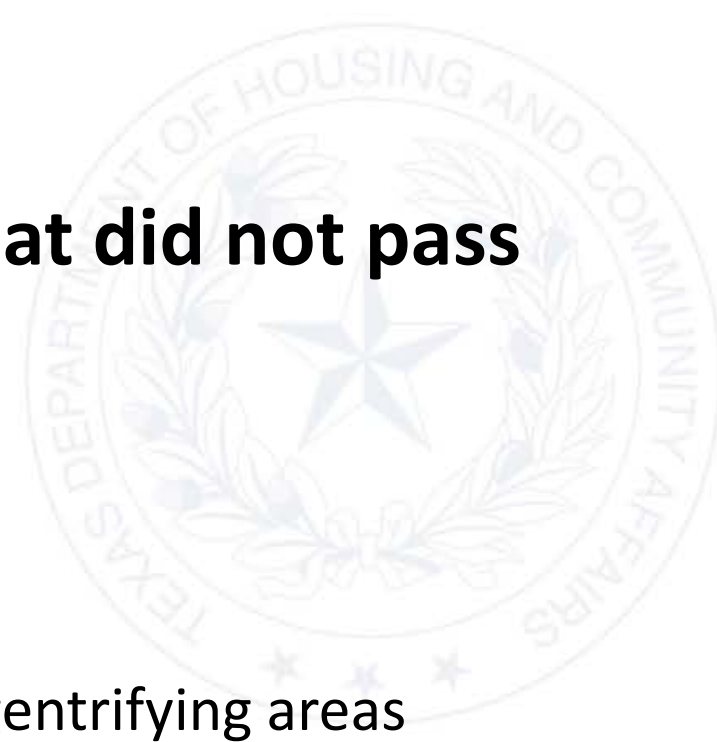

## 87<sup>th</sup> Regular Session Report – filed legislation that did not pass

- **House Bill 1225** (Campos) – bill would have required the Health and Services Coordination Council by August 1 of each year to complete and submit to TDHCA an extensive evaluation of the 2-1-1 services provided by the Texas Information and Referral Network (TIRN) to help inform an expansion of service-enriched housing throughout Texas.
  - As part of HHSCC’s biennial plan, the council would have had to include ideas for improving the delivery of community resource information and referrals by considering the results of the 2-1-1 services evaluation.
