An additional \$9 million has been identified for disaster relief. Current HOME administrators with access to the Disaster Relief Set-Aside can immediately begin reserving funds to assist with disaster relief efforts. Current HOME Administrators with a reservation agreement that do not have access to the Disaster Relief Set-Aside and that anticipate receiving requests for assistance for disaster-impacted households may request an amendment to their reservation agreement. Amendments can also be requested to an administrator's service area. Other units of general local governments, public housing authorities, local mental health authorities, and nonprofits that are not currently participating in the TDHCA HOME program and wish to serve Harvey-affected households must submit an application to TDHCA in order to access funds. Administrators do not have to be in a Harvey-affected county in order to serve households affected by Harvey.

Administrators with current access to the Disaster Relief Set-Aside are highlighted in gray. Administrators with only contracts are noted in orange.
