# Independent Auditor's Report 

Department of Housing and Community Affairs Board of Directors
Mr. J. Paul Oxer, P.E., Chair
Mr. Tom H. Gann, Vice Chair
Ms. Leslie Bingham Escareño
Mr. Lowell A. Keig
Mr. J. Mark McWatters
Dr. Juan Sanchez Muñoz
We have audited the accompanying financial statements of the Revenue Bond Program Enterprise Fund (Program) of the Department of Housing and Community Affairs (Department), as of and for the year ended August 31, 2012, which collectively comprise the Program's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Department's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements present only the Program, an enterprise fund of the Department and the State of Texas, and do not purport to, and do not, present fairly the financial position of the Department or the State of Texas as of August 31, 2012, the changes in the Department's or the State's financial position, or, where applicable, the Department's or the State's cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the Program of the Department, as of August 31, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 20, 2012, on our consideration of the Department's internal control over the Program's financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and
compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Program's financial statements. The supplementary bond schedules are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary bond schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Program's basic financial statements. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## MANAGEMENT'S

DISCUSSION AND ANALYSIS

# TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS REVENUE BOND PROGRAM ENTERPRISE FUND 

## MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

This section of the Texas Department of Housing and Community Affairs - Revenue Bond Program (the "Bond Program") annual financial report presents management's discussion and analysis of the financial performance of the Bond Program of the Texas Department of Housing and Community Affairs ("Department") during the fiscal year that ended on August 31, 2012. Please read it in conjunction with the Department's Bond Program financial statements, which follow this section.

## FINANCIAL HIGHLIGHTS

- The Bond Program's net assets increased by $\$ 20.6$ million. This was primarily because of the $\$ 6.6$ million change in fair value of investments and a positive $\$ 11.8$ million difference between interest income and interest expense as explained below.
- The Bond Program had an Operating Income of $\$ 24.2$ million, a decrease of $\$ 18.5$ million from the prior year. The change in operating income was a result of the following factors. The net increase in fair value of investments decreased from $\$ 33.2$ million in fiscal year 2011 to $\$ 6.6$ million in fiscal year 2012, or $\$ 26.7$ million. Bond interest expense decreased $\$ 3.9$ million due to lower interest rates related to variable rate debt. In addition, other operating revenue increased $\$ 2.4$ million primarily related to servicer fees.
- The Bond Program's debt outstanding of $\$ 2.4$ billion as of August 31, 2012, decreased $\$ 36.6$ million. Debt issuances and debt retirements totaled $\$ 88.0$ million and $\$ 124.9$ million, respectively. Loan originations for the year totaled $\$ 10.9$ million in the Bond Program.
- In accordance with Governmental Accounting Standards Board Statement (GASB) No. 53, Accounting and Financial Reporting for Derivative Instruments, the Department identified its derivative instruments, measured their effectiveness, and reported the derivative instruments at fair value. The Department's interest rate swaps, which were primarily used to hedge changes in interest rates, are considered to be derivative instruments under GASB 53. GASB 53 requires the fair value of a derivative to be reported at the end of the fiscal year in the balance sheet. As of August 31, 2012, the Department's five interest rate swaps had a total notional amount of $\$ 286.3$ million and a negative $\$ 46.9$ million fair value which was recorded in the deferred outflow of resources account and as a derivative swap liability.

## FINANCIAL STATEMENTS

The financial statements provide information about the Bond Program's funds. The Bond Program has only one type of fund, the proprietary fund, which is as follows:

- Proprietary Fund - The Bond Program's activities in its proprietary fund are accounted for in a manner similar to businesses operating in the private sector. Funding has primarily arisen through the issuances of taxable and tax-exempt bonds whose proceeds are used primarily to fund various types of loans to finance low- and moderate-income housing. The net assets of these funds represent accumulated earnings since their inception and are generally restricted for program purposes or debt service.

| Total net assets | \$ | 213,072,602 | \$ | 192,430,258 | \$ | 20,642,344 | 10.73 \% |

Net assets of the Bond Program increased $\$ 20.6$ million, or $10.73 \%$, to $\$ 213.1$ million. Restricted net assets of the Bond Program increased $\$ 22.5$ million, or $12.5 \%$. The increase can be attributed to a positive difference between interest earnings and interest expense and the change in fair value of investments. Unrestricted net assets decreased $\$ 1.8$ million or $14.02 \%$ due primarily to a positive difference between other operating revenue and expenses in the Operating Fund which is offset by transfers out of the Multifamily Bond Program and Operating Fund.

Cash and investments (current and non-current) increased $\$ 3.4$ million, or $.22 \%$, to $\$ 1.5$ billion, primarily due to the change in fair value of investments.

The Bond Program's loans and contracts (current and non-current) decreased $\$ 18.4$ million, or $1.61 \%$, to $\$ 1.1$ billion, due primarily as a result of loan payoffs related to the Department's Multi-family Bond Program. Total bonds payable (current and non-current) decreased $\$ 36.6$ million, or $1.53 \%$, due to the Department's monthly retirement of existing debt primarily due to consumer refinancing and paying off of original loans.

In accordance with Governmental Accounting Standards Board Statement (GASB) No. 53, Accounting and Financial Reporting for Derivative Instruments, the Department reported its derivative instruments at fair value on the balance sheet. The Department's five interest rate swaps are considered to be derivative instruments per GASB No. 53. The negative $\$ 46.9$ million fair value of the swaps increased by $\$ 8.2$ million and is reported as deferred outflow of resources and a derivative hedging instrument classified as a liability.

Earnings within the Bond Program’s various bond indentures were $\$ 127.8$ million, of which $\$ 119.7$ million is classified as restricted and $\$ 8.1$ million as unrestricted.

Restricted earnings are composed of $\$ 111.3$ million in interest and investment income, $\$ 6.6$ million net increase in fair value of investments, and $\$ 2$ million in other revenue. Interest and investment income is restricted per bond covenants for debt service, net increase in fair value in investments is a combination of both unrealized and realized gains, and other revenue is predominantly an accounting recognition of fees received in previous years that were deferred when received and are being amortized over a period of time.

Unrestricted earnings are composed of $\$ 182$ thousand in interest and investment income, $\$ 63.7$ thousand net increase in fair value of investments, and $\$ 7.8$ million in other operating revenue.

The graph below illustrates the composition of interest revenue for the various bond indentures that make up the Bond Program:

Interest earned on program loans decreased by $\$ 3.8$ million, or $7.01 \%$, due primarily to a decrease of $\$ 3.5$ million, or $6.59 \%$, within the Bond Program's Multi-Family Program, due to lower loan amounts outstanding as a result of loan payoffs throughout the year and lower interest rates.

Investment income increased $\$ 4.1$ million, or $7.09 \%$, and reflected higher investment yields. The net increase was primarily due to an increase of $\$ 6.6$ million in the RMRB Revenue Bond Program offset by a decrease of $\$ 2.5$ million within the Single Family Revenue Bond Program funds.

Expenses of the Bond Program consist primarily of interest expense and professional fees and services. Interest expense was $\$ 99.6$ million, which decreased $\$ 3.9$ million, or $3.73 \%$, on the Bond Program's debt incurred to fund its various lending programs. Professional fees and services was $\$ 1.6$ million which decreased $\$ 1.6$ million or $50 \%$ associated with costs incurred to evaluate and administer funds within the various bond indentures.

The changes in net assets by bond indenture for the Bond Program for fiscal years 2012 and 2011 are as follows:

| Changes in Net Assets by Bond Program, Year Ended August 31, (Amounts in Thousands) |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\underline{2012}$ |  | 2011 | Increase (Decrease) |  |  |
| Fund |  |  |  | Amount | Percentage |
| Single Family | \$ | 120,785 |  | \$123,147 | \$ | $(2,362)$ | (1.9)\% |
| RMRB |  | 78,151 | 53,418 |  | 24,733 | 46.3 \% |
| CHMRB |  | 2,019 | 1,968 |  | 51 | 2.6 \% |
| Multifamily |  | $(1,086)$ | (562) |  | (524) | 93.2 \% |
| General funds |  | 13,204 | 14,459 |  | $(1,255)$ | (8.7)\% |
| Total | \$ | 213,073 | \$192,430 | \$ | 20,643 | 10.7 \% |

The Net assets of the Single Family Bond Program decreased by $\$ 2.4$ million, or $1.9 \%$, primarily due to a decrease in investment income of $\$ 2.5$ million.

Net assets of the RMRB Bond Program increased $\$ 24.7$ million or $46.3 \%$ primarily due to an increase of $\$ 14.2$ million to the fair value of investments, $\$ 6.6$ million increase in interest and investment income, and an increase of $\$ 3.6$ million in interest expense.

## BOND PROGRAM DEBT

The Bond Program's new debt issuances during fiscal year 2012 totaled $\$ 88.0$ million related to the Residential Mortgage Revenue Bond Program. The Bond Program also had $\$ 124.9$ million in debt retirements during the year primarily due to consumer refinancing and paying off of original loans. The net result was a decrease in bonds payable of $\$ 36.6$ million to $\$ 2.4$ billion of which $\$ 117$ million is due within one year. For additional information, see Note 4, Bonds Payable, and supplementary bond schedules.

The following graph will illustrate a comparison of bonds outstanding between fiscal year 2012 and 2011 per bond program:

## NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended August 31, 2012

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General Statement - The Texas Department of Housing and Community Affairs (the "Department"), was created effective September 1, 1991, by an act of the 72nd Texas Legislature, pursuant to Senate Bill 546 (codified as Article 4413 (501), Texas Revised Civil Statutes) (the "Department Act"), passed by the Texas Legislature on May 24, 1991, and signed by the Governor of the State of Texas. Effective September 1, 1991, the Department was established to assist local governments in helping residents overcome financial, social, and environmental problems; to address low- to moderate-income housing needs; to contribute to the preservation and redevelopment of neighborhoods and communities; to assist the Governor and the Legislature in coordinating federal and state programs affecting local governments; and to continually inform the State and the public about the needs of local government. The Department was created by merging two former agencies: the Texas Housing Agency and the Texas Department of Community Affairs.

The accompanying financial statements represent the financial status of the Revenue Bond Program Enterprise Fund (the "Bond Program"), which is included in the enterprise fund of the Department, and are not intended to present the financial position of the Department or its results of operations or cash flows. The Department is governed by a Board composed of seven members, all of whom are appointed by the Governor with advice and consent of the Senate. The Board then appoints the Executive Director with the approval of the Governor. The Department is authorized to issue tax-exempt or taxable bonds, notes, or other obligations to finance or refinance multifamily housing developments and single-family residential housing. Bonds and notes of the Department do not constitute a debt of the State or any political subdivision thereof. The Department Act specifically provides for the assumption by the Department of the outstanding indebtedness of the former agencies. The Department is required to continue to carry out all covenants with respect to any bonds outstanding, including the payments of any bonds from the sources provided in the proceedings authorizing such bonds. For financial reporting purposes, the Department is an agency of the State and is included in its reporting entity.

The Bond Program operates several bond programs under separate trust indentures, as follows:
Single-Family Bond Program (Single-Family) - These bonds are limited obligations of the Department. Bond proceeds were used to originate below-market rate loans for eligible low- and moderate-income residents who were purchasing a residence. These bonds were issued pursuant to a Single-Family Mortgage Revenue Bond Trust Indenture, dated October 1, 1980, and indentures supplemental thereto, and are secured on an equal and ratable basis by the trust estate established by such trust indentures.

Residential Mortgage Revenue Bond Program (RMRB) - Thirty-three series (five of which have been refunded) of these bonds have been issued pursuant to the RMRB master indenture and thirty separate Series Supplements, and are secured on an equal and ratable basis by the trust estates established by such trust indentures. Proceeds from the 1987 A Bonds were used to purchase single-family loans, while proceeds from the remaining RMRB bond issues were used to purchase pass-through certificates created through the origination of single-family loans.

Collateralized Home Mortgage Revenue Bond Program (CHMRB) — The Department issued eleven series of bonds pursuant to the CHMRB Trust Indenture with six separate supplements for each series. The bonds are secured on an equal and ratable basis. Proceeds from the bonds are being used to purchase pass-through certificates created through the funding of loans made to finance the purchase by eligible borrowers of new and existing single-family residences in the state.

Multifamily Housing Revenue Bond Programs (Multifamily) - These bonds were issued pursuant to separate trust indentures and are secured by individual trust estates, which are not on an equal and ratable basis with each other. The bonds are limited obligations of the Department and are payable solely from the payments received from the assets and guarantors, which secure the individual trust indentures. Under these programs, the proceeds were either provided to nonprofit and for-profit developers of multifamily properties to construct or rehabilitate rental housing or used to refund other multifamily bonds issued for the same purposes.

## NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended August 31, 2012

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Cont’d

Significant Accounting Policies - the significant accounting policies of the Bond Program are as follows:
Fund Accounting - The Bond Program’s financial statements have been prepared on the basis of the proprietary fund concept as set forth by the Governmental Accounting Standards Board (GASB). The proprietary fund concept provides that financial activities operated similarly to private business enterprises and financed through fees and charges assessed primarily to users of the services are presented as a proprietary fund. Proprietary funds are accounted for on the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when the liability is incurred. The Bond Program has elected not to apply Financial Accounting Standards Board pronouncements issued after November 30, 1989, as allowed by GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting.

Investments - The Bond Program follows the provisions of GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. GASB Statement No. 31 requires certain types of investments to be reported at fair value on the balance sheet. The Bond Program utilizes established quoted market prices for determining the fair value of its debt securities in reserve funds. The Bond Program's portfolio of mortgage-backed securities consists of pools of mortgage loans exchanged for mortgage-backed securities or mortgage pass-through certificates. Fair value of the Bond Program's securitized mortgage loans (GNMA/FNMA) has been estimated by each bond issue's trustee using a pricing service.

The Bond Program has reported all investment securities at fair value as of August 31, 2012, with the exception of certain money market investments, and nonparticipating interest-earning investment contracts, which are reported at amortized cost (historical cost adjusted for amortization of premiums and accretion of discounts), provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors (see Note 2).

In accordance with GASB Statement No. 31, changes in the fair value of investments and any realized gains/losses on the sale of investments are reported in the statement of revenues, expenses, and changes in net assets as net increase (decrease) in fair value of investments.

Loans and Contracts - Loans and contracts are carried at the unpaid principal balance outstanding less the allowance for estimated loan losses and deferred commitment fees. Interest on loans is credited to income as earned. Loans are generally placed on nonaccrual status when the Department becomes aware that the borrower has entered bankruptcy proceedings or when the loans are 90 days past due as to either principal or interest or when payment in full of principal and interest is not expected. Deferred commitment fees are recognized using the interest method over the estimated lives of the single-family loans and the contractual lives, adjusted for actual repayments, of the multifamily loans.

Real Estate Owned - Properties acquired through foreclosure are carried at the unpaid principal balance on the related property plus accrued interest and reimbursable expenses through the date of foreclosure, less any sales proceeds, reimbursements received from mortgage insurers, and an allowance for estimated losses on such properties. After foreclosure, foreclosed assets are carried at lower of cost or fair value minus selling costs. Interest on real estate owned is credited to income as earned based on a calculation of interest recoverable in accordance with the Department's agreements with its mortgage insurers.

Allowance for Estimated Losses on Loans and Foreclosed Properties - The allowance for estimated losses on loans is available for future charge offs on single-family and multifamily loans. The allowance for estimated losses on real estate owned is available for future charge offs on foreclosed single-family loans.

## NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended August 31, 2012

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Cont’d

All losses are charged to the allowance when the loss actually occurs or when a determination is made that a loss is likely to occur. Periodically, management estimates the likely level of future losses to determine whether the allowances for estimated losses are adequate to absorb anticipated losses in the existing loan and real estate owned portfolios. Based on these estimates, a provision for estimated losses on loans and real estate owned is made to the allowances in order to adjust the allowances to levels estimated to be adequate to absorb reasonably foreseeable losses.

While management uses available information to recognize losses in the loan and real estate owned portfolios, future adjustments may be necessary based on changes in economic conditions. However, it is the judgment of management that the allowances are currently adequate to absorb reasonably foreseeable losses in the existing loan and real estate owned portfolios.

Deferred Outflow of Resources/Derivative Hedging Instrument-The Department identified its derivative instruments and measured their effectiveness in accordance with Governmental Accounting Standards Board Statement (GASB) No. 53, Accounting and Financial Reporting for Derivative Instruments. The Department contracted a service provider to measure its derivative effectiveness using the regression analysis method. Since the derivative instruments were deemed to be effective, the Department deferred the changes in fair value for these derivatives and reported them as a deferred outflow of resources.

Operating and Nonoperating Revenues and Expenses - The Department distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the Bond Program. The principal operating revenues of the Bond Program are related to interest derived from investments, interest on mortgage loans and bond related administrative fees. Operating expenses are primarily related to interest expense on bonds and general administrative expenses. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Commitment Fees - Commitment fees received in connection with the origination of loans are deferred and recognized using the interest method over the estimated life of the related loans and mortgage-backed securities, or if the commitment expires unexercised, it is credited to income upon expiration of the commitment.

Deferred Issuance Costs - Deferred issuance costs on bonds are amortized using the interest method over the contractual life of the bonds to which they relate. Prepayments on the bonds result in the proportionate amortization during the current year of the remaining balance of deferred issuance costs.

Discounts and Premiums on Debt - Discounts and premiums on debt are recognized using the interest method over the life of the bonds or collateralized mortgage obligations to which they relate. Prepayments on the bonds result in the proportionate amortization during the current year of the remaining balance of discounts and premiums on debt.

General and Administrative Expenses - Certain General and Administrative expenses are accounted for in the Department's Administrative Program and are not reflected in the Operating Fund section of the Bond Program.

Restricted Net Assets - Certain net assets of the Bond Program are restricted for various purposes of the bond trust indentures.

Cash Flows - For purposes of reporting cash flows, cash and cash equivalents consist of cash and short-term investments with a maturity at the date of purchase of three months or less, which are highly liquid and are readily exchanged for cash at amounts equal to their stated value.

## NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended August 31, 2012

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Cont’d

Interfund Transactions - The Bond Program has transactions between and with other funds of the Department. Quasi-external transactions are charges for services rendered by one fund to another, and they are accounted for as revenue or expense. All other interfund transactions are reported as transfers.

Gain/Loss on Refunding of Debt - Any gain/loss on refunding of bonds is deferred and amortized as a component of interest expense using the interest method.

Loss on Early Extinguishment of Debt - Any loss on extinguishment of debt prior to its stated maturity is recorded as a component of interest expense in the period the debt is retired.

Estimates - In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the balance sheet and the reported revenues and expenses for the period. Actual results could differ significantly from those estimates. Management judgments and accounting estimates are made in the evaluation of the allowance for estimated losses on loans and real estate owned and in determination of the assumptions with respect to prepayments on loans and mortgage-backed securities in the recognition of deferred commitment fees to income.

## NOTE 2: DEPOSITS, INVESTMENTS \& REPURCHASE AGREEMENTS

The Department is authorized by statute to make investments following the "prudent person rule" and its Investments Policy adopted by the Board for all funds except funds invested under a trust indenture. Each trust indenture sets the authorized investments for that particular trust indenture. There were no significant violations of legal provisions during the period.

As of August 31, 2012, the fair value of investments not under trust indentures and subject to the Department's investment policy was $\$ 12,336,675$ or $.8 \%$ which is reported under the Operating Fund on Schedule 1. The remaining $\$ 1,522,881,572$ or $99.2 \%$ is excluded from the Department's investment policy but is governed by the bond trust indentures.

## Deposits of Cash in Bank

In accordance with bond trust indentures and depository agreements, all cash is to be fully collateralized, with the collateral held by a third party in the name of the Department. At August 31, 2012, the Department's cash and deposits were fully collateralized by securities with a trustee in the Department's name. As of August 31, 2012, the carrying amount of deposits was $\$ 3,746,712$.

| Current Assets Cash in Bank |  |
| :--- | ---: |
| Texas Treasury Safekeeping Trust | $\$$ |

| Texas Treasury Safekeeping Trust | $2,771,321$ |
| Demand Deposits | 962,055 |
|  | $\$$ |
| Cash in Bank | $3,746,712$ |

## Investments

The types of investments in which the Department may invest are restricted by the provisions of the master bond indentures and the Department's Investment Policy adopted by its Board. The indentures allow for investments in direct obligations of or guaranteed by the U.S. Government; obligations, debentures, notes or other evidences of indebtedness issued or guaranteed by agencies or intermediaries of the U.S. Government; obligations issued by public agencies or municipalities; obligations and general obligations of or guaranteed by the state; demand deposits, interest-bearing time deposits or certificates of deposit; repurchase agreements in U.S.

Government securities; direct or general obligations of any state within the territorial U.S.; investment agreements with any bank or financial institution; and guaranteed investment contracts. Certain trust indentures restrict the Department from investing in certain of the aforementioned investments.

The Department holds $\$ 77,416,228$ in overnight repurchase agreements maturing on the following business day, September 4, 2012, at a rate of $.15 \%$.

At August 31, 2012, the fair value of investments (including both short-term and long-term) are shown below.

## Credit Risk

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Preservation and safety of principal is the foremost objective of the investment program. According to the Department's investment policy, investments should be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The trust indentures which account for $99.2 \%$ of the portfolio do not address credit risk. The Department's investment policy covers the remaining $.8 \%$ of investments. Credit risk is mitigated by:

- Limiting investments to the safest types of securities.
- Pre-qualifying the financial institution, broker/dealers, intermediaries, and advisors with which the Department will do business.
- Diversifying the investment portfolio so that potential losses on individual securities will be minimized.

As of August 31, 2012, the Department's credit quality distribution for securities with credit risk exposure was as follows.

## Standard \& Poor's

| Investment Type | Not Rated | AAA | AA+ | A |

Concentration of credit risk is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2012, the Department's concentration of credit risk is as follows.

| Issuer | Carrying Value | \% of Total Porfolio |
| :--- | :---: | :---: |
| Warburg | $77,416,228$ | $5.04 \%$ |

## Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of any investment. The longer the maturity of an investment will result in greater sensitivity of its fair value to changes in the market interest rates. The trust indentures which account for $99.2 \%$ of the investment portfolio do not address interest rate risk. The Department's investment policy covers the remaining $.8 \%$ of investments. Interest rate risk is mitigated by:

- Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.
- Investing operating funds primarily in shorter-term securities.

Information about the sensitivity of the fair values of the Department's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Department's investments by maturity:

Remaining Maturity (in months)

| Government and Business Type Activities | Fair Value |  | 12 months or less |  |  |  | 25 to 60 months |  | More than 60 months |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| U.S. Government Agency Obligations | \$ | 1,325,925,981 |  |  |  |  | \$ | 2,064,636 | \$ | 1,323,861,345 |

| Total | \$ | 1,535,218,247 | \$ | 183,602,382 | \$ | - | \$ | 2,064,636 | \$ | 1,349,551,229 |

## Highly Sensitive Investments

Mortgage backed securities-these securities are subject to early payment in a period of declining interest rates. These prepayments result in a reduction of expected total cash flows affecting the fair value of these securities and make the fair value of these securities highly sensitive to the changes in interest rates. The Department does not make it a common practice to sell these investments. Any fluctuation in fair value generates an unrealized gain or loss. As of August 31, 2012, the Department holds $\$ 1,325,925,981$ in mortgage backed securities.

## Changes in Long-Term Liabilities

During the year ended August 31, 2012, the following changes occurred in liabilities.

| Business-Type <br> Activities | Balance <br> $\mathbf{0 9 / 0 1 / 2 0 1 1}$ | Additions | Reductions | Balance <br> $\mathbf{0 8 / 3 1 / 2 0 1 2}$ |  |

| Total Business- <br> Type Activities | $\$$ | $2,397,034,987$ | $89,623,564$ | $126,245,194$ | $\$$ |

## Revenue Bonds Payable

The Department issues bonds to assist in financing the purchase of homes by or the construction of rental housing for families with very low to moderate incomes. Loan payments provide the revenues for debt service payments. See Note 4 for more information.

## Other Non-current Liabilities

Other non-current liabilities totaling $\$ 71,591,681$ are primarily accounted by funds due to Developers as a result of Multifamily unexpended bond proceeds and Developer deposits which have corresponding investment balances adjusted to market value. These proceeds are conduit debt issued on behalf of the Developers for the purpose of Multifamily developments and are held by the trustees. Due to the various variables related to the balance, the current portion cannot be reasonably estimated.

## NOTE 4: BONDED INDEBTEDNESS

The Department has 132 bond series outstanding at August 31, 2012. All series are revenue bonds backed by the pledged revenue sources and restricted funds specified in the bond resolutions. Each series is designed to be selfsupporting with no repayment nor obligation from the State’s General Revenue. The Department issues bonds to assist in financing the purchase of homes by or the construction of rental housing for families with very low to moderate incomes. Loan payments provide the revenues for debt service payments. (Detailed supplemental bond information is disclosed in Schedules 3, 4, 5, 6 and 7) Proceeds from the issuance of bonds under the Single Family indenture prior to 1987 and Residential Mortgage Revenue Bonds (RMRB) Series 1987A Programs were used to acquire loans. Proceeds from Collateralized Home Mortgage Revenue Bond (CHMRB) and the remaining Single Family and RMRB programs were used to acquire pass-through certificates backed by mortgage loans. Proceeds from the remaining Multifamily bond issues were used to finance mortgage loans.

Interest on bonds and collateralized mortgage obligations is payable periodically.
The Single Family, RMRB and CHMRB bonds are collateralized by the revenues and assets pledged under the trust indentures, primarily Single Family mortgage loans, mortgage-backed securities and investments. The Multifamily bonds are collateralized by varying methods, including, but not limited to, the mortgage loans on the applicable housing developments, certificates of deposit, letters of credit, guarantees provided by third parties and collateralized mortgage obligations issued by federally chartered, privately owned corporations.

The trust indentures contain positive and negative covenants. Events of default include the following: failure to make timely payment of both principal and interest on any outstanding bond; failure to make timely payment of any other monies required to be paid to the Trustee; and non-performance or non-observance of any other covenants, agreements or conditions contained in the indentures. Management believes they are in compliance with the covenants of the indentures.

## Demand Bonds

The Department currently holds seven single family bond series in the amount $\$ 294,440,000$ in variable rate demand bonds. The proceeds of these bonds were used to refund outstanding bonds or provide funds for the primary purpose of purchasing mortgaged-backed securities which are pools of first time homebuyer loans. These bond series have the following terms.

## TEXAS DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS REVENUE BOND PROGRAM ENTERPRISE FUND

## NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended August 31, 2012

## NOTE 4: BONDED INDEBTEDNESS Cont'd

These bonds are subject to purchase on the demand of the holder at a price equal to principal plus accrued interest with proper notice and delivery to the corresponding remarketing agent. If the remarketing agent is unable to remarket any bonds, the liquidity facility will purchase the bonds (bank bonds). The liquidity agreement is subject to renewal yearly on an ongoing basis. The Department shall use its best effort to cause the bonds to be purchased from the liquidity facility as soon as possible. The purchased bonds are not subject to take out provisions. For fiscal year 2012, the bondholders did not draw from the liquidity provider, Comptroller of Public Accounts, related to the Department's demand bonds.

## Federal Arbitrage Regulations

In accordance with Federal law, the Agency is required to rebate to the Internal Revenue Service ("IRS") the excess of the amount derived from investing the bond proceeds over the amount that would have been earned if those investments had a rate equal to the yield on the bond issue. As of August 31, 2012, the Bond Program had liabilities to the IRS totaling \$148,242 reported in the Statement of Net Assets as Other Current Liabilities. Any increase in this liability account has been recorded as a decrease to interest income.

## Pledged and Other Sources

GASB Statement No. 48 requires the following disclosures for "specific revenues that have been formally committed to directly collateralize or secure debt of the Department." The following table summarizes by indenture, pledged and other sources and related expenditures for the Department's revenue bonds. A detail schedule of each bond issue is included in Schedule 6.

## NOTE 5: DERIVATIVE INSTRUMENTS

## VARIABLE TO FIXED INTEREST RATE SWAP

## OBJECTIVE

In order to hedge against increases in interest rates on variable rate demand bond issues, the Department has entered into five interest rate swap agreements with the objective of reducing the interest rate risk of certain variable rate demand bonds. The variable rate demand bonds were issued at a lower total interest cost than attainable through traditional fixed rate bond structures. The Department has entered into interest rate swap agreements with various rated counterparties. Under the terms of the agreements, the Department makes periodic fixed interest rate payments in exchange for receiving variable rate payments comparable to the rates payable on the variable rate demand bonds. The swap notional amounts amortize in accordance with the scheduled and/or anticipated reductions in the related

variable rate demand bond liability. The Department is potentially exposed to loss in the event of nonperformance by the counterparties under the swap agreements. Termination of the swap agreements may result in the Department making or receiving termination payments. Each swap agreement includes optional early termination provisions granting the Department the right, but not an obligation, to terminate the interest rate swaps at par without a termination payment after an effective date.

a. Swap Agreement has an optional early termination date of March 1, 2014 and every March and September thereafter. The maximum notional amount subject to early termination is equal to $60 \%$ of the current notional amount.
b. Swap Agreement has an optional early termination date of September 1, 2014 and every March and September thereafter.
c. Swap Agreement is subject to an early termination date at any time from mortgage loan prepayments with a 10 business day notice.
d. Swap Agreement has an optional early termination date of March 1, 2016 and every March and September thereafter. The maximum notional amount subject to early termination is current notional amount per the amortization schedule.

## CREDIT RISK

As of August 31, 2012, the Department is not exposed to credit risk on any of its outstanding swaps because the swaps currently have negative fair values indicating an obligation for the Department to pay the counterparty as opposed to receive payments. If interest rates change and the fair value of the swaps become positive, the department would be exposed to credit risk on those swaps. The swap agreements contain varying collateral agreements and insurance policies with the counterparties. The credit ratings for the counterparties are as follows.

| Counterparty | Standard \& Poor's | Moody's |
| :--- | :---: | :---: |
| UBS AG | A | A2 |
| Goldman Sachs Bank | A | A2 |
| JP Morgan Chase \& Co. | A+ | Aa3 |

## BASIS RISK

The Department's variable-rate bond coupon payments are related to the Securities Industry and Financial Markets Association (SIFMA) rate. The swap agreements designate a function of LIBOR as the rate for payments received on these swaps. The Department will be exposed to basis risk should LIBOR and SIFMA converge. The swap agreements provide an option to terminate as stated in the Terms and Fair Value Table on previous page.

## ROLLOVER RISK

Rollover risk is the risk that arises when a derivative associated with a government's variable-rate debt does not extend all the way to the maturity date of the associated debt, thereby creating a gap in the protection otherwise afforded by the derivative. The Department is not exposed to rollover risk on swap agreements because the variable rate debt has been structured to decline with the swap notional balances. The counterparties in the swap agreements have limited rights to terminate the swap. They can terminate only if the Department were to be downgraded below investment grade or default on any swap payments. The swap providers cannot unilaterally terminate any of the swaps subjecting the Department to rollover risk.

## SWAP PAYMENTS AND ASSOCIATED DEBT

Using rates as of August 31, 2012, debt service requirements of the Department's outstanding variable-rate debt and net swap payments are as follows. As rates vary, variable-rate debt bond interest payments and new swap payments will vary. The Department's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to follow scheduled reductions in the associated bonds outstanding.

Netting Arrangements-The Department's swap agreements allow for netting arrangements. On each payment date, September 1 and March 1, the party with the lesser obligation will be automatically satisfied and discharged and, the obligation of the party with the greater obligation will become the excess of the larger aggregate amount over the smaller aggregate amount. As of August 31, 2012, the Department has an aggregate liability related to the interest rate swaps in the amount of \$5,162,161 payable September 1, 2012.

## NOTE 6: CONTINUANCE SUBJECT TO REVIEW

Under the Texas Sunset Act, the Department will be abolished effective September 1, 2013 unless continued in existence as provided by the Act. If abolished, the Department may continue until September 1, 2014 to close out its operations.

## NOTE 7: CONTINGENCIES AND COMMITMENTS

The Department is a defendant in the legal action known as Inclusive Communities Project, Inc. vs. Texas Department of Housing and Community Affairs, et al The court has issued its judgment in this case and has given the plaintiff leave to make a claim for its attorneys' fees. Although this litigation did not involve any claim or award for monetary damages, the plaintiff has sought recovery of its attorneys' fees in the amount of approximately $\$ 1,870,250$. Because the Department is contesting the plaintiff's request, management cannot estimate the amount of its liability for the plaintiff's attorneys' fees.

## DERIVATIVE INSTRUMENTS

All of the Department's derivative instruments include provisions that require posting collateral in the event its credit rating falls below a specified level as issued by Moody’s Investor Service and Standard \& Poor’s. If the Department fails to post eligible collateral, the derivative instrument may be terminated by the counterparty. The table below lists the triggering event and the collateral exposure for each instrument.

| Series | Collateral Posting <br> Exposure at Current <br> Credit Rating | Credit Rating <br> Downgrade <br> Threshold | MTM Threshold |
| :---: | :---: | :---: | :--- |

| 2007 A | None | A2/A | After downgrade to A2/A, collateral exposure if MTM <br> exceeds (\$7.5M); after downgrade to A3/A or below, <br> collateral exposure with no threshold |

(1) FSA Swap Insurance still in effect. Collateral posting only required if FSA is downgraded to A3/A- or below AND TDHCA is downgraded to $A 3 / A$ - or below.

As of August 31, 2012 the Department's credit rating related to the Single Family Indenture was AA+ issued by Standard \& Poor's and Aa1 by Moody’s, therefore no collateral was posted. The Department’s aggregate fair value of all hedging derivative instruments with these collateral provisions is $(\$ 46,906,789)$. If the collateral posting requirements had been triggered at August 31, 2012, the Department would have been required to post eligible collateral equal to the aggregate fair value of the derivative instruments.

## WAREHOUSING AGREEMENT

The Department revised its Warehousing Agreement on January 1, 2011 between PlainsCapital Bank and First Southwest Company. The agreement allows for the temporary warehousing of mortgage backed securities by the provider until the Department purchases them with expected issued bond proceeds. The maximum dollar volume of mortgage backed securities to be held by the providers should not exceed $\$ 200,000,000$ ( $\$ 100,000,000$ per provider) at any time with a cumulative purchased maximum of \$500,000,000 (\$250,000,000 per provider).

The Department has agreed to purchase the warehoused mortgage backed securities from the providers before December 31, 2012 at a price equal to the current par value of the securities. As of August 31, 2012, PlainsCapital Bank and First Southwest Company have warehoused $\$ 85,838,972$ in mortgage backed securities.

## NOTE 9: RISK MANAGEMENT

The Department is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. It is the Department's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. The Department assumes substantially all risks associated with the performance of its duties. Currently there is no purchase of commercial insurance, nor is the Department involved in any risk pools with other government entities. The Department carries Public Official Liabilities Insurance coverage in the amount of $\$ 10,000,000$; automobile liability insurance in the amount of $\$ 1,000,000$, errors and omissions insurance of $\$ 300,000$ related to loan servicing for others and a $\$ 350,000$ Public Employee Fidelity Bond.

The Department's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There have been no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years. The department did not incur any claims in fiscal year 2011 and fiscal year 2012.

## NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended August 31, 2012

## NOTE 10: SEGMENT INFORMATION FOR ENTERPRISE FUND

The Segment information below is for the Department's direct debt associated with the issuance of Single Family bonds only and does not include the Multifamily bonds where the Department is only a conduit issuer. Therefore, this note represents less than what is reported in the Enterprise Fund as a whole. Each grouping consists of separate indentures that have one or more bonds outstanding with the revenue stream and assets exclusively pledged in support of that debt. Bonds are issued for the primary purpose of providing funds for the purchase of mortgage-backed securities which represent securitized loans financing single family housing. Each indenture imposes the requirement of separate accounting of the revenues, expenses, gains, losses, assets, and liabilities.

MISCELLANEOUS BOND INFORMATION (Continued)
For the fiscal year ended August 31, 2012

## FOOTNOTES:

(a) The taxable bonds shall be subject to redemption prior to maturity in whole or any part on any interest payment date after the completion date from the proceeds of an optional prepayment of the loan by the borrower
(b) Variable rate not to exceed the maximum rate permitted by applicable law.
(c) Variable rate could change to fixed rate provided the conversion option is exercised.
(d) The bonds are subject to redemption, in whole, at the option of the Issuer acting at the direction of the Holders of a majority of the outstanding principal amount of the Bonds.
(e) The Bonds shall be subject to redemption prior to maturity, after giving the required notice, as follows: During the variable interest rate period the bonds shall be subject to optional redemption by the Department, in whole or in part on any business day, at a redemption price equal to $100 \%$ of the principal amount thereof to be redeemed plus accrued interest, if any, to the redemption date.
(f) The Series bonds are subject to redemption prior to maturity, after giving notice as provided in the Trust Indendure, as follows: During a daily interest rate period or weekly interest rate period for the Series bonds, the bonds shall be subject to optional redemption by the Department, in whole or in part on any business day, at a redemption price equal to $100 \%$ of the principal amount thereof to be redeemed plus accrued interest, if any, to the redemption date.
(g) The bonds are subject to redemption at the option of the Issuer, at the direction of the Borrower, in whole or in part on the first day of any month, in the event and to the extent the trustee receives funds from the Borrower representing an optional prepayment of the principal of the note, at a redemption price equal to the principal thereof, plus accrued interest to the redemption date plus any premium remitted therewith as required by the note.
(h) Bonds are subject to redemption if and to the extent the Borrower is entitled to make, or is required to make, a prepayment pursuant to the loan agreement.
(i) The Bonds are subject to optional redemption in whole or in part upon optional prepayment of the Loan by the Borrower.
(j) The Bonds are subject to optional redemption at the direction of the Borrower on any interest payment date, in whole or in part, at the redemption price (as calculated by the sole bondholder) calculated in accordance with the Exhibit H plus accrued and unpaid interest, if any, to the redemption date. Optional redemptions may be made only in denominations of $\$ 100,000$ plus integral multiples of $\$ 5,000$ or for the entire amount of the bonds outstanding.
(k) The Bonds shall be subject to redemption prior to maturity in whole but not in part on any Bond Payment Date on or after fifteen years from Conversion Date, from the proceeds of an optional prepayment of the Loan by the Borrower at a redemption price equal to the principal amount plus accrued and unpaid interest to the date fixed for redemption.
(l) The Bonds may be redeemed by the Trustee at the option of the Issuer, but only upon the written request of the Borrower pursuant of the Loan Agreement, and with the prior written consent of the Bank, in whole or in part, at a redemption price equal to the principal amount, without premium, plus accrued interest to the date of redemptions.
(m) With the prior Written consent of the Credit Facility Provider, the Bonds are subject to optional redemption, in whole or in part, upon optional prepayments on the Bond Mortgage Loan in accordance with the prepayment restrictions set forth in the Bond Mortgage Note and Financing Agreement.
